

USB-HD-2.5S-3.0

2.5" SATA SuperSpeed™ USB 3.0 Enclosure

SuperSpeed™
up to 5Gbps

Welcome to the next generation of Super Speed Data Transfer.

Are you getting frustrated by long Backup or Restore times of your existing USB2.0 based Hard Disk system? Do you require faster data transfer for watching your stored HD Movies or digital music?

Introducing the new Dynamode **USB-HD-2.5S-3.0** which is one of the first external Disk Enclosures to feature the new SuperSpeed™ USB3.0 interface. Up to x10 the data throughput of existing USB2.0, SuperSpeed™ USB3.0 allows up to 5Gbps transfer speeds to your existing USB3.0 interface but at the same time being totally USB2.0 compatible so to protect your existing hardware.

Supporting almost all 2.5" SATA interface Hard Disks with a storage capacity of around 2TB, the new **USB-HD-2.5S-3.0** features advanced features to get the most out of this exciting new technology including Hardware Encryption and built-in 32-bit RISC CPU. Stylish in design with pocket-sized form factor, Windows™ and MAC™ compatible and bundled with a SuperSpeed™ USB3.0 Data cable and Carry Pouch.

Available now from Dynamode authorized distributors and resellers
