WABCO

WABCO AFTERMARKET COMPONENTS FOR DAIMLER AMT

For over 30 years, WABCO has been an industry-leader in the development and manufacture of automated transmission technology. WABCO has responded to increasing interest in **Automated Manual Transmissions (AMT)**, by extending its range of products to include kits and components for independent aftermarket specialists.

WABCO has developed a range of parts and mechanical repair kits for Daimler AG gearbox actuators, including both Mercedes and FUSO heavy duty vehicles, allowing worn parts to be replaced without swapping the entire gearbox actuator. Designed specifically for the requirements of aftermarket customers, the WABCO aftermarket components require only a short learning procedure after installation.

APPLICATION

- Mercedes Benz (DAG)
- FUSO Heavy Duty Vehicles

WABCO SUPPORT

Teach-in procedure

The teach-in procedure is automatically executed by the truck's board computer. No additional diagnostic software is required for this procedure.

Product training

An e-Learning on the AMT itself (including how to install it easily and correctly) is offered by WABCO Academy. It is readily available for you on our website:

<http://wbt.wabco.info>

About WABCO

WABCO (NYSE: WBC) is a leading global supplier of technologies and services that improve the safety, efficiency and connectivity of commercial vehicles. Founded nearly 150 years ago, WABCO continues to pioneer breakthrough innovations for advanced driver assistance, braking, stability control, suspension, transmission automation and aerodynamics.

Partnering with the transportation industry as it maps a route toward autonomous driving, WABCO also uniquely connects trucks, trailers, cargo, drivers, business partners and fleet operators through advanced fleet management systems and mobile solutions. WABCO reported sales of \$2.8 billion in 2016. Headquartered in Brussels, Belgium, WABCO has 13,000 employees in 40 countries.
