

GELERT TRADE BROCHURE

WWW.CAMPINGWORLD.CO.UK

Please see the relevant catalogue section for products you are searching. Whilst we try to stock most Gelert items, if we are not currently selling a product please contact us as we can order it in for delivery to you within 7-14 days (subject to availability)

Trade* and bulk purchases also welcome

*pro forma, subject to account verification

Bulb Types:

KRYPTON:

These bulbs are filled with Krypton gas instead of Argon which is used in most filament bulbs. Krypton bulbs not only last longer than standard bulbs but give off a crisp white light. These bulbs can be used to produce a long beam of light that can be focused by a reflector.

XENON:

Like Krypton bulbs Xenon bulbs are a filament bulb but filled with Xenon gas. These bulbs have the same characteristics as Krypton bulbs. They produce an intense white light that can be focused to a point or used to create a beam. Xenon bulbs maintain a low wattage but maximum performance levels.

LED:

LEDs (Light Emitting Diodes) are a virtually indestructible light source, with a lifetime up to 100,000 hours. They are able to produce an intense, even light with very low power usage. In some cases they can achieve up to ten times the battery life of standard filament bulbs. LEDs are extremely bright but only produce a short beam. This makes them ideal for visibility & safety aids or close range lighting such as cooking or lighting small areas. The compact size of LEDs makes them ideal for smaller lighting applications.

0.5W LED:

Like normal LEDs these are a very low power usage but by using inverters to increase the power from the source they can achieve an incredibly bright beam with a greater range, yet still maintain the compact size.

FLUORESCENT STRIPS/TUBES:

These bulbs produce a soft light that can give out 360 degree coverage. Fluorescent bulbs are very power efficient. Ideal for lighting a wide area, fluorescent strips are normally used for lanterns & emergency lighting.

DYNAMO POWER:

Lighting products using dynamo power rather than conventional batteries. The compact folding winding handles on all of the items allow the product to be re-charged anywhere at any time. This new feature is ideal for emergencies, camping or in the home removing the need for batteries. As well as reducing the running costs this new charging system also helps to reduce the number of discarded batteries & so has a positive effect on the environment.

SOLAR POWER

Following from the success of our dynamo power products and our continuing commitment to the environmentally solutions GELERT introduce a range of Solar powered products. Each product has a compact solar panel to collect light and provide energy for the internal rechargeable battery.

Lighting Information:

WEEE:

WEEE, or Waste Electrical and Electronic Equipment, is the EU legislation to control the end of life disposal of all electrical goods. The legislation states that all items disposed of must, where possible, be sent for recycling. Items covered by this legislation all carry the wheelie bin & bar symbol along with the identification number for the item. As a producer of Electrical equipment Gelert Ltd is dedicated to promoting the recycling & safe disposal of electrical goods. All Gelert electrical products will carry the label below to explain to the consumer what the wheelie bin means & how they can help with the recovery & recycling process.

ROHS:

RoHS or the Restriction of Hazardous Substances in electrical goods is the new EU legislation to control the levels of hazardous chemicals such as Lead & Chromium used in the manufacturing of all electrical goods on the EU market. In line with these restrictions all Gelert electrical goods are tested to ensure full compliance with the levels permitted by the legislation.

The crossed wheelie bin symbol reminds you of your obligation to help reduce the impact on the environment by recycling this product correctly.

This Gelert product must not be disposed of with normal household waste.

Please contact your local authority or retailer for information concerning the correct disposal of this product.

Head Lights

1W ALUMINIUM HEAD TORCH TOR343

Colour: Black
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 1 x Ultra bright White 1W LED
Burn Time: 1W 50% = 24 hours (approx.)
 1W 100% = 6 hours (approx.)
3 Functions: 50% power / 100% power

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Adjustable Aluminium casing

new

5 LED ALUMINIUM HEAD TORCH TOR344

Colour: Black
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 5 x 5mm Ultra bright White LED
Burn Time: 20 hours (approx.)
3 Functions: 5 LED / 5 LED flash / 5 LED flicker

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Adjustable Aluminium casing

new

1W 1 LED HEAD TORCH TOR347

Colour: Black
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 1 x Ultra bright White 1W LED
 1 x 5mm Ultra bright Red LED
Burn Time: 1W 50% = 24 hours (approx.)
 1W 100% = 6 hours (approx.)
3 Functions: 50% power / 100% power / 1 red LED

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Red LED for reduced night vision glare
 - Durable Aluminium casing

new

6+2 LED/XENON HEAD LIGHT TOR313

Colour: Black Rubber
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 6 x 5mm Ultra bright White LED
 2 x 5mm Ultra bright Red LED
 1 x Xenon bi-pin bulb
Burn Time: 60 hours (approx.)
3 Functions: 6 White LED / 1 Xenon / 2 Red LED

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Red LED for reduced night vision glare
 - Soft touch Rubber finish

8+2 LED HEAD LIGHT TOR312

Colour: Black Rubber
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 8 x 5mm Ultra bright White LED
 2 x 5mm Ultra bright Red LED
Burn Time: 60 hours (approx.)
3 Functions: 4 White LED / 8 White LED / 2 Red LED

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Red LED for reduced night vision glare
 - Soft touch Rubber finish

2+1 LED MINI HEAD LIGHT TOR311

Colour: Black Rubber
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 2 x 5mm Ultra bright White LED
 1 x 5mm Ultra bright Red LED
Burn Time: 70 hours (approx.)
3 Functions: 2 White LED / 1 Red LED

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Red LED for reduced night vision glare
 - Soft touch Rubber finish

5 LED MICRO HEAD LIGHT TOR310

Colour: Silver
Battery Type: 2 x CR2032 3V Button Cell
Battery Included: Yes
Bulb Type: 5 x 5mm Ultra bright White LED
Burn Time: 20 hours (approx.)
3 Functions: 5 White LED / 5 White LED Flash / 5 White LED Flicker

- Features:**
- Compact size
 - Adjustable head strap
 - Adjustable torch angle
 - Fold down red lens for reduced glare night vision

41 LED 4 FUNCTION HEAD LIGHT TOR330

Colour: Black Rubber
Battery Type: 3 x AAA
Battery Included: Yes
Bulb Type: 41 x 5mm Ultra bright White LED
Burn Time: 60 hours (approx.)
3 Functions: 8 LED / 21 LED / 41 LED / 41 LED Flash

- Features:**
- Adjustable head strap
 - Adjustable torch angle
 - Soft touch Rubber finish

Hand Torches/Lights

**1W 2AA ALUMINIUM
HAND TORCH
TOR340**

Colour: Black
Battery Type: 2 x AAA
Battery Included: No
Bulb Type: 1 x Ultra bright White 1W LED
Burn Time: 5 hours (approx.)

- Features:**
- Durable Aluminium casing
 - Water resistant

**3W 3C ALUMINIUM
HAND TORCH
TOR341**

Colour: Black
Battery Type: 3 x C
Battery Included: No
Bulb Type: 1 x Ultra bright White 3W LED
Burn Time: 6 hours (approx.)

- Features:**
- Durable Aluminium casing
 - Water resistant

**5W 3D ALUMINIUM
HAND TORCH
TOR342**

Colour: Black
Battery Type: 3 x D
Battery Included: No
Bulb Type: 1 x Ultra bright White 3W LED
Burn Time: 6 hours (approx.)

- Features:**
- Durable Aluminium casing
 - Water resistant

**KRYPTON
FOCUSING
AREA LIGHT
TOR333**

Colours: Assorted (Blue - Green)
Battery Type: 4 x AA
Battery Included: No
Bulb Type: Krypton
Burn Time: 5 hours (approx.)

- Features:**
- Adjustable carry handle
 - Fold out adjustable stand
 - Focusing light: Spot - wide beam
 - Water resistant

**KRYPTON
FOCUSING
AREA LIGHT
TOR334**

Colours: Assorted (Blue - Green)
Battery Type: 4 x D
Battery Included: No
Bulb Type: Krypton
Burn Time: 22 hours (approx.)

- Features:**
- Adjustable carry handle
 - Fold out adjustable stand
 - Focusing light: Spot - wide beam
 - Water resistant

**6 LED
STRETCH
TORCH
TOR337**

Colour: Black
Battery Type: 3 x AAA
Battery Included: No
Bulb Type: 6 x 5mm
 Ultra bright White LED
Burn Time: 24 hours (approx.)

- Features:**
- Soft touch Rubber hand grip
 - Focused beam or area light
 - Cord wrist strap

Hand Torches

XENON RUBBER TORCH TOR319

Colour: Silver / Black
Battery Type: 2 x AA
Battery Included: Yes
Bulb Type: Xenon
Burn Time: 5 hours (approx.)

- Features:**
- Durable Rubber casing
 - Water resistant
 - Wrist strap included

XENON RUBBER TORCH TOR320

Colour: Silver / Black
Battery Type: 2 x D
Battery Included: Yes
Bulb Type: Xenon
Burn Time: 20 hours (approx.)

- Features:**
- Durable Rubber casing
 - Water resistant
 - Wrist strap included

RUBBER KRYPTON TORCH TOR285

Colours: Assorted (Green - Blue - Black)
Battery Type: 2 x AA
Battery Included: No
Bulb Type: Krypton
Burn Time: 5 hours (approx.)

- Features:**
- Heavy duty Rubber casing
 - Water resistant

RUBBER KRYPTON TORCH TOR260

Colours: Black - Camouflage
Battery Type: 2 x D
Battery Included: No
Bulb Type: Krypton
Burn Time: 20 hours (approx.)

- Features:**
- Durable Rubber casing
 - Water resistant
 - Wrist strap included

RUBBER KRYPTON TORCH TOR259

Colour: Black - Camouflage
Battery Type: 2 x AA
Battery Included: No
Bulb Type: Krypton
Burn Time: 5 hours (approx.)

- Features:**
- Durable Rubber casing
 - Water resistant
 - Wrist strap included

Lanterns

9W U-TUBE RECHARGEABLE LANTERN WITH REMOTE CONTROL TOR322/EUR001

Colour: Blue
Battery Type: 6V sealed (lantern)
 2 x AAA (remote control)
Battery Included: Yes
Bulb Type: 9W Fluorescent 'U' Tube
Burn Time: 6-7 hours (approx.)

- Features:**
- Remote control operation with keyring
 - Durable folding carry handle
 - 360 degree illumination
 - Energy saving long life fluorescent tube
 - Water resistant

9W U-TUBE REMOTE CONTROL LANTERN TOR190

Colour: Forest Green
Battery Type: 4 x D
 2 x AAA battery (remote control)
Battery Included: No (lantern)
 Yes (remote control)
Bulb Type: 9W Fluorescent - 'U' Tube
Burn Time: 6-7 hours (approx.)

- Features:**
- Remote control operation with keyring
 - Durable folding carry handle
 - 360 degree illumination
 - Energy saving long life fluorescent tube
 - Water resistant

9W U-TUBE LANTERN TOR262

Colour: Forest Green
Battery Type: 4 x D
Battery Included: No
Bulb Type: 9W Fluorescent 'U' Tube
Burn Time: 6-7 hours (approx.)

- Features:**
- Durable folding carry handle
 - 360 degree illumination
 - Energy saving long life fluorescent tube
 - Water resistant

9W U-TUBE LANTERN TOR349

Colour: Black - Spring Green
Battery Type: 4 x D
Battery Included: No
Bulb Type: 9W Fluorescent 'U' Tube
Burn Time: 6-7 hours (approx.)

- Features:**
- Durable folding carry handle
 - 360 degree illumination
 - Energy saving long life fluorescent tube
 - Water resistant
 - Rubber coating

5W U-TUBE LANTERN TOR261

Colour: Forest Green
Battery Type: 4 x C
Battery Included: No
Bulb Type: 5W Fluorescent 'U' Tube
Burn Time: 5-6 hours (approx.)

- Features:**
- Durable folding carry handle
 - 360 degree illumination
 - Energy saving long life fluorescent tube
 - Water resistant

13W DOUBLE U-TUBE LANTERN TOR303

Colour: Blue
Battery Type: 6V rechargeable
Battery Included: Yes
Bulb Type: 13W Double Fluorescent 'U' Tube
Burn Time: 3-4 hours (approx.)

- Features:**
- Durable carry handle
 - 180 degree illumination
 - Fold out self supporting stand
 - Energy saving long life fluorescent tube
 - Water resistant

Lanterns

24 LED SPOT LIGHT TOR345

Colour: Black - Spring Green
Battery Type: 3 x AAA
Battery Included: No
Bulb Type: 24 x 5mm Ultra bright White
Burn Time: 24 hours (approx.)

new

Features:

- Soft touch Rubber finish
- Magnetic hanging bracket
- Fold away hanging arm

3W U-TUBE ADVENTURE LANTERN TOR271

Colour: Green
Battery Type: 4 x AA
Battery Included: No
Bulb Type: 3W Fluorescent 'U' Tube
Burn Time: 3-4 hours (approx.)

Features:

- Durable folding carry handle
- 360 degree illumination
- Energy saving long life fluorescent tube
- Water resistant

12 LED ADVENTURE LANTERN TOR272

Colour: Green
Battery Type: 4 x AA
Battery Included: No
Bulb Type: 12 x 5mm Ultra bright White LED
Burn Time: 20 hours (approx.)

Features:

- Durable folding carry handle
- 360 degree illumination
- Water resistant

9 LED LANTERN TOR323

Colour: Matt Black / Steel
Battery Type: 4 x C
Battery Included: No
Bulb Type: 9 x 5mm Ultra bright White LED
Burn Time: 30 hours (approx.)

Features:

- Durable folding carry handle
- 360 degree illumination
- Fold out hanging hook
- Soft touch Rubber finish
- Water resistant

20 LED LANTERN TOR300

Colour: Matt Black / Steel
Battery Type: 4 x D
Battery Included: No
Bulb Type: 20 x 5mm Ultra bright White LED
Burn Time: 20 hours (approx.)

Features:

- Durable folding carry handle
- 360 degree illumination
- Fold out hanging hook
- Soft touch Rubber finish
- Water resistant

Solar Powered / Wind Up

WIND UP / SOLAR POWER RADIO ACC349

Colour: Green Rubber
Battery Type: N/A
Run Time: 20 minutes play from 1 minute winding (approx.)
 40 minutes of play from 5 hours sunlight (approx.)
 -runs directly from Solar Power & charges during daylight

- Features:**
- Integrated solar charging panel
 - Compact folding winding handle
 - AM - FM - WB function radio
 - Signal strength indication LED
 - Collapsible aerial
 - Headphone output socket
 - No batteries required
 - Soft touch Rubber finish

2 WAY RECHARGEABLE RADIO / TORCH TOR346

Colour: Black / Spring Green
Bulb Type: 3 x Ultra bright White LED
Radio Run Time: 20-30 minutes from 1 minute winding (approx.)
 20-30 minutes from 1 hour solar charge (approx.)
 40 minutes from 1 minute winding (approx.)
 40 minutes from 1 hour solar charge (approx.)

- Features:**
- AM/FM radio
 - Built in clock/alarm
 - Compact folding winding handle
 - Mobile phone charging adaptor (accessories not included)
 - No batteries required

3 LED / 1 FUNCTION WIND UP TORCH TOR306

Colours: Black - Spring Green
Bulb Type: 3 x 5mm Ultra bright White LED
Burn Time: 20 minutes of light from 1 minute of winding (approx.)

- Features:**
- Soft touch Rubber finish
 - Compact folding winding handle
 - Cord wrist strap
 - Mobile phone charging adaptor (Nokia)
 - No batteries required

12 LED WIND UP MINI LANTERN TOR324/EUR005

Colour: Black Rubber
Battery Type: 3 x AAA (optional)
Battery Included: No
Bulb Type: 12 x 5mm Ultra bright White LED
Burn Time: 3-4 hours of light from mains charge (approx.)
 15 minutes of light from 1 minute of winding (approx.)
 4 LED / 12 LED

- Features:**
- 360 degree illumination
 - Durable folding carry handle
 - Foldout hanging hook
 - Mains charge with wind up boost
 - Can also be used with regular AAA batteries
 - Soft touch Rubber finish
 - Water resistant
 - Compact folding winding handle

12 LED WIND UP LANTERN TOR314

Colour: Spring Green - Black
Battery Type: 3 x AAA (optional)
Battery Included: No
Bulb Type: 12 x 5mm Ultra bright White LED
Burn Time: 3-4 hours of light from mains charge (approx.)
 15 minutes of light from 1 minute of winding (approx.)
 4 LED / 12 LED

- Features:**
- 360 degree illumination
 - Mains charge with wind up boost
 - Can also be used with regular AAA batteries
 - Durable folding carry handle
 - Foldout hanging hook
 - Soft touch Rubber finish
 - Water resistant
 - Compact folding winding handle

4 LED WIND UP MINI LANTERN TOR326

Colour: Black Rubber
Bulb Type: 4 x 5mm Ultra bright White LED
Burn Time: 20 minutes of light from 1 minute of winding (approx.)

- Features:**
- 360 degree illumination
 - Durable folding carry handle
 - No batteries required
 - Soft touch Rubber finish
 - Water resistant
 - Compact folding winding handle

**3 LED /
3 FUNCTION
WIND UP HEAD LIGHT
TOR308**

Colour: Black Rubber
Bulb Type: 3 x 5mm Ultra bright White LED
Burn Time: 20 minutes of light from 1 minute of winding (approx.)
3 Functions: 1 LED / 3 LED / 3 LED Flash

Features:

- Soft touch Rubber finish
- Compact folding winding handle
- Adjustable 90 degree angle light
- Adjustable straps
- Detachable light which can be used as hand torch
- No batteries required

**5 LED TENT LIGHT WITH
REMOTE CONTROL
TOR338**

Colour: Black
Battery Type: 4 x AAA (lantern)
 2 x AAA (remote control)
Battery Included: Yes
Bulb Type: 5 x 5mm Ultra bright White LED
Burn Time: 36 hours (approx.)

Features:

- Remote control operation with key ring
- Magnetic hanging bracket
- 360 degree illumination
- Low glare light
