

SPRING ORCHID SHOW 2016 RESULTS

The Canberra Orchid Society spring show 2016 was held on 24 and 25 September in the Lancaster Hall, Wesley Centre, Forrest. The show was attended by nearly 900 persons.

There was nearly 200 entries in the plant categories, 1 craft and 11 photography. This number of entries was similar to recent years. There were entries in many of the classes, covering a wide range of species and hybrid orchids.

The show was boosted by the attendance of two commercial growers, Royale Orchids and Johnston Orchids of South Australia and a vendor of orchid growing supplies The Orchid Tray Company. Plant sales by the vendors and members were popular. Refreshments and repotting demonstrations were also popular.

Thanks also to the sponsors for their support.

The quality of the plants entered was reflected in two plants being recommended for cultural awards: *Cymbidium Langleyense* grown by Brian and Lynne Phelan and *Masdevallia Aquarius x triangularis* grown by Jane Wright.

The plant most popular with attendees was a novelty Phalaenopsis entered by Craig Allen.

The show involves a huge amount of effort by members in setting up the hall, registering entries, staffing the entrance and sales tables, serving refreshments and so forth. Members are to be congratulated on a successful production.
