

The power of connected minds

Explore Together - International Internship Program Engineering in Bahrain

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

Every year Explore Together gives a small number of top science, engineering and economics students the opportunity to take a unique look at the working world of the global giant BASF.

What you can expect

During the course of your 6 month internship in Bahrain, starting on May 1st, you will be supporting various ongoing projects. In addition, you will be working out projects in process engineering. We will provide you with the opportunity to enhance your acquired theoretical knowledge as well as your understanding of the links between processes, production, asset and maintenance. Through your involvement, you will make a valuable contribution to the continuous optimization of work processes within the Engineering department.

What we expect

You are a proficient English speaker with an academic background and a passion for chemical engineering? Then you might be the perfect match for our international internship program in Bahrain! We are looking for an innovative team-player who contributes creative solutions and who has ideally gained experience in the field of engineering as well as practical experience within the industry. In addition, you are currently enrolled at a European University, where you have achieved above-average results and have engaged in extracurricular activities. Apply now with your full set of documents, including a letter of motivation and your CV in English.

We offer

The Human Resources department in Ludwigshafen will help you organize flights and visa in advance of your trip. In addition to an internship salary you will receive an attractive benefits package including payment of your flight and visa expenses. Networking events in Ludwigshafen will introduce you to BASF headquarters and provide an opportunity to connect with BASF employees and fellow participants. Furthermore you become member of our European Talent Pool. For further information please visit our website www.basf.com/career/Explore_Together

Expect to be surprised by the exciting range of career opportunities at BASF. Do you want to know more? Meet our employees for an online chat on www.basf.com/en/company/career/connected-minds.html
