❯ Internet radio without a computer

Internet radio becomes more and more popular. More and more Internet users stopped listening to their favourite stations via FM radio and now listen via PC or an Internet-enabled radio.

Thanks to Wi-Fi connection these radios connect wireless to the Internet and can play several thousand stations from all over the world – without any PC.

At first they must be integrated in a network with connected DSL router. This works via a network cable or wireless via Wi-Fi. For some of our radios both is an option.
They can receive **more than 10,000 stations from all around the world** when online. The radio can access preset lists of several thousand radio stations sorted by country or genre. Or the user can add new stations via a web page on the PC.

❯ DAB/DAB+

Digital radio is based on DAB technology (Digital Audio Broadcasting) and is a European-developed digital standard for transmitting radio signals by air.

Advantages compared to analogue radio:
· Better sound quality (comparable with CD sound)
· Broadcast of additional information possible (text, images, etc.)
· New programmes
· Economic use of existing frequencies

DAB+ is the improvement of DAB and utilizes the latest encoding processes such as DRM.

NEU!

The Germany-wide DAB+ network was launched on 1 August 2011 with 27 stations and will be upgraded nationwide until 2015. In other countries, such as Switzerland, this technology already is deployed nationwide.

   power and full memory
- ▸ Inclusive high-quality mounting
   for helmet and steering wheel

Scope of delivery

high-quality mounting
for helmet and steering wheel

- ▸ **Ord.-No.: 21300**

Videos with additional information
such as Speed/Location/Altitude/
Time/Distance/Compass

› PMR 446

2-way radios which you can use to communicate for free, anywhere and anytime.

Private channels CTCSS/DCS: By using the same CTCSS/DCS codes you can talk to your friends or colleagues without getting disturbed by others. So there won´t be any interferences by communications of others.
This is especially useful in baby mode because your radio will only react to the baby monitor.

PTT button: Push to talk button on the radio or external. This button has to be pressed in order to speak to your partner.

Vox-Activation: With the Vox function it is possible to transmit without pressing the PTT button (handsfree function). The radio will be activated by detecting your speech automatically.

Scan: Automatic search run on all 8 channels to find other people who are communicating.

Dual Watch: The radio automatically switches between your current channel and your priority channel. If it detects an active communication on the priority channel it will stay on this channel otherwise it will switch back to the current channel.

Call: Transmission of a tone which is received by others. Depending on the radio there are several tones similar to the ring tones on your mobile phone.

Monitor: This function disables the noise squelch temporarily, you can use it to hear very faint signals. But you will also hear the noise on the channel.

Keylock: This will protect you against unintended changes of your settings.

Battery indicator: Shows the approximate charging status of the batteries.

Baby monitoring: A function which helps you to observe babys, childs or sick people.

› Ranges of walkie-talkies (PMR 446)

Vacant land, over water, etc. at a clear visual contact	up to 10 km and more
Slightly elevated, in forests, etc.	up to 5 km
In lightly built-up terrain, between vehicles and motorcycles	up to 2 km
Within towns, in cities, etc. (depending on the development)	up to 1.5 km
Within very developed cities or if the antenna is covered, i.e. in a jacket pocket	up to 800 m
Within steel concrete buildings	up to 400 m

► possible range ...

1 - 2 km 3 - 5 km 10+ km

Up to 10 km range, 8 channels, 500 mW

PMR 446 2-Way Radio

> ## Tectalk Easy

A small 2-way radio easy to operate at a very good price/
efficiency ratio.

► Ord.-No.: 41948

2-way radio accessories

Helmet Headsets for Basic Sets

Closed helmet Set CHS 300
Microphone/headphones for closed helmets for connection to the basic set BHS 300/301.

▶ Ord.-No.: 41930

Open helmet Set OHS 500
Microphone/headphones for open helmets for connection to the basic set BHS 300/301.

▶ Ord.-No.: 41955

Helmet Stereo Headsets

SHS 300
2 headphones for MP3 player connection, incl. adaptor 3,5 mm to 2,5 mm.

▶ Ord.-No.: 41929

SHS 300 S Twin Headphones
Comes with 2,5 mm stereo plug and ca. 50 cm cable, for e.g. 2 way radios like MIDLAND 777, ALBRECHT Tectalk Smart, - Tectalk FM+

▶ Ord.-No.: 41928

Earphones

OH2/OH2A With flexible, soft rubber ear loop.

OH 2A, 2,5 mm connector

▶ Ord.-No.:71451

OH 2, 3,5 mm connector

▶ Ord.-No.: 71450

Earphone
Dynamic mono earphone with 3,5 mm connector for easy fixing on external ear.

▶ Ord.-No.: 71410

Earphone OH3/OH3A
With flexible ear loop.

OH 3A, 2,5 mm connector

▶ Ord.-No.: 71452

OH 3, 3,5 mm connector

▶ Ord.-No.: 71453

Helmet earphone
especially for driving schools.
3,5 mm connector

▶ Ord.-No.: 41886

2,5 mm connector

▶ Ord.-No.: 41887

Which accessory for which 2-way radio?

Double connector 2,5/3,5 mm:
e.g. for Tectalk Pro XL, Tectalk Contact 2

Connector (Stereo) 2,5 mm:
e.g. for Tectalk Smart+, Tectalk FM+

Adapter: Double- to Stereo connector
(Best.-Nr.: 29254)
e.g. for Tectalk Smart+, Tectalk FM+

AL 400 - Windbreak

Spare foam for MA 30, AE 30/37 microphones

▶ Ord.-No.: AL 400

Basic Sets for Bikes

BHS 300 N
For TT ActionPro, Contact2, TT Pro XL. Transmission button and plug for the 2-way radio (2.5 /3.5mm twin plug). You will need the arphone/microphone CHS 300 (closed helmet) or OHS 500 (open helmet)

▶ Ord.-No.: 41940

BHS 300 U
Same like BHS 300 but with universal bike cable for use with PTT button. For radios with duo plug 2.5/ 3.5 mm like Alan, Midland, Albrecht and other 2-way radios.

▶ Ord.-No.: 41939

BHS 301 N
Same like BHS 300 N but with stereo plug 2,5 mm e.g. for Tectalk FM+/-smart, MIDLAND 777/K1, G5

▶ Ord.-No.: 41941

BHS 300 K
Same like BHS 300 but with Kenwood connector for e.g. MIDLAND G11 and G14.

▶ Ord.-No.: 41942

Microphones

baby monitoring microphone BM 1
Microphone for baby monitoring for almost all 2-way radios, 2,5 mm stereo plug, incl. 1,5 m cable

▶ Ord.-No.: 41870

Speaker microphone SM 400
With clip and helix cable.
Connector: 2.5/3.5 mm

▶ Ord.-No.: 41780

Speaker microphone SM 500
A mini sized and powerfull condenser-style microphone that produces excellent transmitted audio clarity. A 360 degree revolving stainless clip on the back can be secured to the user´s lapel or shoulder. This unit is made to meet IP-54.
Connector: 2.5/3.5 mm.

▶ Ord.-No.: 41750

Adapter

Dual plug 2,5/3,5 mm on 2,5 mm stereo plug. Adapter for various headphones on Tectalk smart+/ FM+, ALAN 777/K1, MIDLAND G5.

▶ Ord.-No.: 29254

For the connection of any stereo earphone (e.g. common MP3 Player headsets) to PMR radios (PMR 446) with 3,5 mm or 2,5 mm speaker socket. This is an ideal solution for driving schools, so every student can use his own earphone.

▶ 3,5 mm connector, Ord.-No.: 41961
▶ 2,5 mm connector, Ord.-No.: 41962

Tourist Radio
The individual communication system that satisfies your needs.

You can combine your ideal tourist set for your individual groups from the above mentioned components. The basic set would be the ATT100 tourist transmitter for the tour guide and GHS01-headset as well as minimum one ATR100 Set (code: 29900.S2) which includes a pair. The travel bag (code: 29912) is laid out for a maximum of 12 pcs. ATR100.
Set ATR Advanced Tourist Receiver (Ord.-No. 29900.S2) includes:

2 pcs. ATR 100 Advanced Tourist Receiver	**2 pcs. THS01 Tourist-Headset** with hygienic, wipeable plastic surface	**1 pcs. Y-cable,** charges two devices simultaneously	**1 pcs. wall charger**	**2 pcs. lanyards**

Single units Optional Accessories

ATT 100 Advanced Tourist Transmitter Ord.-No. 29902	**GHS01** Guide Headset Ord.-No. 29907	**Spare battery** for ATT 100 Ord.-No. 29924	**Charging cable** for ATT100 Ord.-No.29911	**Y-ATR01, Y-cable,** charges two ATR 100 simultaneously Ord.-No. 29905

Optional Accessories

Travel bag for up to 12 ATR 100 Ord.-No. 29912	**Adapter** micro-USB to 3.5 mm Ord.-No. 29910	**THS01** Tourist Headset Ord.-No. 29908	**CH-ATR01, wall charger** for ATR 100 Ord.-No. 29904	**Lanyard** for ATR 100/ATT 100 Ord.-No.9150

› Scanner

With Albrecht scanners and scanner radios you are close to the action. Since the release of scanners, Albrecht has built up a wide selection of models, satisfying beginners as well as professionals. Our policy: we want to offer you high-value scanners at affordable low prices, perfectly engineered and good quality guaranteed!

Although the use of scanners has been liberated in numerous European countries, operators of scanners have to pay attention to the considerable differences in national jurisdiction that still prevail.

ALBRECHT

146.000

AE 69-2H

> ALBRECHT AE 30 H

A handheld scanner with 200 channels, pocket size, especially for air band and FM radio. The switchable bands allow easy frequency change in European countries. Furthermore, this scanner disposes 3 priority channels (1 channel/band), 3 preprogrammed search bands, delay function 0 - 5 sec., lock-out function max. 40 frequencies, key lock, illuminated LC-display indicating channel, frequency and function, 400 mW audio output. Connections for antenna (BNC), ear plugs and external loudspeaker. Supplied with: rubber antenna and belt clip.

▶ Ord.-No.: 27030

> ALBRECHT AE 33 H

NEW!

This small and compact handheld scanner receives the complete bandwidth of FM-radio in 50kHz steps.

It is equipped with many advanced functions for professional users.

▶ 9 pre programmed service bands:
   78 - 87,295 MHz: VHF-low (Emergency)
   87,3 - 107,95 MHz: FM radio (50 kHz steps)
   108 - 137 MHz: Airband (AM)
   137 - 174 MHz: 2 m Band (Amateur radio, Freenet, Commercial radio, Marine)
   406 - 512 MHz: UHF (Amateur radio, PMR, Commercial radio, Religious radio)
▶ 2 selectable country band plans
▶ Frequency steps: 5/6,25/8,33/10/12,5/20 with 15 Offset/50 kHz
▶ 180 programmable channels
▶ 3 Instant Channels
▶ Memory scan: 30 channels/sec
▶ Scan delay: 2 sec
▶ Memory for channel lockout: 40
▶ Connectors: Antenna (BNC), Stereo earphone (3.5 mm plug)
▶ Battery indicator
▶ Key lock
▶ Illuminated LC-Display
▶ Power supply: 3 x AA alkaline/NiMH batteries
▶ Scope of delivery: Alkaline batteries, Belt clip, Rubber antenna, Stereo earphone
▶ Dimensions: H: 10,4 x W: 5,3 x D: 2,8 cm
▶ Weight: 100 g

▶ Ord.-No.: 27033

> ALBRECHT AE 69-2H

A 80 channel scanner, compact design, only 165 g, with 3 band groups, non-volatile memory for settings (EEPROM), hyper search with 180 steps/sec., priority channel, delay function 2 sec., channel skip, illuminated LC-display. Socket for antenna (BNC), earplug/loudspeaker.
New: now with DC-/charging socket. Supplied with rubber antenna and belt clip.

▶ Ord.-No.: 27069

> ALBRECHT AE 82 H

This ALBRECHT radio scanner works on the 4 m and 2 m bands (AM, FM, WFM). It features 200 memory locations: 10 memory banks with 20 memory locations each and it ensures with its control knob fast menu navigation.
Further features: steps: 5/6.25/ 8.33 (aircraft radio)/10/12.5/15/20/25/30/50/100/500 kHz and auto, key lock, channel/frequency scan, dual channel monitoring, input reducer against over-modulation, selectable scan delay, beep tone on/off, frequency offset (delta) (5/10/15 kHz), display backlight, operation with 4 x AAA batteries/rechargeable batteries, auto energy saving mode

▶ AE 82 H: Ord.-No.: 27082

> ALBRECHT AE 86 H

► **CB Radio/10 m Band AM/FM**
► **4 m/2 m Band** ► **Airband**
► **FM Radio** ► **200 Memories**

This ALBRECHT radio scanner works on the 4 m, 2 m and 10 m (AM/FM) bands. It features individual band selection (German and international bands), 200 memory locations, priority channels, selectable scan delay, frequency offset CB and PMR, memory scan 25 channels/sec., frequency scan 25 steps/sec., auto battery saving mode, combi jack for charging and external operation (also 12V) and lots more. In the aircraft radio range the frequency steps is selectable between 5 kHz and 8.33 kHz.

► Frequency range: 25 - 174 MHz
  (25-30/66-87,5/87,5-108/108-136/144-174 MHz)
► Mode: AM, FM, WFM
► Step: 5/8.33 (airband only)/10/12.5/
  15/20/25/50/100 kHz and auto
► German and international band plan
► Individual band selection ► 200 memories
► Key lock ► Backlighting ► Scan/Search
► Priority channels
► Frequency offset CB and commercial radio
► Scan delay timer setting ► Beep tone on/off
► Operation with 3 x AA (rechargeable) batteries
► Combined charge and supply socket for
  ext. power supply or cigarette lighter cable
► Automatic battery save mode
► BNC connector for antenna
► Socket for headphones, 3,5 mm
► Dimensions: H: 11 x W: 6 x D: 3 cm

► Ord.-No.: 27086

> ALBRECHT AE 92 H

Like the AE 72 H, this handheldscanner also disposes of 10 preprogrammed search bands and even 13 frequency ranges. Frequency range: 25 - 960 MHz. In the airband area the frequency steps are adjustable from 12,5 kHz to 8,33 kHz. The quick scan (50 channels/sec., frequency search 60 steps/sec.) and hyper search with 180 steps/sec. make searches of information a pleasure. Frequencies can be memorized in 200 memory locations and of course, this scanner as well disposes all usual features, such as battery indicator, key lock, delay function, connections for antenna and much more.

Supplied with: battery/wall charger.

► Ord.-No.: 27092

> ALBRECHT AE 72 H

With its 12 frequency ranges and 10 preprogrammed search bands this comfortable handscanner offers everything that might be required by an experienced user. Frequency range: 25 - 512 MHz. In the airband area the frequency steps are adjustable from 12,5 kHz to 8,33 kHz. The extremely quick scan (memory scan 50 channels/sec., frequency search 60 steps/sec.) and the unique feature ►hyper search► with 180 steps/sec. allow you to be the first to get informed about news. Frequencies can be stored in 100 memory locations in 10 memory banks. Of course all usual features are available as well, such as battery indicator, key lock, delay function, connections for antenna and much more.

Supplied with: battery and wall charger.

► Ord.-No.: 75205

Window clip mount

Window clip mount for use with antennas
with BNC connector. Comes with 2,5 m RG
174/U coaxial cable and mounted BNC plug.
Optimum suitable for Ham radio, scanner
and CB-transceiver.

► Ord.-No.: 6676

Mini mag mount BNC

Very strong mini magnet mount (Ø 35 mm).
With BNC female mount for rubber and short
telescopic antennas. Comes with 2,4 m low loss
RG 174 cable with mounted BNC male connector.

► Ord.-No.: 6677

Mag mount antenna

Miniscan
Minimagnet antenna mount for scanner, Ham radio.
Comes with 2,7 m RG 174 cable with BNC plug.

Frequency range:
0,5 - 2060 MHz (RX),
145 - 435 MHz (TX)
Power rating: max 40/25 W
Length: 32 cm
Connector: BNC

► Ord.-No.: 6158

**Magnet and
vacuum mounting**

AE Handscan

Telescopic scanner antenna with very
good receiving capability which can
be used as a receiving antenna, as
well as amateur (2 m/70 cm) band
transmitting antenna.

Frequency range:
25 - 1300 MHz
Length: 66 cm
Connector: BNC

► Ord.-No.: 6157

AE Maxiscan

Flexible wideband scanner
antenna with very good receiving
results in the 4 m and 2 m band.
With BNC connector.

Frequency range: 25 - 1300 MHz
Length: 32 cm

► Ord.-No.: 6156

Sky Scan Mag 1300

Mobil magnet scanner antenna for 25 -
1300 MHz. Length about 60 cm. Comes
with cable and BNC connector.

► Ord.-No.: 61680

Scanner Accessories

Multiscan DX

The ideal space-saving scanner antenna that can be installed in any place such as attic, balcony etc. Comes with mounting set and PL/SO-239 terminal.

Frequency range: 60 - 525 MHz

► Ord.-No.: 6167
Eurostick DX

Wide band scanner antenna with 3 radials. Can be installed in any place such as attic, balcony etc. Comes with mounting set and PL/SO 239 terminal.

Frequency range: 25 - 2060 MHz

► Ord.-No.: 6164
Sky Band

A discone scanner antenna which can be used as a receiving antenna as well as amateur band transmitting antenna. The radiators are made of stainless. For mounting mast of max. 35 mm diameter.

► Ord.-Nr.: 6161

AE Desktop 1300

Baseantenna for 25 - 1300 MHz. Very compact so ideal for home or balcony use. Length about 1,1 m radials 8 x 20 cm. Comes with cable and BNC plug.

► Ord.-Nr.: 61690

Allband

High performance discone antenna which can be used as a receiving antenna as well as for transmission use on several ham radio frequencies. Made of stainless steel, chromed brass and eloxed aluminium. Easy to install; comes with So-239 connector.

Frequency range:	RX 25 - 1300 MHz
	TX 49 - 51, 120 - 180 MHz,
	215 - 300 MHz (UHF)
Power rating:	200 W UHF, 300 W (VHF)
Length:	170 cm
Connection:	SO 239

► Ord.-No.: 61700

This antenna is suitable to transmit and receive on all stated frequencies. Suitable for all scanners and radios.

❯ CB-Radio

On the road again...
Do you travel across Europe? On the road? You want to communicate with others?
You want to get the latest news about the road-condition by other CB users?

In some german states (Bavaria, North Rhine-Westphalia and Saxony) **a CB radio waning system for construction sites** has been established for accident prevention on german highways. A transmitter, the corepart of the system, sends repetitiously recorded voice warnings within the range of 300 m of the construction area to enhance alertness of approaching drivers about the danger of the coming scene. The message „Attention Construction Site" can be broadcasted on different channels in seven different languages.

Statistics state that 75% of all trucks have a cb mobile radio aboard. Polish trucks amount to 96% while in Germany registered trucks make up 65%.

All ALBRECHT and MIDLAND CB mobile radios can receive these warning messages.

Albrecht - Leading in new ideas:
Albrecht has consequently applied the European R&TTE directive and it's possibilities, which has replaced the former national approval mark systems by the European CE marking system. All Albrecht Multi-Standard CB radios have a country switch system and can be used in most European countries in (minimum) one of the 3 or more available switch positions: It depends on the member state's frequency application, which of the country switch position(s) you may use in the region where you are: 40 CH FM everywhere and in some countries, which do not yet allow AM or SSB, 40 FM/40 AM/40 SSB in nearly all countries (the EN 300 433 Standard) and 80/12 (covering the additional German channels 41 to 80 inside of Germany except base station use in defined border regions).

My hobby CB-Radio
Some Restrictions apply on use of the 80 German channels: channel numbers 41 to 80 may unfortunately not be used everywhere: in the border areas of the neighbouring countries, apart from the Czech Republic: Base stations are not allowed to transmit in border regions on these channels, or you need a special licence of the German authority (BNetzA).

Using your radio set in other countries
Even with the common CE marking, there are still some special national requirements in a few countries. Manufacturers have been obliged to inform users clearly by statements on the gift box and in the user manual about regional restrictions to use CB radio. Albrecht has issued a unique „Radio Passport" which will always provide you with the latest relevant information with your CB radio. The „Radio Passport" can be downloaded at any time from the Albrecht homepage as a real help in police controls to show that your radio is legal. Users are responsible to have an official licence, where necessary (see country list in the user manuals) and to use only the allowed channel combinations in multi-standard radios.

New CB regulation:
Now the high power mode is permitted in Germany as well as all other EU member states and most CEPT countries in the future:
FM (4 Watts), AM (4 Watts) and SSB (12 Watts) as well in all EU member states and most CEPT countries in future. All Albrecht CB radios are prepared to meet the new standard's higher output power levels and the radios can be switched to the new limits as soon as they will be published.

CB portable radio incl. SSB

> ALBRECHT AE 5890 EU

The new mobile radio AE 5890 EU - our first full multichannel SSB CB transceiver is a complete new development and only optical similar to its predecessor AE 5800.

The AE 5890 EU is already pre-equipped with the higher transmission power for the new European standard: **4 Watt AM and FM, 12 Watt SSB.**

Radio amateurs with license are allowed to modify their AE 5890 EU to the 10 M band (28.0000 – 29.7 MHz) with plenty of power: 10 Watt AM, 30 Watt FM, 30 Watt SSB!

We grant you 3 years manufacturer's warranty for the AE 6891 and AE 6790.

CB mobile radio incl. CTCSS

> ALBRECHT AE 6690

Tone squelch (pilot tone or CTCSS) is a new function in CB radio communication.
This tone squelch replaces the conventional squelch, which reacts on a weaker noise or an increasing field strength. Instead there is an inaudible deep tone in every transmission. This tone will be interpreted by the partner station if this station also is equipped with this function.
The loudspeaker will only turn on, if the device „hears" this tone. So you can build an own group with your friends and colleagues and everybody in this group can listen to the other ones.
With activated TSQ the normal squelch is not activated. The radio has the ability to decode the CTCSS codes always in the best sensitivity and does not react to any noises or external signal without CTCSS.

▶ Theoretically there are 48 user groups on each channel possible.
▶ The first 38 tones are internationally standardised, the codes from 39 to 48 are additionally possible with other AE 6690 at the distant partner stations only.

CTCSS codes are often also described as Sub Channels or Pilot Tone system. This function is also ideal for CB gateways!

> Ham Radio

A short abstract of history.

Amateur radio (▸Ham Radio▸) is an officially allocated radio communications service, open (almost) worldwide to amateur radio enthusiasts if they have taken an appropriate examination and have obtained an amateur radio licence from their telecommunications authority. The amateur radio examination is necessary because it even gives you the right to build your own radio sets or to modify purchased equipment for your own purposes without needing any approvement for it. Restrictions for industrially produced sets occur only from the EMC and R&TTE directive of the EU (ready-made sets must show a certain minimum of EMC-safety in accordance with EN-Standards), for the other technical parameters such as compliance with permitted amateur radio frequency ranges and transmitting power each radio amateur is responsible himself. Certainly there are also EU countries which require restricted frequency ranges on VHF/UHF on amateur radio sets for sale in the trade such as Austria, France and Spain. Even if many amateur radio sets have a wider frequency in Germany, radio amateurs are only allowed to operate on the frequencies made available to them, apart from specific possible emergency situations. Amateur radio sets must definitely not be used for other purposes even if this would technically be possible.

Information obtainable from

DARC Deutscher Amateur-Radio-Club e.V.
Lindenallee 6
34225 Baunatal
Fax: 0561 9 49 88-61
e-mail address: info@darc.de
From DARC you can also find out about the licence class 3 and obtain the forms for the licence examination.
Handheld Ham Radio transceiver

Dual-Band Ham Radio

> ALBRECHT DB 275

A 2 m/70 cm UHF/VHF handheld ham radio with dual frequency, dual display and dual standby working modes.

► **DB 275** Ord.-No.: 36275

Specifications:
► Frequency ranges 136-174 MHz & 400-470 MHz (ranges can be limited by PC programming)
► Simultaneous display of both bands
► Wire clone function (optional connecting cable necessary)
► Programmable by computer (optional programming set)
► Standard „Kenwood" style headset duo plug wiring system (2,5 mm for speaker/3,5 mm for microphone/PTT with 12 mm gap between the sockets)
► 99 + 1 call / emergency channel memories
► VOX function
► Background display Illumination
► High/Low power selection 5 / 1 W VHF, 4 / 1 W UHF
► Wide/Narrow bandwidth selection (25KHz/12.5KHz)
► Channel / frequency display modes
► 104 groups DCS codes / 50 groups CTCSS codes
► Repeater operation with selectable OFFSET & +/- shift up to 69.9 MHz
► 1750 Hz tone burst for European repeater access
► Busy Channel Lockout (selectable)
► Transmit Over Timer (selectable)
► Step 5K/6.25K/10K/12.5K/25K for 2 way communication, 100 kHz for Wideband Broadcast Radio Receiving
► Keyboard lock (Auto/Manual)
► Multiple scan modes
► ANI code transmission & display (automatic number ID code transmission & display)
► DTMF code transmission with manually selectable transmission length possible
► Humidity protected plastic covered headset-sockets ► PTT button
► Monitor button (squelch open), switching to FM Broadcast Radio Listening
► DTMF/Call/1750 Hz button

Optional accessories

Headset MA 21-LK
► Art.-Nr.: C709.04

Mikrofon MA 22 K
► Art.-Nr.: C844

Akkupack, 1200 mAh
► Art.-Nr.: 36276

Programmierkabel DB 275
► Art.-Nr.: 36277

Dual-Band Ham Radio

> ALBRECHT DB 271

Model with accessory sockets for the ALBRECHT/MIDLAND Standard Duo-plug (2.5 mm for microphone/3.5 mm for speakers with 10 mm gap between the sockets).

Dual-Band, Dual-Display, Dual-Frequency and Dual-standby
A/B key : switch Band A or Band B
TDR key: switch dual or single band
Digital FM radio function
Automatic tuning and storing (20 max.) also with frequency display.
You can select from 76 - 108MHz, almost covers all radio stations in the world.

Specifications
► Dual Frequency, Dual Display and Dual Standby
► VHF&UHF, UHF&UHF or VHF&VHF working modes
► Frequency Range: 136 - 174MHz, 400 - 470MHz, 136 - 174MHz, 245MHz, 136 - 174MHz, 450 - 520MHz
► Bright flashlight illumination function ► Voice prompt (Chinese/English)
► 128 memory channels ► VOX function ► High/low power selection
► Digital FM radio (automatic tuning and storing, radio frequency display)
► Low-voltage voice prompt ► Wide/narrow bandwidth selection (25KHz/12.5KHz)
► Channel name edit and display ► 105 groups DCS/50 groups CTCSS
► Stopwatch function ► Busy channel lockout ► Transmit over timer
► Step (5K/6.25K/10K/12.5K/25K/50K/100K ► Multiple scan modes
► Keyboard lock (Auto/Manual) ► Wire clone function
► Programmable by computer
► Dimension W/H/D: 58 x 105 x 38 (mm) ► Weight 250 g

► **DB 271** Ord.-No.: 35271

Optional accessories

Car cable for charger
► 12 Volt, Ord.-no.: 7571

Adapter
► 12 Volt, Ord.-no.: 35279

Leatherbag
► 12 Volt, Ord.-no.: 35277

MGA 108 - 550

1/4 wave antenna whip made out of stainless steel. Comes with stainless steel spring. Supplied with cutting chart for frequency setting. To be mounted on a DV base.

SWR:	<1,2
Frequency:	108 - 550 MHz
Bandwidth at V.S.W.R. 2:1:	16 MHz at 140 MHz
V.S.W.R. at res freq.:	< 1,4:1 at 140 MHz
Max Power:	100 W
Height (approx.):	670 mm

▶ Ord.-No.: 6239

SMA 47/135 Dual Band

5/8 wave open coil whip made out of stainless steel. Supplied with cutting chart for frequency setting. To be mounted on a DV base.

Gewinn/Gain:	1,5 dB
SWR:	<1,2
Frequency:	135 - 175 MHz turnable
	46.5 - 61.5 MHz
V.S.W.R. at res freq.:	< 1,2:1 at 140 MHz
Max Power:	100 W
Height (approx.):	1505 mm

▶ Ord.-No.: 6237

Dualband antenna

140 - 150 MHz/430 - 440 MHz, Length 53 cm

▶ Ord.-No.: 62381

MGA 108 - 550 DV-S

1/4 wave antenna whip made out of stainless steel. Comes with stainless steel spring. Supplied with cutting chart for frequency setting. Incl. DV-S mount and 5 m cable.

Frequency:	108-550 MHZ
Typ:	1/4 Lambda
Max. Power:	100 W
Antenna whip (cm):	70,5cm
Antenna whip:	Stainless steel
Specials:	Stainless steel spring

▶ Ord.-No.: 6245

Miniscan

Minimagnet mount scanner, Ham radio antenna. Comes with 2,7 m RG 174 cable with BNC plug.

Frequency range: 0,5 - 2060 MHz (receipt/RX), 145 - 435 MHz (send/TX)
Powerrat: max 50/25 W
Length: 32 cm

▶ Ord.-No.: 6158

DV-S antenna mount

DV-S-antenna mount, flat type. Installation hole 13 mm.

▶ Ord.-No.: 67800

Microphones

DMC 2

High quality dynamic microphone with 4 pin connector for use with various transceivers.

Wiring:
1. Audio/AF   3. PTT RX
2. Ground/GND   4. PTT TX

► Ord.-No.: 41991

Densei EC 2002

High quality echo microphone.
Impedance: 3000 Ohm
Sensitivity: -62±3 dB
Frequency response: 150 Hz - 3500 Hz
Weight: 225 g
Dimensions: 100 x 68 mm
Microphon: Omni-directional
                        electret condenser
Power supply: 9 V Batterie

► Ord.-No.: 4215

Replacement microphones

Replacement microphone with electret capsule and 4 pin connector for e.g. AE 4200R

► Ord.-No.: 41982

Replacement microphone for AE 4200 MC with CH 9/19 and scan button and 6 pin connector.

► Ord.-No.: 41976

DMC 520 -6/-4

DMC 520-6
High quality dynamic microphone in a classical design complete with 6 pin microphone plug as per ALBRECHT/GDCH standard.

► Ord.-No.: 41966

DMC 520-4
Same as above but with 4 pin microphone plug (AE 4200 as well).

► Ord.-No.: 41964

DMC 520 U/D
Same as 41966, but with up/down buttons for channel selection.

► Ord.-No.: 41965

AE 4197

Original electret replacement microphone with Up/Down channel exchange controls for use with ALBRECHT transceivers, comes with 6 pin microphone plug.

► Ord.-No.: 4197

ALBRECHT SM 500 speaker mike

Speaker microphone
This lightweight, mini sized microphone is designed for light duty applications. Each unit features a powerful speaker as well as a high quality condenser-style microphone element that produces excellent transmitted audio clarity. A 360 degree revolving stainless clip on the back of the microphone can be secured to the user´s lapel or shoulder. This unit is made to meet IP-54. Connector: 2.5/3.5 mm

► Ord.-No.: 41750

ALBRECHT SM 400 speaker mike

A loudspeaker microphone with clip and helix cable.

► Ord.-No.: 41780

Specifications

Microphone spiral cable

6-pin mic cord, spiral type, length:1,50 m

► Ord.-No.: 7620

6-pin mic cord, spiral type, length 2,80 m.

► Ord.-No.: 7621

Cable extension

Microphone cable extension
ca. 2 m, 6-pin

► Ord.-No.: 7625

Front section cable extension
ca. 2,5 m for AE 6890/6891/6790
► Ord.-No.: 5820

Albrecht Mike connectors

Solder-side 6 pin microphone connector
1 = Audio/Modulation
2 = PTT-RX (receiver)/
    Packet Radio Decoder.
3 = PTT-TX (Sender)
4 = Up/Down
5 = Ground
6 = 10 - 15 V

Solder-side 4 pin microphone connector

1 = Mic
2 = Ground
3 = RX
4 = TX

Microphone mounting plate

Screw type

► Ord.-No.: 7560

Magnetic and screw type

► Ord.-No.: 7550

Speaker

CB 20/905

High quality extension speaker with switchable noise filter and mute function. Very good voice reproduction. Incl. mounting set and cable with 3.5 mm plug.

frequency range: 250 - 8000 Hz
Impedance: 8 Ohm
power: 7 W

► Ord.-No.: 7120

CB 250

Solid extension speaker complete with mounting set, cable and 3.5 mm plug. The big sized speaker cone enables a high efficiency together with clear voice reproduction.

Frequency range: 200 - 7000 Hz
Impedance: 8 Ohm
Power rating: 7 W

► Ord.-No.: 7117

CB 150

Softline extension speaker complete with mounting accessories, cable and 3.5 mm plug. Due to its mylar cone the speaker can be also be used in humid area.

Frequency range: 300 - 7000 Hz
Impedance: 8 Ohm
Power rating: 5 W

► Ord.-No.: 71150

CB 45

Extension speaker in classical design, complete with mount, cable and 3.5 mm plug.

Frequency range: 300 - 7000 Hz
Impedance: 8 Ohm
Power rating: 5 W

► Ord.-No.: 7113

CB 12

High efficient mini extension speaker with clear voice reproduction. Due to its mylar cone this speaker can be used in areas with high humidity. Incl. mounting accessories, cable and 3.5 mm plug.

Frequency range: 300 - 7000 Hz
Impedance: 8 Ohm
Power rating: 5 W

► Ord.-No.: 7112

Power supplies

SW 35

Switching power supply for CB and other use.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 3 - 5 A

► Ord.-No.: 47500

SW 57
Switching power supplies for CB and others. Short circuit protection.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 5 - 7 A

► Ord.-No.: 47510

SW 79

Switching power supplies for CB and others.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 7 - 9 A

► Ord.-No.: 47520

SW 102
Switching power supplies for CB and others.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 10 - 12 A

► Ord.-No.: 47530

Inverter

Inverter provide 230 V to your electrical equipment´s anywhere you have 12 or 24 V power available. Ideal for boat, trucks, camping . . .

USB INV 150 W 12/24 V

Mobile power for cars, trucks, boats and camping. The inverter provide 230 V to electrical equipments anywhere with 12 or 24 V power available.
Built-in USB port can charge USB devices (like i-pod, cell phone) via the USB charge port, allowing max. portability of electronic accessories

► Ord.-No.: 47871 = 12 Volt
► Ord.-No.: 47870 = 24 Volt

Specifications:

Output power:	150 W continue
Output power:	300 W peak
Input voltage range:	10 - 15 V DC (12 V Version)
Input voltage range:	20 - 30 V DC (24 V Version)
USB power output:	DC 5 A, 500 mA
Battery low:	LED
battery low shutdown:	under 9,5/19,5 ± V
Cooling:	cooling ribs
Fuse:	15 A x 1 (12 V), 10 A x 1 (24 V)
Dimensions W/H/D:	94 x 69 x 165 mm
Weight:	520 g

Inverter

INV 150 W 12/24 V

Inverter for max. 150 W power, overload control (LED). For single 230 V appliances, like shavers, small TV sets, notebook computers, CD/ DVD player, typical small 230 V appliances with wall adaptors, energy saving lamps.

► Ord.-No.: 47860 = 12 Volt/47861 = 24 Volt

INV 300 S/A 301 M 12/24 V **NEU!**

Inverter for max. 300 W (A301M: 400 W) power, overload control (LED), cooling fan. For single 230 V appliances, portable TV sets, small stereo sets, video recorders, electronic tools and soldering devices, hot melting glue tools, lighting, portable coolers or as 230 V board network in smaller campers or boats.

► Ord.-No.: 47862 = 12 Volt
► Ord.-No.: 47863 = 24 Volt
► Ord.-No.: 47873 = A301 M, 400 Watt/24 Volt

INV 600 W 12/24 V

Inverter for max. 600 W power, overload control (LED), cooling fan, optical battery indicator. For all electrical appliances with European 2.5 A flat connector, computers and accessories, smaller electric tools, like saws, standard drilling machines, soldering devices, water pumps, fridge or as 230 V board networks in mobile homes.

► Ord.-No.: 47867 = 12 Volt/47864 = 24 Volt

INV 1200 S 24 V

Inverter for max. 1200 W power, overload control (LED), cooling fan, optical battery indicator, 2 outlets for 230 V. For small and medium size electric tools, 230 V appliances up to power classes of vacuum cleaners, hair dryers, coffee machines, fridge and freezers or as 230 V board network in mobile homes or boats.

► Ord.-No.: 47872 = 12 Volt/47865 = 24 Volt

RC 1000 - remote control for: INV 1200 W, 24 V
► Ord.-No.: 47866

► Ord.-No.: 47833

PV 24 S
► Ord.-No.: 47834

These products offer a convenient way to operate mass produced 12 V DC equipment such as cell phones, in car entertainment, professional communication and telematics equipment, refrigerators, televisions etc. from the 24Vdc mobile electrical systems found on diesel engined vehicles and vessels.

A Comprehensive Range
There are 5 products in the range from 3A to 24A in isolated or common earth configurations. They have been optimised for high volume 24 V DC to 12 V DC applications such as on heavy goods vehicles, coaches, buses, construction, forestry and agricultural vehicles, commercial and leisure marine vessels.

Tamper Proof
There are no ventilation holes to permit stray objects, dust or water droplets to enter the case. There are no external fuses to be tampered with. Fuses will only blow if there is a fault so there is no need to make them accessible.

All voltage converters are enclosed in a rugged aluminium extrusion. The low mass Surface Mount Technology components are also less prone to damage from vibration and shock, further increasing the reliability of the units.

3Amp units are excellent for charging mobile phones, while 6A units suit a variety of mobile radio applications.

Galvanically isolated units are suitable for marine applications and come complete with the green tamperproof label for petrochemical applications.

Fast Installation
All the units consume an off load current of less than 15mA, which is probably less than the self discharge current of the vehicle's battery. In most cases this can be ignored, speeding the installation by removing the need to fit a remote switch. All products fit onto a 'Click 'n' Fit mounting clip which is fixed in three points allowing it to be mounted on uneven surfaces. It is easy to fit the clip into awkward places and then simply click the unit into position. A red LED indicates when there is output from the converter. This gives reassurance to the installation engineer and speeds fault finding.

Product benefits at a glance

► **Lifelong warranty**
► High performance
► Low heat emissions
► Dust and waterproof
► Excellent installation possibilities
► Compact, sealed cooling unit

Easy 6 Step Installation Method
1. Find a convenient location away from sun and rain.
2. Using the mounting clip as a template, mark fixing positions.
3. Drill screw holes.
4. Fix bracket using screws provided.
5. Clip voltage converter to mounting bracket.
6. Correctly connect to load.

Typical Applications
Installations of mobile and cellular radio communications equipment, telemetry systems, refrigeration, televisions etc on trucks, buses, forestry and off road vehicles as well as boats and yachts and a variety of industrial applications. For a wider range of input and output voltages, see the DD Series.

Alfatronic converters were installed in following yachts
► Princess ► Sunseaker ► Swan ► Cranchi

Specifications

Input voltage range:	17 to 32 V DC
Output voltage:	13.6 V DC
Operation temp.:	-25˚ C to +80˚ C
Operation humidity:	95 % max., non condensing
Case work:	Aluminium and Polycarbonate. Dust water and impact resistance to IP5-33
Connections:	Five 6,3 mm push-on flat blade connectors (PV35 -A)
Power flow display:	Red LED
Over current protection:	Current sensing circuit
Overheat protection:	Temperature sensing circuit
EN standard compliance:	2004/108/EC the general EMC directive 2006/96/EC the automotive directive 93/68/EEC the CE marking directive VIDG5 AES for use on police and fire vehicles
Certifications:	CE- and e marked, FCC class B

Voltage (intermittent):

CB-Radio Stationary-Antennas

GPA 27 5/8 and GPA 27 1/2

Boomerang

New Vector 4000

Hurricane/ Storm 27
GP 27 5/8
High quality 5/8 wave stationary antenna made of anti-corroding aluminium to extend the performance and stability. Comes with 3 radials (1 m) and mounting set. SWR tunable.

▶ Ord.-No.: 63700

GP 27 1/2
Similar to above, but halfwave version without radials.

▶ Ord.-No.: 6348

1/4 wave stationary-/balcony antenna for mounting on roof or balcony.
The aluminium radiator has a length of 300 cm. SWR adjustment by tuning tip on short radiator. Comes with mounting set. SWR: <1,2

▶ Ord.-No.: 6350

3/4 wave stationary antenna, CB and 10 m Base station antenna, omnidirectional, tunable by whip length adjustment, high power handling capability, made of aluminium alloy 6063 T-832, UP-GRADE: Lower radiation angle for the best DX, new tuning possibility

▶ Ord.-No.:6340

1/2 wave stationary-/balcony antenna that can be installed in any place like attic, balcony and others. SWR adjustment is not required but the connecting cable should have a length corresponding to instruction manual. Comes with mounting set.

▶ Ord.-No.: 63570

AE 27 - 3,3 /AE 27 - 4,4

▶ AE 27 - 3,3, Ord.-No.: 6343
▶ AE 27 - 4,4, Ord.-No.:: 6344

Features:
▶ CB stationary antennas
▶ Directional, High-gain
▶ Horizontal polarization
▶ Factory tuned at mid-band
▶ High power handling capability
▶ Elements equipped with waterproof jointing sleeve
▶ Mounting mast: Ø 35-50 mm
▶ Dimensions (approx.):
  AE 27-3,3: 5740 x 2710 x 100 mm
  AE 27-4,4: 5725 x 4030 x 100 mm

AE Marine Masttop 3200

AE Marine 5/AE Marine 8

AE Marine 5
UKW marine radio antenna for motorboats.
Ca. 1,6 m fibre glass whip. Antenna mount topple
over, white plastic. Comes with ca. 4 m cable and
PL 259 connector.

▶ Ord.-No.: 64100

AE Marine 8
Same like above, but with 2,4 m fibre glass whip.

▶ Ord.-No.: 64120

AE Masttop 3200
Flexible UKW marine radio antenna for sailing
boats - ideal for mast mounting. Length ca. 1 m
with stainless steel whip. Comes with 18 m cable
and 2 x PL 259 connector
▶ Ord.-No.: 64130

AE 907 Mastholder

For marine radio antennas, recommended
for AE Marine 8 antenna.

▶ Ord.-No.: 64140

Accessories for antennas

CX 201

CX 201: Solid state 2- way antenna switch in heavy diecast quality. Enables to connect two antennas to one transceiver or the other way round. With PL-connectors.

Frequency range: 1,8 - 470 MHz
Insertion loss: 0,2 dB
Max. power input (depends on frequency): 1000 W

► Ord.-No.: 7401

Coax cable

High quality Coax cable for hobby or professional use.

RG 58
Diameter 4,95 mm,
Attenuation 10,9 dB/100 m
(50 MHz)

► Ord.-No.: 7460/AL 35

RG 58
Same like Ord.-No. 7460, but white color.
► Ord.-No.: T 200

RG 213
Diameter 10 mm,
Attenuation 4,4 dB/100 m (50 MHz)
► Ord.-No.: 7462

DV cable

DV-cable
4 m RG 58 U cable with DV-Right angle connector. with additional PL-Plug.

► Ord.-No.: 6833

Coax inter-cable

Coax cable
2 x PL-259/6
Length: 50 cm

► Ord.-No.: 7580

Coax inter-cable
Length: 150 cm

► Ord.-No.: 7581

Coax inter-cable - Ideal for use with balcony antennas.
Length: 10 m

► Ord.-No.: 75820

SWR-Meter
CB-Master SWR 20/30

Compact sized SWR meter for a quick measuring and adjustment of CB-antennas. Model SWR 30 with additional RF-power section for a quick reference of the main CB-data.

Frequency range: 3,5 - 50 MHz (SWR), 26 - 30 MHz (Power)
Power SWR: 1:1 - 1:3
Impedance: 50 Ohm
Deviation: ±/- 5 %
RF output (only SWR 30): 0 - 10 W
Dimensions: 85 x 55 x 30 mm

► Ord.-No.: 4410 - SWR 20
► Ord.-No.: 4412 - SWR 30

Accessories for antennas

DV antenna mount

DV- antenna mount.
Installation hole 11 mm.

► Ord.-No.: 6770

DV-S antenna mount

DV-S-antenna mount, flat type.
Installation hole 13 mm. For use with mobil whip Ord.-Nr.: 6190, 6199, 6206 and 6208.

► Ord.-No.: 67800

NC-570 DV

DV-plug, right angle type

► Ord.-No.: T 370

DV 27 PL

Antenna mount for antenna with UHF connection and DV connector (e.g. ML145).

► Ord.-No.: 67771

Wing nut

Wing nut and bolt for DV-antennas.

► Ord.-No.: 6820

Anti thief set

Anti thief set for DV antennas with special spanner and key bunch.

► Ord.-No.: 6822

Accessories for antennas

Steel mount

SP-S: INOX steel mount for antennas. INOX steel trunk mount, with a double inclination for mobile antennas. The mount is supplied with a hole fixing reducer and a rubber protection for the car body.

▶ Ord.-No.: T752

Gutter mount

Gutter mount clamp for mobile antennas. Black anodised.

▶ Ord.-No.: 6943

Mirror bracket

Universal mirror bracket for trucks. Useable for 3/8▶- or DV mounts.

▶ Ord.-No.: 6814

Alu mirror mount

Universal mirror mount. Accepts 3/8▶ or DV mounts. For horizontal or vertical mounting. Very heavy duty type made from Aluminium, silver.

▶ Ord.-No.: 6197

AM 701
Antenna mount

Antenna mount for 3/8▶ antennas. Incl. 2,75 m cable

▶ Ord.-No.: T795

3/8▶ adapter for DV-antennas.

▶ Ord.-No.: 6280

Accessories for antennas

Magnetic mount

BM 150 DV
Magnetic mount for use with DV
antennas, black colour. Comes with cable (length 3,90 m),
PL-plug and rubber boot. Diameter 15 cm.

▶ Ord.-No.: 6781

BM 150 PL
Same as above, but with PL (SO 239)
antenna connector.

▶ Ord.-No.: 6782

Replacement rubber boot

▶ Ord.-No.: 67821

Magnetic mount

BM 125 DV
Very strong magnet mount for use with DV-antennas.
Comes with 4 m DV cable and PL connector.
Diameter 12,5 cm.

▶ Ord.-No.: 67840

Window clip mount

Window clip mount for use with antennas with BNC connector. Comes with 2,50 m RG 174/U coaxial cable and mounted BNC plug. Optimum suitable for Ham radio, scanners and CB-transceivers.

▶ Ord.-No.: 6676

Mini magnet mount

Very strong mini magnet mount
(dia. Ø 35 mm!). With BNC female mount
for rubber and short telescopic antennas.
Comes with a 2,40 m low loss RG 174
cable with mounted BNC male connector.

▶ Ord.-No.: 6677

HF connectors and adapter

NC 551/PL 259

PL male connector for
RG 213/U/8/U Teflon isolation

▶ Ord.-No.: T 205

NC 551/2/PL 259/6

PL-male connector for
RG 58/U Teflon isolation

▶ Ord.-No.: T 377

Twin Blister pack

▶ Ord.-No.: 50120

NC 572

PL-connector for RG 58/U
short type, Teflon type

▶ Ord.-No.: T 292

NC 577/2 PL 259

PL-male connector with
right angel output

▶ Ord.-No.: 5260

SO 239 SH, NC 554

PL-receptacle for single hole
mounting rear mounting

▶ Ord.-No.: 5040

NC 554

PL-receptacle with 4-hole flange

▶ Ord.-No.: 5050

NC 553/PL 258

Adapter 2 x PL-female

▶ Ord.-No.: 5060

NC 565

Double PL-female panel mount

▶ Ord.-No.: 5310

NC 558/M 359

L-type adapter PL-male -PL-female

▶ Ord.-No.: 5070

DV-PL Adapter

Adapter PL-connector -
DV-connector

▶ Ord.-No.: 68027

Dummy L 20

Dummy load with power rating 20 W/ 60
W short term (interval use),
PL-connector, max. 500 MHz, 50 Ohms.

▶ Ord.-No.: 53030

HF connectors and adapter

BNC 1520/UG 255/U

Adapter BNC-male - UHF-female

▶ Ord.-No.: 5158

BNC 1521/UG 273/U

Adapter PL-male - BNC-female

▶ Ord.-No.: 5159

SMA/BNC

SMA/BNC female

▶ Ord.-No.: 58610

BNC-SMA Adapter

Adapter SMA - BNC-female

▶ Ord.-No.: 51640

NC 1451

N-male connector for RG 58/U
▶ Ord.-No.: 5410

NC 1453
for RG 8U / RG 213
▶ Ord.-No.: 5411

NC 1481

Adapter N-male - BNC-female

▶ Ord.-No.: 5424

NC 1465

Adapter N-male - PL-female

▶ Ord.-No.: 5426

NC 1466

Adapter N-female - PL-male

▶ Ord.-No.: 5428

BNC/FME

Adapter BNC-male -
SMA/FME-female

▶ Ord.-No.: 5860

FME-Crimp

FME-crimp connector

▶ Ord.-No.: 5850

PL/FME

Adapter PL -/FME-female

▶ Ord.-No.: 5856

HF connectors and adapter

BNC 1505/UG 914/U

Adapter 2 x BNC-female

► Ord.-No.: 5152

BNC 1501

BNC-connector male, for RG 58/U

► Ord.-No.: 5150

BNC 1501/10

BNC-connector male, for RG 8/U; RG 213/U

► Ord.-No.: 5163

BNC 1531/RG 88 UCR

BNC male plug, for RG 58/U, crimp type

► Ord.-No.: 5161

NC 526

Microphone connector socket

► Ord.-No.: 5145

Microphone extension

for AE 6890 and other with 6 pin mike plug/connector, length: 2 m

► Ord.-No.: 7625

Microphone connectors

Mike chassis plug

Mike chassis plug for single hole mounting

NC 513 3-pin:
► Ord.-No.: 5364

NC 515 4-pin:
► Ord.-No.: 5140

NC 517 5-pin:
► Ord.-No.: 5362

NC 519 6-pin:
► Ord.-No.: 5370

Mike connector

Mike connector with coupling ring

NC 514 4-pin:
► Ord.-No.: 5170

NC 516 5-pin:
► Ord.-No.: 5361

NC 518 6-pin:
► Ord.-No.: 5360

NC 522 8-pin:
► Ord.-No.: 5222

Connector

Plug

Mono-plug 3,5 mm
► Ord.-No.: 5230

> **Alan Electronics – The Radio Specialist**

We are a leading manufacturer of radio equipment for the professional and private sectors. ALBRECHT Radios are sold for more than 30 years in Germany.

In cooperation with the globally active Italian CTE group we design future-oriented projects, which - thanks to in-house development in Germany and Italy - have been successfully established in the market.

We are globally known with our brands ALBRECHT and MIDLAND. Besides radio equipment for hobby and professional users we distribute consumer electronics such as Bluetooth® headsets, digital radios, action cameras and much more.
