

Mosquito species in which West Nile virus has been detected, United States, 1999-2012

Mosquito Species
<i>Aedes aegypti</i>
<i>Aedes albopictus</i>
<i>Aedes atlanticus/tormentor</i>
<i>Aedes atropalpus</i>
<i>Aedes canadensis</i>
<i>Aedes cantator</i>
<i>Aedes cinereus</i>
<i>Aedes condolecens*</i>
<i>Aedes dorsalis</i>
<i>Aedes dupreei</i>
<i>Aedes epactius</i>
<i>Aedes fitchii</i>
<i>Aedes fulvus pallens</i>
<i>Aedes grossbecki</i>
<i>Aedes infirmatus</i>
<i>Aedes japonicus</i>
<i>Aedes melanimon</i>
<i>Aedes nigromaculis</i>
<i>Aedes provocans</i>
<i>Aedes sollicitans</i>
<i>Aedes squamiger</i>
<i>Aedes sticticus</i>
<i>Aedes stimulans</i>
<i>Aedes taeniorhynchus</i>
<i>Aedes triseriatus</i>
<i>Aedes trivittatus</i>
<i>Aedes vexans</i>
<i>Anopheles atropos</i>
<i>Anopheles barberi</i>
<i>Anopheles bradleyi/crucians</i>
<i>Anopheles franciscanus</i>
<i>Anopheles freeborni</i>
<i>Anopheles hermsi</i>
<i>Anopheles punctipennis</i>
<i>Anopheles quadrimaculatus</i>
<i>Anopheles walkeri</i>
<i>Coquillettidia perturbans</i>
<i>Culex apicalis</i>
<i>Culex bahamensis</i>
<i>Culex coronator</i>
<i>Culex erraticus</i>
<i>Culex erythrothorax</i>
<i>Culex nigripalpus</i>
<i>Culex pipiens</i>
<i>Culex quinquefasciatus</i>
<i>Culex restuans</i>
<i>Culex salinarius</i>
<i>Culex stigmatosoma</i>
<i>Culex tarsalis</i>
<i>Culex territans</i>
<i>Culex thriambus</i>
<i>Culiseta incidens</i>
<i>Culiseta impatiens</i>
<i>Culiseta inornata</i>

Mosquito Species
<i>Culiseta melanura</i>
<i>Culiseta morsitans</i>
<i>Culiseta particeps</i>
<i>Deinocerites cancer</i>
<i>Mansonia titillans</i>
<i>Orthopodomyia signifera</i>
<i>Psorophora ciliata</i>
<i>Psorophora columbiae</i>
<i>Psorophora ferox</i>
<i>Psorophora howardii</i>
<i>Uranotaenia sapphirina</i>

* This species was detected in 2003 in Monroe County, FL; but was not reported to ArboNET
