

CALIFORNIA DEPARTMENT OF  
FOOD & AGRICULTURE

Karen Ross, Secretary

DATE: September 7, 2012  
TO: All County Agricultural Commissioners  
FROM: Plant Health and Pest Prevention Services  
SUBJECT: **A and Q Pest Report No. 32-2012**  
Weekly A and Q Report: For the week of August 2-8, 2012

Attached is the report for all A and Q pests intercepted or detected in California from August 2-8, 2012. Pests are identified by the California Department of Food and Agriculture's Plant Pest Diagnostics Laboratory.

**Santa Clara Reports: Sugar Apples from Florida PDR: 1626362**

On August 6, 2012, Contra Costa County's dog team handler Mariah de Nijs, dog Bart, and Santa Clara County Biologist Julius Calso intercepted an unmarked package of sugar apples from Florida at a USPS facility. Damage to the box exposed the contents. Further inspection of the fruits revealed mealybugs on the sugar apples. The laboratory identified A-rated *Dysmicoccus grassii* (mealybug). The sugar apples were rejected and destroyed due to CA Food and Agricultural code, sections [6461.5](#) (live pests) and [6421](#) (lack of markings).

*FL shipment of the sugar apples infested with mealybugs*

Sugar apples from Florida are also prohibited under CA State Exterior Quarantine for Caribbean fruit fly ([CA Code of Regulations, Section 3252](#)), unless properly treated at origin.

**Reported by Needles Border Protection Station  
Dragon Fruit from Florida**

**PDRs: NE0P06017625, 629 – 631**

On August 5, 2012, inspector Bryan Brown from the Needles Border Protection Station intercepted 20 pounds of pitahayas (dragon fruit) from a private vehicle traveling from Miami, FL to Merced, CA to visit family. Upon inspection, the following **Q-rated pests** were collected and identified:

- *Pseudococcus jackbeardsleyi* (mealybug), PDR NE0P06017625
- Chrysomelidae (leaf beetle), PDR NE0P06017629
- Unknown pupae, PDR NE0P06017630
- Pseudococcidae (mealybug), PDR NE0P06017631
- Coccidae (soft scale), PDR NE0P06017631

*Infested dragon fruit intercepted at Needles*

Certification for CA Code of Regulations, Section 3252 is not required for dragon fruit. The fruit is only subject to inspection and if pests are found, the shipment may be destroyed. This box of dragon fruit was destroyed at the station under the authority of CA Food and Agricultural code, section 6461.5.

**A/Q-Rated Pest Interceptions with Determinations Entered**  
**August 02, 2012 through August 08, 2012**  
**Grouped by PDR Activity**
