

MEDICINAL PLANTS

FINDING THE BEST SOLUTION FOR YOU

2GETHER

ONE STEP AHEAD

Oskar Tropitzsch

Dear customer,

We are pleased to introduce you our catalogue for medicinal plants. You search – we offer, our customers appreciate our special service. We have a worldwide network of partners to search for your required product.

You need – we deliver!

- Scouting
- List of Medicinal plants
- Contract Cultivation

A Harvest protocol will be sent with every order. Special documents and quality requirements are available on request.

Like:

- GACP-Confirmation
- ID-Certification
- Herbarium
- Low Temperature Adsorption Drying
- Full traceability

We are permanently improving our service and developing strategies with our customers to enhance our standards.

If you are interested please contact us: phyto@cfmot.de or visit us at www.cfmot.de

Kind regards,
Your Cfm-Phyto Team

We are proud to announce that Cfm Oskar Tropitzsch GmbH is celebrating its 230th anniversary. More than two centuries of experience in the chemical and pharmaceutical market. We are happy to share this knowledge with you.

Cfm Oskar Tropitzsch GmbH is GDP certified (Good Distribution Practice) by the German authorities starting January 2018.

Contact

Cfm Oskar Tropitzsch GmbH
Adalbert-Zoellner-Str. 1
95615 Marktredwitz
(Germany)

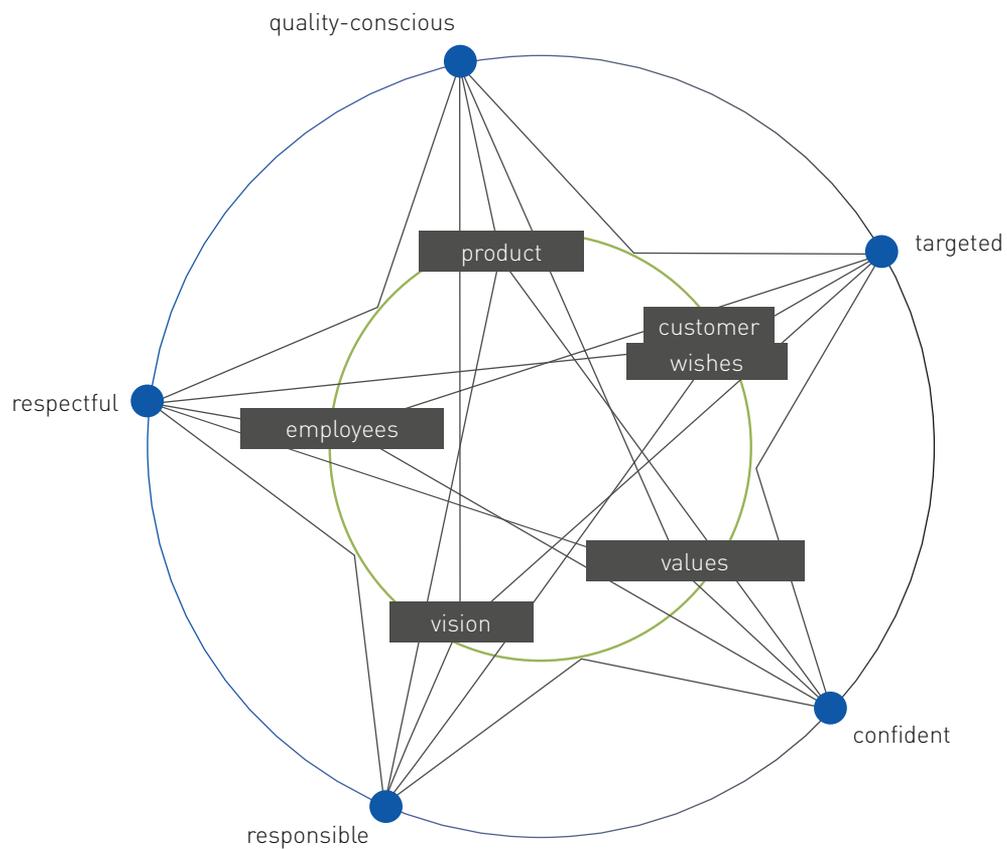

Tel.: +49-(0)9231-9619-0
Fax: +49-(0)9231-9619-60
Mail: phyto@cfmot.de
Web: www.cfmot.de

New Address:

After being located for more than 15 years in our office in Waldershofer Str., we moved to our new office and warehouse in Adalbert-Zoellner-Str. 1, also in Marktredwitz. The steadily growing number of employees and need for bigger storage options made this fantastic change possible and necessary.

Scouting

Since many plants are not commercially available, we search for the raw material in certain countries and check the possibilities for collection. We organize the wild collection directly without intermediate wholesalers. With our local partners, we investigate permissions, export and import modalities. Harvest and drying can be arranged according to your individual requirements.

Weather conditions, legal regulations and other circumstances can make it necessary to find a second source in another country.

The active ingredient profile can differ from country to country depending on weather and soil. We procure samples from different sources/countries and support you to find the perfect country or to improve cultivation conditions.

Cultivation

Your project needs industrial quantities? Contract cultivation may be the choice for you. Medicinal plants demand intensive management; the different species require their own distinct conditions of cultivation. We have a network of farmers, plant breeders and biologists with a lot of experience in cultivation of plants.

Of course, you receive a detailed documentation about the whole farming process. Further, we have the possibility to optimize the content of ingredients. The drying process with a low temperature absorption dryer can stabilise the ingredients after the harvest.

Nagoya Protocol

The Nagoya Protocol is a legally binding international agreement with the title: "The Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization to the Convention on Biological Diversity (CBD)".

The Nagoya Protocol entered into force on 12. October 2014, with the aim to further substantiate the CBD's ABS obligations. ABS is the shortened form of "access and benefit sharing" and means the access to genetic resources and the fair and equitable sharing of benefits.

ABS Clearing-House is a website set up to provide information regarding the Nagoya Protocol and its regulations. There is the list of countries, that are part of the Nagoya Protocol with all relevant

information like their national focal points, national legislative, administrative or policy measures and national reports of the implementation of the Nagoya Protocol.

<https://absch.cbd.int/>

We support you in questions regarding the Nagoya Protocol. However, whether your project is under the regulation of the Protocol has to be defined by the end user.

Medicinal Plants - Herbs

Medicinal Plants have been used since ancient times to support healing. Although taxonomically not plants, mushrooms, lichen and algae are referred to as medicinal plants. Due to their active ingredients the plants are used as raw material for pharmaceuticals, cosmetics and recently also for functional food. Tea, coffee, tobacco and culinary herbs are all former medicinal plants that found their way into our daily life.

Secondary plant ingredients are a huge reservoir for potential new medicines. TCM, Ayurveda, the unknown flora of rainforests and also the European medicinal herbs have a long tradition with interesting ingredients for scientific research.

Plant material can be obtained mainly dried, but is also available in other forms, e.g. fresh, as an extract, decoctions and macerate. Active parts include leaves, flowers, fruits, bark, seeds and roots.

Ardisia crenata

Belongs to the family of Primulaceae. It originates from Asia, but is an invasive species in some other countries, e.g. the United States. It is widely used as ornamental plant. Identified ingredients include the aglykon Ardisicrenogenin and several ardisicrenosides (saponins).

Several substances isolated from the root show cytotoxic activities in human cancer cell lines. *(Three new triterpenoid saponins from the roots of Ardisia crenata and their cytotoxic activities. Liu DL1,2, Zhang X3, Zhao Y1, Wang NL3, Yao XS3. Nat Prod Res. 2016 Mar 7:1-10. [Epub ahead of print])*

The leaves of the plant contain a substance known as FR900359. It is investigated to treat several diseases, e.g. Asthma. It prevents asthmatic contractions and spasms. *(Targeted inhibition of Gq signaling induces airway relaxation in mouse models of asthma. Matthey, M. Et al. (2017). Science Translational Medicine, 13. September 2017, DOI: 10.1126/scitranslmed.aag2288)*

Ardisicrenosid A

Product code:	7501821
CAS#:	160824-52-2

Coffea arabica

Apart from that, caffeine has been used in pharmaceutical and cosmetic preparations since a long time due to its favorable effects on the skin. [*Evaluation of antioxidant and anti-inflammatory activity of green coffee beans methanolic extract in rat skin. Pergolizzi S, D'Angelo V, Aragona M, Dugo P, Cacciola F, Capillo G, Dugo G, Lauriano E. Nat Prod Res. 2018 Dec 3:1-7. doi: 10.1080/14786419.2018.1523161. [Epub ahead of print]*]

But not only the coffee beans have interesting ingredients, few studies focus on the leaves for medicinal purposes and the composition of secondary plant substances. [*Nutraceutical compounds: Echinoids, flavonoids, xanthenes and caffeine identified and quantitated in the leaves of Coffea arabica trees from three regions of Brazil. de Almeida R, Trevisan M, Thomaziello R, Breuer A, Klika K, Ulrich C, Owen R. Food Res Int. 2019 Jan;115:493-503. doi: 10.1016/j.foodres.2018.10.006. Epub 2018 Oct 7.*]

The coffea arabica plant is still a challenging plant for pharmaceutical and nutraceutical research. [*An Insight into the Therapeutic Potential of Major Coffee Components. Islam M, Tabrez S, Jabir N, Ali M, Kamal M, da Silva Araujo L, De Oliveira Santos J, Da Mata A, De Aguiar R, de Carvalho Melo Cavalcante A. Curr Drug Metab. 2018;19(6):544-556. doi: 0.2174/1389200219666180302154551.*]

Iris germanica

Back to the roots, or more accurate the rhizomes: our Iris is cultivated in Bavaria, Germany. The rhizomes are used in perfume industry and medicine. The famous iris odor develops during storage. Iris butter is obtained from the aged rhizome by hydro distillation. Iris rhizomes also contain notable amounts of active ingredients like terpenes, organic acids such as ascorbic acid, myristic acid, tridecylenic acid, undecylenic acid and isoflavonoides.

The Iris germanica is used in the homeopathic medicine but recent research is also looking for new treatment possibilities, e.g. alzheimer's disease.

Protective effect of Iris germanica L. in B-amyloid-induced animal model of alzheimer's disease. Borhani M, Sharifzadeh M, Farzaei MH, Narimani Z, Sabbaghziarani F, Gholami M, Rahimi R. Afr J Tradit Complement Altern Med. 2017 Jun 5;14(4):140-148. doi: 10.21010/ajtcam.v14i4.17. eCollection 2017

Momordica balsamina

Also known as balsam apple or bitter melon is from the family Cucurbitaceae and native to tropical regions of Africa, Arabia, Asia and the Caribbean - it is invasive in America. This plant has a lot of medicinal and nutritional values and is used as a traditional folk medicine in many countries. It contains resins, alkaloids, flavonoids, glycosides, steroids, terpenes and saponins having various medicinal uses. Balsamin isolated from the seeds of *Momordica balsamina*, is a type I ribosome inactivating protein. It inhibits protein synthesis in cell free lysate and possesses N-glycosidase activity. Balsamin has also broad antiviral activity since it blocks influenza virus replication. These observations may open new therapeutic options for the treatment of viral infections.

Inhibition of HIV-1 replication by balsamin, a ribosome inactivating protein of Momordica balsamina. Kaur I, Puri M, Ahmed Z, Blanchet FP, Mangeat B, Pignet V. PLoS One. 2013 Sep 5;8(9):e73780. doi: 10.1371/journal.pone.0073780. eCollection 2013 Momordica balsamina: a medicinal and nutraceutical plant for health care management. Senecio riddellii

The plant belongs to the family of Asteraceae. Groundsel are widespread over the world and represented with more than 1000 different species. For Senecio pyrrolizidin alkaloids are typical, which are mainly known to be hepatotoxic and cancerogenic. Senecio riddellii occurs in the southwest of the United States, mainly Texas, New Mexico and Arizona. It contains the pyrrolizidin alkaloids Riddelliine and its N-oxide. Riddelliine can be found as a contaminant in foods such as meat, grains, seeds, milk, herbal tea and honey. The results in research about adverse health effects of pyrrolizidin alkaloids like Riddelliine, made it necessary to have reliable reference standards for food and feed safety.

Am J Vet Res. 1991 Jan;52(1):146-51. Toxicity of pyrrolizidine alkaloids from Riddell groundsel (Senecio riddellii) to cattle. Molyneux RJ1, Johnson AE, Olsen JD, Baker DC.

Riddelliine

Vanilla plantifolia

Probably the most famous orchid and source of one of the most expensive spices in the world. Origin of the Vanilla orchid is Mexico, the region around Veracruz. Mainly due to the aromatic ingredient Vanillin, developed during fermentation of the seed vessel, it was already famous in Aztec times. They added Vanilla to their cocoa drink and it was also already known as perfume, spice and remedy. Nowadays the orchid is cultivated in tropical regions around the world, mostly in Madagascar and Réunion. However, in this regions the flowers have to be artificial pollenised, while in Mexico Kolibris and insects are the natural pollinators. The source of our Vanilla bean is rather unknown, since we procure it from Colombia.

Next to known effects like mood lifting, calmative and aphrodisiacal, the vanilla bean is also supposed to be antiseptic, antiinflammatory, fungicidal and bactericidal. Several recent publications discuss the effects of vanilla in cancer treatment. Evidence of vanillin binding to CAMKIV explains the anti-cancer mechanism in human hepatic carcinoma and neuroblastoma cells.

Zingiber officinale

Ginger was elected medicinal plant of the year 2018. Its rhizome is used as spice for cooking and as a medicinal drug. It has a lot of ingredients like Shogaol, Borneol and Cineol. Traditional Chinese Medicine as well as Hildegard von Bingen and Paracelsus recommend the Rhizome as medicine. In China it is used in cold, muscle pain and rheumatism. In Europe it was used in the Middle Ages for treating gastro-intestinal diseases. Since the Rhizome has stimulating effects on gastric juice, saliva and bile, the European Scientific Cooperative on Phytotherapy (ESCOP) recommends it for use in gastro-intestinal diseases and nausea.

Gingerol is an interesting ingredient emerging for arthrosis treatment as shown in several publications. Preparations from the rhizome are medicinally known for their anti-inflammatory effects. But especially the gingerols have been a major focus of research related to the ability of pure compounds to inhibit the expression of Cyclooxygenase-2, which mediates inflammation, e.g. in arthrosis and rheumatism.

Frye, Jennifer B.; Oyarzo, Janice N.; Timmermann, Barbara N. (2009). Journal of Natural Products. 72 (3): 403-7. Comparing the effects of ginger (Zingiber officinale) extract and ibuprofen on patients with osteoarthritis. M. Haghighi, A. Khalva, T. Toliat, S. Jallaei In: Arch Iran Med, Volume 8, 2005, S. 267-271.

Formula:	$C_{17}H_{26}O_4$
Mol. weight:	294,39 g/mol

Terms and Conditions of Sale

All orders placed by a buyer are accepted and all contracts are made subject to the terms which shall prevail and be effective notwithstanding any variations or additions contained in any order or other document submitted by the buyer. no

modification of these terms shall be binding upon Cfm Oskar Tropitzsch GmbH unless made in writing by an authorised representative of Cfm Oskar Tropitzsch GmbH.

Placing of Orders

Every order made by the buyer shall be deemed an offer by the buyer to purchase products from Cfm Oskar Tropitzsch GmbH and will not be binding on Cfm Oskar Tropitzsch GmbH until a duly authorised representative of Cfm Oskar Tropitzsch GmbH has accepted the offer made by the buyer. Cfm Oskar Tropitzsch GmbH may accept orders from commercial, educational or government organisations, but not from private individuals and Cfm Oskar Tropitzsch GmbH reserves the right to insist on a written order and/or references from the buyer before proceeding. There is no minimum order value. At the time of acceptance of an order Cfm Oskar Tropitzsch GmbH will either arrange prompt despatch from stock or the manufacture/acquisition of material to satisfy the order. In the event of the latter

Cfm Oskar Tropitzsch GmbH will indicate an estimated delivery date. In addition to all its other rights Cfm Oskar Tropitzsch GmbH reserves the right to refuse the subsequent cancellation of the order if Cfm Oskar Tropitzsch GmbH expects to deliver the product on or prior to the estimated delivery date. Time shall not be of the essence in respect of delivery of the products. If Cfm Oskar Tropitzsch GmbH is unable to deliver any products by reason of any circumstances beyond its reasonable control („Force Majeure“) then the period for delivery shall be extended by the time lost due to such Force Majeure. Details of Force Majeure will be forwarded by Cfm Oskar Tropitzsch GmbH to the buyer as soon as reasonably practicable.

Prices, Quotations and Payments

Prices are subject to change. For the avoidance of doubt, the price advised by Cfm Oskar Tropitzsch GmbH at the time of the buyer placing the order shall supersede any previous price indications. The buyer must contact the local office of Cfm Oskar Tropitzsch GmbH before ordering if further information is required. Unless otherwise agreed by the buyer and Cfm Oskar Tropitzsch GmbH, the price shall be for delivery ex-works. In the event that the buyer requires delivery of the products otherwise than ex-works the buyer should contact the local office of Cfm Oskar Tropitzsch GmbH in order to detail its requirements. Cfm Oskar Tropitzsch GmbH shall, at its discretion, arrange the buyer's delivery requirements including, without limitation, transit insurance, the mode of transit (Cfm Oskar Tropitzsch GmbH reserves the right to vary the mode of transit if any regulations or other relevant considerations so require) and any special packaging requirements (including cylinders). For the avoidance of doubt all costs of delivery and packaging in accordance with the buyer's requests over and above that of delivery in standard packaging ex-works shall be for the buyer's account unless otherwise agreed by both parties. Incoterms 2010 shall apply. Any tax, duty or charge imposed by governmental authority or otherwise and any other applicable taxes, duties or charges shall be for the buyer's account. Cfm Oskar Tropitzsch GmbH may, on request and where possible, provide quotations for multiple packs or bulk quantities, and non-listed items. Irrespective of the type of request or means of response all quotations must be accepted by the buyer without condition and in writing before an order will be accepted by Cfm

Oskar Tropitzsch GmbH. Unless agreed in writing on different terms, quotations are valid for 30 days from the date thereof. Payment terms are net 30 days from invoice date unless otherwise agreed in writing. Cfm Oskar Tropitzsch GmbH reserves the right to request advance payment at its discretion. For overseas transactions the buyer shall pay all the banking charges of Cfm Oskar Tropitzsch GmbH. The buyer shall not be entitled to withhold or set-off payment for the products for any reason whatsoever. Failure to comply with the terms of payment of Cfm Oskar Tropitzsch GmbH shall constitute default without reminder. In these circumstances Cfm Oskar Tropitzsch GmbH may (without prejudice to any other of its rights under these terms) charge interest to accrue on a daily basis at the rate of 2% per month from the date upon which payment falls due to the actual date of payment (such interest shall be paid monthly). If the buyer shall fail to fulfil the payment terms in respect of any invoice of Cfm Oskar Tropitzsch GmbH Cfm Oskar Tropitzsch GmbH may demand payment of all outstanding balances from the buyer whether due or not and/or cancel all outstanding orders and/or decline to make further deliveries or provision of services except upon receipt of cash or satisfactory securities. Until payment by the buyer in full of the price and any other monies due to Cfm Oskar Tropitzsch GmbH in respect of all other products or services supplied or agreed to be supplied by Cfm Oskar Tropitzsch GmbH to the buyer (including but without limitation any costs of delivery) the property in the products shall remain vested in Cfm Oskar Tropitzsch GmbH.

Shipping, Packaging and Returns

The buyer shall inspect goods immediately on receipt and inform Cfm Oskar Tropitzsch GmbH of any shortage or damage within five days. Quality problems must be notified within ten days of receipt. Goods must not be returned without prior written authorisation of Cfm Oskar Tropitzsch GmbH. Cfm Oskar Tropitzsch GmbH shall at its sole discretion replace the defective products (or parts thereof)

free of charge or refund the price (or proportionate price) to buyer. Opened or damaged containers cannot be returned by the buyer without the written prior agreement of Cfm Oskar Tropitzsch GmbH. In the case of agreed damaged containers which cannot be so returned, the buyer assumes responsibility for the safe disposal of such containers in accordance with all applicable laws.

Product Quality, Specifications and Technical Information

Products are analysed in the Quality Control laboratories of Cfm Oskar Tropitzsch GmbH's production partners by methods and procedures which Cfm Oskar Tropitzsch GmbH considers appropriate. In the event of any dispute concerning reported discrepancies arising from the buyer's analytical results, determined by the buyer's own analytical procedures, Cfm Oskar Tropitzsch GmbH reserves the right to rely on the results of own analytical methods of Cfm Oskar Tropitzsch GmbH. Certificates of Analysis or Certificates of Conformity are available at the discretion of Cfm Oskar Tropitzsch GmbH for bulk orders but not normally for prepack orders. Cfm Oskar Tropitzsch GmbH reserves the right to make a charge

for such Certification. Specifications may change and reasonable variation from any value listed should not form the basis of a dispute. Any supply by Cfm Oskar Tropitzsch GmbH of bespoke or custom product for a buyer shall be to a specification agreed by both parties in writing. Technical information, provided orally, in writing, or by electronic means by or on behalf of Cfm Oskar Tropitzsch GmbH, including any descriptions, references, illustrations or diagrams in any Catalogue or brochure, is provided for guidance purposes only and is subject to change.

Safety

All chemicals should be handled only by competent, suitably trained persons, familiar with laboratory procedures and potential chemical hazards. The burden of safe use of the products of Cfm Oskar Tropitzsch GmbH vests in the buyer. The buyer assumes all responsibility for warning his employees, and any persons who might reasonably be expected to come into contact with the products, of

all risks to person and property in any way connected with the products and for instructing them in their safe handling and use. The buyer also assumes the responsibility for the safe disposal of all products in accordance with all applicable laws.

Uses, Warranties and Liabilities

All products of Cfm Oskar Tropitzsch GmbH are intended for laboratory research purposes and unless otherwise stated on product labels, in the catalogue and product information sheet of Cfm Oskar Tropitzsch GmbH or in other literature furnished to the buyer, are not to be used for any other purposes, including but not limited to use as or as components in drugs for human or animal use, medical devices, cosmetics, food additives, household chemicals, agricultural or horticultural products or pesticides. Cfm Oskar Tropitzsch GmbH offers no warranty regarding the fitness of any product for a particular purpose and shall not be responsible for any loss or damage whatsoever arising there from. No warranty or representation is given by Cfm Oskar Tropitzsch GmbH that the products do not infringe any letters patent, trademarks, registered designs or other industrial rights. The buyer further warrants to Cfm Oskar Tropitzsch GmbH that any use of the products in the United States of America shall not result in the products becoming adulterated or misbranded within the meaning of the Federal Food, Drug and Cosmetic Act (or such equivalent legislation in force in the buyer's jurisdiction) and shall not be materials which may not, under sections 404, 505 or 512 of the Act, be introduced into interstate commerce. The buyer acknowledges that, since the products of Cfm Oskar Tropitzsch GmbH are intended for research purposes, they may not be on the Toxic Substances Control Act 1976 („TSCA“) inventory. The buyer warrants that it shall ensure that the products are approved for use under the TSCA (or such other equivalent legislation in force in the buyer's jurisdiction), if applicable. The buyer shall be responsible for complying with any legislation or regulations governing the use of the products and their importation into the country of destination (for the avoidance of doubt to include, without limitation, the TSCA and all its amendments, all EINECS, ELINCS and NONS regulations). If any licence or consent of any government or other authority shall be required for the acquisition, carriage or use of the products by the buyer the buyer shall obtain the same at its own expense and if necessary produce evidence of the same to Cfm Oskar Tropitzsch GmbH on demand. Failure to do so shall not entitle the buyer to withhold or delay payment. Any additional expenses or charges incurred by Cfm Oskar Tropitzsch GmbH resulting from

such failure shall be for the buyer's account. Save for death or personal injury caused by negligence of Cfm Oskar Tropitzsch GmbH, sole obligation of Cfm Oskar Tropitzsch GmbH and buyer's exclusive remedy with respect to the products proved to the satisfaction of Cfm Oskar Tropitzsch GmbH to be defective or products incorrectly supplied shall be to accept the return of said products to Cfm Oskar Tropitzsch GmbH for refund of the actual purchase price paid by the buyer (or proportionate part thereof), or replacement of the defective product (or part thereof) with alternative product. Cfm Oskar Tropitzsch GmbH shall have no liability to the buyer under or arising directly or indirectly out of or otherwise in connection with the supply of products by Cfm Oskar Tropitzsch GmbH to the buyer and/or their re-sale or use by the buyer or for any product, process or services of the buyer which in any way comprises the product in contract tort (including negligence or breach of statutory duty) or otherwise for pure economic loss, loss of profit, business, reputation, depletion of brand, contracts, revenues or anticipated savings or for any special indirect or consequential damage or loss of any nature except as may otherwise be expressly provided for in these terms. All implied warranties, terms and representations in respect of the products (whether implied by statute or otherwise) are excluded to the fullest extent permitted by law. The buyer shall indemnify Cfm Oskar Tropitzsch GmbH for and against any and all losses, damages and expenses, including legal fees and other costs of defending any action, that Cfm Oskar Tropitzsch GmbH may sustain or incur as a result of any act or omission by the buyer, its officers, agents or employees, its successors or assignees, its customers or all other third parties, whether direct or indirect, in connection with the use of any product. For the avoidance of doubt and in the event that Cfm Oskar Tropitzsch GmbH supplies bespoke or custom product to the buyer's design or specification, this indemnity shall extend to include any claim by a third party that the manufacture of the product for the buyer or the use of the product by the buyer infringes the intellectual property rights of any third party.

General

Cfm Oskar Tropitzsch GmbH shall be entitled to assign or sub-contract all or any of its rights and obligations hereunder. The buyer shall not be entitled to assign, transfer, sub-contract or otherwise delegate any of its rights or obligations hereunder. Any delay or forbearance by Cfm Oskar Tropitzsch GmbH in exercising any right or remedy under these terms shall not constitute a waiver of such right or remedy. If any provision of these terms is held by any competent

authority to be invalid or unenforceable in whole or in part the validity of the other provisions of these terms and the remainder of the provision in question shall not be affected. These terms shall be governed by German Law and the German Courts shall have exclusive jurisdiction for the hearing of any dispute between the parties save in relation to enforcement where the jurisdiction of the German Courts shall be non-exclusive.
