

Annual Report
2008-2009

Anne Lynch
Executive Director

Patrick Veroneau
Board President

Last year's faltering economy was a testing time for many people and businesses in our community. These economic challenges have placed a much greater demand on the need for our services. Fortunately, to date, we have weathered those challenges and have been able to meet the demand for services so that children, teens and families who have been impacted by the loss of a loved one can still find the support they need free of charge for as long as needed. We have managed to maintain services for those who grieve by tapping into our reserves and our hope this year is to restore those funds and continue to meet expanding demand.

In the last year, we have increased support for adults by expanding our Bereaved Parents Group and adding a support group for widows, widowers and others who have lost a partner to death. Our Tender Living Care program has added a group for young adults dealing with a serious or life threatening illness and we are translating our TLC book, *A Family's Journey*, into Spanish to meet a growing demographic throughout our region.

We have increased the number of support groups offered to incarcerated youth at the Long Creek Youth Development Center, enhanced our speaker series for our families, volunteers and the wider community with guest speakers such as Donna Schuurman, Lynn Plourde and Ann Hood. We also added a third school to our Multicultural Peer Support program.

As an agency that does not receive state or federal funding we are increasingly competing for the donated dollar. The Center does not charge for services and trusts that our community will continue their tremendous generous personal and financial support. Without this support, the services that The Center provides to families in our community would be significantly reduced.

Thank you to all of our many supporters, both volunteers and donors alike, as we could not advance our mission without you. Please visit our website for a listing of the many generous supporters and information usually found in our annual audit.

We hope you enjoy this calendar featuring art drawn by the children and volunteers who attend The Center. Our hope is that you will remember us not only at this time of year as people make their annual gifts but throughout the year as each child, teen and family member works through their own unique grief with the support we provide.

The Haug Family (Norma, the mom, Gunter, 9, and twins Natalie and Grace, 6 1/2) started coming to The Center in 2006. Norma's husband Paul died in October 2005. Here is their story:

For Norma, the first time the family came to The Center it seemed "just another thing I had to do at the time. Even the title is hard. You don't want to see your kids as grieving children, but that's what they are." But "as time went on, the space, the people ...I could just relax. You're amongst people that know. There are no pretenses. You share intimate details - pretty horrific stuff - and there is a sense of safety and healing here."

"The Center has made a huge difference in our family. We're really just beginning to reap those benefits now. People comment how we're different - lighter. It just helped us get through the process. Grief is a lot of work - physically, emotionally, mentally - and on top of that, you have to do your life. It's very difficult."

"It's sort of like an extended family here for all of us. You just hang out and share and hug and connect. We've come a long way. We really have."

Norma's kids loved The Center right away. Gunter, 9, shares that "Ever since I have been coming to The Center, I thought that this place has stopped me about thinking bad things about my dad and that he's dead. And about my grandparents and my cats that are dead. I thought at first everyone would be very mean. Everyone turned out to be very nice. I really like coming here and I hope I keep coming until I'm in the 'big group'".

Natalie, 6 1/2, commented: "The stuff that really helps me is that there's a pile of animals in our class and you just jump in it and if you're sad or mad, it just pops away. Or, in the Volcano Room you get some punching gloves and if you're sad or mad, it just pops away."

And Grace, also 6 1/2, told us: "The Center has made me feel better since the last time I came here. When I come here, it takes away some of the sadness."

Natalie, Gunter and Grace

Thank You to Our Wonderful Volunteers
