PROFESSIONAL EXPERIENCE

3/2015 – Present, Senior Solution Architect, Sitecore, Denmark

Providing technical consulting and services for Sitecore's partners. Here is a list of the projects that I've been involved.

- DBU's ECM solution
- DSV's Salesforce connect solution
- LEO Pharma's Dialog Plan Newsletter solution
- Nybolig's EXM solution
- Tivoli Casino's Engagement Plan solution

3/2013 – 2/2015, Developer, Sitecore, Denmark

Working as a key contributor to EXM 3.0 that shipped with Sitecore 8. My mainly task is working with other team members to port the old ECM to a new Sitecore platform which utilizes xDB, Sitecore SPEAK and many other new technologies.

Technologies: C#, SPEAK, Javascript, MongoDb, MSSQL, Scrum

1/2011 – 2/2013, Consultant, Capgemini, Denmark

Providing technical assistance to clients from different industries for optimizing their IT solutions.

- *Lead Developer (External Consultant): Trac ID Systems AS, 10/2012 – 12/2012*
 - Developing an AlertService which is able to send SMSs and Emails to the support automatically when errors occur in Drilling Operations Tracking System (DOTS).

Technologies: C#, Windows Service, WCF, MSSQL, Visual Studio 2010, TFS 2010, Scrum

- *Lead Developer: Capgemini Norway, 4/2012 – 12/2012*
 - Designing and implementing EPIM Gas Sales Tax Reporting System, which is a system facilitates the oil companies in Norway to submit their dry gas sales information to Norwegian Oil Tax Administration.
 - Participates in the pre-sale workshops, communicates with oil companies involved in the project and helps them to create and submit the reports.
 - The system has been used by 10+ oil companies in Norway and has earned wide praises from those companies.
 - The system has a web application and an Excel Add-in in the front end, which communicate with server through WCF Web Services. Besides, the system has been integrated with Altinn, which is a common web portal for public reporting forms to the Norwegian public authorities.

Technologies: C#, ASP.NET MVC, Visual Studio 2010 Tools for Office, Windows Form, WCF, Windows Server 2003, IIS7/6, Enterprise Certificate

- *System Developer(External Consultant): Max Manus A/S, 2/2012 – 3/2012*
 - Working with the leading speech recognition and digital dictation solutions to many of the largest hospitals in Denmark. I helped the company with designing a Data Access Layer for a new Silverlight application.

Technologies: C#, Silverlight, Entity Framework 4, Windows Form, MSSQL, Scrum

- *Developer(External Consultant): Telenor 1/2011 – 12/2011*
 - Helping Telenor with improving and maintaining www.telenor.dk. The tasks include new features implementation and bugs fixing.

Technologies: C#, ASP.NET WebForm, MSSQL, Commerce Server, JBOSS

- Designing and developing a server-side customer tracking system for www.telenor.dk. This system gives Telenor's E-business rich insights into www.telenor.dk's traffic and marketing effectiveness.

Technologies: C#, ASP.NET WebForm, Adobe SiteCatalyst, Commerce Server, MSSQL

- Implementing Web Services for Telenor's new customer service system. The Web Services enable the front-end system to communicate with the back-end system.

Technologies: C#, ASP.NET WebForm, WCF, LINQ, XML, XSLT, MSSQL, JBOSS

7/2007 – 11/2010, Software Developer, AnyBody Technology A/S, Denmark

Working with the #1 CAE software for musculoskeletal biomechanic.

Technologies: C++, MFC, C#, ASP.NET WebForm, WinForm, AJAX, XML, XSLT

PERSONAL PROJECTS

- Fodbold TV Guiden is a Windows Phone 8 App that collects the football matches you can watch LIVE on Danish TV channels.

Technologies: Windows Azure Website, Windows Phone 8, ASP.NET Web API

- yuqingzhang.com is my personal website. It is backed by Windows Azure Storage Service.

Technologies: Windows Azure Storage, Python, BackboneJS

- SiteToAzureBlob lets you host a static website in your Windows Azure Storage Account.

Technologies: Windows Azure Storage, Python

- www.wecancarpool.com (BETA) enables people to organize and find the carpools.

Technologies: C#, ASP.NET MVC 3, Entity Framework 4.1, MySQL, Knockout.js, etc

EDUCATION

- Master Degree, Software Engineering, Tongji University, 9/2005 - 1/2008
- Guest Student, Computer Science, Aalborg University, 9/2006 – 6/2007

LANGUAGE SKILLS

- Native Chinese speaker
- Very good English language skills (oral and written)
- Get by in Danish (passed Prøve i Dansk 3)
