

Data Sheet

Cisco Unified Wireless IP Phone 7920, Version 2.0

The Cisco® Unified Communications system of voice and IP communications products and applications enables organizations to communicate more effectively—enabling them to streamline business processes, reach the right resource the first time and impact the top and bottom line. The Cisco Unified Communications portfolio is an integral part of the Cisco Business Communications Solution—an integrated solution for organizations of all sizes which also includes network infrastructure, security, and network management products, wireless connectivity, and a lifecycle services approach, along with flexible deployment and outsourced management options, end-user and partner financing packages, and third-party communications applications.

The power of the Cisco Unified Communications system extends throughout the enterprise by delivering a powerful converged wireless solution with intelligent wireless infrastructure and an innovative product with the latest version of the Cisco Unified Wireless IP Phone 7920-Version 2.0. The Cisco Unified Wireless IP Phone 7920 is an easy-to-use IEEE 802.11b wireless IP phone that provides comprehensive voice communications in conjunction with Cisco Unified CallManager and Cisco Unified CallManager Express. Increased security and faster roaming, plus extensible Markup Language (XML) applications to the display, are several of the enhancements to the Cisco Unified Wireless IP Phone 7920 Version 2.0.

Figure 1. Cisco Unified Wireless IP Phone 7920, Version 2.0

FEATURES

The Cisco Unified Wireless IP Phone 7920, Version 2.0, provides the latest version of our wireless IP phone for the Cisco Unified Communications system. The Cisco Unified Wireless IP Phone 7920 supports a host of calling features and voice quality enhancements. As the Cisco Unified Wireless IP Phone 7920 is designed to grow with system capabilities, features will keep pace with new system enhancements.

Table 1. Features

Feature	Description
Messages	Direct access to voice mail via Menu Key or Hot Key
Directories	The Cisco Unified Wireless IP Phone 7920, Version 2.0 identifies incoming messages, allowing users to quickly and effectively return calls using direct dial-back capability.
Features	6 multi-line appearance—extensions or speed dials
	Calling name and number display
	Call waiting
	Call forward
	Call transfer
	Three-way calling (Conference)
	Pre-dialing before sending
	Redial
	Call hold/resume
	Call mute
	Call park
	Call pick-up/group pick-up
	"You Have Voice Mail" message on display
	Hotkey for keypad lock
	Hotkey for voice-mail access
	9 speed dials configurable in the set
	Programmable speed-dial hotkeys 2–9
	Time/date display
	Idle/call state-based soft keys
	Keypad lock/vibration icon indicators
	RF and battery level indication
	 Comfort noise generation (CNG), voice activity detection (VAD), adaptive jitter buffer, and echo cancellation
	Language support: English, French, German in the first release
	Local phone book
Keys	• 2 Soft Keys to access screen-based applications, features and functions
	• Hold
	Mute
	• Menu
	Four-way rocker for display access
	Volume control
	Send and End/Power key
Display	128 X 80 pixel-graphical display
	Backlit

Feature	Description
Speaker/MIC	• Built-in
Alert	High frequency response ringer/vibration/visual display alerts
Multiple Ring Tones	There are more than 24 user-adjustable ring tones available.
Protocol Support	 Compatible with Cisco Unified CallManager Version 4.1, 4.0, 3.3 and later, and Cisco Unified CallManager Express Version 3.2, using the Skinny Client Control Protocol (SCCP)
	 Compatible with Cisco Unified Survivable Remote Site Telephony (SRST) Version 2.0 and later CCX Version 2.0
Codec Support	• G.711a, G.711µ and G.729a audio compression codecs
Configuration Options	 Dynamic Host Configuration Protocol (DHCP) client or statically configured Alternate TFTP Support Over-the-air firmware upgrades supported using Trivial File Transfer Protocol (TFTP) server
Network Features	 Cisco Discovery Protocol (CDP) Automatic IEEE 802.1q (Virtual LAN [VLAN]) configuration Site Survey, Trace Route (Hidden Feature), Seamless-Secure Roaming, and VLAN Support Provisioning of network parameters through Dynamic Host Configuration Protocol (DHCP)
Security	 Cisco Wireless Security Suite IEEE 802.1X Cisco LEAP authentication: Optional password prompt at power-up 40 and 128 bit static Wired Equivalent Privacy (WEP) Wi-Fi Protected Access (WPA) WPA Pre-shared Key (PSK) Cisco Centralized Key Management (CCKM) Temporal Key Integrity Protocol (TKIP) and Message Integrity Check (MIC) Optional phone lock password

WIRELESS CHARACTERISTICS

Table 2. Wireless Characteristics

Item	Description	
Wireless Access Protocol	IEEE 802.11b, Direct Sequence with Dynamic Rate Scaling at 1, 2, 5.5, 11 Mbps	
RF Channels	Up to 14 depending on regulatory domain. North America: 11, ETSI: 13, Japan: 14	
Frequency Range	2.4–2.497 GHz	
Wireless Output Power	100mW Effective Isotropic Radiated Power (EIRP) with scaling at 1, 5, 20, 50, 100mW	
Range	500-1000 ft/15-300 m indoors depending on environment	
Access Point Support	Cisco Aironet access points including the 1300, 1200, 1130, 1100, 1000 Lightweight, 350, and 340 series	

SPECIFICATIONS

Table 3. Specifications

Item	Description
Dimensions	• Phone: 5.2 x 2.1 x 1.0 in. (132.1 x 53.3 x 25.4 mm) (H x W x D)
	• Desktop Charger: 3.0 x 3.7 x 5.1 in. (75 x 93 x 129 mm) (H x W x D)
Weight	• 4.8 oz (136.1 g)
Power Supply	Standard 1440mA Li-ion battery life: 3.5 hour talk-time, 21 hour standby
	Extended 1960mA Li-ion battery life: 4.25 hour talk-time, 30 hour standby
	AC-adapters (by geographical region)
Operating Temperature	• 32°F to 113°F (0°C to 45°C)
Storage Temperature	• -22°F to 140°F (-30°C to 60°C)
Relative Humidity	• 10% to 95% (noncondensing)
Drop Specification	1 meter to concrete
Vibration	• 1.5 Grms maximum, 0.1" double amplitude @0.887 octaves per minute from 5-500-5 Hz sweep, 10 minute dwell on 3 major peaks, in each of the three major mutually perpendicular axes
Thermal Shock	• -30C 24 hours/+70C 24 hours
Headset Jack	• 2.5mm
Connector	USB secondary

ACCESSORIES

Table 4. Accessories

Item	Description
Accessories	Desktop charger with USB
	2.5mm ear-bud
	Choice of holster and full-cover carry cases
	W2K-based administration utility for quick phone configuration

WARRANTY

Cisco Unified IP phones are covered by a Cisco standard one year replacement warranty. A Cisco SMARTnet optional service agreement is available on the Cisco Unified Wireless IP Phone 7920 hardware only and not the accessories, such as batteries.

CISCO UNIFIED COMMUNICATIONS SERVICES AND SUPPORT

Using the Cisco Lifecycle Services approach, Cisco Systems* and its partners offer a broad portfolio of end-to-end services to support the Cisco Unified Communications system. These services are based on proven methodologies for deploying, operating, and optimizing IP communications solutions. Upfront planning and design services, for example, can help you meet aggressive deployment schedules and minimize network disruption during implementation. Operate services reduce the risk of communications downtime with expert technical support. Optimize services enhance solution performance for operational excellence. Cisco and its partners offer a system-level service and support approach that can help you create and maintain a resilient, converged network that meets your business needs.
