## **Introduction**

The Southern Nevada Regional Planning Coalition (SNRPC) and the Southern Nevada Water Authority (SNWA) are pleased to present this list of plants for the Southern Nevada region.

The original 2011 list was created by SNRPC's Regional Urban Forestry Working Group in conjunction with local experts including arborists, horticulturists, and urban foresters. Much of the effort was built on the foundations of excellent local resources such as the Nevada Division of Forestry's 2007 *Cleaner Air, Tree by Tree* and the 2005 Centennial edition of *Trees for Tomorrow*, a project of the High Desert Resource Conservation & Development Council. Both projects were made possible by grants from the Nevada Division of Forestry and the United States Forest Service.

The 2021 update was produced by a reconvened working group of local experts. The most notable revisions are to the Tree section, with an emphasis on deterring use of tree species poorly adapted to current and future conditions.

The intent of this list is to provide a single, region-wide reference for homeowners, landscape designers, architects and developers to select appropriate plants when designing their projects in the Las Vegas area. In addition, it is a tool for those who review those projects—such as city planners—to determine if those plants meet applicable codes and ordinances. Lastly, it contains information on plant canopy coverage, which is used by the SNWA in the Water Smart Landscapes incentive program.

Current and changing conditions in our region make proper plant selection more important than ever. The Las Vegas area is one of the fastest growing urban heat islands, and climate projections suggest it will become hotter and drier in the future. Choosing climate resilient plants that can survive and thrive in these conditions can help to moderate these effects to sustain and enhance quality of life in our community.

For the 2021 update, the Trees, Palms and Cycads sections now include a rating system from 0-4 stars, with 0 stars being inappropriate and 4 stars highly-appropriate for our region. A plant's rating is based on a number of important factors related to climate resilience such as environmental tolerances, water efficiency, drought tolerance, pathogen resistance and maintenance demands. Additional consideration was given to the potential for the plant to increase or decrease the diversity of our urban forest.

For example, *Prunus cerasifera* 'Atropurea' "Purple Leaf Plum" has a 0-star rating due to its heat sensitivity, poor drought tolerance, and susceptibility to pests. *Acacia aneura* "Mulga Acacia," on the other hand, has a 4-star rating because it is a well adapted desert plant with few pests, and it is not widely planted, so it has potential to diversify the urban forest.

This list is not intended to be a list of the only plants allowed in the region, nor is it intended to be an exhaustive, comprehensive list of all desert-appropriate plants. In addition, it is not intended to restrict what plants residents choose to plant in their yards. Rather, we hope that this list will help residents and developers make informed decisions about which plants to choose.

### **How to Use the List**

The list is divided between trees and other plants, including shrubs, groundcovers, vines, succulents and perennials. It is sorted alphabetically by botanical name and includes the common names of the plants. You may use "Ctrl+F" to search the document for any term. There are several columns of attributes that can be used to determine which plants are appropriate to use in specific situations.

For example, if an architect is looking to select a Mojave native shrub that can act as a screen or hedge, but is thornless and is highly drought tolerant, a quick look down the attributes reveals a couple of recommendations: *Asclepias subulata* "desert milkweed" and *Foresteria pubescens* (*neomexicana*) "desert olive," a.k.a. "New Mexico privet."

In another example, a city planner is reviewing a development application that shows an *Arbutus unedo* "strawberry tree." The tree list reveals this small tree is not appropriate as a parking lot tree, and the planner is able to recommend several other species that will serve that purpose.

### **Process for Review and Amendment**

The SNWA/SNRPC Plant List is intended to be a living document and will therefore be open to periodic review and amendment. Requests to add plants or modify information must be submitted to the SNWA Conservation Division by emailing [conservation@snwa.com](mailto:conservation@snwa.com). Requests should include the following information at a minimum:

1. the applicant's name and contact information
2. the botanical and common name(s) of the plant(s) to be considered
3. reasons for the plant(s) or characteristics to be considered, and any supporting documentation.
4. For new plants, supporting documentation shall include the plants' proposed attributes as well as information regarding the plants' history and performance in similar climates
5. Supporting documentation must be verified by a certified arborist or horticulturist.

KEY		"Bulletproof"	Height (average)	Width (average)	Coverage	Type	Growth Rate	Water Use	Drought Tolerance	Spines or Thorns	Physical Barrier	Hedge or Screen	Exposure	COMMENTS
"Bulletproof": Extremely drought tolerant, cold hardy, and pest and disease resistant once established.	Comments: 1. Organic mulch recommended. 2. Many cultivars. 3. Some species may form dense thickets. 4. Not cold hardy below 28°F. 5. Invasive species. 6. Mojave native. 7. Toxic (parts specified). 8. May be trained as a small tree. 9. Needs a protected site (north facing site or afternoon shade).

KEY		"Bulletproof"	Height (average)	Width (average)	Coverage	Type	Growth Rate	Water Use	Drought Tolerance	Spines or Thorns	Physical Barrier	Hedge or Screen	Exposure	COMMENTS	
"Bulletproof": Extremely drought tolerant, cold hardy, and pest and disease resistant once established.	Comments: 1. Organic mulch recommended. 2. Many cultivars. 3. Some species may form dense thickets. 4. Not cold hardy below 28°F. 5. Invasive species. 6. Mojave native. 7. Toxic (parts specified). 8. May be trained as a small tree. 9. Needs a protected site (north facing site or afternoon shade).

<i>Sphaeralcea ambigua</i>	Globe Mallow	• 3	3	7	S	F	L	H	N	N	N	N	F, P, S	2, 6	
<i>Stanleya pinnata</i>	Desert Prince's Plume	• 4	3	7	D	F	VL	H	N	N	N	N	F	6	
<i>Tagetes lemmonii</i>	Mountain Marigold		4	4	13	S	F	M	M	N	N	N	F		
<i>Tagetes lucida</i>	Mexican Tarragon, Mexican Marigold		3	3	7	S	M, F	M	M	N	N	N	F, P		
<i>Tetranneuris acaulis (=Hymenoxys)</i>	Angelita Daisy	• 1	1	1	E	M	L, M	M	N	N	N	N	F, P		
<i>Thymophylla pentachaeta (=Dyssodia)</i>	Golden Dogbane, Golden Dyssodia	• 1	2	3	E	F	VL	H	N	N	N	N	F	6	
<i>Thymophylla tenuiloba (=Dyssodia)</i>	Dahlberg Daisy	• 1	1	1	E	S	L	H	N	N	N	N	F		
<i>Tulbaghia violacea</i>	Society Garlic		1	1	1	S	M	M	M	N	N	N	F, P		
<i>Viguiera parishii (=deltoidea)</i>	Goldeneve	• 3	3	7	S	M	VL	H	N	N	N	N	F	6	
<i>Xylorhiza tortifolia</i>	Mojave Aster	• 1	1	1	D	M	VL	H	N	N	N	N	F	6	
<i>Zinnia acerosa</i>	Desert Zinnia	• 1	1	1	D	F	L	H	N	N	N	N	F, P		
<i>Zinnia grandiflora</i>	Prairie Zinnia		1	1	1	D	F	L	H	N	N	N	F, P		
<b>PLANTS WITH SPECIAL NEEDS (NOT SUITABLE FOR ALL LOCATIONS)</b>															
Shrub	<i>Asparagus densiflorus 'Meyers'</i>	Foxtail Fern		2	3	7	E	M	M	L	N	N	N	P, S	1
Groundcover	<i>A. d. 'Sprengerii'</i>	Asparagus Fern		2	4	13	E	M	M	M	N	N	N	P, S	1, 4
Shrub	<i>Aspidistra elatior</i>	Cast Iron Plant		2	2	3	E	M	H	L	N	N	N	S	1
Shrub	<i>Aucuba japonica 'Variegata'</i>	Gold Dust Plant		8	8	50	E	S	M	M	N	N	N	S	1
Shrub	<i>Berberis aquifolium (=Mahonia)</i>	Oregon Grape		4	5	20	E, S	S	L	M	Y	Y	Y	P, S	1
Vine	<i>Bougainvillea</i> sp.	Bougainvillea		10	5	20	D	M	M	M	Y	Y	N	S	4

KEY			Comments:													COMMENTS
"Bulletproof": Extremely drought tolerant, cold hardy, and pest and disease resistant once established.			1. Organic mulch recommended. 2. Many cultivars. 3. Some species may form dense thickets. 4. Not cold hardy below 28°F. 5. Invasive species. 6. Mojave native. 7. Toxic (parts specified). 8. May be trained as a small tree. 9. Needs a protected site (north facing site or afternoon shade).
