# Liquid for cartridge and printing head cleaning

Ink code meaning

## CW-EP660(BK)01

- Compatibility with printing devices:  
B - Brother, C - Canon, E - Epson, H - HP
- Ink type:  
P - pigment ink  
U - improve light resistance ink  
W - dye ink
- Ink series
- Ink color:  
  - BK - black
  - C - cyan
  - M - magenta
  - LC - light cyan
  - LM - light magenta
  - Y - yellow
- Ink Volume  
(01-100 ml, 02-200 ml, 1 - 1L, 20 - 20 kg)

Improved light resistance of ink

## Do not limit yourself with printing of 10x15 photo!

Everyone knows that brilliant picture or photo can be a great part of any interior. The most available format for printing of picture reproduction or photo is A4. But what if that is not enough? Do you think that on home printer you can print only 10x15 and A4 formats?

**Do you know that common Epson printer of A4 format gives an ability to print panoramic photo with length up to 1176 mm and Canon printers up to 676 mm?**

Specially for printing of massive and nonstandard formats TM Colorway offers the series of roll photo paper of different formats and types.

**29,7 x 117 cm**

## Make masterpiece with your own hands!

Art canvas is a cotton basis with polymeric cover for inkjet printing that imitates the cloth texture. Perfectly fits for printing of piece of art made in a way of gouache, watercolor, graphics. Photo or reproduction printed on a cloth can be a great decoration of any interior!

**JUST PRINT SELECTED PICTURE ON ART CANVAS, PUT IT ON AN UNDERFRAME WITH HELP OF STAPLER, THEN PUT IT IN FRAME AND ENJOY YOUR MASTERPIECE!**

## Equipment for cartridges cleaning YDX-04H

Code:

**YDX-04H**

Scope of use:

It is used for cleaning and reconstruction of toner cartridges

Product features:

1. Two vertical cylindrical filters with improved performance. Capacity 3000 hours;
2. Antistatic HEPA filter with polyester fiber that provides a high rate of durability;
3. Special dust and explosion-proof centrifugal fans;
4. Fluctuating system of backwash for filter cleaning;
5. Double filtration (2-steps filter) that helps to catch particles up to 0.3 micron. Thanks to this an effectiveness of cleaning is 99.97%;
6. A hose for connection the station to compressor (compressor is not included to equipment content);
7. Adjustor with power regulation of air flow;
8. Additional reducer with dehumidified for providing an air supply stability;
9. Removable container on wheels for used toner.

### Technical features:

Input voltage	~220 B ±10 B, 50~60 Hz
Air pressure	0,4~0,7 MPa
Work air pressure	+2-10 atm
Rated power	1.5 kw
Filter precision	≤0.3 mkm
Filter efficiency	99.97%
Size (mm)	650(L) x 780(W) x 1680(V)

Note:

Features and appearance may vary from the shown or might be changed by manufacturer without web site display.

## HEPA filter

Code:

**HepaF**

Scope of use:

It is used for cartridges cleaning equipment

Product features:

HEPA filters are composed of a mat of randomly arranged fibers. The fibres are typically composed of fiberglass and possess diameters between 0.5 and 2.0 micrometers. Key factors affecting function are fiber diameter, filter thickness and face velocity. The air space between HEPA filter fibers is much greater than 0.3 μm

## Vertical cylindrical filter

Code:

**FV1**

Scope of use:

It is used for cartridge cleaning equipment

## Toner Packing machine YDX-06TS

Code:

**YDX-06TS**

Scope of use:

It is used for packing of different type of toner.

Product features:

That is the first machine on the market that have built-in toner filling system with storage and automatic rollover.

1. Compact size and easy support. It completely exceeds features of traditional machine with automatic rollover in design, size, support and costs;
2. Fast and easy adding of toner, ecologically safe. Put a toner bag in storage and press rollover button, after this toner is delivered to toner exit in closed way, no pollution and electrostatics on machine;
3. Conversion method of frequency control;
4. Two ways of filling control: weight and time;
5. With suction mechanism on the toner exit, can collect completely the dust that is generated during filling of toner.

### Technical features:

Input voltage	220 V
Rated Power	400 w
Storage volume	20 kg
Filling volume	from 10 to 5000 g
Filling rate	15-20 g/sec
Filling accuracy	±0,2-1 g (weight), ±1,5 g (time)
Weight	70 kg

Note:

Features and appearance may vary from the shown or might be changed by manufacturer without web site display.

# Cleaning kits

● CW-4130

Cleaning kits of TM ColorWay are new solution in device and delicate surfaces care. Cleaning sets, brushes, wipes and cleaning kits are all tools for maximum cleaning of different types of pollution.

# Vibro speakers

Vibro speakers of TM ColorWay is a new product! Enjoy your favorite music with friends at any time and place!

**New stylish device for phones,  
i-devices, mp-3 and laptops!**

Ø 35 mm  
weight < 60 g

Vibro speaker of TM ColorWay is a ball with diameter 35 mm and a weight of 60 g. Convenient and portable device that turns any thing into speaker. Attach as a trinket to your keys and you always have your sound system with you. Just connect vibro speaker of TM ColorWay to your lovely audio device and stick to resonant thing! Do not get surprised but result is staggering: loud and quality sound with vibro speaker of TM ColorWay.

# Vibro speakers

2 types of connection:

**CW-002**

3,5 mm stereo jack

**CW-003**

Dock jack  
iPhone/iPad/iPod
