

Sound Blaster Play!

Big sound, small size.

Upgrade to high quality sound in seconds with Sound Blaster Play. Simply connect to your USB port - no drivers required! Installing the software enables the full features including CMSS to upmix all your favourite music and movies to virtual surround. For gamers, the 3D virtual surround and EAX Advanced HD sound effects are so realistic you will feel like you're actually in the game. Creative ALchemy restores surround sound for your Windows XP® games in Windows Vista®. Its compact portable design with high quality microphone and headphone connectivity for online communications make it the ideal upgrade for your notebook or desktop.

- **Simple to install upgrade from low quality onboard audio to Sound Blaster quality audio improves your music, movies and gaming sound.**
- **CMSS upmixes music, movies and games to virtual surround sound.**
- **EAX Advanced HD for support in over 400 games and Creative Alchemy to restore surround sound for Windows XP games in Windows Vista.**
- **USB design works with any Notebook or Desktop**
- **Works without drivers for basic features and includes software for full features.**
- **Compact size for portability ensures quality audio wherever you go.**
