

HP Jetdirect ew2400

802.11g Wireless and Fast Ethernet External Print Server

Sharing network-capable HP printers is a snap with this Hi-Speed USB combination wireless and wired external print server.

Flexible

- **Print with or without wires.** Get the best of both worlds, and share HP printers and multi-function products (MFPs) via either wireless or wired networks. Along with 802.11b/g wireless capability, the print server supports Fast Ethernet wired networking for versatile printer sharing.
- **Set your printer free.** As the hub of all your printing jobs, the print server eliminates the need for a PC wholly dedicated to print sharing. And because the printer won't need a network cable or jack, it offers the option for more convenient printer placement around the office.

Compatible

- **Connect with Hi-Speed USB.** Easily share network-capable HP printers and MFPs with USB and Hi-Speed USB ports. The print server supports all network features of HP MFPs, including network scanning and digital sending.
- **Easily share your printer in a wireless network.** The print server is Wi-Fi certified for compatibility with 802.11b/g wireless networks, so your network-capable HP printer will work reliably in a wireless environment. It also supports both Microsoft® and Apple operating systems for smooth integration into your existing network.

- **Send data securely.** The HP Jetdirect ew2400 External Print Server ensures secure 802.11b/g wireless transmission of data, with support for the WPA-Personal security standard and WEP encryption (40/64- and 128-bit), allowing you to transmit information with peace of mind.

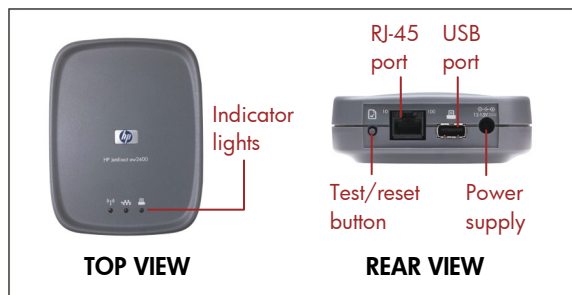

Simple installation and use

- **Set up quickly.** The HP Jetdirect ew2400 External Print Server is easy to install: the HP Install Network Printer Wizard and a Setup Poster will guide you through the process in just a few mouse clicks. Wireless networking can be set up via wireless or wired methods—and with USB and Ethernet cables included in the box, you can immediately install, set up, and get straight to business.
- **Manage your printers remotely.** Equipped with an embedded Web server, the print server offers one-to-one network configuration and management as well as useful printer information and diagnostics—all from any standard Web browser.
- **Get status information at a glance.** The print server features simple status indicator lights and a test button to assist in set up and ensure seamless operation.

HP printing and imaging systems help you create powerful, professional communications easily. HP printers, supplies, accessories, and services are designed to work together and are invented to meet your business needs.
