I materiali tessili utilizzati per la linea di sistemazione Vita sono realizzati con almeno il 50% di plastica riciclata e certificata da post-consumo domestico. Textile Exchange, tramite lo standard GRS, verifica e garantisce il contenuto di materiali da riciclo nei prodotti e il rispetto di criteri ambientali e sociali, obbligatoriamente adottati lungo tutte le fasi della filiera produttiva.

The fabric materials used for our Vita storage range are made with at least 50% of post-consumer certified recycled plastic. Textile Exchange, through GRS standard, check and guarantee the use of recycled materials on every product, ensuring as well the respect of environmental and social criteria, along every step of the production chain.

Protezione naturale della lana.
 Il legno di cedro rosso americano è conosciuto per la sua gradevole fragranza ed è largamente utilizzato come profumatore e come rimedio naturale contro tarme ed insetti. Ideale dentro armadi e cassetti. I nostri prodotti sono realizzati interamente in legno certificato FSC®

Natural wool protection.
 Aromatic Red Cedar wood is well-known for its distinct scent, and it's widely used to naturally repel moths and other insects. Ideal inside wardrobes and drawers. Our items are entirely made of FSC® certified wood.

100% BAMBOO

Il Bambù è un'alternativa ecocompatibile al legno tradizionale.

- Il bambù è un'erba perenne. Dopo il taglio continua a diffondersi e crescere senza dover essere ripiantato.
- Il bambù previene la deforestazione. Cresce infatti in soli 3-5 anni, rispetto agli alberi che impiegano molti anni a raggiungere la maturità.
- Viene coltivato senza pesticidi o fertilizzanti chimici.
- Il bambù rilascia il 35% di ossigeno in più nell'atmosfera rispetto ad una equivalente area di alberi.

Bamboo is an environmentally-friendly alternative to traditional wood.

- Bamboo is a perennial grass, not a wood, and it continues spreading and growing without having to be replanted after harvest.
- Bamboo prevents deforestation. It can grow in just 3-5 years, compared to other trees which take years and years to grow to maturity.
- It is grown without pesticides or chemical fertilisers
- Bamboo releases 35% more oxygen into the atmosphere than an equivalent hardwood trees.
