[APPENDIX 3. RARE SPECIES SIGHTING FORM](#)

## INTRODUCTION

The Virginia Department of Conservation and Recreation's Division of Natural Heritage (DCR-DNH) was established in 1986 to protect Virginia's biological diversity. DCR-DNH's work focuses on science-based conservation to protect Virginia's native plant and animal life and the ecosystems upon which it depends. Scientists collect data on natural communities and rare plants and animals, develop land conservation data and online mapping tools, and provide up-to-date information to enable timely conservation decisions. Virginia's Natural Area Preserve System provides long-term protection and outdoor recreation access to some of the state and the planet's most ecologically important lands. In collaboration with our partners, DCR-DNH's work focuses on ensuring the conservation of Virginia's common, rare and endangered species and ecosystems. As a member of [NatureServe](#), DCR's Natural Heritage Program also contributes to an understanding and conservation of our global biodiversity.

The first step in conservation is identifying and prioritizing what needs protecting. DCR-DNH identifies Natural Heritage Resources (NHR) which are in need of conservation attention. NHR are defined in the Virginia Natural Area Preserves Act of 1989 ([Section 10.1-209 through 217, Code of Virginia](#)), as the habitat of rare, threatened, and endangered plant and animal species; exemplary natural communities, habitats, and ecosystems; and other natural features of the Commonwealth.

To prioritize this protection, DCR-DNH maintains lists of the most significant elements of our natural diversity. These lists and reports, developed for plants and lichens, animals, and natural communities, focus the Division's inventory on the elements of biodiversity most likely to be lost without conservation action in the near future. Most importantly, these lists are not only useful for DCR-DNH, but can be used by other agencies, organizations, and individuals to guide protection and inform land-use decisions. In formulating this list of rare plants and lichens, the Division uses information from previous studies, museum records, the observations and opinions of experts, DCR-DNH staff scientists, and field inventories.

The first section included in this report consists of three lists: Rare Vascular Plants, Rare Nonvascular Plants, and Rare Lichens. The nonvascular (liverworts and mosses) and lichens listed herein represent an attempt at designating imperiled species within these often-neglected groups. The lists are currently small compared to the vascular plant lists because the taxonomy and distributions of nonvascular plants are generally poorly known in Virginia at this time (with some exceptions).

Taxa placed on the rare lists are considered to be sufficiently rare or threatened in Virginia to merit tracking their status and population trends and conducting field inventory to locate new occurrences or update known occurrences. ‘Sufficiently rare’ includes species with conservation status ranks of G1 through G3 and/or S1 through S2 (See [NatureServe Explorer](#) for detailed definitions), and/or are listed as threatened or endangered by the Commonwealth of Virginia (see [Virginia Department of Agriculture and Consumer Services](#)) or under the U.S. Endangered Species Act (see [U.S. Fish and Wildlife Service](#)). Each list is presented with information on the conservation and legal status of each vascular ( $n = 642$ ) and nonvascular plant ( $n = 84$ ) and each lichen ( $n = 32$ ).

The second section is the Vascular Plant Watchlist. The watchlist contains information on the conservation and legal status of 235 additional vascular taxa that are decidedly uncommon in Virginia but are not scarce enough to merit inclusion on the Rare Vascular Plant List. Plants on this list are monitored to determine general population trends and potential threats. Some species included on the Plant Watchlist were formerly on the Rare Plant List but have been determined to be more common than previously believed. Other species on the Watchlist are declining and may warrant placement on the Rare Plant List in the future if their populations continue to decline. There is no watchlist for non-vascular plants or lichens at this time.

The third section included in this report is the Review List (Taxa of Uncertain Status). These taxa lack numerical ranks, indicating that they are poorly known from a taxonomic and distributional standpoint. Although some of these taxa may prove to be conservation targets, more field and herbarium data are needed to assess their distinctiveness and degree of rarity in Virginia. There are 46 taxa in this category.

Several appendices are provided to aid in summarizing or highlighting the status of certain species. Appendix 1 summarizes the taxa which are officially protected by federal or state endangered species acts (all are also included within the rare species lists). Federally listed species are protected by the Endangered Species Act of 1973, as amended. The U.S. Department of the Interior’s [Fish and Wildlife Service](#) administers the Act, listing and protecting federally endangered and threatened species. The [Virginia Plant and Insect Species Program](#) within the Virginia Department of Agriculture and Consumer Services (VDACS) has regulatory responsibility for the listing and protection of Virginia’s endangered and threatened plants and insects under the Virginia Endangered Plant and Insect Species Act, as amended ([Section 3.1 - 1020 through 1030, Code of Virginia](#)). The Act provides for the official listing and recovery of endangered and threatened plant and insect species in Virginia. The Act also establishes a permit system for collection of listed species. A memorandum of agreement between DCR-DNH and VDACS facilitates data transfer between agencies and allows for DCR-DNH to nominate species for listing by VDACS. As of this publication, there are 19 federal and 35 state

listed plant and lichen species in Virginia. One species included in this count, *Panax quinquefolius* (Ginseng), is state listed but appears on the DCR-DNH watchlist.

Appendix 2 highlights which species have had a change in rank or status since the previous list. Natural Heritage Resource lists are necessarily dynamic and are revised frequently, with updates occurring as data become available. Such revisions assure the most current knowledge of the status of Virginia's plants. Taxa are added to the list when it is determined that they have become rare or threatened to such an extent that their continued existence in Virginia is in jeopardy. Plants are removed from the list when data indicate they are common and do not warrant priority conservation efforts.

If you have information which could refine this list, please contact DCR-DNH staff botanist John Townsend at (804) 225-4855 (email: [john.townsend@dcr.virginia.gov](mailto:john.townsend@dcr.virginia.gov)) or by filling out the [Rare Species Sighting Form](#) (see also Appendix 3).

## LIST FORMAT

Lists for each category (vascular plants, nonvascular plants, and lichens) are alphabetized by scientific name. Each list has an identical format which presents six fields: scientific name, common name, global rank, state rank, federal status, and state status. To aid in the interpretation of the lists, a brief explanation of each field and a summary of abbreviations follow.

### **Column 1. Scientific name:**

Nomenclature for vascular plants almost exclusively follows Weakley, A.S., J.C. Ludwig, J.F. Townsend, and G.P. Fleming. 2020. Flora of Virginia. With significant additions and updates. Bland Crowder, ed. Mobile app. Foundation of the Flora of Virginia Project Inc., Richmond, and High Country Apps, Bozeman, Montana. A line is provided below the scientific name to provide synonyms when other names are used in popular botanical references.

Nomenclature for lichens follows Esslinger, T.L. 2014. A cumulative checklist for the lichen-forming, lichenicolous and allied fungi of the continental United States and Canada. North Dakota State University: <http://www.ndsu.edu/pubweb/~esslinge/chcklst/chcklst7.htm> (First Posted 1 December 1997, Most Recent Version (#19) 23 March 2014), Fargo, North Dakota.

Nomenclature for liverworts follows the Field Museum taxonomy module, located at:  
[http://emuweb.fieldmuseum.org/botany/taxonomic.php?\\_ga=1.125124173.613149090.1423754725](http://emuweb.fieldmuseum.org/botany/taxonomic.php?_ga=1.125124173.613149090.1423754725)

Nomenclature for mosses follows volumes 27 and 28 of Flora of North America, North of Mexico (Bryophytes, Part 1 and Part 2).

## **Column 2. Common name:**

A common name is provided for the convenience of the user. Common names for plants follow Weakley, A.S., J.C. Ludwig, J.F. Townsend, and G.P. Fleming. 2020. Flora of Virginia. With significant additions and updates. Bland Crowder, ed. Mobile app. Foundation of the Flora of Virginia Project Inc., Richmond, and High Country Apps, Bozeman, Montana.

## **Column 3. Global rank:**

Global ranks are assigned by NatureServe and its member programs (including DCR-DNH) and collaborators. They use a rigorous, consistent, and transparent methodology to assess the conservation status (extinction or extirpation risk) of species of plants, animals, and fungi, as well as the conservation status (elimination or extirpation risk) of ecosystems (ecological communities and systems). For plants and lichens, global ranks (a.k.a., 'G-rank') designate a rarity rank based on the range-wide status of a species or variety. The ranks are assigned after considering a suite of factors, including number of occurrences, number of individuals, and severity of threats. Visit [NatureServe's website](#) to learn more about the methodology. Each rank is defined below (Source: NatureServe Explorer, 2020. Statuses. Accessed at <https://explorer.natureserve.org/AboutTheData/Statuses>):

G1 = Critically Imperiled — At very high risk of extinction or elimination due to very restricted range, very few populations or occurrences, very steep declines, very severe threats, or other factors.

G2 = Imperiled — At high risk of extinction or elimination due to restricted range, few populations or occurrences, steep declines, severe threats, or other factors.

G3 = Vulnerable — At moderate risk of extinction or elimination due to a fairly restricted range, relatively few populations or occurrences, recent and widespread declines, threats, or other factors.

G4 = Apparently Secure — At fairly low risk of extinction or elimination due to an extensive range and/or many populations or occurrences, but with possible cause for some concern as a result of local recent declines, threats, or other factors.

G5 = Secure — At very low risk of extinction or elimination due to a very extensive range, abundant populations or occurrences, and little to no concern from declines or threats.

GH = Possibly Extinct — Known from only historical occurrences but still some hope of rediscovery. Examples of evidence include (1) that a species has not been documented

in approximately 20-40 years despite some searching and/or some evidence of significant habitat loss or degradation; (2) that a species has been searched for unsuccessfully, but not thoroughly enough to presume that it is extinct or eliminated throughout its range.

GX = Presumed Extinct — Not located despite intensive searches and virtually no likelihood of rediscovery

GU = Unrankable — Currently unrankable due to lack of information or due to substantially conflicting information about status or trends. NOTE: Whenever possible (when the range of uncertainty is three consecutive ranks or less), a range rank (e.g., G2G3) should be used to delineate the limits (range) of uncertainty.

G\_? = Inexact Numeric Rank—Denotes inexact numeric rank (e.g. G3?)

G\_Q = Questionable taxonomy - Taxonomic distinctiveness of this entity at the current level is questionable; resolution of this uncertainty may result in change from a species to a subspecies or hybrid, or the inclusion of this taxon in another taxon, with the resulting taxon having a lower conservation priority (e.g., G3Q).

G\_T\_ = Infraspecific Taxon — The status of infraspecific taxa (subspecies or varieties) are indicated by a "T-rank" following the species' global rank. Rules for assigning T-ranks follow the same principles outlined above. For example, the global rank of a critically imperiled variety of an otherwise widespread and common species would be G5T1.

GNR = Unranked – Global rank not yet assessed.

GNA = Not Applicable — A conservation status rank is not applicable because the species or ecosystem is not a suitable target for conservation activities. A global conservation status rank may be not applicable for several reasons, related to its relevance as a conservation target. For species, typically the species is a hybrid without conservation value, or of domestic origin.

#### **Column 4. State rank:**

State ranks (a.k.a., S - rank) for plants and lichens are assigned by DCR-DNH Staff Botanist and incorporate similar methods used to assign global ranks, but consider only those factors within the political boundaries of Virginia. For example, whereas a plant which is endemic to Virginia (found nowhere else) will have the same global and state ranks, a plant which may be common in the northeastern United States, but only known from a few occurrences in Virginia will have different global and state ranks. By comparing the global and state ranks, the status, rarity, and the urgency of conservation needs can be ascertained.

S1 = Critically Imperiled— At very high risk of extirpation in the jurisdiction due to very restricted range, very few populations or occurrences, very steep declines, severe threats, or other factors.

S2 = Imperiled — At high risk of extirpation in the jurisdiction due to restricted range, few populations or occurrences, steep declines, severe threats, or other factors.

S3 = Vulnerable— At moderate risk of extirpation in the jurisdiction due to a fairly restricted range, relatively few populations or occurrences, recent and widespread declines, threats, or other factors.

S4 = Apparently Secure— At a fairly low risk of extirpation in the jurisdiction due to an extensive range and/or many populations or occurrences, but with possible cause for some concern as a result of local recent declines, threats, or other factors.

S5 = Secure— At very low or no risk of extirpation in the jurisdiction due to a very extensive range, abundant populations or occurrences, with little to no concern from declines or threats.

SH = Possibly Extirpated – Known from only historical records but still some hope of rediscovery. There is evidence that the species or ecosystem may no longer be present in the jurisdiction, but not enough to state this with certainty. Examples of such evidence include (1) that a species has not been documented in approximately 20-40 years despite some searching and/or some evidence of significant habitat loss or degradation; (2) that a species or ecosystem has been searched for unsuccessfully, but not thoroughly enough to presume that it is no longer present in the jurisdiction.

SX = Presumed Extirpated—Species is believed to be extirpated from the state. Not located despite intensive searches of historical sites and other appropriate habitat, and virtually no likelihood that it will be rediscovered. Currently, there is only one plant species with a rank of SX, *Rhynchospora pallida*.

SU = Unrankable—Currently unrankable due to lack of information or due to substantially conflicting information about status or trends.

S\_? = Inexact Numeric Rank - Denotes inexact numeric rank (e.g., S3?).

S\_S\_ = Rank is uncertain, but considered to be within the indicated range of ranks (e.g., S2S4).

SNR = Unranked—State conservation status not yet assessed.

SNA = Not Applicable —A conservation status rank is not applicable because the species is not a suitable target for conservation activities (e.g., hybrids without conservation value and non-native species).

## **Column 5. Federal Status:**

Federal Status is determined by the U. S. Fish and Wildlife Service. This includes all species and varieties which are listed as endangered or threatened by the U. S. government and receive protection under the federal Endangered Species Act. The list also notes those taxa which are proposed for listing or are candidates for listing.

LE = Listed Endangered - A taxon is threatened with extinction throughout all or a significant portion of its range.

LT = Listed Threatened - A taxon is likely to become endangered in the foreseeable future.

PE = Proposed Endangered - A taxon is proposed for listing as endangered.

PT = Proposed Threatened - A taxon is proposed for listing as threatened.

C = Candidate - There is enough available information to propose the taxon for listing, but listing is "precluded by other pending proposals of higher priority". The U.S. Fish and Wildlife Service is "directed to make prompt use of the emergency listing if the well-being of any such species is at significant risk." (Formerly Candidate, Category 1)

\_\* = An \* following the status denotes that the species or variety is possibly extinct.

## **Column 6. State Status:**

State status indicates those plants which are listed as state endangered or threatened under the authority of the Virginia Department of Agriculture and Consumer Services.

LE = Listed Endangered

LT = Listed Threatened

PE = Proposed Endangered

PT = Proposed Threatened

C = Candidate for listing as threatened or endangered. There is enough available information to propose the species for listing, but listing is "precluded by other pending proposals of higher priority". (Formerly Candidate, Category 1)

The following tables summarize the ranks and legal status of the rarest vascular and nonvascular plants, and lichens tracked by DCR-DNH.

Summary of the rarest vascular and nonvascular plants, and lichens by Global and State Ranks

Rank <sup>a</sup>	Vascular Plants	Nonvascular Plants	Lichens
GH	1	0	0
G1	27	0	2
G2	35	5	3
G3	74	23	6
SX	1	0	0
SH	85	34	6
S1	432	46	23
S2	125	4	3

a: Rounded ranks (e.g., G1G2 is combined with G1, S2S3 with S2, G2G4 is treated as G3, S1S3 is treated as S2, etc.); also T ranks are treated as equivalent to G ranks for the purposes of this table.

#### Summary of vascular and nonvascular plants, and lichens by federal and state legal status

Legal Status <sup>b</sup>	Vascular Plants	Nonvascular Plants	Lichens
FE	8	0	1
FT	9	0	0
PFE	0	0	0
SE	19	0	0
PSE	0	0	0
ST	16	0	0

PST	0	0	0
-----	---	---	---

b: FE = Federally Endangered; FT = Federally Threatened; SE = State Endangered; PSE = Proposed State Endangered; ST = State Threatened; PST = Proposed State Threatened.

### Acknowledgements

The Virginia Department of Conservation and Recreation, Virginia Department of Agriculture and Consumer Services, and U. S. Fish and Wildlife Service work cooperatively to insure the continued survival of Virginia's diverse flora and other elements of natural diversity. The Division of Natural Heritage also works closely with other state and federal agencies, local governments, conservation organizations, and other organizations and individuals to seek adequate protection of Virginia's natural heritage. Projects such as this tracking list and all associated conservation activities are best completed in collaboration with our partners. We are grateful and privileged to work with such professionals. We are grateful to NatureServe for all they do to support us and fellow Network members. Megan Rollins was instrumental in developing this document.

<b>VASCULAR PLANTS</b>					
<i>Steironema quadriflorum</i> (Sims) A. S. Hitchc. = <i>Lysimachia quadriflora</i> Sims	Prairie loosestrife	G5?	S1		
<i>Steironema radicans</i> (Hooker) A. Gray = <i>Lysimachia radicans</i> Hook.	Trailing Loosestrife	G4G5	SH		
<i>Stellaria alsine</i> Grimm	Bog chickweed	G5	S1		
<i>Stenanthium densum</i> (Desrousseaux) Zomlefer & Judd	Dense-flowered camas	G5	S1		
<i>Stenanthium leimanthoides</i> (Gray) Zomlefer & Judd	Pinebarrens death-camas	G4Q	S1		
<i>Stewartia ovata</i> (Cav.) Weatherby	Mountain Camellia	G4	S2		
<i>Stillingia sylvatica</i> Garden ex L. ssp. <i>sylvatica</i>	Queen's-delight	G5T5	S1		
<i>Stipulicida setacea</i> Michx.	Pineland scalypink	G4G5	S1		
<i>Streptopus amplexifolius</i> (L.) DC.	White Mandarin	G5	S1		
<i>Stylophorum diphyllum</i> (Michx.) Nutt.	Celandine Poppy	G5	S2		
<i>Sullivantia sullivantii</i> (Torr. & Gray) Britt.	Sullivantia	G4	S1		
<i>Symphoricarpos albus</i> (L.) Blake var. <i>albus</i>	Common snowberry	G5T5	S1		
All native Virginia <i>S. albus</i> is var. <i>albus</i> , non-native material is <i>S. albus</i> var. <i>laevigatus</i> (Fern.) Blake					
<i>Symphyotrichum elliottii</i> (Torr. & Gray) Nesom	Elliott's Aster	G4	S1		
<i>Symphyotrichum praealtum</i> (Poir.) Nesom var. <i>angustior</i> (Wieg.) Nesom	Willow-leaf aster	G5T4	S1		
<i>Symphyotrichum pratense</i> (Raf.) Nesom	Western silvery aster	G4?	S1		
<i>Symphyotrichum schistosum</i> (E.S. Steele) G.L. Nesom = <i>Symphyotrichum x schistosum</i> (Steele) Nesom	Millboro Aster	GNA	S1		
<i>Symphyotrichum shortii</i> (Lindl.) Nesom = <i>Aster shortii</i> Lindl.	Short's Aster	G5	S1		
<i>Synandra hispidula</i> (Michx.) Baill.	Gyandotte Beauty	G4	S2		
<i>Taxodium ascendens</i> Brongn.	Pondcypress	G5	S1		
Largest population contains trees transitional to <i>T. distichum</i>					
<i>Tetragonotheca helianthoides</i> L.	Squarehead	G5	S1		
<i>Thalictrum macrostylum</i> Small & Heller	Small-leaved meadow-rue	G3G4	S1		
<i>Tillandsia usneoides</i> (L.) L.	Spanish-moss	G5	S1S2		
<i>Toxicodendron rydbergii</i> (Small ex Rydb.) Greene	Western Poison Ivy	G5	S1		
<i>Triadenum fraseri</i> (Spach) Gleason	Fraser's Marsh St. John's-wort	G5	S2		

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>VASCULAR PLANTS</b>					
= <i>Hypericum fraseri</i> (Spach) Steudel					
<i>Triadenium tubulosum</i> (Walt.) Gleason	Lesser marsh St. John's-wort	G4?	S2		
= <i>Hypericum tubulosum</i> Walt.					
<i>Triantha glutinosa</i> (Michx.) Baker	Sticky false asphodel	G5	S1		
= <i>Tofieldia glutinosa</i> (Michx.) Pers.					
<i>Triantha racemosa</i> (Walt.) Small	Coastal false asphodel	G5	SH		
= <i>Tofieldia racemosa</i> (Walt.) B.S.P.					
<i>Trichostema setaceum</i> Houtt.	Narrow-leaf blue curls	G5	S2		
<i>Tridens chapmanii</i> (Small) Chase	Chapman's purpletop	G5T3	S1		
= <i>Tridens flavus</i> var. <i>chapmanii</i> (Small) Shinners					
<i>Trifolium calcaricum</i> Collins & Wieboldt	Running Glade Clover	G1	S1		LE
<i>Trifolium reflexum</i> L.	Buffalo Clover	G3G4	S1		
<i>Trillium cernuum</i> L.	Nodding Trillium	G5	S2		
<i>Trillium flexipes</i> Raf.	Drooping Trillium	G5	SH		
<i>Trillium nivale</i> Riddell	Snow Trillium	G4	S1		
<i>Trillium pusillum</i> Michx. var. <i>virginianum</i> Fern.	Virginia Least Trillium	G4T3	S2		
<i>Trillium pusillum</i> Michx. var. <i>monticulum</i> Bodkin and Reveal	Mountain least trillium	G4T1	S1		
<i>Triphora trianthophora</i> (Sw.) Rydb. var. <i>trianthophora</i>	Three birds orchid	G4?T4?	S1		
<i>Trisetum spicatum</i> (L.) Richter	Narrow False Oats	G5	S1		
<i>Tsuga caroliniana</i> Engelm.	Carolina Hemlock	G3	S2		
<i>Turritis glabra</i> L.	Tower mustard	G5	S1		
= <i>Arabis glabra</i> (L.) Bernh.					
<i>Utricularia juncea</i> Vahl	Southern Bladderwort	G5	S1		
<i>Utricularia olivacea</i> C. Wright ex Griseb.	Dwarf bladderwort	G4	SH		
<i>Utricularia purpurea</i> Walt.	Purple Bladderwort	G5	S2		
<i>Utricularia striata</i> LeConte ex Torrey	Fibrous Bladderwort	G4G5	S1		
= <i>Utricularia fibrosa</i> Walt.					
<i>Vaccinium crassifolium</i> Andr.	Creeping Blueberry	G4G5	S1		
<i>Vaccinium macrocarpon</i> Ait.	Large Cranberry	G5	S2		
<i>Vaccinium myrtilloides</i> Michx.	Velvetleaf Blueberry	G5	S1		
<i>Valeriana pauciflora</i> Michx.	Pink valerian	G4	S1		
<i>Valerianella chenopodiifolia</i> (Pursh) DC.	Goosefoot corn-salad	G4	S1		
<i>Vandenboschia boschiana</i> (Sturm) Ebihara & K. Iwatsuki	Appalachian filmy fern	G4	S1		
= <i>Trichomanes boschianum</i> Sturm					
<i>Verbena scabra</i> Vahl	Rough vervain	G5	S1		

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>VASCULAR PLANTS</b>					
<i>Veronica scutellata</i> L.	Marsh speedwell	G5	S1		
<i>Viburnum lentago</i> L.	Nannyberry	G5	S1		
<i>Vicia americana</i> Muhl. ex Willd. var. <i>americana</i>	American vetch	G5T5	S1		
<i>Viola glaberrima</i> (Gingins) H. House = <i>Viola tripartita</i> var. <i>glaberrima</i> (DC.) Harper	Mountain Yellow Violet	G5T3?	S1		
<i>Viola tenuisecta</i> Zumwalde & H.E. Ballard	A violet	G1G2	S1		
Formerly unnamed taxon (Viola sp. 1) of shale barrens and woodlands, similar in appearance to <i>Viola pedatifida</i> G. Don					
<i>Viola walteri</i> House	Prostrate Blue Violet	G5	S2		
<i>Vitis rupestris</i> Scheele	Sand Grape	G3	S1		
<i>Wisteria frutescens</i> (L.) Poir. var. <i>frutescens</i>	American Wisteria	G5TNR	S1		
<i>Wolffia columbiana</i> Karst.	Columbian Watermeal	G5	S1		
<i>Xyris caroliniana</i> Walt.	Carolina yellow-eyed grass	G4G5	S1		
<i>Xyris curtissii</i> Malme = <i>Xyris difformis</i> var. <i>curtissii</i> (Malme) Kral	Curtiss' yellow-eyed grass	G5T5	S1		
<i>Xyris fimbriata</i> Ell.	Fringed yellow-eyed grass	G5	S1		
<i>Xyris iridifolia</i> Chapman = <i>Xyris laxifolia</i> var. <i>iridifolia</i> (Chapman) Kral	Iris-leaf yellow-eyed grass	G4G5T4T5	S1		
<i>Xyris platylepis</i> Chapman	Tall yellow-eyed grass	G5	S2		
<i>Yucca aloifolia</i> L.	Spanish dagger	G5	S1		
<i>Yucca flaccida</i> Haw.	Weakleaf yucca	G5	S1		
<i>Zenobia pulverulenta</i> (Bartr. ex Willd.) Pollard	Dusty Zenobia	G4?	S1		
<i>Zigadenus glaberrimus</i> Michx.	Large Death-camas	G5	S1		
<i>Zornia bracteata</i> J.F. Gmel.	Viperina	G5?	S1		

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>NONVASCULAR PLANTS</b>					
<b>LIVERWORTS</b>					
<i>Acrobolbus ciliatus</i> (Mitt.) Schiffn.	A liverwort	G3?	S1		
<i>Aneura sharpii</i> Inoue & N.G. Mill.	A liverwort	GNR	S1		
<i>Apopellia megaspora</i> (R. M. Schust.) Nebel & D. Quandt = <i>Pellia megaspora</i> Schust.	Endive pellia	GNR	SH		
<i>Bazzania nudicaulis</i> Evans	A liverwort	G2G3	S1		
<i>Bazzania tricrenata</i> (Wahlenb.) Lindb.	Three-toothed whip liverwort	G4T4	S1		
<i>Cephaloziella spinicaulis</i> Douin	A liverwort	G4	S1		
<i>Cololejeunea cardiocarpa</i> (Mont.) A. Evans	A liverwort	G4G5	SH		
<i>Crossocalyx hellerianus</i> (Nees ex Lindenb.) Meyl.	Heller's Notchwort	G5	SH		
<i>Diplophyllum andrewsii</i> Evans	Andrew's Earwort	G3	SH		
<i>Diplophyllum taxifolium</i> (Wahlenb.) Dum.	Yew-leaved earwort	G5	S1		
<i>Drepanolejeunea appalachiana</i> Schust.	Appalachian threadwort	G3	S1		
<i>Frullania caulisequa</i> (Nees) Nees	A liverwort	G5	S1		
<i>Harpanthus scutatus</i> (Web. et Mohr) Spruce	Stipular flapwort	G4G5	S1		
<i>Lejeunea blomquistii</i> Schuster	Blomquist's leafy liverwort	G3	S1		
<i>Lejeunea ruthii</i> (Evans) Schust.	A liverwort	G3G4T3T4	S1		
<i>Leptoscyphus cuneifolius</i> (Hook.) Mitt.	Wedge flapwort	G4G5T4T5	SH		
<i>Lophocolea appalachiana</i> Schuster	Appalachian crestwort	G2	S1		
<i>Marsupella paroica</i> Schust.	A liverwort	G3	SH		
<i>Metzgeria consanguinea</i> Schiffn. = <i>Metzgeria temperata</i> Kuwahara	Whiskered veilwort	G4	S1		
<i>Microlejeunea bullata</i> (Taylor) Steph.	A pouncewort	G5	SH		
<i>Nardia lescurii</i> (Aust.) Underw.	A liverwort	G3?	SH		
<i>Neoorthocaulis attenuatus</i> (Mart.) L.Söderstr., De Roo & Hedd. = <i>Barbilophozia attenuata</i> (Mart.) Loeske	A liverwort	G5	SH		
<i>Plagiochasma rupestre</i> (Forst.) Steph.	A flapwort	G5T5	S1		
<i>Plagiochila austini</i> Evans	A liverwort	G3	S2		
<i>Plagiochila echinata</i> Schust.	A liverwort	G3	S1		
<i>Plagiochila exigua</i> (Taylor) Taylor	A liverwort	G4?	SH		
<i>Plagiochila raddiana</i> Lindenb.	A liverwort	G5	SH		
<i>Plagiochila sullivantii</i> Gottsche ex. Evans	Sullivant's leafy liverwort	G3G4	SH		
<i>Riccia dictyospora</i> M. A. Howe	A liverwort	G3?	S1		
<i>Scapania degenii</i> Schiffn. Ex K. Mull. var. <i>dubia</i> Schust.	A liverwort	G4G5T3?	SH		

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>NONVASCULAR PLANTS</b>					
<b>LIVERWORTS</b>					
<i>Schistochilopsis incisa</i> (Schrader) Konstantinova = <i>Lophozia incisa</i> (Schrad.) Dum.	Jagged notchwort	G5	S1		
<i>Solenostoma appalachianum</i> R. M. Schust. ex Bakalin = <i>Solenostoma pyriflorum</i> Steph.	A liverwort	GNR	SH		
<i>Sphenolobopsis pearsonii</i> (Spruce) Schust.	Horsehair threadwort	G4	S1		
<i>Sphenolobus minutus</i> (Schreb. ex D. Crantz) Berggr. = <i>Anastrophyllum minutum</i> (Schreb.) Schust.	Comb notchwort	G5	S1		
<i>Syzygiella nipponica</i> (S. Hatt.) K. Feldberg, Vána, Hentschel & Heinrichs	A liverwort	G3G4	SH		
<i>Tritomaria exsecta</i> (Schrad.) Loeske	Cut notchwort	G5	S1		
<i>Tritomaria exsectiformis</i> (Breidler) Loeske	Large cut notchwort	G5	SH		
<b>MOSSES</b>					
<i>Blindia acuta</i> (Hedw.) Bruch & Schimp. in B.S.G.	Sharp's blindleaf moss	G5	S1		
<i>Bryoerythrophyllum ferruginascens</i> (Stirt.) Giac.	Bryoerythrophyllum moss	G3G4	S1		
<i>Calliergon cordifolium</i> (Hedw.) Kindb.	Calliergon moss	G5	S1		
<i>Campylopus caroliniae</i> Grout	A moss	G2	S1		
<i>Campylopus surinamensis</i> C. Mull.	A moss	G4G5	S1		
<i>Cirriphyllum piliferum</i> (Hedw.) Grout	Cirriphyllum moss	G5	S1		
<i>Codriophorus aduncoides</i> (Bednarek-Ochyra) Bednarek-Ochyra & Ochyra	A moss	GNR	SH		
<i>Conardia compacta</i> (C. Mull.) Robins.	A moss	G5	SH		
<i>Coscinodon cribrosus</i> (Hedw.) Spruce	Copper coscinodon	G3G4	S1		
<i>Cryphaea nervosa</i> (Hook. & Wils. in Drumm.) C. Mull.	A Moss	G4?	S1		
<i>Dicranoweisia crispula</i> (Hedw.) Lindb. ex Milde	Mountain thatch moss	G5	S1		
<i>Dicranum muehlenbeckii</i> Bruch & Schimp. in B.S.G.	A moss	G5	SH		
<i>Diphyscium mucronifolium</i> Mitten	Cumberland Grain o' Wheat Moss	G4	S1		
<i>Encalypta ciliata</i> Hedw.	Fringed Extinguisher Moss	G5	SH		
<i>Entodon sullivantii</i> (C. Mull.) Lindb.	Sullivant's Entodon moss	G3G4	S2		
<i>Forsstroemia producta</i> (Hornschr.) Par.	A moss	G5?	S1		
<i>Grimmia alpestris</i> (Web. & Mohr) Schleich. ex Nees	A moss	GNR	S1		
<i>Herpetineuron toccae</i> (Sull. & Lesq. in Sull.) Card.	A moss	G4G5	S1

<b>VASCULAR PLANTS</b>					
<i>Aeschynomene virginica</i>	Sensitive Joint-vetch	G2	S2	LT (1992-05)	LT (2001-01)
<i>Amaranthus pumilus</i>	Sea-beach amaranth	G2	S1	LT (1993-04)	LT (2004-02)
<i>Betula lenta</i> var. <i>uber</i> = <i>Betula uber</i>	Virginia Roundleaf birch	G1Q	S1	LT (1994-11)	LE (2004-02)
<i>Boechera serotina</i> = <i>Arabis serotina</i>	Shale barren rock cress	G2	S2	LE (1989-07)	LT (2004-02)
<i>Boltonia montana</i>	Valley doll's-daisy	G1G2	S1		LE (2013-12)
<i>Cardamine micrantha</i>	Small-anthered Bittercress	G2	S2	LE (1989-09)	LE (2004-02)
<i>Carex juniperorum</i>	Juniper sedge	G3	S1		LE (2004-02)
<i>Clematis addisonii</i>	Addison's Leatherflower	G1G2	S1S2		LE (2020-08)
<i>Clematis viticaulis</i>	Millboro Leatherflower	G1	S1S2		LT (2013-12)
<i>Corallorrhiza bentleyi</i>	Bentley's coralroot	G2	S2		LE (2004-02)
<i>Echinacea laevigata</i>	Smooth Coneflower	G2G3	S2	LT (2022-07)	LT (2004-02)
<i>Fimbristylis perpusilla</i>	Harper's fimbry	G2	S1		LE (2004-02)
<i>Harperella nodosa</i> = <i>Ptilimnium nodosum</i>	Harperella	G2	S1	LE (1988-09)	LE (2004-02)
<i>Helenium virginicum</i>	Virginia Sneezeweed	G3	S2	LT (1998-11)	LE (2004-02)
<i>Helonias bullata</i>	Swamp-pink	G3	S2S3	LT (1988-09)	LE (2004-02)
<i>Houstonia montana</i> = <i>Houstonia purpurea</i> var. <i>montana</i>	Roan mountain bluets	G5T2	S1	LE (1990-04)	LT (2020-08)
<i>Ilex collina</i>	Long-stalked Holly	G3	S1		LE (2004-02)
<i>Iliamna corei</i>	Peters Mountain mallow	G1	S1	LE (1986-05)	LE (2004-02)
<i>Isoetes virginica</i>	Virginia Quillwort	G1	S1		LE (2013-12)
<i>Isotria medeoloides</i>	Small Whorled Pogonia	G2G3	S2	LT (1994-10)	LE (2004-02)
<i>Juncus caesariensis</i>	New Jersey Rush	G2G3	S2		LT (2004-02)
<i>Ludwigia ravenii</i>	Raven's Seedbox	G1G2	S1		LE (2020-08)
<i>Nuphar sagittifolia</i>	Narrow-leaved Spatterdock	G5T2	S1		LT (2004-02)
<i>Panax quinquefolius</i>	Ginseng	G3G4	S3S4		LT (2004-01)
<i>Paxistima canbyi</i> = <i>Pachistima canbyi</i>	Canby's Mountain-lover	G2?	S2		LT (2020-08)
<i>Phemeranthus piedmontanus</i>	Piedmont fameflower	G1	S1		LE (2020-08)
<i>Phlox buckleyi</i>	Sword-leaf phlox	G2G3	S2		LT (2020-08)
<i>Platanthera leucophaea</i>	Prairie fringed orchid	G2G3	SH	LT (1989-09)	LT (2004-02)
<i>Pycnanthemum torreyi</i>	Torrey's Mountain-mint	G2	S2		LT (2020-08)
<i>Rhus michauxii</i>	Michaux's Sumac	G2G3	S1	LE (1989-09)	LT (2004-02)
<i>Rudbeckia heliopsisidis</i>	Sun-facing Coneflower	G2	S1		LT (2020-08)
<i>Schwalbea americana</i>	Chaffseed	G2	SH	LE (1992-09)	
<i>Scirpus ancistrochaetus</i>	Northeastern Bulrush	G3	S2	LE (1991-05)	LE (2001-01)
<i>Scirpus flaccidifolius</i>	Reclining Bulrush	G2	S1S2		LT (2004-02)
<i>Spiraea virginiana</i>	Virginia Spiraea	G2?	S1	LT (1990-06)	LE (2001-01)

Scientific Name	Common Name	Global Rank	State Rank	Legal Status (Date listed)
		Federal	State	
<i>Trifolium calcaricum</i>	Running Glade Clover	G1	S1	LE (2001-01)
<b>LICHENS</b>				
<i>Cetradonia linearis</i> = <i>Gymnoderma lineare</i>	Rock gnome lichen	G3	S1	LE (1995-01)

## **Appendix 2. Changes to Plant List Since Dec 2023**

Below are summaries of rank and taxonomic changes made to species on the tracking list, watchlist, and review list.

### **Additions to the rare plant and/or lichen lists**

Scientific Name	Common Name	Old Rank	New Rank
<i>Hypericum gallioides</i>	Bedstraw St. John's-wort	NA	G5/S1
<i>Hexastylis sorriei</i>	Sandhills heartleaf	NA	G3/S1

### **Rank changes to the rare plant and lichen lists**

Scientific Name	Common Name	Old Rank	New Rank
<i>Didiplis diandra</i>	Water-purslane	G5	G3G4
<i>Sclerolepis uniflora</i>	One-flowered sclerolepis	G5	G3
<i>Potamogeton tennesseensis</i>	Tennessee Pondweed	G3	G2G3
<i>Ophioglossum pusillum</i>	Northern adder's-tongue	G5	G4
<i>Pseudolycopodiella caroliniana</i>	Carolina bog clubmoss	G5	G4
<i>Scutellaria parvula</i>	Dwarf Skullcap	G4	G5

### **Removals from the Tracked List**

Scientific Name	Common Name	Old Rank	New Rank	Action

### Removals from the Watchlist

Scientific Name	Common Name	Old Rank	New Rank	Action

### Removals from the Review list

Scientific Name	Common Name	Old Rank	New Rank	Action
<i>Vittaria appalachiana</i>	Appalachian Shoestring Fern	G4/SU	G4/S3	Moved to watchlist

### Taxonomic updates to the rare plant and lichen lists

(*Old Name* -> *Updated Name*)

### Taxonomic updates to the watchlist

(*Old Name* -> *Updated Name*)

### Taxonomic updates to the review list

## Rare Species Sighting Form
