# THE CHESTER DIRECTORY.

H. M. BETZ, Watches, 513 Market Street, Chester.

The Directory of Chester for the years 1889-'90 is the fifth issue under the direction of the present management within the past ten years, and those who still have the first issue will notice the increased size of the volume, indicative of our city's wonderful growth not only in population, but in manufactures of all kinds. Since the publication of the last Directory the adjacent borough of North Chester has been annexed to the City of Chester, and the rapid growth of that section of the city within the past two years has shown the wisdom of the citizens of that vicinity in applying for incorporation under our municipal government. According to the census of 1880 Chester had a population of a trifle less than fifteen thousand souls, but from the increase in the vote cast in 1880 and that of the Presidential contest in 1888, together with the statistics furnished by the compilers of the Directory, it is safe to assume that the census of 1890 will show a population of 24,000 in the corporate limits of the city, which with the contiguous boroughs of South Chester, Upland and Eddystone will swell the population of the built-up portion of our city, divided now by imaginary lines, to a city of hard on to thirty-five thousand inhabitants. To all intents and purposes Chester City and the outlying boroughs are one and the same place, save that the boroughs have their local governments, and for the convenience of the business public of both places we are compelled to recognize no distinction between the Borough of South Chester and the City of Chester, classifying the population of each place under the general heading of Chester City. This is no disparagement to the borough, which like a young giant is making wonderful progress and already outstrips any one of the four wards of Chester in population and the assessed value of its real estate.

### GAS AND ELECTRIC LIGHT.

Gas was introduced in Chester by the Chester Gas Company in 1856, and the works of the company have a storage capacity of 160,000 cubic feet.

The city lighting is furnished by the Chester Electric Light and Power Company, who supply about 280 32-candle power lights, which burn from sunset to sunrise.

### WATER SUPPLY.

In 1884 the New Chester Water Company was organized, and in the spring of 1887 began operations on the present supply system. The plant of the South Ward Water Works, which supplied the city with water from 1864 to 1888, was purchased by the new company and incorporated in their system.

The present works were completed in 1888 and consist of a new reservoir on Harrison's Hill, an elevation 200 feet above low water mark and three miles distant (northwest) from the city, with a capacity of 12,000,000 gallons; a handsome pumping station, two Gaskill pumps, each of 4,000,000 gallons capacity daily, and five boilers, aggregating 300 horse-power, and five and one-half miles of force and supply mains. The total distribution mileage in Chester and the two adjacent Boroughs of Upland and South Chester is thirty miles. There is a pressure of 80 pounds on the lower and 50 pounds on the higher levels of the city.

### TRANSPORTATION LINES.

The Baltimore and Philadelphia Railroad was opened for passenger traffic in August, 1886, when six trains were put on. There are now 25 passenger trains north and 24 trains south daily on this line. Connection is had directly with Cincinnati, St. Louis and Chicago on this road.

The Philadelphia, Wilmington and Baltimore Railroad runs 67 passenger trains daily, 33 north and 34 south, making connections with New York, Baltimore and the West.

The Chester and Delaware River Railroad, a branch of the Philadelphia and Reading, carries freight only.

The Chester Creek Railroad, a branch of the P, W. & B. R. R., starts at Lamokin and connects with the Baltimore Central Railroad for Port Deposit, and with the West Chester Road for West Chester, Media and Philadelphia.

The Chester Freight Line, plying between this city and Philadelphia, runs two large freight steamers, each of which makes one round trip daily.

The Philadelphia, Wilmington and Chester River Line runs two boats the greater part of the year between Philadelphia and Wilmington, stopping at Chester. During the summer two trips are made each way daily.

The steamer Jersey Blue makes daily trips between Bridgeport, N. J., and Philadelphia, stopping at Chester, South Chester and Billingsport, N. J.

The Salem Line of steamers and several excursion steamboats stop here regularly during the summer months.

The Chester Street Railway consists of one main and two branch lines. The main line extends from 13th and Edgmont to Front and Market, and from 3d and Market to 3d and Clayton streets, South Chester. The 24th street branch runs from 5th and Market to 24th and Providence avenue, and the Upland branch from 13th and Edgmont to 5th and Upland avenue, in Upland Borough. Fare on each route, 5 cents.

Stages leave several times daily from P., W. & B. depot for Media.

# CHESTER ACADEMY,

S. W. COR. BROAD AND POTTER STREETS,

CHESTER, PA.

This school is opened to both sexes. Its course of study embraces all branches taught in the best organized Academies and Seminaries. The personal care of the Principal, who has been a teacher over twenty years, is given in all the departments. A teacher to every 10 or 12 pupils is employed. The courses of study are, ENGLISH and SCIENTIFIC, CLASSICAL (for College), and the TEACHERS' COURSE.

Thoroughness is our corner-stone. No bad boys admitted. No one need apply for admission who is not willing to work hard.

There are three terms a year, beginning in September, December and March. Books free; charges moderate. For further information see pamphlet circular, sent free to any address.

Chester, Pa., July, 1889.

To Whom it May Concern:

I desire to call  
the attention of those who use Type-  
writers to my facilities for filling  
orders for Typewriter Paper. I can  
supply you with any grade of paper,  
but recommend as particularly good ei-  
ther "U.S." Linen or "Parchment  
Bond." You can have it plain, or rul-  
ed with marginal lines. I can show  
you a complete line of samples from  
which to select, and guarantee full  
count. My business in <sup>this</sup> ~~the~~ line is  
constantly increasing, and I am now  
better than ever prepared to fill your  
orders.

Yours respectfully,

John Spencer.

## UPLAND BOROUGH.

This place was founded in the year 1845, by the late John P. Crozer, who erected there extensive manufactories of cotton goods. These have been greatly enlarged by his sons since his death. The original mill, known as No. 1, and the brick mill known as No. 3, are operated by J. Lewis Crozer, George K. Crozer, Robert H. Crozer, and George K. Crozer, Trustee, under the firm name of J. P. Crozer's Sons; the other by Samuel A. Crozer and his son, John P., under the firm name of S. A. Crozer & Son. In 1683, Samuel Carpenter and Caleb Pusey, who were associated with William Penn, built a grist mill at the head of navigation on Chester creek, (the vane taken from the top of this mill is in the possession of the Pennsylvania Historical Society, in Philadelphia, and bears the initials, S. C.; C. P.; W. P.,) which was for more than a century and a half an important centre of trade, drawing its business in earlier days from points as remote as New Castle. The old house, once occupied by William Penn, still stands on Race street, Nos. 15 and 17. In 1869 Upland was made a borough. Its people are well supplied with reading matter. Mr. John Greaves, newsdealer, supplies them with the daily and weekly papers. S. A. Crozer & Son have established a library for the use of their hands. This is liberally patronized, and as a consequence of these facilities the people are highly intelligent.

Upland is also the seat of the Crozer Theological Seminary, founded and supported by the munificence of the children of the late Mr. John P. Crozer. It is beautifully located, and the campus contains besides the Seminary building, John P. Crozer Hall, used for large gatherings; Pearl Hall occupied by the Bucknell Library, and several residences for the professors. H. G. Weston, D. D., is the President, assisted in his duties by an able staff of professors.

## EDDYSTONE BOROUGH.

All Goods as Represented, H. M. BETZ, 513 Market Street, Chester.

The town of Eddystone was incorporated into a borough December 17, 1888, and the first election for borough officers was held February 19, 1889. It is the seat of The Eddystone Manufacturing Co. (Ltd), and is located on the east side of Ridley creek, the dividing line between the borough and the City of Chester, and extends to the west bank of Crum creek, with the Delaware river as its southern and the Philadelphia Post road as its northern boundary. The works of The Eddystone Manufacturing Co. (Ltd), are very extensive, occupying twenty acres of ground, and consist of twenty separate buildings for bleaching, printing and dyeing cotton cloths. They have a capacity of 60,000,000 yards of finished goods per year. The number of hands employed is 700. The grounds around the works are beautifully laid out in a park, and the main streets are lined with stately trees. The Company have erected a fine building called Lighthouse Hall, and supplied it with a good library, newspapers and periodicals for the use of the boroughites.

### GOVERNMENT.

JOHN SPENCER,  
Printer, Bookbinder and Publisher,  
517-19 EDMONT AVENUE,  
CHESTER, PA.

*Job Printing.*

Use good Stationery and have the Printing correspond. Good paper often costs but little more than an inferior grade, and gives greater satisfaction. And don't have the paper spoiled by a poor arrangement of the type, and bad presswork. I'll assure you against disappointment so far as the mechanical part of the work is concerned, and give you the largest stock of paper and cardboard in Delaware County to select your material from. All kinds of work solicited, from the common "dodger," to the finest mill ticket in five or six colors.

*Law and Book Work.*

The ADVOCATE Office is thoroughly equipped for the rapid execution of this class of work. My type and presses are new, the workmen experienced, and having a Bindery in connection with the Printing office enables me to save you all middle profits, and facilitates the completion of orders. To get an estimate of the cost of publishing any size book or pamphlet will cost you nothing.

*Blank Books.*

My Blank Book trade is rapidly growing to satisfactory proportions. It's as difficult to induce a man to change his blank book maker as to change his tailor when he gives satisfaction. But there's no danger of being disappointed in the book you'll get if you give me an order. The work is *all* done here—ruling, numbering, perforating—from the blank paper to the finished book. There are "tricks" in book binding, plenty of them: thin leather on the sides, poor thread used in sewing, *looks* well, perhaps, but the difference between such books and ours is the difference between wool and shoddy. The Blanks Books made here are honest—in quantity and quality of paper, in every atom and scrap of material that goes into their manufacture. You can learn the price of a book before you order, so you need not fear being overcharged. If you can not call yourself, a message by telephone will bring someone to you. Once a patron, always a patron. There have been no exceptions in this branch of my business. Remember, too, it is right to foster home enterprises. And now a few words about

*Magazine Binding.*

Prices depend on size of book and style of binding. Much or little, as suits your pocketbook and taste; from 50 cents to \$15.00.
