

## DEXIA CRÉDIT LOCAL

(a *société anonyme* established under the laws of the Republic of France)

Euro 45,000,000,000

### Guaranteed Euro Medium Term Note Programme

**benefitting from an unconditional and irrevocable first demand guarantee by the States of Belgium, France and Luxembourg**

Under the EUR 45,000,000,000 Guaranteed Euro Medium Term Note Programme (the "**Programme**") described in this Information Memorandum, Dexia Crédit Local (the "**Issuer**" or "**DCL**"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue guaranteed Euro Medium Term Notes (the "**Notes**").

The States of Belgium, France and Luxembourg (each a "**Guarantor**" and together the "**Guarantors**") will guarantee, severally and not jointly, each to the extent of its quota indicated in Clause 3 of the Independent on-demand guarantee dated 24 January 2013 (as amended, supplemented and/or restated from time to time, (the "**Guarantee**"), payments of principal and interest due with respect to the Notes to the extent that they constitute Guaranteed Obligations as described under the Guarantee. For further information, see the section entitled "*The Guarantee*" in this Information Memorandum. The Issuer will, subject to certain exceptions, pay additional amounts in respect of any French taxes required to be withheld. No additional amounts will be payable by the Guarantors if any payments in respect of any Note or the Guarantee become subject to deduction or withholding in respect of any taxes or duties whatsoever. The Issuer may, and in certain circumstances shall, redeem all, but not some only of, the Notes if certain French taxes are imposed or, if the Pricing Supplement issued in respect of any Series so provides, in the circumstances set out in such Pricing Supplement. See "*Terms and Conditions of the Notes — Taxation*" and "*Terms and Conditions of the Notes — Redemption, Purchase and Options*".

The aggregate nominal amount of Notes outstanding will not at any time exceed Euro 45,000,000,000 (or its equivalent in other currencies).

The Notes may (i) be issued or redeemed at their nominal amount or at a premium over or discount to their nominal amount; (ii) bear interest on a fixed or floating rate or not bear interest and (iii) be paid in a currency or currencies other than the original currency of issue.

Notes will be issued on a continuous basis in series (each a "**Series**") having one or more issue dates and the same maturity date, bearing interest (if any) on the same basis and at the same rate (except in respect of the first payment of interest) and on terms otherwise identical (or identical other than in respect of the first payment of interest, the issue date, the issue price and the nominal amount), the Notes of each Series being intended to be consolidated as regards their financial service with all other Notes of that Series. Each Series may be issued in tranches ("**Tranches**") on different issue dates. The specific terms of each Series of Notes (which will be supplemented where necessary with supplemental terms and conditions) will be determined at the time of the offering of each Series based on the then prevailing market conditions and will be set forth in the relevant Pricing Supplement (as defined herein).

This Information Memorandum supersedes and replaces the Information Memorandum dated 25 June 2018 and all supplements thereto.

This Information Memorandum does not constitute a prospectus for the purposes of Directive 2003/71/EC, as amended or superseded (the "**Prospectus Directive**"), and may be used only for the purpose for which it is published.

Applications may be made for one or more series of Notes issued under the Programme during a period of 12 months from the date of this Information Memorandum to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange. This Information Memorandum constitutes a "**Base Prospectus**" and any Pricing Supplement hereto will constitute a "**Final Terms**" each for the purposes of Luxembourg law of 10 July 2005 on the Prospectus for Securities as amended.

Application may in the future be made, in certain circumstances, to list Notes on such other or further stock exchanges as may be agreed between the Issuer and the relevant Dealer. The Regulated Market is a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instalments, as amended, appearing on the list of regulated markets published by the European Securities and Markets Authority (each such market being an "**EEA Regulated Market**"). Unlisted Notes may also be issued pursuant to the Programme. The relevant Pricing Supplement in respect of the issue of any Notes will specify whether or not such Notes will be listed and, if so, the relevant stock exchange(s).

Notes of each Tranche of each Series to be issued in bearer form ("**Bearer Notes**") will initially be represented by a temporary global Note (each a "**temporary Global Note**") or by a permanent global Note (each a "**permanent Global Note**" and, together with the temporary Global Note, the "**Global Notes**"), in either case in bearer form, without interest coupons which may be (a) in the case of a Tranche intended to be cleared through Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream**") (x) if the Global Notes are stated in the applicable Pricing Supplement to be issued in new global note ("**NGN**") form which are intended to be eligible collateral for Eurosystem monetary policy, delivered on or prior to the original issue date of the Tranche to a common safekeeper (the "**Common Safekeeper**") for Euroclear and Clearstream; or (y) in the case of Global Notes which are not issued in NGN form ("**Classic Global Notes**" or "**CGNs**"), deposited on the issue date with a common depository on behalf of Euroclear and Clearstream (the "**Common Depository**"), (b) in the case of a Tranche intended to be cleared through Euroclear France, deposited on the issue date with Euroclear France acting as central depository and (c) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear, Clearstream and Euroclear France or delivered outside a clearing system, deposited on the relevant issue date as agreed between the Issuer and the relevant Dealer.

Notes of each Tranche of each Series to be issued in registered form ("**Registered Notes**") will initially be represented by a permanent registered global certificate (each a "**Global Certificate**"), without interest coupons, which may (a) in the case of a Tranche intended to be cleared through Euroclear and/or Clearstream (x) if the Global Certificate is held under the New Safekeeping Structure (the "**NSS**"), be deposited on or prior to the issue date with the Common Safekeeper; or (y) if the Global Certificate is not held under the NSS, be deposited on the issue date with a common depository on behalf of Euroclear and Clearstream and (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear, Clearstream or delivered outside a clearing system, as agreed between the Issuer and the relevant Dealer. The provisions governing the exchange of interests in the Global Notes for other Global Notes and definitive

Notes and the exchange of interests in each Global Certificate for individual certificates ("**Individual Certificates**") and, together with any Global Certificates, the "**Certificates**") are described in "*Summary of Provisions relating to the Notes while in Global Form*".

The Programme has been rated AA- by Fitch Ratings Limited ("**Fitch**"), (P)Aa3 by Moody's France SAS ("**Moody's**") and AA for long-term debt by S&P Global Ratings Europe Limited ("**S&P**"). Each of Fitch, Moody's and S&P is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**"). Each of Fitch, Moody's and S&P is included in the list of registered credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation. Notes issued pursuant to the Programme may be unrated. The relevant Pricing Supplement will specify whether or not such credit ratings are issued by a credit rating agency established in the European Union and registered under the CRA Regulation. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

**Prospective investors should have regard to the factors described under the section headed "Risk Factors" in this Information Memorandum.**

*Arranger for the Programme*

**Goldman Sachs International**

The date of this Information Memorandum is 25 June 2019.

In relation to each separate issue of Notes, the Pricing Supplement, including the final offer price and the amount of such Notes will be determined by the Issuer and the relevant Dealers in accordance with prevailing market conditions at the time of the issue of the Notes and will be set out in the relevant Pricing Supplement, substantially in the form of the *pro forma* Pricing Supplement set out in this Information Memorandum.

No person has been authorised to give any information or to make any representation other than those contained in this Information Memorandum in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Arranger or any of the Dealers (each as defined in "**Overview of the Programme**"). Neither the delivery of this Information Memorandum nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer or the Issuer and its subsidiaries and affiliates taken as a whole (the "**DCL Group**") since the date hereof or the date upon which this Information Memorandum has been most recently amended or supplemented or that there has been no adverse change in the financial position of the Issuer or the DCL Group since the date hereof or the date upon which this Information Memorandum has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

To the fullest extent permitted by law, none of the Dealers (other than DCL in its capacity as Dealer) or the Arranger accept any responsibility for the contents of this Information Memorandum, or for any other statement, made or purported to be made by the Arranger or a Dealer or on its behalf in connection with the Issuer or the issue and offering of the Notes or for any act or omission of the Issuer or any other person in connection with the issue and offering of the Notes. The Arranger and each Dealer (other than DCL in its capacity as Dealer) accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Information Memorandum or any such statement. This Information Memorandum is not intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Arranger, any Guarantor or any of the Dealers that any recipient of this Information Memorandum should purchase the Notes.

Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Information Memorandum and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers (other than DCL in its capacity as Dealer) or the Arranger undertakes to review the financial condition or affairs of the Issuer or the Guarantors during the life of the arrangements contemplated by this Information Memorandum nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

This Information Memorandum does not constitute, and may not be used in connection with, an offer of, or an invitation to any person to whom it is unlawful to make such offer or invitation by or on behalf of the Issuer or the Dealers to subscribe for, or purchase, any Notes.

The distribution of this Information Memorandum and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Information Memorandum comes are required by the Issuer, the Guarantors, the Arrangers and the Dealers to inform themselves about and to observe any such restrictions. In particular, there are restrictions on the distribution of this Information Memorandum and the offer or sale of the Notes in the United States, the United Kingdom, France, Belgium and Japan (see the section entitled "*Subscription and Sale*" below).

THE NOTES AND THE GUARANTEE HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES, AND THE NOTES MAY INCLUDE BEARER NOTES THAT ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS. SUBJECT TO CERTAIN EXCEPTIONS, THE NOTES MAY NOT BE OFFERED OR SOLD OR, IN THE CASE OF BEARER NOTES, DELIVERED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN

REGULATION S UNDER THE SECURITIES ACT ("**REGULATION S**") OR, IN THE CASE OF MATERIALISED NOTES IN BEARER FORM, THE U.S. INTERNAL REVENUE CODE OF 1986, AS AMENDED).

### NOTICE TO INVESTORS—BAIL-IN

Notwithstanding and to the exclusion of any other term of the Notes or any other agreements, arrangements, or understanding between the Issuer and any holder of Notes, by its acquisition of the Notes, each holder acknowledges, accepts, consents and agrees to be bound by:

- a) the effect of the exercise of Bail-in Powers by the Relevant Resolution Authority that may include and result in any of the following, or some combination thereof:
  - i) the reduction of all, or a portion, of the principal amount of, or interest (if any) on, the Notes;
  - ii) the conversion of all, or a portion, of the principal amount of, or interest (if any) on, the Notes into shares, other securities or other obligations of the Issuer or another person, and the issue to or conferral on the holder of the Notes of such shares, securities or obligations;
  - iii) the cancellation of the Notes; and/or
  - iv) the amendment or alteration of any interest, if applicable, thereon, the maturity or the dates on which any payments are due, including by suspending payment for a temporary period; and
- b) the variation of the terms of the Notes, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of Bail-in Powers by the Relevant Resolution Authority.

For these purposes:

"**Bail-in Power**" is any write-down, conversion, transfer, modification or suspension power existing from time to time under any laws, regulations, rules or requirements in effect in France relating to the transposition of Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") as amended from time to time including without limitation pursuant to French decree-law No. 2015-1024 dated 20 August 2015 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*) (as amended from time to time, the "**20 August 2015 Decree Law**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (as amended from time to time, the "**Single Resolution Mechanism Regulation**"), or otherwise arising under French law, and in each case the instructions, rules and standards created thereunder, pursuant to which the obligations of a Regulated Entity (as defined below) (or an affiliate of such Regulated Entity) can be reduced (in part or whole), cancelled, suspended, transferred, varied or otherwise modified in any way, or securities of a Regulated Entity (or an affiliate of such Regulated Entity) can be converted into shares, other securities, or other obligations of such Regulated Entity or any other person, whether in connection with the implementation of a bail-in tool following placement in resolution or otherwise.

A reference to a "**Regulated Entity**" is any entity referred to in Section 1 of Article L.613-34 of the French *Code monétaire et financier* as modified by the 20 August 2015 Decree Law, which includes certain credit institutions, investment firms, and certain of their parent or holding companies established in France.

A reference to the "**Relevant Resolution Authority**" is to the the Single Resolution Board established pursuant to the Single Resolution Mechanism Regulation, and/or any other authority entitled to exercise or participate in the exercise of any Bail-in Powers from time to time (including the Council of the European Union and the European Commission when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

Despite the foregoing, the States would remain liable to perform their obligations under the Guarantee with respect to amounts written down or converted to equity following an application of the Bail-in Power under

the BRRD. Please see the risk factor entitled "*The Notes may be subject to write-down or conversion to equity in the context of a resolution procedure applicable to the Issuer*".

## **MIFID II PRODUCT GOVERNANCE / TARGET MARKET**

The Pricing Supplement in respect of any Notes may include a legend entitled "*MiFID II Product Governance*", which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

## **MIFID II ARTICLE 41(4) OF THE DELEGATED REGULATION**

**Differences between the Notes and bank deposits** - The Notes do not constitute bank deposits and do not benefit from any protection provided pursuant to Directive 2014/49/EU of the European Parliament and of the Council on deposit guarantee schemes or any national implementing measures implementing this Directive in France. In addition, an investment in the Notes may give rise to yields and risks that differ from a bank deposit. For example, the Notes are expected to have greater liquidity than a bank deposit since bank deposits are generally not transferable. However, the Notes may have no established trading market when issued, and one may never develop. Further, as a result of the implementation of the BRRD, holders of the Notes may be subject to write-down or conversion into equity on any application of the general bail-in tool and non-viability loss absorption, however, the States would remain liable to perform their obligations under the Guarantee with respect to amounts written down or converted to equity following an application of the bail-in tool under the BRRD. Please see the risk factor entitled "*The Notes may be subject to write-down or conversion to equity in the context of a resolution procedure applicable to the Issuer*".

## **BENCHMARKS**

Amounts payable under the Floating Rate Notes may be calculated by reference to EURIBOR or LIBOR which are respectively provided by the European Money Markets Institute ("**EMMI**") and ICE Benchmark Administration Limited ("**ICE**"). As at the date of this Prospectus, ICE appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011) (the "**Benchmark Regulation**"). EMMI does not appear on such register as at the date of this Information Memorandum. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that EMMI and ICE are not currently required to obtain authorisation or registration.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) in the applicable Pricing Supplement (the "**Stabilising Manager(s)**") (or persons acting on behalf of any Stabilising Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but such action must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with applicable laws and regulations.

In this Information Memorandum, unless otherwise specified or the context otherwise requires, references to "**Euro**", "**EUR**" or "**€**" are to the single currency of the participating member states of the European Union which was introduced on 1 January 1999.

References to "Dexia" are to Dexia SA; references to the "Dexia Group" and the "Group" are to Dexia SA and its consolidated subsidiaries; references to "DCL" are to Dexia Crédit Local; references to the "Issuer" are to Dexia Crédit Local; references to "us", "we", or "our" are references to the Issuer; references to "DCL Group" are references to the Issuer and its subsidiaries and affiliates taken as a whole.

### **RESPONSIBILITY STATEMENT**

The Issuer accepts responsibility for the information contained in this Information Memorandum. The Issuer declares, having taken all reasonable care to ensure that such is the case, that to the best of the knowledge of the Issuer the information contained in this Information Memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information.

**None of the Guarantors has either reviewed this Information Memorandum or verified the information contained in it, and none of the Guarantors makes any representation with respect to, or accepts any responsibility for, the contents of this Information Memorandum or any other statement made or purported to be made on its behalf in connection with the Issuer or the issue and offering of any Notes. Each of the Guarantors accordingly disclaims all and any liability, whether arising in tort or contract or otherwise, which it might otherwise have in respect of this Information Memorandum or any such statement.**

## OVERVIEW OF THE PROGRAMME

<b>Issuer</b>	<p>Dexia Crédit Local, a limited company (<i>société anonyme</i>) established under French company law having its registered office at:</p> <p>Tour CBX La Défense 2 1, Passerelle des Reflets 92913 La Défense Cedex France</p> <p>DCL is registered as a company under the number 351804042 Nanterre (<i>Registre du Commerce et des Sociétés</i>).</p> <p>DCL is part of the Dexia group (the "<b>Dexia Group</b>"), the ultimate holding company being Dexia.</p>
<b>Guarantors</b>	<p>The Kingdom of Belgium, the Republic of France and the Grand Duchy of Luxembourg.</p>
<b>Guarantee</b>	<p>The Guarantors will severally and not jointly guarantee issues of Notes under the Programme. For further information, see the section entitled "<i>The Guarantee</i>" in this Information Memorandum. The Notes will have the benefit of the Guarantee to the extent that the Notes constitute "<b>Guaranteed Obligations</b>" as defined in Clause 1 of the Guarantee.</p>
<b>Description of the Programme</b>	<p>Continuously offered Guaranteed Euro Medium Term Note Programme.</p>
<b>Arranger</b>	<p>Goldman Sachs International</p>
<b>Dealers</b>	<p>Barclays Bank PLC Barclays Bank Ireland PLC BofA Securities Europe SA Citigroup Global Markets Europe AG Citigroup Global Markets Limited Commerzbank Aktiengesellschaft Crédit Agricole Corporate and Investment Bank Deutsche Bank AG, London Branch Dexia Crédit Local Goldman Sachs International HSBC Bank plc J.P. Morgan Securities plc Merrill Lynch International Morgan Stanley &amp; Co. International plc Natixis NatWest Markets Plc Nomura International plc Société Générale</p>

The Issuer may from time to time terminate the appointment of any dealer under the Programme or appoint additional dealers either in respect of one or more Tranches or in respect of the whole Programme. References in this Information Memorandum to "**Permanent Dealers**" are to the persons listed above as Dealers and to such additional persons which are appointed as dealers in respect of the whole Programme (and whose appointment has not been terminated) and to "**Dealers**" are to all Permanent Dealers and all persons appointed as a dealer in respect of one or more Tranches.

**Programme Limit**

Up to Euro 45,000,000,000 (or the equivalent in other currencies) aggregate nominal amount of Notes outstanding at any one time. Where an issue of Notes is in a currency other than Euro, the aggregate nominal amount of such Notes shall be calculated based on the Euro equivalent value of such currency as at the relevant issue date of such Notes.

**Guarantee Limits**

The aggregate commitment in principal of the Guarantors under the Guarantee for all outstanding Guaranteed Obligations (including, but not limited to, Notes issued under the Programme) may not at any time exceed the following limits, it being understood that the interest and incidental amounts due on the principal amounts so limited are guaranteed beyond these limits:

- (1) Euro 85,000,000,000 for the three Guarantors in aggregate;
- (2) Euro 43,698,500,000 for the Kingdom of Belgium;
- (3) Euro 38,751,500,000 for the Republic of France; and
- (4) Euro 2,550,000,000 for the Grand Duchy of Luxembourg,

as set out in Article 3 of the Guarantee.

The aggregate principal amount of the outstanding Guaranteed Obligations at 20 June 2019 was EUR 64.2 billion.

Compliance with the above-mentioned limits will be assessed upon each new issuance of, or entry into, Guaranteed Obligations, with the outstanding principal amount of all Guaranteed Obligations denominated in foreign currencies (i.e., Guaranteed Obligations issued or entered into prior to such time, as well as such new Guaranteed Obligations if denominated in foreign currencies) being converted into Euro, at the reference rate of the date of such new issuance of, or entry into, Guaranteed Obligations, as published on that day by the European Central Bank (the "**ECB**").

Any subsequent non-compliance with such limits will not affect the rights of the Noteholders under the Guarantee with respect to Notes issued before any such limit was exceeded.

**Fiscal Agent, Listing Agent  
and Paying Agent**

Banque Internationale à Luxembourg, société anonyme.

<b>Currencies</b>	Subject to compliance with all relevant laws, regulations and directives, Notes may be issued in euro (EUR), U.S. dollar (USD), Canadian dollar (CAD), pound sterling (GBP), yen (JPY) or Swiss franc (CHF), as agreed between the Issuer and the relevant Dealers.
<b>Maturities</b>	Subject to compliance with all relevant laws, regulations and directives, any maturity up to a maximum maturity as specified in the Guarantee (which, at the date of this Information Memorandum, is ten years from the relevant Issue Date). In the case of Extendible Notes, the Noteholder's option may provide that the Maturity Date in respect of the Notes will be automatically extended to a maximum maturity as specified in the Guarantee (which, at the date of this Information Memorandum, is ten years from the relevant Issue Date) unless a Noteholder exercises its Non-Extension Option in respect of any Note held by such Noteholder within the relevant Exercise Period.
<b>Form of Notes</b>	<p>The Notes may be issued in bearer form ("<b>Bearer Notes</b>") or in registered form ("<b>Registered Notes</b>"). Each Tranche of Bearer Notes will be represented on issue by a temporary Global Note if (i) definitive Notes are to be made available to Noteholders following the expiry of 40 days after their issue date or (ii) such Notes are being issued in compliance with the D Rules (as defined in "<i>Overview of the Programme — Selling Restrictions</i>"), otherwise such Tranche will be represented by a permanent Global Note. Registered Notes will be represented by Certificates, one Certificate being issued in respect of each Noteholder's entire holding of Registered Notes of one Series. Certificates representing Registered Notes that are registered in the name of a nominee for one or more clearing systems are referred to as "<b>Global Certificates</b>".</p> <p>The relevant Pricing Supplement will specify whether Notes are issued as Bearer Notes or Registered Notes.</p>
<b>Denominations</b>	Notes will be issued in such denominations as may be specified in the applicable Pricing Supplement.
<b>Interest, Specified Interest Payment Dates, Interest Periods and Rates of Interest</b>	The relevant Pricing Supplement will specify whether or not the Notes bear interest, the method of and periods for, the calculation of such interest (which may differ from time to time or be constant for any Series) and the dates on which any such interest shall be payable. Notes may have a maximum rate of interest, a minimum rate of interest, or both.
<b>Fixed Interest Rate Notes</b>	Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Pricing Supplement.
<b>Floating Rate Notes</b>	Floating Rate Notes will bear interest set separately for each Series by reference to LIBOR, EURIBOR or EUR CMS (or such other benchmark as may be specified in the relevant Pricing Supplement) as adjusted for any applicable margin. The relevant benchmark may be subject to substitution as described in Condition 5 of the " <i>Terms and Conditions of the Notes – Interest and other Calculations</i> ".

	Interest Periods will be specified in the relevant Pricing Supplement.
<b>Zero Coupon Notes</b>	Zero Coupon Notes may be issued at their principal amount or at a discount to it and will not bear interest.
<b>Other Notes</b>	Terms applicable to high-interest Notes, low-interest Notes, step-up Notes and step-down Notes will be set out in the relevant Pricing Supplement.
<b>Redemption by Instalments</b>	The Pricing Supplement issued in respect of each issue of Notes which are redeemable in two or more instalments will set out the days on which, and the amounts in which, such Notes may be redeemed.
<b>Optional Redemption</b>	The Pricing Supplement issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the option of the Issuer (either in whole or in part) and/or the holders, and, if so, the terms applicable to such redemption as described in " <i>Terms and Conditions of the Notes — Redemption, Purchase and Options</i> ".
<b>Early Redemption</b>	Except as provided in " <i>Optional Redemption</i> " above, Notes will be redeemable at the option of the Issuer prior to maturity only for tax reasons, as described in " <i>Terms and Conditions of the Notes — Taxation</i> ".
<b>Consolidation</b>	Notes of one Series may be consolidated with Notes of another Series, as described in " <i>Terms and Conditions of the Notes — Further Issues and Consolidation</i> ".
<b>Issue Price</b>	Notes may be issued at their principal amount or at a discount or premium to their principal amount.
<b>Method of Issue</b>	The Notes will be issued on a syndicated or non-syndicated basis. The Notes will be issued in one or more Series. Further Notes may be issued in Tranches as part of an existing Series.
<b>Initial Delivery of Notes</b>	<p>On or before the issue date for each Tranche, if the Global Note is a NGN or the Global Certificate is held under the NSS, the Global Note or the Global Certificate, as applicable, will be delivered to a Common Safekeeper for Euroclear and Clearstream.</p> <p>On or before the issue date for each Tranche, if the relevant Global Note is a CGN or the Global Certificate is not held under the NSS, the Global Note representing Bearer Notes or the Global Certificate representing Registered Notes may be deposited with a common depositary for Euroclear and Clearstream or (in the case of Notes intended to be cleared through Euroclear France and the "<i>intermédiaires financiers habilités</i>" authorised to maintain accounts therein) Euroclear France acting as central depositary. Global Notes or Global Certificates may also be deposited with any other clearing system or may be delivered outside any clearing system <i>provided that</i> the method of such delivery has been agreed in advance by the Issuer, the Fiscal Agent and the relevant Dealer.</p>

Registered Notes that are to be credited to one or more clearing systems on issue will be registered in the name of nominees or a common nominee for such clearing systems.

**Governing Law**

The Notes are governed by English law.

The Guarantee is governed by the laws of Belgium.

**Bail-in Power  
Acknowledgement:**

Notwithstanding and to the exclusion of any other term of the Notes or any other agreements, arrangements, or understanding between the Issuer and any holder of Notes, by its acquisition of the Notes, each holder acknowledges, accepts, consents and agrees to be bound by:

- (a) the effect of the exercise of Bail-in Powers by the Relevant Resolution Authority that may include and result in any of the following, or some combination thereof:
  - (i) the reduction of all, or a portion, of the principal amount of, or interest (if any) on, the Notes;
  - (ii) the conversion of all, or a portion, of the principal amount of, or interest (if any) on, the Notes into shares, other securities or other obligations of the Issuer or another person, and the issue to or conferral on the holder of the Notes of such shares, securities or obligations;
  - (iii) the cancellation of the Notes; and/or
  - (iv) the amendment or alteration of any interest, if applicable, thereon, the maturity or the dates on which any payments are due, including by suspending payment for a temporary period; and
- (b) the variation of the terms of the Notes, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of Bail-in Powers by the Relevant Resolution Authority.

For these purposes:

**"Bail-in Power"** is any write-down, conversion, transfer, modification or suspension power existing from time to time under any laws, regulations, rules or requirements in effect in France relating to the transposition of Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") as amended from time to time including without limitation pursuant to French decree-law No. 2015-1024 dated 20 August 2015 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*) (as amended from time to time, the "**20 August 2015 Decree Law**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and

amending Regulation (EU) No 1093/2010 (as amended from time to time, the "**Single Resolution Mechanism Regulation**"), or otherwise arising under French law, and in each case the instructions, rules and standards created thereunder, pursuant to which the obligations of a Regulated Entity (as defined below) (or an affiliate of such Regulated Entity) can be reduced (in part or whole), cancelled, suspended, transferred, varied or otherwise modified in any way, or securities of a Regulated Entity (or an affiliate of such Regulated Entity) can be converted into shares, other securities, or other obligations of such Regulated Entity or any other person, whether in connection with the implementation of a bail-in tool following placement in resolution or otherwise.

A reference to a "**Regulated Entity**" is any entity referred to in Section 1 of Article L.613-34 of the French *Code monétaire et financier* as modified by the 20 August 2015 Decree Law, which includes certain credit institutions, investment firms, and certain of their parent or holding companies established in France.

A reference to the "**Relevant Resolution Authority**" is to the *Autorité de contrôle prudentiel et de résolution* (the "**ACPR**"), the Single Resolution Board established pursuant to the Single Resolution Mechanism Regulation, and/or any other authority entitled to exercise or participate in the exercise of any Bail-in Powers from time to time (including the Council of the European Union and the European Commission when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

Despite the foregoing, the States would remain liable to perform their obligations under the Guarantee with respect to amounts written down or converted to equity following an application of the bail-in tool under the BRRD. Please see the risk factor entitled "*The Notes may be subject to write-down or conversion to equity in the context of a resolution procedure applicable to the Issuer*".

#### **Jurisdiction**

In respect of the Notes, the Issuer has submitted to the jurisdiction of the Courts of England.

The courts of Brussels have exclusive jurisdiction to settle any disputes relating to the Guarantee.

#### **Listing and Admission to Trading**

Application has been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to the Official List and to be admitted to trading on the Regulated Market or as otherwise specified in the relevant Pricing Supplement and references to listing shall be construed accordingly. As specified in the relevant Pricing Supplement, a Series of Notes may be unlisted.

#### **Clearing Systems**

Clearstream, Euroclear, Euroclear France and, in relation to any Tranche, such other clearing system as may be agreed between the Issuer, the Fiscal Agent and the relevant Dealer.

#### **Taxation**

All payments of principal, interest and other assimilated revenues by or on behalf of the Issuer in respect of the Notes, Receipts or

Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the Republic of France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

If the Issuer is required to make a withholding or deduction with respect to any French taxes, duties, assessments or governmental charges of whatever nature, the Issuer will, to the fullest extent then permitted by law, pay such additional amounts as may be necessary in order that the holders of Notes, Receipts or Coupons after such withholding or deduction, receive the full amount then due and payable except that no additional amounts shall be payable in certain circumstances more fully described in Condition 8 of the "*Terms and Conditions of the Notes—Taxation*".

If the Issuer is required to make a withholding or deduction with respect to any French taxes, duties, assessments or governmental charges of whatever nature and as a result is required to pay additional amounts to holders of Notes, Receipts or Coupons it may, and in certain circumstances shall, as more fully described in Condition 8 of the "*Terms and Conditions of the Notes—Taxation*", redeem all (but not some only) of the outstanding Notes.

**No additional amounts will be payable by the Guarantors if any payments in respect of any Note or the Guarantee become subject to deduction or withholding in respect of any taxes or duties whatsoever.**

Each prospective investor should carefully review the section entitled "*Taxation*" of this Information Memorandum.

**Status of Notes**

The Notes will constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer.

**Negative Pledge**

The terms of the Notes will contain a negative pledge provision as described in "*Terms and Conditions of the Notes — Negative Pledge*".

**Events of Default**

The Notes will contain only one event of default (where in certain circumstances the Guarantee is not or ceases to be in full force and effect) and in particular will not contain a cross-default provision in respect of other indebtedness of the Issuer. In any event, invoking an event of default resulting in an acceleration of the Notes may prejudice the ability of Noteholders to make a valid claim under the Guarantee. See the paragraph entitled "*No Acceleration rights against Guarantors*" immediately below, and "*Risk Factors — Factors Relating to the Guarantee — Noteholders have no acceleration rights against the Guarantors and may lose their right to call upon the Guarantee as a result of accelerating against the Issuer*". See also "*Risk Factors — Factors Relating to Notes — Only one Event of Default*".

## **No Acceleration rights against Guarantors**

No grounds for acceleration of payment of the Notes, whether statutory (in particular in the case of judicial liquidation proceedings with respect to the Issuer) or contractual (in particular an event of default), will be enforceable against the Guarantors or any of them under the Guarantee. Consequently, a claim under the Guarantee may only be made in respect of amounts due and payable pursuant to the normal payment schedule of the Notes (it being understood that the effects of any early redemption provision which is not related to the occurrence of an event of default are deemed part of the normal payment schedule of the Notes) and subject to the other requirements described above. Moreover, claims made under the Guarantee will need to be resubmitted on all subsequent payment or maturity dates of the Notes.

Furthermore, in order to be entitled to call upon the Guarantee, a Noteholder cannot have invoked or invoke any grounds for acceleration against the Issuer under the Notes, except where the grounds for acceleration of payment have arisen by operation of law without any action from Noteholders, for example in the event of the opening of judicial liquidation proceedings with respect to the Issuer. See the sections entitled "*The Guarantee*" and "*Risk Factors — Factors Relating to the Guarantee — Noteholders have no acceleration rights against the Guarantors and may lose their right to call upon the Guarantee as a result of accelerating against the Issuer*" in this Information Memorandum.

## **Ratings**

Tranches of Notes to be issued under the Programme may be rated or unrated. Details of the rating, if any, attributable to an issue of Notes will be set out in the applicable Pricing Supplement. Potential purchasers of Notes should consider the rating(s) (if any) applicable to a Tranche of Notes before making any decision to purchase such Notes. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency. In particular, the ratings of the Notes will be linked to the ratings of the Guarantors, and these Guarantor ratings may be suspended, changed or withdrawn at any time by the relevant rating agency.

## **Selling Restrictions**

There are restrictions on the sale of Notes and the distribution of this Information Memorandum in various jurisdictions, including the United States, the United Kingdom, France and Japan. In connection with the offering and sale of a particular Tranche, additional selling restrictions may be imposed which will be set out in the relevant Pricing Supplement.

The Issuer is Category 2 for the purposes of Regulation S. Bearer Notes will be issued in compliance with U.S. Treas. Reg. §1.163 5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (the "**D Rules**"), unless (i) the relevant Pricing Supplement states that Notes are issued in compliance with U.S.

Treas. Reg. §1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (the "**C Rules**") or (ii) the Notes are issued other than in compliance with the D Rules or the C Rules but in circumstances in which the Notes will not constitute "*registration required obligations*" for U.S. federal income tax purposes, which circumstances will be referred to in the relevant Pricing Supplement as a transaction to which TEFRA is not applicable.

Notes may only be initially subscribed by investors qualifying as "*Third-Party Beneficiaries*" (*Tiers Bénéficiaires*) under paragraph (a) or under paragraphs (c) to (f) of Schedule A to the Guarantee.

**Method of Publication of the Pricing Supplement**

The Pricing Supplement relating to Notes admitted to trading and/or offered to the public will be published in electronic form on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)). The Pricing Supplement will indicate where the Information Memorandum and any other constituent documents thereof may be obtained.

**Use of Proceeds**

The net proceeds of the issue of the Notes under the Programme will be used to repay or refinance existing financing of the Issuer.

**Risk Factors**

Prospective investors should have regard to the section in this Information Memorandum entitled "*Risk Factors*" for a discussion of certain factors that should be considered in connection with investing in the Notes and the operation of the Guarantee.

## RISK FACTORS

*The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.*

*The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme and the Guarantee, but does not represent that the statements below regarding the risks of holding any Notes and the Guarantee are exhaustive. The risks described below are not the only risks the Issuer faces. Additional risks and uncertainties not currently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations. Prospective investors should also read the detailed information set out elsewhere in this Information Memorandum and the applicable Pricing Supplement and reach their own views in light of their financial circumstances and investment objectives prior to making any investment decision. In particular, investors should make their own assessment as to the risks associated with the Notes and the Guarantee prior to investing in Notes issued under the Programme.*

### **Risk Factors Relating to the Guarantee**

Investors should carefully consider the terms of the Guarantee included elsewhere in this Information Memorandum before investing in the Notes. In particular, investors' attention is drawn to the following considerations relating to the Guarantee.

#### ***The decision of the European Commission to approve the Guarantee may be annulled or revoked.***

In its decision of 28 December 2012, the European Commission authorised the Guarantee pursuant to Article 107(3)(b) of the Treaty on the Functioning of the European Union (the "TFEU"), subject to certain conditions (the "**Commission Decision**").

A non-confidential version of the Commission Decision was published on the Official Journal of the European Union on 12 April 2014. An electronic version thereof can be found at:

[http://eur-lex.europa.eu/legal-content/EN/TXT/?uri=uriserv:OJ.L\\_.2014.110.01.0001.01.ENG](http://eur-lex.europa.eu/legal-content/EN/TXT/?uri=uriserv:OJ.L_.2014.110.01.0001.01.ENG).

The European Commission may revoke its decision if the Guarantors (and by implication the Issuer) fail to comply with the conditions to which such decision is subject, or if the European Commission considers that its decision was based on incorrect information. As such, no assurances can be given that there will not be an annulment or revocation of the Commission Decision or that any such annulment or revocation would not have an adverse effect on the Guarantee and Noteholders' rights thereunder.

#### ***The Guarantee is several and not joint and it sets State quotas and limits the maximum amount of the Guarantee.***

The Guarantee is shared among three States (Belgium, France and Luxembourg) as Guarantors and the obligations of each of these Guarantors under the Guarantee are several, but not joint, and will be divided among them, each to the extent of its percentage share, as set out in Clause 3 of the Guarantee. Consequently, if the Guarantee is called, each Guarantor will be obliged to fulfil its payment obligation under the Guarantee only to the extent of its proportional commitment set out in the Guarantee, and will not be required to increase its payment to account for any shortfall in the payment by any other Guarantor. The Guarantee obligations of each Guarantor are as follows:

Belgium – 51.41%, France – 45.59% and Luxembourg – 3% of the payment obligations of the Issuer in principal, interest and incidental amounts, corresponding to guaranteed amounts in principal of EUR 43.6985 billion, EUR 38.7515 billion and EUR 2.55 billion, respectively. The aggregate principal amount payable under the Guarantee is currently capped at EUR 85 billion for all obligations (including the Notes), with interest and other incidental amounts covered beyond this cap.

The outstanding principal amount of the guaranteed debt is disclosed on a daily basis on the website of the Belgian National Bank (<http://www.nbb.be/DOC/DQ/warandia/index.htm>). As at 20 June 2019, aggregate outstanding Guaranteed Obligations (as defined in "The Guarantee") amounted to EUR 64.2 billion in principal.

***The Guarantee contains conditions for benefiting from and making claims under it.***

The Guarantee was entered into by the Guarantors on 24 January 2013 (see "The Guarantee"). In order to benefit from the Guarantee, Notes must be issued on or before 31 December 2021, with a maturity not exceeding ten years and must be originally issued to and subscribed by "Third Party Beneficiaries" as defined in Schedule A to the Guarantee.

On 25 February 2019, the Board of Directors of Dexia was informed of the notification filed by the Belgian and French States with the European Commission of a proposal for the extension of the Guarantee following its expiration on 31 December 2021. See "*Dexia Crédit Local Recent developments Notification to the European Commission of the extension of the Guarantee*". There can be no assurance that the Guarantee will be extended, on similar terms or at all.

Any demand for payment under the Guarantee must be accompanied by the information and documentation required by Clause 4(b) of the Guarantee, and otherwise be made in accordance with the Guarantee. In particular, any demand for payment under the Guarantee, satisfying the documentary requirements set out above, must be made no later than the 90th day following the date on which the amount for which payment is requested under the Guarantee became due and payable in accordance with the normal payment schedule of the Notes. Consequently, any claim under the Guarantee must be made within such 90-day limitation period in order to be valid.

Due to the several nature of the Guarantee, any Guarantee call or other notification to the States must be delivered to each of the States.

Investors in the Notes are reminded that, while such Notes are represented by a Global Certificate, any claims and/or demands for payments under the Guarantee must be exercised through, and in accordance with, the standard procedures of DTC, Euroclear, Clearstream or any other clearing system through which the Notes are cleared. Accordingly, such holders must notify and liaise with their financial intermediary and/or custodian in order to ensure that the necessary steps are taken to validly exercise their rights under the Guarantee in a timely manner and are solely responsible for so doing.

***Noteholders have no acceleration rights against the Guarantors and may lose their right to call upon the Guarantee as a result of accelerating against the Issuer.***

No grounds for acceleration of payment of the Notes, whether statutory (for example, in the case of judicial liquidation proceedings with respect to the Issuer) or contractual (for example, in the case of any event of default, event of termination or cross-default), will be enforceable against the Guarantors or any of them under the Guarantee. Consequently, a claim under the Guarantee may only be made in respect of amounts which have become due and payable pursuant to the normal payment schedule of the Notes and subject to the other requirements described above. As a result thereof, any demand for payment under the Guarantee needs to be renewed in connection with all subsequent dates on which a

payment under the Notes by the Issuer is due and payable under the normal payment schedule but remains unpaid.

Furthermore, in order to be entitled to call upon the Guarantee, a Noteholder cannot have invoked or invoke any grounds for acceleration towards the Issuer under the Notes, except where the grounds for acceleration of payment have arisen by operation of law without any action from Noteholders, for example in the event of certain judicial liquidation proceedings with respect to the Issuer.

See, in particular, Clause 2 of the Guarantee set out below in the section "*The Guarantee*".

***There is no gross-up for withholding tax if the Guarantee is called upon.***

No additional amounts will be payable by the Guarantors if any payments payable under the Notes or under the Guarantee become subject to deduction or withholding in respect of any taxes or duties whatsoever.

***Payments under the Guarantee may be subject to withholding tax.***

Without prejudice to what is set out under "*Taxation*", applying a withholding to payments under the Guarantee by the Guarantors would limit the budgetary impact of the Guarantee being called for the States of Belgium, France and Luxembourg (the "**States**"), as the terms of the Guarantee provide that there is no gross-up obligation in the case of withholding.

Taking this into account, in the absence of existing authority in Belgium, there is a measure of uncertainty as to whether the Belgian State would apply interest withholding tax on the portion of payments made under the Guarantee which constitutes a substitute for interest payments that should have been made by the Issuer.

In such circumstances, non-resident investors who cannot credit the withholding tax against Belgian income tax (such as non-resident investors who are not investing in the Notes through a Belgian branch) would need to file an administrative appeal to claim a refund based on the argument that payments under the Guarantee are not interest payments and/or based on the applicability of the exemption for interest paid by the Belgian State to non-resident investors who are not investing through a Belgian branch (article 107, § 2, 5°, b, of the royal decree implementing the Income Tax Code).

There is no existing authority addressing the withholding tax treatment of payments made by the French State as Guarantor. Pursuant to the general principles of French tax law, such payments should not be subject to the withholding tax under Article 125 A III of the French General Tax Code provided that they are not made in a non-cooperative State or territory within the meaning of Article 238-0 A of the French General Tax Code ("**Non-Cooperative State**") other than those mentioned in Article 238-0 A 2 *bis* 2° of the French General Tax Code and that the relevant Noteholder is neither domiciled (*domicilié*) nor established (*établi*) in such Non-Cooperative State (see "*Taxation—French Taxation*").

***The Guarantee is subject to specific governing law and jurisdiction.***

Whereas the Notes are governed by, and shall be construed in accordance with, English law, and the Courts of England have jurisdiction to settle any disputes which may arise out of or in connection with them, the Guarantee is governed by the laws of Belgium and the courts of Brussels have exclusive jurisdiction to settle any disputes relating thereto. Consequently, legislation and rules of interpretation applicable to the Notes and the Guarantee may differ, and any proceedings in respect thereof may need to be initiated before separate courts.

***The Guarantee is subject to limitations on actions against the Guarantors, including, but not limited to, the Guarantors benefitting from sovereign immunity.***

Pursuant to the Guarantee, each of the Guarantors waives its right to invoke any defences that the Issuer could assert against Security Holders (as defined under the Guarantee) to refuse payment. However, none of the Guarantors waives any immunity from jurisdiction in the United States for any purpose. Each of the Guarantors is subject to suit exclusively in competent courts in Brussels, Belgium, in accordance with the Guarantee.

The U.S. Foreign Sovereign Immunities Act (the "**U.S. FSI Act**") may provide a means of service and preclude granting sovereign immunity in actions in the United States arising out of or based on the U.S. federal securities laws. However, under the U.S. FSI Act, execution upon the property of each of the Guarantors to enforce a judgment is limited to an execution upon property of each Guarantor used for the commercial activity on which the claim was based. In addition, a judgment of a U.S. state or federal court may not be enforceable in the courts of a Guarantor if based on jurisdiction based on the U.S. FSI Act or if based on the U.S. federal securities laws or if such enforcement would otherwise violate public policy or be inconsistent with the procedural law of the relevant state.

The Belgian State does not enjoy immunity from judgments rendered against it, recognised and enforced by the courts of Belgium in accordance with Regulation (EU) No. 1215/2012 of the European Parliament and Council of 12 December 2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters ("**Brussels Ibis Recast Regulation**"). It benefits from immunity from enforcement, attachment or seizure of its property pursuant to article 1412bis of the Belgian Judicial Code and public law principles. This immunity from enforcement means the assets of a public law entity (such as the Belgian State) cannot be seized to pay its debts. However, this is not without exception and under article 1412bis of the Belgian Judicial Code, the following public assets are, nevertheless, subject to seizure:

- assets expressly declared to be seizable by the public entity that owns them (the public entity must formally list the assets that may be seized); and
- if a list of expressly declared seizable assets does not exist, or if the listed assets are not sufficient to settle the outstanding debt, those assets which are obviously not necessary (i) for performing the public service tasks or (ii) to guarantee the continuity of the public service.

Very few authorities have made a list of seizable assets and the Issuer is not aware of any publicly available list in relation to the assets of the Belgian State.

Case law restrictively interprets the exemption related to the assets that are obviously not necessary for performing the public service tasks or guaranteeing the continuity of the public service.

The French State does not enjoy immunity from judgments rendered against it, recognised and enforced by the courts of France in accordance with the Brussels Ibis Recast Regulation. However, the French Republic benefits from immunity from attachment or seizure of its assets, and enforcement of judgments against the French Republic is subject to a special procedure established by the *Code de Justice Administrative* and applicable law, such as French law No. 80-539 of 16 July 1980 on periodic penalty payments imposed in administrative courts decisions and on the enforcement of judgments against legal entities governed by public law.

The Grand Duchy of Luxembourg does not enjoy immunity from judgments rendered against it, recognised and enforced by the courts of the Grand Duchy of Luxembourg in accordance with the Brussels Ibis Recast Regulation. However, under the laws of the Grand Duchy of Luxembourg, the general principle that the property of the Grand Duchy of Luxembourg benefits from immunity from enforcement, attachment or seizure proceedings of private law is traditionally recognised. Such

immunity protects the assets of the Grand Duchy of Luxembourg that are designated for the performance of missions of public authority or of public service (even where the acts of the Grand Duchy of Luxembourg have been of a private or commercial nature or, in other words, performed on a *jure gestionis* basis). These assets are presumed to be of a public nature and therefore sovereign. However, assets of the Grand Duchy of Luxembourg forming part of an estate that has been allocated to a principal activity of a private or commercial nature may be attached by creditors of the Grand Duchy of Luxembourg unless the Grand Duchy of Luxembourg proves that the assets are sovereign in nature or, in other words, that the assets have been allocated to, or have been managed in the context of, a public authority mission or a public service mission. State immunity from enforcement has only been considered by the Luxembourg courts or by Luxembourg legal literature on very limited occasions and in very limited contexts. It is therefore necessary to form a view on the basis of general principles of Luxembourg law and to draw on French and Belgian legal commentary and case law.

### **Risk Factors Relating to the Issuer as a subsidiary of the Dexia Group**

#### ***Macro-risks in the European Union and risks regarding European sovereign debt could have unforeseen negative consequences on the Issuer.***

The global capital and credit markets have been characterised by volatility in recent years. Challenging market conditions have resulted in greater volatility but also in reduced liquidity, widening of credit spreads and lack of price transparency in credit markets. Although the level of market disruption and volatility caused by the global financial crisis has abated to a certain extent, 2018 saw the continued rise of political uncertainties within the Eurozone. There are no assurances that such volatility or political instability will not recur or be exacerbated, respectively, or that similar events will not occur that have similar effects on the financial markets, in which case the Group and the Issuer could experience increased funding costs, decreased liquidity, decreased asset values, additional credit impairment losses and lower profitability and revenues. Any of the foregoing factors could have a material adverse effect on the Issuer's financial condition and results.

The outlook in the European Union ("EU") was stable during the first half of 2018, but deteriorated markedly in the second half. EU Member States and public finances in Europe continue to face challenges, including those related to demographic trends and political uncertainties. In particular, the crisis linked to uncertainty regarding the ability of certain EU Member States to service their sovereign debt obligations, including Greece, Ireland, Italy, Portugal and Spain, highlighted the persistence of poor political and budgetary integration among Member States. Economic conditions in the EU are further subject to the risks of slowdown and volatility as a result of the considerable uncertainty surrounding the United Kingdom's referendum on 23 June 2016 to leave the European Union ("**Brexit**") and uncertainty as to whether and to what extent this exit may also negatively impact the European markets. This continued uncertainty surrounding Brexit has increased uncertainty around the outlook for the British economy in the wake of the referendum, which has particularly affected financial activity. Any loosening of the political ties within the EU, including as a result of the Brexit or political instability in Italy and other European Members States, could negatively impact the European economy and increase volatility in the financial markets, which could impact political cooperation within the EU. Growing populism and rising criticism of the EU contribute to the sense that geopolitical risks in Europe will continue to be an area of focus during 2019.

The precise nature of all the risks and uncertainties that the Dexia Group faces as a result of the global economic outlook cannot be identified and many of these risks are outside the Dexia Group's control. No assurance can be given as to future economic conditions in any market or as to the sustainability of any improvement in any market.

If economic, financial and political conditions in the EU or the Eurozone component of the EU deteriorate, or if fears persist that one or more EU/Eurozone members will default or restructure its or

their indebtedness, or in the case of Eurozone members be forced or choose to withdraw from the Eurozone, the cost and availability of funding available to European banks, including the Issuer, may be adversely affected, and such events could otherwise materially adversely affect the Issuer's ability to access capital and liquidity on financial terms acceptable to it as well as its financial condition and results of operations, including the value of its assets and liabilities, and have other unforeseen consequences relevant to holders of the Notes.

***A number of exceptional measures taken by governments, central banks and supervisors have recently been or could soon be completed or terminated, and measures at the European level face implementation risks.***

In response to the financial crisis, governments, central banks and supervisors implemented measures intended to support financial institutions and sovereign states and thereby stabilise financial markets. Central banks took measures to facilitate financial institutions' access to liquidity, in particular by lowering interest rates to historic lows for a prolonged period.

Various central banks decided to substantially increase the amount and duration of liquidity provided to banks, loosen collateral requirements and, in some cases, implement "non-conventional" measures to inject substantial liquidity into the financial system, including direct market purchases of government bonds, mortgage-backed securities and corporate bonds. These central banks may decide, acting alone or in coordination, to modify their monetary policies or to tighten their policies regarding access to liquidity, which could substantially and abruptly decrease the flow of liquidity in the financial system. Although the Orderly Resolution Plan (as defined below) assumes a more restrictive access to central bank funding, such changes could have an adverse effect on the Issuer's financial condition and results of operations. See "*Dexia Crédit Local—Organisational structure—Orderly Resolution Plan*".

***The Dexia Group is in orderly resolution and its ability to successfully complete its Orderly Resolution Plan is significantly dependent on external factors.***

Following the accelerating sovereign debt crisis in Europe, Dexia experienced serious refinancing difficulties in autumn 2011, leading it to announce the orderly resolution of its activities with the support of a liquidity guarantee by the States of Belgium, France and Luxembourg. The government guarantee scheme (as well as other sovereign support measures such as the December 2012 EUR 5.5 billion capital increase of Dexia subscribed by the Belgian and French States) was considered by the European Commission to involve the provision of State Aid (within the meaning of Article 107 of the TFEU) to the Group, which resulted in the requirement for the submission of an orderly resolution plan to the European Commission for approval under EU State Aid rules. The States of Belgium, France and Luxembourg initially submitted their plan to the European Commission on 21 March 2012. Following active discussions between the States and the European Commission on the future of the Dexia Group, certain hypotheses and principles in the business plan underlying the plan submitted by the States to the European Commission in March 2012 were changed. This resulted in a revised orderly resolution plan (the "**Orderly Resolution Plan**") being submitted to the European Commission on 14 December 2012, which was approved on 28 December 2012.

A summary description of the Orderly Resolution Plan can be found in the press release of 31 December 2012, which is available on the website of Dexia at:

[http://www.dexia.com/EN/journalist/press\\_releases/Pages/default.aspx](http://www.dexia.com/EN/journalist/press_releases/Pages/default.aspx)

The non-confidential version of the decision was published by the European Commission in 2014 and is available at:

[http://ec.europa.eu/competition/state\\_aid/cases/235395/235395\\_1520674\\_699\\_2.pdf](http://ec.europa.eu/competition/state_aid/cases/235395/235395_1520674_699_2.pdf)

In connection with the Orderly Resolution Plan, in a decision dated 19 September 2017 (as published in the Official Journal of the European Union on October 24, 2017) addressed to the Belgian State and the Republic of France, the European Commission authorised the conversion into ordinary Dexia shares of the preferential shares owned by the Belgian and French States, and confirmed that the other measures authorised in the 2012 Commission Decision remained compatible with the single market (the "**2017 Commission Decision**").

The Orderly Resolution Plan, in essence, consists of the sale of those main commercial franchises considered to be viable in the long term and management in run-off of the other franchises without new production. The downsizing of the Dexia Group's balance sheet and other measures adopted as a result of the implementation of the Orderly Resolution Plan may give rise to challenges by shareholders and creditors of the Dexia Group and the Issuer, which could include allegations of default on outstanding debt. If such challenges are successful, the Dexia Group's ability to realise the intended benefits of the Orderly Resolution Plan may be adversely affected. As a result of the Orderly Resolution Plan, the Dexia Group no longer has any commercial activities and has disposed of all entities in line with the commitments undertaken by the States. Having reached its target resolution scope, Dexia is now focused on managing its assets in run-off, under a simplified governance structure and organisation. In addition, shareholders and creditors of the Dexia Group and the Issuer could challenge the basis of the 2017 Commission Decision, which, if successful, could adversely impact the Orderly Resolution Plan and the Guarantee.

The orderly resolution of the Dexia Group will have to be managed on a long-term basis given the nature and the maturity profile of its remaining assets, the financial plan setting out a trajectory for the asset portfolio to be gradually reduced by approximately 50% over the 2014-2021 period, during which time Dexia Group's strategic objectives are to secure liquidity, ensure operational continuity and to preserve capital and observe regulatory requirements. Over the resolution period, the Dexia Group's ability to complete the Orderly Resolution Plan successfully, and thus avoid what could, under certain circumstances, be a disorderly liquidation, remains heavily dependent on a number of external factors over which Dexia Group has little or no control, including: (i) the accuracy of the macro-economic assumptions underlying the Orderly Resolution Plan; (ii) the evolution of interest rates and the credit environment; (iii) the preservation of the banking licences of the Issuer and any of the credit institutions within the Dexia Group; (iv) the maintenance of all ratings within the Group; (v) substantial access by Dexia Group to the capital markets, allowing Dexia Group to finance a substantial portion of its assets through the repo market, and to issue significant amounts of government guaranteed bonds in the capital markets; (vi) regulatory and accounting developments and (vii) liquidity requirements.

The plan was originally formulated on the basis of market data observable at the end of September 2012; the underlying macroeconomic assumptions are reviewed as part of the semi-annual reviews of the entire plan. The plan was last updated in December 2018 on the basis of data available as at 30 June 2018 to take into account an updated funding plan based on then-existing market conditions and resulted in adjustments to the original plan, representing a significant change to the trajectory of the Group's resolution as initially anticipated, but at this stage do not raise questions as to the nature and the fundamentals of the resolution. This update also incorporated regulatory developments, such as the final version of Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms ("**CRD IV**") and the IFRS 9 accounting standard as from 2018, based on assumptions known at such date. Any significant deviation from one or more of the assumptions underlying the plan could have a material adverse impact on the Issuer's financial condition and results of operations. Consequently, the Issuer's ability to meet its payment obligations under the Notes could be adversely affected.

***The Issuer is exposed to market risks, which could have a material adverse impact on its financial condition and results of operations.***

The Issuer is exposed to market risks such as ongoing weak market conditions or changes in interest rates, foreign exchange rates and bond and equity prices. Changes in interest rate levels, yield curves and spreads may affect the interest rate margin realised between lending and borrowing rates, the impact of which may be heightened during periods of liquidity stress.

As market conditions change, the fair value of the Issuer's exposures to counterparties could fall further and result in additional losses or impairment charges, which could have a material adverse effect on the Issuer's financial condition and/or results of operations (see also "*The Issuer is exposed to concentration risk*" below). Such losses or impairment charges could derive from: a decline in the value of exposures; a decline in the ability of counterparties, including monoline insurers, to meet their obligations as they fall due; or the ineffectiveness of hedging and other risk management strategies in circumstances of severe stress.

***The Issuer is exposed to fluctuations in its cash collateral requirements.***

The Issuer has a very significant derivatives portfolio (notional amount of approximately EUR 292.7 billion as at 31 December 2018), consisting primarily of interest rate derivatives. That portfolio generates a cash collateral requirement that is highly sensitive to fluctuations in foreign exchange rates and interest rates, in particular the 10-year euro and pound sterling long term interest rates.

While the euro area has been expanding since 2014 and GDP growth in the Eurozone has reached a level above that in 2007, vulnerabilities and challenges remain in many euro area economies. With this backdrop, the ECB continued with its accommodative monetary policy in 2017 and 2018, as witnessed by the continuation of the ECB's asset repurchase programme, albeit at reduced levels as from October 2017. From April 2017, the ECB's monthly net purchases of public and private sector securities amounted to EUR 60 billion per month on average. On 26 October 2017, the ECB's Governing Council decided that net purchases would be reduced from the monthly pace of EUR 60 billion to the new monthly pace of EUR 30 billion from January 2018 until the end of September 2018.

On 13 December 2018, the Governing Council of the ECB decided to end the net purchases under the asset purchase programme in December 2018 and announced that it intended to continue reinvesting, in full, the principal payments from maturing securities purchased under the programme for an extended period of time past the date when it starts raising the key ECB interest rates, and in any case for as long as necessary to maintain favourable liquidity conditions and an ample degree of monetary accommodation. The Governing Council's stated aim is to maintain the size of its cumulative net purchases at their respective levels as at the end of December 2018.<sup>1</sup>

These ECB actions have resulted in historically low interest rates in the Eurozone and the depreciation of the euro as well as highly volatile foreign exchange markets. The Issuer is sensitive to the evolution of its macroeconomic environment and to market parameters, including exchange rates, interest rates and credit spreads, fluctuations of which may impact the business plan. In particular, an unfavourable evolution of these parameters over time could weigh on the Issuer's liquidity and solvency position, by increasing the amount of cash collateral required to be paid by DCL to its derivatives counterparties. Net collateral posting reached EUR 22.7 billion as of 31 December 2018, representing a decrease of EUR 3.8 billion from the level as of 31 December 2017.

---

<sup>1</sup> <https://www.ecb.europa.eu/mopo/implement/omt/html/index.en.html>

Continued significant deviations in those foreign exchange and interest rates from the levels assumed in the Orderly Resolution Plan would increase the Issuer's funding needs and costs, and have a material adverse effect on its financial condition and results of operations and liquidity.

Dexia's business plan remains exposed to the evolution of the macroeconomic environment. A 10-basis point decline in long-term interest rates over the entire yield curve would result in an immediate increase of approximately EUR 1 billion in the Issuer's liquidity requirements due to the need to post higher cash collateral, assuming no deviation from any of the other hypotheses or principles underlying the Orderly Resolution Plan. See "*—The Dexia Group is in orderly resolution and its ability to successfully complete its Orderly Resolution Plan is significantly dependent on external factors*" above and "*—The results of the Issuer are heavily dependent on its ability to maintain its funding mix and cost of funding at the levels assumed by the Orderly Resolution Plan*" below.

***As a financial institution in run-off, the Issuer is particularly vulnerable to fluctuations in external factors such as interest and foreign exchange rates.***

As required by the European Commission decision, the Orderly Resolution Plan contemplates that the Dexia Group will not engage in new production. Because the Issuer can no longer engage in any production, its ability to actively manage its assets and liabilities is substantially constrained as compared to a commercially active credit institution, and both its balance sheet and its off-balance sheet commitments are particularly vulnerable to fluctuations in external factors such as interest rates and foreign exchange rates (see "*—The Issuer is exposed to fluctuations in its cash collateral requirements*" above).

***Adjustments to the carrying value of the Issuer's securities and derivatives portfolios could have a material impact on its net income and shareholders' equity.***

The carrying value of the Issuer's securities and derivatives portfolios and certain other assets in its balance sheet is adjusted as of each financial statement date. Most of the adjustments are made on the basis of changes in fair value of the assets during an accounting period, with the changes recorded either in the income statement or directly in shareholders' equity. Changes that are recorded in the income statement, to the extent not offset by opposite changes in the value of other assets, affect its net banking income and, as a result, its net income. All fair value adjustments affect shareholders' equity and, to some extent, may impact capital adequacy ratios pursuant to the relevant regulations. The fact that fair value adjustments are recorded in one accounting period does not mean that further adjustments will not be needed in subsequent periods. Significant adjustments could have a material adverse effect on the Issuer's financial condition and result of operations which could in turn affect the Issuer's ability to meet its payment obligations under the Notes.

***Liquidity risks could have an adverse effect on the Issuer's ability to raise new funding and on the Issuer's financial condition and results of operations.***

Liquidity risk is the risk that the Issuer will experience difficulty in financing its assets and/or meeting its contractual payment obligations as they fall due, or will only be able to do so at substantially above the prevailing market cost of funding. This risk is inherent in banking operations generally, but it is especially acute in the case of the Issuer, given its substantial short-term funding needs. The Issuer's liquidity may be impacted as a result of a reluctance of the Issuer's counterparties or the market to finance the Issuer's operations due to actual or perceived weaknesses in the Issuer's financial condition or prospects.

The most recent update of the Dexia Group's business plan shows a surplus liquidity position throughout the life of the plan. See "*Dexia Crédit Local—Evolution of the funding profile*".

As at 31 December 2018, DCL had a liquidity buffer of EUR 16.3 billion, of which EUR 9.1 billion is in the form of deposits with central banks. However, DCL's liquidity buffer may not be sufficient, should markets encounter significant disruption. See "*Dexia Crédit Local—Non-eligibility of wind-down entities as Eurosystem monetary policy counterparties as from 1 January 2022*".

Negative perceptions concerning the Issuer's financial condition or prospects could develop as a result of material unanticipated losses, changes in its credit ratings, a general decline in the level of business activity in the financial services sector, regulatory action as well as many other reasons. The risk can be heightened by an overreliance on a particular source of funding (including, for example, short term funding) or other factors, such as a high sensitivity to fluctuations in foreign exchange rates or interest rates. See "*—The Issuer is exposed to fluctuations in its cash collateral requirements*" above. Such impacts can also arise from circumstances outside the Issuer's control. In particular, the Issuer is sensitive to any negative perception of European sovereign credit ratings and especially the ratings of France and Belgium, given the importance of government guaranteed funding for the Issuer. Disruption in the financial markets, negative developments concerning other financial institutions, negative views on the financial services industry in general, disruptions in the markets for any specific class of assets or major events or disasters of global significance may also have a negative impact on the Issuer's liquidity situation.

***Changes in the Issuer's accounting policies or in accounting standards could materially affect how the Issuer reports its financial condition and results of operations.***

From time to time, the International Accounting Standards Board (the "**IASB**") and/or the European Union change the financial accounting and reporting standards that govern the preparation of the Issuer's financial statements. These changes can be difficult to predict and can materially impact how the Issuer records and reports its financial condition and results of operations. In some cases, the Issuer could be required to apply a new or revised standard retroactively, resulting in restating prior period financial statements. By way of example, the IASB has issued amendments to a number of standards which remain to be endorsed by the European Union and which, when endorsed and applicable to DCL, are expected to impact their financial statements.

Net gains or losses on financial instruments at fair value through profit or loss generated a negative impact of EUR (144) million on the 2018 result (compared to EUR (108) million in 2017). These elements related to the evolution of the market parameters that directly impact the value of certain elements, including derivatives valued on the basis of an OIS curve, CBS, the calculation of the Credit Value Adjustment ("**CVA**"), Debit Value Adjustment and Funding Value Adjustment ("**FVA**"). In 2018, a charge of EUR 73 million was recorded for the FVA, which represents the funding cost related to non-collateralised derivatives (compared to a positive impact of EUR 40 million in 2017). The negative impact of the FVA is related to an adjustment in the calculation methodology used by the Issuer as well as an increase in the funding cost for the banking sector in the fourth quarter of 2018. The CVA, which is an adjustment to the value of derivatives related to counterparty risk, was also negative at EUR (35) million (compared to EUR 119 million in 2017) due to a widening of credit spreads, particularly on bank counterparties.

IFRS 9 "Financial Instruments" came into force on 1 January 2018, replacing IAS 39. Application of the new rules for the classification and valuation of financial assets under IFRS 9 has major consequences for the Issuer. See "*Dexia Crédit Local—Positive impact from the first application of IFRS 9 to the Issuer's regulatory capital*".

The IASB may make other changes to financial accounting and reporting standards that govern the preparation of DCL's financial statements, which may be adopted if determined to be appropriate by DCL management, or which DCL may be required to adopt. Any such change in the Issuer's accounting policies or accounting standards could materially affect its reported financial condition and results of operations.

***A downward change by the rating agencies in the rating of the Guarantors and/or, the Issuer may have negative consequences on the Issuer's financial condition.***

The Issuer is a financial institution in resolution, subject to the Orderly Resolution Plan. Its funding plan relies primarily on repos and the issuance of guaranteed debt. The rating of the debt issued under the Guarantee is aligned with the rating of the lowest rated of the three Guarantors (*i.e.*, currently Belgium). For example, on 4 January 2017, Fitch downgraded DCL's outstanding bonds to a rating of AA- as a result of its downgrading of Belgium's sovereign rating.

The ability of the Dexia Group to execute the Orderly Resolution Plan will depend on a variety of conditions including, but not limited to, the stability of DCL's rating, the stability of the ratings of the Guarantors as well as the preservation of its banking licence.

If these conditions are not met, the Issuer may face a higher cost of funding for the debt issued under the Guarantee or may not be able to continue to issue debt under the Guarantee, which may in turn impair its ability to execute the Orderly Resolution Plan.

***The results of the Issuer are heavily dependent on its ability to maintain its funding mix and cost of funding at the levels assumed by the Orderly Resolution Plan.***

In 2011 and 2012, the deteriorating financial environment on top of the worsening European sovereign debt crisis and successive rating actions increased pressure on the Group's liquidity and led Dexia to seek the implementation of a funding guarantee provided by the States of Belgium, France and Luxembourg (see "*Dexia Crédit Local—Organisational structure—Orderly Resolution Plan*"). In the years since, a significant improvement in the liquidity situation of DCL allowed the Group to reduce the level of central bank funding. In 2014, DCL's funding mix continued to gravitate towards guaranteed and secured funding, which it exited entirely in 2017. DCL's funding volume was reduced to EUR 106 billion as at 31 December 2018, compared to 124.8 billion as at 31 December 2017. The reduction in 2018 was, *inter alia*, a consequence of a EUR 14.1 billion decrease in secured funding and a EUR 3.8 billion decrease in the net amount of cash collateral paid by Dexia to its derivatives counterparties (EUR 22.7 billion as at 31 December 2018)). See "*Dexia Crédit Local—Non-eligibility of wind-down entities as Eurosystem monetary policy counterparties as from 1 January 2022*". As a consequence, the Issuer's funding structure underwent substantial modification. Most of the Issuer's funding is now in the form of guaranteed market funding, which as at 31 December 2018, represented 62% of total funding compared to 54% as at 31 December 2017.

The Orderly Resolution Plan contemplates a particular funding mix (with respect to the type and maturity of the various funding sources of Dexia Group, including, for example, central bank financing, repo, government guaranteed bond issues and the relative proportion of each source in the Dexia Group's overall financing), and assumes funding costs based on that funding mix and on the expected cost of each component of that mix. If market demand for government-guaranteed debt declines, the Group may need to turn to more costly funding sources which would directly impact the profitability assumed in the original business plan. The coming years will remain uncertain in the context of greater exchange rate volatility and very low interest rates. Should the Dexia Group be unable to achieve the desired funding mix (for instance because certain types of financings, such as government guaranteed bonds placed on the capital markets, are not available to the extent expected), or should the cost of certain types of funding be higher than contemplated by the Orderly Resolution Plan, the Group and the Issuer's results of operations and financial condition would be materially adversely impacted.

***Instability of other financial institutions could have an adverse effect on the Issuer's ability to raise new funding.***

As a credit institution, the Issuer is exposed to the creditworthiness of its customers and counterparties. The Issuer may suffer losses related to the inability of its customers or other counterparties to meet their financial obligations. Most of the outstandings concern customers in the local government sector, which is subject to specific controls relating to its public nature.

The Issuer is and will continue to be subject to the risk of deterioration in the commercial soundness or perceived soundness of other financial services institutions within and outside the main markets in which it operates. Concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely related as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as 'systemic risk' and could have an adverse effect on the Issuer's ability to raise new funding and on the Issuer's results, financial condition and prospects.

The Issuer is exposed to many different counterparties in the normal course of its business; its exposure to counterparties in the financial services industry is therefore significant. This exposure can arise through lending, deposit-taking, clearance and settlement and numerous other activities and relationships. These counterparties include institutional clients, brokers and dealers, commercial banks, investment banks and mutual funds. Many of these relationships expose the Issuer to credit risk in the event of default of a counterparty or client. In addition, the Issuer's credit risk may be exacerbated when the collateral it holds cannot be realised at, or is liquidated at prices not sufficient to recover, the full amount of the loan or derivative exposure it is due to cover, which could in turn materially adversely affect the Issuer's financial condition and results of operations and consequently its ability to meet its payment obligations under the Notes. Many of the hedging and other risk management strategies utilised by the Issuer also involve transactions with financial services counterparties.

The Issuer cannot assume that it will not have to make significant additional provisions for possible bad and doubtful debts in future periods. The weakness or insolvency of these counterparties may impair the effectiveness of the Issuer's hedging and other risk management strategies, which could in turn affect the Issuer's ability to meet its payment obligations under the Notes.

***The Issuer is exposed to concentration risk.***

The Issuer is significantly exposed to concentration risk, especially in relation to sovereigns and the public sector, which represented respectively 21.9% and 53.3% of the Issuer's total credit risk exposure ("**EAD**"<sup>2</sup>) as at 31 December 2018. DCL's exposure to sovereigns is focussed primarily on Italy, France and Portugal.

The Issuer is closely monitoring the evolution of the US local public sector, in particular the Chicago Board of Education ("**CBOE**"), which is experiencing financial difficulties due to a high level of indebtedness, an under-financing of its pension funds and the continuous decline in student enrolment. DCL's exposure to the CBOE amounted to EUR 441 million as at 31 December 2018, approximately 12% of which is credit enhanced by a high-quality monoline. The provision on the CBOE exposure was increased at the end of 2018.

The Issuer's portfolio contains certain geographical concentrations: France (EUR 22.2 billion)<sup>3</sup>, Italy (EUR 21.8 billion), the United Kingdom (EUR 21.1 billion), Germany (EUR 16.7 billion, of which

---

<sup>2</sup> The Exposure at Default (EAD) corresponds to the best estimate of a counterparty's credit risk exposure at default. The EAD corresponds to (i) balance sheet assets' accounting book value gross of impairments, (ii) derivatives' mark-to-market plus regulatory add-ons and (iii) off-balance-sheet items' nominal amounts multiplied by a credit conversion factor.

<sup>3</sup> Including deposits with the Bank of France by virtue of DCL's liquidity reserve.

EUR 14.8 billion related to activities held for sale of Dexia Kommunalbank Deutschland ("**DKD**"), a German subsidiary of DCL, which was sold on 30 April 2019 (see "*Dexia Crédit Local—Towards a simplification and greater integration of the operating model—Simplification of the Group structure—DKD*") and the United States (EUR 14.9 billion), representing 18.1%, 17.7%, 17.1%, 13.6% and 12.2%, respectively, of the Issuer's total credit risk exposure at 31 December 2018.

In connection with a reclassification at amortised cost, if there is a downward revision of related credit risk, greater provisioning by the Issuer would negatively affect its profitability. A significant deterioration of the risks on any of the countries or counterparties to which the Issuer is exposed to concentration risk, and any rating downgrades or defaults resulting therefrom, would have a material adverse impact on the cost of risk of the Issuer or its risk weighted assets, and would also have a negative impact on its regulatory ratios and consequently, on the Issuer's financial condition and results of operations.

***The Issuer is exposed to currency/exchange rate costs and related exposures.***

A substantial portion of the Issuer's assets are denominated in currencies other than the euro, thus requiring the Issuer to have access to funding in those currencies. Should DCL not be able to raise funding in the relevant currencies (primarily GBP and USD), or should the exchange rates between the euro and those currencies vary significantly from the rates assumed by the Orderly Resolution Plan, this would have a material adverse effect on the Issuer's financial condition and results of operations.

***Operational risks, including any systems failures or interruptions, could have a material adverse effect on the Issuer.***

Operational risk is defined as the risk of loss arising from the inadequacy or failure of procedures, individuals or internal systems, or external events including, but not limited to, natural disasters and fires. It includes risk relating to the security of information systems, litigation risk and reputational risk.

Unforeseen events such as severe natural catastrophes, terrorist attacks or other states of emergency can lead to an abrupt interruption of the Issuer's operations, which can cause substantial losses. Such losses can relate to property, financial assets, trading positions or key employees. Such unforeseen events can also lead to additional costs (such as relocation of employees affected) and increase the Issuer's costs (such as insurance premiums). Such events may also make insurance coverage for certain risks unavailable and thus increase the Issuer's risk.

As with most other banks, the Issuer relies heavily on communications and information systems to conduct its business. Any failure, interruption or breach in security of these systems could result in failures or interruptions in the Issuer's customer relationship management, general ledger, deposit, servicing and/or loan organisation systems. The Issuer cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed.

Monitoring of the risks relating to the Issuer and its operations and the banking industry is performed jointly by the appropriate committees and the Risk Management department, with the help of tools that it develops, in compliance with the guidelines established by the Dexia Group and all legal constraints and rules of prudence. As regards the supervision of risks in the subsidiaries and branches, each entity has its own local risk management structure. These structures are strictly independent of the front-offices and report to the Issuer's Risk Management department either directly (branches) or functionally (subsidiaries). A failure of these risk management tools, or non-compliance with the risk management guidelines established by the Dexia Group could have a material adverse effect on the Issuer's financial condition and results of operations.

Operational risk is increased by several factors related to the evolution of the implementation of the Orderly Resolution Plan, including (i) information technology and operational disruptions linked to the implementation of outsourcing projects and the simplification and/or centralisation operations carried out by the Group, and (ii) the overall decrease in staff levels across the Group.

The monitoring of operational risk and the preservation of operational continuity is one of the key strategic priorities of the Dexia Group. See "*Dexia Crédit Local—Towards a simplification and greater integration of the operating model—Outsourcing the operational processing chain for market activities and IT infrastructure*".

***The Issuer may not be able to attract and retain skilled management and other personnel, thus increasing operational risk.***

As an institution in run-off mode, the Issuer is operating with decreasing levels of staff while the complexity and magnitude of its activities remain significant. The Issuer may consequently experience difficulties in attracting and retaining personnel, including key personnel. A shortage of suitably qualified personnel may have a material adverse effect on the Issuer's business, results of operations or financial condition.

***The implementation of a more stringent bank regulatory framework, fully applicable to the Issuer notwithstanding its management in run-off pursuant to the Orderly Resolution Plan, adversely impacts the Issuer's current and future ability to comply with certain regulatory requirements, which could have a material adverse effect on the Issuer and lead to adverse consequences for Noteholders.***

The support granted by the States under the Orderly Resolution Plan, as approved by the European Commission on 28 December 2012, was calibrated to ensure continued compliance by the Dexia Group with the then applicable bank regulatory framework, as it was contemplated, at the time, to be amended in connection with the Basel III framework.

Prudential and accounting rules applying to the financial sector and to the operations of financial institutions became, after the adoption of the Orderly Resolution Plan, increasingly stringent and are likely to continue to evolve that way. In particular:

- (i) The European Union, Governments and regulatory authorities in France, the United Kingdom, the United States, Belgium and elsewhere are introducing and implementing, or may in the future introduce, significantly more restrictive regulatory requirements, including refinements in respect of weighting an institution's assets according to their risk, new accounting and capital adequacy rules, liquidity requirements, rules addressing risk concentration and asset/liability mismatches, and new regulations on derivative instruments or on the valuation of certain financial instruments;
- (ii) The evolution of accounting standards and market standards applying "fair-value" approaches has increased the volatility of DCL's regulatory capital base, reducing the predictability of its evolution. This has therefore put pressure on DCL's ability to meet solvency requirements under CRD IV;
- (iii) The standalone capital requirements for DCL and its subsidiaries have increased following relevant supervisory authorities' application of various capital buffers (including Pillar 2 requirements), which act to impose additional capital requirements in excess of the CRD IV minimum.

These requirements apply in full to banks, including to banks that (like the Issuer) are subject to resolution plans adopted by the European Commission prior to the entry into force of CRD IV.

The combination of more stringent regulatory rules under CRD IV, which were not fully anticipated at the time of approval of the Orderly Resolution Plan, and the obligations and restrictions imposed on the Dexia Group under the Orderly Resolution Plan (in essence, the sale of the main commercial franchises considered to be viable in the long term and management in run-off of the other franchises without new production) adversely impacted DCL's ability to comply with certain requirements under CRD IV. For instance, DCL's liquidity coverage ratio (the "LCR"), as at 31 December 2015, was equal to 54%, which was below the then applicable minimum LCR requirements under CDR IV. As from 1 January 2018, the minimum LCR requirement increased to 100%. As at 31 December 2018, DCL's LCR was 200%. It was also respected at the subsidiary level, each exceeding the required level of 100%. However, despite the significant progress made by DCL in terms of reducing its liquidity risk, the Issuer cannot exclude that it, or other members of the Group, may not be able to ensure compliance with such or certain other regulatory requirements over the term of the Orderly Resolution Plan. This could have a material adverse effect on the Issuer and lead to adverse consequences for Noteholders.

As from 1 March 2019, the Dexia Group must comply with a Total SREP capital requirement of 11% on a consolidated basis, which includes a minimum own funds requirement of 8% (Pillar 1) and an additional own funds requirement of 3% (P2R – Pillar 2 Requirement). By including the capital conservation buffer of 2.5% as well as the countercyclical buffer relating to exposures in France and the United Kingdom (estimated at 0.35%), the own funds requirement reaches 13.85%. The Total SREP capital requirement applicable to Dexia SA in 2018 was 12.125% (including the capital conservation buffer). In addition the ECB expects Dexia to comply with Pillar 2 capital guidance (P2G) of 1%, to be held over the level of 13.85% and to be made up entirely of Common Equity Tier 1 capital ("CET 1"). Taking account of P2G, the minimum level of the CET1 ratio reaches 11.35%.

As at 31 December 2018, the Issuer's total capital ratio and CET1 ratio were 23.61% and 23.2%, respectively, meeting the minimum requirements.

On-site inspections by the Issuer's supervisors are ongoing as of the date of this Information Memorandum, in particular with regard to credit risk. DCL will integrate the conclusions of such inspections when they are communicated, which might have an impact on DCL's solvency ratios.

Material breaches of the bank regulatory framework could result in the resolution authority exercising early intervention tools or resolution tools, including write-down or conversion to equity of regulatory capital instruments and eligible liabilities, pursuant to the terms of the BRRD (See "*Risk Factors Relating to Notes issued under the Programme—The Notes may be subject to write-down or conversion to equity in the context of a resolution procedure applicable to the Issuer*" below).

In addition, breaches of the bank regulatory framework could result in the ECB initiating enforcement action and consequently imposing sanctions against the Issuer, which may in turn have a material adverse effect on its operations and financial condition.

Should any enforcement action be initiated by the ECB in the future, current law and regulations would require it to comply with the proportionality principle and take into account the preservation of the financial stability of the Eurozone, as set out in the Single Supervisory Mechanism (SSM) and the SSM Framework Regulation. No assurance can be given, however, that the adoption of any such sanction would not have a material adverse effect on the Issuer and consequently on Noteholders.

***The Issuer is involved in lawsuits regarding structured loans, which may adversely affect its results of operations.***

The Issuer is involved in a number of disputes with French local authorities and related entities to which it has granted so-called "structured" loans. As at 31 December 2018, 30 clients are engaged in proceedings against the Issuer in connection with structured loans (as compared to 37 clients as at 31

December 2017), of which 16 relate to structured loans held by CAFFIL (formerly, Dexia Municipal Agency, a 100% subsidiary of the Issuer), a 100% subsidiary of SFIL, 12 relate to structured loans held by the Issuer and two relate to both institutions.

On 28 March 2018, the Supreme Court validated the Versailles Court of Appeal's favourable decision concerning structured loans held by CAFFIL, noting that structured loans were not financial and speculative products. The Supreme Court ruled that DCL had not incurred any liability in connection with the sale of these structured loans. With respect to the application of the French law validating the annual percentage rate of structured loans contracted by public entities, the Supreme Court held that public entities could not invoke the European Convention on Human Rights.

Even though this recent decision represents a significant evolution for the Issuer, it does not resolve the other proceedings based on other grounds that are ongoing at the date of this Information Memorandum.

Due to the specific characteristics of each of the structured loan disputes referred to above, the Issuer is not able to predict the outcome of these proceedings and it cannot be ruled out that any decisions handed down in any other disputes could result in a material adverse effect on the Issuer's business, results of operations or financial condition. See "*Dexia Crédit Local—Litigation*".

***The Issuer is involved in other lawsuits which could adversely affect its results of operations.***

Like many financial institutions, the Issuer is subject to a number of regulatory investigations and named as a defendant in a number of lawsuits. In addition, the possibility cannot be excluded that in the future, new proceedings, whether or not related to current proceedings, relating to the risks identified by the Group or to new risks, could be brought against the Issuer or other members of the Dexia Group. The status of the most significant investigations and litigations is summarised in the Issuer's and Dexia's Annual Reports 2018. See also "*Dexia Crédit Local—Litigation*". Any decision adverse to the Group in such investigations or lawsuits could materially impact its financial condition or results of operations and, as a consequence, those of the Issuer.

***The Issuer is subject to extensive supervisory and regulatory regimes in the countries in which it operates. It is difficult to predict whether or to what extent the legal and regulatory framework will change in the future or the impact of such changes on the Issuer's business.***

The Issuer is subject to extensive regulation and supervision in all jurisdictions in which it operates. The rules applicable to banks seek principally to limit their risk exposure, preserve their stability and financial solidity and protect depositors, creditors and investors. The rules applicable to financial services providers govern, among other things, the sale, placement and marketing of financial instruments. The banking companies within the Group must also comply with requirements as to capital adequacy (and in some cases liquidity) in the countries in which they operate. Compliance with these rules and regulations requires significant resources. Non-compliance with applicable laws and regulations could lead to fines, damage to the Issuer's reputation, forced suspension of its operations or the withdrawal of operating licences.

Since the onset of the financial crisis, a variety of measures have been proposed, discussed and in some cases adopted by numerous national and international legislative and regulatory bodies, as well as other entities. It is difficult to determine at this stage what the impacts of these measures would be if they were implemented. Certain of these measures have already been implemented, while others are still under discussion. It therefore remains difficult to calculate precisely the future impacts or, in some cases, to evaluate the likely consequences of these measures.

Finally, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**"), enacted in the United States in 2010, has led to significant structural reforms affecting the financial

services industry, including non-U.S. banks. Among other things, the Dodd-Frank Act addresses systemic risk oversight, bank capital standards, the orderly liquidation of failing systemically significant financial institutions, over-the-counter derivatives, the ability of banking entities to engage in proprietary trading activities and sponsor and invest in hedge funds and private equity funds and increases oversight of credit rating agencies.

While most of the regulations required under the Dodd-Frank Act have been adopted, certain of these regulations are not yet effective and have not yet been finalised. There is uncertainty regarding the nature, scope and timing of additional regulations that are required under the Dodd-Frank Act but which have yet to be promulgated, and in 2018 the United States passed legislation which scaled back the scope of the Dodd-Frank Act. As a result, the full effect on the Issuer, the Dexia Group, or their affiliates will not be known until all of the implementing regulations have been adopted. Finally, the current administration and the Congressional majority have indicated that U.S. financial regulations will be under further scrutiny and, as a result, some of the provisions of the Dodd-Frank Act and rules promulgated thereunder may be revised, repealed or amended.

On 10 December 2013, U.S. regulators released the final version of the rules implementing Section 619 of the Dodd-Frank Act (the "**Volcker Rule**"), which regulates the ability of banking entities, including entities such as DCL that are treated as bank holding companies under the Bank Holding Company Act of 1956, as amended (the "**BHCA**") and all of its affiliates, from engaging as principal in proprietary trading activities and sponsoring or investing in hedge, private equity or similar funds. The prohibition does not apply to activities conducted solely outside of the United States by certain non-U.S. banking entities, such as DCL.

Financial institutions subject to the Volcker Rule were required to bring their activities and investments into compliance by 21 July 2015, and the Issuer had in place policies, procedures, and compliance programmes at that time to ensure its compliance with respect to the prohibition on proprietary trading. Further compliance efforts may be necessary based on subsequent regulatory interpretations, guidelines or examinations. Although the Issuer works closely with its regulators and continually monitors the regulatory framework and compliance, the timing and form of future changes in regulation can be unpredictable and are beyond its control. No assurance can be given that laws and regulations will be adopted, enforced or interpreted in a manner that will not have a material adverse effect on the Issuer's, financial situation, results of operations, liquidity and/or prospects.

***The United Kingdom electorate's vote to leave the European Union could adversely affect the Issuer.***

On 29 March 2017, the United Kingdom invoked Article 50 of the Lisbon Treaty and officially notified the EU of its decision to withdraw from the EU. This commenced the formal two-year process of negotiations regarding the terms of the withdrawal and the framework of the future relationship between the UK and the EU (the "**article 50 withdrawal agreement**"). As part of those negotiations, a transitional period has been agreed in principle which would extend the application of EU law, and provide for continuing access to the EU single market, until the end of 2020. However, the article 50 withdrawal agreement was not ratified prior to the 29 March 2019 deadline and such deadline has now been extended, initially to 12 April 2019 and subsequently to 31 October 2019. The article 50 withdrawal agreement has still not been ratified by the UK.

It remains uncertain whether the article 50 withdrawal agreement will be finalised and ratified by the UK and the EU ahead of the 31 October 2019 deadline. If it is not ratified, the Treaty on the European Union and the Treaty on the Functioning of the European Union will cease to apply to the UK from that date. While continuing to negotiate the article 50 withdrawal agreement, the UK Government has commenced preparations for a 'hard' Brexit or 'no-deal' Brexit to minimise the risks for firms and businesses associated with an exit with no transitional agreement. This has included publishing draft secondary legislation under powers provided in the EU (Withdrawal) Act 2018 to ensure that there is

a functioning statute book on 31 October 2019. The European authorities have not provided UK firms and businesses with similar assurances in preparation for a 'hard' Brexit.

Due to the on-going political uncertainty as regards the terms of the UK's withdrawal from the EU and the structure of the future relationship, the precise impact on the Issuer is difficult to determine. The Issuer is particularly vulnerable to fluctuations in exchange rates, interest rates and asset valuations (including debt securities), which could continue to be volatile while the terms of Brexit are being negotiated. As such, no assurance can be given that such matters would not adversely affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or the liquidity of the Notes in the secondary market. See "*—As a financial institution in run-off, the Issuer is particularly vulnerable to fluctuations in external factors such as interest and foreign exchange rates.*", "*—Adjustments to the carrying value of the Issuer's securities and derivatives portfolios could have a material impact on its net income and shareholders' equity*" and "*—The Issuer is exposed to currency/exchange rate costs and related exposures*" above.

### **Factors Relating to Notes**

*The Notes may be subject to write-down or conversion to equity in the context of a resolution procedure applicable to the Issuer.*

Pursuant to the Single Resolution Mechanism Regulation, the Single Resolution Authority has the power to place an institution in resolution at the time the resolution authority determines that (i) the institution individually, or the group to which it belongs, is failing or likely to fail, (ii) there is no reasonable prospect that private action would prevent the failure and (iii) resolution action is necessary in the public interest.

An institution individually, or the group to which it belongs, as applicable, will be considered as failing or likely to fail, where:

- (i) the institution infringes, or will in the near future infringe, the requirements for its continued authorisation as a banking institution in a manner that would justify withdrawal of such authorisation including, but not limited to, because the institution has incurred or is likely to incur losses depleting all or a significant amount of its own funds; or
- (ii) the assets of the institution are, or in the near future will be, less than its liabilities; or
- (iii) the institution is, or in the near future will be, unable to pay its debts or other liabilities as they fall due; or
- (iv) the institution requires extraordinary public financial support.

If an institution is placed in resolution, resolution authorities have the power inter alia to ensure that capital instruments and eligible liabilities, including senior debt instruments such as the Notes, absorb losses of the issuing institution, through the write-down or conversion to equity of such instruments (the "**Bail-In Tool**"). The Bail-In Tool became effective on 1 January 2016.

The use of the Bail-In Tool could result in the full or partial write-down or conversion to equity of the Notes, or in a variation of the terms of the Notes, which could result in Noteholders losing some or all of their investment under the Notes, although without prejudice to their rights under the Guarantee.

The impact of the Single Resolution Mechanism Regulation and its implementing provisions on credit institutions, including the Issuer, is currently unclear and the future implementation and application to the Issuer or the taking of any action under it could materially adversely affect the Issuer and the value of the Notes. Furthermore, the exercise of any power under the BRRD and/or the Single

Resolution Mechanism Regulation as applied to the Issuer or any suggestion of such exercise could materially adversely affect the rights of Noteholders, the market value of their investment in the Notes, without prejudice to the rights of the Noteholders under the Guarantee, and/or the ability of the Issuer to satisfy its obligations under the Notes. In addition, if the Issuer's financial condition deteriorates, the existence of the Bail-In Tool could cause the market value of the Notes to decline more rapidly than would be the case in the absence of such tools.

Noteholders may have only very limited rights to challenge and/or seek a suspension of any decision of the relevant resolution authority to exercise its resolution powers or to have that decision reviewed by a judicial or administrative process or otherwise.

The Issuer, as member of a banking group subject to the Orderly Resolution Plan, which was adopted prior to the entry into force of the BRRD and the Single Resolution Mechanism Regulation, is not excluded from the scope of the BRRD and the Single Resolution Mechanism Regulation. However, in assessing the conditions of application of the Bail-In Tool (especially the third one, which relates to compliance of a resolution with the public interest, including preservation of financial stability), the Group's public shareholding structure and the EUR 85 billion liquidity guarantee granted by the States of Belgium, France and Luxembourg, could be taken into account by the resolution authority. It may yet not be excluded that, in certain circumstances, the application of the Bail-In Tool to the Issuer and to the Notes could be considered as necessary in the public interest within the meaning of the BRRD and the Single Resolution Mechanism Regulation.

In any event, the application of the Bail-In Tool to the Notes would not release the States from any of their obligations under the Guarantee. Article 354/1 of the Belgian law of 25 April 2014 on the status and supervision of credit institutions provides (amongst others) that the write-off or the conversion to equity of debt instruments issued by a credit institution incorporated in an EU Member State (such as the Notes) does not benefit third-party guarantors under guarantees governed by Belgian law (such as the Guarantee). The purpose of this provision is to render the discharge following the application of the Bail-In Tool without effect vis-à-vis third-party guarantors. The States would therefore remain liable to perform their obligations under the Guarantee notwithstanding any write-down or conversion to equity of the Notes following application of the Bail-In Tool.

***Under the terms of the Notes, investors will agree to be bound by and consent to the exercise of any Bail-in Powers by the Single Resolution Mechanism.***

By acquiring the Notes, each Noteholder and each beneficial owner acknowledges, accepts, consents and agrees to be bound by (a) the effect of the exercise of any Bail-in Powers by the Single Resolution Mechanism, that may include and result in any of the following, or some combination thereof: (i) the reduction of all, or a portion, of the principal amount of, or any interest on, the Notes or any other outstanding amounts due under, or in respect of, the Notes; (ii) the conversion of all, or a portion, of the principal amount of, or any interest on, the Notes or any other outstanding amounts due under, or in respect of, the Notes into shares, other securities or other obligations of the Bank or another person (and the issue to or conferral on the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes; (iii) the cancellation of the Notes; (iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and (b) the variation of the terms of the Notes, if necessary, to give effect to the exercise of any Bail-in Powers by the Single Resolution Mechanism. See "*Notice to Investors—Bail-In*" and "*Terms and Conditions of the Notes—Bail-in*".

### ***Only one Event of Default***

There is only one event of default under the Notes allowing Noteholders to accelerate payments under the Notes as a result of certain events relating to the Guarantee in certain circumstances not being or

ceasing to be in full force and effect. In particular, Noteholders may not call an event of default as a result of non-payment by the Issuer of principal or interest under the Notes or as a result of non-performance by the Issuer of any of its other obligations under the Notes, nor do the events of default under the Notes contain a cross-default provision in respect of other indebtedness of the Issuer. See "*Terms and Conditions of the Notes — Event of Default*" and "*Risk Factors — Factors Relating to the Guarantee — Noteholders have no acceleration rights against the Guarantors and may lose their right to call upon the Guarantee as a result of accelerating against the Issuer*" above.

***The trading market for debt securities may be volatile and may be adversely impacted by many events.***

The market for debt securities issued by banks is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

***An active trading market for the Notes may not develop.***

There can be no assurance that an active trading market for the Notes will develop, or, if one does develop, that it will be maintained (for example, Notes may be allocated to a limited pool of investors). If an active trading market for the Notes does not develop or is not maintained, the market or trading price and liquidity of the Notes may be adversely affected. If additional and competing products are introduced in the markets, this may adversely affect the value of the Notes. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed trading market.

***Any early redemption at the option of the Issuer, if provided for in any Pricing Supplement for a particular issue of Notes, could cause the yield anticipated by Noteholders to be considerably less than anticipated.***

In the event that the Issuer is obliged to pay additional amounts in respect of any Notes due to any withholding as provided in Condition 8 of the "*Terms and Conditions of the Notes*", the Issuer may and, in certain circumstances, shall redeem all of the Notes then outstanding in accordance with the "*Terms and Conditions of the Notes*".

The Pricing Supplement for a particular issue of Notes may provide for early redemption at the option of the Issuer. Such right of termination is often included in the terms of Notes in periods of high interest rates. If market interest rates decrease, the risk to Noteholders that the Issuer will exercise its right of termination increases.

As a consequence of an early redemption of the Notes, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost, so that the Noteholder in such case would not receive the total amount of the capital invested. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Notes.

***A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs.***

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. For instance, credit institutions as a rule charge their clients for their own commissions which are either fixed minimum commissions

or *pro rata* commissions depending on the order value. To the extent that additional — domestic or foreign — parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account the fact that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs),

In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any follow up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

***A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes.***

Payments of interest on the Notes, or profits realised by the Noteholder upon the disposal or repayment of the Notes, may be subject to taxation in its home jurisdiction or in other jurisdictions in which it is required to pay taxes. The tax impact on Noteholders generally in Belgium, France and Luxembourg is described under "*Taxation*" below; however, the tax impact on an individual Noteholder may differ from the situation described for Noteholders generally. The Issuer advises all investors to contact their own tax advisers for advice on the tax impact of an investment in the Notes.

***A partial redemption at the option of the Issuer or a redemption at the option of the Noteholders may affect the liquidity of the Notes of the same Series in respect of which such option is not exercised.***

Depending on the number of Notes of the same Series of which a partial redemption of the Notes at the option of the Noteholders or at the option of the Issuer is made, any trading market in respect of those Notes in respect of which such option is exercised may become illiquid. This applies also in the case of Extendible Notes.

***The Maturity Date of Notes may be automatically extended.***

In the case of Extendible Notes, unless a Noteholder exercises its Non-Extension Option within the relevant Exercise Period (as defined in Part 19(iv)(g) of the Pricing Supplement) in accordance with the Conditions (in which case the Maturity Date of such Notes shall not be extended on any Automatic Extension Date as provided in the relevant Pricing Supplement), on each Automatic Extension Date during the Automatic Extension Period as provided in the relevant Pricing Supplement, the Maturity Date of each Note shall be extended automatically for the Automatic Extension Duration as provided in the relevant Pricing Supplement, *provided that* such extended Maturity Date shall not exceed the maximum maturity as specified in the Guarantee which is, at the date of this Information Memorandum, ten years from the relevant Issue Date. Any Notes in respect of which the Maturity Date has not been so extended will be attributed a separate ISIN number and common code and, in the case of Notes in definitive form, such Notes (together with, In the case of Bearer Notes, any related Receipts, Coupons and Talons) are required to be delivered to the Fiscal Agent or, in the case of Registered Notes, the Registrar or such other agent so specified for such purpose for appropriate annotation and (in the case of Bearer Notes) cancellation of all unmatured Receipts and Coupons falling due after the Maturity Date for such Notes and unexchanged Talons. If the Notes are still held in global form, the relevant Global Note or Global Certificate will be annotated in order to reduce the aggregate nominal amount of such Notes and a new Global Note or Global Certificate representing such Notes will be issued in respect thereof and the Noteholder will, unless otherwise specified in the applicable Pricing Supplement, be required to arrange for such Notes to be "blocked" in the relevant participant's account with such clearing system through which such Notes are held until the relevant Automatic Extension Date.

### *Change in value of Fixed Rate Notes*

Investors in Fixed Rate Notes are exposed to the risk that subsequent changes in interest rates may adversely affect the value of the Notes.

### *Investors will not be able to calculate in advance their rate of return on Floating Rate Notes.*

A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield for Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. This means that investors may only reinvest the interest income paid to them at the relevant lower interest rates then prevailing.

### *Benchmark reforms and licensing*

LIBOR and EURIBOR are, and other types of indices, including (but not limited to) indices comprised of interest rates, equities, commodities, commodity indices, exchange traded products, foreign exchange rates, funds and combinations of any of the preceding types of indices which may be deemed to be, "benchmarks", which have been the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

Key international regulatory initiatives relating to the reform of benchmarks include IOSCO's Principles for Financial Benchmarks (the "**IOSCO Principles**") and the Benchmark Regulation. The IOSCO Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering (among other things) governance and accountability as well as the quality, integrity and transparency of benchmark design, determination and methodologies. A review published by IOSCO in February 2015 of the status of the voluntary market adoption of the IOSCO Principles noted that there has been significant but mixed progress on implementation of IOSCO Principles but that as the benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future.

The Benchmark Regulation was published in the Official Journal of the European Union on 29 June 2016. Most of provisions of the Benchmark Regulation came into force on 1 January 2018 with the exception of certain provisions (mainly on critical benchmarks) that applied from 30 June 2016. The Benchmark Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union and will, among other things, (i) require benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of "benchmarks" (or, if non-EU-based, to be subject to equivalent requirements) and (ii) prevent certain uses by EU-supervised entities of "benchmarks" of administrators that are not authorised/registered (or, if non-EU based, deemed equivalent or recognised or endorsed). The scope of the Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices, such as EURIBOR, applies to many interest rate and foreign exchange rate indices, equity indices and other indices (including "proprietary" indices or, potentially, baskets, portfolios or strategies) where used to determine the amount payable under or the value or performance of certain financial instruments for which a request for admission to trading on a trading venue has been made, or which are traded on a trading venue (EU regulated market, EU multilateral trading facility ("**MTF**"), EU organised trading facility ("**OTF**")) or via a systematic internaliser, financial contracts and investment funds.

Different types of benchmark (critical benchmarks, significant benchmarks, non-significant benchmarks and interest rate benchmarks, commodity benchmarks, regulated data benchmarks) are subject to some variations to take into account their characterisation.

The Benchmark Regulation could have a material impact on any securities, including the Notes for which a request for admission to trading on a trading venue has been made, or which are traded on a trading venue or via a "systematic internaliser", financial contracts and investment funds linked to a "benchmark" index, including in any of the following circumstances:

- subject to any applicable transitional provisions, an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator, or the benchmark, is not entered in or is removed from ESMA's register of Benchmark Regulation approved benchmarks (for example if the administrator does not obtain or retain authorisation or registration under the Benchmark Regulation, or, if based in a non-EU jurisdiction, the administrator does not obtain or retain recognition or endorsement and the administrator/benchmark does not benefit from equivalence); or
- the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmark Regulation.

Any of the above changes or any other consequential changes to any benchmark as a result of international, national or other reforms or investigations, could potentially:

- lead to the Notes being de-listed, adjusted, redeemed early, subject to discretionary valuation by the Calculation Agent or otherwise impacted depending on the particular "benchmark" and the applicable terms of the Notes;
- affect the level of the published rate or the level of the "benchmark", including causing it to be lower, higher or more volatile than in the past;
- increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements;
- discourage market participants from continuing to administer or contribute to certain "benchmarks";
- trigger changes in the rules or methodologies used in certain "benchmarks";
- lead to the disappearance of certain "benchmarks", or certain currencies or tenors of benchmarks (for example, on 27 July 2017, the UK Financial Conduct Authority (the "FCA") announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. The potential elimination of the LIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, may require an adjustment to the Terms and Conditions of the Notes, or result in other consequences, in respect of any Notes linked to such benchmark (including but not limited to Floating Rate Notes whose interest rates are linked to LIBOR) depending on the specific provisions of the relevant terms and conditions applicable to the Notes); or
- have other adverse effects or unforeseen consequences.

Any such consequences could have a material adverse effect on the liquidity, the value of and return on any Notes and on any hedging arrangements entered into in relation to such Notes. A benchmark

licence may also be required for the issuance or calculation of amounts payable under any Notes referencing a benchmark.

To the extent any such licence is not obtained or retained, it may not be possible for the Notes to reference the benchmark and the Notes may be adjusted or redeemed early or otherwise impacted depending on the particular "benchmark" and the relevant terms and conditions applicable to the Notes.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by benchmark reforms, and licensing issues in making any investment decision with respect to the Notes.

***Future discontinuance of LIBOR, EURIBOR or other benchmarks may adversely affect the value of Floating Rate Notes that reference any such benchmark***

As noted above, on 27 July 2017, and in a subsequent speech by its Chief Executive on 12 July 2018, the FCA, which regulates LIBOR, announced that it does not intend to continue to persuade, or use its powers to compel, panel banks to submit rates for the calculation of LIBOR to the administrator of LIBOR after 2021. The announcement indicates that the continuation of LIBOR on the current basis is not guaranteed after 2021. It is not possible to predict whether, and to what extent, panel banks will continue to provide LIBOR submissions to the administrator of LIBOR going forwards. This may cause LIBOR to perform differently than it did in the past and may have other consequences which cannot be predicted.

In addition, on 29 November 2017, the Bank of England and the FCA announced that, from January 2018, their Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") over the next four years across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

Separate workstreams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended Euro Short-term Rate ("**ESTER**") as the new risk free rate. ESTER is expected to be published by the ECB by October 2019. In addition, on 21 January 2019, the euro risk free-rate working group published a set of guiding principles for fallback provisions in new contracts for euro denominated cash products (including bonds). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

Investors should be aware that, if LIBOR, EURIBOR or any other benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which reference any such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes. Depending on the manner in which the benchmark rate is to be determined under the Terms and Conditions, this may in certain circumstances (i) be reliant upon the provision by reference banks of offered quotations for the benchmark rate which, depending on market circumstances, may not be available at the relevant time, (ii) result in the effective application of a fixed rate based on the rate which applied in the previous period when the benchmark was available or (iii) be replaced by an alternative rate, as described below. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any such Floating Rate Notes.

Pursuant to the terms and conditions of any applicable Floating Rate Notes or any other Notes whose return is determined by reference to any benchmark, if the Issuer or Calculation Agent determines at any time that the Relevant Screen Page on which appears the Reference Rate for such Notes has been

discontinued or following the adoption of a decision to withdraw the authorisation or registration of ICE Benchmark Administration as set out in Article 35 of the Benchmark Regulation or any other benchmark administrator previously authorized to publish any Replacement Reference Rate under any applicable laws or regulations, the Issuer will appoint a Reference Rate Determination Agent (which may be (i) a leading bank or a broker-dealer in the principal financial centre of the Specified Currency (which may include one of the Dealers involved in the issue of such Notes) as appointed by the Issuer, (ii) the Issuer or an affiliate of the Issuer (but in which case any such determination shall be made in consultation with an independent financial advisor), (iii) the Calculation Agent or (iv) any other entity which the Issuer considers has the necessary competences to carry out such role) who will determine a Replacement Reference Rate, as well as any necessary changes to the business day convention, the definition of business day, the interest determination date, the day count fraction, and any method for obtaining the Replacement Reference Rate, including any adjustment factor needed to make such Replacement Reference Rate comparable to the Relevant Screen Page on which appears the Reference Rate. Such Replacement Reference Rate and any such other changes will (in the absence of manifest error) be final and binding on the Noteholders, the Issuer, the Calculation Agent and the Fiscal and Paying Agent and any other person, and will apply to the relevant Notes without any requirement that the Issuer obtain consent of any Noteholders.

The Replacement Reference Rate may have no or very limited trading history and accordingly its general evolution and/or interaction with other relevant market forces or elements may be difficult to determine or measure. In addition, the replacement rate may perform differently from the discontinued benchmark. For example, there are currently proposals to replace LIBOR (which generally has a term of one, three or six months) with an overnight rate. Similarly, proposals have been made to use a rate on highly rated government obligations to replace LIBOR, which is currently based on interbank lending rates and carries an implicit element of credit risk of the banking sector. These and other changes could significantly affect the performance of an alternative rate compared to the historical and expected performance of LIBOR or any other relevant benchmark. There can be no assurance that any adjustment factor applied to any Series of Notes will adequately compensate for this impact. This could in turn impact the rate of interest on, and trading value of, the affected Notes. Moreover, any holders of such Notes that enter into hedging instruments based on the Relevant Screen Page on which appears the Reference Rate may find their hedges to be ineffective, and they may incur costs replacing such hedges with instruments tied to the Reference Replacement Rate.

If the Reference Rate Determination Agent is unable to determine an appropriate Replacement Reference Rate for any discontinued Reference Rate or a decision to withdraw the authorisation or registration of ICE Benchmark Administration as set out in Article 35 of the Benchmark Regulation or any other benchmark administrator previously authorized to publish any Replacement Reference Rate under any applicable laws or regulations is adopted but for any reason a Replacement Reference Rate is not determined, then the provisions for the determination of the rate of interest on the affected Notes will not be changed. In such cases, the Terms and Conditions of the Notes provide that, the relevant Interest Rate on such Notes will be the last Reference Rate available on the Relevant Screen Page as determined by the Calculation Agent, effectively converting such Notes into fixed rate Notes.

Furthermore, in the event that no Replacement Reference Rate is determined and the affected Notes are effectively converted to fixed rate Notes as described above, investors holding such Notes might incur costs from unwinding hedges. Moreover, in a rising interest rate environment, holders of such Notes will not benefit from any increase in rates. The trading value of such Notes could therefore be adversely affected.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmark Regulation or any of the international or national reforms and the possible application of the benchmark replacement provisions of the Notes in making any investment decision with respect to any Notes referencing a benchmark.

***Zero coupon notes are subject to higher price fluctuations than non-discounted notes.***

Changes in market interest rates have a substantially stronger impact on the prices of zero coupon notes than on the prices of ordinary interest-bearing notes because the discounted issue prices are substantially below par. If market interest rates increase, zero coupon notes can suffer higher price losses than other notes having the same maturity and credit rating. Due to their leverage effect, zero coupon notes are a type of investment associated with a particularly high price risk.

***Foreign currency notes expose investors to foreign-exchange risk.***

As purchasers of foreign currency notes, investors are exposed to the risk of changing foreign exchange rates. This risk is in addition to any performance risk that relates to the Issuer or the type of note being issued.

***Taxation***

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdictions to which the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial obligations such as the Notes. Potential investors are advised not to rely exclusively upon the tax summary contained in this Information Memorandum and/or in the Pricing Supplement but to seek the advice of their own tax adviser on their individual taxation situation with respect to the acquisition, holding, disposal and redemption of the Notes. Only these advisers are in a position to duly consider the specific situation of the potential investor. This investment consideration should be read in conjunction with the taxation sections of this Information Memorandum and the additional tax sections, if any, contained in the relevant Pricing Supplement.

***Financial Transaction Tax (the FTT)***

On 14 February 2013 the European Commission published a proposal (the "**Commission Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia withdrew from the enhanced cooperation in March 2016.

The Commission Proposal has very broad scope and could, if introduced, apply to certain transactions relating to Notes (including secondary market transactions) in certain circumstances.

Under the Commission Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution (as defined in the proposal) and at least one party is established in a participating Member State. A party may be deemed to be "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission Proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or participating Member States may decide to withdraw.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

***Exchange rate risks and exchange controls may adversely affect the return on the Notes issued under the Programme.***

The Issuer will pay principal and interest on the Notes issued under the Programme in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes, and (iii) the Investor's Currency-equivalent market value of the Notes. In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect applicable exchange rates. As a result, investors may receive an amount of interest or principal that is less than expected.

***The value of the Notes could be adversely affected by a change in English law or administrative practice***

The terms and conditions of the Notes are governed by English law in effect as of the date of this Information Memorandum. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Information Memorandum and any such change could materially adversely affect the value of any Notes affected by it.

***Since the Notes are held by or on behalf of Euroclear and Clearstream, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer***

The Notes in the form of Global Notes will be deposited with a common depository or a common safekeeper for Euroclear and Clearstream. Except in the circumstances described in the Global Notes, investors will not be entitled to receive Notes in definitive form (see "*Summary of Provisions relating to the Notes while in Global Form*"). Euroclear and Clearstream will maintain records of the beneficial interest in the Global Notes. While the Notes are in global form, investors will be able to trade their beneficial interests only through Euroclear or Clearstream, as the case may be.

While the Notes are in global form, the Issuer will discharge its payment obligations under the Notes by making payments to the common depository or the common safekeeper. A holder of a beneficial interest in the Notes must rely on the procedures of Euroclear and/or Clearstream, as the case may be, to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

***Credit ratings may not reflect all risks***

One or more independent credit rating agencies may assign credit ratings to the Notes whether on a solicited or an unsolicited basis. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this section, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time which may also affect the value of the Notes.

***Legal investment considerations may restrict certain investments***

The investment activities of certain investors are subject to legal investment laws and regulations, and/or to review or regulation by certain authorities. Each potential investor should consult its legal

advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions, insurance companies and other regulated entities should consult their legal advisors or the appropriate supervisors to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

### ***Minimum Denominations***

In relation to any issue of Notes which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of the minimum Specified Denomination (or its equivalent) that are not integral multiples of the minimum Specified Denomination (or its equivalent). In such a case a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination will not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that it holds an amount equal to one or more minimum Specified Denominations.

If such Notes in definitive form are issued, holders should be aware that definitive Notes having a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

### ***Notes issued under the Programme may not be a suitable investment for all investors***

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained (or incorporated by reference) in this Information Memorandum;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, such as instances where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the relevant Notes issued under the Programme and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial advisor) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes, which are complex financial instruments, unless it has the expertise (either alone or with the assistance of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the overall investment portfolio of the potential investor.

***Conflicts may arise between the interests of the Calculation Agent and the interests of holders of Notes, Receipts and Coupons***

Potential conflicts of interest may exist between the Calculation Agent (if any) and holders of Notes, Receipts and Coupons (including where a Dealer acts as Calculation Agent) with respect to certain determinations and judgments that such Calculation Agent makes pursuant to the Conditions that may influence amounts receivable by such holders during the term of such Notes, Receipts and Coupons and/or upon redemption of the Notes.

## DOCUMENTS INCORPORATED BY REFERENCE

This section incorporates selected publicly available information that should be read in conjunction with this Information Memorandum.

The following are documents which have previously been published or are published simultaneously with this Information Memorandum and are incorporated in, and form part of, this Information Memorandum:

- (a) the free English translation of the Issuer's 2018 Registration Document, the official French version of which was filed with the AMF on 6 May 2019 in accordance with Article 212-13 of the AMF's General Regulations, and which includes the Issuer's consolidated financial statements as at, and for the year ended 31 December 2018 and the related auditor's report (the "**Issuer's Annual Report 2018**");
- (b) the free English translation of the Issuer's 2017 Registration Document, the official French version of which was filed with the AMF on 27 April 2018 in accordance with Article 212-13 of the AMF's General Regulations, and which includes the Issuer's consolidated financial statements as at, and for the year ended 31 December 2017 and the related auditor's reports (the "**Issuer's Annual Report 2017**");
- (c) the terms and conditions of the Notes contained on pages (i) 26 to 49 of the Information Memorandum dated 2 July 2013 (the "**2013 Conditions**"), (ii) on pages 22 to 42 of the Information Memorandum dated 27 June 2014 (the "**2014 Conditions**"), (iii) on pages 36 to 60 of the Information Memorandum dated 1 July 2015 (the "**2015 Conditions**"), (iv) on pages 38 to 63 of the Information Memorandum dated 5 July 2016 (the "**2016 Conditions**"), (v) on pages 41 to 66 of the Information Memorandum dated 29 June 2017 (the "**2017 Conditions**") and (vi) the terms and conditions of the Notes contained on pages 47 to 75 of the Information Memorandum dated 25 June 2018 (the "**2018 Conditions**").

Copies of documents incorporated by reference in this Information Memorandum can be found on the website of the Issuer ([www.dexia-creditlocal.fr](http://www.dexia-creditlocal.fr)) or obtained from the registered office of the Issuer and the specified office of the Fiscal Agent for the time being. This Information Memorandum and the documents incorporated by reference will also be published on the Luxembourg Stock Exchange website ([www.bourse.lu](http://www.bourse.lu)).

Statements incorporated in any supplement to this Information Memorandum (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Information Memorandum or in a document which is incorporated by reference into this Information Memorandum. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Information Memorandum.

Any documents themselves incorporated by reference in the documents incorporated by reference in this Information Memorandum shall not form part of this Information Memorandum.

## TERMS AND CONDITIONS OF THE NOTES

*The following is the text of the terms and conditions that, subject to completion and amendment and as supplemented or varied in accordance with the provisions of Part A of the relevant Pricing Supplement, shall be applicable to the Notes in definitive form (if any) issued in exchange for the Global Note(s) representing each Series. Either (i) the full text of these terms and conditions together with the relevant provisions of Part A of the Pricing Supplement or (ii) these terms and conditions as so completed, amended, supplemented or varied (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on such Bearer Notes or on the Certificates relating to such Registered Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in Part A of the relevant Pricing Supplement. Those definitions will be endorsed on the definitive Notes or Certificates, as the case may be. References in the Conditions to "Notes" are to the Notes of one Series only, not to all Notes that may be issued under the Programme.*

The Notes are issued by Dexia Crédit Local (the "**Issuer**") pursuant to an Amended and Restated Agency Agreement dated 25 June 2019 (as amended or supplemented as at the date of issue of the Notes (the "**Issue Date**"), the "**Agency Agreement**"), between the Issuer, Banque Internationale à Luxembourg, *société anonyme* as fiscal agent (the "**Fiscal Agent**"), as paying agent (together with the Fiscal Agent and any additional or other paying agents in respect of the Notes from time to time appointed, the "**Paying Agents**"), as calculation agent (together with any additional or other calculation agents in respect of the Notes from time to time appointed, the "**Calculation Agent(s)**"), as consolidation agent (the "**Consolidation Agent**"), as transfer agent (together with any additional or other transfer agents in respect of the Notes from time to time appointed, the "**Transfer Agents**"), as registrar (the "**Registrar**"), and as exchange agent (the "**Exchange Agent**") and with the benefit of an Amended and Restated Deed of Covenant dated 25 June 2019 (as amended or supplemented as at the Issue Date, the "**Deed of Covenant**") executed by the Issuer in relation to the Notes. The Noteholders (as defined below), the holders of the interest coupons (the "**Coupons**") relating to interest-bearing Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the "**Talons**") (the "**Couponholders**") and the holders of the receipts for the payment of instalments of principal (the "**Receipts**") relating to Notes in bearer form of which the principal is payable in instalments are deemed to have notice of all of the provisions of the Agency Agreement applicable to them.

As used in these Conditions, "**Tranche**" means Notes which are identical in all respects.

Copies of the Agency Agreement, the Deed of Covenant and the Guarantee (as defined in Condition 3(b)) are available for inspection at the specified offices of each of the Paying Agents, the Registrar and the Transfer Agents.

### 1. **Form, Denomination and Title**

#### (a) **Form and Denomination**

The Notes are issued in bearer form ("**Bearer Notes**") or in registered form ("**Registered Notes**") in each case in the Specified Denomination(s) shown in the relevant Pricing Supplement.

All Registered Notes shall have the same Specified Denomination.

The Notes can be issued as a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note or an Instalment Note, a combination of any of the foregoing or any other kind of Note, depending upon the Interest and Redemption/Payment Basis shown in the relevant Pricing Supplement.

Bearer Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable. Instalment Notes are issued with one or more Receipts attached.

Registered Notes are represented by registered certificates ("**Certificates**") and, save as provided in Condition 2(b), each Certificate shall represent the entire holding of Registered Notes by the same holder.

**(b) Title**

Title to the Bearer Notes and the Receipts, Coupons and Talons shall pass by delivery. Title to the Registered Notes shall pass by registration in the register which the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the "**Register**"). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as the absolute owner of such Note, Receipt, Coupon or Talon, as the case may be, for the purpose of receiving payment thereon and for all other purposes, whether or not such Note, Receipt, Coupon or Talon shall be overdue and notwithstanding any notice of ownership, theft or loss thereof (or of that of the related Certificate) or any writing thereon (or on the Certificate representing it) made by anyone, and no person shall be liable for so treating the holder.

In these Conditions, "**Noteholder**" means the bearer of any Bearer Note and the Receipts relating to it or the person in whose name a Registered Note is registered (as the case may be), "holder" (in relation to a Note, Receipt, Coupon or Talon) means the bearer of any Bearer Note, Receipt, Coupon or Talon or the person in whose name a Registered Note is registered (as the case may be) and capitalised terms have the meanings given to them hereon, the absence of any such meaning indicating that such term is not applicable to the Notes.

**2. Transfers of Registered Notes**

**(a) Transfer of Registered Notes**

One or more Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate, duly completed and executed and any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor.

**(b) Exercise of Options or Partial Redemption in Respect of Registered Notes**

In the case of an exercise of an Issuer's or Noteholders' option in respect of, or a partial redemption of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is

already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

**(c) Delivery of New Certificates**

Each new Certificate to be issued pursuant to Condition 2(a) or (b) shall be available for delivery within three business days of receipt of the request for exchange, form of transfer or Exercise Notice (as defined in Condition 6(e)) and surrender of the Certificate for exchange. Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such request for exchange, form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent (as defined in the Agency Agreement) the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(c), "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar (as the case may be).

**(d) Transfer Free of Charge**

Transfer of Notes and Certificates on registration, transfer, partial redemption or exercise of an option will be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may require in respect thereof) of any tax or other governmental charges which may be imposed in relation to it.

**(e) Closed Periods**

No Noteholder may require the transfer of a Registered Note to be registered (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Note, (ii) during the period of 15 days prior to any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 6(d), (iii) after any such Note has been called for redemption in whole or in part or (iv) during the period of seven days ending on (and including) any Record Date.

**3. Status and Guarantee**

**(a) Status**

The Notes and the Receipts and Coupons relating to them constitute direct, unconditional, unsecured (without prejudice to the provisions of Condition 4) and unsubordinated obligations of the Issuer and rank and will rank *pari passu* among themselves and at least equally with all other unsecured indebtedness and guarantees, present and future, of the Issuer without any preference or priority by reason of date of issue, currency of payment or otherwise (except for indebtedness granted preference by mandatory provisions of law and without prejudice as aforesaid).

**(b) Guarantee**

The Notes are severally, but not jointly, guaranteed by the Kingdom of Belgium, the Republic of France and the Grand Duchy of Luxembourg (each, a "**Guarantor**" and together, the "**Guarantors**") according to the terms of a Guarantee dated 24 January 2013 (as modified or supplemented at the relevant Issue Date, the "**Guarantee**")<sup>4</sup>.

**4. Negative Pledge**

The Issuer undertakes that, so long as any of the Notes, Receipts or Coupons remains outstanding (as defined in the Agency Agreement), it will not secure or allow to be or remain secured any Marketable Indebtedness (as defined below) now or hereafter existing by any mortgage, lien, pledge, assignment or charge upon any of the present or future revenues or assets of the Issuer without at the same time according to the Notes, Receipts or Coupons an equal and rateable interest in the same security. As used in this paragraph, "*Marketable Indebtedness*" means any indebtedness in whatever currency in the form of, or represented or evidenced by, bonds, notes, debentures or other securities which, in connection with their initial distribution, (i) are or are to be quoted, listed or traded on any stock exchange or over-the-counter or other securities market and (ii) are intended to be offered or distributed, directly or indirectly, by or with the authorisation of the Issuer to persons resident outside the Republic of France and/or to qualified investors within the Republic of France.

**5. Interest and other Calculations**

**(a) Interest on Fixed Rate Notes**

Each Fixed Rate Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date as specified in the relevant Pricing Supplement. The amount of interest payable shall be determined in accordance with Condition 5(g).

**(b) Interest on Floating Rate Notes**

*(i) Interest Payment Dates*

Each Floating Rate Note bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 5(g). Such Interest Payment Date(s) is/are either shown in the relevant Pricing Supplement as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown in the relevant Pricing Supplement, Interest Payment Date shall mean each date which falls the number of months or other period shown in the relevant Pricing Supplement as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

*(ii) Business Day Convention*

If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is

---

<sup>4</sup> Copies of the Guarantee are available for inspection at the specified offices of each of the Paying Agents, the Registrar and the Transfer Agents.

not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) *Rate of Interest for Floating Rate Notes*

The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified in the relevant Pricing Supplement and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Pricing Supplement.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the relevant Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), "**ISDA Rate**" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Pricing Supplement;
- (y) the Designated Maturity is a period specified in the relevant Pricing Supplement; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the relevant Pricing Supplement.

For the purposes of this sub-paragraph (A), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Pricing Supplement, the Minimum Rate of Interest in respect of Floating Rate Notes as provided by Condition 5(f)(ii) shall be deemed to be zero.

(B) Screen Rate Determination for Floating Rate Notes

(w) Where Screen Rate Determination is specified in the relevant Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR) on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the relevant Pricing Supplement as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the relevant Pricing Supplement.

(x) If the Relevant Screen Page is not available or, if paragraph (w)(1) above applies and no such offered quotation appears on the Relevant Screen Page, or, if paragraph (w)(2) above applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks or, if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), or if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and

(y) (1) if paragraph (x) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and

at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, *provided that*, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period);

(2) except that, if (i) the Issuer or Calculation Agent determines that the absence of quotation is due to the discontinuation of the Relevant Screen Page or (ii) following the adoption of a decision to withdraw the authorisation or registration of ICE Benchmark Administration as set out in Article 35 of the Benchmark Regulation or any other benchmark administrator previously authorised to publish any Replacement Reference Rate (as defined below) under any applicable laws or regulations, then the Reference Rate will be determined in accordance with paragraph (z) below.

(z) Notwithstanding paragraph (x) above, (1) if the Issuer or the Calculation Agent determines at any time prior to, on or following any Interest Determination Date, that the Relevant Screen Page on which appears the Reference Rate has been discontinued or (2)

following the adoption of a decision to withdraw the authorisation or registration of ICE Benchmark Administration as set out in Article 35 of the Benchmark Regulation or any other benchmark administrator previously authorised to publish any Replacement Reference Rate (as defined below) under any applicable laws or regulations, the Issuer will as soon as reasonably practicable (and in any event prior to the next relevant Interest Determination Date) appoint an agent (the "**Reference Rate Determination Agent**"), which will not later than the Interest Determination Cut-off Date (as defined below) determine in a commercially reasonable manner whether a substitute or successor rate for purposes of determining the Reference Rate on each Interest Determination Date falling on such date or thereafter that is substantially comparable to the discontinued Reference Rate is available. If the Reference Rate Determination Agent determines that there is an industry accepted successor rate, the Reference Rate Determination Agent will use such successor rate to determine the Reference Rate. If the Reference Rate Determination Agent has determined a substitute or successor rate in accordance with the foregoing (such rate, the "**Replacement Reference Rate**"), for purposes of determining the Reference Rate on each Interest Determination Date falling on or after such determination, (i) the Reference Rate Determination Agent will also determine changes (if any) to the business day convention, the definition of business day, the interest determination date, the day count fraction, and any method for obtaining the Replacement Reference Rate, including any adjustment factor needed to make such Replacement Reference Rate comparable to the discontinued Reference Rate, in each case in a manner that is consistent with industry-accepted practices for such Replacement Reference Rate; (ii) references to the Reference Rate in the Conditions and the Pricing Supplement applicable to the relevant Notes will be deemed to be references to the Replacement Reference Rate, including any alternative method for determining such rate as described in (i) above; (iii) the Reference Rate Determination Agent will notify the Issuer of the foregoing as soon as reasonably practicable; and (iv) the Issuer will give notice as soon as reasonably practicable to the Noteholders, the relevant Paying Agent and the Calculation Agent specifying the Replacement Reference Rate, as well as the details described in (i) above.

- (aa) The determination of the Replacement Reference Rate and the other matters referred to above by the Reference Rate Determination Agent will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Fiscal and Paying Agent, and the Noteholders, unless the Issuer considers at a later date that the Replacement Reference Rate is no longer substantially comparable to the Reference Rate or does not constitute an industry accepted successor rate, in which case the Issuer shall re-appoint a Reference Rate Determination Agent (which may or may not be the same entity as the original Reference Rate Determination Agent) for the purpose of confirming the Replacement Reference Rate or determining a substitute Replacement Reference Rate in an identical manner as described in paragraph (z) above, which will then (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Fiscal and Paying Agent and the Noteholders. If the Reference Rate Determination Agent is unable to or otherwise does

not determine a substitute Replacement Reference Rate, then the last known Replacement Reference Rate will remain unchanged.

- (bb) If the Reference Rate Determination Agent determines that the Relevant Screen Page on which appears the Reference Rate has been discontinued or a decision to withdraw the authorisation or registration of ICE Benchmark Administration as set out in Article 35 of the Benchmark Regulation or any other benchmark administrator previously authorised to publish any Replacement Reference Rate under any applicable laws or regulations has been adopted but for any reason a Replacement Reference Rate has not been determined later than the Interest Determination Cut-off Date, no Replacement Reference Rate will be adopted, and the Relevant Screen Page on which appears the Reference Rate for the relevant Interest Accrual Period will be equal to the last Reference Rate available on the Relevant Screen Page as determined by the Calculation Agent.
- (cc) The Reference Rate Determination Agent may be (i) a leading bank or a broker-dealer in the principal financial centre of the Specified Currency (which may include one of the Dealers involved in the issue of the Notes) as appointed by the Issuer, (ii) the Issuer or an affiliate of the Issuer (but in which case any such determination shall be made in consultation with an independent financial advisor), (iii) the Calculation Agent or (iv) any other entity which the Issuer considers has the necessary competences to carry out such role.
- (dd) "**Interest Determination Cut-off Date**" means the date which falls fifteen (15) calendar days before the end of the Interest Accrual Period relating to the Interest Determination Date in respect of which the provisions of paragraphs (z) to (cc) above shall be applied by the Issuer.
- (ee) Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being the EUR CMS, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be the quotation (expressed as a percentage rate per annum) for EUR CMS relating to the relevant maturity (the relevant maturity year mid swap rate in EUR (annual 30/360)), which appears on the Relevant Screen Page, being Reuters Screen page "ISDAFIX 2" under the heading "EURIBOR Basis", as at 11.00 a.m. Frankfurt time, in the case of the EUR-ISDA-EURIBOR Swap Rate-11:00 on the Interest Determination Date in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Calculation Agent.

Notwithstanding anything to the contrary in Condition 5(f), in the event that the Reference Rate does not appear on the Relevant Screen Page, the Calculation Agent shall determine on the relevant Interest Determination Date the applicable rate based on quotations of five Reference Banks for EUR CMS relating to the relevant maturity (in each case the relevant mid-market annual swap rate commencing two TARGET Business Days following the relevant Interest

Determination Date). The highest and lowest (or, in the event of equality, one of the highest and/or lowest) quotations so determined shall be disregarded by the Calculation Agent for the purpose of determining the Reference Rate which will be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such provided quotations.

If, for any reason, the Reference Rate is no longer published or if fewer than three quotations are provided to the Calculation Agent in accordance with the above paragraph, the Reference Rate will be determined by the Calculation Agent in its sole discretion, acting in good faith and in a commercial and reasonable manner.

Where any Reference Rate is specified in the relevant Pricing Supplement as being determined by linear interpolation in respect of an Interest Accrual Period, the Rate of Interest for such Interest Accrual Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the Reference Rate, one of which shall be determined as if the maturity were the period of time (for which rates are available) next shorter than the length of the relevant Interest Accrual Period, and the other of which shall be determined as if the maturity were the period of time (for which rates are available) next longer than the length of the relevant Interest Accrual Period.

Unless otherwise stated in the applicable Pricing Supplement, the Minimum Rate of Interest in respect of Floating Rate Notes as provided by Condition 5(e)(ii) shall be deemed to be zero.

**(c) Zero Coupon Notes**

Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(c)(i)(B)).

**(d) Accrual of Interest**

Interest shall cease to accrue on this Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (both before and after judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 8).

**(e) Margin, Minimum/Maximum Rates of Interest, Instalment Amounts, Redemption Amounts and Rounding**

- (i) If any Margin is specified in the relevant Pricing Supplement (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with Condition 5(b) above by adding (if a positive number), or subtracting the absolute value (if a negative number) of, such Margin, subject always to the next paragraph.

- (ii) If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the relevant Pricing Supplement, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes, "**unit**" means the lowest amount of such currency that is available as legal tender in the country/ies of such currency.

**(f) Calculations**

The amount of interest payable per Calculation Amount in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest, the Calculation Amount specified in the relevant Pricing Supplement, and the Day Count Fraction for such Interest Accrual Period, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period, in which case the amount of interest payable per Calculation Amount in respect of such Note for such Interest Accrual Period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable per Calculation Amount in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated.

**(g) Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts and Instalment Amounts**

The Calculation Agent shall, as soon as practicable on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, determine such rate and calculate the Interest Amounts for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Accrual Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements

made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition 5 but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

**(h) Definitions**

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

**"Business Day"** means:

- (i) in the case of a Specified Currency other than Euro, a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in the principal financial centre for such currency; and/or
- (ii) in the case of Euro, a day on which the TARGET System is operating (a "**TARGET Business Day**"); and/or
- (iii) in the case of a Specified Currency and/or one or more Business Centres, a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in such currency in the Business Centre(s) or, if no currency is indicated, generally in each of the Business Centres;

**"Day Count Fraction"** means, in respect of the calculation of an amount of interest on any Note for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period or an Interest Accrual Period, the "**Calculation Period**"):

- (i) if "**Actual/Actual**" or "**Actual/Actual — ISDA**" is specified in the relevant Pricing Supplement, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (ii) if "**Actual/365 (Fixed)**" is specified in the relevant Pricing Supplement, the actual number of days in the Calculation Period divided by 365;
- (iii) if "**Actual/360**" is specified in the relevant Pricing Supplement, the actual number of days in the Calculation Period divided by 360;
- (iv) if "**30/360**", "**360/360**" or "**Bond Basis**" is specified in the relevant Pricing Supplement, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y<sub>1</sub>" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30;

- (v) if "**30E/360**" or "**Eurobond Basis**" is specified in the relevant Pricing Supplement, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D-T" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and "D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D<sub>2</sub> will be 30;

- (vi) if "**30E/360 (ISDA)**" is specified in the relevant Pricing Supplement, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y-T" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D<sub>2</sub> will be 30; and

- (vii) if "**Actual/Actual — ICMA**" is specified in the relevant Pricing Supplement:
- (A) if the Calculation Period is equal to or shorter than the Determination Period during which it falls, the number of days in the Calculation Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Periods normally ending in any year; and
  - (B) if the Calculation Period is longer than one Determination Period, the sum of:
    - (x) the number of days in such Calculation Period falling in the Determination Period in which it begins divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and
    - (y) the number of days in such Calculation Period falling in the next Determination Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year,

where:

**"Determination Date"** means the date specified as such in the relevant Pricing Supplement or, if none is so specified, the Interest Payment Date;

**"Determination Period"** means the period from and including a Determination Date in any

year to but excluding the next Determination Date;

**"Euro-zone"** means the region comprised of member states of the European Union that adopt the single currency in accordance with the Treaty establishing the European Community, as amended;

**"Interest Accrual Period"** means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Period Date and each successive period beginning on (and including) an Interest Period Date and ending on (but excluding) the next succeeding Interest Period Date;

**"Interest Amount"** means:

- (x) in respect of an Interest Accrual Period, the amount of interest payable per Calculation Amount for that Interest Accrual Period and which, in the case of Fixed Rate Notes, and unless otherwise specified in the relevant Pricing Supplement, shall mean the Fixed Coupon Amount or Broken Amount specified in the relevant Pricing Supplement as being payable on the Interest Payment Date ending the Interest Period of which such Interest Accrual Period forms part; and
- (y) in respect of any other period, the amount of interest payable per Calculation Amount for that period;

**"Interest Commencement Date"** means the Issue Date or such other date as may be specified in the relevant Pricing Supplement;

**"Interest Determination Date"** means, with respect to a Rate of Interest and Interest Accrual Period, the date specified as such in the relevant Pricing Supplement or, if none is so specified, (i) the first day of such Interest Accrual Period if the Specified Currency is sterling, or (ii) the day falling two Business Days in London for the Specified Currency prior to the first day of such Interest Accrual Period if the Specified Currency is neither Sterling nor Euro, or (iii) the day falling two TARGET Business Days prior to the first day of such Interest Accrual Period if the Specified Currency is Euro;

**"Interest Payment Date"** means the date(s) specified as a Specified Interest Payment Date or an Interest Payment Date in the applicable Pricing Supplement.

**"Interest Period"** means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date;

**"Interest Period Date"** means each Interest Payment Date unless otherwise specified in the relevant Pricing Supplement;

**"ISDA Definitions"** means the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc., unless otherwise specified in the relevant Pricing Supplement;

**"Rate of Interest"** means the rate of interest payable from time to time in respect of this Note and that is either specified or calculated in accordance with the provisions in the relevant Pricing Supplement;

**"Reference Banks"** means, in the case of a determination of LIBOR, the principal London office of four major banks in the London interbank market and, in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone interbank market, in each case selected by the Calculation Agent or as specified in the relevant Pricing Supplement;

**"Reference Rate"** means the rate specified as such in the relevant Pricing Supplement;

**"Relevant Screen Page"** means such page, section, caption, column or other part of a particular information service as may be specified in the relevant Pricing Supplement;

**"Specified Currency"** means the currency specified as such in the relevant Pricing Supplement or, if none is specified, the currency in which the Notes are denominated; and **"TARGET System"** means the Trans-European Automated Real-Time Gross Settlement Express Transfer (known as TARGET 2) System which was launched on 19 November 2007 or any successor thereto.

**(i) Calculation Agent**

The Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them in the relevant Pricing Supplement and for so long as any Note is outstanding (as defined in the Agency Agreement). Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Accrual Period or to calculate any Interest Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or financial institution engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal London office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

**6. Redemption, Purchase and Options**

**(a) Final Redemption**

Unless previously redeemed, purchased and cancelled as provided below, this Note will be redeemed at its Final Redemption Amount (which, unless otherwise provided, is its nominal amount) or, in the case of a Note falling within Condition 6(f), its final Instalment Amount on the Maturity Date specified in the relevant Pricing Supplement.

**(b) Purchases**

The Issuer may, at any time, purchase Notes (*provided that*, in the case of Bearer Notes, all unmatured Coupons, Receipts and unexchanged Talons appertaining thereto are attached or surrendered therewith) in the open market or otherwise at any price.

Such notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation in all cases in accordance with all applicable laws and regulations.

(c) **Early Redemption**

(i) *Zero Coupon Notes*

- (A) Unless otherwise specified in the relevant Pricing Supplement, the Early Redemption Amount payable in respect of any Note, the Rate of Interest of which is specified to be Zero Coupon, upon redemption of such Note pursuant to Condition 8(b) or (c) or, if applicable, Condition 6(d) or (e) or upon it becoming due and payable as provided in Condition 10, shall be:
- (I) if the Redemption Amount of such Note is variable, the Zero Coupon Early Redemption Amount of such Note specified in the relevant Pricing Supplement; or
- (II) in any other case, the Amortised Face Amount (calculated as provided below) of such Note.
- (B) Subject to the provisions of paragraph ((C)) below, the "**Amortised Face Amount**" of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Pricing Supplement, shall be such rate as would produce an Amortised Face Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually. Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown in the relevant Pricing Supplement.
- (C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 8(b) or (c) or, if applicable, Condition 6(d) or (e), or upon it becoming due and payable as provided in Condition 10, is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Face Amount of such Note as defined in paragraph (B) above, except that such paragraph shall have effect as though the reference therein to the date on which the Note becomes due and payable were replaced by a reference to the Relevant Date (as defined in Condition 8). The calculation of the Amortised Face Amount in accordance with this paragraph (C) will continue to be made (both before and after judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the Redemption Amount of such Note on the Maturity Date together with any interest which may accrue in accordance with Condition 5(d).

(ii) *Other Notes*

The Early Redemption Amount payable in respect of any Note (other than Notes described in Condition 6(c)(i)(A)), upon redemption of such Note pursuant to Condition 8 or upon it becoming due and payable as provided in Condition 10, shall be the Final Redemption Amount unless otherwise specified in the relevant Pricing Supplement.

**(d) Redemption at the Option of the Issuer and Exercise of Issuer's Options**

If so provided in the relevant Pricing Supplement, the Issuer may, on giving irrevocable notice to the Noteholders during the Issuer's Notice Period (as specified in the applicable Pricing Supplement), redeem all or, if so provided, some of the Notes in the nominal amount or integral multiples thereof and on the date or dates so provided.

Any such redemption of Notes shall be at their Redemption Amount together with any interest accrued to the date fixed for redemption.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption the notice to Noteholders shall also contain the serial numbers of the Notes or, in the case of Registered Notes, shall specify the nominal amount of Registered Notes drawn and the holders of such Registered Notes to be redeemed, which shall have been drawn in such place as the Fiscal Agent may approve and in such manner as it deems appropriate, subject to compliance with any applicable laws and stock exchange requirements.

**(e) Redemption at the Option of Noteholders and Exercise of Noteholder's Options**

If so provided in the relevant Pricing Supplement, the Issuer shall at the option of the holder of any such Note who shall have exercised such option by providing an irrevocable notice to the Issuer during the Noteholders' Notice Period (as specified in the applicable Pricing Supplement), redeem such Note on the Optional Redemption Date so provided in the relevant Pricing Supplement at its Redemption Amount together with any interest accrued to the date fixed for redemption.

In the case of Extendible Notes, the Noteholder's option may provide that the initial Maturity Date in respect of such Notes as provided in the applicable Pricing Supplement (the "**Initial Maturity Date**") or any Extended Maturity Date resulting from any previous exercise of such option will, unless a Noteholder exercises its option not to extend the Maturity Date (a "**Non-Extension Option**"), be extended automatically on one or more occasions to such later date(s) as shall be provided in the applicable Pricing Supplement *provided that* such extended Maturity Date shall not exceed the maximum maturity as specified in the Guarantee which is, at the date of this Information Memorandum, ten years from the Issue Date (each an "**Extended Maturity Date**" and the last such possible Extended Maturity Date, as provided in the applicable Pricing Supplement, the "**Final Extended Maturity Date**"), *provided that* such Final Extended Maturity Date shall not exceed the maximum maturity as specified in the Guarantee. If the Maturity Date is not so extended in respect of an Extendible Note, such Note will be redeemed on its then current Maturity Date in accordance with the provisions of Condition 6(a) above at its Final Redemption Amount.

If the Non-Extension Option is not exercised in respect of an Automatic Extension Date during the Automatic Extension Period, each as specified in the relevant Pricing Supplement, the Maturity Date of this Note shall be extended automatically by the duration (the "**Automatic Extension Duration**") as specified in the relevant Pricing Supplement so that it falls on the next succeeding Extended Maturity Date.

Not later than 30 calendar days (or such other period as shall be specified in the applicable Pricing Supplement) prior to each Automatic Extension Date, the Issuer shall give notice to the Noteholders informing them of their right to exercise the Non-Extension Option in relation to such Automatic Extension Date.

To exercise any such option referred to in the first paragraph of this Condition 6(e), the Non-Extension Option or any other Noteholder's option which may be set out in the relevant Pricing Supplement, the holder must deposit (in the case of Bearer Notes) such Note (together with all unmatured Receipts and Coupons and unexchanged Talons) with any Paying Agent or (in the case of Registered Notes) the Certificate representing such Note(s) with the Registrar or any Transfer Agent at its specified office, together with a duly completed option exercise notice ("**Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) and/or annexed to the applicable Pricing Supplement within the Notice Period. No Note or Certificate so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer.

If a Noteholder validly exercises its Non-Extension Option in relation to any Note and any Automatic Extension Date as provided above, then (i) in the case of Bearer Notes, the Paying Agent to which such Note is presented shall enface thereon a statement indicating that the Non-Extension Option has been exercised in relation to such Note, the Maturity Date of such Note and shall remove from the Note and cancel all unmatured Receipts, all unmatured Coupons relating to the Interest Payment Dates falling after such Maturity Date and unexchanged Talons and (ii) in the case of Registered Notes, the Registrar or Transfer Agent to which the relevant Certificate is presented will destroy such Certificate and replace it with a replacement Certificate with the relevant Maturity Date enfaced on it.

Following each Automatic Extension Date, the Issuer shall give notice to the Noteholders and the Luxembourg Stock Exchange informing them of the aggregate nominal amount, the Maturity Date of Notes in respect of which the Non-Extension Option for such Automatic Extension Date was not exercised.

**(f) Redemption by Instalments**

Unless previously redeemed, purchased and cancelled as provided in this Condition 6 or the relevant Instalment Date (being one of the dates so specified in the relevant Pricing Supplement) is extended pursuant to any Issuer's or Noteholder's option in accordance with Condition 6(d) or (e), each Note which provides for Instalment Dates and Instalment Amounts will be partially redeemed on each Instalment Date at the Instalment Amount specified in the relevant Pricing Supplement, whereupon the outstanding nominal amount of such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused on presentation of the related Receipt, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.

**(g) Cancellation**

All Notes purchased by or on behalf of the Issuer for cancellation shall be cancelled forthwith, in the case of Bearer Notes, by surrendering such Notes together with all unmatured Coupons, Receipts and unexchanged Talons attached thereto to the Fiscal Agent and, in the case of Registered Notes, by surrendering the Certificate representing such Notes to the Registrar. Any Notes so cancelled shall not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

## **7. Payments and Talons**

### **(a) Bearer Notes**

Payments of principal and interest in respect of Bearer Notes will, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and *provided that* the Receipt is presented for payment together with its relative Note), Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(vi)) or Coupons (in the case of interest, save as specified in Condition 7(f)(vi)), as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the currency in which such payment is due drawn on, or, at the option of the holder, by transfer to an account denominated in that currency with, a bank in the principal financial centre of that currency; *provided that* in the case of Euro, the transfer may be to, or the cheque drawn on, a Euro account with a bank in Europe (or any other account to which Euro may be credited or transferred in a city in which banks have access to the TARGET System).

### **(b) Registered Notes**

- (i) Payments of principal (which for the purposes of this Condition 7(b) shall include final Instalment Amounts but not other Instalment Amounts) in respect of Registered Notes will be made against presentation and surrender of the relevant Certificates at the specified office of any of the Transfer Agents or of the Registrar and in the manner provided in Condition 7(b)(ii).
- (ii) Interest (which for the purposes of this Condition 7(b) shall include all Instalment Amounts other than final Instalment Amounts) on Registered Notes will be paid to the person shown on the Register at the close of business on the fifteenth day before the due date for payment thereof (the "**Record Date**"). Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date and subject as provided in paragraph (a) above, such payment of interest may be made by transfer to an account in the relevant currency maintained by the payee with a bank in the principal financial centre of the country of that currency.

### **(c) Payments in the United States**

Notwithstanding the foregoing, if any Bearer Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts, and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.

### **(d) Payments subject to Fiscal Laws**

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment (whether by operation of law or agreement of the Issuer) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing any governmental

approach thereto, without prejudice to the provisions of Condition 8. No commission or expenses shall be charged to the Noteholders, Receiptholders or Couponholders in respect of such payments.

**(e) Appointment of Agents**

The Fiscal Agent, the Paying Agents, the Registrar, the Transfer Agents and the Calculation Agent initially appointed by the Issuer and their respective specified offices are listed below. The Fiscal Agent, the Paying Agents, the Registrar and the Transfer Agents act solely as agents of the Issuer and the Calculation Agent acts as an independent expert and none of them assumes any obligation or relationship of agency or trust for or with any holder. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any Paying Agent, the Registrar, any Transfer Agent or the Calculation Agent and to appoint additional or other Paying Agents or Transfer Agents, *provided that* the Issuer will at all times maintain (i) a Fiscal Agent outside the Republic of France, (ii) a Registrar in relation to Registered Notes, (iii) a Transfer Agent in relation to Registered Notes, (iv) a Consolidation Agent, where the relevant Pricing Supplement so require, (v) one or more Calculation Agent(s) where the Conditions so require and (vi) at least one Paying Agent having a specified office in a European city, and provided further that (A) so long as the Notes are listed on the official list of the Luxembourg Stock Exchange and are admitted to trading on the Regulated Market, the Issuer will maintain a Paying Agent and Transfer Agent in Luxembourg and (B) the Issuer will maintain such other agents as may be required by the rules of any other stock exchange on which the Notes may be listed.

In addition, the Issuer shall forthwith appoint a Paying Agent in New York City in respect of any Bearer Notes denominated in U.S. dollars in the circumstances described in paragraph (c) above.

Notice of any such change or any change of any specified office will promptly be given to the Noteholders in accordance with Condition 14.

**(f) Unmatured Coupons and Receipts and unexchanged Talons**

- (i) Upon the due date for redemption, Bearer Notes which comprise Fixed Rate Notes should be surrendered for payment together with all unexpired Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unexpired Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon which the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9).
- (ii) Upon the due date for redemption of any Bearer Note comprising a Floating Rate Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.

- (iv) Upon the due date for redemption of any Bearer Note which is redeemable in instalments, all Receipts relating to such Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
- (v) Where any Bearer Note which provides that the relative unmatured Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmatured Coupons or where any Bearer Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.
- (vi) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender, if appropriate) of the relevant Bearer Note or Certificate representing it, as the case may be. Interest accrued on a Note which only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note or Certificate representing it, as the case may be.

**(g) Business Days for Payments**

If any date for payment in respect of any Note, Receipt or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day or to any interest or other sum in respect of such postponed payment. In this paragraph, "**business day**" means a day (other than a Saturday or Sunday):

- (i) on which banks and foreign exchange markets are open for business in the relevant place of presentation;
- (ii) in such jurisdictions as shall be specified as "Financial Centres" in the applicable Pricing Supplement and:
  - (x) (in the case of a payment in a currency other than Euro) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency; or
  - (y) (in the case of a payment in Euro) which is a TARGET Business Day.

**(h) Talons**

If, due to the number of Coupons, a Talon for further Coupons is required, it shall form part of the Coupon sheet attached to each Bearer Note. On or after the Specified Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet), (but excluding any Coupons which may have become void pursuant to Condition 9).

**8. Taxation**

- (a) All payments of principal, interest and other assimilated revenues by or on behalf of the Issuer in respect of the Notes, Receipts or Coupons shall be made free and clear of, and

without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the Republic of France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

- (b) If, on the occasion of the next payment due in respect of the Notes, Receipts or Coupons appertaining thereto, the Issuer would be required, for any reason whatsoever beyond its control, to make a withholding or deduction with respect to any French taxes, duties, assessments or governmental charges of whatever nature the Issuer will, to the fullest extent then permitted by law, pay such additional amounts as may be necessary in order that the holders of Notes, Receipts or Coupons, after such withholding or deduction, receive the full amount then due and payable; *provided, however*, that if the obligation to make such additional payments arises by virtue of a change in French law or in its application or official interpretation and cannot be avoided by reasonable measures available to the Issuer, the Issuer may redeem all (but not some only) of the outstanding Notes on any Interest Payment Date (if this Note is a Floating Rate Note) or at any time (if this Note is not a Floating Rate Note) (but not earlier than 30 days prior to the effective date of such change) at their Redemption Amount together with, unless otherwise specified in the relevant Pricing Supplement, accrued interest to the date set for redemption, and *provided that* no such additional amount shall be payable with respect to any Note, Receipt or Coupon:
- (i) to a holder (or to a third party on behalf of a holder) where such holder is liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his having some connection with the Republic of France other than the mere holding of such Note, Receipt or Coupon; or
  - (ii) in respect of any tax, assessment, or other governmental charge that would not have been imposed but for a failure to comply with a certification, information, documentation or other reporting requirement concerning the nationality, residence, identity or connection with the Relevant Jurisdiction of the holder or beneficial owner of such Note, if such compliance is required as a precondition to relief or to exemption from such tax, assessment or other governmental charge; or
  - (iii) presented (or in respect of which the certificate representing it is presented) for payment more than 30 days after the Relevant Date, except to the extent that the Noteholder or, if applicable, the Receiptholder or Couponholder, as the case may be, would have been entitled to such additional amounts on presenting the same for payment on such thirtieth day; or
  - (iv) where such withholding or deduction is required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof or any law implementing an intergovernmental approach thereto.

As used in these Conditions, "**Relevant Date**" in respect of any Note, Receipt or Coupon means the date that is the later of:

- (i) the date on which the payment in respect of such Note, Receipt or Coupon first became due and payable; or
- (ii) if the full amount of the moneys payable on such date in respect of such Note, Receipt or Coupon has not been received by the Fiscal Agent on or prior to the due

date, the date on which notice is duly given to the Noteholders that such moneys have been so received.

References in these Conditions to:

"**principal**" shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Redemption Amounts, Amortised Face Amounts and all other amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it;

"**interest**" shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 5 or any amendment or supplement to it; and

"**principal**" and/or "**interest**" shall be deemed to include any additional amounts which may be payable under this Condition.

- (c) In the event that the Issuer should be required to make the additional payments referred to in paragraph (b) above, that any French law or regulation should prohibit such additional payments, and that the obligation to make such additional payments cannot be avoided by reasonable measures available to the Issuer (which measures, if they exist, the Issuer shall be obliged to take, to the fullest extent permitted by law), the Issuer shall redeem all (but not some only) of the outstanding Notes at their Redemption Amount together with, unless otherwise specified in the relevant Pricing Supplement, any accrued interest to the date set for redemption, on any Interest Payment Date (if this Note is a Floating Rate Note) or at any time (if this Note is not a Floating Rate Note) not earlier than 30 days prior to the effective date of any change in French law referred to in paragraph (b) above and not later than the date on which such additional payments would have been due or as soon as practicable thereafter.
- (d) The Issuer shall give notice of any optional redemption pursuant to paragraph (b) above at least 30 days and not more than 60 days prior to the date set for redemption by publishing a notice of redemption in accordance with Condition 14. In the event of mandatory redemption pursuant to paragraph (c) above, the Issuer shall publish a notice of redemption (in accordance with the same provisions) as soon as possible after the necessity of such redemption becomes apparent but not more than 60 days prior to the date set for redemption.

## **9. Prescription**

Claims against the Issuer for payment in respect of the Notes, Receipts and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate due date in respect thereof.

## **10. Event of Default**

Upon the occurrence of an Event of Default, the holder of any Note may, upon written notice given to the Fiscal Agent at its specified office, cause such Note to become immediately due and payable as of the date on which the said notice is given, at its Redemption Amount together with accrued interest to the date of payment.

For the purposes of this Condition, an "**Event of Default**" will be deemed to have occurred if any of the following events has occurred:

- (a) as a result of a final judgment of competent courts binding on a Guarantor, the Guarantee, as it applies to the Notes, is no longer in full force and effect;

- (b) a Guarantor enacts legislation releasing such Guarantor from any or all of its payment obligations under the Guarantee; or
- (c) a Guarantor does not pay any amount that has become due and payable under the Notes and has been validly claimed under the Guarantee where such non-payment is a result of the Guarantee not being binding (or being alleged by such Guarantor not to be binding) on such Guarantor,

provided, in respect of an event referred to in (a) or (b) above, that such event continues for a period of at least 60 days (the "**Guarantee Cure Period**"), unless any interest, principal or any other amount under the Notes shall have become due and not have been paid at any time before any such event has occurred or during the Guarantee Cure Period, in which case an Event of Default shall be deemed to have occurred immediately without the necessity of waiting for the Guarantee Cure Period to expire. For the avoidance of doubt, no other event shall be deemed to be an Event of Default under these Conditions, except those listed in this paragraph.

## **11. Meetings of Noteholders**

### **(a) Meetings of Noteholders**

The Agency Agreement contains provisions for convening meetings of Noteholders to consider matters affecting their interests, including the modification of any of these Conditions insofar as they may apply to the Notes. Any such modifications may be made if sanctioned by an Extraordinary Resolution (as defined in the Agency Agreement) of Noteholders (save where these Conditions provide that they may be modified otherwise than by Extraordinary Resolution).

Such a meeting may be convened by Noteholders holding not less than 10%, in nominal amount of the Notes for the time being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution will be two or more persons holding or representing a clear majority in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the nominal amount of Notes held or represented, unless the business of such meeting includes the consideration of proposals, *inter alia*, (i) to amend the dates of maturity or redemption of any of the Notes, any Instalment Date or any date for payment of interest thereon, (ii) to reduce or cancel the nominal amount or any Instalment Amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or amount of interest thereon, (iv) if a Minimum Rate of Interest and/or a Maximum Rate of Interest applies to any Notes, to reduce such Minimum Rate of Interest and/or such Maximum Rate of Interest, (v) to change the method or basis for calculating the Redemption Amount or, in the case of Zero Coupon Notes, changes to the method of calculating any Amortised Face Amount or Zero Coupon Early Redemption Amount, as the case may be, (vi) to change the currency or currencies of payment or denomination of the Notes, or (vii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass an Extraordinary Resolution, in which case the necessary quorum will be two or more persons holding or representing not less than 75%, or at any adjourned meeting any proportion in nominal amount of the Notes for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Noteholders (whether or not they were present at the meeting at which such resolution was passed) and on all Couponholders.

A Written Resolution shall take effect as if it were an Extraordinary Resolution. The provisions set out in these Terms and Conditions relating to the powers of meetings and notification of Extraordinary Resolutions shall apply *mutatis mutandis* to Written Resolutions.

"**Written Resolution**" means a resolution in writing signed by or on behalf of all holders of Notes who for the time being are entitled to receive notice of a Meeting in accordance with the provisions for meetings of Noteholders set out in the Agency Agreement, whether such resolution is contained in one document or several documents in the same form, each signed by or on behalf of one or more such holders of the Notes. The date of such Written Resolution shall be the date on which the latest such document is signed.

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the relevant Pricing Supplement in relation to such Series.

**(b) Modification**

The Fiscal Agent and the Issuer may agree, without the consent of the Noteholders or the Couponholders, to:

- (i) any modification (except such modifications in respect of which an increased quorum is required as provided in Condition 11(a) above) of the Notes or the Agency Agreement which is not prejudicial to the interests of the Noteholders or the Couponholders; or
- (ii) any modification of the Notes or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law.

Any such modification shall be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 14 as soon as practicable thereafter.

**12. Replacement of Notes, Certificates, Receipts, Coupons and Talons**

If a Note, Certificate, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange regulations, at the specified office of such Paying Agent as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders in accordance with Condition 14 (in the case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Certificates), in each case on payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Certificate, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Certificates, Receipts, Coupons or further Coupons) and otherwise as the Issuer may reasonably require. Mutilated or defaced Notes, Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

**13. Further Issues and Consolidation**

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes having the same terms and conditions as the Notes in all respects or in all respects except for the first payment of interest on them so that the same

shall be consolidated and form a single series with such Notes. For the purposes of French law, such further notes shall be consolidated (*assimilables*) to the Notes as regards their financial service. References in these Conditions to "Notes" shall be construed accordingly.

#### **14. Notices**

Notices to holders of Registered Notes will be valid (i) if sent by mail to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing and (ii) if published, so long as the relevant Notes are listed on the official list of the Luxembourg Stock Exchange and are admitted to trading on the Regulated Market and the rules of the Luxembourg Stock Exchange so require, in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or on the website of the Luxembourg Stock Exchange ("www.bourse.lu").

Notices to the holders of Bearer Notes will be valid if (i) published in a daily newspaper of general circulation in London (which is expected to be the *Financial Times*) and (ii) so long as the relevant Notes are listed on the official list of the Luxembourg Stock Exchange and are admitted to trading on the Regulated Market and the rules of the Luxembourg Stock Exchange so require, in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or on the website of the Luxembourg Stock Exchange ("www.bourse.lu") or, if such publication is not practicable, notice will be validly given if published in another leading daily English language newspaper with general circulation in Europe and, so long as such Notes are listed or admitted to trading on any stock exchange and the rules of such stock exchange so require, in a leading daily newspaper with general circulation in the city/ies where such stock exchange(s) is/are situated.

Notices will, if published more than once, be deemed to have been given on the date of the first publication as provided above.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition.

#### **15. Contracts (Rights of Third Parties) Act 1999**

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

#### **16. Bail-in**

Notwithstanding and to the exclusion of any other term of the Notes or any other agreements, arrangements, or understanding between the Issuer and any holder of Notes, by its acquisition of the Notes, each holder acknowledges, accepts, consents and agrees to be bound by:

- (A) the effect of the exercise of Bail-in Powers by the Relevant Resolution Authority that may include and result in any of the following, or some combination thereof:
  - (x) the reduction of all, or a portion, of the principal amount of, or interest (if any) on, the Notes;
  - (y) the conversion of all, or a portion, of the principal amount of, or interest (if any) on, the Notes into shares, other securities or other obligations of the Issuer or another person, and the issue to or conferral on the holder of the Notes of such shares, securities or obligations;

- (z) the cancellation of the Notes; and/or
- (aa) the amendment or alteration of any interest, if applicable, thereon, the maturity or the dates on which any payments are due, including by suspending payment for a temporary period; and
- (B) the variation of the terms of the Notes, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of Bail-in Powers by the Relevant Resolution Authority.

For these purposes:

"**Bail-in Power**" is any write-down, conversion, transfer, modification or suspension power existing from time to time under any laws, regulations, rules or requirements in effect in France relating to the transposition of Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") as amended from time to time including without limitation pursuant to French decree-law No. 2015-1024 dated 20 August 2015 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*) (as amended from time to time, the "**20 August 2015 Decree Law**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (as amended from time to time, the "**Single Resolution Mechanism Regulation**"), or otherwise arising under French law, and in each case the instructions, rules and standards created thereunder, pursuant to which the obligations of a Regulated Entity (as defined below) (or an affiliate of such Regulated Entity) can be reduced (in part or whole), cancelled, suspended, transferred, varied or otherwise modified in any way, or securities of a Regulated Entity (or an affiliate of such Regulated Entity) can be converted into shares, other securities, or other obligations of such Regulated Entity or any other person, whether in connection with the implementation of a bail-in tool following placement in resolution or otherwise.

A reference to a "**Regulated Entity**" is any entity referred to in Section 1 of Article L.613-34 of the French *Code monétaire et financier* as modified by the 20 August 2015 Decree Law, which includes certain credit institutions, investment firms, and certain of their parent or holding companies established in France.

A reference to the "**Relevant Resolution Authority**" is to the *Autorité de contrôle prudentiel et de résolution* (the "**ACPR**"), the Single Resolution Board established pursuant to the Single Resolution Mechanism Regulation, and/or any other authority entitled to exercise or participate in the exercise of any Bail-in Powers from time to time (including the Council of the European Union and the European Commission when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

## 17. **Governing Law and Jurisdiction**

### (a) **Governing Law**

The Notes, the Receipts, the Coupons, the Talons and the Agency Agreement and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law. The Guarantee is governed by the laws of Belgium.

**(b) Jurisdiction**

The Courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with any Notes, Receipts, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons ("**Proceedings**") may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of such court and waives any objection to Proceedings in such court on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

The courts of Brussels have exclusive jurisdiction to settle any disputes relating to the Guarantee as between the parties thereto and in relation to any disputes involving holders of the Notes.

**(c) Service of Process in England**

The Issuer appoints Dexia Management Services Ltd, presently at 6th Floor, Salisbury House, London Wall, London EC2M 5QQ United Kingdom as its agent for service of process. Such service shall be deemed completed on delivery to such address (whether or not it is forwarded to and received by the Issuer). If for any reason the Issuer no longer has such an agent in England registered under Part XXIII of the Companies Act 1985, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify Noteholders of such appointment in accordance with Condition 14. Nothing shall affect the right to serve process in any other manner permitted by law.

## SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

### Initial Issue of Notes

Global Notes which are issued in CGN form and Global Certificates which are not held under the NSS may be delivered on or prior to the original issue date of the Tranche to a Common Depositary for Euroclear and Clearstream (the "**Common Depositary**"). If the Global Note is a CGN, upon the initial deposit of a Global Note with the Common Depositary or registration of Registered Notes in the name of any nominee for Euroclear and Clearstream and the delivery of the relative Global Certificate to the Common Depositary, Euroclear or Clearstream will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

If the Global Notes are stated in the applicable Pricing Supplement to be issued in NGN form or the Global Certificates are held under NSS (as the case may be), the Global Notes or the Global Certificates will be delivered on or prior to the original issue date of the Tranche to a Common Safekeeper. Depositing the Global Notes or the Global Certificates with the Common Safekeeper does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue, or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

If the Global Note is an NGN, the nominal amount of the Notes shall be the aggregate amount from time to time entered in the records of Euroclear or Clearstream. The records of such clearing system shall be conclusive evidence of the nominal amount of Notes represented by the Global Note and a statement issued by such clearing system at any time shall be conclusive evidence of the records of the relevant clearing system at that time.

Upon the initial deposit of a Global Note with, or registration of Registered Notes in the name of, or of any nominee for, and delivery of the relevant Global Certificate to, Euroclear France (including where Euroclear France is acting as central depositary), the "*intermédiaires financiers habilités*" (French banks or brokers authorised to maintain securities accounts on behalf of their clients (each an "**Approved Intermediary**")) who are entitled to such Notes according to the records of Euroclear France will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

Notes that are initially deposited with the Common Depositary may (if indicated in the relevant Pricing Supplement) also be credited to the accounts of subscribers with Approved Intermediaries or (if indicated in the relevant Pricing Supplement) other clearing systems through direct or indirect accounts with Euroclear and Clearstream held by Euroclear France or such other clearing systems. Conversely, Notes that are initially deposited with Euroclear France or any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream or other clearing systems (or Approved Intermediaries).

### Relationship of Accountholders with Clearing Systems

Each of the persons shown in the records of Euroclear, Clearstream, an Approved Intermediary or any other clearing system as the holder of a Note represented by a Global Note or a Global Certificate must look solely to Euroclear, Clearstream or such Approved Intermediary or clearing system (as the case may be) for his share of each payment made by the Issuer to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, and in relation to all other rights arising under the Global Notes or Global Certificates, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Euroclear France or such clearing system (as the case may be). Such persons shall have no claim directly against the Issuer in respect of payments due on

the Notes for so long as the Notes are represented by such Global Note or Global Certificate and such obligations of the Issuer will be discharged by payment to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, in respect of each amount so paid.

## **Exchange**

### **1. Temporary Global Notes**

Each temporary Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date:

- (a) if the relevant Pricing Supplement indicate that such Global Note is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (as to which, see "*General Description of the Programme — Selling Restrictions*"), in whole, but not in part, for the Definitive Notes defined and described below;
- (b) in the case of Extendible Notes, in whole or in part as provided for in "**Extendible Notes**" below; and
- (c) otherwise, in whole or in part upon certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement for interests in a permanent Global Note or, if so provided in the relevant Pricing Supplement, for Definitive Notes.

### **2. Permanent Global Notes**

Each permanent Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under "*Partial Exchange of Permanent Global Notes and Global Certificates*", in part for Definitive Notes or, in the case of (a) below, Registered Notes:

- (a) in the case of Notes issued in one Specified Denomination only, if the relevant Pricing Supplement provides that such Global Note is exchangeable at the request of the holder, by the holder giving notice to the Fiscal Agent of its election to effect such exchange; and
- (b) otherwise, (1) if the permanent Global Note is held on behalf of Euroclear or Clearstream or any other clearing system (an "**Alternative Clearing System**") and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so or (2) if principal in respect of any Notes is not paid when due by the holder giving notice to the Fiscal Agent of its election for such exchange.

In the event that a Global Note is exchanged for Definitive Notes, such Definitive Notes shall be issued in Specified Denomination(s) only. A Noteholder who holds a nominal amount of less than the minimum Specified Denomination will not receive a definitive Note in respect of such holding and would need to purchase a nominal amount of Notes such that it holds an amount equal to one or more Specified Denominations.

### **3. Global Certificates**

Each Global Certificate will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under "*Partial Exchange of Permanent Global Notes and Global Certificates*", in part, for Individual Certificates:

- (a) if the Notes represented by the Global Certificate are held on behalf of Euroclear or Clearstream or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or
- (b) if principal in respect of any Notes is not paid when due; or
- (c) with the consent of the Issuer,

*provided that*, in the case of the first transfer of part of a holding pursuant to (a) or (b) above, the Registered Holder has given the Registrar not less than 30 days' notice at its specified office of the Registered Holder's intention to effect such transfer, or in the case of Extendible Notes, in whole or in part, for a new Global Certificate and, if applicable, a replacement Global Certificate as provided under "*Extendible Notes*" below.

#### **4. Partial Exchange of Permanent Global Notes and Global Certificates**

For so long as a permanent Global Note or Global Certificate is held by or on behalf of a clearing system and the rules of that clearing system permit, such permanent Global Note or Global Certificate will be exchangeable in part on one or more occasions (1) in the case of a permanent Global Note or Global Certificate representing Extendible Notes, for another permanent Global Note or, as the case may be, Global Certificate, as provided in "*Extendible Notes*" below, or (2) for Definitive Notes or Individual Certificates, as the case may be, if principal in respect of any Notes is not paid when due.

#### **5. Extendible Notes**

In the case of Extendible Notes, interests in the temporary Global Note must be exchanged for interests in the Original Permanent Global Note (as defined below) before the Non-Extension Option can be exercised.

If Noteholders exercise their Non-Extension Option then (in the case of Bearer Notes) the permanent Global Note representing the Notes on issue (the "**Original Permanent Global Note**") or (in the case of Registered Notes) the Global Certificate issued in respect of the Notes on issue (the "**Original Global Certificate**") shall to that extent be exchanged for a new permanent Global Note or, as the case may be, Global Certificate representing such Notes and all other Notes having the same Maturity Date as such Notes as provided below.

On the Automatic Extension Date, all Notes in respect of which a duly completed Non-Extension Option Notice has been received by the Fiscal Agent or, as the case may be, the Registrar will not have their Maturity Date extended. Such Notes will be allocated a new ISIN and common code corresponding to their Maturity Date, and (i) (in the case of Bearer Notes) the Fiscal Agent shall (x) authenticate and issue on behalf of the Issuer a new permanent Global Note in respect of such Notes to the holder of the Original Permanent Global Note, recording thereon the Maturity Date, the new ISIN and common code applicable thereto and the aggregate nominal amount thereof and (y) record the remaining outstanding nominal amount of Notes in respect of which the Non-Extension Option has not been exercised on the relevant schedules to the Original Permanent Global Note, and (ii) (in the case of Registered Notes), the Registrar shall (x) authenticate and issue on behalf of the Issuer a new Global Certificate in respect of such Notes recording the new Maturity Date, the new ISIN and common code applicable thereto and the aggregate nominal amount thereof and (y) authenticate and issue a replacement Global Certificate in respect of the remaining Notes recording thereon the same ISIN and common code applicable to the Original Global

Certificate and, in each case, shall deliver such new and replacement Global Certificates to the holder of the Original Global Certificate and shall make the appropriate entries relating thereto in the Register relating to the Notes.

## 6. Delivery of Notes

If the Global Note is a CGN, on or after any due date for exchange the holder of a Global Note may surrender such Global Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Fiscal Agent. In exchange for any Global Note, or the part thereof to be exchanged, the Issuer will (i) in the case of a temporary Global Note exchangeable for a permanent Global Note, deliver, or procure the delivery of, a permanent Global Note in an aggregate nominal amount equal to that of the whole or that part of a temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a permanent Global Note to reflect such exchange or (ii) in the case of a Global Note exchangeable for Definitive Notes, deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Notes. If the Global Note is a NGN, the Fiscal Agent will procure that details of such exchange be entered *pro rata* in the records of the relevant clearing system.

In this Information Memorandum, "**Definitive Notes**" means, in relation to any Global Note, the definitive Bearer Notes for which such Global Note may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Global Note and a Talon). Definitive Notes will be security printed, and Certificates will be printed, in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the Schedules to the Agency Agreement. On exchange in full of each permanent Global Note, the Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Notes.

## 7. Exchange Date

"**Exchange Date**" means, in relation to a temporary Global Note, the day falling after the expiry of 40 days after its issue date and, in relation to a permanent Global Note, a day falling not less than 60 days, or in the case of an exchange for Registered Notes five days, or in the case of failure to pay principal in respect of any Notes when due 30 days, after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Fiscal Agent is located and in the city in which the relevant clearing system is located. In the event that a further Tranche of Notes is issued in respect of any Series of Notes pursuant to Condition 3 which is to be consolidated with one or more previously issued Tranches of such Series prior to the Exchange Date relating to the Temporary Global Note representing the most recently previously issued Tranches of such Series, such Exchange Date may be extended until the Exchange Date with respect to such further Tranche, provided that in no event shall such first-mentioned Exchange Date be extended beyond the date which is five calendar days prior to the first Interest Payment Date (if any) falling after such first-mentioned Exchange Date.

## 8. Legend

Each permanent Global Note and any Bearer Note, Talon, Coupon or Receipt issued in compliance with the D Rules under TEFRA will bear the following legend:

*"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code".*

The sections of the U.S. Internal Revenue Code of 1986 referred to in the legend provide that a United States taxpayer, with certain exceptions, will not be permitted to deduct any loss, and will not be eligible for capital gains treatment with respect to any gain realised on any sale, exchange or redemption of Bearer Notes or any related Coupons.

## **Amendment to Conditions**

The temporary Global Notes, permanent Global Notes and Global Certificates contain provisions that apply to the Notes that they represent, some of which modify the effect of the terms and conditions of the Notes set out in this Information Memorandum. The following is a summary of certain of those provisions:

### **1. Payments**

No payment falling due after the Exchange Date will be made on any Global Note unless exchange for an interest in a permanent Global Note or for Definitive Notes is improperly withheld or refused. Payments on any temporary Global Note issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement. All payments in respect of CGNs represented by a Global Note will be made against presentation for endorsement and, if no further payment falls to be made in respect of the Notes, surrender of that Global Note to or to the order of the Fiscal Agent or such other Paying Agent as shall have been notified to the Noteholders for such purpose. If the Global Note is a CGN, a record of each payment so made will be endorsed on each Global Note, which endorsement will be *prima facie* evidence that such payment has been made in respect of the Notes. In the case of payments made in respect of Notes not being issued outside the Republic of France, proof of non-residency (if any) shall be supplied to the Fiscal Agent by Euroclear, Clearstream or any Alternative Clearing System in accordance with the rules of such clearing system. If the Global Note is a NGN or if the Global Certificate is held under the NSS, the Fiscal Agent or Registrar (as applicable) shall procure that details of each such payment shall be entered *pro rata* in the records of the relevant clearing system and, in the case of payments of principal, the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the Global Note or the Global Certificate will be reduced accordingly. Payments under the NGN will be made to its holder. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge. For the purpose of any payments made in respect of a Global Note or Global Certificate, the relevant place of presentation shall be disregarded in the definition of "business day" set out in Condition 7(g) (*Business Days for Payments*).

All payments in respect of Notes represented by a Global Certificate will be made to, or to the order of, the person whose name is entered on the register at the close of business on the Clearing System Business Day immediately prior to the date for payment, where Clearing System Business Day means Monday to Friday inclusive except 25 December and 1 January.

### **2. Prescription**

Claims against the Issuer in respect of Notes that are represented by a permanent Global Note will become void unless it is presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) from the appropriate due date.

### **3. Meetings**

The holder of a permanent Global Note or of the Notes represented by a Global Certificate shall (unless such permanent Global Note or Global Certificate represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, the holder of a permanent Global Note shall be treated as having one vote in respect of each integral currency unit of the Specified Currency of the Notes. All holders of Registered Notes are entitled to one vote in respect of each Note comprising such Noteholder's holding, whether or not represented by a Global Certificate.

### **4. Cancellation**

Cancellation of any Note represented by a permanent Global Note that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the nominal amount of the relevant Global Note.

### **5. Purchase**

Notes represented by a permanent Global Note may only be purchased by the Issuer in accordance with the Conditions relating to such Notes if they are purchased together with the rights to receive all future payments of interest and Instalment Amounts (if any) thereon.

### **6. Issuer's Option**

Any option of the Issuer provided for in the Conditions of any Notes while such Notes are represented by a permanent Global Note shall be exercised by the Issuer giving notice to the Noteholders within the time limits set out in, and containing the information required by, the Conditions, except that the notice shall not be required to contain the serial numbers of the Notes drawn in the case of a partial exercise of an option and accordingly no drawing of Notes shall be required. In the event that any option of the Issuer is exercised in respect of some but not all of the Notes of any Series, the rights of accountholders with a clearing system or Approved Intermediary in respect of the Notes will be governed by the standard procedures of Euroclear, Clearstream, Euroclear France (to be reflected in the records of Euroclear and Clearstream as either a pool factor or a reduction in nominal amount, at their discretion) or any other clearing system (as the case may be).

### **7. Noteholder's Options**

Any option of the Noteholders provided for in the Conditions of any Notes while such Notes are represented by a permanent Global Note may be exercised by the holder of the permanent Global Note giving notice to the Fiscal Agent within the time limits relating to the deposit of Notes with a Paying Agent set out in the Conditions substantially in the form of the notice available from any Paying Agent, except that the notice shall not be required to contain the serial numbers of the Notes in respect of which the option has been exercised, and stating the nominal amount of Notes in respect of which the option is exercised and at the same time where the permanent Global Note is a CGN presenting the permanent Global Note to the Fiscal Agent, or to a Paying Agent acting on behalf of the Fiscal Agent, for notation. Where the Global Note is a NGN or where a Global Certificate is held under the NSS, the Fiscal Agent or Registrar (as applicable) shall procure that details of such exercise shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in those records will be reduced accordingly. To exercise the Non-Extension Option in relation to any Automatic Extension Date in respect of any Notes held by a Noteholder while such Notes are represented by the Original Permanent Global Note or, as the case may be, the Original Global Certificate, the holder thereof must, during the relevant Exercise

Period, (i) deliver to the relevant clearing system a duly completed Non-Extension Option Exercise Notice in respect of such Notes and (ii) arrange with the relevant Clearing System for such Notes to be "blocked" in the relevant participant's account with such clearing system until such Automatic Extension Date.

#### **8. NGN nominal amount**

Where the Global Note is a NGN or a Global Certificate is held under the NSS, the Fiscal Agent or Registrar (as applicable) shall procure that any exchange, payment, cancellation, exercise of any option or any right under the Notes, as the case may be, in addition to the circumstances set out above shall be entered in the records of the relevant clearing systems and upon any such entry being made, in respect of payments of principal, the nominal amount of the Notes represented by such Global Note or Global Certificate (as applicable) shall be adjusted accordingly.

#### **9. Event of Default**

Each Global Note and Global Certificate provides that the holder may cause such Global Note, or a portion of it, or Registered Notes represented by such Global Certificate, as the case may be, to become due and repayable in the circumstances described in Condition 10 by stating in the notice to the Fiscal Agent the nominal amount of such Global Note or Registered Notes represented by such Global Certificate that is becoming due and repayable. Following the giving of a notice of an Event of Default by or through the relevant clearing system(s) or depositary, the holder of a Global Note or Registered Notes represented by a Global Certificate may elect for direct enforcement rights against the Issuer under the terms of an amended and restated Deed of Covenant executed as a deed by the Issuer on 29 June 2017 to come into effect in relation to the whole or a part of such Global Note or one or more Registered Notes in favour of the persons entitled to such part of such Global Note or such Registered Notes, as the case may be, as accountholders with a clearing system. Following any such acquisition of direct rights, the Global Note or, as the case may be, the Global Certificate and the corresponding entry in the register kept by the Registrar will become void as to the specified portion or Registered Notes, as the case may be. However, no such election may be made in respect of Notes represented by a Global Certificate unless the transfer of the whole or a part of the holding of Notes represented by that Global Certificate shall have been improperly withheld or refused. So long as any Notes are represented by a Global Note or Global Certificate and such Global Note or Global Certificate is held on behalf of a clearing system, the last sentence of Condition 10 is not applicable.

#### **10. Notices**

So long as any Notes are represented by a Global Note or Global Certificate and such Global Note or Global Certificate is held on behalf of a clearing system, notices to the holders of Notes of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note or Global Certificate except that, so long as the relevant Notes are listed on the official list of the Luxembourg Stock Exchange and are admitted to trading on the Regulated Market and the rules of the Luxembourg Stock Exchange so require, notices shall also be published in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) and/or on the website of the Luxembourg Stock Exchange ("www.bourse.lu") and, so long as such Notes are listed or admitted to trading on any stock exchange and the rules of such stock exchange so require, in a leading daily newspaper with general circulation in the city/ies where such stock exchange(s) is/are situated.

## **11. Consolidation**

A Global Note or Global Certificate may be amended or replaced by the Issuer (in such manner as it considers necessary, after consultation with the Consolidation Agent) for the purposes of taking account of the consolidation of the Notes in accordance with Condition 13. Any consolidation may require a change in the relevant common depositary or central depositary, as the case may be.

## DEXIA CRÉDIT LOCAL

### Introduction

DCL is a French corporation (*société anonyme*) administered by a Board of Directors, as governed by Articles L. 225-17 and *seq.* of the French Commercial Code and a banking institution (*établissement de crédit*) governed by Articles L. 511-1 and *seq.* of the French Monetary and Financial Code. DCL is registered with the Clerk of the Commercial Court of Nanterre (*Registre du Commerce et des Sociétés de Nanterre*) under number 351 804 042. Its registered office and chief place of business is: Tour CBX, La Défense 2, 1, Passerelle des Reflets, 92913 La Défense Cedex, France. The telephone number at DCL's registered office is (+33) 1 58 58 77 77.

DCL is a subsidiary of Dexia SA ("**Dexia**"), a public limited company (*société anonyme*) and financial holding company governed by Belgian law whose shares are listed on Euronext Brussels. As its main operating entity, DCL holds almost all of the Dexia Group's assets. As at 31 December 2018, DCL had 716 employees worldwide, with 430 in France as of 31 December 2018 compared to 544 employees in France as of 31 December 2017.

DCL is the Group's main operating entity and benefits from the Guarantee in order to allow for the execution of the Orderly Resolution Plan. DCL is based in France, where it holds a banking licence, with branches in Ireland and the United States, and a subsidiary in Italy. These entities also hold local banking licences. In addition, DCL had a branch in Spain, which closed in March 2019, and a subsidiary in Germany, which was sold on 30 April 2019.

### History

Crédit Local de France ("**CLF**") was formed by the French State in 1987 upon the transfer to it of the *Caisse d'aide à l'équipement des collectivités locales* and was privatised by the French State in 1991 and in 1993. In 1996, CLF and Crédit Communal de Belgique pooled their activities and formed a single group called Dexia. As part of this restructuring, CLF contributed all of its assets and liabilities to an inactive entity, Local Finance which was renamed Crédit Local de France. This entity was subsequently renamed Dexia Crédit Local.

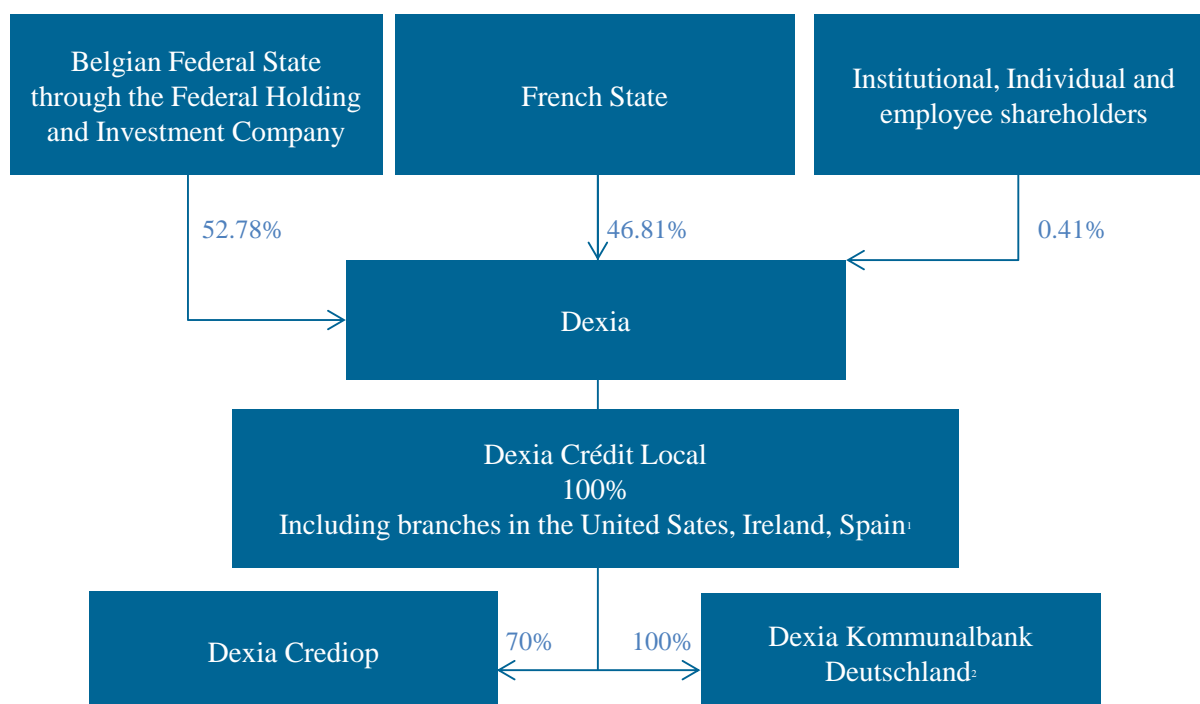

DCL specialised historically in public and project finance for the local public sector but also provided financing services to the public housing, healthcare and public health sectors. Through its international branches and subsidiaries this type of business was developed in nearly 30 countries around the world, especially in the European Union, North America, Mexico, Australia and Japan.

### Organisational structure

As of the date of this Information Memorandum, DCL is the main subsidiary of Dexia, which has been managed with a view to working towards its orderly resolution since the end of 2011. On 28 December 2012, the European Commission ratified Dexia's revised Orderly Resolution Plan, submitted by the Belgian, French and Luxembourg States. The Orderly Resolution Plan called for the sale of those operating entities which were considered to be viable in the long term, in order to enable them to continue their development outside the Dexia Group. The remaining residual assets are to be managed in run-off until extinction, not being compensated by any new commercial production. See "*Dexia Crédit Local—Orderly Resolution Plan*" below

Since 2012, both Dexia and DCL have had an integrated operational management team with unified administration of both entities.

## Simplified Group structure as at 31 December 2018

(1) DCL's Madrid branch closed on 29 March 2019.

(2) Dexia Kommunalbank Deutschland was sold on 30 April 2019.

## Orderly Resolution Plan

The Dexia Group encountered serious refinancing difficulties in the autumn of 2011, in the wake of the worsening European sovereign debt crisis, leading to the announcement of the implementation of an Orderly Resolution Plan, entailing a number of consequences for DCL.

Because the plan involved State Aid in the form of a funding guarantee granted by the Belgian, French and Luxemburg States as well as a capital increase by the Belgian and French State, it had to be submitted to the European Commission for approval under EU State Aid rules. The States of Belgium, France and Luxembourg initially submitted the plan to the European Commission on 21 March 2012. Subsequently, following active discussions between Dexia, the States, the European Commission and the European, Belgian and French central banks and supervisors, certain hypotheses and principles in the business plan underlying the plan submitted by the States to the Commission in March 2012 were changed. This resulted in a revised orderly resolution plan being submitted to the European Commission on 14 December 2012, and approved by it in a decision of 28 December 2012.

The purpose of the Orderly Resolution Plan was to prevent the materialisation of the systemic risk that the bankruptcy of the Dexia Group would represent to the Belgian, French and European financial systems. It called for the sale of those operating entities which were considered to be viable in the long term, in order to enable them to continue their development outside the Dexia Group. The remaining residual assets are to be managed in run-off until extinction, not being offset by any new commercial production (other than in limited circumstances). Due to the size of its balance sheet and the specific nature of the residual assets, which have in general a very long maturity, the Orderly Resolution Plan will have to be managed over the very long term.

DCL plays an important role in ensuring a controlled run-off of the Group's balance sheet in order to preserve financial stability and minimise the cost for the States as shareholders of Dexia as well as guarantors of part of Dexia's liabilities. The orderly wind-down of the balance sheet requires the Group to have a banking licence and benefit from explicit government support. The link to the Belgian and French States is further reinforced by the influence they have on Group strategy. Given the systemic importance of the Dexia Group and the resulting public interest in stabilising the Group, the Belgian, French and Luxembourg States have committed to important support measures, as discussed in further detail below.

### ***Implementation of a definitive liquidity guarantee***

In order to enable Dexia to successfully complete the Orderly Resolution Plan, the Belgian, French and Luxembourg States provided DCL with a EUR 85 billion principal amount funding guarantee (the "**Guarantee**"). This Guarantee, which came into force on 24 January 2013, was intended to allow the Dexia Group to fund its balance sheet over the long term. Only issuances by DCL (acting directly or through any of its branches, including its New York branch) may be covered by the Guarantee.

The Guarantee, which is several but not joint, is spread 51.41% for Belgium (or a maximum amount of EUR 43.6985 billion in principal), 45.59% for France (or a maximum amount of EUR 38.7515 billion in principal) and 3% for Luxembourg (or a maximum amount of EUR 2.55 billion in principal). It covers funding raised in the form of securities and financial instruments and deposits or borrowings until 31 December 2021 with a maximum maturity of ten years. The State remuneration under this guarantee was set at 0.05% (5 basis points) per annum. These costs are in addition to an up-front commission of EUR 150 million, which was paid to the States in 2013.

See "*The Guarantee*".

### ***Conversion of preference shares and issue of profit shares to the States***

On 7 December 2017, Dexia held an extraordinary shareholders' meeting at which the proposals to (i) convert the preference shares subscribed in 2012 by the Belgian and French States into ordinary shares and (ii) issue for the benefit of the Belgian and French States new profit shares in the form of Contingent Liquidation Rights ("**CLR**") were approved.

As part of this conversion, all the preference shares issued on 31 December 2012 and held by the Belgian and French States were converted into ordinary shares, at a conversion rate of 14.446 ordinary shares per preference share. The ordinary shares issued upon such conversion, which are in registered form, cannot be converted into book-entry form and, as a result, may not be traded on Euronext Brussels. In addition, profit shares in the form of CLRs were granted to the Belgian and French States. These CLR do not represent any share capital of Dexia, but grant the States the benefit upon the liquidation of Dexia of a cumulative preferential distribution of EUR 440 million per annum as from 1 January 2018 up to the date of liquidation of Dexia.

The conversion plan approved by the extraordinary shareholders' meeting was implemented with a view to continue satisfying applicable capital requirements as required under the Orderly Resolution Plan, notwithstanding the termination of the grandfathering period set out in Article 482(1) of CRD IV, on the basis of which the preference shares subscribed by the Belgian and French States in 2012 were to benefit from CET 1 treatment until 31 December 2017. In particular, it seeks to ensure that (i) Dexia observes the capital ratios imposed by the ECB in its decision dated 8 December 2016 and (ii) any improvement in Dexia's financial situation will primarily and principally benefit the States, under the ongoing "burden sharing" requirements imposed by the European Commission in its decision dated 28 December 2012.

*The plan was approved by the European Commission on 19 September 2017. On 27 November 2017, the ECB confirmed the treatment of the newly issued ordinary shares as Common Equity Tier 1. Following the conversion, Dexia's share capital amounts to EUR 500,000,000.00, comprising 420,134,302 shares.*

### ***Behavioural undertakings***

In connection with the approved Orderly Resolution Plan, certain provisions of the restructuring plan validated by the European Commission on 26 February 2010 were amended or renewed, including:

- (i) prohibition on payments of discretionary coupons or on early redemption of hybrid Tier 1 or Tier 2 instruments. The Group may proceed with specific offers to repurchase such instruments subject to certain conditions, including the European Commission and regulator approvals;
- (ii) prohibition on acquisition of other credit institutions, investment companies or insurance companies; and
- (iii) observance of the principles of remuneration established within the context of the G20 and national bodies regarding the remuneration of members of the management board and executive committee of Dexia and the Group's main operating entities.

With respect to paragraph (i) above, beginning in 2014, the European Commission has, however, refused to authorise Dexia to repurchase the XS0273230572 subordinated financial instrument issued by Dexia Funding Luxembourg stating that subordinated creditors must share in the financial burden resulting from the restructuring of financial institutions having been granted State Aid.

The subordinated financial instrument FR0010251421 issued by DCL has similar characteristics.

### ***Management of the balance sheet and risk reduction***

2018 was characterised by a strong acceleration in the simplification of the Group and the reduction of DCL's balance sheet, resulting in a significant decline in the asset portfolio, by EUR 24.7 billion, or 13.5%, over the year. The efforts undertaken were continued and intensified, in particular including the sale of its stakes in certain subsidiaries and the reduction of its portfolio of commercial assets. See "*Towards a simplification and greater integration of the operating model*" below.

DCL's consolidated balance sheet amounted to EUR 158.4 billion as at 31 December 2018. Asset sales in 2018 amounted to EUR 14 billion, of which EUR 7.3 billion related to disposals and EUR 1.1 billion to early redemptions, in particular to US public sector securities and French public sector loans, Spanish covered bonds, ABS on U.S. Government student loans or exposures to the Japanese sovereign and local public sector. The assets were characterised by a long residual life of 9.4 years and by the fact that a significant proportion of these assets was denominated in currencies other than the euro, in particular the U.S. dollar and the yen. This has made it possible to reduce the Issuer's funding risk in these currencies.

As a consequence, as at 31 December 2018, the Issuer's ABS portfolio had decreased by 36% to EUR 2.7 billion compared to 31 December 2017, where ABS student loans still represent an important part of the portfolio (EUR 1 billion), with a portion guaranteed by the U.S. Federal Government that is characterised by a long amortisation profile and a limited expected loss. The balance consists for the most part of residential mortgage-backed securities (RMBS) in an amount of EUR 0.3 billion, of which EUR 0.2 billion relates to Spain.

Over the course of 2018, DCL continued to strengthen its expertise in the sale of loans. After a first successful transaction in 2017, DCL sold two new portfolios of receivables from the French local public sector following a call for tenders from investors. These sales related to a total outstanding amount of EUR 1.1 billion for a total of 186 loans. DCL also disposed of social housing loans in France, in two tranches, in an amount of EUR 0.8 billion.

As part of its credit risk reduction, efforts were concentrated on the management of heavily provisioned files. In particular, DCL sold almost all of its exposure in relation to the Commonwealth of Puerto Rico and obtained the redemption of debts associated with the Bulgarian railway sector. DCL's credit portfolio remained globally of good quality with 91% of exposures rated in the investment grade category as at 31 December 2018.

### ***Positive impact from the first application of IFRS 9 to the Issuer's regulatory capital***

IFRS 9 "Financial Instruments" came into force on 1 January 2018, replacing the standard IAS 39. Application of the new rules for the classification and valuation of financial assets under IFRS 9 has major consequences for DCL. In particular, the assets that were part of the portfolio established by DCL before its entry into resolution were booked as "available for sale (AFS)" under IAS 39 and valued at fair value, resulting in the establishment of a highly negative AFS reserve, taken into account in calculating regulatory capital. The Issuer retained the option of continuing to apply the provisions of IAS39 to its hedge accounting.

IFRS 9 provides for a classification and valuation of assets in relation to an entity's management intention and the nature of the assets concerned. DCL consequently reclassified a significant proportion of its assets at "amortised cost" under IFRS 9 in line with its status as an entity managed in run-off. This reclassification resulted in the cancellation of latent gains and losses observed in equity (AFS reserve). Only assets identified as being capable of disposal in coming years have been classified in the category "fair value through equity". The implementation of the IFRS 9 accounting standard resulted in a reduction and a change of the sensitivity of the Issuer's equity to credit spreads fluctuations. In particular, the reduction of sensitivity is notable with respect to Italian and Portuguese sovereigns. A residual sensitivity to credit spreads continues to exist, for assets classified in the "fair value through equity" and in the "fair value through profit or loss" and related principally to American ABS as well as assets in the French and US public sectors. As at 1 January 2018, the application of IFRS 9 has a positive total net impact on the Issuer's accounting equity of approximately EUR 2.6 billion, associated with the asset classification and the implementation of the new provisioning model, which was partially offset by the adjustment to prudential treatment (EUR (0.4) billion). As a consequence, the Issuer's CET1 capital and total capital increased by EUR 2.0 billion and EUR 1.9 billion, respectively, representing 21.2% and 21.7%, respectively, as at 1 January 2018 compared to 16.1% and 17.0% as at 31 December 2017.

In December 2017, the European Parliament amended the CRR and offered credit institutions the possibility to make use of phase-in provisions, which enable the impact on equity resulting from implementation of the new IFRS 9 provisioning model on solvency ratios to be spread over five years, in particular to smooth the effects on the level of impairment of the migration of an asset from one category to another and to attenuate any volatility generated by the new impairment model on prudential solvency ratios. These are applied to the amount of additional provisions for credit risk as at 1 January 2018 ("static" phase-in). They are also applied to additional amounts of provisions associated with financial assets in bucket 1 and in bucket 2 according to the IFRS 9 approach, constituted during the five-year transition period ("dynamic" phase-in). DCL informed the supervisory authorities that it would apply this phase-in approach.

### ***Non-eligibility of wind-down entities as Eurosystem monetary policy counterparties as from 1 January 2022***

On 21 July 2017, the ECB announced the end of recourse to Eurosystem funding for wind-down entities as from 1 January 2022 and limited the Issuer's recourse to the Eurosystem to an amount of EUR 5.2 billion until 31 December 2021.

The Dexia Group has had no recourse to ECB funding since September 2017.

The ECB decision also resulted in a reduction of the liquidity buffer, combined with a change of its composition. As at 31 December 2018, DCL had a liquidity reserve of EUR 16.3 billion, of which EUR 9.3 billion was in the form of cash deposits with central banks, compared to EUR 16.4 billion as at 31 December 2017, of which EUR 10.7 billion was in the form of deposits with central banks.

### ***Evolution of the funding profile***

DCL's funding volume had decreased to EUR 106 billion as at 31 December 2018, compared to 124.8 billion as at 31 December 2017.

Over 2018, DCL successfully launched various long-term public transactions in euros, US dollars and pounds sterling, raising EUR 7.3 billion. Private placement activity was inactive in 2018. Guaranteed short-term funding activity was also sustained, with a relatively long average maturity of 8.5 months.

As a result of the reduction of the asset portfolio and the EUR 2.7 billion decrease in the net amount of cash collateral paid by DCL to its derivatives counterparties (total net amount of EUR 22.7 billion as at 31 December 2018), funding outstanding decreased by EUR 18.5 billion, compared to the end of December 2017, to EUR 106 billion at the end of December 2018. The adjustment of the funding mix was achieved through the reduction of secured funding by EUR 14.1 billion compared to the end of 2017, due to the sale of the underlying assets and the termination of Dexia Crediop's domestic repo platform. There was also a EUR 4.3 billion reduction of unsecured funding compared to the end of December 2017, half of which was due to a decrease in State-guaranteed funding, bringing the outstanding amount to EUR 65.5 billion as of 31 December 2018, or 62% of the total outstanding amount of funding at that date.

As at the same date, DCL's LCR was 200%, compared with 111% as at 31 December 2017. This ratio was also respected at the subsidiary level, with each subsidiary exceeding the required minimum of 100%. DCL's NSFR, estimated on the basis of the latest proposals to amend the CRR, would be above the target threshold of 100%, as a result of DCL's efforts since 2013 to improve its funding profile.

### ***Towards a simplification and greater integration of the operating model***

In line with the objectives of the business plan launched in 2013, throughout 2018 DCL continued its efforts to adapt its operating model in two strategic directions: the Group's operational simplification and centralisation.

#### ***Simplification of the Group structure***

The Dexia Group continues to progress in the implementation of the Orderly Resolution Plan through the restructuring, closing or sale of Group entities.

- ***Dexia Israel Bank***

On 18 March 2018, the Issuer announced an off-market transaction with a series of qualified investors, involving the sale of all its shares (representing a 58.9% stake) in Dexia Israel Bank

(Dexia Israel). The sale was made at a price of NIS 674 per share, with total consideration amounting to approximately EUR 82 million. The sale of Dexia Israel completed the mandatory divestment process of the Group's commercial franchises, as part of the commitments taken by the French, Belgian and Luxembourg States in the framework of the Orderly Resolution Plan.

- DKD

Following the signing of a sale and purchase agreement on 14 December 2018, DCL, acting through its Dublin branch, and Helaba completed on 30 April 2019 the sale of DKD, DCL's German banking subsidiary, to Helaba, for a total consideration of EUR 352 million. All regulatory approvals have been obtained.

For Dexia, this transaction accounts for a reduction of about EUR 24 billion of its balance sheet total. The net capital loss resulting from the sale is estimated at EUR -115 million and the impact on solvency ratios is positive and amounts to about 15 bps. Those impacts will be recorded in Dexia's consolidated financial statements for the first half of 2019.

DCL has also terminated, with effect as of the closing date of the sale, the Letters of Support it had issued to DKD.

- *Closure of DCL's Portuguese and Spanish branches*

In 2016, in line with the simplification of its operational structure, the Dexia Group proceeded with the cross-border merger by absorption of DCL and its subsidiary Dexia Sabadell as well as the simultaneous creation of two new branches of DCL in Spain and in Portugal. On 29 June 2018, the Group closed the DCL branch in Lisbon, after finalising the transfer of assets to its Paris office.

Similarly, DCL Sucursal en España, DCL's Madrid branch, closed on 29 March 2019 and transferred its asset portfolio to DCL in Paris.

In 2019, the Dexia Group plans to further pursue its objective of simplifying its international network in order to reduce its geographical footprint and optimise efficiency at the Group level through the continued restructuring of the Dexia network, which is expected to result in particular in the reduction of DCL's presence in New York, with the repatriation of the management of DCL's American assets to the head office in Paris and the transformation of the New York Branch into a representative office.

#### *Outsourcing the operational processing chain for market activities and IT infrastructure*

In order to manage its residual assets in run-off, DCL must maintain its operational continuity. For certain activities, this requires significant investments that must be considered in conjunction with the Group's financial capabilities and expected profitability over the term of the resolution.

To secure its operational continuity and in order to adapt its operating model to the requirements of a structure in resolution, DCL decided to outsource certain activities. Outsourcing offers greater cost flexibility and increases resilience through the simplification and integration of Group services. On 4 October 2017, Dexia signed a ten-year agreement with Cognizant, as its strategic partner for IT and the management of operational processes on back office markets and credit activities in France and Belgium.

Under the terms of the agreement, DCL staff members in charge of IT and back office services joined the newly created French company, Cognizant Horizon. The agreement was implemented in two

phases, with IT services being transferred on 1 November 2017 and back-offices services joining Cognizant in May 2018. In total, 132 DCL staff members joined Cognizant Horizon.

DCL also charged Cognizant with the renewal and management of its IT system infrastructure. This transaction was the object of a separate agreement, also for a term of 10 years. Its implementation will extend until the end of 2019 and will provide the Group with more efficient IT tools and will further strengthen its operational continuity.

## **Ratings**

DCL's senior unsecured ratings are as follows (25 June 2019):

- Moody's: Aa3 stable outlook/ P;
- S&P: AA/A-1+;
- Fitch: AA-/F1+.

## **Management**

As at 25 June 2019, DCL is managed by the following persons:

- Wouter Devriendt (*Chief Executive Officer*)
- Véronique Hugues (*Deputy Chief Executive Officer*)
- Giovanni Albanese (*Deputy Chief Executive Officer*)
- Guy Cools (*Deputy Chief Executive Officer*)
- Benoît Debroyse (*Deputy Chief Executive Officer*)
- Patrick Renouvin (*Deputy Chief Executive Officer*)

As at 25 June 2019, the Board of Directors of DCL consists of the following members:

- Gilles Denoyel (*Chairman of the Board of Directors*)
- Wouter Devriendt (*Executive Director*)
- Véronique Hugues (*Deputy Executive Director*)
- Giovanni Albanese (*Deputy Executive Director*)
- Claire Cheremetinski
- Koenraad Van Loo
- Thierry Francq
- Alexandre De Geest
- Bart Bronselaer

- Michel Tison
- Alexandra Serizay
- Tamar Joulia-Paris
- Aline Bec
- Véronique Tai
- Bertrand Dumont

The business address of all of the directors is 1, Passerelle des Reflets, Tour CBX, La Défense 2, 92913 La Défense Cedex, France.

### **Litigation**

DCL and its subsidiaries are subject to a number of regulatory investigations and are named as a defendant in a number of lawsuits, including class action lawsuits in the Italy. Certain lawsuits in connection with which DCL and its subsidiaries are acting as claimant might have an impact on the financial position of DCL as described below. The most significant includes certain litigation actions by local authorities to whom structured loans were granted.

According to the information available to DCL at the date of this Information Memorandum, disputes and investigations in progress other than those summarised below, are not expected to have a material impact on the DCL Group's financial position, or it is still too early to accurately assess whether they will have such an impact.

The consequences, as assessed by DCL in accordance with the information available to it of the principal disputes and investigations liable to have a material impact on the DCL's financial position, performance or activities are reflected in the DCL's consolidated financial statements. Subject to the general terms and conditions of professional indemnity and executive liability insurance policies taken out by DCL, any negative financial consequences of some or all of these disputes and investigations may be covered, in full or in part, by those policies and, subject to the insurers in question accepting these risks, may be offset by any payments that DCL may receive under the terms of those policies.

#### *Dexia Crédit Local*

The Issuer is involved in a number of disputes with French local authorities and related entities to which it has granted so-called "structured" loans. As at 31 December 2018, 30 clients were engaged in proceedings against the Issuer in connection with structured loans (as compared to 37 clients as at 31 December 2017), of which 16 relate to structured loans held by CAFFIL (formerly, Dexia Municipal Agency, a 100% subsidiary of the Issuer), a 100% subsidiary of SFIL, 12 relate to structured loans held by the Issuer and two relate to both institutions.

On 28 March 2018, the Supreme Court validated the Versailles Court of Appeal's favourable decision concerning structured loans held by CAFFIL, noting that structured loans were not financial and speculative products. The Supreme Court ruled that DCL had not incurred any liability in connection with the sale of these structured loans. With respect to the application of the French law validating the annual percentage rate of structured loans contracted by public entities, the Supreme Court held that public entities could not invoke the European Convention on Human Rights.

Even though this decision represents a significant evolution for the Issuer, it does not resolve the other proceedings based on other grounds that are ongoing at the date of this Information Memorandum. At present, the Issuer is not able to predict the outcome of these proceedings and to assess their potential financial repercussions.

DCL has also been involved in litigation concerning loans granted to private law entities and for which the French courts continue to annul clauses linked to the interest rate of the loan in view of the absence of reference to the Annual Percentage Rate (APR) in the fax confirmation prior to conclusion of the loan contract. On 11 August 2018, the Law authorising the Government to amend the APR regulations by Government order was passed (Article 55.I of the French Law No 2018-727).

At present DCL is unable reasonably to predict the duration or outcome of the remaining investigations and legal proceedings in progress, or their potential financial repercussions.

### *Dexia Crediop*

Like other Italian financial institutions, Dexia Crediop is involved in legal proceedings in Italy and in the United Kingdom regarding hedging transactions (which required recourse to derivative instruments such as swaps), entered into in connection with debt restructuring and/or funding transactions with several Italian regions, cities and provinces.

On 15 June 2017, the Court of Appeal in London issued its judgment which confirmed that (i) derivative contracts entered into between Dexia Crediop and the City of Prato in the period 2002 - 2006 were valid and binding; (ii) Prato had full capacity to enter into the derivative contracts; and (iii) the margin applied by the bank to the derivative contracts is necessary to cover its risks and expected costs and the concept of "implicit costs" was unfounded. The City was also ordered to reimburse Dexia Crediop's legal costs in the UK proceedings and to pay default interests on the nettings unpaid by the City of Prato as from December 2010. The City of Prato filed a specific request to file an appeal directly with the Supreme Court. On 18 December 2017, the Supreme Court confirmed the lower court's decision.

Following these decisions, in 2018 Dexia Crediop and the City of Prato entered into an out-of-court settlement agreement under which the City of Prato (i) recognised that the swap contracts were legal, valid and binding and (ii) withdrew its appeal against the judgment by the Prato Criminal Court as well as the appeal it had initiated before the Council of State.

Criminal proceedings commenced before the Court of Appeal in Florence concerning the Prato case are still ongoing; in 2017, the Prato Criminal Court passed a judgment of acquittal against which the Chief Prosecutor decided to lodge an appeal.

In 2018, Dexia Crediop commenced proceedings in London against the City of Messina, following persistent payment defaults by the latter, based on the alleged illegality of derivative contracts, despite several decisions by the Italian courts rejecting the client's applications for compensation.

Dexia Crediop is also involved in two other legal cases before the Italian civil courts, in which the validity of a part of a loan contract has been contested, in particular claiming the existence of an embedded derivative contract.

In addition to the foregoing derivatives-related litigations on derivatives, Dexia Crediop is involved in the following litigations.

Dexia Crediop is involved in a litigation concerning the Italian public bank called *Istituto per il Credito Sportivo* ("ICS"), an Italian public bank in which Dexia Crediop is a quotaholder, together with other Italian private financial institutions. In 2012, the administrators of ICS challenged the

nature of the subsidies granted to ICS, which were reclassified as equity, and decided to annul the articles of association of ICS and the distributions of dividends since 2005. In September 2015, the Council of State confirmed the annulment of the ICS articles of association, in particular stating that the decisions on dividend distributions were subject to the jurisdiction of the civil courts. The civil proceedings relating to the distributions of dividends and the new ICS articles of association are ongoing.

On 5 April 2016, Dexia Crediop was served with a deed of summons before the Civil Court of Rome by the extraordinary commissioners of the *Provincia Italiana della Congregazione dei Figli dell'Immacolata Concezione ("PICFIC")*, currently in extraordinary administration. That summons seeks to obtain a declaration confirming that the assignments of receivables entered into with Dexia Crediop in 2012 are null and void (claw-back action). In an indirectly linked action commenced by Dexia Crediop in 2014 and aimed at obtaining payment of the unpaid balance of the debts assigned, the Court of Appeal in Rome partially admitted the application by Dexia Crediop at the beginning of 2019. Dexia Crediop is currently assessing the opportunity to lodge an appeal before the Italian Supreme Court.

At present, Dexia Crediop is unable reasonably to predict the duration or outcome of these proceedings, or their potential financial repercussions.

#### ***Litigation resulting from the disposal of the Group's operating entities***

Over recent years, the Dexia Group has implemented its programme of divestment of operating entities. As is customary in these types of transactions, the share sale agreements in relation to these disposals include representations and warranties, and seller's indemnification obligations subject to the usual restrictions and limitations. As a result, should a purchaser make a call on the warranty in connection with an issue affecting the purchased entity that originated prior to completion of the sale of the shares in that entity, DCL may, under the terms of the share sale agreement, be required to indemnify the purchaser.

DCL sold its interest in DKD in April 2019. At the time of sale, DKD was involved in litigation, which could result in indemnity obligations for DCL. For example, DKD has been party to a small number of disputes relating to structured loans. One case, in which the loan interest is linked to the exchange rate for the Swiss franc against the euro and which was won by DKD at first instance, is still ongoing following an appeal lodged by the plaintiff. The parties are currently examining the possibility of an out-of-court settlement.

In two other cases, the holders of profit-sharing rights have commenced legal proceedings against DKD. In the first case, the decisions passed at first and second instance have been in favour of DKD. In the second case, a first partial judgment was passed at first instance in March 2017, principally in favour of DKD.

The appeal proceedings, commenced by the plaintiff, are still ongoing. As for the remaining part of the compensation claim, on which there has not yet been a judgment, the court suggested that the action be withdrawn. However, the plaintiff decided to continue and even extended the action.

DKD believes that the final judgment will be in its favour, considering the jurisprudence relating to similar cases. In spite of the aforementioned developments, at present DCL and DKD are unable reasonably to predict the duration or outcome of the remaining investigations and legal proceedings in progress, or their potential financial repercussions.

## **Recent developments**

### *Notification to the European Commission of the extension of the Guarantee*

On 25 February 2019, the Board of Directors of Dexia was informed of the notification filed by the Belgian and French States with the European Commission of a proposal aimed at the extension of the refinancing guarantee in favour of notes to be issued by the Issuer after 31 December 2021. The revised guarantee scheme proposed by the States remains subject to discussion. If approved by the European Commission, this revised guarantee scheme would still have to be approved by the Parliaments in Belgium and France, and subsequently translated into an amendment to the guarantee framework agreement between Dexia and the two States. Luxembourg would no longer be a guarantor under the new guarantee scheme.

If implemented in accordance with the proposal filed with the European Commission, the deferred portion of the guarantee fees which would be payable by Dexia to the States under the revised guarantee scheme may absorb any net liquidation proceeds of Dexia, as a result of which the holders of hybrid Tier 1 debt of Dexia and DCL, as well as the shareholders of Dexia, would not receive any proceeds upon liquidation of Dexia.

## THE GUARANTEE

On 24 January 2013: (a) the Kingdom of Belgium, (b) the Republic of France and (c) the Grand Duchy of Luxembourg entered into an Independent On-Demand Guarantee (*Garantie Autonome à Première Demande*) (the "**Guarantee**") whereby the Guarantors agreed to severally but not jointly guarantee specified obligations of the Issuer, as more fully described in the Guarantee below (the "**Guaranteed Obligations**"). Notes issued under the Programme benefit from the Guarantee, subject to compliance with the terms of the Guarantee. The aggregate principal amount of the outstanding Guaranteed Obligations at 20 June 2019 was EUR 64.2 billion. The following is the text of the Guarantee in French and in English.

## GARANTIE AUTONOME À PREMIÈRE DEMANDE

Le **ROYAUME DE BELGIQUE**, pour 51,41 %,

la **RÉPUBLIQUE FRANÇAISE**, pour 45,59 %, et

le **GRAND DUCHÉ DE LUXEMBOURG**, pour 3 %, (les "**États**")

garantissent par la présente inconditionnellement et irrévocablement, conjointement mais non solidairement, chacun à la hauteur de sa quote-part mentionnée ci-dessus et selon les modalités et conditions fixées par la présente garantie (la "Garantie"), l'exécution par Dexia Crédit Local SA (agissant à partir de ses sièges ou succursales, notamment sa succursale de New York, "DCL") de ses obligations de paiement, en principal, intérêts et accessoires, au titre des Obligations Garanties visées ci-dessous.

### 1. Définitions

Dans la présente Garantie :

"**Contrats**" signifie les prêts, avances, découverts et dépôts visés au paragraphe (b) de la définition d'« Obligations Garanties » ;

"**Détenteurs de Titres**" signifie les détenteurs de Titres et Instruments Financiers autres que les Tiers Bénéficiaires ;

"**Devises Étrangères**" signifie le dollar des Etats-Unis d'Amérique (USD), le dollar canadien (CAD), la livre sterling (GBP), le yen (JPY) et le franc suisse (CHF) ;

"**Engagement Global**" à la signification donnée à l'article 3(b) ;

"**Jour Ouvré**" signifie un jour, autre qu'un samedi ou un dimanche, où les banques sont ouvertes en France, en Belgique et au Luxembourg, à condition :

- (a) s'il s'agit d'un jour où un paiement d'Obligations Garanties libellées en Devises Étrangères doit être effectué, que ce jour soit également un jour où les banques du principal centre financier de l'état de cette devise sont ouvertes ; ou
- (b) s'il s'agit d'un jour où un paiement d'Obligations Garanties libellées en euros doit être effectué, que ce jour soit également un jour où le système de paiement Trans-European Automated Real-Time Gross Settlement Express Transfer fonctionne pour la réalisation d'opérations de paiement en euros ;

"**Obligations Garanties**" signifie :

- (a) les titres et instruments financiers émis par DCL, initialement souscrits par des Tiers Bénéficiaires, qui répondent aux critères prévus à l'Annexe B (*Obligations Garanties*), à l'exclusion (i) des titres et instruments financiers dont les modalités prévoient expressément qu'ils sont exclus du bénéfice de la Garantie, et (ii) des titres et instruments financiers qui bénéficient de la garantie de l'un des trois États à hauteur de 100 % de leur montant en vertu d'une garantie spécifique et séparée ou qui bénéficient d'une garantie spécifique, conjointe mais non solidaire, des trois États ; et

- (b) les prêts, avances, découverts et dépôts accordés à DCL, non représentés par un titre ou instrument financier, qui répondent aux critères prévus à l'Annexe B (*Obligations Garanties*), et dont le créancier est un Tiers Bénéficiaire.

"**Tiers Bénéficiaires**" a la signification donnée à l'Annexe A (*Tiers Bénéficiaires*) ; et

"**Titres et Instruments Financiers**" et/ou "**Titre(s) ou Instrument(s) Financier(s)**", selon le cas, signifie les titres et instruments financiers visés au paragraphe (a) de la définition d'« Obligations Garanties ».

## 2. Nature de la Garantie

- (a) La Garantie est autonome et payable à première demande. En cas d'appel à la Garantie conformément aux articles 4 et 5, les États renoncent dès lors (sans préjudice de leurs droits envers DCL) à invoquer tout moyen de défense ou toute exception relatifs aux Obligations Garanties ou au non respect par DCL de ses obligations envers les États ainsi que tout autre moyen de défense ou toute autre exception que DCL pourrait faire valoir envers les Tiers Bénéficiaires ou Détenteurs de Titres pour en refuser le paiement, et les États seront tenus envers les Tiers Bénéficiaires ou les Détenteurs de Titres comme s'ils étaient les débiteurs principaux des Obligations Garanties selon les termes de celles-ci, à concurrence de leur quote-part respective. En particulier, les obligations des États en vertu de la présente Garantie ne seront pas éteintes ou affectées par :
  - (i) la cessation des paiements (que ce soit au sens du code de commerce ou du code monétaire et financier français), l'insolvabilité, la dissolution, la radiation ou tout autre changement de statut de DCL ;
  - (ii) l'illégalité des Obligations Garanties ;
  - (iii) l'illégalité des obligations d'un autre État en vertu de la présente Garantie, ou le non respect par un autre État de ces obligations ;
  - (iv) tout délai de grâce, accord de conciliation ou autre concession similaire consenti à DCL par les titulaires des Obligations Garanties ou imposé par une autorité judiciaire ou un auxiliaire de justice ;
  - (v) la survenance de toute procédure collective (sauvegarde, sauvegarde accélérée, redressement judiciaire, liquidation judiciaire ou autre procédure similaire), la désignation d'un administrateur provisoire ;
  - (vi) toute autre mesure adoptée par l'Autorité de contrôle prudentiel ou toute autre autorité de régulation compétente à l'égard de DCL ; ou
  - (vii) toute autre cause d'extinction des Obligations Garanties, sauf leur complet paiement.
- (b) Le bénéfice de la présente Garantie subsistera si un paiement reçu par un Tiers Bénéficiaire ou un Détenteur de Titres et imputé sur les Obligations Garanties est ultérieurement annulé ou déclaré inopposable aux créanciers de l'auteur du paiement, doit être restitué à DCL ou à un tiers par ce Tiers Bénéficiaire ou Détenteur de Titres, ou s'avère ne pas avoir été effectivement reçu par ce Tiers Bénéficiaire ou Détenteur de Titres.
- (c) Les Tiers Bénéficiaires ou Détenteurs de Titres ne seront pas tenus, en vue d'exercer leurs droits en vertu de la présente Garantie, d'adresser une quelconque mise en demeure à DCL,

d'agir contre DCL, ou d'introduire une créance dans une quelconque procédure d'insolvabilité relative à DCL.

- (d) Aucune cause de déchéance du terme des Obligations Garanties, qu'elle soit d'origine légale (notamment en cas de procédure de liquidation judiciaire à l'égard de DCL) ou contractuelle (notamment sous la forme d'un *event of default*, *event of termination* ou *cross-default*), ne sera opposable aux États. En conséquence, tout appel en Garantie n'entraînera une obligation de paiement par les États que selon l'échéancier normal des Obligations Garanties (étant entendu que (i) les effets de toute clause de résiliation anticipée non liée à la survenance d'un cas de défaut, tel que l'exercice par un Tiers Bénéficiaire ou Détenteur de Titres de certains *puts* contractuels, sont considérés comme faisant partie de l'échéancier normal des Obligations Garanties, et que (ii) tout appel en Garantie devra être renouvelé aux dates d'échéances ultérieures des Obligations Garanties). En outre, pour pouvoir faire appel à la Garantie, un Tiers Bénéficiaire ou Détenteur de Titres ne peut pas avoir invoqué ou invoquer une quelconque déchéance du terme à rencontre de DCL (sauf le cas échéant les causes de déchéance qui se seraient produites de plein droit sans intervention du Tiers Bénéficiaire ou Détenteur de Titres concerné, notamment en cas d'ouverture d'une procédure de liquidation judiciaire à l'égard de DCL).

### 3. Quote-part des États et plafond global de la Garantie

- (a) Chacun des États garantit les Obligations Garanties à hauteur de la quote-part indiquée en tête de la présente Garantie. Cette quote-part s'entend par Obligation Garantie et par appel à la Garantie au sens des articles 4(b) ou 5(c) de la présente Garantie.
- (b) L'Engagement Global des États ne peut à aucun moment excéder les plafonds suivants, étant entendu que les montants en intérêts et accessoires dus sur les montants en principal ainsi limités sont garantis au-delà de ces plafonds :
- (i) € 85 milliards pour les trois États ensemble ;
  - (ii) € 43,6985 milliards pour le Royaume de Belgique ;
  - (iii) € 38,7515 milliards pour la République française ; et
  - (iv) € 2,55 milliards pour le Grand Duché de Luxembourg.

Par "**Engagement Global**", il est entendu la totalité de l'encours en principal (ceci étant entendu, dans le cas d'obligations *zero-coupon*, du principal dû à l'échéance et, dans le cas d'obligations prévoyant une capitalisation des intérêts, du principal incluant les intérêts capitalisés) des obligations garanties par chacun des États en vertu de la présente Garantie ou de toute autre garantie accordée conformément à la convention de garantie autonome datée du 16 décembre 2011 ou à la convention d'émission de garanties datée du 24 janvier, telles que celles-ci ont été ou pourront être modifiées (les obligations garanties en vertu de la convention de garantie autonome du 9 décembre 2008 n'étant pas prises en compte pour le calcul de l'Engagement Global).

Le respect des plafonds ci-dessus sera apprécié lors de toute nouvelle émission ou conclusion d'Obligations Garanties, en tenant compte de cette nouvelle émission ou conclusion. Ainsi, les financements émis ou conclus par DCL qui répondent aux critères prévus à l'Annexe B (*Obligations Garanties*) de la présente Garantie (et dont les modalités ne prévoient pas expressément qu'ils sont exclus du bénéfice de la Garantie) bénéficient de la garantie des États si et dans la mesure où l'Engagement Global ne dépasse lors de leur émission ou conclusion aucun de ces plafonds, en tenant compte du montant en principal de toutes les

Obligations Garanties (c'est-à-dire tant les obligations garanties par chacun des États en vertu de la présente Garantie ou de toute autre garantie accordée conformément à la convention de garantie autonome datée du 16 décembre 2011 ou à la convention d'émission de garanties datée du 24 janvier qui ont été émises ou conclues antérieurement, que ces nouvelles Obligations Garanties) et, pour celles qui sont libellées en Devises Étrangères, de la contre-valeur en euros de leur encours en principal au taux de référence du jour de cette nouvelle émission ou conclusion d'Obligations Garanties publié à cette date par la Banque Centrale Européenne.

L'éventuel non-respect ultérieur de ces plafonds par DCL n'affectera pas les droits des Tiers Bénéficiaires et Détenteurs de Titres au titre de la Garantie quant aux Obligations Garanties émises ou conclues avant ce dépassement de plafond.

#### **4. Garantie des Titres et Instruments Financiers**

- (a) Sans qu'il soit besoin d'aucune formalité, la Garantie couvre tous Titres ou Instruments Financiers initialement émis à destination de Tiers Bénéficiaires, et reste attachée à ces Titres ou Instruments Financiers nonobstant leur cession ou transfert à tout autre Tiers Bénéficiaire ou Détenteur de Titres. Les Détenteurs de Titres pourront dès lors également faire appel à la Garantie dans les conditions prévues à la présente Garantie.
- (b) Tout Tiers Bénéficiaire ou Détenteur de Titre, ou tout mandataire, agent, organisme de liquidation ou trustee agissant pour le compte de ceux-ci, peut faire appel à la Garantie, par simple notification adressée à chacun des États dans le délai visé à l'article 8(b). La notification contiendra l'identification des Titres ou Instruments Financiers concernés ainsi que des sommes impayées et la justification des droits de l'appelant sur ces Titres ou Instruments Financiers.

#### **5. Garantie des Contrats**

- (a) Sans qu'il soit besoin d'aucune formalité, la Garantie couvre tous Contrats conclus avec des Tiers Bénéficiaires, et reste attachée à ces Contrats nonobstant leur cession ou transfert à tout autre Tiers Bénéficiaire. La Garantie des Contrats ne bénéficiera pas aux cessionnaires ou bénéficiaires d'un transfert qui n'auraient pas la qualité de Tiers Bénéficiaire.
- (b) Seule DCL peut faire appel à la Garantie des Contrats, dans les conditions convenues entre celle-ci et les États.
- (c) Nonobstant le paragraphe (b), si une procédure de liquidation judiciaire est ouverte à l'égard de DCL, tout Tiers- Bénéficiaire titulaire de Contrats, ou tout mandataire, agent, organisme de liquidation ou trustee agissant pour le compte de ceux-ci, pourra toutefois faire appel à la Garantie, par simple notification adressée à chacun des États dans le délai visé à l'article 8(b). La notification contiendra l'identification des Contrats concernés ainsi que des sommes impayées et la justification des droits de l'appelant sur ces Contrats. Il est bien entendu qu'aucune déchéance du terme résultant de cette procédure de liquidation judiciaire ne sera opposable aux États et que l'appel en Garantie n'entraînera une obligation de paiement par les États que selon l'échéancier normal de ces Contrats (les effets de toute clause de résiliation anticipée non liée à la survenance d'un cas de défaut, tel que l'exercice par le Tiers Bénéficiaire concerné de certains *puts* contractuels, étant considérés comme faisant partie de l'échéancier normal des Contrats).
- (d) Nonobstant le paragraphe (b) et sans préjudice du paragraphe (c), les États pourront, sur demande de DCL et à leur seule discrétion, autoriser certains Tiers Bénéficiaires nommément désignés, certaines catégories de Tiers Bénéficiaires ou les Tiers Bénéficiaires titulaires de

certaines catégories de Contrats, à faire appel à la Garantie des Contrats dont ils seraient titulaires. Les États pourront subordonner leur autorisation à la mise en place des arrangements qui leur paraîtront souhaitables en matière notamment de transmission par DCL de toutes informations relatives aux Contrats détenus par ces Tiers Bénéficiaires, et pourront prévoir que tout appel à la garantie des Contrats par ces Tiers Bénéficiaires doit être accompagné des justificatifs que les États considéreront appropriés.

## **6. Exécution de la Garantie**

- (a) Chacun des États procède au règlement, dans la devise de l'Obligation Garantie à concurrence de sa quote-part, au profit des Tiers Bénéficiaires ou des Détenteurs de Titres, du montant dû au titre de tout appel à la Garantie conformément aux dispositions de la présente Garantie. Les règlements auront lieu dans les cinq Jours Ouvrés (ou, s'il s'agit d'Obligations Garanties libellées en dollars américains avec une maturité initiale inférieure ou égale à un an, dans les trois Jours Ouvrés) suivant la réception de l'appel à la Garantie et incluront les intérêts de retard dus conformément aux modalités de l'Obligation Garantie concernée jusqu'à la date de règlement.
- (b) Les paiements effectués le seront en fonds immédiatement disponibles par l'intermédiaire de tout système de compensation approprié ou mécanisme de services institutionnels ou, à défaut, directement.
- (c) Chaque État sera immédiatement et de plein droit subrogé dans la totalité des droits des Tiers Bénéficiaires ou des Détenteurs de Titres à rencontre de DCL au titre de l'Obligation Garantie concernée, à concurrence de la somme payée par lui.

## **7. Retenue à la source**

- (a) Les paiements visés à l'article 6(a) seront effectués par les États sans retenue à la source, hormis les cas où la loi l'exige. Si une retenue à la source doit être effectuée pour le compte d'un État au titre des paiements visés à l'article 6(a), aucun montant supplémentaire ne sera dû par cet État en raison de cette retenue.
- (b) Il est bien entendu que, si DCL effectue le paiement d'une Obligation Garantie moyennant déduction d'une retenue à la source dans des circonstances où une telle déduction est requise par la loi et n'entraîne pas à charge de DCL, conformément aux modalités de l'Obligation Garantie concernée, l'obligation de payer un montant supplémentaire, une telle déduction ne constituera pas un défaut de DCL susceptible de donner lieu à un appel à la présente Garantie.

## **8. Prise d'effet de la Garantie, durée et modifications**

- (a) La Garantie ne couvre que les Obligations Garanties qui sont émises ou conclues au plus tôt le 24 janvier 2013.
- (b) Le droit de faire appel à la Garantie en ce qui concerne toute somme due et impayée au titre d'une Obligation Garantie expire à la fin du 90<sup>ème</sup> jour qui suit l'échéance de cette somme ou, dans les cas visés à l'article 2(b), à la fin du 90<sup>ème</sup> jour qui suit la date de l'événement mentionné à cet article 2(b).
- (c) Les États peuvent à tout moment, de commun accord et sans préjudice de leurs obligations envers DCL, résilier ou modifier les termes de la présente Garantie. La présente Garantie sera résiliée de plein droit en cas de cession à un tiers par Dexia SA du contrôle, direct ou indirect, de DCL. Toute résiliation ou modification sera communiquée au marché conformément à la réglementation applicable. La résiliation ou la modification sera sans effet quant aux

Obligations Garanties émises ou conclues avant que ladite résiliation ou modification n'ait fait l'objet d'une communication au marché.

- (d) Pour l'application des paragraphes (a) et (b), les dépôts et autres Contrats à vue ou à échéance indéterminée sont censés être conclus de jour à jour de sorte que ces dépôts et autres Contrats sont susceptibles de bénéficier de la Garantie s'ils existent au 24 janvier 2013, et qu'ils seront affectés par une résiliation ou modification éventuelle de la Garantie dès le lendemain de la communication qui en sera donnée au marché conformément au paragraphe (c).

## 9. Notifications

Tout appel à la Garantie ou autre notification destinée aux États doit être adressée à chacun des États aux adresses et numéros suivants:

## ANNEX A

### TIERS BÉNÉFICIAIRES

Par "Tiers Bénéficiaires", il y a lieu d'entendre :

- (a) tous les "investisseurs qualifiés" au sens du point e) de l'article 2, paragraphe 1, de la directive 2003/71 du 4 novembre 2003 concernant le prospectus à publier en cas d'offre au public de valeurs mobilières ou en vue de l'admission de valeurs mobilières à la négociation, telle que modifiée;
- (b) tous les *Qualified Institutional Buyers* tels que définis dans le US Securities Act de 1933, et tous les *Accredited Investors* tels que définis par la Règle 501 de la Régulation D adoptée pour l'application du U.S. Securities Act de 1933;
- (c) la Banque centrale européenne ainsi que toute autre banque centrale (qu'elle soit établie dans un pays de l'Union européenne ou non);
- (d) tous les établissements de crédit tels que définis par la directive 2006/48/CE du Parlement Européen et du Conseil du 14 juin 2006 concernant l'accès à l'activité des établissements de crédit et son exercice (refonte), à savoir: "*une entreprise dont l'activité consiste à recevoir du public des dépôts ou d'autres fonds remboursables et à octroyer des crédits pour son propre compte*", établis ou non dans l'Espace Economique Européen;
- (e) les organismes de sécurité sociale et assimilés, les entreprises publiques, les autorités et entités publiques ou parapubliques chargées d'une mission d'intérêt général, les institutions supranationales et internationales; et
- (f) les autres investisseurs institutionnels ou professionnels ; par "**investisseurs institutionnels ou professionnels**", il y a lieu d'entendre les compagnies financières, les entreprises d'investissement, les autres établissements financiers agréés ou réglementés, les entreprises d'assurances, les organismes de placement collectif et leurs sociétés de gestion, les institutions de retraite professionnelle et leurs sociétés de gestion, et les intermédiaires en instruments dérivés sur matières premières,

en ce compris les filiales du groupe Dexia qui satisfont aux critères des paragraphes (a), (b), (d) ou (f) ci-dessus, mais uniquement dans la mesure où les Titres et Instruments Financiers (et en aucun cas pour ce qui concerne les Contrats) qui ont été souscrits par celles-ci sont destinés :

- (A) à être transférés (sous quelque forme que ce soit, en ce compris sous la forme de *repos* ou de prêts d'instruments financiers) à des Tiers Bénéficiaires non contrôlés (directement ou indirectement) par Dexia SA ou DCL (dont la Banque centrale européenne, une banque centrale nationale membre du Système européen des banques centrales ou un dépositaire agissant pour le compte de ces dernières) en contrepartie de financements levés par lesdites filiales auprès de ces Tiers Bénéficiaires entre le 24 janvier 2013 et le 31 décembre 2021 ; ou
- (B) à être inclus par ces filiales dans un *cover pool* garantissant, en tout ou en partie, des *covered bonds*, lettres de gage, *Pfandbriefe* ou autres instruments équivalents émis ou à émettre au plus tard le 31 décembre 2021 par Dexia Kommunalbank Deutschland AG ou Dexia Lettre de Gage SA auprès d'investisseurs institutionnels ou professionnels non contrôlés (directement ou indirectement) par Dexia SA ou DCL.

ces Titres et Instruments Financiers ne bénéficiant de la Garantie qu'à compter (a) de la date de leur transfert à, et aussi longtemps qu'ils sont détenus par, de tels Tiers Bénéficiaires dans le cas visé au point (A), ou (b) de leur inclusion, et aussi longtemps qu'ils sont inclus, dans un tel *coverpool* dans le cas visé au point (B).

Il est précisé que lorsqu'un intermédiaire intervient comme banque garante ("**underwriter**", "**manager**" ou assimilé) dans le cadre d'une émission de Titres ou Instruments Financiers, et dans ce contexte acquiert ou souscrit ces Titres ou Instruments Financiers en vue de leur revente immédiate auprès d'investisseurs finaux, il est requis que tant ceux-ci que celui-là aient la qualité de Tiers Bénéficiaires.

Pour l'interprétation des dispositions des paragraphes (a) à (f) ci-dessus, il est renvoyé, par dérogation à l'article 10 de la Garantie, aux statuts, actes et traités fondateurs, selon les cas, des Tiers Bénéficiaires concernés.

## ANNEX B

### OBLIGATIONS GARANTIES

La Garantie porte sur l'intégralité des financements initialement levés auprès de Tiers Bénéficiaires, avec une durée inférieure ou égale à dix ans, non assortis de sûretés réelles et non-subordonnés, soit sous forme de Contrats conclus par DCL soit sous forme de Titres ou Instruments Financiers émis par DCL, dont la souscription est restreinte aux Tiers Bénéficiaires, dont la devise est l'euro ou une Devise Étrangère, dès lors que ces financements ont été conclus ou émis par DCL entre le 24 janvier 2013 et le 31 décembre 2021, étant entendu que les dépôts et autres Contrats à vue ou à échéance indéterminée sont censés être conclus de jour à jour de sorte que ces dépôts et autres Contrats sont susceptibles de bénéficier de la Garantie s'ils existent au 24 janvier 2013 et cessent en toute hypothèse d'en bénéficier le lendemain du 31 décembre 2021.

Sont explicitement inclus dans les Obligations Garanties aux conditions définies à l'alinéa précédent:

- (a) les Contrats suivants : les prêts, dépôts, avances et découverts interbancaires en Devises Étrangères, les prêts, dépôts et avances non interbancaires à terme et à durée indéterminée en euros ou en Devises Étrangères (dont les dépôts à vue, les dépôts d'institutionnels non bancaires, les dépôts de fiduciaires et les dépôts accordés par des investisseurs institutionnels en leur nom mais en qualité d'agent et de dépositaire pour leurs clients, en ce compris dans le cadre de services communément appelés « sweep deposit services » aux États-Unis, pour autant que ces clients qualifient de Tiers Bénéficiaires), et les dépôts des banques centrales en euros ou en Devises Étrangères ;
- (b) les Titres et Instruments Financiers suivants : les *commercial papers*, les *certificates of deposit*, les titres de créance négociables et titres assimilés (notamment les *Namenschuldverschreibungen* de droit allemand), les obligations et les *Medium Term Notes*, libellés en euros ou en Devises Étrangères ;

à l'exclusion :

- (i) des obligations foncières et titres ou emprunts assimilés bénéficiant d'un privilège légal ou d'un mécanisme contractuel visant aux mêmes fins (par exemple, "*covered bonds*" et "*repos bilatéraux et tripartites*") ;
- (ii) des prêts, dépôts, titres et instruments financiers subordonnés ;
- (iii) des titres et instruments financiers de capital hybride et de capital ;
- (iv) de tout instrument dérivé (notamment de taux et de change), et de tout titre ou instrument financier lié à un instrument dérivé ; et
- (v) des prêts, dépôts, avances et découverts interbancaires en euro.

Il est précisé, pour autant que de besoin, que les Titres et Instruments Financiers souscrits par les filiales du groupe Dexia selon les modalités fixées à l'Annexe A (*Tiers Bénéficiaires*) peuvent avoir la qualité d'Obligations Garanties notwithstanding le fait que les financements levés par ces filiales au moyen de leur mobilisation auprès de tiers extérieurs au groupe Dexia ne constituent pas des Obligations Garanties.

## INDEPENDENT ON-DEMAND GUARANTEE

### FORM OF GENERIC JOINT STATES GUARANTEE

The **KINGDOM OF BELGIUM**, for 51.41%,

the **FRENCH REPUBLIC**, for 45.59%, and

the **GRAND DUCHY OF LUXEMBOURG**, for 3%, (the "**States**")

hereby unconditionally and irrevocably, severally but not jointly, each to the extent of its percentage share indicated above and in accordance with the terms and conditions set forth in this guarantee (the "**Guarantee**"), guarantee the performance by Dexia Crédit Local SA (acting through its head office or any of its branches, including its New York branch, "**DCL**") of its payment obligations, in principal, interest and incidental amounts, under the Guaranteed Obligations referred to below.

#### 1. Definitions

In this Guarantee:

"**Aggregate Commitment**" has the meaning defined in Clause 3(b);

"**Business Day**" means a day, other than a Saturday or Sunday, on which banks are open in France, Belgium and Luxembourg, *provided that*:

- (a) if it is a day on which a payment of Guaranteed Obligations denominated in a Foreign Currency is to be made, that day is also a day on which banks are open in the main financial centre of the state of such currency; or
- (b) if it is a day on which a payment of Guaranteed Obligations denominated in euro is to be made, that day is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer payment system is open for the settlement of payments in euro;

"**Contracts**" means the loans, advances, overdrafts and deposits referred to in paragraph (b) of the definition of "**Guaranteed Obligations**";

"**Foreign Currencies**" means U.S. dollar (USD), Canadian dollar (CAD), pound sterling (GBP), yen (JPY) and Swiss franc (CHF);

"**Guaranteed Obligations**" means:

- (a) the securities and financial instruments issued by DCL, initially subscribed by Third-Party Beneficiaries, which meet the criteria set out in Schedule B (*Guaranteed Obligations*), excluding (i) the securities and financial instruments the terms of which expressly provide that they are excluded from the benefit of this Guarantee, and (ii) the securities and financial instruments which benefit from the guarantee of any of the three States up to 100% of their amount pursuant to a specific and distinct guarantee, or which benefit from a specific and several but not joint guarantee from the three States; and
- (b) the loans, advances, overdrafts and deposits granted to DCL, which are not represented by a security or financial instrument, which meet the criteria set out in

Schedule B (*Guaranteed Obligations*), and the creditor of which is a Third-Party Beneficiary.

"**Securities and Financial Instruments**" and/or "**Security/ies or Financial Instrument(s)**", as appropriate, means the securities and financial instruments referred to in paragraph (a) of the definition of "**Guaranteed Obligation**";

"**Security Holders**" means the holders of Securities and Financial Instruments other than Third-Party Beneficiaries; and

"**Third-Party Beneficiary**" has the meaning set forth in Schedule A (*Third-Party Beneficiaries*).

## 2. Nature of the Guarantee

- (a) This Guarantee is an independent guarantee and is payable on first demand. In the event of a Guarantee call being made in accordance with Clauses 4 and 5, the States waive the right (without prejudice to their rights against DCL) to raise any defence or any exception relating to the Guaranteed Obligations or the non-compliance by DCL with its obligations towards the States as well as any other defence or exception whatsoever that DCL could assert against the Third-Party Beneficiaries or Security Holders to refuse payment, and the States shall be liable towards the Third-Party Beneficiaries or Security Holders as if they were the primary debtors of the Guaranteed Obligations in accordance with the terms thereof, each to the extent of its percentage share. In particular, the States' obligations under this Guarantee shall not be terminated or affected by:
- (i) the cessation of payments (whether within the meaning of the French Commercial Code or the French Monetary and Financial Code), insolvency, dissolution, deregistration or any other change in the status of DCL;
  - (ii) the illegality of the Guaranteed Obligations;
  - (iii) the illegality of the obligations of any other State under this Guarantee, or the non-compliance by any other State with such obligations;
  - (iv) any grace period, conciliation agreement or other similar concession granted to DCL by the holders of the Guaranteed Obligations or imposed by a judicial authority or a judicial assistant (*auxiliaire de justice*),
  - (v) the occurrence of any collective proceedings (safeguard, accelerated safeguard, judicial redress, judicial liquidation or other similar proceedings), the appointment of a provisional administrator or any other measure adopted by the Autorité de contrôle prudentiel or any other regulatory authority with jurisdiction in respect of DCL; or
  - (vi) any other ground for termination of the Guaranteed Obligations, save for their payment in full.
- (b) The benefit of this Guarantee shall be maintained if a payment received by a Third-Party Beneficiary or a Security Holder and applied towards satisfaction of the Guaranteed Obligations is subsequently voided or declared invalid vis-à-vis the creditors of the maker of such payment, becomes repayable by such Third-Party Beneficiary or Security Holder to DCL or a third party, or proves not to have been effectively received by such Third-Party Beneficiary or Security Holder.

- (c) The Third-Party Beneficiaries or Security Holders will not be required, in order to exercise their rights under this Guarantee, to make any demand against DCL, to take any action against DCL or to file claims in any insolvency proceedings relating to DCL.
- (d) No ground for acceleration of payment of the Guaranteed Obligations, whether statutory (for example in the case of judicial liquidation proceedings with respect to DCL) or contractual (for example in the case of an event of default, event of termination or cross-default), will be enforceable against the States. Consequently, Guarantee calls shall lead to payment obligations of the States only in accordance with the normal payment schedule of the Guaranteed Obligations (it being understood that (i) the effects of any early termination clause which is not related to the occurrence of an event of default, such as the exercise by a Third-Party Beneficiary or Security.

Holder of certain contractual put options, are deemed part of the normal payment schedule of the Guaranteed Obligations, and that (ii) Guarantee calls will need to be renewed on all subsequent maturity dates of the Guaranteed Obligations). Further, in order to be entitled to call on this Guarantee, a Third-Party Beneficiary or a Security Holder may not have raised or raise any ground for acceleration against DCL (except, if applicable, those grounds for acceleration which would have occurred by operation of law without any action from the relevant Third-Party Beneficiary or Security Holder, for example upon the opening of judicial liquidation proceedings with respect to DCL).

### **3. Percentage share contribution of the States and overall limit of the Guarantee**

- (a) Each of the States shall guarantee the Guaranteed Obligations up to the percentage share indicated on the first page of this Guarantee. Such percentage share shall apply per Guaranteed Obligation and per Guarantee call within the meaning of Clauses 4(b) or 5(c) of this Guarantee.
- (b) The Aggregate Commitment of the States may not at any time exceed the following limits, it being understood that the interest and incidental amounts due on the principal amounts so limited are guaranteed beyond these limits:
  - (i) €85 billion for the three States in aggregate;
  - (ii) €43.6985 billion for the Kingdom of Belgium;
  - (iii) €38.7515 billion for the French Republic; and
  - (iv) €2.55 billion for the Grand Duchy of Luxembourg.

**"Aggregate Commitment"** means the aggregate principal amount (being, in respect of zero-coupon bonds, the principal amount payable at maturity and, in respect of bonds the terms of which provide for the compounding of interest, the principal amount including compounded interest) of the outstanding obligations guaranteed by each of the States under this Guarantee or any other guarantee granted pursuant to the independent guarantee agreement dated 16 December 2011 or the agreement for the issuance of guarantees dated 24 January 2013, each as amended from time to time (and the obligations guaranteed pursuant to the independent guarantee agreement dated 9 December 2008 shall not be taken into account for the calculation of the Aggregate Commitment).

Compliance with the above-mentioned limits will be assessed at the time of each new issuance, or entry into, of Guaranteed Obligations, taking into account such new issuance or entry into. Therefore, the financings issued or entered into by DCL that meet the criteria set

out in Schedule B (Guaranteed Obligations) of this Guarantee (and the terms of which do not expressly provide that they are excluded from the benefit of this Guarantee) shall benefit from the States guarantee if and to the extent that the Aggregate Commitment does not exceed, at the time of their issuance or at the time they are entered into, any of these limits, taking into account the principal amount of all Guaranteed Obligations (i.e. the obligations guaranteed by each of the States under this Guarantee or any other guarantee granted pursuant to the independent guarantee agreement dated 16 December 2011 or the agreement for the issuance of guarantees dated 24 January 2013 that were issued or entered into prior to such time, as well as such new Guaranteed Obligations) and, in respect of Guaranteed Obligations denominated in Foreign Currencies, the euro equivalent of their outstanding principal amount converted at the reference rate of the day of such new issuance, or entry into, of Guaranteed Obligations as published on that day by the European Central Bank.

Any subsequent non-compliance with such limits by DCL will not affect the rights of the Third-Party Beneficiaries and Security Holders under the Guarantee with respect to the Guaranteed Obligations issued or entered into before a limit was exceeded.

#### **4. Guarantee of Securities and Financial Instruments**

- (a) Without the need for any formality, the Guarantee shall cover all Securities or Financial Instruments initially issued to Third-Party Beneficiaries, and shall remain attached to such Securities or Financial Instruments notwithstanding their sale or transfer to any other Third-Party Beneficiary or Security Holder. Consequently, Security Holders may also call on the Guarantee subject to the conditions set forth in this Guarantee.
- (b) Any Third-Party Beneficiary or Security Holder, or any proxy holder, agent, settlement institution or trustee acting for the account of the former, may call on the Guarantee by simple notice delivered to each of the States within the time limit provided for in Clause 8(b). The notice shall include the identification of the relevant Securities or Financial Instruments as well as the unpaid amounts, and evidence of the rights of the party calling on the Guarantee to such Securities or Financial Instruments.

#### **5. Guarantee of Contracts**

- (a) Without the need for any formality, the Guarantee shall cover all Contracts entered into with Third-Party Beneficiaries, and shall remain attached to those Contracts notwithstanding their sale or transfer to any other Third-Party Beneficiary. The benefit of the Contracts Guarantee shall not be available to assignees or transferees that do not qualify as Third-Party Beneficiaries.
- (b) The Contracts Guarantee can only be called by DCL, subject to the conditions agreed upon between DCL and the States.
- (c) Notwithstanding paragraph (b) above, if judicial liquidation proceedings are commenced with respect to DCL, any Third-Party Beneficiary holding a Contract, or any proxy holder, agent, settlement institution or trustee acting for the account of the former, may nevertheless call on the Guarantee by simple notice delivered to each of the States within the time limit provided for in Clause 8(b). The notice shall include the identification of the relevant Contracts as well as the unpaid amounts, and evidence of the rights of the party calling on the Guarantee to such Contracts. For the avoidance of doubt, no ground for acceleration of payment resulting from these judicial liquidation proceedings will be enforceable against the States, and the Guarantee call shall lead to payment obligations of the States only in accordance with the normal payment schedule of such Contracts (it being understood that the effects of any early termination clause which is not related to the occurrence of an event of default, such as the

exercise by the relevant Third-Party Beneficiary of certain contractual put options, are deemed part of the normal payment schedule of the Contracts).

- (d) Notwithstanding paragraph (b) above and without prejudice to paragraph (c) above, the States may, upon request from DCL and at their sole discretion, authorise certain Third-Party Beneficiaries identified by name, certain categories of Third-Party Beneficiaries or the Third-Party Beneficiaries holding certain categories of Contracts, to call on the Guarantee of the Contracts they hold. The States may subject their authorisation to such arrangements as they deem desirable regarding in particular the delivery by DCL of information relating to the Contracts held by such Third-Party Beneficiaries, and may provide that any guarantee call of the Contracts by such Third-Party Beneficiaries must be accompanied by such supporting documentation as the States deem appropriate.

## **6. Performance of the Guarantee**

- (a) Each of the States shall pay to the Third-Party Beneficiaries or Security Holders, up to its percentage share and in the currency of the Guaranteed Obligation, the amount due pursuant to any call on this Guarantee in accordance with the provisions of this Guarantee. Payments shall be made within five Business Days (or, in the case of Guaranteed Obligations denominated in U.S. dollar with an initial maturity not exceeding one year, within three Business Days) following receipt of the Guarantee call, and shall include late payment interest accrued in accordance with the terms of the relevant Guaranteed Obligation until the payment date.
- (b) Payments shall be made in directly available funds via any appropriate clearing system or institutional service mechanism or, failing which, directly.
- (c) Each State shall immediately and automatically be subrogated in all rights of the Third-Party Beneficiaries or Security Holders against DCL pursuant to the relevant Guaranteed Obligation, up to the amount paid by it.

## **7. Withholding tax**

- (a) All payments referred to in Clause 6(a) shall be made by the States free and clear of any withholding unless such withholding is required by law. If a withholding must be made on behalf of a State in respect of payments referred to in Clause 6(a), no additional amount shall be due by such State by reason of such withholding.
- (b) For the avoidance of doubt, if DCL makes any payment of a Guaranteed Obligation subject to a withholding in circumstances where such withholding is required by law and does not give rise, pursuant to the terms and conditions of the relevant Guaranteed Obligation, to an obligation for DCL to pay any additional amount, such withholding shall not constitute a default by DCL justifying a call on this Guarantee.

## **8. Effective date of the Guarantee, duration and amendments**

- (a) The Guarantee only covers Guaranteed Obligations which are issued or entered into on or after 24 January 2013.
- (b) The right to call on the Guarantee with respect to any amount due and unpaid in relation to a Guaranteed Obligation shall expire at the end of the 90<sup>th</sup> day following the date on which such amount became due or, in the circumstances mentioned in Clause 2(b), at the end of the 90<sup>th</sup> day following the date of the event mentioned in such Clause 2(b).

- (c) The States may at any time, by mutual consent and without prejudice to their obligations to DCL, terminate or amend the terms of this Guarantee. This Guarantee shall automatically terminate in the event of a transfer by Dexia SA to a third party of the direct or indirect control over DCL. Any termination or amendment will be communicated to the market in accordance with the applicable regulations. The termination or amendment will have no effect with regard to the Guaranteed Obligations issued or entered into before such termination or amendment is communicated to the market.
- (d) For the purposes of paragraphs (a) and (b) above, demand deposits and other demand Contracts or Contracts with an undefined maturity are deemed to be entered into on rolling daily basis, so that such deposits and other Contracts may benefit from the Guarantee if they exist on 24 January 2013, and will be affected by a termination of, or amendment to, the Guarantee as from the day following the communication thereof to the market in accordance with paragraph (c) above.

## 9. Notifications

Any Guarantee call or other notification to the States shall be delivered to each of the States at the following addresses and numbers:

**10. Language, applicable law and jurisdiction**

- (a) This Guarantee has been drawn up in French and in English, both languages being equally binding.
- (b) This Guarantee shall be governed by Belgian law. Any dispute shall be within the exclusive jurisdiction of the courts of Brussels.

Done 24 January 2013.

**THE KINGDOM OF BELGIUM**

---

Steven Vanackere  
Deputy Prime Minister and Minister of Finance and sustainable Development

**THE FRENCH REPUBLIC**

---

Pierre Moscovici  
Minister of Economy and Finance

**THE GRAND DUCHY OF LUXEMBOURG**

---

Luc Frieden  
Minister of Finance

**SCHEDULE A**  
**THIRD-PARTY BENEFICIARIES**

"Third-Party Beneficiaries" means:

- (a) all "**qualified investors**" within the meaning of article 2(1)(e) of Directive 2003/71 of November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading, as amended;
- (b) all Qualified Institutional Buyers as defined under the U.S. Securities Act of 1933, and all Accredited Investors as defined by Rule 501 of Regulation D implementing the U.S. Securities Act of 1933;
- (c) the European Central Bank as well as any other central bank (whether or not it is established in a country of the European Union);
- (d) all credit institutions as defined by Directive 2006/48/EC of the European Parliament and of the Council of 14 June 2006 relating to the taking up and pursuit of the business of credit institutions (recast), namely: "*an undertaking the business of which is to receive deposits or other repayable funds from the public and to grant credits for its own account*", whether or not established in the European Economic Area;
- (e) social security and assimilated organisations, state-owned enterprises, public or para-public authorities and entities in charge of a mission of general interest, supranational and international institutions; and
- (f) other institutional or professional investors; "**institutional or professional investors**" means financial holding companies, investment firms, other approved or regulated financial institutions, insurance companies, undertakings for collective investment and their management companies, professional retirement institutions and their management companies, and intermediaries in commodity derivatives,

including the subsidiaries of the Dexia group that meet the criteria set out in paragraphs (a), (b), (d) or (f) above, but only to the extent that the Securities and Financial Instruments (excluding the Contracts in all circumstances) which have been subscribed to by such subsidiaries are intended:

- (A) to be transferred (in any manner whatsoever, including by way of repos or securities lending) to Third-Party Beneficiaries that are not controlled (directly or indirectly) by Dexia SA or DCL (including the European Central Bank, a national central bank which is a member of the European System of Central Banks, or a depositary acting for the account of any of those) in consideration for financings raised by such subsidiaries from such Third-Party Beneficiaries between 24 January 2013 and 31 December 2021; or
- (B) to be included by such subsidiaries in a cover pool guaranteeing, in whole or in part, covered bonds, *lettres de gage*, *Pfandbriefe* or other similar instruments issued or to be issued at the latest on 31 December 2021 by Dexia Kommunalbank Deutschland AG or Dexia Lettre de Gage SA to institutional or professional investors not controlled (directly or indirectly) by Dexia SA or DCL.

these Securities and Financial Instruments being only entitled to the benefit of the Guarantee (a) from the date of their transfer to, and as long as they are held by, such Third-Party Beneficiaries in the case referred to in point (A) above, or (b) from the date of their inclusion, and as long as they are included, in a cover pool as referred to in point (B) above.

Furthermore, where an intermediary is involved as an underwriter, a manager or in a similar function in the context of the issuance of Securities or Financial Instruments, and in this context acquires or subscribes to these Securities or Financial Instruments with a view to immediately reselling them to final investors, both the intermediary and the final investors must qualify as Third-Party Beneficiaries.

For the purposes of the interpretation of the provisions under paragraphs (a) to (f) above, notwithstanding Clause 10 of the Guarantee, consideration shall be given to the articles of association, deeds and incorporation treaties, as the case may be, of the relevant Third-Party Beneficiaries.

## SCHEDULE B GUARANTEED OBLIGATIONS

The Guarantee covers all unsecured and unsubordinated financings with a maturity not exceeding ten years initially raised from Third-Party Beneficiaries, either in the form of Contracts entered into by DCL or in the form of Securities or Financial Instruments issued by DCL, the subscription of which is restricted to Third-Party Beneficiaries, and the currency of which is euro or a Foreign Currency, *provided that* these financings are entered into or issued by DCL between 24 January 2013 and 31 December 2021, and provided further that demand deposits and other demand Contracts or Contracts with an undefined maturity are deemed to be entered into on rolling daily basis so that such deposits and other Contracts may benefit from the Guarantee if they exist on 24 January 2013 and will in any event cease from having the benefit of the Guarantee the day after 31 December 2021.

Subject to the conditions set forth in the above paragraph, the Guaranteed Obligations include:

- (a) the following Contracts: interbank loans, deposits, advances and overdrafts in Foreign Currencies, non-interbank loans, deposits and advances with a fixed term or an undefined maturity in euro or in Foreign Currencies (including demand deposits, non-banking institutional deposits, fiduciary deposits and deposits granted by institutional investors in their name but in their capacity as agent and custodian for their clients, including within the framework of services commonly referred to as "sweep deposit services" in the United States, *provided that* such clients qualify as Third-Party Beneficiaries), and central bank deposits in euro or in Foreign Currencies;
- (b) the following Securities and Financial Instruments: commercial paper, certificates of deposit, negotiable debt instruments and assimilated securities (in particular *Namensschuldverschreibungen* under German law), bonds and Medium Term Notes, denominated in euro or in Foreign Currencies;

excluding

- (i) mortgage bonds and securities or other borrowings secured by a statutory lien or a contractual arrangement to the same effect (for example, covered bonds and bilateral and tripartite repos);
- (ii) subordinated loans, deposits, securities and financial instruments;
- (iii) equity and hybrid equity securities and financial instruments;
- (iv) any derivative instruments (including interest rate or foreign exchange derivatives), and any securities or financial instruments linked to a derivative; and
- (v) interbank loans, deposits, advances and overdrafts in euro.

For the avoidance of doubt, Securities and Financial Instruments subscribed to by subsidiaries of the Dexia group in accordance with the terms set out in Schedule A (*Third-Party Beneficiaries*) may qualify as Guaranteed Obligations irrespective of the fact that the financings raised by these subsidiaries through the monetisation thereof with third parties outside the Dexia group do not constitute Guaranteed Obligations.

## **USE OF PROCEEDS**

The net proceeds of the issue of the Notes under the Programme will be used to repay and refinance the existing financing of the Issuer.

## TAXATION

*The statements herein regarding taxation are based on the laws in force in the Kingdom of Belgium, the Republic of France and/or, as the case may be, the Grand Duchy of Luxembourg as of the date of this Information Memorandum and are subject to any changes in law and/or interpretation thereof (potentially with a retroactive effect). The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. Each prospective holder or beneficial owner of Notes should consult its tax adviser as to the tax consequences of any investment in or ownership and disposition of the Notes under the laws of the Kingdom of Belgium, the Republic of France, the Grand Duchy of Luxembourg and/or any other jurisdiction.*

***All prospective Noteholders should seek independent advice as to their tax positions.***

### **Belgian Taxation**

The following summary describes the principal Belgian tax considerations with respect to the acquisition, holding and disposal of Notes obtained by an investor.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, hold or dispose of the Notes. In some cases, different rules will be applicable. Furthermore, tax rules may be amended in the future, possibly with retroactive effect, and the interpretation of tax rules may change.

This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations and similar documentation, in force as of the date of publication of this Information Memorandum, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

For Belgian tax purposes, interest includes periodic interest income under the Notes and any amount paid by the Issuer in excess of the issue price (whether or not on the maturity date). If interest is in a foreign currency, it is converted into euro on the date of payment or attribution.

Each prospective Noteholder should consult a professional adviser with respect to the tax consequences of an investment in the Notes, taking into account the influence of each regional, local or national law.

### ***Belgian resident individuals***

Individuals who are Belgian residents for tax purposes, i.e., individuals subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*) and who hold the Notes as a private investment, are subject to the following tax treatment in Belgium with respect to the Notes. Different rules apply to investors holding the Notes not as a private investment but in the framework of their professional activity or when the transactions with respect to the Notes fall outside the scope of the normal management of their own private estate.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 30% withholding tax (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that if Belgian withholding tax has been levied on the interest, it does not need to be declared in the investor's personal income tax return.

Nevertheless, Belgian resident individuals may elect to declare interest on the Notes in their personal income tax return. Also, if the interest is paid abroad without the intervention of a paying agent in Belgium, no Belgian withholding tax will apply and the interest must be declared in the investor's personal income tax return. Interest income which is declared in this way will in principle be taxed at a flat rate of 30% (or at the relevant progressive personal income tax rate(s), taking into account the investor's other declared income, if this results in lower taxation) and no local surcharges will be due. If the interest is declared, and is as such subject to income tax, any Belgian withholding tax levied may be credited against the investor's income tax liability.

Capital gains realised upon the sale of the Notes to a party other than the Issuer are in principle tax exempt, unless they fall outside the scope of the normal management of the investor's private estate. However, in case of a sale of Notes between two interest payment dates, the part of the sale price attributable to accrued interest must normally be declared by the investor in his or her personal income tax return and will undergo the same tax treatment as set out in the previous paragraph (on a *pro rata* basis). Capital losses on the Notes are in principle not tax deductible.

### ***Belgian resident companies***

Companies that are Belgian residents for tax purposes, i.e., that are subject to Belgian corporate income tax (*Vennootschapsbelasting/Impôt des sociétés*) are subject to the following tax treatment in Belgium with respect to the Notes. Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of Article 185*bis* of the Belgian Income Tax Code 1992.

Interest payments on the Notes made through a paying agent in Belgium to Belgian resident companies will in principle be subject to a 30% withholding tax (calculated on the interest received after deduction of any non-Belgian withholding taxes). However, the interest can under certain circumstances be exempt from withholding tax, provided a special certificate is delivered. For Zero Coupon Notes or Notes with a capitalisation feature, an exemption will only apply if the investor and the Issuer are related companies within the meaning of Article 105, 6° of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code 1992.

Interest on the Notes will be subject to Belgian corporate income tax (on an accrual basis) at the standard rate of currently 29.58 % (with a reduced rate of 20.40% applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25% (and 20%) as of assessment year 2021 for taxable periods starting at the earliest on 1 January 2020. If non-Belgian withholding tax has been levied on the interest, a foreign tax credit will be applied against the Belgian tax due, if any (if the non-Belgian withholding tax exceeds the amount of Belgian corporate income tax, the excess cannot be carried forward and is not refundable). The foreign tax credit is determined by reference to a fraction where the numerator is equal to the rate of the foreign tax with a maximum of 15 and the denominator is equal to 100 minus the amount of the numerator (with a number of additional limitations). Any Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

Capital gains realised upon a sale of the Notes to a party other than the Issuer will be subject to Belgian corporate income tax at the standard rate of currently 29.58 % (with a reduced rate of 20.40% applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25% (and 20%) as of assessment year 2021 for taxable periods starting at the earliest on 1 January 2020. Capital losses on the Notes will in principle be tax deductible.

### ***Organisations for Financing Pensions***

Belgian pension fund entities that have the form of an Organisation for Financing Pensions within the meaning of the Law of 27 October 2006 on the activities and supervision of institutions for

occupational retirement provision ("**OFP**") are subject to Belgian corporate income tax (*Vennootschapsbelasting/Impôt des sociétés*). OFPs are subject to the following tax treatment in Belgium with respect to the Notes.

Interest derived by OFP (*Organismen voor de Financiering van Pensioenen/Organismes de Financement de Pensions*) Noteholders on the Notes and capital gains realised upon a sale of the Notes to a party other than the Issuer will not be subject to Belgian corporate income tax. Any Belgian withholding tax levied is creditable and refundable in accordance with the applicable legal provisions. Capital losses on the Notes will not be tax deductible.

#### ***Other Belgian resident legal entities***

Legal entities that are Belgian residents for tax purposes, i.e., that are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/Impôt des personnes morales*) are subject to the following tax treatment in Belgium with respect to the Notes.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 30% withholding tax (calculated on the interest received after deduction of any non-Belgian withholding taxes). No further tax on legal entities will be due on the interest.

If the interest is paid abroad without the intervention of a paying agent in Belgium and no Belgian withholding tax has been deducted, the investor itself must declare the interest (after deduction of any non-Belgian withholding taxes) to the Belgian tax administration and pay the applicable withholding tax to the Belgian treasury.

Capital gains realised upon the sale of the Notes to a party other than the Issuer will in principle not be taxable. However, in case of a sale of Notes between two interest payment dates, the part of the sale price attributable to accrued interest must normally be declared by the investor and will be subject to withholding tax as set out in the previous paragraph (on a *pro rata basis*). Capital losses on the Notes will in principle not be tax deductible.

#### ***Belgian non-residents***

Interest payments on the Notes made to non-residents of Belgium through a paying agent in Belgium will, in principle, be subject to a 30% withholding tax (calculated on the interest received after deduction of any non-Belgian withholding taxes), unless the holder of the Notes is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. If the interest is paid abroad without the intervention of a paying agent in Belgium, no Belgian withholding tax will apply.

Non-resident investors who have not allocated the Notes to the exercise of a professional activity in Belgium through a permanent establishment can also obtain an exemption from Belgian withholding tax on interest from the Notes paid through a credit institution, a stock market company or a clearing or settlement institution established in Belgium, provided that they deliver an affidavit to such institution or company confirming that: (i) they are non-residents; (ii) the Notes are held in full ownership or in usufruct; and (iii) the Notes are not allocated to the exercise of a professional activity in Belgium. No other Belgian income tax will be due by these investors.

Non-resident investors who have allocated the Notes to the exercise of a professional activity in Belgium through a permanent establishment are subject to the same tax rules as Belgian resident companies (see above).

### ***Taxes on stock exchange transactions and on repurchase transactions***

A tax on stock exchange transactions (*Taks op de beursverrichtingen/Taxe sur les opérations de bourse*) will be levied on the acquisition and disposal of the Notes on a secondary market if (i) executed in Belgium through a professional intermediary, or (ii) deemed to be executed in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals with habitual residence in Belgium, or legal entities for the account of their seat or establishment in Belgium.

The tax is generally due at a rate of 0.12% for the Notes, on each sale and acquisition separately, with a maximum amount of EUR 1,300 per taxable transaction and per party. A separate tax is due by each party to the transaction, and both taxes are collected by the professional intermediary. However, if the intermediary is established outside of Belgium, the tax will in principle be due by the ordering private individual or legal entity, unless that individual or entity can demonstrate that the tax has already been paid. Professional intermediaries established outside of Belgium can, subject to certain conditions and formalities, appoint a Belgian representative for tax purposes, which will be liable for the tax on stock exchange transactions in respect of the transactions executed through the professional intermediary.

No transfer tax will be due on the issuance of the Notes (primary market).

A tax on repurchase transactions (*Taks op reportverrichtingen/Taxe sur les reports*) at the rate of 0.085% will be due from each party to any such transaction entered into or settled in Belgium in which a stockbroker acts for either party, with a maximum amount per party and per transaction of EUR 1,300.

However, neither of the taxes referred to above will be payable by exempt persons acting for their own account, including (i) investors who are Belgian non-residents, provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and (ii) certain Belgian institutional investors, as defined in Articles 126/1, 2° and 139 of the Code of various duties and taxes (*Wetboek diverse rechten en taksen/Code des droits et taxes divers*).

As stated above, the European Commission has published a proposal for a Directive for the FTT. The proposal currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or VAT as provided in the Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions and the tax on repurchase transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time.

### ***Annual tax on securities accounts***

Belgian resident and non-resident individuals are subject to a tax on securities accounts (*Taks op de effectenrekeningen/Taxe sur les comptes-titres*) at a rate of 0.15% on their share in the average value of qualifying financial instruments (i.e., shares, share certificates, bonds, bond certificates, units or shares in investment funds or companies (except if acquired or subscribed to in the context of a life insurance or pension savings arrangement), medium-term notes (*Kasbons/Bons de caisse*) and warrants) held in one or more securities accounts with one or more financial intermediaries during a reference period of 12 consecutive months starting on 1 October and ending on 30 September of the subsequent year ("**Tax on Securities Accounts**"). The tax is not due if the Noteholder's share in the average value of the qualifying financial instruments in those accounts amounts to less than EUR 500,000. If, however, the holder's share in the average value of the qualifying financial instruments in those accounts amounts to EUR 500,000 or more, the Tax on Securities Accounts is due on the

entire share of the holder in the average value of the qualifying financial instruments in those accounts (and hence, not only on the part which exceeds the EUR 500,000 threshold).

Qualifying financial instruments held by non-resident individuals in securities accounts with a financial intermediary established or located in Belgium fall within the scope of the Tax on Securities Accounts. However, pursuant to certain double tax treaties entered into by Belgium, Belgium does not have the right to tax the capital. As a result, to the extent the Tax on Securities Accounts is viewed as a tax on capital within the meaning of these double tax treaties, the treaty override may, subject to certain conditions, be claimed.

A financial intermediary is defined as (i) a credit institution or a listed company as defined by Article 1, §2 and §3 of the Law of 25 April 2014 on the legal status and supervision of credit institutions and listed companies and (ii) the investment companies as defined by Article 3, §1 of the Law of 25 October 2016 on access to the activity of investment services and on the legal status and supervision of portfolio management and investment advice companies, which are, pursuant to national law permitted to hold financial instruments for the account of customers.

The Tax on Securities Accounts is in principle due by the financial intermediary established or located in Belgium if (i) the holder's share in the average value of the qualifying financial instruments held on one or more securities accounts with said intermediary amounts to EUR 500,000 or more or (ii) the holder instructed the financial intermediary to levy the Tax on Securities Accounts due (e.g., in case such holder holds qualifying financial instruments in several securities accounts held with multiple intermediaries of which the average value of each of these accounts does not amount to EUR 500,000 or more but of which the holder's share in the total average value of these accounts exceeds EUR 500,000 EUR). If the Tax on Securities Accounts is not paid by the financial intermediary, such Tax on Securities Accounts has to be declared and is due by the holder itself, unless the holder provides evidence that the Tax on Securities Accounts has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint a Tax on Securities Accounts representative in Belgium, subject to certain conditions and formalities ("**Tax on Securities Accounts Representative**"). Such Tax on Securities Accounts Representative will then be liable to the Belgian Treasury for the Tax on Securities Accounts due and for compliance with certain reporting obligations in that respect.

In their annual income tax return, Belgian resident individuals must report all their securities accounts held with one or more financial intermediaries of which they are considered the holder within the meaning of the Tax on Securities Accounts. Non-resident individuals must report in their annual Belgian non-resident income tax return all their securities accounts held with one or more financial intermediaries established or located in Belgium of which they are considered the holder within the meaning of the Tax on Securities Accounts.

Prospective Noteholders are strongly advised to seek their own professional advice in relation to the Tax on Securities Accounts.

## **French Taxation**

*The descriptions below are intended as a basic summary of certain withholding tax consequences in relation to the ownership of the Notes under French law by Noteholders who do not concurrently hold shares of the Issuer.*

### *Payments made under the Notes by the Issuer*

Payments of interest and other assimilated revenues made by the Issuer with respect to Notes will not be subject to the withholding tax set out under Article 125 A III of the French General Tax Code unless such payments are made outside France in a non-cooperative State or territory (*Etat ou*

*territoire non coopératif*) within the meaning of Article 238-0 A of the French General Tax Code (a "**Non-Cooperative State**") other than those mentioned in Article 238-0 A 2 *bis* 2° of the same Code. If such payments are made outside France in a Non-Cooperative State other than those mentioned in Article 238-0 A 2 *bis* 2° of the French General Tax Code, a 75% withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty) by virtue of Article 125 A III of the French General Tax Code.

Furthermore, in accordance with Article 238 A of the French General Tax Code, interest and other assimilated revenues on such Notes may not be deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to an account held with a financial institution established in such a Non-Cooperative State (the "**Deductibility Exclusion**"). Under certain conditions, any such non-deductible interest and other assimilated revenues may be recharacterised as constructive dividends pursuant to Articles 109 *et seq* of the French General Tax Code, in which case such non-deductible interest and other assimilated revenues may be subject to the withholding tax set out under Article 119 *bis* 2 of the French General Tax Code, at a rate of (i) 12.8% for payments benefiting individuals who are not French tax residents, (ii) 30% (to be aligned with the standard corporate income tax rate set forth in Article 219-I of the French General Tax Code for fiscal years beginning as from 1 January 2020) for payments benefiting legal persons who are not French tax residents or (iii) 75% for payments made outside France in a Non-Cooperative State other than those mentioned in Article 238-0 A 2 *bis* 2° of the French General Tax Code (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty).

Notwithstanding the foregoing, neither the 75% withholding tax set out under Article 125 A III of the French General Tax Code nor, to the extent the relevant interest and other assimilated revenues relate to genuine transactions and are not in an abnormal or exaggerated amount, the Deductibility Exclusion (and therefore the withholding tax set out under Article 119 *bis* 2 of the French General Tax Code that may be levied as a result of such Deductibility Exclusion) will apply in respect of an issue of Notes if the Issuer can prove that the main purpose and effect of such issue of Notes was not that of allowing the payments of interest or other assimilated revenues to be made in a Non-Cooperative State (the "**Exception**"). Pursuant to the French tax administrative guidelines BOI-INT-DG-20-50-20140211 no. 550 and 990, BOI-RPPM-RCM-30-10-20-40-20140211 no. 70 and 80 and BOI-IR-DOMIC-10-20-20-60-20150320 no.10, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L. 411-1 of the French Monetary and Financial Code or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a French or foreign regulated market or multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider or any other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the operations of a central depository or of a securities delivery and payment systems operator within the meaning of Article L. 561-2 of the French Monetary and Financial Code, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

### ***Payments made to Noteholders who are individuals fiscally domiciled in France***

Pursuant to Article 125 A I of the French General Tax Code subject to certain exceptions, interest and similar revenues paid by a paying agent (*établissement payeur*) established in France to individuals who are domiciled for tax purposes (*domiciliés fiscalement*) in France are subject to a 12.8% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at a global rate of 17.2% on such interest and similar revenues received by individuals who are domiciled for tax purposes (*domiciliés fiscalement*) in France, subject to certain exceptions.

### **Luxembourg Taxation**

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

### ***Withholding Tax***

#### **(i) *Non-resident holders of Notes***

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

#### **(ii) *Resident holders of Notes***

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**"), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 20%.

## SUBSCRIPTION AND SALE

Subject to the terms and conditions contained in the Amended and Restated Distribution Agreement dated 25 June 2019, (as amended or supplemented from time to time, the "**Distribution Agreement**") between the Issuer and the Permanent Dealers, the Notes will be offered on a continuing basis by the Issuer to the Permanent Dealers. The Issuer has reserved the right to sell Notes directly on its own behalf to Dealers which are not Permanent Dealers. The Notes may also be sold through the Dealers, acting as agents of the Issuer. The Distribution Agreement also provides for Notes to be issued in Tranches which are jointly and severally underwritten by two or more Dealers.

The Issuer will, unless otherwise agreed, pay each relevant Dealer a commission based on the principal amount of the Notes, depending upon maturity, in respect of Notes solicited for purchase or purchased by it.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Distribution Agreement entitles the Dealers to terminate any agreement that they may make to subscribe for Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

Each of the Dealers and their respective affiliates may, from time to time in the ordinary course of their respective businesses, engage in further transactions with, and perform services for, the Issuer and its affiliates. In particular, the Dealers and their respective affiliates have performed and expect to perform in the future various financial advisory, investment banking and commercial banking services for, and may arrange loans and other non-public market financing for, and enter into derivative transactions with, the Issuer or its affiliates (including its shareholders) and for which they will receive customary fees. Moreover, the proceeds of any Series of Notes may be wholly or partially used towards the repayment and/or refinancing of such loans, financings or other transactions.

### **Selling Restrictions**

#### *United States*

The Notes and the Guarantee have not been and will not be registered under the Securities Act and the Notes may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and regulations promulgated thereunder.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to agree that, except as permitted by the Distribution Agreement, it has not offered, sold or delivered and will not offer, sell or, in the case of Bearer Notes, deliver the Notes of any identifiable Tranche (i) as part of their distribution at any time or (ii) otherwise until 40 days after completion of the distribution of such Tranche (the "**Distribution Compliance Period**"), as determined and certified to the Issuer and each Relevant Dealer, by the Fiscal Agent, or in the case of a syndicated issue of Notes, the Lead Manager, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each Dealer to which it sells Notes during the Distribution Compliance Period a confirmation or other notice setting forth the restrictions on offers

and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S.

The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by a Dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act. Each issue of commodity or currency-linked Notes may be subject to such additional U.S. selling restrictions as the Relevant Dealer(s) may agree with the Issuer as a term of the issue and purchase or, as the case may be, subscription of such Notes.

### ***United Kingdom***

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (i) in relation to any Notes which have a maturity of less than one year from the date of issue, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or as agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 (the "FSMA") by the Issuer;
- (ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer; and
- (iii) it has complied with and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

### ***France***

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold and will not offer or sell, directly or indirectly, any Notes to the public in France and it has not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in France, this Information Memorandum, the relevant Pricing Supplement or any other offering material relating to the Notes and such offers, sales and distributions have been and will be made in France only to (a) persons providing investment services relating to portfolio management for the account of third parties (*personnes fournissant le service d'investissement de gestion de portefeuille pour compte de tiers*), and/or (b) qualified investors (*investisseurs qualifiés*) acting for their own account, and/or (c) a limited circle of investors (*cercle restreint*) acting for their own account, as defined in, and in accordance with, Articles L.411-1, L.411-2, D.411-1 and D.411-4 of the French *Code monétaire et financier*.

## **Belgium**

The Notes are not intended to be sold to Belgian Consumers. Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold and will not offer or sell, directly or indirectly, Notes to Belgian Consumers, and has not distributed or caused to be distributed and will not distribute or cause to be distributed, the Information Memorandum, the relevant Pricing Supplement or any other offering material relating to the Notes to Belgian Consumers.

For these purposes, a "**Belgian Consumer**" has the meaning provided by the Belgian Code of Economic Law, as amended from time to time (*Wetboek van 28 februari 2013 van economisch recht/Code du 28 février 2013 de droit économique*), being any natural person resident or located in Belgium and any acting for purposes which are outside his/her trade, business or profession.

## **Japan**

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the "**Financial Instruments and Exchange Act**"). Accordingly, each of the Dealers has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer to sell any Notes directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or entity organised under the laws of Japan), or to others for reoffering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and other relevant laws and regulations of Japan.

## **General**

Each Dealer has acknowledged that the Notes may only be initially subscribed by investors qualifying as, and accordingly has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has only offered and sold and will only offer and sell Notes for initial subscription to "**Third Party Beneficiaries**" (*Tiers Bénéficiaires*) within the meaning of paragraph (a) or paragraphs (c) to (f) of Schedule A to the Guarantee, namely:

- (a) all "qualified investors" within the meaning of article 2(1)(e) of Directive 2003/71 of November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading, as amended,
- (b) the European Central Bank as well as any other central bank (whether or not it is established in a country of the European Union),
- (c) all credit institutions as defined by Directive 2006/48/EC of the European Parliament and of the Council of 14 June 2006 relating to the taking up and pursuit of the business of credit institutions (recast), namely: "an undertaking the business of which is to receive deposits or other repayable funds from the public and to grant credits for its own account", whether or not established in the European Economic Area,
- (d) social security and assimilated organisations, state-owned enterprises, public or para-public authorities and entities in charge of a mission of general interest, supranational and international institutions, and
- (e) other institutional or professional investors; "institutional or professional investors" means financial holding companies, investments firms, other approved or regulated financial

institutions, insurance companies, undertakings for collective investment and their management companies, professional retirement institutions and their management companies, and intermediaries in commodity derivatives.

These selling restrictions may be modified by the agreement of the Issuer and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in the Pricing Supplement issued in respect of the issue of Notes to which it relates or in a Supplement to this Information Memorandum.

No representation is made that any action has been taken in any jurisdiction that would permit a public offering of any of the Notes, or possession or distribution of this Information Memorandum or any other offering material relating to any Notes or any Pricing Supplement, in any country or jurisdiction where action for that purpose is required.

Each Dealer has agreed that it will, to the best of its knowledge, comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes this Information Memorandum, any other offering material relating to any Notes or any Pricing Supplement and neither the Issuer nor any other Dealer shall have any responsibility therefor.

## FORM OF PRICING SUPPLEMENT

**MIFID II product governance / Professional investors and ECPs only target market** – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.

- (x) **ISDA Determination:**
- (a) **Floating Rate Option:** [●]
- (b) **Designated Maturity:** [●]
- (c) **Reset Date:** [●]
- (d) **ISDA Definitions:** [2006]
- (xi) **Margin(s):** [+/-][●] per cent, per annum
- (xii) **Minimum Rate of Interest:** [Zero per cent., per annum pursuant to Condition 5(b)(iii)][Amend if not applicable]
- (xiii) **Maximum Rate of Interest:** [●] per cent., per annum
- (xiv) **Day Count Fraction:** [●]
- (xv) **Fall-back provisions, rounding provisions, denominator and other terms relating to the method of calculating interest on Floating Rate Notes, if** [●]

different from those set out in the Conditions:

17. **Zero Coupon Note Provisions:** [Applicable/Not Applicable] *(If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) **Amortisation Yield:** [●] per cent., per annum
  - (ii) **Day Count Fraction:** [●]
  - (iii) **Any other formula/basis of determining amount payable:** [●]
  - (iv) **Zero Coupon Early Redemption Amount:** [specify Amortised Face Amount or Zero Coupon Early Redemption Amount where Redemption Amount is variable]

#### PROVISIONS RELATING TO REDEMPTION

18. **Issuer Call Option:** [Applicable/Not Applicable] *(If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) **Optional Redemption Date(s):** [●]
  - (ii) **Optional Redemption Amount(s) of each Note and method, if any, of calculation of such amount(s):** [●] per Calculation Amount
  - (iii) **If redeemable in part:**
    - (a) **Minimum Redemption Amount:** [●] per Calculation Amount
    - (b) **Maximum Redemption Amount:** [●] per Calculation Amount
  - (iv) **Issuer's Notice Period:** [●]<sup>7</sup> days
19. **Noteholder Put Option:** [Applicable/Not Applicable] *(If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) **Optional Redemption Date(s):** [●]
  - (ii) **Optional Redemption Amount(s) of each Note and method, if any, of calculation of such amount(s):** [●] per Calculation Amount

---

<sup>7</sup> As long as the Notes are held in global form, the Issuer's Notice Period must be a minimum of five Clearing System Business Days.

- (iii) **Noteholders' Notice Period:** []<sup>8</sup> days
- (iv) **Non-Extension Option:** [Applicable/Not Applicable]
- (a) **Initial Maturity Date:** []
- (b) **Extended Maturity Date(s):** []
- (c) **Final Extended Maturity Date:** []
- (d) **Automatic Extension Date(s):** []
- (e) **Automatic Extension Period:** []
- (f) **Automatic Extension Duration:** []
- (g) **Exercise Period(s):** []
20. **Final Redemption Amount of each Note:** [] per Calculation Amount
21. **Early Redemption Amount:**
- (i) **Early Redemption Amount(s) per Calculation Amount payable on redemption for taxation reasons or on event of default or other early redemption and/or the method of calculating the same (if required or if different from that set out in the Conditions):** []/[Not Applicable]
- (ii) **Redemption for taxation reasons permitted on days other than Specified Interest Payment Dates:** [Yes/No/Not Applicable/Provisions of Condition 8 apply]

## GENERAL PROVISIONS APPLICABLE TO THE NOTES

22. **Form of Notes:** [**Bearer Notes:**
- [Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for Definitive Notes in the limited circumstances specified in the Permanent Global Note]

<sup>8</sup> As long as the Notes are held in global form, the Noteholders' Notice Period must be a minimum of five Clearing System Business Days.

[Temporary Global Note exchangeable for Definitive Notes on [●] days' notice]

[Permanent Global Note exchangeable for Definitive Notes in the limited circumstances specified in the Permanent Global Note] [Temporary / Permanent Global Note [not] exchangeable for Definitive Notes at the option of the holder]<sup>9</sup>]

**[Registered Notes:**

Registered Global Note ([●] nominal amount)/Registered Notes in definitive form (specify nominal amounts)]

23. **New Global Note:** [Yes/No]
24. **Financial Centre(s) or other special provisions relating to payment dates:** [Not Applicable/give details. Note that this paragraph relates to the date and place of payment, and not interest period end dates, to which items 15(vii), and 16(vi) relate]
25. **Adjusted Payment Date (Condition 7(g)):** [the following business day]/[other]
26. **Talons for future Coupons or Receipts to be attached to Definitive Notes (and dates on which such Talons mature):** [Yes/No. If yes, give details. (As the Notes have more than 27 coupon payments, talons may be required if, on exchange into definitive form, more than 27 coupon payments are still to be made.)]
27. **Details relating to Instalment Notes redeemable in instalments (amount of each instalment, date on which payment is to be made):** [Not Applicable/give details] (If not applicable, delete the remaining sub-paragraphs of this paragraph)
- (i) **Instalment Amount(s):** [●]
- (ii) **Instalment Date(s):** [●]
- (iii) **Minimum Instalment Amount:** [●]
- (iv) **Maximum Instalment Amount:** [●]
28. **Renominalisation and reconventioning provisions:** [Not Applicable/The provisions [in Condition [●]] apply]
29. **Consolidation provisions:** [Not Applicable/The provisions [in Condition [●]] apply]
30. **Other terms:** [Not Applicable/give details]

<sup>9</sup> Temporary / Permanent Global Note may only be exchangeable for Definitive Notes at the option of the holder in the case of Notes with a single denomination.

**DISTRIBUTION**

- 31. (i) If syndicated:**
- (a) Names and addresses of Managers and underwriting commitments/quotas:** [Not Applicable/*give names, addresses and underwriting commitments*]
  - (b) Stabilising Manager(s) (if any):** [Not Applicable/*give name(s)*]
- 32. If non-syndicated, name and address of Dealer:** [Not Applicable/*give name and address*]
- 33. U.S. Selling Restrictions:** [Reg. S Category 2; TEFRA C/TEFRA D/TEFRA not applicable]
- 34. Additional selling restrictions:** [Not Applicable/*give details*]

**Responsibility**

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of the Issuer:

Duly authorised

## Part B — Other Information

### 1. Listing and Admission to Trading

[Application has been made by the Issuer (or on its behalf) for the Notes to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Luxembourg Stock Exchange [or specify the relevant regulated market] with effect from [●].] [Application is expected to be made by the Issuer (or on its behalf) for the Notes to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Luxembourg Stock Exchange [or specify the relevant regulated market] with effect from [●].] (Where documenting a fungible issue, need to indicate that original securities are already admitted to trading.)

### 2. Ratings

Applicable

[[The Notes to be issued [have been/are expected to be] rated]/[The following ratings reflect ratings assigned to Notes of this type issued under the Programme generally]]:

[S & P: [●]]

[Moody's: [●]]

[[Other]: [●]]

*(The above disclosure should reflect the rating allocated to Notes of the type being issued under the Programme generally or, where the issue has been specifically rated, that rating)*

*(Include appropriate Credit Rating Agency Regulation (Regulation (EC) No 1060/2009 as amended) disclosure)*

*[Insert one (or more) of the following options, as applicable:*

*[[Insert credit rating agency/ies] [is/are] established in the European Union and [has/have each] applied for registration under Regulation (EC) No 1060/2009 (as amended), although notification of the corresponding registration decision has not yet been provided by the relevant competent authority] [[Insert credit rating agency/ies] [is/are] established in the European Union and registered under Regulation (EC) No 1060/2009 (as amended)]]*

*[[Insert credit rating agency/ies] [is/are] not established in the European Union and [has/have each] not applied for registration under Regulation (EC) No 1060/2009 (as amended)]]*

**3. Interests of Natural and Legal Persons Involved in the [Issue/Offer]**

Need to include a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest. May be satisfied by the inclusion of the following statement:

*"Save as discussed in Subscription and Sale, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer."*

**4. [Reasons for the Offer, Estimated Net Proceeds and Total Expenses]**

[(i)] Reasons for the offer:

*[●] (See ["Use of Proceeds"] wording in Information Memorandum – if reasons for offer different from making profit and/or hedging certain risks will need to include those reasons here.)]*

[(ii)] Estimated net proceeds:

*[●] (If proceeds are intended for more than one use will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding.)*

[(iii)] Estimated total expenses:

*[●] (Include breakdown of expenses)*

**5. [Fixed Rate Notes only—Yield]**

Indication of yield:

*[●] Calculated as [include details of method of calculation in summary form] on the Issue Date.*

As set out above, the yield is calculated at the Issue Date on the basis of the Issue Price. It is not an indication of future yield.

**6. [FLOATING RATE NOTES ONLY]**

[Benchmarks:

Amounts payable under the Notes will be calculated by reference to [●] which is provided by [●]. As at [●], [●] [appears/does not appear] on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011) (the "**Benchmark Regulation**"). [As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that [●] is not currently required to obtain authorisation or registration.]]

## 7. Operational Information

- ISIN:
- Common Code:
- CFI: [See the website of the Association of National Numbering Agencies (ANNA) or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN/Not Applicable/Not Available]
- FISN: [See the website of the Association of National Numbering Agencies (ANNA) or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN/Not Applicable/Not Available]
- (If the CFI and/or FISN is not required, requested or available, it/they should be specified to be "Not Applicable")*
- Any clearing system(s) other than Euroclear Bank SA/NV and Clearstream Banking, S.A. and the relevant identification number(s):  [Not Applicable/give name(s) and number(s)[and address(es)]]
- Delivery: Delivery [against/free of] payment
- Names and addresses of additional Agent(s) (Calculation Agent or Paying Agent, if any):
- Intended to be held in a manner which would allow Eurosystem eligibility:  [Yes. Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper [and registered in the name of a nominee of one of the ICSDs acting as common safekeeper] *[include this text for registered notes only]* and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.][*include this text if "yes" selected, in which case bearer Notes must be issued in NGN or NSS form unless they are deposited with Euroclear France acting as central depository.*]
- [No. Whilst the designation is specified as "no" at the date of this Pricing Supplement, should the

Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.] *[include this text for registered notes:* Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]]

The aggregate principal amount of the Notes issued has been translated into [Euros] at the rate of [●], producing a sum of (for Notes not denominated in [Euros]):

[Not applicable/[USD] [●]]

## GENERAL INFORMATION

1. No authorisation procedures are required of the Issuer in the Republic of France in connection with the update of the Programme. However, to the extent that Notes issued under the Programme may constitute *obligations* under French Law, the issue of the Notes was authorised by a resolution of the Board of Directors of DCL dated 29 April 2019.
2. Each permanent Global Note and any Bearer Note, Talon, Coupon or Receipt issued in compliance with the D Rules under TEFRA will bear the following legend: "*Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code*".
3. The Notes have been accepted for clearance through the Euroclear and Clearstream systems. The Common Code, the International Securities Identification Number ("**ISIN**") and (where applicable) the Euroclear France number for each Series of Notes will be set out in the relevant Pricing Supplement. The address of Euroclear is 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium and the address of Clearstream is 42 avenue JF Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg. The address of any alternative clearing system will be specified in the applicable Pricing Supplement.
4. For the avoidance of doubt, the Notes are freely transferable and cannot be cancelled by virtue of being sold or transferred to an entity which does not constitute a Third Party Beneficiary (as defined in the Schedule A of the Guarantee).
5. For so long as the Programme remains in effect or any Notes remain outstanding, the following documents (including English translations where applicable) will be available during usual business hours on any weekday (Saturdays and public holidays excepted) for inspection at (and, in the case of the documents specified in paragraphs (i), (v) and (vi) below, copies may be obtained from) the registered office of the Issuer, the office of the Fiscal Agent in Luxembourg and from the offices of the Paying Agents:
  - (i) a copy of this Information Memorandum together with any Supplement to this Information Memorandum or further Information Memorandum;
  - (ii) the Agency Agreement (which includes the form of the Global Notes, Global Certificates, definitive Notes in Bearer form, the Certificates, the Coupons, Receipts and Talons), together with any Supplement to the Agency Agreement;
  - (iii) the Guarantee;
  - (iv) the Deed of Covenant;
  - (v) the *Statuts* of the Issuer;
  - (vi) the audited annual accounts of the Issuer (non-consolidated and consolidated) for the two most recent financial years and the most recent half year financial report including the half year condensed consolidated financial statements of DCL; and
  - (vii) each Pricing Supplement for Notes listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market or listed on any other stock exchange.

6. This Information Memorandum includes "forward-looking statements". All statements other than statements of historical facts included in this Information Memorandum, including, without limitation, those regarding the Issuer's financial position, business strategy, plans and objectives of management for future operations, are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Issuer, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Issuer's present and future business strategies and the environment in which the Issuer will operate in the future. Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under Risk Factors. These forward-looking statements speak only as of the date of this Information Memorandum.

The Issuer expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Issuer's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

7. This Information Memorandum and each Pricing Supplement issued in connection with Notes listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange will be published in electronic form on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)). The Pricing Supplement issued in respect of any Notes admitted to trading on a stock exchange other than the Regulated Market will be available free of charge at the registered office of the Issuer and from the office of the Paying Agent with a specified office in the city of such stock exchange.
8. Except as disclosed in this Information Memorandum and any document incorporated by reference therein, there has been no significant change in the financial or trading position or prospects of the Issuer since 31 December 2018.
9. Except as disclosed in this Information Memorandum and any document incorporated by reference therein, the Issuer is not and has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer aware) in the 12 months preceding the date of this document which may have or have in such period had a significant effect on the financial position or profitability of the Issuer.
10. The Issuer will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Information Memorandum which is capable of affecting the assessment of any Notes, prepare a supplement or publish a new information memorandum for use in connection with any subsequent issue of Notes.
11. Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities

(or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

12. The LEI for the Issuer is F4G136OIPBYND1F41110.
