Federal Emergency Management Agency

Message from the Administrator

August 17, 2016

I am pleased to present the following “Disaster Contracts Quarterly Report,” for the third quarter of Fiscal Year (FY) 2016, which has been prepared by the Federal Emergency Management Agency (FEMA).

This document has been compiled pursuant to the language set forth in the *FY 2007 Department of Homeland Security (DHS) Appropriations Act* (P.L. 109-295) and its accompanying Joint Explanatory Statement. The report provides information and data on contracts, including those using disaster funds that were entered into by means other than competitive procedures.

Pursuant to congressional requirements, this report is being provided to the following Members of Congress:

The Honorable John R. Carter
Chairman, House Appropriations Subcommittee on Homeland Security

The Honorable Lucille Roybal-Allard
Ranking Member, House Appropriations Subcommittee on Homeland Security

The Honorable John Hoeven
Chairman, Senate Appropriations Subcommittee on Homeland Security

The Honorable Jeanne Shaheen
Ranking Member, Senate Appropriations Subcommittee on Homeland Security

The Honorable Michael McCaul
Chairman, House Homeland Security Committee

The Honorable Bennie G. Thompson
Ranking Member, House Homeland Security Committee

The Honorable Ron Johnson
Chairman, Senate Homeland Security and Governmental Affairs Committee

The Honorable Thomas R. Carper
Ranking Member, Senate Homeland Security and Governmental Affairs
Committee

The Honorable Scott Perry
Chairman, House Subcommittee on Oversight and Management Efficiency
Subcommittee

The Honorable Bonnie Watson Coleman
Ranking Member, House Subcommittee on Oversight and Management Efficiency
Subcommittee

Inquiries relating to this report may be directed to me at (202) 646-4500 or to the
Department's Deputy Under Secretary for Management and Chief Financial Officer,
Chip Fulghum, at (202) 447-5751.

Sincerely,

W. Craig Fugate
Administrator
Federal Emergency Management Agency

Executive Summary

FEMA strives to compete its procurements whenever possible and practical, including making use of advance contracting for reoccurring disaster-related requirements. There are, however, times when the agency must use different contracting methods to provide a seamless response and foster a timely recovery. These instances that reduce risk and expedite delivery of services include: missions to safeguard disaster survivors quickly; assisting state, local, territorial, and tribal governments; and protecting property from imminent danger.

The *FY 2007 DHS Appropriations Act* (P.L. 109-295) requires the Administrator of FEMA to provide a quarterly report on all contracts issued during any disaster, which shall include a detailed justification for any contract entered into by means other than competitive procedures.

To fulfill this requirement, FEMA gathered data from its contract writing system of record, the Purchase Request Information System (PRISM). To ensure the integrity of the data, information also was gathered from the Federal Procurement Data System – Next Generation (FPDS-NG) for the third quarter of FY 2016. The PRISM fund source data have a greater level of detail than the data provided by FPDS-NG. FEMA relies on the PRISM data to calculate the disaster-related contract action statistics. FEMA uses FPDS-NG data in conjunction with and to validate PRISM-based data and calculations. The data tables herein contain both PRISM and FPDS-NG data.

In the third quarter of FY 2016, FEMA issued 928 contract actions having a total value of approximately \$246,794,406. The term “issued” excludes deobligations of funds and no-cost modifications. Of the 928 contract actions, 367 (or approximately 40 percent) were disaster assistance-related, totaling approximately \$91,789,377. This dollar value represents approximately 37.2 percent of the procurement funds expended during the third quarter. Of the 367 disaster-related contract actions, 102 were issued noncompetitively, which represents approximately 11 percent of all third quarter contract actions. The total cost of these 102 actions is approximately \$15,190,991 (or approximately 6.2 percent) of total dollars spent in the third quarter.

The data in this report are not considered procurement sensitive and are accurate as of July 8, 2016. The data export from PRISM was generated on July 8, 2016, for the third quarter of FY 2016, ending June 30, 2016.

I. Legislative Language

This document responds to the language set forth in the *Fiscal Year (FY) 2007 Department of Homeland Security (DHS) Appropriations Act* (P.L. 109-295) and the accompanying Joint Explanatory Statement.

P.L. 109-295 states:

REPORT ON CONTRACTS NOT USING COMPETITIVE PROCEDURES

At the end of each fiscal quarter, beginning with the first fiscal quarter occurring at least 90 days after the date of enactment of this Act, the Administrator shall submit a report on each disaster assistance contract entered into by the Agency by other than competitive procedures to the appropriate committees of Congress.

The Joint Explanatory Statement states:

CONTRACTS

FEMA shall provide a quarterly report to the Committees on Appropriations regarding all contracts issued during any disaster. The report shall include a detailed justification for any contract entered into using procedures based upon the unusual and compelling urgency exception to competitive procedures requirements under section 303(c)(2) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(c)(2) or section 2304(c)(2) of title 10, United States Code. Justification details by individual contract are to include, at least: the amount of funds, the timeframe, the contractor, a specific reason why the contract could not be competed and how action may be taken to ensure competition of the contract in the future without impeding timely disaster response.

II. Background

To meet the requirements of Section 691(d) of the *FY 2007 DHS Appropriations Act* (P.L. 109-295), FEMA follows a specific methodology for determining the total number of disaster-related contract actions. That methodology starts by identifying award actions using appropriated funds designated for disaster situations, excluding any deobligations of funds and no-cost modifications. Once actions are identified, award information is gathered from the Purchase Request Information System (PRISM) and the Federal Procurement Data System – Next Generation (FPDS-NG) to populate Appendix 1 of this report.

Appendix 1 contains the following fields that generally correspond to the requirements identified in P.L. 109-295:

- Number
- Contract/Order Number
- Modification Number
- Obligated Amount
- Contractor
- Issue Date
- Completion Date
- Ultimate Completion Date
- State: Event (In some cases, there is not one specific disaster or state as a single contract action may support multiple states or disasters.)
- Description of Requirement (the Title field in PRISM is utilized when a Description of Requirement in FPDS-NG is unavailable.)
- Reason Not Competed

The justification identified in the Joint Explanatory Statement (i.e., a detailed justification of how action may be taken in the future to ensure competition of the contract without impeding timely disaster response) also is addressed in this report (page 4 last paragraph).

III. Data Report

In the third quarter of FY 2016, FEMA issued 928 contract actions having a total value of approximately \$246,794,406. Of the 928 contract actions, 367 were disaster assistance-related, totaling approximately \$91,789,377. Of the 367 disaster-related contract actions, 102 were issued noncompetitively. The total cost of these 102 actions is approximately \$15,190,991.

Figure 2. Distribution of all FEMA-issued Contract Dollars for Quarter 3 of FY 2016

In accordance with the Federal Acquisitions Regulations (FAR) 6.302, 13.2-3, and 16.505, FPDS-NG grouped noncompetitive contract actions into approximately 21 categories. During the third quarter of FY 2016, FEMA's noncompetitive contract actions fell into the following distribution of the 21 categories:

FEMA strives to compete its procurements whenever possible and practical, minimizing the need to invoke an urgency justification for disaster-related purchases. Advanced acquisition planning allows FEMA to pre-position contracts that are both competitive and readily available at the time of a disaster. There are, however, instances that do not lend themselves to competition. As an example, most geographic areas lack a competitive market for utility services, and, therefore, utilities are often noncompetitive procurements. FEMA continues to evaluate each procurement need and to encourage competition whenever the situation allows.
