Including battery

Bordo 6-bars

Folding lock with 6 bars
The classic

Bordo 8-bars

Folding lock with 8 bars offers even more flexibility due to greater length

SmartX

Innovative locking system, controlled via smartphone

XPlus

Picking-resistant disc cylinder „XPlus“

Plus

Picking-resistant disc cylinder „Plus“

Keyed alike

Multiple locks can be operated with a single key

Magnetic bracket

Innovative bracket with magnetic function

Lightweight

Lightweight lock, ideal for sports use

Alarm

Lock with 100 dB alarm function

OEM

Locks are delivered without sales packaging so they can be mounted more quickly. Ideal for use in workshops

DISCOVER THE NEW 2020 CATALOGUE!

We're happy that you're holding the new 2020 ABUS catalogue in your hands. The purpose of this catalogue is not only to inform you of our product innovations, but also to present our new catalogue concept:

An easy-to-understand organisation with quick access to each chapter as well as a list of all product novelties at the start of each chapter make it easy for you to find our new products.

Clear product icons instead of long texts make it a breeze to compare products, and our new technology pages keep you informed about our unique technologies.

Another new feature: The icons at the side provide you with an overview of all of the specifications of our products. Just fold out the additional page of the cover and you've got all the relevant information at your fingertips at any time.

We hope you enjoy daily use of this catalogue and that it offers you a better basis for your work.

Your mobile security team

AIRBREAKER VENTILATION RE-DEFINED

COOL HEAD DURING TOP PERFORMANCE

Whether ventilation or aero, weight or safety, the AirBreaker offers top features with the highest ABUS standard.

ActiCage Lite

Thanks to ActiCage lite -an integrated structural reinforcement- the AirBreaker provides maximum protection with minimal weight.

Floating Padding

Floating padding to improve comfort.

FlowStraps

Aerodynamic, flutter-free and skin-friendly, thanks to specially developed webbing.

AirPort

AirPort is a true aero miracle: special temple channels let you safely and aerodynamically store your glasses in the helmet's rear.

Zoom-Ace

The Zoom Ace system guarantees a perfect fit, precisely adjustable with a grippy wheel.

Ponytail

The specially shaped slot within the adjustment system offers sufficient space for long hair or a ponytail.

MADE FOR EXTREMES

The name speaks for itself. AirBreaker – a road helmet made for perfect ventilation and aerodynamics. The AirBreaker makes no difference whether you are fascinated by high mountains, long distances or high speeds.

Outstanding ventilation, best aero data and a weight you barely feel makes the AirBreaker your top model in every race. Keeping a cool head for all high performances.

Hanka Kupfernagel - World Champion
Individual TimeTrial 2007

D. ISTANCE
Best ventilation for
endless distances.

A. LTITUDE
More ventilation on
the way to the top.

S. PEED
Lowest drag at top speed.

H. EAT
Ideal head climate
in extreme heat.

THE WORLD CHAMPION'S HELMET

Only road helmets of ABUS wear the rainbow design. Evidence to their perfection. With the AirBreaker, Alejandro Valverde became the best rider in the world. And like the world champion, all riders of the Movistar Team trust in the AirBreaker as their performance helmet. In the most important races in the world, the AirBreaker meets the requirements of the professionals.

A HELMET BY PROFESSIONALS FOR PROFESSIONALS

With the aero helmet GameChanger, ABUS caused a revolution. Its contemporary design and innovative technologies build the platform for the AirBreaker. In extensive development work together with the pro riders of the Movistar Team and a constant testing in the wind tunnel, the AirBreaker has been optimized for the best ventilation and aero performances.

770A SMARTX™ SMART IS THE KEY

HANDS FREE

Your smartphone turns into a key. A keycard connects the corresponding ABUS app (iOS or Android) to the lock.

When users approach their bicycle with their smartphone, the smartphone unlocks the lock. To open it, just pull the shackle out of the body of the lock. Locking works exactly the other way around: push the shackle in, activate the alarm, walk off, be secure!

BLUETOOTH®

The 770A SmartX™ is the first ABUS U-lock with a Bluetooth® receiver. The lock receives its signals from the smartphone over this encrypted channel, which is just as secure as the lock itself and more individualized than any key.

Made in Germany

SMARTX APP

Each 770A SmartX™ can be used by multiple persons. The decision whether a person is granted limited-time or permanent access is up to the administrator. For the cargo bicycle behind the house or the children's trailer at the nursery—this is how families lock in the twenty-first century!

ALARM

The 770A SmartX™ provides added security with its integrated alarm function. The 3D Position Detection detects slightest movements and triggers a deterrent alarm. If slightly touched, the lock issues only a short warning sound. But if the sensors detect a theft attempt, the alarm sound increases its volume to a deafening 100 decibels.

AUF EINEN BLICK

- ABUS XPlus cylinder for extremely high protection against manipulation, e.g. picking

BORDO™ Alarm 6000A

Our classic is going mechatronic. With the first alarm spring lock in the world, we are relying not only on high mechanical security but also an alarm of up to 110 dB, which has already become popular in motorcycle security applications. Any attempt to defeat it will warn you and frighten the thief off.

IVY TEX SERIES

The locks of the new IvyTex lock series are the perfect products for intensive daily use. The long-lasting, highly flexible high-tech mesh is weather-resistant and hydrophobic. That means that liquids like water or oil aren't absorbed by the fabric. Convince yourself of the many advantages and test the locks of the IvyTex series. The following products are available in our catalogue:

GRANIT CityChain XPlus™ 1060

High-quality bicycles are best secured with this 10 mm hex chain. In the highest security category, this lock offers reliable protection for the strictest security needs. The dual interlock on the lock body makes this chain outstandingly secure, and at up to 170 cm long, it is extremely flexible to use.

Technical Data

- 10 mm hexagonal chain with textile sleeve to protect against damage to the paintwork
- ABUS Power Cell technology offers the highest level of protection against impacts and attempts to break open the lock
- ABUS Power Link technology enables the chain to be connected directly to the Power Cell
- Interwoven coating of the lock body to protect against brutal methods of attack
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- ABUS XPlus cylinder for the highest level of protection against tampering, e.g. picking
- Cover to protect the keyhole from contamination

1) Class C

IVY Chain 9210

The IVY Chain 9210 is the perfect padlock for intensive daily use. The long-lasting, highly flexible high-tech mesh is weather-resistant and hydrophobic. That means that liquids like water or oil aren't absorbed by the fabric so the lock stays clean.

PRO SHIELD™ Plus 5950

Can a frame lock be secure and practical? The PRO SHIELD Plus 5950 certainly can! Its high-quality materials and Made in Germany machining perfection secure any bicycle from theft. And the refined Plus system offers practical added value: Just one key not only locks the lock, but also the e-bike battery and other locks – from the chain lock to a padlock.

Operation and use

- Ideal protected storage of keys and other valuables for authorised persons
- Quick and easy access for frequently changing groups of persons
- Defining access by setting and passing on the code
- For wall fixing indoors and in protected outdoor areas

Technical Data

- Very large solid metal housing and extra large storage compartment
- Locking cover made from zinc die-cast
- Easily removable clip-in hooks guarantee consumer's comfort
- Flat inner mechanism makes a larger storage space possible
- Individually resettable code (4-digit)
- Illuminated dials for a better legibility in dark conditions
- LEDs light up ca. 30 seconds
- Customary coin cell battery (CR2032) can be easily replaced, durability of battery when used 1x per day approximately 2 years
- Protective cover with sliding mechanism

Diskus® 24IB

Operation and use

- For the protection of larger assets and objects with a high risk of theft
- Ideal for severe weather conditions (e.g., in sea and port areas, for securing vehicles and boats in outdoor use)
- For securing trucks, doors, gates, barns, cellars, cupboards, etc.

Technical Data

- Lock body, inner parts and shackle made solely from stainless steel for extreme resistance to corrosion
- Cylinder cover – maximum protection against dirt and water spray (60 mm and 70 mm only)
- Nickel-plated cylinder for enhanced weather protection
- Original Diskus® design: 360° protection
- Diskus® Deep-Welding Technology – the best in break-in protection
- Precision pin cylinder
- Key retaining: locking only with the key (key cannot be removed while the lock remains open)
- Made in Germany

Ref. No.	EAN 4003318	 mm	 mm	 mm	 mm	 mm	 mm	Weight g	Box Qty

Operation and use

- To secure valuables/goods of great value or at a very high risk of theft
- To secure e.g. warehouses, industrial sites, factory gates, containers and lorries
- Ideally used with ABUS Diskus® Hasp 140: virtually impossible to attack shackle

Technical Data

- Stainless steel - outside and inside
- Additional protection against sawing
- Shackle made from high quality stainless steel
- ABUS-Plus disc cylinder: highest protection against manipulation, extremely high number of key differs
- Cylinder cover – maximum protection against dirt and water spray
- Sophisticated Diskus® welded seam for highest break resistance
- Original Diskus® design: 360° protection

Bracket SCLL 6K	87984 5				

Fidlock bracket

Operation and use

- Exclusively for the transport of the Phantom 8960, 8950 and 8940
- For the effortless magnetic mounting on and handy removal from the bracket
- Mounting on round and non-round frame profiles with a diameter of 21 - 80 mm
- Flexible textile sleeve for mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket FL	39729 5				1

Fidlock bracket TexFL

Operation and use

- Exclusively for the transport of the Phantom 8960, 8950 and 8940
- For the effortless magnetic mounting on and handy removal from the bracket
- Mounting on round and non-round frame profiles with a diameter of 21 - 80 mm
- Flexible textile sleeve for mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket TexFL	39730 1		77		1

TexKF Mini

Operation and use

- Transport mostly cable, coil cable and Steel-0-Flex locks
- Mounting on round and non-round frame profiles with a diameter of 21 - 80 mm
- Flexible textile sleeve for mounting
- Mounting within the frame or at the side possible
- Simple and time saving mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
TexKF Mini	23265 7		70	for 640, 1460, 8950, 1450, 8940	1

QuickSnap RBU

Operation and use

- Transport of cable and Steel-0-Flex locks
- Mounting on round and non-round frame profiles with a diameter of 15 - 45 mm
- Flexible metal sleeve for mounting
- Mounting within the frame or at the side possible
- Simple and time saving mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
QuickSnap RBU	31487 2		40	for 860, 870	6

QuickSnap

Operation and use

- Transport of cable and Steel-0-Flex locks
- Mounting on all common seat post bolts (diameter 5 - 8 mm)
- Simple mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
QuickSnap	31488 9			for 860, 870	1

Operation and use

- Transport of cable, coil cable and Steel-0-Flex locks
- Mounting on all common seat post bolts (diameter 5 - 8 mm)
- Simple mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
KF	12433 4		41,5	for 896, 895, 894, 885, 875, 1350, 1355, 1340, 1440, 1450, 1460	6

Snap Cage

Operation and use

- Transport of Steel-0-Flex, cable- and coil cable locks
- Enables transporting the lock on the seat post, on the frame and on the rack stays
- With a diameter of 15 - 55 mm
- Simple mounting without tools

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty

KEYED ALIKE

MULTIPLE LOCKS – A SINGLE KEY

We are frequently asked whether you can use a single key to open multiple ABUS locks. No problem!

Our keyed alike service makes it possible and easy. Many ABUS locks can be ordered keyed alike. That means that two or more locks can be fabricated with identical keys.

For example, both the padlock in your basement and your bicycle and motorcycle locks can all be operated with just a single key.

Keyed alike locks offer convenience for families, couples, friends, companies, rental companies, etc.

ADVANTAGE: More space on your key ring, and always a full overview.

YOURPLUS™ – THE PLUS IN CONVENIENCE FOR THE SINGLE-KEY SOLUTION!

Made in Germany

More informations at abus.com/yourplus

With YourPlus™, you can convince your customers with more convenience and added value – and you'll have an excellent additional business! The YourPlus™ concept includes a whole range of services related to locks with the ABUS Plus cylinder. We provide the added value program for your customer that only ABUS can provide in this form.

+ OEM-SERVICE

The ABUS Plus cylinder is already part of many OEM products. And additional keyed alike locks can also be produced. That's additional convenience for your customers.

+ SECURE AND SIMPLE

The ABUS Plus cylinder – Made in Germany. This proven disc cylinder offers top security and additional protection against picking.

+ A LOCK FOR EVERY KEY

Need another lock that can be opened with an existing key? No problem! We can build a new lock around the key. That makes it possible to create completely keyed alike systems – for example a rental bike fleet.

+ PLUS CODE CARD

The code card delivered with every YourPlus™ lock „saves“ your key identification, so that even years after purchasing your lock you can order new keys or keyed alike locks.

+ EASY FOR THE E-BIKE

To completely secure an e-bike, you often need one key for the battery lock, another for the frame lock and then a third to lock the bike to a fixed object. That's a thing of the past! With YourPlus™, It's possible to use multiple locks with just a single key.

+ VARIETY OF APPLICATIONS

YourPlus™ offers convenience for a variety of different applications. Keyed alike locks for families, couples, friends, companies, rental businesses, etc.

+ FOR EVERY NEED

Products from different lock categories offer the right security for every need: U-Shackle locks, folding locks, frame locks, chain locks, padlocks. Combinations of different locks from any category can be produced keyed alike.

+ VISIBLE AT THE FIRST GLANCE

All products labeled with the YourPlus™ logo on the packaging can be ordered and produced keyed alike – in any quantity.

PLUS CYLINDER

The Plus cylinder – Made in Germany – is among the top cylinders in our product line.

The popular disk cylinder offers top security and additional protection from picking. Its easy operation makes opening and locking a pleasure.

KEY SERVICE

The ABUS key service allows you to order new keys for existing locks.

Just select the required blank, enter the desired coding and the key will be delivered within no time.

If no key number is available, please send us the remaining pattern key. We'll produce a replica of the key.

THE ABUS LEVEL SYSTEM

LEVEL: 1 - 4

These locks provides basic protection against theft and best suited for areas of low risk. Often intended for use on children's bikes, as a secondary locking option or as an accessory lock such as a helmets or bags.

STANDARD SECURITY

LEVEL: 5 - 9

Locks in this security level offer an extra level of security and are most appropriate for areas of medium to low theft risk and for use on good to entry level adult bikes. Also recommended as secondary locking options in areas of high-theft risk when used with a higher rated lock for added security.

EXTRA SECURITY

LEVEL: 10 - 15

These locks offers the maximum protection and are intended for use with higher-end bicycles, bikes locked in urban areas and for use in areas of high-theft risk. Fifteen is the maximum bicycle security and is represented by a completely red dial.

MAXIMUM SECURITY

ALARM

More and more ABUS locks are equipped with an alarm of approx. 100 dB to rout out bicycle thieves effectively. The addition „Alarm“ on the level system shows that a lock has this feature.

ABUS - MADE IN GERMANY

When August Bremicker and his sons founded ABUS in 1924, they had a lot of experience with craftsmanship – and a clear vision: They wanted to create products that protected human life and property. It was a far-sighted corporate guideline – paired with an expectation for quality right from the start. It was the start of a continuous success story. The ABUS brand became a synonym for security.

HIGH-QUALITY MATERIALS

To be able to offer consistently high quality and security, we use high-quality materials at every price level. Complex hardening processes guarantee the best attack resistance in our materials. Our internal quality management processes all materials before and during the production process and ensures that every product has the high quality you expect.

THE KEY TO SUCCESS

At ABUS, we produce and build many of our machines ourselves and all the tools we use in the production of our security products in-house. That bundles know-how, guarantees jobs, and strengthens identification. Our own engineering and toolmaking department concentrates exclusively on the development of bicycle and motorcycle locks. This ensures that we meet the tough requirements you place on your bicycle or motorcycle lock every day.

ENSURING CONTINUITY

In our own ABUS test laboratory, we routinely carry out tests and attacks on our products to ensure that we offer consistently high quality.

Among others we make sure our locks are resistant to:

- Ice spray attacks and freezing conditions thanks to a -40°C chamber
- Twisting, pulling, hammering and sawing attacks with help of our manual or mechanical tests
- Rust by simulating highly corrosive weather conditions

APPROVALS

ABUS locks are tested and approved by independent, neutral testing institutions in a number of European countries. The following seals of approval confirm the outstanding security of ABUS cycle locks:

Svenska Stöldskyddsföreningen
Stockholm, Sweden

Norges Forsikringsforbund
Oslo, Norway

Dansk Varefakta Naevn
Copenhagen, Danmark

Finanssiala

STRONG SERVICE PARTNER, RELIABLE SUPPLIER ABUS AS OEM PARTNER – YOUR FIRST CHOICE

In the bicycle market, the factors of success are added value, differentiation, flexibility, availability, fast service and high capacity. Suppliers that work with bicycle manufacturers have to meet the corresponding requirements. ABUS does meet them.

Allow us to take advantage of mutual synergy and implement it to our shared success!

Our OEM team looks forward to hearing from you at: oem@abus.de

As a globally experienced specialist in mobile security, we offer you the best possible support and a high level of reliability. For years, ABUS has been a synonym for security, and has earned a leading position in the bicycle accessory market.

We hope to continue our good cooperation with leading bicycle manufacturers!

Quality „Made in Germany“ and „Just in time“ deliveries: concentrating on these core competences has made us an important partner for many bicycle manufacturers worldwide. We are also a strong partner on the OEM market, offering a wide selection of frame locks, integrated security solutions, and many individual products. Among others, we offer keyed alike locks and battery cylinders for e-bikes.

ABUS OEM

GIANT

CUSTOM SECURITY

Custom security solutions are not just a trend, but also a very convenient way for cyclists to secure their beloved bicycles. Take advantage of our more than 90 years of experience, and set yourself apart from the masses with a customized security solution.
