PRODUCT GUIDE

Protect your world

MISSION, VISION AND VALUES

DICOTA is founded on the guiding principles of

Passion
Competence
Liability
Accuracy
Fairness

with a dedicated and motivated team behind it.

German product development, Swiss quality standards and international flair come together in an owner-managed company, making it possible to focus on important details. We maintain an open, honest and sustainable partnership with our customers, suppliers and employees.

Benefit from our more than 25 years' experience in the design and manufacture of premium carrying solutions and put your trust in «DICOTA – Die Computer Tasche». Our name is our promise.

Das DICOTA Fundament basiert auf den Säulen

Passion
Kompetenz
Verbindlichkeit
Präzision
Fairness

und wird von einem engagierten und motivierten Team getragen.

Deutsche Produktentwicklung, Schweizer Qualitätsverständnis und internationales Flair in einem inhabergeführten Unternehmen ermöglichen den Blick fürs wichtige Detail. Mit Kunden, Lieferanten und Mitarbeitenden pflegen wir eine offene, ehrliche und nachhaltige Partnerschaft.

Profitieren Sie von über 25 Jahren Erfahrung in der Entwicklung und Herstellung von erstklassigen Tragelösungen und setzen auf «Die Computer Tasche – DICOTA». Unser Name ist ein Versprechen.

La philosophie DICOTA repose sur les piliers suivants:

Passion
Compétence
Engagement
Précision
Équité

Elle est incarnée par une équipe engagée et motivée.

Développement allemand de produits, standards suisses de qualité et ambiance internationale au sein d'une entreprise dirigée par ses propriétaires permettent d'avoir l'œil sur les détails importants. Nous entretenons un partenariat ouvert, honnête et durable avec nos clients, fournisseurs et employés.

Profitez de plus de 25 ans d'expérience dans le développement et la fabrication de solutions de transport de premier plan et misez sur «DICOTA – Die Computer Tasche». Nous nous y engageons avec notre nom.

RATING SYSTEM

Transparency helps customers to come to a decision. The DICOTA rating provides a quick and simple overview of the products' protection level and functionality. To name but a few examples:

Transparenz hilft beim Entscheiden. Das DICOTA-Rating verschafft einfach und schnell einen Überblick über den Grad der Schutzfunktion und der Funktionalität der Produkte. Einige Beispiele:

La transparence aide à la prise de décision. Le système de notation DICOTA donne un aperçu simple et rapide sur le degré de protection et de fonctionnalité des produits. Quelques exemples:

Protection

Various types of protective padding for devices, frame and shell design, additional locking features or holders, rain protection, water-repellent zip.

Schutz

Unterschiedliche Schutzpolsterungen für Geräte, Rahmen- und Schalenkonstruktionen, zusätzliche Sicherungen oder Halterungen, Regenschutz, wasserabweisender Reißverschluss.

Protection

Différents rembourrages de protection dédiés aux appareils, à la conception du cadre et des coques, des dispositifs de sécurité complémentaires ou des supports, protection anti-pluie, fermeture éclair hydrofuge.

Functionality

Internally developed systems and technologies, such as anti slip technology, fitall system and EVA frame protection, as well as general product features such as the storage space, number of compartments, integrated trolley fastening strap, adjustable shoulder strap and hidden zip compartment for important documents.

Funktionalität

Eigens entwickelte Systeme und Technologien wie Anti Slip Technology, Fitall System und EVA Frame Protection, aber auch allgemeine Produkteigenschaften wie Stauraum, Anzahl Fächer, integriertes Trolley-Befestigungsband, verstellbarer Schultergurt, versteckter Reißverschlussfach für wichtige Dokumente.

Fonctionnalité

Des systèmes et des technologies uniques comme anti slip technology, fitall system et EVA frame protection, mais également des qualités-produit plus générales comme l'espace de rangement, le nombre de compartiments, la lanière de fixation intégrée pour le trolley, la bandoulière réglable, un compartiment à fermeture éclair dissimulé pour vos documents importants.

Denier system

The numbering system for yarns and fibres is based on the old French weight unit "denier". The number indicates the robustness and the weight of the thread that is used. The entry 1680D indicates that a 9,000-meter-long thread weighs 1680 grams. For a material with 900D, the thread weighs 900 grams. Articles with higher denier numbers consist of very robust materials, while others with lower values are attractive due to lighter and finer fabrics.

Denier System

Das Nummerierungssystem für Garne und Fasern geht auf die alte französische Gewichtseinheit Denier zurück. Die Zahl gibt Aufschluss über die Robustheit und das Gewicht des verwendeten Fadens. Die Angabe 1680D bedeutet, dass ein 9.000 Meter langer Faden 1680 Gramm schwer ist. Bei einem Material mit 900D wiegt der Faden entsprechend 900 Gramm. Artikel mit höheren Denier-Zahlen bestehen aus sehr robusten Materialien, andere mit tieferen Werten überzeugen durch leichtere und feinere Stoffe.

Système denier

Le système de numérotation des fils et des fibres repose sur le denier, une ancienne unité de poids française. Le nombre informe sur la solidité et le poids du fil utilisé. Le code 1680D indique qu'un fil de 9000 mètres pèse 1680 grammes. Pour un matériau classé 900D, la même longueur de fil pèse alors 900 grammes. Les articles présentant un nombre de deniers élevé sont fabriqués dans des matériaux très résistants, ceux avec des valeurs inférieures séduisent par des tissus plus légers et plus fins.

WARRANTIES

Lifetime warranty

Our checks mean we can be sure of delivering quality products, and promise you the same certainty. Thanks to its stringent production guidelines and quality checks, DICOTA offers a lifelong* warranty for potential material and processing defects on notebook cases.

Lebenslange Garantie

Wer kontrolliert, kann sicher sein und Sicherheit geben. Dank der strengen Produktionsrichtlinien und Qualitätskontrollen gewährt DICOTA eine lebenslange* Garantie auf mögliche Material- und Verarbeitungsfehler bei Notebooktaschen.

Garantie «lifetime»

Le contrôle donne au produit une garantie de fiabilité et au client la sécurité. Grâce à ses directives de production et à son système de contrôle qualité très stricts, DICOTA offre sur ses produits une garantie à vie* sur les éventuelles défaillances matérielles et de fabrication pour les sacs pour ordinateurs portables.

24 month warranty

Customers benefit from the 24 month warranty when they buy DICOTA accessories, tablet cases, notebook bags with wheels and electric components, hard-shell products or special solutions.

24 Monate Garantie

Beim Kauf von DICOTA Accessoires, Tablet Cases, Notebooktaschen mit Trolleyfunktion und elektronischen Bauteilen, Hartschalenprodukten und Sonderlösungen profitieren Kunden von der 24-monatigen Garantie.

Garantie 24 mois

Toutes les sacs pour notebook avec fonction chariot, les composants électriques, les accessoires, les étuis pour tablettes, ainsi que les produits à coque dure et non-standard sont couverts par la garantie 24 mois de DICOTA.

36/48 month warranty

You as a customer can purchase an extended warranty lasting 36 or 48 months when you buy any of the MOS products.

36/48 Monate Garantie

Für MOS-Produkte können Sie als Kunde eine verlängerte Garantie von 36 oder 48 Monaten erwerben.

Garantie 36/48 mois

Pour les produits de la gamme MOS, en tant que client vous pouvez bénéficier d'une extension de garantie de 36 à 48 mois.

* Based on legal restrictions in Germany for a period of 30 years; no time limit in other countries

* Aufgrund gesetzlicher Beschränkungen in Deutschland für einen Zeitraum von 30 Jahren, in anderen Ländern ohne zeitliche Beschränkung

* En raison de restrictions légales, elle est de 30 ans en Allemagne, et sans restriction de durée dans les autres pays

Sustainability and social responsibility are anchored in our corporate strategy and are consistently put into practice on a daily basis. Our passion is what drives us, while our mission is to develop innovative and sustainable products.

Nachhaltigkeit und soziale Verantwortung sind in unserer Unternehmensstrategie verankert und werden Tag für Tag konsequent gelebt. Leidenschaft ist unser Antrieb, die Entwicklung innovativer, nachhaltiger Produkte unsere Mission.

La durabilité et la responsabilité sociale sont ancrées dans notre stratégie et nous vivons de façon cohérente selon ces principes quotidiennement. La passion est notre moteur, le développement de produits innovants et toujours plus durables notre mission.

Implementation at DICOTA

In the production of ECO products, we use recycled PET, which helps protect the environment: Used drinking bottles are recycled and cut into PET flakes instead of being burned. These flakes are then spun into yarn and later processed into fabric – the ecologically sound basis for our ECO series.

The number in the green PET icon indicates how many bottles have been recycled in the production of the bag.

Die Umsetzung bei DICOTA

Bei der Produktion der ECO-Produkte setzen wir auf recyceltes PET, das die Umwelt entlastet: Anstatt gebrauchte Getränkeflaschen zu verbrennen, werden diese rezykliert und zu PET-Flakes geschnitten. Diese Flocken werden danach zu Garn gesponnen und später zu Stoff verarbeitet – die ökologisch sinnvolle Basis für unsere ECO-Serie.

Die Zahl im grünen PET Icon zeigt Ihnen an, wie viele Flaschen wiederverwertet wurden, um die Tasche herzustellen.

La mise en œuvre chez DICOTA

Nous utilisons du PET recyclé favorable à l'environnement dans la production des produits ECO: Au lieu de brûler les bouteilles de boissons usées, celles-ci sont recyclées en flocons de PET. Ces flocons sont ensuite transformés en filaments et ensuite en étoffe, la matière de base de notre série ECO; elle est écologiquement raisonnable.

Le chiffre qui figure sur le logo vous indique combien de bouteilles ont été retirées de l'environnement grâce à votre sac.

Business Social Compliance Initiative (BSCI)

As a member of BSCI, DICOTA is deeply committed to improving working conditions in global supply chains.

Business Social Compliance Initiative (BSCI)

Als Mitglied von BSCI setzt sich DICOTA mit grossem Engagement dafür ein, die Arbeitsbedingungen in globalen Lieferketten zu verbessern.

Business Social Compliance Initiative (BSCI)

En tant que membre du BSCI, DICOTA s'engage activement à améliorer les conditions de travail dans notre chaîne d'approvisionnement à l'échelle globale.

Implementation at DICOTA

Our on-site team in Hong Kong is ensuring that together with our suppliers the extensive criteria for the certification are continuously implemented. Our partners undertake to fully comply with the Code of Conduct of the BSCI Charter and thus stand up for fair and social working conditions.

Die Umsetzung bei DICOTA

Unser Team in Hong Kong stellt vor Ort sicher, dass gemeinschaftlich mit unseren Lieferanten die umfangreichen Kriterien für die Zertifizierung kontinuierlich umgesetzt werden. Unsere Partner verpflichten sich, den Code of Conduct von BSCI vollumfänglich zu erfüllen und damit für faire und soziale Arbeitsbedingungen einzustehen.

La mise en œuvre chez DICOTA

Notre équipe sur place à Hong Kong s'assure que tous les critères pour la certification sont mis en œuvre continuellement et en commun avec nos fournisseurs. Nos partenaires s'engagent à satisfaire entièrement tous les points de la Charte du BSCI et à promouvoir des conditions de travail justes et sociales.

REACH / PVC

REACH is the European regulation for registration, evaluation, authorisation and restriction of chemicals. As part of the SVHC list (Substances of Very High Concern), the materials processed are inspected for 181 problematic elements. This involves in particular substances that are carcinogenic, mutagenic, toxic for reproduction and persistently organic. Additional substances are added to the list every six months.

REACH / PVC

REACH ist die Europäische Verordnung zur Registrierung, Bewertung, Zulassung und Beschränkung chemischer Stoffe. Im Rahmen der SVHC-Liste (Substances of Very High Concern) werden die verarbeiteten Materialien auf 181 bedenkliche Elemente untersucht. Dabei geht es insbesondere um krebserregende, mutagene, reproduktionstoxische und persistente organische Substanzen. Die Liste wird alle 6 Monate um weitere Stoffe erweitert.

REACH / PVC

REACH est la réglementation européenne pour l'enregistrement, l'évaluation et l'autorisation des produits chimiques au sein de l'Union Européenne. Dans le cadre de la liste SVHC (Substances of Very High Concern), les matériaux transformés sont testés pour vérifier l'absence de 181 éléments à risques. Il s'agit en particulier de substances cancérigènes, mutagènes, toxiques pour la reproduction, et organiques persistantes. D'autres matériaux sont ajoutés à la liste tous les 6 mois.

Using resources with consideration

DICOTA feels deeply committed to the environment and also breathes life into this commitment during the materials selection process.

Ressourcen bewusst nutzen

DICOTA fühlt sich der Umwelt in hohem Masse verpflichtet und lebt dieses Credo auch bei der Materialwahl.

L'utilisation consciente des ressources

DICOTA a développé un sens de responsabilité environnementale élevé et prolonge sa démarche éco-responsable également dans le choix de ces matériaux.

Implementation at DICOTA

All products of the DICOTA brand have met the stringent requirements of REACH and SVHC since 2011. Compliance is ensured through ongoing, independent laboratory analyses.

Die Umsetzung bei DICOTA

Alle Produkte der Marke DICOTA erfüllen seit 2011 die strengen Auflagen von REACH, resp. SVHC. Die Einhaltung wird mit laufenden, unabhängigen Laboranalysen sichergestellt.

La mise en œuvre chez DICOTA

Tous les produits de la marque DICOTA satisfont depuis 2011 les réglementations strictes de REACH et de SVHC. Nous assurons leurs conformités en réalisant des analyses de laboratoire continues et indépendantes.

#dasoriginal

Swiss – German – International

As one of the pioneers in the crazy nineties – that's when computers became mobile – we stand for innovation and customer proximity to this day. With a high focus on sustainability. As the first IT computer bag manufacturer, a member of BSCI representing fair partnerships and working conditions in global supply chains.

Als einer der Pioniere in den verrückten Neunziger Jahren – Computer wurden damals mobil – stehen wir bis heute für Innovation und Kundennähe. Mit hohem Fokus auf Nachhaltigkeit. Als erster IT-Computer-Taschenhersteller, der als Mitglied von BSCI für faire Partnerschaften und Arbeitsbedingungen in den globalen Lieferketten steht.

En tant qu'un des pionniers dans les folles années 90, époque où les ordinateurs sont devenus transportables, nous sommes une entreprise innovante avec un accent mis sur la durabilité. Nous sommes le premier fabricant de sacoches pour ordinateur membre du BSCI et garantissons des partenariats équitables et de bonnes conditions de travail sur toute la chaîne d'approvisionnement.

| Size | Art.-Nr. | Volume | Weight |
|----------|----------|------------|--------|
| 11–15.6" | D30924 | 27.5 litre | 3500 g |

Fixation straps and inside pockets for clothing, shoes, toiletries, etc.

Four exceptionally easy-running and quiet wheels

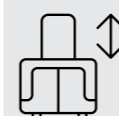

Cabin Roller PRO

Perfect partner for your private or business trip with the right mix of functionality and style.

Conforms to the IATA cabin recommendations – removable cushioned notebook case including padded compartment for tablets up to 12.5" – lockable front compartment offers direct access to notebook case for baggage screening – trolley belt to fixate notebook case on the trolley handle – material: 1680D polyester

| Size | Art.-Nr. | Volume | Weight |
|----------|----------|----------|--------|
| 14–15.6" | D31218 | 49 litre | 3900 g |

Trolley-Handle

Aside from the wheels, the most important component of the trolley is the telescopic handle. Qualitatively first-class components result in the famous difference. Form stability, longevity and full functionality over a long product lifecycle are the requirements.

In external, independent laboratories, the DICOTA trolley handles are retracted and extended up to 13,000 times by means of a computer-controlled mechanical device at a time interval of two seconds. This simulates long-term use.

CORPORATE

#getmoreforless

smart – lightweight – straightforward

Smart, light and flexible. That's how you go through life. And that's also what you imagine your ideal bag to be like. The handy protection for your device and data should be as colourful as your life.

Smart, leicht und flexibel. So gehen Sie durchs Leben. So stellen Sie sich auch Ihre ideale Tasche vor. Dabei darf der handliche Schutz für Ihr Gerät und Ihre Daten durchaus Farbe bekennen.

Practicité, légèreté et flexibilité. Ainsi se définit votre style de vie. C'est également ainsi que vous imaginez le design de votre sacoche de transport idéale. La protection de votre dispositif et de vos données doit également être colorée.

#yourbrand

individual – focused – labelled

The products are designed so that even small quantities can be individualised with your logo. We would be happy to show you our great variety of logo branding and to design sophisticated concepts for you which really catch the eye and leave an impression.

Die Produkte sind so konzipiert, dass sie bereits ab geringen Stückzahlen mit Ihrem Logo individualisiert werden können. Gerne zeigen wir Ihnen die vielfältigen Möglichkeiten des Logo-Branding und entwerfen ausgereifte Konzepte, welche die Blicke auf sich ziehen und Eindruck hinterlassen.

Les produits sont conçus de façon à pouvoir être fabriqués sur mesure avec votre logo, même en faible quantité. Nous serions heureux de vous montrer les nombreuses possibilités qu'offre le Logo-Branding et de développer pour vous des concepts mûrement élaborés pour attirer l'attention et marquer les esprits.

Laser engraving

The laser burns your logo down to the last millimetre on the metal plate. An elegant and delicate presentation of your brand.

Screen printing

The design is printed directly onto the fabric. Make a permanent statement in your company colours.

Stitching

Modern machines will stitch the logo on the metal plate. An elegant and delicate presentation of your brand.

Pad printing

This technique can be applied to most surfaces and creates a clear print even with fine designs.

Doming logo plate

With this technique, the logo is printed onto a plate and then provided with a fine 3D coating.

#onthemove

convenient – conducive – clever

Intelligent and reliable accessory products are particularly suitable for business purposes. However, the small helpers also offer numerous advantages in private use. Protect your hardware and data from physical or intellectual theft.

Im geschäftlichen Einsatz bewähren sich clevere und zuverlässige Zubehörprodukte ganz besonders. Allerdings bieten die kleinen Helfer auch im privaten Gebrauch zahlreiche Vorteile. Schützen Sie Ihre Hardware und Ihre Daten vor physischem oder geistigem Diebstahl.

Ces accessoires bien pensés et fiables sont particulièrement indiqués pour une utilisation professionnelle. Mais ils sont également très pratiques dans la vie de tous les jours. Protégez votre matériel et vos informations du vol, physique ou de la propriété intellectuelle.

T-Lock

3 x 7 mm

W-Lock

3.2 x 4.5 mm

N-Lock

2.5 x 6 mm

The right lock for each device

Notebooks as well as projectors, monitors and printers can be effectively secured with the DICOTA locking systems. Currently, device manufacturers use three different formats for the lock slots. You will find the right anti-theft protection for any device in the varied DICOTA range.

For more information, please contact your IT dealer or send an email to: taylor-made@dicota.com.

Good combination

With or without key? You have the choice. If you don't want to have keys, opt for a practical combination lock. With 10,000 combinations, the highest level of security is guaranteed.

One for all. B2B – Masterkey

Masterkey – described in short: Each user receives an individual lock, to which only the respective key fits. At the same time, the IT manager has maximum control and can open all the locks with the master key for the sake of service. Available from 50 pieces.

Uncompromising protection

A stolen device often entails much more than just replacing the hardware. The high-quality DICOTA locking systems offer maximum protection without compromises. Thanks to an integrated multi-strand steel cable of up to 5.2 mm diameter and solid closing heads with a perfect fit.

Flexible workplace design

The turning and swivelling closing heads adapt ideally to your device. Thanks to the push-to-lock function, the locks can also be secured without a key using one hand. Quick, simple and reliable.

SCREEN PROTECTION

Tailored to your device

The films are available in a variety of standard sizes and for all common notebooks, tablets, smartphones as well as monitors. For individual requirements, the films can already be custom-made in small quantities.

Please see the current range with all sizes at www.dicota.com.
For individual project inquiries we will gladly advise you at tailor-made@dicota.com.

handy – tailored – secure

You decide who watches

Using state-of-the-art micro-lamella, the privacy filters can reduce your screen's field of vision. Personal and commercial data can therefore be efficiently protected from prying eyes. You can work in a relaxed way and concentrate on what is most important. The secret 4-way filters prevent your screen from being viewed from all four angles, and are therefore perfect for mobile devices. The 2-way version obscures the view from left and right.

Quick installation without residues

The self-adhesive films, which can be adhered over the entire screen, thanks to a silicone layer, are suitable for permanent privacy protection and can be removed with guaranteed no bubbling and residues. For temporary use, choose the filters with magnetic strips or side fitting. The magnet solution is suitable for MacBooks and other devices with metal housing. For side mounting, both silicone strips and slide-in brackets for the monitor frame are included in the scope of delivery. This way the filter can be removed just as easily and reused within a matter of seconds.

Clear view for any work environment

In addition to effective privacy protection, filters prevent reflections and finger prints on the screen. Furthermore, the display is reliably protected against scratches and damage. The screen's touch function remains completely uncompromised in all models. Both the magnetic privacy filters and the side-mount models have a matte and a glossy side to optimally adjust the viewing conditions to your work environment.

Gentle on your eyes and your sleep

Electronic devices are omnipresent in our everyday lives. Often, we also take a look at our smartphones in the evening. Like daylight, LED displays have a high content of blue light. When the retina is exposed to this light at night, our internal clock is disturbed and the sleeping rhythm is negatively affected. Privacy filters reduce the amount of blue light emitted without compromising the image quality.
