Unlimited cross sales opportunities.

König offers a solution to all electronic needs in various product groups. The different product ranges match seamlessly because of the harmonized and recognizable product packaging. Combine the different ranges in one retail concept to maximize your cross sales opportunities.

For more than 25 years König stands for quality and competitive priced consumer electronics. We offer an accessible solution to all electronic needs varying from A/V accessories and cables to multimedia products, all with a focus on making life easier. Come home in the world of König, and enjoy the quality solutions we offer.

We think along in finding clever sales and marketing solutions. Smart solutions like planograms and counter- and floor displays help to create an optimal shopping environment to give the consumer the best possible shopping experience.

Eye catching in store presentation

We always offer an appropriate retail concept that fits every specific situation. With the goal to create a store presentation that matches the look of the shop and boost sales.

In store signage

• Focused on self-selection

Tailor made planograms

• for ultimate support

Connectivity

Philosophy

The connectivity range is an important part of the König identity. With a fast mover focused 250 SKUs counting range, covering all connectivity categories (Audio, Video, Satellite & Antenna, Computer, Personal Media, Telecom and Power) König offers a complete connectivity solution.

Retail concepts

With a modular blister packaging design König offers a space efficient and well organised retail concept. The combination of the self-select blister packaging and in-store signage enables the consumer to find this cable in an instant.

Self-select retail packaging

König connectivity offers a striking retail packaging with a fresh look and a unique shape. With a focus on self-selection König enables the consumer to easily find the right product. Packed in modular space efficient transparent standard blisters (7 different sizes)

1. 3 languages on front
2. 22 languages on back
3. Colour coding on connectivity category
4. Large product window
5. Installation schedule
6. Clear description of connectors
7. Icons to put extra attention on specifications
8. Large length indication in metres and feet

Unlimited cross sales opportunities

König Connectivity matches seamlessly with the other König product groups. Combine the connectivity range with for example wall mounts, satellite receivers or cleaning kits in one retail concept and maximise your cross sales opportunities.

Wallmounts

Philosophy

Our wall mount assortment is an important part of the König identity. With a clear product range of reliable wall mounts, an attractive in-store presentation and competitive prices and good margins, we position ourselves below the A brands.

In-store presentation materials

To stimulate in-store self-selection, König presents its wall mounts according to a clear selection overview. Based on functionality and screen size, which are the two most important variables when someone is looking for a mount, König provides its packaging with reference codes, creating a direct link between selection overview and packaging. By using the selection overview, consumers are able to choose the right mount and match it with the packaging on the shelves.

2: Choose your TV size

Screen size:		10/26" / 25-66cm	26/42" / 66-107cm	42/65" / 107-165cm
1: Choose a function	Fixed	A	B	C
	Tilt	D	E	F
	Full Motion	1-way	G	H
2-way		I	J	K
3-way		L	M	N

Self-selection packaging

Our retail-focused König wall mount packaging is equipped with all characteristics that stimulate self-selection. By drawing the attention directly to functionality and screen size, König enables consumers to easily find the appropriate mount in just two steps.

- Step 1. Choose a functionality: fix, tilt or full motion.
- Step 2. Find your screen size.

1. Large product picture for an optimal product recognition.
2. Large screen size range indication.
3. Colour-coded functionality.
4. Reference codes for easy self-selection (in-store presentation materials).
5. Icons with short feature descriptions.
6. Focus on easy installation.
7. Various ways to position the packaging.

The self-selection mark is always visible.

The self-select concept

An important trend in retail is self-selection: enabling consumers to find the right products instantly. König combines smart packaging features and specific in-store presentation materials to help your customers finding the right wall mounts and stimulate self-selection.

4-IN-1 REMOTE CONTROL ONLINE PROGRAMMABLE

'Online programmable' is quick, easy and digital, the perfect alternative for original remote control.

The online programmable remote control combines the simplicity in installation of an universal remote control and the functionality of an original remote control.

It can be programmed with a smartphone, tablet or PC to control up to 4 devices. Programming works very easy: Go to www.madeoryouweb.it, select a language and follow the instructions step by step. The remote control is compatible with TV, VCR, DVD, SAT, HIFI and DVB-T, and is equipped with a very large function program to replace nearly all original remotes.

Interactive television: a complete new experience

Interactive TV is the new way of watching, or rather, experiencing TV. Join a quiz, cast a vote for a contest, order product samples from a commercial, watch movies on demand or surf the internet on a TV.

Interactive TV is becoming more and more popular, but requires a perfect TV signal to guarantee smooth images. So make sure you offer your customers the right solution to realise the best TV experience.

König antenna amplifiers realise the best TV signal for interactive TV

These amplifiers with gain control are the perfect solution to receive an ultra-clear TV signal. The active return path guarantees the best interactive TV experience and supports a cable (internet) modem.

Security & Safety

Security and safety, a matter of basic need

Safety is the second most important basic need in human life. This (sub) consciousness is strengthened by all reports in the press which stimulated the demand for easy to apply products and solutions.

The mission is clear: make security products accessible and available. The distance between the product and end-user should be reduced and consumers should be convinced that König security offers an easy

to apply do-it-yourself solution. By developing a clear product concept, König anticipates on the basic needs of life and the increasing fear of crime.

To make security products accessible for consumers it is a necessity to offer easy to install and easy to use products. The König security products are mainly plug and play or pre-installed and convenient apps are available on the Play Store and App Store, to create a hassle free experience.

A complete security & safety solution

König offers a wide security & safety assortment within 8 categories:

- Observation
- Dummy security
- Alarm security
- IP security
- Wireless security
- Spy security
- Home prevention
- Door security

Self-select retail packaging

By giving the different categories in the assortment a dedicated name and colour, König creates a clear overview in its assortment. This makes it all the more accessible for consumers and finding the right product will be child's play.

Colour coding on concept level

Self-select clear product description

Large product picture provides high product visibility

How to choose the right product?
-consumer leaflets

The consumer focused security & safety solution

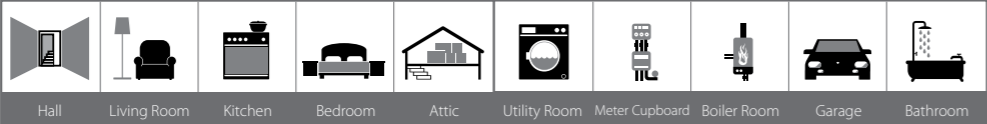

- Self-select consumer packaging
- Eye-catching in-store presentation that brings products alive
- Assortment covers 8 security & safety categories

In-out displays

- Stimulation of cross sales and impulse buying
- A new product category to create new turnover
- Electronic data feed option to simplify the listing and data setup

Home Prevention

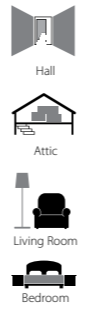

The König home prevention programme helps you to protect yourself against various indoor dangers. The assortment not only contains a number of smoke detectors but also heat, gas, carbon monoxide and water detectors. For maximum safety, it is highly important to place the right detector at the right location, which is why we would like to advise you.

Observation

The König observation program helps you to maximise the security of your home or business. With a complete but comprehensive range of recording and camera solutions König allows you to keep an eye on your belongings 24/7.

TV lines

The resolution is partly determined by horizontal lines. The higher the number of lines the sharper the recorded images.

Basic König models capture 700 lines and are well suited for observation purposes. The top model captures 1000 lines. This resolution is similar to HD quality, which captures every detail.

Varifocal lenses

Cameras with a varifocal lens offer optimal freedom when installing the camera. You can adjust the focus distance as well as the viewing angle of the camera by hand.

A varifocal camera is the ideal solution to realise the sharpest images no matter where the camera is located.

Night view

Cameras with night view allow you to capture images even when it is completely dark. Visibility is determined by the number of infrared LEDs.

All König cameras are equipped with night vision so you are truly secured 24 hours a day. The basic model has 24 infrared LEDs and has a night view of 5 to 10 meters.

Camera	Resolution	Varifocus	Nightview

2.4 GHZ DIGITAL WIRELESS OBSERVATION SET REMOTE MOBILE VIEWING 1 CAMERA 1 RECORDER INTEGRATED 7" LCD MONITOR

Wireless observation set to enable remote surveillance while you are away from home. The 4-channel recorder with integrated 7" colour LCD monitor is supplied with an RJ45 dongle to connect it with an existing network which supports mobile viewing via a free app.

The camera is water-resistant (IP54) and features night vision (up to 5 metres) and motion detection. Videos are either stored on SD (max. 32 Gb) or USB (max. 1 Tb), both not included.

SAS-TRANS62 EU Plug
SAS-TRANS62U UK Plug

IP Security

Plug & Play IP cameras are among the easiest to use solutions by König. These products are easy to install and operate, and can be used for many purposes. Of course you can use the König IP cameras to protect your home or business, but you can also use it as a baby monitor or as a gadget, for example to keep an eye on your pet.

Do it yourself security

König is doing everything in its power to make the installation and use of IP cameras as simple as possible. You install the IP camera in just two simple steps, without complicated network configurations;

1. Download the app in the app store
2. Scan the QR code on the IP camera

The König security app allows you to log in remotely from your smartphone or tablet. Additionally, you will receive a notification when motion is detected.

Sound

All König IP cameras feature a microphone, so you not only record images but also sounds.

IP cameras with two-way communication make it possible to not only see and hear what is happening at home, but also to talk back. This way you have maximum interaction and you can use the IP camera as for example a baby monitor.

Pan & Tilt

The ability to rotate the camera up, down, left and right allows you to have maximum flexibility and to keep an eye on everything.

Indoor / outdoor

All models are suitable for indoor use. For outdoor use König offers a model with an extra solid casing, 10 meters night vision and high weather resistance.

Smart Home Security: be in control

Control a device at home through a smartphone, that is the essence of smart home. Through plug and play solutions, smart home is becoming more and more popular. It is possible to create an environment where convenience, safety and energy saving are fully in your control.

König smart home security enables you to manage your home security and appliances from anywhere in the world. The free app enables remote viewing and controlling. In addition, the set is expandable with extra accessories.

By adding smart power sockets, for example, you can operate connected electric appliances remotely, combining safety with convenience.

Feel safe with König alarm systems

Create a safe environment with König alarm systems. The whole range of alarm security is based on wireless operation. All products are pre-programmed and ready-to-use, without complicated settings. A real plug-and-play solution! Once an intruder is detected, the siren will sound and the user will get instant notification on its mobile via a phone call, sms or app notification.

WIRELESS PSTN ALARM SYSTEM

Wireless alarm system with built-in PSTN telephone dialer to efficiently secure homes, offices or shops.

In case of an intrusion, the system triggers an alarm sound and immediately starts calling the preprogrammed numbers.

All devices included in the kit are pre-paired and ready for use after installation of the system.

- 1x control unit
- 1x motion sensor

Computer and Smart Media

Philosophy

Our smart media concept is inspired by a universal approach: no matter what kind of tablet, smartphone or notebook your customers come up with, we have the right solution at hand; you only have to know what specifications you are looking for. Besides the different universal solutions we also offer a wide variety in model specific accessories.

Being able to offer a wide variety plays an important role in our product selection strategy. We closely follow the market trends to be able to constantly add exclusively designed products to further complete our range.

In addition, we commit ourselves to offering our customers outstanding availability and short lead times, which we achieve through supply chain excellence and advanced logistics.

This way, we can guarantee the best possible margins, competitive pricing and great sell-out.

POS material and rich content

Rich content such as clear pictures and movies are available, as well as in-store headers and leaflets for your customers.

Self-select retail packaging

We chose modular clear packaging to serve this category as they create a well-organised and professional look on shelves. Moreover, your customers can easily find what they are looking for, thanks to the icons on the packaging, which are clearly showing the unique selling points of a product.

Retail concepts

First impressions are often crucial, which is why product positioning and delivery of complete content are at the basis of our concepts, creating an organised and professional look which appeals to your customers.

We designed multiple retail concepts to suit all your needs. A one- or multiple-metre concept includes all elements of the König Smart Media range, while a stand-alone floor display or gondola presentation displays a smaller selection.

Assortment

Our computer and smart media assortment represents a complete range in the following sub-categories:

- Protection
- Smartphone and tablet stands & mounts
- Input devices
- Charging & Energy
- Photo accessories
- Audio & Communication
- Digital storage
- Cleaning

Your clear and complete Computer & Smart Media solution

- Broad range of smart universal & model specific solutions
- Quality products with added value to the consumer
- Competitive pricing
- Attractive in-store presentation
- Excellent sell-out
- Perfect up-sales opportunities for smartphone and tablet devices
- A product range that is constantly renewed to stay on trend
- Best possible margin

Audio

Philosophy

Music is very important in the lives of many people. It is the key to inspiration and creativity, it can create a mood and enhances or soothes emotion.

With our audio concept we aim to make it possible for everyone to listen to their music the way it is meant to be. König stands for good quality sound and a good-looking, customary design.

through supply chain excellence and advanced logistics.

This way, we can guarantee the best possible margins, competitive pricing and great sell-out.

We closely follow the market trends and the König audio range offers products with the latest technologies, like DAB+, Bluetooth and NFC. In addition, we commit ourselves to offering our customers outstanding availability and short lead times, which we achieve

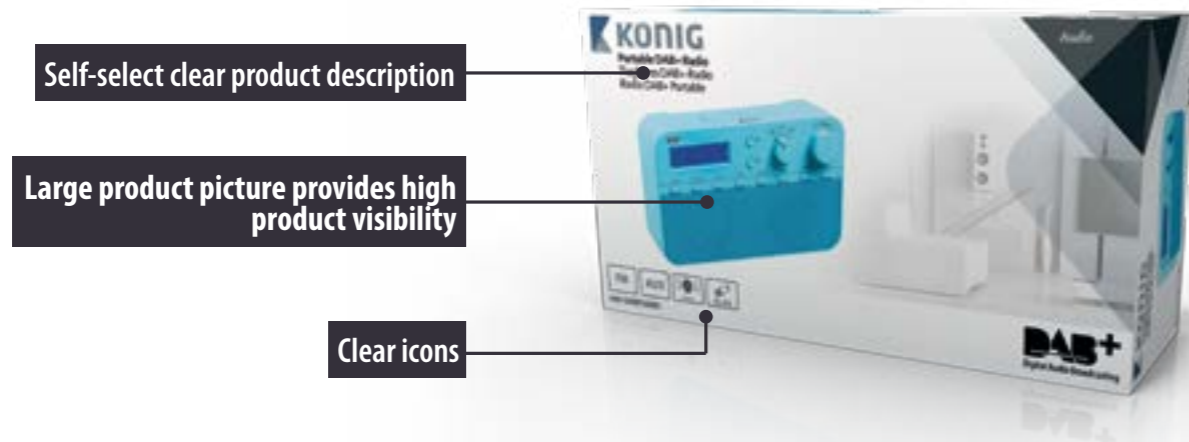

'With the complete audio range, König offers a good solution for all user applications and a broad audience.'

Self-select retail packaging

We chose clear modular packaging to serve this category as they create a well-organized and professional look on shelves. Moreover, your customers can easily find what they are looking for thanks to the icons on the packaging, which clearly show the unique selling points of a product. The Bluetooth products are easily recognised by a different colour scheme.

Assortment

Our audio assortment represents a complete range in the following sub-categories:

- Headphones / headsets
- Speakers
- Radios
- Portable audio
- Home audio
- Microphones
- DJ & Entertainment
- Communication

POS material and rich content

Rich content such as clear pictures and movies are available, as well as in-store headers and leaflets for your customers.

Retail concepts

You can choose between a large variety of retail concepts, each with their own focus.

We conceived concepts from one to multiple metres, which include all elements of the audio range. We also offer stand-alone floor displays and gondola presentations to show a smaller selection.

We know the importance of delivering all-in solutions, which is why our concepts are always well-organized and clear. Positioning of the products and completeness of the content play a major role in the way we design our concepts.

The crystal clear audio solution

- Quality products with added value to the consumer
- Latest technologies
- Competitive pricing
- Broad range
- Clear in-store presentation
- Modular packaging
- Excellent sell-out
- Best possible margin

The SMA range of König is the solution for everyone who wants a good mobile speaker system. This 2-way bass reflex PA speaker has a powerful built-in 800 W amplifier.

The stackable trapezoidal ABS housing is made of an impact resistant nylon fiber, which makes this speaker very suitable for mobile use.

The speaker is completed with handles, a strong metal protection grill and a top hat for easy use of the speaker stands. This speaker has a wide range of applications through a built-in mixer with tone/gain controls and its multiple connections such as a microphone input.

Haircare Products

König offers a complete range of hair products, including a hairdryer, curler and straightener. All products are equipped with the latest features, such as ionic technology and ceramic coating, and they are made of superior quality materials.

The products come in two different colours: burgundy/black and pearl/blue. Integrated in a well-thought packaging concept, these products have an appealing in-store presentation.
