HIGH TECHNOLOGY & MAXIMUM BREATHING COMFORT WITH SCUBAPRO REGULATORS

SCUBAPRO FIRST STAGE REGULATORS

First stage regulators are divided into piston & diaphragm categories.

SCUBAPRO PISTON TECHNOLOGY

The general advantage of a piston first stage lies in its reliability & reduced maintenance requirements. More importantly, no other design can reach the high air delivery rate of a balanced piston controlled first stage. First stages with air-balanced pistons deliver significantly more air to the second stage than any other first stage. This technology is featured in our MK25 EVO first stages.

Classic downstream piston - The classic downstream valve is the first choice of diving centers & rental facilities worldwide for warm & moderate water temperatures. This technology is featured in our MK2 EVO first stage.

SCUBAPRO DIAPHRAGM TECHNOLOGY

Diaphragm-based first stages are environmentally sealed so water cannot enter the inner mechanism. Diaphragm first stages have been the favored choice of cold water divers & those working in contaminated or muddy water. This technology is featured in our MK17 EVO & MK11 first stages.

SCUBAPRO SECOND STAGE REGULATORS

A high quality second stage can significantly reduce stress & enhance diver safety by providing a smooth, low-effort breathing response, resulting in ample yet controllable quantities of air.

AIR-BALANCED VALVE TECHNOLOGY

The air-balanced valve technology of SCUBAPRO second stages features a balancing chamber in the second stage mechanism, slightly offsetting the force of the downstream air entering from the first stage. Air-balanced valve technology is featured in X-Series, S-Series & G-Series second stages. For best results, they should be teamed with balanced first stages like the MK25 EVO or MK17 EVO.

MK25T EVO / S620X TITANIUM

First stage

- Titanium construction
- Cold water XTIS (external thermal insulating system)
- Improved cold water performance by 30% in waters down to 2°C

Second stage

- Rugged reinforced technopolymer case
- Titanium barrel
- New exhaust tee increases performance while directing bubbles out of the field of view
- Compact Hi-Flow mouthpiece, exclusive to the S620 Ti - improved airflow & mouth comfort

X12.620.400

MK25 EVO / A700 CARBON BLACK TECH

First stage

- DLC (Diamond-like Carbon) black finish
- Cold water XTIS (external thermal insulating system)
- Improved cold water performance by 30% in waters down to 2°C

Second stage

- Precision handcrafted construction (full metal case)
- NEW carbon fibre cover that's virtually bulletproof
- Exceptional breathing performance at any depth
- Diver adjustable venturi-initiated vacuum assist (VIVA)
- High comfort orthodontic mouthpiece

X12.770.700

MK25 EVO / S600

First stage

- Double chrome plated marine brass
- Cold water XTIS (external thermal insulating system)
- Improved cold water performance by 30% in water down to 2°C

Second stage

- Technopolymer body & components
- Diver adjustable venturi-initiated vacuum assist (VIVA)
- High comfort orthodontic mouthpiece

X12.971.050

MK25 EVO / D420

First stage

- Double chrome plated marine brass
- Cold water XTIS (external thermal insulating system)
- Improved cold water performance by 30% in water down to 2°C

Second stage

- NEW. Uniquely shaped casing carries on the D-Series heritage with the latest advances in breathing performance technology
- NEW. Air-balanced Progressive Flow Control Valve is able to deliver abundant airflow with a natural smoothness comparable to breathing on the surface
- NEW casing design features inner winglets that direct airflow towards the exhaust valve, creating a dramatic improvement in exhalation effort
- NEW. Diaphragm is located in the lower section of the casing to take advantage of the pressure gradient in the upright position, making breathing even easier

X12.420.000

MK19 EVO / D420

First stage

- Air balanced diaphragm delivers constant & effortless airflow unaffected by depth, tank pressure, or breathing rate
- Dry ambient pressure chamber increases freezing resistance, ensuring consistent airflow in the coldest conditions
- Environmentally sealed system prevents water & pollutants from fouling the inner mechanism
- Five high-flow low pressure ports on a swivel turret maximize hose routing options (same as MK25)
- Double high pressure outlets

Second stage

- NEW. Uniquely shaped casing carries on the D-Series heritage with the latest advances in breathing performance technology
- NEW. Air-balanced Progressive Flow Control Valve is able to deliver abundant airflow with a natural smoothness comparable to breathing on the surface
- NEW casing design features inner winglets that direct airflow towards the exhaust valve, creating a dramatic improvement in exhalation effort
- NEW. Diaphragm is located in the lower section of the casing to take advantage of the pressure gradient in the upright position, making breathing even easier

X12.425.000

SIDEMOUNT REGULATOR SET

Offering effortless air delivery and outstanding reliability, this is the go-to air delivery system for cold water or technical diving. There's no better example of solid first stage performance in all water temperatures than the MK25 EVO. Teamed with the venerable G260, this system can be relied upon to deliver top-of-the-line performance in the most extreme conditions.

Set Contains

- 2 x MK25 EVO DIN 300
- 2 x G260
- 2 x Compact Guages

Plus

- 2 x HP hose 20cm
- LP hoses: 20cm (x2), 64cm (x1), 200cm (x1)
- BPI quick coupling x 2
- LP hose elbow x 1
- Regulator Necklace x 1
- Plug x 2

X12.252.060

MK21 / S560

First stage

- Compact design 20% smaller than the MK25
- Air-balanced flow through piston design
- Optional replaceable head ideal for technical diving
- 4 LP ports & 2 HP ports

Second stage

- Lightweight techno-polymer barrel
- Diver adjustable inhalation effort
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- Ultra comfortable orthodontic mouthpiece

X12.974.000

MK21 / C370

First stage

- Compact design 20% smaller than the MK25
- Air-balanced flow through piston design
- Optional replaceable head ideal for technical diving
- 4 LP ports & 2 HP ports

Second stage

- Compact body & exhaust tee
- Optimal flow design incorporates a special barrel & balanced poppet valve to produce maximum airflow under any diving conditions
- Diver-adjustable inhalation effort
- Venturi-Initiated Vacuum Assist (VIVA)
- Ultra-comfortable orthodontic mouthpiece

X12.979.000

MK17 EVO / S600

First stage

- Air balanced diaphragm
- New machined body
- 4 high flow LP ports & 2 HP ports
- Environmentally sealed mechanism
- New cover & caps

Second stage

- Technopolymer body & components
- Diver adjustable venturi-initiated vacuum assist (VIVA)
- High comfort orthodontic mouthpiece

X12.927.050

MK11 / C370

First stage

- Balanced diaphragm design
- Cold water – anti-freeze protection
- Chrome plated brass body in compact design
- 4 LP ports & 2 HP ports

Second stage

- Compact body & exhaust tee
- Optimal flow design incorporates a special barrel & balanced poppet valve to produce maximum airflow under any diving conditions
- Diver-adjustable inhalation effort
- Venturi-Initiated Vacuum Assist (VIVA)
- Ultra-comfortable orthodontic mouthpiece

X12.175.000

MK2 EVO / R095

First stage

- Increased performance at low tank pressure
- Cold water XTIS (external thermal insulating system)
- Improved positioning – 5% reduced in length
- New piston design with 15% increased airflow

Second stage

- Classic downstream valve
- Preset VIVA
- Reversible LP hose attachment

X12.096.000

MK25 EVO

- Consistently ranked as the top-performing first stage
- Air-balanced flow through piston design
- NEW XTIS (external thermal insulating system)
- 30% increase in freezing resistance
- 5 extra high airflow LP ports on a rotating turret
- 2 HP ports

INT (Yoke)... X10.713.010
DIN... X10.713.030

MK21

- Compact design 20% smaller than the MK25
- Air-balanced flow through piston design
- Optional replaceable head ideal for technical diving
- 4 LP ports & dual HP ports
- Adjustable intermediate pressure

INT (Yoke)... X10.721.000
DIN... X10.721.300

MK17 EVO

- Air balanced diaphragm
- New machined body
- 4 high flow LP port & 2 HP ports
- Environmentally sealed mechanism
- New cover & caps
- DIN wheel (new design)

INT (Yoke)... X10.714.010
DIN... X10.714.030

MK11

- Balanced diaphragm design
- Cold water – anti-freeze protection
- Chrome plated brass body in compact design
- 4 LP ports & 2 HP ports

INT (Yoke)... X10.708.000
DIN... X10.708.300

MK2 EVO

- NEW XTIS (external thermal insulating system)
- Industry renowned 'workhorse' regulator for Dive Schools
- New piston design with 15% increased airflow
- 50% increase in freezing resistance
- 4 LP ports & 1 HP port

INT (Yoke)... X10.063.000
DIN... X10.063.300

A700

- Precision handcrafted construction with polished chrome exterior & full metal case
- Air balanced valve & coaxial flow
- Diver-adjustable inhalation effort
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- Super-flow hose & high comfort orthodontic mouthpiece

X11.700.000

S600 / S620Ti

- Air balanced flow valve
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- Diver-adjustable inhalation effort
- Full metal valve housing
- Super-flow hose
- High comfort orthodontic mouthpiece
- Titanium available

X11.620.000

X11.603.000

S560

- Lightweight techno-polymer barrel
- Air balanced flow valve
- Diver adjustable inhalation effort
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- High flow exhaust valve
- Super flow hose & ultra comfortable orthodontic mouthpiece

X11.560.000

G260

- Air balanced flow valve
- Diver-adjustable inhalation effort
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- High flow exhaust valve
- Ultra comfortable orthodontic mouthpiece
- Full metal valve housing

X11.263.000

C370

- Compact body & exhaust tee
- Optimal flow design incorporates a special barrel & balanced poppet valve to produce maximum airflow under any diving conditions
- Diver-adjustable inhalation effort
- Venturi-Initiated Vacuum Assist (VIVA)
- Ultra-comfortable orthodontic mouthpiece

X11.370.000

R195

- Classic downstream valve
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- Reversible hose attachment
- Super-flow hose
- Super comfort orthodontic mouthpiece
- Metal valve housing

X11.331.000

R095

- Classic downstream valve
- Preset VIVA tuned for safe, uncomplicated use
- Super-flow hose
- High comfort orthodontic mouthpiece
- Full metal valve housing
- Reversible hose attachment

X11.330.500

R195 OCTOPUS

- Classic downstream valve
- Diver-adjustable venturi-initiated vacuum assist (VIVA)
- Super-flow hose
- High comfort orthodontic mouthpiece
- Full metal valve housing
- Reversible hose attachment
- 1m yellow super flow hose

X11.331.200

R095 OCTOPUS

- Classic downstream valve
- Preset VIVA
- High comfort orthodontic mouthpiece
- Full metal valve housing
- Reversible hose attachment
- 1m yellow super flow hose

X11.330.400

AIR 2 BLACK 5th Generation

- Downstream valve
- Air-balanced power inflator valve
- Pre-tuned fixed VIVA flow vane
- Improved design, control & safety for BC inflating
- Larger deflation button & high comfort mouthpiece

X21.090.000

DIVE CENTRE PACKAGE

“DEEP DOWN YOU WANT THE BEST”
Now you can have the best at a price you can afford

A combination of the bulletproof Scubapro MK2 Evo regulator set & the outstanding T-One BCD. The MK2 has an unrivaled reputation within the dive industry for unhindered and continued use, a reputation improved further with this latest Evo model: Reduced size & weight, yet increased performance (air flow increased by 15% > 3,000 L/min) . The practical T-One BCD sets a new standard in looks and longevity.

The SCUBAPRO set includes:

T-One BCD - 4TH Generation

- Heavy duty 'colour lock' cordura 1000 denier exterior
- Comfortable nylon 420 denier interior
- Carbon reinforced shoulders
- Balanced power inflator
- Internal octopus/console holder
- Padded cummerbund & backpack
- Color coded size tabs

T-One Size	XXS	XS	S	M	L	XL	XXL
Colour Coded	Pu	Pi	G	B	Li	O	Gp
Lift Capacity in Kg.	9	11	14	17	18	21	22

R095/R095 Octopus

- Classic downstream valve
- Full metal valve housing
- Preset VIVA
- Left or Right hose configuration
- Superflow hose
- High comfort orthodontic mouthpiece

MK2 EVO 1st Stage

- Industry renowned 'workhorse' regulator
- Standard piston design
- New XTIS (extended thermal insulating system)
- 15% increase in flow rate (>3,000LPM)
- 4 LP ports & 1 HP port

Console 2

- Genuine SCUBAPRO hose & gauges
- Pressure gauge 300bar
- Depth gauge 60m with parabolic scale & maximum depth indicator
- Lightweight & compact
- Loop on case to attach a safety lanyard
- Fluorescent dials

HYDROS PRO BCD

- Winner 'BEST IN SHOW' - DEMA 2015
- Innovative high tech modular system
- Monprene® TPE (thermoplastic elastomer)
 - Unrivalled strength & durability
 - Water resistant
 - Super quick drying
- Integrated weights system, 3 dump valves, 6 D-rings with adjustable height, trim pockets
- Colours for Men: Black, Blue, Orange, White, Yellow
- Colours for Women: Pink, Purple, Black, White
- Converts into a lightweight travel BCD with free backpack
- Sizes for Men: S, M, L, XL-XXL
- Sizes for Women: XS-S, M, L

Introducing the key to transforming your dive experience. Hydros Pro is an incredible feat of engineering offering unprecedented convenience, on-the-go configuration & specialized fits. Hydros Pro isn't just for professionals, it's for anyone who loves to dive & wants the best

Instant Dry & Durable

No water absorption means neutral buoyancy & a light weight BC that is dry when it comes out of the water. Hydros Pro also stands up to UV, chemicals & abrasion

Smart-Pack Design

Pack your entire kit into the small backpack (included) & get going

Hydros Pro Man... X21.73
Hydros Pro Lady... X21.73

2-in-1 BC

With a quick switch of clips, Hydros Pro transforms from a basic harness travel BC to a jacket with fully integrated weight pockets

HYDROS X BCD

NEW

- HYDROS X is based on the same modular Monprene® harness and backpack design popularized by the Hydros Pro back-inflation BCD
- NEW EndurTex high-tenacity 420 nylon fabric bladder is lightweight yet extremely durable
- Monprene® thermoplastic harness is extremely resistant to UV, chemicals and abrasion, plus it doesn't absorb water to minimize drying time
- Rotating quick-release shoulder buckles allow you to route your shoulder straps to optimize fit
- Super Cinch tank buckle system locks the tank in solid for maximum stability at depth
- Integrated front weight system is based on the same Monprene® pockets found on the HYDROS PRO
- Two big zippered cargo pockets offer great gear-carrying capacity and are easily accessible even when the weight pouches are fully loaded
- Two stainless steel D-rings provide clip-on points for additional gear
- Includes Multi-Mount Accessory Matrix with multiple D-rings and mounting points that easily attach various dive accessories
- Color kits available pg 65
- Buoyant lift ranges from 13kg to 20kg for men, and 13kg to 17kg for women, depending on size

SEAHAWK 2 BCD

NEW

- Ergonomic shoulder design with rotating buckles improves fit
- Reinforced soft backpack with high-grip tank patch and inner padding
- Super Cinch stainless steel tank band system
- 50mm waist strap with lightweight plastic buckle
- Two large zippered pockets providing lots of cargo-carrying capability
- 6 Stainless Steel D-Rings
- Constructed of 1000 denier nylon and 420 denier nylon for maximum durability
- Air cell offers substantial buoyant lift when inflated.
- Balanced power inflator
- Soft neoprene neck roll and padded back pad.
- Quick-release integrated weight pouches secured with low-profile buckles
- Two rear trim pouches help create a comfortable swimming position

- Constructed of 420 denier nylon
- Padded backpack, adaptable sternum strap
- Optional gravity release weight pouches
- Balanced inflator & 3 dump valves
- Two zippered cargo pockets

X21.222.010

CHILD BCD

- 1000 Denier Cordura
- Velcro pocket & zippered pocket
- Adjustable cummerbund waistband
- Quick release shoulder straps
- Sub-Alert Power Inflator
- Soft Backpack Pad
- 3 dump valves
- Plastic tank cam lock buckle

UBC3S

SIDEMOUNT

- Modular approach
- Compact independent aircell
- Two aircell sizes: 12 / 20 liters lift (25 / 45lbs.)
- Soft Airnet finished backpack
- Compatible with X-TEK steel & aluminum back plates
- Stainless steel grommets, D-rings & handles
- New Dump valve, corrugated hose & BPI
- Specific streamlined elbow
- Bungee & hooks for tank support
- Fully adjustable, easy to wear & configure
- Harness includes crotch strap
- Side bungees for streamlined shape
- Optional top cover for total streamlining & increased durability

GALILEO G2

Intuitive, reliable & bulletproof, SCUBAPRO has combined everything you love about the Galileo with everything you've dreamed of in a dive computer. It's everything you expect from SCUBAPRO in full colour

Easy to read, Easy to use, Easy to love

Spend less time reading manuals & more time enjoying the experience

Easy to manage

- Bluetooth compatible, the G2 easily syncs with your PC, Mac, Android or iOS
- Stores up to 1,000hrs of dive profiles
- Rechargeable battery lasts up to 50 dives

Make it your own

- Customize your screen, colours, orientation & even the attachments to make the G2 truly your own
- Customized menu listings give you the ability to use as much or as little of the technology as you want; with easy activation of freediving, trimix, CCR & sidemount modes without downloading or upgrading
- The G2 is targeted to quickly become the favorite computer for all divers of all skill levels & goes wherever your passion for diving takes you
- Even your dive profile is one of a kind-based upon your real-time breathing rate, your skin temperature & your heart rate

Galileo G2 Wrist Only... X05.080.101
Galileo G2 Console... X05.081.111

ACTION / ACTION HR

seac

- Easy to use, with 3 main modes:
 1. SCUBA MODE: full management of recreational dive profiles with a Bühlmann ZHL-16C decompression algorithm for 1 or 2 mixes (air, Nitrox, & mixes with O₂ concentrations up to 99%)
 2. GAUGE MODE: Depth gauge & stopwatch for managing your dive profiles independently.
 3. FREEDIVING MODE: Dive/surface time, current/maximum depth
- LOGBOOK MEMORY: SCUBA mode: 40 hours with records every 5". FREEDIVING mode: 18 hours of activity with records every 2"
- SAFETY WARNING: MOD exceeded alarm, deco stop violated alarm, ascent speed alarm, NoFly time & desaturation calculations, maximum permitted altitude warning
- "NDL only" Dive Planner
- Dive Manager software for MAC/PC (requires Windows 10)
- Download data via USB cable (optional accessory)
- Ultra-durable structure treated for improved resistance to blows, corrosion, & swings in temperature
- LCD screen with contrast & adjustable-intensity backlighting
- Long-lasting CR2450 battery
- Available in version with crown, buttons, & buckle in stainless steel (Action) or with HR treatment (Action HR)

Transfer your dive logs easily over Bluetooth to your mobile after diving. In the Suunto app you can re-live your dives, add photos and share your underwater adventures with friends

Key Features:

- Simple and easy-to-use interface
- Easy to read (High contrast colour screen with large numbers)
- 4 modes: Air, nitrox, freedive & gauge
- Vibration alarms
- Rechargeable battery
- Connect over Bluetooth to Suunto app
- User updatable software
- Integrated tilt-compensated 3D digital compass
- Wireless air integration (up to 3 Suunto Tank PODs)
- Suunto Fused 2™ RGBM for maximum dive time
- Reinforced composite case rated to 100 m depth
- User exchangeable straps (multiple optional straps available)
- 4 models: All-Black, Black/Lime, Black & White
- Multi user exchangeable straps to match your style in and out of water

- Choice of combat & tactical units worldwide
- Water flows-thru vents on weaker down-stroke
- Vents reduce pressure, providing less strain on the leg
- Angle of the vent acts as a solid blade on up-stroke
- Up-stroke provides maximum power & propulsion
- Ideal for Diving

VIRTUALLY INDESTRUCTIBLE
used by Navy Divers world-wide

THERMAL TEC STEAMER

3mm & 5mm

A serious suit for serious divers.
The Thermal TEC is a perfect combination of advanced materials & thoughtful construction, creating a suit of outstanding durability, comfort & insulation. Main suit sections are made of durable & fast drying N2S neoprene. Wrist & ankle zippers for divers ease of wear.

PROFILE 0.5mm

- 0.5mm nylon neoprene outside for durability & Silverskin inside for easy wear. Silverskin is an ultra-smooth interior finish. It consists of a cell finish with 'metalite' coating for extra warmth retention. It dries fast & seals extremely well. It is also used on hood & glove interiors
- Non-chaffing flat seams for insured comfort directly against your skin. Flat seam construction is a stitching pattern that provides comfort, strength & flexibility on warm water suits
- Thumb & foot straps, for added convenience
- Back zipper for great ergonomics
- Men's & women's dedicated sizes & colours

Lady, 2XS... X63346/XXS

Men, S... X630372/S
Men, M... X630373/M
Men, L... X630374/L
Men, XL... X630375/XL

DEFINITION 3mm

- Made from X-Foam neoprene, the only "green" neoprene that complies with P.A.H. regulations
- The "body map" system uses special tailoring & material inserts to compensate for the stresses of the human body
- Ultraspan chest panel & Stretchtec side panels work together to produce a highly flexible & snug fit
- Infrared (IR) fleece interior lining reflects body heat for extra thermal insulation & is extremely soft against the skin
- Zippered seals at wrists & ankles plus a rear diagonal zipper block water entry, are comfortable & make the suit easy to put on & take off
- Abrasion resistant fabric on shoulders & seat, along with elbow pads & kneepads, increase long-term durability
- Spine pad cushions the tank, providing additional comfort during extended dives
- Small neck zipper enhances topside comfort, eliminating the need to remove the suit between dives
- I-Safe strap keeps a wrist instrument securely attached

T-FLEX LONG SLEEVE UPF 80

- Look sharp while enjoying outstanding protection with the stylish T-FLEX rashie. Made from water-repellant Flex-Tec, the T-FLEX doesn't trap water & it dries quickly
- The thumb-hole wrist design on the long sleeve models makes it easy to wear beneath a wetsuit. When topside, its UPF80 (Ultraviolet Protection Factor) rating provides ample protection from the sun's rays

T-FLEX LONG SLEEVE UPF 80

- UPF 80 rating (awarded by UV standard 801)
- Made from a blend of 86% super-soft nylon & 14% highstretch spandex
- The nylon is lightweight & quick drying
- The spandex provides more fabric stretch & allows for comfort & form-fitting styling
- Exceptional strength, abrasion resistance moisture control
- Form-fitting for that sleek hydrodynamic look & feel
- Slimming color panels & cut compliment the female body

XS... X657351/XS
S... X657352/S

T-FLEX LEGGINGS UPF 80

- Rated UPF 80 by UV Standard 801 - the highest UV protection rating available in the industry
- Made from a blend of 86% super-soft nylon & 14% high-stretch spandex
- Maximum comfort - maximum stretch
- Looks great with the T-Flex rash guards
- Slimming color panels & cut compliment a female's body
- Highly versatile - ideal for divers, snorkelers, swimmers & other water enthusiasts

- Ideal travel bag with large volume
- Exterior material combination of 420D Nylon NT, 450D Ripstop & 600D Polyester/PU
- Inside lining 150D Polyester/PU
- YKK salt water resistant double slider zippers
- Polyester thread
- External compression straps, retractable double bar trolley handle, side, top & bottom carry handles & reinforced saltwater resistant wheels
- Main compartment with U-shaped top, 2 sides + 1 top flat pockets
- Dimensions: 70 x 40 x 35cm Weight: 3.9kg, Volume 98L

X53.350.120

MESH SACK

- Bag opening secures with a top rope fitted with a sliding, spring-loaded button closure
- Main compartment handles the larger-sized gear while the front exterior pocket is perfect for small items
- Padded shoulder strap makes it easy to sling the bag for the hike down to the boat or beach
- Folds into a compact size for storage
- Dimensions: 66 x 39cm diameter Weight: 0.5kg, Volume 80L

X53.369.000

CARRY-ON FOLDABLE BAG

- 120D Nylon
- 600D Polyester Straps
- Designed to fit/slide on top cabin bag handle
- Great reusable shopping bag too

X53.338.190

DRY BAG w. BACKPACK STRAP

- Made of 500D heavy-duty PVC Tarpaulin
- Watertight due to heat sealed construction
- Padded backpack system equals convenient, hands-free carrying
- Roll-and-close opening makes for easy access to contents
- Dimensions: 50 x 30 x 20cm, Weight: 0.97kg, Volume 30L
- Dimensions: 76 x 33 x 20cm, Weight: 0.61kg, Volume 45L

45L... X53.399.180

30L... X53.399.000

MESH BAG

- Made of nylon mesh
- Top loading with U-shaped zipper
- Saltwater-resistant YKK vision zipper features double sliders
- Padded carry handles
- Dimensions: 70 x 40 x 30cm
Weight: 0.45kg
Volume 84L

X53.379.000

CABIN BAG 4 WHEELS

- Made of 500D heavy-duty PVC Tarpaulin
- Retractable double bar trolley handle with reinforced in-line skate wheels, side & top carry handles
- Large main compartment with U-shaped double-slide coil zipper
- Smaller pockets on the inside & outside
- Conforms to new IATA size regulations
- Side & top carry handles make easy work of lifting the bag into overhead compartments
- Dimensions: 53 x 37 x 19cm, Weight: 3.18kg, Volume 37L

X53.365.170

DUFFLE BAG HD

- Made of a durable yet lightweight combination of 420D nylon NT, 450D Ripstop and 600D polyester with polyester thread stitching
- Inside lining is made of 150D polyester/PU
- Ultra-soft construction makes it super easy to fold and store when not being used
- Main zippers are YKK saltwater resistant and feature double sliders for easy access
- Padded carry handle lets you conveniently tote or lift the bag over uneven terrain
- Dimensions: 80 x 40 x 35cm
Weight: 900g
Volume: 112L

AIR STORAGE & PURIFICATION

B-KOOL

The B-KOOL refrigeration dryer from BAUER considerably reduces the running costs of the compressor whilst protecting the environment at the same time.

At locations with particularly high ambient temperatures, B-KOOL assures a remarkably longer life time of the filter cartridge. You will benefit from a lower cost of purchase & storage of filter cartridges, a longer uninterrupted compressor operation & a lower consumption of filter cartridges.

- 200 - 680 l/min
- 100 - 350bar
- Up to 11 times longer life for your filter cartridges!
- Environmentally sound
- Integrated or as stand-alone version
- Easy to retrofit

BAUER PureAir Certification

"PureAir – Safe Diving": High quality breathing air is the most important element of your diving equipment. Insufficiently or even non-filtered air from the compressor may jeopardize the health & even the life of any sports diver.

The [BAUER PureAir Campaign](#) offers any diver an easy to use guide for selecting trustworthy filling stations. By choosing to use [BAUER](#) state-of-the-art technology diving centers are able to meet the highest standards of Air Quality & are recognized with the award of the [BAUER Pure Air Seal](#).

The exclusive [BAUER PureAir Seal](#) guarantees any diver that he or she really receives only the purest breathing air. Learn more at www.bauerpureair.com/diving

To find out how to get your [BAUER PureAir Certification](#) please contact our Sales & Service team.

JUNIOR II

The most compact & highly mobile model in our diving compressor range. Due to its toughness & reliability the JUNIOR has become a global classic. JUNIOR II offers an even more compact design & numerous improvements in details. The patented TRIPLEX filter system guarantees purest breathing air according to DIN EN 12021.

Now available with optional automatic condensate drain & final pressure switch off.

MARINER 250

Even more performance & equipped with the TRIPLEX P31 / P41 filter in series.

MARINER 200

With 200 l/min. It is the most versatile among the new units of the PROFI-LINE II. Crash frame in series.

MARINER 320

With 320 l/min. the new Mariner 320 is the most powerful portable compressor worldwide!

Also available with switchover device 330 /225bar (5000/3300 psi)

MINI-VERTICUS

Now significantly quieter, thanks to the new anti-vibration frame & noise-optimised Super Silent housing;
Available with a higher charging rate of 320 l/min & with an open design as standard.

Fully automatic B-CONTROL MICRO compressor control with colour display

B-DRAIN: New automatic condensate drain is quieter & saves energy

Ergonomic design: optimum accessibility & operation

Long unit service life: use of high-quality materials that have been optimised for continuous use

Optional - Super Silent version, P61 Purification system, B-APP

- 225 & 330 Bar
- 150-320 l/min

Type	Charging rate ¹		Max. operating	Speed	Motor	Purification	Net	Dimensions

The POSEIDON EDITION represents an excellent value-for-money range of compressors without compromising typical BAUER quality. This product range has been developed for uncomplicated operation, combining proven core components from BAUER with a simple but robust chassis.

- > 250 - 300 l/min
- > 225 / 330bar

The PE-MVE is BAUER's compact all-in-one solution, offering high quality at outstanding value for money. Standard with Super Silent housing, automatic condensate drain system & the user friendly BHW-CONTROL control unit.

- > 300 - 850 l/min
- > 225 / 330 / 420bar

The new generation VE range excels through its high delivery rates of up to 850 l/min. Tailored for breathing protection & scuba diving requirements, the new compressor control offers quick & easy access to all important functions.

- > 100 l/min
- > 225 / 330bar

The PE 100 is the smallest & lightest compressor unit of the PE range. With its three drive variants (petrol, three-phase & single-phase alternating current).

- > 200 - 300 l/min
- > 225 / 330bar

The PE 200 - 300-TE models offer the optimum weight / price ratio. Owing to their compact construction, the units are easy to transport & to load onto vehicles.

- > 200 - 300 l/min
- > 225 / 330bar

The PE 200 - 300-HE horizontal models are by far the most compact high pressure breathing air compressors in their class.

The standard version comes already equipped with automatic condensate drain & easy-to-use control. Ideal for use on dive boats

SIMILAN ISLANDS

including KOH BON, KOH TACHAI, RICHELIEU ROCK
(2nd Edition)

This convenient reference book is a must-have if you're planning a visit to the Similan Islands & surrounding areas. There are also lots of colourful dive site diagrams, descriptions of area dive characteristics & an abundance of practical information you'll need to know before you go.

- Information on the area, from topography to getting ready to dive there
- Detailed explanation of every dive site
- 20 full-colour illustrated underwater maps

INDIAN OCEAN REEF GUIDE

by Helmut Debelius

Maldives - Sri Lanka - Thailand
South Africa - Mauritius
Madagascar - East Africa -
Seychelles

The author made his first dives in tropical waters around Sri Lanka 25 years ago. Since then he explored virtually the entire Indian Ocean with his camera, diving not only in the tourist centers like the Maldives or Seychelles, but also taking UW-Photos at remote islands like Cocos-Keeling in the East or Aldabra in the West. The results are shown in this book including more than 1,000 photos from the natural habitat of the marine animals. Special emphasis was given to rare species like sharks & rays.

English... K1105

INDIAN OCEAN MARINE GUIDE

Marine Pictolife describes more than 250 marine species.

- Totally waterproof
- Multilingual (5 languages as well as in Latin)
- Almost 250 species packed into 64 pages

DIVE SUPPLY HISTORY

Diving & Snorkeling Equipment Wholesale Specialist

Dive Supply is the leading distributors and wholesaler of major brand names in South East Asia and is the exclusive distributor for Scubapro, Suunto, Seac, Pelican, Saekodive, Bauer, Luxfer, Tovatec, Deep Blue, XS Scuba and Maxtec.

We operate from our 1,500 sqm custom built warehouse in Chalong, Phuket, where we have a fully equipped service center.

If you are looking for the leading brands in Diving and Snorkeling Equipment along with value for money and excellent customer service then Dive Supply is the place to come.

We have a product portfolio which is second to none and we are the main distributor for PADI materials throughout Thailand.
