Wicked Colors (Createx's premium grade airbrush colors) contain mild amounts of solvent and are inter-mixed with a durable, exterior-grade resin. A touch of solvent enhances performance, prevents tip dry and allows usage of colors on just about any surface.

The Wicked Colors dry semi-gloss and are perfect for t-shirts, automotive graphics, and illustration. Wicked Detail Colors dry matte and are ideal for highly detailed illustrations.

Important: When mailing or faxing orders, please specify which size you want by placing an "02", "04", "16", "32" or "128" at the end of the order number. For example, AB W03004 would be a 4 oz. bottle of Opaque White.

W 500 High Performance Reducer

Features / Benefits

- Enhanced flow and tip-dry virtually eliminated when airbrushing
- Less surface tension allows for heavier coats without crater defects
- Fast flashing for decreased drying times compared to not reducing or use of W100 Reducer
- Colors air dry to a cured film with improved film properties which is flat and level
- Contains 2-Butoxy Ethanol
- Use colors mixed with High Performance Reducer within 72 hours.
- Works with Createx Illustration Colors; colors aggressively cure without allowing for open time

AB W500-- High Performance Reducer

2 oz. \$3.20 / 4 oz. \$4.95 / 8 oz \$ 10.35 / 16 oz. \$13.40 / 32 oz. \$21.95

W100 Wicked Reducer

Features / Benefits

Thinner for reducing viscosity when airbrushing

- Lowers color's viscosity for atomization with smaller tip-sizes and lower psi settings
- Not recommend for use with colors when using spray gun

AB W100-- Wicked Reducer

2 oz. \$3.20 / 4 oz. \$4.95 / 8 oz \$ 10.35 / 16 oz. \$13.40 / 32 oz. \$21.95

AB W200 Transparent Base

Colorless resin base

Features / Benefits

- Mix with colors to increase transparency without significantly lowering viscosity
- Mix with colors along with reducer when greatly over-reducing to maintain line control
- Apply over colors as light, protective inter-coat
- Apply Transparent Base onto t-shirt prior to painting to lock down fabric knap

AB W200- Transparent Base

2 oz. \$2.95 / 16 oz. \$13.50 / 32 oz. \$22.95

AB W201 Wicked Cleaner

Water-based solvent used for cleaning.

Features / Benefits

- Rinses colors from airbrush or spray gun quicker and more effectively compared to water
- Special lubricant added which helps maintain proper working condition of airbrush or spray gun by preventing build-up of dried paint.

AB W2001 Wicked Cleaner

16 oz. \$8.79 / 32 oz. \$15.15 / 128 oz. \$34.50

Wicked Colors are enhanced when reduced with W500 Reducer (recommended). Reducer can be added in any ratio for improved flow, atomization and customizing viscosity preferences.

SAFETY - Always spray in a well-ventilated area with access to fresh air. A NIOSH/MSHA approved respirator is recommended. See Material Safety Data Sheets for complete safety and handling information.

Wicked Colors Sets

WICKED COLOR SETS

AB W10100 Wicked Primary Set (6) bottles

Includes 2oz. each: Opaque White, Black, Yellow, Red, Blue, Reducer

Item No.	retail price	Your Price
AB W110-00: Wicked Detail Sampler,	\$32.94	\$24.55

Createx's Glow White & Glow Base:

Black light (glow-in-the-dark) products

You can use Glow White as an under-lying white. This will enhance the glow-in-the-dark effect for any Createx Transparent Airbrush Color or Wicked Color. Fluorescent colors work best for UV effects over Wicked Glow White.

After you finish your painting, apply Wicked Glow Base as a top coat (an important step). Wicked Glow Base provides the most effect under black light, more so than Wicked Glow White. All you need is a black light to see the result of your efforts.

You can also mix colors with Wicked Glow Base for interesting effects, or use Glow White as a highlight color.

AB Steve Driscoll Flesh Tone Set (6) bottles

Includes 2oz. each: W063 Detail Carmine, W055 Detail Violet, W059 Detail Moss green, W072 Detail Smoke Black, W073 Detail Driscoll tone, Reducer

AB W111-00: Wicked Driscoll Fleshtone Set,	\$32.94	\$24.55

SAFETY - Always spray in a well-ventilated area with access to fresh air. A NIOSH/MSHA approved respirator is recommended. See Material Safety Data Sheets for complete safety and handling information.

T-Shirts, Fabrics, Dry Wall Murals - Porous Surfaces
 #1 Best selling airbrush color worldwide.

Transparent Colors

Bright, vibrant colors which do not have fillers for opacity. Transparent Colors work best over a white base or other bright color, blend well for smooth color transitions and are best suited for fine-lined, detailed airbrushing through small tip-sized airbrushes operated at lower PSI settings. Transparent Colors are the most common color used over base color.

Order #	Color Name
AB 5102	Violet
AB 5103	Red Violet
AB 5105	Caribbean Blue
AB 5106	Brite Blue
AB 5107	Ultramarine Blue
AB 5108	Deep Blue
AB 5109	Brite Green
AB 5110	Forest Green
AB 5111	Aqua
AB 5112	Turquoise
AB 5113	Sunrise Yellow
AB 5114	Brite Yellow
AB 5115	Leaf Green
AB 5116	Tropical Green
AB 5117	Brite Red
AB 5118	Sunset Red
AB 5119	Orange
AB 5121	Flamingo Pink
AB 5122	Fuchsia
AB 5123	Burgundy
AB 5124	Deep Red
AB 5125	Peach
AB 5126	Sand
AB 5127	Light Brown
AB 5128	Dark Brown
AB 5129	Medium Gray
AB 5131	Tinting White
AB 5132	Tinting Black
AB 5133	Canary Yellow
AB 5134	Maui Blue
AB 5135	Purple
AB 5136	Red Oxide
AB 5137	Crimson
AB 5138	Carmine

Opaque Colors

Solid colors with excellent coverage for use as base color. For most projects, starting with either Opaque White or Black works best, allowing for quicker coverage of top-coated colors with an even & consistent value compared to applying over the substrate direct. Opaque Colors work best out-of-the-bottle with larger tip-sizes operated at higher PSI settings. For smaller tip-sizes, reduce using Createx Illustration Base, Wicked W100 Reducer or Auto Air 4011 Flash Reducer.

Order #	Color Name
AB 5201	Opaque Blue
AB 5202	Opaque Purple
AB 5203	Opaque Lilac
AB 5204	Opaque Yellow
AB 5205	Opaque Lt. Green

Pure Pigments and Mediums

Create your own colors

Concentrated, lightfast, water-dispersed pigments for use with any water-based paint and medium. Use with mediums to create you own custom colors or add to existing colors to increase intensity or to create a custom tint. Pure pigments are highly concentrated, add in sparing amounts and mix thoroughly.

Airbrush Restorer

Cleansing bath for airbrush after use which dissolves dried paint.

Order#	Size	List Price	Your Price
AB 561904	4 oz	6.43	4.69
AB 561916	16 oz	19.28	14.69

Gloss Top Coat

Same as above on most surfaces, except not recommended for use on fabrics (does not remain as supple to the touch) and it will dry to a gloss finish.

Order#	Size	List Price	Your Price
AB 560402	2 oz	3.15	2.39
AB 560404	4 oz	5.25	3.99
AB 560416	16 oz	14.43	10.95
AB 560432	32 oz	25.98	19.75

Matte Top Coat

On most surfaces it provides a water proof crystal clear matte finish with UV protectants which remains flexible soft and will not crack or discolor. When sprayed lightly, it will remain somewhat supple to the touch when used on fabrics. However, transparent base is the recommended "Top Binder" to spray over your completed fabric design.

Order#	Size	List Price	Your Price
AB 560302	2 oz	3.15	2.39
AB 560304	4 oz	5.25	3.99
AB 560316	16 oz	14.43	10.95
AB 560332	32 oz	25.98	19.75

Opaque Base

Add to colors to reduce color values or to increase opacity (It may negate the special effects characteristics of certain colors.) Add small amounts to color until desired result is achieved (up to 25%).

Order#	Size	List Price	Your Price
AB 560202	2 oz	3.18	2.39
AB 560204	4oz	5.20	3.95
AB 560216	16oz	10.49	7.95
AB 560232	32oz	18.37	13.95

Transparent Base

Clear binder for extending colors, increasing transparency, use as a protective intercoatand to lock down fabric knap before painting.

Order#	Size	List Price	Your Price
AB 560102	2 oz	3.18	2.39
AB 560104	4 oz	5.20	3.95
AB 560116	16 oz	10.49	7.95
AB 560132	32 oz	18.37	13.95

Retarder Medium

An additive designed to slow the drying time of Createx Colors.

Order#	Size	List Price	Your Price
AB 560702	2 oz	3.60	2.75
AB 560704	4 oz	6.57	5.00

Creutex Reducer (formerly called Illustration Base)

Use with Createx Airbrush Colors (page 4), only. Reducer with binder intended to improve flow and atomization, especially when using smalltip sizes at low PSI settings. Reduced paint generally has viscosity of skim milk. Use colors mixed with Reducer within 72 hours.

Order#	Size	List Price	Your Price
AB 560802	2 oz	3.18	2.39
AB 560804	4 oz	5.20	3.95

CREATEX TEXTILE PAINTS APPLICATION GUIDE

CONDITIONS

70° F or higher in a dry, dust-free environment is recommended.

Airbrush Tip Size: 0.5mm: @ 40-50+ PSI; 0.35m and smaller operate at lower PSI settings and reduce paint to desired viscosity best to atomize particular color with particular airbrush type and tip size.

Reducing: Mix 5608 Createx Illustration Base or Wicked W100 in various ratios to achieve desired viscosity. Reduced colors best used 24 hours after mixing. Reducers greatly improve flow and decrease tip-dry. Reducing with water is not recommended.

PREPERATION

Porous Surfaces & Fabrics: Best to paint onto clean fabric. A few very light coats of 5601 Transparent Base locks down lint or knap preventing interference and contamination when airbrushing. Over black and dark fabrics, applying a base of Opaque White before applying colors with lighter hues improves coverage and creates brighter values. Stretching fabric or t-shirt over a board creates a flat, wrinkle-free surface which is much easier to paint on. For t-shirts, clamp down sleeves and loose ends. Non-Porous Surfaces: Auto Air or Wicked Colors are suited.

APPLICATION

Apply in light coats. A coating consisting of multiple, light layers is much stronger than a coating of the same mil thickness which is achieved in fewer, thicker layers. Chipping and flaking of paint is most often due to excess build-up of paint. Working in light coats is especially important when painting flexible surfaces such as leather and vinyl.

CURING

Curing times are decreased when coats are allowed to air cure prior to application of next coat. Use of 5608 Illustration Base decreases drying rates and curing times. Do not heat cure fresh paint before it air cures for a few minutes. Premature application of heat may skin-over paint creating a latex film which peels easily when taped and otherwise lacks proper adhesion. Createx Airbrush Colors are not cured after drying, heat is required.

Heat Gun: apply heat at a low to mid-temperature setting no more than 300°F. Keep air moving to avoid blistering. Apply heat until paint is warm to the touch.

Shirt Press: 325°F for 15-20 seconds.

Iron: With a protective cloth over paint, set on high/cotton setting and iron for 2 minutes. A shirt press or iron is recommended for curing t-shirt artwork intended for washing.

Free Delivery on orders of \$150 or more.

Creutex Illustration Colors

TIM GORE'S

Bloodline is part of Creutex Illustration Colors, and is the latest artistic expressions for Tim Gore. This line of airbrush colors was specifically created by Tim Gore, with colors designed for the subtleties of painting everything from "hyper real" creatures, humanoids and monsters, latex masks, resin kits, and anything your imagination can come up with.

Notes: Can be used through small airbrushes with tip sizes down to 0.15mm, at low psi.

All colors in 1 and 2 ounces, only.

Auto Air

Waterborne (water-based with solvent added)
 colors that are intermixable for a limitless palate of colors & effects not possible with other paint systems.

For automotive graphics, complete paint jobs and other exterior applications colors can be spray right out of the bottle with spray guns (1.2mm tip) and airbrushes (0.5 mm tip) when spraying at 40+ PSI but it is best to always use 4011 flash reducer with all colors for all applications. Reduce in any ratio to achieve desired viscosity and to dramatically improve flow.

Reduced colors best used 24 hours after mixing. All colors have virtually no tip dry, superior control and allow the user to pull long continuous lines without skipping and grainy over spray. To achieve the best & safe results, please ask for an application guide when ordering or you can download a copy at www.autoaircolors.com.

4000 Series Sealers, Additives, Primers, Cleaners

Sealer Dark and Sealer White

4oz \$6.45 - 16oz \$24.55 -
 32oz 46.59 - 128oz \$172.45
 AB 4001 Sealer White
 AB 4002 Sealer Dark

Use as initial layer of Auto Air Colors over prepared surface. Suitable for use as replacement for urethane or epoxy sealer except over bare, untreated metal. May be applied direct to urethane, enamel, lacquer and other finishes after scuffing with 800 grit wet/dry paper or coarser grade of abrasive.

Scuffing Auto Air Sealer prior to color application is not required. Use of Sealer may be omitted when using existing finish for a color-keyed base (example, 4500 Series Hot Rod Sparkle Color over black urethane finish), or when using a similar 4200 Series Semi-Opaque Colors such as 4220 Deep Black.

Tinting 4001 Sealer with top-coat color improves coverage of top-coat color. This is especially beneficial when working with red, yellow and orange colors and transparent colors such as the 4500 Series Sparklescent Mango and Tequila Yellow.

AB 4012 HIGH PERFORMANCE REDUCER

4oz \$4.95 - 8oz \$10.25 -
 16oz \$13.30 - 32oz \$21.79

High Performance Reducer is a premium thinner Features / Benefits

- Enhanced flow and tip-dry virtually eliminated
- Less surface tension allows for heavier coats without crater defects
- Fast flashing for decreased drying times compared to not reducing or use of 4011 Reducer
- Colors air dry to a cured film with improved film properties which is flat and level
- Contains 2-Butoxy Ethanol
- Colors have a 72-hour pot life after mixed with High Performance Reducer

AB 4011 Fast Dry Reducer

4oz \$4.95 - 8oz \$10.25 -
 16oz \$13.30 - 32oz \$21.79

Use anytime paint is applied. Improves performance of all Auto Air Colors. Contains solvents which improve flow, reduce tip-dry and assist curing to a level, smooth film. Most often used 10% per volume with spray guns, more with airbrush. Reduce 4600 Candy Pigment Series 3:1 4011 Flash Reducer

AB 4004 Transparent Base

4oz \$4.20 16oz \$13.39
 32oz \$22.95 128oz \$89.00

Binder base suitable for use as light, low build inter-coat & for mixing with colors.

AB 4007 Auto Air Cleaner:

4oz \$4.15 16oz \$8.35
 32oz \$14.55 128oz \$33.25

Highly concentrated cleaner for use with airbrush & sprayguns. Use to flush gun between color changes.

4100 Series Aluminum Bases

(4oz \$7.35 16oz \$27.85 32oz 52.85 128oz \$200.65)
 AB 4101 Aluminum Base (fine)
 AB 4103 Aluminum Base (coarse)
 AB 4102 Aluminum Base (medium)

Aluminum Bases are actual aluminum-flake bases intended as base colors for the 4600 Series Candy Colors. Aluminum Bases are sensitive to direct contact and should be applied over 4000 Series Sealers.

4200 Series Standard Colors Semi-Opaque, Fluorescent, Transparent

Semi-Opaque Base Coat Colors (20)

AB 4355	Brite Blue
AB 4356	Electric Blue
AB 4358	Purple

4400 Series Color-Shift FX Colors

Gem Color-Shift Colors (4)

Holographic color shifting pearl flakes in a transparent base. Use over black or other color base for color-keying effects. Best if 4004 Transparent Base applied as mid-coat over Gem's large pigment size for a more even paint film prior to clearing.

4oz \$27.65 16oz \$104.99
 32oz \$199.35 128oz \$755.05

AB 4401	Gem Sapphire
AB 4403	Gem Jade
AB 4402	Gem Turquoise
AB 4404	Gem Ruby

Flair Color-Shift Colors (11)

Color-shifting colors traditionally applied over black bases. Soft flowing transition from one color into another. Examples: Flair Tint Bronze travels from red to gold to bronze then into green. Flair Tint Violet travels from lilac to silver to blue then into green.

4oz \$27.65 16oz \$104.99
 32oz \$199.35 128oz \$755.05

AB 4410	Tint Bronze
AB 4411	Tint Violet
AB 4412	Teal/Purple
AB 4413	Blue/Copper

Hi-Lite Interference Colors (6)

Subtle color changing pearl in a transparent base. Use over black or other colors for color-keying effects. Travels from respective color to transparent. Great for creating pearl accents which are only visible in direct light and do not change under-lying base color. Use in very sparing amounts, one very light drop-coat is enough to create the effect.

4oz \$7.75 16oz \$29.49
 32oz \$55.99 128oz \$212.79

AB 4420	Hi-Lite Gold
AB 4423	Hi-Lite Green
AB 4421	Hi-Lite Orange
AB 4424	Hi-Lite Blue
AB 4422	Hi-Lite Red
AB 4425	Hi-Lite Purple

4500 Series Sparkle Colors

Hot Rod Sparkle Colors (7)

Large pearl flakes in a transparent base. Use over black or other colors for color-keying effects. Mix direct with 4200 Series Transparent Colors for candied pearl bases. Mix direct with 4600 Series Candy Pigment Colors for pearlescent candy colors (replaces by volume the 4004 Transparent Base needed in candy mix ratio). Best if 4004 Transparent Base applied as mid-coat over Hot Rod Sparkle's large pigment size for a more even paint film prior to clearing.

4oz \$14.39 16oz \$56.15
 32oz \$103.75 128oz \$393.69

When ordering, please specify size (i.e. Order # 94 1001-1 is for a 1 oz bottle of Opaque Black)

This ready to use paint never needs to be filtered or strained. The colors are heavily pigmented and light fast. Superior atomization, they dry instantly, and the transparent and opaque colors can be used together without bleeding between colors. Nail Art technicians have experienced great results with the opaque color range spraying through templates.

Iwata/Medea Airbrush Cleaner
94 650004 Airbrush Cleaner 4 oz...\$2.89

Opaque Colors

44 rich, dense colors that resist clogging and spray smoothly. Made from non toxic, pigmented water based hydrocarbon resin.

99TC2 Paasche Temporary Tattoo Clearcoat 2oz: 12.95 - a must!

Paasche Temporary Tattoo Paints last UP TO a week. The tattoo usually starts to fade by the 5th day. Again this depends on the skin type and how well you take care of the tattoo.

VL, VLST-PRO & Millennium

VL – Siphon Feed Double Action – Internal Mix

No other airbrush can offer more versatility. Used by most of the T-shirt artists in the U.S., the VL model with the #3 medium needle, tip and air cap can achieve spray patterns from 1/32" – 1 1/4" and is ideal for spraying airbrush fabric paints.

The VL Set also includes the #1 fine and the #5 heavy tip, needle and air cap assemblies. The #1 fine assembly is for light fluids with a spray pattern of 1/64" – 1" and the #5 heavy assembly is for heavy fluids or when spraying airbrush glitter with a spray pattern of 1/16" – 1 1/2".

The minimum air requirements for the VL are .5 c.f.m. @ 20 p.s.i., However we recommend at least 35 p.s.i., when using non-thinned airbrush fabric paints, for best results.

Order #	description	list price	your price
99 VL#3L	VL#3 (airbrush only)	86.00	51.60
99 VL-6P	VL#3L Six Pack..... Your paying only \$44.83 per brush (airbrushes, only).	455.00	273.00

PRO PRODUCTION SERIES 155,105,175 & 200NH

The Pro Production Series (PPS) airbrushes have a finely tuned (finger tight) nozzle assembly, self seating "smooth-flow" drop-in paint tip, and ultra-durable double angle needle. Easy to maintain. Excellent airbrushes for users of all skill levels.

155 Anthem airbrush w/ medium nozzle

+ color cup, jar with adaptor, and instructions:
Dual Action, Bottom Feed, Internal Mix -Medium Tip & Needle
The 155 (Anthem) features a patented easy access needle removal system, and sprays a wide range of mediums at pressures from 15 to 115 PSI. Many professional T-shirt artists, production modelers, and industrial finishing technicians make their living with the 155, a cost effective, dependable, precise, easy to maintain brush.

Renegade Series, T&C Vega & Omni Series

RENEGADE SERIES

The Renegades have patented nozzle technology, hardened/polished stainless steel needles, innovative spring gauge technology, a stop-set trigger system, and a dura-metal finish. Ultra-responsive triggering for absolute line control and stroke smoothness, perfect match-weighted balance for max comfort during intense detail airbrushing sessions, and a stop-set trigger for accurate spray pattern memory. .21mm drop-in micro tips, 6° beveled hardened/polished stainless needles, connected rocker lever/non-hinge trigger.

Renegade Velocity airbrush w/ ultra-fine nozzle

and instructions: Dual Action, Gravity Feed, Internal Mix – Ultra Fine Tip & Needle
The Velocity is for extreme detail applications, including hair line custom work, micro-scale modeling (especially camouflage), tight and real taxidermy markings, truer than life illustration, and photographic appearing portraits.

Renegade Krome w/ fine & medium nozzle

w/attached color cup, and instructions in fancy box
Dual Action, Gravity Feed, Internal Mix – .2mm and .3mm Tips & Needles
The Krome 2 in 1 is a refined turbo charged version of the Renegade Velocity. The Krome features a soft-stroke trigger system that provides a lighter trigger tension, and an attached finger/thumb rest for increased comfort, and a micrometer trigger setting dial that allows the setting of spray patterns to 1/1000" accuracy. Comes with both .2mm and .3mm needle/nozzles.

Custom Micron Series

Iwata's Top of the Line

Iwata Custom Micron Series

CM-B – CM-SB – CM-C – CM-C Plus

The Custom Micron Series is for the elite professional who demands Absolute Precision and accurate control of very detailed spraying. The unique feature of the Custom Micron Airbrush is found in the hand matched Head System. All of the parts in the head are assembled, tested and adjusted until the spray characteristics are as perfect as an airbrush can be. All three brushes in the series have pre-set adjustable handles and effective spray patterns from the finest "hairline" to 3/4".

The CM-B gravity feed features a 1/16-oz fixed color cup and a 0.18-mm matched head system.

The CM-C gravity feed features a 1/4-oz fixed color cup and a 0.23-mm matched head system. The CM-C PLUS also includes the Micro Air Control Valve (MAC), which enables infinite control of the air flow at the head of the airbrush, solvent-proof teflon needle packing, and a cutaway preset handle.

The CM-SB side feed features a 1/8-oz removable side cup and a 0.18-mm matched head system.

For CM-SB's optional color reservoirs please see Micron parts list below, items 28 & 31

94 K 9100	Kustom CH (C Hi-Line)	436.67	357.50

Kustom CM (Micron C)

The Kustom CM provides extreme control of ultra fine-line spray, with silky smooth atomization and ultimate paint-flow control.

- 0.23 mm "Matched Head System"
- Taller trigger for extreme control of paint flow. MAC Valve for precise air pressure control

Order #	description	list price	your price
94 K 9000	Kustom CM (Micron C)	744.64	607.95

Kustom CS

Features a large general-purpose nozzle/needle, but with fine-line control; creates wide background sprays with fine atomization and control. Designed to spray metallic, pearlescent and base-coat paints.

- 0.35 mm "Self-Centering Nozzle and Needle Combination"
- Large, 14 cc (1/2 oz.) gravity fluid cup
- Taller trigger for extreme control of trigger action and paint flow

Order #	description	list price	your price
94 K 9300	Kustom CS (Eclipse CS)	277.02	227.25

Kustom TH (Trigger Hi-Line)

The Kustom TH delivers unprecedented control of a fan pattern with a minimum of overspray, giving it a unique advantage over mini touch up guns. Great for small areas such as chip repair, fender welds, door jambs and other hard-to-reach areas.

- 0.50 mm nozzle - "Round-Patterned" air cap
- Large, 1/2 oz. (14cc) removable gravity-feed fluid cup
- MAC Valve (Micro Air Control),
- Spray-gun trigger design, Pistol Grip moisture filter included

Order #	description	list price	your price
94 K 9200	Kustom TH (Trigger Hi-Line)	554.09	453.50

Kustom TR (Trigger Revolution)

Triggering the passion of spray-gun users, the TR airbrush proves easy to use. The long trigger provides more control of the airbrush spray.

- 0.30 mm "Matched Head System"
- Large, 21 ml (3/4 oz.) gravity fluid removable cup
- Spray-gun trigger design

RG-3 & LPH-50

RG-3 miniature, gravity/side-feed spray gun

(comes with a 0.6mm nozzle, needle and fan pattern air cap) produces remarkable atomization with precise control of the 1/8 to 2.5 inch spray patterns. Its 4 oz. (110 ml) stainless-steel gravity cup is side-mounted and rotates, allowing for spraying horizontally, vertically or underneath surfaces. The integrated cartridge-style air-valve set can be removed for servicing and easily placed back into the gun body, making it more reliable and easier to maintain. Unlike siphon-feed guns, this gravity-feed cup will work with small amounts of paint without spitting. Ideal for touch-up or custom automotive and motorcycle painting, illustration background spraying, large studio work and murals. Use with a 1 h.p.compressor(minimum).

LPH-50 miniature, gravity/side-feed spray gun

is a full-featured HVLP version of the RG3 spray gun that atomizes using only 1.8 CFM air flow at 13 PSI working pressure which produces a minimum of overspray. **This HVLP version features adjustable spray pattern from round to full-fan shape.** Use with a 1 h.p.compressor (minimum).

NEO Series - Gravity & Siphon iwata

Features a 0.5mm needle and nozzle combination for high-performance, general purpose, high paint flow spraying and wider spray patterns. Includes a 1 oz. Big Mouth Bottle. (Also compatible with other sizes of Big Mouth Bottles and Iwata bottles.)

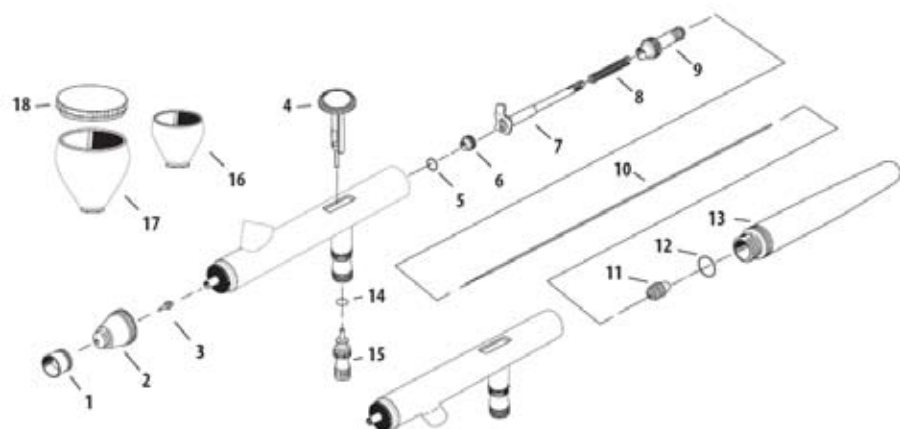

Item Number	Description	list price	Your price
94 N2000	NEO Siphon-feed 0.5mm	\$80.86	\$59.95

Features a unique 0.35mm needle and nozzle combination for finer detail spraying and medium-sized patterns. Includes interchangeable large (1/3 oz.) and medium (1/16 oz.) cups designed with a funnel shape, which makes for easy cleanup and more efficient paint flow. (Airbrush will hold 1/32 oz. without a cup attachment.)

Revolution TR1 and TR2

Featuring a unique Pistol Trigger with a fixed dual-action operation, the Iwata Revolution TRs deliver comfortable, ultra-smooth performance ideal for automotive painting. Equipped with the FA450 Pistol Grip Moisture Filter. The same comfort and feel that's typical of a larger spray gun. Impervious to solvent-based paints thanks to the Teflon packing needle seal, which can be easily replaced. The HP-TR1 (0.3mm) comes with a 1/4 oz. side-mount color cup, while the HP-TR2 (0.5mm) sports a 1/2 oz. side-mount color cup. Ergonomic, balanced handle makes for easy, level spraying. The FA450 Pistol Grip Filter can be used with the 1oz. and 2oz. side-mount bottle sets (sold separately).

Eclipse Series

Iwata Eclipse BCS

Iwata Eclipse BS

Iwata Eclipse SBS

Iwata Eclipse CS

Eclipse Series:

BCS CS SBS BS

The Eclipse series of general-purpose, high paint flow, high detail airbrushes provide the Ultimate in Versatility, Reliability and Performance. The "drop-in" interchangeable hardened steel .35mm and .5mm nozzles (cones) in the Eclipse are self-centering for perfect alignment and quick, easy assembly. Difficult to spray mediums, like textile colors, thinned acrylics, automotive paints and ceramic glazes are handled with ease by the Eclipse. With an effective spray pattern from hairline to 2" the Eclipse has established the benchmark for excellence in an all-purpose airbrush.

BCS siphon (bottom) feed – can use bottle assemblies or color cups – 0.5-mm diameter fluid nozzle

Order #	Description	list price	Your Price

NEW ECLIPSE G6!!!

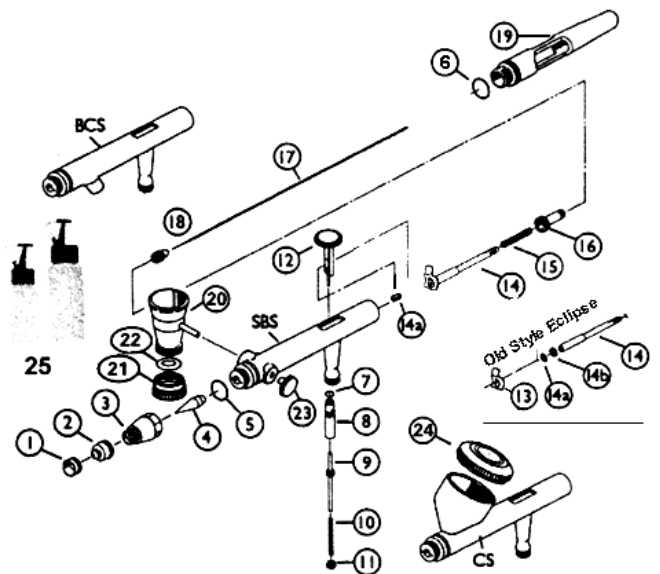

ECLIPSE G6 Pistol Grip airbrush. Looks like a miniature spray gun, but sprays and performs like a large airbrush with its 0.6mm stainless steel nozzle. Equipped with: long tapered needle to ensure a smooth transition between fine to wide background spray; dual purpose air cap and fan adjustment (round and curved patterns). Employs standard bottles.

High Performance Series HP-Plus and HP-Hi-Line

The High Performance PLUS Iwata airbrushes. The pumped up features include, a dual-purpose cutaway and preset handle; teflon needle packing for solvent-based paints; larger nozzle threads for more secure fit and better centering of nozzle; redesigned tapered gravity feed cups for easy clean up and efficient paint flow; and single-piece auxiliary lever/needle chucking guide assures easy assembly.

These kits come with the choice of your favorite HP Plus Airbrush (HP-A+, B+, SB+, C+, BC+) and includes 6-foot airbrush hose, 5 bottles of 1 oz. Com Art Color (black/white/red/blue/yellow), a roll of Artool Matte Friskfilm (10" x 4yd), a 16 oz. Bbottle of Medea Airbrush Cleaner, and 5 sheets of heavyweight vellum project paper.

Artool Frisket and Masking Films

Masking Films

Artool Frisket and Masking Films

Artool Frisket Film: Low-tack self-adhesive film; Won't wrinkle, bleed or flutter under airbrush spray; Can be removed and/or repositioned easily.

order no.	Description	list price	Your Price
94 F302	14" x 4 yd. matte roll	21.06	\$15.65
94 F303	24" x 4 yd. matte roll	38.06	\$27.95
94 F304	24" x 10 yd. matte roll	73.84	\$54.85
94 F310	8 sheets 14" x 10" matte	16.24	\$12.15

Artool Ultramask Film:

Professional Masking Film for Airbrushing Graphics On Anything! Adhesive backing will not release even when retouch lacquer is applied. Tinted film for easy reference and workability - Low tack with secure adhesive strength (safe for artwork) - Maximum stretch for irregularly shaped surfaces - solvent proof!

order no.	Description	list price	Your Price
94 F501	24" x 5 yd.	97.95	\$72.50
94 F502	24" x 10 yd.	183.72	\$135.00

Artool Stretch Mask & Art Mask Frisk Film:

Both products are solvent proof and will not wrinkle, bleed or flutter under airbrush spray and will not lift up paint when removed and/or repositioned. Both products are easy to cut, lift and manipulate and reposition.

Stretch Mask

primarily used on non-porous surfaces (motorcycle tanks, helmets, scale models and automotive surfaces) and conforms to curved and irregular surfaces.

order no.	Description	list price	Your Price
94 F101	18" X 10 yds	33.75	24.95
94 F102	18" X 25 yds.	61.66	44.95
94 F103MS	6" X 10 yds.....	22.08	16.45

Art Mask

primarily used on porous surfaces and is especially suited for canvas and watercolor paper applications. It can also be used successfully on gesso board, Clayboard and illustration board.

order no.	Description	list price	Your Price
94 F201	18" X 10 yds.	33.75	24.95
94 F202	18" X 25 yds	80.44	58.95

Silent Compressors

SILENTAIRE
Technology

Super Silent Series - (free delivery to USA addresses- lower 48 states)

Illustrators and hobby/craft artists (not for commercial T-shirt Art)

Aluminum cast motors*, virtually soundless (30db - like a new refrigerator), totally automatic. Each unit includes a tank pressure gauge, line pressure gauge, line pressure regulator, moisture trap/air filter, safety valve, air-intake filter, a handle for balance carrying and operates on a standard 110 volt 20 amp circuit.

These **1/5-hp** compressors weigh appx. 40 lbs. and are ideal for a professional illustrator, nail artist, antique doll restorer, scale modeler, face painter or equivalent usage. We recommend a maximum operating pressure up to 25 p.s.i. and ideally operate on a 50% Duty Cycle (the motor's average running time while you are working would be on 50% of the time and off 50% of the time).

Order #	Description	List Price	Your price
99 20A	20A - 0.4 gallon tank (1/5 hp).....	875.00	550.00
99 DR150	DR-150 - 1 gallon tank (1/5 hp).....	996.00	626.00

The more powerful **1/3-hp** compressors weigh appx 45 lbs. and are ideal for 2 simultaneous users (as described above for the 1/5-hp compressors) working at 20 p.s.i. or one user at up to 40 p.s.i.

Order #	Description	List Price	Your price
99 30TC	30 TC - 0.9 gallon tank (1/3 hp).....	1120.00	699.00
99 DR300	DR-300 - 1 gallon tank (1/3 hp).....	1168.00	735.00

Sil-Air Series - (free delivery to USA addresses- lower 48 states)

60 psi production T-shirt Art and Auto Graphic Art

The Sil-Air series of **1/2 HP** compressors come with all the same features as the super silent series (see above). The main difference is all the Sil-Air compressors have cast iron motors. The cast iron motors (pumps) dissipate the heat more efficiently and so operate more efficiently.

1 airbrush artist working at up to 60 p.s.i.; or 3 users @ 20 p.s.i. operating simultaneously and ideally operating on a 50% Duty Cycle.(the motor's average running time (on 50% of the time and off 50% of the time). The larger the air tank the more efficient the compressor will operate. A compressor with a larger tank shuts on and off less times per day than one with a smaller tank. When a compressor switches on there is a voltage spike and heat is created. Heat is one of the main enemies of the motor life. This is #1 reason that we only recommend 6 gal or larger size tanks for commercial T-shirt production.

Order #	Description	List Price	Your price
99 5024	50-24 - 6 gallon tank (1/2 hp).....	1750.00	1099.00
99 5024V	50-24-V - 6 gallon tank (built-in fan) (1/2 hp).....	2030.00	1249.00

Val-Air Deluxe Series - (free delivery to USA addresses- lower 48 states)

60 psi production T-shirt Art and Auto Graphic Art

Silentaire selected the **1/2 HP** Sil-Air 50-24 & 50-24V (see above) and added extra features to create the Val-Air deluxe versions, the VA50-24AL & the VA50aire respectively. Both Val-Air versions have **cooling fins** (helps dissipate heat) on the motor covers which help the compressor motor operate more efficiently. Also both units come with **coalescent filters** (which provide contaminant free air) and the **6 gallons air tanks are painted on the inside** to prevent rust.

The VA50aire also has a built-in cooling fan and wheels for easy transport.

Both compressors are designed to last for years and years if a (on-off, on-off) 50% duty cycle is maintained.

Order #	Description	List Price	Your price
99 VA5024AL	Val-Air 50-24-AL - 6 gallon tank (1/2 hp).....	1900.00	1199.00
99 VA50TAIRE	Val-Air 50-T-Aire - 6 gallon tank (1/2 hp)..... (Fan, wheels, telescoping handle)	2280.00	1435.00

Scorpion Oil-less Studio-Quiet Compressors

The piston-driven automatic shut-off Scorpion series compressors are portable, compact, oil-less, require no maintenance and come with a hose that adapts to fits Iwata, Badger, T&C and Paasche airbrushes. The sound is barely above a whisper with a hose and an airbrush connected. Each comes with a regulator, filter and gauge.

Order #	Description	List Price	Your price
99 1000A	Scorpion I, 1/8 hp.....	229.00	155.00
99 1000C	Scorpion I, 1/8 hp (in case, with handle).....	306.00	206.00

The more powerful Scorpion II compressors are great for light duty "T-shirt" art:

99 1000B	Scorpion II, 1/6 hp.....	328.00	219.00
99 1000TT	Scorpion II, with tank, 1/6 hp.....	525.00	355.00

Shipping \$9.95 for orders \$25.00 - \$149.99.

GMC "Syclone" 4610 Air Compressors

The "Quiet" 1 hp GMC Compressor: only 60 decibels

- 1 HP (Rated/Running) - 2 HP (Peak)
- 4.6 Gallon Twin Aluminum or Steel Tank.
- Oil-Free – cleaner air for cleaner operation. Low maintenance.
- Two pressure gauges (tank pressure and adjustable output pressure)
- Two universal quick connectors (with 1/4" NPT males included) that accept all standard airbrush hoses we offer.
- 116 PSI Maximum Pressure / 110v / 60 hz - 7.6 Amps
- length 17.3" width 17" height 20"
- Noise Level: 60 decibels: GMC 4610 & 4610A
- Weight: Look: GMC 4610 weighs 53 lbs / GMC 4610A weighs 44 lbs

The GMC SYCLONE 4610 Air Compressor is designed to have a pump life cycle of 3000 Plus hours compared to other comparable air compressors with life cycles of 500 hours or less (Tank fill rate 125 seconds).

GMC 4610:	4.6 Gallon Steel Tank:	\$269.99
GMC 4610A:	4.6 Gallon Aluminum Tank:	\$289.99

Studio-Quiet Compressors

Sparmax Compressors

The TC 2000 is a quiet running, auto shut off, 1/6 h.p. compressor that will provide appx. 35psi working pressure at the tip of a VL#3 (.55mm) airbrush or a Eclipse BCS (.50mm) airbrush. You will get a higher working pressure with a smaller nozzle and accordingly, less pressure with a nozzle larger than .5mm. The compressor comes with an airbrush holder, a regulator, moisture trap and gauge and a hose to attach the moisture trap to the compressor. It also comes with an airbrush hose with adapters to allow usage with most airbrushes. \$199.00

item #	description	Sale Price
99 TC2000	Sparmax TC2000 Compressor	\$199.00

The TC620X is a TC 2000 mounted on a air storage tank (appx. 1 gal.) and housed in a heavy duty attractive case. Like the TC 2000, both of these compressor are extremely good values where compare to competitive compressor models. \$299.00

item #	description	Sale Price
99 TC620X	Sparmax TC620X Compressor	\$299.00

PLEASE READ! It Will Only Take A Few Moments

How Much Does Delivery Cost?

On orders of \$150 or more, we offer free delivery to addresses in USA, lower 48. Orders below \$149.99 will have a \$9.95 shipping & handling charge added to their total. For customers elsewhere, contact us for a freight quote. Please contact us for a quote for expedited shipping charges.

Badger Delivery Program

Free delivery for Badger airbrushes (except 250 sprayer) listed in this catalog to addresses in the USA including Alaska & Hawaii.

How Long Does It Take To Process My Order?

We will make every attempt to process your order in 24 hours. However, due to volume, please allow us 2-3 business days to process your order.

How Long Does It Take To Receive My Order After It Is Processed?

We utilize a variety of carriers. We ship via UPS, FedEx and USPS Priority Mail. It is the carrier's responsibility for the time it takes to deliver your order. Please note that certain items are Drop Shipped directly from the manufacturer (marked D/S on your invoice). Please allow extra time for delivery of any dropped shipped items (shipping times vary by manufacturer).

How Many Payment Options Do I Have?

For the fastest service, use Visa, MasterCard, Discover, or American Express. Or you can mail a check or money order. Your personal check (include driver's license and telephone numbers) can be processed through Telecheck immediately. Government and university purchase orders should be **faxed** to (504) 733-0668. Sorry, we do not ship C.O.D.

Please call us @ **800-783-2612** to make sure you have the latest edition of this catalog. Store telephone hours: 9:30 am - 4:30 pm Central, Monday - Friday.

Place your order 24 hours, day or night, by visiting our main web site: www.dixieart.com
-- It's safe, secure and quick.

You can view/purchase 25,000+ **art supplies products** (items not shown in this catalog) by visiting: fineart.dixieart.com

If you receive a **defective** product, please contact us within 5 business days after receiving the product(s) you wish to return/exchange.

For **non-defective** returns, only unused products will be accepted. Package the merchandise for return carefully. Upon receipt of your package, if the merchandise is in "like new" condition you will receive the value of your original purchase price, less 10% restocking charge.

Free Delivery on orders of \$150 or more.

Aztec Culture

Gerald Mendez's Latin background along with his art and 25 years of airbrush experience has inspired him to recreate one of the most popular icons and art motifs in Hispanic culture: the Aztec Calendar or Sun Stone.

Historically, this design represents the richness of the Aztec Culture. The detail on the solvent resistant Artool® Aztec FX™ Freehand® Airbrush Templates, which includes 3 sizes (10" x 10", 5.5" x 5.5", 3.5" x 3.5"), allows you the freedom to render a sophisticated Aztec art form. Simply cut tabs to release each positive and negative shape.

94 FH-AZTEC Aztec FX Set of 3 templates

Blasted FX

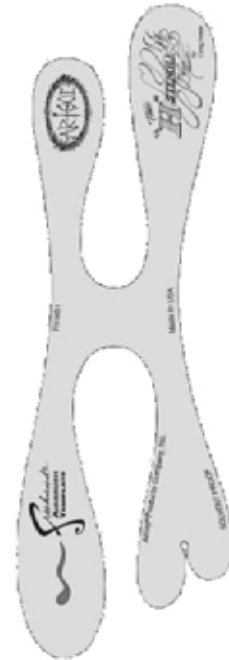

Ryan "Ryno" Templeton is a professional custom painter and airbrush artist with over 22 years of solid experience to his credit. Ryno is a "triple threat" in the custom paint world: an expert in painting, airbrushing and pinstripping. Best known as one of the cast members featured in the CMT reality show, "Trick My Truck," Ryno also appeared in "Car Warriors" and is currently with "Inside West Coast Customs." Ryno's successful custom shop, Blast of Air, is located in Anaheim, California.

SOLVENT PROOF!
 Easily used with water-based and solvent-based paints. Made in USA

"The H" Stencil™

is a simple French-curve design that can help any artist improve their Artool® Freehand® Shield skills when airbrushing fire, smoke, dragon scales and any number of effects your imagination can conjure up. A huge advantage of the "H" Stencil™ is its specific one-handed design. By using one hand you can not only manipulate where you place the stencil, you can also change the shape of it by squeezing it together to morph an outlining edge. Since it is often necessary to airbrush in different scales, the Artool® "H" Stencil™ is produced in two sizes. You will be surprised with the complex images you can create and complete with the simplicity of the "H" Stencil™." Craig Fraser

You get both sizes: 12" x 4", and 8" x 2.5"
