Location: Dublin

About Mitsubishi UFJ Fund Services

MUFG Fund Services (Ireland) Limited is a subsidiary of Mitsubishi UFJ Fund Services and is fully licensed by the Central Bank of Ireland to act as a Fund Administration service provider.

Mitsubishi UFJ Fund Services is a global provider of alternative investment services with powerful technology and strong institutional backing. This combination provides the Company with the strength and flexibility to excel as a strategic partner to its clients. A winning combination of proprietary technology and industry leading vendor based software places us in the position to provide a level of service beyond the reach of much of our competition.

Requirement

Due to an exciting new strategic initiative underway at MFS, we are seeking Senior IBM Database Administrator / Architect to work in our Dublin office. The MFS Enterprise Data Management project is a high profile initiative that provides an opportunity to participate in a ground up implementation on a large scale. MFS is providing a wealth of new functionality to its internal and external customers and differentiating the organisation in the fund administration industry.

The successful applicant will become part of the MFS IT team, providing database design, maintenance and administration with hands on expertise in implementing and maintaining various IBM technologies.

Core Responsibilities:

- Design and create relational databases;
- Design and create data models to support reporting and data management processes;
- Design and implement data synchronization routines from source systems to the data warehouse (ETL, Validation);
- Database performance monitoring and tuning;
- Review and approve schema and design changes;
- Manage the backup and restore process;
- Configure, monitor and troubleshoot database issues;
- Perform Root Cause Analysis for incidents and outages;
- Setting up and maintaining Development, Test and Production environments for the DB2 database and other IBM application hosting servers (IBM Infosphere, Cognos, Filenet, etc.);
- Configuring Failover and Disaster Recovery.

The successful candidate will:

- Demonstrate clear project management skills and the ability to work well within a team and have the ability to work independently;
- Be enthusiastic and eager to learn, self-starter;
- Have proven experience with IBM applications / systems including:
 - IBM Infosphere:
 - DataStage
 - QualityStage
 - IBM DB2 BLU;

- Be familiar at the platform level with products such as:
 - Cognos
 - FileNet
 - DataCap
- Knowledge of Microsoft .NET Windows environments.

Qualifications

- A University Degree in a related field;
- Financial Services experience considered an asset;
- IBM certifications very advantageous;
- 4+ years experience in related discipline and IBM technologies.

Compensation

Mitsubishi UFJ Fund Services provides all of its employees with an extremely competitive and attractive compensation package. In addition to base salary, there is a group medical insurance scheme, group pension scheme, reimbursement of professional subscriptions, paid holidays and assistance towards gym memberships.

Starting salary will be dependent on previous experience.

Mitsubishi UFJ Fund Services is an equal opportunity employer.
