In 1962 an unknown biped, classified as an unknown species was found deceased under a large Doug Fir tree...The file number on the body is #4377 and it was classified as an "unknown biped", per the DOI, who later took possession of the body. I am requesting to receive a copy of this file which is supposedly still in the Denver Repository. We have had this independently confirmed by two separate USFS employees and would appreciate your cooperation on obtaining a copy of this file.

Requestor seeks ?copies of the evidence used as the basis for the draft change in its foot race policy as relates to reducing the number of triathlons from two per year (which is the current precedent - one in September and one in June) down to one per year (September only). We understand that policy changes such as this require written evidence upon which the NPS takes action and it is this written evidence (with respect to the triathlons only) that we seek.
