

Sony chargers line-up

Compact Charger
BCG34HTD*
BCG34HTD2L*

- Ultra compact
- Ultra light weight: 80g
- Can charge from 1 or 2 AA or AAA Ni-MH batteries
- LED indicator
- Safety timer
- Detection of non-rechargeable batteries

Power Charger
BCG34HLD2A
BCG34HLD4L
BCG34HLE4L
BCG34HLD4S

- Same specs as Compact Charger
- + Can charge from 1 to 4 AA or AAA Ni-MH batteries
- + Also available with 4 adapters: 2 x C and 2 x D enabling you to run devices working with LR14 or LR20 batteries

Super Quick Charger
BCG34HE4
BCG34HVE4*
BCG34HRE4

- Same specs as Power Charger
- + High-tech design
- + Quick charging time: ≈ 2h for 2 x AA Ni-MH batteries (2500mAh)
- + Voltage monitoring function
- + Temperature monitoring function
- + Also available:
 - with Refresh function: removes the memory effect
 - with car plug

Super Quick Charger with LCD Battery indicator
BCG34HRMF4

- Same specs as Super Quick Charger
- + Individual charge indicator
- + Refresh function: removes the memory effect
- + Backlight LCD battery indicator: charge / refresh

Ultra 15 Charger
Maximum speed and capacity
BCG34HUE4*

- Can charge up to 4 x AA Ni-MH (2500mAh) in 15 minutes
- Safety features:
 - Cooling fan
 - Voltage monitoring function
 - Temperature monitoring function
 - Safety timer
 - Detection of non-rechargeable batteries

FAST AND FUNCTIONAL

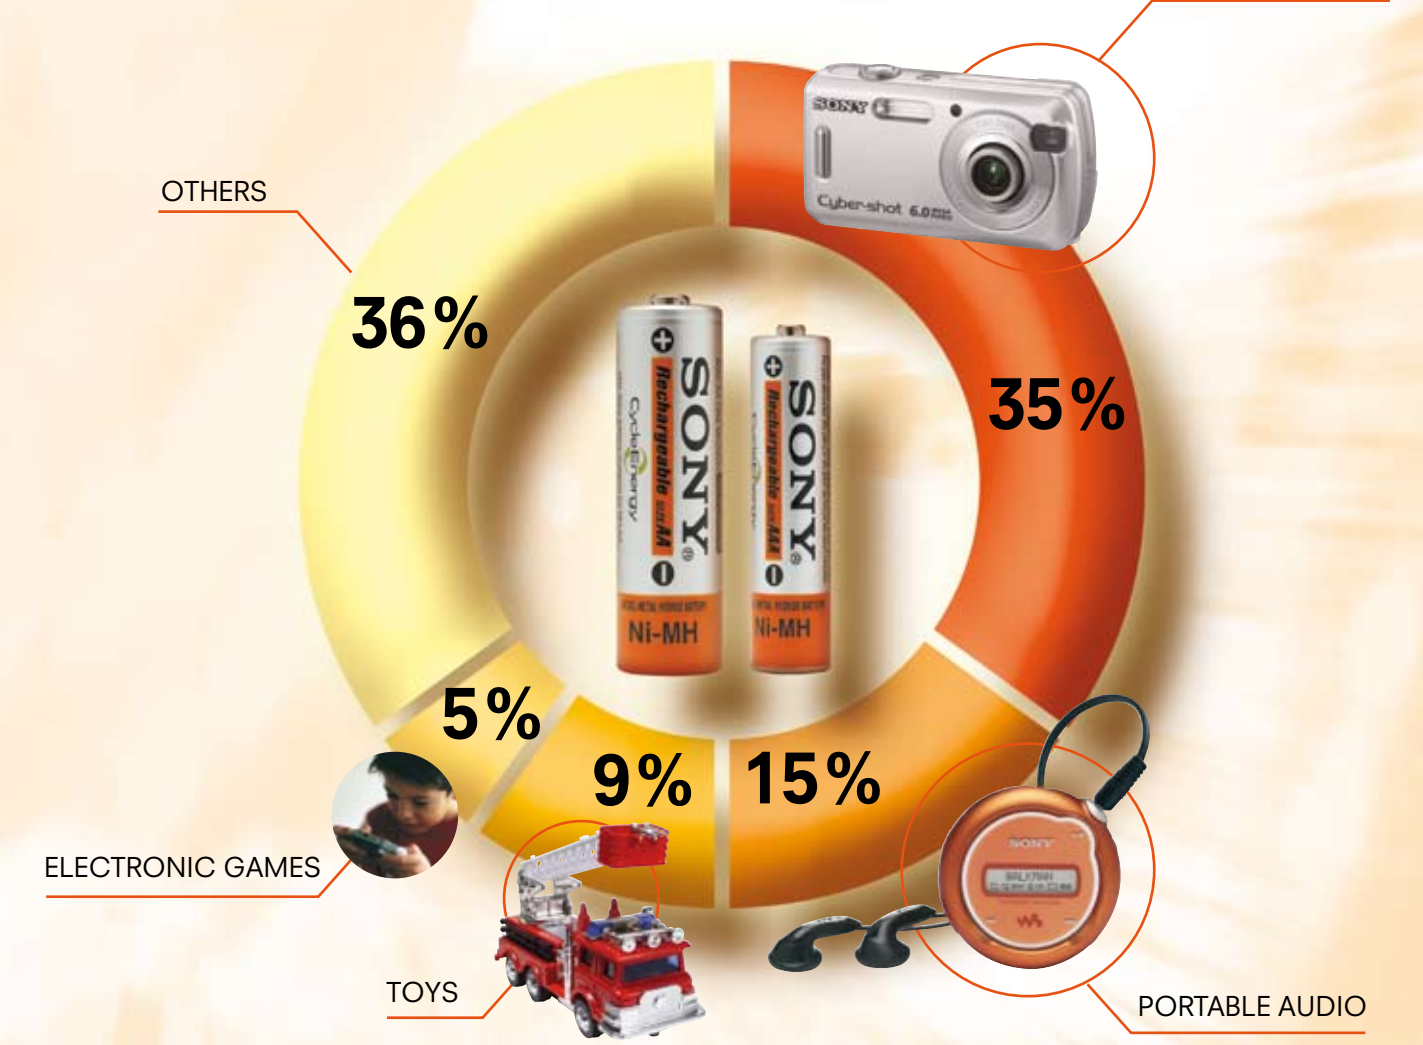

ULTRA FAST

* No worldwide voltage

Advanced Sony Technology on Rechargeable Batteries

Efficiency:

Rechargeable batteries last 4 times longer than Alkaline equivalent

Environment:

One rechargeable battery replaces over 1000 disposable batteries

Economy:

- Ready to use
- Time and time again
