

Darley®

CATALOG #277 |  | 1.800.4.DARLEY

WELCOME

A lot has changed over the years, but our commitment to the fire service has not. We truly value our relationship with you, appreciate the trust that you've placed in us and thank you for the opportunity to serve you.

We hope you enjoy shopping our newest catalog, #277, designed for the fire and public safety professional. This catalog features a collection of products selected from customer favorites, our best sellers, and our highest rated products. We stock most of these items in our warehouses to offer immediate delivery. Can't find what you're looking for? Check us out at edarley.com or call one of our industry experts.

We thank you for the trust you've placed in us in the past, and welcome you if you're a new customer. If we have not exceeded your expectations, I'll consider it a personal favor if you let me know.

Sincerely,

Paul C. Darley
President & Chief Executive Officer
pauldarley@darley.com
Direct Line: 708.273.6920

NEW PRODUCTS

We listen. Based in part on your feedback, we've added a lot of innovative new products to this catalog - quality products from the name brands that you trust, and innovative items from new partners.

If there is a product that you need and can't locate it in this catalog, please contact any of our customer service experts to assist you.

LOW PRICE GUARANTEE

Our employees have a passion for this business and it shows in our commitment to your complete satisfaction. It is also reflected in our Low Price Guarantee and No Hassle Return Policy. If you can find it anywhere for less, let us know and we'll match the price.

Darley offers the equipment you need at affordable pricing. Ask about our volume discounts and our municipal leasing options.

MORE ON EDARLEY.COM

View our complete selection of product offerings, expanded product information, videos, ratings, reviews, and more...always available on eDarley.com. While you're there, be sure to sign up for eDarley Dollars, our rewards program, and earn 3% back on every purchase.

WE'RE HERE FOR YOU

Contact one of our expert product specialists at 630.735.3500 or e-mail us at questions@edarley.com with questions and to place an order today.

SIMPLIFY YOUR ORDERING PROCESS

DARLEY DEFENSE IBC

FLIR K45, K55 AND K65 THERMAL IMAGING CAMERA KITS WITH FSX™ FLEXIBLE SCENE ENHANCEMENT

FSX™ realtime digital processing results in ultrasharp images defining extraordinary structural attributes, edges, and other instantly recognizable details.

CLEAR AND CRISP THERMAL IMAGES

The maintenance free uncooled microbolometer sensor produces detail rich images at 320 x 240 pixels (K55 & K65) and 240 x 180 pixels (K45). Thermal images are displayed on a large bright 4" LCD for easier navigation and the ability to make more efficient, accurate decisions.

NFPA® COMPLIANT K65 ONLY

The K65 is an advanced, feature rich thermal imaging camera which is fully compliant with the National Fire Protection Association® (NFPA) 1801 2021 Standard for Thermal Imagers covering usability, image quality, and durability for firefighting.

EXPANDED WARRANTY

All new K-Series cameras are protected by our exclusive FLIR 2-5-10 Warranty that includes 2-years of coverage on batteries, 5-years on the camera, and 10-years on the detector.

RUGGED & RELIABLE

The K-Series is designed to meet tough operating conditions. They withstand drops from 2 meters onto a concrete floor, are water resistant (IP67) and fully operational up to +260°C/+500°F for 5 minutes.

EASY-TO-USE; EVEN WITH GLOVES ON

An intuitive and simple user interface allows you to focus on the job at hand. FLIR® K45, K55, and K65 cameras are controlled by 3 large buttons, ideal for a gloved firefighter's hand.

PRODUCE ANALYTICAL REPORTS

Store up to 200 thermal images in the FLIR K-Series on-board archive (K45, K55, and K65) that may later be used to produce analytical reports of what happened at the scene.

IN-CAMERA VIDEO STORAGE (K55 & K65 ONLY)

Not only can the FLIR K55 and K65 save hundreds of still images, they can record and store 200 video files in clips of 5 minutes (maximum) each. K55 and K65 videos are useful for on-site analysis and ideal for training purposes. Videos playback directly from the in-camera archive or download to your computer via USB.

EXTREMELY AFFORDABLE: A THERMAL IMAGING CAMERA FOR EVERY FIRE TRUCK

FLIR's integrated production capabilities allow us to offer the K-series at an extremely affordable price. Increase more of your team's safety within your department's budget.

BL797	FLIR K45 Thermal Camera Kit with FSX™	\$4,949.00
BL798	FLIR K55 Thermal Camera Kit with FSX™	\$6,599.00
BL810	FLIR K65 Thermal Camera Kit - NFPA Compliant	\$7,699.00
BL505	Truck Charger	\$829.00
BN699	FLIR Li-Ion Battery	\$200.99

FLIR K33 & K53 THERMAL CAMERA KITS WITH FSX™

FLEXIBLE SCENE ENHANCEMENT

The K33 and K53 feature FLIR's FSX™ Flexible Scene Enhancement that intensifies structural and textural details in thermal images for better perspective and orientation to help improve situational awareness and give firefighters a greater sense of confidence and safety.

THERMAL IMAGING

STREAMLINED HIGH PERFORMANCE MADE EVEN MORE ECONOMICAL

FLIR offers two affordable, easy-to-use options which do not sacrifice FLIR's renowned clarity, reliability, and performance.

FIREPOWER SIMPLIFIED

Don't need all the bells and whistles...the K33 and K53 are the cameras of choice when you're looking for high image quality with simple, straight-forward operation that is ready for action.

- One glove-friendly on/off button quickly fires up the camera in TI-Basic mode
- An easy trigger pull freezes an image on the K33 or capture stills and video on the K53
- 2-bay charging station makes it a cinch to stay prepared

UNCOMPROMISING RESOLUTION

Both the K33 and K53 offer high-resolution thermal imaging with real-time FSX Flexible Scene Enhancement for intensified detail for greater visibility.

- K33's 240 × 180 thermal imaging matches the resolution of the K45
- K53's 320 × 240 resolution equals the image quality of the K55 and K65
- Bright 4" LCD shows smooth 60Hz thermal image that keeps up with the action

AFFORDABILITY REDEFINED

With the K33 and K53, FLIR offers the firefighting and rescue community the broadest cost-effective range of high performance TICs – part of our mission to help you stretch your budget and put more of these essential tools into the hands of those who could use them most.

BN318	FLIR K33 Thermal Camera Kit with FSX™	\$3,245.00

AERIAL THERMAL IMAGING

SEE ROBOTICS FOR INNOVATIVE DRONES FEATURING TELEDYNE FLIR THERMAL IMAGING CAPABILITIES

FLIR K1

A RUGGED, COMPACT THERMAL CAMERA THAT SERVES AS AN EXTRA SET OF EYES ON THE FIRE SCENE

With a bright, integrated flashlight, the FLIR K1 illuminates the scene to help the user steer and manage the crew more effectively. It also displays 160 × 120 pixel thermal images that help users gain additional situation awareness that is not possible with the naked eye.

FEATURES:

- 160 × 120 pixel IR detector
- MSX® image enhancement for added perspective
- 57° × 44° field of view
- Integrated 300-lumen flashlight
- Drop-resistant to 2m (6 ft)
- IP67 rating
- Pistol-grip design offers line of sight viewing
- Save up to 10k visual and thermal image sets
- Up to 5.5 hours of power from a built-in rechargeable Li-ion battery, charged via USB-C
- **Warranty:** 2-years parts and labor, 10-years for the detector, after camera registration

BP081 FLIR K1

\$719.00

FLIR K2 TIC WITH MSX®

EXTREMELY AFFORDABLE THERMAL IMAGING CAMERA FOR FIREFIGHTERS

The FLIR K2 is a rugged, reliable, and extremely economical thermal imaging camera specially designed to help outfit more firefighters with the power to see through thick smoke and expedite decisions when seconds count.

MSX® MULTI-SPECTRAL DYNAMIC IMAGING

The K2 uses FLIR's patented MSX technology that embosses key details from the built-in visible camera onto thermal images, providing extra perspective to help you stay oriented and safer while saving others.

COMPACT AND EASY TO USE

FLIR K2's design makes it light and easy to attach to turnouts. A single large button activates the camera even with heavy gloves on. And the brilliant display and intuitive interface help show you the way through dark, smoky conditions immediately, so you can stay focused on the critical job in front of you.

RUGGED & RELIABLE

Engineered to survive tough operating conditions, the K2 withstands a 2-meter drop onto concrete, is water resistant (IP67) and is fully operational up to +500°F (for up to 3 minutes).

MULTIPLE IMAGE MODES

FLIR K2 can be set to one of seven different thermal imaging modes dependent upon the camera's primary use. Switch between modes using FLIR Tools software that you can download free from www.flir.com.

MULTIPLE FIREFIGHTING APPLICATIONS

Fire up the K2 as soon as you arrive on scene for the 360° size-up. Take it inside to see your way through smoke, keep track of others, and determine where to focus fire attack efforts. Find stranded victims faster. And scan for hot spots during overhaul.

A NEW LEVEL OF AFFORDABILITY

The K2's economical price makes powerful thermal imaging more accessible to more firefighters – a small investment that can help pay big dividends when it comes to safety, saving lives, and protecting property.

BP362	FLIR Monocular Thermal LS-XR, 640x512	\$3,779.00

FLIR SCION OTM OUTDOOR THERMAL MONOCULAR

The FLIR Scion® OTM captures clear thermal imaging and leverages a refined user interface to quickly detect objects of interest in complete darkness and through glaring light or haze. The Scion OTM produces 9 or 60 Hz thermal imaging and records geotagged video and still images for playback long after the day is done. IP67-rated allows single-hand operation in harsh weather conditions, maintaining reliable thermal imaging in the most demanding outdoor environments.

NEW

BP358	FLIR Monocular Thermal Scion, 16" 320x240	\$2,495.00
BP359	FLIR Monocular Thermal Scion, 12" 320x240	\$2,795.00
BP360	FLIR Monocular Thermal Scion, 24" 640x480	\$3,149.00

FLIR SCOUT TK THERMAL MONOCULAR POCKET-SIZED THERMAL IMAGING

The FLIR Scout TK is a pocket-sized thermal vision monocular for exploring the outdoors at night and in lowlight conditions. Scout TK reveals your surroundings and helps you see people, objects and animals over 100 yards (90 m) away. Simple to use, with still image and video recording, Scout TK is the perfect companion, whether in the back country or your own backyard.

NEW

EXPLORE LIKE NEVER BEFORE

- See animals/people over 100 yards away
- Pocket-sized, lightweight (6 oz. / 170 g)
- Rugged design withstands bumps and splashes
- Records video and still images to share with others

GRAB AND GO SIMPLICITY

- Single-handed operation
- Simple four-button design and intuitive interface
- Multiple Video Color Palettes to enhance viewing: (White/Black Hot, InstAlert™, Graded Fire, and more)

STAY AWARE, STAY SAFE

- Keep an eye on your property 24/7
- Search for missing pets or check for predators
- Scan sidewalks, parking lots, and parks in the dark
- 5-hour rechargeable Li-Ion battery

BP027	FLIR Scout TK Thermal Monocular	\$599.00
BP351	FLIR Scout III 320 Thermal Image Monocular	\$1,889.00
BP352	FLIR Scout III 640 Thermal Image Monocular	\$2,519.00

FLIR ONE® PRO PRO-GRADE THERMAL CAMERA FOR SMART PHONES

The FLIR ONE Pro lets you find invisible problems faster than ever. Measuring temperatures up to 400°C (752°F) and packing powerful measurement tools, FLIR ONE Pro will work as hard as you do. Whether you're inspecting electrical panels, looking for HVAC problems, or finding water damage, the FLIR ONE Pro is a tool no serious professional should be without.

IMAGE DETAIL & CLARITY

Powerful Image Processing Technology delivers unparalleled pixel-for-pixel performance. System features MSX® for improved sharpness and on-scene perspective; VividIR™ for improved sensitivity and image quality and features, 19,200 pixels (160x120) image resolution and the thermal sensitivity needed to detect temperature differences down to 70 mK resolution.

EXPANDED MEASUREMENT

Measure temperatures between -4°F and 752°F (-20° to 400°C) with up to three spot temperature meters and six temperature regions of interest.

JOBSITE TOUGH

Built to withstand every day job site abuse, the FLIR ONE Pro is rated for 1.8 meter (5'9") drop test onto concrete.

MATRICE 30 SERIES

POWER IN PORTABILITY

Unique aerial intelligence to capture everything. Reliable in the harshest of environments. Portable to go wherever you go. Ready, when you are, to overcome the unknown. A new generation of commercial drones.

NEW

FEATURES

- Hot swappable flight batteries
- Compact, easy deployment design
- Intelligent battery station with two charging modes
- Full SDK

POWERFUL FLIGHT PERFORMANCE

- 41 minute max flight time
- 33 mph wind resistance
- 56 mph max speed

SAFE AND RELIABLE

- IP55 Protection
- -4°F to 122°F temperature range
- 6 directional sensing and positioning
- Quad-antenna OccuSync 3 Enterprise
- 4G compatible
- AirSense ADS-B Receiver
- Frame arm lock detection

PAYLOAD:

- Zoom Camera:
 - 1/2" CMOS, 48 MP
 - 16x optical zoom
 - 200x max zoom
- Wide Camera:
 - 1/2" CMOS, 12 MP
- Thermal Camera (M30T only):
 - 640x512 @ 30Hz
 - Accuracy: +/- 2%
- Laser Rangefinder:
 - 3 - 1200 m

NEW DJI RC PLUS

- IP55 Protection
- 7.02" LCD touchscreen
- 1920 x 1200 pixels
- 1200 nits brightness
- New pilot 2 flight app
- 6 hour on-screen time with hot swappable batteries
- Quad-antenna Occu-Sync 3 Enterprise

TWO VERSIONS AVAILABLE:

- Matrice 30
- Matrice M30T (Thermal)

MATRICE 300 RTK

INTELLIGENCE WITH HIGH-PERFORMANCE.

The M300 sets a new standard for the public safety drone industry. Offering up to 55 minutes of flight time, advanced AI capabilities, six directional sensing & positioning, and more, the M300 RTK sets a whole new standard by combining intelligence with high-performance and unrivaled reliability. The Matrice 300 is IP45 rated and can operate in temperatures from -4° - 122° Fahrenheit. The new M300 also has a new health management system to give agencies peace of mind that their aircraft is in tip-top shape.

SPECIFICATIONS

- Max Flight Time: 55 min
- Max Descend Speed*: 7 m/s
- Service Ceiling**: 7000 m
- Wind Resistance: 15 m/s
- Max Speed: 23 m/s

OPTIONAL ACCESSORIES

- Dual gimbal connector
- Single upward gimbal connector
- High altitude low noise propellers
- D-RTK high precision GNSS mobile station
- RS1000 tether system (see page 10)

MATRICE 300 RTK

BUILT TOUGH. WORKS SMART.

- IMPROVED TRANSMISSION SYSTEM
- MULTIPLE PAYLOAD CONFIGURATIONS
- A POWERFUL VISION SYSTEM YOU CAN RELY ON

CUSTOMIZE YOUR MATRICE WITH OPTIONAL PAYLOADS

ZENMUSE H20N/H20T

The new H20 series from DJI is a state-of-the-art multi-sensor payload. The unique intelligence and integrated design provide unprecedented aerial imaging capabilities for a range of public safety drone applications. Capture everything up close or from a distance, in true living color or thermal. An integrated laser rangefinder (LRF) measures the distance to an object at up to 1200 m away. A powerful, integrated payload that unleashes advanced intelligent capabilities for DJI's industrial drone platforms.

OPTIONAL TETHER

Blue Vigil manufactures affordable tether power systems designed for off-the-shelf drones. The ground-based tether allows unlimited flight time when connected to a power source (generator, household current, or battery).

PARROT ANAFI USA GOV

A DRONE DESIGNED FOR GOVERNMENT AGENCIES

Advanced flight features designed to meet the unique needs of government agencies, it is compatible with industry-leading solution providers, available sdk for an ever-growing ecosystem. Same high-end security, durability and imaging capabilities as Parrot's Short-Range Reconnaissance (SRR) drone designed for the U.S. Army.

NEW

FEATURES

- PARROT ANAFI USA GOV and Skycontroller USA GOV are fully TAA and NDAA compliant
- Blue sUAS approved
- Made in USA
- FLIR BOSON Thermal Camera: 320x256 resolution
- 2 x 4K 21 Mpx Cameras
- 32x digital zoom
- IP53 certified: dust and rain resistant
- Weight: 496g / 1lb.
- Flight Time: 32 minutes
- Transmission range on 3.1 mi
- Sound level of just 79 dB at 50 cm off the ground
- Fly with a data-empty drone for complete operational secrecy
- SD card encrypted
- No NFZ (no-fly zone) limitation
- Takes off from / lands in the hand of the operator
- Fly ready in 55s
- Create a flight plan with pre-set automatic flight and target-tracking
- Powered by FreeFlight 6, ANAFI's acclaimed piloting software

AUTEL ROBOTICS EVO II ENTERPRISE SERIES

WORK LIKE NEVER BEFORE

Optimize your workflow with the toughest EVO II Enterprise airframes yet. Bulked up with new accessories and camera features to meet the demands of professionals in every industry from firefighting to construction and much more. Featuring a foldable design that can be deployed in seconds and easy-to-use controls that can be operated with a single hand, the EVO II Enterprise provides a surefire way to increase efficiency without increasing stress. The introduction of carbon-fiber arms and specially designed larger props that lower the acoustic signature, enjoy longer flight times than ever before.

NEW

FEATURES

- 3 models/interchangeable payload options:
Pro 6K: 1" CMOS 20MP 6K camera
Dual 640T: 640 radiometric thermal by InfiRay and 48MP visual camera
Dual R: 640 radiometric thermal by FLIR and 48MP visual camera
- Modular Accessories: loudspeaker, spotlight, strobe, RTK Module (sold separately)
- Autel Smart Controller: 7.9", 2000nit touchscreen included
- 8x digital zoom, 3x lossless RGB
- 8-Mile HD transmission
- ADS-B receiver
- Omni-directional obstacle avoidance
- AES 256-bit encryption
- Upgraded carbon fiber structural design
- 42 min. max flight time
- Level 7 wind resistance (up to 38 mph)

ACCESSORIES

- **RTK:** Provides centimeter-accurate positioning data and reduces electromagnetic interference
- **Speaker:** Enables more effective on-site communication through long-distance telephony and audio loops
- **Spotlight:** Beams a powerful, long-distance, aerial light when searching or shooting at night
- **Strobe:** Indicate the location of the aircraft at night to avoid air traffic accidents

FLIR

Hoverfly Technologies is a leading national provider of federal defense drones, security drones, and public safety drones. The LiveSky SENTRY is designed to meet IP54 and MIL-STD-810 standards and is a military-grade tether-powered UAS ready for any mission. Our tether-powered system provides infinite power and continuous operation. It features enterprises multi-site control with Smart Command software by Hexagon.

The SENTRY requires minimal training, and no piloting is needed. It also features a PTZ Hi-Def camera with 10x optical zoom, built-in-lead, flank, follow "on the move" technology.

NEW

IN THE FIELD:

Our tethered drones provide continuous communication with no wire or fiber needed for installation and a mobile ad-hoc network of flying communications nodes.

SPECIFICATIONS

- Weight: 5 lbs (2.3 kg) without payload
- Payload capacity: 1.8 lbs
- Dimensions: 20" x 20" x 10.6" (50 cm x 50 cm x 27 cm)
- Construction: Composite and carbon
- Maximum altitude: 200 ft (60 m) tether
- Communication: Secure data/video over tether
- Power: Supplied by tether with backup battery
- Environmental: IP54*, MIL-STD-810G*
- Temperature: .20C to 55C
- Seamless SDK Integration

MADE IN THE USA:

Our drones are proudly designed, built, and supported in the U.S. Hoverfly has been developing the best Unmanned Aerial Vehicles (UAVs) for industrial, commercial, government, and other specialized applications across the country.

GHOST ROBOTICS: VISION 60 Q-UGV 5TH

#1 AGILE GROUND DRONE IN USE BY U.S. AND ALLIED GOVERNMENTS

The VISION 60® Q-UGV® 5th, is a mid-sized high-endurance, agile and durable all-weather ground drone for use in a broad range of unstructured urban and natural environments for defense, homeland and enterprise applications.

Ghost Robotics goal is to make Q-UGVs an indispensable tool and continuously push the limits to improve its ability to walk, run, crawl, climb and eventually swim in complex environments that their customers must operate in, day in and day out. Ultimately, their robot is made to keep our warfighters, workers and K9s out of harm's way.

Ghost Robotics Q-UGVs not only manage unstructured terrain well but are built for demanding customers in demanding environments. Their robots are faster, more durable, have greater endurance, simpler to integrate, and far easier to support versus their competitors.

They're unstoppable, with the ability to get right back up from any slip, fall, or failure and keep moving using their proprietary blind-mode operation. They have to because we design and build robots to keep humans and K9s out of harm's way.

FEATURES

- Weight: 45.4 kg (100.08 lbs.)
- Ingress + Temp: IP67, -40 to 55C (-49 - 131F)
- Top speed: 3 m/s (9.84 ft.)
- Max distance: 12.6 km (7.83 miles) on single charge
- Max power runtime: 3 hrs
- CPU/GPU: NVIDIA Xavier
- Max payload: 9 kg (19.84 lbs.)
- Assemble/Disassemble: 15 min.

EMILY BY HYDRONALIX

EMERGENCY INTEGRATED LIFESAVING LANYARD

The EMILY platforms are designed to assist water rescue and recovery teams in completing their missions. It is perfect for dangerous conditions by keeping the rescuers out of the danger zone. Battery operated and remote controlled, EMILY can penetrate areas where traditional watercraft cannot and that are too dangerous for rescue divers. Multiple systems to meet your team's needs.

EMILY KIT

- 2 additional steering arm boot seals
- Electrical anti-corrosion solution
- 3 additional inlet grates
- Flags 3-pack
- Tool kit
- Lanyard 3-pack
- Canvas carry bag
- Additional impeller

SWIFT WATER RESCUE EMILY

- SWRE float cover
- Life jacket
- Helmet
- Headlight

SONAR EMILY KIT

- Standard EMILY features
- Sonar payload station including"
 - Hi-resolution Sonar
 - Side scan Sonar
 - Multi-screen imaging
 - Autonomous operation
 - Basemap cartography

FEATURES:

- Weight: 26 lbs.
- Dimensions: 50" Lx14"Wx14"H
- Positive buoyancy: 150 lbs.
- Self-righting
- Perimeter grab rope: 8 ft.
- Range line-of-sight: Up to 1 mile
- Waterproof internal modular components
- D-Ring tow line attachments
- Jet pump drive

INCLUDES:

- Float cover
- Battery charger 2-pack
- Battery module
- Flag
- Boat stand
- Lanyard 2-pack
- Futaba transmitter
- User manual
- 2.4 GHz transmitter controller with amplifier

BOUNCE IMAGING TACTICAL 360 CAMERAS

MULTIPLE USERS, ALL DIRECTIONS, SIMULTANEOUSLY

Bounce Imaging cameras bring a new standard to keeping your team safe. Their simple to use tactical cameras are smartphone compatible and require no training. Traditional cameras force you to see the world as if through a straw - with a limited field of view. Bounce Imaging cameras see in all directions AT THE SAME TIME. This means one user can look left, another can look right, and if they both miss something behind them, they can scroll back in time and replay video from that perspective while maintaining vertical and horizontal stabilization. Connect via WiFi, or an embedded 4G-LTE connection, then stream video to command or other users in the field.

SOFTWARE & ACCESSORIES

BUILD, MANAGE AND SCALE

DRONESENSE

BUILD, MANAGE AND SCALE YOUR DRONE PROGRAM

DroneSense is a comprehensive solution that empowers your public safety organization to build, manage, and scale its drone program. DroneSense has partnered with first responders from day one to design a mission-critical software platform that enables agencies to leverage the full capabilities of drones in their operations. Whether you have already obtained a drone, or are contemplating how to get your program started, DroneSense can help you quickly become fully-operational for all stakeholders across your organization.

SKYEBROWSE

3D MODELING IN MINUTES

SkyeBrowse enables people to make 3D models in just a few minutes. People can make the models using their smartphones with only a couple of taps. SkyeBrowse is very simple with no extensive flying experience required.

COLORADO DRONE CHARGERS

Charges up to 4 batteries and 1 flight controller simultaneously in record time! Fly all day with the Portable Rapid Charging System (PRCS). Designed to work with generators, inverters, and other power sources. Features CDC intelligent charging with current, voltage and temperature management.

- 2-year warranty
- Made in USA

GO PROFESSIONAL CASES

Each GPC product is designed with the individuality of the customer in mind, offering unique cases to fit any and all organizational and protective needs. They offer the best in quality and innovation by utilizing the most advanced production technologies and experts to ensure your case is at the top of its class.

- Precision waterjet inserts
- Signature closed, soft cell polyethylene foam with blue MDL cap
- Watertight hard case with automatic ambient pressure equalization valve
- UV ray, corrosion and fungus resistant

FLAIM TRAINER

THE WORLD'S FIRST IMMERSIVE TECHNOLOGY ENABLED FIREFIGHTER TRAINING SOLUTION

FLAIM Trainer™ is a multi-sensory immersive learning system combining and integrating hardware and software to deliver an interactive kinesthetic firefighter training solution.

- 
Immersive Simulation
 Delivering a physical world training solution in a safe, controlled virtual environment
- 
Multi-Sensory
 Integrated physical interfaces deliver a realistic feeling to the virtual training experience
- 
Live Feedback
 Real time data capture, analysis and training outcome feedback
- 
Virtual Environments
 High fidelity virtual experiences with a continuously expanding portfolio of scenarios
- 
Fire Science
 Proprietary algorithmic modelling delivers real fire behavior in a virtual environment
- 
Biometric Performance
 Statistical learning outcome analysis to generate data driven decision making

FLAIM

BP235	FLAIM Trainer Fully Immersive Virtual Reality Training Simulator	\$49,500.00
BP240	FLAIM Trainer Fully Immersive Virtual Reality Training Subscription	\$9,500.00

FLAIM EXTINGUISHER

VIRTUAL REALITY TRAINING WITHOUT THE MESS, HASSLE, OR RESTRICTIONS

Educate first responders on how to handle a fire extinguisher using the PASS technique, assess risk and choose the correct agent. Better prepare trainees for a broad range of emergencies and give them the confidence to respond effectively and efficiently during real-life events.

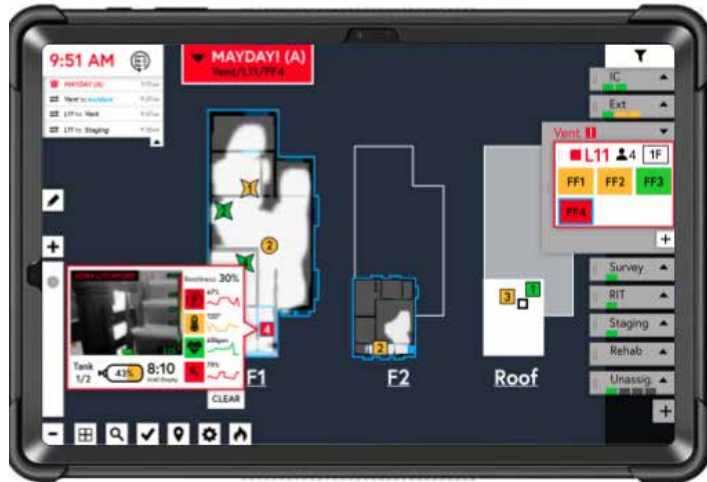

PASS

BP236	FLAIM Extinguisher Training Kit	\$8,000.00
BP238	FLAIM Extinguisher Training Subscription	\$1,500.00

ASCENT INTEGRATED TECH (AIT)

THE UNIFYING PLATFORM FOR INCIDENT COMMAND

Mayday Detection

Accountability

Manage the scene

Track your team

THE SINGLE SCREEN FOR HIGH INTENSITY SMALL UNIT TACTICS

Ascent builds the unifying dashboard for Incident Command-providing actionable alerts on firefighters' health, environment, and location during structural burns. The majority of their work stems from collaboration with the Illinois Fire Service Institute.

CAPABILITIES

- Manage and generates floor plans, even when it's not available
- Tracks firefighters on a multiple-story building across floors and as they as they enter and exit the incident
- Detected maydays from falls or abnormalities via health and environmental alerts

THE ASCENT PLATFORM ALLOWS YOU TO:

- Pre-plan with stored or generated floor plans
- Generate report-outs
- Understand where your firefighters are, how they are doing, and get alerts on changing conditions
- Coordinate tasks and assets effectively
- Get easy to understand metrics on cognitive and physiological readiness of operators

Compatible with your existing technology

IMMERSIVE FIREFIGHTER TRAINING

RiVR LINK - CLASSROOM IN A BOX

CREATE CONTEXTUAL CONTENT AND ENHANCE YOUR CLASSROOM TRAINING EXPERIENCE

NEW

ENGAGED LEARNING

The instructor can monitor and interact with the session from the laptop and is able to give central feedback by pausing the 360° video and focusing all students' attention to key learning points. Using a virtual marker (VR Chalk), the instructor can draw directly onto the video, visible to everyone, and, using wireless communications, can speak directly into the students' headset.

INCLUDES:

- 5-15 virtual reality headsets per kit
- Laptop, wireless router, headsets, flight case and cords
- Software that links the headsets, router and laptop
- Choice of remote or local headset connection
- Ability to play, fast forward, rewind and make chalk dictations on the video
- Management of content library

BP414K1	RiVR Hygiene Kit	\$55.00

RiVR INVESTIGATE - INVESTIGATION TRAINING

PHOTOREALISTIC CONTENT TO HELP RETRAIN ARSON INVESTIGATORS ON SKILLS TRAINING AND SCENE WORK FUNCTIONALITY

Students can fully examine a scene, take photographs, record on a Dictaphone and examine evidence prior to making professional conclusions. All of this activity is recorded in real time allowing playback for professional discussion at any point in the future. Development of this global training library allows fire services around the world to share their different training techniques.

PHOTO REALISM

The photorealistic scenarios in RiVR Investigate offer a near-to-life immersive presence in fire and crime scenes. Using advanced 3D modelling techniques like photogrammetry, the scene is turned into an interactive learning environment. RiVR improves the realism of investigation training and increases the number of scenarios trainees are confronted with during training.

NEW

INCLUDES:

- Subscription to global library of arson investigation scenarios consisting of different causes of fire
- HTC Vive kit, gaming laptop and accessories to operate

HAZMAT TRAINING

TRAINING

HAZSIM® TRAINING SIMULATION SYSTEM

INTERACTIVE LEARNING FOR GROWING TEAMS

The world's most innovative and effective hazmat training system is now better than ever! With intuitive and scalable new features for growing teams, now is a great time to enhance your hazmat training with the HazSim Pro 2.0 Handheld.

FEATURES

- UNLIMITED METERS AND VARIATIONS INCLUDING CHEMICAL, RADIATION AND WMD
- EXTENDED RANGE LAN, UP TO 1000' WITH OPTION TO EXTEND
- SCALABLE PLATFORM FOR ADDITIONAL HAZSIM METERS
- LARGER TOUCH SCREEN AND LONGER BATTERY LIFE
- EXTERNAL BUTTONS ALLOW QUESTIONS TO BE ANSWERED EASILY WITH GLOVED HANDS
- TAG FUNCTION ALLOWS INSTRUCTORS TO MAKE NOTES IN EVOLUTION

HAZSIM HANDHELD METER:

- Ruggedized housing - 13.2"x8.6"x.7", 3.6 lbs.
- Super responsive touch screen and large external buttons
- Loud audible alarms
- Confined space probe with tubing included

HAZSIM INSTRUCTOR SERVER:

- Laptop tablet with full keyboard and case
- Group meters (if using more than one handheld) can be synced or controlled separately
- Ability to create custom meters

INTERACTIVE LEARNING:

- Instructor can send questions in real time
- Students answer questions via HazSim handheld
- Use HazSim's preloaded questions or create your own
- Customizable alarms for your team's specific needs

METERS:

- Multi-gas - 4, 5, or 6 gas meters
- Radiation - alpha, beta, gamma
- WMD meter (bar graph)

PLUS:

- Pelican Case for safe transport
- Standard one year warranty, with option to extend

SLATESAFETY

BIOMETRIC WEARABLE SOLUTION FOR FIRST RESPONDERS

The SlateSafety Band V2 Platform acts as an early-warning system for heat strain and overexertion that can be used to prevent injuries. Keep your teams connected and protected with our easy to deploy solution that provides real-time connected worker safety.

FEATURES:

- Monitor your most valuable assets from any internet enabled device or perform the job and download the data later for evaluation
- Open integration architecture for seamless data transfer to current company systems
- Compact, discreet design allows device to blend in seamlessly under PPE
- Manage worker safety by enabling haptic or LED feedback alerts when a person is working outside biometric baselines
- 'Over the air' updates expand product life time value and allow for easy deployment on future feature expansion (i.e. fall detection)
- Made from durable, long-lasting materials

FIREBASE SG-Z1200 SMOKE GENERATOR

The Z-Series dominates the entry level price range small to medium scale smoke generator market with its high performance fog output and high tech features. The Z-Series is equipped with the ECO thermal control system and the patented UNICORE heater technology. The Z-Series comes with a high quality pump and electronic low-fluid detector also known as Thermal Cut-Off (TCO) which automatically shuts off the pump when the fluid level is low, protecting the machine from damage. The Z1000 and Z1200 heater cores can easily be taken out from the heater block for a quick and easy cleaning to prevent clogging and insure trouble-free performance.

FEATURES:

- Higher output/Low fluid shut off
- Easily removable heater core
- Integrated DMX control

INCLUDES:

- Timer remote - SG-Z1200-Timer
- Optional wireless remote (Contact Darley for details)

BATTLE FOGGER

4200 CFM

The Battle Fogger's simple design is an extremely effective fog machine incorporating a large heating block, a strong whisper-quiet pump, and our cutting-edge Rapid Change Technology (RCT) capillary tube replacement system. The large one-gallon integrated fluid tank prevents leaks and drips, a special hammer-tone finish resists scratches and wear, and a built-in handle balances off the sleek, rugged chassis. The Pro Fogger comes standard with a 25' deluxe remote, and onboard microprocessor, a built-in hose adapter, and a replacement RCT capillary tube kit. *Ship. wt. 25 lbs.*

AW352 Battle Fogger \$1,148.95
AW415 Smoke Fluid, 4-Liter \$80.95

SUPERIOR SMOKE MACHINE

4800 CFM

With a powerful 1300-watt heating core and reliable high-pressure piston pump, this machine delivers an impressive output of 4800 cfm. It will quickly fill your training area with dense, persistent, non-irritating smoke with excellent obscuring power. Comes standard with 32-foot wired remote control featuring a selection for manual or self-timed operation. Simply set the control flow rate, duration of smoke blasts and interval between blasts. The Superior Smoke Machine will continuously refill an area with smoke at a steady, constant rate. Other features include thermal cutoff to prevent "wet smoke" and LED status lights. Unit holds one gallon of smoke fluid. UL listed. *Ship. wt. 32 lbs.*

AM240 Superior Smoke Machine \$894.95
AM241 Smoke Fluid, 1-Gallon \$68.95

PASSFIRE™ BURN PAN TRAINING UNIT

The Halcyon Product's Passfire™ Burn Pan Training Unit is a cost-effective, portable solution for contained, controlled burns for training purposes. It is used by fire departments and training firms for fire extinguisher training.

- Conduct safe, inexpensive fire extinguisher training
- Firefighter designed and approved
- Helps businesses and organizations comply with OSHA 1910.157
- Uses clean burning propane and is environmentally-friendly
- Fire is contained within the deep, durable stainless steel pan and does not affect the surrounding training areas, eliminating mess and damage
- Sturdy supports for set up on any flat surface
- Contains quick disconnects for easy set up and tear down and provides additional security, controlling the supply of propane to the copper burn element
- Drain in bottom of pan for easy clean up and water disposal
- 25' propane hose
- Dimensions: 25" Lx25"Wx16"H
- *Ship. wt. 57 lbs.*

BK069 Passfire™ Burn Pan Training Unit

\$3,299.95

As an industry, we have been trained to think that you have to sacrifice thermal protective performance (TPP) in order to achieve maximum total heat loss (THL). Introducing a game changer for the fire industry, TECGEN71. Fire-Dex FXR turnouts are specifically designed to minimize firefighter stress and fatigue through Active Posture Design™, allowing for full range of motion - especially while wearing your SCBA!

FIRE-DEX EXCLUSIVE TECGEN71 OUTER SHELL

THE BEST TPP/THL BALANCE IN THE HISTORY OF TURNOUT GEAR

ENSEMBLE FEATURES

- LIGHTWEIGHT AND FLEXIBLE TECGEN71 OUTER SHELL
- STEDAIR® 4000 MOISTURE BARRIER
- COREXP THERMAL LINER WITH SUPERIOR WICKABILITY
- THERMOPLASTIC ZIPPERS
- 3" NYC SCOTCHLITE™ LIME/SILVER TRIM
- PCA REINFORCED CUFFS

TECGEN71 FEATURES RIP TWILL CONSTRUCTION:

The proven strength of 60/40 Kevlar®/Nomex® on the face of the fabric, while creating a super structure of the TECGEN® fiber inside. This combination provides a lightweight solution, weighing in at 6.5 oz/yd2.

DOUBLE LOCK STITCHING

Fire-Dex uses lock stitching on all major seams, cuffs, and reinforcements, with 4 rows of lock stitch on all reflective trim and hook & loop closure material.

SUPERIOR POCKETS

All Bellows Pockets are reinforced with Kevlar® for the best cut resistance. All Radio Pockets are fully lined with moisture barrier, including the pocket flap. All pocket flaps are extra long to ensure complete closure, no matter the bulk inside.

COAT FEATURES:

- 30" coat length
- Zipper with hook and loop closure
- Combo handwarmer/semi-bellows pockets
- Radio pocket with double notched flap
- Flashlight holder
- Mic clip above radio pocket
- Optional lettering available

Black Gold

PANT FEATURES:

- Zipper with hook and loop closure
- 2 take-up straps at waist
- Semi-bellows pockets
- Padded knees
- Deluxe H-Back padded suspenders with cam-lock

REVOLUTIONARY NEW TECGEN71 MATERIAL

LIGHTWEIGHT AND FLEXIBLE

A structural firefighting outer shell designed to lessen heat stress by reducing weight and increasing flexibility. TECGEN71 features a rip twill weave that combines the proven durability of DuPont™ Kevlar®/Nomex® and the unique benefits of the TECGEN fiber. TECGEN71 is the first of its kind to address this growing health concern with innovative technology aimed at providing the perfect balance of breathability, comfort, TPP and THL, all while offering an overall reduction in composite weight.

TECGEN71 COMPOSITES VS. TYPICAL COMBINATIONS:

-  20% Lighter
-  45% Thinner
-  70% More Flexible
-  50% Higher Total Heat Loss

WITHOUT SACRIFICING THERMAL PROTECTIVE PERFORMANCE

- **SEAMLESS COLLAR**
Comfort and NFPA compliant protection without the need for a throat tab
- **OMNIDEX™ SHOULDER**
Eliminates coat rise and sleeve retraction by moving the shoulder seam to the natural bending point, allowing for optimal SCBA positioning

- **ATHLETIC PANT DESIGN**
Provides natural movement and comfort in a forward firefighting position

- **DEXFLEX™ KNEES AND ELBOWS**
Move freely and reduce resistance with naturally-bent knees and elbows

STACK UP THE SAVINGS WITH OUR DARLEY ARMOR APM™ GEAR PACKAGE

THE BEST DUPONT NOMEX®/KEVLAR® OUTER SHELL BLEND

For at least two decades, fire departments choosing outer shells made of 40% DuPont™ Nomex®/60% DuPont™ Kevlar® have been limited to stiff and uncomfortable gear... until now. Utilizing the groundbreaking Filament Twill Technology™ used in PBI Max™, the Armor APM™ outer shell fills the needs of firefighters who prefer improved mobility, durability, and improved protection at an economical price. Armor APM™ - a 6.5 oz. outer shell with absolute performance.

ABSOLUTE PERFORMANCE

How does one achieve absolute performance utilizing the same fibers (meta-aramid, para-aramid) used in Fusion™ and TenCate Advance™...and not increase the cost 25-50%? The answer lies in Filament Twill Technology™. Like PBI Max™, Armor APM™ is powered by DuPont™ Kevlar® filament in a twill weave. The result is a lighter weight outer shell (6.5 oz.) with improved comfort/flexibility, improved strength and durability, and equal to improved protection.

IMPROVED DURABILITY

DuPont™ Kevlar® filament allows Armor APM™ to resist tearing for a longer period of time than traditional outer shells like Fusion™ and TenCate Advance™...improving durability.

IMPROVED COMFORT/FLEXIBILITY

Based on the Fire-Dex FXM pattern, you get better comfort and flexibility that leads to better mobility. Better mobility can make all the difference in a life threatening situation. Firefighters wearing other outer shells don't need to sacrifice mobility any longer...Darley Armor APM™ is the answer.

PRO-TECH FIRE GLOVES

PRO-TECH 8 VISION™ STRUCTURAL FIREFIGHTING GLOVES

Pro-Tech 8 glow-in-the-dark bands absorb light and clearly identify your location in all low-light to no-light conditions for hours. The reinforced eight-layer knuckle guard, water-resistant outer shell made of FR treated water buffalo hide and certified Porelle PTFE moisture barrier, to protect against chemical and viral threats, make this your go to glove in any situation.

- **Water and Flame Resistant:** Water buffalo hide exterior keeps hands dry and safe
- **Glow in the Dark:** RIT Rescue Bands support downed firefighter rescue and high-vis need situations
- **Reinforced Knuckle Guard:** 8 layers featuring 100% Kevlar® fused with silicon carbide
- **Porelle® PTFE Moisture Barrier:** Triple-certified to protect against chemical and viral threats
- **Superior Wet-and-Dry Grip:** Water buffalo hide and stitched down palm delivers exceptional grip
- **Enhanced Dexterity:** Finger sidewalls feature DuPont™ Kevlar® and Nomex®
- **Easy Don and Off:** Using modacrylic inner liner and durable leather pull tab
- **Resists Pullout:** Inner liner is sewn and bonded at each fingertip for maximum resistance to pullout
- **NFPA 1971-2018 Certified:** Materials certified to NFPA 1971-2018 for professional-grade hazard protection

SPECIFY SIZE: S-XXL

QUAD-VENT TURNOUT GEAR BAG

Lightning X Products has been making quality public safety bags for nearly 20 years. From time to time we get the urge to improve upon existing bag designs. The LXFB45M uses Quad-Vent Technology that features four uniquely shaped mesh vents located at each corner of the turnout gear compartment to promote cross ventilation. This keeps your gear fresh and helps prevent mildew from forming. Our competitors only offer a bag with one vent, in the rear of the bag... how is air supposed to flow through just one vent? The Quad-Vent bag is large enough to hold all of your gear, boots and helmet comfortably – without being so big that it becomes cumbersome to carry around.

- Four PVC reinforced mesh air vents front & back provide full ventilation for your gear
- Comparable bags only offer a single air vent
- Cross ventilation allows gear to dry faster
- Helps prevent the growth of mildew from storing damp turnout gear
- Adjustable padded shoulder strap with heavy-duty snap hooks

SPECIFY COLOR: Red, Fluorescent Yellow or Black

BP197 Quad-Vent Turnout Gear Bag

FIRE-DEX® 911™ HELMET

The 911® helmet provides solid, dependable, comfortable protection in a multitude of environments and still allows for a wide range of vision and long-use. Helmet shell is made of the lightest fiberglass composite offering superior protection against high temperature and chemical hazards. Its unique foam impact insert assembly provides even more top and side protection. Long lasting, easy-to-clean, high-gloss, flame-retardant finish resists scratches and UV rays. Replaceable 4" PPC wrap around face shield features an easy-to-operate tension adjustment and plastic bracket to provide maximum dielectric protection. *Meets current NFPA standards. Ship. wt. 5 lbs.*

- Colored throughout fiberglass compression molded shell
- Fiberglass shell has superior flame and heat resistance
- Thermal impact cap is a low density injection mold
- 2 pieces that are inseparable
- 6 way overhead suspension straps allowing for a more customized helmet "ride"
- 3 piece headband with ratchet assembly for easy adjustments (6 1/2" - 9")

SPECIFY COLOR: Red, Black, Yellow, White

-------	-----------------------	----------

CAIRNS 660C FIBERGLASS HELMET

Helmet shell is reinforced, high-temperature resistant molded fiberglass. Cairns' patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include full brim, high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4" Tuffshield faceshield. Helmet fronts sold separately. *Meets NFPA 1971. Ship. wt. 5 lbs.*

-------	-------------------------	----------

CAIRNS 1010 TRADITIONAL STYLE HELMETS

Features new tough, through color, reinforced, high-temperature resistant, molded fiberglass composite shell that resists cracking and chipping. Cairns' patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4" Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971-2007 Edition. *Ship. wt. 5 lbs.*

SUPER LIGHTWEIGHT TRADITIONAL STYLE FIRE HELMET WITH 6" BRASS EAGLE

NEW

Part of the UST Fire Helmet Series. So light, you may forget you're wearing it! Includes an intricately carved brass eagle and handcrafted leather fronts. Available in multiple colors and your choice of eye protection.

BULLARD TOUGH

- Scotchlite Reflective Striping* retains reflectivity to 500° F (260° C); no burning, cracking or peeling
- Tough Thermoglas® Outer shell with super matte finish
- M-Pact Plus molded inner liner system helps to protect against heat rise and falling objects
- Sure-Lock® ratchet headband with comfort brow pad made exclusively by Bullard
- Chinstrap with postman's slide is easy to adjust and secure
- Nomex® ear cover; Nomex is a heat and flame resistant fabric made by DuPont™
- Brass D-ring to help hang your helmet on virtually any size hook

SAFETY AND PROTECTION

- Meets and exceeds NFPA 1971, Standard on Protective Ensemble for Structural Firefighting and Proximity Firefighting, Pertaining to Structural Fire Helmets
- Molded nylon inner liner with polyurethane foam thermal barrier provides impact protection and resistance to internal heat rise

STRUCTURAL FIRE HELMET WITH TRAKLITE™ LIGHTING SYSTEM

NEW

Safety First: Unlike other fire helmet lights, the weight of TrakLite™ is distributed between the front and rear of the helmet to offer a more balanced lighting solution. Additionally, TrakLite™ is completely waterproof.

Easy Operation: Easily operable with a gloved hand, the single rotary switch powers both the front LEDs and the rear buddy indicator light. Powered by four AAA batteries, TrakLite™ is energy efficient, with a runtime of at least six continuous hours at a minimum brightness level of 50%.

Compliant to NFPA 1971-2013 Standard

BEN FRANKLIN 2 PLUS TRADITIONAL HELMETS

You can't beat the combinations of a traditional styled helmet with the strongest outer shell on the market by Morning Pride. *Ship. wt. 4 lbs.*

- **Strongest Shell on the Market** - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass
- **FYR-Glass Technology** - Provides a helmet that is lighter, lower ride, more comfortable and better fitting
- **High Heat Performance** - No other shell finish stands up to high heat like FYR-Glass
- **Low Ride, Better Fit, Low Center of Gravity** - 8-point suspension and wider interior gives wearer superior comfort and fit
- **More Sizes, More Adjustability** - Our headband/ratchet will fit the largest range of hat sizes of any NFPA helmet on the market, plus for position depth adjustments
- **Accessories** - Screaming eagle, padded adjustable ratchet system, protective Nomex® earflaps, combo adjustable chin strap, Reflexite® patches (Leather shield not included)
- Meets and exceeds NFPA 1971, 2000

EV1 TRADITIONAL HELMET

The progressive interface and cutting-edge features of EV1 helmets offer unmatched performance with a sturdy, sleek, lightweight design that customizes fit for unparalleled comfort and superior functionality. Low-profile design combined with lighter-weight materials provides superior comfort, optimal fit, and improved balance. Proprietary EZ Touch feature allows for one-touch deployment of your face and eye protection. No fuss. No hassle. Stows internally and provides adjustment to fit your face perfectly. Features a safety lock and a cushioned nose guard. EZ Touch face and eye protection is released at the touch of a finger and is the only solution for quick one-hand deployment.

- EZ Touch internal face and eye protection with safety lock
- Black Nomex® 2-layer FR cotton ear covers
- EZ Clip replaceable and reversible chinstrap with quick-release and postman slide
- Composite fiberglass shell
- Large hang-up loop
- Bulldog edge beading
- Golden alloy-plated eagle front holder
- Anti-catch safety bracket for leather fronts
- 8 Reflexite® lime trapezoids
- Certified to NFPA 1971

A-TAC® FIREFIGHTER'S GOGGLES

Protective goggles designed to specifically protect the firefighter in structural, wildland and other emergency situations. A-Tac® firefighter's goggles pass the NFPA 5000 5-minute heat exposure test. Features a silicone strap and body with hard coated/anti-fog inner and outer lens. Fits over prescription, safety and sunglasses. Can be removed from the helmet, without tools and worn directly on head. Includes goggle clips for both traditional and contemporary helmets. Meets NFPA and ANSI. *Ship. wt. 1 lb.*

AM058 A-Tac® Firefighter's Goggles \$64.08

INNERZONE 3™ WRAPAROUND STRAPS

The ESS Innerzone 3™ features a wrap-around strap system that secures to structural helmets with two Velcro® tabs. Designed to protect eyes during extrications, USAR, and other hazardous situations that demand primary eye protections. The Innerzone 3™ is fully NFPA compliant, including the 500° 5-minute NFPA oven test. *NFPA 1971.*

- Functions well with all major structural firefighting helmet designs
- Patented Speed Clip™ strap system makes adjustment quick and easy
- 2-piece strap system made of 26mm-wide, high-memory woven Nomex®
- Frame made from high heat-resistant materials
- Full-perimeter ventilation and filtration system
- Lenses feature ESS ClearZone™ anti-fog and anti-scratch lens coating
- Lenses provide 100 UVA/UVB protection and precise optical clarity for distortion-free vision
- Lenses are highly impact resistant and exceed the impact requirements of ANSI Z87.1-2010+

PARTICULATE HOODS

H41 INTERCEPTOR™ HOOD WITH DUPONT NOMEX® NANO FLEX

The H41 Interceptor™ Hood is made with a layer of DuPont™ Nomex® Nano Flex inside that acts as a filter to reduce firefighters' exposure to persistent fireground carcinogens and other contaminants. We've used this revolutionary material sewn between two layers of knit 6.0 oz. PBI®/Lenzing (20%/80%) to provide the maximum performance for particle barrier filtration, comfort, and thermal and flashover protection.

SCIENTIFIC DATA

The H41 Interceptor™ blocks 95% of particulates at .2 micron in size or larger. For perspective, there are 25,400 microns in one inch and a human hair is about 75-100 microns wide, so a .2 micron particulate is about 500x smaller than a strand of hair. Testing has shown that the particulates sized at less than .2 microns don't have enough mass to make it through the double layer knit and the Nomex® Nano Flex; essentially meaning that this hood blocks 100% of particulates less than .2 microns.

H41 INTERCEPTOR™ HOOD WITH STEDAIR® PREVENT

Choose the H41 Interceptor™ to reduce the absorption of carcinogens in the highly-permeable skin around your face and neck.

This 2-layer hood features an inner layer of Stedair® PREVENT with one outer layer of 8oz. Nomex® 100%.

- Unmatched breathability compared to moisture barrier technology
- Maintains excellent flame and heat resistance
- Exceeds NFPA 1971 requirements for TPP, THL and burst strength
- Built for durability
- Mask not included

PARTICULATE BLOCKING HOODS

INNOTEX GRAY™ PARTICULATE BLOCKING HOOD 25

NEW

Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

3 LAYER APPROACH

The INNOTEX GRAY™ Hoods use a 3 layer approach similar to Turnout Gear. The two inner layers are laminated together to increase comfort and reduce bulk.

PARTICULATE BLOCKING LAYER

INNOTEX GRAY™ Hoods use a proprietary version of Stedair® PREVENT, which blocks carcinogenic particulates 0.1 µm to 1.0 µm (microns) by greater than 99%.

AIR PERMEABILITY

The INNOTEX GRAY™ Hoods are air permeable, which means air can pass through them. Body heat can dissipate, helping reduce the risk of increased body temperature.

SPECIFY SIZE: M/L or XL

BN698 INNOTEX GRAY™ Particulate Blocking Hood 25 \$133.95

VERIDIAN™ PREVENT BARRIER

NEW

Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

- 99.99% blocking efficiency after 100 wash/dry cycles
- Highest THL in the industry
- Superb durability
- Revolutionary design achieves less bulk
- Tailored design allows for maximum comfort
- NFPA 1971 optional requirements for protective barrier hoods

BP220 Veridian™ Prevent Barrier Hood \$75.95

COBRA™ BARRIAIRE GOLD™ HOODS

CERTIFIED TO NFPA 1971

BarriAire Gold Hoods combine superior comfort, increased protection and maximum durability. Your fire hood is an investment in your health and safety — go for the gold, BarriAire Gold Hoods only from PGI. Lightweight inner layer of DuPont™ Nomex® Nano flex fabric inhibits penetration of harmful contaminants and carcinogenic particulates between 0.1 and 1.0 microns.

BN721 COMPLETE COVERAGE

Particulate coverage includes entire head except for Sure-Fit™ panel at crown. Front and back bib extends particulate barrier coverage beyond critical areas as identified by NFPA - Maximum Protection.

BN722 CRITICAL COVERAGE

Particulate coverage from base of the neck and around entire head except for Sure-Fit™ panel at crown. All critical areas of particulate penetration as identified by NFPA have particulate barrier.

BN721 PGI BarriAire Complete Coverage Hood \$121.95
BN722 PGI BarriAire Critical Coverage Hood \$113.95

VERIDIAN™ NOMEX NANO FLEX

NEW

Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

- Water-repellent outer layer
- Stretchable materials provide maximum comfort and unrestricted range of motion
- One size fits all
- Seam free on the top of the head allows for maximum breathability and comfort
- Unique "Barcoded" ID for tracking
- NFPA 1971 Optional requirements for protective barrier hoods

BH029 Ultra C6 Hood \$44.95

DARLEY HOOD

Darley has teamed with PGI to develop a new standard in hood protection. We've selected Para-Tek FR™ as a proprietary Tri-Blend that leverages the benefits of three fibers, high strength Para-Aramid, Lenzing® and High Tenacity Nylon. The end result is a lightweight, breathable hood that offers exceptional flame and heat resistance.

- Excellent TPP rating – 34.8 after five washings
- Provides double layer coverage of neck, upper chest, shoulders and shoulder blades
- Improved styling for better fit and maximum coverage
- Superb flame resistance – lowest vertical char lengths of all hood fabrics
- UL classified to NFPA 1971
- Comfort and excellent moisture absorbency

BL577 Darley Hood \$37.95

CARBON X HOODS

CERTIFIED TO NFPA 1971

Carbon shield is a flame resistant fabric based on carbon fiber technology. If exposed to extreme heat or flame, fabric glows but won't burn. Retains a certain tenacity at temperatures exceeding 2300° for over 90 seconds

ONE SIZE FITS ALL

TECGEN51 MULTIPURPOSE GEAR

When a call comes in, research indicates that 90% of the time it's not a structure fire. Why wear hot, bulky turnout gear on every call if you don't have to? Dual-certified TECGEN51 is all you need for your calls, including wildland, extrication, MVAs traffic control and incident command - for a third of the cost of traditional turnout gear. Reduce exposing your valuable turnout gear to hazards such as rips, tears, contamination and UV light degradation. Choose TECGEN51. *TECGEN® brand fire resistant garments are UL certified to exceed NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland Firefighting).*

SAVES EXPENSIVE TURNOUT GEAR

90% of your calls are not structure fire related.

LESS EXPOSURE TO CARCINOGENS

Wearing TECGEN51 on those 90% of calls eliminates potential exposure to hazards such as carcinogens and other harmful particulates that can accumulate on your turnouts.

LESS CARDIOVASCULAR STRESS & FATIGUE

Breathable, lighter weight, single layer garment

TECHNOLOGY

TECGEN® fabrics are made with a high density TECGEN® fiber blend and para-aramid in a comfortable and durable construction. TECGEN® fiber is an inherently flame resistant fiber providing advanced heat and flame protection capabilities. This technology allows us to develop fabrics that offer high levels of thermal protection (TPP) and breathability (THL). You no longer have to sacrifice one for the other.

HEAT STRESS

Whether carrying heavy equipment, dragging hoses or removing car doors, the intense physical activities associated with firefighting can cause firefighters' bodies to generate increased heat. TECGEN51 is ideal for departments looking for gear that offers enhanced comfort, high levels of thermal protection and a solution that is designed to help prevent heat stress.

DELUXE GEAR HAS ALL THE SAME FEATURES AS STANDARD GEAR PLUS:

- 2" Reflective Triple Trim
- STEDSHIELD® FR reinforced elbows, knees with replaceable padded inserts and cuffs
- Pass-through pockets on pants
- Thermoplastic zipper
- Articulated knee
- Handwarmer pockets on coat

APPLICATIONS:

- Extrication
- MVA
- Wildland, grass and brush fires
- Trench rescue
- Junior firefighter/explorer programs
- Training
- Search and rescue
- Confined space
- High/low angle rescue
- Support personnel

DOUBLE DUTY™ BDU PANTS

PGI's Double-Duty™ pants are dual classified to NFPA 1975 and 1977 Standards by Underwriters Laboratories for use as both station wear and wildland firefighting PPE. Now you can get the best of both worlds – a good looking and comfortable station wear pant which is great for working around the station or being worn in public yet rugged and protective enough to be worn on the fireline. PGI's signature relaxed fit and functional design is sure to make the Double-Duty™ BDU pant a station wear favorite.

- Signature relaxed fit for maximum mobility and comfort
- Rear of waistband is elasticized for maximum freedom of movement and comfort
- Oversized double needle top stitched bellowed cargo pockets on thighs expand to give you plenty of storage capacity and secure with hook and loop closures
- Contoured front slash pockets have extra deep bags
- Two large rear double needle top stitched patch pockets with hook and loop flap closures
- Corrosion-resistant brass snap at waist
- Double reinforced crotch panel extends wear life
- Adjustable hook and loop ankle straps backed with self-fabric
- Leg outseams are sewn with five-thread safety stitch, then top stitched with a double-needle lockstitch
- All points of stress are bartacked
- Meets or exceeds NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting (Current Edition)
- Compliant with NFPA 70E (Current Edition) – Meeting the performance specifications of ASTM – F-1506 for wearing apparel used by electrical workers exposed to arc and related thermal exposures
- Meets CAL-OSHA Requirements – Passes Fed. Test 191, Method 5903.2; CAL-OSHA Sections 3406(d)
- Complies with OSHA Rule 29 CFR Part 1910, 269

WILDFIRE PROTECTIVE HEADGEAR

Designed specifically to meet the requirements of wildland firefighters. They offer fire fighters protection, versatility, comfort, and value. Made of high-heat thermoplastic which offers superior impact protection and penetration resistance in non-structural, high-heat environments. In addition, they deliver added electrical insulation required for ANSI Z891-1986 Class A & B helmet specifications. Features include glare-reducing texture, shell-bonded goggle retainer clips for secure storage of eye protection and reflective strips for increased wearer visibility through smoke at night. Accepts a full range of mounting brackets for face shield visors or face shield screens. *Meets NFPA 1971. Ship. wt. 1 lb.*

- More secure suspension attachments
- Adjustable headband for custom fit
- Larger replaceable pillowed brow pad

HOT SHIELD WILDLAND FIREFIGHTER FACE MASK

The Hot Shield Wildland Firefighter Face Mask is a patented highly flame resistant face protector designed by firefighters for use in all wildland firefighting operations. BK088 offers the extreme protection against burns to the face/neck with the added benefit of blocking and reducing the inhalation of smoke and ash particulate. Multiple layers of patented CarbonX help maintain the crucial airspace firefighters want and human skin needs to survive extreme temperatures. The soft comfortable inside liners (also CarbonX) absorb perspiration, adding to user comfort.

- One size fits all (hook & loop fasteners behind neck)
- Extreme thermal protection (radiant heat or direct flame) of major portions of the face and neck
- Reduction of inhalation of airborne particulate by means of a screening mesh and use of a disposable filter with exhalation valve
- One year materials and workmanship warranty
- Main Users: Firefighters and other workers that are subject to direct flame, radiant heat, smoke and airborne particulate hazards in an outdoor environment and where use of a self-contained breathing apparatus is either impractical or impossible

BK088	Hot Shield Wildland Firefighter Face Mask	\$96.95
BK089	Filters for Face Mask	\$56.76/Case of 10

OPERATOR FIRE PACK

Built for the fireline ground pounders, the Operator wildland fire pack provides excellent comfort and load support for grueling shifts. Internal aluminum stay structure and high-quality materials provide a stout and sturdy foundation. Closed cell foam structuring throughout with an ergonomic PALS hip-belt finishes off the pack framework. Flagging tape dispensers below each side pocket with fire shelter case that can load for right or left handed deployment. PALS webbing throughout for MOLLE/P-cord/carabiner attachment capabilities. 15 (6 internal/9 external) pockets keeps gear easily accessible and organized.

- Quick dual zipper spine access to main pocket
- Full zipper opening to entire main pocket
- Main pack side pockets with G-Hook compression strap
- Water/fuel bottle side pockets with webbing sheath for files and elastic fusee loops
- Covered by our 100% guarantee

V80 WILDCAT GOGGLES

WILDCAT Goggles will not drip, melt, or ignite at temperatures up to 350°F (for five minutes). They offer superior comfort, too, thanks to pivot headbands, adjustable side vents, and a contoured fit that blocks out airborne contaminants. Meets ANSI impact standards.

- **Extreme Heat Resistance:** will not melt, drip, ignite at 350°
- Adjustable side vents help increase airflow
- Fits naturally to the contour of your face
- Lightweight and comfortable with a pivot headband for optimal placement
- Metal-free design to minimize electrical transference risk
- D4 rating for dust protection
- D3 rating for droplet and splash protection
- Meets ANSI Z87.1+ impact standard and CSA Z94.3 compliant

BP172 V80 WILDCAT Goggles \$17.95

FIREPRO-1971™ FS GOGGLES

The FirePro-1971™ FS goggles feature a one-piece, wraparound strap that easily secures to any helmet with Velcro® tabs. This system keeps the goggles on hand at all times, with the flexibility of quickly removing them if needed.

- NFPA compliant 1971-2013 Edition - including the 5-minute, 500°F oven test
- U.S. Federal OSHA compliant
- Exceeds the requirements of ANSI Z87.1-2010
- All components are heat and flame resistant

BL467 FirePro-1971™ FS Goggles \$57.95

FIREPRO™ WILDLAND GOGGLES

EVOLUTIONARY EYE PROTECTION

The compact, low-profile FirePro™ frame optimizes fit and function with all helmets, while the full-perimeter ventilation and filtration system minimizes lens fogging and filters airborne particles, dust, and debris. The ESS FirePro-EX™ model features a two-piece strap system and Snap-On/Snap-Off™ helmet mounting brackets which attach to a helmet brim (no drilling required). The extra-thick, 2.8mm high-impact lenses provide wide peripheral vision and distortion-free optics. All ESS FirePro™ goggles exceed ANSI Z87.1+, US Federal OSHA, and are compliant with wildland fire equipment performance requirements including the 350°F for 5-minute oven test. FirePro-FS™ and FirePro-EX™ goggles are certified as complaint to NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting.

FEATURES:

- Interchangeable lenses
- Durable face padding
- Speed-clip straps
- Extra-wide field of view
- 2.8mm lenses
- ClearZone FlowCoat anti-fog and anti-scratch lens coatings
- Anti-microbial face padding
- Rx available

RANGER RIGID-PAK BRUSH PUMP

Thick walled polyethylene plastic tank will take rough handling and harsh environments. Non-slosh rounded design keeps the unit comfortable, balanced and steady. The full padded pillow comforts that impinging feel of other tanks. The unit is completely corrosion resistant. It will not rust like galvanized steel models and is less expensive than stainless steel tanks. Adjustable padded shoulder straps are rugged yet fit comfortably and distribute the weight evenly down your back. Tank holds 5 gallons. *Ship. wt. 2 lbs.*

AS242 FEATURES:

- Aluminum base and quick-release strap keeps your Ranger Brush Tank secure on your apparatus

AS241	Ranger Rigid-Pak Brush Pump	\$216.95
AS242	Ranger Carrying Bracket	\$169.95

INDIAN FIRE PUMP

A 5-gallon portable hand-operated pump and tank. Brass pump is durable and easy to clean. Nozzle easily changes from straight stream to cone spray quickly. Tank cap has cam lock with watertight gasket and ventilation hole to prevent collapse. Heavy-duty, 1½" removable polypropylene shoulder straps and carrying handle. *Ship. wt. 18 lbs.*

- All-brass pump
- Nozzle chain
- Carrying straps
- 5 gallon tank

COLLAPSIBLE BACK PUMP

BEST SELLER

Corrosion-resistant Neoprene coated Nylon bag and single-stroke brass pump make the U235 one of the best values on the market. Lightweight, collapsible bag holds 5 gallons of water, conforming to the shape of your back. Watertight and reinforced construction means you stay dry. Straps won't rip, mildew or twist while in service. Oil-proof, 44" hose with stainless steel, monel and brass connections, connects 18" pump. Hose has rustproof quick connectors. The new 4" ABS polymer cap makes it much easier to fill with less time; replaces the old 2.5" metal cap. The seams have doubled in strength with a new ultrasonic welding process. *Ship. wt. 5 lbs.*

U235 Collapsible Back Pump \$167.95

INDIAN CHIEF DUAL BAG FIRE PUMP

VIDEO ONLINE

The "Indian Chief" is a 5 gallon inner bag liner inside a protective, nylon fabric, collapsible outer bag. It forms to your back for greater comfort.

- Rugged outer bag offers more protection from punctures
- Harness straps with chest cinch strap help balance the load and prevent straps from pulling outward
- 2 liners come with fire pump – extra liner is stored in the outer pouch of the nylon bag
- Indian "Fedco" all brass pump, quick connect and dual nozzle

BL243 Indian Chief Dual Bag Fire Pump \$206.95

FORESTRY PUMP & BACKPACK

BK210:

The Scotty pump is a single action pump with a foam eduction attachment and air aspirating nozzle. It eliminates the need to batch mix when Class A foam is required. Each time the pump is charged, 1% of foam concentrate is ducted into the pump chamber. The air aspirating nozzle generates foam when the pump is discharged.

BK211:

Single action pump. The pump has a brass pump chamber protected by an engineering-grade polymer sleeve. No tools are required to disassemble the unit. It can be completely disassembled by hand for in-the-field maintenance.

TOOLS TO GET THE JOB DONE

WILDLAND

A. FIRE BROOM

The hardwood handle, stiff textured Palmyra fiber and metal cap are locked under tons of pressure to prevent loose handles and fiber fallout. Bonded red finish, inside and out, to resist chipping, flaking and rusting. This broom has been designed to exceed the rigorous demands of fire suppression work while being light enough to be easily carried to remote areas; it's used by fire fighters under the harshest of conditions. *Overall length: 53³/₄". Ship. wt. 3 lbs.*

H755	Palmyra Fire Broom	\$21.95
------	--------------------	---------

B. FIRE SWATTER

The flexible swatter beats the air away from the flames, smothering the fire instantly. Made of rubber treated belting 12"x15". Riveted to a shank cleated on the underside. Shank is driven into the ferruled end of a 60" ash handle, with rivet through ferrule and shank. *Ship. wt. 2 lbs.*

E252	Fire Swatter	\$66.95
------	--------------	---------

C. FORESTRY "MCLEOD" FIRE TOOL

WILDLAND SPANNER

Lightweight aluminum construction designed for wildland firefighting. The single ended spanner fits 1" and 1 1/2" couplings.

- Lightweight aluminum
- Fits 1" and 1 1/2" rocker lug couplings
- Meets Forest Service Specifications (FSS)
- Made in the U.S.A.

BP168 Wildland Spanner \$20.95

WILDLAND HOSE CLAMP

C&S Supply has designed a new Wildland Hose Clamp. Offering a much more rigid design, the clamp is capable of withstanding the most brutal and rough operations, yet is user friendly enough to quickly accomplish the task at hand.

- Knuckle guard with wide opening for use with gloves
- Step plate to assist opening while on a charged hose line
- Long bars on the top and bottom for maximum leverage
- Curved clamping area aids in collapsing the hose
- Integrated spanner wrench
- Lightweight and compact
- For use with 1" and 1 1/2" single jacket hose
- **Dimensions:** 10 3/4" x 3 3/4" x 1 1/2"
- Made in the USA
- **Ship. wt. 3 lbs.**

WEATHERHAWK WINDMATE™ WIND METER

HAND-HELD COMPREHENSIVE WEATHER MONITOR

The WeatherHawk Windmate WM hand-held wind meter is a comprehensive weather monitor that measures a full range of environmental data specific to your location. It includes a 48-hr visually displayed bar graph for every function, hour-by-hour. The USA-made fluxgate compass reads when held vertically, gives wind direction in degrees and compass points; and it calculates crosswind, head/tail wind. The compass can be calibrated for variation, declination and deviation. In addition to wind speed and direction, temperature, barometric pressure, altitude, and humidity, the unit includes Wind Chill, Wet Bulb, Dew Point, Delta T and Density Altitude. WM-350 provides an audible storm alarm that alerts you to weather changes, even if the unit is off. The unit includes the AccuWeather Comfort Index and it can be adjusted based on sun intensity to provide a superior human based "feel" for Heat Index. All WindMates are designed with a wind speed accuracy of better than +/- 3% and have a 2-Year warranty.

FIRE ARMOR FIRST RESPONDER VEST

With the new NFPA 3000 recommendations of NIJ Certified Level IIIA Ballistic Protection for Active Shooter/Hostile Event Responses (ASHER), the "First Responder" was developed for Fire & Medical personnel responding to Active Shooter events, Mass Casualty Incidents and dangerous domestic calls.

Developed and designed by Firefighter/Paramedics that work in the industry, who wanted to provide the best Ballistic Protection to our brothers and sisters in a "One Size Fits Most" design, alleviating the need for agencies to have multi-sized vest or making time consuming size adjustments when seconds count.

The system is designed to look like "Bunker Gear", as an external "wear over the shirt or uniform" design, it provides maximum Ballistic Protection in front, back and side coverage, utilizing NIJ 0101.6 Certified Level IIIA soft armor as well as the ability or option of adding 10"x12" NIJ Certified Level III+ (see below). No matter who is sitting in the "seat", the goal is to ensure all responders have a properly fitted vest.

CARRIER SYSTEM:

- Easily adjusts to individual firefighter
- 5 color options designed around Fire/EMS uniforms and equipment
- Carrier System is constructed of 2 parts (1 front panel and 1 rear panel) for universal sizing ranging from 20" up to a 60" waist
- Carrier is constructed of 1000d Cordura™ Nylon material
- Enlarged/integrated front "Bunker Gear" style pocket for Individual First-Aid Kits (IFAK) and/or radio with internal elastic to secure items
- Heavy duty Drag Rescue Device (DRD) handle
- Fully adjustable, closed cell foam-padded shoulders with channels for optional ballistic shoulder inserts
- 360° of 3M™ Hi-Viz reflective tape and 3M™ reflective ID lettering
- Top loading hard armor insert pockets on the front and rear capable of accepting either full size or shooters cut rifle armor

LEGEND OPTIONS

- Fire
- Fire-Rescue
- EMS
- RTF
- Custom legend (11 character limit including spaces)

BALLISTIC PANEL INSERTS:

- 2-piece NIJ 0101.6 Certified ballistic panel inserts also consist of a front and a rear panel, the rear panel is constructed with "wings" to provide maximum "flank" coverage on all sides
- Integrated 10" ballistic cummerbund
- Provides 360° of NIJ Certified Level IIIA Ballistic coverage
- **Weight:** Approximately 12 lbs.

BATLSKIN VIPER HELMETS

Revision's BATLSKIN VIPER A3 HELMET, designed specifically for Law Enforcement, Special Forces and SWAT personnel, stops NIJ IIIA level threats. Manufactured to meet stringent quality standards, the helmet delivers the level of ballistic and impact protection demanded for tough tactical operations. The Viper A3 helmet is made of aramid materials and built in the ACH shape. The Batlskin Viper A3 Helmet is the foundation for all Batlskin modular components, including the Front Mount, Interlocking and Mandible Guard & Visor.

BN180 FEATURES

- **Ballistic Performance:**
 - Significantly exceeds 2200 ft/s (670 m/s), 1.1 g (17 gr) FSP
 - Stops NIJ IIIA level threats (9mm, 44 mag & .357 SIG) (NIJ 0106.01)
 - Meets U.S Army Standard for impact protection (CO/PD-05-04)
- **Weight:**
 - Full cut system – 52 oz (1485 g) – Size Medium
 - High cut system – 48 oz (1355 g) – Size Medium
- Low-profile design
- Designed for comfort
- Compatible with standard face shields, NVGs, Chem/Bio Masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F (-40°C to 70°C)

FRONTLINE® 500 NFPA 1991 CHEMICAL SUIT

CHEMICAL, FLASH, RADIANT - THREE HAZARDS, ONE SUIT

Now get triple assurance with a single suit certified to NFPA 1991 base plus optional Flash Fire and Liquefied Gas requirements. Frontline® 500 offers three-way protection - broad chemical holdout, plus flame resistance and superior radiant heat protection for the additional hazards encountered in a chemical flash-fire. With Frontline® 500, Kappler's got your back - and your front.

FEATURES:

- Single garment eliminates need for typical 2-suit NFPA 1991 configuration
- Combines chemical, flash-fire and radiant heat protection in a single suit
- Seams are sewn and double heat-sealed/taped for added protection
- Large, expanded-view face shield improves field of vision
- Unique 2N1™ glove system prevents inner glove inversion when removing hands
- Removable knitted Kevlar overglove, plus field-replaceable 2N1® Glove System which eliminates inner glove inversion
- Highly flexible 48" gas-tight AquaSeal® zipper facilitates easier donning and doffing

KAPPLER DURACHEM® 200

DuraChem® 200 is multi-purpose, high-visibility FR apparel with added protection against Chemical, Biological, Arc Flash, Steam and Hot Water, and Molten Metal Splash hazards. It offers breathable, launderable protection for a wide range of applications for daytime or nighttime work. Certified to or compliant with seven key industry safety standards, it helps simplify PPE selection and inventory with a multi-hazard apparel solution.

- Launderable Hi-Vis FR protection, plus Chemical, Thermal, Arc Flash, Steam and Hot Water, and Molten Metal Splash protection
- Breathability reduces heat stress and improves worker comfort
- 24/7 facility-wide protection for day or night work applications
- Multi-purpose garment with flexible hood options simplifies PPE selection and inventory

DIGITAL PRESSURE TEST KIT

Kappler's automated Digital Pressure Test Kit improves the efficiency and accuracy of gas-tight garment tests for both ASTM and CE methods. Kappler's unique design features a digital readout for more accurate testing, while a large LCD touchscreen allows easy test criteria selection and data input.

- Press START and the test is performed automatically, allowing the user to handle other duties while the test is in process
- Easy and accurate record-keeping, test data can be copied to the provided USB stick via the built-in USB port

GUARDIAN NEOPRENE GLOVES

When you work with dangerous chemicals, you want your glove to protect exactly as promised, with uncompromising consistency. You want a glove to be comfortable and rugged with total performance features. The Guardian is all of this plus it's fire retardant. It's made with painstaking precision and each glove is "solution dipped" for maximum chemical impermeability. Manufactured to the NFPA 1992 Splash Garment Specifications Level "B". When worn over the Silver Shield gloves, they meet the NFPA 1991 Standard on Vapor Protective Suit for Hazardous Chemicals Level "A". *Ship. wt. 1 lb.*

SPECIFY SIZE: S-L

HAZMAX® BOOTS

THE FINEST BOOT MADE FOR HAZARDOUS MATERIALS HANDLING

- 16" boot height
- Meets and surpasses NFPA 1991, 2000 edition for chemical permeation resistance requirements
- Meets requirements for the optional chemical and biological certification
- **Steel safety toe:** Built in Steel toe complies with ASTM F2413-05 for impact and compression
- Full steel midsole
- **Steel ladder shank:** Provides arch protection and support
- One-piece injection molded construction, eliminates seams
- Boots are constructed of a high viscosity and flexible PVC alloy
- Non-absorbent polyester lining for easy cleaning and quick drying
- Replaceable cushioned insoles
- Cut off bands
- Kick off lug
- *Ship. wt. 7 lbs.*

HAZPROOF® BOOTS

With the growing reality that chemical warfare agents are now a threat to the civilian population, domestic preparedness programs are developing rapidly. The HazProof® boot, made of special polymer material, has also been tested to Military Standard 282 and will provide protection against certain chemical warfare blister and nerve agents! Certified to NFPA 1991, 2005 Edition for chemical and hazmat cleanup, emergency response, and domestic preparedness.

- Injection molded seamless construction for 100% liquid-proof protection
- Larger foot area is engineered to accommodate the extra bulk of an encapsulated suit, for comfortable fit
- Smooth exterior surface for easy decontamination
- Stretch fastener closure system allows for easy on/off while wearing gloves
- Meets ANSI spec. Z41 PT99 M I/75 C/75 EH, for steel toe impact and compression, and electrical protection
- Steel mid-sole meets and exceed ANSI Z41 PT 99 PR
- Steel shank provides firm arch support
- Blown closed cell EVA mid-sole for all day cushion comfort
- Sure grip cleated outsole has excellent abrasion and slip resistance

PERSONAL PROTECTION YOU AND YOUR DEPARTMENT CAN DEPEND ON

BW CLIP4 MULTI-GAS (4) PORTABLE GAS DETECTOR

The latest in wearable 4-gas detection. Just clip it on and get the job done. Because for 2 years, you know - IT'S ON.

- User-friendly tamper-proof operation with just one button
- Compatible with IntelliDoX docking system and instrument management system
- Real-time gas concentrations shown on LCD
- Daily full function self-test of sensors, battery status, circuit integrity, and audible/visual alarms
- Built-in concussion proof boot
- Requires calibration every 6 months, calibration gas and regulator not included

HAZARDOUS MATERIALS PATCH AND PLUG RESPONSE KITS

The Series "AE" is a collection of over 40 common components for emergency and temporary leak stoppage due to punctures, gashes, cracks and surface rotting. Series "C-1" Pipe Plugger with Valve Kit - Allows hazardous materials to be temporarily contained, piped off to alternate location or flared. Series "C-2" External Pipe Leak kit - Has unlimited uses in municipalities, chemical plants, manufacturing facilities or anywhere a pipe line is used. Contains pipe bandages covering nominal pipe sizes from 1/2" to 4".

SERIES "AE" KIT INCLUDES:

- Sheet metal screws with neoprene compression seals
- Tubeless tire repair kit
- OSHA-approved 200" roll of barricade tape
- 8"x12" piece of solid neoprene
- 22" piece of foam material
- Lead wool epoxy putty that hardens like steel, hot or cold hose repair tape, basic tool set for patching
- Twin "T" stainless plate with foam
- 8"x2" stainless backed neoprene patch-hardwood cribbing
- 2 - 22" nylon straps and buckles
- 2 - "T" bolt crack patches
- 6 - Surface plugs for curved surfaces, wedged wooden plugs covered with felt
- 2 - Ball plugs
- Carrying case
- **Ship. wt. 33 lbs.**

SERIES "C-1" KIT INCLUDES:

- 20' vinyl tube, tool kit
- 10 - Standard pipe plugs
- 3/4" regulating valve
- Carrying case
- **Ship. wt. 35 lbs.**

SERIES "C-2" KIT INCLUDES:

- 10 - Pipe bandages for covering pipe sizes from 1/2" to 4"
- Soft and hard neoprene liner material and comes complete with your choice of standard or non-sparking tools
- Carrying case
- **Ship. wt. 33 lbs.**

CLASSIFIER KITS

FIRST STEP: IDENTIFY THE SPILL

With these classifier kits, chemicals or elements of waste water can be classified quickly. Each kit uses classifier strips which change color when in contact with the unknown liquid. Just match that color on the classifier color chart to classify the type of chemical present. Each kit contains six classifier strips, polypropylene thread, one pair of nitrile gloves, and a reusable classifier chart, all in a convenient carrying tube. **Ship. wt. 1 lb.**

PLUG N' DIKE PRE-MIX

Non-toxic material which forms an immediate seal to control flammable and/or hazardous leaks and spills. It is a combination of a polymer in a bentonite base that produces a seal against penetration of fuels and chemicals. No surface preparation needed. Plug N' Dike Pre-Mix is a plugging material; it does not absorb. **Ship. wt. 10 lbs.**

X878	10 lbs./1 gal.	\$62.95
X877	1 lb. Container	\$18.95

SYNTHO-PLUGS FOOTBALL & GOLFBALL

Syntho-Plug is a football/golfball shaped, polyurethane impregnated, water activated foam plug used to temporarily stop the flow from a leak in anything from spill containment and marine thru-hull damage. Initially pliable to insert into a void and quickly expands and hardens to fill the void. It can even be applied below the water line.

- Ready to use
- Simple and effective
- No mixing, no mess
- Hardens in minutes

BL406	Syntho-Plug Football	\$108.95
BP120	Syntho-Plug Golfball	\$61.95

CHLORINE INSTITUTE EMERGENCY KITS

EMERGENCY KIT "A"

FOR 100-150 LB. CHLORINE CYLINDERS

The emergency kit "A" contains devices to stop leaks at the valve, fusible plug, and in the side walls of chlorine 100 and 150 lb. cylinders which conforms to specification DOT 3A480. Two instruction booklets explaining application of each device are included. Includes accessory equipment and tools which are labeled and color coded. Kit is packaged within a heavy-duty plastic box measuring 35"x13¼"x14". *Ship. wt. 115 lbs.*

AF033 Emergency Kit "A" \$3,183.95

EMERGENCY KIT "B"

FOR ONE-TON CONTAINERS

The emergency kit "B" contains devices to stop leaks at the valves, fusible plugs, and side walls of chlorine one-ton containers which conform to specifications DOT 106A500X. Two instruction booklets explaining application of each device are included. Will contain leaks in container valves, will seal leaks in container side wall and will contain leaks in container fusible plugs. Includes accessory equipment and tools which are labeled and color coded. Packaged in a heavy-duty plastic box measuring 35"x13¼"x14". *Ship. wt. 113 lbs.*

AF034 Emergency Kit "B" \$3,314.95

EMERGENCY KIT "C"

FOR TANK CARS & TANK TRUCKS

The emergency kit "C" contains devices to stop leaks at the safety valve or angle valves of chlorine tank cars and trucks. Conforms to DOT 105A500W and MC331 specifications, for chlorine service. 2 instruction booklets explaining application of devices are included. Will contain leaks in tank car angle valves and safety relief valve. Includes accessory equipment and tools which are labeled and color coded. Kit is packaged within a heavy-duty plastic tool box measuring 36"x18½"x20". *Ship. wt. 168 lbs.*

AF035 Emergency Kit "C" \$3,771.95

GASKET KITS

All gaskets are molded from EPDM elastomer. The AF767 kit is for application with kit "A" to stop leaks in SO2 containers. The AF768 kit will stop leaks in one-ton containers when using kit "B" and the AF769 kit will stop leaks in tank cars when using kit "C". *Ship. wt. 6 lbs.*

DECON/pak™

The DECON/pak™ is a self-contained agent proportioning and rinse application system helping to provide simple and gross decontamination of firefighting personnel and equipment.

- Flow is controlled by a twist grip valve that also functions as a carrying handle. Cleaning agents are added through the large, easy-open fill port that includes a debris screen
- Large selector for agent proportioning from 0.1 to 0.5% for cleaning agent** or set to rinse with water only
- Stores easily in tight compartment spaces
- Studies show that field decon using soap, water and brush can reduce cancer causing contamination on turnout gear by 85%*

* Source: Journal of Occupational and Environmental Hygiene DOI: 10.1080/15459624.2017.1334904

** Contact your turnout gear manufacturer for cleaning agent recommendation for your specific gear.

PORTABLE DECON SPRAY HOOP

FAST, CONVENIENT, COST-EFFICIENT DECON SYSTEM

The Portable Decon Hoop has dozens of decontamination applications. The hoop design concentrates water at the area being decontaminated, minimizing the amount of water required and offers better control. It's constructed of durable, lightweight, corrosion-free aluminum pipe and tube. On/Off control on hoop and uses standard ¾" hose connection. Comes with two 43" handles extendible to 66". **Ship. wt. 4 lbs.**

USES:

- Self wash-off
- Two-person
- Three-person
- Equipment
- 55 gallon barrels
- Overpacks
- Backboard patients
- Bunker gear

AB958	Decon Hoop, 2-piece with Outside Handles	\$970.95
AJ427	Decon Hoop, 4-piece Design Includes Inside & Outside Handles	\$1,312.95
AJ428	Decon Hoop Storage Bag (For AJ427 Only)	\$351.95

MULTI MANIFOLD

Quickly connecting standard ¾" hose to hydrants, fire hoses or fire apparatus. Constructed of corrosion-free aluminum pipe, fittings and 500 PSI certified brass ¼ turn ball valves. Ideal for multiple hose connections. **Ship. wt. 5-8 lbs.**

AW042	1-1½" NH Inlet / 6 - ¼ Turn One-Way Ball Valves	\$794.95
AW043	1-2½" NH Inlet / 6 - ¼ Turn One-Way Ball Valves	\$771.95

DECONTAMINATION MANIFOLD

- Decontamination Manifold reduces the flow of water from a 1½" fire hose to a series of three spigots
- Garden hoses can be attached directly to the manifold and run to a decon shower or used separately as needed

BN605	Decontamination Manifold	\$119.95

DQE EQUIPMENT

REHAB SHELTER PACKAGE

All DQE rehab products support the NFPA 1584 Rehab Standard to make it easier to maintain high activity levels while ensuring emergency responder safety.

CONTENTS:

- Rehab Area Shelter
- Rehab Area Folding Table
- Rehab Relaxation Folding Table
- Rehab Relaxation Chair (Qty. 4)
- Folding Chair (Qty. 2)
- Army cot
- Rehab area toolbox
- LED work light
- Extension cord
- Sack-It clean up dispenser
- Storage bin

NEW

BP617 Rehab Shelter Package \$2,257.00

MISTING REHAB SHOWER

The Misting Rehab Shower is designed to progressively cool responders during the rehab phase of an incident.

- Approx. set-up time: Less than 2 minutes (based on one trained responder)
- 6 mist nozzles
- Dimensions: Assembled 73"H x 27.5"W (at the base)
- Dimensions: Unassembled 12"W x 36"L
- Weight: 10 lbs.

NEW

BP616 Misting Rehab Shower \$478.00

KORE KOOLER REHAB CHAIR

Combat heat stress with active cooling. This cooling chair lowers body temperature through hand and forearm immersion.

- Dimensions: Assembled 29"L x 30"W x 40"H
- Seat Height: 16"
- Chair Weight: 11 lbs.
- Weight Limit: 300 lbs.

NEW

BP610 Kore Kooler Rehab, Headrest \$11.95
 BP611 Kore Kooler Rehab, Chair \$89.95
 BP612 Repl. Bags, Reservoir Kore Kooler Rehab Chair \$16.95

REHAB AREA SHELTER

Creating a safe area for firefighter rehabilitation starts with setting up this Rehab Area Shelter. This shelter provides 100 square feet of shade for responders while they undergo medical monitoring and rehydration after an emergency response.

- Shelter meets NFPA-701, CFC (California Fire Code), and CPAI-84 fire resistant standards
- 10' x 10' canopy can be stored attached to the frame for quick setup
- Blocks 99% of harmful UV rays and is made of fire resistant grade fabric
- Three full sidewalls attach to this rehab tent to provide additional sun and wind protection
- Multiple configurations are available by using the one mid-zip sidewall for a door or two half sidewalls
- 3 year manufacturer warranty

NEW

INCLUDES: ONE AREA SHELTER, 4 PIECE SPIKE KIT, ROLLER BAG W/SIDEWALL STORAGE POCKETS AND HEAVY DUTY WHEELS

BP615 Rehab Area Shelter \$661.95

DRÄGER PSS® 5000 & 7000 SELF-CONTAINED BREATHING APPARATUS COMFORT, DURABILITY, SAFETY AND PERFORMANCE IN THE HARSHTEST ENVIRONMENTS

The Dräger PSS® 5000 and 7000 are ergonomically advanced SCBA that offer increased comfort, safety and performance. With a wide range of configurable features, such as bi-lateral hose routing and quick cylinder connection, the PSS 5000 meets your needs wherever breathing protection is required. The ergonomic PSS 7000 combines trusted pneumatics, flexible fit, and quick cylinder connection, freeing you to concentrate on the task at hand.

PROVEN TECHNOLOGY

- OUTSTANDING RESISTANCE TO HEAT, IMPACT AND CHEMICALS
- EASY MAINTENANCE AND SERVICE
- MEETS OR EXCEEDS ALL NFPA 1981 & 1982 STANDARDS (MOST CURRENT)

INTEGRATED SYSTEMS & INCREASED VERSATILITY

- ELECTRONICS AND AIR HOSES ARE INTEGRATED INTO THE BACK PLATE
- ADJUSTABLE BACKFRAME ALONG WITH FREEDOM OF MOVEMENT WITH WAIST PAD ASSEMBLY - ADD EXTREME ERGONOMICS

EASY MAINTENANCE & LOW COST OF OWNERSHIP

- HARNESS & WAIST PAD ASSEMBLY: DOES NOT ABSORB LIQUIDS OR CHEMICALS AND IS HIGHLY RESISTANT TO ABRASION AND HEAT. CLEANING IS REDUCED TO MINIMAL EFFORT.
- STANDARD BATTERIES: 5 AA FOR THE BACK PLATE, 1 CR123 FOR THE HUD
- LONGEST BATTERY LIFE IN THE INDUSTRY: RATED AT 1 HR./DAY FOR 365 DAYS
- NO ANNUAL MANUFACTURER-REQUIRED OR RECOMMENDED OVERHAUL

BREATHING AIR CASCADE SYSTEMS

4500 PSI & 6000 PSI PIGTAILED SYSTEMS

With a pigtailed system, each cylinder is connected together with a tee connection and a 24" flexible pigtail. To cascade this system when filling SCBA cylinders, the operator must open and close each storage cylinder valve individually as needed. Cylinders are DOT Approved. *Fill hoses not included.*

SYSTEM INCLUDES:

- Your choice of 4500 or 6000 psi cylinders
- Cylinders with valve and cap
- Tee connections
- Seal-tight inlet cap
- 24" flexible pigtail between each cylinder
- Steel storage rack (also available without rack)

BAUER OCEANUS COMPRESSOR SYSTEMS

A PORTABLE, ECONOMICAL, COMPACT, HIGH PRESSURE COMPRESSOR

This pressure-lubricated 5000 psi compressor is ideal for the emergency response team that requires a highly portable compressor for filling SCBA or SCUBA cylinders. Standard equipment includes the compressor, 4.9 SCFM Charging Rate, the Bauer Triplex Purifier, a snorkel for the intake, and your choice of one-phase electric, three phase electric or gasoline engine all mounted on a stainless steel base. The gasoline powered model features a Subaru engine, a pressure shutdown switch, and hour meter. Suitable for use with a maximum of a 2 cylinder, 4500 psi cascade system. Automation package includes magnetic starter, pressure switch, auto drains and 10' of power cord. *Ship. wt. 200 lbs.*

ENCLOSED FILL STATIONS

These heavy-duty steel NFPA compliant fill stations protect the operator and bystanders in the event of an SCBA cylinder rupture while filling. These each have an inlet gauge, Fill Pressure Regulator, regulated pressure gauge, 1 fill valve and gauge per fill position. Each fill line is equipped with hand tight universal fill connector to fit all standard SCBA cylinders 2216, 3000, and 4500 psi. The SCBA cylinder holders are lined to prevent scuffing of the cylinders. Painted with a durable powder coat finish. *Ship. wt. 800 lbs.*

NORTHERN STAR COMPASS

The Northern Star is the best line of defense when it comes to battling disorientation in low visibility environments. Every day firefighters around the world charge blindly into dangerous, unfamiliar environments without knowing the floorplan - all in the name of saving lives and property conservation. This can lead to disorientation, injury or even death. To keep you safe, trust the Northern Star to guide you home with its patented directional awareness technology. The Northern Star is powered by a rechargeable lithium battery. It features a durable, waterproof design that is responsive to movement, making it very user friendly and easy-to-use.

SCBA CARE & MAINTENANCE

ULTRASONIC SCBA CLEANING SYSTEM

SPECIALLY DESIGNED TO CLEAN YOUR SCBA MASKS BETTER

Our systems and solutions are easy-to-use, environmentally friendly, and cost efficient. Fire departments and industrial safety facilities throughout the country depend on us to get their equipment flawlessly clean without damaging the integrity of the apparatus. Major mask manufacturers recognize Ultrasonic Cleaning technology as an accepted SCBA cleaning method. Ultrasonic Cleaning offers the most thorough cleaning and disinfecting process with minimal disassembly; it reaches both interior and exterior surface areas, where most manual cleaning processes will miss. Ultrasonic Cleaning gives you the best overall cleaning at an affordable price. *Number of masks cleaned at one time will vary depending on mask size.*

ALL SYSTEMS INCLUDE: Ultrasonic Cleaning Unit, SCBA Rack and Cleaning Solution

Cat#	Description	# of Masks	Price

DELUXE SCBA MASK BAG

PROTECT YOUR SCBA

Deluxe SCBA mask bag fits any modern-style SCBA face piece with MMR, models NFPA 1997 or newer. The bag will hold a face piece with the regulator attached as well as most voice amp and comms devices, an airline face piece or mask with APR cartridges attached. L-shaped side opening allows for quick deployment of the mask when needed.

- Dual inner liner protects against scratches
- Hook and loop closure
- Nylon webbing loop and trigger snap hook
- Heavy-duty water resistant nylon with screen printed Maltese Cross logo
- Lime yellow/silver reflective trim with leather binding reinforcement provides added visibility

SPECIFY COLOR: Red, Black, Fluorescent Yellow

BN579	Deluxe SCBA Mask Bag	\$20.95
-------	----------------------	---------

SCBA MASK BAG

This premier nylon SCBA mask bag features a soft, interior lining to prevent scratches to the face piece. Tag with Maltese Cross and space for name ID. Velcro closure at top with large pull tabs and lower grommet for drainage. Large enough to fit all current types of SCBA masks. Built for rugged use and maximum protection. Imported.

- Weight: 5 oz.
- Dimensions: 11.5"D x 17"H

COLOR: Red

BP574	SCBA Mask Bag	\$23.95
-------	---------------	---------

SCBA MASK BAG

Top Opening Air Mask Bag holds your SCBA air mask and has a hook/loop closure flap with four brass grommets for mounting. This large size bag may be mounted with flap up or down for quick access. Measures 14"H x 9"W x 6"D. Bottom Opening Air Mask Bag holds your SCBA air mask while leaving it attached to the regulator. Hangs by a spring snap and flaps are held in place by hook/loop closure. Both bags are constructed of heavy Cordura® nylon with your color choice of red or yellow.

Cat#	Description	Price

A. SCBA BRACKETS

The rugged design of our original SCBA bracket has been safeguarding your SCBA cylinders from scarring and damage since 1988. All brackets are constructed of powder coated steel with removable spring clips featuring a high quality nylon protective coating. The resilient cylinder clips are constructed of 1075 spring steel making them ideal for both fiberglass and carbon fiber tanks. We guarantee our brackets to be the best with our industry leading Lifetime Warranty. Manufactured and assembled in USA. **Ship. wt. 5 lbs.**

- Clip only available for standalone use, retrofit, and tank changes
- Horizontal & diagonal drill pattern standard

AR043	SCBA Bracket, 30 min. High Pressure / 5.25"	\$57.95

B. NFPA COMPLIANT SCBA BRACKET WITH SAFETY STRAP

This bracket is required for securing SCBA within crew compartment areas. It features a 3-point release that keeps your SCBA locked and securely in place. Simply don the SCBA while enroute and keep it safely secured. On the scene pull that lanyard from between your legs or along the side of your seat and you are ready to go. This universal bracket is designed to fit all SCBA. Additionally this bracket is NFPA compliant meeting the 1901-03 2009 standard. We guarantee our brackets to be the best with our industry leading Lifetime Warranty. Manufactured and assembled in USA. **Ship. wt. 5 lbs.**

AZ618	Complete Universal NFPA Compliant Bracket	\$136.95
AZ534	Clip Only - Universal "V" Clip	\$13.95

EZ-LOC SCBA MECHANICAL BRACKET

- No straps or levers. Locks quickly and easily by simply pressing down on the top clamp
- Ratcheting design safely locks SCBA in place over a range of engagement - no struggling to achieve a lock or slamming the cylinder against a backplate
- Fully adjustable. Fits most makes/models of SCBA with only minor adjustments
- Footplate Guide makes stowing the air pack an easy, no-look process
- NFPA 1901 compliant and third party tested to exceed NFPA 9G standard
- **Ship. wt. 12.8 lbs.**

BK252	EZ-LOC Mechanical Bracket	\$429.95
-------	---------------------------	----------

WALKAWAY® BRACKETS

Rely on these classic brackets for secure storage and quick, easy access to breathing apparatus. All brackets are constructed of heavy-duty steel with a smooth, crack-resistant thermoplastic coating to protect the cylinder and make retrieval a breeze. Standard coating is ideal for low to moderate use. High cycle coating (tested to over 50,000 cycles) adds yellow tips for moderate to high use. **Meets NFPA Requirements (For installation in a crew cab when used with AS075 Collision Restraint Strap).** **Ship. wt. ranges from 4-6 lb.**

VALOR VENTILATION FANS

The Valor Series is engineered to take on the toughest ventilation challenges. Featuring a tough, tubular aluminum frame, rubber never-flat tires, and a 7-position tilt system with a quick step pad. Ducting attaches easily to Valor Series Fans, allowing for quick deployment. The seven point aluminum airfoil blade is manufactured to withstand the heat of structure fires and precision engineered to last a lifetime.

7 SERIES GAS PPVS

Featuring a durable steel-frame, roll-cage design with 4-position tilt for -10°, 0°, 10°, 20° angles to ventilate stairwells and basements, this PPV has proven itself for decades as one of Super Vac's most trusted PPVs. This fan is available in a variety of sizes (16", 18", 20" and 24" fans) with a variety of Honda engine choices, making this a fan favorite.

- **Fold-Down Ergonomic Handle:** Folds down into frame for compact storage; features full-width handle for easy grip with heavy-duty gloves
- **Flat-Proof Rubber Tires:** Eliminates flat tires; rolls up stairs/curbs easily
- **Single-Piece Cast Aluminum Blade:** Holds up better than plastic in high heat
- **Precision-Spun Steel Shroud:** Provides durability with max airflow
- **Air Cone Guard:** Classic design for maximum airflow; StreamShaper Guard optional

ELECTRIC SMOKE EJECTORS

The most popular smoke ejector in the fire service, the Super Vac Electric Smoke Ejector features a patented 4-tip recurved aluminum propeller, which produces a greater intake of air into the vacuum side of the fan, eliminating turbulence at the tips. All Super Vac's are designed to easily accept spiral duct with adapters on the output side for positive ventilation or the input side for negative ventilation.

- **Patented 4-Tip Recurved Aluminum Blade:** Creates a tight spiral of air to eject smoke and fumes away from the building; aluminum holds up better than plastic in high heat
- **Precision-Balanced Blade:** Maximizes output
- **Heavy-Duty Rubber Feet:** Adds friction to keep fan in place
- **4 Carry Handles:** Makes transportation easy with one or two people
- **Front and Rear Guards:** Prevents accidental contact with key components

16" BLADE SMOKE EJECTOR

- Explosion Proof Motor: J594 & J594A

SPECIAL OPERATIONS BLOWERS

The Tempest Special Operations Power Blower is the latest addition to the positive pressure ventilation and attack arsenal. The fan's unique grille and shroud design create a Laminar Air Flow (LAF) which uses an increased setback (9' to 11') and is highly effective in unique fireground scenarios such as multi-story stairwells, highrise structures, complex structures and commercial structures > 5,000 ft. The SP blower also showcases a number of new features like wheels now located in the back and a wider footprint for increased stability.

DIRECT-DRIVE GAS POWERED BLOWERS

Tempest Direct-Drive Gas Power Blowers were some of the first units designed and used on the fire ground. With a level a durability and performance backed only by the Tempest name, these units offer the perfect balance in features, performance, cost and versatility.

- AMCA Certified Performance
- Reliable Honda GX or Briggs & Stratton engine
- Rugged construction with stands use and abuse
- Tempest exclusive features makes use easy and economical

SINGLE & VARIABLE SPEED ELECTRIC BLOWERS

The most comprehensive line of Electric Powered Blowers for PPV and NPV available today. Built on the same chassis that has been so successful for our Tempest Gasoline Powered Blowers, Electric Powered Blowers are powerful, durable and versatile while maintaining the ability to operate on a standard household current.

- No exhaust emissions, which can collect Carbon Monoxide inside the structure that you are trying to ventilate
- Never requires "oil change" or has gas go bad while sitting in storage
- Designed to start and run off a standard residential 120v 20amp receptacle without tripping the circuit breaker
- Power supply is readily available at most sites

ELECTRIC SMOKE EJECTOR

Used by fire departments around the globe for more than fifty years, traditional smoke ejectors have proven to be the most versatile tool for smoke ventilation. Tempest smoke ejectors have all the standard features including the AirFlex Composite Impeller and other designs to provide years of dependable service, with a durable steel housing, rigid frame and optional duct adapter that easily attaches to a blower's inlet or outlet. Dimensions: 18.75"x14.25"x19.5", 16" blade.

GAS SMOKE EJECTOR

The Tempest GBS-16-HP is a popular unit for all forms of confined space ventilation, a design that's been used for decades. It's light and small enough to ventilate tight areas yet still built to Tempest's high standard of long lasting durability and reliability. The GBS's 3.5 (Honda GX 120) and 4.8 HP (Honda GX 160) engine options deliver massive performance out of a compact footprint. Suck the smoke/fumes/particulates out from almost any location, or turn it around and blow them out. Dimensions: 3.5 HP: 18.75"x14.00"x19.5" | 4.8 HP: 21"x17"x21"

BATTERY POWERED FANS & ACCESSORIES

TEMPEST VS-1.2D TECH SERIES INDUSTRY LEADING TECHNOLOGY AND DESIGN

The 18" battery-powered blower features a 40-minute run time with removable DeWalt batteries.

FEATURES:

- 40-minute run time
- Removable battery
1 and up to 3 lithium Ion batteries in succession with hour quick charge
- Only 51 pounds w/ 3 batteries
41 pounds without batteries
- 10887 CFM AMCA certified
- Battery management system
BMS built into the battery insures maximum performance and safety
- Small footprint
- LED flow-path lighting
- Thin-Vane™ air straightener
Reduces wasted airflow. Forces the air to flow straight out
- Warranty
Blower: 5 year limited warranty
Battery: Separate manufacturers' warranty
- Conversion kits available

SPECIFICATIONS:

- Air Volume: 10,887 CFM (18497 m³/h)
- Weight: With batteries: 51 lbs. / Without batteries: 41 lbs.
- Dimensions (L x H x D):
Handle Down: -22.88" L x 24.4" H x 12.25" D
Handle Up: +4.9"
- Propeller Diameter: 18"
- Run Time: Average run time at full speed 40 mins. with 3x12AH batteries
- Operating Temperature: -5°F to + 113°F
- Motor: 0.87HP/744W variable speed drive BLDC totally enclosed, air over IP65
- Battery: Removable DeWalt FLEXVOLT
- Charging Time: 100% charge in 2-hours with external optional charger
- Ingress Protection: IP65 (excludes DeWalt batteries)
- Drop Test: Designed to resist a Drop Test of 1.5M/5'
- Noise Level: 83.7dB at 3m-10'

FLEXIBLE DUCT & ADAPTERS

These hose sections are tough, lightweight, extremely flexible and crush-resistant. They attach easily to the Smoke Ejector with a quick-release attachment on the adapter ring. They're ideal for moving large quantities of air for ventilation, air conditioning, and fume and smoke control in hard-to-reach places. Hoses are priced with fan to hose adapter. Call for prices on longer hose extensions. Ship. wt. 1 lb./per foot.

HIGH EXPANSION FOAM GENERATORS

The Super Vac HXG High Expansion Foam Generator is the perfect solution for your foam needs. The HXG can be ordered to fit any Super Vac fan including all PPV fan styles. No need to buy and store an entire foam generator when the Super Vac HXG takes a fraction of the space and cost. Used in conjunction with high expansion foam concentrates, it can produce foam up to 1000:1 expansion for tough extinguishments including confined space, mining operations, and ship hold areas. Fire involving solid materials or flammable liquids can also be controlled and extinguished. The Super Vac HXG also has advantages for handling the tough spills of Liquefied Natural Gas (LNG).

- Water Flow: 100 - 300 lpm (27 - 79 gpm)
- Inlet Pressure: 4 - 14 bar (58 - 203 psi)
- Water Flow: 80 - 180 lpm (21 - 48 gpm)
- Foam Eductor: Matched to fan type, included
- Expansion: 500:1 to 1000:1

HOW TO ORDER DARLEY 800 OR CORD HOSE

Length: All hose will be shipped in 50' lengths. 75' or 100' lengths are also available (call for pricing).

Couplings: All hose will be shipped with hard-coated, lightweight, rocker lug couplings, unless otherwise specified (brass couplings available for an additional charge).

Threads: NST (NH) threads are standard. IPT (NPSH) available at no additional charge (other threads available for \$5.00 per set). NPSH available at no additional charge. Must specify at time of order.

DARLEY CORD HOSE

ALL-POLYESTER DOUBLE JACKET 800 PSI HI-TECH POLYMER IMPREGNATION HOSE

Darley - Cord 800 is a unique attack-grade fire hose, developed specifically for the rigorous environment of fire department use.

- All-polyester double jacket construction
- Ozone-resistant, high-tensile synthetic rubber liner
- Most advanced fire hose in the industry
- Lightweight and extremely durable
- Outside jacket is thoroughly impregnated with a heat-set High-Tech Polymer, providing durability and ease of maintenance (superior to Hypalon)
- Completely immune to any effects of mildew

TRU-ID HOSE

TRU-ID is the first and only true internal diameter hose specifically designed for combat fire fighting. Classic performance in an innovative design and rugged construction guaranteed to withstand the rigors of the fire ground. These anodized, threaded expansion ring couplings are guaranteed for the life of the hose. Virtually kink resistant, TRU-ID handlines are designed for use with low pressure/high volume nozzles built to reduce hose whip and optimize friction loss, all while delivering targeted flow rates, guaranteed. Backed by a 10-year warranty.

- Heavy duty EPDM rubber liner
- Lightweight 100% polyester double jacket
- Mildew resistant
- Lightweight, laser engraved, extruded aluminum alloy couplings

HOSE

COMBAT SNIPER HOSE

This hose is designed specifically for aggressive fire attack operations and is recommended for low pressure nozzle applications. The outer jacket is woven from ring spun staple polyester yarns over an inner liner consisting of a one-piece extruded through-the-weave nitrile/PVC tube. Color or clear coat abrasion resistant "Key-Lok" process is standard. Combat Sniper is manufactured in a high-visibility fashion with four black and green stripes running the length of the hose. This heat, abrasion and kink resistant hose shall have superior friction loss characteristics.

FEATURES

- Abrasion resistance
- UL abrasion
- Cold resistance safety factor
- Flashover resistance safety factor
- Water pick-up weight

INSIDE DIAMETER

The finished inside diameter of Combat Sniper hose is 1.78" respectively, with a tolerance of 1.2% when measured according to UL-19 standards.

COUPLINGS

Combat Sniper is supplied with aluminum 6061-T6 USA manufactured couplings. Knurled couplings and other custom features available upon special request. Barcode recess available at additional charge.

COMBAT READY HOSE

This hose is designed specifically for aggressive interior fire attack operations. The outer jacket is woven from staple polyester yarns over an inner liner consisting of a one-piece extruded through-the-weave tube. Combat Ready is manufactured in a high-visibility white with one red and one blue stripe running the length of the hose. This heat-resistant, drag-resistant, ozone-resistant and kink-resistant hose has superior friction loss characteristics. *Ship. wt. 18-26 lbs.*

- Abrasion-resistant
- High visibility
- 10-year warranty

MAGNUM 800-NYLON HOSE

This double jacket attack hose is manufactured using tightly woven entangled filament nylon 6.6 yarns in both the inner and outer jackets to promote abrasion resistance and kink-resistance. With higher tensile strength than that of polyester, the Magnum 800 is designed for aggressive fire department use.

- 100% all synthetic entangled Nylon 6.6 Tube
- EPDM rubber lined for the best ozone resistance

HY-FLOW HOSE

Lightweight, double jacket construction, combining 100% premium ring spun staple and filament polyester fibers over a thin wall, high tensile, EPDM rubber liner. The outer jacket is mildew resistant and available with double dip "Key-Lok" polyurethane based polymer impregnation for abrasion and moisture resistance. A proprietary reverse twill weave construction reduces friction loss, while engineered yarn selections lighten the hose compared to competitive offerings. This reliable, double jacket fire hose with Key-Lok treatment is tested to 600 psi and meets MIL-H-24606 latest edition for abrasion resistance. Features a 10-year warranty and lifetime liner delamination guarantee.

NFPA 1962

- Extremely lightweight, easy to handle double jacket attack or supply line
- Combines minimum weight with maximum flexibility and abrasion resistance
- Mildew, chemical and UV resistant
- Guaranteed not to delaminate for the life of the hose

HOSE NOT INCLUDED

DRY AND STORE HOSE RACK

With the Dry and Store Hose Rack, you can dry hose and store it on the same unit. Unit consists of the top mounted drying rack where hose and other equipment dries naturally and quickly, and one lower level storage rack. Dry up to 900' of 1 1/2" to 1 3/4" hose or up to 600' of 2 1/2" to 3 1/2" hose and simultaneously store up to 650' of 2 1/2" hose. Heavy-duty steel construction with durable red powder coat finish. Ideal for use in smaller stations. *Ship. wt. 330 lbs.*

BB039 Dry and Store Hose Rack \$2,546.95

MOBILE HOSE DRYER

With the Mobile Dryer, equipment dries naturally and quickly with fresh air, prolonging the life of your equipment. Used to dry immersion entry suits, wet or dry dive gear, and decontaminated hazmat entry suits. The Mobile Hose Dryer holds up to 1200' of 1 1/2" or 1 3/4" or up to 800' of 2 1/2" - 3" hose. *Ship. wt. 290 lbs.*

- SAFE - no more climbing to hang or retrieve hose
- Costs thousands less than conventionally built towers
- Stores and dries in small area
- Durable red powder coat finish
- Dimensions: 80"Lx33"Wx88"H

AS703 Mobile Hose Dryer \$1,954.95

HOSE RACK BRACKETS

BUILD YOUR OWN HOSE RACK

Protect your hose with ample ventilation and allow quick and easy access for inspection. Build your own rack with pipe and lumber using these handy brackets designed for easy adjustable installation. *Ship. wt. 4 lbs.*

- Lightweight, high-strength aluminum
- Easily adjusts up or down pipe for desired height

AR346 Small Bracket for 1 1/2" Pipe \$54.95
 AR347 Large Bracket for 2" Pipe \$56.95

THE HOSE COILER

ROLL HOSE QUICKER AND EASIER THAN EVER

Designed by a firefighter to make it quicker and easier to coil 1" to 3" double jacket hose in lengths up to 50 feet (single jacket forestry hose in lengths of 100 feet). Simply attach the mounting bracket to the rear of your apparatus, pickup truck or any emergency vehicle waist-high, insert the coiler crank and roll away. The coiler itself is made of two parts which nest together for compact storage. Once the hose is coiled simply remove the tight coil from the inside section and you're done; no more bending over to pick up heavy coils. Use this system anywhere you choose to install the mounting bracket (included). Also available are trailer hitch mounts. Call for pricing. Fits in hitch receiver and Wildland Mounts pound in the ground.

Cat#	Description	Ship. wt.	Price
AM100	Hose Coiler, for 1" to 1 1/2" Hose	8 lbs.	\$307.95
AM101	Hose Coiler, for 1 1/2" to 3" Hose	8 lbs.	\$304.95
BE026	Hose Coiler, for 5" to 7" Hose	12 lbs.	\$538.95

FREESTANDING & MOBILE HOSE CART

Save time and eliminate back strain from carrying hose with the Hose Cart. Mobile unit has heavy-duty brake casters that allow for ease of rolling and hold the cart in place when loading or unloaded. Heavy-duty steel rails with a durable red powder coat finish easily support 100' coils. Ships knocked down for freight savings. Easy to assemble. Available in 2 or 3 tier units mobile or freestanding. Freestanding model may be bolted to floor for additional stability. An optional cover plate (AR117) provides a flat surface for holding bottle carriers or other items. *Ship. wt. 315-560 lbs.*

AR117	20" x 31" Cover Plate	\$95.95
AS213	Hose Winder	\$573.95

LARGE DIAMETER HOSE WINDER

Wind 100' sections of LDH up to 6" wide in seconds. Having the ability to steer the winder while rolling the hose, the Large Diameter Hose Winder (LDHW) turns winding into a one-man operation. With no need to recharge batteries, downtime is drastically reduced. The LDHW drains the hose as you wind it, prolonging hose life. Reduces the risk of back injuries by limiting firefighter fatigue.

THE AUTOMATIC FIRE HOSE WASHER

"IT ALL COMES OUT IN THE WASH"

You'll be amazed at how thoroughly, easily and quickly this remarkable cleaner does its job. Ashes, dirt, silt, mud and sludge are all scrubbed and flushed away, restoring hose to its original color. Quiet, chain-drive operation eliminates need for service and repairs. Built to last a lifetime and equipped with long wearing, genuine nylon brushes. Check out all the great features of the Automatic Fire Hose Washer. *Ship. wt. 680 lbs.*

- **Hose is Self-Propelled:** Convenient foot pedal applies pressure on pivoted wringer roll, pulling hose through the washer under its own power
- **Uniform Washing:** Wringers propel hose through washer, ensuring an even, uniform cleaning at a rate of about 30 ft. per minute
- **Cleaning Action:** Hose is soaked in immersion tank filled with lukewarm or cold water. Add detergent as you see fit

HIGH-RISE HOSE STRAP

Strap consists of 4 quick release color-coded Velcro® brand closures for a range of carry options. U-Shaped design keeps hose center of gravity close to your own for better balance and mobility.

- Carry up to 100 ft. of hose
- 4 heavy-duty nylon straps cinch the hose tight
- Carry over SCBA or shoulder for hands-free movement
- Allows for fast movement in narrow spaces
- Color-Coded Reflective Trim: Silver marks the nozzle
- U-Shaped Design: Keeps hose center of gravity close to your own

BB065 High-Rise Hose Strap

\$109.96

A. THE CLEVELAND HOSE GRIP

The Cleveland Hose Grip is a clever hose pack that is designed to easily deploy in tight spaces while eliminating hose kinking. Minimal man power is required to deploy the hose. Made of 2" nylon webbing with 2" Nexus quick side release buckles that are easily released with your gloves on. There is a looped end for cinching up and removable shoulder strap for easy carrying. The grip holds 100' of 1³/₄" hose with the nozzle attached. The Cleveland Hose Grip is designed for a stand pipe operation or to be connected to an existing line with a gated wye. Color: Royal Blue. Weight: 1¹/₂ lbs.

BN212 The Cleveland Hose Grip

B. GRIPPER HOSE SYSTEM

AN EFFECTIVE WAY OF TRANSPORTING HOSE

The Gripper Hose System consists of three heavy duty nylon straps, with a padded shoulder sling, all sewn together to create a hose harness. The gripper has a padded high visibility shoulder sling, with three 2" wide, 42" long, 3000 pound strength webbing to secure the hose and carries 150' of 1³/₄" hose. Utilizes cam buckles and torque rings and is easily opened with a gloved hand. The 42" long straps have the capacity to hold more hose than the average firefighter can carry. *Ship. wt. 4 lbs.*

AF151 Gripper Hose System

\$174.95

C. HOSE VICE

CARRY MORE HOSE EASIER

The Hose Vice is the latest in the evolution of our hose carrying systems. This product incorporates many ideas given to us by our customers. Features include: an updated shoulder strap, which is adjustable and removable. The shoulder strap is long enough that a firefighter can carry the bundle across the body for better balance. Two fire-fighters can also carry The Hose Vice. Handles have been incorporated into the ends of the four straps, along with two molded rubber grips on top. The overall length is 35" and each strap has an adjustable circumference range of 20" - 38". Capacity is 150 OR 200' of 1³/₄" hose as shown. 3M reflective has been added to increase visibility. Made in the USA. *Ship. wt. 3 lbs.*

AK187 Hose Vice

\$295.95

LARGE DIAMETER HOSE STRAP

The Large Diameter Hose Strap (LDHS) assists in getting large diameter hose off the hose bed for attachment to a water source safely and allows the engine to proceed for fire operations. Constructed of 3" nylon webbing, with a tensile strength of 22,550 lbs. Strong stitching with heavy brass rivets give you long life. This device allows the firefighter to pull the hose off the rig and place it over a hydrant with additional hose secured with the hook & loop strap, with plenty of spare hose for attachment. Also works great for tanker operations to secure the hose with a heavy hook & loop closure with a zinc-plated adjuster, allowing for additional hose for hydrant operations. Tab allows for operations with heavy firefighting gloves. When used in conjunction with the Oversized Hydrant Tool Kit or the Tool Bag, the firefighter has everything needed to complete efficient and safe hydrant operations. *Color: yellow, length: 60", weight: 32 oz. Ship. wt. 5 lbs.*

BG151 Large Diameter Hose Strap

\$76.95

DARLEY HYDRANT STRAP

NEVER LOSE YOUR TOOLS

The Hydrant Strap increases the speed and safety of your hydrant hook-ups. The complete Hydrant Strap includes a six-foot loop of heavy-duty nylon webbing fastened to the end of your supply or suction line by a three-foot hose strap. The hose strap is made from seat belt material with a seat belt type buckle. Attached to the hose strap is a tool pouch containing the tools needed for hydrant hook-up. The firefighter stands on the ground and pulls the Hydrant Strap fastened to the end of the supply line in the hose bed and loops the strap over the hydrant. The engine can then lay the hose line. After the hose lay is finished, it is simply unbuckled. *Ship. wt. 1 lb. without tools.*

AC961:

- Hydrant wrench
- 2 - Spanner wrenches for rocker lug couplings

AC962:

- Hydrant wrench
- 2 - Spanner wrenches for 4" or 5" Storz

E119	Hydrant Wrench	\$33.95
C285	Hydrant Wrench	\$65.95

SUPER SPANNER WRENCH

Fits any standard 4" and 5" Storz or locking type Storz coupling on one end; the other end fits 1½" to 3" rocker lug type fire hose couplings. Use the center slot as a gas shutoff. Wrench set includes 4 Super Spanner Wrenches and Mounting Plate. *Ship. wt. 1-7 lbs.*

BN581	Super Spanner Wrench	\$25.95
BN582	Super Spanner Holder	\$53.95
BN583	Super Spanner Wrench Set	\$159.95

DARLEY STORZ SPANNER WRENCH SET

Wrench set includes your choice of 2 or 4 Storz Spanner Wrenches mounted on a cast aluminum holder base plate. Holder is powder-coated for corrosion resistance and surface-mountable. Wrenches are made of a lightweight aluminum casting with comfortable grip for 4"-5" Storz connections. *Ship. wt. 2 lbs. (4 wrench set).*

INCLUDES:

- BK374: 1 wrench
- BK375: 2 wrenches and holder
- BK376: 4 wrenches and holder

BK374	Spanner Wrench 4" - 5"	\$28.95
BK375	Double Storz Wrench Set	\$171.95
BK376	Quad Storz Spanner Wrench Set	\$200.95

WRENCH HOLDER SET

Mounts on apparatus for easy accessibility. Convenient, snap action aluminum holder complete with two spanners for any style or size coupling from 1¼" to 4". Also includes an adjustable hydrant wrench for pentagon nuts up to 1¾" or square nuts to 1¼". Hydrant wrench fits 2½" couplings. Ductile iron zinc plated head. Handle is steel zinc plated. *Ship. wt. 9 lbs.*

H711	Holder w/2 Spanner Wrenches	\$72.95
L780	Holder w/2 Spanner Wrenches & Hydrant Wrench	\$105.95

BOWRING PERSONAL FIREFIGHTER TOOL

The Bowering firefighting tool is 8.1" tall 5.9" wide .375" thick and weighs 22oz, so it easily fits into a firefighters bunker pants. It is made of 17-4 steel and incredibly strong with no plastic or moving parts.

- Hose advancement
- RIT firefighter drag
- High-rise tool (use as a cheater-bar, standpipe wheel, spanner wrench)
- Gas shutoff
- Windshield removal and glass ripper
- O2 wrench
- Door wedge
- Nance drill - Denver drill
- Water shutoff
- Mattress hook
- Forcible entry tool
- Spanner wrench (fits pin lugs, rocker-lugs, and storz lugs)
- Gypsum board ripper (cleanly rips through while looking for hot spots)

FOLDING SPANNER WRENCH/BELT RING

Ultra-light non-sparking folding spanner with extra wide pry end, and gas shut-off. Fits couplings from $\frac{3}{4}$ " to 6" *Ship. wt. 1 lb.*

AZ357 Folding Spanner Wrench/Belt Ring

\$38.95

PREMIUM QUALITY SPANNER WRENCH

It's made from aerospace alloy aluminum. This means it's ultra-light and super strong. Plus, because it is non-sparking, it's safe to use in hazardous situations. You'll never go wrong with the best. Compatible with most brackets. Fits up to $3\frac{1}{2}$ " couplings, has gas cock shut-off. *Ship. wt. 1 lb.*

AJ281 Premium Quality Spanner Wrench

\$28.95

WELLZ TOOL™

When shopping for firefighter forcible entry tools, your department won't find a more versatile personal carry tool than the Wellz Tool™. This multi-use tool is small enough to fit into a responder's pocket, while its folding design provides a number of essential uses. The folding handle can be angled 90° to block hinges, 135° to breach doors, 0° to utilize built-in tools and 270° to create a different prying vantage. *Dimensions: 4.3"Hx7.5"Wx9.5"L. Ship. wt. 4 lbs.*

- **Teflon-Coated Shaft:** Provides smooth actuation
- **Knurled Finger Nut:** Tightens and locks tool into varying positions
- **Hydrant Socket:** Makes this the most versatile forcible entry tool
- **7075 Anodized-Hardened Aluminum Hook Plate:** Breaches doors
- **Shoulder Bolt:** Acts as a durable hinge in this foldable design
- **Open:** 2"Hx14"L, **Closed:** 2"Hx7.5"L

BL758 WELLZ Tool™

\$159.95

HYDRANT WRENCH

- Fits hydrant stems both 1" (square and pentagon) and $1\frac{1}{2}$ " (pentagon)
- Will work on worn stems
- No more adjusting, just put the open end over the hydrant stem and pull the handle, the harder you pull, the tighter the grip
- To release, just relax and lift it off the stem
- Will actually stay on the stem and not in the mud while you work
- The spanner end of the wrench is designed for use on $2\frac{1}{2}$ " and larger fittings
- **Weight:** 5 lbs.
- **Length:** 18"

BL425 Hydrant Wrench

\$111.95

RES-Q-RENCH

- Spanner wrench works with $1\frac{1}{2}$ " and $2\frac{1}{8}$ " rocker lug couplings
- Only folding spanner that works with 4" & 5" storz locking couplings
- Made from glass-reinforced nylon
- Folds compactly into your pocket
- Integrated carbide tip
- Heavy-duty seat belt cutter
- Prying tool
- 12" open; 8" close
- **Ship. wt. 1 lb.**

QUIC-BRIDGE® HOSE GUARDS

One of the most economically priced hose bridges available and requires little storage space. Made of extruded aluminum to accommodate 16" or 24" widths (5" hose). Each bridge consists of one center hose guard and two ramps; neoprene feet hold the bridge firmly in place and vehicle tires do not come into contact with the hose line. Remove one ramp and bridge can be used to jump a curb. *Ship. wt. 192 lbs.*

Sold in sets of two bridges

AM098	16" Hose Ramp	\$1,138.95/set
AM099	24" Hose Ramp	\$1,429.95/set

HOSE RAMPS

No rust aluminum supports up to 50,000 lb. loads. Ramps are traction ribbed and stiffened for extra strength. Other features include non-skid bottom, one piece construction and won't bend or sag. Easily stack sets for convenient transport. *Ship. wt. 90 lbs.*

Sold in sets of six 2' sections

J545	16" Hose Ramp	\$936.95/set
------	---------------	--------------

HOSE WASHER

Effective in cleaning all types of dirty and caked hoses. Simply connect to a fire hydrant or pumper (40-60 operating psi recommended) and these units will blast the hose clean of all debris. These machines operate by using water pressure to produce a conical multi-jet water stream while using no moving parts. This ensures long life and no loss of performance over time. Manufactured and assembled in USA.

DARLEY PUMPS

PUMPS

LDM MIDSHIP SINGLE STAGE PUMP
NFPA RATINGS 1000-1750 GPM

DQS Inc.
W.S. DARLEY & COMPANY
REGISTERED TO ISO 9001:2015
CERT# 10000076

WHY DEMAND DARLEY PUMPS?

ISO 9001 CERTIFIED

Our pump division is registered as an ISO 9001:2015 Certified facility accredited by Underwriters Laboratories Inc.

ENGINEERED FOR LIFE

Darley engineers use the latest technology platforms such as ANSYS CFD and Solidworks to design our pumps.

SALES AND SERVICE

We strive to ship most Darley parts orders within 24 hours.

SELF-LOCKING DISCHARGE VALVES

Stainless steel ball valves stay secure in the position you choose.

DISCHARGE CHECK VALVE

Prime pumps with discharge gates open and caps removed for rapid water deployment.

AUTOCOOL™ AND MAGNATRANS™

Darley pump transmissions are the strongest in the market. The patented AutoCool™ ensures oil cooling without the possibility of water contamination.

VACUUM CAST IMPELLER

Durable and efficient, balanced to fit a 10-splined stainless steel pump.

MECHANICAL SEAL

Extremely hard and heat dissipative silicon carbide stationary face allows pumps to run dry for short durations maintenance and is drip free.

LONGEST WARRANTY

The longest and most comprehensive warranty in the industry with a ten year manufacturer's warranty. Includes three years of parts and labor coverage at no charge on our Midship and PTO pumps. We've got your back.

DARLEY FAMILY OF PUMPS

Darley offers over 300 high quality, highly efficient and competitively priced pumps, CAFS and related products for virtually any application. Darley pumps are 100% manufactured in the USA and backed by the industry's longest warranty. Visit darley.com to view our complete selection and learn more reasons why you should switch to Darley pumps. Contact PumpSales@darley.com to find the right pump to meet your needs.

GASOLINE PORTABLE PUMPS

Darley Gasoline Portable Pump models are available with a wide variety of engines from Briggs & Stratton Vanguard, Honda, and Rotax.

COMPRESSED AIR FOAM SYSTEMS

Darley offers the widest variety of CAFS on the market. Darley AutoCAFS™ and Odin CAFS provide the solution to all your CAFS needs.

DIESEL PORTABLE PUMPS

Darley Diesel Portable Pump models are available with a wide variety of engines from Yanmar, Kubota, Cummins, John Deere and Deutz.

FAST ATTACK SKIDS

Darley Fast Attack Skid units are ideal for brush firefighting needs. Designed to fit into the standard 8' bed of any pickup truck, the unit features a 200 gallon poly tank with "C" channel construction for easy installation and removal.

ENGINE DRIVEN PUMPS

Darley Engine Driven Pump models are available with a wide variety of engines from Cummins, Deutz, Ford, GMC, Kubota and John Deere.

PUMP MODULES

Darley offers a large variety of Pump Modules from our compact Solution Series™ PTO driven Modules to Top-Mounted Midship Modules.

FRONT/REAR MOUNTED PUMPS

Darley continues to offer a wide variety of Front and Rear Mount pump configurations.

MARINE PUMPS

Darley offers marinised versions of our portable, front mount and engine driven pumps featuring engines from Honda and Steyr.

PTO PUMPS

Darley has a wide variety of PTO and hydraulically driven pumps with flows up to 1500 gpm ideal for pump and roll applications.

OHLER PUMPS AND CUSTOM PUMP SOLUTIONS

Ohler pumps offer a range of pumps for industrial applications including diesel fuel, mining and trash flow.

MIDSHIP MOUNTED PUMPS

Darley offers both manifolded and non-manifolded midship pumps with ratings from 1000 to 6000 gpm.

PUMP ACCESSORIES

Darley has a wide variety of pump accessories such as control panels, adapters, mechanical seals, primers, valves, gauges and more.

DAVEY PORTABLE PUMPS

The Darley® Davey pumps, also known as the “affordable portables” are the most economical choice in portable, high-efficiency pumps. Their compact design makes them ideal for a variety of applications such as firefighting, tank filling and water transfers.

PUMP DESIGN FEATURES

- MARINE-GRADE ALUMINUM CASING
- 3-WAY DISCHARGE PORT WITH 1 - 1½" NPTM, 2 - 1" NPTM
- 1½" NPTM SUCTION
- ZINC-PLATED CASING BOLTS
- MECHANICAL SHAFT SEAL
- NITRILE RUBBER SEAL AND CASING "O" RINGS
- SELF-PRIMING UP TO 19'
- EASY INSTALLATION
- COMPACT AND LIGHTWEIGHT
- HIGH PUMPING EFFICIENCY
- LOW OIL PROTECTION
- SPARK ARRESTOR/EXHAUSTER DIVERTER

- 5 - USER-FRIENDLY DISCHARGE VALVE WITH INTEGRATED CHECK VALVE**
Allows pump to be primed with discharge valves open
- 6 - 1-1/2" NPT VENTED EXHAUST**
- 7 - HARD COATED ANODIZED PUMP CASES**
Standard on most portable pumps
- 8 - WIDE VARIETY OF CONTROL PANELS**
Including pressure gauges, wireless controls, remote priming, start button, kill switch and light

FLOATING PUMPS

HEF 10.5BS FEATURES

- High volume
- Available with a Briggs & Stratton 10.5 HP or Honda 11 HP carb compliant single cylinder engine, 4 cycle, 2.8 qt. fuel tank, recoil rope start
- 33" L x 30" W x 20" H, 110 lbs. (50 kg)
- Hard anodized aluminum alloy pump casing
- Bronze impeller
- High-density polyethylene filled with closed-cell polyurethane foam
- Four built-in carrying handles
- Self priming
- 4" screened suction inlet
- 2-1/2" NH discharge

FAST ATTACK SKIDS

IDEAL FOR BRUSH FIREFIGHTING NEEDS, DESIGNED TO FIT INTO STANDARD 8' PICKUP TRUCK BEDS

The **Fast Attack 1** comes with a 13 hp Davey two-stage pump with a 200 gallon Pro Poly tank and Hannay electric booster reel with 100' of 1" hose.

ATTACK 1 FEATURES

- 13 HP twin impeller Darley Davey pump with Briggs & Stratton engine
- 200 gallon Pro Poly tank
- F4000 Hannay electric rewind reel
- 100' of 1" booster hose
- Guzzler hand primer
- 1½" or 2½" NST suction adapter
- 1" tank recirculation
- 1½" tank to pump and discharge
- All stainless steel manifold & piping
- 94"L x 48"W x 42"H, 700 lbs. (318 kg)

OPTIONS

- Water/foam nozzle packages for N.A.F.S.
- Roller and spool hose guide
- Built-in 10 gallon foam cell
- ATP Foam Flurry™ proportioner
- 1½" Mattydale swivel
- Work light
- Poly hose tray
- Custom tank sizes
- Additional custom option available

BENEFITS

- Ergonomically designed
- Forkliftable to standard pick-up bed
- Solid pump performance for grass firefighting

1 - ROLLER & SPOOL HOSE GUIDE

2 - POLY HOSE TRAY

3 - WORK LIGHT

4 - 250/300 GALLON TANK

5 - WATER/FOAM NOZZLE PACKAGES FOR N.A.F.S.

6 - 1.5" MATTYDALE SWIVEL

7 - BUILT-IN FOAM CELL

8 - 13HP HONDA ENGINE

9 - ATP FOAM FLURRY™ PROPORTIONER

ATTACK 1 PERFORMANCE AK305

- 120 gpm (454 L/M) @ 40 psi (2.8 bar)
- 95 gpm (360 L/M) @ 108 psi (7.4 bar)
- 20 gpm (76 L/M) @ 146 psi (10.1 bar)

THEORETICAL FRICTION LOSS IN 100' OF 1" BOOSTER @ 100 PSI

- 12 gpm (45 L/M) @ 2 psi (.1 bar)
- 20 gpm (76 L/M) @ 6 psi (5.2 bar)
- 30 gpm (114 L/M) @ 14 psi (7.9 bar)

The **Attack 2** has the same tank and reel as the Attack 1 but standardizes on our gear-driven or direct-drive Darley pump coupled to an 18 hp engine with control panel.

ATTACK 2 FEATURES

- Darley 18 hp pump
- Exhaust primer
- 200 gallon Pro Poly tank
- Hannay electric rewind reel
- 100' of 1" booster hose
- All stainless steel manifold & piping
- 94"L x 48"W x 42"H, 900 lbs. (409 kg)

OPTIONS (SAME AS ATTACK 1 PLUS:)

- Briggs Vanguard, Honda and diesel engines
- N.A.F.S. Nozzle Aspirated Foam Systems
- JakPak drop-in bodies
- Additional 2½" discharge

CHIEF™ XD NOZZLES

CHIEF™ XD NOZZLES

NEW

The Chief XD takes the industry standard for handline nozzles to a whole new level. It offers accurate high volume flows at low tip pressures and is built tough like no other nozzle for Xtreme Duty, or XD. The Chief XD is the only handline nozzle that offers a forged shutoff body and forged metal bale handle for maximum strength. It also includes as standard a full round metal ball for the best stream performance, as well as fixed molded urethane or spinning stainless steel metal teeth that don't break. All indicators and markings are laser etched, with no labels to peel off or scratch. Ergonomic grip inserts help with handling and can also be color coded. It's durability and efficiency ensures an embedded level of safety for you and your crew, fire after fire.

BN749

MULTIPLE CONFIGURATIONS

- Color coded bumper along with bale handle and pistol grip inserts
- Spinning stainless steel or fixed molded urethane teeth
- Accurate and wide range of flows
- Available with 50, 75, or 100 psi operating pressure
- Fixed gallonage from straight stream to full fog
- Forged aluminum shutoff body and bale handle
- Dual drive shutoff with full round metal ball

SELECT-O-MATIC XD™ NOZZLES

BP344

SELECT-O-MATIC XD™ NOZZLES AUTOMATIC LOW PRESSURE NOZZLE

The Select-O-Matic XD automatic handline nozzle adjusts to fluctuating water supply conditions to maintain effective pressure and a consistent fire stream in all flow ranges. It does so by generating back pressure by using a patented internal spring design that leaves the waterway unobstructed. This mechanism ensures a quality fire stream, regardless of flow. All indicators and markings are laser etched, with no labels to peel off or scratch. Its durability and efficiency are unmatched of any automatic nozzle on the market. Standard configuration with yellow protective bumper and yellow grip inserts.

ELKHART BRASS XD SHUTOFFS & PLAYPIPES

XD SHUTOFFS

Elkhart Brass XD Shutoffs and Playpipes are designed and constructed for rugged use and reliable performance. They are built strong with forged shutoff bodies and forged metal bale handles earning the title Xtreme Duty, or XD. They provide an excellent foundation for break-apart applications using smooth bore or fog nozzle tips. Elkhart Brass XD Shutoffs are available with a variety of options, including built-in smooth bore discharges that can be used with fog nozzle tips for maximum versatility.

XD SHUTOFFS WITH INTEGRAL SMOOTH BORE

- Available Discharge Sizes: $\frac{7}{8}$ " , $\frac{15}{16}$ " , 1" , $1\frac{1}{16}$ " , $1\frac{1}{8}$ " , $1\frac{3}{16}$ " , $1\frac{1}{4}$ "

DARLEY FIRE STORM NOZZLE

The Fire Storm nozzle delivers the quality and performance you are looking for in a selectable nozzle with the value you expect from Darley. Design includes spinning turbine teeth, single piece rubber handle and bumper and aluminum body construction. The nozzle has a 110° fog pattern, full-time swivel inlet, is capable of being flushed without shutting down. *Meets all aspects of NFPA 1964. Ship. wt. 5.1 lbs.*

- Simple to operate pattern control from straight stream to fog
- **Flow Rates:** 30-60-95-125-150 gpm @ 100 psi
- Great stream performance
- Raised lug marks straight stream
- **Inlet:** 1½" NH F
- NFPA 1964
- 5-year warranty
- Made in USA

BL569 Darley Fire Storm Nozzle \$621.95

TURBOJET® NOZZLES

The Akron® adjustable gallonage TurboJet® nozzle is unmatched in today's fire service for its flexibility and flow control. The TurboJet® is an adjustable gallonage nozzle, where flow remains the same in all patterns at each GPM (LPM) setting. Use the TurboJet® one time and it is easy to see why it's the "nozzle of choice" by fire fighters worldwide. Colored handles and pistol grip kit included.

- Improved handle for operational flexibility with extra room for the gloved hand and 1¾" hose
- Larger, more legible labels
- Easy to service & repair
- Meets new European Standard
- 1½" Mid-Range, Wide Range, High Range and 2½" TurboJets meet Insurance Services Office (ISO) Requirements
- 100 psi (7 bar) Rated Pressure Standard - 75 psi (5 bar) optional with Quality Flow Performance as Low as 50 psi (3.45 bar)
- Simple to operate (¼ turn from straight stream to fog, raised lug marks straight stream for limited visibility operations)
- Updated, ergonomic pistol grip for great handling
- Durable patent-pending design for easy "snap-on" grips and handle colors to help identify pre-connects and better manage inventory
- Tough, black nozzle body hard coat for expected performance and quality
- Etched smooth bore tips with pressure and flow indicators for easier training and operations
- Enhanced shutoff ball valve alignment when nozzle is open

OPTIONS:

- Wide-ranging selection of nozzle flow and pressure options
- Nozzle handle and pistol grip color
- Bumper color
- Custom etch
- Custom threads and choice of inlet type
- Full range of certifications

1" TWISTER DUAL GALLONAGE NOZZLE

10-40 GPM

The selectable, dual gallonage nozzle is furnished with flow settings of 10 and 40 GPM at 100 PSI and produce fog and straight stream patterns. The nozzle body is constructed from hardcoat anodized aluminum alloy, utilize a stainless steel ball shut off valve with a quick change polymer valve seat. An integral pistol grip handle is positioned directly below the valve handle. This nozzle has a "twist off" position for positive shut off. The nozzle is furnished with a 1" female NH swivel rocker lug inlet and designed to accept the Task Force Tips FJ-MX-D FoamJet foam aspirating attachment. The unit has a unique serial number and is covered by a written five-year warranty.

- Valve Design: Stainless
- Flow Rate: 10/40 gpm (37/150 l/min)
- Style: One piece with valve
- Type: Selectable
- Operating Pressure: 100 psi (7 bar)
- Weight: 2.7 lb.

BP495	Twister Nozzle with Grip, 1" Female	\$291.95
BP496	Twister Tip, 1" Female	\$87.95

BL506	1 1/2" NH Mini Stream Shaper	\$61.95

DARLEY 1 1/2" BREAKAPART NOZZLES

- Ball valve shut-off
- Pistol grip design
- Ideal for wildland or industrial fire protection
- Tip also shuts off

AW227	Darley 1 1/2" Breakapart Nozzle (100 gpm Constant Flow)	\$385.95
AW228	Darley 1 1/2" Breakapart Nozzle (20-60 gpm Dual Range)	\$359.95

G-FORCE NOZZLES

The G-Force Series of Task Force Tips handline nozzles are designed to provide high performance fire streams in a highly affordable package. Offering your choice of regular or low pressure in fixed, selectable and automatic configurations, the G-Force nozzles integrate an exclusive slide style valve for turbulence free performance even when gated. Other high quality features include an inlet debris screen to prevent stream pattern disruption and easily identified color coded pistol grips and handle covers. Each nozzle incorporates G-Force's unique stainless steel spinning teeth for a wide protective fog pattern, bonded front rubber bumper, reflective labeling, and a standard five year warranty. *Low pressure nozzles also available*

- Durable polymer handle developed for the harshest fire ground operations while offering reduced maintenance costs
- Color-coded shut-off handle, grips, and Scotchlite™ labels
- Unique inlet debris screen - unparalleled protection from debris that can affect stream quality
- Flush without shutdown, integrated tactile pattern indicator, and bonded long lasting rubber bumper
- Unique slide valve design - total firefighter flow control and outstanding stream quality, even with the nozzle valve gated and the flow reduced
- Stainless steel spinning teeth for wide fog pattern - tactile indicator provides easy pattern selection
- NFPA #1964 compliant (2008) edition
- Ship. wt. 5 lbs.

TFT HANDLINE AUTOMATIC NOZZLES

TFT handline nozzle is all conventional handline sizes in one. The wide range flow of 95-300 gpm allows The Handline nozzle to be used on any size hose. The TFT handline nozzle is fully automatic with a flow capacity of 95-300 gpm. The handline nozzle's integral pistol grip is mounted below the valve. Handline nozzle consists of all lightweight materials and full time swivel. *Ship. wt. 5 lbs.*

- Use on any size hose
- Pressure assist flush without shutting down
- Patented slide type valve for turbulence free nozzleman flow control
- Six detent flow positions
- Molded rubber bumper with "power fog" teeth
- "Gasket Grabber" inlet screen.

VIPER FIRE FIGHTING NOZZLE

The Viper Industrial Heavy-Duty Nozzle with ergonomic rubber-coated pistol grip is an exceptional value for in-plant fire protection or wildland firefighting. It can break apart to help extend hose lines with both the tip and the pistol grip capable of shutting off. The spinning teeth add to the full fog pattern and the protective rubber bumper keeps the tip from sparking. A 95 gpm tip is standard and various tips are available making it the best value in its class.

TRANSFORMER PIERCING NOZZLE SYSTEM

The Transformer Piercing Nozzle is designed to deliver water or foam solutions to areas inaccessible to the firefighter. A series of jets near the point apply a wide reaching pattern at a rated flow of 150 gpm at 100 psi. The easy to use and rugged, twist-grip shutoff valve, regulates nozzle flow without the need for an additional shut-off valve. The 3 port junction block and strike head allow the nozzle to be configured to short, medium, long and L-shaped combinations, making it easily adaptable to specific fireground situations. The Transformer Piercing Nozzle features a hardened point, is constructed of hard coated extruded aluminum, and includes a sturdy canvas carrying bag with compartments for each component.

BL670 INCLUDES:

- Twist-grip shutoff valve
- 3 port junction block with striking head
- 2" - 19" extension tubes
- 14" flow tube with piercing point

BL949 (SHOWN) INCLUDES:

- Twist-grip shutoff valve
- 3 port junction block with striking head
- 2" - 19" extension tubes
- 14" flow tube with piercing point
- Distribution nozzle rated at 150 gpm (570 l/min)
- Adapter that allows the distributor nozzle to be used on any 1½" NH threaded hoseline

FEATURES:

- Re-configurable for specific fireground situations
- 150 gpm at 100 psi
- 3 port junction block and twist-grip shutoff valve
- Hardened point
- Canvas carrying bag

FYRESTICK PIERCING NOZZLE

THE PERFECT FIRE FIGHTING TOOL FOR:

- Attic and Roof Fires: Shingle, slate, metal, wood
- Underhood Vehicle Fires: Car hoods and doors
- Mobile Home Fires: Walls and doors
- Warehouse Fires: Garage doors and roofs
- Many more applications

FEATURES:

- Sledge-head replaceable anvil
- Patented spray head & piercing blade
- Spray jets flow 100 gpm @ 100 psi
- 20° angled replaceable hardened tip
- 1½" NST hose fitting
- 16½" penetration
- Slip-resistant handle surface
- Reinforced handle grip
- Designed and manufactured in the USA

900 SERIES PIERCING NOZZLES

These nozzles combine the best of durability, flexibility and are light in weight. They can accommodate extensions for extra reach (2' per extension). They can also be driven in with a mallet if needed. This unique nozzle design needs to be driven in only 3.75" to have full penetration of the sprayer unit. Ideal for walls with coverage of up to 25' in all directions. It's powerful enough for fires in attics, basements, mobile homes, garages, vehicles or any confined space. These piercing nozzles feature a unique safety handle that allows a firefighter to safely hold the unit when a mallet is being used to drive the nozzle in. The handle is removable if needed. They come with 1.5" NST threads as standard; other threads are available. Designed for the rugged demands of the Fire Service worldwide. *Mounting hardware is included. Made in the USA. Ship. wt. 9-24 lbs.*

LIGHTWEIGHT NOZZLES

The Lightweight FlameFighter is a lighter weight 3' applicator made of high-quality steel and aluminum. Comes with 1 1/2" pistol grip ball shutoff. Providing quick and efficient access through roofs, doors, walls, floors and even foundation blocks to extinguish fires from attic to basement. It gets you to the source of a fire quickly. In just seconds one or two firefighters can insert the FlameFighter into virtually any desired entry point and generate a high pressure water spray covering up to 2,400 sq. ft. at 150 psi delivering 212 gpm. For vehicle fires, it easily pierces the hood, door or trunk to make for quick extinguishing. What's more, whether you're using water or foam, the precisely placed openings in the nozzle send out a pressuring spray that extinguishes or cools most any fire. Adapt to foam applications. Mounting hardware is included. Made in the USA. 5-yr. warranty. *Ship. wt. 45 lbs.*

USES:

- Houses
- Cars and trucks
- Garages
- Barns
- Mobile Homes

CHIMNEY SNUFFER KIT

The Chimney Snuffer quickly and safely suppresses chimney fires using an ultra-fine spray, greatly reducing potential water damage. The durable 5 lb. nozzle head is simply operated by a single firefighter and easily breaks through potential blockages within the chimney. Eight strategically placed nozzles provide 40 gallons per hour at 60 psi, allowing the Chimney Snuffer to be supplied by an attack line, 1" line, or even a garden hose. The entire package weighs less than 15 lbs. and is easily stored in apparatus compartment. Ship. wt. 19 lbs.

- Includes: Nozzle head, burn resistant rubber hose, 1" ball style shut off, 1 1/2"x1" adapter and 3/4" garden hose adapter
- Compact, lightweight and simple to deploy
- Ideal for use in all types of chimney liners
- Head easily breaks through creosote buildup, nests or other debris

AR159	Chimney Snuffer Kit	\$889.00

MERCURY QUICK ATTACK LE PORTABLE MONITOR

HIT LOW, HIT HARD AND HIT FAR WITH THE NEW MERCURY QUICK ATTACK LE MONITOR

The Mercury Quick Attack LE portable monitor sets a new standard in the market and is the only portable monitor that meets NFPA 1964 and EN-15767-1. It is compact and lightweight at 15 pounds and flows 500 GPM. Now even better, it can hit low at 10° and far up to 250 feet at 100 psi. Easy and quick to deploy, friction loss is minimal.

- Hits low at 10°
- Improved reach up to 250 feet with the NEW Mercury Adjustable Nozzle and the only fog nozzle with the reach of a smooth bore
- Only portable monitor to meet NFPA 1964 and EN-15767-1
- Compact size and weighs only 15 lbs. for quick deployment
- Easy open/close valve
- Strap attached with bag for easy stowing

AW467	Mercury Quick Attack LE Monitor	\$2,120.95
AW468	Stacked Tips	\$509.95
AW469	Mercury Adjustable Nozzle 250-375-500 gpm	\$601.95
AW470	Mounting Bracket	\$249.95

APOLLO™ 2-INLET MONITOR

This lightweight, portable monitor (36 lbs. without tube and tip) can be either truck mounted as a deck mount or quickly removed and used remotely from the truck. Rugged Pyrolite® construction with 3" waterway and (2) 2½" clappered, swivel inlets (3" available upon request). Rated at 1250 gpm (deck flow), it allows less than 10 psi pressure loss @ 800 gpm. Comes with 3" flange for deck mount units. Available with or without tube and tips or with a master stream nozzle. *Ship. wt. 36 lbs.*

- 360° rotation when mounted in the deck mode, 180° in the portable mode
- Vertical travel from 80° above to 15° below horizontal with built-in 35° safety stop
- 3" waterway with cast-in turning vanes for efficient flow
- Direct mount - A combination 3" NPT female and 3" flange
- Carbide spikes for extended wear
- 1000 gpm monitor

FORESTRY MONITOR

MULTI-PURPOSE AND FORESTRY MONITOR

The Forestry Monitor is the latest addition to the Akron Brass electric monitor family. It provides an extremely rugged durable design ideal for brush and wildland firefighting. This compact monitor features a fully sealed integrated electrical control system with waterproof locking connectors for pinpoint stream positioning and accuracy. *Ship. wt. 25 lbs. (Not including nozzle.)*

- Low flow adjustable electric fog nozzle with flush 30-60-95-125 gpm
- CAN proportional speed joystick control
- Lightweight Pyrolite construction
- Integrated and sealed electronics
- Waterproof (IP 67 rated) locking connectors
- Simple "plug and play" installation
- 300 GPM (1140 LPM)
- 320° maximum rotation range with stops at +/-90°
- 135° maximum elevation range with stops at -45° and -20°
- 12v or 24v option
- Dimensions: 13³/₁₆" Hx11⁹/₁₆" Wx8²⁹/₃₂" D
- Inlet: 2"
- Outlet: 1¹/₂"

SPECIFY: 12v or 24v Monitor

BL693	2" Electrically Actuated Valve with 2" NPTF	\$2,415.95

GP MANUAL MONITOR

RUGGED LIGHTWEIGHT DESIGN

The GP Manual Monitor is one of the most cost effective, best performing monitors for the worldwide market. The computer optimized, compact waterway provides the highest stream performance while using minimal space. The removable integrated stream shaper ensures optimal stream performance for water applications and is quickly removed to provide CAFS compatibility. The "T" handle control bar maintains ease of operation throughout its flow range. The wide range of compatible nozzles makes BK396 the most versatile monitor in its class. *Ship. wt. 17 lbs. (Not including nozzle.)*

- 1000gpm flow capabilities
- Compact design with cast-in tuning vanes and integrated stram shaper provides optimal performance
- Continuous 360° rotation, +90°-35" elevation range
- Built-in pressure gauge
- "T" handle control bar for easy positioning
- Dimensions: 13¹/₄" Hx11" Wx9¹³/₁₆" D
- Inlet: 2.5"
- Outlet: 2.5"

BK396	GP Manual Monitor	\$1,988.95
-------	-------------------	------------

PERMANENT MOUNT STATION MONITORS

Station monitors were specifically designed to meet all the needs of municipal and industrial applications. The balanced, full flow, seamless, 2¹/₂" single waterway configuration reduces friction loss, improving streams and distance. Operates easily at all pressure ranges. 140° vertical, 360° horizontal (750 gpm); 140° vertical, 360° horizontal (1200 gpm). Carbon steel construction with stainless steel discharge and Zerk fittings for lubrication. Your choice of permanent mount tiller bar or steering wheel handle. Red epoxy finish inside and out for effective corrosion resistance. 3" flange base. *Ship. wt. 50 lbs.*

- Less friction loss
- Single waterway
- Carbon steel construction
- Stainless steel discharge
- Balanced flow design
- 2¹/₂" , 3" or 4" waterways

RAM XD MONITOR

NOW WITH 14° LOWER ATTACK ANGLE

The improved RAM XD features enhancements from the standard RAM monitor specifically designed for eXtreme Duty Use, or XD. The most significant enhancement is a new lower attack angle of 14°. It still features the largest deployed footprint of any portable monitor and only 9 psi friction loss at the rated 500 gpm flow at only 75 psi! The standard hydraulic safety system automatically increases down force under conditions that normally limit stability.

14° LOWER ATTACK ANGLE

- Industry leading stability and safety
- Designed for unmanned operation

BN409	RAM XD Monitor	\$3,038.95
BB104	RAN (Rapid Attack Nozzle)	\$699.95
BB105	Mounting Bracket (Not Shown)	\$221.95
BB106	Triple Stacked Tips	\$425.95
BB107	Deluge Tip	\$270.95
BB108	Stream Shaper (For Stacked and Deluge Tips Only)	\$224.95

BRUSHHAWK ELECTRIC MONITOR

FLOW RATES UP TO 500 GPM (2000 LPM)

With a small swing radius and low stow height, the BrushHawk is the most compact monitor in its class. Perfect for limited bumper space on brush and wildland trucks while also improving field of vision. Utilizing CANbus control, the BrushHawk comes with a proportional joystick controller that provides monitor controls for up/down/left/right and nozzle fog/stream controls. The joystick also includes on/off and trigger control for the optional valve kit. No intermediate junction box is required between the joystick and monitor, streamlining installation and space requirements. Includes 20' harness. Fixed gallonage nozzles available with GPM ranging from 15 GPM up to 475 GPM. Contact Darley for configuration options.

FEATURES:

- Designed specifically for wildland and quick attack firefighting
- Simple plug and play with full CANbus communication
- Field adjustable vertical and horizontal electronic stops
- Fully proportional joystick includes all monitor controls including trigger for water valve control
- Electronics are located and sealed within monitor body - no separate module required

SPECIFICATIONS:

- Inlet: 1.5" and 2.0" FNPT
- Outlet: 1.5" MNHT
- Vertical Travel: -30°/+90° or -45°/+45°
- Horizontal: Left 175°/Right 175° or Left 90°/Right 90°
- Swing Radius: 6.9" (175mm)
- Stow Height: 11.2" (285 mm)
- Weight: 13.5 lbs. (6.1 kg)

SIDEWINDER® EXM MONITOR

The Sidewinder® EXM is a complete monitor with an integrated control box, ready for 2-wire connection to any other EXM enabled component. It is ideal for front bumper applications and can be controlled via joystick. Its compact, elliptical waterway delivers up to 700 gpm. As standard, enabled for either wired or wireless EXM network connection. Motors NEMA 4 rated, 11-27 VDC power. Inlet: 2.5" F NPT or 2.5" F BSPP. Outlet: 2.5" NHT & BSPP.

- Ideal for front bumper installations
- 135° vertical travel; 350° horizontal travel
- EXM Technology-plug and play J1939 CAN Bus network

BN418	The Sidewinder® EXM 2.5" NPT/NHT, Monitor Only	\$6,080.95

BLITZFIRE MONITOR

LOW FRICTION INLET AND OUTLET PIVOTS

Elevation is manually adjustable between 10 and 50 degrees either side of center. The safety shut-off valve will shut off flow if monitor slides or lifts. It has six detent flow positions with a patented turbulence free slide valve for operator flow control. When the legs are folded, the carbide tip points up carrying safety. *Ship wt. 29-46 lbs.*

- **Folded size:** 25 1/2" L x 8.1" W x 10" H
- **Standard inlet:** 2 1/2" NH rocker lug swivel
- **Standard outlet:** 2 1/2" rigid male threads

FLOW RANGE UP TO 500 GPM

AZ365	Blitzfire Monitor	\$3,108.95
AZ366	Blitzfire Monitor (Package)	\$4,992.95

BLITZTAC COMBINATION PACKAGE

PORTABLE MONITOR WITH SAFETY GATING INLET

The monitor shall include an integral safety gating device that will automatically reduce the water flow in the event the monitor slides or lifts. The safety gating device can be easily reset. The water flow is controlled by a valve with a positive lock in the "off" position to prevent accidental discharge of the stream. The water inlet shall pivot up and down to allow a smooth transition from the hose to the monitor for increased stability.

The monitor has folding stabilization legs with carbide tips, which are concealed in the carry and stow positions. An integral carrying handle that also functions as an attachment point for the included anchor strap with attached storage bag will be provided. For corrosion resistance, the monitor shall be constructed from hardcoat anodized aluminum alloy and have a blue powder coat interior and exterior finish.

The monitor shall be configured with a 2 1/2" female NH swivel rocker lug coupling inlet and 2 1/2" male NH rigid outlet with a flow rating up to 500 GPM. The unit shall have a unique serial number and be covered by a five-year warranty. One Task Force Tips Max-Force dual pressure automatic nozzle tip, Max-Matic automatic nozzle tip, or Max-Flow fixed gallonage nozzle tip shall be provided.

BP487

- Stainless steel and hardcoat aluminum; designed for horizontal or vertical installation
- Adjustable strap
- Storage bracket and mounting screws supplied

BP488

- Hardcoat anodized aluminum alloy
- Three (3) tips w/ base tip having 2 1/2" female NH swivel inlet
- 1 1/2" male NH threads
- Each tip laser engraved w/ flow/pressure chart, orifice size and thread size

BP487	Blitztac Combination Package; Max Series	\$4,134.95
BP488	Blitztac Combination Package; Stack Tips	\$3,522.95

BP487

BP488

BLITZFORCE PORTABLE MONITOR

The BlitzForce is Task Force Tips' innovative, lightweight, and highly versatile portable attack monitor. Rated up to 500 gpm with either a combination nozzle or stacked tips, BlitzForce integrates a low loss waterway with positive locking valve control, and a corrosion preventing anodized and powder coat finish. An exclusive high strength tie-down strap and carbide tipped folding legs offer extreme stability in varying fire environments. With an integral stream shaper for superior reach and penetration performance, the BlitzForce delivers a 20° side to side and a 20° to 60° up and down range of stream motion. 5-year warranty and Apparatus Storage bracket are standard.

- Stores securely for a rapid deployment in a space of only 19" x 9" x 12"
- Full flow 2" waterway provides 500gpm initial attack flows with only 9psi loss
- High strength folding aluminum alloy legs
- Horizontal rotation of 20° either side of the center and an elevation range of 30-60° in unmanned mode, or a low 20° angle when manned, the BlitzForce provides amazing operational versatility
- Each monitor is produced from hard coat anodized aluminum alloy, stainless steel, and is powder coated for maximum corrosion and abrasion resistance

EF1 REMOTE CONTROL MONITOR

TFT'S MOST COMPACT MONITOR WITH FLOWS UP TO 200GPM

The EF1 remotely controlled monitor is a great option for wildland and interface apparatus. At less than 13" (319mm) tall, the EF1 is an ideal forestry bumper turret. The EF1 is hard-coated aluminum alloy which is then powder coated inside and out. All electronics are tightly contained in a sealed control box that is part of the monitor casting. Monitor wiring is reduced to a minimum and installs easily using a one plug connection.

BP039

BP036	EF1 RC 1 1/2" NPTF X 1 1/2" M	\$4,293.95
BP037	EF1 RC 2" NPTF X 1 1/2" M	\$4,293.95

BP039	Joystick Operator Station	\$1,336.95

RADIUS 4" ANSI 150 INLET

The outlet section of the monitor can be manually articulated up, raising the nozzle outlet position to 22.9" above the inlet flange. A spring-loaded locking pin with knob shall lock the monitor in the raised or lowered position for flowing. A large knob on the outlet elbow for ease of articulation operation shall be standard. A "deck monitor raised" light, position sensor, relay, and bracket kit for 12-volt DC systems is included. *Ship. wt. 37 lbs.*

- Finish: Stardust Silver
- Horizontal Control: Alum crank handle
- Horizontal Movement Degrees: Continuous 360°
- Inlet: 4" ANSI 150
- Max Flow: 1,500 gpm (6,000 l/min)
- Outlet: 3.5" (90mm) NH Male
- Valve Design: No valve
- Vertical Control: Alum crank handle
- Vertical Movement Degrees: -45 to 90°

MASTER STREAM 1500 NOZZLE

The nozzle has a flow capability of 300 to 1500 GPM at a user adjustable pressure rating of 70 PSI to 120 PSI. A UV resistant rubber bumper with integral teeth designed to produce a finger free fog pattern is included as well as a halo ring to assist with stream shape control. Configured with a 3 1/2" female NH swivel rocker lug coupling. Suitable for foam solution application. *Ship. wt. 14 lbs.*

- Flow Rate: 300-1500 (1100-6000 l/min)
- Inlet Coupling Style: Rocker
- Inlet Coupling Swivel: Full time swivel
- Outlet Diameter: N/A
- Pressure Mode: Adjustable
- Type: Automatic
- Operating Pressure: 70-120 psi (4.8-8.3bar)

Y899

DARLEY FLOW TEST KIT

ACCURATELY MEASURE FLOW IN HYDRANT SYSTEMS & FIRE PUMPS

Darley offers its own Flow Test Kit with several outstanding design features that make it easier to use than kits offered by others. Precise flow measurement accurately measures flows from 160-1500 gpm within 30-200 psi pitot gauge range. Reliable conversion table-flow results based on standard flow charts and proven with extensive water volume tests. Liquid-filled dial gauge 3 1/2" diameter, Grade A-1% accuracy, 0-200 psi range and vibration free readings. Tester body nozzles and swivel inlet are made of heat-treated aluminum alloy. Parts are hard-coated anodized to provide an extremely durable, protective surface. Automatic coupling design for instant and positive nozzle bore change. Renewable Brass Pitot Blade allows easy, inexpensive pitot blade replacement. Order the complete Darley Flow Test or Economy Kit. *Ship. wt. 18 lbs.*

AF328

COMPLETE FLOW TEST KIT

- Set of Six Nozzle Tips: 1", 1 1/4", 1 1/2", 1 3/4", 2" & 2 1/4"
- One - 2 1/2" NST Female swivel inlet
- Complete instructions and flow chart
- Molded plastic foam padded case

ECONOMY FLOW TEST KIT

- Choice of four nozzle tip sizes
- One - 2 1/2" NST Female swivel inlet
- Plastic tool box with tool tray

-------	-------------------------	------------

HYDRANT DIFFUSER

PROTECT PROPERTY AND VEHICLES FROM POSSIBLE WATER FORCE DAMAGE

Created to overcome the constant problem of traffic disruption and water force damage to property and vegetation in the testing area. Discharge stream velocity is slowed and redirected while flowing through a series of steel grids. The pattern diverter, on outer edge of discharge cone, directs diffused stream to side or down, depending on adjustable settings. Slots in the case inlet adapter permit a firm hold of pitot gauge against the full water force before diffusion, assuring a more accurate pitot reading. The pipe-like projection at the right serves as a handle for easy threading during hydrant attachment. Even high pressure hydrants delivering 1125 gpm are now limited to a discharge distance of 5'. Fully in accord with "Special Interest Bulletins" of the American Insurance Association. 2 1/2" NST threads. 17"Hx17"Wx29"L. *Ship. wt. 22 lbs.*

**BEST
SELLER**

S672 Hydrant Diffuser \$628.95

DARLEY PUMP AND HYDRANT TESTING PIEZOMETER

Take pressure readings and determine the amount of water flowing from openings up to 8" in diameter with this Piezometer. Accurately reads flowing pressures to check the fire fighting efficiency of pumpers and hydrants. You may have gauges that give you the static pressure (the pressure when no water is flowing), but without the Piezometer, you cannot determine how much water can actually be delivered through the outlet with out checking the flowing or velocity pressure. Constructed of all brass tube with bleeder valve. Made to Underwriters specifications; Discharge table included. *Ship. wt. 2 lbs.*

R558	Piezometer with Gauge and Case	\$175.95
F626	Piezometer with Gauge	\$144.95
R560	Piezometer Only	\$120.95
U359	Piezometer with Liquid-Filled Gauge and Vibration-Free Performance	\$204.95

DARLEY HYDRANT FLAGS

Darley flags improve fire hydrant's visibility when covered by snow or weeds. Simply remove the 2 1/2" cap, slip on and position the flag in an upright position, then tighten cap. It's that easy. 3/8"x52" steel rod and 3"x5" flag have a powder-coated red finish. *Ship. wt. 3 lbs.*

DARLEY FIRE HYDRANT PRESSURE GAUGE

TEST STATIC PRESSURE

Shows pressure in the main or hydrant. Complete with 2 1/2" gauge, bleed-off valve and chrome-plated brass cap. Easily installed by removing the hydrant cap and screwing on the pressure gauge assembly. Rocker lugs afford an easy grip with a spanner wrench. Gauge instantly shows the static pressure in the hydrant when it is turned on. Dial pressure is 100 psi unless 200 psi is specified. Made only for 2 1/2" NST. *Ship. wt. 5 lbs.*

R530	Fire Hydrant Pressure Gauge	\$105.95
------	-----------------------------	----------

THE HOSE MONSTER®

THE SAFEST, MOST ACCURATE WAY TO TEST FIRE PUMPS, FLUSH & EVALUATE WATER SUPPLIES THROUGH HYDRANTS

The 2 1/2" Hose Monster™ utilizes a built-in-pitot and is used for hydrant flow testing, hydrant flushing, and fire pump testing. The patented design minimizes damage to landscaping and passing autos by controlling and dramatically reducing the force of flowing water. The 4" and 4 1/2" Hose Monster™ utilizes a precisely machined orifice plate and is used for hydrant flow testing, hydrant flushing, and fire pump testing. *The Hose Monster should be used with a length of hose; attachment directly to the hydrant is not recommended. Ship. wt. AK246: 27 lbs., AK248: 45 lbs.*

AK248

- AK246: Use for pump testing and hydrant flow testing; includes built-in pitot system
- AK248: Use for hydrant flow testing; includes internal orifice plate for flow rate readings

AK246	2 1/2" Hose Monster®	\$1,487.95
AK248	4 1/2" Hose Monster®	\$1,569.95

BIGBOY HOSE MONSTER™

The BigBoy Hose Monster™ is used for fire flow testing of hydrants, water main flushing, and fire pump testing from connections 4" or larger. The BigBoy Hose Monster incorporates the patented FM approved Pitotless Nozzle™ so rocks and flushing debris pass through without causing pitot damage and accurately measures water flow-rates from 750 to 2,700 GPM. The BigBoy Hose Monster body is made from Polypropylene and the Pitotless Nozzle is made from precision machined aluminum. *The BigBoy Hose Monster is intended to be used with a hose and should not be attached directly to a hydrant. The unit comes standard with a 4" NH connection and can be flowed from a larger sized connection by use reducing hose or adapters. Your hose choice will depend on: 1) the diameter of the water source connection, 2) the thread or connection type, and 3) the hose length.*

TAKING FLOW READINGS

The BigBoy GPM Gauge is calibrated to read flow-rate directly from the gauge face. No conversion chart is necessary. If you use another pressure gauge instead of the BigBoy GPM Gauge the BigBoy Hose Monster flow chart must be used to convert from psi to GPM. A 0-60 psi gauge is the most suitable range.

FEATURES

- Perfect for Hydrant Flow Testing or Water Main Flushing
- Uses the patented FM Approved Pitotless Nozzle™ so you'll never have to change out a pitot because it got hit by a rock.
- Read your GPM flow-rate directly on the gauge face while flowing
- Weighs only 13 lbs. yet handles high flow hydrants up to 2,700 GPM
- 4" NH standard connection size, other thread specs are available.
- Flow from 4.5", or 5" STORZ connections with additional accessories

INCLUDES:

- Big Boy Hose Monster Body: Made from glass-filled Polypropylene
- Big Boy Pitotless Nozzle 4": Measures 750 to 2,700 GPM; Factory-installed
- Big Boy GPM Gauge: Reads both GPM flow-rate and psi; 4" dial; liquid-filled

RICE PORTABLE HOSE TESTER SERIES

THE RICE HYDRO LINE OF PORTABLE FIRE HOSE TESTERS IS THE CULMINATION OF A DESIGN EFFORT INCORPORATING OVER 44 YEARS OF EXPERIENCE. ALL RICE HOSE TESTERS MEET OR EXCEED NFPA STANDARDS AND COME WITH A 5-YEAR FULL PRODUCT WARRANTY.

FOUR-OUTLET HOSE TESTER

Offers 3 gpm at 500 psi, powered by a 1 HP 50/60 hertz TEFC motor. Capable of testing to 6" diameter coupled hose, up to 300 feet. Features 4 independently controlled stainless steel ball valves, with 1 1/2" NST male discharges and 2 1/2" NST female inlet swivel. *Ship. wt. 175 lbs.*

AA930 Four-Outlet Hose Tester \$2,646.95

TWO-OUTLET HOSE TESTER

Offering the same features as the model AA930, in a portable Two-Outlet unit. With a footprint of 28"x23"x19", this lightweight, compact design is perfect for tight and confined spaces, such as on board ships and vessels. *Ship. wt. 127 lbs.*

AF416 Two-Outlet Hose Tester \$2,268.95

FIRE HOSE TESTER

A full line of hose testers offering various gpm and pressure ratings. Featuring four independently controlled stainless steel ball valves, 1 1/2" NST outlets, 2 1/2" NST swivel inlet, enclosed in a rugged, heavy-duty, welded steel chassis. *Ship. wt. 194 lbs.*

FLOW METERS

STANDPIPE FLOWMETER

The standpipe flowmeter is made to hook up to the standpipe in highrise applications ensuring you have adequate flow and pressure at the fire floor. It measures both flow and pressure accurately using an integrated sensor, having a completely self-contained battery powered digital readout. Constructed of anodized aluminum, with a swiveling 45° elbow on the inlet side to reduce kinking. The unit is powered by a 9V rechargeable lithium battery which will power the unit for up to 5 hours. It has a low battery warning which activates when the battery has 90 minutes of life left, as well as a battery check feature.

- Compact design for high-rise kit applications
- 9V battery operation with quick change housing
- Dual LED display - Pressure and Flow
- Battery saving Standby operation
- One touch battery meter
- Lightweight aluminum construction

BN574 Standpipe Flowmeter \$2,441.95

AKROFLOW™ PORTABLE FLOW METER & TEST KIT

Knowing your flow is critical to optimal on-scene operations. The AkroFlow Portable Flow Meter & Test Kit provides the necessary components to accomplish all your water flow testing needs. Included in the Flow Meter & Test Kit is the most highly accurate portable flow meter, the AkroFlow, plus the gauges and adapter commonly used when performing water flow testing.

- Flow test nozzles and portable monitors to maintain optimal performance
- Comply with annual NFPA 1962 test of nozzles, hose and appliances
- Conduct comprehensive nozzle and hose training
- Accurately determine fire flows, friction loss and pump discharge pressures

BP334	AkroFlow™ Meter 2 1/2 NH x 2 1/2 NH	\$1,908.95
BP335	1 1/2" Line Gauge, NST Swivel, 160 PSI	\$460.95
BP336	2 1/2" Line Gauge, NST Swivel, 160 PSI	\$470.95
BP337	Base Direct Connect 2 1/2 NH x 1 1/2 NH	\$331.95

INSIGHT PORTABLE FLOW AND PRESSURE METER

Use the new Insight Portable Flow Tester to determine the flow and pressure capabilities of suppression systems or flow test your automatic nozzles, pumpers or hydrants. Test your department's effectiveness, calibrate your automatic nozzles, pumpers or hydrants. All Insight Portable Flow Tester series meters incorporate a new processor that allows for new features including multiple flow point calibration and multiple tube size. The Insight Portable Flow Tester series is an easy-to-use meter which displays gpm directly. Cap the tube for static pressure.

- Flow readout in 4-digit LED display & accurate to within 1% or reading
- Based on the DFA400 series flow meter
- Displays both flow rate and total flow
- Paddle wheel flow sensor
- Hard shell case with handle (10 3/4" Hx9 3/4" Wx7" H)

PORTABLE FLOW AND PRESSURE METER

FLOW TUBE

LOW LEVEL STRAINER WITH JET SIPHON

This compact unit can be used as both a water transfer device as well as a low level strainer. Features lightweight 6061-T6 aluminum construction with red powder coat finish for long life. Will draft in as little as 3" of water without whirlpooling. Pivoting neck enables base to stay flat on the tank bottom. Comes standard with internal screen (all sizes) and jet siphon (4"-6"). **Ship. wt. 25 lbs.**

2 1/2" AND 3" ARE NOT MANUFACTURED WITH A JET SIPHON.

SELF LEVELING FLOATING STRAINERS

Kochek Self Leveling Floating Strainers feature increased flow rates due to high intake ratio and maximum pump flows.

- Increased flow rates due to high intake ratio
- Maximum pump flows
- Light weight design
- New compact design for easy storage
- Handle for ease of carrying
- Vortex Shield protects against whirlpooling
- Full time swiveling strainer
- Most efficient strainers on the market

* RECOMMENDED FOR PUMPS 1250 TO 1500 GPM

FLOAT-DOCK® STRAINER

PUMP POND WATER FREE OF DEBRIS

The Float-Dock® strainer is a valuable piece of equipment that can save the day in many fire fighting situations. Float-Dock® lets you use the water in ponds or streams, both shallow and deep. Because it operates below scum and debris and above sand and muck, it screens out the materials that wear out impellers, packing and bearings. Since Float-Dock® strainers are self-leveling, there are no whirlpools or suction loss. It will draft in as little as 5" of pond water at pump's rated capacity. In deep water, Float Dock® drafts clean water below the surface. Each unit is fully guaranteed.

Cat#	Strainer	Float	Coupling	Price

PORTABLE COLLAPSIBLE FOL-DA-TANK

THE FIRST AND STILL THE BEST

It was more than 50 years ago that the first Fol-Da-Tank was introduced to firefighters, who recognized its value and quality immediately. Fol-Da-Tank Co. has been continually improving frame and fabric designs to help provide the most reliable portable water tank in the industry. Fol-Da-Tank has proved to be the practical answer as an extra water supply for rural areas, where water pressure is low or as a back-up facility for municipal fire departments. Fol-Da-Tank doubles the fire fighting ability of a tanker truck at an affordable price. Two firefighters can unload from the truck and set up in 30 seconds. While pumper empties the Fol-Da-Tank, a tanker can be supplying more water. With the fire out, Fol-Da-Tank can be emptied quickly with the exclusive 10" diameter drain sleeve, which stores inside or outside of the tank.

**ALSO AVAILABLE IN ALUMINUM.
CALL FOR PRICING 1.800.323.0244**

CONSTRUCTION FEATURES:

- Liners: High performance rubber (HPR), FDA
- Frames: Steel, resistance welded 14-gauge 7/8" square steel tubing with snag-free finish
- Hinges: Die-cut
- Grommets: Solid brass
- Bolts: Heavy-duty

SELF-SUPPORTING FRAMELESS PORTABLE WATER TANK

These self-supporting frameless water tanks have been designed to meet the most stringent requirements of rural/urban fire fighting. Problems with inadequate or unusable supplies of water are eliminated by the use of open top self-supporting portable water tanks. In remote areas, the self-supporting tanks are designed for standby water containment, water shuttling situations and to provide a continuous portable water supply. In remote areas, the SST may be filled by pumping water from a natural water source, such as a stream or creek, with a small gas-operated pump. As the self-supporting tank begins to fill with water, its unique design allows it to become self supporting automatically. The SST can be used as a mixing tank as well as a temporary holding in hazardous waste situations. It may be quickly drained through a threaded flange fitting on the side. The tank is totally collapsible and easily stored in its own compact storage bag. Made of heavy-duty industrial PVC.

- No frame, assembly, foot pump, auxiliary air or need to inflate
- Use as mixing tank, water relay, water storage
- Use for fire fighting, hazardous waste, etc

NEWTON KWIK DUMP VALVE

...BECAUSE EVERY SECOND COUNTS

The Newton Kwik-Dump Water Valve is 29% faster than any other conventional gravity flow valve tested. It can dump 3000 gallons of water per minute, under ideal conditions. As an average, an 1800 gallon tanker can be emptied in less than one minute. All Newton Valves are constructed so that all parts constantly in contact with water are made of stainless steel, brass, or rubber, to give many years of trouble-free service. The remainder of the valve is made of hot-rolled, prime painted mild steel. Can be readily adapted to tanker trucks already in use. Standard 24" valves can be shortened and remote handle configuration is also available for additional costs.

- The standard valve comes with top-mounted controls and handle, and a 3° angle on the flange
- Outlets are 10"x10" square

AJ173	Kwik Dump, Angle Flange	\$705.95

X605	36" Telescoping Chute for 10" Valve	\$892.95

PRE-CON SUCTION VALVE

This suction inlet valve is designed to operate as an automatic flow control valve eliminating the need for manual adjustments in relation to water flow. During hydrant operation, it automatically opens in proportion to flow demand while the automatic check valve action helps prevent water hammer. During drafting operation, the check valve action holds prime water when flow is stopped, plus allows switching to booster tank and back to draft without flow interruption. Valve can be greased without removal from pumper. *Ship. wt. 20 lbs.*

- Compact design
- Versatile application
- Overall Length: 9 1/2"
- Automatically balances the flow between multiple sources
- Any thread size male or female combination from 4" to 6"

LIGHTWEIGHT GATED VALVE

No more heavy brass valves to carry around. Our light weight line wyes with aluminum construction cut the overall weight by more than 30% when compared to traditional brass valves. *Ship. wt. 8 lbs.*

BE257	2 1/2" NSTF Inlet x (2) 1 1/2" NSTM Outlet Valve	\$259.95
BE315	2 1/2" NSTF Inlet x (2) 2 1/2" NSTM Outlet Valve	\$399.95

HYDRANT VALVE

- Lightweight alloy
- 2 1/2" full flow waterway
- Adapter easily removed for seat adjustment
- 2 1/2" female inlet x 2 1/2" male outlet
- Self-locking handle for positive positioning
- *Ship. wt. 8 lbs.*

BK221	2 1/2" Hydrant Valve	\$339.95
-------	----------------------	----------

HYDRANT BALL VALVE

Lightweight, full-flow hydrant ball valve with 2 1/2" F NST inlet and 2 1/2" M NST outlet. Standard color is silver with black connections and handle. Valve weighs 5 1/2 lbs. Rated at 250 psi working pressure. Self-locking handle for positive positioning.

BL909	2 1/2" Hydrant Ball Valve	\$322.95
-------	---------------------------	----------

GATED WYE

2.5" female swivel inlet x (2) 1.5" male outlets. Quarter-turn aluminum ball valves provide a positive shutoff. Full flow 1.5" ball waterway. *Ship. wt. 5 lbs.*

BL399	Gated WYE	\$475.95
-------	-----------	----------

MULTI-USE ADAPTER

The latest multi-use adapter. Perfect for hazmat decontamination. Other uses include forestry units, portable water, an portable drinking water. You will also find it useful for vehicle wash down. Available in 1 1/2" or 2 1/2" NST. *Ship. wt. 3 lbs.*

AJ09901	Hazmat Adapter 1 1/2" F x (2) GHT M	\$51.95
AJ09902	Hazmat Adapter 2 1/2" F x (2) GHT M	\$67.95

2.5" HYDRANT GATE VALVE

Lightweight non-rising stem gate valve 2.5" NH female swivel x 2.5" NH male is excellent for hydrant and other hose line/water control. There is a spinning knob on hand wheel for easy open/close, with a built in slow close safety operation. The gate, spindle, female swivel, male threads, and the body inside and out are all anodized for maximum corrosion resistance. This valve has low friction loss and is maintenance free. This compact valve weighs 4.5lbs, length 6", height 9", and width 5". The gate valve has a working pressure of 250 PSI.

BL337	2.5" Hydrant Gate Valve	\$249.95
-------	-------------------------	----------

BLACK MAX™ PISTON INTAKE VALVE

The Black Max™ Piston Intake Valve has been designed for harsh environments of today's fire service. It's superior materials and enlarged waterway allows you to maximize flows and efficiency. *Ship. wt. 32 lbs.*

10-YEAR WARRANTY

- **Improved Corrosion Resistance:** Combines stainless steel piston housing, poly-impregnated body and polymer piston for maximum product life
- **Field Serviceable:** Unique 2-piece design allows the piston intake valve to be field serviceable
- **Extended Durability:** Full 10-year warranty against manufacturing defects and corrosion
- **Full Flow:** 2000 gpm (7600 lpm) - Enlarged waterway for maximum flow efficiency
- **Low Friction Loss:** Only 7 psi @ 2000 gpm (.5 bar @ 7600 lpm)

LIGHTWEIGHT LEADER LINE WYE

Lightweight Leader Line Wye has a 2 1/2" NST swivel female inlet x (2) 1 1/2" NST male outlets. Used to divide (1) 2 1/2" hose into (2) 1 1/2" hose lines. Each 1 1/2" outlet is independently controlled by high strength polymer handles. *Ship. wt. 5 lbs.*

TWO 1 1/2" INDEPENDENTLY CONTROLLED OUTLETS

AF787	Lightweight Leader Line Wye	\$512.95
-------	-----------------------------	----------

HYDRANT WYE

The Hydrant Wye is made of lightweight aluminum alloy and is used for laying two lines from a hydrant to a pumper or for branching a 2 1/2" or larger supply line to two 2 1/2" lines. Has self-locking valves for positive handle positioning. Available in sizes 2 1/2" to 6" female inlet x (2) 2 1/2" NST male swivel valves outlets. *Ship. wt. 17 lbs.*

AF78801	2 1/2" F x (2) 2 1/2" M	\$1,638.95
AF78802	3" F x (2) 2 1/2" M	\$1,638.95

LOW PROFILE BALL INTAKE VALVE

EXTREMELY COMPACT AND LIGHTWEIGHT

- Compact lightweight design fits easily into tight pump panel configurations
- 5 year warranty against corrosion
- Integrated adjustable pressure relief valve
- Flow efficient waterway has less than 5 psi loss and rated 1250 gpm flow
- Individually serialized
- Highly visible valve position indicator and slow close operation exceeds all standards requirements

SUPERFLOW 2-WAY BALL VALVES

Large, light-weight 2-way LDH ball valve. Feed two LDH hoses from a single LDH line or one LDH hose from two LDH hoses. The Super Flow valve has low friction loss due to a high flow water way design. Hard anodized balls with stainless steel tappets for corrosion resistance. This design permits feed from either direction. Includes adjustable pressure relief valve for added safety. Specify the size of Storz or NST connections. *Ship. wt. 47 lbs.*

BP398	2-Way Ball Valve Superflow 4" Storz Lock Inlet x (2) 4" Storz Lock Outlets w/250-S RV	\$2,041.95
BP399	2-Way Ball Valve Superflow 5" Storz Lock Inlet x (2) 4" Storz Lock Outlets w/250-S RV	\$1,974.95
BP400	2-Way Ball Valve Superflow 5" Storz Lock Inlet x (2) 5" Storz Lock Outlets w/250-S RV	\$1,931.95

LOCKING STORZ

3-WAY BALL VALVE

Designed to distribute water to three small diameter lines from a large diameter line, or supply a large diameter line from smaller supply lines. 3-way ball valve features an adjustable pressure relief valve to reduce water hammer. Ball valve body is made of lightweight, high-strength aluminum with powder coat finish. Ball assembly is hard-coat anodized aluminum. Large waterways help minimize pressure loss. *Ship. wt. 21 lbs.*

- Locking storz
- 3-way ball valve

SUPER FLOW LARGE BALL VALVE

Designed specifically for feeding to or from large diameter hoses. This locking storz valve has full flow 4½" waterways. Each outlet is provided with a ball gate valve to permit easy shutoff. Adjustable relief valve reduces the effects of water hammer. The large gated wye eliminates the need to lay multiple lines. Particularly useful in supplying multiple apparatus with large diameter hose. *Ship. wt. 8 lbs.*

AR120	4" Storz to (2) 4" Storz Super Flow Ball Valve	\$2,990.95
AR121	5" Storz to (2) 5" Storz Super Flow Ball Valve	\$2,857.95

5-WAY MANIFOLD

Sizes come with 4" or 5" Storz connection on both. Large intake and gated discharge plus (4) 2½" gated discharges. Portable manifold is designed to take advantage of the increased flow capabilities of large diameter hose. Can supply multiple attack lines without a pumper. Brings your hydrant to the fire scene. Fabricated from lightweight, high-strength aluminum alloy and is hard coat anodized. Provided with large full flow waterways, relief valve and a glycerine filled pressure gauge to indicate residual pressure. *Ship. wt. 51 lbs.*

- Locking storz
- 5-way manifold
- 16" Lx21" Wx13" H

AR142	4" Storz Intake to (4) 2½" NST Male Outlets and (1) 4" Storz Gated Outlet	\$1,719.95

REVOLUTION INTAKE VALVE

The Revolution has all of the standard features you expect from an intake valve with flows capable up to 2000 gpm (7600 lpm) making it ideal for the most demanding apparatus intake applications.

- Robust, integrated Pyrolite patent-pending handwheel for easy operation
- Critical pump side waterway components constructed of non-corrosive stainless steel
- Durable, powder coated interior and exterior finish
- Field adjustable relief valve between 50-250 psi (requires 7/8" wrench to adjust), includes 1 1/2" NPT female thread
- Built-in Open/Close indicator
- 2000 gpm max flow
- All parts that stay in contact with water are constructed of stainless steel
- Field serviceable design
- 10-year heavy-duty warranty against manufacturing defects and corrosion
- Quick turn Bleeder valve operation - vents into relief discharge
- NFPA 1901 compliant

1% FLUORINE FREE CLASS A/B FOAM CONCENTRATE

The first dual certified fluorine free Class A/B firefighting foam, PHOS-CHEK 1% A/B, was developed for use on both Class A and B hydrocarbon fires as an environmentally responsible next generation option. It is not intended for use on polar solvent fueled fires. UL certified against NFPA 18 as an effective wetting agent for Class A fires including materials such as wood, cloth, paper, etc. at 0.1% use rate and UL 162 listed as a Class B foam at 1% use rate. Unlike some other A/B foams, PHOS-CHEK 1% A/B contains no PFAS chemicals including but not limited to PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 0.1-1% Class A foam systems.

SOLD IN 5-GALLON PAILS

BP332 1% Fluorine Free Class A/B Foam Concentrate \$120.95/pail

3X6% FLUORINE FREE CLASS B FOAM CONCENTRATE

This environmentally responsible next generation foam concentrate meets the current needs for Class B hydrocarbon and polar solvent fuel fires when used with fresh water. Designed for to fight a broad range of Class B flammable liquid fires including hydrocarbon fuel fires gasoline and diesel and polar solvents such as ketones and alcohol. Unlike legacy C8 foams which are considered to be bioaccumulative PHOS-CHEK 3X6% fluorine free alcohol resistant foam concentrate does not contain PFAS chemicals including but limited to, PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 3%-6% B foam systems. Never to be mixed with other Class B foam concentrates. *Meets UL 162 Listed, EN 1568-3:2008 (Class IA) and EN 1568-4:2008 (Class IB).*

SOLD IN 5-GALLON PAILS

BP333 3X6% Fluorine Free Class B Foam \$104.95/pail

3% X 3% NON-FLUORINATED FOAM CONCENTRATE

Chemguard NFF 3x3 UL201 foam solution utilizes three suppression mechanisms intended for rapid fire knockdown and superior burnback resistance:

- The foam blanket blocks oxygen supply to the fuel and suppress fuel vapor with extended drain times for better vapor suppression after extinguishment
- On polar solvent fires, liquid drains from the foam blanket and forms a polymeric membrane which protects the foam from destruction by the polar fuel, suppresses vapors, and seals the fuel surface
- The water content of the foam solution produces a cooling effect for additional fire suppression

Chemguard NFF 3x3 UL201 is defined as a non-fluorinated firefighting foam concentrate, produced in equipment free from the use of PFAS chemistry. Since this product is free from any intentionally added PFAS chemistry, and precautions have been used to avoid PFAS contamination, it inherently complies with Directives (EU) 2017/1000 on PFOA and 2019/1021 (EU POPs directive) as a non-fluorinated product.

SOLD IN 5-GALLON PAILS

BP451 3% X 3% Non-Fluorinated Foam Concentrate \$292.95/pail

CLASS A PLUS FOAM CONCENTRATE

Chemguard Class "A" is a non-corrosive, non-toxic, biodegradable foam concentrate. When mixed with water in the correct proportion, it changes the properties of water. It reduces the surface tension of the water, and produces foam, which allows the water to cling to vertical or horizontal surfaces without run off. This allows the water to absorb more heat and provides greater penetration into Class "A" fuels. *Ship. wt. 45 lbs.*

NEW LOW PRICE

SOLD IN 5-GALLON PAILS

AC721 Class A Plus Foam Concentrate \$109.95/pail

CLASS A FOAM CONCENTRATE & WETTING AGENT

First Response is a new Class A foam manufactured by the makers of the well known Phos-Chek® brand fire suppression products. It's formulated to make water more effective by the reducing the water's surface tension and, when mixed with air, creates a foam blanket that surrounds fuels with a thick layer of water. Foam reduces the amount of water needed to extinguish the fire reducing water damage and increasing fire fighter safety through quicker knockdown and reduced mop-up/overhaul. *Ship wt. 45 lbs.*

- Wetting Agent: 0.2%
- Direct Attack: 0.6% to 1.0%
- Mop Up/Overhaul: 0.2% to 0.6%
- Tested and Qualified for USDA Forest Service
- Meets NFPA 1150
- Effective use in Compressed Air Foam Systems (CAFS)

SOLD IN 5-GALLON PAILS

BL712 Class A Foam Concentrate & Wetting Agent \$123.95/pail

PHOS-CHEK® CLASS A FOAM

Phos-Chek® Class A foam provides superior foam generation and is the most concentrated Class A foam product available today. Phos-Chek® is a unique combination of surfactants that make water more effective for fire fighting. Phos-Chek has been tested and approved for use by the U.S. Forest Service. U.S. Forest Service testing includes product Environmental, Health & Safety, and Corrosion criteria. Phos-Chek® is also a U.L. listed Wetting Agent at a very low use rate of 0.1% for Class A and 0.25% for Class B fires. Phos-Chek® meets the requirements of NFPA 1150, contains no EPA listed hazardous materials, and is readily biodegradable. Phos-Chek® works extremely well with CAFS at ratios of 0.2 to 0.3%. *Ship. wt. 45 lbs.*

SOLD IN VARIOUS VOLUME AND QUANTITIES, SEE BELOW

AS285 Phos-Chek® Class A Foam 5-gal. Container	\$163.95/pail

SILV-EX FOAM CONCENTRATE

A multiple expansion Class A foam concentrate formulated from specialty hydrocarbon surfactants, stabilizers, inhibitors and solvents. Its combination of surfactants and solvents provide extremely good cold weather performance. The original forest fire control concentrate. *Ship. wt. 45 lbs.*

- Proven effective on many deep seated Class A fires
- Can be proportioned from 0.1% to 1.0% in fresh, brackish or sea water

SOLD IN 5-GALLON PAILS

AB410 Silv-ex Foam Concentrate \$174.95/pail

PRACTICE FOAM

Practice Foam is an answer to the requests "give us an inexpensive product to train with!" Practice Foam is a variable percentage Class A type product. Safe and inexpensive to use, Practice Foam may be educted at low to high percentages to achieve the desired results of your training session. Although not intended for a "working fire", Practice Foam is entirely suitable for extinguishing training ground fires. *For training only; NOT for fire fighting.*

- Non-toxic, bio-degradable and self-dissipating
- Plenty of suds - no clean up required

SOLD IN 5-GALLON PAILS

BG113 Practice Foam \$39.95/pail

PRO/pak FOAM SYSTEM

EVERYTHING YOU NEED IN ONE PORTABLE UNIT TO APPLY FOAM QUICKLY

Making great foam is easy with the PRO/pak. Everything you need is contained in one lightweight package that attaches to the end of your 1" fire hose. It can work on pressures as low as 50 psi. With its small size and versatile nozzles you can have foam capability without the expense of built-in systems costing thousands of dollars. Features a high-impact 2 1/2 gallon foam reservoir with built-in educator that can be set to the ratio of your choice. Large, easy-open fill port has an indicator to show the type of liquid in the tank. The flow is controlled by a twist grip valve/carrying handle. With each quarter turn you select the discharge velocity for inlet pressures between 40 and 500 psi. System comes complete with a straight stream nozzle, low expansion nozzle and medium expansion nozzle. Nozzles can be directly attached to the educator for one-handed operation, or a short section of hose can be added for maneuverability. *Designed for Class A 3% or 6% AFFF & AR Foams. Ship. wt. 15 lbs.*

FOAM

INCLUDES:

- PRO/pak unit
- 3' extension hose
- Shoulder strap
- 3 - quick-connect nozzles

PRECISION FOAM TESTING KIT

The Precision Foam Testing Kit is designed to simplify the process of testing foam systems for proportioning accuracy. This kit utilizes liquid conductivity and a precision digital scale to accurately prepare standards and test discharge samples; the same method used by nationally recognized testing laboratories when testing systems for listing and approval. *Instruction manual included. Ship. wt. 6 lbs.*

INCLUDES:

- Protective carrying case with foam protective padding
- Precision digital electronic 250 gram scale with 0.1 gram accuracy
- 6 - 150ml graduated sample beakers
- 100ml graduated cylinder
- 250ml wash bottle
- 2 - 10ml sample pipettes (12" L)
- 5 - 3ml sample pipettes (6" L)
- 500ml water sample bottle
- 2 - 10ml sample syringes
- 10 - Test charts (reproducible)

FOAMPRO® 1600 SERIES PROPORTIONING SYSTEM

No other system delivers foam as easily and accurately as the FoamPro®. All it takes is a flip of the switch to start the system. FoamPro® adjusts automatically to any changes in flow rate or pressures. Plus, the patented, high-tech, electronic controller does all of the work for you. To make the foam wetter or drier simply adjust the dial to change the foam concentrate level. When you use the FoamPro®, you don't have to worry if the foam solution is correct-the system does the proportioning all automatically. Simply set the percentage you want on the control module. Because the precise proportioning is done by measuring flow instead of pressure, you do not have to shut down to add lines, change pressure or refill the foam tank. What's more, the FoamPro® conveniently interfaces with Compressed Air Foam Systems. *Meets NFPA Standards. Ship. wt. 68 lbs.*

EXCLUSIVE FEATURES:

- Automatic proportioning
- Adjustable dial control
- Proportions continuously
- No foam goes through the fire pump
- No in-line restrictions
- Installs in new or existing apparatus
- Delivers 0.1 to 1.7 gpm of concentrate

TANK SENSOR REQUIRED

FAST FOAM 150

CLASS "A" FOAM PROPORTIONING SYSTEM

The Fast Foam 150 system offers a reliable, accurate, compact foam proportioning system at an economical price. This model treats up to 150 gpm @ 1% at pressures up to 175 psi. *Call for pricing at 877-634-6223.*

ENGINE

- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. The pump is rated at 1.5 gpm. Pump is supplied with a 250 psi (17.2 bar) safety relief valve for protection against over pressurization. The Venturi flows up to 150 gpm.

DIMENSIONS

- 21"L x 10"W x 12"H, 75 lbs.

APPLICATIONS

- Mini pumper, pumper, pumper tanker, rescue pumper, wildland/quick attack fire vehicle

FEATURES

- 1.5 gpm/150 gpm, 1/2 hp 12vdc motor, pilot operated relief valve
- Low concentrate float switch
- Venturi 1 1/2" NPT
- Includes installation kit
- Control panel placard with on/off switch and low concentrate light, adjustable foam percentage valve

PERFORMANCE

- Up to 150 gpm @ 1% at pressures up to 175 psi

NEW

ADDITIONAL FAST FOAM SYSTEMS

FAST FOAM 50

FAST FOAM 250

DARLEY FOAM REFILL SYSTEM

The Darley Foam Refill System is designed to create a safe alternative to refilling your Class A foam tank without the need to climb on top of your truck. The Foam Refill System kit includes all the necessary equipment needed for a simple installation into new or existing apparatus. Once installed, simply attach the pickup hose, insert the tube into the foam pail, hold the switch to on, and fill your foam tank from a safe position until the green foam full light appears on. *Call for pricing at 877-634-6223.*

NEW

INSTALLATION OPTIONS

- **Panel Mounted Kit:** Includes all the necessary components needed for a simple install. The control panel will be separate from the pump, allowing you to remote mount parts as needed to fit into tighter spaces.
- **Self-Contained Kit:** Includes all the same parts as the panel mounted kit but will be fully assembled with an aluminum bracket to minimize assembly/installation for the end-user.

PERFORMANCE

- Pumps at 4 to 6 GPM and is capable of 10' of lift

PUMP

- Pump and motor are 12 VDC capable
- Pump utilizes a Nitrile impeller for optimal performance and durability

OPERATION PLACARD / PROTECTION BOX

- Placard is made of 16-gauge stainless steel and mounted with stainless screws
- Overlay is made of Bayfol UV-1 laminate. Offers superior protection against UV exposure and is resistant to scratches and cracking
- Momentary switch and green foam full indicator light included on the placard

PICKUP TUBE

- Clear 3/4" plastic tube with a female camlock fitting to connect to the panel and a stainless pickup tube making it easy to utilize all of the foam in a pail

CAFS ACCESSORIES

ODIN® AUTOFILL™

Electronic control that fully automates the tank fill process from a pressurized source. System comes with operational control placard and wire harness complete with weather tight connectors. Requires a tank level gauge and sensor - sold separately. *Call for pricing at 319-987-2226.*

- 1 1/2", 2", 2 1/2", 3"

ODIN® AUTOVALVE™

The AutoValve™ system has predetermined flow settings for simplified water and air valve operations with the push of a button. It is also equipped with a "Slug Flow Interlock" safety feature which is designed to prevent the slug flow that occurs when water and air are mixed without foam concentrate. The AutoValve™ is a user programmable electronic valve system that can be used in CAFS, powered by 12 or 24 volt battery power. *Call for pricing at 319-987-2226.*

- 1 1/2", 2", 2 1/2", 3"

IN-LINE FOAM EDUCTORS

In-line Foam Eductors have a metering head with easy-read knob for use with Class A foam at .25% and .5% and with ARC-AFFF foam at 1%, 3% and 6%. Extra large 36" pickup hose and stainless steel wand are ideal for use with high viscosity foams. The meter head is equipped with a unique backflush push-button for fast cleaning, and is secured to the eductor body with a rugged disconnect. All controls are easy to use with gloves. Made of hardcoat anodized aluminum for corrosion protection. The required inlet pressure is 200 psi. The maximum allowable back pressure is 130 psi.

"THROUGH-THE-PUMP" FOAM EDUCTOR/MIXER

- Educts foam concentrate into hose lines through a pump's suction and discharge sides, also known as an "Around-The-Pump" system
- Will educt concentrates at percentages of 0% to 3.75% at flow rates from 15 to 125 gpm at 100 psi
- Maximum operating pressure of 300 psi
- Includes an 18" pressure hose and a 48" foam pick-up hose
- 1 1/2" and 2" cast aluminum connecting tee

AJ253 "Through-the-Pump" Foam Eductor/Mixer \$562.95

PORTABLE BY-PASS EDUCTOR

The Portable By-Pass Eductor has a built-in by-pass chamber, allowing the operator to change from water to foam without shutting down.

- Brass with chrome trim
- 8 quick-change handle positions with a Swing-Out™ valve handle

MADD DOG FOAM NOZZLE EXPANSION ASPIRATING FOAM ATTACHMENT

The Madd Dog Attachment makes better foam than any other multiple expansion aspirating nozzle. Designed by a fire captain with firefighter safety, quality, versatility, performance and cost in mind. Produces low-expansion foam with excellent stream projection or medium expansion foam with incredible production. The aspirating attachment is constructed of pressure-injected polymer resins which make it economical, lightweight and incredibly rugged and will fit a variety of combination nozzles. *Ship. wt. 2 lbs.*

AK244	Madd Dog Foam Nozzle	\$184.95
L685	1 1/2" Lexan Nozzle	\$14.95

2 1/2" CAFS PISTOL GRIP NOZZLE

Do you want to pack the most CAFS punch possible in a 2 1/2" hand line? Most 2 1/2" nozzles are nothing more than a 1 3/8" waterway shutoff with a 2 1/2" swivel inlet. Not this nozzle... this pistol grip ball shutoff features a 2 1/2" swivel inlet and a 2 1/2" threaded outlet with a full 2" internal ball opening. This allows more CAFS to be propelled unobstructed through this lightweight pistol grip ball shut-off. We also finish off this Brutus of a shut off with a set of dual stacked tips so you can choose between the 2 1/4" and a 2" tip opening. Easily flows 120 gallons per minute of foam solution and 120 cfm of compressed air at the NFPA recommended 125 psi. *Ship. wt. 7 lbs.*

BH190 2 1/2" CAFS Pistol Grip Nozzle \$1,029.95

CAFS NOZZLES

BL036:

- Combination of the ball shutoff with full 1" inlet waterway and the 1 5/16" outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

BL037:

- Combination of the ball shutoff with full 1 1/2" inlet waterway and 1 1/8" outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

SABERJET DUAL SHUTOFF CAFS NOZZLE

This very versatile pistol-grip ball shutoff features a large 1 3/8" ball opening and 1 1/8" smooth bore tip which produces a strong CAFS stream for wet to medium foam types. It also features a secondary control for spraying plain water, foam solution, or wet CAFS stream through the fog spray nozzle. The SaberJet Dual Shutoff CAFS Nozzle is a great tool for your CAFS attack lines and provides a wide variety of real world spray stream options as well as the ability to spray plain water if desired. Includes colored handles and pistol grip kit shown.

WATER PURIFICATION SYSTEMS

Darley offers a full range of safe drinking water solutions for everyday use, disaster response, humanitarian, municipal government, and military applications. Darley solutions utilize membrane technology to create a physical barrier between impurities and safe drinking water. Complete water solutions include customizable water treatment, water pressure, water storage and water distribution solutions for your needs. Contact your Darley representative for pricing.

BAG-IN-BOX WATER

AFFORDABLE, SUSTAINABLE, STORABLE AND PORTABLE

10 liter Bag-in-Box Water with single-use, ultra-clean and eco-friendly packaging solution with a 3 year shelf life. Long shelf life is attainable due to innovative filling and pouring process. Water is protected from UV light and air, which seals out risk of bacterial contamination. *Sold by pallet of 80 boxes.*

\$815 + SHIPPING

- **Everyday Usage:** Home, office, school, hospitals, fire stations
- **Emergency Response:** Natural Disaster, Humanitarian Relief
- Ideal for fundraising and as a marketing platform
- 3 year shelf life

SMART BOTTLE® REUSABLE WATER BAG

COMPACT AND LIGHTWEIGHT

The Darley Smart Bottle® is a ruggedized, single walled, BPA-free, food grade plastic water bag that stands up on its own without a box. It is ideal for emergency preparedness, disaster response, camping, hunting, and everyday water storage. Compact when empty and folds easily for storage, the Smart Bottle material conforms to FDA regulation 177.1520 which permits the use of polyethylene in articles that contact food.

THE BIEL TOOL

The new Biel Tool is now one piece made out of heat treated, electro-polished stainless steel with an extremely durable ergonomically rubber molded handle. The new Biel Tool incorporates many of the features found in the world famous Pry Axe®, but is much smaller and light enough to wear on a belt or carry in the pocket of a bunker coat. This is a perfect personal size multi-purpose forcible entry and rescue tool; designed for forcing door and windows, prying and twisting hasps and locks, light overhauling, nail removal, gas shutoff, metal cutting and chopping. *Ship. wt. 4 lbs.*

W509	Biel Tool	\$248.95
W509A	Sheath	\$46.95

MULTI-PURPOSE PRY AXE®

The Pry Axe® has been the best-selling tool for over 40 years and is used by departments worldwide. It's a lightweight, multi-purpose, slam and ram tool designed to pry, twist, chop, cut metal, twist off locks or latches and much more. This efficient tool allows forcible entry by a single person when time is critical. Pry Axe® heads are forged from alloy steel and heat-treated for maximum strength. The claws are stainless steel investment castings that are heat-treated and electro-polished. Solid steel shaft extends the axe to 25" and rubber sleeve provides a sure grip. *Ship. wt. 8 lbs.*

Z117	Pry Axe® with Metal Cutting Claw (18.33" Closed, 25.1" Open)	\$386.95

*All 8' Pike Poles are an actual size of 7'9" unless specified. All Pike Poles 8' or longer will incur additional LTL Freight shipping cost.

"V" BLADE RESCUE KNIFE

Cuts through seat belts. Precision made of high-strength aluminum alloy. Tip fitted with Dzus Key for opening aircraft panels. The blade will cut 10,000 lb. strength webbing with one stroke. *Ship. wt. 3 lbs.*

L470	"V" Blade Rescue Knife	\$59.95
L470X	Replacement Blade	\$18.95

THE GLAS-MASTER

REMOVES GLASS IN LESS THAN A MINUTE

The Glas-Master is truly an extraordinary tool that is manually operated; no electricity or hydraulics needed. No other tool cuts glass windshields faster and more effectively, helping reduce rescue time significantly. Cuts on pull stroke thereby pulling glass to the outside, away from the victim. It can also be used on fiberglass, wood, plaster or even underwater rescue. What's more, the Glas-Master has its own storage of the spring-loaded center punch so it won't get lost or misplaced when it is needed most. *Ship. wt. 4 lbs.*

- Window punch
- Front guard
- Spike
- Blade with cover
- "T" handle

AB885	Glas-Master	\$192.95
AB885A	Glas-Master Replacement Blade	\$26.95

MV FIRE/RESCUE CRASH KIT

- Hood release tool
- Quik-Kut glass removal tool
- Pyroshield rescue blanket
- Glass hammer
- MV plug pattie
- Battery cable cutter
- Pro hacksaw
- Spring window punch
- Valve stem tool
- 9 1/2" tongue & groove pliers
- MX 4-in-1 screwdriver
- 8" adjustable wrench

BA125	MV Fire/Rescue Crash Kit (Red)	\$718.95
-------	--------------------------------	----------

COMPLETE CRASH AND RESCUE TOOL KIT

All-purpose set of tools for use in crash and fire emergencies. Contains everything needed to quickly and efficiently cut through metal, webbing, wood, rope, and other obstructions. *Ship. wt. 15 lbs.*

- Metal cutting saw - 16" blade
- Aircraft cable cutter - cuts 1/8" to 1/4" capacity and 14" long
- Lineman's Pliers - 8" long/extra strong
- Hack saw frame - adjusts from 8" to 12", faces 4 ways, and adjusts 90° for vertical or horizontal cuts
- 3 - Hack saw blades - hard toothed, silver steel for fast cutting
- Grappling hook & rope - 52" sling
- 2 - Phillips head screwdrivers - 6" and 8"
- 2 - Slotted head screwdrivers - 6" and 8"
- 3 - Wooden plugs - plug fuel and control lines
- Vise grip wrench - 10" long
- Serrated edge hand axe - 15" long with handle insulated for 20,000v
- Safety V blade rescue knife
- Weather-resistant, mildew-resistant, rubber-coated nylon hi-vis yellow carrying case
- Complete kit folds into an easy-to-carry case

L471	Complete Crash and Rescue Tool Kit	\$472.95

D. ALUMINUM SCOOP SHOVEL

The large, heavy-duty square blade is heat treated and tempered to resist wear and breakage. Ideal for getting rid of fire debris, scooping gravel and other coarse materials. *Shovel blade measures 15¼"x19¾" with 27" handle. Ship. wt. 5 lbs.*

AB045 Aluminum Scoop Shovel \$60.95

DARLEY RAM JAMMERS

FOR VEHICLE EXTRICATION

When doing a dash roll-up, place the Ram Jammers against the B-posts on each side of the vehicle. Then, instead of only getting one push with the medium hydraulic rams, Ram Jammers give you a secure base to make a second and then a third push for the "Maximum Dash Roll-Up." This will give you a large amount of room in the front of the patient, making it easier to apply spinal immobilization devices. They also absorb the force of the rams to prevent fractures at the B-post. *Ship. wt. 45 lbs.*

AF349 Darley Ram Jammers \$222.95/set of 2

HYDRA-RAM HYDRAULIC EMERGENCY ENTRY TOOL

10,000 pounds of force is presented by 138 lbs. of pumping to acquire 1/4" stroke to a maximum thrust opening of 4 inches. The Hydra-Ram can be placed in any position, even upside down, without any effect on its operation; this is a first in hydraulics. Because of its unique size, 13" and only 12 lbs., it can be slung or carried on your belt. The entire unit can be controlled by one user alone, making it truly a one-person operation tool. No hoses, tanks or pumps so there is no maintenance or leaking fluid. Jaws are made of stainless steel with 220,000 psi tensile strength. Special finger grips give a non-slip holding surface. *Ship. wt. 15 lbs.*

INCLUDES:

- A. HYDRA-RAM tool
- B. Cordura® carrying bag
- C. Mallet
- D. Carrying sling

AE097 HYDRA-RAM Hydraulic Emergency Entry Tool \$2,587.95

PERCUSSIVE RESCUE KIT

You'll feel the difference as soon as you hold it. This slam and ram tool exerts a striking force as you've never seen. You'll hear the solid "thud" as the slam bar strikes one of the six assorted tool bits. The ram travels up to 13.6" for maximum impact. Whether you're breaking a brick/block wall or pounding through locks and latches, this tool makes you more efficient. With the slam and ram feature, there is no deflection of pounding force. All of the energy is used to strike effective, penetrating blows by a single person. When hydraulic, electric and pneumatic power is gone or unavailable, you'll still be punching and pounding with this rescue tool.

COMPLETE KIT INCLUDES:

- Percussive tool bar
- Lockbreaker claw
- Metal cutting claw
- Bull point
- Chisel
- Wide chisel
- Carrying bag

TEAM HUSQVARNA K12FD9 SAW BUNDLE

The TEAM Husqvarna K12FD9 is a lightweight battery power cutter with low vibrations and user-friendly ergonomics. The excellent power-to-weight ratio makes it versatile for lighter cutting needs. The saws brushless motor produces zero emissions, makes minimal noise and has a built-in wet cutting kit to control dust. The K12FD9 weighs 7.7 lbs. and perfect for quick and efficient cuts in confined spaces. Paired with a 9" Piraya Diamond Blade you'll make fast and efficient single pass cuts and scores in steel, rebar and concrete up to 3 in. deep. The K12FD9 uses the Husqvarna BLi200/300 batteries.

NEW

FEATURES:

- Brushless motor
- 3" cutting depth
- Electric retarder
- 36V, 1.6hp output
- Wet or dry cutting
- Reflective letters
- 5.2Ah/187Watt battery
- Integrated eyelet for carrying
- 9" blades.

SHARK II VENTILATION SAW

BESTSELLING ALL-AROUND PRIMARY RESCUE SAW WITH THE BEST POWER TO WEIGHT RATIO AND UNLIMITED CUTTING CAPABILITY.

Specifically designed for Fire Department use, outlasts up to 10 regular chains and stays sharp up to 25 times longer. Control cutting depth from 2" to 10" when plunge cutting. Easy, fast removal when full length of bar is needed. Keeps chain properly lubricated in diverse conditions with no oil flow at idle. Air injection filters out 98% of incoming dust prior to reaching the heavy-duty air filter for longer life and better filtration.

NEW

FEATURES:

- Easy to check fuel level with transparent fuel indicator
- Easy to open and secure firmly, even with thick winter gloves
- Peak performance even under heavy loads with 12% higher cutting capacity
- The AutoTune Carburetor compensates for different fuels

BatShark

The BatShark gives you a unique combination of high efficiency and clean operation in a lightweight, powerful machine. Reduced overall cost of ownership with this high-performance battery machine compared to an equivalent gas-powered chainsaw. The BatShark eliminates direct emissions, operates quieter with lower vibrations and minimized maintenance and never needs gas. Without the worry of bad fuel or dirt ingestion causing carburetor or engine repairs, the BatShark will give you years of dependable service. *Battery and charger sold separately or in bundles below.*

CALL DARLEY FOR MORE INFORMATION

NEW

FEATURES:

- High chain speed for optimal wood cutting performance. Operated using an intuitive push button keypad.
- Extremely easy to start and stop
- Lightweight and ergonomically balanced
- Zero emissions, 36-volt Li-Ion battery performance
- Low vibration - low noise
- Angled front handle for better grip and natural working position

INCLUDES:

- Battery-powered chainsaw
- Reflective fire department labeling
- 14" bar
- Wood cutting chain
- Bar & chain cover
- Rear eyelet
- Srench tool with holder

SPECIFICATIONS:

- Brushless motor
- Chain type - wood cutting only
- Automatic oil pump tank volume
- Sound power level - guaranteed (LWA) - 106dB(A)
- Sound power level, measured - 104 dB(A)

SUPER VC4 POWER PRO CUTOFF SAW

The SVC4 is an update to the popular SVC3. A smaller and lighter design improves mobility and the Dolmar 2 stroke engine turns the same 14" diamond blade cutting wheel at 500 more RPM. These high performance saws are designed for the fire and rescue service and proves to cut through concrete, asphalt, stone, and more with ease. The SVC4s extremely user-friendly with EasyStart technology for reliable starts, a Touch & Stop lever for immediate shutoff, built in srench tool for making quick adjustments, and an upright fuel inlet allowing for easier and cleaner refueling. It has a window to check fuel levels on the fly.

- Flow of exhaust against dust direction
- 2-year warranty

BG206	14" Cutoff Saw with Tiger Tooth Blade	\$2,328.95
BG207	14" Cutoff Saw, Full Kit, Tread Plate Box	\$3,060.95

WARTHOG™ VENTILATION BLADE

THE LAST ROOF VENTILATION BLADE YOU'LL EVER BUY

The Warthog™ blade easily and quickly cuts through roofing materials, wood flooring and siding. Heavy-duty construction helps prevent tip loss, which is the major problem with standard carbide tipped blades. The tip is mounted to the blade by a special process. This process cushions the tip mounting and makes this blade the most durable, and probably the last, ventilation saw blade you will ever buy. *Ship. wt. 7 lbs.*

- Doesn't bind or clog
- Heavy-duty tips are a full 3/8" wide and 5/8" tall

Blade comes standard with 1" arbor (center) hole.
AS269: 20mm to 1" spacer (Stihl and other saws with 20mm arbors)
AS268: 7/8" to 1" spacer (saws with 7/8" arbors)

AJ572	Warthog™ Blade	\$413.95
AS268	Warthog™ Blade 7/8" to 1" Spacer	\$15.95
AS269	Warthog™ Blade 20mm to 1" Spacer	\$15.95

PIRAYA DIAMOND BLADES

For years the fire service has requested "one blade that cuts all materials" for rescue saws. The Piraya Diamond Blade is as close to meeting this requirement as is technically possible in today's Diamond Blade industry. The Piraya Diamond Blade is vacuum-braided using high-quality grade diamonds for fast, smooth cutting and long blade life. Fits all rescue saws using 12" and 14" diameter blades. Fits 1" or 22mm arbor with included 22mm bushing.

USES:

- Concrete
- Wood
- Auto parts
- Masonry
- Copper
- Aluminum
- Metal
- Glass block
- Stainless steel
- Plastic
- Windshields
- Corrugated roofing

BP310	9" Piraya Diamond Blade	\$124.95
BG238	12" Piraya Diamond Blade	\$187.95
BG239	14" Piraya Diamond Blade	\$212.95

FIRE TIGER TOOTH BLADES

Fire Tiger Tooth and Safety Diamond Blades outlast abrasive cutting discs 100 to 1, saving valuable time replacing abrasive blades as they wear down. *Fits on 4", 4 1/2" hand-held grinders, 7" circular saws, 12"-14" gas saws, and chop saws. Includes 22mm bushing.*

USES:

- Masonry
- Concrete
- Roof tile
- Dry wall
- Stainless steel
- Copper pipe
- Steel
- Plastic
- Stucco
- PVC
- Rebar
- Wood
- Tile backer board
- Corrugated roofing
- Polyethylene pipes

BE274	Fire Tiger Tooth Blade	14"	1"	.125	\$244.95

VENTMASTER® HEAVY-DUTY FIRE RESCUE SAWS

The VentMaster® Fire Rescue Saws is ready for demanding work by Fire Fighters. At just 14 1/2 lbs., the 572HD has a better power-to-weight ratio and 12% higher cutting capacity than the previous 576HD model. Excellent cooling and heavy duty filtration maximize reliability, while a smart design accommodates longer guide bars.

SHOWN WITH BK202

- **VentMaster® COBALT Guide Bar:** Extremely hard COBALT alloy inserts at the wear points provide excellent wear, galling, and impact resistance. Retains these properties even at very high operating temperatures.
- **Tool-Less KIS-40 Depth Gauge:** Accurately control cutting depth, protect operator and safely speed cut. Fast, simple installation and removal, and eliminates the need to "roll the rafters."
- **Raptor Carbide Chain:** Engineered specifically to withstand the rigors of fire and rescue operations. Features an "open dual raker" design to protect the carbide cutters and control the depth of cut.
- **Sealed & Protected Carburetor/Air Filter:** Equipped with state-of-the-art filtration system 572HD® carries a large surface heavy duty filter for longer and better filtration. The filter has a larger filtration area compared to previous generation. Providing a chainsaw with a healthier engine optimised for long working hours.
- **Centrifugal Force Air Cleaning System:** Cleaner intake air means longer intervals between filter cleanings, longer runs at full power, and reduced internal engine wear.

TEMPEST

BC065	VentMaster® 572HD w/20" Guide Bar and Depth Gauge, .404 Pitch	\$2,994.95
AM115	Raptor Carbide Chain, 16" with .404 Pitch	\$293.95

BK202	Optional LED Light	\$165.95

SUPER POWER PRO V3 VENTILATION SAW

With a powerful Dolmar 6.3 HP engine that turns at 13,500 RPM, your department can rely on the Super Vac SV3 Power Pro Saw for venting and rescue operations. With a handle designed for maximum versatility, this saw tackles a variety of operations with ease, including cutting through residential roofing, removing downed trees, and ripping through various building materials. With a quick-start compression release and an "always on" ignition, the SV3 is ready-to-go when you are.

- Chisel chain/depth gauge
- Airmaster filtration
- Quick Silver aluminum D-ring pull handle

AIR HAMMER RESCUE KITS

High-quality Air Hammer Rescue Kits have been designed specifically for extrication and are field-proven not only for emergency extrications but for all types of emergency cutting such as: factory doors, casement windows, fire doors and many other jobs. Release the trigger and the tool stops instantly. Completely portable and compact enough to be easily carried in fire trucks and rescue vehicles. Operated off fresh air tanks, compressors, nitrogen bottles, cascade systems or air brake outlets. Use with either 2216 or 4500 psi air tanks.

STANDARD DUTY KIT

Complete air hammer kit with everything necessary to hook up to an air tank and begin extrication work.

- Hammer for .401" shank tools
- Retainer
- Regulator
- 2 - Double blade panel cutter (non-turn)
- 2 - Kwik cutter (non-turn)
- 2 - 18" Kwik cutter (non-turn)
- Moil point (turn-type)
- 15 ft. 1/4" hose
- 2 - Male connector (1/4" NPT hose and hammer)
- Male coupler (1/4" NPT regulator)
- Female coupler (1/4" NPT hose)
- Gauge guard
- 20" steel kit box
- Kit box liner
- 4 oz. oil
- Trim removal tool

S878

S878 Standard Duty Air Hammer Kit \$1,143.95

HEAVY-DUTY KIT

Features Heavy-Duty Hammer with longer piston stroke for more powerful cutting action. Includes non-turn and turn-type chisels.

- Hammer for .401" shank tools
- Retainer
- Regulator
- 2 - Double blade panel cutter (non-turn)
- 2 - Kwik cutter (non-turn)
- 2 - 18" Kwik cutter (non-turn)

PROFESSIONAL EXTRICATOR HYDRAULIC RESCUE KITS

EXTRICATOR FORCIBLE ENTRY KIT

Use it to open damaged doors in plants and factories, or raise clutch and brake pedals in auto rescue extraction by using the Spreader and Wedge combination. Come-a-longs and chains are used to pull seats, doors, steering columns, and to roll quarter panels out of the way. The straight Ram and attachments are used to lift heavy objects and push metal within the vehicle to free trapped victims. This kit will allow you to move in multiple directions at the same time. *Ship. wt. 150 lbs.*

T861 Extricator Forcible Entry Kit \$7,934.95

10-TON DELUXE RESCUE KIT

The capability for providing big power in compact spaces. Spreader toes lift heavy machinery, elevators, etc. "Wedgie" and "Spreader" rams open car doors, move steering columns, bumpers and obstructing metal. Two powerful rams are included. Includes 16 gauge metal box. *Ship. wt. 122 lbs.*

L871 10-Ton Deluxe Rescue Kit \$8,351.95

5-TON DELUXE RESCUE KIT

This compact set provides professional capability at a low cost. Includes large "Spreader" ram for lifting fallen objects, prying doors, bars, damaged sections, etc. Contains "Wedgie" and a powerful 5-ton ram with a 5" stroke. 16 gauge lockable/sealable metal box included. *Ship. wt. 64 lbs.*

L870 5-Ton Deluxe Rescue Kit \$4,983.95

5-TON RESCUE KIT

A lightweight set, stores easily and provides basic tools for emergency extrication work. Ideal for patrol cars and emergency vehicles. Includes 2-rams, "Wedgie" and 5 1/4" stroke ram with 5-ton capacity. *Ship. wt. 28 lbs.*

L869 5-Ton Rescue Kit \$2,905.95

DARLEY DELUXE CHAIN KIT

The Darley Deluxe Chain Kit can help save time and lives in a crash rescue situation involving pulling or moving of steering columns, seats, doors, dash boards, etc. Kit can be used separately or as a companion to your hydraulic equipment.

INCLUDES:

- 20' slip hook/grab hook
- 20" "cheater" chain - dual grab hooks
- "J" hook assembly with round ring and shackle
- 6' chain with "J" hook on one end, "T" hook and grab hook other end
- 1 1/2 ton capacity series 653 lever hoist with 5' lift
- Carrying container

SIDEWINDER JACK KIT

ENGINEERED SCISSOR OPERATION SPECIFICALLY DESIGNED FOR RESCUE WORK

FEATURES:

- Enclosed threaded rod
- Roller bearings for smooth action
- Wide base - polymer coated bottom
- Tilted head for angled adjustment
- Pivoting carry handle
- Rate at WWL of 7,500 lbs.
- Lifts from 5.25" to 13.25"
- Attached clevis for securing with ratchet strap
- Can be operated manually or with power tools (sold separately)

BP095	SideWinder Jack Kit	\$854.95
-------	---------------------	----------

TELESCOPING ALUMINUM SUPPORT SYSTEMS

Designed primarily for stabilizing motor vehicles involved in crashes, the TASS is a patented, 3-tiered telescoping aluminum support system. Like all Prospan products, the TASS has been designed to be simple to use and incredibly strong. Independent testing by the University of Illinois, shows the TASS to be one of the strongest vehicle stabilization products in the world.

- 3-tiered, telescoping aluminum pistons
- Knurled, easy-grab collars
- Tethered detent ball pins
- Anodized finish
- Durable design
- Simple to maintain

INCLUDES:

- Telescoping aluminum supports 26" - 48" span
- Baseplate - 10" with detent pins
- Baseplate shoring adapters
- Vehicle adapters
- V-Grip attachments
- Conical-shaped attachments
- Ratchet straps - 20" with hook cluster

BC028	Telescoping Aluminum Support Kit 26"-48"	\$2,092.95
BL623	Telescoping Aluminum Support Kit 43"-102"	\$2,406.95

ARAMID LIFTING BAGS

Matjack's unique construction of four full layers of aramid fiber provide for a lifting bag unequaled in strength and durability. All Matjack air lifting bags are marked with a distinct white numbered, "bull's eye" for ease of centering under the load, and have a conical, interlocking surface to limit slippage and aid in stacking. All Matjacks have either carry handles or tabs molded right on for lifting or attaching to fixtures. The Matjack "state-of-the-art" deadman controller allows for independent or simultaneous operation of one or more airbags. Supply hoses are color coded to help eliminate confusion during simultaneous operation of more than one airbag. *Made in the USA.*

FIRE RESCUE HARNESS™

UL CLASSIFIED TO NFPA 1983

The Fire-Rescue Harness™ remains one of the most versatile, multiple-use harnesses available. Used worldwide by fire department rescue teams, USAR teams, helicopter crews and wilderness SAR teams, this popular harness features multiple D-ring attachment points and CMC's JackBack™ removable padding with breathable D3 cloth.

- Dorsal D-ring allows adjustment for different size users, but stays in place when loaded
- Front waist D-ring allows a stable sitting position for rappels
- Gear loops offer easy access to equipment, and quick-connect shoulder straps
- Leg loops make donning the harness quick
- Pads on the leg loops can be adjusted to the most comfortable position
- Front lift assembly accepts screw links for adding a chest ascender or safety lanyards.

ATOM™ RESCUE HARNESS

UL CLASSIFIED TO ANSI Z359.11, CSA Z259.10 AND NFPA 1983

The ATOM™ Series, CMC's most comfortable harness line ever developed, is the culmination of stripping harness design down to the basics and re-imagining a performance-enhancing tool for rescue and rope access.

- Improved architecture molds to the user for a lightweight, low profile fit
- Ergonomic design for maximum comfort and support
- Y-back construction and bridged front lift
- Constructed with polyester webbing
- Gear loop over-braid is based on a 32-carrier polyester
- Multiple accessory attachment points provide ample space for stowing and organizing hardware and tools
- Made in the USA of domestic and foreign components
- Red webbing at the shoulders and front leg drop provide higher visibility
- Steel attachment points at the waist, chest and back
- Cobra quick-connect buckles at legs and right shoulder make donning quick and efficient
- Flexible gear loops offer a low profile gear stowage solution

Size	Waist

RIT HEAT RESISTANT SEARCH ROPE

Rapid Intervention Teams (RIT) face the most demanding and extreme conditions during search operations. Overcoming extreme heat, ground obstacles, and poor visibility are just some of the hurdles faced when searching for and rescuing trapped firefighters or civilians. Firefighter safety and survival has become an important focus and Sterling RIT Lines are an integral rescue tool in search and bailout operations.

-------	-------------------------	----------

CMC PMP SWIVEL PULLEY

The Prusik-minding swivel pulley (PMP) is ideal building mechanical advantage in raising systems, high anchor points, or tripod use. The rotating swivel aligns the rope with the direction of the pull. Its stainless steel sheave can be used with either rescue rope or wire cable. By combining the swivel with the pulley, overall system length is minimized, increasing travel. The patented pivoting side plate allows the rope to be quickly inserted. The PMP Swivel Pulley can be used with confidence in work-at-height maneuvers for industrial rope access or technical rope rescue.

FEATURES

- Stainless steel sheave allows use with wire cable or rescue rope
- Prusik-minding side plate opens without having to disconnect the pulley from the anchor
- Double-detent button prevents accidental opening of side plate
- Sealed ball bearings provide maximum efficiency

BN219	CMC PMP Swivel Pulley	\$149.95
BP525	CMC 1.5" Double Swivel Pulley	\$143.95

CMC MPD™

UL CLASSIFIED TO NFPA 1983 – GENERAL USE

The MPD™ allows you to go from lowering to raising without changing hardware. The MPD's high-efficiency pulley, with an integral rope-grab mechanism, allows it to be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The combination of essential features into a single device simplifies on-scene rigging, expediting the rescue.

FEATURES:

- Variable-friction descent control device for rescue systems and rappels
- High-efficiency pulley with integral rope-locking mechanism (ratchet) for a haul system
- Built-in becket allows cleaner rigging and more efficient pulley systems
- MPD allows main line and belay line rigging or can be used as a two-tension system
- One device functions as both a lowering brake and ratcheting pulley for raising
- Converts rapidly to a retrieval line for confined space operations
- Meets BCCTR Rescue Belay Competency Criteria
- Red model accommodates 13 mm rope (11mm blue model also available)

BL022	CMC MPD™ 13mm	\$858.95
-------	---------------	----------

CMC CLUTCH™ BY HARKEN INDUSTRIAL™

CLUTCH is the latest evolution in rescue and rope access hardware that enables the technical rope professional to do more with less. This multi-purpose device was designed and engineered in collaboration by two companies with a collective 90 year history in rope management under heavy loads: CMC, a company with roots in rescue and rope access, and Harken Industrial, a manufacturing company with roots in high performance sailing.

Suited to a multitude of rigging operations, the CLUTCH delivers efficient operation, ease of use, and optimal control. It moves seamlessly between anchor-based systems and personal use, offering unmatched versatility for the rope technician. With the CLUTCH, more is possible.

FEATURES

- BP521 is compatible with 10.5–11mm rope and certified to NFPA 1983 General Use, ANSI, and EN standards. It's the only device for 10.5-11mm rope that carries all these certifications.
- BP522 is compatible with 12.5 – 13 mm rope and certified to NFPA 1983 General Use and ANSI standards

SPECIFY COLOR: Red or Gray

BP521	CMC Clutch™ Gray by Harken Industrial™, 11mm	\$697.95
BP522	CMC Clutch™ Red by Harken Industrial™, 13mm	\$697.95

ENFORCER

Enforcer (with/case) is a compact aluminum load cell that measures force up to 20 kN. Utilizing two sampling modes, the Enforcer is able to monitor systems, and log drop testing in high resolution. Unique features like Bluetooth connectivity with the enForcer iOS App and swivel attachment points separate the Enforcer into a class of its own.

- Lightweight aluminum construction
- Compact and portable design facilitates "in-line" use in rigging systems
- Swivel attachment points diminish potentially dangerous torsional and off-axis forces
- Features two sampling modes: "Slow" for monitoring and "Fast" for drop-testing
- Monitor forces wirelessly on your iPhone with built-in Bluetooth connectivity
- Record and download graphs of events (Enforcer app required, sold separately)
- Measures force in kg, lbf and kN

*Not for use with steel cables or wire rope.

BN522	Enforcer	\$961.95
-------	----------	----------

CMC PRO SERIES CARABINERS

Strong and durable, CMC ProSteel Carabiners are classified to NFPA General Use and have a carbon steel body with a high breaking strength. Where noted, certain models are also certified to ANSI and include a reinforced gate for lateral stress. Designed with a keylock system, wide gate opening, glove-friendly sleeve, and burnished finish, CMC ProSteel Carabiners are built for heavy duty work in harsh environments, yet offer easy handling for everyday applications.

- Carbon steel carabiner with high tensile strength
- Wide gate opening for easy loading and unloading
- Keylock system prevents snagging on rope and bolts
- Sleeve is easy to open even wearing gloves
- Burnished finishing for greater visibility of markings
- Classified to NFPA General Use, select models also ANSI

Cat#	Gate Type	Finish	Price
BP724	Screw-Lock	Black/Bronze	\$26.95
BP725	Screw-Lock	Black	\$26.95
BP726	Auto-Lock	Black/Silver	\$33.95

rockSTEEL AUTO-LOCK CARABINER

The rockSteel offers a surprising strength-to-weight ratio in a carabiner of its capacity. Most steel carabiners are made from 1/2 diameter steel. We use a lighter, 1/16" diameter steel that is heat treated for added strength. The rockSteel frames are CNC machined for precise fittings and exact tolerances. The result is a carabiner with a high strength-to-weight ratio, keylock snag-resistant nose and a feel like no other steel carabiner in the world. The rockSteel carabiner is ANSI Z359.12 (09) and NFPA G compliant. The gate/sleeve is rated at 16kN or 3600 lbs, to protect against inward force against gate.

- Large frame, with large, 1.2" gate opening
- Impressively strong, yet lightweight
- Rated for inward gate force
- ANSI Z359.12 (09) and NFPA G compliant

Cat#	Description	MBS	Price
BN531	rockSteel Auto-Lock Carabiner	3,600 lbs.	\$44.95

NFPA LADDER AND CARABINER HOOK SCREW AND TWIST LOCKS

NFPA and UL certified high tensile steel Ladder Hook with captive pin is designed to fit over ladder rungs, pipes, safety rails, building apparatus or anywhere you may need the huge gate clearance of these exceptional and strong ladder hooks. The gate clearance of our zinc plated ladder hook is enhanced by our unique screw-lock gate mechanism, which enables the gate to open beyond the ladder hook spine, providing a massive gate opening, even for a ladder hook of this size!

- High tensile steel
- Zinc plated finish
- High strength
- Smooth operation

Cat#	Description	Price
BN247	NFPA Steel Ladder Hook Screw Lock	\$23.95

BN250	NFPA Large D Carabiner Twist Lock	\$24.95
BN251	NFPA Aluminum Carabiner Twist Lock	\$16.95

CMC LEVR™ ESCAPE SYSTEM

UL CLASSIFIED TO NFPA 1983-GENERAL USE

The most compact escape system available. Designed to assure rapid emergency egress with safe, controllable descent. Built around the new CMC LEVR descender, a next-generation device with improved descent control, fast and easy pay-out, and reliable edge transition.

FEATURES:

- LEVR™ design provides smooth and reliable edge transition, minimizing potential for hang-up at window sill
- Engineered for quick, easy horizontal payout of web to allow fast egress from remote anchor points
- Designed to reduce impact force on escape anchor if shock loaded during bailout
- Low-profile side carry bag designed for right or left-handed deployment
- Fire Escape Web T™ is constructed from 100% Technora® fiber for high strength and heat resistance, and dramatically reduces space required for storage
- U.S. Patent Pending

INCLUDES:

- LEVR™ descender reeved with 15.2m (50') of 11mm Fire Escape Web™ (UL Classified to NFPA 1983 - Fire Escape Web)
- FlashLite™ Hook (UL Classified to NFPA 1983 - Escape Use)
- Nomex® fabric waist carry bag
- ProTech™ Aluminum Auto-Lock Carabiner (UL Classified to NFPA 1983 - Technical Use) with sewn Kevlar® fiber tether

NEW

BP049 CMC LEVR™ Escape System

\$484.95

CMC 3D™ LOCKING-BAR DESCENDER

The 3D features two sliding bars for optimum friction control and efficiency. The horn design works well with 13mm rope and smaller, making it easy to add or subtract friction as needed throughout the evolution. The frame dimensions allow for larger rescue-sized carabiners to be used without any contact or friction with the rope. The descender can be loaded or unloaded while connected to your harness for rappelling or to an anchor for one- or two-person rescue lowers. *Ship. wt. 1 lb.*

NEW

- Compact, lightweight design
- 3-stage locking center bar for added safety
- Ambidextrous design allows loading from top or bottom or controlling descent from either side of device
- Optimal rack length allows two rescue-sized carabiners to be attached without rope contact or friction from carabiner
- Large horn size allows for easy addition or subtraction of friction, even on larger 13mm lifeline
- 100% aircraft-grade aluminum and stainless steel components
- Patented

BN326 CMC 3D™ Locking-Bar Descender

\$248.95

PETZL I'D SELF-BRAKING DESCENDERS

It's auto-locking feature combined with a locking position for the handle make the Petzl I'D an excellent descender for working on rope. Additional safety features include an anti-panic function that stops the descent if the handle is pushed too far and an anti-error safety catch that reduces the risk of an accident from the incorrect installation on the rope. Maximum descent distance: 660' (200m). The small model has a safety clip on the swinging side plate that reduces the risk of dropping the device when removed from the rope, such as when passing intermediate anchors. *UL classified to NFPA 198 EN 341 Class A.*

- Unblock the rope and control the descent with the hand on the free end of the rope
- Move more easily on horizontal or low-angle terrain, thanks to the button on the handle
- Get into position without having to tie off the device
- Anti-panic function is engaged if the user pulls too strongly on the handle brakes and stops the descent automatically
- Anti-error safety catch to reduce the risk of an accident due to incorrect installation of the device on the rope. The shape of the cam is designed to improve rope glide when ascending

Cat#	Description	Finish	NFPA Rating	Price
BG121	Self-Breaking Descender	Gold	Light Use	\$249.95
BG122	Self-Breaking Descender	Red	General Use	\$260.95

CMC CSR² PULLEY SYSTEM™

The patented locking mechanism in our updated CSR² Pulley™ is easy to release under load, creating much greater efficiency with the lowering and raising necessary to a confined space rescue. The machined aluminum swivels at both ends of the system eliminate any potential twisting of the lines. This system is also an excellent choice for confined space entry or rope access work where a heavy-duty pulley system is desired. Systems comes completed reeved and packed into its storage bag ready to use.

- All-new stronger, lighter-weight design
- Available with either 11mm (7/16") or 12.5mm (1/2") Static-Pro Lifeline
- Systems are UL Classified to NFPA 1983 (2017 ED) - General Use
- CSR² Pulley MBS 46 kN(10,341 lbf)/CSR² Double Pulley MBS 45 kN (10,116 lbf)
- Machined from solid block of aircraft-grade aluminum
- Includes (2) ProSeries® Aluminum Screw-Lock Carabiners, MBS 47 kN (10,566 lbf) - General Use
- Made in USA

INCLUDES:

- 11mm (7/16") Static-Pro Lifeline, Blue (1 x 200') or 12 1/2 mm (1/2 ") Static-Pro Lifeline, Red (1 x 200')
- CSR² Pulley
- CSR² Double Pulley
- ProSeries Aluminum Screw-Lock Carabiner (2)
- #3 Rope Bag, Red

BG274 CSR² Pulley System™ \$1,606.95

CMC AZTEK PROSERIES® SYSTEM

The CMC Rescue AZTEK ProSeries System leaves no detail ignored. Capable of more than 100 rigging solutions, it reflects the philosophy of keeping rigging equipment simple, efficient, non-specialized, light and small. The CMC Rescue AZTEK ProSeries System is the only AZTEK system UL Classified to NFPA 1983 (2012 ED.) General Use, Manufactured System. *Ship. wt. 4 lbs.*

- Innovation-loaded and designed for wear on the waist or thigh
- Travel restraint with more than 40' of adjustable travel
- Mesh bottom for optimal breathing
- AZTEK OMNI set of fours provides 4:1 or 5:1 M/A options
- Quickly adjust a litter attendant or litter position
- Easily pass knots
- Back-tie or redirect anchors
- Promptly establish dynamic fixed brakes
- Establish travel restriction
- Correct disoriented equipment under load
- Dynamic directionals and lowers
- Hauling systems
- High angle attendant tether and litter scoops
- Load-releasing hitch
- Personal mechanical advantage (PMA)
- Solo pick-off
- Tensioned guying

BL803 CMC AZTEK ProSeries® System \$473.95

AZTEK ELITE NFPA-G SYSTEM

A unique, multi-functional system, the AZTEK is a simple and versatile tool for mechanical advantage rigging. The opposite end of the rope functions as an individual edge restraint system utilizing the included travel restraint and screwlink. The AZTEK Omni Block pulleys keep loads oriented correctly when tensioned. The system is easily transported or swapped between users thanks to its accessible pouch-style carry case. *Ship. wt. 3.8 lbs.*

INCLUDES:

- 2 - AZTEK Omni Block pulleys
- 50' of 8 mm Edge Restraint with sewn eye
- 2 - 6 mm sewn ratchet prusiks
- 1 - SafeD carabiners for connecting Edge Restraints to anchor
- 2 - Steel Carabiners
- 8 mm Steel Screwlink
- 6 mm Travel Restraint
- AZTEK Carrying Bag

\$489.95

TRAVERSE 540° RESCUE BELAYS

UL CLASSIFIED TO NFPA-GENERAL USE

Developed specifically to meet the needs of rescue system belays, the 540° Rescue Belay is a self-locking device that meets demanding drop-test criteria able to hold falling loads quickly while limiting the peak force. This well-engineered device is easy to rig and the symmetrical design reduces the risk of improper loading. A built-in release lever releases the tension on the belay rope, eliminating the need for a release hitch. Designed for use with kernmantle rescue ropes from 11.5 to 13mm. 3 MBS: 8,093 lbs. Passes the BCCTR Rescue Belay Competence Drop Test Criteria. *Ship. wt. 3 lbs.*

Cat#	Description	Rope Size	Price
BG267	Small 540° Rescue Belay	10.6-11.5mm (7/16")	\$528.95
BG268	Large 540° Rescue Belay	11.5-13mm (1/2")	\$548.95

AZTEK PRO KIT

The Aztek Pro Kit can be used as a pick off, adjustable directional, high directional guylines, high angle attendant tether, high angle litter scoop, load release hitch and much more. Each pulley is color coded to match with a corresponding prusik for quick identification. The AZTEK pulleys are machined from solid aluminum, feature swivel connection points, and utilize high efficiency bearings.

ROPE RESCUE TRUCK™ CACHE KIT

When setting up systems, this well-organized kit provides efficient access to all the rigging hardware needed to set up a main line and belay. The case can be laid on the ground or suspended from the side of a vehicle with integrated gutter hooks, yet when closed, fits easily into a vehicle cabinet or behind the seat.

INCLUDES:

- Truck cache
- UltraPro 4 edge protector
- (2) FastLink anchor strap
- 1" web - 40' (2x20')
- XL edge pad
- (2) short prusik loop
- (2) anchor strap sleeve
- (2) MPD 13mm
- Double swivel pulley
- (5) Pro series manual lock
- (3) single swivel pulley

ICE COMMANDER™ RESCUE SUIT

The Mustang Ice Commander™ is the suit of choice for search and rescue teams, fire departments, and ice rescue professionals. The flotation and insulation performance of a snap in buoyancy liner allows users to immerse themselves for long periods of time in icy cold water and maintain mental and physical capabilities.

- Water-tight hood and face seal
- Integrated gloves and attached boots
- SOLAS™ reflective tape and Velcro® patch for light attachment
- Heavy duty, full-length, water-tight zipper
- Waterproof and durable welded nylon outer shell
- High performance urethane-coated nylon exterior
- Integral self-adjusting safety harness
- Ergonomic ice awl pockets - secured with Velcro® (ice awls not included)
- Reinforced knees padded with 2.5 mm neoprene
- Removable inner buoyancy liner - constructed of closed-cell AirSoft™
- Reinforced seat and elbows
- Measurements: Adult universal sizing, fits height: 4'11" - 6'6", and weight: 110 lbs. - 330 lbs.

BL315 Ice Commander™ Suit (Universal Adult)

\$1,170.95

UNIVERSAL HI-VIZ YELLOW ICE RESCUE SUIT

Rescue professionals need gear that allows them to respond safely and quickly to emergency situations. The RS-1002 Rescue Suit has been engineered to don quickly for cold water and ice rescue operations. This universal suit features a rugged hi-tenacity nylon shell that is stitched and taped for the ultimate in durability. A snap out, internal laminated nylon/foam liner allows the user to easily slip the suit on and off.

- Shell Material: 400 Denier Nylon Shell
- Construction Method: Seams are stitched and sealed (taped) (not RF welded)
- Harness System: Vertical and horizontal adjustment
- Ice Pick Pockets: Easy access and secure storage of ice picks
- Gloves are supple and felt lined
- Internal suspenders for height adjustment
- Knee and Elbow Patches: Foam padded with rough texture covering for extra grip
- Wear Patches: Reinforced butt, knees and elbows
- Boots: Size 13 for fitting wide range of users
- Adjustment Straps: At thighs and wrist for improved suit control
- Carry Bag: 500D bag is nylon lined for easy discharge of suit (from bag). Includes zippered mesh accessory pocket

BL591 Universal Hi-Viz Yellow Ice Rescue Suit

\$914.50

RAPID RESCUER

THE NRS RAPID RESCUER CAN HANDLE ANY SITUATION

- Constructed with 400-denier Ripstop Nylon to handle unexpected snags and debris often experienced in rescue situations
- Zippered front entry for quick on and off with backup buckles for added security under stress
- Four-panel chest design for enhanced comfort and freedom of movement with a single, thin panel of foam in the back
- Interconnected webbing creates a harness for maximum security in live bait scenarios
- SOLAS reflective elements for safer night ops
- This jacket carries the US Coast Guard Certification through testing by Underwriters Laboratories (UL)
- *Universal size fit*

ARM LOC™

The ARM-LOC™ has high visible solas reflective tape, which is the same type as what the Coast Guard uses. The ARM-LOC™ also locks on the victim so there is no need for the victim to hold onto the rope. Plus, you will be able to float the ARM-LOC™ on top of the water. It is a safety tool that can be used ANY time you need to get a GRIP on a victim in distress, on land or in the water. ARM-LOC™ has 75' of ¾" Sterling floatable line.

INCLUDES:

- 1 ARM-LOC™
- 75' of Sterling Floatable Rescue Line
- 1 Omega non locking carabiner
- 1 Throw bag and carrying case
- ¾" threaded Cadmium plated CO² cartridges

BP157 ARM-LOC™

\$495.95

SKED-EVAC™ TRIPOD

The Sked-Evac™ Tripod extends to ten feet high at the three anchors which are available to clip into. Each of the anchors is anodized red for easy identification, and all are equally well centered to handle a load. The anchors, header, and legs are interconnected with 1/2" stainless steel bolts to provide maximum strength. When at full extension, this tripod allows you to bring the patient in a stretcher completely out of the hole. It is rated to handle an NFPA rescue load. Included with the tripod is a chain which passes through the feet to provide greater strength and stability. The legs are adjustable in 5" increments, and Skedco provides safe working load data for each tripod height on each tripod. Brackets are available for mounting most popular winches. *Ship. wt. 74 lbs.*

AS441	Sked-Evac™ Rescue/Entry Tripod	\$1,843.95
AS442	Sked-Evac™ Tripod Carrying Case	\$118.95

CMC TRISKELION™ TRIPOD

The Triskelion's impressive working height range adapts to fit low-clearance areas and extends to haul patients in full-size litters. Unique features include its compatibility with cable and rope up to 13 mm (1/2"), anchor points for pulley systems, multiple winch mounting options, rectangular legs with built-in stoppers, tethered push pins, high contrast graphics, pivoting feet, quick-connect webbing hobble strap, and reinforced carry bag for single or two-person transport. The Triskelion is also supported by thoughtful accessories that enhance its capabilities and make it even easier to use.

- Min Working Height: 1.7 m (5.5 ft)
- Max Working Height: 3.1 m (10 ft)
- Tripod Weight: 32 kg (70 lbs)
- Tripod Footprint:
 - Inside Diameter of Feet:
 - Minimum Height: 1580 mm (62.2 in)
 - Maximum Height: 2820 mm (111 in)
 - Outside Diameter of Feet:
 - Minimum Height: 1930 mm (76 in)
 - Maximum Height: 3170 mm (124.8 in)
- MBS:
 - Attached directly to head: 36 kN (8,093 lbf)
 - Attached to leg over pulley: 22 kN (4946 lbf)
- Certification:
 - NFPA 1983 (2017 ED) – General Use
 - EN 795:2012 Type B for Single Person Use
 - CEN/TS 16415:2013 Type B for 2 Person Use

-------	------------------------	------------

DOUBLE CLUTCH TWIN TENSION ROPE SYSTEM (DCTTRS) KIT

The smooth, efficient action of the CLUTCH allows rescuers to haul more easily and lower with more control. Additional built-in features of the CLUTCH make it ideal for this kit including the ratcheting rotating sheave, Anti-Panic brake, force limiting protection, and integrated becket. When two CLUTCH devices are brought together in the Double CLUTCH Technique (aka "Double CLUTCH-ing"), rescuers can maintain nearly equal tension on both lines so that the load, often involving a rescuer, litter and a victim, is shared across two rope systems, reducing the risk of a single line failure. If a catastrophic event such as single line failure does occur, the Double CLUTCH Technique is preferable to a traditional slack belay because it prevents 100% load transfer on the slack belay line and thereby limits shock and extension in the system. *Visit eDarley for a full list of included components.*

- Two self-contained, ready-to-go hauling/lowering systems with MA of 3:1 and 5:1
- Color-coded components including RigTech Packs, CMC G11 Lifeline, and webbing
- Compatible kit components for deploying a variety of twin tension rope systems
- CLUTCH ratcheting, rotating sheave increases hauling efficiency and lowering control
- CLUTCH Anti-Panic brake and force limiting features increase rope system safety
- Kit is designed for combining two CLUTCH devices in Double CLUTCH Technique
- Includes CMC DNA ANSI Carabiners for CLUTCH alignment on a single anchor plate
- Double CLUTCH Technique meet best practices while reducing personnel and risk
- NFPA G Rated CLUTCH and NFPA G Rated CMC G11 Lifeline 11mm (7/16in) provide strength with less weight and volume

-------	--	------------

CMC RESCUE ROPE RESCUE TEAM KIT-RIGGING (TRADITIONAL)

Containing the minimum equipment required to handle most high or low-angle rope rescue responses, this kit includes a main line with mechanical advantage for raising and a descent control device for lowering, a belay line, a litter with a patient-packaging system, and gear for setting up anchors. In addition to this equipment, we recommend each member of the team carry the personal equipment included in our Rescuer Personal Kit.

- 2 - Rope Bags, #2 size
- Truck cache
- Stainless steel rescue litter
- ProSeries Litter Harness
- Etrier with Tie-In
- FastLink™ Pick-Off Strap
- 4 - Adjustable Litter Straps
- 2 - Edge Pad - XL
- Tubular Webbing - 24' (1 x 12')
- Tubular Webbing - 40' (2 x 20')
- Shasta Gear Bag
- Litter Pack
- Litter Insert
- Patient Tie-In System
- Lifesaver Victim Harness
- 2 - CMC Ascenders
- FastLink Anchor Strap - Medium
- Anchor Strap Sleeve - Medium
- Ultra-Pro 4 Edge Protector
- 2 - ProTech Auto-Lock Carabiners
- Rope Rescue Manual
- 2 - CMC Lifeline - 200' of 1/2"
- 2 - Load Release Straps
- Rescue Rack
- 15 - ProSeries® Screw-Lock Carabiners - Brite
- AZ Bound-Loop Prusik - Long
- 8 - AZ Bound-Loop Prusiks - Short
- Aluminum Oval Carabiner
- Anchor Plate
- 5 - PMP Swivel Pulleys

BD051 CMC Rope Rescue Team Kit - Rigging \$7,156.95

CMC RESCUE USAR TASK FORCE KIT

A great package for a truck or engine company that responds to over-the-side rescues or needs a vertical lift capability for trench or confined space rescues, this kit contains the primary rope rescue equipment on most of the FEMA and USA requirements lists.

- 2 - Rope Bags, #2 size
- Truck Cache
- 2 - Response Harness
- Litter Insert
- Patient tie-in system
- 2 - CMC Ascender
- 4 - Adjustable Litter Strap
- 2 - FastLink Anchor Strap - Medium
- Ultra-Pro 4 Edge Protector
- Tubular Webbing - 30' (6x5')
- Tubular Webbing - 90' (6x15')
- ProTech Auto-Lock Carabiner
- Shasta Gear Bag
- Litter Pack
- Stainless Steel Rescue Litter
- ProSeries Litter Harness
- Etrier with Tie-In
- Rescue 8
- FastLink Pick-Off Strap
- 2 - Anchor Strap Sleeve - Medium
- 2 - Edge Pad - XL
- 2 - Static-Pro 1/2 in Lifeline - 200'
- Tubular Webbing - 72' (6x12')
- Tubular Webbing - 120' (6x20')
- 15 - ProSeries Screw-Lock Carabiners
- 5 - PMP Swivel Pulleys
- 2 - Load Release Strap
- 6 - AZ Bound-Loop Prusik - Short
- Aluminum Oval Carabiner
- Anchor Plate
- AZ Bound-Loop Prusik - Long
- Rescue Pack

BD050 CMC USAR Task Force Kit \$8,029.95

SKED® BASIC RESCUE SYSTEM

The original and still the best solution for confined space, high angle or technical rescue, and traditional land based applications. The Sked® stretcher is a revolutionary design which provides outstanding patient protection and security. The Sked® comes equipped for hoisting by helicopter in horizontal position spaces. When the patient is packaged, the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough Cordura® backpack which is included with the system. The system ships at 19 lbs. and comes complete for most applications. Available in International Orange. Ship. wt. 19 lbs.

AS452 Sked® Basic Rescue System \$699.95

RESCUE KIT 1 WITH POWER TALK BOX

The CON-SPACE Rescue Kit 1 with Power Talk Box is configured for a team of five rescuers consisting of two primary rescuers, two standby rescuers and a hole watch/team leader, for entries of 100' (maximum distance 1500'). They system can be configured for up to fourteen people using available modules and accessories. The command module is battery-powered, compact and lightweight making it completely portable. Three 1.5v alkaline "C" cells provide 400 hr. life on standby and all electronics are fuse protected. A low battery LED indicator gives 12 hr. warning battery replacement. System and accessories are waterproof. Molded fiberglass enclosures, knobs, and cables are impervious to a wide range of chemicals.

INCLUDES:

- CSI-2100 command module
- CSI-2131 power talk box
- Cable splitter - Double w/mic mute switch
- Operator headset single-side, 32"
- 4 - Rescue facemask com set with universal speaker
- 4 - Speaker harnesses
- 1' operator cable w/mic mute switch
- 20' operator cable w/mic mute switch
- 50' cable with connectors
- 4 - 100' cable with connectors with strain relief/snap hook
- Cable coiler
- Cable bag for 100'-300' of cable
- 2000 carrying case

AZ400 Rescue Kit 1 with Power Talk Box

\$11,480.95

HOTSTICK VOLTAGE DETECTOR

HIGH SENSITIVITY DETECTOR FOR EMERGENCY RESPONDERS

The HotStick provides warning of exposed high voltage AC from a safe distance without the need to contact the surface carrying the current. It gives early audible ("beeping") and visual (flashing LED) warnings, and beeps and flashes more rapidly the closer it comes to the voltage. Comes with a built-in self test so there is no doubt about it functioning properly.

CASE INCLUDED

- CONFIRM power shutdown, lockout, tag out, disconnects
- FIND hidden sources of dangerous AC from a safe distance
- DETECT power line back feeds from motor generators and energized pools of water
- ENSURE a safe environment for your vehicular rescue
- PROTECT the life of your first responders
- CHECK IT trust is good – checking is better

BL318 HotStick Voltage Detector

\$358.95

BOUNCE IMAGING TACTICAL 360 CAMERAS

MULTIPLE USERS, ALL DIRECTIONS, SIMULTANEOUSLY

Bounce Imaging cameras bring a new standard to keeping your team safe. Their simple to use tactical cameras are smartphone compatible and require no training. Traditional cameras force you to see the world as if through a straw - with a limited field of view. Bounce Imaging cameras see in all directions AT THE SAME TIME. This means one user can look left, another can look right, and if they both miss something behind them, they can scroll back in time and replay video from that perspective while maintaining vertical and horizontal stabilization. Connect via WiFi, or an embedded 4G-LTE connection, then stream video to command or other users in the field.

HEARTSTART ONSITE DEFIBRILLATOR

THE FIRST DEFIBRILLATOR AVAILABLE WITHOUT A PRESCRIPTION TO COMMERCIAL USERS

SELF-TEST ENSURES READINESS:

- Daily self-tests check electrical components, subsystem, pads and battery
- Self-test also verifies that the pads cartridge is installed and in working order
- Blinking green "Ready" light means the OnSite has passed its last self-test, so you can be confident the defibrillator is ready for use

LONG BATTERY LIFE:

- 5-year shelf life plus 4-year installed life
- Same battery technology used with confidence in millions of cameras

EASY-TO-USE:

- Using the HeartStart Defibrillator is simple. Pulling the green handle activates the defibrillator and voice instructions. These instructions are paced to your actions, to help guide you through the entire process from placing each pad on the patient to delivering a defibrillation shock.

BG129 HeartStart OnSite Defibrillator \$1,313.95

DEFIBTECH LIFELINE AEDS

Defibtech Lifeline AED's breakthrough in design technology makes it possible for every budget to afford a life-saving AED. Mere seconds can mean the difference between life and death. The Defibtech Lifeline AED can be used with minimal steps to analyze and treat the patient's condition. From the moment someone suffers sudden cardiac arrest, the inspired design features of the Defibtech Lifeline AED (Automatic External Defibrillator) shaves precious seconds off the defibrillation process. Seconds that could save more lives.

DEFIBTECH LIFELINE VIEW WITH SCREEN ALSO FEATURES:

- **Video Screen:** Shows you what to do in an emergency. Just one touch turns on the AED, lights up the interactive screen and a clear, calm voice tells you what to do with clear, easy to understand pictures and text so you can read it, see it and hear it.

LIFELINE ARM AUTOMATED CHEST COMPRESSION DEVICE

Defibtech's Lifeline ARM Automated Chest Compression (ACC) device, a mechanical solution to performing cardiopulmonary resuscitation (CPR). When it comes to CPR, the quality and speed of each and every compression is critical. The Lifeline ARM, with its intuitive user interface and automated operation, ensures effective CPR with compression depth and rate as recommended in current AHA/ERC guidelines. In an emergency situation, CPR efficacy is ensured, and the rescuer is freed for other interventions and tasks.

The Lifeline ARM has an extremely simplified user interface that merely requires the user to adjust the compression piston relative to the patient's chest and choose from two emergency response protocols to initiate CPR. Up / down buttons adjust the appropriate height for beginning compressions, and the operator may select between "Run Continuous," which performs compressions continuously, or "Run with Breaths," which follows the compressions-with-breaths protocol by pausing for the operator to give rescue breaths. Toggling between protocols is designed in, to accommodate your local resuscitation protocol. A pause button stops compressions when running, or resumes compressions if stopped.

- Saves lives
- Simple to use
- Long life battery
- Designed for the real world
- Lightweight rigid frame
- Highly visible and portable
- Ergonomic design
- Automated chest compression
- Real-time protocol selection
- Ruggedness and durability
- Easy to maintain
- Easy to transfer data

LARGE INTERMEDIATE MODULAR TRAUMA BAG

The new BL886 is a premium mid-sized ALS trauma bag, meaning it will hold virtually all of the medical supplies needed for a trauma call, less the oxygen bottle. The BL886 is heavily reinforced from top to bottom so it will withstand years of abuse. It also features multiple pockets, pouches, loops and compartments – including four removable color-coded zippered pouches for quick access to high priority items. The main hold also includes six removable foam dividers that can be customized along with the colored pouches – or removed completely to suit the users' needs. Multiple points of hi-vis reflective around the bag ensures that it remains visible on-scene.

- Raised PVC/Nylon reinforcement covers bottom and lower half of bag for water and abrasion resistance
- Yellow/silver triple trim reflective striping surrounds bag and 3M scotchlite stitched into webbing and straps
- Blue and white embroidered star of life logo with silver reflective overlay
- Front and side pockets stretch full-length of bag and feature interior elastic instrument loops and nylon pockets with dividers
- Each colored quick access pouch includes clear vinyl window and interior pocket; green has elastic loops for berman airways
- Main flap is padded and features three clear zippered compartments for access to often-used items without disturbing main-hold supplies
- Shoulder strap is stitched with reflective tape and includes ergonomically shaped shoulder pad; adjustable and removable strap is attached with spring loaded metal US hooks
- Rear of bag has nylon webbing reinforced I.D. pouch with clear vinyl cover
- All pockets and compartments feature double zippers – can be locked for logistical purposes
- Overall Dimensions: 20"L x 16"W x 10"H

TACTICAL MOLLE MED BACKPACK WITH MODULAR POUCHES AND HYDRATION PORT WITH TRAUMA AND BLEEDING MEDIC FILL KIT

The Modular Tactical Medic Backpack is the culmination of two years of research, design and customer feedback by Lightning X for a practical and useful EMS bag for the tactical market. Far too often, tactical medics are forced to buy a military bag with no EMS features, or an EMS bag with no tactical features. Now you can have the best of both worlds, with a well organized and great looking bag all-in-one. The BP202 comes with two small and two large grab-n-go pouches with transparent windows plus one foam lined organizer with six dividers, all of which are completely removable or interchangeable within the main compartment.

- 1 - Tweezer
- 1 - Kelly Hemostats
- 1 box of 10 - Ammonia Ampules
- 100 - 3/4" x 3" Adhesive Bandage
- 25 packs of 2 - 4"x4" Gauze Pad 50
- 2 - 2" Roll Gauze
- 2 - 3" Roll Gauze
- 2 - 4" Roll Gauze
- 2 - Cohesive Self-Adherent Bandage
- 2 - 5" x 9" ABD Pad
- 2 - 8" x 10" ABD Pad
- 1 - 1" Cloth Medical Tape
- 10 - Iodine Wipes
- 10 - Alcohol Prep Wipes
- 1 - Triple Antibiotic Ointment 1/2 oz.
- 1 - 7 1/2 Trauma Shears
- 2 - Instant Cold Pack
- 2 - Oval Eye Pad
- 2 - Triangle Bandage
- 1 - Sprague Stethoscope
- 1 - Eye Wash
- 1 - Berman Airway / 6 pieces
- 2 Pairs - Nitrile Gloves

EXTECH IR200: NON-CONTACT FOREHEAD INFRARED THERMOMETER

IDEAL FOR QUICKLY DETECTING ELEVATED BODY TEMPERATURE

The IR200 is ideal for quickly detecting elevated body temperature using a non-contact design that eliminates the need for replacement probe covers and other supplies. Intended as an initial screening service.

- Measures skin temperature from 89.6 to 108.5°F (32.0 to 42.5°C) without contact
- Accurate to 0.5°F (0.3°C) with 0.1°F/°C resolution; fast response (0.5 seconds)
- Optimum measurement distance of 1.9 to 5.9 in (5 to 15 cm)
- Non-contact design eliminates need for replacement supplies
- Adjustable alarm alerts user visually and audibly when temperature exceeds programmed limit
- Memory stores up to 32 readings for easy recall
- Large backlit LCD display
- Complete with 2 AA batteries and pouch

ULTRABRIGHT RED-FIRE CLASS II PUBLIC SAFETY VEST

Introducing the Ultrabright Red-Fire Class II Public Safety Vest. This product features a “zip-off” double Velcro® zipper front closure that allows the vest to breakaway from both sides of the zipper, making it the only 6 point breakaway vest on the market. The “performance cut” offers max comfort and allows access to turnout jacket pockets or portable radios at the waistline. The “chevron” reflective pattern on the back offers max visibility and distinct contrast. The shoulder breakaway points have been upgraded with 2” “re-force” Velcro® to ensure that the vest does not fall apart when donned over a turnout jacket but will still break away in emergency situations.

INTEGRITAS™ INTRINSICALLY SAFE RECHARGEABLE LANTERN
NIGHTSTICKS MOST POWERFUL HANDHELD LIGHT

- 1,750 Lumens on High, 600 Lumens on Low
- Class 1, Division II intrinsically safe, meets NFPA-1971-8.6 (2013) requirements
- Dustproof/Waterproof
- 180° Downward pivoting head
- Rear green safety lights
- Rechargeable Li-ion battery pack with locking snap-in charger
- Extended run time to 11.5 hours
- AC and DC power supply
- Removable shoulder strap

BP045	INTEGRITAS™ Rechargeable Lantern	\$227.95
-------	----------------------------------	----------

VULCAN® 180 LED LANTERN

The lightest portable lantern of its kind, the Vulcan 180 is designed to burn brighter and run longer making it an essential firefighting tool. This rechargeable, waterproof lantern has a 180 degree tilting head which allows you to direct the light where you need it. Three ultra-bright white LEDs bring you extreme brightness along with two blue taillight LEDs for visibility in thick smoke.

- 1,200 lumens; runs 4.75 hours; 548m beam distance
- 180° articulating head aims the beam where you need it
- Flat base area allows light to stand on its own for scene lighting
- Two ultra-bright blue taillight LEDs make certain you can be seen even in thick smoke
- High-impact, super-tough nylon body; head constructed from high grade aluminum encased in super-tough nylon
- Taillight LEDs can be programmed on or off

FIRE VULCAN® LANTERNS

AZ116 FEATURES:

- Ultra-Bright Blue Taillight LEDs Offer 2 Modes: Steady and blinking
- Easy-to-operate toggle switch
- High-visibility orange
- Compact and lightweight
- Extremely Powerful: 80,000 cp, 145 lumens
- Rugged, high-impact thermoplastic housing
- Waterproof
- Fits existing Vulcan® chargers
- Ship. wt. 4 lbs.

BG522 FEATURES:

- Up to 80,000 candela peak central intensity; 150 lumens
- 2 lightweight lithium ion nanotechnology cells: recharges in 5 hrs.
- Charger base meets requirements of NFPA 1901
- IPX7 rated design - waterproof to 1 meter for 30 minutes
- Deep-dish parabolic reflector produces a tight beam with optimum peripheral illumination
- Rated product, Class I Division 2 Groups A, B, C, D, Temperature T4A; Class II Division 2 Groups F, G, Class III, Temperature T-54°C (T6)
- Run-Times:
Steady high LED & taillights: Up to 3 hrs to the 10% output level
low: Up to 6 hrs
- C4 LED, impervious to shock with a 50,000 hr lifetime
- 8 programmable functions
- About 45% lighter than the halogen Fire Vulcan®
- Ship. wt. 3 lbs.

VULCAN® 180 HAZ-LO® RECHARGEABLE LANTERN

NEW

Developed for use in hazardous locations on a portable scene light platform, the Class 1, Div. 1 safety-rated Vulcan 180 is lightweight and rechargeable. Combine the three extreme bright white LEDs with cordless operation to eliminate trip hazards while two ultra-bright blue taillights provide visibility in thick smoke.

- 180° articulating head, locks in-place in forward facing position
- Light output:
 - High for a bright, far-reaching beam: 400 lumens; 316 beam; runs 10 hours
 - Low for a less intense beam and longer run time: 130 lumens; 128m beam; runs 24 hours
- Rechargeable lithium ion battery; fully recharges in 15 hours with battery status indicator
- Includes quick release buckle strap, charging rack and AC/DC chargers

SPECIFY COLOR: Orange or Yellow

E-FLOOD® LED LANTERNS

The E-Flood® and E-Spot® models are industrial-duty, rechargeable, portable lanterns featuring power LED technology for high brightness, long runtime and high reliability. The E-Flood® models use 6 LEDs and wide pattern reflectors to produce a uniform flood pattern.

- Optimized electronics provide regulated intensity
- 2 Levels of Lighting:
 - High: 4,000 candela, 615 lumens, 8 hrs. run-time
 - Low: 2,150 candela, 330 lumens, 18 hrs. run-time
- Zero-maintenance, 6V, 12 amp-hr sealed lead acid battery is rechargeable up to 500 times
- High impact ABS thermoplastic housing
- Rubberized impact bumper, lens ring and cushioned-grip handle
- Fits existing LiteBox® chargers
- IPX4 Rated for weather resistant operation

BK047	E-Flood® LiteBox® Standard System with AC/DC, Shoulder Strap & Mounting Rack	\$221.95

PORTABLE SCENE LIGHT RECHARGEABLE LANTERN

Rapidly deployed and easily stowed, the Portable Scene Light brings 5,300 lumens to your work area. With its narrow footprint and 72" extension pole, this light goes almost anywhere, from wide open places to tight, confined spaces.

- **Light Source:** 6 LEDs and wide pattern reflectors produce a uniform flood pattern with two selectable beam widths and three light output intensities
- **Battery:** Zero-maintenance 12V, 7.2Ah sealed lead acid batteries are rechargeable up to 500 times
- 10 hour charge to 90% battery capacity
- AC charger included for continued use
- Packs to a compact size (22") for storage
- 90° swivel for optimum peripheral illumination
- **Dimensions:** 22" Lx6.5"Wx11"H
- **Weight:** 25 lbs. (11.3 kg) with batteries

REMOTE AREA LIGHTING SYSTEM

Using solid-state mounted LEDs coupled with a thermally efficient light engine and the Pelican Protector™ Case. The Remote Area Lighting Systems (RALS) gives the user the ultimate maintenance free portable floodlight station to get the job done efficiently, safely and on time. The RALS houses two of it's light heads and it's multi-stage charger for that total self-contained convenience. It is also equipped with a telescopic handle and rugged wheels for ease of transport. Includes a convenient low battery warning system and waterproof activation switch.

- High Flux LED, 50,000 hr. life
- **Lumen Value:** 3,000 (low) and 6,000 (high)
- 2 lamp heads, 6 LEDs per head
- 90° beam spread
- 2 brightness settings
- 12v rechargeable battery, 9 hr. charge time
- **Battery Burn Time:** 14 hrs. (low), 7 hrs. (high) from full discharge
- 500 cycle battery life
- Low battery warning
- **Head Dimensions:** 6.5" L x 7.87" W x 2.56" D
- **Cord Length:** 13.78"
- **Weight:** 51 lbs.

PPE GEAR WASHER EXTRACTORS

Fire contaminants can expose firefighters to cancer-causing carcinogens and eventually weaken the gear meant to protect them. Blood and body fluids can further expose them to deadly diseases. That's why the NFPA recommends washing soiled turnout gear immediately after exposure to fire or body fluids. The NFPA also warns against cleaning gear in homes or public laundries to avoid cross-contamination. Continental washer-extractors properly clean turnout gear, removing contaminants and biohazards while preserving fabric integrity.

They offer a compact design, so machines fit into unconventional locations like truck bays and utility rooms. The programmable control ensures water temperature, extract speed, cleaning chemicals, fill levels and cycle times are perfectly suited to properly clean and decontaminate turnout gear according to manufacturer recommendations.

Continental washer-extractors are designed with the future in mind, and are programmable to handle future changes in protective fabrics. So, fire departments can feel secure knowing their investment will handle their laundry needs today and tomorrow.

CITROSQUEEZE® PPE/TURNOUT GEAR CLEANER

Preserves the quality of gear with Citrosqueeze®, the turnout gear cleaner used by some of the largest US fire departments and by authorized turnout gear cleaning and repair centers nationwide. Citrosqueeze® is formulated to remove the harmful and stubborn hydrocarbons and soils resulting from fires and chemical spills while maintaining the integrity of turnout gear. *Citrosqueeze® PPE cleaner is tested and proven safe by Dupont, Southern Mills, W.L. Gore & Asscos. (Germany), 3M Products, Safety Comments International, Inc., and CIBA Specialty Chemicals.*

VERSITOL SOLUTION FOR ALL WASHING MACHINES

A highly-effective yet gentle multi-purpose cleaner. Safe for all automatic washing machines. Removes smoke residue from all washable fabrics and surfaces, especially from expensive turnout gear containing Kevlar®, Nomex®, Duck, Nylon, PBI, Hypalon, Nitrile Rubber and Fiberglass. *Ship. wt. 37 lbs.*

Cat#	Description	Volume	Price
AC258	Versitol Solution	1 gal.	\$135.95/Case of 4

SC-14® ALL PURPOSE STATION CLEANER/DEGREASE

SC-14® is a Ready-to-Use, all-purpose, cleaner degreaser that is biodegradable, near-neutral pH, environmentally safe and user friendly. It can clean tough grease, grime, soil and hydrocarbons and yet is safe for use on paint, diamond plate and polished metals. SC-14 does not contain caustic ingredients such as Sodium Hydroxide or Sodium Metasilicate used in other cleaners that can permanently damage and dull your tools, metal & painted surfaces, diamond plate, automobiles and trucks.

WET MITIGATION RINSE

Fire-Dex Wet Mitigation Rinse is used for on-scene preliminary gross decontamination of PPE. Remove particulates away from the firefighter's turnout gear to mitigate cross-contamination. Easily rinses, leaving no residue on the turnout ensemble.

- Meets NFPA 1851 pH requirements
- No fragrance, no VOC
- Safe for the environment
- pH = 7.0 (neutral)

Cat#	Description	Volume	Price
BP657	Wet Mitigation Rinse	1 gal.	\$74.95/4 Jugs

TURNOUT GEAR WASH DETERGENT

Developed specifically for Structural Turnouts and other fire rated Personal Protective Equipment (PPE) garments, Turnout Gear Wash has been formulated for the safe cleaning of advanced FR fabrics, reflective materials and hardware used on PPE.

Turnout Gear Wash is effective at removing heavy metals and semivolatile organic compounds when following recommended washing procedures.

FEATURES:

- pH = 9.2: Meets the current requirements of NFPA 1851 standard for cleaning solutions
- Environmentally friendly and contains no phosphates
- Will not corrode metal hardware
- Will not degrade the retro-reflectivity of reflective trim
- Will not degrade fire rated protective fabrics
- Passed the recommended tests for outer shell, moisture barrier and thermal liner

DUAL PURPOSE DRYER

DRIES HOSE OR CLOTHING IN JUST A FEW HOURS

The Dual Purpose Dryer allows hose and turnout gear to be dried quickly and safely, minimizing shrinkage while ensuring a rapid return to service. When emergencies arise, you want your equipment ready to go, so it's essential to get hose and turnout gear back into service as quickly as possible.

Our high capacity drying cabinet handles up to 500' of 5" hose. Ten removable galvanized steel shelves permit other items to be dried in the cabinet, and a 12-hr. timer shuts down the dryer automatically.

You'll use less energy and never overheat and damage the hose. Call for detailed specifications. *Ship. wt. 1,100 lbs.*

MAXXDRYXL™ BOOT, SHOE AND GLOVE DRYER

ELIMINATES ODOR! DRIES IN ABOUT 1 HOUR!™

The MaxxDryXL™ uses DryComfort™ "Forced Air" technology to gently dry four garments in about an hour. MaxxDryXL™ works quickly to remove moisture, perspiration, bacteria and mold - the primary cause of odor! A totally flexible multi-dryer dries a combination of tall boots and short boots, boots and gloves, two pair of gloves and requires no additional attachments. Whether using heat or not, the MaxxDryXL™ will not harm materials.

- DryComfort™ "Forced Air" Technology
- 4 durable air chambers for simultaneously drying
- Kills odor
- High impact lightweight construction
- Heat / no heat switch
- 3 hour timer
- Quiet: 80,000 hour-rated whisper quiet rotary blower
- Dry Time: Approximately 1 - 2 hours
- Power: 120V AC household outlet
- Dimensions: 9"Dx10.75"Hx9"W
- Max. Temperature: 105° F / 40.5° C
- Cord: 6' length
- 1-year warranty

GEAR NOT INCLUDED

BL620 MaxxDryXL™ Boot, Shoe and Glove Dryer \$84.95

CYCLONE DRYING SYSTEMS

For all firefighters who need fast effective drying of their gloves, boots and turnout gear. Heated air blows through vented drying arms to quickly dry wet gear from the inside out - providing comfort, eliminating mildew and ensuring safety in high heat situations. Boots and gloves are dry in an hour. With drying arm extensions to reach further down the arms of coats or the legs of pants the BK402 can dry 1 set of wet turnout gear in about 2 hours, a fraction of the normal time. Cyclone Dryers can be plugged into an existing 120v wall outlet and once anchored to standard 16" wall stud centers extend less than 14" from the wall. Fit with an efficient, custom motor, these dryers boast very low operating costs and unbelievably low noise levels. A digital 120-minute timer allows you to set the time needed for drying and forget about it.

- Weight: 65 lbs.
- Dimensions: 17¼"Wx66"Hx13½"D

BK059 Cyclone Boot/Glove Drying System \$949.95
BK402 Cyclone w/ Drying Arm Extensions for Turnout Gear \$1,019.95

HANG-DRY®

Hang-Dry® is used to dry many different suits and gear with the use of a high-powered fan that is built into the unit.

- Built out of strong plastic and features a 12' cord
- Supports around 100 lbs.
- Handle transporting convenience
- Plastic tubular shape forces the air through the suit with pressure
- Fan features a die-cast aluminum housing, steel impeller directly welded onto the rotor, ball bearing
- **Motor Output:** 250.1 CFM
- 5-year warranty, activated on date of purchase

FAST DRY COAT HANGER

Keeps expensive coats organized and dry! Gear dries quicker because air circulates better inside the garment, allowing fabric-fibers to dry faster. Specify open or closed hook style. *Ship wt. 1 lb.*

AF072 Fast Dry Coat Hanger \$13.95

TOUGH HANGER XL

The Tough Hanger XL is a significant improvement over any standard hanger. Tough Hanger carries a variety of clothing and equipment on a sturdy frame that adapts to your needs. A large, full-shoulder span provides a stable platform for bulkier and heavier items. Tough Hangers support over 150 pounds of weight, and have an integrated carrying handle that allows for a complete hand grip, and better stability for heavier items and transport.

DRY GEAR FASTER!

BP397 Tough Hanger XL \$16.95

REDLINE MOBILE GEAR WASHING AND INSPECTION

THE ONLY ON PREMISE GEAR CLEANING AND INSPECTION COMPANY

RedLine works with first responders to professionally clean and inspect personal protective equipment in accordance with NFPA 1851 standards directly at your station or base. RedLine's state-of-the-art Mobile Extraction Unit (MEU) is the most efficient cleaning service on the market.

INNER SHELL PPE GEAR EXTRACTOR

This custom washer carefully decontaminates the inner shells of PPE without breaking down the materials. Water temperature is optimized to maximize cleaning without harming material composition

OUTER SHELL PPE GEAR EXTRACTOR

Firefighter turnout gear PPE is particularly sensitive to cleaning therefore custom units have been designed to decontaminate while ensuring maximum controlled environment and safety of gear.

TUMBLE DRYER FOR INNER SHELLS

These durable commercial laundry machines achieve the perfect balance between drying temperature, airflow pattern, and usable cylinder space for optimal drying results.

**CONTACT DARLEY
AT 800-323-0244
TO SCHEDULE AN
APPOINTMENT**

OUTER SHELL DRYING CABINETS

These custom cabinets allow controlled ventilation for careful drying of sensitive outer-shell items including uniform, helmets, and boots.

SELF-CONTAINED WATER SUPPLY AND STORAGE

Redline fleet uses two water tanks for storage of clean and gray water eliminating environmental issues and need for onsite permits and disposal of decontaminated materials.

ULTRASONIC CLEANING UNIT

Portable ultrasonic cleaner is designed specifically for PPE marketplace. The unit processes multiple helmets or boots and meets NFPA requirements.

SOLO RESCUE DECON WASHER

THE WORLD'S FIRST SCBA DECON WASHER

The backbone of the system is the heavy-duty basket, which is used at all times. The generously-sized wash tank of the Solo Rescue is a vital part of its strength. Together with a unique rotating basket system, this provides a design that optimizes the water flow to reach even the most inaccessible parts of your equipment without compromising its function and quality. The Solo Rescue offers the easiest, quickest, and safest way of cleaning your contaminated PPE.

- 14 SCBAs per hour
- 21 helmets per hour
- 42 air cylinders per hour
- 56 facepieces per hour
- 60 pairs of boots per hour
- 120 pairs of gloves per hour

FIRE STATION REELS

SPRING DRIVEN HEAVY DUTY HOSE REEL

The SH Series "Super Hub™" spring driven hose reels have a long history of dependable performance. The larger chassis and frame accommodate longer lengths and larger diameters of hose. Coxreels' original Super Hub™ dual axle support system increases the stability during operation, reduces vibration, and strengthens the structural integrity of the reel. Model equipped with EZ-Coil® System that provided controlled hose retraction reducing the rewind speed by as much as 80% over conventional reels.

NEW

3/8" I.D., 50' HOSE, 300 PSI
BN733 Spring Driven Heavy Duty Hose Reel \$493.95

DUAL PURPOSE AIR/ELECTRIC REEL

The C Series "Combination" spring driven air hose/electric cord reels are two reels in one compact assembly. They are perfect for applications that require pneumatic air and an electrical power feed. The single expanded mounting base creates stability and adds to the convenience of one mounting pattern.

NEW

SINGLE INDUSTRIAL RECEPTACLE
3/8" I.D., 50' HOSE, 300 PSI, 50' CORD, 12 AWG
BN734 Dual Purpose Air/Electric Reel \$878.95

POWER CORD REEL

The PC Series spring driven "Power Cord" reels are heavy duty, industrial grade power sources. They replace tangled extension cords and self-retract to increase safety, productivity, and efficiency. Modeled after the P and SH Series, the PC Series is designed for long-lasting, hassle-free performance even under the most demanding conditions.

NEW

SINGLE INDUSTRIAL RECEPTACLE
50' CORD, 12 AWG
BN735 Power Cord Reel \$522.95

HAND CRANK HOSE REEL

The 1125 Series hand crank hose reels have the features demanded by industry professionals. The industry preferred design features a sturdy one piece all welded "A" frame base, low profile outlet riser and open drum slot design provides a non-crimping, flat smooth hose wrap.

NEW

SLEDGE HAMMER BRACKET

Designed for use with 2 to 16 lb. Double Face Sledges and 1 to 3 lb. Dead Blow Hammers. Bracket is 2³/₄"Hx3"D - expandable from 5¹/₄" to 8³/₄"W to fit various-sized tools. Made of stainless steel for years of lasting service. *Ship. wt. 3 lbs.*

AS325	Sledge Hammer Bracket	\$93.95
-------	-----------------------	---------

AXE HOLDER BRACKET

Designed for use with 6-pound flat or pick head axe. Bracket is 5"Hx2¹/₈"D. Expands from 7¹/₄" to 8¹/₄"W to fit most axeheads. 2¹/₂"Hx1¹/₄"W slot in end for pick to protrude. Axe blade protected by a replaceable plastic sleeve. Pinned handle holder accepts up to 2⁵/₁₆"W handle. Stainless steel for trouble-free service. *Ship. wt. 4 lbs.*

AS332

AS325

AS331	Axe Holder Bracket	\$171.95
AS332	Axe Wall Mounting Bracket	\$159.95

QUIC-MOUNT® BOLT CUTTER BRACKET

Designed for use with 18" to 36" bolt cutters with adjustable stop and pin. Utility straps hold the bolt cutter handles firmly in place. Comes with one fixed strap and one variable strap. *Ship. wt. 3 lbs.*

AR158	Quic-Mount® Bolt Cutter Bracket	\$96.95
-------	---------------------------------	---------

ROUND GAS CAN MOUNT

Round gas can mount was designed for safety cans with 9" and 13" diameter bases. The safety can is held in place by a 1" nylon safety strap with a quick-release buckle. *Ship. wt. 7 lbs.*

CAN NOT INCLUDED

AS328	Gas Can Mount Up to 2 Gal.	9 ³ / ₄ "IDx2 ¹ / ₈ "D	\$97.95
BD079	Gas Can Mount Up to 5 Gal.	13 ¹ / ₂ "IDx2 ¹ / ₈ "D	\$114.95

CHAIN SAW MOUNT

Mount chain saws, abrasive cut-off saws and other gasoline engine tools on these specially designed brackets. Absorbent pad collects fluids and may be changed as required. Safety strap secures the saw on the bracket. *Ship. wt. 10-12 lbs.*

SAW NOT INCLUDED

AS326	Large Mount - 11 ¹ / ₂ "x17 ¹ / ₂ "	\$161.95
AS327	Small Mount - 10"x15"	\$156.95

QUIC-BAR®/AXE MOUNTING BRACKET SET

Brackets may be mounted to store the bar and axe combination either vertically or horizontally. Variable straps secure the tools for carrying. Add an adjustable shoulder strap and you are ready for business. *Ship. wt. 7 lbs.*

TOOLS NOT INCLUDED

AS329	Quic-Bar/Axe Mounting Bracket Set w/Stop	\$204.95
AS330	Straps for Quic-Bar® & Axe Mounting Bracket	\$78.95

STACKABLE SCENE LIGHT BRACKET

The Stackable Scene Light Bracket features a flexible draw strap that gently but firmly presses the scene light against the backplate, preventing shifting and tilting during transport.

- One bracket can secure multiple stacked scene lights
- Flexible draw strap secures the scene light against the backplate. Strap falls out of the way when not in use.
- Black, powder-coated steel base
- Heavy-duty rubber strap
- Durable steel guard minimizes bouncing on rough terrain
- Sleek, low-profile design requires minimal additional compartment space
- Mounts to virtually any horizontal, flat surface
- Dimensions: 17" L x 12³/₄" W x 2¹/₁₆" H

SCENE LIGHTS
SOLD SEPARATELY

BP542 Stackable Scene Light Bracket

\$112.95

PLASTIC AIR CYLINDER & EXTINGUISHER CRADLE WITH TIE-DOWN STRAP

FEATURES

- Includes one plastic cradle and tie-down strap with easy-to-release buckle. Strap loops around the cylinder and tray for added security
- Great for shelves and side compartments
- Cradle measures 20¹/₂" L x 6⁷/₁₆" W x 1¹⁹/₃₂" H

AIR CYLINDER
SOLD SEPARATELY

BP546 Plastic Air Cylinder & Extinguisher Cradle

HORIZONTAL MOUNTING POSTS

Want to eliminate the head-ache of stacking 1 1/2"-2 1/2" couplings, adapters and accessories? These remarkably simple and unique Horizontal Mounting Posts for double male or female configurations are designed to save cabinet storage space and improve overall truck neatness and efficiency. With no stacking, you can instantly spot the size adapter or coupling you need. Special stainless steel spring clip provides secure holding yet quick-action release. Durable construction materials will not corrode, swell or crack. Single screw mounting takes only minutes.

BE304	Double Female 1 1/2"	\$28.95
BE305	Double Male 1 1/2"	\$28.95
BE306	Double Female 2 1/2"	\$36.95
BE307	Double Male 2 1/2"	\$36.95

STORZ HARDCOAT MOUNTING PLATES

High-tensile aluminum construction with anodized finish to resist abrasion and corrosion. *Ship wt. 1 lb.*

AF63801	4" Plate	\$42.95
AF63802	5" Plate	\$43.95

STORZ LOK

- Corrosion-free
- Mounts in any position
- **Strong:** Resistant to heat and cold
- **Fast Acting:** Mount or dismount
- **Easy-to-use:** No moving parts
- **Self-locking:** The automatic lock on the coupling locks it in place
- **Rattle Resistant:** The "quiet mount" no metal-to-metal contact

CHIEF CHARGER 40 AMP TRIPLE OUTPUT AUTOMATIC BATTERY CHARGER

NEW

FEATURES:

- Triple battery bank
- Built-in touch screen display
- Dual battery type technology - allows for two dissimilar battery chemistries charging at the same time
- CAN Bus enabled connectivity
- IP32 rated for greater ingress protection
- Configurable for 3-step or float charging
- Optional remote touch display available
- Accommodates Flooded, Gelled Electrolyte, AGM, Odyssey®, Lithium Iron Phosphate (LFP) and customized
- Pump plus (20 Aux) output
- Rotating mounting feet

SPECS:

- Weight: 7.9 lbs.
- Dimensions: 16 1/2" Lx9"Wx3.7"H

INVERTER CHARGER AUTO POWER 1500

NEW

FEATURES:

- Inverter: 1500 Watt Continuous / 4500 Watt Surge
- Charger: 55 Amps Max
- Pure sine wave
- Built-in automatic load transfer relay
- Built-in high output 3 stage charger (1-hr boost) for rapid battery replenishment - programmable for various battery types; gel, lead acid, or AGM battery
- Automatic over temperature shutdown and AC output circuit breakers
- Charger will recharge depleted batteries with <1V
- Automatic low battery shutdown at 10.5 VDC with in-rush delay
- Power save mode feature: automatically detects when a load is not connected to minimize energy consumption
- Heavy duty powder coated aluminum construction and conformal coated circuitry
- Built to meet NFPA 1917 (KKK) Specification
- Works with Super Auto Eject with Deluxe Covers
- UL 458 Listed

SPECS:

- Weight: 38 1/2 lbs.
- Dimensions: 15 1/4" Lx11 1/2" Wx7.125" H

DUAL PORT USB-C & USB-A CHARGING PORT, 12/24V

NEW

- Quick and easy way to recharge electronic devices in a vehicle
- 63 watt max output allows charging of two devices at the same time USB-C 45 watts USB-A 18 watts max
- Built-in LED indicator indicates device is powered
- Designed for easy installation in vehicle switch panels
- Reverse polarity protected
- Can be connected to 12 or 24V switched ignition or directly to battery

SPECS:

- Weight: 0.1 lbs.
- Dimensions: 1.73" Lx0.98" Wx1.73" D

BL716	Dual Port USB-C & USB-A	\$103.95
-------	-------------------------	----------

AUTO CHARGE 11-FOR DUAL BATTERIES

Auto Charge 11 is a fully automatic battery charger for vehicles with dual battery systems. The unit contains two completely independent chargers to sense and control the current to the batteries. Thus parasitic loads on one battery have no effect on the second battery. Total output current is limited to protect the charger but may be supplied to either battery if the adjacent battery does not require it. Normally the current output is proportioned between batteries as required. Comes complete with charging indicator panel. 3-year warranty. 120v input. *Ship. wt. 12 lbs.*

SPECIFY VOLTAGE: 6, 12, or 24

Y644 Auto Charge 11

\$552.95

AUTO CHARGE 2000 KIT

COMPLETE CHARGING SYSTEM AT AN AFFORDABLE PRICE

The Auto Charge 2000 with Parasitic Load Compensation (PLC) is a compact, microprocessor controlled, completely automatic, dual channel battery charger designed for vehicles with a dual battery system. The PLC charger is designed to withstand the shock and vibration encountered by vehicle mounted equipment. This new Parasitic Load Compensation feature is designed especially to meet the heavy duty requirements of emergency vehicles. Most emergency vehicles have many parasitic loads on their systems (flash lights, gas detectors, computers, monitoring systems and other items) that can trick a standard 3-step charger into over charging the batteries. Parasitic load compensation allows you to input the total number of parasitic load amps on the vehicle. Then the charger will shift the absorption stage set point so the battery voltage will drop to the float voltage when the desired current is reached. In short the parasitic loads are invisible to the charger. This will lead to a longer battery life and no overcharging or overheating. *Ship. wt. 11 lbs.*

- Built-in battery saver output
- 3 hour safety timer while in 3-step mode
- Dual bar graph display

AC905 Auto Charge 2000 Kit

\$1,044.95

PUMP PLUS

AIR COMPRESSOR/BATTERY CHARGER PACKAGE

The Pump Plus is a small air compressor and a completely automatic battery charger packaged together. The air compressor is designed to be mounted on vehicles with air brakes to maintain the air pressure in the air brake system while the vehicle is not in use. A pressure switch senses the system pressure and operates the compressor whenever the pressure drops below a predetermined level. Battery charger is completely automatic and is for vehicles with dual battery systems. The batteries are automatically charged and maintain full charge while still being isolated from each other. This unit contains two independent chargers to sense and control the current to the batteries. Designed to mount directly on the vehicle. 12v compressor has 1-yr. warranty; Battery Charger comes with 3-yr. warranty. *Ship. wt. 20 lbs.*

AUTOMATIC DUAL BATTERY CHARGER

Z112A	Pump Plus HO Package	\$1,277.95

INVIEW 360 HD

The inView 360 HD is a revolutionary around vehicle monitoring system that eliminates blind spots by giving drivers a real-time, 360° view around the apparatus. The system increases visibility around the apparatus while also providing increased safety, protection from potential liabilities, and other advanced vehicle tracking capabilities.

VIDEO ONLINE

PACKAGE INCLUDES:

- 4 - HD Ultrawide 1080p cameras
- 1 - ECU with built in DVR (SD cards not included)
- 1 - Standard cable set (note: for longer vehicles an extension cable may be needed for rear camera)
- 1 - External GPS receiver
- 1 - Green pushbutton - screen control
- 1 - Red pushbutton - event
- 1 - Black pushbutton - overlay
- Standard definition splitter
- IR sensor
- Remote control

BP560	inView 360™ HD	\$1,563.95
-------	----------------	------------

SUPER AUTO EJECT & AUTO EJECT

Super Auto Eject is a completely sealed automatic power line disconnect. This prevents contamination of the mechanism by road dirt and insures long, reliable life. Comes with a weatherproof cover that is spring loaded to close, preventing water from entering. A solenoid wired to the vehicle's starter is energized when the engine is started. This instantaneously drives the plug from the receptacle. This simple, reliable device eliminates the broken cables which result when drivers forget to remove the shore line when driving away. The Auto Eject comes without sealed housing. All units come with 120v AC connector. Both models are weatherproof. *Ship. wt. 2 lbs.*

SUPER AUTO EJECT
REAR HOUSING INCLUDED

AUTO EJECT
REAR HOUSING
NOT INCLUDED

AUTOMATIC AIR EJECT

This simple, reliable, solid brass device permits pressurizing the vehicle's air pressure system from an external source. Automatically, when the engine is started, the air line is disconnected. Comes with the mating connector, check valve and simple installation instructions. Full 2-year warranty. *Ship. wt. 3 lbs.*

- Automatically disconnects air line when vehicle is started
- Eliminates broken air lines

AB034	Automatic Air Eject	\$331.95
AG133	Weatherproof Adapter Kit	\$68.95

TANKVISION PRO 300

The TankVision Pro is the fire industry's first multi-color tank level display. It uses a pressure sensor to sense the amount of liquid in the tank and can be calibrated to accurately display the volume in tanks of all shapes and sizes. *Ship. wt. 3 lbs.*

NEW

- Various Programmable multi-color tank level displays available
- More accurate tank level display
- Fractional scale standard, also available with percentage scale
- 9 LED level indicators with fractional scale
- 10 LED level indicators with percentage scale
- Programmable brightness control
- Full 180° wide-view, easy to see display
- The TankVision Pro is available for water, class A foam, and class B foam tanks
- Each display has a distinctive color and style

AR317	TankVision Pro 300 Gauge Kit, with Master Display Sensor and 10' Cable	\$618.95
AS309	TankVision Pro In-Cab Mini Display for Water	\$234.75
AS312	TankVision Pro Remote Driver for "Large Light" Display	\$368.95

HAAS ALERT: COLLISION PREVENTION COLLISION PREVENTION, SAFETY CLOUD® SERVICE

The HA-5 enables collision prevention service that delivers real-time digital alerts to let motorists know to slow down and move over for crews and apparatus any time the emergency flashing lights or E-Master is engaged. Motorists receive advanced warning, providing them more time to make safer, smarter driving decisions and comply with "Move Over" laws. When emergency crews are on-scene and responding, vital safety and road hazard information is sent to drivers via navigation apps and in-vehicle systems. **Pricing does not reflect software subscription. Contact Darley for fleet pricing.*

SPECIFICATIONS:

- Dimensions: 5.4"x2.7"x1.3"
- Cellular: 3G or 4G LTE
- Input Voltage - Power: 12.5V - 15V
- Input Voltage - Flashing Lights Main Wire (E-Master): 12V - 15V
- Amperage: 120 mA peak draw
- Operating Temperature Range: -40° to 85°C
- Weight: 7 oz.

FEATURES:

- Connects any flashing emergency lights
- Cellular, GPS, real-time Safety Cloud® connectivity
- 100% passive to crews and personnel
- Automatic low voltage shut-off
- No data plan required

LIQUID-FILLED GAUGES

ELIMINATES NEEDLE PULSATION FOR ACCURATE AND EASY READINGS

Crystal-clear Interlube keeps needle fluctuation to a minimum. The SUBZ II freeze-proof isolator keeps gauge working down to -40°F. It's also weather tight so there is no condensation; stops corrosion. Lubricates internal parts, stops wear, maintains accuracy under temperature fluctuations. Zytel (nylon) case with bright stainless steel trim ring has plexiglass lens. 6" gauge has cast aluminum case. Gauges measure 0-600 psi and up to 30" vacuum. *Ship. wt. 5 lbs.*

**MAGNESIUM ANODE POLE
ATTRACTS RUST & CORROSION**

Sacrificial catalytic action of these magnesium anodes can help to prevent rust or corrosion from attacking your booster tank. Threaded mounting plate suspends the 3/4"x32" solid anode in the tank water. Bar is easily cut to fit tanks less than 32" deep. Comes with flange and gasket. *Ship. wt. 3 lbs.*

U971 Magnesium Anode Pole \$63.95

GROUND SWEEP NOZZLE

Designed for use in fixed system applications. Adjustable nozzles can be pre-set at the factory or set in the field at time of installation. The fog pattern, which can be set up to 120°, can easily be set or adjusted at the job site. *Ship. wt. 1 lb.*

**SPECIFY MALE OR FEMALE
NPT (TAPERED)**

Z321 3/4" Fixed Nozzle \$206.95
Z322 1" Fixed Nozzle \$230.95

MATTYDALE SWIVEL

Rugged cast brass elbow for use with mattydale hose beds. 1 1/2" NPT female free swivel inlet with 1 1/2" NST male outlet. Rough brass finish. *Ship. wt. 4 lbs.*

U307A 1 1/2" NPT x 1 1/2" NST \$122.95

DARLEY HEAT EXCHANGER

Can be installed in the engine cooling system of any pumper. Instead of going directly into the engine cooling system, mixing with the anti-freeze solution, diluting it and then going out through the radiator overflow pipe, the flow of cool water from the pump bypasses through the condenser coils in the Heat Exchanger. The liquid in the cooling system circulates around the condenser coils and is completely cooled. Prevents loss of anti-freeze solution. Measures 24" long. *Ship. wt. 10 lbs.*

F618 Darley Heat Exchanger \$278.95

**RADIATOR HEAT EXCHANGER
FITS BETWEEN RADIATOR HOSES**

Does the same job as our F618 Heat Exchanger but fits between the radiator hoses to make installation easier. Only additional connections required are tube lines from pump discharge to return line to suction side of pump. Measures 9 1/2" long. *Ship. wt. 9 lbs.*

SPECIFY SIZE: 1 3/4", 2" or 2 1/4"

R592A Radiator Heat Exchanger \$265.95

VERNIER THROTTLE CONTROL

Easily installed throttle designed for apparatus. Provides both instant and micro meter fine adjustment together with a locking action which is not affected by vibration while pumping. Throttles are shipped complete, ready-to-install in 15' or 20' lengths. *Ship. wt. 5 lbs.*

**NEW
LOW
PRICE**

F62101 15' Vernier Throttle Control \$51.95

ROLLER AND SPOOL ASSEMBLY

Speed your hose handling and reduce wear on hose. Buffed stainless steel rollers. Assembly includes roller, 2 blocks, 2 spools, bearings and all fastenings. Length of roller should be the same as the reel drum length. (Larger sizes are available for an extra charge). *Ship. wt. 13 lbs.*

SPECIFY LENGTH: Up to 38"

R698	Roller and Spool Assembly	\$154.95
------	---------------------------	----------

SWIVEL JOINTS

Pressure balanced design for low rotation torque. Hardened carbon steel barrel for strength and long wear. NPT threads. *Ship. wt. 3 lbs.*

AF774	1 1/2" Swivel Joint	\$264.95
T961	1" Swivel Joint	\$119.95
T963	1" Seal Kit for T961	\$49.95

DROP-IN STYLE BOOSTER REEL

These reels are an excellent choice for drop-in units or smaller apparatus compartments where space is a premium. They're built to the same design standards as our larger reels, just lighter in weight and more compact. Available in either electric or crank rewind. Reels will hold up to 100' of 1" or 200' of 3/4" booster hose. **Dimensions:** (E) Crank/16.5", (E) Elec/19", (F) Crank/46.62", (F) Elec/39.75", (G) 18.12".

AJ513	Drop-In Style Booster Reel/Electric	\$829.95
AJ514	Drop-In Style Booster Reel/Crank	\$414.95

BRACKETS, TUBING & GRAB RAILS

The F615 Surface Mount End Bracket bolts to any horizontal or vertical flat surface. The F617 Center Mount Bracket is used in the center of long railings for support. The AB044 Slip-Resistant Grab Rail is extruded aluminum tubing with black rubber inserts. *Ship. wt. 1 lb.*

AB044: SPECIFY LENGTH NEEDED

F615	Surface Mount End Bracket	\$14.95/ea.
F617	Center Mount Bracket	\$13.95/ea.
AB044	Aluminum Slip-Resistant Grab Rail	\$16.95/ft.

DECORATIVE CHROME-PLATED FIRE BELL

Beautiful, large 12" Fire Bell, cast in bronze with polished chrome finish. Comes with stand and clapper. Available with your choice of decorative ornamental top eagle or acorn nut. *Ship. wt. 40 lbs.*

R181	12" Bell with Eagle, Chrome-Plated	\$1,561.95
R182	12" Bell with Acorn, Chrome-Plated	\$1,637.95

QUIC-CHOC® FOLDING WHEEL CHOCK

This new folding aluminum wheel chock requires only a 6"Hx10 1/2"W x20 3/8"D area for storage. Can be stored under fire or rescue vehicles. The collapsible design allows the chock to lock in the open position simply by pulling out the back casting and pushing down. Just release the safety latch to close back into the folding position. Convenient carrying handle makes transport and placement of chock a snap. Made of high-tensile strength aluminum with rear opening, hand grip and a double row of rugged teeth to grip almost any surface. Meets applicable NFPA standards.

BA159 CHOC NOT INCLUDED

REQUIRES LESS STORAGE SPACE

- Can be used with tires up to 44" in diameter in the open position

AG083	Folding Wheel Chock	\$272.95
AG084	Folding Wheel Chock Horizontal Holder	\$109.95

CONVERT YOUR WHEEL CHOCK FOR WILDLAND FIRE FIGHTING

BA159	Wildlands Adapter for Folding Wheel Chock	\$67.95
BA160	Wildlands Adapter Horizontal Holder	\$186.95

EMERGENCY STUTTER TONE AIRHORN

Emergency vehicles can travel with more safety when equipped with emergency airhorns emitting directional, machine gun series of blasts. Operates on pressure up to 125 lbs. controlled by an electric valve. Connects directly to air brake junction box. Chrome plated; measures 24 1/2" with 6" flare. *Ship. wt. 7 lbs.*

AA957	Emergency Stutter Tone Airhorn	\$495.95
-------	--------------------------------	----------

OVERSIZED FOLDING STEPS

Easily installed on apparatus wherever a convenient assist step is needed. Folds up flush against mounting surface. Made of high-strength die cast, zinc/aluminum alloy with corrugated safety step to prevent slipping. *Ship. wt. 1 lb.*

LITTLE GIANT DEFENDER™ LADDER

The Little Giant Defender™ was specifically engineered for firefighters who need speed and strength in a rapid-response portable ladder system.

- Reflective, heat sensitive labels
- Easy-to-use Rock Lock® adjuster
- Built-in dual Ratchet™ levers. Adjust up to 8.5" on each side over uneven ground
- Tip & Glide™ wheels
- Wide-flared extension ladder for improved side-tip stability
- Adapts to almost any situation, offering a safe, stable climbing solution
- Capable of dozens of configurations, including A-frame, staircase, extension, and 90°
- Exceeds all OSHA & ANSI standards. Certified to NFPA requirements 1931/1932
- Rated to 300 lbs.
- Built-in dual Ratchet Levelers™ adjust up to 8.5" on each side over uneven ground
- Counts as ISO footage on apparatus

Cat#	Description	Stepladder		Extension		Wt.	Price
		Min Ht.	Max Ht.	Min Ht.	Max Ht.		
BN613	17' Defender™ Ladder	4'	7'	9'	15'	39 lbs.	\$566.95
BN614	22' Defender™ Ladder	5'	9'	11'	19'	47 lbs.	\$690.95

LITTLE GIANT OVERHAUL LADDER

Little Giant Ladder Overhaul Ladder extends to 17', but it is small enough to carry into an elevator, up a flight of stairs, or around tight corners. The ladder is just 47" tall when retracted. Articulating ladder systems that meet the requirements of NFPA 1901-2009.

- Safety Insight™ photo-luminescent glowing rungs
- Patented Rock Lock™ adjusters
- Wide-stance leg levelers adjust over uneven ground
- Tip & Glide™ wheels
- 90° position for extraction rescue
- Access uneven surfaces, staircases, and hard-to-reach places
- Ratchet Levelers™
- Roof and rafter hooks
- Dual-position spike feet
- Counts as ISO footage on apparatus

All ladders over 8' are shipped via motor freight. All orders **MUST BE** inspected before acceptance upon delivery.

EMERGENCY LIGHTS AND SIRENS

FOCUS LAMPHEAD

VERSATILE LOW PROFILE LAMPHEAD. COMPACT. DURABLE.

DON'T WASTE PRECIOUS LIGHT

The high intensity FOCUS lamphead does not waste precious light. It is designed to focus 100% of the light produced into the area where it is needed. The FOCUS is built tough and has a compact design that allows it to be mounted in places that traditional lighting fixtures do not fit.

BREAKTHROUGH IN SCENE LIGHTING

The FOCUS lamphead was designed to light up the emergency scene evenly, putting 100% of the light on the scene. A high percentage of the light produced by a conventional light fixture is wasted away from the emergency scene and gets dim at a distance. The FOCUS lamphead uses a uniquely designed patented reflector to eliminate wasted light. The curved reflector has over 50 parabolic surfaces that redirect all of the light produced and focus it evenly into the action areas. This allows the FOCUS to put all of the light onto the scene, providing more light close to the vehicle as well as being brighter at a distance.

- AM262: Top mount, top raise pole with FOCUS lamphead
- AM263: Side mount, bottom raise pole with FOCUS lamphead
- AM266: FOCUS lamphead only

SPECTRA LED LAMPHEAD SERIES

THE BRIGHTEST LED SCENE LIGHTS AVAILABLE.

The SPECTRA LED lamphead outputs an impressive 20,000 lumens of super bright white light. The advanced lens and unique arrangement of LEDs generates a uniform flood and spot combination light pattern. This light pattern provides enhanced work area visibility as well as illuminates objects at a farther distance. The NEW SPECTRA MAX outputs an unmatched 28,000 lumens of ultrabright light making it the brightest LED scene light available. All SPECTRA series lampheads can be used with any FRC telescopic poles, tripods, non-telescopic mounts, and brow mounts.

- Available as 20,000 lumens SPECTRA or 28,000 lumens SPECTRA MAX
- Unique arrangement of LEDs provides more light in a compact lamphead
- Models available in 120/240 VAC or 12/24 VDC
- Whiter light, closer to natural sunlight
- Uniform high quality white light with the widest light pattern
- Long operating hours, rated at 50,000 hours
- Instant-on at full intensity
- 5-year LED lighting warranty

BL749	SPECTRA LED Lamphead 120 VAC 20k Lumens	\$1,558.95

STREAMLIGHT™ PORTABLE SCENE LIGHT II 10,000 LUMENS, WATERPROOF, STACKABLE

Turn to a higher power with the Portable Scene Light II. With zero deployment time, it features a compact footprint, a 360° rotating head, and it's stackable for "light tower" capability with multi-level lighting. *Dimensions: 16"x11"x12".*

- 18 LEDs within wide pattern parabolic reflectors produce a smooth, high lumen flood pattern
- Five intensity levels correspond to desired run time
- 360° rotating head
- High-impact, thermoplastic housing mounted in a virtually indestructible alloy steel frame IPX7 rated; waterproof to 1m for 30 minutes
- Lithium ion batteries charge in 6 hours
- Batteries will continue to charge while plugged into an AC or DC power source
- Limited lifetime warranty

STACKABLE,
SOLD INDIVIDUALLY

BP080 Streamlight™ Portable Scene Light II - 120 AC/12V DC

\$680.95

REVEL SCOUT SCENE LIGHT

This tactical LED scene light is designed to increase the safety of both firefighters and emergency responders. With versatile mounting options – set, hang, strap, spike – and a removable, rechargeable battery, the Revel Scout revolutionizes the operational ease of fire scene lighting. The Revel Scout combines a spot and flood light pattern of 14,000 lumens in a 12 lb. package, and the LED tactical scene light can be used to evenly light both entire exterior and scenes and interior spaces.

FEATURES

- Optional truck mounting bracket, storage case, and battery charger accessories
- On/off toggle switch to turn light on and off and adjust to 4 light levels
- Corrosion-free construction
- Zero deployment time
- Battery Type: 28V LI-ION, Weight: 3 lbs (1.4 kg), Charge Time: 1 hour

LIGHT PERFORMANCE

- Four Light Levels: High, medium, low, spot
- Light Output: 14,000, 8,000, 2,000, 6,000 lumens
- Average Run Time: high - 1.2 hrs, medium - 3 hrs, low - 7 hrs, spot - 3.5 hrs

BN312 Revel Scout Scene Light

\$1,267.95

VANTAGEPOINT REMOTE CONTROL LIGHT ALLOWS FOR MAXIMUM PAN-TILT MOTION

Whether searching for a person in an emergency situation or illuminating a house, number, VantagePoint offers the ultimate in remote control lighting. High-intensity LEDs deliver ultra-bright white light taking performance to the next level. Control the unit from inside the vehicle or remotely from up to 130' (40 m) away. Operators will appreciate the unique stow feature because the light returns to the forward facing position when turned off.

- 360° continuous horizontal rotation
- Pan and tilt motion
- Total tilt positioning of 115°
- Ultra bright 6720 lumens
- Weatherproof to IP67
- Two remote controls included
- Flashing alert
- 5 year limited warranty

BP327 VantagePoint Remote Control LED Light

\$602.95

HONDA GENERATOR LIGHTS

EU1000/EU2000 Honda Generator with 500W LED/quartz lamp head kit provides 500 watts of LED lighting. These generator/lighting units are powered by the Honda inverter-style generator and are light-weight and fold for compact storage.

- Clean Power: run sensitive electronics
- Eco-Throttle Technology: long running time
- Parallel Operation: optional linking doubles power
- Simultaneous AC/DC

USES

- Emergencies
- Public services and utilities
- Recreation

HONDA GENERATORS HEAVY DUTY FRAME PROTECTS GENERATOR FROM DAMAGE

- Larger 6.6 gallon fuel tank for longer run times
- Multiple front panel outlets for easy power connections
- Wide handles for easy transport
- Honda GX Industrial Commercial Engine for easy starting, reliability, and Oil Alert®
- Oversized muffler for quieter operation
- Four step fuel filtering provides consistent fuel to prevent carburetor plugging
- 120/240 Voltage Selector switch provides full power to 120V outlets
- AVR provides consistent, stable power output, superior to brushless generators
- Auto Choke for easier starting in varying conditions

FEDERAL SIGNAL 100 WATT SPEAKER

The 100 watt speaker uses advanced housing material and field replaceable neodymium drivers to provide effective, high-quality sound at an affordable price. The speaker only weighs 6 lbs. and measures 7.7"Wx5.7"Hx4.7"D. The speaker is easily rotated allowing for either vertical, or horizontal mount orientation, and the P.E.T. (polyethylene terephthalate) housing material is exceptionally strong, while resistant to heat, moisture and will not corrode as most metallic materials do. *Ship wt. 6 lbs.*

AW243 100 Watt Speaker \$206.95

TRUCK MOUNT SPEAKER

Rectangular speaker is perfect for truck mounting. Made to take the heavy and extended use of today's vehicle applications. Has black baked enamel finish on the driver and rectangular bell is black plastic. *Ship. wt. 10 lbs.*

AB343 100-Watt Truck Mount Speaker \$150.95

PA 300 ELECTRONIC SIREN

PLUG IN PC BOARD - INCLUDES AIRHORN SOUND

The W691 provides all basic siren tones; TAP II, PA, radio rebroadcast, as well as a built-in airhorn sound with siren override. It is protected against all failure modes by a fuse that is replaceable without tools and can operate from any 12-volt positive or negative ground vehicle electrical system. Taps are included for 100 or 200-watt speakers. Comes complete with a swinging bracket which enables mounting in a variety of positions. *Ship. wt. 6 lbs.*

ILLUMINATED
FACE PLATE

W691 PA 300 Electronic Siren \$412.95

FEDERAL Q ELECTROMECHANICAL SIREN

BEAUTIFUL, STREAMLINED, CHROME PLATED, COMMANDS RESPECT

This siren includes grille, brake, and chrome finish. It is designed to be pedestal mounted but is also offered less the rear housing for flush mounting. Heavy-duty coaster clutch is subject to very little wear. The unique clutch design delivers a longer coast-down sound once power is removed, thereby reducing battery drain. For quick silencing, an electric brake is also a standard feature. 12-volt, operating current 100 amps. The AC895 model comes complete with stainless steel finish, grille, brake, pedestal and rear housing. Model AC896 is for flush mounting and does not include pedestal or rear housing. 123 dB at 10 feet *Ship. wt. 49 lbs.*

CHROME PLATED

AC895 Electromechanical Siren \$2,242.95
AC896 Electromechanical Siren, for Flush Mounting \$1,918.95

THE SIMPLEST AND MOST EFFECTIVE CAR FIRE SOLUTION

BRIDGEHILL CAR FIRE BLANKET

Bridgehill Car Fire Blanket Pro-X is reusable and provides a quick and effective way to extinguish a car fire by removing oxygen supply. Toxic gases and smoke are contained immediately in fossil fuel cars. Same immediate result is achieved in electric cars. For more information on Lithium and Extreme Blankets, *please call Darley.*

SPECIFICATIONS

- Handles normal fires for many hours
- Blocks any fire, even small lithium battery fires
- Can be used multiple times
- NS-EN 1869:2019
- Delivered in a smartbag
- Requires no maintenance

IDEAL FOR

- Battery fires
- Restaurant kitchens
- Industry tools
- The recycling industry
- Car manufacturers
- Workshops
- Shops or businesses that store small or large amounts of lithium batteries
- Battery manufactures
- Marine
- Aviation
- Military

WEIGHTS/DIMENSIONS:

- Car Fire: 20 ft. x 26 ft., 62 lbs.
- Lithium: 7 ft x 7 ft., 13.2 lbs.
- Extreme: 16.4 ft. x 16.4 ft., 39.68 lbs.
- Extreme (Box of 10 pcs): 330 lbs.

EXTREME FIRE BLANKET FEATURES:

- Main Usage: Blocks any small fire, even lithium battery fire
- Edge on Blanket: Metal chain sewed in around the edges to add weight
- Core Material: 400 gsm graphite

HALOTRON™ I CLEAN AGENT FOR A, B & C FIRES

Halotron™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. Determined to be the most environmentally beneficial halocarbon agent on the market that meets wide performance standards. The primary raw material in the agent is HCFC-123, which has an outstanding profile of near-zero ozone depleting potential (0.0098, CFC-11=1.0) and a low global warming potential (77, 100 yr. CO2 time horizon). *Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ ISO-14001 certified. UL listed.*

- 6-year manufacturer's warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -40°F to 120°F
- EPA approved "Clean Agent" for Class A, B and C hazards
- Low GWP (Global Warming Potential)
- Low ODP (Ozone Depletion Potential)
- Short atmospheric lifetime

ABC DRY CHEMICAL EXTINGUISHERS

ABC or Multi-Purpose extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface to which it is applied. It smolders and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator. *Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ ISO-14001 certified. UL listed.*

- 6-year manufacturer's warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -65°F to 120°F
- Easy and economical to maintain
- Large loop pull pin
- Bar coded and bi-lingual labels

PURPLE K B:C POTASSIUM BICARBONATE EXTINGUISHERS

Purple K extinguishers contain specially fluidized and siliconized potassium bicarbonate dry chemical which is particularly effective on Class B flammable liquids and pressurized gases. It is electrically non-conductive. Purple K has been the choice of oil, gas, chemical and utilities industries as the preferred fire fighting agent. *Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ ISO-14001 certified. UL listed.*

- 6-year warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -65°F to 120°F
- Easy and economical to maintain
- Bar coded and bi-lingual labels

5 LB. FIRE EXTINGUISHER HOLDERS

The 5 lb. Fire Extinguisher Holder allows you to safely store a fire extinguisher inside or outside of the crew area with this SAE-J3043 compliant bracket. Third-party tested to hold strong against a massive 39G force!

- Designed, engineered, and tested specifically for use in ambulances and other moving vehicles, better protecting both patients and personnel
- Two-piece, adjustable bracket secures one 5 lb. Kidde Pro Series 340, Amerex Model B500, or Badger Model 5MB-6HB fire extinguisher
- Band clamp firmly hugs the cylinder with virtually no rattle
- Quick-release buckle allows for fast and easy access to the extinguisher
- Specially-designed pull pin ensures latch stays closed for maximum cylinder security
- Soft foam pads protect and cushion cylinder
- Easy to clean and disinfect—no fabric to harbor bloodborne pathogens
- Mounts horizontally or vertically to any flat surface
- Complies with SAE-J3043, AMD Standard 003, and GSA KKK specification when used as recommended. Complies with OSHA and insurance safety regulations
- 12¼" or 13¾" L x 3"W x 4⅞" D

CUSTOM PUMP SOLUTIONS

FIRE PROTECTION

J.A.W.S.
Just Add Water Systems

SELF-CONTAINED NFPA 13D SPRINKLER SYSTEM

The Just Add Water System (J.A.W.S.) is everything you need to provide pressure and flow to a residential fire sprinkler system in a self-contained package. J.A.W.S. is designed with the contractor in mind; efficient, reliable and easy-to-install. Just add water, connect to plumbing and your power source and the J.A.W.S. is ready to go.

FLEXIBLE PUMP THAT MEETS A WIDE RANGE OF PSI AND GPM REQUIREMENTS

PERFORMANCE

- 30 PSI: 20, 25, 30, 40, 45, 50, and 55 GPM
- 40 PSI: 20, 25, 30, 40, 45, 50, and 55 GPM
- 45 PSI: 20, 25, 30, 40, 45, 50, and 52 GPM
- 50 PSI: 20, 25, 30, 40, 45, 50 GPM
- 55 PSI: 20, 25, 30, 40, and 43 GPM
- 60 PSI: 25, 30, and 35 GPM

PUMP & MOTOR INFORMATION

- Pump and Motor: All stainless steel construction
- Motor: 2 HP 230V 1 phase 13.4 amp

PANEL HIGHLIGHTS

- Pressure transducer based, built-in automatic weekly test that when enabled will run the pump for 2½ minutes every week
- Pump minimum run timer, prevents rapid cycling
- Pump restart time delay, prevents rapid cycling
- Built in motor thermal protection
- Third party monitor contacts for pump running and power failure alarm
- Inputs: Flow switch start, remote start, low and high tank level alerts (requires a float)

DIMENSIONS

- 57" L x 29" W x 73" H

FEATURES

- Easy to install
- Low cost of ownership
- Quiet operations

SELF-TESTING HYDRANT BOOSTER

BOOST HYDRANT PRESSURE IN ANY AREA WITH INADEQUATE WATER PRESSURE

The Darley Self-Testing Hydrant Booster is your solution for consistent, reliable hydrant pressure for rural areas or any area with inadequate water pressure. Have water pressure when you need it, where you need it.

- Production Rate: Up to 300 GPM @ 250 PSI
- Patented self-testing technology
- Mounted on a fully integrated skid unit
- Self-test is a real test based solely on the pump's reaction and performance when a true drop in pressure is created on the discharge line
- Panel contains full web browser capability and its own IP address
- Status of pump running, test mode activation, test successful and system fault light can be monitored from the web and emailed
- Panel is a single point connection design that holds controls for both the primary pump and jockey pump, reducing installation cost
- Jockey Pump is controlled by a variable speed VFD controller that helps further reduce set up time and pump hammering, and prolongs the life of the pumps
- Also includes manual start button
- Automatic operation

PRICING

Prices listed in this catalog are current as of June 1, 2022. Due to the wide selection of products being offered, prices may change without notice. We also reserve the right to make corrections in the event of a misprint. Please confirm pricing with a Darley® representative at time of order. Volume discounts are available. Darley will match pricing on any lower offer from another supplier.

OPEN ACCOUNT TERMS

Terms of Net 15 Days shall be extended to city and other governmental agencies in good standing. These terms are also granted to businesses rated "good" or "high" and have a rating from CC to 5A by Dun & Bradstreet. Those companies that do not have a D&B rating in this range should contact our Credit Department at 1-630-735-3500 for a complete credit application. We encourage new customers placing their first order to make their initial payment by check or credit card. This will help avoid any shipping delays that may occur during the credit review process.

ORDERS PLACED BY INDIVIDUAL

All individual orders must be accompanied by full payment (cashiers check, money order or credit card) plus shipping charges and applicable state tax. We accept Visa, MasterCard, and American Express.

SALES TAX

Sales tax is applied everywhere.

ORDER FORMS / TURNOUT MEASUREMENT GUIDE

Now available online at: www.edarley.com/ordering and www.edarley.com/turnoutmeasuring

DAMAGED GOODS / SHORTAGES

In the event that you receive a damaged or short shipment, you must immediately file a claim with the carrier. Under ICC regulations this claim is the consignee's (your) responsibility. Please contact our Customer Service Department 1-800-4-DARLEY for assistance.

NO HASSLE RETURNS

Please contact our Customer Service Department at 1-800-4-DARLEY. For return instructions. A return authorization number (RMA) will be required.

RESTRICTED SALES ITEMS

Darley® carries a wide range of products intended for sale to public safety professionals. Orders for goods including, but not limited to, badges, personal identification, emblems and nameplates must be placed on department letterhead with official identification.

CHANGE OF ADDRESS / DUPLICATE MAILINGS

It's important for Darley® to keep our mailing lists as current as possible. Please advise us of any change of address or personnel. In the event you've received duplicate mailings, simply take a picture of the back of the catalog and email changes to <http://edarley.com/update>. As a token of our appreciation, we'll take \$5 off your next purchase.

GOVERNMENT ORDERS

Darley offers many products throughout our catalog which can be ordered at substantially reduced government pricing through the GSA schedule. Please contact Darley for more information.

SHIPPING & HANDLING CHARGES: PRE-PAID DOMESTIC ORDERS

Shipping charges may be higher on some bulking items including foam, pike poles and hooks 8 feet and over, light-bars, shovels, fire swatters and ladders. Darley reserves the right to notify customers prior to shipment for acceptance of these final delivery charges.

- Order will ship most economical way unless otherwise requested.
- Rates apply to prepaid orders shipped via UPS Ground.
- All other orders will be invoiced at the actual freight charge plus \$2.50 for handling & insurance.
- Maximum weight allowed per package is 70 lbs.
- Maximum size per package is 108" (length & girth).
- Rates apply to U.S. Continental 48 States.
- Hazardous Material charges are additional.

OUR MISSION

TO PASSIONATELY SERVE THE WORLD'S FIRST RESPONDER AND TACTICAL COMMUNITIES BY PROVIDING HIGH QUALITY, SAFE, AND INNOVATIVE PRODUCTS WITH UNMATCHED COMMITMENT AND SERVICE.

WE SPECIALIZE IN FIRE AND EMERGENCY SERVICE AND SPECIAL OPERATIONAL EQUIPMENT, BUT CAN MEET ANY REQUEST.

TRUSTED PARTNERSHIPS

We aim to be the premier distributor of tactical and fire and emergency service equipment, partnering with trusted and innovative suppliers.

INTEGRITY

Earning and retaining the trust of our suppliers, customers and teammates is essential in any business, and even more so with the no fail missions of our customers.

COMMITTED TO SERVE

Our roots are in service of those who serve. Since 1908, Darley has been proudly serving the first responder and tactical communities by providing high quality, safe and innovative products with unmatched commitment and service.

GLOBAL REACH

Our teammates live and work near our customers, many of whom are fire, police, and military Veterans of the teams they now call on. This allows us to create relationships spanning continents, just like our shipping capacity.

OUR CONTRACTS

Darley Defense maintains numerous DoD contracts to find you the best possible solution including these vehicles and more.

TLS, OPEN MARKET, IDIQ, BPA, SW MAC, GSA and FEDMALL (COTS)

K12FD-E14 RESCUE SAW

K12FD-E14RSQ high power 94 volt battery saw has the power and performance you expect from equivalent gas-powered cutters. Equipped with X-Halt™ brake function stops the blade for enhanced operator safety. Ergonomic and user-friendly with low vibrations, optimally balanced machine and zero direct emissions. Built-in connectivity makes it easy to monitor saw location, runtime, service intervals and receive wireless updates through FOTA (firmware over the air). Powered by Husqvarna PACE battery system with high power and fast charging for impressive productivity and a well-suited match with our specially designed battery blade range for maximized cutting depth and optimized performance.

- Power and performance on par with equivalent gas-powered cutters
- Integrated gearbox enables higher torque
- Integrated wet cutting system or VAC attachment as an accessory for dry cutting
- Enables efficient and flexible dust control
- Enables quick charging, high power and performance to maximize efficiency and productivity
- Zero direct emissions make it possible to easily cut indoors in sensitive areas or urban areas where emission levels might be regulated
- Silent motor sound enables a more pleasurable work environment
- Specially developed handles for increased comfort and control
- X-Halt™ brake function, capable of stopping the blade in fractions of a second to enable enhanced safety while cutting
