30 Testing Equipment - Other 2-way radio test equipment	ANRITSU INC, AEROFLEX-COBHAM INC	See attached price book.	10.00%	0.00%

STATE OF MANUFACTURE CHART
THIS FORM MUST BE COMPLETED AND RETURNED WITH THE BID

The Reciprocal Limitations Act 146 requires the Department to give Pennsylvania resident bidders a preference against a non-resident bidder from any state that gives or requires a preference to bidders from that state. The amount of preference shall be equal to the amount of preference applied by the state of the non-resident bidder. More information on the Act, or how to claim preference, can be obtained at our internet state at www.dgs.state.pa.us, by faxing a request to 717 787-0725, or by calling Vendor Services at 717 787-2199 or 4705.

All bidders must complete the following chart by listing the name of the manufacturer and the state (or foreign country) of manufacture for each item. If the item is domestically produced, the bidder must indicate the state in the United States where the item will be manufactured. **This chart must be completed and submitted with the bid or no later than two (2) business days after notification from the Department of General Services to furnish the information.** Failure to complete this chart and provide the required information prior to the expiration of the second business day after notification shall result in the rejection of the bid.

Model

700 MHz Transmitter Combiners

This page contains parts information for MSI preferred vendors including TXRX, Filtronic, and DBSPECTRA.

For non preferred vendors, contact the vendor directly. You will need an approved Exception Request to use equipment from a non preferred vendor. See link below.

Ordering Information

General Information

For pricing/ordering issues, contact the product planner, [Tim Martin](#).

For technical assistance, contact [Gary Owens](#).

For more information on TXRX products, please see the [TXRX portal](#) or contact Mike Ryan at MRyan@txrx.com (312-632-9620).

For more information on Filtronic Wireless products, please see the [Filtronic Wireless web-site](#) (PW is msi2020) or contact [Walter Magiera](#) at walter.magiera@filtronic.com (407-399-3630)..

Filtronic Technical Sales Support is provided by [Ben Snow](#), he can be contacted at ben.snow@filtronic.com or (954-507-2345).

For more information on dbSpectra products, please see the [DBSPECTRA portal](#) or contact [Sandra Zachmeyer](#) at szachmeyer@dbspectra.com (972) 841-4893).

FILTRONIC PART LIST

Description	Full Description	Nomenclature	APC	Price
4 CHANNEL COMBINER KIT, STANDARD ISOLATION, 762-776 MHZ	FILTRONIC#: PCD012-V4	DSPCD012V4	457	\$7,705.00
6 CHANNEL COMBINER KIT, STANDARD ISOLATION, 762-776 MHZ	FILTRONIC#: PCD012-V6	DSPCD012V6	457	\$9,363.00
700 MHZ 6-CHANNEL COMBINER KIT, STD. ISOLATION, QN CONNECTORS	FILTRONIC PART#: PCD012-V6QN SPEC SHEET LINK: TBD	DSPCD012V6QN	457	\$9,363.00
8 CHANNEL COMBINER KIT, STANDARD ISOLATION, 762-776 MHZ	FILTRONIC#: PCD012-V8	DSPCD012V8	457	\$16,746.00
10 CHANNEL COMBINER KIT, STANDARD ISOLATION, 762-776 MHZ	FILTRONIC#: PCD012-V10	DSPCD012V10	457	\$18,782.00
12 CHANNEL COMBINER KIT, STANDARD ISOLATION, 762-776 MHZ	FILTRONIC#: PCD012-V12	DSPCD012V12	457	\$18,174.00
1-CHANNEL 700 MHZ COMBINER KIT, EXPANSION	FILTRONIC PART#: PCD028-V1k	DSPCD028V1K	457	\$6,364.00
2-CHANNEL 700 MHZ COMBINER KIT	FILTRONIC PART#: PCD028-V2	DSPCD028V2	457	\$5,770.00
2-CHANNEL 700 MHZ COMBINER KIT, EXPANSION	FILTRONIC PART#: PCD028-V2K	DSPCD028V2K	457	\$7,383.00
3-CHANNEL 700 MHZ COMBINER KIT	FILTRONIC PART#: PCD028-V3 SPEC SHEET LINK: TBD	DSPCD028V3	457	\$7,654.00
3-CHANNEL 700 MHZ COMBINER KIT, EXPANSION	FILTRONIC PART#:PCD028-V3K SPEC SHEET LINK: TBD	DSPCD028V3K	457	\$8,405.00
TX POST FILTER/PMU KIT, 762-776 MHZ	FILTRONIC WIRELESS # SPC003-V2	DSSPC003V2	457	\$1,394.00
700MHZ 4-CHANNEL COMBINER KIT, 100 KHZ T-T SPACING	FILTRONIC PART#: PCD031-V4	DSPCD031V4	457	\$9,324.00
700MHZ 6-CHANNEL COMBINER KIT, 100 KHZ T-T SPACING	FILTRONIC PART#: PCD031-V6	DSPCD031V6	457	\$10,909.00
700MHZ 6-CHANNEL COMBINER KIT, 100 KHZ T-T SPACING W/QN CONNECTORS	FILTRONIC PART#: PCD031-V6QN SPEC SHEET LINK: TBD	DSPCD031V6QN	457	\$10,909.00
700MHZ 8-CHANNEL COMBINER KIT, 100 KHZ T-T SPACING	FILTRONIC PART#: PCD031-V8	DSPCD031V8	457	\$17,827.00

700MHZ 10-CHANNEL COMBINER KIT, 100 KHZ T-T SPACING	FILTRONIC PART#: PCD031-V10 SPEC SHEET LINK: TBD	DSPCD031V10	457	\$19,642.00
700MHZ 12-CHANNEL COMBINER KIT, 100 KHZ T-T SPACING	FILTRONIC PART#: PCD031-V12	DSPCD031V12	457	\$21,459.00
PXC008-V2 700 MHZ DUPLEXER KIT (NO RF JUMPER CABLES INCLUDED)	FILTRONIC PART#: PXC008-V2 SPEC SHEET LINK: TBD	DSPXC008V2	457	\$1,235.00
700 MHZ PHASING HARNESS	FILTRONIC PART#: MFG001-V1 SPEC SHEET LINK: TBD	DSMFG001V1	351	\$748.00
3-PORT CIRCULATOR, 700 MHZ	FILTRONIC PART#: 58009295001 SPEC SHEET LINK: TBD	DSCIR000003	457	\$150.00
700 MHZ CIRCULATOR FOR DROP-SHIP (FILTRONIC P/N CIR-000005)	FILTRONIC PART#: 58009298001	DSCIR000005	457	\$150.00

DBSPECTRA PARTS

Description	Full Description	Nomenclature	APC	Price
HIGH POWER 700MHZ FILTER	DBSPECTRA PART#: DS7TXFILTER SPEC SHEET LINK: TBD	DSDS7TXFILTER	457	\$3,448.00

700 MHz CONTROL STATION ANTENNAS

This page contains parts information for MSI preferred vendors including Alive Telecom, RFI, and DBSPECTRA.

For non preferred vendors, contact the vendor directly. You will need an approved Exception Request to use antennas from a non preferred vendor. See link below.

https://docs.google.com/document/d/1C34HXeD5mzvDDq9x_e_1gHVexIB2VRtyYzl0tA-wgtg/edit

ORDERING INFORMATION

For pricing/ordering issues contact the product planner, Tim Martin at tim.martin@motorolasolutions.com.

For technical assistance contact Gary Owens at garyowens@motorolasolutions.com.

For Alive Telecom product information, go to the Alive [website](#) or contact Jim Melia at jmelia@alivetele.com (708-603-6836).

For DBSPECTRA product information, go to the DBSPECTRA [website](#) or contact Sandra Zachmeyer at szachmeyer@dbspectra.com or (972-841-4893).

For more information on RFI products see the [RFI website](#) or contact Sean Johnson at sean.johnson@rfiamericas.com or (330-541-6585).

NOTE: In the Full Description field below, you will find the vendor part number, any vendor notes associated with that part, and a URL link to a vendor Spec sheet for that item.

ALIVE TELECOM ANTENNA PARTS GUIDE - This document is a decoder for Alive antenna parts.

800 MHz CONTROL STATION ANTENNAS

This page contains parts information for MSI preferred vendors including Alive Telecom, Amphenol Procom, RFI and DBSPECTRA.

For non preferred vendors, contact the vendor directly. You will need an approved Exception Request to use antennas from a non preferred vendor. See link below.

https://docs.google.com/document/d/1C34HXeD5mzvDDq9x_e_1gHVexlB2VRtyYzI0tA-wgtg/edit

ORDERING INFORMATION

Please refer to the [3rd Party Drop Ship Wiki](#) for vendor information and more specific product detail.

For pricing/ordering issues contact the product planner, Tim Martin at tim.martin@motorolasolutions.com.

For technical assistance contact Gary Owens at garyowens@motorolasolutions.com.

For Amphenol Procom product information, go to the Amphenol Procom [website](#) or contact Kim Bramsgart at kb@amphenolprocom.com (815-218-8000).

For Alive Telecom product information go to the Alive [website](#) or contact Jim Melia at jmelia@alivetele.com (708-603-6836).

For RFI product information, go to the RFI [website](#), or contact Sean Johnson at sean.johnson@rfiamericas.com or (330-541-6585).

For DBSPECTRA product information, go to the DBSPECTRA [website](#) or contact Sandra Zachmeyer at szachmeyer@dbspectra.com or (972-841-4893).

NOTE: In the Full Description field below, you will find the vendor part number, any vendor notes associated with that part, and a URL link to a vendor Spec sheet for that item.

900 MHz CONTROL STATION ANTENNAS

This page contains parts information for MSI preferred vendors including Amphenol Procom, RFI and DBSPECTRA.

For non preferred vendors, contact the vendor directly. You will need an approved Exception Request to use antennas from a non preferred vendor. See link below.

https://docs.google.com/document/d/1C34HXeD5mzvDDq9x_e_1gHVexlB2VRtyYzl0tA-wgtg/edit

ORDERING INFORMATION

For pricing/ordering issues contact the product planner, Tim Martin at tim.martin@motorolasolutions.com.

For technical assistance contact Gary Owens at garyowens@motorolasolutions.com.

For Amphenol Procom product information, go to the Amphenol Procom [website](#) or contact Kim Bramsgart at kb@amphenolprocom.com (815-218-8000).

For RFI product information, go to the RFI [website](#), or contact Sean Johnson at sean.johnson@rfiamericas.com or (330-541-6585).

For DBSPECTRA product information, go to the DBSPECTRA [website](#) or contact Sandra Zachmeyer at szachmeyer@dbspectra.com or (972-841-4893).

NOTE: In the Full Description field below, you will find the vendor part number, any vendor notes associated with that part, and a URL link to a vendor Spec sheet for that item.

INTRADO 911 MANAGED SERVICES

Ordering Information

Executive Summary

Motorola Solutions has partnered with Intrado to provide IP connectivity and 24/7 monitoring services.

This service provides for the transition from traditional telephone lines to an IP connection based 911 System. As part of the service beyond the connection transition, this service provide for the monitoring of the 911 network for proper operation and connectivity.

Product Description Overview

Overview

Motorola 911 Routing, Location and Text services are high level services offered by Motorola Solutions through Motorola Solutions' partnership with Intrado.

Motorola shops will provide installation assistance on the pre-configured routers and switches provided by Intrado. The Motorola shops will also provide on-site support as required by Intrado.

Features

MOTOROLA 911 Routing Service	MOTOROLA 911 Location Data Service	Motorola 911 Text Service
Provides emergency call delivery over a managed internet protocol network that includes a multi-layer redundant Internet protocol network architecture for high system availability provided through Intrados' Emergency Services IP Network (ESINet).	Provides hosted location and Customer information database systems and 9-1-1 data management services	A fully managed solution offering emergency delivery of SMS over an IP network.
Supports routing of 9-1-1 calls from both traditional and next generation voice networks.		

Statement of Work

One of the primary business objectives of the North American Group (NAG) is to promote the sales of STANDARD service products. Standards help to ensure consistent and profitable delivery of our service products to our customers. To that end, the customer Statement of Work for this Standard Service Product **CANNOT** be modified. All requests for modifications to STANDARD service products or the development of "custom" service products should be routed through the Solutions Planning process. Your first point of contact for these requests is your local Area Service Manager.

Definitions

Capitalized terms used in this Statement of Work and not otherwise defined within the Statement of Work or Communications System Agreement have the following meanings: [Click here](#)

All SOW's can be found below at the [3PV WIKI](#) and will also be loaded and linked to the appropriate models in Services Life Cycle (SLC)

- [Motorola 911 Location Data Management Service - Intrado Managed SOW](#)
- [Motorola 911 Routing Service Description - Intrado Managed SOW](#)
- [Motorola 911 Texting Service - Intrado Managed SOW](#)

NOTE: The terms and conditions of all Statement of Works (SOW) are an integral part of Motorola's Service Terms and Conditions or other applicable agreement to which it is attached and made a part thereof by this reference.

Ordering Requirements

This product cannot be ordered directly through COF at this time. This product must be ordered using the Service Lifecycle Application (SLC). Please contact your local Territory Service Lead (TSL), Customer Support Manager (CSM) or System Manager (SM) if you are interested in ordering this product.

Options for this product are based on the component parts of the complete system. Pricing is based on the size and complexity of the customer's system configuration such as the type of system, number of sites and number of products. To ensure accurate pricing, orders will not be processed or accepted if they do not include all systems components.

Contract Creation Information & Resources

Intrado Managed services must be quoted by Intrado before any contract is generated. The service will then be entered in SLC. Pricing will be entered manually in SLC using the provided quote agreed upon by MSI, Intrado & client. The following documentation will be required:

Customer Support Plan - CSP

Statement of Work - SOW

Supplier Notification of Subcontract - SNS

All necessary documents and ordering resources can be found at the following [3PV Wiki Page](#)

NOTE: Services **MUST** be quoted by Intrado first. Pricing will be entered manually. Please refer to the How to Order Guide for detailed instructions

Site, Site ID & Technology Information

Site Information

- Any current Astro25 site may be used for contract creation (Master, Remote, Prime, and/or Dispatch)

Site ID Prefixes:

- A or SZ – The standard Astro25 format should be used for New & Existing customers.

Technology: All Sites should use the appropriate Astro25 technology release in order to build Install Base and price all SLC Contracts correctly.

ASTRO 25 Advanced Messaging Solution Ordering Information

Ordering Information

General Information

Motorola Solutions, Inc. announces the transition of the ASTRO® 25 Advanced Messaging Solution (AMS) from its own standalone platform to the new ASTRO® 25 AMS within the Intelligent Middleware (IMW - formerly known as UNS or Unified Network Services) Messaging service platform. This means that AMS will become an application with the server software residing on the IMW Messaging service platform. This will take effect as of September 30, 2016.

Ordering Requirements

IMPORTANT: The AMS A1 and A2 models will no longer be available for new orders after September 30, 2016. After that time, all new orders for AMS messaging only will need to be transitioned to the new Intelligent Middleware (IMW - formerly known as UNS) Messaging service platform R5.2 and later. Refer to IMW (UNS) prices pages for ordering and pricing [UNS](#).

For existing AMS customers this AMS price page will still be used for upgrades and expansions (add-ons), see bottom of this page. Contact your regional sales enablement or pre-sales / field engineering team for the AMS release specific lifecycle ordering and support plan.

IMPORTANT NOTE: For any A3 configuration integrated with PremierOne CAD the Field Engineering team MUST contact the Applications (SPSS) Pre-Sales System Architect team to co-architect / engineer the solution and approve the equipment list before a quote is provided to the customer. Contact leo.marroquin@motorolasolutions.com (956-631-3777) or Devery.Thumann@motorolasolutions.com

Configuration

UPGRADE and EXPANSIONS For AMS A1 and A2 Only

The following information is intended only for the upgrade and/ or expansion of existing, and fielded, Advanced Messaging Solution (AMS) A1 or A2 non HA systems.

Upgrades - A1 and A2 Non HA configuration only

Required - order One T8161A then the desired "CA" add option(s).

Description	Full Description	Nomenclature	APC	Price
AMS SOFTWARE UPGRADES	-	T8161	068	\$0.00
ADD: TALK GROUP MESSAGING	Must order exact same quantity of CA03066AA AND T7746 Smart Client. Requires AMS R4.1 and ASTRO A7.16 and higher.	CA03066AA	068	\$500.00

Motorola Radio Support (Digital Trunked ASTRO, Digital MOTOTRBO, TETRA)

- Easy-Programming Tool
- RTC Back-up Battery
- 256 MB of FLASH Memory
- IECEX/ ATEX - EXnA IIC T4 (Cat 3/Zone 2)*
- 256 MB of RAM Memory
- 9-30 VDC Input Voltage Range
- Sleep/Low-power Mode
- 3rd Party Modem Support

General Information

Designed for a wireless environment, the ACE1000 assures reliable communications over RF, LAN/WAN networks, so you can be sure your data is being transferred securely. The ACE1000 allows RTU-central and RTU-RTU communications, along with a Store & Forward feature (when supported by infrastructure) which can be used to pass messages between RTUs in the system, so you don't have to purchase additional repeaters or expensive

antennas. Its communication flexibility gives you the freedom to customize your system that's easy on your budget.

Model

**ACE3600
REMOTE TERMINAL UNIT**

Ordering Information

General Information

ACE3600 is a state-of-the-art high performance Remote Terminal Unit (RTU) with exceptional communication capability. The unit is designed to provide scalability and modularity to optimize the performance of any control system. The unit's™ rugged design offers compliance for the requirements of most demanding SCADA system environments. Motorola has developed this innovative RTU to provide a cost effective RTU solution by minimizing the installation and configuration time.

Main Features:

- **Power PC based processor provides very high performance**
- **VX-Works based real-time operating systems**
- **Up to three 10/100 MB Ethernet ports**
- **Up to four serial communication ports**
- **Up to two radio modem ports**
- **0, 2, 3, 5, 7 or 8 I/O slot wall mount frames; 19" rack mount on 0, 3, 5, 7 or 8 I/O slot frame**
- **Supports up to 13 expansion frames, for a total of 110 I/O modules**
- **Single and double density I/O modules**

- Hot-Swap I/O replacement
- Wide temperature range -40 to +70 ° C (RTU only, not radio)
- NEMA 4X / IP56 Housing, 40 x 40 cm and 50 x 50 cm
- Two-way/trunking radio models
- AC and DC controlled power supply
- 6.5 or 10 Ah Backup battery, smart battery charger
- GPS receiver support for time synchronization
- System building tool for configuration and programming
- Remote firmware and program download
- Compatible to MOSCAD family of RTUs

Ordering Requirements

As a general rule, ordering ACE3600 should follow this pattern:

Main RTU Frame

1. Select Communications Type

- 1a. Select with or without radio
- 1b. Select radio type (conventional, analog, or digital trunking)
- 1c. Select radio band and model (UHF, VHF, 800 MHz)

2. Select the number of required I/O slots on the main frame (2, 3, 5, 7, or 8)

3. Select I/O modules for the main frame

4. Select the Expansion LAN switch module if more than 1 expansion frame is required

5. Select installation type

- 5a. Select with or without housings/chassis
- 5b. Select housing/chassis size

6. Select power supply/battery

7. Select CPU Type and CPU Plug-ins (RS-232, ethernet, etc.)

8. Select accessories, software licenses, installation kits and miscellaneous items (cables, brackets, adapters)

I/O Expansion Frame (this step is optional)

1. Select F7510

2. Select the number of required I/O slots on the expansion frame (2, 3, 5, 7, or 8)

3. Select I/O modules for the expansion frame

4. Select installation type

- 4a. Select with or without housings/chassis
- 4b. Select housing/chassis size

5. Select power supply/battery

6. Select LAN cable

Additionally, the following items need to be considered when ordering the ACE3600 RTU:

1. All orders must list the RTU Model (F75XX) as a main line item.
2. The default frame for the F7509A model is No I/O Slots Frame (CPU and PS slots only). To change to 2, 3, 5, 7 or 8 I/O slots, add the required frame

- option to the order (V102, V103, V104, V105, V107 or V108).
3. The only chassis option for the 2 I/O slots frame is the Small Metal Chassis (V229).
 4. Installation on 19" rack requires ordering 19" metal back and rack brackets option (V120 and V051). If V269 is used, 2 V051 units are required.
 5. For installation when radio and/or battery and/or accessory are required with 8 I/O slots, V269 metal chassis is required. To install V269 on 19" rack option, the 19" metal bracket option (V051) is required.
 6. The default power supply for the RTU (not for the F7510 expansion frame) is DC 10.8-15.5 V (12 V DC PS). To change the power supply type, add the required power supply option to the order.
 7. The default CPU module is CPU3640. To change to CPU3680, add V448.
 8. When I/O expansion is required, the main RTU must include either the CPU3640 or the CPU3680.
 9. Radio options and orders that include battery option or accessories option (such as RS-485 Junction Box) must be ordered with metal chassis or housing options (mandatory).
 10. F7510 (I/O Expansion frame) includes expansion module (expansion CPU), expansion power supply (10.8 - 16 V DC), and expansion cable. To change the power supply, add the appropriate power supply option.
 11. For connecting a single expansion frame, use the crossed LAN cable (3 meter length).
 12. If more than 1 expansion frame will be installed per RTU, the expansion LAN switch module is required. It occupies an I/O module slot on the main RTU. The LAN switch module includes the 60 cm LAN cable for connection to the main CPU.
 13. The expansion LAN switch supports 7 expansion frames. If 8 or more expansion frames are required (up to a maximum of 13 expansion frames), a second expansion LAN switch must be added.

ACE3600 Software Tools and Radio CPS Available for Download from Motorola Online, Resource Center

The System Tool Suite (STS) is a software program that runs on a PC computer with Windows 2003 server or Windows XP operating systems. It is used to configure the ACE3600 RTU to the exact requirements of the system and to monitor system operations.

ACE3600 C Tool Kit (CTK) is a C function library required for programming the ACE 3600 in C programming language.

ACE3600 System Planner, Owner's Manual, and all other documentation available for Download from Motorola Online, Resource Center

The System Tool Suite (STS) is a software program that runs on a PC computer with Windows 2003 server or Windows XP operating systems. It is used to configure the ACE3600 RTU to the exact requirements of the system and to monitor system operations.

Configuration

MODELS

Note B - ACE built-in radio models are not currently available to European Union (EU) countries. Radios and installation kits can be shipped separately.F7509

Description	Full Description	Nomenclature	APC	Price
ACE 3600 MAIN MODEL	Basic model. The model default includes PS 12V DC, CPU3640 and basic frame (no I/O slots).	F7509	085	\$1,200.00

Expansion Frame :

ACE3600 EXPANSION CPU, POWER SUPPLY AND MOUNTING	-	F7510	085	\$900.00

CPU Modules :

Description	Full Description	Nomenclature	APC	Price
ACE3600 IP GATEWAY CPU4600	ACE3600 IP Gateway firmware loaded on the CPU module with on board RS-232 port , RS-232/485 port, 10/100 Mbps Ethernet port, and 2 USB host ports. Up to two optional plug-in ports.	F7507	085	\$4,500.00
ACE3600 CPU3680	CPU module only with on board RS-232 port , RS-232/485 port, 10/100 Mbps Ethernet port, and 2 USB host ports. Up to two optional plug-in ports.	F7508	085	\$1,250.00
ACE3600 MID TIER CPU, 3640	CPU module only with on board RS-232 port , RS-232/485 port and 10/100 Mbps Ethernet port. Up to two optional plug-in ports.	F7502	085	\$1,000.00

OPTIONS

Add options as defined in the System Planner.

Radio Options

Order one of the following Radio System Family options with one Radio Platform option. Appropriate radio installation kit is included.

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO 25 ANALOG CONVENTIONAL	-	VA00198	275	\$1,800.00
ADD: MOTOTRBO CONNECT PLUS TRUNKING	-	VA00195	275	\$370.00
ADD: MOTOTRBO DIGITAL CONVENTIONAL	-	VA00159	275	\$370.00
ADD: ASTRO 25 ANALOG TRUNKING	-	VA00199	275	\$1,800.00
ADD: ASTRO 25 DIGITAL CONVENTIONAL	-	VA00197	275	\$2,200.00
ADD: MOTOTRBO ANALOG CONVENTIONAL	-	VA00194	275	\$370.00
ADD: ASTRO 25 DIGITAL TRUNKING	-	VA00196	275	\$2,200.00

One of the following Radio Platform options is required when a Radio System Family option is ordered.VA00160

Description	Full Description	Nomenclature	APC	Price
ADD: UHF R2 MOBILE RADIO	-	VA00162	275	\$500.00
ADD: UHF R1 MOBILE RADIO	-	VA00161	275	\$500.00
ADD: 800/900MHZ MOBILE RADIO	-	VA00202	275	\$500.00
ADD: 700/800MHZ MOBILE RADIO	-	VA00201	275	\$500.00
ADD: VHF MOBILE RADIO	-	VA00160	275	\$500.00

Radio Installation Kits

The F7509 can be ordered with the following radio installation kits

Description	Full Description	Nomenclature	APC	Price
ADD: HT750/GP320/GP328 /PRO5150 INST. KIT	Includes radio modem plug-in.	V154	085	\$270.00
ADD: XTL5000/2500 ANALOG INSTALLATION KIT	Includes radio modem plug-in.	V157	085	\$250.00
ADD: CDM750 INSTALLATION KIT	-	V143	085	\$275.00
ADD: CM200/CM140/EM200/GM3188 INSTALLATION KIT	Includes radio modem plug-in.	V148	085	\$275.00
APX6500 DIGITAL INSTALLATION KIT	-	VA00125	085	\$300.00
XPR4350/DM3400/XIR M8220/DGM4100 RADIO INSTALLATION KIT	RTU must have CPU 3680 for this option.	V682	085	\$190.00
ADD: XPR 5000 ANALOG ACE 3600 INSTALLATION KIT	-	VA00596	085	\$308.00
ADD: ACE3600 XTS 2500 INSTALLATION KIT	Includes Brackets, cables and mounting H/W This Option is orderable only with the F7509. This option must be ordered with a Metal chassis or housing option.	V156	085	\$260.00
RS-485 JUNCTION BOX	Includes one FKN8427 cable; order additional cables as V440 from MOSCAD Accessories. Incompatible with V184 and all Modem options unless a rack mount option is available and also ordered (refer to the	V186	085	\$150.00

	Product Planner for assistance).			
--	----------------------------------	--	--	--

The following radio installation kits will begin shipping August 1 2015

Description	Full Description	Nomenclature	APC	Price
ADD: APX6500 ANALOG ACE 3600 INSTALLATION KIT	-	VA00587	275	\$420.00
ADD: XPR 5000 CONNECT PLUS ACE 3600 INSTALLATION KIT	-	VA00591	275	\$204.00
ADD: XPR 5000 DIGITAL ACE 3600 INSTALLATION KIT	-	VA00589	085	\$240.00

Frames

The default basic frame includes slots for power supply and CPU modules (no I/O slots). Order one of the following options so that the frame configuration supports the required I/O slots.V102

Description	Full Description	Nomenclature	APC	Price
19 ADJUSTABLE INSTAL BRACK	One is required for rack mounting the V103 (3 I/O slot frame), V105 (5 I/O slot frame), V107 (7 I/O slot frame), VA00433 (redundancy frame) and V108 (8 I/O slot frame). One is also required for rack mounting the V269 (19 in. accessory metal chassis). The V102 (2 I/O slot frame) is not mountable in a 19 in. rack.	V051	085	\$130.00
ADD: 5 I/O SLOTS FRAME	Fits large 48 x 48cm metal chassis or 50 x 50 cm housing. May also be mounted in 19 in. rack with the V120 chassis and V051 mounting brackets.	V105	085	\$185.00
CAGE 2+8 I/O FOR EXPAN 19 CH	Includes chassis for mounting in a 19 in. rack. For 19 inch rack mount installation, V051 brackets must be ordered separately, otherwise wall mount clips will be included. Does	V108	085	\$385.00

	not provide mounting room for radio, battery or other accessories; if that space is needed order V269.			
ADD: ACE3600 REDUNDANCY	Includes frame, redundant CPU3680, space for 4 I/O modules and space for a redundant power supply. If redundant power supply is required, order V275.	VA00433	085	\$1,700.00
ADD: 3 I/O SLOTS FRAME	Fits all chassis and housing sizes. May also be mounted in 19 in. rack with the V120 chassis and V051 mounting brackets.	V103	085	\$75.00
ADD: 7 I/O SLOT FRAME	Fits large 48 x 48cm metal chassis or 50 x 50 cm housing. May also be mounted in 19 in. rack with the V120 chassis and V051 mounting brackets.	V107	085	\$325.00
2 I/O SLOTS FRM	-	V102	085	\$55.00

Chassis & Housings

When housing is not used, the metal chassis is required for installation of radio, backup battery and other accessories. The metal chassis can be installed on a wall or inside enclosure. The Housing options provides NEMA 4X / IP65 outdoor protectionV229

Description	Full Description	Nomenclature	APC	Price
28 X 36 CM METAL CHASSIS	Compatible with 2 I/O Slots (V102) frame only. Fits mobile radio with 6.5 AH battery. If portable radio is used, either 10 AH or 6.5 AH battery will fit.	V229	085	\$72.00
ADD: EXPANDED 19 CHAS	-	V269	085	\$230.00
ADD: HOUSING TAMPER SWITCH	-	V224	085	\$90.00
ADD: 38 X 38 CM METAL CHASSIS	Fits to 6.5 Ah battery.	V214	085	\$55.00

ADD: 50X50 HOUSING W/ PADLOCK ACCESSORY	Includes a metal chassis. Fits to 6.5 Ah and 10Ah battery. Not includes padlock.	VA00405	085	\$960.00
ADD: 50X50 CM PAINTED METAL HOUSING	Includes a metal chassis and fits either the 6.5 Ah or the 10Ah battery. It does not include a padlock.	V228	085	\$451.00
ADD: CHASSIS FOR 19" RACK MTG 0, 3, 5, 8 I/O FRM	Metal backplane required for mounting on 19 in. rack. Compatible with V103 and V105 slots frame. Mounting brackets (V051) should be ordered separately.	V120AG	085	\$140.00
ADD: 48 X 48 CM METAL CHASSIS	Fits to 6.5 AH or 10AH battery.	V056	085	\$100.00
ADD: 40X40 CM PAINTED METAL HOUSING	Includes a metal chassis. Fits to 6.5 Ah battery.	V276	085	\$438.00
ADD: CHASSIS FOR 19? RACK MTG	Metal backplane required for mounting on 19 in. rack. Compatible with V107 and VA00433 I/O slots frame. Mounting brackets (V051) should be ordered separately.	V120	085	\$140.00
ADD: 40X40 HOUSING W/ PADLOCK ACCESSORY	Includes a metal chassis and fits the 6.5 Ah battery. It does not includes a padlock.	VA00406	085	\$906.00

Input/Output Modules

Description	Full Description	Nomenclature	APC	Price
ADD: 16AI +/-5 V	-	V742	085	\$675.00
ADD: 4 AO MODULE	Module with 4 Analog Output can be used as 0-20 mA or 0- 10 V output. Require I/O slots and frame.	V118	085	\$495.00

12 DO ML RELAY 120-230V MODULE	-	VA00332	085	\$420.00
ADD: 4AO / 8AI +/- 20 MA MODULE	Module with 4 AO and 8 AI channels. Each AO channel can be used as 0-20 mA or 0- 10 V output. All AI channels are +/- 20 mA. Require I/O slots and frame.	V562	085	\$890.00
ADD: 8 DO EE RELAY 2A	-	V508	085	\$260.00
ADD: 8AI +/-5 V	-	V741	085	\$485.00
OPTN,ACCY,ADD: 16 DO EE RLY 2A SBO	-	VA00347	085	\$400.00
ADD: 4AO / 8AI +/- 5 V MODULE	Module with 4 AO and 8 AI channels. Each AO channel can be used as 0-20 mA or 0- 10 V output. All AI channels are +/- 5 V. Require I/O slots and frame.	V460	085	\$865.00
ADD: 16 DO ML RELAY 2A	-	V516	085	\$360.00
16 DI 120-230V MODULE	-	VA00331	085	\$295.00
ADD: 8 AI +/-20 MA	-	V318	085	\$525.00
ADD: 8DO EE 2 FORM A SBO	-	VA00343	085	\$315.00
ADD: 16 DI FAST 24V	-	V265	085	\$200.00
ADD: 16AI +/-20 MA	-	V463	085	\$725.00
ADD: 16 DI FAST 24V IEC TP2	16DI 24V DC per IEC 61131-2 Type 2	V117	085	\$200.00
ADD: 16DI 4DO EE 4AI +/-20MA	-	V245	085	\$445.00
ADD: 24V FLOATING	-	V260	085	\$75.00

POWER SUPPLY				
ADD: 16DI 4DO ML 4AI +/-20MA	-	V453	085	\$445.00
ADD: 32 DI FAST 24V IEC TP2	32DI 24V DC per IEC 61131-2 Type 2	V959	085	\$300.00
12 DO EE RELAY 120-230V MODULE	-	VA00348	085	\$405.00
ADD: BLANK MODULE	Fits to I/O slots.	V20	085	\$22.00
ADD: 32 DO / DI FET	-	V481	085	\$365.00
ADD: 16 DO EE RELAY 2A	-	V616	085	\$345.00
ADD: 8 DO ML RELAY 2A	-	V314	085	\$270.00
ADD: 32 DI FAST 24V	-	V379	085	\$335.00
ADD: 32 DI FAST 48V	-	V474	085	\$300.00
ADD: 16 DO / DI FET	-	V480	085	\$250.00

Terminal Blocks and Cables

Description	Full Description	Nomenclature	APC	Price
ADD: 40 PIN TB HOLDER KIT	Connector kit for cable. Fits 32DI, 32DO/DI, 16AI, 16DO , Mixed I/O, 8AI/4AO, and 8DO-SBO.	V153	085	\$38.00
30 WIRE CABLE W/ TERMINAL BLOCK HOLDER 3 METERS	3 meter numbered cable with connector. Fits High Voltage I/O modules VA00331, VA00348, and VA00332.	V202	085	\$173.00
30 PIN TERMINAL BLOCK HOLDER KIT	Connector kit for cable. Fits High Voltage I/O modules VA00331, VA00348, and VA00332.	V203	085	\$35.00

ADD: 40 WIRE CABLE W/ TB HOLDER 3 M	3 meter numbered cable with connector. Fits 32DI, 32DO/DI, 16AI, 16DO , Mixed I/O, 8AI/4AO, and 8DO-SBO.	V358	085	\$162.00
ADD: 20 PIN TB HOLDER KIT	Connector kit for cable. Fits 16DI, 16DO/DI, 8AI, 8DO, and 4AO.	V158	085	\$31.00
ADD: 20 WIRE CABLE W/ TB HOLDER 3 M	3 meter color-coded cable with connector. Fits 16DI, 16DO/DI, 8AI, 8DO, and 4AO.	V253	085	\$105.00

Power Supply & Batteries

The default power supply module provided with each model is 12V DC (10.8-15.5 V input voltage range). To replace the default PS, add one of the following PS options. If backup battery is required, add PS with charger option.

Description	Full Description	Nomenclature	APC	Price
ADD: 10 AH BACKUP BATTERY	Fits only to large metal chassis and housing.	V328	085	\$286.00
DC PS 18-72V PS W/ BAT CHGR	-	V367	085	\$406.00
OPTN,CHGR,ADD: AC PWR PS 100-240 V W/ BAT CHGR	-	V261	085	\$414.00
ADD: 6.5 AH BACKUP BATTERY	Fits all metal chassis and housing.	V114	085	\$171.00
ADD: DC POWER SUPPLY 18-72V	-	V251	085	\$352.00
OPTN,POWER SUPPLY ASSEMBLY,ADD: AC PWR SPLY 100-240 V W/O CHGR	-	V346	085	\$357.00
	This Option will allow an external 12V P/S to be connected through the CPU to the back			

ADD: 12V DC PS LOW-TIER	plane. The standard Power Supply unit will not be included. Not compatible with XTS2500 and HT/GP/Pro models.	V149	085	(\$110.00)
-------------------------	---	------	-----	------------

CPU

The default CPU module is CPU3640 with on board RS-232 port and RS-232/485 port, one 100MB IP Port, up to two optional plug-in ports, 3 MB User FLASH memory and 10 MB User DRAM. Select from the options below to upgrade the CPU module.V448

Description	Full Description	Nomenclature	APC	Price
ADD: PLUG-IN RS-232 PORT	-	V184	085	\$105.00
ADD: PLUG-IN 4 MB SRAM	Adds 4Meg user SRAM. One per RTU/CPU.	V447	085	\$147.00
ACE3600 IP GATEWAY CPU4600	The CPU4600 adds IP Gateway functionality. Two optional plug-in ports are still available.	V449	085	\$3,800.00
ADD: ACE3600 CPU3680	The CPU3680 adds two USB host ports and increased memory capacity to the CPU3640. Two optional plug-in ports are still available.	V448	085	\$275.00
ADD: PLUG-IN ETHERNET 10M PORT	-	V204	085	\$105.00
PLUGIN RADIO PORT	Provided with conventional and analog trunking models or radio installation kit	VA00362	085	\$105.00
ADD: PLUG-IN RS 485 PORT	-	V440	085	\$105.00
ADD: PLUG-IN ETHERNET 10/100 M PORT	Fits only to port PI1.	V212	085	\$105.00

CPU and Power Supply Redundancy

These options are compatible when the Redundancy frame, VA00433, is ordered. The CPU options will be installed on the redundant CPU. If these options are required on the primary CPU, please select from the CPU options above.

Description	Full Description	Nomenclature	APC	Price
ADD: SEC. CPU PLUG-IN 4 MB SRAM	Provides the same functionality as the V447, but installed on the redundant CPU.	V444	085	\$140.00
ADD: SEC. CPU PLUG-IN RADIO PORT	Provides the same functionality as the VA00362, but installed on the redundant CPU.	VA00364	085	\$105.00
ADD: SEC. CPU PLUG-IN ETHERNET 10/100 M PORT	Provides the same functionality as the V202, but installed on the redundant CPU.	V215	085	\$105.00
ADD: SEC. CPU PLUG-IN ETHERNET 10M PORT	Provides the same functionality as the V204, but installed on the redundant CPU.	V205	085	\$105.00
ADD: SECONDARY DC PS 10.5-15.5V	-	V275	085	\$330.00
ADD: SEC. CPU PLUG-IN RS-232 PORT	Provides the same functionality as the V184, but installed on the redundant CPU.	V185	085	\$105.00
ADD: SEC. CPU PLUG-IN RS 485 PORT	Provides the same functionality as the V440, but installed on the redundant CPU.	V441	085	\$105.00

I/O Expansion LAN Switch

This should be ordered as an option to the main RTU models. The LAN switch takes one of the I/O slots on the main RTU.

--	--	--	--	--

Description	Full Description	Nomenclature	APC	Price
ADD: ACE3600 EXPANSION LAN SWITCH MODULE	Required when more than 1 expansion frame is connected to an RTU. Occupies one I/O slot on the main RTU. Includes a 60 cm LAN cable (FKN8561) for connecting the LAN switch to the main CPU. Requires the 3640 CPU on the main RTU.	VA00226	085	\$440.00

I/O Expansion Frame

These options are compatible with the F7510 only.

Description	Full Description	Nomenclature	APC	Price
ADD: LAN CABLE 3 METER	LAN cable for connecting an expansion frame to the expansion LAN switch.	V666	085	\$26.00
ADD: LAN CABLE 60 CM	Can be used for connecting the LAN switch to the main CPU or for connecting the expansion frame to the LAN switch.	V529	085	\$20.00
ADD:DC 10.5-15.5V	This option removes the power supply that is standard with the Expansion Frame (F7510) and adds the power supply that is standard with the ACE3600 RTU. Use this option if A) the current draw from the Expansion racks + the current draw from the main RTU exceed the capacity of the main RTU power supply, or if B) a power source local to the expansion rack will be used. Please see System Planner for details.	V274	085	\$0.00
ADD: LAN CROSS CABLE 3 METER	Crossed LAN cable for connecting an expansion frame directly to the main CPU. Not compatible with the LAN switch.	V665	085	\$20.00

ADD: LAN CABLE 2 METER	LAN cable for connecting an expansion frame to the expansion LAN switch.	V648	085	\$20.00
------------------------	--	------	-----	---------

Miscellaneous

Description	Full Description	Nomenclature	APC	Price
OPTION,TEST REPORT	May be ordered with any of the main RTU models and also with the Expansion Frame. V99 provides printed report of the factory test.	V99	085	\$10.00
ADD: BLANK MODULE	Fits to I/O slots.	V20	085	\$22.00
ADD: ACT MODULE FOR ACE3600	-	V155	085	\$600.00

Software and Software Licenses

Description	Full Description	Nomenclature	APC	Price
ADD: DNP-3 LICENSE MASTER/SALVE - RTU	One required in every RTU or FIU that requires DNP capability. License is included with the RTU.	V283	214	\$100.00
ADD: IEC870-5-101_LICENSE	One required for each RTU or FIU that uses this protocol driver.	V242	085	\$100.00
ADD: 3 RD PARTY PROTOCOL LICENSE	One required for each RTU or FIU that uses the 3rd party protocol: ModBus, Allan Bradley.	V377	214	\$100.00
ADD: AGA LICENSE	One required in every RTU or FIU that requires AGA8 capability. License is included with the RTU.	V284	214	\$100.00

Model

Advanced System Key Solution (ASK)

A replacement key for the original software based system key to control access to programmable fields in the system owner's Radio Service Software (RSS) or Customer Programming Software (CPS)

****Please see 'Ordering Requirements' section below for MANDATORY ORDER ENTRY REQUIREMENTS. All required information MUST be provided to proceed****

General Information & Ordering Requirements

General Information

The Master System Key Starter Kit (DVN4046B*) contains the following components:

- 1. Master System Key (DS1996L iButton 'programmed' - Qty 1):** A hardware memory element that resembles a fat watch battery. This element is programmed by Motorola Solutions. This key can not be directly used as a system key; it is used to create Advanced System keys by the *system owner*.
- 2. Advanced System Key (DS1996L iButton 'Blank' - Qty 5):** A hardware memory element that resembles a fat watch battery. This element is programmed by the system owner via their CPS System Key Programming Software and allows the *system owner* to create usable system keys. The system owner can institute rules that allow users to program radios with limited ID ranges, limited field access, or limited by time. Once the time limited keys expire, the memory element is disabled for security reasons. This key is also required to do POP25.
- 3. Advanced System Key Dongle (Qty 5):** This is a physical hardware key that needs to be connected to the computer running the CPS. These dongles are available in both a parallel and USB port version. The dongles are reusable and the Master or Advanced System Keys can be placed inside the dongle.

NOTE: The latest version of CPS must be running on the PC. This application allows programming of radios and also includes the System Key programming utility.

All Master System Keys (DVN4046B) & I-button replacements (DS1996L) include the following features:

- 64kb memory
- Unlimited lifetime battery
- Ability to reformat after expiration
- Software based expiration
- Increases number of allowable ranges from 5 to 250
- Ability to incrementally add a system to an existing key, eliminating the need to have all

master keys present at time of creation

**NOTE: DVN4046B kit and DS1996L blank iButtons are ONLY compatible with XTS/XTL 1500, 2500, 5000 and APX radios.*

Ordering Requirements

Effective immediately, the following information is MANDATORY at time of order entry:

1) **System Owner / Manager Contact Info:** Name, Email Address, Phone Number

NOTE: For 'new build' systems, where a system owner has not yet been identified, please enter the Project Manager's contact information instead.

2) **Motorola Area Sales Manager Contact Info (ASM):** Name, Email Address, Phone Number

3) **Motorola Regional Service Manager Contact Info (RSM):** Name, Email Address, Phone Number

4) **System ID (varies depending on system type):** Please provide the ACK ID (advanced conventional ID), ASK HOM ID, Motorola System ID and/or WACN ID (used for third party system requirements).

System ID format guidelines:

- 4 digit hexadecimal for System ID
- 5 digit hexadecimal for WACN ID
- The value of '0' for a conventional system

****If multiple system IDs are being ordered in a single kit, all system IDs MUST have the same owner**

5) **Authorization Form:** The Master System Key authorization form must be completed by the system owner (or project manager for 'new build' systems) and submitted with all POs. The form can be downloaded by [clicking here](#) [To edit the form please create a copy in your personal Google Drive (right click > make a copy). The master form will not be made editable]. All forms will be reviewed and validated by Motorola Solutions.

Authorization form submission details:

- If ordering via email: please email the completed form along with your PO
- If ordering via MOL: you will be contacted by Motorola Solutions to provide the completed form
- If ordering via CPQ: you will be contacted by Motorola Solutions to provide the completed form

Configuration

Advanced System Key & Accessories

Description	Full Description	Nomenclature	APC	Price
MASTER SYSTEM KEY STARTER KIT	Ships with 1 master system key DS1996L iButton, 5 blank DS1996L iButtons, 5 USB dongles. ONLY compatible with XTS/XTL 1500, 2500, 5000 and APX radios.	DVN4046B	430	\$500.00
IC,64KBIT RAM & TIME IBUTTON	Single DS1996L iButton, used with XTS/XTL 1500, 2500, 5000 and APX radios	5184054Y03	362	\$53.25
I-BUTTONS ASK REPLACEMENT DS1996	Quantity 5 blank DS1996L iButtons, used with XTS/XTL 1500, 2500, 5000 and APX radios	DVN4316	430	\$200.00
IC,4KBIT RAM & TIME IBUTTON	Single DS1994L iButton, used with MCS and MTS radios, Limited Availability for Legacy and Astro Spectra Subscribers	5184054Y01	362	\$42.00
IBUTTON FOR USB ADAPTOR	Quantity 5 blank DS1994L iButtons, Used for MCS and MTS radios, Limited Availability for Legacy and Astro Spectra Subscribers.	DVN4181	362	\$200.00
INTFC, SER, IC USB PORT ADPTR	Quantity 1 DS9490B USB Dongle. Compatible with DS1994L and DS1996L iButtons.	5185956E75	280	\$47.00
ADV'D SYSTEM KEY READER REPLACEMENT	Quantity 5 DS9490B USB Dongles. Compatible with DS1994L and DS1996L iButtons.	DVN4050	362	\$400.00

Instructions

Agency Configuration

An agency deployment of PS-LTE Priority Management, IMW Location Service, IMW Presence Services and/or MVPN requires purchase and installation of the following accessories, in the quantities indicated:

FIREWALL (required):

- If a Non-Redundant configuration of Priority Management, IMW Location Services, IMW Presence Services and/or MVPN product is being deployed, Quantity 2 of the following is required.
- If a Redundant configuration of Priority Management, Location Services, Presence Services and/or MVPN product is being deployed, Quantity 4 of the following is required.

Fortinet 200 Firewall TT2589A.

For pricing, please refer to the Fortinet 200B Firewall eCAT page: [Agency and Regional Applications Firewall](#)

SWITCHES (required):

- If a Non-Redundant configuration of Priority Management, Location Services, Presence Services and/or MVPN product is being deployed, Quantity 1 of TT2757, TT05904AA, TT05905AA and TT5906AA and Quantity 1 of TT2610, TT05728AA and TT05729AA is required.
- If a Redundant configuration of Priority Management, Location Services, Presence Services and/or MVPN product is being deployed, Quantity 1 of the DDN1251 and Quantity 2 of TT2610, TT05728AA and TT05729AA is required.

Extreme 24 port switch, part numbers:

- TT2757 EXTREME NETWORKS SUMMIT 24 PORT SWITCH
- TT05904AA EXTREMEXOS ADVANCE CORE LICENSE UPGRADE
- TT05905AA 300W AC POWER SUPPLY FOR 24 PORT SWITCH
- TT05906AA POWER CORD FOR EXTREME 24 PORT SWITCH

Extreme 24 port switch bundle, part number DDN1251.

Extreme 48 port switch, part numbers:

- TT2610 48 10/100/1000BASE-T, 4 100/1000BASE-X
- TT05728AA ExtremeXOS Advanced Core License Upgrade
- TT05729AA Power Cord, 10A, NEMA 5-15P, IEC320-C13

For pricing, please refer to the Priority Management or Location Services or Presence Services or MVPN eCAT page.

American Wireless

Control Center Furniture and Accessories

Ordering Information

General Information

Total Solution Offerings - Customer Satisfaction - Log Credit

How American Wireless Control Center Solutions Benefit Your Customers

American Wireless offers a broad range of multi-dimensional dispatch control center furniture and vertical cabinets with ergonomic laminate and metal accessories, all designed to complement and support Communication Control Center installations.

American Wireless, in association with the [Winsted Corporation](#), offers a complete line of [Control Room Consoles](#) to fit the needs of the most demanding customers. Whether it is a small dispatch center or a large control room, American Wireless has the right solution for your customer's needs.

American Wireless exclusively supports customers who continue using the industry standard Motorola CENTRACOM Series furniture products.

American Wireless also provides its Legacy Line of metal furniture bays are built using a combination of 11- and 14-gauge cold-rolled steel and unitized/welded construction. The manufacturing process is in compliance with ISO-9001 standards and AS9100 certified quality. Laminate products meet or exceed the stringent NEMA L3 standards.

All American Wireless products carry a comprehensive 60-month warranty.

Prior to shipping, American Wireless Console Furniture Systems are completely assembled and staged for quality inspection and conformance to plan.

The modular cabinets are professionally packed, ready for easy field installation.

In addition to supplying all metal bay and vertical cabinet installations, American Wireless will also design and provide integrated solutions to meet any unusual requirements. American Wireless may incorporate a selection of wood, laminate and other materials to complete the necessary design requirements.

Using the latest techniques in packaging technology, American Wireless strives to ensure that the products survive long-distance shipping without damage.

Detailed plan drawings sent with the console allow for simplified cabinet placement.

American Wireless will provide and coordinate all necessary presale measurements and conceptual drawings for the customer proposal.

American Wireless offers complete on-site installation services, complimentary installation tutorials and online technical support.

Motorola and the American Wireless (formerly Donco) combined sales support have grown during the past 35 years.

With vast experience in the communications control center business, American Wireless has completed thousands of installations for a long list of satisfied clients, engineers, salespeople and dealers.

What some of our most valued and satisfied customers are saying about American Wireless

John Zaleski - Motorola Senior Account Manager Government Markets

American Wireless Inc. (*formerly Donco*) has always supplied great service and products at a fair price. My customers have always been delighted with the unique products and high quality they have received from American Wireless. I have customers that have been using these products for over 20 years. Again, thank you and keep up the great work.

Stan Rosenblatt - Motorola Senior Account Manager U.S. Federal Government Markets

The staff at American Wireless represent the epitome of working with a true business partner. Serving the dispatch center needs of our large federal law enforcement customers can be a daunting task. When we need to get it ***all*** right the first time, *including the details*, I turn to American Wireless for two simple reasons -- experience and professionalism.

Thomas Schmidt - Motorola Senior Account Manager Government Markets

Working with American Wireless for some 20 years now, supplying their products has always been an enjoyable experience. The products shipped are of high quality, and the service and response to any issues have been professional and quick. They understand the needs and demands of the public safety environment and Motorola.

Scott Martin - Motorola Senior Account Manager U.S. Federal Government Markets

The sales teams in Korea have worked closely with American Wireless on projects for the U.S. military in Korea. These include an eight-position Legacy Line console and a Giant Voice system (MOSCAD). We continue to be very pleased with their sales and technical support and the quality of products. Best of all, our customers are very satisfied with their Motorola/American Wireless solutions.

Cyril Steel - Motorola Systems Customer Support Manager U.S. Federal Government Markets

For the past 35 years, I have been involved in many communications projects that included the products manufactured by American Wireless (*formerly Donco*). The console products and accessories are well-manufactured and often custom made to satisfy your customers' requirements. When necessary, representatives of American Wireless will meet with the end user and will design a custom console system that specifically meets the requirements of your customer. From a service point of view, the installation and support services are excellent.

Mike Bennett - McCord Communications Two-Way Division Manager Federal Markets

I have worked in the communications industry with Motorola and McCord Communications for the last 35 years and have sold American Wireless (*formerly Donco*) on many occasions. Their console design, quality and value have always satisfied my customers' requirements, and they have always been very responsive to all our requests. I would highly recommend their products.

Fred Berrong - Northrop Grumman Corporation Integrated Systems Sector

American Wireless was able to design a furniture system to meet the stringent space requirements of an existing Mission Control Room that met all of the needs for keyboard, monitor, CPU, communications, and specialized display and control equipment. The fit and finish are outstanding and the area is very comfortable to the control room engineers, who must man the stations for extended periods of time during test flights. They were on time with a critical delivery date and their follow-up customer service is exceptional.

Sales Support Process Includes

- Introductory customer needs assessment
- Pre-site survey form completion
- Ergonomic evaluation and space planning
- Complimentary conceptual drawings
- Quotation – Motorola System and Infrastructure Operations (SIO)
- On-site presale survey as needed
- Installation coordination
- Detailed engineering drawings provided with equipment
- Installation tutorials and online support
- Factory gating to required delivery schedule
- Product staging and QA inspection
- Special packaging

Requirements Gathering and Proposal Information

Call the American Wireless Sales Coordination Team at info@awicom.com or call 714-542-7401 for an initial consultation, which will include the provision of system planning tools.

American Wireless console specialists will assist you in gathering information from the clients and supplying conceptual scale drawings for customer orientation and proposal generation.

The Ordering Process

Upon customer presale acceptance of the proposed console configuration, **American Wireless will provide the Motorola product anager with a firm quotation.**

American Wireless will generate a firm quotation using Motorola list (DNUP) pricing. At that time the product manager will create a Motorola DQ model number in COF. The quotation will be held firm for a period of 12 months, after which it will be subject to cancellation or re-quote.

American Wireless will establish a client quotation file and a status monitoring process with the Motorola sales team. Updates will be provided as needed.

Following receipt and logging of the potential order, **American Wireless will commence the order generation process**, which may involve a revalidation of the console configuration followed by factory gating of the order.

American Wireless conducts console system staging as an integral part of each console order. *Motorolans, channel partners, and the client are welcome to attend and preview the assembled furniture system at our manufacturing facility in California and Ontario.*

American Wireless packages the console configuration in specially assembled modules, ready for easy placement into the installation area.

American Wireless Project Commencement

Please call **1-714-542-7401** or email: info@awicom.com and our project coordination process will get you started.

- You will be put in direct contact with a control center specialist.
- An initial survey form will be sent to you by e-mail, followed by system planning tools as may be requested.
- Upon receipt of the basic information, American Wireless will contact you and commence coordination of information gathering, an on-site survey and conceptual proposal generation.
- A complete proposal package will be prepared by American Wireless with Motorola drop-ship pricing.

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model

- 2) Mounting (D)
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Microphone
- 8) Speaker
- 9) Service

Configuration

1. Main Model (Must Select One)

Special Note for United States - State & Local Markets: In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Description	Full Description	Nomenclature	APC	Price
APX1500 7/800	-	M36URS9PW1 N	466	\$1,564.00

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

The APX 1500 has evolved to support newer technologies. Direct cloning with Legacy models will not be available.

The 7/800 model (M36URS9PW1**BN**) is ship accepted now. The UHF R1 model (M36QSS9PW1**BN**) will be ship accepted in May, 2020. The VHF model (M36KSS9PW1**BN**) will be ship accepted in June, 2020. **The UHF R1 and VHF models will remain on hold until their ship acceptance dates.**

The UHF R2 Enhanced models will be available in early 2021. For information on the current UHF R2 AN model, refer to the AN Model PCAT page.

Retrofit kits and FLASHport for the Enhanced Models will be available in Q3 2020. The

current retrofit kits and FLASHport options are not compatible with the Enhanced models.

Effective June 13, 2020: The Essential Service option for both the U.S. and Canada will receive a 5% price increase.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model
- 2) Mounting (Dash Mount Only)
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Microphone
- 8) Speaker
- 9) Service

Configuration

1. Main Model (Must Select One)

Description	Full Description	Nomenclature	APC	Price
APX1500 7/800	Enhanced Model	M36URS9PW1BN	466	\$1,564.00
APX1500 ENHANCED VHF	Enhanced Model. Shipping June 2020.	M36KSS9PW1BN	466	\$1,564.00
APX1500 UHF	Enhanced Model. Shipping May 2020.	M36QSS9PW1BN	466	\$1,564.00

2. Mounting (Required)

APX 1500 models require Dash Mount

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT O2 WWM	Required for Control Station Operation.	G66	471	\$125.00

Control Station Operation (Optional)

Must select a control head.

Requires Dash Mount (G66)

Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.

Although optional, the Power Supply is needed for full Control Station operation.

Power Supply HPN4007 (used in Control Station configuration for AN Models) is not approved for use on Enhanced Models. Please use KT000254A01 (G91).

Description	Full Description	Nomenclature	APC	Price
ADD: CONTROL STATION OPERATION	-	W665	656	\$70.00
ADD: CONTROL STATION POWER SUPPLY	Although the Power Supply is optional, it is needed for a full Control Station solution. Corresponding kit: KT000254A01	G91	656	\$269.00

3A Control Head Software (Required)

Description	Full Description	Nomenclature	APC	Price
ADD: APX CONTROL HEAD SOFTWARE	-	G444	656	\$0.00

ADD: SOFTWARE P25 CONVENTIONAL	-	Q811	471	\$650.00
ENH: SW P25 TRUNKING	-	GA01339	466	\$1,070.00

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation.	GA09000	656	\$150.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS.	GA09012	471	\$150.00
ADD: One Touch/Status Msg	-	G683	471	\$75.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$100.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$100.00

ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$150.00
ADD: TDMA OPERATION	Requires P25 Digital Trunking	GA00580	471	\$450.00

6. Feature Antennas (Must select one)

Note: The Enhanced APX model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable.

Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).

Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.

GPS Antennas (Must select one if single function GPS is required)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT GNSS GLASSMOUNT LMR100	Corresponding kit: PMAN4109	GA01580AA	681	\$70.00
ADD: GPS/GNSS MAG MOUNT ANTENNA	Corresponding kits: CB000091A04, & PMAN4010	GA01305	656	\$60.00
ADD: GPS ANTENNA	Requires GA01576. Corresponding kit: HAG4000	GA00226	656	\$75.00
ADD: NO GPS ANTENNA NEEDED	-	GA00235	656	\$0.00

GPS Antenna Adaptors

Description	Full Description	Nomenclature	APC	Price
ADD: SMA TO QMA ADAPTER	Requires GA01305, or GA00226. Corresponding kit: CB000091A04. Corresponding kit: CB000091A04	GA01576	986	\$0.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

<p>ADD: HW KEY SUPPLEMENTAL DATA</p>	<p>The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key QA01648 can be ordered instead. Be sure to enter the correct system owner ID in the supplemental data. If an incorrect ID is entered, a FLASHport order is required to fix the error. Order hardware key (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.</p>	<p>QA01648AA</p>	<p>0655</p>	<p>\$5.00</p>
--	---	------------------	-------------	---------------

Encryption Algorithms (Optional)

All APX 1500 Mobile Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
<p>ADD: ADP ONLY (NON-P25 CAP COMPLIANT)</p>	<p>Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.</p>	<p>G193</p>	<p>430</p>	<p>\$0.00</p>

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
<p>ADD: MULTIKEY</p>	<p>Required when using more than one encryption algorithm or encryption key.</p>	<p>W969</p>	<p>466</p>	<p>\$86.25</p>

Data/Programming Cable (Optional)

Description	Full Description	Nomenclature	APC	Price

ADD: USB DATA INTFC CABLE-DASH	Corresponding kit: HKN6163B.	G308	656	\$50.00
ADD: RS232 DATA INTFC CBL DASH	Corresponding kit: HKN6160A.	G303	656	\$50.00

Model

**ASTRO® Digital APX 1500
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems**

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 1500 radios in the field. FLASHport® upgrade kits contain upgrade software, USB Dongle or software license and upgrade documentation

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management](#) page.

Ordering Requirements

1. Specify the current System Enhancement Software Package that represents the software in the radio as the main line item (T8288, T8289, T8290, T8291, T8292)
2. If you choose to use Radio Management to perform the upgrade enter the online delivery method (UA0083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle
3. Select the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. IMPORTANT: If upgrading to a new System Enhancement Software Package, you must use the column which represents that new System Enhancement Software Package to determine price and availability of System Enhancement Options. If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. ALL sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and EXISTING FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and EXISTING FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

ASTRO® Digital APX 4000XH™ Portable

800/900 MHz Band

P25 Phase 2 Dual Band Capable Radio-

Updates

Announcements:

Please Note: The APX 4000XH is only offered in Canada

Ordering Information

Features

All ASTRO Digital APX 4000XH include the following features:

- GPS Software & Hardware (QA00782)
- Mission Critical Bluetooth (QA00583)
- Radio Packet Data (Q947)
- Advanced Digital Privacy (ADP) -Single Key
- Software Key (QA01749)
- Orange Housing Standard
- 3 Programmable Side Buttons
- Orange Programmable Button
- 16 Position Mode Rotary Select Switch
- Angled On/Off Volume Knob
- Dual Microphone
- 0.5 Watt Rated Audio

- Degaussing Speaker Grille
- 2.5" Belt Clip (PMLN6086)
- CSA/IECEX Lilon Battery Standard (NNTN8750)
- Dual Band 8/900 MHz Antenna (PMAF4020)
- IP67 Standard
- Full Keypad Includes:
 - Radio Profiles
 - Unified Call List
 - Front Color Display: 2 lines of text, 2 lines of icon
 - Full Keypad: 4 x 3 alpha-numeric 3 programmable button, 4 way navigation, home and data buttons

Ordering procedure is as follows:

HAZLOC CERTIFICATION INFORMATION (CSA Only)

APX 4000XH Portable Radio when properly equipped with NNTN8750 is CANADIAN STANDARDS ASSOCIATION (CSA-157) Approved as intrinsically safe for use in Div 1, Class I , Groups A,B,C,D, And International Electrotechnical Commission Explosive (IECEX) Approved IEC60079, ZONE 1, CLASS IIA

Configuration

Models

1: Main Model (*Must Select One*)

Description	Full Description	Nomenclature	APC	Price
APX 4000XH 8/900 MHZ MODEL 3 PORTABLE	-	H51VCH9PW7 N	305	\$3,039.00

Options

3: Operation Mode (*Must Select One*)

Description	Full Description	Nomenclature	APC	Price
ENH: P25 9600 BAUD TRUNKING W/	-	QA02812	426	\$2,070.00

INTEROPERABILITY				
ENH: SOFTWARE P25 CONVENTIONAL	-	Q811	426	\$650.00
ENH: 3600 OR 9600 TRUNKING BAUD SIN	This option provide P25 Trunking functionality when programmed in 9600 Trunking. When ordering trunking mode, you must select a QA01749 software key, QA01648 hardware key or a QA02018 WACN Key.	QA02756	426	\$1,570.00
ENH: SOFTWARE ANALOG 3600 BAUD	-	Q443	426	\$1,100.00

4: System Enhancement Software (Refer to ordering guide for help)

Description	Full Description	Nomenclature	APC	Price
ADD: TDMA OPERATION	Requires P25 Trunking. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased	QA00580	426	\$450.00
ADD: PROGRAMMING OVER P25 (OTAP)	Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. Must have IV&D (Q947) enabled. To do in field POP25 programming must use Advanced System Key (DVN4046A)	G996	426	\$100.00
	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749.			

ADD: HW KEY SUPPLEMENTAL DATA	The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00
----------------------------------	--	-----------	------	--------

5: System Enhancement Options (*Optional*)

Description	Full Description	Nomenclature	APC	Price
ADD: MULTICAST VOTING SCAN	-	Q387	426	\$200.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: MANDOWN OPERATION	-	QA01843	426	\$150.00
ENH: APX GPS ACTIVATION	Must have IV&D (Q947) enabled.	QA00782	426	\$150.00
	Please reference the Enhancement Level Reference Guide for more details. This option allows for a			

ENHANCEMENT LEVEL 1	few parameters (ZONES, CHANNELS, SYSTEMS PERSONALITIES, UCL ENTRIES, VOICE ANNOUNCEMENT, ENCRYPTION KEYS) on the entry tier to go to a mid tier level.	QA01770	426	\$200.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$150.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ENH: TRUNKED RADIO TRACE/ REMOTE MO	-	H43	426	\$75.00
ENH: One Touch/Status Msg	-	H46	426	\$75.00
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking operation.	QA01767	426	\$100.00

ASTRO® Digital APX 4500 Mobile Subscriber

700/800 MHz (3-35 Watts)
VHF - 136 -174 (1-50 Watts)
UHFR1 - 380-470 (1-40 Watts)
UHF R2 450-520 (1-45 Watts)

900MHz - 896-902 / 935-941
(1-35 Watts)

SELF-QUIETING SPURS
Frequencies (MHz)

VHF: 168.000MHz, 144.000MHz

UHF R1: 482.010MHz

*UHF R2: 480.000MHz, 490.000MHz,
511.480MHz, 519.250MHz*

Secure and Trunked Radio Systems

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model

- 2) Mounting
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Remote Mount Cables (if remote mount is selected)
- 8) Microphone
- 9) Speaker
- 10) Service

Configuration

1. Main Model (Must Select One)

Special Note for United States - State & Local Markets: In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Description	Full Description	Nomenclature	APC	Price
APX4500 7/800	-	M22URS9PW1 N	471	\$1,564.00
APX4500 VHF	-	M22KSS9PW1 N	471	\$1,564.00
APX4500 UHF R1	-	M22QSS9PW1 N	471	\$1,564.00

5: Software Packages (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ADD: 3600 OR 9600 TRUNKING BAUD SINGLE SYSTEM	Provides for Digital and P25 Trunking.	QA02756	471	\$1,570.00
ADD: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional	Q811	471	\$650.00
ADD: SOFTWARE ANALOG 3600 BAUD	Provides for Analog Trunking	Q443	471	\$1,100.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$400.00

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation	GA09000	656	\$150.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering and DVRS PSU. Available with VRX only. Requires Remote Mount and P25 Digital Trunking.	GA00631	656	\$250.00
	Requires P25 Digital			

ADD: DVRS PSU ACTIVATION	Trunking. If you are connecting your radio directly to a DVR then order GA00631. Incompatible with GA00631.	QA00631	655	\$100.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$150.00
ADD: FPP & CLONE APX	-	G53	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS	GA09012	471	\$150.00
ADD: DATA MODEM TETHERING	Requires Remote Mount. Incompatible with DVRS MSU. Provides for aftermarket cable: KT000247A01.	GA09011	681	\$100.00
ADD: One Touch/Status Msg	-	G683	471	\$75.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation.	G387	656	\$200.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$100.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must	G996	656	\$100.00

	use Advanced System Key (DVN4046A).			
ENH: TRUNKED RADIO TRACE/ REMOTE MO	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	471	\$75.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$150.00
ENH: ENHANCEMENT LEVEL 1	-	GA01770	471	\$200.00
ADD: TDMA OPERATION	Requires P25 Digital Trunking	GA00580	471	\$450.00

6. Feature Antennas (Must select one)

Although GPS comes standard, an antenna is required for the full solution.

Description	Full Description	Nomenclature	APC	Price
ADD: NO GPS ANTENNA NEEDED	-	GA00235	656	\$0.00
ADD: GPS ANTENNA	Corresponding kit: HAG4000	GA00226	656	\$75.00
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$33.00

Advanced System Key (Optional)

Must Select One if Trunking is Ordered

Description	Full Description	Nomenclature	APC	Price
	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to			

ADD: HW KEY SUPPLEMENTAL DATA	enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00
----------------------------------	--	-----------	------	--------

Encryption Algorithms (Optional)

All APX 4500 Mobile Radios ship P25 "clear (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$475.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non- FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$330.00

7. Remote Mount Cables (17 FT STD)

Description	Full Description	Nomenclature	APC	Price
ADD:CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$10.00

ADD: REMOTE MOUNT CBL 30 FEET	Corresponding kit: HKN6168	G610	656	\$25.00

ADD: STD PALM MICROPHONE APX	Corresponding kit: HMN1090	W22	471	\$72.00
ADD:HANDSET/HANGUP MIC	Not compatible with Control Station. Coiled Cable with Toggle Switch Accessory Kit: HLN1457A	G874	656	\$285.00
ADD: VISOR MIC REMOTE MOUNT	Requires PTT Option. Incompatible with Control Station. Kit Number: RMN5054	W872	656	\$30.00

ADD: GOOSENECK PTT	Requires Visor Mic. Corresponding kit: HMN1087A	G233	656	\$56.00
ADD: PTT FOOTSWITCH	Requires Visor Mic. Corresponding kit: GLN7278	G235	656	\$51.00
ADD: PUSHBUTTON PTT	-	GA00304	656	\$56.00
ADD: HANDSET/HANGUP COILED CABLE	Not compatible with Control Station Operation. Corresponding kit: HKN1018	G876	656	\$415.00
ADD: NO MICROPHONE NEEDED	-	G90	656	\$0.00

Direct Mode Entry & Status/Message

DEKs require Remote Mount Configuration.

Please note, 24 modes are the maximum number of modes available. Although a combination of Direct Mode Entry boxes and Status/Message boxes can be used, the maximum available entries is 24.

Description	Full Description	Nomenclature	APC	Price
ADD: 8 MODE DIRECT ENTRY	Corresponding kit: H1835	W599	656	\$180.00
ADD: 16 MODE DIRECT ENTRY	Corresponding kit: H1836	W614	656	\$360.00
ADD: 24 MODE DIRECT ENTRY	Corresponding kit: H1837	W615	656	\$540.00
ADD: STATUS/MESSAGE 16	Corresponding kit: H1839A	W374	656	\$650.00
ADD: DEK FOR WHELEN SIREN	Corresponding kit: H1883A	GA00814	656	\$105.00
ADD: STATUS/MESSAGE 8	Corresponding kit: H1838	W355	656	\$475.00

9: Speakers (Must Select One)

Speakers are not compatible with Control Station Operation.

Description	Full Description	Nomenclature	APC	Price
ADD: SPKR 15W WATER RESISTANT	Corresponding kit: HSN4040	G831	656	\$60.00
ADD: AUXILIARY SPKR 7.5 WATT	Corresponding kit: HSN4031	B18	656	\$60.00
ADD: AUXILIARY COVERT SPKR 10W APX	Corresponding kit: HSN4042	GA01203	656	\$60.00
ADD: AUXILIARY SPKR 13W (3.2OHM)	Corresponding kit: HSN4032	W432	656	\$71.50
ADD: NO SPEAKER NEEDED	Required for Control Station	G142	656	\$0.00

Auxiliary WILDCARD (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: AUXILIARY SWITCH PANEL	Remote Mount Required. Corresponding kit: HLN1196.	W591	656	\$165.00

Amplifier (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RF PREAMP	Option applies only to VHF & UHF radios.	W12	471	\$66.00
ENH: ENABLE RF MODEM	The APX mobiles do not support Site Lens or System Watch. Therefore, the APX RF Modem function does not support the legacy System Watch or Site Lens applications. The APX RF Modem supports Conventional or 9600 Trunking only. Enabling the RF Modem in conventional mode allows provisioned APX portables to pass accountability data through the portable option Q445.	G319	656	\$0.00

MOTOROLA SIREN

NOTE: THE SIREN IS COMPATIBLE WITH REMOTE MOUNT APX AND XTL MOBILES WITH "O" SERIES CONTROL HEADS ONLY. THIS SIREN IS NOT COMPATIBLE WITH ANY "W" SERIES CONTROL HEADS

THE SIREN BASE MODEL TT2592, ONE CABLE AND THE SIREN MOUNTING HARDWARE TT0507 MUST ALWAYS BE ORDERED (THIS SIREN IS ORDERED AS A SEPARATE LINE ITEM, TT2592 IS THE MODEL)

DEK OPTIONS ARE AVAILABLE AS OPTIONS TO THE SUBSCRIBER AS SHOWN BELOW

Description	Full Description	Nomenclature	APC	Price
SIREN HARDWARE INSTALL KIT	-	TT05707AA	571	\$25.00
ADD: SIREN TO RADIO CABLE (21-PIN D	Spare parts part number: DDN1833	TT05900AA	571	\$70.00
WHELEN/MOTOROLA SIREN	Siren AMP- box only spare part: DDN1542 If you need the siren speaker as well, use DDN1784A	TT2592	571	\$618.00

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

The APX 4500 has evolved to support newer technologies like Wi-Fi. Direct cloning with Legacy models will not be available.

The 7/800 model (M22URS9PW1BN) is ship accepted now. The UHF R1 model (M22QSS9PW1BN) will be ship accepted in May, 2020. The VHF model (M22KSS9PW1BN) will be ship accepted in June, 2020. **The UHF R1 and VHF models will remain on hold until their ship acceptance dates.**

The UHF R2 and 900 MHz Enhanced models will be available in early 2021. For information on the current UHF R2 or 900 MHz AN model, refer to the AN Model PCAT page.

Retrofit kits and FLASHport for the Enhanced Models will be available in Q3 2020. The current retrofit kits and FLASHport options are not compatible with the Enhanced models.

Effective June 13, 2020: The Essential Service option for both the U.S. and Canada will receive a 5% price increase.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model
- 2) Mounting
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Remote Mount Cables (if remote mount is selected)
- 8) Microphone
- 9) Speaker
- 10) Service

Configuration

1. Main Model (Must Select One)

Description	Full Description	Nomenclature	APC	Price
APX4500 7/800 MHZ	Enhanced Model	M22URS9PW1BN	471	\$1,714.00
APX4500 UHF MHZ	Enhanced Model. Shipping May 2020.	M22QSS9PW1BN	471	\$1,714.00
APX4500 ENHANCED VHF	Enhanced Model. Shipping June 2020.	M22KSS9PW1BN	471	\$1,714.00

2. Mounting (Must Select One)

If a remote mount cable other than 5 meters (17ft) is desired for G67, please reference the "Remote Mount Cables" section.

Description	Full Description	Nomenclature	APC	Price
ADD: REMOTE MOUNT O2 WWM	-	G67	656	\$297.00
ADD: DASH MOUNT O2 WWM	Required for Control Station Operation.	G66	471	\$125.00

Control Station Operation (Optional)

Must select a control head.

Requires Dash Mount (G66)

Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.

Although optional, the Power Supply is needed for full Control Station operation.

Power Supply HPN4007 (used in Control Station configuration for AN Models) is not approved for use on Enhanced Models. Please use KT000254A01 (G91).

Description	Full Description	Nomenclature	APC	Price
ADD: CONTROL STATION OPERATION	-	W665	656	\$70.00

5: Software Packages (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ADD: 3600 OR 9600 TRUNKING BAUD SINGLE SYSTEM	Provides for Digital and P25 Trunking.	QA02756	471	\$1,570.00
ADD: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional	Q811	471	\$650.00
ADD: SOFTWARE ANALOG 3600 BAUD	Provides for Analog Trunking	Q443	471	\$1,100.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$400.00

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation	GA09000	656	\$150.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering and DVRS PSU. Available with VRX only. Requires Remote Mount and P25 Digital Trunking.	GA00631	656	\$250.00
	Requires P25 Digital Trunking. If you are			

ADD: DVRS PSU ACTIVATION	connecting your radio directly to a DVR then order GA00631. Incompatible with GA00631.	QA00631	655	\$100.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$150.00
ADD: FPP & CLONE APX	-	G53	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS	GA09012	471	\$150.00
ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$100.00
ADD: One Touch/Status Msg	-	G683	471	\$75.00
ADD: MULITCAST VOTING SCAN	Requires Digital Operation.	G387	656	\$200.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$100.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital	G445	571	\$150.00

ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$100.00
ENH: TRUNKED RADIO TRACE/ REMOTE MO	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	471	\$75.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$150.00
ENH: ENHANCEMENT LEVEL 1	-	GA01770	471	\$200.00
ADD: TDMA OPERATION	Requires P25 Digital Trunking	GA00580	471	\$450.00
ADD: WI-FI CAPABILITY	Compatible with Enhanced (BN) models only. Requires a Wi-Fi antenna. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using Wi-Fi is desired.	GA09001	681	\$300.00
ADD: OUT OF THE BOX WI-FI PROVISIONING	Requires GA09001 (Wi-Fi)	GA09007	681	\$0.00

6. Feature Antennas (Must select one)

Note: The Enhanced APX model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable.

Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).

Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.

Multifunction Antennas (Must Select One in Multifunction is Selected)

Requires Wi-Fi (GA09001)

Description	Full Description	Nomenclature	APC	Price
ADD: WIFI/GNSS FLEXIBLE CABLE LMR195	Corresponding kit: AN000163A01	GA00250	681	\$100.00
ADD: NO GPS/WI-FI ANTENNA NEEDED	-	GA01606AA	681	\$0.00

GPS Antennas (Must select one if single function GPS is required)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT GNSS GLASSMOUNT LMR100	Corresponding kit: PMAN4109	GA01580AA	681	\$70.00
ADD: GPS/GNSS MAG MOUNT ANTENNA	Corresponding kits: CB000091A04, & PMAN4010	GA01305	656	\$60.00
ADD: GPS ANTENNA	Requires GA01576. Corresponding kit: HAG4000	GA00226	656	\$75.00
ADD: NO GPS ANTENNA NEEDED	-	GA00235	656	\$0.00

GPS Antenna Adaptors

Description	Full Description	Nomenclature	APC	Price
ADD: SMA TO QMA ADAPTER	Requires GA01305, or GA00226. Corresponding kit: CB000091A04. Corresponding kit: CB000091A04	GA01576	986	\$0.00

Wi-Fi Antennas (Must select one if single function Wi-Fi is requested)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT WIFI	Corresponding kit: PMAN5101			

GLASSMOUNT 2.4/5 GHZ	Requires Wi-Fi (GA09001).	GA01579AB	681	\$70.00
ADD: NO WI-FI ANTENNA NEEDED	-	GA01607AA	681	\$0.00

Advanced System Key (Optional)

Must Select One if Trunking is Ordered

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00

Encryption Algorithms (Optional)

All APX 4500 Mobile Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$475.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$330.00

7. Remote Mount Cables (17 FT STD)

Description	Full Description	Nomenclature	APC	Price

Model

ASTRO® Digital APX 6000
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 6000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management](#) page.

Ordering Requirements

1. **Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T7659, T7660, T7663, T7664, T7665)

2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.

3. **Select** the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.

4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.

5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1. Maximum qty of software upgrades is 500 per line item.

6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.

7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

CURRENT SYSTEM SOFTWARE PACKAGE

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

The APX 6500 has evolved to support newer technologies like Wi-Fi, and SmartConnect, and the E5 control head has been introduced. Direct cloning with Legacy models will not be available.

The 7/800 model (M25URS9PW1**B**N) is ship accepted now. The UHF R1 model (M25QSS9PW1**B**N) will be ship accepted in May, 2020. The VHF model (M25KSS9PW1**B**N) will be ship accepted in June, 2020. **The UHF R1 and VHF models will remain on hold until their ship acceptance dates.**

The E5 Control Head will ship accept on June, 2020. Mobile radio orders with the E5 Control Head will remain on hold until the control head is ship accepted.

The UHF R2 Enhanced model will be available in early 2021. For information on the current UHF R2 AN model, refer to the AN Model PCAT page.

Retrofit kits and FLASHport for the Enhanced Models will be available in Q3 2020. The current retrofit kits and FLASHport options are not compatible with the Enhanced models.

Effective June 13, 2020: The Essential Service option for both the U.S. and Canada will receive a 5% price increase.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model
- 2) Mounting
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Remote Mount Cables (if remote mount is selected)
- 8) Microphone
- 9) Speaker
- 10) Service

Please note, the APX 6500 does not support Motorcycle Configuration.

Additional Ordering Information for Service Options

[SmartConnect End to End Ordering Guide](#)

[ViQi Virtual Partner End to End Ordering Guide](#)

Configuration

1. Main Model (Must Select One)

--	--	--	--	--

Description	Full Description	Nomenclature	APC	Price
APX 6500 700/800 MHZ	Enhanced Model	M25URS9PW1BN	527	\$2,938.00
APX6500 ENHANCED VHF	Enhanced Model. Shipping June 2020.	M25KSS9PW1BN	527	\$2,938.00
APX6500 ENHANCED UHF R1	Enhanced Model. Shipping May 2020.	M25QSS9PW1BN	527	\$2,938.00

2. Mounting (Must Select One)

If a remote mount cable other than 5 meters (17ft) is desired for Remote Mount, please reference the "Remote Mount Cables" section.

The O3 dash and remote mount configurations are the same except that the dash mount configurations do not come with the 17ft extension cable, PMLN4958.

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT	Required for Control Station Operation.	G66	656	\$125.00
ADD: REMOTE MOUNT MID POWER	Required for Motorcycle Operation.	G67	656	\$297.00

Motorcycle Mounting (Optional)

HMN1079 (Motorcycle Mic) and HSN4031 (Speaker) are mandatory selections with motorcycle configurations. Motorcycle mount requires the O2, O5, E5, or O7 Control Head and Remote Mount (G67). CAN cables are not compatible with motorcycle. This option includes a weatherized harness. Incompatible with DVRS MSU operation (GA00631)

Description	Full Description	Nomenclature	APC	Price
ADD: APX MOTORCYCLE CH SFWR	Requires G67 (Remote Mount)	G138	656	\$0.00
ADD:REMOTE MOUNT MOTORCYCLE	Requires G138 (Motorcycle)	G67BA	656	\$400.00

Trunnion Screws (Optional)

The APX 6500 Enhanced model will ship with HLN6861 to accommodate a smaller, lighter form factor. If it is required to use the previous APX 6500 model trunnion, HLN7002, order GA01693,

which provides KT000053A01, screws that will fit the previous trunnion.

Description	Full Description	Nomenclature	APC	Price
ADD : LEGACY TRUNNION SCREW KIT	Corresponding kit: KT000053A01 Requires remote mount	GA01693	471	\$10.00

Control Station Operation (Optional)

O2, O5, E5, & O7 Control Heads Only. Must select one.

Requires Dash Mount (G66)

Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.

Although optional, the Power Supply is needed for full Control Station operation.

Power Supply HPN4007 (used in Control Station configuration for AN Models) is not approved for use on Enhanced Models. Please use KT000254A01 (G91).

Description	Full Description	Nomenclature	APC	Price
ADD: CONTROL STATION OPERATION	Requires an O2, O5, E5, or O7 Control Head. Requires Dash Mount (G66) Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.	W665	656	\$70.00
ADD: CONTROL STATION POWER SUPPLY	Although the Power Supply is optional, it is needed for a full Control Station solution. Corresponding kit: KT000254A01	G91	656	\$269.00

CONTROL HEAD.	GA00806.			
ADD:CH SIREN & LIGHTS KEYPAD	Available on O3 (G72) and O7 (GA00805) Control Heads.	GA00806	656	\$50.00

No Control Head Options

Description	Full Description	Nomenclature	APC	Price
ADD: APX NO O2/O7 CH NEEDED MTCL	If you plan to use this model with an O2/O5/O7 Control Head but already have a control head and don't require it, select G88. Requires remote mount option (G67).	G88	656	\$0.00

Dual Control Head (Optional)

The APX 6500 mobile can support up to two control heads on a single transceiver. This allows control of a single APX 6500 transceiver from two different control head locations.

Dual Control Head requires Remote Mount.

When ordering the dual control head option, only one type of control head can be selected.

Only available with O2, O5, E5, and O7 Control Heads.

The Dual Control Head Option requires an equal number of microphones, speakers, and CAN cables.

Description	Full Description	Nomenclature	APC	Price
ADD: APX DUAL-CONTRL HD HARDWARE	Requires either O2, O5, E5, O7 Control Head. Requires a remote mount configuration. Requires a selection of 2 for microphones, speakers and CAN cables.	GA00092	656	\$570.00

Dual Radio Operation Options

The APX Dual Radio Feature offers the capability to control **TWO** (2) APX 8500, APX 7500 or APX 6500 mobile radios from **ONE** (1) O7 control head or E5 control head. APX Dual Radio allows for mixing and matching of radios across tiers (i.e. APX 8500 with APX 6500) and power levels (High Power with Mid Power).

Each radio in an APX Dual Radio system must be ordered independently.

The mobiles in a dual radio solution can be single or dual band. Both radios can be on the same or different frequency bands.

One radio must be ordered with the Primary Radio option (GA01113) and the other with the Secondary Radio option (GA01117). This will include both the SW and HW required for dual radio operation.

Although each radio must be ordered as either a Primary or Secondary radio, each radio can be configured to work as a Primary, Secondary, or a stand alone radio.

Only one speaker can be connected to the control head and it will play audio from the primary radio. A 30 ft. speaker extension cable is included on the secondary radio to connect the second speaker directly to the secondary radio. If a longer cable is needed, a 128 ft. version can be purchased from AAD (part # HKN6251)

The Dual Radio feature is incompatible with the multi-control head options.

Description	Full Description	Nomenclature	APC	Price
ENH: DUAL RADIO OPERATION (PRIMARY RADIO)	The Primary radio must be ordered with an O7 CH, or E5 CH. APX Dual Radio is not compatible with any other control head. The primary radio includes a short dual radio CAN cable (HKN6245) to connect both radios together. If the stack mount trunnion is ordered, a right-angle version of this cable (HKN6249) will ship instead to facilitate stack-mounted installations. If a different length is desired, the standard remote mount control head cables can also be used to connect both together.	GA01113	656	\$650.00
ENH: DUAL RADIO OPERATION (SECONDARY RADIO)	The secondary radio must be ordered with no control head (G88).	GA01117	656	\$650.00

Dual Radio Options

The Dual Radio trunnion is new to accommodate the smaller form factor of the Enhanced APX 6500. HLN7045A, offered on APX 6500 AN models, is not compatible with the Enhanced APX 6500. HLN7045B is compatible will all Enhanced APX 6500 and APX 8500 models.

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation (G806).	GA09000	656	\$150.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering. Requires Remote Mount (G67).	GA00631	656	\$250.00
	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631			

ADD: DVRS PSU ACTIVATION	is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking (G361).	QA03399	656	\$150.00
ADD: FPP & CLONE APX	-	G53	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital Operation (G806) for Conventional only capabilities and G361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital Operation (G806), IV&D (W947), and GPS (GA00229).	GA09012	471	\$150.00
ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$100.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation (G806). This feature allows for voting of the Conventional Channels only.	G387	656	\$200.00
ADD: TRUNKED ONE TOUCH BUTTON APX	-	G683	656	\$75.00

ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking (G361).	GA01767	527	\$100.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation.	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 9600 Trunking (G361). There is no Analog Functionality for this feature. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$100.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking (G361).	GA00982	656	\$150.00
ENH: TACTICAL RADIO STW-STUN/KILL	Requires digital (G806), IV&D, and a encryption (not including ADP-only).	H02	481	\$75.00
ADD: TDMA OPERATION APX	Requires P25 9600 Trunking (G361).	GA00580	656	\$450.00
ENH: ENHANCEMENT LEVEL 2	Please reference the Enhancement Level Reference Guide for more details.	GA01771	527	\$200.00
ADD: WI-FI CAPABILITY	Compatible with Enhanced (BN) models only. Requires a Wi-Fi antenna. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using Wi-Fi is desired.	GA09001	681	\$300.00
ADD: OUT OF THE BOX WI-FI PROVISIONING	Requires GA09001 (Wi-Fi)	GA09007	681	\$0.00

ADD: SMARTCONNECT	Requires either or Wi-Fi or Data Modem Tethering. Separate SVC part number must be ordered separately to activate service.	GA01630	681	\$0.00
-------------------	--	---------	-----	--------

6. Feature Antennas (Must select one)

Note: The Enhanced APX 6500 model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable.

Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).

Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.

Multifunction Antennas (Must Select One in Multifunction is Selected)

Requires Wi-Fi (GA09001)

ADD: NO WI-FI ANTENNA NEEDED	-	GA01607AA	681	\$0.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key QA01648 can be ordered instead. Be sure to enter the correct system owner ID in the supplemental data. If an incorrect ID is entered, a FLASHport order is required to fix the error. Order hardware key (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00

Encryption Algorithms (Optional)

All APX 6500 Mobile Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$475.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	G851	656	\$799.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$599.00
ADD: DVP-XL ENCRYPTION APX7500	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$487.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$330.00
	Not compatible with ADP-			

ENH: ASTRO 25 OTAR W/ MULTIKEY	Only. Requires AES. Includes multikey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	G298	656	\$740.00
ADD:TACTICAL OTAR APX	Requires digital (G806) and IV&D (W947).	H04	656	\$350.00
ADD: MULTI SYSTEM OTAR	Requires ASTRO 25 OTAR W/ MULTIKEY (G298)	GA01620	656	\$150.00

7. Remote Mount Cables (17 FT STD)

Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Only for O5, E5 & O7 Control Heads.

Description	Full Description	Nomenclature	APC	Price
ADD:CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$10.00
ADD: REMOTE MOUNT CBL 17 FEET	Included at no charge with Single Control Head Remote Mount installations and High Power. Corresponding kit: HKN6169	G628	656	\$15.00

Model

ASTRO® Digital APX 6500 Mobile Subscriber

700/800 MHz (10 – 35 Watts)

VHF - 136 -174 (10 - 50 Watts)

UHFR1 - 380-470 (10 - 40 Watts)

UHF R2 450-520 (10 - 45 Watts)

Secure and Trunked Radio Systems

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Effective April 24, 2020: The E5 Control Head will ship accept on June, 2020. Mobile radio orders with the E5 Control Head will remain on hold until the control head is ship accepted.

Effective August 26, 2019: Multi-System OTAR (GA01620) is available. Users who frequently move from one secure system to another will benefit from the ease and speed that radio keys are shared and updated. Our Multi-System Over-the-Air Rekeying (Multi-System OTAR) feature supports over-the-air-rekeying with up to 19 different secure systems, key sharing across profiles and seamless migration of fielded radios. The customer must order OTAR W/ MULTIKEY as a prerequisite for MS-OTAR.

Effective July 31, 2018: The APX 6500 High Power Models have been cancelled. The replacement model is the APX 8500 HP Model (M37TXS9PW1AN)

Special Note for United States - State & Local Markets:

In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model
- 2) Mounting
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Remote Mount Cables (if remote mount is selected)
- 8) Microphone
- 9) Speaker
- 10) Service

Please note, the APX 6500 does not support Motorcycle Configuration.

Additional Ordering Information for Service Options

Dual Control Head (Optional)

The APX 6500 mobile can support up to two control heads on a single transceiver. This allows control of a single APX 6500 transceiver from two different control head locations.

Dual Control Head requires Remote Mount.

When ordering the dual control head option, only one type of control head can be selected.

Only available with O2, O5, O7 Control Heads.

The Dual Control Head Option requires an equal number of microphones, speakers, and CAN cables.

Description	Full Description	Nomenclature	APC	Price
ADD: APX DUAL-CONTRL HD HARDWARE	Requires either O2/O5/E5/O7 Control Head. Requires a remote mount configuration. Requires a selection of 2 for microphones, speakers and CAN cables.	GA00092	656	\$570.00

Dual Radio Operation Options

The APX Dual Radio Feature offers the capability to control **TWO** (2) APX8500, APX7500, APX6500, or APX6500Li mobile radios from **ONE** (1) O7, or E5 control head. APX Dual Radio allows for mixing and matching of radios across tiers (i.e. APX 8500 with APX 6500) and power levels (High Power with Mid Power).

Each radio in an APX Dual Radio system must be ordered independently.

The mobiles in a dual radio solution can be single or dual band. Both radios can be on the same or different frequency bands.

One radio must be ordered with the Primary Radio option (GA01113) and the other with the Secondary Radio option (GA01117). This will include both the SW and HW required for dual radio operation.

Although each radio must be ordered as either a Primary or Secondary radio, each radio can be configured to work as a Primary, Secondary, or a Standalone radio.

Only one speaker can be connected to the control head and it will play audio from the primary radio. A 30 ft. speaker extension cable is included on the secondary radio to connect the second speaker directly to the secondary radio. If a longer cable is needed, a 131 ft. version can be purchased from AAD (part # HKN6251)

The Dual Radio feature is incompatible with the multi-control head options.

Description	Full Description	Nomenclature	APC	Price
ENH: DUAL RADIO OPERATION (PRIMARY RADIO)	The Primary radio must be ordered with an O7 or E5 CH. APX Dual Radio is not compatible with any other control head. The primary radio includes a short dual radio CAN cable (HKN6245) to connect both radios together. If the stack mount trunnion is ordered, a right-angle version of this cable (HKN6249) will ship instead to facilitate stack-mounted installations. If a different length is desired, the standard remote mount control head cables can	GA01113	656	\$650.00

	also be used to connect both together.			
ENH: DUAL RADIO OPERATION (SECONDARY RADIO)	The secondary radio must be ordered with no control head (G88).	GA01117	656	\$650.00

Dual Radio Options

Description	Full Description	Nomenclature	APC	Price
ADD: DUAL RADIO STACKABLE MP TRUNNION	Comprised of HLN7045A and HKN6249A	GA01115	656	\$297.00

5D: Analog Trunking

Description	Full Description	Nomenclature	APC	Price
ENH: SMARTZONE OPERATION APX6500	Not compatible with G48.	G51	527	\$1,200.00
ENH: SW ASTRO READY (ANALOG)	Not compatible with G806 or with Encryption Algorithm W969, W793, W797, G625, G298, G851, or G843 when combined with a Trunking Software Option.	G241	656	\$0.00

5E: Analog Conventional

Description	Full Description	Nomenclature	APC	Price
ENH: SW ASTRO READY (ANALOG)	Not compatible with G806 or with Encryption Algorithm W969, W793, W797, G625, G298, G851, or G843 when combined with a Trunking Software Option.	G241	656	\$0.00
ENH: CONVENTIONAL OPERATION APX6500	Not compatible with G51.	G48	527	\$500.00

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation (G806).	GA09000	656	\$150.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering. Requires Remote Mount (G67).	GA00631	656	\$250.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking (G361).	QA03399	656	\$150.00
ADD: FPP & CLONE APX	-	G53	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital Operation (G806) for Conventional only capabilities and G361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital Operation (G806), IV&D (W947), and GPS (GA00229).	GA09012	471	\$150.00

ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$100.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation (G806). This feature allows for voting of the Conventional Channels only.	G387	656	\$200.00
ADD: TRUNKED ONE TOUCH BUTTON APX	-	G683	656	\$75.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking (G361).	GA01767	527	\$100.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation.	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 9600 Trunking (G361). There is no Analog Functionality for this feature. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$100.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking (G361).	GA00982	656	\$150.00
ENH: TACTICAL RADIO STW-STUN/KILL	Requires digital (G806), IV&D, and a encryption (not including ADP-only).	H02	481	\$75.00
ADD: TDMA OPERATION APX	Requires P25 9600 Trunking (G361).	GA00580	656	\$450.00
ENH: ENHANCEMENT LEVEL 2	Please reference the Enhancement Level Reference Guide for more	GA01771	527	\$200.00

	details.			
--	----------	--	--	--

Enhancement Level Reference Guide

6. Feature Antennas (Must select one)

Although GPS comes standard, an antenna is required for the full solution.

Description	Full Description	Nomenclature	APC	Price
ADD: NO GPS ANTENNA NEEDED	-	GA00235	656	\$0.00
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$33.00
ADD: GPS ANTENNA	Corresponding kit: HAG4000	GA00226	656	\$75.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00

Encryption Algorithms (Optional)

All APX 6500 Mobile Radios ship P25 "clear (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

ADD: AES ENCRYPTION APX	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$475.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	G851	656	\$799.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$599.00
ADD: DVP-XL ENCRYPTION APX7500	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$487.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$330.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Not compatible with ADP-Only. Requires AES. Includes multikey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	G298	656	\$740.00
ADD:TACTICAL OTAR APX	Requires digital (G806) and IV&D (W947).	H04	656	\$350.00

ADD: MULTI SYSTEM OTAR	Requires ASTRO 25 OTAR W/ MULTIKEY (G298)	GA01620	656	\$150.00
------------------------	--	---------	-----	----------

7. Remote Mount Cables (17 FT STD)

Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Only for O5, E5 & O7 Control Heads.

ASTRO Advanced Messaging Solution (AMS)

The ASTRO 25 Advanced Messaging Solutions is the latest messaging platform from Motorola Solutions and will replace ASTRO Text Messaging Service (TMS). As a complete end-to-end solution it leverages the core assets of ASTRO 25 IV&D/CID networks, ASTRO 25 radios, Integrated Command Center applications and Unified Network Services. The application allows responders to send/receive messages and run database queries from ASTRO 25 data enabled portable radios, extending real time information access to the field so dispatchers and first responders can be more efficient and achieve safer outcomes.

Provides functional parity with TMS and leverages the PremierOne messaging services platform, offering multiple configurations to enhance and extend core messaging functionality that can include queries and dispatch notifications. Based upon the configuration chosen, ASTRO 25 Advanced Messaging Solution extends Computer Aided Dispatch (CAD) information beyond the vehicle to select ASTRO 25 Portable radios.

Many Public Safety agencies have experienced the benefits of messaging and sharing important information to/from the communication center (dispatch) and vehicles equipped with MDT's. With ASTRO 25 Advanced Messaging Solution we are extending that capability to responders when Outside the Vehicle.

ASTRO Advanced Messaging Solution will be available on APX 7000 Dual Display Portable radios. Advanced Messaging is NOT supported on APX 7000 Top Display Portable radios.

Ordering ASTRO Advanced Messaging Solution for APX Mobiles Require: (Note: some control heads are not available on all main models)

O9, O7, O5, E5, O3 or O2 Control Heads
 With O2, E5 or O5 Control Heads Require Keypad Mic (W20)
 ASTRO Digital CAI Operation (G806)
 P25 Conventional (G48)
 Packet Data Interface (W947)

OR

O9, O7, O5, E5, O3 or O2 Control Heads
 With O2, E5 or O5 Control Heads Require Keypad Mic (W20)
 ASTRO Digital CAI Operation (G806)
 SmartZone Operation (G51)
 ASTRO Project 25 Trunking Software (G361)
 Packet Data Interface (W947)

NOTE: There is no specific option to order for the Advanced Messaging Solution on the subscribers as the functionality is included in the Packet Data option. Also, the text messaging functionality carries a per-radio charge on the server side of \$50 (one time license fee to access messaging services) per radio. When adding query the fee is \$125 per radio. For additional ordering guidelines of the AMS feature which includes the server and radio license fees, please visit - [ASTRO25 Advanced Messaging](#)

Update History

Starting January 1 2015. The SOFTWARE KEY (QA01749) is the default Advance System Key, it ships by default on all APX products; The HARDWARE KEY can be ordered instead by using QA01648. The DVN4046 Master Key Starter Kit is required for the Hard Key or to operate on a third-party Trunking system. The CORRECT System Owner ID will be required upon ordering the Hard Key or DVN Kit. Details can be found on the [Advanced System Keys-ASK for RSD Subscriber](#) ECAT page Be sure to enter the CORRECT SYSTEM OWNER ID when supplemental data is required. If an INCORRECT ID is entered, a FLASHport order is required to fix the error.

Model

ASTRO® Digital APX 6500Li Mobile Subscriber

700/800 MHz (10 – 35 Watts)

VHF - 136 -174 (10-50 Watts)

UHFR1 - 380-470 (10-40 Watts)

UHF R2 450-520 (10-45 Watts)

Secure and Trunked Radio Systems

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Special Note for United States - State & Local Markets:

In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model
- 2) Mounting
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Remote Mount Cables (if remote mount is selected)
- 8) Microphone
- 9) Speaker
- 10) Service

Please note, the APX 6500Li does not support Motorcycle Configuration.

5: Operation Mode (Must Select One)

Trunking mode requires either a Software Key (QA01749 comes standard unless QA01648 is selected), or a Hardware Key (QA01648).

Description	Full Description	Nomenclature	APC	Price
ENH: 3600 OR 9600 TRUNKING BAUD SIN	Provides for Digital and P25 Trunking.	QA02756	426	\$1,570.00
ENH: LI ANALOG 3600 TRUNKING	Provides for Analog Trunking	Q443	755	\$1,100.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$400.00
ENH: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional.	Q811	426	\$650.00

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation.	GA09000	656	\$150.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering. Requires Remote Mount and P25 Digital Trunking.	GA00631	656	\$250.00
ADD: DVRS PSU ACTIVATION	Requires P25 Digital Trunking. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$150.00
ADD: FPP & CLONE APX	-	G53	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS.	GA09012	471	\$150.00
ADD: TRUNKED ONE TOUCH BUTTON APX	-	G683	656	\$75.00
ADD: MULITCAST VOTING SCAN	Requires Digital Operation.	G387	656	\$200.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$100.00

ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$100.00
ENH: ENH: RADIO TRACE	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	656	\$75.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$150.00
ADD: TDMA OPERATION APX	Requires P25 Digital Trunking	GA00580	656	\$450.00

6. Feature Antennas (Must select one)

Although GPS comes standard, an antenna is required for the full solution.

Description	Full Description	Nomenclature	APC	Price
ADD: NO GPS ANTENNA NEEDED	-	GA00235	656	\$0.00
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$33.00
ADD: GPS ANTENNA	Corresponding kit: HAG4000	GA00226	656	\$75.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order			

ADD: HW KEY SUPPLEMENTAL DATA	software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00
----------------------------------	--	-----------	------	--------

Encryption Algorithms (Optional)

All APX 6500Li Mobile Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

The APX 6500Li does not support multiple hardware encryption types.

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$475.00
ADD: DES/DES-XL/DES- OFB ENCRYPTION	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$599.00
ADD: DVP-XL ENCRYPTION APX7500	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$487.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non- FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00

Multikey (Optional. Can only select one)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$330.00
ADD:TACTICAL OTAR APX	Requires digital (G806), IV&D, and an encryption (not including ADP-only).	H04	656	\$350.00

7. Remote Mount Cables (17 FT STD)

SIREN AND LIGHTS INTERFACE MODULE

(Allows for control of most light and siren systems via radio control head. Not required for Motorola Siren.)

MOTOROLA SIREN

(This siren can be connected directly to the mobile radio)

Siren and Lights Interface Module not required for this siren.

NOTE: THE NEW SIREN IS COMPATIBLE WITH APX AND XTL REMOTE MOUNT MOBILES WITH "O" SERIES CONTROL HEADS ONLY. THIS SIREN IS NOT COMPATIBLE WITH ANY "W" SERIES CONTROL HEADS.

THE SIREN BASE MODEL TT2592, CABLE TT05900 AND THE SIREN MOUNTING HARDWARE TT0507 MUST ALWAYS BE ORDERED (THIS SIREN TT2592 IS ORDERED AS A SEPARATE LINE ITEM THEN THE RADIO MODEL).

DEK OPTIONS ARE AVAILABLE AS OPTIONS TO THE SUBSCRIBER AS SHOWN BELOW.

Description	Full Description	Nomenclature	APC	Price

Software and Services

Update History

Starting January 1 2015. The SOFTWARE KEY (QA01749) is the default Advance System Key, it ships by default on all APX products; The HARDWARE KEY can be ordered instead by using QA01648. The DVN4046 Master Key Starter Kit is required for the Hard Key or to operate on a third-party Trunking system. The CORRECT System Owner ID will be required upon ordering the Hard Key or DVN Kit. Details can be found on the [Advanced System Keys-ASK for RSD Subscriber](#) ECAT page Be sure to enter the CORRECT SYSTEM OWNER ID when supplemental data is required. If an INCORRECT ID is entered, a FLASHport order is required to fix the error.

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

The APX 6500Li has evolved to support newer technologies like Wi-Fi. Direct cloning with Legacy models will not be available.

The 7/800 model (M25URS9PW1BN) is ship accepted now. The UHF R1 model (M25QSS9PW1BN) will be ship accepted in May, 2020. The VHF model (M25KSS9PW1BN) will be ship accepted in June, 2020. **The UHF R1 and VHF models will remain on hold until their ship acceptance dates.**

The E5 Control Head will ship accept on June, 2020. Mobile radio orders with the E5 Control Head will remain on hold until the control head is ship accepted.

The UHF R2 Enhanced model will be available in early 2021. For information on the current UHF R2 AN model, refer to the AN Model PCAT page.

Retrofit kits and FLASHport for the Enhanced Models will be available in Q3 2020. The current retrofit kits and FLASHport options are not compatible with the Enhanced models.

Effective June 13, 2020: The Essential Service option for both the U.S. and Canada will receive a 5% price increase.

Ordering Information

Please Read All Option Descriptions Before Making Your Selection

Required Selections:

- 1) Main Model
- 2) Mounting
- 3) Control Head Selection
- 4) RF Antenna
- 5) Operation Mode
- 6) Feature Antenna(s)
- 7) Remote Mount Cables (if remote mount is selected)
- 8) Microphone
- 9) Speaker
- 10) Service

Please note, the APX 6500Li does not support Motorcycle Configuration.

Additional Ordering Information for Service Options

[ViQi Virtual Partner End to End Ordering Guide](#)

Configuration

1. Main Model (Must Select One)

Description	Full Description	Nomenclature	APC	Price
APX 6500 700/800 MHZ	Enhanced Model	M25URS9PW1BN	527	\$2,938.00
APX6500 ENHANCED VHF	Enhanced Model. Shipping June 2020.	M25KSS9PW1BN	527	\$2,938.00
APX6500 ENHANCED UHF R1	Enhanced Model. Shipping May 2020.	M25QSS9PW1BN	527	\$2,938.00

2. Mounting (Must Select One)

If a remote mount cable other than 5 meters (17ft) is desired for G67, please reference the "Remote Mount Cables" section.

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT	Required for Control Station Operation.	G66	656	\$125.00
ADD: REMOTE MOUNT MID POWER	-	G67	656	\$297.00

Trunnion Screws (Optional)

The APX 6500Li Enhanced model will ship with HLN6861 to accommodate a smaller, lighter form factor. If it is required to use the previous APX 6500 model trunnion, HLN7002, order GA01693, which provides KT000053A01, screws that will fit the previous trunnion.

Description	Full Description	Nomenclature	APC	Price
ADD : LEGACY TRUNNION SCREW KIT	Corresponding kit: KT000053A01 Requires remote mount	GA01693	471	\$10.00

Control Station Operation (Optional)

O2, O5, & E5 Control Heads Only. Must select one.

Requires Dash Mount (G66)

Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.

Although optional, the Power Supply is needed for full Control Station operation.

Power Supply HPN4007 (used in Control Station configuration for AN Models) is not approved for use on Enhanced Models. Please use KT000254A01 (G91).

Description	Full Description	Nomenclature	APC	Price

5: Operation Mode (Must Select One)

Trunking mode requires either a Software Key (QA01749 comes standard unless QA01648 is selected), or a Hardware Key (QA01648).

Description	Full Description	Nomenclature	APC	Price
ENH: 3600 OR 9600 TRUNKING BAUD SIN	Provides for Digital and P25 Trunking.	QA02756	426	\$1,570.00
ENH: LI ANALOG 3600 TRUNKING	Provides for Analog Trunking	Q443	755	\$1,100.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$400.00
ENH: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional.	Q811	426	\$650.00

System Enhancement Options (Optional)

The following options are **optional** and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation.	GA09000	656	\$150.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering. Requires Remote Mount and P25 Digital Trunking.	GA00631	656	\$250.00
ADD: DVRS PSU ACTIVATION	Requires P25 Digital Trunking. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00

ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$150.00
ADD: FPP & CLONE APX	-	G53	656	\$150.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS.	GA09012	471	\$150.00
ADD: TRUNKED ONE TOUCH BUTTON APX	-	G683	656	\$75.00
ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$100.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation.	G387	656	\$200.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$100.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$100.00

ENH: ENH: RADIO TRACE	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	656	\$75.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$150.00
ADD: TDMA OPERATION APX	Requires P25 Digital Trunking	GA00580	656	\$450.00
ADD: WI-FI CAPABILITY	Compatible with Enhanced (BN) models only. Requires a Wi-Fi antenna. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using Wi-Fi is desired.	GA09001	681	\$300.00
ADD: OUT OF THE BOX WI-FI PROVISIONING	Requires GA09001 (Wi-Fi)	GA09007	681	\$0.00

6. Feature Antennas (Must select one)

Note: The Enhanced APX 6500Li model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable.

Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).

Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.

Multifunction Antennas (Must Select One in Multifunction is Selected)

Requires Wi-Fi (GA09001)

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

ADD: WIFI/GNSS FLEXIBLE CABLE LMR195	Corresponding kit: AN000163A01	GA00250	681	\$100.00
ADD: NO GPS/WI-FI ANTENNA NEEDED	-	GA01606AA	681	\$0.00

GPS Antennas (Must select one if single function GPS is required)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT GNSS GLASSMOUNT LMR100	Corresponding kit: PMAN4109	GA01580AA	681	\$70.00
ADD: GPS/GNSS MAG MOUNT ANTENNA	Corresponding kits: CB000091A04, & PMAN4010	GA01305	656	\$60.00
ADD: GPS ANTENNA	Requires GA01576. Corresponding kit: HAG4000	GA00226	656	\$75.00
ADD: NO GPS ANTENNA NEEDED	-	GA00235	656	\$0.00

GPS Antenna Adaptors (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: SMA TO QMA ADAPTER	Requires GA01305, or GA00226. Corresponding kit: CB000091A04.	GA01576	986	\$0.00

Wi-Fi Antennas (Must select one if single function Wi-Fi is requested)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT WIFI GLASSMOUNT 2.4/5 GHZ	Corresponding kit: PMAN5101 Requires Wi-Fi (GA09001).	GA01579AB	681	\$70.00
ADD: NO WI-FI ANTENNA NEEDED	-	GA01607AA	681	\$0.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

<p>ADD: HW KEY SUPPLEMENTAL DATA</p>	<p>The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key QA01648 can be ordered instead. Be sure to enter the correct system owner ID in the supplemental data. If an incorrect ID is entered, a FLASHport order is required to fix the error. Order hardware key (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.</p>	<p>QA01648AA</p>	<p>0655</p>	<p>\$5.00</p>
--	---	------------------	-------------	---------------

Encryption Algorithms (Optional)

All APX 6500Li Mobile Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

The APX 6500Li does not support multiple hardware encryption types.

Description	Full Description	Nomenclature	APC	Price
<p>ADD: AES ENCRYPTION APX</p>	<p>Requires digital operation. P25 CAP Compliant option. Includes ADP.</p>	<p>G843</p>	<p>656</p>	<p>\$475.00</p>
<p>ADD: DES/DES-XL/DES-OFB ENCRYPTION</p>	<p>Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.</p>	<p>G625</p>	<p>656</p>	<p>\$599.00</p>
<p>ADD: DVP-XL ENCRYPTION APX7500</p>	<p>Includes ADP. Non-P25 CAP Compliant option.</p>	<p>W797</p>	<p>656</p>	<p>\$487.00</p>
<p>ADD: ADP ONLY (NON-P25 CAP COMPLIANT)</p>	<p>Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.</p>	<p>G193</p>	<p>430</p>	<p>\$0.00</p>

Multikey (Optional. Can only select one)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$330.00
ADD:TACTICAL OTAR APX	Requires digital (G806), IV&D, and an encryption (not including ADP-only).	H04	656	\$350.00

7. Remote Mount Cables (17 FT STD)

Description	Full Description	Nomenclature	APC	Price
ADD:CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$10.00
ADD: REMOTE MOUNT CBL 30 FEET	Corresponding kit: HKN6168	G610	656	\$25.00

Model

ASTRO® Digital APX 7000/APX 7000XE
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 7000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management ECAT](#) page.

Ordering Requirements

1. **Specify** the *current* System Enhancement Software Package that represents the software in the radio as the main line item (T7549, T7550, T7551, T7552, T7553, T7554)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. **Select** the *desired* Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

Motorola APX™ All Band Console
VHF(136 -174MHz), UHF R1(380-470MHz), UHF R2(450-512MHz), 700/800 MHz

Conventional, Secure and Trunked Radio Systems

UPDATES

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

NEW FOR 2020: Wi-Fi Connectivity is now orderable on the APX ALL BAND CONSOLETTTE (Note: only 3rd party SMA WIFI antennas)

For Flashport please see APX 8500 Mobile Page (Pull down Menu-Flashport): https://www.motorolasolutions.com/en_us/products/two-way-radios/project-25-radios/mobile-radios/apx8500.html#productcat

NEW FOR 2019:

LAUNCHING the APX ALL NEW BAND CONSOLETTTE

ORDERABLE AS ALL BAND, DUAL BAND OR SINGLE BAND (OPTION DRIVEN)

ORDERING INFORMATION

**ASTRO® Digital APX Portable/Mobile Firmware
FLASHport®**
Upgrades VHF, UHF and 800 MHz. Bands
Secure/Conventional/Trunked Radio Systems

Updates

NOTE: These upgrades ONLY provide latest firmware to APX mobiles and portables.

Ordering Information

General Information

The ASTRO Digital APX Firmware upgrades allow customers to upgrade their software to the latest firmware version available. NOTE: Latest CPS version will be required. This can be downloaded through MOL.

Ordering Requirements

1. Order APX Firmware upgrade kit- T7757/T7756. Each upgrade kit will provide CD-ROM that will give the latest firmware version available for APX product line only.
2. Select the *desired* algorithm software upgrade option.
 - The option for mobiles (GA00771) or for portables (QA02912)
 - Specify the number of software upgrades required each dongle can hold 500 refreshes.

The following example will provide a single dongle with firmware upgrades for twenty (20) fielded APX PORTABLE RADIOS.

<u>Item Number</u>	<u>Quantity</u>	<u>Part Number</u>	<u>Description</u>

Updates

PRODUCT HAS BEEN CANCELLED, EFFECTIVE SEPTEMBER 30, 2015

An Alternative Flashport Upgrade is available via the KVL 4000, order part #: T7936

See Corresponding Price Page for more details: [LINK](#)

Ordering Information

General Information

The ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000) FLASHport Motorola Advanced Crypto Engine (MACE) upgrades allow secure customers to upgrade their basic software and algorithm software within a fielded MACE based encrypted ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000) without having to replace the MACE. ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000) upgrade kit (T7556) includes one PCMCIA card and one Subscriber MACE Upgrade Manual.

Ordering Requirements

1. Order APX PCMCIA Motorola Advanced Crypto Engine (MACE) upgrade kit (T7556). Each upgrade kit consists of a single PCMCIA card that can upgrade up to 100 individual

MACE based ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000).

2. Select the *desired* algorithm software upgrade option.

- Only one (1) encryption algorithm type can be ordered per upgrade kit.
- Specify the number of software upgrades required.
- Each individual MACE based ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000) requires a single upgrade; therefore, the quantity of each option should equal the number of upgrades to be performed.
- The algorithm software options must be ordered in equal number and can not exceed 100 per upgrade kit option.

3. The ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000) FLASHport MACE upgrade requires the use of a key loading device (KVL 3000 or KVL 3000 Plus) and a PCMCIA card to deliver the new software to the MACE. When upgrading the MACE module with AES Encryption, a KVL 3000 Plus is required to FLASH upgrade the module (KVL 3000 does not support AES).

The following example will provide an upgrade card to upgrade twenty (20) fielded MACE based ASTRO Digital APX Radio (7500, 7000, 6500, 6000, 4000, 3000) with the AES algorithm.

<u>Item Number</u>	<u>Quantity</u>	<u>Part Number</u>	<u>Description</u>

All encryption products, kits, software and technology require an approved export license prior to shipment. Contact the Sector Export Control office at +1 (847) 576-8163 to discuss any possible licensing restriction. The international use of encryption algorithms (except for DES, DES-XL, DES-OFB) is highly restricted by the U. S. Federal Government. License approvals are considered for export to a limited selection of countries and end users. Contact the Sector Export Control office at +1 (847) 576-8163 for licensing information before submitting bids, proposals, or accepting orders for algorithm based encryption products.

APX Personnel Accountability

Incident Command

Ordering Information

General Information

Personnel safety and accountability is a top concern for incident commanders on the fireground. Ensuring firefighter safety and accountability is crucial and incident commanders must have the ability to quickly identify who is on the scene, the status of their personnel, and be able to quickly initiate evacuation alert messages. Motorola's APX Personnel Accountability solution leverages the robustness of the APX radio and the reliability of our ASTRO radio systems to provide first responders with the most powerful accountability device available in public safety today.

In providing the Personnel Accountability solution, Motorola has partnered with Systems Definition, Inc. (SDI), one of the innovating leaders and provider of the APX Personnel Accountability Application (APAA) client and server software and the web-based EasyStaff software used for radio identification and ride lists.

The Personnel Accountability feature (Q445) is available in the following models of APX radios:

APX 8000

- APX 8000 XE
- APX 7000
- APX 7000XE
- APX 6000
- APX 6000XE
- APX 4000

The Personnel Accountability solution is available for public safety users who either operate on an ASTRO trunked radio network or on a conventional talk-around channel at an incident scene. Trunked radio users must have their ASTRO radio networks upgraded to the 7.17 system release or later. Conventional radio users must only have the APX series radios with the Personnel Accountability option.

Features

The following features provide incident commanders with improved situational awareness and enable them to better manage their responders on the incident scene.

Instant Accountability

As soon as a responder turns their radio to a designated channel or talkgroup, they're accounted for on the incident commander screen.

Personnel Identification

Know exactly who is carrying the radio by integrating with an existing roster application or through the use of the EasyStaff website.

PTT Identification

See exactly who's talking on the Accountability client screen, every time they transmit.

Immediate Mayday Indication

Instantly identify on the Accountability client if a responder activates their orange Emergency/Mayday button.

Mission Critical Tactical Alerts

Immediately send one of 16 different customizable Tactical Alert messages to all responders or to individuals on scene. Alerts are received by the APX radio even if the radio is currently in a voice or data call.

Tactical Alert Acknowledgments

Each responder hits a button on their radio to instantly acknowledge that they received the Tactical Alert from command. The button on the radio can be the PTT button or optionally be the one-dot button on the side of the APX radio or RSM.

Battery Level Monitoring

Monitor the amount of battery power left in each responder's radio before they have lost the ability to communicate. For trunked Accountability users, Battery Level Monitoring requires the use of the Intelligent Middleware application.

Unit Assignments

Use the Accountability client to record the assignments given to each unit as they arrive.

Channel Change Indication

Know if a responder changed to a different channel or talkgroup while on the fireground.

Power Down Indication

Identify if a responder turned their radio off while at the incident.

Radio Polling

'Ping' a responder's radio to make sure it is still in range and on the proper channel or talkgroup.

Talkgroup Change/Dynamic Regrouping

Incident Commanders can bump a responder's radio to the proper talkgroup without the responder's involvement. This is especially handy for responders who forget to switch over from the dispatch talkgroup to the designated fireground talkgroup. This capability is only available for trunked Accountability users.

Dispatcher Monitoring

Enable dispatchers to see the same information the incident commander sees using the same Accountability client application cohabed on the MCC7500/7100 Consoles. This gives more flexibility to incident commanders and an extra set of eyes and ears on the fireground. This capability is only available for trunked Accountability users.

Configuration

Ordering Requirements

Ordering the solution:

NOTE: This information is provided at a system level. For more product level details, please refer to each of the individual product pages.

Step 1 - Complete Questionnaire

- In order to get a formal quote for the Accountability solution, please fill out the questionnaire below with your customer's information. This will start the process.
- Please return completed Questionnaire to Mark Krizik for processing.

- Once a quote is generated from Systems Definition, Inc. (SDI), the Accountability application provider, you will be invited to a conference call to go over the quote details.
- [Link to Questionnaire](#)

Step 2 - Add MSI Hardware

Once a quote has been provided by SDI, the pre-sale team will need to include additional components to provide a full proposal to the customer. The following is a summary of the hardware items required for a Personnel Accountability solution.

For Conventional Personnel Accountability users:

APX Portable Radios

The APX portable radios must include at a minimum the ASTRO Digital Common Air Interface (Q806) and the Personnel Accountability (Q445) options. Optional features that compliment the Personnel Accountability solution include the XE Remote speaker Mic or the XE 500 Remote Speaker Mic.

Incident Commander Vehicles - RF Modem

The incident commander vehicles that will be running the APX Personnel Accountability Application (APAA) must have a Windows PC (e.g. Panasonic Toughbook laptop, Microsoft Surface tablet, etc.) connected to a dedicated APX radio to be used as the RF Modem. The radio is used to monitor all Accountability signaling on the fireground conventional channel. For vehicle installations, the APX mobile radio is recommended. As an option, if the Department desires a configuration that lets them operate outside the vehicle, an APX portable may be used as the RF modem in conjunction with the tablet PC. The RF modem capability is part of the baseline code of the APX radio and no special options are required. However, at a minimum, the APX radio must have the ASTRO Digital Common Air Interface (Q806) option included. Also, a Motorola USB data cable is required to connect the APX radio to the laptop or tablet. For mobile installation the 16-foot USB cable is recommended. For portable applications, the standard Motorola USB APX Data Cable is required. If multiple fireground conventional channels are to be monitored at the same time, an RF Modem is required to be interfaced to the Accountability client for each channel.

Incident Commander Vehicles - Futurecom Digital Vehicular Repeater (DVR)

As an option, conventional Personnel Accountability users can utilize a digital Vehicular Repeater to extend their APX portable radio communications capability. The DVR supports the ability to pass Personnel Accountability signaling information between the Accountability client connected to the RF Modem and the APX portable radio. Please refer to the Digital Vehicular Repeater price pages to specify a DVR per the customer requirements.

For Trunked Personnel Accountability users:

APX Portable Radios

The APX portable radios must include all of the necessary options required to allow the APX radio to communicate on the customer's trunked radio system, in addition to the Personnel Accountability (Q445) option. If the Personnel Accountability solution is to include the optional Battery Level Monitoring capability (which requires use of IMW), then the APX radio should be equipped with the Enhanced Data option (QA03399), if available on the customer's system.

Classic IV&D data capability may be used for Battery Level Monitoring of the APX radio, but it is not recommended. Optional features that compliment the Personnel Accountability solution include the Man Down option (QA01843). Optional Accessories that complement the Personnel Accountability solution include the XE Remote Speaker Mic or the XE 500 Remote Speaker Mic.

Incident Commander Vehicles - Control Channel Radio

The incident commander vehicles that will be running the APX Personnel Accountability Application (APAA) in a trunked radio system must have a Windows PC (e.g. Panasonic Toughbook laptop, Microsoft Surface tablet, etc.) connected with a DEDICATED APX radio to be used as the Control Channel Radio. This radio is used to monitor all Accountability signaling on the Control Channel of the trunked radio system. For vehicle installations, the APX mobile radio is recommended. As an option, if the Department desires a configuration that lets them operate outside the vehicle, a APX portable may be used as the Control Channel Radio in conjunction with a tablet PC. The Control Channel capability is part of the baseline code of the APX radio and no special options are required. However, at a minimum, the APX radio must include all of the necessary options require to allow the APX radio to communicate on the customer's trunked radio system. Also, a Motorola USB data cable is required to connect the APX radio to the laptop or tablet. For mobile installations, the 16-foot USB cable is recommended. For portable applications, the standard Motorola USP APX Data Cable is required. The Control Channel radio is not required for APAA clients running on an MCC7500/7100 dispatch console PC. The Control Channel Radio can operate either as an RF Modem when fireground operations are on a conventional channel or as a Control Channel Radio if fireground operations are on a trunking talkgroup. If multiple fireground talkgroups are to be monitored at the same time, only one Control Channel radio is needed to be interfaced to the Accountability client.

Incident Commander Vehicles - Data Radio to Accountability Server

For incident commander vehicles that will be running the APAA client, a data connection is required between the vehicle and the Accountability Server located in the Customer Enterprise Network (CEN). This data connection can be provided by the ASTRO IV&D data capability or through an existing broadband data connection such as a 4G/LTE capability on the Windows PC. The broadband data connection is recommended if the customer already has one in place, otherwise, the IV&D capability can be used, if available on the system. If IV&D capability is required, a DEDICATED APX radio must be provided for this purpose as the Accountability application requires constant data connectivity to the Accountability server during use of the APAA application. A dedicated Data talkgroup must also be provided as the data connection cannot be pulled into voice traffic while servicing the Accountability application. For IV&D use, the APX radio must include all of the necessary options required to allow the APX radio to communicate via IV&D on the customer's trunked radio system. The data connection to the Accountability server cannot utilize the Enhanced Data channels. An IV&D or broadband data radio is not required for APAA clients running on an MCC7500/7100 dispatch console PC.

Incident Commander Vehicles - Futurecom Digital Vehicular Repeater (DVR)

As an option, trunked Personnel Accountability users can utilize a Digital Vehicular Repeater to extend their APX portable radio communications capability. The DVR now supports the ability to pass Personnel Accountability signaling information between the trunked radio system and the APX portable radio. Please refer to the Digital Vehicular repeater price pages to specify a DVR per the customer requirements.

Accountability Server - Hardware

The Personnel Accountability server application is designed to run on the Enablement (CEN) server which is sourced by Motorola. If customers already have this server, then it does not need to be specified. If this server is not already in place, then the T8399A server must be specified as well as the DVN4395A option for VMWare.

Description	Full Description	Nomenclature	APC	Price
CEN SERVER	-	T8399	877	\$15,000.00
SOFTWARE,VMWARE VSPHERE 6.X FDN 2 CPU SW	-	DVN4359	877	\$0.00

Intelligent Middleware - Hardware

For customers that require the Intelligent Middleware application, a separate server may be required. Refer to the Intelligent Middleware price pages for specifications on the Intelligent Middleware hardware.

Customer Enterprise Network - Hardware

For customers that do not have an existing CEN network attached to their ASTRO system, the proper networking equipment must be specified. No CEN hardware is included with the Personnel Accountability solution. It assumes a CEN network is already in place.

Step 3 - Add SDI and Motorola Software

The software components needed for a Personnel Accountability solution are a combination of software and licenses from both Systems Definition, Inc. (SDI) and Motorola. The following is a summary of the software items required for a Personnel Accountability solution.

For Conventional Personnel Accountability users:

Description	Full Description	Nomenclature	APC	Price
APAA PC CLIENT LICENSES	-	TT3028	708	\$5,490.00
APAA MIXED MODE CONVENTIONAL SYSTEM LICENSE	-	TT3031	708	\$100.00

APAA EASYSTAFF RADIO ACCESS LICENSE	-	TT3030	708	\$92.00
INFORMATION ASSURANCE LICENSE FOR APAA SERVER	-	TT3108	708	\$18,300.00
ADD: PERSONNEL ACCOUNTABILITY	-	UA00421AA	877	\$49,000.00

****IMW SENSOR****

Step 4 - Add SDI and Motorola Services

Each deployment of the Personnel Accountability solution involves a certain degree of services and support. The following items are to be taken into consideration when providing a customer a Personnel Accountability quote.

**** SIX PART NUMBERS TBD ****

Step 5 - Add SDI and Motorola Maintenance and Support or Software Upgrade Agreement

Customers can choose to purchase a Maintenance and Support agreement or enter into a Software Upgrade Agreement for the Personnel Accountability solution and the Intelligent Middleware application if they do not already have one. The following items are offered.

ASTRO® Radio Management

Device Management Service Offer (DMSO)

Ordering Information

We are evolving ala carte Device Services and Radio Management towards the broader goal of enabling Device Management solutions. With that progress comes a comprehensive Device Management Service Offer (DMSO) with the following advantages:

- Coverage for device maintenance & configuration
- Essential, Advanced, and Premier offers meeting customer needs from self-maintained to MSI-managed
- Better Management of Agency Costs
- The opportunity for an OPEX operating model to better meet agency budgets
- More robust radio inventory operations
- Remote hosting & MyView Portal provide radio inventory repository with attributes and radio status

With the availability of the Device Management Service Offer, Radio Management (RM) will now be offered solely through a DMSO Plan. Please refer to the following sites for information on DMSO:

- [DMSO Catalog Page](#)
- [DMSO MSI Page](#)

Contacts for RM-DMSO Sales Support:

- Sue Doheny : mobile (708) 878-0527 // Email: sue.doheny@motorolasolutions.com

Radio Management (RM) is a suite of software application that provides the ability to efficiently manage your large fleet of ASTRO APX radios - through one central database with support of multiple programming interface including WiFi, Over-the-Air LMR and USB.

Key Update:

- APX RM Legacy Radio License (CapEx) is no longer available for new customers starting January 2019
- Grandfather upgrade support for existing RM customers extended until January 2022
- Only add on legacy Radio license (CapEx) are available for existing RM CapEx customers (\$100/license, no discount permitted)
- The 100 free trial licenses does not count toward an existing RM legacy customer, additional licenses must have been purchased prior to January 2019 in order to be able to be considered grandfathered - in addition to purchase add-on licenses.
- APX Advanced Service Package now offered with flexible configurations including; RM

- tools, on-site set-up/training, hosting and hardware repair
- Reduced APX Advanced Service Package pricing; 25% lower list price
- Fleet volume pricing discounts will apply to APX Service Packages
 - *Standard Discount (up to 2500 Units)* 15%
 - *Medium Deployment Pricing (2500 to 5000 Units)* 25%
 - *Large Deployment Pricing (5000 to 10000 Units)* 35%
 - *Enterprise Pricing (10,000+ Units)* Custom Quote

Features

Radio Management (RM) can help reduce fleet programming time and improve overall radio asset management. Radio Management allows:

- Manage and track radio codeplugs through a central database
- Make changes to a shared codeplug template and push to multiple radios
- Manage and update radios without taking them out of service
- Schedule programming updates to radios ahead of time

Effective with the launch of 7.18 system release, the below software are available for purchase:

- 3 year download-only Radio Management software subscription (HKVN4621A-List \$299). Radio Management software is available for download through your Motorola Online account. Only one subscription per MOL account is needed.
- Hardcopy DVD of current Radio Management software release (RVN5306). The DVD is \$75 each and must be ordered with each release. DVDs will NOT be automatically shipped with each release. **Please note that a current Radio Management software subscription (HKVN4621A) is also required to purchase the DVD**

Announcement reference:

<https://converge.motorolasolutions.com/community/marketing/americas-marketing/projects/weekly-news-and-announcements-north-america-marketing-and-sales/blog/2018/02/08/apx-a718-software-subscription-update-effective-2918>

RADIO MANAGEMENT APPLICATION LICENSES

Add-on licenses for existing legacy CapEx customers only:

- **ON-LINE DELIVERY METHOD:** This is for customers that would like to receive their Radio Management licenses electronically from the Motorola Solutions Radio Management license system. This method will deliver an email with the Radio Management Entitlement ID for the purchased Radio Management Application licenses that can be used on the Radio Management Client to download and activate the license entitlements. You will need to supply an email address at time of order for this delivery method. License entitlements will be delivered to the email address provided.
- **OFF-LINE DELIVERY METHOD:** This is for customer networks that may not have internet access. This method will deliver a CD with the Radio Management Entitlement ID files for the purchased Radio Management licenses as well as an email confirmation. You will need to supply an email address and a computer Host ID for the Radio Management Server at time of order for this delivery method. See Host ID Help link for additional information.

Ordering Requirements

- **Specify** the Radio Management **license delivery method** model number (on-line or off-line) as the main line item. The Delivery Method model number should only be ordered

as quantity 1.

- **Specify** the associated Radio Management **license option** corresponding to the chosen delivery method as the sub-items. All Radio Management license options should be equal to the number of radios to be managed. Radio Management comes with 100 licenses at no charge. If you will be managing more than 100 radios, the number of licenses being purchased should not include the first 100 (i.e. 1000 radios to be managed = 900 licenses to be purchased).
- **IMPORTANT:** Be sure to include an email address to which the Radio Management License Entitlement ID will be sent
- **IMPORTANT:** For off-line delivery method only, be sure to include the Host ID of the Radio Management Server that will manage the Radio Management licenses. See Host ID Help link for additional information.

Configuration

The following describes the recommended set of hardware platforms support based on Radio Management application testing. These are optional hardware kits, as Radio Management application is designed to operate on standard commercial off-the-shelf hardware. The hardware list below includes standard drop ship item setups used for common Motorola Solutions product lines and may not be exclusive for Radio Management installation. These hardware orders do not ship with a pre-installed Radio Management software. A customer is required to visit Motorola On-Line or MyView to access, download and follow supported installation procedures. The hardware listed below also do not ship with the hardened Operating System image and does not meet IA compliancy. For IA compliant related procedures, it's

recommended to reference the Radio Management System Planner for all hardening and softening procedures.

Model

**Motorola APX
Transportable Station**

Ordering Information

Note:

- This product is delivered **UNASSEMBLED**. The radio and its components (which are ordered separately) must be assembled/tested with the Transportable Station by the end user.
- Compatible with APX 7500/6500/4500 Mid-Power Mobiles (*ordered separately*)
- Compatible with O2, O3, O5, and O7 Control Heads (*ordered separately*)
- Compatible with 7.5 watt detachable speaker (*HSN4038A ordered separately*)
- Compatible with magnetic low profile antenna (*PAN6003A ordered separately*)
- Supports Dual Band Operation

General Information

The APX™ Transportable Station is a highly versatile, lightweight, rugged, rapid deployment product. It can be deployed as a temporary base station (law enforcement command posts, military deployment, surveillance operations, emergency response teams, fire fighting support). It can also be installed in vehicles when mobile installation without permanent installation is a requirement (rental car) or when mobile covert communication is desired.

The unit is packaged in a lightweight, horizontal, black powder coated, lockable aluminum suitcase. This product provides customers with the versatility of a “Jump and Run” communications package and the flexibility of a semi-fixed or transportable RF station.

It utilizes a standard mid-power APX 7500/6500/4500 mobile, O2/O3/O5/O7 control head, mobile antenna and a mobile speaker (**all ordered separately**). Two RF ports are available to support dual band. Audio ports are also available for headset, headphone and record operation. Record operation is only supported on the O3 CH configuration.

The APX Transportable Station operates with 110/220VAC or 12VDC power input. The suitcase is equipped with a "mouse-hole" exit for cable routing outside the case, allowing for covert closed case operation.

NOTE: For the O2 CH configuration the speaker cable between the transceiver and the control head must be detached during installation.

Features

APX Transportable Station Features

- Carbide Black Powder Coated Aluminum Case 7" tall x 13" deep x 21"wide
- Combination Locking Case
- AC Power Supply Auto Switching 85-250VAC (49-61 Hz)
- AC Power Cable (110VAC)
- 12VDC Vehicle Accessory Power Cable Included

- Closed Case Covert Operation
- Accessory Storage Pouch
- Optional 13' O3 Microphone extension cable(APX7500/6500 mobiles only)

Control Panel Includes

- AC and DC Power Receptacles
- Type "UHF" Female SO 239 Antenna Connectors
- Mobile Radio Mount
- Speaker Receptacle

- Headset Jack (6-pin Hirose)
- Headphone Jack (1/4" Audio Jack)
- Tape Recorder Jack with Plug (Mini-XLR 5 pin)
- Microphone Clip

This case also has a mouse hole exit for cable routing outside the case, allowing for closed case operation.

ASTRO® Digital APX 900™ Portable Series

P25 Phase 2 Single Band Capable Radio

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Ordering Information

Standard Features

All ASTRO Digital APX 900 models include the following features:

- Single Microphone
 - 0.5 Watt Rated Audio
 - 3 Programmable Side Buttons
 - Dual Knob Function
 - Orange programmable button
 - IP68 environmental specifications
 - 2" belt clip (PMLN4651)
 - Standard Li-Ion 2100 mAh Battery (PMNN4491)
 - Antenna Dependent on Frequency Band (7/800 MHz: NAF5080, 900 MHz: NAF5088, VHF: PMAD4088, UHF: PMAE4022)
 - NOTE: Charger must be purchased separately (Single Unit Charger: PMPN4174A)
 - 12 month standard warranty
- Low Battery Alert Tone
 - Radio profiles
 - Unified call list
 - Front color display: 4 lines of text, 1 line of icons
 - Limited keypad: Backlight keypad with 3 soft keys, 4 direction navigation key, home and data buttons
 - Full keypad: Backlight keypad with 3 soft keys, 4 direction navigation key, 4X3 keypad, home and data buttons and full DTMF keypad

The APX 900 ships standard with GPS Activation (QA00782), Radio Packet Data (Q947), Operations Critical Wireless Bluetooth (QA00583), Enhanced Noise Suppressor (QA09006), and Software (SW) Key Supplemental Data (QA01749). The APX 900 contains an internal GPS antenna and therefore a separate external GPS antenna is not needed.

ENH: P25 CONVENTIONAL	-	QA04097	837	\$350.00

System Enhancement Software

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM			

SUPPLEMENTAL DATA	OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00
-------------------	---	-----------	------	--------

System Enhancement Options (Optional)

All APX 900 Radios ship P25 "clear" with QA05751 unless an encryption option is ordered.

Description	Full Description	Nomenclature	APC	Price
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D (Q947). Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	426	\$100.00
ADD: TDMA OPERATION	Requires P25 Trunking (QA04096). A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	426	\$450.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: MULTIKEY	-	H869	837	\$75.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required.	QA03399	656	\$150.00

ADD: GROUP SERVICES	<p>Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging.</p> <p>This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature (requires digital).</p>	QA09008	655	\$150.00
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 trunking operation (QA04096)	QA01767	426	\$100.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782)	QA09012	426	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ENH: CONVENTIONAL VOTE SCAN	-	Q387AT	430	\$230.00
ENH: AES 256 SW ENCRYPTION	<p>P25 CAP Compliant option. Includes ADP. AES Encryption can NOT be field upgraded. Highly recommended to be purchased up front if needed.</p>	QA06653	837	\$325.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	<p>Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.</p>	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	-	QA05751	655	\$0.00

Antenna Selection (Optional)

The APX 900 ships with a standard antenna dependent on frequency (7/800 MHz: NAF5080,

900 MHz: NAF5088, VHF: PMAD4088, UHF: PMAE4022)

The APX 900 contains an internal GPS antenna and therefore a separate external GPS antenna is not needed

Description	Full Description	Nomenclature	APC	Price
ALT: 1/4- WAVE 7/800 STUBBY (PMAF4022A)	This option will delete the standard antenna (NAF5080) and add 1/4 wave 7/800 stubby antenna (PMAF4022)	H122	837	\$9.00
ALT: VHF STUBBY ANTENNA (136-147MHZ) (PMAD4093A)	This option will delete the standard antenna (PMAD4088) and add 136-147 MHz stubby antenna (PMAD4093)	QA06786	837	\$9.00
ALT: VHF STUBBY ANTENNA (147-160MHZ) (PMAD4094A)	This option will delete the standard antenna (PMAD4088) and add 147-160 MHz stubby antenna (PMAD4094)	QA06787	837	\$9.00
ALT: VHF STUBBY ANTENNA (160-174MHZ) (PMAD4095A)	This option will delete the standard antenna (PMAD4088) and add 160-174 MHz stubby antenna (PMAD4095)	QA06788	837	\$9.00
ALT: UHFR1 STUBBY ANTENNA (380-480 MHZ) (PMAE4100)	This option will delete the standard antenna (PMAE4022) and add 380-470 MHz stubby antenna (PMAE4100)	QA06796	837	\$9.00
ALT: UHFR2 STUBBY ANTENNA (450-520 MHZ) (PMAE4102)	This option will delete the standard antenna (PMAE4094) and add 450-527 MHz stubby antenna (PMAE4102)	QA06797	837	\$9.00
ALT: UHFR2 WHIP ANTENNA (450-520 MHZ) (PMAE4094)	This option will delete the standard antenna (PMAF4022) and adds	QA06795	837	\$9.00

	450-527 MHz antenna (PMAE4049)			
DEL: DELETE STANDARD ANTENNA (NAF5080)	Deletes standard antenna: NAF5080 (7/800 MHz), NAF5088 (900 MHz), PMAD4088 (VHF), PMAE4022 (UHF)	H112LW	837	(\$10.00)

Battery Selection (Optional)

The APX 900 ships standard with an IMPRES Li-Ion 2100 mAh battery (PMNN4491)

Description	Full Description	Nomenclature	APC	Price
ALT: IMPRESS LI-ION 3000MAH	This option will delete the standard battery (PMNN4491) and add IMPRES Li-Ion 3000 MAH (PMNN4493)	QA06765	837	\$85.00
ALT: IMPRESS LI-ION TIA 2900MAH	This option will delete the standard battery (PMNN4491) and add IMPRES Li-Ion TIA 2900 MAH (PMNN4489)	QA06766	837	\$100.00
DEL: DELETE BATTERY (PMNN4491)	Deletes standard battery (PMNN4491)	H207	837	(\$47.00)

Belt Clip Selection (Optional)

The APX 900 ships standard with a 2" belt clip (PMLN4651)

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT CLIP	This option deletes the standard belt clip (PMLN4651) and adds 2.5" belt clip (PMLN7008)	Q698	426	\$12.00
DEL: DELETE STANDARD BELT CLIP	Deletes standard belt clip (PMLN4651)	H301	426	(\$10.00)

Data Cable Selection (Optional)

Description	Full Description	Nomenclature	APC	Price

Software & Services

FLASHport®

All ASTRO Digital APX 900 Portables are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent upon remaining within the current RF capabilities of the radio).

Project 25 Encryption

The APX 900 does NOT support any hardware encryption. It does however support AES software encryption (QA06653). AES software encryption CANNOT be field upgraded, therefore it is highly recommended to purchase AES software encryption upfront. AES software encryption can interoperate with a radio with AES hardware Encryption. Both encryption methods require a KVL to load the keys into the radio. As long as the keys match then the radio is able to encrypt and decrypt the voice and data.

Global Positioning Satellite (GPS)

The personnel outdoor location tracking GPS feature enables a dispatcher to locate on-foot patrols and out of the vehicle officers who are involved in life threatening situations. The radio user's GPS position information is sent over the ASTRO 25 Integrated Voice & Data (IV&D) network and is delivered to the dispatch operator using a third party mapping display application at the dispatch center.

In order to obtain an initial GPS fix position, the radio must be located in an open sky, outdoor environment with no barriers that could affect the signal around or above the user. During this initial fix, the radio should NOT be worn on the body as this may affect the process of acquiring signal and/or add additional time to first fix.

*GPS Performance may be degraded when the radio is worn against the body and/or against the body within a vehicle

NOTE Limitations of Use:

- GPS works best in an open sky (clear view of the sky with no obstructions) environment. Due to the limitations of the technology, there are certain situations which prevent GPS coverage. These situations include but are not limited to:
 - Underground locations (tunnels, subways, etc.)
 - Inside of buildings, elevators, parking garages, trains, other covered vehicles, etc.
 - Under metal or concrete roof structures
 - Urban canyons (between tall buildings or under dense tree coverage)

Due to the limitations mentioned above, GPS should only be utilized as a method to assist the user with location information but not as a means for mission critical communication. In any emergency situation, the location should always be verbally reported to the dispatcher.

The APX 900 contains an internal GPS antenna therefore a separate external GPS antenna is not needed.

RFID Enabled Volume Knob

RFID enabled volume knobs (36012032001) are available as an accessory. See RFID Solution Partner list for information on partners that can provide customers with scanner hardware and back end asset management solutions.

ASTRO® Digital APX 900
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Updates

No updates at this time

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 900 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- **Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle**

Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied

- **Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have**

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios.

Ordering Requirements

1. Specify the current System Enhancement Software Package that represents the software in the radio as the main line item (T8523A, T8525A)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. Select the desired System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
5. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and EXISTING FLASHcode.
6. "FLASH upgrades are not discountable"

A Universal Serial Bus (USB) cable is required to "FLASH" FLASHport® software into the ASTRO®: Digital APX 900 radios.

Software Prices **BELOW DO NOT** include field programming.

FCC Information

ALL MODELS ON THIS PAGE REQUIRE AN EXPORT LICENSE TO BE EXPORTED FROM THE US/CANADA

Canada personnel refer to Section A under CANADA ONLY information.

AES 256 SW Encryption is not available via Flashport

ASTRO® DIGITAL APX 900 price pages are accessible through the select list pulldown above.

ASTRO® Digital APX 1000
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Updates

No updates at this time

Ordering Information

GENERAL INFORMATION

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 1000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. **For more information on Radio Management please refer to the [ASTRO Radio Management](#) page.**

Ordering Requirements

1. Specify the current System Enhancement Software Package that represents the software in the radio as the main line item (T8279A, T8280A)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. Select the desired System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. IMPORTANT: If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and EXISTING FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable. [CLICK HERE](#) for available cables.

A Universal Serial Bus (USB) cable is required to "FLASH" FLASHport® software into the ASTRO®: Digital APX 1000 radios.

Software Prices BELOW DO NOT include field programming.

FCC INFORMATION

ALL MODELS ON THIS PAGE REQUIRE AN EXPORT LICENSE TO BE EXPORTED FROM THE US/CANADA

Canada personnel refer to Section A under CANADA ONLY information.

Model

ASTRO® Digital APX 1000™ Portable Series
P25 Phase 2 Single Band Capable Radio

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Ordering Information

Standard Features

All ASTRO Digital APX 1000 models include the following features:

- Dual Microphone
- 0.5 Watt Rated Audio
- 3 Programmable Side Buttons
- Continuous Rotary Multi-Function Knob
- Orange Programmable Button
- IP54 Environmental Specifications
- 2" Belt Clip (PMLN4651)
- GPS (QA00782)
- Intelligent Lighting
- Low Battery Alert Tone
- Noise Cancellation Software
- Radio Profiles
- Unified Call List
- Front Color Display: 2 lines of text, 2

- Standard Li-Ion 1900 mAh Battery (NNTN8128)
 - Antenna Dependent on Frequency Band (7/800 MHz: NAF5085, 900 Mhz: PMAF4008, VHF: NAR6593, UHF: PMAE4065)
 - NOTE: Charger must be purchased separately
 - 12 Month Standard Manufacturer's Warranty
 - NOTE: Additional services package is required with purchase
- lines of icons
 - No Keypad: Backlight keypad with 3 soft keys
 - Limited Keypad: Backlight keypad with 3 soft keys, 4 direction navigation key, home and data buttons
 - Full Keypad: Backlight keypad with 3 soft keys, 4 direction navigation key, 3X4 keypad, home and data buttons and full DTMF keypad

UL Battery option (QA00582) available only on 900 MHz dual knob model (H84WCF9PW6AN + QA04865)

Operation Mode (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ENH: P25 CONVENTIONAL	-	QA04097	837	\$350.00
ENH: P25 TRUNKING	-	QA04096	837	\$1,070.00

Knob Configuration (Optional)

7/800, VHF, UHFR1, UHFR2 and 900 MHz models ship standard with a single multi function

knob (no option required).

The 900 MHz model also offers the option for dual knob configuration. If dual knob configuration is desired on the 900 MHz model you must select QA04865.

Description	Full Description	Nomenclature	APC	Price
ADD: DUAL CONTROL ENHANCEMENT	Only available on 900 MHz model	QA04865	426	\$100.00

System Enhancement Software

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00

System Enhancement Selection (Optional)

All APX 1000 radios ship P25 “clear” with QA05751 unless the ADP option (Q667) is ordered.

Description	Full Description	Nomenclature	APC	Price
ADD: PROGRAMMING OVER P25 (OTAP)	Compatible with P25 Trunking and Conventional Operation. POP25/OTAP requires AES encryption for ASTRO Conventional operation. Must have IV&D (Q947) enabled. To use in the field POP25 programming must use the Advanced System Key	G996	426	\$100.00

	(DVN4046A).			
ADD: TDMA OPERATION	Requires P25 Trunking (QA04096). A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	426	\$450.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: MULTIKEY	-	H869	837	\$75.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required	QA03399	656	\$150.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature (requires digital)	QA09008	655	\$150.00
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (QA04096)	QA01767	426	\$100.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782)	QA09012	426	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
	Customers who require compliance with DHS			

ADD: NO ADP FOR P25 CAP	Project 25 CAP Encryption Requirements and who require a clear radio with no encryption enabled will need to select option QA05751. The radios will need to be sent to the Motorola Depot if Encryption is needed in the future.	QA05751	655	\$0.00
ENH: TRUNKED RADIO TRACE/ REMOTE MO	-	H43	426	\$75.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00

Antenna Selection (Optional)

The APX 1000 ships with a standard antenna dependent on frequency (7/800 MHz: NAF5085, 900 MHz: PMAF4008, VHF: NAR6593, UHF: PMAE4065)

Description	Full Description	Nomenclature	APC	Price
ALT: VHF STUBBY ANTENNA (147-160MHZ) (PMAD4094A)	This option will delete the standard antenna (NAR6593) and add 147-160 MHz stubby antenna (PMAD4094)	QA06787	837	\$9.00
ALT: VHF STUBBY ANTENNA (160-174MHZ) (PMAD4095A)	This option will delete the standard antenna (NAR6593) and add 160-174 MHz stubby antenna (PMAD4095)	QA06788	837	\$9.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	This option will delete the standard antenna (PMAE4065) and add 380-470 MHz GPS stubby antenna (FAF5259)	QA02017	426	\$55.00
	This option will delete the			

ALT: UHFR2 WHIP ANTENNA (450-520 MHZ) (PMAE4094)	standard antenna (PMAE4065) and add 420-445 MHz stubby antenna (PMAE4094)	QA06795	837	\$9.00
ALT: UHFR1 STUBBY ANTENNA (380-480 MHZ) (PMAE4100)	This option will delete the standard antenna (PMAE4065) and add 380-470 MHz stubby antenna (PMAE4100)	QA06796	837	\$9.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	This option will delete the standard antenna (PMAE4065) and add 470-520 MHz GPS stubby antenna (FAF5260)	QA02017	426	\$55.00
ALT: UHFR2 STUBBY ANTENNA (450-520 MHZ) (PMAE4102)	This option will delete the standard antenna (PMAE4065) and add 450-527 MHz stubby antenna (PMAE4102)	QA06797	837	\$9.00
ALT: 1/4- WAVE 7/800 STUBBY (NAR659)	This option will delete the standard antenna (NAF5085) and add 1/4 wave 7/800 MHz stubby antenna (NAR6595)	H122	426	\$24.00
DEL: DELETE STANDARD ANTENNA	Deletes standard antenna: NAF5085 (7/800 MHz), PMAF4008 (900 MHz), NAR6593 (VHF), PMAE4065 (UHFR1/R2)	H112	426	(\$10.00)

Battery Selection (Optional)

The APX 1000 ships standard with an IMPRES Li-Ion 1900 mAh battery (NNTN8128)

UL Approval available ONLY on the 900 MHZ dual knob model 2 black model (H84WCF9PW6AN)

Description	Full Description	Nomenclature	APC	Price
ALT: IMPRES LI-ION 2350MAH (PMNN4424)	This option will delete the standard battery (NNTN8128) and add IMPRES Li-Ion 2350 mAh	QA02749	426	\$85.00

	(PMNN4424)			
ALT: IMPRES LI-ION 2800MAH (PMNN4448)	This option will delete the standard battery (NNTN8128) and add IMPRES Li-Ion 2800 mAh (PMNN4448)	QA04146	837	\$100.00
ALT: IMPRES LI-ION 2500MAH UL/DELTA T BATTERY (NNTN8560A)	This option deletes the standard battery (NNTN8128) and adds IMPRES Li-Ion 2500 mAh UL/Delta T battery (NNTN8560). *Available on the two knob 900 MHz configuration only (QA04865 + H84WCF9PW6AN)	QA00582	411	\$130.00
DEL: DELETE BATTERY	Deletes standard battery (NNTN8128)	H207	426	(\$47.00)

Belt Clip Selection (Optional)

The APX 1000 ships standard with a 2" belt clip (PMLN4651)

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT CLIP	Deletes standard belt clip (PMLN4651) and adds 2.5" belt clip (PMLN7008)	Q698	426	\$12.00
DEL: DELETE STANDARD BELT CLIP	Deletes standard belt clip (PMLN4651)	H301	426	(\$10.00)

Data Cable Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	Used to program and service the radio with Customer Programming Software and Tuner Software. Compatible on ALL APX Portable Radios.	Q157	655	\$75.00

Service Package Selection (Must Select One)

The APX 1000 ships standard with a 12 month manufacturer's warranty. NOTE: Additional services package is required with purchase.

Description	Full Description	Nomenclature	APC	Price
ADD: 3Y ESSENTIAL SERVICE	<p>Provides 3 years of hardware coverage beginning at time of purchase. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.</p>	H885BK	185	\$90.00
ADD: 3Y ESSENTIAL ACCIDENTAL DAMAGE	<p>Provides for extended hardware repair coverage and chemical, liquid, and other physical damage on your Motorola portable and mobile subscriber radios. Comprehensive coverage starts from the first day the radio is put into use and last for 3 YEARS. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.</p>	HA00022AB	185	\$234.00
ADD: 5Y ESSENTIAL SERVICE	<p>Provides 5 years of hardware coverage beginning at time of shipment. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola</p>	Q887	185	\$162.00

	designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.			
ADD: 5Y ESSENTIAL ACCIDENTAL DAMAGE	-	HA00025AG	185	\$360.00
ADD: 3Y ESSENTIAL SVC CANADA	Upgrades the standard warranty period to a full five (5) years of hardware service coverage on the internal components of your radio equipment. Repairs will be made only at Motorola authorized service centers. No discounts are allowed on this option.	HA00044	185	\$134.00
ADD: 5Y ESSENTIAL SVC CANADA	Upgrades the standard warranty period to a full three (3) years of hardware service coverage on the internal components of your radio equipment. Repairs will be made only at Motorola authorized service centers. No discounts are allowed on this option.	HA00045	185	\$185.00

Manual Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: DATA LINK MANAGER APP CD- PORTABLES	Option provides the NVN5424 Data CD. Please order this option if you would like the Data CD, and are unable to obtain it through other sources such as MOL.	QA00205	655	\$0.00
ADD: USER GUIDE APX1000 CD-ROM	-	H88	837	\$25.00

Test Results (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: TEST RESULTS / RATED AUDIO PRI	-	H799	426	\$0.00

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	RFID Volume knob for single knob configuration (QA04526AD). Knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio.	QA04526	426	\$25.00
ADD: RFID KNOB	RFID Volume knob for dual knob configuration (900 MHz only) (QA04526AE). Knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio.	QA04526	426	\$25.00

Packaging Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: SINGLE UNIT PACKAGING	This option deletes the standard bulk packaging option and adds single unit packaging.	H842	426	\$0.00

Software & Services

FLASHport®

All ASTRO Digital APX 1000 Portables are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent upon remaining within the current RF capabilities of the radio).

Global Positioning Satellite (GPS)

The personnel outdoor location tracking GPS feature enables a dispatcher to locate on-foot patrols and out of the vehicle officers who are involved in life threatening situations. The radio user's GPS position information is sent over the ASTRO 25 Integrated Voice & Data (IV&D) network and is delivered to the dispatch operator using a third party mapping display application at the dispatch center.

In order to obtain an initial GPS fix position, the radio must be located in an open sky, outdoor environment with no barriers that could affect the signal around or above the user. During this initial fix, the radio should NOT be worn on the body as this may affect the process of acquiring signal and/or add additional time to first fix.

*GPS Performance may be degraded when the radio is worn against the body and/or against the body within a vehicle

NOTE Limitations of Use:

- GPS works best in an open sky (clear view of the sky with no obstructions) environment. Due to the limitations of the technology, there are certain situations which prevent GPS coverage. These situations include but are not limited to:
 - Underground locations (tunnels, subways, etc)
 - Inside of buildings, elevators, parking garages, trains, other covered vehicles, etc.
 - Under metal or concrete roof structures
 - Urban canyons (between tall buildings or under dense tree coverage)

Due to the limitations mentioned above, GPS should only be utilized as a method to assist the user with location information but not as a means for mission critical communication. In any emergency situation, the location should always be verbally reported to the dispatcher.

RFID Enabled Volume Knob

RFID enabled volume knobs are available as an accessory. See RFID Solution Partner list for information on partners that can provide customers with scanner hardware and back end asset management solutions.

ASTRO® Digital APX 1000™ Portable Series

P25 Phase 2 Single Band Capable Radio

UHF Band

Updates

- Please Note: Effective January 16th, all quotes should include at minimum the 3 year Service from the Start Lite option.
- Effective May 02, 2016, APX 1000 for user guides, manuals and other product information, please visit motorolasolutions.com and search for this product using the name or manual number. To add a manual, please order H88.
- Effective February 22nd, 2016, the APX 1000 will ship standard with GPS Activation (QA00782). GPS requires Q947 (already included standard) and Q806 in order to operate.
- Effective February 22nd, 2016, APX 1000 Radio Sales Model Price will increase by \$150

Ordering Information

Features

All ASTRO Digital APX 1000 models include the following features:

- Dual Microphone
- 0.5 Watt Rated Audio
- 3 Programmable Side Buttons
- Continuous rotary multi-function knob
- 2" Belt Clip
- Orange Programmable Button
- Low Battery Alert Tone
- Noise Cancellation Software
- IP54 Environmental Specifications

- Standard Li-Ion 1900 mAh Battery (NNTN8128)
- Antenna (Dependent on Frequency Band and Type)
- Intelligent Lighting

ASTRO Digital APX 1000 No-Keypad, Limited Keypad and Full Keypad with Single Display Model also includes:

- Radio Profiles
- Unified Call List
- Front Color Display: 2 lines of text, 2 lines of icon
- No Keypad - Backlight keypad 3 soft keys
- Limited Keypad - Backlight keypad 3 soft keys, 4 direction navigation key, 3x4 keypad, Home and Data Buttons
- Full Keypad - Backlight keypad 3 soft keys, 4 direction navigation key, 3x4 keypad, Home and Data Buttons and Full DTMA keypad

* Must purchase Software to ENABLE.

* All APX1000 Portable Radios ship standard with SW ADP Privacy

* All ASTRO Digital APX 1000 Portables are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent upon remaining within the current RF capabilities of the radio)

New RFID enabled volume knobs (QA04526) available for portable radios. See RFID Enabled Volume Knob section below for more information. See RFID Solution Partner link below for information on partners that can provide customers with scanner hardware and back end asset management solutions.

****NOTE: APX Portable and Mobile Radios ship standard with the Software Key (QA01749). The Hardware Key (QA01648) is available as an alternative option to purchase. The System ID is required to be entered as supplemental data when ordering the Hardware Key (QA01648). It is CRITICAL that the CORRECT SYSTEM ID is entered when placing the order as this will impact the radios' ability to operate on the intended system. If an incorrect System ID is entered, a FLASHport upgrade will be required in order to fix this error. The Master Key Start-Up Kit (DVN4046) is required to use the Hardware Key (QA01648) or to operate on a third-party trunking system if the customer does not already possess one, or if theirs has expired. Please [CLICK HERE](#) for further details regarding the DVN4046 Kit.

[Advanced System Key](#)

General Information

The ASTRO Digital APX 1000 Portable Line offers **three** different radio hardware models:

Hardware Model	Modes	Alphanumeric Display Lines/Characters	Keypad
ASTRO APX 1000 No Keypad (3 soft keys only)	512	14 (front)	3 Soft Keys

ASTRO APX 1000 Limited Keypad	512	14 (front)	3 Soft Keys 4 Navigation keys Home and Data Buttons
ASTRO APX 1000 Full Keypad	512	14 (front)	3 Soft Keys 4 Navigation keys Home and Data Buttons Full DTMF Keypad

Operating Modes

ASTRO Digital APX 1000 Radio Models are capable of operating in four different voice communication modes:

- Normal Analog (clear voice)
- 9.6 KB ASTRO 25 Digital (Both clear & coded voice)
- 9.6KB 12.5kHz 2 slot digital TDMA (Both clear & coded voice).

TDMA

FDMA (Frequency Division Multiple Access) is a proven technology that is widely used today in radio systems and is part of APCO 25 Project 25 Phase 1 standard. FDMA carries one call per channel. TDMA (Time Division Multiple Access) will be part of P25 Phase 2 standard and provides double the voice capacity as 2 calls can share 1 channel. Customers can add more users to their systems without the need of additional frequencies or infrastructure. The APX radios support both P25 Phase 1 and TDMA technologies seamlessly. Using Motorola's unique Dynamic Dual Mode (DDM) capability, the radios dynamically switch between FDMA and TDMA without the user having to change channels. This provides interoperability on demand with existing and future networks.

Flashport AFTERMARKET UPGRADES

The ASTRO Digital APX 1000 Portable Series Radios are part of the Flashport Program. This means that ASTRO Digital APX 1000 hardware models can be loaded with different software packages that provide the features and functionalities that our customers require.

System Enhancement Options can be loaded at the time of radio purchase or at a later date through the use of software field upgrades (a USB cable is required for all software upgrades.) The ASTRO Digital APX 1000 portable can be upgraded electronically in the field with new features in the current system or to new systems operation (contingent upon remaining within the same RF sub-band) by ordering upgrade kits.

[Launching in early 2015, there will be a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, a new online method will be supported in Radio Management \(RM\).](#) For more information, please refer to the APX 1000 FLASHport page.

RADIO MANAGEMENT

Radio Management (RM) is a suite of software applications shipping with the APX Customer Programming Software (CPS) that provides the ability to manage your entire fleet of ASTRO APX radios through one central database.

Radio Management (RM) can help reduce fleet programming time and improve overall radio asset management. Radio Management allows:

- Manage and track radio codeplugs through a central database
- Make changes to a shared codeplug template and push to multiple radios
- Manage and update radios without taking them out of service

- Schedule programming updates to radios ahead of time

NOTE: Radio Management is available only with Customer Programming Software Release 7.12, version R08.02.00 and later and can only be used with ASTRO® Digital APX radios.

For more details regarding Radio Management and the Ordering Process, please refer to the [ASTRO Radio Management](#) page.

Ordering Requirements

Ordering procedure is as follows:

<u>Steps</u>	<u>Required Options</u>	<u>Comments</u>
		APX Digital Portable Radio-
		a. H84QDD9PW5AN
		b. H84QDF9PW6AN
		c. H84QDH9PW7AN
1	APX 1000 UHFR1MHz Main Model	a. H84SDD9PW5AN
		b. H84SDF9PW6AN
		c. H84SDH9PW7AN
2	Operation Mode	a. QA04096- ENH: P25 Trunking
		b. QA04097- ENH: P25 Conventional
		a. G996- ADD: Programming Over P25 (OTAP)
		b. QA00580- ADD: TDMA Operation
4	System Enhancement Software (Optional)	c. QA09000- ADD: Digital Tone Signalling
		d. H869- ADD: Multikey
		e. QA03399- ADD: Enhanced Data

1. Order the APX 1000 Portable Series as the main line item.

- Each hardware model MUST be ordered with one operation mode.
- Default battery is Li-Ion 1900mAh
- Default 2" belt clip
- Default Antenna is the single appropriate antenna for your RF configuration.
- *Note - APX Radio ships with 12 month standard warranty.*

Common Software Features Supported By

H38 "P25 Trunking"		
	ASTRO P25 Digital	TDMA

	Project 25 (9600 Baud)	TDMA OPERATION

Status/Message	Yes	Yes
Trunking Type II Only Features		
Maximum Number of Trunked Systems-20	Yes	Yes
Talkgroup Calls	Yes	Yes
PTT ID	Yes	Yes
Call Alert Encode/Decode	Yes	Yes
Analog/Digital Dual Mode Scan	Yes	Yes
Failsoft by Talkgroup	Yes	Yes
Telephone Interconnect Encode/Decode	Yes	Yes
System Wide Call (Receive Only)	Yes	Yes
Selective Radio Inhibit	Yes	Yes
Priority Monitor Scan	Yes	Yes
Dynamic Regrouping	Yes	Yes
Status/Message	Status Only	Status Only
Private/Enhanced Conversation Encode/Decode	Yes	Yes
Reprogram Request	Yes	Yes

SmartZone		
	ASTRO Digital	TDMA
	Project 25 (9600 Baud)	Project 25 (TDMA Operation)
Trunking Type II Only Features		
Voice on Control	-	-
SmartZone Automatic Site Registration	Yes	Yes
SmartZone RSSI Operation	Yes	Yes
SmartZone Preferred Site	Yes	Yes
SmartZone Forced Site Search	Yes	Yes
SmartZone Site Lock/Unlock	Yes	Yes
SmartZone Adjacent Control Channel OSW	Yes	Yes
Emergency Alarm Call Receive Indication	Yes	Yes

CHANNEL SPACING

There are no maximum frequency separation conditions that must be adhered to on the APX 1000 portable series. Separation of frequencies can be as wide as the allowable band per radio model with no degradation of any performance specifications. If an incorrect antenna is used, degraded performance may be experienced.

ZONED OPERATION

This option converts MODE-ONLY ASTRO Digital APX 1000 portables to Zone Operation radios.

For the Non-keypad, Limited keypad and Full Keypad radios there is a maximum of 50 zones, with 512 channels per zone.

PROJECT 25 ENCRYPTION

The APX1000 does **not** support any Hardware Encryption (*such as AES, DES...*)

NOTE: *There is no specific option to order for the Text Messaging Service on the subscribers as the functionality is included in the Packet Data option*

ASTRO Advanced Messaging Solution (ASM)

The ASTRO 25 Advanced Messaging Solutions is the latest messaging platform from Motorola Solutions and will replace ASTRO Text Messaging Service (TMS). As a complete end-to-end solution it leverages the core assets of ASTRO 25 IV&D/CID networks, ASTRO 25 radios, Integrated Command Center applications and Unified Network Services. The application allows responders to send/receive messages and run database queries from ASTRO 25 data enabled portable radios, extending real time information access to the field so dispatchers and first responders can be more efficient and achieve safer outcomes.

Provides functional parity with TMS and leverages the PremierOne messaging services platform, offering multiple configurations to enhance and extend core messaging functionality that can include queries and dispatch notifications. Based upon the configuration chosen, ASTRO 25 Advanced Messaging Solution extends Computer Aided Dispatch (CAD) information beyond the vehicle to select ASTRO 25 Portable radios.

Many Public Safety agencies have experienced the benefits of messaging and sharing important information to/from the communication center (dispatch) and vehicles equipped with MDT's. With ASTRO 25 Advanced Messaging Solution we are extending that capability to responders when Outside the Vehicle.

Ordering ASTRO Text Messaging for APX 1000 Portable Requires:

1. APX 1000 Radio
2. P25 Digital Conventional (QA04097)

OR

1. APX 1000 Radio
2. 9600 Digital Trunking (QA04096)

NOTE: *There is no specific option to order for the Advanced Messaging Solution on the subscribers as the functionality is included in the Packet Data option. Please order Digital Operation to receive Text Messaging ability as Packet Data is a standard feature on APX Portable and Mobile Radios. For additional ordering guidelines of the AMS feature which includes the server and radio license fees, please visit -*

Advanced Messaging Solution

UHF1	Frequency (MHz)
1	384.0000
2	385.0200
3	393.2125
4	407.8625
5	417.7875

7	442.3625

*within +/-25kHz of the specified frequency

CPS INFORMATION

****Please note that a NEW version of CPS (RVN5224) is required for initial customer orders for this product. This new version of CPS is required for the APX radio shipments. ****

How to order RVN5224 through COF:

1. Sign and return the Software License Agreement
2. Order the software part number
3. New releases on disk will be automatically sent for a three-year period.

A downloadable version of the CPS will be available for the Q1 SER 2015 Release

Order HKVN4289A in MOL

- Provide Email Address
- Sign and return the Software License Agreement
- License is valid for 3 years
- Reminder to renew license will be sent to the provided Email Address

Model

**ASTRO® Digital APX 3000
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems**

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 3000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management](#) catalog page.

Ordering Requirements

1. **Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T7997A, T7991A, T7992A, T7993A)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. **Select** the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. IMPORTANT: If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and EXISTING FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable. [CLICK HERE](#) for available cables.

Note 1: For feature details, see System Enhancement Software Packages Section under the General Information on the APX 3000 price page.

A Universal Serial Bus (USB) cable is required to "FLASH" FLASHport® software into the ASTRO®: Digital APX 3000 radios.

Software Prices BELOW DO NOT include field programming.

2-WAY RADIO ACCESSORIES

APX 3000 & APX 4000 Product Series Radios

Ordering Information

General Information

The APX P25 mission critical two-way radio series redefines safety in portable communication. From the fire line to the factory line, APX puts the right devices into the hands of the right user. Every feature and function is designed with its users in mind - from the rugged, easy to operate design to the loudest, clearest audio. The result is the ability to keep your people and community safer than ever before.

Extend the power and reliability of your radio with the only complete line of accessories designed, tested and certified for optimal performance with APX portables. This flexible portfolio offers solutions that meet your customers' specific needs. This includes a robust and complete portfolio of remote speaker microphones including the XE Remote Speaker Microphone which has been designed specifically for harsh conditions for the fireground. And the APX Mission Critical Wireless portfolio delivers best-in-class Bluetooth® wireless designed specifically for first responders. While our IMPRES smart battery and charger solutions ensure your responders have a battery that is ready to go at the moment they need it.

Every Motorola battery, charger, audio accessory, carry case and antenna is best-in-class technology, designed and optimized specifically for your APX portable.

ASTRO® Digital APX 3000™ Portable Radio
P25 Phase 2 Single Band Capable Radio

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

APX Device Service Options and Pricing Change

As of May 5, 2018, Service from the Start has become Essential Services to fit within our expanding services portfolio.

To learn more about these changes please review the [U.S. Change Notification](#) or [Canadian Change Notification](#).

Ordering Information

Standard Features

All ASTRO Digital APX 3000 models include the following features:

Additional Ordering Information for Service Options

[SmartConnect End to End Ordering Guide](#)

[ViQi Virtual Partner End to End Ordering Guide](#)

- On/Off Switch
- 2 Programmable Buttons (1 top & 1 side)
- IP67 Environmental Specifications
- Two (2) Ultra Slim IMPRES Li-Ion 1250 mAh Batteries (NNTN8305)
- Ultra Slim Carry Holster (PMLN6327)
- 3-Wire Surveillance Kit, Beige (PMLN6124)
- Antenna dependent on frequency band (7/800: NAF5085, UHF: PMAE4065, VHF: NAR6593)
- Standard 12 month warranty
- ADP Privacy - ships standard with single key
- Radio Packet Data (Q/W947)
- Software Key (QA01749)
- Conventional Operation (H35)
- ASTRO Digital Operation (Q806)
- Integrated Bluetooth (QA00583)
- Multicast Voting (Q387)
- Programmable Voice Announcements
- Integrated GPS (QA00782)
- Mandown Hardware Capable (Requires software QA01843)

System Enhancement Software

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order hardware key (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
	Compatible with P25 Trunking and Conventional Operation. POP25 requires			

ADD: PROGRAMMING OVER P25 (OTAP)	AES encryption for ASTRO Conventional operation. Must have IV&D (Q947) enabled. To do in field POP25 programming must use Advanced System Key (DVN4046A)	G996	536	\$100.00
ENH: ONE TOUCH/STATUS MSG	-	H46	536	\$75.00
ADD: ASTRO 25 INTEGRATED VOICE & DATA	This option is only capable of being used on P25 Digital Conventional and 9600 Trunking Systems. This option is required for IV & D operation.	Q947	536	\$250.00
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	536	\$100.00
ENH: ENHANCEMENT LEVEL 1	-	QA01770	536	\$200.00
ADD: MANDOWN OPERATION	-	QA01843	426	\$150.00
ADD: DVRS PSU ACTIVATION	-	QA00631	655	\$100.00
ENH: TACTICAL RADIO / STUN/KILL	A keypad is required on the radio to reverse the Stun command in the field. If using a radio with a limited or no keypad, the radio will need to be hooked into a computer with CPS to reverse the Stun/Kill setting. This feature REQUIRES IV&D (Q947) AND Digital Encryption AES (Q629) or DES, DES-XL, DES-OFB (Q625) to operate. Tactical Stun Kill is not compatible with DVRs (QA00631)	H02	536	\$75.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: SITE SELECTABLE				

ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ADD: ENHANCED DATA	Requires Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361)	QA03399	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782)	QA09012	426	\$150.00
ADD: GROUP SERVICES	-	QA09008	655	\$150.00

Algorithm Selection (Optional)

All APX 3000 Mobile Radios ship P25 “clear” with QA05751 unless an encryption option is ordered.

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION	-	H797	536	\$487.00
ADD: TACTICAL REKEY WITH MULTIKEY	Requires IV&D (Q947) AND Digital Encryption AES (Q629) or DES, DES-XL, DES-OFB (Q625) to operate. Incompatible with MDC/ASTRO P25 OTAR with Multikey. Tactical OTAR is not compatible with DVRs (QA00631)	H04	536	\$350.00
ENH: MULTIKEY	-	H869	536	\$330.00
ADD: AES/DES,DES-XL,DES-OFB	-	Q15	536	\$799.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Incompatible with the H04 option since Tactical OTAR is included with the Q498 option. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	536	\$740.00

ENH: DES,DES-XL,DES-OFB ENCRYPTION	-	Q625	536	\$599.00
ENH: AES ENCRYPTION	-	Q629	536	\$475.00

Antenna Selection (Optional)

The APX 3000 ships with a standard antenna dependent on frequency (7/800: NAF5085, UHF: PMAE4065, VHF: NAR6593)

Description	Full Description	Nomenclature	APC	Price
ADD: 7/800 MHz FLEXIBLE ANTENNA	This option deletes the standard antenna (NAF5085) and replaces it with 7/800 MHz flexible dribble antenna (PMAF4006)	QA03192	536	\$40.00
ADD: VHF FLEXIBLE ANTENNA	This option deletes the standard antenna (NAR6593) and replaces it with 136-174 MHz flexible GPS dribble antenna (PMAD4125)	QA03194	536	\$40.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	This option (QA02017AM) deletes the standard antenna (PMAE4065) and replaces it with 380-470 MHz GPS stubby antenna (FAF5259)	QA02017	536	\$55.00
ADD: UHF GPS FLEXIBLE ANTENNA	This option (QA02017AM) deletes the standard antenna (PMAE4065) and replaces it with 380-520 MHz GPS antenna (PMAE4080)	QA03193	536	\$40.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	This option (QA02017AN) deletes the standard antenna (PMAE4065) and replaces it with 470-520 MHz GPS stubby antenna (FAF5260)	QA02017	536	\$55.00

Battery Selection (Optional)

The APX 3000 ships standard with two (2) 1250 mAh IMPREs Li-Ion Batteries (NNTN8305) and one (1) ultra slim carry holster (PMLN6327). You can exchange the two (2) batteries and holster

for one (1) of the batteries below that come standard with the 2" belt clip.

Description	Full Description	Nomenclature	APC	Price
DEL: BATTERY	This option deletes the standard batteries (NNTN8305AR - qty 2)	H207	536	(\$47.00)
ALT: SLIM LI-ION IMPRES 2000MAH (NNTN8128)	This option deletes the standard batteries and holster (NNTN83505AR - qty2) and adds IMPRES Li-Ion 2000 mAh battery (NNTN8128BR)	QA03163	536	\$0.00
ALT: IMPRES LI-ION 2350MAH (PMNN4424)	This option deletes the standard batteries and holster (NNTN83505AR - qty2) and adds IMPRES Li-Ion 2350 mAh battery (PMNN4424AR)	QA02749	536	\$85.00

Belt Clip Selection (Optional)

The APX 3000 ships standard with two (2) 1250 mAh IMPRES Li-Ion batteries (NNTN8305) and one (1) ultra slim carry holster (PMLN6327). If you choose to exchange the two (2) batteries and one (1) carry holster for one (1) of the batteries above, you can also exchange the 2" belt clip (PMLN4651) for the 2.5" belt clip (PMLN7008) below.

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT CLIP	-	Q698	536	\$12.00

Cable Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX PROGRAMMING CABLE	Includes programming, test and alignment cable (PMKN4013C) This is a GCAI cable at radio interface and USB connection at other end for computer programming. Please note that the PMKN4012A is NOT compatible with the APX 3000	Q157	536	\$75.00

Wired/Wireless Accessory Bundle Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: MCW ACCESSORY BUNDLE PACK 1	Includes one Mission Critical Wireless Covert Audio Accessory Kit (NNTN8296), one Mission Critical Wireless push-to-talk pod (NNTN2571) and one Mission Critical Wireless Key Fob (PMLN6233)	QA03276	742	\$500.00
ADD: MCW ACCESSORY BUNDLE PACK 2	Includes one Mission Critical Wireless Covert Audio Accessory Kit (NNTN8296) and two Mission Critical Wireless push-to-talk pods (NNTN2571) to power the earbud headphones	QA03277	742	\$400.00
ADD: MCW ACCESSORY BUNDLE PACK 3	Includes one Mission Critical Wireless Covert Audio Accessory Kit (NNTN8296) and one Mission Critical Wireless push-to-talk pod (NNTN2571) to power the earbud headphones	QA03278	742	\$289.00
ALT: IMPRES 3-WIRE SURVEILLANCE KIT - BLACK	This option deletes the standard beige IMPRES 3-wire surveillance kit (PMLN6124) and includes an IMPRES 3-wire surveillance kit in black (PMLN5111A)	QA03178	536	\$0.00
DEL: IMPRES 3_WIRE SURVEILLANCE KIT	This option deletes the standard beige IMPRES 3-wire surveillance kit (PMLN6124)	QA04448	591	(\$65.00)

Service Package Selection (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ADD: 3Y ESSENTIAL SERVICE	-	H885BK	185	\$90.00

ADD: 3Y ESSENTIAL ACCIDENTAL DAMAGE	-	HA00022AB	185	\$234.00
ADD: 5Y ESSENTIAL SERVICE	-	Q887	185	\$162.00
ADD: 5Y ESSENTIAL ACCIDENTAL DAMAGE	-	HA00025AG	185	\$360.00
ADD: 3Y ESSENTIAL SVC CANADA	-	HA00044	185	\$134.00
ADD: 5Y ESSENTIAL SVC CANADA	-	HA00045	185	\$185.00

Manual Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: USER GUIDE,CD,APX3000 UG CDROM	-	H88	536	\$25.00
ADD: DATA LINK MANAGER APP CD- PORTABLES	Option provides the NVN5424 Data CD. Please order this option if you would like the Data CD, and are unable to obtain it through other sources such as MOL.	QA00205	655	\$0.00

Test Results Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: TEST RESULTS / RATED AUDIO PRINTOUT	-	H799	536	\$0.00

Software & Services

FLASHport®

All ASTRO Digital APX 3000 Portables are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent

upon remaining within the current RF capabilities of the radio).

Global Positioning Satellite (GPS)

The personnel outdoor location tracking GPS feature enables a dispatcher to locate on-foot patrols and out of the vehicle officers who are involved in life threatening situations. The radio user's GPS position information is sent over the ASTRO 25 Integrated Voice & Data (IV&D) network and is delivered to the dispatch operator using a third party mapping display application at the dispatch center.

In order to obtain an initial GPS fix position, the radio must be located in an open sky, outdoor environment with no barriers that could affect the signal around or above the user. During this initial fix, the radio should NOT be worn on the body as this may affect the process of acquiring signal and/or add additional time to first fix.

*GPS Performance may be degraded when the radio is worn against the body and/or against the body within a vehicle

NOTE Limitations of Use:

- GPS works best in an open sky (clear view of the sky with no obstructions) environment. Due to the limitations of the technology, there are certain situations which prevent GPS coverage. These situations include but are not limited to:
 - Underground locations (tunnels, subways, etc)
 - Inside of buildings, elevators, parking garages, trains, other covered vehicles, etc.
 - Under metal or concrete roof structures
 - Urban canyons (between tall buildings or under dense tree coverage)

Due to the limitations mentioned above, GPS should only be utilized as a method to assist the user with location information but not as a means for mission critical communication. In any emergency situation, the location should always be verbally reported to the dispatcher.

Project 25 Encryption

The mode of operation is programmed on a channel-by-channel basis. With the coded/clear switch set to the clear mode, the ASTRO Digital APX3000 radio is capable of transmitting clear analog voice or clear (unencrypted) ASTRO Digital voice, depending on the channel programming. With the coded/clear switch set to the coded mode, the ASTRO Digital APX 3000 radio will transmit ASTRO Digital encryption depending on the channel programming. ASTRO Digital encryption provides secure communications. ASTRO Digital Encryption (operation in encrypted mode while also operation in 3.6KB or 9.6KB and TDMA ASTRO mode) is capable of XL type encryptions; ASTRO Digital Encryptions does not operate with non-XL encryptions.

An encryption option is not required for either clear analog operation or clear ASTRO Digital operation. Encryption can be ordered with the ASTRO Digital APX 3000 radio either as a factory installed option or separate from the radio for later field installation. ASTRO Digital APX 3000 radio functions include selected ASTRO digital signaling and digital speech coding.

When ordering any of the encryption algorithms:

- The DES-OFB and AES encryption algorithms offered are compliant with digital Project 25 standards and do not support analog encryption operation
- ASTRO digital CAI (Q806) is required to operate the DES-OFB and AES encryption

When used in CAI mode, the non-OFB encryption will not be Project 25 compliant

Encryption algorithms can be ordered later via FLASHport

FIPS 140-2 Compliance

Encryption modules equipped with AES are 140-2 compliant. Details regarding the certification and copies of the relevant certificates can be obtained on the NIST website: <http://csrc.nist.gov/groups/STM/cmvp/validation.html>

Further information regarding FIPS 140-2 compliance can also be found here: <http://csrc.nist.gov/groups/STM/cmvp/index.html>

ASTRO Text Messaging Service

ASTRO text messaging service will NOT be available on APX 3000 portable radios

**ASTRO® Digital APX 4000
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems**

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 4000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHport USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios.

Ordering Requirements

1. **Specify** the *current* System Enhancement Software Package that represents the software in the radio as the main line item (T7904A, T7905A, T7906A, T7907A, T7909A)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. **Select** the *desired* Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

Software Prices **BELOW DO NOT** include field programming.

ENH: DIGITAL CONVENTIONAL TO 9600 OR 3600 DIGITAL TRUNKING	-	QA03216AC	430	\$1,173.00
ENH: ANALOG CONVENTIONAL TO ANALOG 3600 TRUNKING	-	QA03214AA	430	\$920.00

System Enhancement Options

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY-HARWARE KEY FLP	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You can no longer order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error.	QA01648AC	430	\$5.75

ADD: ASTRO 25 INTEGRATED VOICE & DATA	-	Q947BE	430	\$288.00
ENH: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996AX	430	\$115.00
ENH:TRUNK RADIO TRACE/REM MONI	-	H43BH	430	\$86.25
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361).	QA01767AV	430	\$115.00
ADD: DVRS PSU ACTIVATION APX PORTABLE FLASHPORT	-	QA00631AC	430	\$115.00
ADD: MISSION CRITICAL WIRELESS BLUETOOTH	-	QA00583AE	430	\$173.00
ADD: SW KEY SUPPLEMENTAL DATA FLP	A SOFTWARE or ADVANCED SYSTEM KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking.	QA01749AE	430	\$0.00
ADD: MANDOWN OPERATION	APX6000 customers ONLY- with radios using tanapas with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QA01843AB. Please contact your sales representative for further details.	QA01843AB	430	\$173.00

ENH: APX GPS ACTIVATION	Requires IV&D (Q947)	QA00782AE	430	\$173.00
ADD: APX PERSONNEL ACCOUNTABILITY	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445AF	430	\$173.00
ADD: EXTREME NOISE REDUCTION	-	QA01833AF	430	\$28.75
ENH: ONE TOUCH BUTTON	-	H46BD	430	\$86.25
ADD: ENHANCED DATA	-	QA03399AB	430	\$173.00
ADD: SITE SELECTABLE ALERT FLP PORTABLE	-	QA00982AC	430	\$173.00
ENH: ENHANCEMENT LEVEL 1	-	QA01770AG	430	\$230.00
ADD: GROUP SERVICES FLP	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (Requires Digital.	QA09008	430	\$173.00
ENH: TDMA OPERATION	Requires Q808/Q806 (Digital), Q327/H38 (Smartzone), and Q361 (P25) to be ordered. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will	QA00580AE	430	\$518.00

	still REQUIRE a DVN4046 to be purchased.			
ADD: DIGITAL TONE SIGNALING	-	QA09000AB	430	\$173.00
ENH: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	-	Q52AK	430	\$173.00
ENH: FRONT PANEL PROGRAMMING & CLONING	-	Q53AK	430	\$173.00
ADD: MISSION CRITICAL GEOFENCING FLP	Requires GPS (FL/QA00782).	QA09012AB	430	\$173.00
ENH: CONV VOTING SCAN UPGRADE	-	Q387AX	430	\$230.00
ENH: TACTICAL RADIO SOFTWARE	-	H02AH	430	\$86.25

Algorithm Options

Description	Full Description	Nomenclature	APC	Price
ENH: TACTICAL REKEY	Requires IV&D (Q947). includes MULTIKEY. Tactical OTAR is not compatible with DVRs QA00631.	H04AW	430	\$403.00
ENH: MULTIKEY	-	H869CC	430	\$380.00

Model

ASTRO® Digital APX 4000™ Portable Series
P25 Phase 2 Single Band Capable Radio

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

**Effective April 29, 2019 you will no longer need to manually select option 'QA04865: Two Knob Configuration' when ordering the APX 4000 model. This option will automatically generate on every model as an internal option.

Ordering Information

Standard Features

All ASTRO Digital APX 4000 models include the following features:

- Two knob configuration (QA04865)
- Dual Microphone
- 0.5 Watt Rated Audio
- 3 Programmable Side Buttons
- Orange Programmable Button
- Integrated GPS Hardware Capable
- Integrated Bluetooth Hardware Capable
- IP67 Environmental Specifications
- 2" Belt Clip (PMLN4651)
- Standard IMPRES Li-Ion 1900 mAh Battery (NNTN8128)
- Antenna Dependent on Frequency Band (7/800 MHz: NAF5085, 900 MHz: PMAF4008, VHF: NAR6593, UHF: PMAE4065)
- NOTE: Charger must be purchased seperately
- 12 month standard warranty
- Low Battery Alert Tone
- Noise Cancellation Software
- Intelligent Lighting
- Unified Call List
- Radio Profiles
- Front Color Display: 2 lines of text, 2 lines of icon
- Limited Keypad: Backlight keypad with 3 soft keys, 4 direction keys, home and data buttons
- Full Keypad: Backlight keypad with 3 soft keys, 4 direction key, 4X3 full DTMF keypad, home and data buttons

The APX 4000 ships standard with Two knob configuration (QA04865), GPS Activation (QA00782), Radio Packet data (W/Q947), Mission Critical Bluetooth (QA00583) and Software Key (QA01749).

Regulatory Information

Band	FCC ID

ADD: APX Personnel Accountability	-	Q445	481	\$150.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required	QA03399	656	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
EXTREME NOISE REDUCTION	-	QA01833	426	\$25.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782)	QA09012	426	\$150.00
ADD: FRONT PANEL PROGRAMMING & CLONING	Compatible with model 3 only	Q53	426	\$150.00
ADD: FRONT PANEL PROGRAMMING & CLONING	Compatible with model 3 only	Q52	426	\$150.00

(FEDERAL)				
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ENH: TACTICAL RADIO STW-STUN/KILL	-	H02	481	\$75.00
ADD: GROUP SERVICES	-	QA09008	655	\$150.00

Encryption Algorithm Options (Optional)

All APX 4000 Radios ship P25 “clear” (QA05751 will internally generate) unless an encryption option is ordered.

Description	Full Description	Nomenclature	APC	Price
ADD: TACTICAL REKEY WITH MULTIKEY	Requires IV&D (Q947). Incompatible with MDC/ASTRO P25 OTAR with Multikey (H869). Tactical OTAR is not compatible with DVRs (QA00631).	H04	426	\$350.00
ENH: MULTIKEY	-	H869	426	\$330.00
ENH: AES ENCRYPTION	P25 CAP Compliant option. Includes ADP.	Q629	426	\$475.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	Customers who require compliance with DHS Project 25 CAP Encryption Requirements and who require a clear radio with no encryption enabled will need to select option QA05751. The radios will need to be sent to the Motorola Depot if Encryption is needed in the future.	QA05751	655	\$0.00

Antenna Selection (Optional)

The APX 4000 ships with a standard antenna dependent on frequency (7/800 MHz: NAF5085, 900 MHz: PMAF4008, VHF: NAR6593, UHF: PMAE4065)

Description	Full Description	Nomenclature	APC	Price
ALT: 1/4- WAVE 7/800 STUBBY (NAR659)	This option deletes the standard 7/800 antenna (NAF5085) and adds 1/4 wave 7/800 stubby antenna (NAR6595)	H122	426	\$24.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	This option (QA02017AJ) deletes the standard UHF antenna (PMAE4065) and adds 380-470 MHz GPS stubby antenna (FAF5259)	QA02017	426	\$55.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	This option (QA02017AL) deletes the standard UHF antenna (PMAE4065) and adds 470-520 MHz GPS stubby antenna (FAF5260)	QA02017	426	\$55.00
ALT: ANTENNA, WHIP, 700-800MHZ	This option deletes the standard 7/800 antenna (NAF5085) and adds 7/800 antenna (PMAF4040)	QA07978	426	\$32.00
DEL: DELETE STANDARD ANTENNA	This option deletes the standard antenna: 7/800 MHz (NAF5085), 900 MHz (PMAF4008), VHF (NAR6593), UHF (PMAE4065)	H112	426	(\$10.00)

Battery Selection (Optional)

The APX 4000 ships standard with an IMPRES Li-Ion 1900 mAh battery (NNTN8128)

Description	Full Description	Nomenclature	APC	Price
ALT: IMPRES LI-ION 2350MAH	This option deletes the standard battery (NNTN8128) and adds	QA02749	426	\$85.00

(PMNN4424)	2350 mAh Li-Ion battery (PMNN4424AR) *Not compatible with H499			
ALT: IMPRES LI-ION 2800MAH (PMNN4448)	This option deletes the standard battery (NNTN8128) and adds 2800 mAh Li-Ion battery (PMNN4448AR) *Not compatible with H499	QA02750	426	\$100.00
ALT: IMPRES LI-ION 2500MAH RUGGED UL (NNTN8560)	This option will delete the standard battery (NNTN8128) and add IMPRES 2500 mAh UL Battery (NNTN8560) *Requires rugged option (H499) *UL Certified / Delta T	QA04934	411	\$50.00
ALT: IMPRES LI-ION 2500MAH UL/DELTA T BATTERY (NNTN8560A)	This option will delete the standard battery (NNTN8128) and add IMPRES 2500 mAh UL Battery (NNTN8560) *UL Certified / Non-Delta T	QA00582	411	\$130.00
DEL: DELETE BATTERY	This option deletes the standard battery (NNTN8128)	H207	426	(\$47.00)

Rugged Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: SUBMERSIBLE (DELTA T)	*Non-UL / Delta T requires H499 only *UL Certified / Delta T requires H499 AND QA04934	H499	411	\$250.00

Belt Clip Selection (Optional)

The APX 4000 ships standard with a 2" belt clip (PMLN4651)

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT	This option deletes the standard			

CLIP	belt clip (PMLN4651A) and adds 2.5" belt clip (PMLN7008)	Q698	426	\$12.00
DEL: DELETE STANDARD BELT CLIP	This option deletes the standard belt clip (PMLN4651A)	H301	426	(\$10.00)

Programming Cable (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	Used to program and service the radio with Customer Programming Software and Tuner Software	Q157	655	\$75.00

Reflective Label (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: REFLECTIVE LABEL	-	QA04776	411	\$10.00

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio.	QA04526	426	\$25.00

Service Package Selection (Must Select One)

The APX 4000 ships standard with a 12 month warranty

Description	Full Description	Nomenclature	APC	Price
ADD: 3Y ESSENTIAL SERVICE	-	H885BK	185	\$90.00

Packaging Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: SINGLE UNIT PACKAGING	APX4000 ships standard with bulk packaging. If you require single unit packaging please select this option.	H842	426	\$0.00

Test Results (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: TEST RESULTS / RATED AUDIO PRI	-	H799	426	\$0.00

Software & Services

FLASHport®

All ASTRO Digital APX 4000 Portables are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent

upon remaining within the current RF capabilities of the radio).

Project 25 Encryption

The mode of operation is programmed on a channel-by-channel basis. With the coded/clear switch set to the clear mode, the ASTRO Digital APX4000 radio is capable of transmitting clear analog voice or clear (unencrypted) ASTRO Digital voice, depending on the channel programming. With the coded/clear switch set to the coded mode, the ASTRO Digital APX 4000 radio will transmit ASTRO Digital encryption depending on the channel programming. ASTRO Digital encryption provides secure communications. ASTRO Digital Encryption (operation in encrypted mode while also operation in 3.6KB or 9.6KB and TDMA ASTRO mode) is capable of XL type encryptions; ASTRO Digital Encryptions does not operate with non-XL encryptions.

An encryption option is not required for either clear analog operation or clear ASTRO Digital operation. Encryption can be ordered with the ASTRO Digital APX 4000 radio either as a factory installed option or separate from the radio for later field installation. ASTRO Digital APX 4000 radio functions include selected ASTRO digital signaling and digital speech coding.

When ordering any of the Encryption Algorithms:

- The AES encryption algorithms offered are compliant with digital Project 25 standards and do not support analog encryption operation
- ASTRO Digital CAI (Q806) is required to operate the AES encryption
- Encryption algorithms can be added after the fact using the KVL

FIPS 140-2 Compliance

Encryption Modules equipped with AES are FIPS 140-2 compliant. Details regarding the certification and copies of the relevant certificates can be obtained on the NIST website (<http://csrc.nist.gov/groups/STM/cmvp/validation.html>)

Hazardous Location

APX 4000 portable radios with the 2 knob option (QA04865) when properly equipped with QA00582AJ or QA04934AA are Underwriter's Laboratory (UL/CSA) approved. APX 4000 (two knob) is UL certified to standards TIA4950. CAN/CSA C22.2 NO. 157-92. Div 1, Class I, Groups C, D, Class II groups E, F, G, Class III.

Global Positioning Satellite (GPS)

The personnel outdoor location tracking GPS feature enables a dispatcher to locate on-foot patrols and out of the vehicle officers who are involved in life threatening situations. The radio user's GPS position information is sent over the ASTRO 25 Integrated Voice & Data (IV&D) network and is delivered to the dispatch operator using a third party mapping display application at the dispatch center.

In order to obtain an initial GPS fix position, the radio must be located in an open sky, outdoor environment with no barriers that could affect the signal around or above the user. During this initial fix, the radio should NOT be worn on the body as this may affect the process of acquiring signal and/or add additional time to first fix.

*GPS Performance may be degraded when the radio is worn against the body and/or

against the body within a vehicle

NOTE Limitations of Use:

- GPS works best in an open sky (clear view of the sky with no obstructions) environment. Due to the limitations of the technology, there are certain situations which prevent GPS coverage. These situations include but are not limited to:
- Underground locations (tunnels, subways, etc)
- Inside of buildings, elevators, parking garages, trains, other covered vehicles, etc.
- Under metal or concrete roof structures
- Urban canyons (between tall buildings or under dense tree coverage)

Due to the limitations mentioned above, GPS should only be utilized as a method to assist the user with location information but not as a means for mission critical communication. In any emergency situation, the location should always be verbally reported to the dispatcher.

2-WAY RADIO ACCESSORIES

APX 4000XH Radios

Ordering Information

General Information

The APX P25 mission critical two-way radio series redefines safety in portable communication. From the fire line to the factory line, APX puts the right devices into the hands of the right user. Every feature and function is designed with its users in mind - from the rugged, easy to operate design to the loudest, clearest audio. The result is the ability to keep your people and community safer than ever before.

Extend the power and reliability of your radio with the only complete line of accessories designed, tested and certified for optimal performance with APX portables. This flexible portfolio offers solutions that meet your customers' specific needs.

Every Motorola battery, charger, audio accessory, carry case and antenna is best-in-class technology, designed and optimized specifically for your APX portable.

Model

ASTRO® Digital APX 4500
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 4500 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

Ordering Requirements

- 1. Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T8009A, T8010A, T8011A, T8012A)
2. If you choose to use Radio Management to perform the upgrade enter the online delivery method (UA0083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle
- 3. Select** the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.

4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.

5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1. Maximum qty of software upgrades is 500 per line item.

6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.

7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable. [CLICK HERE](#) for available cables

ADD: DVRS MSU ACTIVATION APX MOBILE	Incompatible with Data Modem Tethering and DVRS PSU. Available with VRX only. Requires Remote Mount and P25 Digital Trunking.	GA00631AB	430	\$288.00
ADD: DVRS PSU ACTIVATION APX PORTABLE FLASHPORT	Requires P25 Digital Trunking. If you are connecting your radio directly to a DVR then order GA00631. Incompatible with GA00631.	QA00631AC	430	\$115.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399AB	430	\$173.00
ENH: FPP & CLONE APX	-	G53AM	430	\$150.00
ADD: GROUP SERVICES FLP	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008AB	430	\$173.00
ADD: MISSION CRITICAL GEOFENCING FLP	Requires Digital, IV&D, and GPS.	GA09012AB	430	\$173.00
ADD: THIRD PARTY DATA MODEM TETHERING	Requires Remote Mount. Incompatible with DVRS MSU. Provides for aftermarket cable: KT000247A01.	GA09011AB	430	\$115.00
ADD: TRUNKED ONE TOUCH BUTTON	-	G683AF	430	\$86.25
ENH: MLTCST VOTNG SCAN- SPECTRA	Requires Digital Operation.	G387AE	430	\$230.00

ADD: APX 6500 LINK LAYER AUTH FLASHPORT	Requires P25 9600 Trunking	GA01767AJ	430	\$115.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW FLP	Requires Digital Operation.	G445AB	430	\$173.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996AW	430	\$115.00
ENH: RADIO TRACE	Requires W20, W22, W872, G892, GA00221. Some older revisions are not compatible.	G170AL	430	\$86.25
ADD:SITE SELECTABLE ALERT FOR P25 PAGING FLP	Requires P25 9600 Trunking	GA00982AB	430	\$150.00
ENH: UPGRADE TO TDMA	Requires P25 9600 Trunking	GA00580AC	430	\$518.00
ENH: APX GPS ACTIVATION	Requires W947.	GA00229AC	430	\$173.00
ENH: ENHANCEMENT LEVEL 1	-	GA01770AC	430	\$230.00

Advanced System Key

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY-HARWARE KEY FLP	The software key (QA01749) is the default Advance System Key option that ships standard on all APX products. You can no longer order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error.	QA01648AC	430	\$5.75

Multikey

Algorithm upgrades require a KVL and cannot be ordered through FLASHport

Description	Full Description	Nomenclature	APC	Price
ENH: MULTIKEY OPERATION	Required when DES Encryptions, or when AES and DVP are ordered together.	W969BL	430	\$380.00

**APX™ 6000 P25 Portable
Radio P25 Phase 2 Single
Band Capable Radio**

Updates

Announcements

- **Effective March 5th, 2020:** All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.
- **PMNN4547 IMPRES 2 LIION 3100 MAH** will be available as an option, **QA07577 or QA07578**, on the APX 6000. This battery is slightly larger and will require a new holster, **PMLN7901**. This holster is now the standard carry holster for the Models 2.5 and Models 3.5 and will fit all of the current batteries in the portfolio. The legacy holster, **PMLN5709** is no longer available
- Battery options **QA05574** and **QA06305**, which provided for **NNTN8930**, will no longer be available.
- The new standard 7/800 MHz whip antenna on the APX6000 will be **PMAF4040** instead of **NAF5085**. **PMAF4040** is has a slightly thinner and more flexible form

- factor. PMAF4040A supports GPS operation.
- High Cap Battery NNTN8921 (QA05575 & QA06304) has been replaced by NNTN4753 (QA07576 & QA07739)

Ordering Information

Standard Features

All ASTRO Digital APX 6000 models include the following features:

- GPS Software & Hardware (QA00782)
- Mission Critical Wireless Bluetooth® 4.0 (LE) (QA00583)
- ADP Privacy - Single Key
- Radio Packet Data (Q947)
- Software Key (QA01749)
- 3 Programmable Side Buttons
- Orange Programmable Button
- 16 Position Mode Rotary Select Switch
- Angled On/Off Volume Knob
- 1 Top Mounted Programmable 3 Position Toggle Switch
- Top Display: 1 line of text, 1 line of icons, 0 menu lines
- Dual Microphone
- 3 Watt Rated Audio (Requires QA09006 to enable)
- Detachable Belt Clip (Model 1.5) / Carry Holder (Models 2.5 & 3.5)
- IMPRES 2 Battery (PMNN4485)
- IP68 (2m, 2hr)
- Single-Band Antenna (dependent on model/frequency selected)
- Models 2.5 & 3.5:
 - Unified Call List
 - Front Color Display: 4 Lines of Text, 2 Lines of Icons
 - Radio Profiles
 - 3 Programmable Buttons
 - 4-Way Navigation
 - Home & Data Buttons
- Model 3.5: 4 X 3 Alpha-Numeric Keypad

Operation Modes (Mandatory)

2A: Digital Trunking (SN/SZ P25 Phase I Interop)

Description	Full Description	Nomenclature	APC	Price
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,200.00
ADD: P25 9600 BAUD TRUNKING	Requires H38 and Q806. INCLUDED at 'NO Charge' Q173-OminLink. APX 6000 digital radios require Advanced System Keys (ASK- DVN4046A) to be configured to operate on a trunking system.	Q361	481	\$300.00
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$515.00

2B: Digital Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$515.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,200.00

2C: Digital Conventional (P25)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$515.00
ADD: CONVENTIONAL OPERATION	-	H35	481	\$500.00

2D: Analog Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	Requires either a H35, H37, or H38	Q241	481	\$0.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,200.00

2E: Analog Conventional

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	Requires either a H35, H37, or H38	Q241	481	\$0.00
ADD: CONVENTIONAL OPERATION	-	H35	481	\$500.00

Housing (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: SUBMERSIBLE (DELTA T)	IF AN INTRINSICALLY SAFE SOLUTION IS REQUIRED THEN PLEASE SEE THE 'UL' REPLACEMENT QA06305 &	H499	481	\$150.00

	QA06304.			
ALT: PUBLIC SAFETY YELLOW HOUSING	APX6000 comes standard IP67 unless ordered with H499 Delta T option. APX6000XE comes Delta T standard.	H64	481	\$25.00
ALT: IMPACT GREEN HOUSING	APX6000 comes standard IP67 unless the H499 Delta-T option is ordered. APX6000XE comes standard Delta-T.	QA01427	481	\$25.00

RFID Enabled Volume Knob *(Optional)*

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	<p>Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE).</p> <p>See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back end asset management solutions.</p>	QA04526	655	\$25.00

System Enhancement Options *(Optional)*

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 9600 Trunking	QA01767	481	\$100.00
ADD: TDMA OPERATION	For APX6000 and APX6000XE, QA00580 requires Q806, H38, Q361. If ordering an APX6000Li, QA00580 requires QA02756. A SOFTWARE or HARDWARE KEY or	QA00580	481	\$450.00

	WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.			
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	481	\$100.00
ADD: MULTICAST VOTING SCAN	-	Q387	481	\$200.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ENH: RADIO TRACE/ REMOTE MONITOR	Requires Q806 and either H37, H38, or H35.	H43	481	\$75.00
ENH: ONE TOUCH/STATUS MSG	Compatible on models 1.5, 2.5 and 3.5.	H46	481	\$75.00
ADD: FRONT PANEL	Compatible with Model 3.5 Radios only. Requires FPP HW dongle	Q53	481	\$150.00

PROGRAMMING & CLONING	(NNTN7526A)to be purchased.			
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	Compatible with Model 3.5 Radios only.	Q52	481	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ENH: ENHANCEMENT LEVEL 2	Model 1.5 Radios require Enhanced Zone Bank to be ordered so additional channels can be accessed. Please reference the Enhancement Level Reference Guide for more details. This option allows for a few parameters (ZONES, CHANNELS, SYSTEMS PERSONALITIES, UCL ENTRIES, VOICE ANNOUNCEMENT, ENCRYPTION KEYS) on the mid tier to go to a high tier	QA01771	481	\$200.00
ADD: EXTREME 1-SIDED NOISE REDUCTION	Compatible with all APX6000 Radios. Comes standard on APX6000XE.	QA01833	481	\$25.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now	QA09008	655	\$150.00

	also do Over the Air Firmware Updates with this feature. (requires digital)			
ADD: MANDOWN OPERATION	APX6000 customers ONLY- with radios using tanapas with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QA01843AB. Please contact your sales representative for further details.	QA01843	481	\$150.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ENH: TACTICAL RADIO STW-STUN/KILL	Tactical Stun Kill is not compatible with DVRs QA00631.	H02	481	\$75.00
ADD: ADAPTIVE NOISE SUPPRESSION	Adaptive Noise Suppression is available on APX6000/XE and SRX2200 BN Models only. Adaptive Noise Suppression is not available on any APX6000Li models, or on APX6000/XE and SRX2200 AN Models.	QA09006	579	\$150.00
ENH: ENHANCED ZONE BANK	This option will increase the channel/talkgroup capacity on a Model 1 and Model 1.5 from 96 to 1000. Zone Up/Zone Down, Zone Bank Up/Zone Bank Down will be unlocked with this option.	QA01768	481	\$75.00

ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$300.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001)	GA09011	681	\$100.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WIFI QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00

System Key Software

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if	QA01648AA	0655	\$5.00

	required to operate/program on a trunking system. Not compatible with conventional.			
--	---	--	--	--

Algorithm Types (Optional)

All APX 6000 Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered.

AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM.

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION	Multikey is required for use of more than one key. Includes ADP. Non-P25 CAP Compliant option	H797	481	\$487.00
ENH: DES,DES-XL,DES-OFB ENCRYPTION	Multikey is required for use of more than one key. Non-P25 CAP Compliant option.	Q625	481	\$599.00
ENH: AES ENCRYPTION	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	481	\$475.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	Q15	481	\$799.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00

Multikey Types (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: MULTIKEY	-	H869	481	\$330.00

ADD: TACTICAL REKEY WITH MULTIKEY	This feature REQUIRES IV&D (Q947) AND Digital Encryption ? AES (Q629) or DES, DES-XL, DES-OFB (Q625), AES/DES (Q15) to operate. Incompatible with MDC/ASTRO P25 OTAR with Multikey. Tactical OTAR is not compatible with DVRs QA00631.	H04	481	\$350.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Not compatible with ADP-Only. Includes multikey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	481	\$740.00
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$150.00

Antenna (Optional)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD ANTENNA	For APX6000/Li/XE, deletes standard antenna. PMAF4040 (7/800), NAR6593 (VHF) or PMAE4065 (UHF).	H112	481	(\$10.00)
ADD: GPS STUBBY ANTENNA (NAG4000)	GPS Antenna	QA00785	481	\$18.00

ADD: USER GUIDE,CD,APX 7K/6K USER CDROM	-	H88	655	\$25.00
ADD: DATA LINK MANAGER APP CD- PORTABLES	Option provides the NVN5424 Data CD. Please order this option if you would like the Data CD, and are unable to obtain it through other sources such as MOL.	QA00205	655	\$0.00
ADD: TEST RESULTS / RATED AUDIO PRINTOUT	-	H799	481	\$10.00

Software and Services

Wi-Fi

APX 6000 supports Wi-Fi 802.11 b/g/n with WPA2/WPA (PSK), and WEP security protocols. Wi-Fi can be used with the Radio Management SW in order to do codeplug updates, firmware

refreshes, and FLASHport upgrades over a Wireless Network (WLAN). The radio will only connect to available Wi-Fi networks which have been pre-provisioned in the radio codeplug via CPS. The radio can be pre-provisioned with up to 20 SSIDs.

The Wi-Fi feature requires ordering option QA09001. The Wi-Fi feature is also available aftermarket as a FLASHport upgrade if not ordered out of the factory.

Radio Management (RM) is required in order to take advantage of the Wi-Fi capabilities on APX 6000.

Out of the Box WiFi Provisioning

If a radio is ordered the Wi-Fi option (QA09001) and the customer wishes to provision the radios out of the box using Wi-Fi, the radio must also be ordered with the Out of the Box Wi-Fi Provisioning option (QA09007).

A radio ordered with the Wi-Fi option and the Out of the Box Provisioning over Wi-Fi option will come with the following default codeplug configuration relative to Wi-Fi:

- a. Wi-Fi will be enabled.
- b. There will be one pre-configured network with the Network SSID set to “MyNetwork” and security type will be set to “None”.
- c. The default state of Wi-Fi will be “on”.

A Wi-Fi router is required for connecting the Wi-Fi capable radio to the Device Programmer. The Wi-Fi router is to be procured by the agency programming the radios and must be provisioned with the Network SSID set to “MyNetwork” (case sensitive) with no password enabled.

For more details regarding the Out of the Box Wi-Fi Provisioning process, please refer to the [Out of the Box Wi-Fi Provisioning Leaflet](#)

Bluetooth 4.0 & Emergency Find Me

With Bluetooth 4.0 wireless technology and our APX™ Mission Critical Wireless portfolio, users can now connect a variety of Bluetooth audio accessories and data devices with their APX™ radio.

Bluetooth 4.0 also enables Emergency Find Me, a feature providing personnel with an added level of security by improving response time in emergencies. Once an emergency is activated on the APX 6000, a Bluetooth beacon signals other Bluetooth-enabled APX radios within range. Based on bluetooth signal strength, nearby APX radios will receive an emergency alert via intelligent lighting and a text message with users Radio ID along with signal strength status (excellent, poor, fair) to determine proximity, and will guide the nearest personnel to the user in distress.

Ordering Information

General Information

The APX P25 mission critical two-way radio series redefines safety in portable communication. From the fire line to the factory line, APX puts the right devices into the hands of the right user. Every feature and function is designed with its users in mind - from the rugged, easy to operate design to the loudest, clearest audio. The result is the ability to keep your people and community safer than ever before.

Extend the power and reliability of your radio with the only complete line of accessories designed, tested and certified for optimal performance with APX portables. This flexible portfolio offers solutions that meet your customers' specific needs. This includes a robust and complete portfolio of remote speaker microphones including the XE Remote Speaker Microphone which has been designed specifically for harsh conditions for the fireground. And the APX Mission Critical Wireless portfolio delivers best-in-class Bluetooth® wireless designed specifically for first responders. While our IMPRES smart battery and charger solutions ensure your responders have a battery that is ready to go at the moment they need it.

Every Motorola battery, charger, audio accessory, carry case and antenna is best-in-class

technology, designed and optimized specifically for your APX portable.

Radio

Updates

Announcements

Effective March, 2018:

- **PMNN4547 IMPRES 2 LIION 3100 MAH** will be available as an option, **QA07577**, on the APX 6000Li. This battery is slightly larger and will require a new holster, **PMLN7901**. This holster is now the standard carry holster for the Models 2.5 and Models 3.5 and will fit all of the current batteries in the portfolio. The legacy holster, **PMLN5709** is no longer available
- Battery options **QA05574**, which provided for **NNTN8930**, will no longer be available.
- The new standard 7/800 MHz whip antenna on the APX6000Li will be **PMAF4040** instead of **NAF5085**. **PMAF4040** is has a slightly thinner and more flexible form factor.

Ordering Information

Standard Features

All ASTRO Digital APX 6000Li models include the following features:

- GPS Software & Hardware (QA00782)
- Mission Critical Wireless Bluetooth® 4.0 (LE) (QA00583)
- ADP Privacy - Single Key
- Radio Packet Data (Q947)
- Software Key (QA01749)
- 3 Programmable Side Buttons
- Orange Programmable Button
- 16 Position Mode Rotary Select Switch
- Angled On/Off Volume Knob
- 1 Top Mounted Programmable 3 Position Toggle Switch
- Top Display: 1 line of text, 1 line of icons, 0 menu lines
- Dual Microphone
- Detachable Belt Clip (Model 1.5) / Carry Holder (Models 2.5 & 3.5)
- IMPRES 2 Battery (PMNN4485)
- Single-Band Antenna (dependent on model/frequency selected)
- Models 2.5 & 3.5:
 - Unified Call List
 - Front Color Display: 4 Lines of Text, 2 Lines of Icons
 - Radio Profiles
 - 3 Programmable Buttons
 - 4-Way Navigation
 - Home & Data Buttons
- Model 3.5: 4 X 3 Alpha-Numeric Keypad

APX 6000Li Limitations

- No Infrastructure OTAR Capability
- No Delta T (H499)
- No Color Housing (Yellow/H64 or Green/QA01427)
- No Multiple Encryption Algorithms (not including ADP) such as AES and DES
- No 3600/9600 Interoperability Option
- No Enhanced Level 2 Option Available

No WiFi (QA09001) Option Available

- No Audio Adaptive Engine (QA09006) Option Available

APX 6000Li Operation Packages (Mandatory)

Description	Full Description	Nomenclature	APC	Price
ADD: 9600 TRUNKING OR 3600 DIGITAL TRUNKING	When ordering trunking mode, you must select a QA01749 software key, QA01648 hardware key or a QA02018 WACN Key.	QA02756	755	\$1,570.00
ENH: LI DIGITAL CONVENTIONAL	-	Q811	755	\$650.00
ENH: LI ANALOG CONVENTIONAL	-	QA02829	755	\$400.00
ENH: LI ANALOG 3600 TRUNKING	-	Q443	755	\$1,100.00

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE). See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back	QA04526	655	\$25.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	481	\$100.00
ADD: TDMA OPERATION	For APX6000 and APX6000XE, QA00580 requires Q806, H38, Q361. If ordering an APX6000Li, QA00580 requires QA02756. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	481	\$450.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	481	\$100.00
ADD: MULTICAST VOTING SCAN	-	Q387	481	\$200.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
	Enables DVRS Enhanced			

ADD: DVRS PSU ACTIVATION	PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ENH: RADIO TRACE/ REMOTE MONITOR	Requires Q806 and either H37, H38, or H35.	H43	481	\$75.00
ENH: ONE TOUCH/STATUS MSG	Compatible on models 1.5, 2.5 and 3.5.	H46	481	\$75.00
ADD: FRONT PANEL PROGRAMMING & CLONING	Compatible with Model 3.5 Radios only. Requires FPP HW dongle (NNTN7526A)to be purchased.	Q53	481	\$150.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	Compatible with Model 3.5 Radios only.	Q52	481	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: EXTREME 1-SIDED NOISE REDUCTION	Compatible with all APX6000 Radios. Comes standard on APX6000XE.	QA01833	481	\$25.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361	QA09008	655	\$150.00

	for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)			
ADD: MANDOWN OPERATION	APX6000 customers ONLY- with radios using tanapas with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QA01843AB. Please contact your sales representative for further details.	QA01843	481	\$150.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ENH: TACTICAL RADIO STW-STUN/KILL	Tactical Stun Kill is not compatible with DVRs QA00631.	H02	481	\$75.00
ENH: ENHANCED ZONE BANK	This option will increase the channel/talkgroup capacity on a Model 1 and Model 1.5 from 96 to 1000. Zone Up/Zone Down, Zone Bank Up/Zone Bank Down will be unlocked with this option.	QA01768	481	\$75.00

System Key Software

Description	Full Description	Nomenclature	APC	Price
	The SOFTWARE KEY is the default Advance System Key option that ships standard on all			

ADD: HW KEY SUPPLEMENTAL DATA	APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00
----------------------------------	---	-----------	------	--------

Algorithm Types (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: NO ADP FOR P25 CAP	-	QA05751	655	\$0.00
ENH: DVP-XL ENCRYPTION	Compatible with Digital and Analog (25kHz Only) operations. ADP Privacy ships standard with Single Key. Multikey is required for multiple algorithms, such as ADP/AES or ADP/DES .	H797	481	\$487.00
ENH: DES,DES-XL,DES- OFB ENCRYPTION	Compatible with Analog 25kHz/DES-OFB Digital 12.5kHz Only. ADP Privacy ships standard with Single Key. Multikey is required for multiple algorithms, such as ADP/AES or ADP/DES	Q625	481	\$599.00
ENH: AES ENCRYPTION	ADP Privacy ships standard with Single Key. Multikey is required for multiple algorithms, such as ADP/AES or ADP/DES	Q629	481	\$475.00
ADD: AES/DES-XL/DES- OFB ENCRYPTION	-	Q15	481	\$799.00

Multikey Types (Optional)

--	--	--	--	--

Description	Full Description	Nomenclature	APC	Price
ENH: MULTIKEY	-	H869	481	\$330.00
ADD: TACTICAL REKEY WITH MULTIKEY	This feature REQUIRES IV&D (Q947) AND Digital Encryption ? AES (Q629) or DES, DES-XL, DES-OFB (Q625), AES/DES (Q15) to operate. Incompatible with MDC/ASTRO P25 OTAR with Multikey. Tactical OTAR is not compatible with DVRs QA00631.	H04	481	\$350.00

Antenna (Optional)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD ANTENNA	For APX6000/Li/XE, deletes standard antenna. PMAF4040 (7/800), NAR6593 (VHF) or PMAE4065 (UHF).	H112	481	(\$10.00)
ADD: GPS STUBBY ANTENNA (NAG4000)	GPS Antenna	QA00785	481	\$18.00
ALT: 1/4- WAVE 7/800 GPS STUBBY (NAR6595A)	7/800 Models Only	H122	481	\$24.00
ALT: UHFR1 GPS STUBBY ANTENNA (FAF5259A)	UHF Range 1 Models Only	QA02017	481	\$24.00
ALT: UHFR2 GPS STUBBY ANTENNA (FAF5260)	UHF Range 2 Models Only	QA02017	481	\$24.00

Battery (Optional- Can Only Select One)

HAZLOC Approved

Description	Full Description	Nomenclature	APC	Price
ALT: BATT IMPRES 2 LIION TIA4950 IP68 3100T STD	This option will delete the standard battery and replace it with LIION IMPRES 3100MAH	QA07577	481	\$135.00

	(PMNN4547).			
ALT: LI-ION IMPRES 2 4500 MAH UL/CSA (NNTN8921A)	This option will delete the standard battery and replace it with LIION IMPRES 4500MAH (NNTN8921).	QA05575	655	\$165.00

Not Compatible if HAZLOC Certification is Required.

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD BATTERY	Deletes the standard SLIM IMPRES 2 LIION 2550MAH battery for the APX6000/Li AN/BN Models, or the standard LIION IMPRES 2 LIION 2650MAH battery for the APX6000XE AN/BN Models.	H207	481	(\$30.00)
ALT: LI-ION IMPRES 2 IP68 3400 MAH	This option will delete the standard battery and replace it with IMPRES 2 LIION 3400MAH(PMNN4486). Compatible with all APX6000/XE/Li & SRX2200 AN & BN model numbers. Compatible with the APX7000XE.	QA05570	562	\$100.00
ALT: LI-ION IMPRES 2 IP68 4850 MAH	This option will delete the standard battery and replace it with IMPRESS 2 LIION 4850MAH (PMNN4487).	QA05571	655	\$115.00
ALT: LI-ION IMPRES 2 IP68 5100MAH	This option will delete the standard battery and replace it with IMPRESS 2 LIION 5100MAH (PMNN4494).	QA05573	655	\$135.00

Cable (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	PMKN4012B- Used to program the radio with Customer Programming Software and Tuner Software. PMKN4013C - Used to program and service the radio with Customer Programming Software and Tuner	Q157	655	\$75.00

	Software. Compatible on ALL APX Portable Radios

Software and Services

Bluetooth 4.0 & Emergency Find Me

With Bluetooth 4.0 wireless technology and our APX™ Mission Critical Wireless portfolio, users can now connect a variety of Bluetooth audio accessories and data devices with their APX™ radio.

Bluetooth 4.0 also enables Emergency Find Me, a feature providing personnel with an added level of security by improving response time in emergencies. Once an emergency is activated on the APX 6000, a Bluetooth beacon signals other Bluetooth-enabled APX radios within range. Based on bluetooth signal strength, nearby APX radios will receive an emergency alert via intelligent lighting and a text message with users Radio ID along with signal strength status (excellent, poor, fair) to determine proximity, and will guide the nearest personnel to the user in distress.

ASTRO® Digital APX 6000Li
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

**Ordering Information****General Information**

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 6000Li radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- **Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle**
- **Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied**
- **Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have**

NOTE: Radio Management must be deployed to manage your fleet of APX radios before

you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management](#) page.

Ordering Requirements

1. **Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T7813A, T815A, T816A, T817A, T818A)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. **Select** the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and EXISTING FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

**ASTRO® Digital APX 6000XE™ Portable Series
P25 Phase 2 Single Band Capable Radio**

Updates

Announcements

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Effective March, 2018: PMNN4547 IMPRES 2 LIION 3100 MAH will be the new standard battery for the APX 6000XE. This battery is slightly larger and will require a new holster, PMLN7902. This holster is now the standard carry holster for the Models 2.5 and Models 3.5 and will fit all of the current batteries in the portfolio. The legacy holster, PMLN5880 is no longer available.

Effective February, 2018:The new standard 7/800 MHz whip antenna on the APX 6000XE will be PMAF4040 instead of NAF5085. PMAF4040 has a slightly thinner and more flexible form factor. PMAF4040 supports GPS operation.

Ordering Information

Ordering Guide

Standard Features

All ASTRO Digital APX 6000XE models include the following features:

- GPS Software & Hardware (QA00782)
- Mission Critical Wireless Bluetooth® 4.0 (LE) (QA00583)
- ADP Privacy - Single Key
- Radio Packet Data (Q947)
- Software Key (QA01749)
- Extreme 1-Sided Noise Reduction (QA01833)
- 3 Programmable Side Buttons
- Orange Programmable Button
- 16 Position Mode Rotary Select Switch
- Angled On/Off Volume Knob
- 1 Top Mounted Programmable 3 Position Toggle Switch
- Top Display: 1 line of text, 1 line of icons, 0 menu lines
- Dual Microphone
- 3 Watt Rated Audio (Requires QA09006 to enable)
- Detachable Belt Clip (Model 1.5) / Carry Holder (Models 2.5 & 3.5)
- IMPRES 2 TIA4950 Battery (PMNN4547)
- MIL-STD Delta-T, IP68 (2 m, 4 hr)
- Single-Band Antenna (dependent on model/frequency selected)
- Models 2.5 & 3.5:
 - Unified Call List
 - Front Color Display: 4 Lines of Text, 2 Lines of Icons
 - Radio Profiles
 - 3 Programmable Buttons
 - 4-Way Navigation
 - Home & Data Buttons
- Model 3.5: 4 X 3 Alpha-Numeric Keypad

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	<p>Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE).</p> <p>See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back end asset management solutions.</p>	QA04526	655	\$25.00

System Enhancement Options (*Optional*)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	481	\$100.00
ADD: TDMA OPERATION	For APX6000 and APX6000XE, QA00580 requires Q806, H38, Q361. If ordering an APX6000Li, QA00580 requires QA02756. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	481	\$450.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	481	\$100.00
ADD: MULTICAST VOTING SCAN	-	Q387	481	\$200.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not	QA00631	655	\$100.00

	connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.			
ENH: RADIO TRACE/ REMOTE MONITOR	Requires Q806 and either H37, H38, or H35.	H43	481	\$75.00
ENH: ONE TOUCH/STATUS MSG	Compatible on models 1.5, 2.5 and 3.5.	H46	481	\$75.00
ENH: FRONT PANEL PROGRAMMING & CLONING	Compatible with model 3.5 radios only	Q53	430	\$173.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	-	Q52	470	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ENH: ENHANCEMENT LEVEL 2	Model 1.5 Radios require Enhanced Zone Bank to be ordered so additional channels can be accessed. Please reference the Enhancement Level Reference Guide for more details. This option allows for a few parameters (ZONES, CHANNELS, SYSTEMS PERSONALITIES, UCL ENTRIES, VOICE ANNOUNCEMENT, ENCRYPTION KEYS) on the mid tier to go to a high tier	QA01771	481	\$200.00
	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for			

ADD: GROUP SERVICES	Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$150.00
ADD: MANDOWN OPERATION	APX6000 customers ONLY- with radios using tanapas with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QA01843AB. Please contact your sales representative for further details.	QA01843	481	\$150.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ENH: ENHANCED ZONE BANK	This option will increase the channel/talkgroup capacity on a Model 1 and Model 1.5 from 96 to 1000. Zone Up/Zone Down, Zone Bank Up/Zone Bank Down will be unlocked with this option.	QA01768	481	\$75.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order	QA09001	579	\$300.00

	Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.			
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: ADAPTIVE NOISE SUPPRESSION	Adaptive Noise Suppression is available on APX6000/XE and SRX2200 BN Models only. Adaptive Noise Suppression is not available on any APX6000Li models, or on APX6000/XE and SRX2200 AN Models.	QA09006	579	\$150.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001).	GA09011	681	\$100.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WIFI QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00

System Key Software (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is	QA01648AA	0655	\$5.00

	entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.

Software and Services

Wi-Fi

APX 6000XE supports Wi-Fi 802.11 b/g/n with WPA2/WPA (PSK), and WEP security protocols. Wi-Fi can be used with the Radio Management SW in order to do codeplug updates, firmware refreshes, and FLASHport upgrades over a Wireless Network (WLAN). The radio will only connect to available Wi-Fi networks which have been pre-provisioned in the radio codeplug via

CPS. The radio can be pre-provisioned with up to 20 SSIDs.

The Wi-Fi feature requires ordering option QA09001. The Wi-Fi feature is also available aftermarket as a FLASHport upgrade if not ordered out of the factory.

Radio Management (RM) is required in order to take advantage of the Wi-Fi capabilities on APX 6000XE.

Out of the Box WiFi Provisioning

If a radio is ordered the Wi-Fi option (QA09001) and the customer wishes to provision the radios out of the box using Wi-Fi, the radio must also be ordered with the Out of the Box Wi-Fi Provisioning option (QA09007).

A radio ordered with the Wi-Fi option and the Out of the Box Provisioning over Wi-Fi option will come with the following default codeplug configuration relative to Wi-Fi:

- a. Wi-Fi will be enabled.
- b. There will be one pre-configured network with the Network SSID set to “MyNetwork” and security type will be set to “None”.
- c. The default state of Wi-Fi will be “on”.

A Wi-Fi router is required for connecting the Wi-Fi capable radio to the Device Programmer. The Wi-Fi router is to be procured by the agency programming the radios and must be provisioned with the Network SSID set to “MyNetwork” (case sensitive) with no password enabled.

For more details regarding the Out of the Box Wi-Fi Provisioning process, please refer to the [Out of the Box Wi-Fi Provisioning Leaflet](#)

Bluetooth 4.0 & Emergency Find Me

With Bluetooth 4.0 wireless technology and our APX™ Mission Critical Wireless portfolio, users can now connect a variety of Bluetooth audio accessories and data devices with their APX™ radio.

Bluetooth 4.0 also enables Emergency Find Me, a feature providing personnel with an added level of security by improving response time in emergencies. Once an emergency is activated on the APX 6000XE, a Bluetooth beacon signals other Bluetooth-enabled APX radios within range. Based on bluetooth signal strength, nearby APX radios will receive an emergency alert via intelligent lighting and a text message with users Radio ID along with signal strength status (excellent, poor, fair) to determine proximity, and will guide the nearest personnel to the user in distress.

ASTRO® Digital APX 6000
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 6000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- **Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle**
- **Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied**
- **Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have**

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management ECAT page](#).

Ordering Requirements

1. **Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T7659, T7660, T7663, T7664, T7665)
2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.
3. Select the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1. Maximum qty of software upgrades is 500 per line item.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and EXISTING FLASHcode.
7. FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

ASTRO® Digital APX 6500
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Updates

Effective April 24th, 2020: The APX 6500 has evolved to support newer technologies like Wi-Fi, and SmartConnect. **FLASHport for the BN models will be available in Q3 2020.**

Effective August 26, 2019: Multi-System OTAR (GA01620) is available. Users who frequently move from one secure system to another will benefit from the ease and speed that radio keys are shared and updated. Our Multi-System Over-the-Air Rekeying (Multi-System OTAR) feature supports over-the-air-rekeying with up to 19 different secure systems, key sharing across profiles and seamless migration of fielded radios. The customer must order OTAR W/ MULTIKEY as a prerequisite for MS-OTAR.

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 6500 radios in the field. FLASHport® upgrade kits contain upgrade software, USB Dongle or software license and upgrade

documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. **For more information on Radio Management please refer to the [ASTRO Radio Management](#) page.**

Ordering Requirements

1. **Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T7694, T7695, T7696, T7697, T7698)
2. If you choose to use Radio Management to perform the upgrade enter the online delivery method (UA0083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle
3. **Select** the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If upgrading to a new System Enhancement Software Package, you must use the column which represents that new System Enhancement Software Package to determine price and availability of System Enhancement Options. If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1. Maximum qty of upgrades is 500 for each line item.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

ASTRO® Digital APX 6500 Mobile Subscriber
700/800 MHz (10 – 35 Watts)
VHF - 136 -174 (10-50, 25 - 100 Watts)
UHFR1 - 380-470 (10-40, 25 -110 Watts)
UHF R2 450-520 (10-45 Watts)

Secure and Trunked Radio Systems

Ordering Information

Features

Standard Features

- Up to 870 Channels
- Available in Single-Band Operation
- Trunking Standards supported:

Clear or digital encrypted ASTRO® 25 Trunked Operation
Capable of SmartZone®, SmartZone Omnilink, SmartNet®

- Analog MDC-1200 and Digital APCO P25 Conventional System Configurations
- Narrow and wide bandwidth digital receiver
(6.25kHz/12.5kHz/25kHz)
- Embedded digital signaling (ASTRO and ASTRO 25)
- Integrated GPS capable*
- Intelligent lighting
- Radio profiles
- Unified Call List
- Meets applicable MIL-specs 810C, D, E, F and G

- Ships standard IP54
- Utilizes Windows XP and Vista Customer Programming Software (CPS)
- Supports USB Communications
- Built in FLASHport™ support
- Re-use of most XTL™ accessories
- Standard ADP
- Voice Announcements

**Features is dependant on a specific ordered option (GA00229).*

Optional Features

- Enhanced Encryption Capability
- Programming over Project 25 (POP25)
- Text Messaging
- Over the Air Re-Key (OTAR)
- Tactical Over the Air Re-Key (OTAR)
- Radio Trace
- Trunked One Touch Button
- Radio Authentication
- 12 character RF ID asset tracking

FLASHport®

All ASTRO Digital APX 6500 Mobiles are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent upon remaining within the current RF capabilities of the radio)

******NOTE: The APX 6500 digital radios require either a SOFTWARE KEY (QA01749) OR HARDWARE KEY (QA01648) to be ordered to operate/program on a trunking system. IF QA01648- HARDWARE KEY is ORDERED, SUPPLEMENTAL DATA is required to be entered. Also, an Advanced System Keys (ASK- DVN4046) will be required to be ordered. ******

******NOTE: The APX 6500 digital radios require Advanced System Keys (ASK) to be configured to operate/program on a trunking system.**

ALL ITEMS REQUIRE AN EXPORT LICENSE TO BE EXPORTED FROM THE UNITED STATES/CANADA

General Information

Operating Modes

ASTRO Digital APX 6500 Radio Models are capable of operating in four different voice communication modes:

- 3.6KB ASTRO Digital (both clear and coded voice)
- 9.6 KB ASTRO 25 Digital (both Clear and Coded voice)
- 9.6KB 12.5kHz 2 slot digital TDMA (both clear and coded voice).
 - Will be capable of APCO25 Phase 2 functionality in future software releases.
 - Normal Analog (clear voice)

TDMA

FDMA (Frequency Division Multiple Access) is a proven technology that is widely used today in radio systems and is part of APCO 25 Project 25 Phase 1 standard. FDMA carries one call per channel. TDMA (Time Division Multiple Access) will be part of P25 Phase 2 standard and provides double the voice capacity as 2 calls can share 1 channel. Customers can add more users to their systems without the need of additional frequencies or infrastructure. The APX radios support both P25 Phase 1 and TDMA technologies seamlessly. Using Motorola's unique Dynamic Dual Mode (DDM) capability, the radios dynamically switch between FDMA and TDMA without the user having to change channels. This provides interoperability on demand with existing and future networks.

FLASHport AFTERMARKET UPGRADES

The ASTRO Digital APX 6500 Mobile Series Radios are part of the FLASHport Program. This means that ASTRO Digital APX 6500 hardware models can be loaded with different software packages that provide the features and functionalities that our customers require.

System Enhancement Options can be loaded at the time of radio purchase or at a later date through the use of software field upgrades (a USB cable is required for all software upgrades.) The ASTRO Digital APX 6500 Mobile can be upgraded electronically in the field with new features in the current system or to new systems operation (contingent upon remaining within the same RF sub-band) by ordering upgrade kits.

Ordering Requirements

Here is an example of a Mid Power APCO P25 Trunking Equipped Radio (Dash Mount w/ O5 control head)

1	M25URS9PW1 N	ASTRO APX 6500 SINGLE BAND 7/800	Comments
1A	G806	SOFTWARE ASTRO DIGITAL CAI OPERATION	Select Operation Mode
1B	G51	SMARTZONE OPERATION	Select System Enhancement Software
1C	G361	ASTRO PROJECT 25 TRUNKING SOFTWARE	Select an Optional System Enhancement Software
1D	QA01749	ADVANCED SYSTEM KEY - SOFTWARE	Select and Advanced System Key Option
1E	G442	O5 CONTROL HEAD	Select Control Head Hardware
1F	G444	CONTROL HEAD SOFTWARE	Select Control Head Software

1G	G66	DASH MOUNT	Select Mounting Type
1H	G174	ANTENNA 3DB LOW-PROFILE 764-870MHZ	Select Antenna
1I	W22	PALM MICROPHONE	Select Microphone
1J	B18	AUXILARY SPKR SPECTRA 7.5 WATT	Select Speaker

Order the APX 6500 Mobile Series as the main line item.

- You must choose an Operation Mode
- You must choose an System Enhancement Software package
- You must choose an Advanced System Key option if Smartzone Operation is selected.
- A control head must be selected or no control head needed must be selected.
- Control Head Software must be selected
- All Mid Power radios must choose mounting type. High Power radios include a quick release remote mount trunion.
- A antenna selection is required for all radios. G89, no antenna needed, is a valid antenna selection.
- You must choose a microphone selection. G90, no microphone needed, is a valid microphone selection.
- You must choose a speaker selection. G142, no speaker needed, is a valid speaker selection.
- Note - APX Radios ship with 12 month standard warranty.

CHANNEL SPACING

There are no maximum frequency separation conditions that must be adhered to on the APX 6500 Mobile series. Separation of frequencies can be as wide as the allowable band per radio model with no degradation of any performance specifications. If an incorrect antenna is used, degraded performance may be experienced.

PROJECT 25 ENCRYPTION

The mode of operation is programmed on a channel-by-channel basis. With the coded/clear switch set to the clear mode, the ASTRO Digital APX6500 radio is capable of transmitting clear analog voice or clear (unencrypted) ASTRO Digital voice, depending on the channel programming. With the coded/clear switch set to the coded mode, the ASTRO Digital APX 6500 radio will transmit ASTRO Digital encryption depending on the channel programming. ASTRO Digital encryption provides secure communications. ASTRO Digital Encryption (operation in encrypted mode while also operation in 3.6KB or 9.6KB and TDMA ASTRO mode) is capable of XL type encryptions; ASTRO Digital Encryptions does not operate with non-XL encryptions.

An encryption option is not required for either clear analog operation or clear ASTRO Digital operation. ASTRO Digital APX 6500 radio functions include selected ASTRO digital signaling and digital speech coding.

When ordering any of the Encryption Algorithms:

- The DES-OFB and AES encryption algorithms offered are compliant with digital Project 25 standards and does not support analog encryption operation.
- **Requires** the ASTRO Digital CAI (G806) to operate the DES-OFB and AES encryption.

If ordering a Dual Encryption:

- The non-OFB encryption (XL versions) can be operated in either analog, or CAI digital mode, but will not be Project 25 compliant.
- **Requires** the Multikey (W969).

When used in CAI mode, the non-OFB Encryption will not be Project 25 compliant.

- Encryption Algorithms can be ordered later via Flash Port.

FIPS 140-2 Compliance

Encryption Modules equipped with AES are FIPS 140-2 compliant. Details regarding the certification, and copies of the relevant certificates, can be obtained on the NIST website at: <http://csrc.nist.gov/groups/STM/cmvp/validation.html>.

Further information regarding FIPS 140-2 certification may be found using the following link - FIPS 140-2 Crypto Module Validation Program (CMVP) <http://csrc.nist.gov/groups/STM/cmvp/index.html>

ASTRO Text Messaging Service

ASTRO Text Messaging Service is available on the ASTRO 25 APX 6500 mobile radios with the O5 control head (single and dual-control head) and O3 control head. Text Messaging Service (TMS) allows subscriber users to send and receive text messages to other subscribers or dispatch operators. Users can select messages and addresses from a predefined list or enter freeform text messages and addresses via the keypad. Text

Messaging Service is available on ASTRO Trunked IV&D Systems and Subscribers.

For full Text Messaging functionality, including freeform text messaging and addressing, must order O3 Control Head or O5 Control Head with Keypad Microphone. O5 Control Head without the Keypad Microphone supports Limited Text Messaging functionality such as selecting predefined messages or addresses from a list programmed in the radio.

Ordering requirements for APX 6500 Mobile:

- Requires O5 Control Head (G442) or O3 Control Head (G72)
- Full functionality including free form messaging requires the Keypad Microphone (W20) for O5 Control Head
- ASTRO Digital CAI Operation (G806)
- SmartZone Operation (G51)
- ASTRO Project 25 Trunking 9600 Software (G361)
- Packet Data Interface (W947)

NOTE: There is no specific option to order for the Text Messaging Service on the subscribers as the functionality is included in the Packet Data option.

Outdoor Personnel Location Global Positioning Satellite (GPS) Feature

The personnel outdoor location tracking GPS feature enables a dispatcher the ability to locate on-foot patrols and out of the vehicle officers who are involved in life threatening situations. The radio user's GPS position information is sent over the ASTRO 25 Integrated Voice & Data (IV&D) network and is delivered to the dispatch operator using a third party mapping display application at the dispatch center (Mapping Application is not yet available through Motorola at this time, however an Application Developers Tool Kit is available for 3rd party vendors to use to modify existing applications. See link below for more details.) It is possible to the user to determine their own location (latitude/longitude) through the use of the location menu.

Ordering GPS for APX 6500 Mobile Requires:

- Enable Internal GPS Operation (GA00782)
- Packet Data Interface (W947)

NOTE:

The GPS feature uses radio signals from earth orbiting satellites, to establish the location co-ordinates maximizing your view of clear. Unobstructed sky is essential for optimum performance. When adequate signals from multiple satellites are not available, (usually because you cannot establish a wide area view of the sky), the GPS feature WILL NOT WORK. Such situations include but are not limited to:

- Underground locations
- Inside of buildings, trains, or other covered vehicles
- Under any other metal or concrete roof or structure
- Between tall buildings or under dense tree-cover

VHF SELF-QUIETING SPURS

Frequencies (MHz)
168.000MHz

Note: There are no self-quieting spurs for 700/800 MHz.

CPS INFORMATION

****Please note that a NEW version of CPS (RVN5224) is required for initial customer orders for this product. This new version of CPS is required for the APX radio shipments. ****

ASTRO® Digital APX 6500Li
FLASHport® Aftermarket Upgrades

Updates

Effective April 24th, 2020: The APX 6500Li has evolved to support newer technologies like Wi-Fi. **FLASHport for the BN models will be available in Q3 2020.**

Effective August 26, 2019: Multi-System OTAR (GA01620) is available. Users who frequently move from one secure system to another will benefit from the ease and speed that radio keys are shared and updated. Our Multi-System Over-the-Air Rekeying (Multi-System OTAR) feature supports over-the-air-rekeying with up to 19 different secure systems, key sharing across profiles and seamless migration of fielded radios. The customer must order OTAR W/ MULTIKEY as a prerequisite for MS-OTAR.

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 6500 radios in the field. FLASHport® upgrade kits contain upgrade software, USB Dongle or software license and upgrade documentation

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management](#) page.

Ordering Requirements

1. **Specify** the current System Enhancement Software Package that represents the software in the radio as the main line item (T7894A, T7895A, T7896A, T7897A, T7899A)
2. If you choose to use Radio Management to perform the upgrade enter the online delivery method (UA0083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle
3. **Select** the desired Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1. Maximum qty of software upgrades is 500 per line item.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable. [CLICK HERE](#) for available cables

Motorola APX™ Single Band Consolelette
VHF(136 -174MHz), UHF R1(380-470MHz), UHF R2(450-512MHz), 700/800 MHz, AND 900 (896-902 MHz) (935-941 MHz)

Conventional, Secure and Trunked Radio Systems

FOR MULTI-BAND OPERATION PLEASE SEE APX ALL BAND CONSOLELETTE PCAT PAGE.

Updates

NEW 2/2020: With the release of the Motorola APX™ All Band Consolelette in June 2019, we are canceling all Single Band Consolelettes in June 2020 (with the exception of the Single Band 900MHz Consolelette). Please note that the Motorola APX™ All Band Consolelette can be ordered as a single band in any band except 900MHz.

The following list specifies the APX™ Single Band Consolelettes to be canceled in June 2020:

- L30KSS9PW1BN - VHF(136 -174MHz)
- L30QSS9PW1AN - UHF1 (380-470MHz)
- L30SSS9PW1AN - UHF2(450-512)
- L30URS9PW1AN - 700/800 MHz

DHS

Project 25 Compliance Assessment Program (CAP) has defined a "CAP Encryption Requirements compliant radio" as a radio that can be ordered without encryption or one that can be ordered with AES256. << [Click to learn more](#)>>

The SOFTWARE KEY (QA01749) is the default Advance System Key, it ships by default on all APX products; The HARDWARE KEY can be ordered instead by using QA01648. The DVN4046 Master Key Starter Kit is required for the Hard Key or to operate on a third-party Trunking system. The CORRECT System Owner ID will be required upon ordering the Hard Key or DVN Kit. Be sure to enter the CORRECT SYSTEM OWNER ID when supplemental data is required. If an INCORRECT ID is entered, a FLASHport order is required to fix the error.

Starting Q1 SER 2015, CPS will be available to purchase as either a Download-Only 3-Year Subscription (Part Number HKVN4289, \$299) or DVD/Download 3-Year Subscription (RVN5224, \$399). Order details below in CPS Information Section

W947 IV&D is no longer an orderable option it now comes by default on all APX mobiles

EXTENDED OPTION GA00469	<p>DESCRIPTION – This option enables Extended Dispatch functionality from a Console (e.g. MCC7500) via the Console when the Console is configured for <u>ACIM</u> control. The Extended Dispatch functions are only supported on <u>Conventional</u> channels.</p> <p>DECODE FUNCTIONALITY</p> <ul style="list-style-type: none"> · Emergency Alarm - A subscriber unit can send an emergency alarm over-the-air at any time. The Console will send any received Emergency Alarms to the Console. With the Extended Dispatch option the corresponding ACK from the Console is transmitted by the Console over-the-air back to the specified subscriber on Conventional channels only. · Status Update - A subscriber unit can send a status update over-the-air at any time. The Console will send any received Status Updates to the Console. With the Extended Dispatch option the corresponding ACK from the Console is transmitted by the Console over-the-air back to the specified subscriber on Conventional channels only. · Message Update - A subscriber unit can send a message update over-the-air at any time. The Console will send any received Message Updates to the Console. With the Extended Dispatch option the corresponding ACK from the Console is transmitted by the Console over-the-air back to the specified subscriber on Conventional channels only. 	
	<p>ENCODE FUNCTIONALITY</p> <ul style="list-style-type: none"> · Status Request - Allows the Console user the ability to remotely determine a specific subscriber's status via the Console on Conventional channels only. · Radio Enable/Disable - Allows the Console user the ability to make unusable (Inhibit) a specific subscriber and correspondingly restore a unit to normal operation (Un-Inhibit) via the Console on Conventional channels only. · Radio Check - Allows the Console user the ability to remotely ping a specific subscriber via the Console on Conventional channels only. · Remote Monitor - Allows the Console user the ability to remotely put a specific subscriber into transmit mode via the Console on Conventional channels only. · Emergency Alarm ACK - The corresponding ACK from the Console is transmitted by the Console over-the-air back to the specified subscriber on Conventional channels only. <p>NOTE: CALL ALERT ENCODE – The Console is able to encode outbound Call Alerts from the Console (via ACIM) on both Conventional and P25 Trunking channels. The Extended Dispatch option is <u>NOT</u> required for Call Alert Encode.</p>	√

Standard Transceiver APX™ Mobile Features

Up to 1250 Channels	
Trunking Standards supported: Clear or digital encrypted ASTRO® 25 Trunked Operation, Capable of SmartZone®, SmartZone Omnilink, SmartNet®	Narrow and wide bandwidth digital receiver: (6.25kHz/12.5kHz/25kHz)
Analog MDC-1200 and Digital APCO P25 Conventional System Configurations	Embedded digital signaling (ASTRO and ASTRO 25)
Seamless wideband scan	Intelligent lighting on Full Feature Front Panel with 05 Control Head Display.
Radio profiles	Unified Call List
Utilizes Windows XP and Vista Customer Programming Software (CPS)	Supports USB Communications
Built in FLASHport™ support	Standard Advanced Digital Privacy
Voice Announcements	

Optional Features

- Enhanced Encryption Capability
- Programming over Project 25 (POP25)
- Text Messaging
- Over the Air Re-Key (OTAR)

FLASHport®

All ASTRO Digital APX™ Consolette are part of the FLASHport® program and ship standard with a FLASH EE Prom, which allows for feature and system upgrades (contingent upon remaining within the current RF capabilities of the radio)

General Information

Operating Modes

- Normal Analog (clear voice)
- 3.6KB ASTRO Digital (both clear and coded voice)
- 9.6 KB ASTRO 25 Digital (both clear and coded voice)
- 9.6KB 12.5kHz 2 slot digital TDMA (both clear and coded voice).
• Will be capable of APCO25 Phase 2 functionality in future software releases.

TDMA

FDMA (Frequency Division Multiple Access) is a proven technology that is widely used today in radio systems and is part of APCO 25 Project 25 Phase 1 standard. FDMA carries one call per channel. TDMA (Time Division Multiple Access) will be part of P25 Phase 2 standard and provides double the voice capacity as 2 calls can share 1 channel. Customers can add more users to their systems without the need of additional frequencies or infrastructure. The APX radios support both P25 Phase 1 and TDMA technologies seamlessly. Using Motorola's unique Dynamic Dual Mode (DDM) capability, the radios dynamically switch between FDMA and TDMA without the user having to change channels. This provides interoperability on demand with existing and future networks.

FLASHport AFTERMARKET UPGRADES

The ASTRO Digital APX Console Series Radios are part of the FLASHport Program. This means that ASTRO Digital APX Console hardware models can be loaded with different software packages that provide the features and functionalities that our customers require.

System Enhancement Options can be loaded at the time of radio purchase or at a later date through the use of software field upgrades (a USB cable is required for all software upgrades.) The ASTRO Digital APX Console can be upgraded electronically in the field with new features in the current system or to new systems operation (contingent upon remaining within the same RF sub-band) by ordering upgrade kits.

CHANNEL SPACING

There are no maximum frequency separation conditions that must be adhered to on the APX Console series. Separation of frequencies can be as wide as the allowable band per radio model with no degradation of any performance specifications. If an incorrect antenna is used, degraded performance may be experienced.

PROJECT 25 ENCRYPTION

The mode of operation is programmed on a channel-by-channel basis. With the coded/clear switch set to the clear mode, the ASTRO Digital is capable of transmitting clear analog voice or clear (unencrypted) ASTRO Digital voice, depending on the channel programming. With the coded/clear switch set to the coded mode, the ASTRO Digital will transmit ASTRO Digital encryption depending on the channel programming. ASTRO Digital encryption provides secure

communications. ASTRO Digital Encryption (operation in encrypted mode while also operation in 3.6KB or 9.6KB and TDMA ASTRO mode) is capable of XL type encryptions; ASTRO Digital Encryptions does not operate with non-XL encryptions.

An encryption option is not required for either clear analog operation or clear ASTRO Digital operation. Encryption can be ordered with the ASTRO Digital either as a factory installed option or separate from the radio for later field installation. ASTRO Digital functions include selected ASTRO digital signaling and digital speech coding.

When ordering any of the Encryption Algorithms:

- The DES-OFB and AES encryption algorithms offered are compliant with digital Project 25 standards and does not support analog encryption operation.
- **Requires** the ASTRO Digital CAI (G806) to operate the DES-OFB and AES encryption.

If ordering a Dual Encryption:

- The non-OFB encryption (XL versions) can be operated in either analog, or CAI digital mode, but will not be Project 25 compliant.
- **Requires** the Multikey (W969).

When used in CAI mode, the non-OFB Encryption will not be Project 25 compliant.

- Encryption Algorithms can be ordered later via Flash Port.

FIPS 140-2 Compliance

Encryption Modules equipped with AES are FIPS 140-2 compliant. Details regarding the certification, and copies of the relevant certificates, can be obtained on the NIST website at: <http://csrc.nist.gov/groups/STM/cmvp/validation.html>.

Further information regarding FIPS 140-2 certification may be found using the following link - FIPS 140-2 Crypto Module Validation Program (CMVP) <http://csrc.nist.gov/groups/STM/cmvp/index.html>

ASTRO Text Messaging Service

ASTRO Text Messaging Service is available on the ASTRO 25 APX Console radio with the Full Front Panel O5 Keypad/Clock/WU. Text Messaging Service (TMS) allows subscriber users to send and receive text messages to other subscribers or dispatch operators. Users can select messages and addresses from a predefined list or enter freeform text messages and addresses via the keypad. Text Messaging Service is available on ASTRO Trunked IV&D Systems and Subscribers.

Ordering requirements for APX Console:

- Requires Option L999 Full Feature O5 Control Head Front Panel. Full functionality including free form messaging.
- ASTRO Digital CAI Operation (G806)
- SmartZone Operation (G51)
- ASTRO Project 25 Trunking 9600 Software (G361)

NOTE: There is no specific option to order for the Text Messaging Service on the subscribers as the functionality is included in the Packet Data option.

Software and Services

CPS (Customer Programing Software) Informaton

CPS 3-Year Subscription Update

Starting Q1 SER 2015, in addition to the traditional 3 Year DVD CPS software subscription (RVN5224 - List \$399), we will offer a download-only 3 Year CPS software subscription (HKVN4289A, - List \$299) which will provide access to CPS software through your Motorola Online account. Only one subscription per MOL account is needed. The original price of \$375 for RVN5224 will increase to \$399 on July 1, 2015.

How to order DVD CPS Subscription (RVN5224) through COF:

1. Sign and return the Software License Agreement
2. Order the software part number (RNN5224)
3. New releases on disk will be automatically sent for a three-year period.

How to order Download-Only CPS Subscription (HKVN4289A) through MOL:

1. Call [1-800-422-4210](tel:1-800-422-4210), option 4 (MOL Support Team) to request an MOL account or to add a CPS subscription to an existing account.
2. Sign and return the Software License Agreement through MOL
3. Order HKVN4289A
4. Provide a valid email address; as the 3 year subscription period ends subscription renewal reminders will be sent to this email address.

CPS downloads are only available for North America; downloadable CPS for all other regions is currently in development.

ASTRO® Digital APX 7500
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 7500 radios in the field. FLASHport® upgrade kits contain upgrade software, USB Dongle or software license and upgrade documentation

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management ECAT](#) page.

Ordering Requirement

1. **Specify** the *current* System Enhancement Software Package that represents the software in the radio as the main line item (T7558, T7559, T7560, T7561, T7562, T7563, T7656)
2. If you choose to use Radio Management to perform the upgrade enter the online delivery method (UA0083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle
3. **Select** the *desired* Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.
4. **IMPORTANT:** If upgrading to a new System Enhancement Software Package, you must use the column which represents that new System Enhancement Software Package to determine price and availability of System Enhancement Options. If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.
5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.
6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.
7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

Dual Band Operation GA00579	X	X	X	X	X	X	X	X	
ENH: Enable Internal GPS Operation QA00782	N/A	X	N/A	N/A	N/A	N/A	N/A	X	
ENCRYPTION ENHANCEMENT OPTIONS									
(List as sub items)									
ADD: Multikey Operation W969	X	X	X	X	X	X	X	X	

Note 1: For feature details, see System Enhancement Software Packages Section under the General Information on the APX 7500 price page.

A Universal Serial Bus (USB) cable is required to "FLASH" FLASHport® software into the ASTRO®: Digital APX 7500 radios.

Software Prices **BELOW DO NOT** include field programming.

ASTRO® Digital APX 7500
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems

Updates

Effective August 26, 2019: Multi-System OTAR (GA01620) is available. Users who frequently move from one secure system to another will benefit from the ease and speed that radio keys are shared and updated. Our Multi-System Over-the-Air Rekeying (Multi-System OTAR) feature supports over-the-air-rekeying with up to 19 different secure systems, key sharing across profiles and seamless migration of fielded radios. The customer must order OTAR W/ MULTIKEY as a prerequisite for MS-OTAR.

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 7500 radios in the field. FLASHport® upgrade kits contain upgrade software, USB Dongle or software license and upgrade documentation

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle

- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios. For more information on Radio Management please refer to the [ASTRO Radio Management ECAT page](#).

Ordering Requirement

1. **Specify** the *current* System Enhancement Software Package that represents the software in the radio as the main line item (T7558, T7559, T7560, T7561, T7562, T7563, T7656)
2. If you choose to use Radio Management to perform the upgrade enter the online delivery method (UA0083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle

APX™ 8000 P25 All-Band Portable Radio

700/800 MHz

VHF

UHF R1 & UHF R2

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

Effective September, 2018: The APX 8000 models, when ordered with battery options PMNN4504 or PMNN4505 are listed by UL to non-incendive standards: ISA 12.12.01-2015 and CAN/CSA C22.2 No. 213-15 as safe for use in Class I, Division 2, Groups A,B,C,D; Class II, Division 2, Groups F,G; Class III, Division 2 Hazardous (Classified) Locations. Non-Incendive (Non Incendiaire).

The APX 8000 models must be ordered with either QA05594, QA05595, QA07571 or QA07573 alternative battery options in order to be certified by UL for "Div 2."

Ordering Information

Ordering Guide

Standard Features

All ASTRO Digital APX 8000 models include the following features:

- All-Band Capability (UHF, VHF, 7/800)
- Adaptive Audio Engine
- GPS Software & Hardware (QA00782)
- Mission Critical Wireless Bluetooth® 4.0 (LE) (QA00583)
- ADP Privacy - Single Key
- Radio Packet Data (Q947)
- Software Key (QA01749)
- One Touch/Status Message (H46)
- Radio Trace/Remote Monitor (H43)
- Enhanced Zone Bank (QA01768)

System Enhancement Options (Optional)

--	--	--	--	--

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$100.00
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$450.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	655	\$100.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$200.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Now requires a pin # not a dongle.	Q53	655	\$150.00

ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	-	Q52	655	\$150.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$150.00
ADD: MANDOWN OPERATION	-	QA01843	655	\$150.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
ENH: TACTICAL RADIO STW-	Tactical Stun Kill Requires AES, Not compatible with	H02	481	\$75.00

STUN/KILL	DVR MSU QA00631.			
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$300.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires QA09001 (WiFi)	GA09011	681	\$100.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WIFI QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00

System Key Software (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is	QA01648AA	0655	\$5.00

	entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.			
--	--	--	--	--

Algorithm Types(Optional)

All APX 8000 Radios ship P25 “clear” (QA05751 will internally generate) unless an encryption option is ordered.

AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM.

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION	Multikey is required for use of more than one key. Includes ADP. To be P25 CAP Compliant, must be ordered with AES.	H797	655	\$487.00
ENH: DES,DES-XL,DES-OFB ENCRYPTION	Multikey is required for use of more than one key. Non-P25 CAP Compliant option.	Q625	655	\$599.00
ENH: AES ENCRYPTION	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	655	\$475.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	NOT compatible with Q629 or Q625. Must order multikey if you want to use both algorithms.	Q15AJ	0655	\$799.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00

Multikey Types (Optional)

Description	Full Description	Nomenclature	APC	Price

ENH: MULTIKEY	Required when using more than one encryption algorithm or encryption key	H869	655	\$330.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Includes Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	655	\$740.00
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$150.00

Software and Services

Special Note for United States - State & Local Markets Only

In accordance with FCC mandate, the APX 8000XE all band radio is restricted to 12.5 KHz operation only and does NOT support 25 KHz in the VHF and UHF Bands (excluding T-Band). This applies to customers under Rule Part 90. Customers with FCC waivers can contact their Business Development Representative.

DHS Project 25 Compliance Assessment Program (CAP) has defined a "CAP

Encryption Requirements compliant radio" as a radio that can be ordered without encryption or one that can be ordered with AES256. << [Click to learn more](#)>>

WI-FI

APX 8000 supports Wi-Fi 802.11 b/g/n with WPA2/WPA (PSK), and WEP security protocols. Wi-Fi can be used with the Radio Management SW in order to do codeplug updates, firmware refreshes, and FLASHport upgrades over a Wireless Network (WLAN). The radio will only connect to available Wi-Fi networks which have been pre-provisioned in the radio codeplug via CPS. The radio can be pre-provisioned with up to 20 SSIDs.

The Wi-Fi feature requires ordering option QA09001. The Wi-Fi feature is also available aftermarket as a FLASHport upgrade if not ordered out of the factory.

Radio Management (RM) is required in order to take advantage of the Wi-Fi capabilities on APX 8000.

OUT OF THE BOX WI-FI PROVISIONING

If a radio is ordered the Wi-Fi option (QA09001) and the customer wishes to provision the radios out of the box using Wi-Fi, the radio must also be ordered with the Out of the Box Wi-Fi Provisioning option (QA09007).

A radio ordered with the Wi-Fi option and the Out of the Box Provisioning over Wi-Fi option will come with the following default codeplug configuration relative to Wi-Fi:

- a. Wi-Fi will be enabled.
- b. There will be one pre-configured network with the Network SSID set to "MyNetwork" and security type will be set to "None".
- c. The default state of Wi-Fi will be "on".

A Wi-Fi router is required for connecting the Wi-Fi capable radio to the Device Programmer. The Wi-Fi router is to be procured by the agency programming the radios and must be provisioned with the Network SSID set to "MyNetwork" (case sensitive) with no password enabled.

For more details regarding the Out of the Box Wi-Fi Provisioning process, please refer to the [Out of the Box Wi-Fi Provisioning Leaflet](#).

Bluetooth 4.0 & Emergency Find Me

With Bluetooth 4.0 wireless technology and our APX™ Mission Critical Wireless portfolio, users can now connect a variety of Bluetooth audio accessories and data devices with their APX™ radio.

Bluetooth 4.0 also enables Emergency Find Me, a feature providing personnel with an added level of security by improving response time in emergencies. Once an emergency is activated on the APX 8000, a Bluetooth beacon signals other Bluetooth-enabled APX radios within range. Based on bluetooth signal strength, nearby APX radios will receive an emergency alert via intelligent lighting and a text message with users Radio ID along with signal strength status (excellent, poor, fair) to determine proximity, and will guide the nearest personnel to the user in distress.

FLASHPORT AFTERMARKET UPGRADES

The APX 8000 P25 Portable Radios are part of the FLASHport Program. This means that APX 8000 hardware models can be loaded with different software packages that provide the features and functionalities that our customers require.

System Enhancement Options can be loaded at the time of radio purchase or at a later date through the use of software field upgrades. The APX 8000 portable can be upgraded electronically in the field with new features in the current system or to new systems operation by ordering upgrade kits.

FLASHport upgrades are supported via Wi-Fi using Radio Management (RM) on APX 8000.

2-WAY RADIO ACCESSORIES
For APX 8000 Radios

Updates

NOTE: only the accessories listed below have been certified with APX 8000 radios

Ordering Information

General Information

The APX P25 mission critical two-way radio series redefines safety in portable communication. From the fire line to the factory line, APX puts the right devices into the hands of the right user. Every feature and function is designed with its users in mind - from the rugged, easy to operate design to the loudest, clearest audio. The result is the ability to keep your people and community safer than ever before.

Extend the power and reliability of your radio with the only complete line of accessories designed, tested and certified for optimal performance with APX portables. This flexible portfolio offers solutions that meet your customers' specific needs. This includes a robust and complete portfolio of remote speaker microphones including the XE Remote Speaker Microphone which has been designed specifically for harsh conditions for the fireground. And the APX Mission Critical Wireless portfolio delivers best-in-class Bluetooth® wireless designed specifically for first responders. While our IMPRES smart battery and charger solutions ensure your responders have a battery that is ready to go at the moment they need it.

Every Motorola battery, charger, audio accessory, carry case and antenna is best-in-class technology, designed and optimized specifically for your APX portable.

**ASTRO® Digital APX 8000/XE
FLASHport® Aftermarket Upgrades
Secure and Trunked Radio Systems**

Ordering Information

General Information

FLASHport® Aftermarket Software is used to upgrade to the latest version of your System Enhancement Software Package to upgrade to a different System Enhancement Software Package or to order enhancements for existing for existing ASTRO® Digital APX 8000 radios in the field. FLASHport® upgrade kits contain upgrade software, FLASHkey, and upgrade documentation.

There is a new way to upgrade radios in the field. The current method, which makes use of the FLASHport USB dongle, will be supported, but for those looking for a more convenient way, the new online method supported in Radio Management (RM) offers the following advantages:

- Reduce wait time by retrieving the order electronically, rather than via the FLASHport USB dongle
- Work more efficiently by using RM to automatically filter for those radios to which the upgrade order can be applied
- Work in parallel because you are no longer limited by the number of physical FLASHort USB dongles you have

NOTE: Radio Management must be deployed to manage your fleet of APX radios before you can use the online FLASHport method in Radio Management to upgrade radios.

Ordering Requirements

1. **Specify** the *current* System Enhancement Software Package that represents the software in the radio as the main line item (T8549, T8550, T8553, T8554, T8627)

2. If you choose to use Radio Management to perform the upgrade, enter the online delivery method (UA00083AA) as a sub-item, quantity of 1 only. No selection is needed if using the traditional USB dongle.

3. **Select** the *desired* Operational Mode, System Enhancement Software Package, and/or System Enhancement Options and enter as sub-items.

4. **IMPORTANT:** If you are remaining at the same System Enhancement Software Package, use the column of the current System Enhancement Software Package to determine price and availability of System Enhancement Options.

5. **ALL** sub-items must have the same quantity listed (which equals the number of radios being upgraded) even though the main line is ALWAYS 1.

6. Radio Model number and **EXISTING** FLASHcode must be entered into designated COF fields. A separate line item must be entered for each different combination of Radio model and **EXISTING** FLASHcode.

7. "FLASH upgrades are not discountable"

NOTE: The FLASHcode can be read by using a USB cable.

Note 1: For feature details, see System Enhancement Software Packages Section under the General Information on the APX 8000/XE price pages.

A Universal Serial Bus (USB) cable is required to "FLASH" FLASHport® software into the ASTRO® Digital APX 8000/XE radios.

Software Prices **BELOW DO NOT** include field programming.

FCC Information

ALL MODELS ON THIS PAGE REQUIRE AN EXPORT LICENSE TO BE EXPORTED FROM THE US/CANADA

Canada personnel refer to Section A under CANADA ONLY information.

ASTRO® DIGITAL APX 8000 and ASTRO® DIGITAL APX 8000XE price pages are accessible through the select list pulldown above.

APX™ 8000H P25 All-Band Portable Radio

700/800 MHz

VHF

UHF R1 & UHF R2

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

HAZARDOUS LOCATION

The APX 8000H will ship standard with PMNN4547. The APX 8000H is certified by Underwriters' Laboratory when properly equipped with the standard battery, PMNN4547. There is no option to delete this battery on this model.

When equipped with Motorola Battery PMNN4547, the APX 8000H models are certified as intrinsically safe for use in ANSI/TIA 4950-A ; Classification Rating Class I, Division 1, Groups C, D; Class II, Division 1, Group E, F, G; Class III, Hazardous (Classified) Locations. ANSI/ISA 12.12.01-2015 and CAN/CSA C22.2 No.213-15; Class I, Division 2, Groups A, B,

C, D; T3C. Tamb = -25° C to +60° T3C.

Canada Customers: When equipped with Motorola Battery PMNN4547, the APX 8000H models are certified as intrinsically safe for use in CAN/CSA C22.2 NO. 157-92; Classification Rating Class I, Division 1, Group D; Class II, Division 1, Group E, F, G; Class III, Hazardous (Classified) Locations. ANSI/ISA 12.12.01-2015 and CAN/CSA C22.2 No.213-15; Class I, Division 2, Groups A, B, C, D; T3C. Tamb = -25° C to +60° T3C.

Special Note for United States - State & Local Markets Only

In accordance with FCC mandate, the APX 8000H all band radio is restricted to 12.5 KHz operation only and does NOT support 25 KHz in the VHF and UHF Bands (excluding T-Band). This applies to customers under Rule Part 90. Customers with FCC waivers can contact their Business Development Representative.

DHS Project 25 Compliance Assessment Program (CAP) has defined a "CAP Encryption Requirements compliant radio" as a radio that can be ordered without encryption or one that can be ordered with AES256. << [Click to learn more](#)>>

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$100.00
	Requires Q806, H38,			

ADD: TDMA OPERATION	Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$450.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	655	\$100.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$200.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Requires FPP HW dongle (NNTN7526A)to be purchased.	Q53	655	\$150.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	-	Q52	655	\$150.00
ADD: SITE SELECTABLE	-	QA00982	656	\$150.00

ALERT FOR P25 TRUNKING				
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$150.00
ADD: MANDOWN OPERATION	-	QA01843	655	\$150.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
ENH: TACTICAL RADIO STW-STUN/KILL	Tactical Stun Kill is not compatible with DVRs QA00631.	H02	481	\$75.00
	Enables Wi-Fi capability in the radio. Supports codeplug updates,			

ADD: WIFI CAPABILITY	firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$300.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001).	GA09011	681	\$100.00

System Key Software (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: HW KEY SUPPLEMENTAL DATA	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648AA	0655	\$5.00

Algorithm Types(Optional)

All APX 8000 Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered.

AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM.

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION	Compatible with Digital and Analog (25kHz Only) operations. ADP Privacy ships standard with Single Key. Multikey is required for multiple algorithms, such as ADP/AES or ADP/DES. Non-P25 CAP Compliant option.	H797	655	\$487.00
ENH: DES,DES-XL,DES-OFB ENCRYPTION	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.(Analog 25 khz) / DES-OFB (Digital 12.5 khz Only)	Q625	655	\$599.00
ENH: AES ENCRYPTION	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	655	\$475.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP	Q15AJ	0655	\$799.00

Multikey Types (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: MULTIKEY	-	H869	655	\$330.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Includes Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	655	\$740.00
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$150.00

Antenna (Optional)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD ANTENNA	Deletes the standard all-band (7/8/V/U) antenna (KT000026A01)	H112	579	(\$10.00)

Battery (Optional- Can Only Select One)**HAZLOC Approved**

Description	Full Description	Nomenclature	APC	Price
ALT: TIA4950 BATT IMPRES 2 LIION 4600MAH	This option will delete the standard battery and replace it with TIA4950 BATT IMPRES 2 LIION 4600MAH (PMNN4573A)	QA07739	673	\$75.00
ADD: BATT IMPRES 2 LIION TIA4950 IP68	Requires H499 This option will delete the standard battery and replace it with TIA4950 BATT IMPRES 2 LIION 4600MAH (PMNN4573A)	QA07576	673	\$165.00

Cable (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	PMKN4012B- Used to program the radio with Customer Programming Software and Tuner Software. PMKN4013C - Used to program and service the radio with Customer Programming Software and Tuner Software. Compatible on ALL APX Portable Radios	Q157	655	\$75.00

Belt Clips (Optional-Can Only Select One)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE BELT CLIP/BASIC CARRY HOLDER	This option deletes the standard carry holder, PMLN7901.	H301	655	(\$10.00)

Packaging (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: SINGLE UNIT PACKING	-	H842	481	\$0.00

Service Options (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ADD: 3Y ESSENTIAL SERVICE	-	Q58	185	\$110.00
ADD: 3Y ESSENTIAL ACCIDENTAL DAMAGE	-	HA00022AC	185	\$284.00
ADD: 5Y ESSENTIAL SERVICE	-	Q887	185	\$206.00
ADD: 5Y ESSENTIAL ACCIDENTAL DAMAGE	-	HA00025AH	185	\$437.00
ADD: 3Y ESSENTIAL SVC CANADA	Upgrades the standard warranty period to a full three (3) years of hardware service coverage on the internal components of your radio equipment. Repairs will be made only at Motorola authorized service centers. No discounts are allowed on this option.	HA00048	386	\$162.00
ADD: 5Y ESSENTIAL SVC CANADA	Upgrades the standard warranty period to a full five (5) years of hardware service coverage on the internal components of your radio equipment. Repairs will be made only at Motorola authorized service centers. No discounts are allowed on this option.	HA00049	185	\$222.00

Documentation (Optional)

Online copies of User Guides can be found in the Resources Tab

Description	Full Description	Nomenclature	APC	Price
ADD: DATA LINK MANAGER APP CD- PORTABLES	Option provides the NVN5424 Data CD. Please order this option if you would like the Data CD, and are unable to obtain it through other sources such as MOL.	QA00205	655	\$0.00

Software and Services

WI-FI

APX 8000H supports Wi-Fi 802.11 b/g/n with WPA2/WPA (PSK), and WEP security protocols. Wi-Fi can be used with the Radio Management SW in order to do codeplug updates, firmware refreshes, and FLASHport upgrades over a Wireless Network (WLAN). The radio will only connect to available Wi-Fi networks which have been pre-provisioned in the radio codeplug via CPS. The radio can be pre-provisioned with up to 20 SSIDs.

The Wi-Fi feature requires ordering option QA09001. The Wi-Fi feature is also available aftermarket as a FLASHport upgrade if not ordered out of the factory.

Radio Management (RM) is required in order to take advantage of the Wi-Fi capabilities on APX 8000H.

OUT OF THE BOX WI-FI PROVISIONING

If a radio is ordered the Wi-Fi option (QA09001) and the customer wishes to provision the radios out of the box using Wi-Fi, the radio must also be ordered with the Out of the Box Wi-Fi Provisioning option (QA09007).

A radio ordered with the Wi-Fi option and the Out of the Box Provisioning over Wi-Fi option will come with the following default codeplug configuration relative to Wi-Fi:

- a. Wi-Fi will be enabled.
- b. There will be one pre-configured network with the Network SSID set to “MyNetwork” and security type will be set to “None”.
- c. The default state of Wi-Fi will be “on”.

A Wi-Fi router is required for connecting the Wi-Fi capable radio to the Device Programmer. The Wi-Fi router is to be procured by the agency programming the radios and must be provisioned with the Network SSID set to “MyNetwork” (case sensitive) with no password enabled.

For more details regarding the Out of the Box Wi-Fi Provisioning process, please refer to the [Out of the Box Wi-Fi Provisioning Leaflet](#).

Bluetooth 4.0 & Emergency Find Me

With Bluetooth 4.0 wireless technology and our APX™ Mission Critical Wireless portfolio, users can now connect a variety of Bluetooth audio accessories and data devices with their APX™ radio.

Bluetooth 4.0 also enables Emergency Find Me, a feature providing personnel with an added level of security by improving response time in emergencies. Once an emergency is activated on the APX 8000H, a Bluetooth beacon signals other Bluetooth-enabled APX radios within range. Based on bluetooth signal strength, nearby APX radios will receive an emergency alert via intelligent lighting and a text message with users Radio ID along with signal strength status (excellent, poor, fair) to determine proximity, and will guide the nearest personnel to the user in distress.

FLASHPORT AFTERMARKET UPGRADES

The APX 8000H P25 Portable Radios are part of the FLASHport Program. This means that APX 8000H hardware models can be loaded with different software packages that provide the features and functionalities that our customers require.

System Enhancement Options can be loaded at the time of radio purchase or at a later date through the use of software field upgrades. The APX 8000H portable can be upgraded electronically in the field with new features in the current system or to new systems operation by ordering upgrade kits.

FLASHport upgrades are supported via Wi-Fi using Radio Management (RM) on APX 8000H.

Model

APX™ 8000H with SRX Enhancement P25 All-Band Portable Radio

700/800 MHz

VHF

UHF R1 & UHF R2

Updates

Effective March 5th, 2020: All U.S. orders will book as P25 CAP Compliant by internally generating the P25 “clear” non-encryption option QA05751 (Disable Encryption) if no other encryption is selected. ADP will no longer ship standard. It will now be an orderable option (G193 for mobiles, Q667 for portables). Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below.

HAZARDOUS LOCATION

The APX 8000H will ship standard with PMNN4547. The APX 8000H is certified by Underwriters' Laboratory when properly equipped with the standard battery, PMNN4547. There is no option to delete this battery on this model.

When equipped with Motorola Battery PMNN4547, the APX 8000H models are certified as intrinsically safe for use in ANSI/TIA 4950-A ; Classification Rating Class I, Division 1, Groups C, D; Class II, Division 1, Group E, F, G; Class III, Hazardous (Classified) Locations. ANSI/ISA 12.12.01-2015 and CAN/CSA C22.2 No.213-15; Class I, Division 2, Groups A, B,

C, D; T3C. Tamb = -25° C to +60° T3C.

Canada Customers: When equipped with Motorola Battery PMNN4547, the APX 8000H models are certified as intrinsically safe for use in CAN/CSA C22.2 NO. 157-92; Classification Rating Class I, Division 1, Group D; Class II, Division 1, Group E, F, G; Class III, Hazardous (Classified) Locations. ANSI/ISA 12.12.01-2015 and CAN/CSA C22.2 No.213-15; Class I, Division 2, Groups A, B, C, D; T3C. Tamb = -25° C to +60° T3C.

Special Note for United States - State & Local Markets Only

In accordance with FCC mandate, the APX 8000H all band radio is restricted to 12.5 KHz operation only and does NOT support 25 KHz in the VHF and UHF Bands (excluding T-Band). This applies to customers under Rule Part 90. Customers with FCC waivers can contact their Business Development Representative.

DHS Project 25 Compliance Assessment Program (CAP) has defined a "CAP Encryption Requirements compliant radio" as a radio that can be ordered without encryption or one that can be ordered with AES256. << [Click to learn more](#)>>

Ordering Information

Standard Features

All ASTRO Digital APX 8000H models include the following features:

- All-Band Capability (UHF, VHF, 7/800)
- Adaptive Audio Engine
- GPS Software & Hardware (QA00782)
- Mission Critical Wireless Bluetooth® 4.0 (LE) (QA00583)
- ADP Privacy - Single Key
- Radio Packet Data (Q947)
- Software Key (QA01749)
- Radio Stun/Kill (H02)
- Night Vision Goggle Profile
- Programming Over P25 (OTAP)
- One Touch/Status Message (H46)
- Radio Trace/Remote Monitor (H43)
- 3 Programmable Side Buttons
- Orange Programmable Button
- 16 Position Mode Rotary Select Switch
- Angled On/Off Volume Knob
- 1 Top Mounted Programmable 3 Position Toggle Switch
- Top Display: 1 line of text, 1 line of icons, 0 menu lines
- Dual Microphone
- 3 Watt Rated Audio
- Detachable Belt Clip (Model 1.5) / Carry Holder (Models 2.5 & 3.5)
- **BLACK IMPRES 2 Battery (PMNN4547)**
- All-Band Antenna (KT000026A01)
- Coyote Brown Housing

- Enhanced Zone Bank (QA01768)
- SRX Control Top
- Covert Motorola Medallion
- Models 2.5 & 3.5:
 - Unified Call List
 - Front Color Display: 4 Lines of Text, 2 Lines of Icons
 - Radio Profiles
 - 3 Programmable Buttons
 - 4-Way Navigation
 - Home & Data Buttons
- Model 3.5: 4 X 3 Alpha-Numeric Keypad
- MIL-STD Delta-T, IP68 submersion (2m, 4hr)

Configuration

Models

1: Main Model (*Must Select One*)

Description	Full Description	Nomenclature	APC	Price
APX 8000H ALL BAND PORTABLE MODEL 2.5	-	H91TGD9PW8 N	673	\$6,683.00
APX 8000H ALL BAND PORTABLE MODEL 3.5	-	H91TGD9PW9 N	673	\$6,992.00

1B: SRX Enhancement Package (*Must Select for APX 8000H with SRX Enhancement*)

Description	Full Description	Nomenclature	APC	Price
ENH: SRX ENHANCEMENT PACKAGE	Provides for Radio Stun/Kill, Night Vision Goggle Profile, OTAP and the Coyote Brown Housing.	QA02590	673	\$575.00

Operation Mode (Must Select One)

2A: Digital Trunking (SN/SZ P25 Phase I Interop)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	-	Q806	579	\$515.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	655	\$1,500.00
ADD: P25 9600 BAUD TRUNKING	MUST also order H38 & Q806. INCLUDED at 'NO Charge' Q173-OminLink. APX digital radios require Advanced System Keys (ASK- DVN4046A) to be configured to operate on a trunking system.	Q361	655	\$300.00

2B: Digital Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	-	Q806	579	\$515.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a	H38	655	\$1,500.00

	DVN4046 to be purchased.			
--	--------------------------	--	--	--

2C: Digital Conventional (P25)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	-	Q806	579	\$515.00
ADD: CONVENTIONAL OPERATION	-	H35	655	\$800.00

2D: Analog Trunking

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	-	Q241	579	\$0.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	655	\$1,500.00

2E: Analog Conventional

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	-	Q241	579	\$0.00
ADD: CONVENTIONAL OPERATION	-	H35	655	\$800.00

Delete Frequency Bands (Optional. Can select a MAXIMUM of TWO)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE 7/800 MHZ BAND	-	QA05507AA	0579	(\$800.00)
DEL: DELETE VHF BAND	-	QA05508AA	0579	(\$800.00)

DEL: DELETE UHF BAND	Deletes both UHF R1 and UHF R2 frequency bands	QA05509AA	0579	(\$800.00)
----------------------	--	-----------	------	------------

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$100.00
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$450.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$200.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$100.00
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Requires FPP HW dongle (NNTN7526A) to be purchased.	Q53	655	\$150.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	-	Q52	655	\$150.00

ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$150.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$150.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$150.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$150.00
ADD: MANDOWN OPERATION	-	QA01843	655	\$150.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$150.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$150.00
	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless			

ADD: WIFI CAPABILITY	networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$300.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001)	GA09011	681	\$100.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WIFI QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00

System Key Software (Optional)
