Call Boxes:

Allows for integration into most existing radio systems and provides direct access to personnel connected to the system. Allows for expansion of security coverage and can help improve response time without the need for additional personnel. Includes a voice instruction message for the user, automatic call box ID and user location identifiers, a courtesy light, easy push-to-talk operation, a silent tamper alert broadcast to security, low battery alert, 40-day standby battery capacity, one 12-volt, 12 amp/hour rechargeable battery, call box keys and tamper resistant screw bits. Pricing does not include radio or installation. Remote speaker microphone cable and BNC antenna adaptor for the particular radio model must be supplied by the reseller.

Use Call Box RF Kits (HK2079A, HK2080A, HK2081A) for RF module.

For radio integration into the Call Box/RTU please contact the specific call box/RTU manufacturer.

subscriber radio. Essential with Accidental Damage starts upon purchase. Repairs will be made at the designated Motorola repair depot. Local pickup or repair charges are not included. Motorola Solutions will pay inbound shipping charges only with use of the Motorola Online return process. Motorola will pay outbound shipping charges via normal shipping methods. No discounts are allowed on this option.

MOTOTRBO Connect Plus Trunking Operation:		MSRP
	MOTOTRBO Connect Plus is the next generation professional digital trunking communications solution that provides enhanced performance, productivity and value for two way radio users. Please refer to the XRC 9000 Controller section (under Fixed Equipment) for more information on how to order Connect Plus trunking systems.	
QA02005	Connect Plus Trunking Operation For Enabled Models Only Includes factory loading of the Connect Plus firmware application. Connect Plus license is enabled by default.	\$0.00
QA02005	Connect Plus Trunking Operation, Only for Capable Models Includes factory loading of the Connect Plus firmware application. License HKLN4457A is required to Register and Activate the Connect Plus functionality in the radio and must be purchased separately from the QA00588 option (see details below).	\$116.66
HLN4457	Connect Plus Trunking License, Only needed for Capable Models An Entitlement ID (EID) will be delivered via e mail to the address specified during order placement. Register and Activate the Connect Plus license in the MOTOTRBO Connect Plus capable radios using MOTOTRBO CPS (version 12.0 or higher). Registration requires an internet connection. Multiple licenses can be ordered under the same line item.	\$50.00
	Notes: 1. Option QA02005 applicable only to MOTOTRBO digital capable models. 2. Option QA02005 requires MOTOTRBO CPS version 12.0 or higher. 3. Option QA02005 requires MOTOTRBO Option Board CPS (available in MOL Resource Center at no cost). 4. Connect Plus Trunking Operation requires: a. MOTOTRBO digital firmware release R02.06.30 or higher (included with factory option QA02005) b. MOTOTRBO expansion card (included in all XPR7000's by default) c. Connect Plus software (included with factory option QA02005) d. Connect Plus software license (order HLN4457 separately) 5. Please refer to the Fixed Equipment section for Connect Plus Trunking system information. 6. Please refer to the Connect Plus System Planner and your Motorola COEE team representative for pre sale support and system design considerations

The XPR Series portables ship with a Standard 5-Year Software and Repair option that covers 5 years of software support, a premium feature subscription, and parts and labor warranty coverage. Essential with Accidental Damage can be purchased to add coverage for accidental breakage and liquid damage.

Essential Software Options:

STDSMA0771	Standard 5 Year SMA and Software Features	N/C
------------	---	-----

Essential Repair Options:

STDESS0871 (U/V)	STDE 5 Year Essential Repair	N/C
QA00871 (U/V)	QA001: Delete Essential Repair (2 Year Warranty Only)	-\$26.67
HA00663	ADD: 5 Year Accidental Damage Repair coverage is expanded to include chemical, liquid and physical damage for the 5 year term on your Motorola Solutions portable or mobile subscriber radio. Essential with Accidental Damage starts upon purchase. Repairs will be made at the designated Motorola repair depot. Local pickup or repair charges are not included. Motorola Solutions will pay inbound shipping charges only with use of the Motorola Online return process. Motorola will pay outbound shipping charges via normal shipping methods. No discounts are allowed on this option.	\$184.00

MOTOTRBO Connect Plus Trunking Operation:

	MOTOTRBO Connect Plus is the next generation professional digital trunking communications solution that provides enhanced performance, productivity and value for two way radio users. Please refer to the XRC 9000 Controller section (under Fixed Equipment) for more information on how to order Connect Plus trunking systems.	MSRP
QA02005	Connect Plus Trunking Operation For Enabled Models Only Includes factory loading of the Connect Plus firmware application. Connect Plus license is enabled by default.	\$0.00

QA02005	<p>Connect Plus Trunking Operation, Only for Capable Models</p> <p>Includes factory loading of the Connect Plus firmware application.</p> <p>License HKLN4457A is required to Register and Activate the Connect Plus functionality in the radio and must be purchased separately from the QA02005 option (see details below).</p>	\$116.66
---------	---	----------

HKLN4457	<p>Connect Plus Trunking License, Only needed for Capable Models</p> <p>An Entitlement ID (EID) will be delivered via e mail to the address specified during order placement. Register and Activate the Connect Plus license in the MOTOTRBO Connect Plus capable radios using MOTOTRBO CPS (version 12.0 or higher). Registration requires an internet connection. Multiple licenses can be ordered under the same line item.</p>	\$50.00
----------	--	---------

Notes:

1. Option QA02005 applicable only to MOTOTRBO digital capable models.
2. Option QA02005 requires MOTOTRBO CPS version 12.0 or higher.
3. Option QA02005 requires MOTOTRBO Option Board CPS (available in MOL Resource Center at no cost).
4. Connect Plus Trunking Operation requires:
 - a. MOTOTRBO digital firmware release R02.06.30 or higher (included with factory option QA02005)
 - b. MOTOTRBO expansion card (included in all XPR7000's by default)
 - c. Connect Plus software (included with factory option QA02005)
 - d. Connect Plus software license (order HKLN4457 separately)
5. Please refer to the Fixed Equipment section for Connect Plus Trunking system information.
6. Please refer to the Connect Plus System Planner and your Motorola COEE team representative for pre sale support and system design considerations

General Options:

QA00505	IMPRES Remote Speaker Microphone with 3.5mm Audio Jack (PMMN4025)	\$90.00
QA00506	Submersible (IP57) Remote Speaker Microphone (PMMN4040)	\$75.00

RFID-Enabled Knobs For MOTOTRBO™ and Analog Radios

GENERAL INFORMATION:

Motorola Solutions RFID enabled knobs for MOTOTRBO XPR7000e, XPR 3000e, CP200d and many legacy radios makes this process more efficient. RFID tags embedded in radio volume knobs enable quick, easy and reliable tracking of radios without the need for manual logging, scanning bar codes or opening the packaging. With RFID, a single radio or an entire crate can be scanned in seconds. Enterprise Value Added Partners like CDO Technologies and RFTrail offer complete RFID tracking solutions to make your radio inventory management more efficient.

RFID-ENABLED KNOBS:

Model	Description	List

Intrinsically Safe (MSHA): Option QA01103 (NNTN7380) is rated Intrinsically Safe for use in Methane Air mixtures by the Mine Safety Health Administration (MSHA) and is Commonwealth of Pennsylvania approved for use in bituminous underground coal mines (by the Pennsylvania Bureau of Mines).

Options: TO COMPLETE AN ORDER YOU MUST MAKE ONE (1) CHOICE PER EACH STEP

STEP 1:

Battery Choices:

QA01103	NiMH, 1150 mAh, 7.2 V Battery - Intrinsically Safe (MSHA) (NNTN7380)	\$114.50
	<i>* (Not for use with LowBand models)</i>	

STEP 2:

Charger Choices:

STDCHG0672	Standard Charger (120V Single Unit Rapid Rate Charger - AAHTN3000)	N/C
H951	Omit 120 Volt Rapid Rate Charger	-\$20.00
QA00741	Single-Unit Charger with CEC Compliant Switch Mode Power Supply (PMLN5197)	\$8.00
IMPRES™ Charger:		
QA00061	IMPRES™ Single Unit Charger (WPLN4182)	\$35.00
QA00742	IMPRES Single-Unit Charger with CEC Compliant Switch Mode Power Supply (PMLN5198)	\$40.00

STEP 3:

Carry Holder Choices:

STDBLT0672	Standard Belt Clip (HLN9714)	N/C
H301	Omit Standard Belt Clip	-\$5.00

STEP 4:

Antenna Choices:

STDANT0672	Standard Antenna (LB NAB6064, VHF NAD6502_R & UHF NAE6483_R)	N/C
Q46	VHF 148-161 MHz ONLY Whip Antenna (Enhanced Perf., 7.5" - NAD6579)	N/C

QA00062	UHF 430-470 MHz Stubby Antenna (PMAE4003)	-\$2.00
H112	Omit Standard Antenna (LowBand, VHF & UHF)	-\$3.50

STEP 5:

Shipping Box Choices:

STDBOX0672	Standard Model Box	N/C
H415	Bulk Packaging (minimum 10 units per line item)	N/C

General Options:

		MSRP
QA00101	2-Wire Comfort Earpiece with Combined Microphone and PTT, Black. Surveillance Kits with Extended-Wear Comfort Earpieces include a Low Noise Enhancement (RLN6232) already attached for extra comfort and convenience (RLN5315).	\$108.00
QA00103	Travel Charger (includes voltage regulated lighter adapter, custom charger base, coil cord and mounting bracket - RLN4883)	\$89.25
H886	3 Year Service from the Start -LITE - Provides 3 years of extended hardware repair coverage beginning after the standard warranty period expires. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	\$108.00

SLN 1000 Portable

3.5 GHz Band OnGo

Standard Package Includes:

- Standard Battery - Li-Ion, 2500 mAh (PMNN4578)
- Standard Charger - Micro-USB Wall Charger (PS000150A11)
- LTE Stubby Antenna (HKAN4004A)
- Swivel Carry Holster (PMLN7932)
- Battery Door Cover (HKLN4678)
- 3 Year Essential Repair

Key Features:

Purpose Built for OnGo 3.5 GHz Network Operation
PTT Voice (WAVE client) over OnGo and WiFi
Cloud based Portal Device Management
Over the Air Programmable
High Fidelity Wideband Audio
WiFi 2.4 GHz and 5 GHz compatible
Bluetooth Profiles HFP, SPP and BLE GATT support
GNSS Support - GLONASS/Galileo/BeiDou support
IP54 Rated (Dust and blowing rain)
Dot Matrix Active View Display
Single Pin Audio Interface (OPAI)
Micro USB Charging
3FF size Removable SIM card slot

Notes:

- Device is designed for use with WAVE OnCloud PTT Services
- For Nitro Network Connectivity, Motorola Solutions Profile SIM must be purchased separately

HKLN4457 Connect Plus Trunking License, Only needed for Capable Models \$50.00
An Entitlement ID (EID) will be delivered via e mail to the address specified during order placement. Register and Activate the Connect Plus license in the MOTOTRBO Connect Plus capable radios using MOTOTRBO CPS (version 12.0 or higher). Registration requires an internet connection. Multiple licenses can be ordered under the same line item.

Notes:

1. Option QA00588 applicable only to MOTOTRBO digital capable models
2. Option QA00588 requires MOTOTRBO CPS version 12.0 or higher.
3. Option QA00588 requires MOTOTRBO Option Board CPS (available in MOL Resource Center at no cost).
4. Connect Plus Trunking Operation requires:
 - a. MOTOTRBO digital firmware release R02.50.05 or higher (included with factory option QA00588)
 - b. MOTOTRBO expansion card (included with factory option QA00588)
 - c. Connect Plus software (included with factory option QA00588)
 - d. Connect Plus software license (order HKLN4457 separately)
5. Please refer to the Fixed Equipment section for Connect Plus Trunking system information.
6. Please refer to the Connect Plus System Planner and your Motorola COEE team representative for pre sale support and system design considerations

General Options:

QA01839 LTR/PassPort Enhanced Operation. Factory Installed. \$72.00
Option includes built-in MOTOTRBO Expansion Card and installation of Scholer-Johnson software application license.
Notes:
1) Scholer-Johnson LTR/PassPort application runs on the MOTOTRBO Expansion Card. The application is compatible with both Classic and Enhanced PassPort operation.
2) Scholer-Johnson LTR/PassPort application requires winSJlppTRBO programming software.
3) MOTOTRBO XPR 5500e/7500e series radios require firmware R02.06 version or higher.
4) Scholer-Johnson LTR/PassPort application is available only for display portable and mobile models.
5) Scholer-Johnson LTR/PassPort application is compatible with FM equipped portables.
6) MDC signaling is not currently available in application's conventional or LTR modes of operation for XPR 5500e/7500e series radios.
7) Quik Call II signaling is not currently available in application's conventional or LTR modes of operation.
8) Trident TrAVL operation using Scholer-Johnson application is not available for XPR 5500e series mobiles.
9) Expansion Card draws additional current from radio battery so using a higher capacity battery may be required.
10) To purchase aftermarket Scholer-Johnson LTR/PassPort application and winSJlppTRBO programming software please contact Scholer-Johnson Inc. at 407 645 5093.

11) For Technical support on the LTR/PassPort application please contact Scholer-Johnson Inc. at 407 645 5093.

Premium Software Features (CAPABLE):		
HKVN4323	MOTOTRBO Capacity Max FULL Subscriber License	\$167.00
HKVN4381	MOTOTRBO License Wi-Fi	\$125.00
HKVN4249	MOTOTRBO Bluetooth Data and Discoverable Mode	\$50.00
HKVN4432	MOTOTRBO License Indoor Location	\$83.33
HKVN4281	MOTOTRBO Text to Speech	\$10.00
HKVN4493	MOTOTRBO Mute Mode	\$10.00
HKVN4492	MOTOTRBO Receive Audio Leveling	\$3.50
TT3027	Estimote Kit of 3 iBeacons AVAILABLE TO ORDER VIA MOL ONLY	\$120.00
HKVN4384	Authenticated Radio Disable (Required for Target Radio Only)	\$3.50
HKVN4385	Transmit Inhibit	\$3.50

Premium Software Feature (ENABLED):		
HKVN4432	MOTOTRBO License Indoor Location	\$83.33
HKVN4281	MOTOTRBO Text to Speech	\$10.00
HKVN4493	MOTOTRBO Mute Mode	\$10.00
HKVN4492	MOTOTRBO Receive Audio Leveling	\$3.50
TT3027	Estimote Kit of 3 iBeacons AVAILABLE TO ORDER VIA MOL ONLY	\$120.00
HKVN4384	Authenticated Radio Disable (Required for Target Radio Only)	\$3.50
HKVN4385	Transmit Inhibit	\$3.50

Microphones: In order to support GPS with a Public Safety Microphone, both Radio and Microphone must have an Antenna.
 * When connected to the XPR 7550 IS CSA radio, it should only be used in digital mode)
 ** Antenna sold separately - PMAE4046, PMAE4047, PMAE4048, PMAD4087, PMAD4086. Listed within Antenna Section) - Intrinsically Safe (FM)

US VERSION											
L: Legacy models - Applicable to XPR 4000/6000, XPR 3000/5000/7000 and SL 7000 series											
E: Enhanced models - Applicable to XPR 3000e/5000e/7000e, SL 7000e series and SL 3500e											
L-E: Applicable to both Legacy and Enhanced radios											
Call Boxes:											
Allows for integration into most existing radio systems and provides direct access to personnel connected to the system. Allows for expansion of security coverage and can help improve response time without the need for additional personnel. Includes a voice instruction message for the user, automatic call box ID and user location identifiers, a courtesy light, easy push-to-talk operation, a silent tamper alert broadcast to security, low battery alert, 40-day standby battery capacity, one 12-volt, 12 amp/hour rechargeable battery, call box keys and tamper resistant screw bits. <i>Price does not include radio or installation. Remote speaker microphone cable and BNC antenna adaptor for the particular radio model must be supplied by the reseller.</i>											
Note 1: Use Call Box RF Kits (HK2079A, HK2080A, HK2081A) for RF module. These kits use SMA type antenna connector. https://docs.google.com/spreadsheets/d/1880Fn3nXQBDGPv0K0VWVvOzZ_mAqX211_snQeplqgKM/edit#gid=1148637263											
For radio integration into the Call Box/RTU please contact the specific call box/RTU manufacturer.

US VERSION

VML 750

LTE VEHICLE MODEM

VML750 LTE Vehicle Modem harnesses the power of Verizon 3G/4G LTE and Band 14 Public Safety LTE, providing high speed data with the priority, control, security and performance required by Government & Public Safety agencies and may also be used to empower employees in operations-critical roles at business and industrial enterprises.

RESELLER VERSION

UNIQUE DESIGN

Supports 2 SIM cards for Verizon 3G/4G LTE, Private LTE B20 network and Public Safety LTE B14 for FirstNet
Roof-mounted external antennas with Multiple-In-Multiple-Out (MIMO) configuration for extend range and data speed
Mobile WiFi 802.11b/g/n 2.4 GHz Access Point supports up to 32 simultaneous users with 164 ft (50 m) line-of-sight range
Flexible mounting options for installation in a mass transit bus, school bus, utility truck, patrol car, fire apparatus or ambulance.
Built-in GPS with vehicle tracking, route optimization and integration of Computer Aided Dispatch (CAD) services
MIL-STD 810G rated ruggedized design withstands heat, cold, rain, humidity, dust and vibration
IP66 sealed for protection against tight dust and powerful water jets
Wired Connectivity: 1 Ethernet port (10/100 Mbps, RJ-45) and 1 USB 2.0 port
Optional CRYPTR FIPS-140-2 compliant security storage module

APPLICATION EXAMPLES

Mass Transit Busses and Trains - real time location tracking with live video feed or internet access for passengers
School Bus - real time location tracking with live video feed and student boarding and departure record
Utility Truck - high speed work ticket updates with instant status reports
Private security patrol car - real time location tracking, live video and inspection reports
Ambulance - access patient records, medical history, insurance information and transmit vital statistics while still in route
Limousine Service - provide Wi-Fi connection for high profile clients, especially for international business travelers who need data service

US VERSION

TLK 100 WAVE PORTABLE LTE / Wi-Fi

Standard Package Includes:

- LTE Stubby Antenna (HKAN4002A)
- 2300T Li-Ion Battery (PMNN4468A)
- Micro USB Wall Charger (PS000150A11)
- Battery Door Cover (HKLN4678A)
- Swivel Carry Holster (PMLN7932A)
- 2 Year Essential Repair and Radio Software

Main Radio Features:

Number of Talkgroups	96
Display	Active View Display
Side Programmable Buttons	1
Channel Up / Down Button	Yes
GPS	Yes
Dedicated Emergency/SOS Button	No
WiFi	Yes
Bluetooth	Yes
Cloud Device Management Capability	Yes

Software Features Included with WAVE Subscription:

WAVE SW Package Options	WAVE	WAVE SAFEGUARD
PTT (Private and Group Calls)	Yes	Yes
Presence (ON/OFFLINE)	Yes	Yes
Instant Personal Alert	Yes	Yes
Priority Talkgroup Scanning	Yes	Yes
Broadcast Calls	Yes	Yes
Geolocation	Yes	Yes
Emergency Calling and Alert	N/A	Yes
Ambient and Discreet Listening	N/A	Yes
User Check and Monitoring	N/A	Yes
Area Based Talkgroups	N/A	Yes
LMR Interoperability	Add On	Yes

Notes:

2 Years = Included for 2 years as part of Essential Service and Radio Software Package

US VERSION

Nitro

NITRO PRICE PAGES OVERVIEW

General Information:

Nitro is the next generation professional communications solution that combines business-critical voice with lightning-fast private broadband data. It utilizes the Citizens Broadband Radio Service (CBRS) spectrum. Nitro delivers reliable, clear push-to-talk over a private broadband data network. All of this is managed through the Nitro Portal in the cloud.

Features:

- | | | |
|--------------------------|--|-------------------------------|
| - 2-4x WiFi Range | - Simplified provisioning | - Security and access control |
| - 2x WiFi Capacity | - Centralized, web-based configuration | - Transparent device updates |
| - Cloud-based core (aaS) | - Interoperation with LMR (WAVE) | - Simple network architecture |

Below is a brief summary of each of the Nitro Price Page tabs included here:

"NITRO Infrastructure - Capital" Option

- All Nitro hardware components (CBSD, Routers, OnPrem Edge Gateway, and PTP Servers) are offered for purchase in the typical Capital Purchase model ("Capital").
- A smaller monthly subscription is still required to connect to the Nitro Cloud Core and for SW & HW
- Higher upfront costs, but a lower monthly subscription.
- These items are only available through COEE & ordered through the Nitro Request Form.

"NITRO Infrastructure - Monthly Service Fee" Option

- Key Nitro hardware components (CBSD, Routers, OnPrem Edge Gateway, and PTP Servers) are offered for a monthly service fee that includes equipment usage, Nitro Cloud Core connection fees, as well as Essential Service with Advanced Replacement.
- No additional subscriptions are required to connect to the Nitro Cloud Core.
- Lower upfront costs, but a higher monthly subscription.
- These items are only available through COEE & ordered through the Nitro Request Form.

Nitro Recommended Switches

- Switching equipment can be purchased by the Dealer through MOL, COEE or other means.

- Alternatively, Partners and Customers can provide their own switching ("BYOD Switches"), however certain requirements must be met to satisfy the NITRO switching requirements. Please see the Nitro System Planner for details on "BYOD Switches."

Nitro User Equipment & SIM's

- All Nitro End Users devices that connect to a Nitro network require a Nitro SIM card. These can be purchased through MOL.
- All Nitro End User devices require a data subscription to connect to a Nitro network. There are only two (2) flavors: Basic Data and Unlimited Data.
- These subscriptions are activated through the Nitro Portal.

Ancillary Items

- This tab provides a list of commonly used optional hardware items for a Nitro network. They include items such as antennas, line, mounting equipment, AC/DC converters, arrestors, and Fiber jumpers.
- Ancillary equipment can be purchased by the Dealer through MOL, COEE or through other means.

NOTE:

For additional information on the certification process, Nitro, and the "Nitro Request Form," please visit Partner Central.

Please consult the Nitro System Planner for a detailed list of required equipment for designing and deploying a Nitro network.

In this Pricebook there are Subscription Services that require Subscription Service Terms and Conditions which have been included, please see the Subscriptions Services Agreement. The purchase or use of any of the subscription services which are features available through the NITRO solution will require an Amendment to Contract #4400016317 to incorporate the Subscription Services Terms and Conditions included here.

Nitro

NITRO MSRP PRICES - CAPITAL OPTION

General Information:

Nitro is the next generation professional communications solution that combines business-critical voice with lightning-fast private broadband data. It utilizes the Citizens Broadband Radio Service (CBRS) spectrum. Nitro delivers reliable, clear push-to-talk over a private broadband data network. All of this is managed through the Nitro Portal in the cloud.

Features:

- 2-4x WiFi Range
- 2x WiFi Capacity
- Cloud-based core (aaS)
- Simplified provisioning
- Centralized, web-based configuration
- Interoperation with LMR (WAVE)
- Security and access control
- Transparent device updates
- Simple network architecture

Each Initial NITRO Network is comprised of the following components:

- 2 Routers (Juniper SRX 345 Firewall/Router) connected to the Nitro Cloud Core
- 1-X Edge Timing Master (uFalconSTG PTP) for timing to CBSD's w/o access to GPS (eg, Indoor CBSD's)
- SLX 2000's, SLX 4000's and SLX 5000's CBSD's to provide NITRO coverage & capacity.
- Optional NITRO On-Prem Edge Gateways

NOTE:

Nitro CBSD's and Infrastructure components below are not available to order on MOL. Channel Partners must be certified and go through the Center of Excellence Engineering (CoEE) Team using the "Nitro Request Form."

For additional information on the certification process, Nitro, and the "Nitro Request Form," please visit Partner Central.

All SLX purchased still require monthly subscriptions for connecting to the Nitro Cloud Core. (See below)

All NITRO monthly subscriptions are activated through the Nitro Portal after installation and require minimum two (2) year contracts.

All SLX CBSD's require:

a minum of one (1) SRX345 Router for connection to the Nitro Cloud (two recommended)

a timing source; either GPS or minimum of one (1) FibroLAN PTP server

Please consult the Nitro System Planner for a detailed list of required equipment for designing and deploying a Nitro network.

Customer-specific WAN IP information may be required for Firewall/Routers if Static IP is desired. Please see the Nitro System Planner for DHCP and Static IP requirements.

See Partner Empower agreements for more detailed service terms and conditions.

In this Pricebook there are Subscription Services that require Subscription Service Terms and Conditions which have been included, please see the Subscriptions Services Agreement. The purchase or use of any of the subscription services which are features available through the NITRO solution will require an Amendment to Contract #4400016317 to incorporate the Subscription Services Terms and Conditions included here.

Nitro Infrastructure Equipment

MODEL	DESCRIPTION	MSRP
AAE20048ENA1AN	SLX 2000 Indoor CBSD 3550-3700M 250mW NOT AVAILABLE ON MOL Includes: CBSD w/ 64 active stream support, wall/ceiling mount hardware, integrated 8dBi antenna, copper ethernet or fiber backhaul, POE++ or 12V DC input, integrated GPS receiver,	\$4,450.00
AAE40048ENB2AN	SLX 4000 Outdoor CBSD 3550-3700M 316mW NOT AVAILABLE ON MOL Includes: CBSD w/ 64 active stream support, pole/wall mount hardware (including adapter bands), copper ethernet backhaul, DC -40 to -57V, 10m DC power cable, GPS antenna for direct	\$7,850.00
AAE50048INB2AN	SLX 5000 Outdoor CBSD 3550-3700M 2W NOT AVAILABLE ON MOL Includes: CBSD w/ 64 active stream support, integrated 17dBi antenna, copper ethernet or fiber backhaul, integrated GPS receiver, DC power connector, and requires -40 to -57 VDC	\$7,900.00
SELECT MOUNTING OPTION:		
	CA03683AA SLX5000 Wall/Pole Mount Bracket	\$350.00
SELECT GPS ANTENNA OPTION:		
	CA03682AA ADD: Direct Mount GPS Antenna 4	\$230.00
SELECT CONNECTOR ADAPTER MANDATORY (must select one):		

CA03684AB CONNECTOR-ADAPTOR,RJ45, SLX 5000
 CA03685AA CONNECTOR-ADAPTOR,SFP, SLX 5000

\$85.00
 \$85.00

Note: SLX 2000, SLX 4000 & SLX 5000 purchased still require Monthly Subscriptions to connect to the Nitro Cloud Core. See pricing for subscriptions below.

NETWORKING

MODEL	DESCRIPTION	MSRP
Nitro Firewall/Router (two required)		
T8577A	JUNIPER SRX 345 FIREWALL NOT AVAILABLE ON MOL Notes: All NITRO networks require a minimum of one (1) SRX 345 for connectivity to the NITRO Cloud Core. Connection will be through the customer provided Internet connection.	\$1,610.00
PTP TIMING SOURCE		
DSBNDLMSI2	Edge Timing Grand Master Bundle (includes the uFalconSTG PTP, AC/DC Power Adapter, and a rack mounting shelf) NOT AVAILABLE ON MOL Notes: All NITRO CBSD'S require a timing source, either PTP or GPS. The FibroLAN uFalcon above provides PTP timing for up to 32 CBSD's, AC/DC power adapter and the rack mounting	\$5,700.00
OnPrem Edge Gateway		
SQM01SUM0319A	Nitro OnPrem Edge Gateway NOT AVAILABLE ON MOL Includes: Nitro On-Prem Edge Gateway hardware (HP DL 20 appliance), NA AC power cord, and software. If redundancy or expansion is required, order quantity two (2).	\$6,350.00

Note: Nitro OnPrem Edge Gateway require additional Monthly Subscription to connect to the Nitro Cloud Core. See pricing below.

- *Redundant/Expansion Edge Gateway requires a 2nd switch
- **Redundant PTP Server requires a 2nd switch, if connected

[Nitro Infrastructure Subscriptions](#)

The following subscriptions are required per component purchased above and include the following:

- Nitro Cloud Core Functionality, Core EPC - MME/HSS, SAS Services, Cloud/OnPrem S&P Gateway
- Nitro Cloud Provisioning, Fault Management, Performance Management via the Nitro Portal
- Essential Services, Software & Firmware Updates including 3rd party SW, Technical Support, 5-year Hardware Warranty
- All NITRO monthly subscriptions are activated through the Nitro Portal after installation and require minimum two (2) year contracts.

SLX 2000	SLX 2000 Indoor CBSD 3550-3700M 250mW Connection	\$35.00
SLX 4000	SLX 4000 Outdoor CBSD 3550-3700M 316mW Connection	\$60.00
SLX 5000	SLX 5000 Outdoor CBSD 3550-3700M 2W Connection	\$70.00
SLX Dual Carrier	Enables Dual Carrier capability on the SLX 2000, SLX 4000, and SLX 5000 Nitro CBSD's. Dual carrier support can be used to provide additional user capacity (64 additional streams) or to enable higher downlink throughput via Carrier Aggregation. For the SLX 4000 and SLX 5000, Dual-carrier can also be deployed as 2-cell (or split cell) providing improved coverage and capacity to the CBSD. Enabled via the Nitro Portal per CBSD at time of registration. No additional hardware required for SLX 2000; additional antenna equipment required for SLX 4000 and SLX 5000 if external antennas are required. Consult the Nitro System Planner for technical details.	\$60.00
OnPrem Edge Gateway	Nitro OnPrem Edge Gateway	\$40.00

Literature & Information (Available on Motorola Online and/or Partner Central):

<https://learning.motorolasolutions.com/>

Infrastructure Repair:

Motorola's authorized Repair Depot will repair or coordinate the repair or replacement of the Infrastructure equipment provided by Motorola, including third-party infrastructure equipment supplied as part of the system solution. The Repair Depot will manage the logistics of equipment repair/replace (including shipment and return of repaired equipment), repair or replace Motorola equipment, and coordinate the repair or replacement of third-party solution components. Repair for certain network elements may be conducted on-site by Motorola's vendors or partners. Customer will pay shipping costs to Motorola. For more information, refer to the Nitro Infrastructure Essential Statement of Work or contact your Motorola representative or your Motorola Customer Support Manager.

<http://ecat.comm.mot.com/ecat/pricebooks/dup/infrep2.htm>

Infrastructure Repair with Advanced Replacement:

In addition to Infrastructure repair, Motorola Solutions provides Advanced Replacement hardware exchange service for all Nitro infrastructure supplied by Motorola Solutions under the Monthly Service Fee Subscription sales model or as an Optional service on the CapitalPurchased sales model. Motorola will provide Customer with an advanced replacement unit(s) or Field Replacement Units (FRU's) in exchange for Customer's malfunctioning Equipment. Malfunctioning Equipment will be evaluated and repaired by the infrastructure repair depot and returned to the depot's inventory upon completion of repair for use in subsequent Advanced Replacements.

Advanced Replacement:

Optional Adv Replacement is available, purchased yearly for a given contract, and includes the following equipment

Pricing is calculated by taking the unit price times the quantity of units purchased in that system.

MODEL	DESCRIPTION	MSRP
AAE20048ENA1AN	SLX 2000 Indoor CBSD 3550-3700M 250mW	\$294.69

PTT plans purchased and activated separately on WaveOnCloud Portal

MODEL	DESCRIPTION	MSRP/mo
NA	Nitro Basic Data Plan (Data Only) Monthly	\$3.00
NA	Nitro Unlimited Data Plan (Data Only) Monthly - MSI Radio	\$12.00
NA	Nitro Unlimited Data Plan (Data Only) Monthly - BYOD	\$15.00

Nitro Basic Data Plan:

Provides basic connectivity to the Nitro network. This plan is intended to provide basic connectivity to the Nitro Network for applications such as PTT communication, low speed data, and low throughput IIOT.

- Plan supports speeds up to 250-300 Kbps and data usage up to 1GB per month. Overage rates may apply.
- Plan does not include WAVE PTT subscription fees. PTT Plans can be added through the WaveOnCloud Portal.

Nitro Unlimited Data Plan:

Provides basic connectivity to the Nitro network plus Unlimited Data usage. This plan is intended to provide basic connectivity to the Nitro Network plus Unlimited Data usage for users requiring medium to high speed data, Video applications, or demanding IIOT applications.

v- Plan supports speeds up to 300Mbps and Unlimited monthly usage. Usage based on Dual, aggregated 20 MHz carriers, 256-QAM on downlink and 64-QAM on uplink. Performance is dependent on device capabilities, configurations, network loading, proximity to the CBSD, and adjacent cell interference.

)- Plan does not include and PTT capability. PTT Plans can be added through the WaveOnCloud Portal.

SUBSCRIPTION SERVICES AGREEMENT

Motorola Solutions, Inc. ("Motorola") and _____ ("Customer") enter into this Subscription Services Agreement ("Agreement") pursuant to which Customer will purchase and Motorola will sell a subscription to access the subscription services described below. Motorola and Customer may be referred to individually as a "Party" and collectively as the "Parties."

The terms of the Agreement, including addendums, exhibits, and attachments combined with the terms of any applicable Incorporated Documents will govern the products and services offered pursuant to this Agreement. To the extent there is a conflict between the terms and conditions of the Agreement and the terms and conditions of the applicable Incorporated Documents, the Incorporated Documents take precedence.

1. DEFINITIONS

Capitalized terms used in this Agreement have the meanings set forth below. Any reference to the purchase or sale of software or other Intellectual Property shall mean the sale or purchase of a license or sublicense to use such software or Intellectual Property in accordance with this Agreement.

"Administrator" means Customer's designated system administrator who receives administrative logins for the Subscription Services and issues access rights to Customer's Users.

"Anonymized" means having been stripped of any personal or correlating information revealing original source or uniquely identifying a person or entity.

"Confidential Information" means any information that is disclosed in written, graphic, verbal, or machine-recognizable form, and is marked, designated, or identified at the time of disclosure as being confidential or its equivalent; or if the information is in verbal form, it is identified as confidential at the time of disclosure and is confirmed in writing within thirty (30) days of the disclosure. Confidential Information does not include any information that: is or becomes publicly known through no wrongful act of the receiving Party; is already known to the receiving Party without restriction when it is disclosed; is or becomes, rightfully and without breach of this Agreement, in the receiving Party's possession without any obligation restricting disclosure; is independently developed by the receiving Party without breach of this Agreement; or is explicitly approved for release by written authorization of the disclosing Party.

"Customer Data" means Native Data provided by Customer to Motorola hereunder to be processed and used in connection with the Subscription Services. Customer Data does not include data provided by third parties and passed on to Motorola.

"Deliverables" means all written information (such as reports, analytics, Solution Data, specifications, designs, plans, drawings, or other technical or business information) that Motorola prepares for Customer in the performance of the Services and is obligated to provide to Customer pursuant to the applicable Statement of Work. The Deliverables, if any, are more fully described in the Statement of Work.

"Documentation" means the technical materials provided by Motorola to Customer in hard copy or electronic form describing the use and operation of the Solution and Software, including any technical manuals, but excluding any sales, advertising or marketing materials or proposals.

"Effective Date" means the date of the last signature on this Agreement, unless access to the Subscription Service occurs later, in which case, the Effective Date will be the date when Customer first has access to the Subscription Services.

“Feedback” means comments or information, in oral or written form, given to Motorola by Customer, in connection with or relating to the Solution and Subscription Services.

“Force Majeure” which means an event, circumstance, or act that is beyond a Party’s reasonable control, such as an act of God, an act of the public enemy, an act of a government entity, strikes, other labor disturbances, supplier performance, hurricanes, earthquakes, fires, floods, epidemics, embargoes, war, riots, or any other similar cause.

“Licensed Product” means 1) Software, whether hosted or installed at Customer’s site, 2) Documentation; 3) associated user interfaces; 4) help resources; and 5) any related technology or other services made available by the Solution.

“Native Data” means data that is created solely by Customer or its agents.

“Proprietary Rights” means the patents, patent applications, inventions, copyrights, trade secrets, trademarks, trade names, mask works, know-how, ideas and concepts, moral rights, processes, methodologies, tools, techniques, and other intellectual property rights.

“Software” means the Motorola owned or licensed off the shelf software programs delivered as part of the Licensed Products used to provide the Subscription Services, including all bug fixes, updates and upgrades.

“Solution” means collectively, the Software, servers and any other hardware or equipment operated by Motorola and used in conjunction with the Subscription Services.

“Solution Data” means Customer Data that is transformed, altered, processed, aggregated, correlated or operated on by Motorola, its vendors or other data sources and data that has been manipulated or retrieved using Motorola know-how to produce value-added content that is made available to Customer with the Solution and Subscription Services.

“Statement of Work” If included, the Statement of Work (“SOW”) describes the Subscription Services, Deliverables (if any), Licensed Products and Solution that Motorola will provide to Customer under this Agreement, and the other work-related responsibilities that the parties owe to each other. The Statement of Work may contain a performance schedule.

“Subscription Services” means those subscription services to be provided by Motorola to Customer under this Agreement, the nature and scope of which are more fully described in the Documentation, proposal, SOW, or other Solution materials provided by Motorola, as applicable.

“Users” means Customer’s authorized employees or other individuals authorized to utilize the Subscription Services on behalf of Customer and who will be provided access to the Subscription Services by virtue of a password or equivalent security mechanism implemented by Customer.

2. SCOPE

21 **Subscription Services.** Motorola will provide to Customer the Subscription Services and Deliverables (if any). As part of the Subscription Services, Motorola will allow Customer to use the Solution described in the Statement of Work, Documentation, proposal, or other Solution materials provided by Motorola (“Incorporated Document(s)”), as applicable. Some Subscription Services will also be subject to additional terms unique to that specific Subscription Service. Such additional terms will be set forth in an Addendum. In the event of a conflict between an Addendum and the body of the

Agreement, the Addendum will govern resolution of the conflict. Motorola and Customer will perform their respective responsibilities as described in this Agreement and any applicable Incorporated Documents.

22 **Changes.** Customer may request changes to the Services. If Motorola agrees to a requested change, the change must be confirmed in writing and signed by authorized representatives of both parties. A reasonable price adjustment will be made if any change affects the time of performance or the cost to perform the Services.

23 **Non-solicitation.** During the term of this Agreement and for twelve (12) months thereafter, Customer will not actively solicit the employment of any Motorola personnel who is involved directly with providing any of the Services.

3. TERM

31 **Term.** Unless a different Term is set forth in an applicable Addendum or the Incorporated Documents, the Term of this Agreement begins on the Effective Date and continues for twelve (12) months. The Agreement automatically renews annually on the anniversary of the Effective Date, unless either Party notifies the other of its intention to not renew the Agreement (in whole or part) at least thirty (30) days before the anniversary date or until termination by either Party in accordance with the Termination section of this Agreement.

32 **Minimum Initial Term.** For certain Subscription Services, a minimum initial term greater than one year may be required ("Minimum Initial Term"). Following the Minimum Initial Term, this Agreement will automatically renew upon each anniversary of the Effective Date for a successive renewal term of the same duration as the Minimum Initial Term, unless either Party: 1) notifies the other of its intention to not renew the Agreement (in whole or part) at least thirty (30) days before the anniversary date; 2) requests an alternate term; or 3) terminates in accordance with the termination provision in the Agreement, including non-payment of fees for the renewal period by the anniversary date.

33 **Renewals.** The terms and conditions of the Agreement and will govern any renewal periods.

4. **CUSTOMER OBLIGATIONS.** Customer will fulfill all of its obligations in this Agreement, including applicable addendums and Incorporated Documents in a timely and accurate manner. Failure to do so may prevent Motorola from performing its responsibilities.

41 **Access.** To enable Motorola to perform the Subscription Services, Customer will provide to Motorola reasonable access to relevant Customer information, personnel, systems, and office space when Motorola's employees are working on Customer's premises, and other general assistance. Further, if any equipment is installed or stored at Customer's location in order to provide the Subscription Services, Customer will provide, at no charge, a non-hazardous environment with adequate shelter, heat, light, power, security, and full and free access to the equipment.

42 **Customer Information.** If the Documentation, Statement of Work, proposal, or other related documents contain assumptions that affect the Subscription Services or Deliverables, Customer will verify that they are accurate and complete. Any information that Customer provides to Motorola concerning the Subscription Services or Deliverables will be accurate and complete in all material respects. Customer will make timely decisions and obtain any required management and third party approvals or consents that are reasonably necessary for Motorola to perform the Subscription Services and its other duties under this Agreement. Unless the Statement of Work states the contrary, Motorola may rely upon and is not required to evaluate, confirm, reject, modify, or provide advice concerning any assumptions and

Customer-provided information, decisions and approvals described in this paragraph.

43 **Risk of Loss.** If any portion of the Solution resides on Customer premises or is under Customer's control in any way, Customer shall at all times exercise reasonable care in using and maintaining the Solution in accordance with Motorola's instructions for proper use and care. Risk of loss to any equipment in Customer's possession will reside with Customer until removed by Motorola or its agent or returned by Customer. Customer will be responsible for replacement costs of lost or damaged equipment, normal wear and tear excluded.

44 **Equipment Title.** Unless Customer is purchasing equipment pursuant to the terms in the Addendum entitled "Equipment Purchase" and unless stated differently in this Agreement or in the Incorporated Documents, title to any equipment provided to Customer in connection with the Subscription Services remains vested in Motorola at all times. Any sale of equipment pursuant to this Agreement will be governed by the terms and conditions set forth in the Equipment Purchase Addendum.

45 **Enable Users.** Customer will properly enable its Users to use the Subscription Services, including providing instructions for use, labeling, required notices, and accommodation pursuant to applicable laws, rules, and regulations. Unless otherwise agreed in the Incorporated Documents, Customer will train its Users on proper operation of the Solution and Licensed Products. Customer agrees to require Users to acknowledge and accept the limitations and conditions of use of the Licensed Products in this Agreement prior to allowing Users to access or use Subscription Services.

46 **Non-preclusion.** If, as a result of the Subscription Services performed under this Agreement, Motorola recommends that Customer purchase products or other services, nothing in this Agreement precludes Motorola from participating in a competitive opportunity or otherwise offering or selling the recommended products or other services to Customer. Customer represents that this paragraph does not violate its procurement or other laws, regulations, or policies.

5. Subscription Fees.

51 **Recurring Fees.** Unless stated differently in an applicable addendum, Incorporated Documents or otherwise arranged in writing with Motorola, Services will be provided in exchange for annual pre-paid Subscription Fees. Motorola will submit an invoice for the first year of subscription fees on the Effective Date. On each anniversary of the Effective Date, Motorola will issue an invoice for the annual subscription fees for the following year.

51.1 **No Purchase Order Requirement.** For a Subscription Services Term exceeding one year, Customer affirms that a purchase order or notice to proceed is not required for Motorola to proceed with the entire scope of work described in the Incorporated Documents for subsequent years, including but not limited to multi-year subscription agreements.

52 **Start Up Fees.** Start up fees apply to certain Subscription Services. If the Subscription Service includes start up fees, Motorola will submit an invoice for the start up fees on the Effective Date.

53 **Fee Change.** Motorola reserves the right to change the subscription fees at the end of each Subscription Services Term. Except for any payment that is due on the Effective Date, Customer will make payments to Motorola within thirty (30) days after the date of each invoice. Motorola reserves the right to terminate Service for non-payment of fees.

54 **No Price Guarantee.** Notwithstanding any language to the contrary, the pricing and fees associated with this Agreement will not be subject to any most favored pricing commitment or other similar low price guarantees.

55 **Taxes.** The Subscription Fees and start up fees do not include any excise, sales, lease, use, property, or other taxes, assessments or duties, all of which will be paid by Customer, except as exempt by law. If Motorola is required to pay any of those taxes, it will send an invoice to Customer and Customer will pay to Motorola the amount of the taxes (including any interest and penalties) within thirty (30) days after the date of the invoice. Motorola will be solely responsible for reporting taxes on its income or net worth.

6. ACCEPTANCE; SCHEDULE; FORCE MAJEURE

61 **Acceptance.** The Licensed Products will be deemed accepted upon the delivery of usernames and passwords or other validation mechanism to Customer. If usernames and passwords have been issued to Customer prior to the Effective Date, the Licensed Products will be deemed accepted on the Effective Date.

62 **Schedule.** All Subscription Services will be performed in accordance with the performance schedule included in the Statement of Work, or if there is no performance schedule, within a commercially reasonable time period.

63 **Force Majeure.** Neither Party will be liable for its non-performance or delayed performance if caused by a Force Majeure. Each Party will notify the other in writing if it becomes aware of any Force Majeure that will significantly delay performance. The notifying Party will give the notice promptly (but in no event later than fifteen (15) days) after it discovers the Force Majeure.

7. LIMITED LICENSE

7.1 **Licensed Products.** Use of the Licensed Products by Customer and its Users is strictly limited to use in connection with the Solution or Subscription Services during the Term. Customer and Users will refrain from, and will require others to refrain from, doing any of the following with regard to the Software in the Solution: (i) directly or indirectly, by electronic or other means, copy, modify, or translate the Software; (ii) directly or indirectly, by electronic or other means, reproduce, reverse engineer, distribute, sell, publish, commercially exploit, rent, lease, sublicense, assign or otherwise transfer or make available the Licensed Products or any part thereof to any third party, or otherwise disseminate the Licensed Product in any manner; (iii) directly or indirectly, by electronic or other means, modify, decompile, or disassemble the Software or part thereof, or attempt to derive source code from the Software; or (iv) remove any proprietary notices, labels, or marks on the Software or any part of the Licensed Products. Motorola Solutions reserves all rights to the Software and other Licensed Products not expressly granted herein, including without limitation, all right, title and interest in any improvements or derivatives conceived of or made by Motorola that are based, either in whole or in part, on knowledge gained from Customer Data. Customer agrees to abide by the copyright laws of the United States and all other relevant jurisdictions, including without limitation, the copyright laws where Customer uses the Solution. Customer agrees to immediately cease using the Solution if it fails to comply with this paragraph or any other part of this Agreement. If Software is subject to a click wrap, end user license agreement or is otherwise packaged with or subject to a separate end user license, such license will apply to the use of Software and Licensed Product.

7.2 **Proprietary Rights.** Regardless of any contrary provision in the Agreement, Motorola or its third party providers own and retain all of their respective Proprietary Rights in the Software, Solution, and Licensed Product. Nothing in this Agreement is intended to restrict their Proprietary Rights. All intellectual property developed, originated, or prepared by Motorola in connection with providing Services to Customer remain vested exclusively in Motorola, and this Agreement does not grant to Customer any shared development rights of intellectual property. No custom development work is to be performed under

this Agreement.

8. DATA AND FEEDBACK

81 **Solution Data.** To the extent permitted by law, Motorola, its vendors and licensors are the exclusive owners of all right, title, and interest, in and to the Solution Data, including all intellectual property rights therein. Motorola grants Customer a personal, royalty-free, non-exclusive license to: (i) access, view, use, copy, and store the Solution Data for its internal business purposes and, (ii) when specifically permitted by the applicable Statement of Work, publish Solution Data on its websites for viewing by the public.

82 **Customer Data.** To the extent permitted by law, Customer retains ownership of Customer Data. Customer grants Motorola and its subcontractors a personal, royalty-free, non-exclusive license to use, host, cache, store, reproduce, copy, modify combine, analyze, create derivatives from, communicate, transmit, publish, display, and distribute such Customer Data for the purpose of providing the Subscription Services to Customer, other Motorola Customers and end users, including without limitation, the right to use Customer Data for the purpose of developing new or enhanced solutions. In addition to the rights listed above, Customer grants Motorola a license to sell an Anonymized version of Customer Data for any purpose.

83 **Feedback.** Any Feedback given by Customer is entirely voluntary and, even if designated as confidential, will create no confidentiality obligation for Motorola. Motorola is free to use, reproduce, license or otherwise distribute and exploit the Feedback without any obligation to Customer. Customer acknowledges that Motorola's receipt of the Feedback does not imply or create recognition by Motorola of either the novelty or originality of any idea. The parties further agree that all fixes, modifications and improvement to the Licensed Product or Subscription Service conceived of or made by Motorola that are based, either in whole or in part, on the Feedback are the exclusive property of Motorola and all right, title and interest in and to such fixes, modifications or improvements to the Licensed Product or Subscription Service will vest solely in Motorola.

9 WARRANTY

9.1 **"AS IS".** THE SOLUTION AND SUBSCRIPTION SERVICES ARE PROVIDED "AS IS". MOTOROLA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. Customer acknowledges that the Deliverables may contain recommendations, suggestions or advice from Motorola to Customer (collectively, "Recommendations"). Motorola makes no warranties concerning those Recommendations, and Customer alone accepts responsibility for choosing whether and how to implement the Recommendations and the results to be realized from implementing them.

9.2 **Availability and Accuracy.** Customer acknowledges that functionality of the Solution as well as availability and accuracy of Solution Data is dependent on many elements beyond Motorola's control, including databases managed by Customer or third parties and Customer's existing equipment, software, and Customer Data. Therefore, Motorola does not guarantee availability or accuracy of data, or any minimum level of coverage or connectivity. Interruption or interference with the Subscription Services or Solution may periodically occur. Customer agrees not to represent to any third party that Motorola has provided such guarantee.

9.3 **Equipment Sale.** Warranty for any equipment sold pursuant to this Agreement will be set forth in Equipment Purchase Addendum.

10. DISCLAIMERS

10.1 **Existing Equipment and Software.** If Customer's existing equipment and software is critical to

operation and use of the Subscription Services, Customer is solely responsible for supporting and maintaining Customer's existing equipment and software. Connection to or interface with Customer's existing equipment and software may be required to receive Subscription Services. Any failures or deficiencies of Customer's existing equipment and software may impact the functionality of the Solution and the Subscription Services to be delivered. Any vulnerabilities or inefficiencies in Customer's system may also impact the Solution and associated Subscription Services.

102 **Privacy.** Customer bears sole responsibility for compliance with any laws and regulations regarding tracking; location based services; gathering, storing, processing, transmitting, using or misusing; or otherwise handling personally identifiable information ("PII"), including information about Users of the Solution or citizens in the general public. Further, it is Customer's sole responsibility to comply with any laws or regulations prescribing the measures to be taken in the event of breach of privacy or accidental disclosure of any PII. Enacting and enforcing any internal privacy policies for the protection of PII, including individual disclosure and consent mechanisms, limitations on use of the information, and commitments with respect to the storage, use, deletion and processing of PII in a manner that complies with applicable laws and regulations will be Customer's sole responsibility. Motorola will not evaluate the sufficiency of such policies and disclaims any responsibility or liability for privacy practices implemented by Customer, or lack thereof. Customer acknowledges and agrees that Subscription Services and the Solution are not designed to ensure individual privacy. Customer will inform Users that the Solution may enable visibility to PII, as well as physical location of individuals. Further, if the Solution or Subscription Services are available to the general public pursuant to this Agreement, Customer will provide the appropriate privacy notification. Neither Motorola nor Customer can provide any assurance of individual privacy in connection with the Solution. Further, Customer is solely responsible for determining whether and how to use data gathered from social media sources for the purpose of criminal investigations or prosecution. Customer will hold Motorola harmless from any and all liability, expense, judgment, suit, or cause of action, which may accrue against Motorola for causes of action for damages related to tracking, location based services, breach of privacy, and the use or misuse of PII provided that Motorola gives Customer prompt, written notice of any such claim or suit. Motorola shall cooperate with Customer in its defense or settlement of such claim or suit.

103 **Social Media.** If Customer purchases Subscription Services that utilize social media, Customer acknowledges and agrees that such Subscription Services are not designed to ensure individual privacy. In such case, Customer will inform Users that the Solution and Subscription Services may enable visibility to PII, as well as physical location of individuals. Further, if the Solution or Subscription Services are available to the general public pursuant to this Agreement, Customer will provide the appropriate privacy notification. Neither Motorola nor Customer can provide any assurance of individual privacy in connection with the Solution or Subscription Services utilizing social media. Further, Customer is solely responsible for determining whether and how to use data gathered from social media sources for the purpose of criminal investigations or prosecution. Customer will hold Motorola harmless from any and all liability, expense, judgment, suit, or cause of action, which may accrue against Motorola for causes of action for damages related to tracking, location based services, breach of privacy, and the use or misuse of PII provided that Motorola gives Customer prompt, written notice of any such claim or suit. Motorola shall cooperate with Customer in its defense or settlement of such claim or suit.

104 **Misuse.** Motorola reserves the right to discontinue service at any time without notice to Users that misuse the Service, jeopardize the Licensed Product or public safety in any way.

11. LIMITATION OF LIABILITY

11.1 **Liability Limit.** Except for personal injury or death, Motorola's total liability, whether for breach of contract, warranty, negligence, strict liability in tort, or otherwise, will be limited to the direct damages recoverable under law, but not to exceed the price of twelve (12) months of Subscription Services provided under this Agreement. **ALTHOUGH THE PARTIES ACKNOWLEDGE THE POSSIBILITY OF**

SUCH LOSSES OR DAMAGES, THEY AGREE THAT MOTOROLA WILL NOT BE LIABLE FOR ANY COMMERCIAL LOSS; INCONVENIENCE; LOSS OF USE, TIME, DATA, GOODWILL, REVENUES, PROFITS OR SAVINGS; OR OTHER SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES IN ANY WAY RELATED TO OR ARISING FROM THIS AGREEMENT OR THE PERFORMANCE OF THE SUBSCRIPTION SERVICES BY MOTOROLA. This limitation of liability provision survives the expiration or termination of this Agreement and applies notwithstanding any contrary provision. No action for contract breach or otherwise relating to the transactions contemplated by this Agreement may be brought more than one (1) year after the accrual of the cause of action, except for money due upon an open account.

112 **Additional Disclaimers.** MOTOROLA DISCLAIMS ANY AND ALL LIABILITY FOR ANY AND ALL LOSS OR COSTS OF ANY KIND ASSOCIATED WITH 1) THE INTERRUPTION, INTERFERENCE OR FAILURE OF CONNECTIVITY, VULNERABILITIES OR SECURITY EVENTS, WHETHER OR NOT THEY ARE DISCOVERED BY MOTOROLA; 2) PERFORMANCE OF CUSTOMER'S EXISTING EQUIPMENT AND SOFTWARE OR ACCURACY OF CUSTOMER DATA; 3) IF ANY PORTION OF THE SOLUTION OR LICENSED PRODUCT RESIDES ON CUSTOMER'S PREMISES, DISRUPTIONS OF AND/OR DAMAGE TO CUSTOMER'S OR A THIRD PARTY'S INFORMATION SYSTEMS, EQUIPMENT, AND THE INFORMATION AND DATA, INCLUDING, BUT NOT LIMITED TO, DENIAL OF ACCESS TO A LEGITIMATE SYSTEM USER, AUTOMATIC SHUTDOWN OF INFORMATION SYSTEMS CAUSED BY INTRUSION DETECTION SOFTWARE OR HARDWARE, OR FAILURE OF THE INFORMATION SYSTEM RESULTING FROM THE PROVISION OR DELIVERY OF THE SERVICE; 4) AVAILABILITY OR ACCURACY OF SOLUTION DATA; 5) INTERPRETATION, USE OR MISUSE IN ANY WAY OF SOLUTION DATA; 6) IMPLEMENTATION OF RECOMMENDATIONS PROVIDED IN CONNECTION WITH THE SUBSCRIPTION SERVICES; 7) TRACKING, AND LOCATION BASED SERVICES, BREACH OF PRIVACY, AND THE USE OR MISUSE OF PERSONALLY IDENTIFIABLE INFORMATION.

113 **Essential term.** The parties acknowledge that the prices have been set and the Agreement entered into in reliance upon these limitations of liability and that all such limitations form an essential basis of the bargain between the parties.

12 DEFAULT AND TERMINATION

121 **Default By a Party.** If either Party fails to perform a material obligation under this Agreement, the other Party may consider the non-performing Party to be in default (unless a Force Majeure causes the failure) and may assert a default claim by giving the non-performing Party a written, detailed notice of default. Except for a default by Customer for failing to pay any amount when due under this Agreement which must be cured immediately, the defaulting Party will have thirty (30) days after receipt of the notice of default to either cure the default or, if the default is not curable within thirty (30) days, provide a written cure plan. The defaulting Party will begin implementing the cure plan immediately after receipt of notice by the other Party that it approves the plan. If Customer is the defaulting Party, Motorola may stop work on the project until it approves the Customer's cure plan.

122 **Failure To Cure.** If a defaulting Party fails to cure the default as provided above in Section 12.1, unless otherwise agreed in writing, the non-defaulting Party may terminate any unfulfilled portion of this Agreement. In the event of a termination for default, the defaulting Party will promptly return to the non-defaulting Party any of its Confidential Information. If Customer is the non-defaulting Party, terminates this Agreement as permitted by this Section, and procures the Services through a third party, Customer may as its exclusive remedy recover from Motorola reasonable costs incurred to procure the Services (but not additional or out of scope services) less the unpaid portion of the Contract Price. Customer agrees to mitigate damages and provide Motorola with detailed invoices substantiating the

charges.

123 **No Refund.** If a subscription is terminated for any reason prior to the end of the Subscription Services Term or other subscription period set forth in the Incorporated Documents or otherwise agreed to in writing by the Parties, no refund or credit will be provided.

124 **Cancellation Fee.** If an Initial Minimum Term applies and Customer terminates prior to the end of the Initial Minimum Term, Customer will be required to pay a cancellation fee of up to fifty percent (50%) of the remaining balance of subscription fees for the Initial Minimum Term.

125 **Return of Discount.** If Customer is afforded a discount in exchange for a term commitment longer than one year, early termination will result in an early termination fee, representing a return of the discount off of list price.

126 **Return Confidential Information.** Upon termination or expiration of the Agreement, Customer will return or certify the destruction of all Confidential Information and Solution Data.

127 **Connection Terminated.** Certain Subscription Services require a connection to Customer systems to access Customer Data (e.g. predictive or analytic services). Upon termination, connection to relevant data sources will be disconnected and Motorola will no longer extract any CustomerData.

128 **Equipment Return.** Any equipment provided by Motorola for use with the Subscription Services, must be returned within thirty (30) days of the date of termination, at Customer's expense. If equipment is not returned within this time frame, Motorola reserves the right to invoice the Customer for the purchase price of the unreturned equipment.

129 **Five Year Term.** Motorola provides equipment for use in connection with certain Subscription Services. Upon expiration and non-renewal of a five (5) year subscription Term, Title to the equipment will automatically transfer to Customer upon the subscription expiration date.

13. DISPUTES

13.1 **Settlement.** The parties will attempt to settle any dispute arising from this Agreement (except for a claim relating to intellectual property or breach of confidentiality) through consultation and a spirit of mutual cooperation. The dispute will be escalated to appropriate higher-level managers of the parties, if necessary. If cooperative efforts fail, the dispute will be mediated by a mediator chosen jointly by the parties within thirty (30) days after notice by one of the parties demanding non-binding mediation. The parties will not unreasonably withhold consent to the selection of a mediator, will share the cost of the mediation equally, may agree to postpone mediation until they have completed some specified but limited discovery about the dispute, and may replace mediation with some other form of non-binding alternative dispute resolution ("ADR").

13.2 **Litigation.** A Party may submit to a court of competent jurisdiction any claim relating to intellectual property, breach of confidentiality, or any dispute that cannot be resolved between the parties through negotiation or mediation within two (2) months after the date of the initial demand for non-binding mediation. Each Party consents to jurisdiction over it by that court. The use of ADR procedures will not be considered under the doctrine of laches, waiver, or estoppel to affect adversely the rights of either Party. Either Party may resort to the judicial proceedings described in this section before the expiration of the two-month ADR period if good faith efforts to resolve the dispute under these procedures have been

unsuccessful; or interim relief from the court is necessary to prevent serious and irreparable injury to the Party.

14. SECURITY.

14.1 **Industry Standard.** Motorola will maintain industry standard security measures to protect the Solution from intrusion, breach, or corruption. During the term of Agreement, if the Solution enables access to Criminal Justice Information (“CJI”), as defined by the Criminal Justice Information Services Security Policy (“CJIS”), Motorola will provide and comply with a CJIS Security Addendum. Any additional Security measure desired by Customer may be available for an additional fee.

14.2 **Background checks.** Motorola will require its personnel that access CJI to submit to a background check based on submission of FBI fingerprint cards.

14.3 **Customer Security Measures.** Customer is independently responsible for establishing and maintaining its own policies and procedures and for ensuring compliance with CJIS and other security requirements that are outside the scope of the Subscription Services provided. Customer must establish and ensure compliance with access control policies and procedures, including password security measures. Further, Customer must maintain industry standard security and protective data privacy measures. Motorola disclaims any responsibility or liability whatsoever for the security or preservation of Customer Data or Solution Data once accessed or viewed by Customer or its representatives. Motorola further disclaims any responsibility or liability whatsoever that relates to or arise from Customer's failure to maintain industry standard security and data privacy measures and controls, including but not limited to lost or stolen passwords. Motorola reserves the right to terminate the Service if Customer's failure to maintain or comply with industry standard security and control measures negatively impacts the Service, Solution, or Motorola's own security measures.

14.4 **Breach Response Plan.** Both parties will maintain and follow a breach response plan consistent with the standards of their respective industries.

15. CONFIDENTIAL INFORMATION AND PROPRIETARY RIGHTS

15.1. CONFIDENTIAL INFORMATION.

15.1.1. **Treatment of Confidential Information.** During the term of this Agreement, the parties may provide each other with Confidential Information. Licensed Products, and all Deliverables will be deemed to be Motorola's Confidential Information. Each Party will: maintain the confidentiality of the other Party's Confidential Information and not disclose it to any third party, except as authorized by the disclosing Party in writing or as required by a court of competent jurisdiction; restrict disclosure of the Confidential Information to its employees who have a “need to know” and not copy or reproduce the Confidential Information; take necessary and appropriate precautions to guard the confidentiality of the Confidential Information, including informing its employees who handle the Confidential Information that it is confidential and is not to be disclosed to others, but those precautions will be at least the same degree of care that the receiving Party applies to its own confidential information and will not be less than reasonable care; and use the Confidential Information only in furtherance of the performance of this Agreement or pursuant to the license granted immediately below.

15.1.2. **Ownership of Confidential Information.** The disclosing Party owns and retains all of its Proprietary Rights in and to its Confidential Information, except the disclosing Party hereby grants to the receiving Party the limited right and license, on a non-exclusive, irrevocable, and royalty-free basis, to use

the Confidential Information for any lawful, internal business purpose in the manner and to the extent permitted by this Agreement.

15.2 PRESERVATION OF PROPRIETARY RIGHTS.

15.2.1 Proprietary Solution. Customer acknowledges that the Licensed Products and any associated Documentation, data, and methodologies used in providing Services are proprietary to Motorola or its third party licensors and contain valuable trade secrets. In accordance with this Agreement, Customer and its employees shall treat the Solution and all Proprietary Rights as Confidential Information and will maintain the strictest confidence.

15.2.2. Ownership. Each Party owns and retains all of its Proprietary Rights that exist on the Effective Date. Motorola owns and retains all Proprietary Rights that are developed, originated, or prepared in connection with providing the Deliverables or Services to Customer, and this Agreement does not grant to Customer any shared development rights. At Motorola's request and expense, Customer will execute all papers and provide reasonable assistance to Motorola to enable Motorola to establish the Proprietary Rights. Unless otherwise explicitly stated herein, this Agreement does not restrict a Party concerning its own Proprietary Rights and is not a grant (either directly or by implication, estoppel, or otherwise) of a Party's Proprietary Rights to the other Party.

15.3 Remedies. Because Licensed Products contain valuable trade secrets and proprietary information of Motorola, its vendors and licensors, Customer acknowledges and agrees that any actual or threatened breach of this Section will constitute immediate, irreparable harm to Motorola for which monetary damages would be an inadequate remedy, and that injunctive relief is an appropriate remedy for such breach. Notwithstanding anything in this Agreement to the contrary, Motorola reserves the right to obtain injunctive relief and any other appropriate remedies from any court of competent jurisdiction in connection with any actual, alleged, or suspected breach of Section 3, infringement, misappropriation or violation of Motorola's Property Rights, or the unauthorized use of Motorola's Confidential Information. Any such action or proceeding may be brought in any court of competent jurisdiction. Except as otherwise expressly provided in this Agreement, the parties' rights and remedies under this Agreement are cumulative.

16. GENERAL

16.1 Future Regulatory Requirements. The Parties acknowledge and agree that this is an evolving technological area and therefore, laws and regulations regarding Subscription Services and use of the Solution may change. Changes to existing Subscription Services or Solution required to achieve regulatory compliance may be available for an additional fee. Any required changes may also impact the Fees for services.

16.2 Compliance with Applicable Laws. Each Party will comply with all applicable federal, state, and local laws, regulations and rules concerning the performance of this Agreement. Further, Customer will comply with all applicable export and import control laws and regulations in its use of the Licensed Products and Subscription Services. In particular, Customer will not export or re-export the Licensed Products without Motorola's prior written consent, and, if such consent is granted, without Customer first obtaining all required United States and foreign government licenses. Customer further agrees to comply with all applicable laws and regulations in providing the Customer Data to Motorola, and Customer warrants and represents to Motorola that Customer has all rights necessary to provide such Customer Data to Motorola for the uses as contemplated hereunder. Customer shall obtain at its indemnify expense

all necessary licenses, permits and regulatory approvals required by any and all governmental authorities as may from time to time be required in connection with its activities related to this Agreement. To the extent permitted by applicable law, Customer will defend, indemnify, and hold harmless Motorola from and against any violation of such laws or regulations by Customer or any of its agents, officers, directors, or employees.

16.3 **Audit.** Motorola reserves the right to monitor and audit use of the Subscription Services. Customer will cooperate and will require Users to cooperate with such monitoring or audit.

16.4 **Assignability.** Except as provided herein, neither Party may assign this Agreement or any of its rights or obligations hereunder without the prior written consent of the other Party, which consent will not be unreasonably withheld. Any attempted assignment, delegation, or transfer without the necessary consent will be void. Notwithstanding the foregoing, Motorola may assign this Agreement to any of its affiliates or its right to receive payment without the prior consent of Customer. In addition, in the event Motorola separates one or more of its businesses (each a "Separated Business"), whether by way of a sale, establishment of a joint venture, spin-off or otherwise (each a "Separation Event"), Motorola may, without the prior written consent of the other Party and at no additional cost to Motorola, assign this Agreement such that it will continue to benefit the Separated Business and its affiliates (and Motorola and its affiliates, to the extent applicable) following the Separation Event. Motorola may subcontract any of the work, but subcontracting will not relieve Motorola of its duties under this Agreement.

16.5 **Subcontracting.** Motorola may subcontract any portion of the Subscription Services without prior notice or consent of Customer.

16.6 **Waiver.** Failure or delay by either Party to exercise a right or power will not be a waiver of the right or power. For a waiver of a right or power to be effective, it must be in a writing signed by the waiving Party. An effective waiver of a right or power will not be construed as either a future or continuing waiver of that same right or power, or the waiver of any other right or power.

16.7 **Severability.** If a court of competent jurisdiction renders any part of this Agreement invalid or otherwise unenforceable, that part will be severed and the remainder of this Agreement will continue in full force and effect.

16.8 **Independent Contractors.** Each Party will perform its duties under this Agreement as an independent contractor. The parties and their personnel will not be considered to be employees or agents of the other Party. Nothing in this Agreement will be interpreted as granting either Party the right or authority to make commitments of any kind for the other. This Agreement will not constitute, create, or be interpreted as a joint venture, partnership or formal business organization of any kind.

16.9 **Headings.** The section headings in this Agreement are inserted only for convenience and are not to be construed as part of this Agreement or as a limitation of the scope of the particular section to which the heading refers. This Agreement will be fairly interpreted in accordance with its terms and conditions and not for or against either Party.

16.10 **Governing Law.** This Agreement and the rights and duties of the parties will be governed by and interpreted in accordance with the laws of the State of Illinois.

16.11 **Notices.** Notices required under this Agreement to be given by one Party to the other must be in writing and either personally delivered or sent to the address provided by the other Party by certified mail, return receipt requested and postage prepaid (or by a recognized courier service, such as Federal Express, UPS, or DHL), or by facsimile with correct answerback received, and will be effective upon receipt.

16.12 **Authority To Execute Agreement.** Each Party represents that it has obtained all necessary approvals, consents and authorizations to enter into this Agreement and to perform its duties under this Agreement; the person executing this Agreement on its behalf has the authority to do so; upon execution and delivery of this Agreement by the parties, it is a valid and binding contract, enforceable in accordance with its terms; and the execution, delivery, and performance of this Agreement does not violate any bylaw, charter, regulation, law or any other governing authority of the Party.

16.13 **Return of Equipment.** Upon termination of the contract for any reason, Customer shall return to Motorola all equipment delivered to Customer, if any.

16.14 **Survival Of Terms.** The following provisions survives the expiration or termination of this Agreement for any reason: if any payment obligations exist, Section 5 (Subscription Fees); Section 11 (Limitation of Liability); Section 12 (Default and Termination); Section 13 (Disputes); Section 15 (Confidential Information and Proprietary Rights);; and all General provisions in Section 16.

16.15 **ENTIRE AGREEMENT.** This Agreement and any Incorporated Documents or related attachments constitute the entire agreement of the Parties regarding the subject matter of this Agreement and supersedes all previous agreements, proposals, and understandings, whether written or oral, relating to this subject matter. This Agreement may be amended or modified only by a written instrument signed by authorized representatives of both Parties. The preprinted terms and conditions found on any Customer purchase or purchase order, acknowledgment or other form will not be considered an amendment or modification of this Agreement, even if a representative of each Party signs that document.

In witness whereof, the parties hereto have executed this Agreement as of the Effective Date.

SMARTPTT PLUS
FOR ALL MOTOTRBO SYSTEMS

SmartPTT

SmartPTT PLUS is a control room solution that's closely integrated into the MOTOTRBO system infrastructure to deliver flexible and scalable console functionality. Based around an IP network, it gives you smooth scalability so that your system can grow with your organization's needs.

The solution's IP connectivity also enables you to deploy SmartPTT PLUS as a distributed system, with consoles located wherever you need them. A highly customizable user interface allows you to manage your organization in the way that suits you best. The solution is modular, so you only need to buy the functionality you need.

Additional reference materials including ordering guides, brochures, manuals can be found at :

- MOL (<https://businessonline.motorolasolutions.com>) located at: MOL Resource Center > Product Info > Systems > MOTOTRBO > Sold and Supported
- SmartPTT (<http://www.smartptt.com>) or 1-786-362-5525

SmartPTT PLUS New License

Three components must be ordered for new licence key: 1 SmartPTT PLUS Core, 1 or multiple Connectivity Module and Subscriber Licences for each radio in the radio system. Optional modules can be added for further functionality.

SmartPTT PLUS CORE

The SmartPTT PLUS Core software package consists of the following elements:

·Core functions: Voice Dispatch, Fleet Administration, Event Logging, Alarm & Lone Worker, Man Down, Text Messages and Email, Job Ticketing and Telemetry. (NOTE: Job Ticketing not supported on Connect Plus or Capacity Max, Telemetry not supported on Connect Plus)

·1 Radio Server licence, 1 Dispatcher licence and 10 Subscriber Licences.

·1 free year software updates.

The Core must be ordered for new SmartPTT PLUS solution along with one or multiple Connectivity Module and Radio Licences which will open access to the radio systems and the numbers of radios the Dispatcher will connect to. Further functionality can be added with optional modules with the initial order or aftermarket.

Connectivity Modules

One Connectivity module must be ordered for each radio system that the SmartPTT PLUS console will be dispatching to. To connect to multiple systems, multiple connectivity modules are required.

SMARTPTT PLUS IPSC CONNECTIVITY

This module opens SmartPTT PLUS connectivity to one IP Site Connect system.

SMARTPTT PLUS CAP+ CONNECTIVITY

This module opens SmartPTT PLUS connectivity to one Capacity Plus system.

SMARTPTT PLUS LCP CONNECTIVITY

This module opens SmartPTT PLUS connectivity to one Linked Capacity Plus system.

SMARTPTT PLUS CONNECT+ CONNECTIVITY

This module opens SmartPTT PLUS connectivity to one Connect Plus system.

SMARTPTT PLUS CAPACITY MAX CONNECTIVITY

This module opens SmartPTT PLUS connectivity to one Connect Plus system.

SMARTPTT PLUS 4-WIRE E&M CONNECTIVITY

Opens SmartPTT PLUS connectivity to one analog 4-wire E&M system. Calls in the 4-wire system are transformed into group calls in the MOTOTRBO system and vice versa.

Subscriber Licenses

One Subscriber License must be purchased for each radio used in the MOTOTRBO system. Note: 10 radios licences are included in SmartPTT PLUS Core package. For example: if there are 120 radios, then 110 SmartPTT PLUS Subscriber Licenses need to be ordered.

Subscriber licences can also be purchased aftermarket, 10 units is the minimum.

Optional Modules

In addition to the key functionality provided in SmartPTT PLUS Core, further functionality can be added by purchasing optional modules.

These functional modules or additional dispatcher client and radio server can be purchased with the initial order or aftermarket to expand an existing SmartPTT PLUS licence key.

Dispatch positions and Radio Servers

SMARTPTT PLUS ADD DISPATCHER

The Additional Dispatcher adds support for one additional Dispatcher Client. Note: One dispatcher is included with the core.

SMARTPTT PLUS BACK-UP RADIO SERVER

The Additional Radio Server adds support for one additional Radio Server for redundancy (back-up server).

SMARTPTT PLUS ADD RADIO SERVER

The Additional Radio Server adds support for one additional Radio Server for multiple server architecture. (Seldom used, if you think this is needed please contact your MSI Sales Rep.)

Functional Modules

SMARTPTT PLUS IP SYSTEM BRIDGE

The IP System Bridge provides bridging capability between two or more radio systems. It enables communications between radios located on different networks with permanent and dynamic bridging of voice and data calls. Supported in: IPSC, Cap Plus, LCP, and with limited functionality in Connect Plus.

SMARTPTT PLUS VOICE RECORDING

The Voice Recording module provides advanced voice recording capabilities: all calls recorded, inc. individual calls, audio files stored in MP3 format on Radio Server and Dispatcher, files can be played back from the Dispatcher console event viewer or any standard sound player.

Supported in: IPSC, Capacity Plus, LCP, Capacity Max, and Connect Plus systems.

SMARTPTT PLUS LOCATION POSITIONING

The Location Positioning module expands SmartPTT PLUS Core with location-based functionalities including: GPS and/or GLONASS location, speed and direction of radio users, location logs and full history of movements, geofencing and speed policy and route management.

Supported in: IPSC, Capacity Plus, LCP, Capacity Max, and Connect Plus systems.

SMARTPTT PLUS PHONE CONNECT

The Phone Connect module enables integration with phone systems and allows users to make and receive phone calls from radios or the dispatcher console. Supported in: IPSC, Capacity Plus, LCP, and Capacity Max systems.

SMARTPTT PLUS RF COVERAGE MONITORING

The RF Coverage Monitoring module provides a graphical representation of the network coverage area based on RSSI level of the received signals from GPS-enabled MOTOTRBO radios. This module only works with the Location Positioning module.

Supported in: IPSC, Capacity Plus, LCP, and Capacity Max systems.

SMARTPTT PLUS SYSTEM MONITORING

The System Monitoring module provides advanced analytics on the performance and utilization of the MOTOTRBO systems including: real-time voice and data activity monitoring, system topology, network diagnostics and control, alarm log and alarm notifications, RF Coverage Monitoring, Monitoring analytics and reports.

Supported in: IPSC, Capacity Plus, LCP, and Connect Plus systems (Note: RF Coverage Monitoring is not available as part of System Monitoring for Connect PLUS systems)

SMARTPTT PLUS WEB DATA CLIENT

The Web Data Client module allows access to SmartPTT PLUS data functionality from a web interface. Data functionality includes: radio check and radio kill, real-time location monitoring with detailed reports, text messaging and radio registration. The module gives access to 5 registered web client users. Supported in: IPSC, Capacity Plus, LCP, Capacity Max, and Connect Plus systems.

SMARTPTT PLUS INDOOR POSITIONING

The Indoor Positioning module allows SmartPTT PLUS to receive location information from indoor location hardware beacons, and to use this information to track and display the location of radios that are indoors. The Indoor Positioning module works in conjunction with third-party indoor location software and hardware (beacons and/or option boards). Supported in: IPSC, Capacity Plus, LCP, and Capacity Max systems.

Annual Software Maintenance

When SmartPTT PLUS Core is purchased, a year of free SmartPTT PLUS software updates and support is provided. After a year, the Annual SW Updates and Support licence must be purchased. The Annual SW Updates and Support license entitles the customer to unlimited SmartPTT PLUS SW updates (all new releases and maintenance releases;) SmartPTT PLUS license updates and restores; and SmartPTT PLUS technical phone support. To request a quote please download and complete the request form from MOL Resource Center > Product Info > Systems > MOTOTRBO > SAS.

Upgrade from Enterprise to PLUS

The upgrade path from SmartPTT Enterprise to SmartPTT PLUS is as follows: all radio licences, system connectivity and functional modules in the Enterprise licence are transferred to the PLUS licence. Customers need to purchase:

- The Connectivity module(s) for the system(s) for which they want to connect
- The Upgrade Subscriber Licence for each radio in the system. This is waived for SmartPTT Enterprise consoles purchased before May 31, 2016
- If new functionality is required, additional functional modules must be added
- Also, NAI Data and Voice licences need to be activated on the repeaters, except in Connect Plus and Capacity Max systems.

To request a quote please complete this online request form:

US VERSION					
		GW3-TRBO®			
		FOR MOTOTRBO			

MAXIMIZE INVESTMENT. ENSURE AVAILABILITY. OPTIMIZE PERFORMANCE.

Managing a radio system can be overwhelming. Trying to make sense of system activity and equipment alarms is challenging enough when RF or IT is not your first language. Attempting to translate that information into what it means, in terms of system availability and health, is difficult and time consuming. What you need is a trusted and simple solution with detailed reporting and analysis presented in an intuitive way. Let GW3-TRBO® do the heavy lifting with a centralized and comprehensive monitoring and management solution that will provide you with the complete picture.

GW3-TRBO is a Windows-based software solution that monitors and proactively manages all data collected from a MOTOTRBO® System(s). By using this software, System Administrators are able to maintain constant visibility into how their system is performing, which helps them to make more informed and data-driven decisions regarding their radio resources. This user-friendly software solution helps to ensure system availability, optimize system performance and maximize

Reference materials including ordering guides, brochures, solution briefs, and manuals are available at: genesishworld.com/resources or by calling +1 877-548-0465 or by emailing sales@genesishworld.com

GW3-TRBO Network Management Software for Capacity Max (L3633)

GW3-TRBO REQUIRES IP connectivity to: Trunk Controller(s), System Advisor(s), VRC Gateway(s), and all repeaters. GW3-TRBO for Capacity Max (L3633) includes

Licensing:					
1 GW3-TRBO Capacity Max Monitoring License					
6 Capacity Max Site Monitoring Licenses					
1 GW3-TRBO Client Connection					
Archive For Up To 6 Months					
1 Year Software Warranty					

Core Modules:

GW3-TRBO Network Management Software for Capacity Max (L3633)

STEP 1:

GW3-TRBO Network Management Host Software:

MSRP

L3633	GW3-TRBO Network Management Host Software for Capacity Max	\$18,500.00
	Software USB drive and remote Genesis installation support included. Includes licenses for monitoring up to 6 sites of Capacity Max. *Note: PC not included.	

OR

L3597	GW3-TRBO MOL Add-On Model	\$0.00
	This should only be ordered to add features or capacity to an EXISTING GW3-TRBO solution.	

STEP 2:

GW3-TRBO Software Licensing:

MSRP

TT05276AA	GW3-TRBO Additional 1 Site Monitoring	\$2,000.00
	1 Additional Site Monitoring Input. Above those included in the base package (L3633) for Capacity Max.	
TT05706AA	GW3-TRBO Additional 10 Sites Monitoring	\$13,600.00
	10 Additional Site Monitoring Inputs. Above those included in the base package (L3633) for Capacity Max.	
TT05488AA	GW3-TRBO Additional 1 Simultaneous Client License	\$6,800.00
	1 Additional Client Software license. This option allows the additional connection of a Client to the GW3 Host. Client software can be installed on as many machines as desired, but only the licensed quantity of clients can be connected to the Host at one time. *Note: PC not included.	
TT05596AA	GW3-TRBO Archive Up to 12 Months	\$4,000.00
	Archives MOTOTRBO Activity to SQL database for up to 12 months. *Note: Requires MS SQL Server Standard not included.	
TT05282AA	GW3-TRBO GenSPOut	\$1,000.00
	Includes 1 Connection. Allows a customizable data feed from GW3-TRBO to other devices such as voice recorders, consoles, etc. This is a one way data feed via TCP/IP, COM, etc.	
TT06068AA	GW3-TRBO GenSPOut 1 Additional Connection	\$600.00
	1 Additional Licensed Connection. To add-on to GenSPOut Base.	
TT05721AA	GW3-TRBO Interface to RFI Advanced Power Monitor (APM)	\$3,300.00
	Includes 5 APM Connection Licenses. GW3-TRBO polls the Advanced Power Monitor for its current power levels at user-defined intervals. The levels are shown as they are reported, and can be filtered and color-coded for easy viewing. Requires one connection license per APM. *Note: APM hardware devices not included.	
TT05722AA	GW3-TRBO Interface to RFI APM 1 Additional Connection	\$264.00
	1 Additional APM Connection. Includes a connection to the Advanced Power Monitor to poll for its current power levels at user-defined intervals. Requires one connection license per APM. *Note: APM hardware devices not included.	

		STEP 3:			
GW3-TRBO Hardware:				MSRP	
DDN1537	GW3-TRBO Host Computer			\$4,200.00	
	Machine to meet or exceed specifications published for Desktop Host at: genesisworld.com/trbospecs for the GW3-TRBO Host PC. Includes 4 Year NBD Service Warranty, Windows OS, MS Excel & MS SQL Express. Also, includes a wired mouse, keyboard, monitor, UPS Battery Backup, and mouse pad. If system has more than 1,200 subscribers or more than 6 sites, order a GW3-TRBO Host Server.				
DDN1538	GW3-TRBO Server Host			\$14,688.00	
	REQUIRED for any system that has more than 1,200 subscribers or more than 6 sites. Machine to meet or exceed specifications published for Server Host at: genesisworld.com/trbospecs for the GW3-TRBO Server PC. Includes 5 Year NBD Service Warranty, Windows OS Server, MS Excel & MS SQL Server Standard. Also includes a standard bezel and static rails.				
DDN1539	GW3-TRBO Client Workstation			\$4,200.00	
	Machine to meet or exceed specifications published for Client at: genesisworld.com/trbospecs for the GW3-TRBO Client PC. Includes 4 Year NBD Service Warranty, Windows OS, MS Excel & MS SQL Express. Also, includes a wired mouse, keyboard, monitor, and mouse pad.				
TT05159AA	GW3-TRBO External Alarm Relay Box			\$720.00	
	USB hardware box that closes up to 8 relays based on GW3-Trigger events. Use this to turn on alarms, lights, etc. *Note: must be located on the GW3-TRBO host.				
		STEP 4:			
Extended GW3-TRBO Software Support:				MSRP	
TT3321A	Additional 12 months GW3-TRBO software support for L3633 package. Includes support for up to 6 sites and 1 client. Must order			\$4,500.00	
TT06320AA	Additional 12 months GW3-TRBO software support for 1 additional site or client.			\$360.00

GW3-TRBO Network Management Software for Capacity Plus / Multi-Site Capacity Plus / IP Site Connect (L3619)

STEP 1:

GW3-TRBO Network Management Host Software:				MSRP
L3619	GW3-TRBO Network Management Host Software for: Capacity Plus, Multi-Site Capacity Plus, IP Site Connect			\$13,200.00
	Software USB drive and remote Genesis installation support included. Includes licenses for monitoring 3 sites of Capacity Plus / Multi-Site Capacity Plus or 3 peer networks of IPSC. *Note: PC not included.			
		OR		
L3597	GW3-TRBO MOL Add-On Model			\$0.00
	This should only be ordered to add features or capacity to an EXISTING GW3-TRBO solution.			
		STEP 2:		
GW3-TRBO Software Licensing:				MSRP
TT05276AA	GW3-TRBO Additional 1 Site Monitoring			\$2,000.00
	1 Additional Site Monitoring Input. Above those included in the base package (L3619) for Capacity Plus / Multi-Site Capacity Plus. 1 Additional peer network input for IP Site Connected networks above the quantity included in the base packages.			
TT05706AA	GW3-TRBO Additional 10 Sites Monitoring			\$13,600.00
	10 Additional Site Monitoring Inputs. Above those included in the base package (L3619) for Capacity Plus / Multi-Site Capacity Plus. 10 Additional peer network inputs for IP Site Connected networks above the quantity included in the base packages.			
TT05488AA	GW3-TRBO Additional 1 Simultaneous Client License			\$6,800.00
	1 Additional Client Software license. This option allows the additional connection of a Clients to the GW3 Host. Client software can be installed on as many machines as desired, but only the licensed quantity of clients can be connected to the Host at one time. *Note: PC not included.			
TT05596AA	GW3-TRBO Archive Up to 12 Months			\$4,000.00
	Archives MOTOTRBO Activity to SQL database for up to 12 months. *Note: Requires MS SQL Server Standard not included.			
TT05282AA	GW3-TRBO GenSPOut			\$1,000.00
	Includes 1 Connection. Allows a customizable data feed from GW3-TRBO to other devices such as voice recorders, consoles, etc. This is a one way data feed via TCP/IP, COM, etc.			
TT06068AA	GW3-TRBO GenSPOut 1 Additional Connection			\$600.00
	1 Additional Licensed Connection. To add-on to GenSPOut Base.			
TT05721AA	GW3-TRBO Interface to RFI Advanced Power Monitor (APM)			\$3,300.00
	Includes 5 APM Connection Licenses. GW3-TRBO polls the Advanced Power Monitor for its current power levels at user-defined intervals. The levels are shown as they are reported, and can be filtered and color-coded for easy viewing. Requires one connection license per APM. *Note: APM hardware devices not included.			
TT05722AA	GW3-TRBO Interface to RFI APM 1 Additional Connection			\$264.00
	1 Additional APM Connection. Includes a connection to the Advanced Power Monitor to poll for its current power levels at user-defined intervals. Requires one connection license per APM. *Note: APM hardware devices not included.			
TT05520AA	GW3-TRBO Upgrade to Capacity Max or Connect Plus for users who own L3619 Host			\$5,000.00
	For users who own L3619 Host.			

		STEP 3:			
GW3-TRBO Hardware:					MSRP
DDN1537	GW3-TRBO Host Computer				\$4,200.00
	Machine to meet or exceed specifications published for Desktop Host at: genesisworld.com/trbospecs for the GW3-TRBO Host PC. Includes 4 Year NBD Service Warranty, Windows OS, MS Excel & MS SQL Express. Also, includes a wired mouse, keyboard, monitor, UPS Battery Backup, and mouse pad. If system has more than 1,200 subscribers or more than 6 sites, order a GW3-TRBO Host Server.				
DDN1538	GW3-TRBO Server Host				\$14,688.00
	REQUIRED for any system that has more than 1,200 subscribers or more than 6 sites. Machine to meet or exceed specifications published for Server Host at: genesisworld.com/trbospecs for the GW3-TRBO Server PC. Includes 5 Year NBD Service Warranty, Windows OS Server, MS Excel & MS SQL Server Standard. Also includes a standard bezel and static rails.				
DDN1539	GW3-TRBO Client Workstation				\$4,200.00
	Machine to meet or exceed specifications published for Client at: genesisworld.com/trbospecs for the GW3-TRBO Client PC. Includes 4 Year NBD Service Warranty, Windows OS, MS Excel & MS SQL Express. Also, includes a wired mouse, keyboard, monitor, and mouse pad.				
TT05159AA	GW3-TRBO External Alarm Relay Box				\$720.00
	USB hardware box that closes up to 8 relays based on GW3-TRBO Trigger events. Use this to turn on alarms, lights, etc. *Note: must be located on the GW3-TRBO host.				
		STEP 4:			
Extended GW3-TRBO Software Support:					MSRP
TT3320A	Additional 12 months GW3-TRBO software support for L3619 package. Includes support for up to 3 sites and 1 client. Must order additional sites/clients as needed.				\$3,175.00
TT06320AA	Additional 12 months GW3-TRBO software support for 1 additional site or client.				\$360.00

GW3-TRBO Network Management Software for Connect Plus (L3620)

STEP 1:

GW3-TRBO Network Management Host Software:

MSRP

L3620	GW3-TRBO Network Management Host Software for Connect Plus		\$19,800.00
	Software USB drive and remote Genesis installation support included. Includes licenses for monitoring up to 6 sites of Connect Plus. *Note: PC not included.		

OR

L3597	GW3-TRBO MOL Add-On Model		\$0.00
	This should only be ordered to add features or capacity to an EXISTING GW3-TRBO solution.		

STEP 2:

GW3-TRBO Software Licensing:

MSRP

TT05276AA	GW3-TRBO Additional 1 Site Monitoring		\$2,000.00
	1 Additional Site Monitoring Input. Above those included in the base package (L3620) for Connect Plus.		
TT05706AA	GW3-TRBO Additional 10 Sites Monitoring		\$13,600.00
	10 Additional Site Monitoring Inputs. Above those included in the base package (L3620) for Connect Plus.		
TT05488AA	GW3-TRBO Additional 1 Simultaneous Client License		\$6,800.00
	1 Additional Client Software license. This option allows the additional connection of a Client to the GW3 Host. Client software can be installed on as many machines as desired, but only the licensed quantity of clients can be connected to the Host at one time. *Note: PC not included.		
TT05596AA	GW3-TRBO Archive Up to 12 Months		\$4,000.00
	Archives MOTOTRBO Activity to SQL database for up to 12 months. *Note: Requires MS SQL Server Standard not included.		
TT05282AA	GW3-TRBO GenSPOut		\$1,000.00
	Includes 1 Connection. Allows a customizable data feed from GW3-TRBO to other devices such as voice recorders, consoles, etc. This is a one way data feed via TCP/IP, COM, etc.		
TT06068AA	GW3-TRBO GenSPOut 1 Additional Connection		\$600.00
	1 Additional Licensed Connection. To add-on to GenSPOut Base.		
TT05721AA	GW3-TRBO Interface to RFI Advanced Power Monitor (APM)		\$3,300.00
	Includes 5 APM Connection Licenses. GW3-TRBO polls the Advanced Power Monitor for its current power levels at user-defined intervals. The levels are shown as they are reported, and can be filtered and color-coded for easy viewing. Requires one connection license per APM. *Note: APM hardware devices not included.		
TT05722AA	GW3-TRBO Interface to RFI APM 1 Additional Connection		\$264.00
	1 Additional APM Connection. Includes a connection to the Advanced Power Monitor to poll for its current power levels at user-defined intervals. Requires one connection license per APM. *Note: APM hardware devices not included.		

		STEP 3:			
GW3-TRBO Hardware:				MSRP	
DDN1537	GW3-TRBO Host Computer			\$4,200.00	
	Machine to meet or exceed specifications published for Desktop Host at: genesisworld.com/trbospecs for the GW3-TRBO Host PC. Includes 4 Year NBD Service Warranty, Windows OS, MS Excel & MS SQL Express. Also, includes a wired mouse, keyboard, monitor, UPS Battery Backup, and mouse pad. SCOUT™ CONSOLE
FOR MOTOTRBO™ TRUNKING SYSTEMS

GENERAL INFORMATION:

Avtec's Scout™ is a VoIP (Voice over Internet Protocol) wire-line console intended for commercial and operation-critical Connect Plus trunking systems. Avtec Inc. is a technology leader for dispatch consoles with over 30 years of history designing and implementing dispatch console solutions all over the world.

As a qualified MOTOTORBO Application Provider, Avtec has enhanced their Scout console to integrate it with Connect Plus systems as part of the MOTOTRBO Application Development Program.

Key SCOUT console system features include:

- Scalable architecture from 1-60 console positions.
- Dedicated media workstation for console audio.
- True IP architecture.
- Customizable graphical user interface.
- Supports live system updates.
- Integrates with third party CAD.
- Integrates with SIP telephone systems.
- Integrates with IP-enabled logging recorders.

Visit www.avtecinc.com for literature information on Avtec Scout console for Linked Capacity Plus, Connect Plus, and Capacity Max systems.

How to request a quote:

To request a quote for a Scout console system, complete this online request form at <http://goo.gl/forms/A2vKhI024CZnPkuu2>

TRBOnet PLUS FOR ALL MOTOTRBO SYSTEMS

TRBOnet PLUS

TRBOnet PLUS is a control room solution that's closely integrated into the MOTOTRBO system infrastructure to deliver flexible and scalable console functionality. Based around an IP network, it gives you smooth scalability so that your system can grow with your organization's needs.

The solution's IP connectivity also enables you to deploy TRBOnet PLUS as a distributed system, with consoles located wherever you need them. A highly customizable user interface allows you to manage your organization in the way that suits you best. The solution is modular, so you only need to buy the functionality you need.

Additional reference materials including ordering guides, brochures, manuals, and software can be found at :

MOL (<https://businessonline.motorolasolutions.com>) located at: MOL Resource Center > Product Info > Systems > MOTOTRBO > SAS

TRBOnet (<http://www.TRBOnet.com>) or 1-872-222-8726

TRBOnet PLUS New License

Three components must be ordered for new licence key: 1 TRBOnet PLUS Core, 1 or multiple Connectivity Module and Subscriber Licences for each radio in the radio system. Optional modules can be added for further functionality.

TRBOnet PLUS CORE

The TRBOnet PLUS Core software package consists of the following elements:

·Core functions: Voice Dispatch, Fleet Administration, Event Logging, Alarm & Lone Worker, Man Down, Text Messages and Email, Job Ticketing and Telemetry. (NOTE: Job Ticketing not supported on Connect Plus or Capacity Max, Telemetry not supported on Connect Plus)

·1 Radio Server licence, 1 Dispatcher licence and 10 Subscriber Licences.

·1 free year software updates.

The Core must be ordered for new TRBOnet PLUS solution along with one or multiple Connectivity Module and Radio Licences which will open access to the radio systems and the numbers of radios the Dispatcher will connect to. Further functionality can be added with optional modules with the initial order or aftermarket.

Connectivity Modules

One Connectivity module must be ordered for each radio system that the TRBOnet PLUS console will be dispatching to. To connect to multiple systems, multiple connectivity modules are required.

TRBOnet PLUS IPSC CONNECTIVITY

This module opens TRBOnet PLUS connectivity to one IP Site Connect system.

TRBOnet PLUS CAP+ CONNECTIVITY

This module opens TRBOnet PLUS connectivity to one Capacity Plus system.

TRBOnet PLUS LCP CONNECTIVITY

This module opens TRBOnet PLUS connectivity to one Linked Capacity Plus system.

TRBOnet PLUS CONNECT+ CONNECTIVITY

This module opens TRBOnet PLUS connectivity to one Connect Plus system.

TRBOnet PLUS CAPACITY MAX CONNECTIVITY

This module opens TRBOnet PLUS connectivity to one Connect Plus system.

Subscriber Licenses

One Subscriber Licence must be purchased for each radio used in the MOTOTRBO system. Note: 10 radios licences are included in TRBOnet PLUS Core package. For example: if there are 120 radios, then 110 TRBOnet PLUS Subscriber Licenses need to be ordered. Subscriber licences can also be purchased aftermarket, 10 units is the minimum.

Optional Modules

In addition to the key functionality provided in TRBOnet PLUS Core, further functionality can be added by purchasing optional modules.

These functional modules or additional dispatcher client and radio server can be purchased with the initial order or aftermarket to expand an existing TRBOnet PLUS licence key.

Dispatch positions and Radio Servers

TRBOnet PLUS ADDITIONAL DISPATCHER

The Additional Dispatcher adds support for one additional Dispatcher Client. Note: One dispatcher is included with the core.

TRBOnet PLUS BACK-UP RADIO SERVER

The Additional Radio Server adds support for one additional Radio Server for redundancy (back-up server).

TRBOnet PLUS ADDITIONAL RADIO SERVER

The Additional Radio Server adds support for one additional Radio Server for multiple server architecture. (Seldom used, if you think this is needed please contact your MSI Sales Rep.)

Functional Modules

TRBOnet PLUS IP SYSTEM BRIDGE

The IP System Bridge provides bridging capability between two or more radio systems. It enables communications between radios located on different networks with permanent and dynamic bridging of voice and data calls. Supported in: IPSC, Cap Plus, LCP, and with limited functionality in Connect Plus.

TRBOnet PLUS VOICE RECORDING

The Voice Recording module provides advanced voice recording capabilities: all calls recorded, inc. individual calls, audio files stored in MP3 format on Radio Server and Dispatcher, files can be played back from the Dispatcher console event viewer or any standard sound player.

Supported in: IPSC, Capacity Plus, LCP, Capacity Max, and Connect Plus systems.

TRBOnet PLUS LOCATION POSITIONING

The Location Positioning module expands TRBOnet PLUS Core with location-based functionalities including: GPS and/or GLONASS location, speed and direction of radio users, location logs and full history of movements, geofencing and speed policy and route management.

Supported in: IPSC, Capacity Plus, LCP, Capacity Max, and Connect Plus systems.

TRBOnet PLUS PHONE CONNECT

The Phone Connect module enables integration with phone systems and allows users to make and receive phone calls from radios or the dispatcher console. Supported in: IPSC, Capacity Plus, LCP, and Capacity Max systems.

TRBOnet PLUS RF COVERAGE MONITORING

The RF Coverage Monitoring module provides a graphical representation of the network coverage area based on RSSI level of the received signals from GPS-enabled MOTOTRBO radios. This module only works with the Location Positioning module.

Supported in: IPSC, Capacity Plus, LCP, and Capacity Max systems.

TRBOnet PLUS EXTENDED ALARM MANAGEMENT

The Extended Alarm Management module enables TRBOnet PLUS to manage alarms from different sources, including external alarm panels via TCP/IP and RS232.

Supported in: IPSC, Cap Plus, LCP, Capacity Max, and Connect Plus systems

TRBOnet PLUS WEB DATA CLIENT

The Web Data Client module allows access to TRBOnet PLUS data functionality from a web interface. Data functionality includes: radio check and radio kill, real-time location monitoring with detailed reports, text messaging and radio registration. The module gives access to 5 registered web client users. Supported in: IPSC, Capacity Plus, LCP, Capacity Max, and Connect Plus systems.

TRBOnet PLUS INDOOR POSITIONING

The Indoor Positioning module allows TRBOnet PLUS to receive location information from indoor location hardware beacons, and to use this information to track and display the location of radios that are indoors. The Indoor Positioning module works in conjunction with third-party indoor location software and hardware (beacons and/or option boards).

Supported in: IPSC, Capacity Plus, LCP, and Capacity Max systems.

Annual Software Maintenance

When TRBOnet PLUS Core is purchased, a year of free TRBOnet PLUS software updates and support is provided. After a year, the Annual SW Updates and Support licence must be purchased. The Annual SW Updates and Support license entitles the customer to unlimited TRBOnet PLUS SW updates (all new releases and maintenance releases;) TRBOnet PLUS license updates and restores; and TRBOnet PLUS technical phone support. To request a quote please download and complete the request form from MOL Resource Center > Product Info > Systems > MOTOTRBO > SAS.

Upgrade from Enterprise to PLUS

The upgrade path from TRBOnet Enterprise to TRBOnet PLUS is as follows: all radio licences, system connectivity and functional modules in the Enterprise licence are transferred to the PLUS licence. Customers need to purchase:

- The Connectivity module(s) for the system(s) they want to connect to
- The Upgrade Subscriber Licence for each radio in the system. This is waived for TRBOnet Enterprise consoles purchased before May 31, 2016
- If new functionality is required, additional functional modules must be added
- Also, NAI Data and Voice licences need to be activated on the repeaters, except in Connect Plus and Capacity Max systems.

To request a quote please complete this online request form:

MTR3000 MOTOTRBO & ANALOG CONVENTIONAL BASE RADIO GENERAL INFORMATION

RESELLER PRICES

Please note: The MTR3000 Repeater has been discontinued and is no longer available for purchase. The below software and accessory sections for this repeater will be retained for reference purposes.

MSRP

Premium System Software:

Use the part numbers below to purchase Premium Software feature Entitlement ID's (EID) for the MTR3000 repeaters. You will receive the EID via an e-mail. Use the MOTOTRBO CPS/RM to register the serial number and activate the specific feature in the firmware of the desired unit. Internet connection is required during the registration, but the activation can be done offline.

Premium Software Features included in Essential SW & Repair Services (NEW PURCHASES)	MTR 3000
Enhanced GPS	5 Years
Digital Voting	5 Years
Dynamic Mixed Mode	5 Years
IP Repeater Programming	5 Years

Prices effective 9/30/19

DDN9957	HI-SPEED USB CABLE 6FT (TYPE A -B)	\$20.00
HKLN4439*	Capacity Plus Repeater License	\$1,925.00
HKVN4110*	Linked Capacity Plus New System Deployment	\$5,773.00
HKVN4112*	Linked Capacity Plus Upgrade from Capacity Plus	\$3,850.00
HKVN4324	Capacity Max Repeater License	\$6,927.00
HKVN4243**	Digital Voting Operation	\$1,444.00
HKVN4044	Dynamic Mixed Mode Software Upgrade	\$289.00
HKVN4047	IP Repeater Programming and Upgrade License	\$289.00
	Activate in the MOTOTRBO CPS 6.0 or later. Once activated, the CPS can connect to an unlimited number of repeaters, one at a time.	
HKVN4055**	Enhanced GPS	\$866.00
HKVN4066**	Digital Telephone Interconnect Upgrade	\$674.00
HKVN4178*	Restricted Access to System Security	\$0.00
HKVN4208*	Data Network Application Interface (IP Wireline Data Gateway)	\$866.00
HKVN4209*	Voice Network Application Interface (IP Wireline Voice Gateway) for use with AVTEC SCOUT and WAVE	\$289.00

* These System level options must be used to enable the corresponding feature in All Repeaters in the Radio system: both voice and data revert.

** These software options are to be enabled only in the Repeaters that will support the specific feature (e.g. Enhanced GPS in the Data Revert Repeaters and Telephone Interconnect in the voice Repeater that is connected to the phone patch box and Digital Voting Only in the Voting Repeater).

US VERSION

MCD 5000 DESKSET SYSTEM DESKSET AND RADIO GATEWAY UNIT

The MCD 5000 Deskset System is a powerful and easy-to-deploy VoIP solution which can now connect to your MOTOTRBO system. You can now reach all of your field personnel using MOTOTRBO from the MCD 5000 Deskset. Ideal for dispatch environments, back-up sites, alternate locations, special events and call monitoring. Scalable from small operations to complex control centers and geographically disbursed operations. The system is easy to use allowing timely and efficient management of your radio communications. With IP technology, you have the flexibility to quickly install desksets where you need them using your IP network infrastructure. You can easily expand communication capabilities throughout your organization for increased safety, awareness and coordination.

GENERAL INFORMATION:

SIMPLE AND FLEXIBLE

The MCD 5000 Deskset connects over your IP network to MCD 5000 Radio Gateway Units (RGUs), each of which supports up to four Motorola radios. The inherent flexibility of this solution allows you to tailor configurations from a single deskset and a single radio to multiple desksets and multiple radios. Further increasing your capabilities, the MCD 5000 Deskset allows deskset users to dynamically switch between MCD 5000 RGUs.

Flexible communication options allow the use of the handset, Push-To-Talk (PTT) switch and built-in condenser microphone, or headset, footswitch and desk microphone accessories.

THE INCREASED FUNCTIONALITY OF MOTOTRBO

Combine the cost-effective and adaptable MCD 5000 Deskset System with MOTOTRBO digital two way communications for increased clarity, capacity and efficiency. The MCD 5000 Deskset System supports MOTOTRBO IP Site Connect, MOTOTRBO Capacity Plus, MOTOTRBO Linked Capacity Plus, MOTOTRBO Connect Plus and MOTOTRBO Capacity Max systems.

The MOTOTRBO digital platform rejects static and noise so communication is clearer over a far wider area than analog. Data applications also run more efficiently, creating an optimal environment for field personnel.

The MCD 5000 Deskset System and MOTOTRBO together create an ideal solution for corporation and university campuses, hotel complexes, hospitals, utilities and any remote field office and command centers that need broad, flexible and affordable communications.

CONFIGURATION AND REPORTING TOOLS

Provide timely support and save travel time when you remotely access your system to configure and troubleshoot the MCD 5000 Deskset and RGU using the MCD 5000 Deskset System Configuration Tool (CT) application. You can also run reports and perform queries for information you need to make real-time decisions.

Supervisor reporting tools allow monitoring of each MCD 5000 Deskset System devices (MCD 5000 Deskset/MCD 5000 RGU) to enhance training and operational efficiencies.

RADIO EMULATION & CONTROL

The MCD 5000 Deskset emulates the buttons and display of the connected MOTOTRBO radio and performs all the functions of the radio control head.

There are also soft keys that can be customized to the unique needs of installations and users for quick control of the standard functions of each radio. For increased security, user profiles can establish which radio resources are allowed to be seen and accessed.

Radio features capable from the Deskset vary from simple 'talk and listen' to Virtual Control Head access to functions of the 2-way radio (PTT IDs, Emergencies, Call Alerts and other advanced signaling for Motorola radios).

An activity log on each MCD 5000 Deskset displays the last operations performed by the user as well as received transmissions.

FEATURES SUPPORTED

--Emergency Alarm and Call	--Talk, Listen
--Channel Steer/Talk Group Select	--PTT Alias ID
--Private, Group and All Call	--Scan
--Voice and Emergency Interrupt	--Keypad Texting

COMPONENTS

The MCD 5000 Deskset System consists of the following components:

MCD 5000 DESKSET - IP-based deskset that provides dispatch capability when connected to a radio. Each MCD 5000 Deskset can only connect to and monitor one radio channel at a time.

DESKSET AUDIO ACCESSORIES (optional) – each MCD 5000 Deskset is capable of supporting one Desktop Paddle Microphone or one Headset Jackbox in addition to a Push-To-Talk (PTT) Foot Switch.

MCD 5000 RADIO GATEWAY UNIT (RGU) – is used to connect radios to the MCD 5000 Deskset System. Each MCD 5000 RGU can interface up to 4 radios to the MCD 5000 Deskset System IP network. A MCD 5000 Deskset user can create a talkpath over the IP network to a radio resource connected to the MCD 5000 RGU. The MCD 5000 Deskset can only connect to and monitor one radio channel at a time.

IP NETWORK –can be deployable on customer's existing WAN/LAN IP Network or on a dedicated IP network for the deskset system.

TWO-WAY RADIO DEVICES – MOTOTRBO XPR5550e Control Station are used with the MCD 5000 Deskset to provide access to the customer's Land Mobile radio (LMR) system.

CONFIGURATION TOOL (CT) APPLICATION – used to configure all parameters and settings on the MCD 5000 Deskset and MCD 5000 RGU. The CT Application can be located remotely anywhere on the IP network or locally using Ethernet connection. The CT Client PC runs on Microsoft Windows® 7 (64-bit) or Windows 10 Pro (64-bit) or Windows 10 IoT Enterprise LTSB 2015/2016 (64-bit) OS.

RESOURCES:

- MCD 5000 Deskset System manuals can be found on MOL - <https://motonline.mot-solutions.com>
Resource Center/Software/Two-Way/Dispatch Console/MCD 5000 Deskset System

ORDERING REQUIREMENTS:

STEP 1: ORDER THE MCD 5000 DESKSET

MCD 5000 Deskset is a desktop console that provides digital control to a variety of Motorola radios. The MCD 5000 Deskset may connect directly to a radio or it may connect to a selected radio over an IP network via the MCD 5000 Radio Gateway Unit (RGU). Through the digital control link the MCD 5000 Deskset emulates the control head of the radio allowing the deskset to perform all the functions that can be performed using the radio control head.

Below are the ordering instructions:

1. Order the MCD 5000 Deskset Hardware (F2380) - Required
2. Order a MCD 5000 Deskset Power Supply for each MCD 5000 Deskset (FHN7469A) - Required

3. Order an ETHERNET CABLE (FKN8695) for each MCD 5000 Deskset to connect to LAN Switch - Required. Available through MSI or may be customer provided.
-- Ethernet Cable 10' with Red and Black (FKN8695)

4. Dependent on Deskset Configuration - Order RADIO INTERFACE CABLE to connect radio to deskset directly if not using a MCD 5000 RGU.

-- FKN0012 - Cable - MCD 5000 to MOTOTRBO XPR5550e Control Station

STEP 2: ORDER MCD 5000 DESKSET ACCESSORIES - OPTIONAL

The MCD 5000 Deskset ships standard with a built-in condenser microphone, an internal front panel speaker, and a K-style handset with a Push-To-Talk (PTT) button.

In addition, the following **OPTIONAL** MCD 5000 Deskset accessories are also available for ordering:

MCD 5000 Deskset Wall Mount Kit (FHN7394) - Max of 1 per deskset

PTT Footswitch (BLN6732B) - Max of 1 per deskset

Desktop Paddle Microphone (RMN5068) OR MCD 5000 Headset Jackbox (FHN7470) - Max of 1 per deskset

Local Logging Cable (FKN8696) to connect a generic analog voice logger to deskset - Max of 1 per deskset

VIP Cable (FKN8697) - Max of 1 per deskset

NOTE: The Desktop Paddle Microphone and Headset cannot be used simultaneously since they use the same connector on the MCD 5000 Deskset.

Below are the ordering instructions:

1. Order a MCD 5000 Deskset Wall Mount Kit (FHN7394) for each MCD 5000 Deskset - Optional

2. Order a PTT Footswitch (BLN6732B) for each MCD 5000 Deskset - Optional

NOTE: Each MCD 5000 Deskset can support up one PTT footswitch. The PTT footswitch provides two foot pedals in a rugged, metal housing with a 7 foot cable. One pedal is used for the general transmit feature while the other pedal is used for the monitor feature.

3. Order a Desktop Paddle Microphone (RMN5068) for each MCD 5000 Deskset - Optional

NOTE: Desktop Paddle Microphone and Headset cannot be used simultaneously since they use the same connector on the MCD 5000 Deskset.

4. Order a Headset for each MCD 5000 Deskset - Optional

- A headset may be used with the MCD 5000 Deskset to allow the deskset user to listen to receive audio and to talk on the radio channel. The MCD 5000 Deskset supports one headset per deskset. The headset must be connected to a MCD 5000 Deskset Headset Jackbox (FHN7470).

- A headset consist of two parts, a base and a top.

- The Headset Base consists of an amplifier unit with volume control, an optional PTT switch, a connector for connecting to the headset jack, a clip for attaching the amplifier to the user's clothing and either a 15 or 25 foot cable for connecting to the jack.

- The Headset Top consists of an earpiece, a microphone, a cable for connecting to the bottom section and a clip for attaching the cable to the user's clothing.

To use a headset with the MCD 5000 Deskset the following **MUST** be ordered per deskset:

Order MCD 5000 Headset Jackbox Hardware (FHN7470)

Order Headset Base - choose base (RLN6098 - Headset Base with PTT switch, 15' CBL) OR (RLN6099A - Headset Base with PTT Switch, 25' CBL)

Order Headset Top - several to choose from - see below:

RMN5150A - EncorePro 510 Over-the-Head Monaural Noise Canceling Headset

RMN5151A - EncorePro 520 Over-the-Head Binaural Noise-Canceling Headset

5. Order a MCD 5000 Logger Cable (FKN8696) for each MCD 5000 Deskset - Optional

NOTE: The MCD 5000 Deskset contains a local 4W-E&M logging output with the ability to connect a generic external voice logger directly to the MCD 5000 Deskset.

6. Order a MCD 5000 VIP Cable (FKN8697) for each MCD 5000 Deskset - Optional

STEP 3: ORDER MCD 5000 RADIO GATEWAY UNITS (RGUs)

MCD 5000 RGU is used to connect radios to the MCD 5000 Deskset System. Each MCD 5000 RGU can interface up to 4 radios to the MCD 5000 Deskset System IP network. A MCD 5000 Deskset user can create a talkpath over the IP network to a radio resource connected to the MCD 5000 RGU. The MCD 5000 Deskset can only connect to and monitor one radio channel at a time.

Below are the ordering instructions:

1. Order the MCD 5000 RGU Hardware (F7879B) - Required

2. Order a MCD 5000 RGU Power Supply for each MCD 5000 RGU (FHN7469A) - Required

3. Order an ETHERNET CABLE for each MCD 5000 RGU to connect to LAN Switch - Required (Available thru MSI or may be customer provided)
-- Ethernet Cable 10' with Red and Black (FKN8695)

4. Order the RADIO INTERFACE CABLE for each radio connected to each MCD 5000 RGU (each RGU can connect up to 4 radios) - Required
-- Cable - MCD 5000 RGU to MOTOTRBO XPR5550e Control Station (FKN0012)

5. Order a RGU RACKMOUNT SHELF (FTN7490) - Optional. Each rackmount can fit up to 2 RGU's.

STEP 4: ORDER THE CONFIGURATION TOOL (CT) APPLICATION CD

The Configuration Tool (CT) application is a Windows based utility, used to configure all parameters and settings on the MCD 5000 Deskset and MCD 5000 RGU. The CT can be located remotely anywhere on the IP network or locally using Ethernet connection. ONE required per system.

Below are the ordering instructions:

1. Order the Configuration Tool (CT) Application CD - ONE REQUIRED per System: FVN5847

2. Order a Configuration Tool (CT) Workstation - TT3492 (Z2 Mini-Win 10) - Optional

3. Order a DVD Drive for the Z2 Mini Workstation - DSF2B56AA (USB EXTERNAL DVD DRIVE FOR Z2 MINI) - Optional

4. Order a Monitor for the Z2 Mini Workstation - DSTG191B (TECH GLOBAL EVOLUTION SERIES 19 INCH NON TOUCH) - Optional

NOTE: CT Application (FVN5847) can be installed on a technician PC and doesn't need to be connected to the MCD 5000 Deskset System at all times.

IMPORTANT NOTE:

Information Assurance (OS Hardening) is orderable for the Z2 Mini Workstation if requested by the customer. OS Hardening removes nonessential tools and utilities from the Windows Operating System, which could be used to help an attacker gain unauthorized access to system settings or data. The hardening process includes several hardening measures, such as closing unused ports, defining password according to definite password rules, and provide limited users privileges.

If IA (OS Hardening) is required, then the CT workstation, TT3492, MUST be supplied from Motorola along with OS Hardening CD - FVN5956. In addition, if the CT Workstation is purchased from Motorola, then order McAfee Windows Anti-Virus Client to install on the workstation - T7885.

If IA OS Hardening is NOT a customer requirement --- below are the CT Application PC requirements for supplying own PC:

Processor: Intel Xeon E5-1603, 2.8 GHz 1066MHz memory Quad Core

System Memory: 4 GB

Free Space on Hard Disk: 10 GB

Network Adapter with LAN 10/100 Mbps

Screen Resolution: 1024 x 768

Operating System: Microsoft Windows 7 Professional SP 1 (64-bit) OR Windows 10 Professional (64-bit) OR Windows 10 IoT Enterprise LTSC 2015/2016 (64-bit)

STEP 5: ORDER SPARES / FIELD REPLACEMENT UNITS (FRUs) - OPTIONAL

FHN7290AS - FRU: K-Style Handset (includes coiled cable) for the MCD 5000 Deskset

FHN7394AS - MCD 5000 Deskset Wall Mount Kit

FKN8696AS - Cable - MCD 5000 Deskset to Logger

FHN7470AS - MCD 5000 Headset Jackbox & Cable

FKN8694AS - Cable - MCD 5000 Deskset to Headset Jackbox

FHN7469AS - MCD 5000 Deskset / RGU Power Supply with USA Power Cord

FKN8695AS - Ethernet Cable 10'

FKN8704AS - Cable - MCD 5000 RGU Ground Cable

FKN0012A- Cable - MCD 5000 RGU to MOTOTRBO XPR5550e Control Station

DSF2B56AA - External DVD Drive for the Z2 Mini Workstation

DSY7B61AA - Vesa Mounting Sleeve for the Z2 Mini Workstation

SLR 8000 REPEATERS 12.5 kHz

Each SLR 8000 Includes:

- 120V AC Power Cord
- 5 Year Essential Repair and Software
- Quick Start Guide

Features:

- 1-100W transmit power
- Integrated 5A battery charger
- Supports Two Simultaneous Voice Paths in Digital TDMA Mode
- Operates in Analog or Digital Mode
- Supports all MOTOTRBO system architectures
- Remote Diagnostics Alarms and Controls (RDAC)
- 100% Continuous Duty Cycle
- Internal Power Supply
- Rack Mountable
- Automated Battery Back-up (Battery sold separately)

*Please also see the list of available Premium Software feature options below which must be purchased in addition to the repeater.

Preselector - If a duplexer is ordered, you MUST order a preselector

CA02989AA	ADD: PRESELECTOR, UHF (350-470MHZ)	\$500.00
CA02986AA	ADD: PRESELECTOR, VHF (136-154MHZ)	\$500.00
CA02987AA	ADD: PRESELECTOR, VHF (150-174MHZ)	\$500.00

External Circulator - If an external circulator is ordered, you MUST also order wireline

CA02991AA	ADD: CIRCULATOR, UHF (403-470 MHz)	\$1,500.00
CA02992AA	ADD: CIRCULATOR, VHF (136-146 MHz)	\$1,500.00
CA02993AA	ADD: CIRCULATOR VHF (144-160MHz)	\$1,500.00
CA02994AA	ADD: CIRCULATOR VHF (158-174MHz)	\$1,500.00
CA03387AA	ADD: CIRCULATOR 800 MHz	\$1,000.00

Antenna Relay - If an antenna relay is ordered, you MUST also order the wireline

CA02995AA	ADD: ANTENNA RELAY	\$250.00
-----------	--------------------	----------

Wireline - If an antenna relay, circulator or Spectra TAC has been ordered, you MUST also order the wireline

CA02996AA	ADD: WIRELINE	\$400.00
-----------	---------------	----------

Power Cable - US AC power cord is included in the standard package, the below options will replace the US standard power cord

CA02968AA	ADD : POWER CABLE, EUROPE	N/C
CA02969AA	ADD : POWER CABLE, UK	N/C
CA02970AA	ADD: POWER CABLE, AUSTRALIA	N/C
CA02972AA	ADD: POWER CABLE BRAZIL	N/C

DC Power Cable

CA02971AA	ADD : POWER CABLE, DC	\$25.00
-----------	-----------------------	---------

Interface Cables

CA02977AA	ADD: AUXILIARY SYSTEM CABLE	\$50.00
CA02978AA	ADD: COMMUNITY REPEATER PANEL CABLE	\$50.00
CA02979AA	ADD: ANALOG/DIGITAL PHONE PATCH CABLE	\$50.00
<u>Factory Test Report</u>		
CA03040AA	ADD: SLR 8000 FACTORY TEST REPORT	N/C
<u>Miscellaneous</u>		
CA03000AA	ADD: BASE STATION OPERATION	N/C
CA03041AA	ADD: SLR 8000 BSIM CD	N/C
<u>Spectra TAC - If Spectra TAC is ordered, you MUST also order the wireline</u>		
CA02999AA	ENH: SPECTRA TAC	\$150.00

SLR 8000 REPEATER ACCESSORIES

RESELLER PRICES

MODEL NUMBER	DESCRIPTION	MSRP
Premium System Software:		

Use the part numbers below to purchase Premium Software feature Entitlement ID's (EID) for the SLR 8000 repeaters. You will receive the EID via an e-mail. Use the MOTOTRBO CPS/RM to register the serial number and activate the specific feature in the firmware of the desired unit. Internet connection is required during the registration, but the activation can be done offline. Premium system software part numbers for the SLR 8000 are the same as the MTR. The SLR 800 repeaters contain an integrated Chassis ID module which retains the MOTOTRBO Premium Software features that were enabled on the unit.

Premium Software Features included in Essential SW & Repair Services (NEW PURCHASES)	SLR 8000
Enhanced GPS	5 Years
Digital Voting	5 Years
Dynamic Mixed Mode	5 Years
IP Repeater Programming	5 Years

Prices effective 9/30/19

HKLN4439*	Capacity Plus Single Site Digital Trunking	\$1,925.00	
HKVN4112*	Linked Capacity Plus Upgrade from Capacity Plus -	\$3,850.00	
HKVN4110*	Linked Capacity Plus New System Deployment -	\$5,773.00	#REF!
HKVN4324*	Capacity Max Repeater License	\$6,927.00	
HKVN4243**	Digital Voting Operation	\$1,444.00	
HKLN4442	RDAC Multiple System Monitoring Upgrade License	\$250.00	
HKVN4044	Dynamic Mixed Mode Upgrade License (Analog & Digital Automatic Call Switching)	\$289.00	
HKVN4055**	Enhanced Scheduled GPS License	\$866.00	
HKVN4178*	Restricted Access to System Security	\$0.00	
HKVN4047	IP Repeater Programming and Upgrade License Activate in the MOTOTRBO CPS 6.0 or later. Once activated,CPS can connect to an unlimited number of repeaters, one at a time.	\$289.00	
HKVN4066**	Digital Telephone Interconnect Upgrade	\$674.00	
HKVN4366A	Digital Local Audio	\$289.00	
HKVN4208*	Data Network Application Interface (IP Wireline Data Gateway)	\$866.00	
HKVN4209*	Voice Network Application Interface (IP Wireline Voice Gateway) for use with AVTEC SCOUT and WAVE	\$289.00	

* These System level options must be used to enable the corresponding feature in All Repeaters in the Radio system: both voice and data revert.

** These software options are to be enabled only in the Repeaters that will support the specific feature (e.g. Enhanced GPS in the Data Revert Repeaters and Telephone Interconnect in the voice Repeater that is connected to the phone patch box and Digital Voting Only in the Voting Repeater).

Infrastructure Repair:

Infrastructure Repair service covers all Motorola-manufactured equipment, as well as equipment from select third-party infrastructure vendors when applicable.

Factory trained and certified technicians troubleshoot, analyze, test, and repair your equipment at Motorola's Infrastructure Depot Operations (IDO).

Upon completion, the repaired unit will be shipped via normal shipping methods. Motorola will pay for outbound shipping via Motorola's normal shipping methods.

For more information, contact your Motorola representative or your Motorola Customer Support Manager.

Infrastructure Repair

<http://ecat.comm.mot.com/ecat/pricebooks/dup/infrep2.htm>

Infrastructure Repair with Advanced Replacement:

Infrastructure Repair with Advanced Replacement service covers all Motorola-manufactured equipment, as well as equipment from select third-party infrastructure vendors when applicable. Factory trained and certified technicians troubleshoot, analyze, test, and repair your equipment at Motorola's Infrastructure Depot Operations (IDO). When available, Motorola will provide Customer with an Advanced Replacement unit(s) or FRU(s) in exchange for Customer's malfunctioning FRU(s). Non-standard configurations, Customer-modified Infrastructure and certain third party Infrastructure are excluded from Advanced Replacement service. Malfunctioning FRU (s) will be evaluated and repaired by IDO and returned to IDO FRU inventory upon completion of repair. Motorola will pay the inbound shipping charges only with use of the Motorola's designated delivery service. Motorola will also pay for outbound shipping via Motorola's normal shipping methods.

SUGGESTED RETAIL

Each SLR 1000 Includes:

- 12V DC Power Cord (Requires 12V power source)
- Wall Mount Bracket
- 5 Year Essential Repair and Software
- Quick Start Guide

Features:

- 1-10W transmit power
- IP65 Rated, UL Outdoor Part 22 (60950-22)
- Supports Two Simultaneous Voice Paths in Digital TDMA Mode
- Operates in Analog or Digital Mode
- Supports all MOTOTRBO system architectures
- Remote Diagnostics Alarms and Controls (RDAC)
- 100% Continuous Duty Cycle
- Pole Mount Kit Sold Separately
- AC Power Supply Sold Separately

Frequencies Not Allowed for SLR 1000:

When using an External Repeater Mounted Antenna, the following frequencies are not allowed for the SLR 1000:
400, 403.2, 422.4, 425, 441.6, 450, 460.8, 475, 480, 499.2, 500

*Please also see the list of available Premium Software feature options below which must be purchased in addition to the repeater.

9175300H06	UHF Duplexer (RoHS) 435-470MHz (5MHz separation RX or TX)	\$1,556.50
9175300H07	UHF Duplexer (RoHS) 470-494MHz (5MHz separation RX or TX)	\$1,518.00
9175300H08	UHF Duplexer (RoHS) 494-512MHz (5MHz separation RX or TX)	\$1,518.00

Tuned Duplexers (for use with standard repeater) - Must Specify Frequency for Tuning

HFD8465	VHF Duplexer, 150-160 MHz (minimum & maximum freq. separation 4.5 MHz/6 MHz)	\$611.00
DSCP10725TUNED	UHF Duplexer - Tuned 406-500 MHz (N-female 4-8 MHz spacing)	\$391.00

Duplexer Cables - An N-Type Male to N-Type Male and N-Type Male to BNC Male cables are needed to connect the XPR8300 to a Duplexer

0112004B04	N - Type Male to N - Type Male 24" (to connect repeater to external duplexer or preselector)	\$124.63
0112004U04	N - Type Male to BNC Male 24" (to connect repeater to external duplexer or preselector)	\$79.20
3082081X01	Right angle N-Type Male to straight N-Type Male 30" (to connect 100W PA to external duplexer/preselector)	\$53.35

Antennas- Contact Dealer Support Services for antennas

Mounting Accessories:

PMLE5031	Wall Mount Bracket Kit	\$216.73
PMLE4548	Rack Mount Duplexer/Filter Enclosure Kit (includes mounting screws)	\$320.00

Preselectors:

HFD8461	VHF Preselector, 144-160 MHz	\$336.00
HFD8462	VHF Preselector, 160-174 MHz	\$336.00
HFE8459	UHF Preselector, 440-474 MHz	\$1,667.67

To order Preselectors TUNED, place your order through Customer Care Services at 800-422-4210.

To order Preselectors UN-TUNED, order directly through Customer Care Services. Preselectors must be mounted externally when using an XPR™ 8300 Repeater.

All preselectors have female type "N" connector. A type "N" male to male connector is required for proper operation (0112004B04 or 0112004U04). The length of the cable depends on your application. Call Customer Care Services to find a cable for your individual application or for additional preselector options.

Infrastructure Repair:

Infrastructure Repair service covers all Motorola-manufactured equipment, as well as equipment from select third-party infrastructure vendors when applicable. Factory trained and certified technicians troubleshoot, analyze, test, and repair your equipment at Motorola's Infrastructure Depot Operations (IDO). Upon completion, the repaired unit will be shipped via normal shipping methods. Motorola will pay for outbound shipping via Motorola's normal shipping methods. For more information, contact your Motorola representative or your Motorola Customer Support Manager.

Infrastructure Repair

Infrastructure Repair with Advanced Replacement:

Infrastructure Repair with Advanced Replacement service covers all Motorola-manufactured equipment, as well as equipment from select third-party infrastructure vendors when applicable. Factory trained and certified technicians troubleshoot, analyze, test, and repair your equipment at Motorola's Infrastructure Depot Operations (IDO). When available, Motorola will provide Customer with an Advanced Replacement unit(s) or FRU(s) in exchange for Customer's malfunctioning FRU(s). Non-standard configurations, Customer-modified Infrastructure and certain third party Infrastructure are excluded from Advanced Replacement service. Malfunctioning FRU (s) will be evaluated and repaired by IDO and returned to IDO FRU inventory upon completion of repair. Motorola will pay the inbound shipping charges only with use of the Motorola's designated delivery service. Motorola will also pay for outbound shipping via Motorola's normal shipping methods.

CAPACITY MAX SYSTEM SERVER (CMSS) FOR MOTOTRBO™ CAPACITY MAX DIGITAL TRUNKING SYSTEMS VHF/UHF/800/900 MHz

The CMSS Includes:

- 2 120 VAC Power Cables
- 1 CPU License Key
- 19" Rack Mounting Kit
- Velcro Strap Kit

Please refer to the MOTOTRBO Capacity Max System Planner for more details on system configurations and trunking features.

General Information:

The CMSS is the heart of our next generation Digital Trunking solution, Capacity Max. The CMSS is a single system-level server that contains three system-level functions, the Trunking Controller, System Advisor Server and MNIS Voice/Radio Command (VRC) Gateway.

MOTOTRBO Capacity Max is the next generation professional digital trunking communications solution that provides more performance, productivity and value for your business. Capacity Max supports up to 15 trunked repeaters for voice and data per site providing capacity for up to 3000 users/site. Additionally you can facilitate up to 6 additional dedicated data ("data revert") repeaters, supporting intensive text, GPS and data use. The architecture is very flexible, and allows for centralized or distributed equipment deployment as required, it's also easy to add more capacity and coverage.

- | | | | |
|----------------------------|---------------------------------------|-------------------|----------------------------|
| - Critical Site Assignment | - Radio & Talkgroup Site Restrictions | - Group Call | - Key Based Authentication |
| - Dynamic Site Assignment | - Enhanced Channel Access | - All Call | - Voice & Data Encryption |
| - Enhanced Registration | - Talkgroup Scan | - Emergency Call | - OTA Programming |
| - Enhanced Roaming | - Group Broadcast Call | - Emergency Alarm | - Advanced Late Entry |

NOTE:

- For Capacity Max to operate in the UHF and VHF bands it requires at least one YG FB8 or FCC Auction Exclusive use channel for control channel at each site. Please refer to FCC 90.187 for additional regulatory compliance
- The Capacity Max System Server, Model #: SQM01SUM0281A, is not available to order on MOL. Channel Partners must go through the Center of Excellence Engineering (CoEE) Team.

[Request Link](#)

- ST Support Services will be mandatory for all Capacity Max System purchases unless the Channel Partner has completed the Capacity Max training requirements. This will be verified by the CoEE Team. Classes can be accessed via the Learning Management Portal on MOL.

Required

Prices effective 9/30/19

MODEL	DESCRIPTION	MSRP
SQM01SUM0281B	Capacity Max System Server	\$17,893.00
Required	This primary CMSS may also run a primary VRC Gateway and/or a primary System Advisor.	
Only one of the following is required:		
HKVN4313	MOTOTRBO Capacity Max Trunking Controller	\$20,204.00
System	The system supports one (1) primary Trunk Controller and up to four (4) additional Trunk Controllers for redundancy. (Note: A system with a Single Site Trunk Controller license only supports	
System	The system supports one (1) primary Trunk Controller and up to four (4) additional Trunk Controllers for redundancy. (Note: A system with a Single Site Trunk Controller license only supports	
Required for Multi-Site Systems:		
HKVN4314	MOTOTRBO Capacity Max Site License Required for multisite systems.	\$8,659.00
	Allows connection of an RF site to the system; needed for each additional RF site beyond the first site, which is included with the Trunk Controller License.	

Capacity Max System-level Licenses

Optional

All System-level licenses must be purchased for both primary and redundant CMSS's

Prices effective 9/30/19

MODEL	DESCRIPTION	MSRP
-------	-------------	------

HKVN4395	MOTOTRBO Capacity Max Single Site to Multi-Site Trunk Controller Expansion Each CMSS with a Single Site Trunk Controller will require its own expansion license (2 per system max).	\$11,545.00
HKVN4315	MOTOTRBO Capacity Max System Advisor License One (1) System Advisor license required for each CMSS running a System Advisor in the system.	\$6,927.00
HKVN4316	MOTOTRBO Capacity Max System Advisor NBI License License required for each CMSS running a System Advisor which has the NBI interface.	\$6,927.00
HKVN4317	MOTOTRBO Capacity Max VRC Gateway License Up to fifteen (15) primary MNIS VRC Gateways supported per system.	\$3,464.00
HKVN4318	MOTOTRBO Capacity Max VRC Gateway Single Talkpath License Up to 100 simultaneous external voice talkpaths supported per primary/alternate MNIS VRC Gateway and up to 1500 total simultaneous external voice talkpaths across all primary/alternate	\$1,444.00
HKVN4321	MOTOTRBO Capacity Max Data Gateway License Optional; Enables the connection of one (1) MNIS Data Gateway to the system; The MNIS Data Gateway provides the wireline data interface to Motorola and/or 3rd party data applications. Up to fifteen (15) primary MNIS Data Gateways supported per system. Up to fifteen (15) alternate MNIS Data Gateways supported per system for redundancy. One (1) license required for each primary MNIS Data Gateway in the system AND they are needed for each CMSS running a Trunk Controller (up to five (5)) in the system. No additional licenses needed for alternate MNIS Data Gateways. (15 MNIS Data Gateways x 5 Trunk Controllers = 75 max licenses per system.) <small>NOTE: MNIS Data Gateway licenses are controlled by the CMSS appliances with the Trunk Controller and are not needed for the primary or alternate MNIS Data Gateways themselves.</small>	\$5,773.00
HKVN4694	MOTOTRBO Capacity Max Site to Support Dynamic Group Number Assignment (DGNA) License Optional; Enables a console operator to add and remove a dynamic talk group to individual radios. One (1) license required for each site with a CMSS and Trunk Controller (TC). For example, if a customer has (2) CMSS's with TC enabled (1 primary, 1 redundant) at 10 Sites, you would need to purchase (20) DGNA licenses.	\$1,255.00

XRC 9100 Trunking Controller FOR MOTOTRBO™ CONNECT PLUS DIGITAL TRUNKING SYSTEMS VHF/UHF/800/900 MHz

NOTICE: The Connect Plus XRC 9100 has been discontinued and is no longer available for purchase. The below model, software and accessory sections for this solution will be retained for

The XRC 9100 Controller Includes:

- 120 VAC Power Cable
- 3 ft. Ethernet Cable
- Quick Start Guide
- 19" Rack Mounting Kit

Please refer to the MOTOTRBO Connect Plus System Planner for more details on system configurations and trunking features.

General Information:

The XRC 9100 is the central call processing equipment in MOTOTRBO™ Connect Plus digital trunking solutions. The XRC 9100 is a powerful multiprocessor computer designed to provide call processing and real-time resource management. The XRC 9100 controller is designed as an Internet Protocol (IP) device that can be configured for Connect Plus single site or multi-site trunking operation.

MOTOTRBO Connect Plus is the next generation professional digital trunking communications solution that provides more performance, productivity and value for your business. Connect Plus supports up to fifteen (15) repeaters per site, which provide twenty-nine (29) slots per site to be used as voice or data resources, and up to two hundred-fifty (250) sites when the XRC 9100 controller is ordered for multi-site operation. Connect Plus Trunking uses 2:1 TDMA technology with a control channel slot based architecture which provides the following key trunking features:

- PTT-ID
- User Priority Levels
- Emergency Call and Alert Operation
- Site Restrictions
- Dynamic Site Assignment
- Busy Queuing and Call Back
- Redundant Controller
- Network Wide All Call
- Site Registration
- Selective Call and Call Alert
- OTA Code Plug Transfer
- Automatic Roaming
- Group Scan across Radio Zones
- Rotating Control Slots

Note: For Connect Plus to operate in the UHF and VHF bands it requires at least one YG FB8 or FCC Auction Exclusive use channel for control channel @ each site.

Please refer to FCC 90.187 for additional regulatory compliance information.

Please refer to FCC 90.187 for additional regulatory compliance information.

XRC 9100 Controller Models & Premium Software Features:

MODEL	DESCRIPTION	MSRP*
TT2653	XRC 9100 Single Site Trunking Controller	\$48,078.00
TT2654	XRC 9100 Multi-Site Trunking Controller	\$57,693.00
HKVN4303	XRC 9100 Multi-Site Upgrade Package	\$9,615.00
HKVN4290	XRC Fast GPS Channel License	\$619.00
TT3718	XRC NID Change License - Requires e-mail address, Serial Number, and new NID required at time of order.	\$8,000.00

Ordering Requirements:

1. One XRC 9100 controller is required per trunking site.
2. If you are purchasing a new system, please include the text "0000" in the Network ID field.
3. If you are purchasing a system expansion, please provide the existing 4 digit (i.e. 0123) "NETWORK ID" when entering the order.
4. All XRC 9100 controllers interconnected for multi-site operation require to have the same NETWORK ID.
5. Existing NETWORK ID and XRC 9100 controller SERIAL NUMBER required when ordering XRC 9100 Multi-Site Upgrade Package (HKVN4303).
6. Uninterrupted Power Supply (UPS) backup required for continuous operation of XRC 9100 controller and networking equipment during power outages.
7. The XRC 9100 controller and other Connect Plus Trunking system equipment can be ordered as part of the Assembled Trunked System (ATS)

program for staging at Motorola CCSI (Customer Center for System Integration).

8. Racks / cabinet equipment is required for system staging at CCSI.

9. Please refer to the Connect Plus System Planner and your Motorola ACES team representative for pre-sale support and system design considerations.

10. A site ID needs to be provided for service during the warranty period. To generate one, please fill out the ""CSP short form"" and send it back to Motorola at CCOF129@email.mot.com . You will be asked to provide a PO if the proper entitlement is not provided. The form and the instructions are available in:

Motorola Online > Resource Center > Services > Warranty Information > Customer Support Plan (CSP) Short Form.

11. Enter one line item for each controller requiring an Upgrade.

12. When ordering an upgrade HKVN4294, please make sure to include the Connect Plus Network ID for the system, the Connect Plus Electronic Serial Number (TRxxxxxx) & e-mail in the appropriate fields for each controller in the order line item notes of the Connect Plus Upgrade Workbook found on MOL. The Serial Number is found via the Network Manager while connected to the specific controller. Not submitting the completed workbook to Motorola (as instructed in the workbook) will delay processing of the order. An e-mail containing the upgrade will be sent to the address entered in the order. Each upgrade is approximately 3M in size. If your e-mail account cannot manage this size file, a CD version of the upgrade will be mailed to you ONLY if HKVN4143 is ordered along with the XRC 9100 Field Upgrade Package.

XRT 9100 Connect Plus Gateway FOR MOTOTRBO™ CONNECT PLUS DIGITAL TRUNKING SYSTEMS VHF/UHF/800/900 MHz

NOTICE: The Connect Plus XRT 9100 has been discontinued and is no longer available for purchase. The below model, software and accessory sections for this solution will be

The XRT 9100 Gateway Includes:

- 120 VAC Power Cable
- 3 ft. Ethernet Cable
- Quick Start Guide
- 19" Rack Mounting Kit

Please refer to the MOTOTRBO Connect Plus System Planner for more details on system configurations and trunking features.

General Information:

XRT 9100 Gateway is designed to perform protocol translation for equipment and applications wishing to interact with the MOTOTRBO™ Connect Plus digital trunking system.

XRT 9100 is an Internet Protocol (IP) based device that allows connectivity from authorized clients that are part of the Motorola Solutions Application Development Partner (ADP) Program.

The XRT 9100 Application Protocol Interface (API) is a published document available to all Motorola Solutions Application Development Partners.

The total number of Talk Paths registered by all clients cannot exceed the number of registered talk paths IDs licensed for the XRT 9100 which is a maximum of 750 with the 1.6 Release. Please refer to the XRT 9100 Gateway User Guide for Talk Path definition.

The number of licensed Talk Paths determines how many Group and Private IDs can be registered by all clients, but not the maximum number of simultaneous calls.

The maximum number of simultaneous calls on a single XRT 9100 has increased from 30 to 100 with the 1.6 Release.

R1.2 supports Emergency Alert to console and Network Wide All Call from console.

XRT 9100 Gateway Models:

MODEL	DESCRIPTION	MSRP
TT2657	XRT 9100 Gateway (No Registered ID)	\$8,876.00
HKVN4305	XRT 9100 Connect Plus Talk Path 10-Pack (Used with TT2657 - now fulfilled via EID - 1.6 Release and above only).	\$4,328.00
HKVN4306	XRT 9100 Connect Plus Talk Path 100-Pack (Used with TT2657 - now fulfilled via EID - 1.6 Release and above only).	\$39,940.00
HKVN4578	CAPACITY MAX BRIDGE SERVICE LICENSE (E-mail required, see migration notes below in red).	\$0.00

Ordering Requirements:

1. The XRT 9100 Gateway is only required on Connect Plus systems needing Avtec Scout™ or Genesis GW3-TRBO® (this may also be required for future ADP applications on Connect Plus).
2. Uninterrupted Power Supply (UPS) backup required for continuous operation of XRT 9100 Gateway and networking equipment during power outages.
3. The XRT 9100 Gateway and other Connect Plus Trunking system equipment can be ordered as part of the Assembled Trunked System (ATS) program for staging at Motorola CCSI (Customer Center for System Integration).
4. Racks / cabinet equipment is required for system staging at CCSI.
5. Please refer to the Connect Plus System Planner and your Motorola ACES/COEE team representative for pre-sale support and system design considerations.

6. When ordering an upgrade, please make sure to include the Connect Plus Network ID for the system, the Connect Plus Electronic Serial Number (TRxxxxxx) & e-mail in the appropriate fields for each controller in the order line item notes of the Connect Plus Upgrade + Workbook found on MOL. The Serial Number is found via the Network Manager while connected to the specific controller. Not submitting the completed workbook to Motorola (as instructed in the workbook) will delay processing of the order. An e-mail, containing the upgrade, will be sent to the address entered in the order. Each upgrade is approximately 3M in size. If your e-mail account cannot manage this size file, a CD version of the upgrade will be mailed to you ONLY if HKVN4143 is ordered along with the XRC 9000 Field Upgrade Package.

XRT 9100 for Connect Plus to Capacity Max Migration

1. A dedicated XRT 9100 Gateway is required at the existing connect plus site to allow bridged connection between the Connect Plus sites and Capacity Max sites
2. The Capacity Max Bridge (CMB) is a subscription software license (EID) required at Capacity Max site to enable bridged connection between Capacity Max and Connect Plus sites
3. The Capacity Max Bridge (CMB) subscription software license is now available to order at NO CHARGE!!

LICENSE NUMBER	DESCRIPTION	MSRP
HKVN4578A	CAPACITY MAX BRIDGE SERVICE LICENSE	\$0.00

4. No Talkpath License is required on XRT 9100 for Connect Plus to Capacity Max Bridged Operation
5. The minimum Connect Plus system release to use the CMB is R 1.8 and above

US VERSION

XRI 9100 Telephone Interconnect Gateway FOR MOTOTRBO™ CONNECT PLUS DIGITAL TRUNKING SYSTEMS VHF/UHF/800/900 MHz

NOTICE: The Connect Plus XRI 9100 has been discontinued and is no longer available for purchase. The below model, software and accessory sections for this

The XRI 9100 Gateway Includes:

- 120 VAC Power Cable
- 19" Rack Mounting Kit
- 3 ft. Ethernet Cable
- Quick Start Guide

General Information:

XRI 9100 enables connectivity between a Connect Plus system and the telephone network.

XRI 9100 Telephone Interconnect Gateway supports up to sixteen (16) simultaneous telephone lines (PSTN/PBX).

XRI 9100 Telephone Interconnect Gateway supports Landline to Radio/Radio to Landline/Landline to Talkgroup operation.

XRI 9100 Telephone Interconnect Gateway supports Half Duplex operation.

XRI 9100 Telephone Interconnect Gateway is supported in Connect Plus Release R1.5 and above.

With the Connect Plus 1.7 Release, the XRI can now connect to two different types of SIP Gateways (one at a time):

- SIP to PSTN or PBX Gateway. At least one SIP gateway device is required to interface PSTN or PBX phone lines with the IP network.
(The Cisco SPA8800 is an approved and validated device).
- SIP Digital Telephony Gateway. Via the validated Cisco Unified Communications Manager, also known as Call Manager or CUCM.
Connection to SIP Digital Telephony Gateway requires the SIP-10 or SIP-20 feature license.

Please refer to the MOTOTRBO Connect Plus System Planner and XRI 9100 User Guide for more information.

US VERSION

XRI 9100 Gateway Models & Premium Software Features:

MODEL	DESCRIPTION	MSRP
TT2743A	XRI 9100 Telephone Interconnect Gateway - IP Address Required at time of order	\$81,000

HKVN4391	SIP-10 Telephony License - supports 10 simultaneous calls. E-mail address required.	\$1,300
HKVN4392	SIP-20 Telephony License - supports 20 simultaneous calls. E-mail address required.	\$2,470

Ordering Requirements:

1. One XRI 9100 Gateway is supported per Connect Plus system. Requires IP Address at time of order.
2. SIP gateway devices (Cisco SPA 8800) must be purchased separately. One SPA8800 support 4 telephone lines.
3. SIP Digital Telephony Gateway requires the SIP-10 or SIP-20 telephony license
4. A Key Manager File is required for both SIP Gateway types (including SPA8800); please contact Technical Support 800-927-2744 with the SIP Gateway IP Address(es) and they will open a case where a custom Key Manager File will be created for you.

US VERSION

SIREN AND LIGHTS INTEGRATION MODULE for APX4500, APX6500 and APX7500 mobile radios

General Information:

The Siren and Lights Interface Module connects new or existing third party light and siren systems to Motorola's APX7500/APX6500 mobile radios. This solution allows the user to control all in vehicle radio, siren, and light functions from an O3, O7 or O9 APX control head to fit any response scenario.

Features:

EASE OF INSTALLATION:	Connects to APX mobile with 1 cable. Connects to OEM sirens with 1 or 2 cables
TWO-WAY MOBILE SUPPORT:	Compatible with APX 7500 and 6500 TDMA capable radio and feature set.
THIRD-PARTY SIREN AND LIGHT:	Compatible with Code 3®, Federal Signal, Whelen® Engineering
QUICK SET-UP:	USB Programming utility available.
CONTROL HEAD COMPATIBILITY:	Compatible with APX O3, O7, and O9 control heads
CONSOLIDATES PA AUDIO:	Supports single microphone for two-way audio and PA audio.
INPUTS/OUTPUTS:	4 dedicated inputs for auxiliary functions and OEM sensors

Notes:

THE SIREN AND LIGHTS INTERFACE MODULE IS COMPATIBLE WITH REMOTE-MOUNTED APX7500, APX6500, APX6500LI and APX4500 MOBILE RADIOS.
CONTROL HEADS SUPPORTED: O9, O7, O3; AS WELL AS O2 and O5 WHEN USED WITH KEYPAD MICROPHONE
IF UPGRADING FIELDIED UNIT, PLEASE REFER TO THE UPGRADE ORDERING GUIDE FOR ADDITIONAL INSTRUCTIONS

Options: TO COMPLETE AN ORDER YOU MUST MAKE ON (1) CHOICE PER EACH STEP

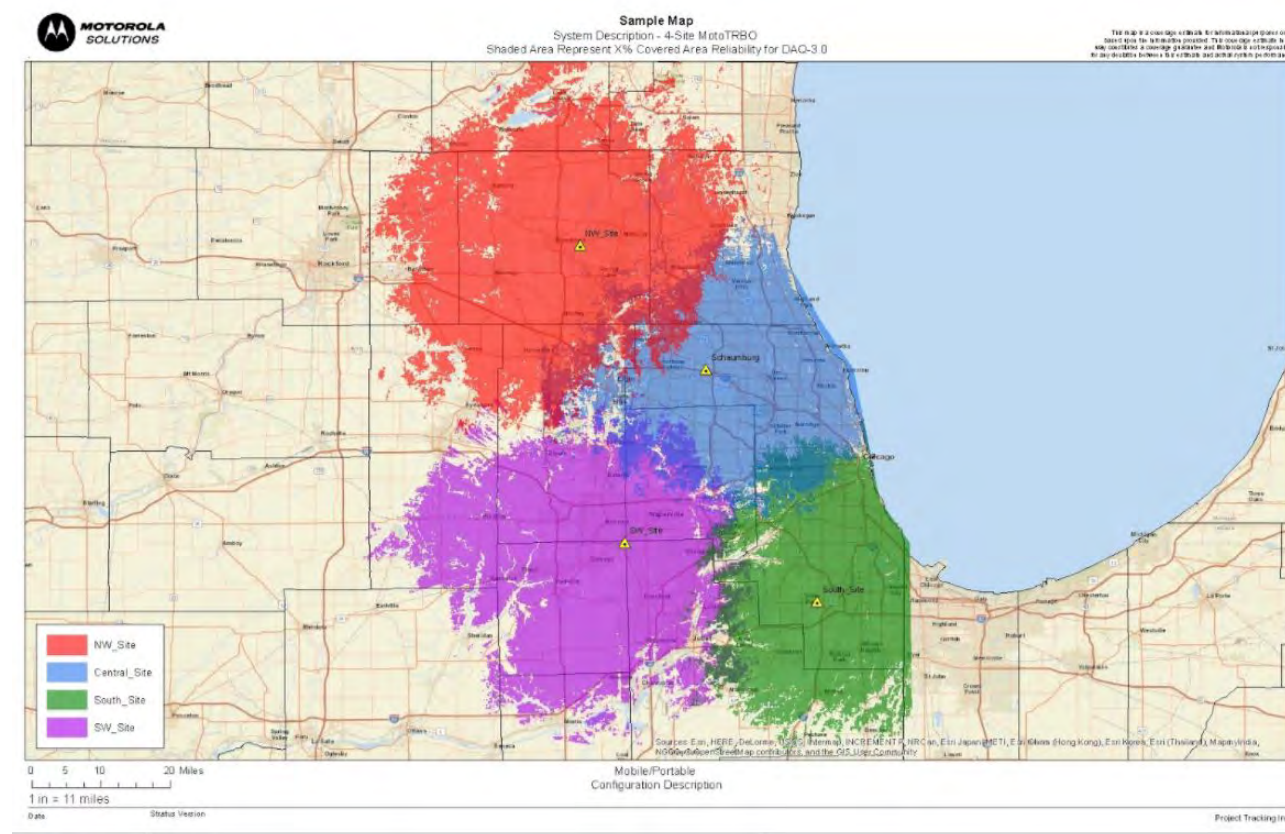

Model:	Description	MSRP
STEP 1:		
TT2723	SIREN AND LIGHTS INTEGRATION MODULE The module includes the Module to Radio cable, power cable and GPIO cable	\$690.00
STEP 2:		
TT05924	ADD: INTERFACE KIT IK-A1WB Compatible with: Whelen Cencom Sapphire, Control, Control WC (includes internal siren interface module)	\$295.00
TT05894	ADD: INTERFACE KIT IK-E2 (Z3) Compatible with: Code3 Z3	\$45.00
TT05923	ADD: INTERFACE KIT IK-A1WA Compatible with: Cencom Gold (includes external siren interface module) Aftermarket part number: DDN1896A	\$450.00
TT05890	ADD: INTERFACE KIT IK-A1 (GREY) Compatible with: Whelen CenCom Grey Aftermarket part number: DDN1778A	\$45.00

TT05925	ADD: INTERFACE KIT IK-C1F (SS2000) Min order Qty 100pcs Compatible with: Federal Signal Smart Siren SS2000, SM, Premium Vision, Vision (includes external siren interface module) Aftermarket part number: DDN1898A (Min 100)	\$295.00
TT05926	ADD: INTERFACE KIT IK-C1C (RLS) Compatible with: Code3 RLS (includes external siren interface module) Aftermarket part number: DDN1899A	\$295.00

OPTIONAL:

TT05889	ADD: PROGRAMMING KIT FOR SLIM Includes Programming Cable and CD (Only one Kit is required per shop)	\$60.00
---------	--	---------

Motorola Solutions provides informational coverage maps to our partners deploying MOTOTRBO, MOTOTRBO NITRO or ASTRO P25 Systems. The typical Coverage map will provide predicted Talk in and Talk out coverage area for Portable and Mobile subscribers. The coverage maps will provide in Adobe Acrobat

GENERAL INFORMATION:

Provisions :

Pricing below includes maps for up to 6 sites

This cost includes up to two iterations of maps (alternate scenarios with different site locations, antenna heights, etc.)

The two iterations must be completed within 90 days of receiving the first set of maps

If there are more than 6 sites there will need to be additional quantities of this part number added (for example up to 18 sites order Qty. 3, up to 24 sites order Qty. 4, etc.)

Contact:

If you have an FO# that includes this model number below

OR need additional information please send an email to ats.support@motorolasolutions.com

REQUESTING COVERAGE MAPS:

If you would like to submit a request for coverage map generation services follow this link: [Coverage Map Request Link](#)

MOTOTRBO NITRO coverage maps will be generated for locations with base transceivers located outside buildings.

Turn around time is 5 business days from the day the Coverage Request has been submitted using the link above, along with all the supporting site information.

Channel Partners should select "Dealer" when prompted to request support. A confirmation email will be sent once the request has been submitted.

The 10-digit MOL order #3xxxxxxx must be provided in the google request form link above at time of submission.

Additional system information may be requested, if the information is not provided in the initial request. This may impact turn around time.

When purchasing purchasing the ATS system as modeled, the associated coverage map cost will be refunded as system credit.

The ATS system must be purchased within 90 days of the most recent coverage map.

Pricing

RESELLER PRICES

Coverage Map

MODEL	DESCRIPTION	MSRP
HKLN4495A	Coverage Map Generation Services	\$835.00

: PDF format but can also be provided in the Google Earth KMZ format on request. Please note: Coverage Maps will depict estimated coverage and not actual coverage. Actual Coverage will vary depending on actual topography and other interfering sources in the area. Coverage Maps may only be used for i

informational purposes and should not be assumed to carry a coverage guarantee.

US VERSION

REPEATER INTERFACE COMMUNICATIONS KIT™

RESELLER PRICES

The Repeater Interface Communications Kit Model Includes:

- For use with CDM750, CDM1250 & CDM1550
- Selectable Hang Time
- PL, DPL, CSQ
- Uni-Directional or Bi-Directional Repeater Operation
- Singleband and Crossband Operation
- Transparent Operation
- Remote Repeater Set-Up and Knock Down
- LED Indicators for Repeater Enable, COR and Repeater Set-Up
- Front Panel Control for Repeater Enable and Set-Up
- Interface Box, Mounting Bracket and all required Cables

MODEL	DESCRIPTION	MSRP
HLN3333	Repeater Interface Communications Kit (includes manual)	\$ 329.00
General Accessories:		
HKN9019	16 Pin Conductor Cable - same as HKN9969 (3 Ft. long enhanced connectors)	\$ 14.44
HKN9969_R	Accessory for Repeater Interface Communications Kit - additional 16 conductor cable (3 Ft. long) for connection to other access	\$ 35.50
Manuals:		
6880901Z79-B	R.I.C.K. Service & Programming Manual (most current issue includes MMR-062)	\$ 5.67

US VERSION

GTR 8000

GTR 8000 ANALOG CONVENTIONAL BASE RADIO

RESELLER PRICES

GENERAL INFORMATION

The GTR 8000 Base Radio, orderable model T7039 is a future ready base radio that offers high reliability, future expandability, and excellent coverage. The GTR 8000 Base Radio deployed as an analog conventional repeater can be upgraded to simulcast, digital, trunking and other configurations including P25 TDMA with software upgrades only (no hardware changes). Its high performing analog capabilities enable narrow-banding migrations that maximize audio performance. With its compact design and superior hardware, the GTR 8000 surpasses the bar previously set by QUANTAR.

GENERAL INFORMATION:

High Powered Performance

- 100 ppb frequency stability directly enhances analog audio performance
- Supports optional analog features including simulcast, repeater access setup/knockdown, scanning receiver, multi-PL, and WildCard with GPIO (General
- Optional preselector achieves 95dB spurious and image response rejection to block out transmitters at crowded sites
- Standard -48V battery revert and charging capability eliminates the need for an uninterruptible power supply (UPS) in many installations

Installation & serviceability

- Compact hardware utilizes a 3 rack unit chassis
- Ships factory aligned ready for installation
- Hot Swap hardware enables service and hardware replacement without system down-time
- Software download can be managed while online and fully operational
- All servicing can be performed from the front of the station
- High-reliability fans are rated for 10 years of continuous use, will alarm 7 days prior to failure, decreasing maintenance costs and minimizing downtime

RESOURCES:

- GTR 8000 Base Radio Manual - <https://motonline.mot-solutions.com/Member/ContentManagement/resourcecenter.asp>
- 6871023P25-A Quick Guide for Replacing a Conventional QUANTAR with a GTR 8000 Base Radio - <https://motonline.mot-solutions.com/Member/ContentManagement/resourcecenter.asp>

ORDERING REQUIREMENTS:

NOTE: All stations on a Simulcast channel should be of the same station type.

1. Main Model

The following main model must be ordered for a GTR 8000 Base Radio.

T7039A GTR 8000 BASE RADIO

Ordering Note: Only order a quantity of one of the T7039A per line item. This model number will automatically generate internally added options for all hardware components that are not part of an orderable option (such as cabling).

2. Frequency Band and Power Level

Enter the Frequency Band option:

- | | |
|-----------|----------------------------------|
| CA00855AA | ADD : 700/800 MHZ MID POWER |
| X640AL | ADD : UHF R2 MID POWER (435-524) |
| X530BG | ADD : VHF MID POWER (136-174) |
| X448AA | ADD : UHF R1 MID POWER (380-435) |

Ordering Note: One TX and one RX frequency must be specified and will be collected at the main model level. When ordering analog conventional software (option CA01949AA), TX and RX frequencies can be equal when the antenna relay option CA01504AA is ordered.

700/800 MHz: Frequency Rules for CA00855AA

RX Range: 794.00625 - 824.99375 MHz.

TX Range: 764.00625 - 775.99375 MHz and 851.00625 - 869.99375 MHz

* If Freq (TX) is 764.00625 - 775.99375 MHz, then Freq (Rx) = TX + 30

* If Freq (TX) is 851.00625 - 869.99375 MHz, then Freq (Rx) = TX – 45

* All frequencies must be divisible by 2.5 or 3.125 kHz.

Note: Currently, 796.09375, 806.88125, 808.31875, and 822.375 are not supported for Rx.

UHF R2: Frequency Rules for X640AL

RX Range: 435.0000-524.0000 MHz.

TX Range: 435.0000-524.0000 MHz

* If Freq (TX) is 435-524 MHz, then Freq (Rx) > + .25 MHz TX

* All frequencies must be divisible by 2.5 or 3.125 kHz.

Note: Currently, 454.500, 474.6375, 494.05625, and 511.3125 are not supported for Rx.

UHF R1: Frequency Rules for X448AA

RX Range: 380.0000 – 435.0000 MHz.

TX Range: 380.0000 – 435.0000 MHz

* If Freq (TX) is 380-435 MHz, then Freq (Rx) > + .25 MHz TX

* All frequencies must be divisible by 2.5 or 3.125 kHz.

Note: Currently, 380.250 and 416.925 MHz are not supported for Rx.

VHF: Frequency Rules for X530BG

RX Range: 136.0000 – 174.0000 MHz.

TX Range: 136.0000 – 174.0000 MHz

* If Freq (TX) is 136 - 174 MHz, then Freq (Rx) > + .25 MHz TX

* All frequencies must be divisible by 2.5 or 3.125 kHz.

150W High Power 800MHz PA

CA02478AA ADD: 800MHZ 150W HI POWER

- CA02478AA provides high power transmission in the 800MHz frequency. It's compatible with analog simulcast & non-simulcast.

3. Base Radio Software

CA01949AA ADD: ANALOG CONVENTIONAL SOFTWARE

CA01949AA provides a circuit analog conventional base radio. This base radio software supports 2wire, 4wire, and 8wire circuit analog wireline links. 16 programmable channel personalities. Each channel personality can be configured for base station, repeater, simplex, or receive only operation. TRC wireline keying is supported, with a full complement of programmable function tones. The CSS (Configuration Service Software) install disc is included with this option.

4. Energy Efficiency Options

CA01953AA ADD : POWER EFFICIENCY PACKAGE

This optional feature provides hardware and software for reduced power consumption to accommodate needs at sites without grid power or that are

driven off alternative energy sources.

* Only available with UHF R2 (X640AL), UHF R1 (X448AA), & VHF (X530BG).

5. Conventional Software System Configuration

Choose the appropriate optional conventional software system configuration if required.

CA01952AA ADD: ANALOG CONVENTIONAL SIMULCAST SOFTWARE

CA01952AA provides the analog conventional base radio with the Gen Tx Data and E&M keying interface to a DSM channel bank card. The base radio must be provided with a 5MHZ/1PPS composite reference to ensure the timing and signal integrity required for analog simulcast. The GTR 8000 base radio cannot be mixed with QUANTAR analog simulcast stations on the same simulcast channel/frequency.

CA01951AA ADD: ANALOG CONVENTIONAL VOTING SOFTWARE

CA01951AA supports analog transmit and receive operation when connected to SpectraTAC, DIGITAC, and other TRC comparators in a voting channel

6. Conventional Features

Choose the appropriate optional system feature options if required.

CA01504AA ADD : ANTENNA RELAY

CA01504AA required for base stations with a single antenna and allows one antenna to be used for both transmit and receive signals.

CA01503AA ADD : FALL BACK IN CABINET REPEAT- SIMULCAST

CA01503AA enables the station to continue to receive and transmit when communication with the comparator is lost.

CA01947AA ADD: RECEIVER SCAN OPERATION

- CA01947AA provides the ability to scan for qualified activity on up to 16 receive frequencies. The receive frequencies are assigned in the 16 programmable channel personalities. Scan operation can be suspended and resumed by TRC WildCard programming.

CA01950AA ADD: CONV MULTI-NAC MULTI-PL

CA01950AA enables multiple PL tones (analog) or multiple NACs (digital P25 Network Access Codes) to be detected on a single channel. Each of the 16 channel personalities can be configured with a list of PL tones and NACs to use for receiver qualifiers.

CA01954AA ADD: WILDCARD w/GPIO

CA01954AA provides configurable inputs and outputs with a programmable set of event/action tables for implementing custom base radio interface

CA01955AA ADD: MAIN/STANDBY OPERATION

CA01955AA provides WildCard programming presets and cabling for a side-by-side base radio main/standby configuration.

7. Peripherals

7.1 Tx Filters and Duplexers: Tx Filters are not compatible with Duplexers. In circuit or IP simulcast configurations the PMU on the TX filters are not

* 700/800 MHz: If the customer frequencies are in the 700 MHz frequency range (Tx: 764.00625 - 775.99375 MHz), the customer must order X182BW or CA00882AA per FCC licensing rules. If the customer frequencies are in the 800 MHz frequency range (Tx: 851.00625 - 869.99375 MHz), the following

* UHF (R1 380-435 MHz, R2 435-524 MHz): The following peripherals are optional.

* VHF (136-174 MHz): The following peripherals are optional. TX and RX frequencies must be at least 1.5 MHz apart if peripherals are desired.

X182BW ADD : DUPLEXER, 700 MHZ

- X182BW provides the option of using the same antenna for receive and transmit in the 700 MHz standalone base radio configuration. This option provides the filtering required by the FCC for 700 MHz.

X182BX ADD : DUPLEXER, 800 MHZ

- X182BX provides the option of using the same antenna for receive and transmit in the 800 MHz standalone base radio configuration.

X182BZ ADD : DUPLEXER, UHF 380-512 MHz

- X182BZ provides the option of using the same antenna for receive and transmit in the UHF standalone base radio configuration. If the X182BZ is ordered, X265AP (ADD: NARROW PRESELECTOR, 380-512 MHz) is required. The transmit frequencies must fall within one of the following subbands: 380-403, 403-435, 435-470, 470-494, and 494-512 MHz. Also, above 470 MHz, the Tx and Rx frequency separation should be at least 3.0 MHz for best performance.

X182CC ADD : DUPLEXER 136-146 MHZ

- X182CC provides the option of using the same antenna for receive and transmit in the VHF (136-146 MHz) standalone base radio configuration. If the X182CC is ordered, the X265AN (ADD: NARROW PRESELECTOR, 136-154) is required. The Tx and Rx frequency separation must be at least 1.5 MHz for best

X182CB ADD : DUPLEXER 144-160 MHZ

- X182CB provides the option of using the same antenna for receive and transmit in the VHF (144-160 MHz) standalone base radio configuration. If the X182CB is ordered, the X265AN (ADD: NARROW PRESELECTOR, 136-154) or X265AM (ADD: NARROW PRESELECTOR, 150-174) are required. The Tx and Rx frequency separation must be at least 1.5 MHz for best performance.

X182CA ADD : DUPLEXER 158-174 MHZ

- X182CA provides the option of using the same antenna for receive and transmit in the VHF (158-174 MHz) standalone base radio configuration. If the X182CA is ordered, the X265AM (ADD: NARROW PRESELECTOR, 150-174) is required. The Tx and Rx frequency separation must be at least 1.5 MHz for best

CA00882AA ADD : 700 MHz TX FILTER w/PMU

- CA00882AA provides the TX filtering of up to 12 combined 700 MHz transmitters. The Tx filter can be added after the cavity combiner.

CA00883AA ADD : 800 MHz TX FILTER w/PMU

- CA00883AA provides the required TX filtering of up to 12 combined 800 MHz transmitters. The Tx filter can be added after the cavity combiner.

7.2 Narrow Preselector: The Base Radio Preselector rejects unwanted signals including the transmitter signals from overloading the receiver.

* If TIA102-CAAB Class A spurious response rejection (90 dB) specification is required, the Base Radio Preselector must be ordered. The Narrow Preselector

* If a Duplexer is to be ordered also, a Narrow Preselector is required for UHF (X448AA or X640AL) or VHF (X530BG) systems.

X265AJ ADD : BASE RADIO PRESELECTOR, 700 MHZ

- X265AJ provides RX filtering in the 700 MHz standalone base radio configuration and is attached to the back side of the base radio.

X265AH ADD : BASE RADIO PRESELECTOR, 800 MHZ

- X265AH provides RX filtering in the 800 MHz standalone base radio configuration and is attached to the back side of the base radio.

X265AN ADD : BASE RADIO PRESELECTOR, (136 – 154 MHZ)

- X265AN provides RX filtering in the VHF subband 136 - 154 MHz for the standalone base radio configuration and is attached to the back side of the base radio. When ordering this option, the frequency separation between the highest Rx frequency and the lowest Rx frequency can be no more than 4 MHz.

X265AM ADD : BASE RADIO PRESELECTOR, (150 – 174 MHZ)

- X265AM provides RX filtering in the VHF subband 150 – 174 MHz for the standalone base radio configuration and is attached to the back side of the base radio. When ordering this option, the frequency separation between the highest Rx frequency and the lowest Rx frequency can be no more than 4 MHz.

X265AP ADD : BASE RADIO PRESELECTOR, (380 – 512 MHZ)

- X265AP provides RX filtering in the UHF subband 380-512 MHz for the standalone base radio configuration and is attached to the back side of the base radio. When ordering this option, the frequency separation between the highest Rx frequency and the lowest Rx frequency can be no more than 4 MHz.

7.3 Dual Circulator: If an external dual circulator is needed, order quantity one of X676BF, X676BG, X676BJ, X676BI or X676BH based on the frequency

* NOTE: The dual circulator is not compatible when the base radio ordered is using Linear Simulcast Modulation (LSM) in the UHF (X640AL or X448AA) or

X676BF ADD : 700/800 MHZ EXTERNAL DUAL CIRCULATOR

- X676BF adds 2 circulators and a low pass filter that are mounted on a 2 rack unit tray for the 700/800 MHz band. Since the power amplifier has one circulator, this option brings the total number of circulators to three.

X676BG ADD : UHF EXTERNAL DUAL CIRCULATOR (380-512 MHZ)

- X676BG adds 2 circulators and a low pass filter that are mounted on a 2 rack unit tray for the UHF band (380 – 524 MHz). Since the power amplifier has one circulator, this option brings the total number of circulators to three. All Tx frequencies must fall within one of the following subbands: 380-403, 403-

X676BJ ADD : EXT DUAL CIRCULATOR, 136 – 146 MHZ

- X676BJ adds 2 circulators and a low pass filter that are mounted on a 2 rack unit tray for the VHF band (136 – 146 MHz). Since the power amplifier has one circulator, this option brings the total number of circulators to three.

X676BI ADD : EXT DUAL CIRCULATOR, 144 – 160 MHZ

- X676BI adds 2 circulators and a low pass filter that are mounted on a 2 rack unit tray for the VHF band (144 – 160 MHz). Since the power amplifier has one circulator, this option brings the total number of circulators to three.

X676BH ADD : EXT DUAL CIRCULATOR, 158 – 174 MHZ

- X676BH adds 2 circulators and a low pass filter that are mounted on a 2 rack unit tray for the VHF band (158 – 174 MHz). Since the power amplifier has one circulator, this option brings the total number of circulators to three.

7.4 Optional Conventional Hardware Kits

The following kits provide add-on hardware (including associated cables and fasteners) with installation instructions for specialized Conventional base radio

CA01958AA ADD: T2-2R RECEIVER MUTE

CA01959AA ADD: T3-3R RECEIVER MUTE

CA01960AA ADD: T4-4R RECEIVER MUTE

CA01961AA ADD: RCVR SOFT NO SPLITTER

CA01957AA ADD: T1-2R W/ TALKAROUND

CA01962AA ADD: T2-2R DUPLEXER & TRPL RELAY

8. Cables

CA01400AA ADD : POWER CABLE, DC

- A 12 foot AC power cable will come standard with the base radio. If a DC power cable is required, order option CA01400AA and a DC cable will be shipped

- A Battery Temperature Sensor and a 40 foot long cable are included when CA01400AA option is ordered.

CA00975AA ADD : BATTERY TEMPERATURE SENSOR EXTENSION CABLE

- The CA00975AA option offers an extension cable that provides a 50 foot extension. Up to 3 extensions can be ordered.

9. Rack Mount Hardware

Choose rack mount hardware, if required.

X153AW ADD : RACK MOUNT HARDWARE

- X153AW provides rack mount hardware for the base radio as well as any associated optional/peripheral equipment. It should be selected if the base radio will be installed in standard 19-inch relay racks or if it is being installed into an existing Quantar rack.

BATTERY REVERTING CHARGER FOR USE WITH MOTOROLA MTR2000 BASE STATIONS

RESELLER PRICES

These battery reverting charger units charge and maintain the radio battery bank in a float type application. The system provides automatic reverting to a battery bank when main AC power fails and also provides separate charging capability.

BASIC PACKAGE INCLUDES:

- Auto Transfer Circuit
- Low Voltage Disconnect
- Stand Alone Box
- Auto Equalize
- Battery "On" Indicator
- Overvoltage Protection & Indicator
- Float and Automatic Equalize Circuitry
- Output Current Indicator
- Temperature Compensation Capability (optional)
- Charger Failure Indicator
- Rack Mountable

MODEL	DESCRIPTION	MSRP
L1883	Battery Reverting Charger, 14-volt (12-volt nominal) (for 30 Watt, 40 Watt and Receive Only models)	\$1,619.00
L1884	Battery Reverting Charger, 28-volt (24-volt nominal) 25-100 Watt	\$1,619.00

Peripherals:

CDN6226A	Cable Interface, Station to Charger	\$66.15
CDN6227A	Cable Interface, Battery to Charger	\$85.70
TDN9879A	Temperature Sensor	\$40.00

VXR-7000 DESKTOP REPEATER VERTEX STANDARD VHF & UHF

RESELLER PRICES

VXR-7000 Desktop Repeater Features:

- 12.5/25 kHz Switchable Channel Spacing
- 16 Channels
- Output Power 10~50 Watts Adjustable
- Programmable Busy Channel Lock Out
- Programmable Busy Timer Lock Out
- CWID
- CTCSS / DCS Codes
- Automatic DC Power Supply Back Up
- 100% Continuous Duty Cycle

The available channel stepping frequency ranges for the VXR-7000 are 2.5kHz, 5kHz, 6.25kHz, 10kHz, and 12.5kHz

Repeater Package Items

Untuned duplexers for the VXR-7000 are available.

The duplexers must be order separately.

The desktop microphone must be ordered separately.

Repeater CPS is downloadable from MOL.

Warranty Policy

Repeater warranty is 3 Years. For warranty repair, repeater must be sent to Vertex Standard directly. Please contact Vertex Standard at 1-800-2Vertex. Vertex Accessory warranty is 1 year. For warranty, please contact Motorola Customer Service at 1-800-927-2744 for a warranty

Service Repair Policy

VXR-7000 repeaters are supported by Motorola's 45 Day DOA Policy. For 45 day DOA radios, please contact Motorola's Customer Service at 1-800-927-2744. After 45 days, please contact Vertex Standard directly for all repair services at 1-800-2Vertex for the required repair request form. All service charges will require credit card payment.

Return Policy

These products are supported by the Motorola Return Policy. All product must be returned with factory box, packing materials, owner's manual & warranty cards. Contact Motorola Customer Service at 1-800-927-2744 for return authorization.

Post Sales Support

For post-sales technical inquiries and support needs, please contact Vertex Standard directly at 1-800-2Vertex.

MC2500™ DESKTOP CONTROLLERS Models

RESELLER PRICES

MC2500 Models Include:

- 4 Frequency Station Control	- 120V AC - 60 Hz Po - LTR® Compatible	- Black Color
- Push-to-Talk Handset	- Supervisory Takeover - Service Manual	- Volume Control / Transmit LED
- 2 or 4 Wire	- Operator Cross Mut - One Year Warranty	- Monitor Switch
- LOTL/LOBL		- Intercom

MC2500 Only Additional Features:

4 Base Station Control - Capable of controlling 4 Tone channels or 3 Tone channels and 1 DC channel.

Connector for Unselect Speaker

Individual Volume Control

Dedicated Logging Recorder Output

Radio Patch

Multi-Select

Multi-Tasking

All Mute

Aux I/O's

18 Programmable Buttons

2 Line x 20 Character Backlit Display

Multi-Frequency Capability - up to 16 frequencies on Tone

110V/220V AC - 50/60 Hz Power Supply

MDC Features:

- PTT Unit ID (Encode/Decode)
- Voice Selective Call (Encode/Decode)
- Call Alert/Short Call Alert (Encode/Decode)
- Status Message (Decode)
- Radio Enable/Disable (Encode)

- Radio Check (Encode)
- Emergency Alarm (Decode)

Securenet Coded/Clear Operation - Supports positive mode control (Tone)

Recent User Stack - Last nine records are stored for review at any time.

Also capable of E & M control on all channels. Use of a Tone or DC Remote Adapter is required when of a Tone or DC Remote Adapter is required when connected to a mobile in a tray.

RS232 Port - Allows RSS programming via computer or the logging of MDC1200 inbound/outbound Serial Printer Port activity for permanent record keeping on a serial printer.

Paging Encode- Allows you to selectively call a pager, portable, or mobile unit and eliminate the need to purchase a stand alone encoder. The following schemes are supported: QC II, 2 Tone, 5 Tone, 6 Tone, Digital Dial, Reach 1+1, GE 99, NEC 5 & 6, DTMF or Custom A and B tones.

Notes:

1. Intercom - Allows communication between desksets without accessing the radio frequency
2. Up to 10 remotes can be used in parallel.
3. MC Series remotes are not compatible with 900 MHz MaxTrac Mobiles.
4. MC2500 units require RSS programming software.
5. MC2500 unselect speaker port supports a passive speaker only.
6. For unexpected out-of-box failures or quality issues, the MC Series and MC3000 must be returned for warranty repair. Please refer to the user's manual. Units will be replaced if they are sent in a total of 3 times and continue to exhibit the same problem.
7. For L3277, radio interface cable not included. Must be ordered separately.

DC and Tone Remote Control Models Only:

- For DC and Tone Remote Control: If base is not remote capable, a Remote Adapter is required (see L3277).
- The L3217 Desksets support channel steering between 15 talkgroups over conventional or LTR® Trunking Systems.

MIP™ 5000 VoIP RADIO CONSOLE

RESELLER PAGES

MIP 5000 Console General Information:

The MIP 5000 VoIP Radio console is designed to provide customers an affordable solution to transmit dispatch quality voice over their existing Multicast enabled Ethernet network. The MIP 5000 radio console connects up to 100 users with flexible licensing that is available with 1, 4, 8, 12, 24, and 48 channel software options. In addition, up to 128 radio resources can be connected to the network and configured in the Console System Database Manager (CSDM). These configuration files can be saved on each operator position to allow the dispatcher to access and control different combinations of radio resources (up to 48 at a time).

MIP 5000 consists of Gateways which connect the radios to the Network and Operator Position components including: MIP 5000 application software, Personal Computer (PC), and Audio accessories

Gateways

There are 4 types of gateways available in a MIP 5000 system to interface to radios: Local, Tone, Digital, and MOTOTRBO. Gateways have a one to one relationship to radios. One gateway is required for each radio controlled.

Local Gateway L3482 controls radios, typically Mobiles in a Tray, via Microphone and Speaker connection and will support up to 16 frequency select (depending on radio capability).

Radio Interface Cables:

- Prewired cable for CDM Family: DDN6338
- Prewired cable for MCS2000: DDN6699
- Generic radio cable for use with XTL family: DDN6340 (Requires field install of XTL accessory connector)
- Map universal cable for use with MOTOTRBO/XPR family: PMKN4018 (Requires field install of DB25 for local gateway)

Tone Gateway L3483 controls base stations or repeaters with tone control signaling which will support up to 16 frequency select (depending on radio capability) via 600 Ohm lease lines. In addition, the tone gateway will also support E&M signaling.

DIU With a tone gateway connected to the 4 wire interface on a DIU, the MIP 5000 can talk/listen, change frequency and, select coded/clear. However, MIP 5000 does not support the ACIM link functionality of the DIU.

Digital Gateway L3484 acts as a virtual control head for specific Motorola radios or Consolettes via the SB9600 protocol. MIP 5000 will display the Alias ID if the individual Subscriber is configured to send it. MIP 5000 will provide the dispatcher access to the same number of frequencies the radio is capable of.

Mobiles supported are:

- APX 7500 Mobile in a tray (05 Control Head, Remote Mount)
- MCS2000 Model III
- Spectra/Spectra Plus Consolette W9
- ASTRO XTL5000 Consolette W9
- CDM1550 LS/LS+ - Requires Remote Kit (RLN4802) and Remote Cable Kit (RKN4077)

MIP 5000 Release	APX 7500 Firmware Version
R04.01.00	R09.00.00 or later
R04.01.01	R09.00.00 or later
R04.02.00	R10.00.00 or later

MOTOTRBO Gateway L3598 acts as a virtual control head for the MOTOTRBO XPR4550 control station via the XCMP protocol. MIP5000 will display the Alias ID when in analog or TRBO digital mode. MIP5000 will provide the dispatcher access to the same number of frequencies the radio is capable of. MOTOTRBO system types supported are:

- Conventional
- IP Site Connect
- Linked Capacity Plus
- Capacity Plus
- Connect Plus - Requires Connect Plus System Release 1.4b

MIP 5000 Release	XPR 4550 Firmware Version	XPR 5550 Firmware Version

R04.02.00	1.12.x	R02.30.01

Network

It is highly recommended that customers intending to use MIP 5000 in Public Safety situations use a dedicated network for dispatching. For non public safety situations, a MIP 5000 can be placed on an existing customer network. Network must support multicast addressing and be QoS enabled. For complete network requirements, see Specification Sheet on MOL or EYES.

MIP™ 5000 VoIP RADIO CONSOLE

Models

RESELLER PRICES

Personal Computer (PC)

It is highly recommended that customers intending to use MIP 5000 in Public Safety situations purchase the TT2833 Motorola certified HP desktop computer. If not purchasing Motorola computers, see Specification Sheet on MOL for Recommended Minimum Computer Specifications. R04.02.00 supports Windows 7 Professional Service Pack 1 (32 or 64 bit) and Windows 8.1 Professional (64-Bit). For Information Assurance Customers, the TT2833 is still the only certified solution.

ORDERING REQUIREMENTS

*** You must also order a DDN9867 MOTOTRBO Direct Connect Cable to connect the MOTOTRBO Gateway to the XPR 4550 or XPR 5550 Mobile ***

The MIP 5000 gateways do not ship with punch blocks or cables for connecting to base stations or radios. These must be ordered separately or provided by the customer. See the Accessories section below for cables that can be used for connecting to various radios.

Headset Jackbox

Every MIP 5000 operator position requires either a MIP 5000 USB Basic (Basic no longer available) or an Enhanced headset Jackbox. The Jackbox is needed for all standard (non USB) accessories. Each position requires a minimum of 1 and can support a maximum of 3 of any combination of Jackboxes. TT05522AA is the option for the Enhanced headset Jackbox.

A headset(s) may be used with the MIP 5000 Console. Each headset must be connected to a MIP 5000 USB Basic (Basic no longer available) or Enhanced Jackbox. A headset consists of two parts, a base and a top. A choice of two bases (CDN6281 and CDN6282) and several tops is provided. The MIP 5000 supports a maximum of two headsets per operator position.

Upgrades

Upgrades to R04.02.00 are available at no charge. Labor for upgrade installation is not reimbursable. To order contact System Support Center at 800-221-7144, option 4 on the call tree and request that a software case be opened.

Existing System Expansion

All new orders for Software and Gateways will ship with the latest release software – R04.02.00.

Adding Gateways: If adding gateways onto an existing R04.01.01 system or earlier, gateways will automatically downgrade during the installation process to match the software release running in the system.

Adding Operator Positions: If adding new operator positions to an existing R04.01.01 system or earlier, you will be required to upgrade the entire system (all Operator positions, CSDM and gateways) to R04.02.00. All operator positions and gateways in a MIP 5000 system must run the same version of software.

Instant Recall Recorder (IRR)

The Instant Recall Recorder (IRR) software with MIP 5000 allows users to record audio digitally on the MIP 5000 Operator position. Operator TX audio, Select and Unselect RX audio,

Telephone Call Director Audio or any combination may be recorded.

If PC is...	Order	Includes:
...TT2538A MIP 5000 Certified PC	DDN1612	IRR Software & License, Soundcard, and PC Speakers
...Customer PC w/o Speakers	DDN1612	IRR Software & License, Soundcard, and PC Speakers
...Customer PC with Speakers	DDN1611 & DDN1118	IRR Software & License, Soundcard

Note: MIP 5000 with IRR on a laptop is not a supported configuration Link to price pages; Dual Instant Recall Recorder

Pre-Install Support

Motorola now offers MIP 5000 Installers an exclusive conference call with a knowledgeable Technical Support consultant prior to going on site. If you previously have not installed a MIP 5000 system, we highly recommend this call at no charge to you to ensure a successful install. Motorola will cover the first 30 Minutes of the call, any additional support beyond the 30 Minutes will follow the standard MIP 5000 support process. Call 1-800-221-7144 option 2,3,3.

MONITORING & CONTROL NETWORK (MCN) FOR MIP 5000 CONSOLE

RESELLER PRICES

The MIP 5000 console system now supports Auxiliary I/Os via CTI's Monitoring Control Network Remote Comparator Display (MCN RCD) Client Server Software. This software provides real-time monitoring and control for a wide range of devices including doors, alarms, light switches, and other general purpose Auxiliary I/O applications. In addition, the MCN RCD system supports comparator/voting displays at the MIP 5000 console operator position. The MCN RCD Client Server Software is an IP based solution and can run on the same network as the MIP 5000 console. The MCN RCD system consists of two parts: The MCN RCD Server Software with HIB-IP Module and the specific interface module for the application. The interface module(s) can be General Purpose I/Os, Comparator module, or a combination of the two. The paired solution between the MIP 5000 console and the MCN RCD Client Server Software can support up to 192 inputs and 128 outputs.

Ordering Requirements:

STEP 1:

Order the MCN RCD Software with HIB-IP, DDN1388 – this will allow up to 4 MIP 5000 operator positions (clients) to share the I/O module status. If more than 4 operator positions are required, than the MCN SW Lic Opt Client Expansion for 4 Add'l Clients, DDN1295 is required.

STEP 2:

Order 1 power supply CDN6116 with every HIB-IP Module.

STEP 3:

Order the appropriate modules for the application. A maximum of 16 modules can be supported per HIB-IP.

- For General Purpose Aux I/Os, order DDN1385 (GPIO). Each DDN1385A can control 12 inputs and 8 outputs.
- For interfacing to ASTRO-TAC Comparators, order CDN6119 (AIB).
- For interfacing to SPECTRA-TAC Comparator, order CDN6121 (CIB).

STEP 4:

Order 1 power supply, CDN6116, for every 4 modules ordered in Step 3.

- Example 1: If you order 2 DDN1385 and 2 CDN6119, then order 1 CDN6116.
- Example 2: If you order 3 DDN1385 and 2 CDN6121, then order 2 CDN6116.

STEP 5:

Order the same number of network cables as the Quantity of modules ordered in Step 3. The following Network cable lengths are available:

- CABLE ASSY NETWORK 9 INCHES, CDN6123
- CABLE ASSY NETWORK 3 FT, CDN6124
- CABLE ASSY NETWORK 10 FT, CDN6125
- CABLE ASSY NETWORK 25 FT, CDN6126
- CABLE ASSY NETWORK 100 FT, CDN6127

Note: If rack mounting, the 9 inch cable should be used from module to module. To connect between rackmount shelves, the 3 FT cable should be used.

STEP 6:

Order 2 Network Terminator's, CDN6115, for every HIB (DDN1388) ordered in Step 1.

STEP 7:

Order appropriate cabling for modules:

For each GPIO and CIB module ordered in Step 3, order:

- 1 PUNCH BLOCK DUAL 25 PAIR, CDN6118
- 1 CABLE ASSY 25 PR M-NONE 25FT, CDN6135

And 1 of the cables below:

- CBL ASSY 25 PR MALE-MALE 10 FT, CDN6129

OR

- CBL ASSY 25 PR MALE-MALE 25 FT, CDN6130

For each AIB module ordered in Step 3, order CBL ASSY AIB COMPARATOR 10 FT, CDN6131

Order 1 CABLE KIT HIB PC AT/XT 6 FT, DDN6132 for every system

STEP 8:

It's recommended to order the appropriate manual for modules ordered in Step 1 and Step 3, manuals are not included with Modules.

Manuals for Modules in Step 1 – Both manuals are needed for DDN1388

- HIB HARDWARE GUIDE, CDN6110
- MCN SERVER SOFTWARE MANUAL DDN1402

Manuals for Modules in Step 3

- GPIO HARDWARE GUIDE, DDN1386
- AIB HARDWARE GUIDE, CDN6107
- CIB HARDWARE GUIDE, CDN6109

STEP 9: (Optional)

Order the appropriate quantity of rackmount shelves for modules ordered in Step 1 and Step 3.

- **DDN1387 is available to rackmount the MCN RCD HIB MODULE. Each rackmount will support 1 DDN1388 (Step 1) and two additional GPIO, AIB or CIB modules (Step 3).**
- Additional rackmount shelves for the GPIO, AIB or CIB modules ordered in Step 3, can be purchased with part number CDN6112. Each CDN6112 can support up to 4 modules.

Frames

The default basic frame includes slots for power supply and CPU modules (no I/O slots). Order one of the following options so that the frame configuration supports the required I/O slots.V102

Description	Full Description	Nomenclature	APC	Price
19 ADJUSTABLE INSTAL BRACK	One is required for rack mounting the V103 (3 I/O slot frame), V105 (5 I/O slot frame), V107 (7 I/O slot frame), VA00433 (redundancy frame) and V108 (6 I/O slot frame). One is also required for rack mounting the V269 (19 in. accessory metal chassis). The V102 (2 I/O slot frame) is not mountable in a 19 in. rack.	V051	85	\$137.00
ADD: 5 I/O SLOTS FRAME	Fits large 48 x 48cm metal chassis or 50 x 50 cm housing. May also be mounted in 19 in. rack with the V120 chassis and V051 mounting brackets.	V105	85	\$195.00
CAGE 2+8 I/O FOR EXPAN 19 CH	Includes chassis for mounting in a 19 in. rack. For 19 inch rack mount installation, V051 brackets must be ordered separately, otherwise wall mount clips will be included. Does not provide mounting room for radio, battery or other accessories; if that space is needed order V269.	V108	85	\$405.00
ADD: ACE3600 REDUNDANCY	Includes frame, redundant CPU3680, space for 4 I/O modules and space for a redundant power supply. If redundant power supply is required, order V275.	VA00433	85	\$1,785.00
ADD: 3 I/O SLOTS FRAME	Fits all chassis and housing sizes. May also be mounted in 19 in. rack with the V120 chassis and V051 mounting brackets.	V103	85	\$79.00
ADD: 7 I/O SLOT FRAME	Fits large 48 x 48cm metal chassis or 50 x 50 cm housing. May also be mounted in 19 in. rack with the V120 chassis and V051 mounting brackets.	V107	85	\$342.00
2 I/O SLOTS FRM	-	V102	85	\$58.00

Chassis & Housings

When housing is not used, the metal chassis is required for installation of radio, backup battery and other accessories. The metal chassis can be installed on a wall or inside enclosure. The Housing options provides NEMA 4X / IP65 outdoor protection.V229

Description	Full Description	Nomenclature	APC	Price
28 X 36 CM METAL CHASSIS	Compatible with 2 I/O Slots (V102) frame only. Fits mobile radio with 6.5 AH battery. If portable radio is used, either 10 AH or 6.5 AH battery will fit.	V229	85	\$76.00
ADD: EXPANDED 19 CHAS	-	V269	85	\$242.00
ADD: HOUSING TAMPER SWITCH	-	V224	85	\$95.00
ADD: 38 X 38 CM METAL CHASSIS	Fits to 6.5 Ah battery.	V214	85	\$58.00
ADD: 50X50 HOUSING W/ PADLOCK ACCESSORY	Includes a metal chassis. Fits to 6.5 Ah and 10Ah battery. Not includes padlock.	VA00405	85	\$1,008.00
ADD: 50X50 CM PAINTED METAL HOUSING	Includes a metal chassis and fits either the 6.5 Ah or the 10Ah battery. It does not include a padlock.	V228	85	\$474.00
ADD: CHASSIS FOR 19" RACK MTG 0, 3, 5, 8 I/O FRM	Metal backplane required for mounting on 19 in. rack. Compatible with V103 and V105 slots frame. Mounting brackets (V051) should be ordered separately.	V120AG	85	\$147.00
ADD: 48 X 48 CM METAL CHASSIS	Fits to 6.5 AH or 10AH battery.	V056	85	\$105.00
ADD: 40X40 CM PAINTED METAL HOUSING	Includes a metal chassis. Fits to 6.5 Ah battery.	V276	85	\$460.00
ADD: CHASSIS FOR 19" RACK MTG	Metal backplane required for mounting on 19 in. rack. Compatible with V107 and VA00433 I/O slots frame. Mounting brackets (V051) should be ordered separately.	V120	85	\$147.00
ADD: 40X40 HOUSING W/ PADLOCK ACCESSORY	Includes a metal chassis and fits the 6.5 Ah battery. It does not include a padlock.	VA00406	85	\$952.00

Input/Output Modules

Description	Full Description	Nomenclature	APC	Price
ADD: 16AI +/-5 V	-	V742	85	\$709.00

Terminal Blocks and Cables

Description	Full Description	Nomenclature	APC	Price
ADD: 40 PIN TB HOLDER KIT	Connector kit for cable. Fits 32DI, 32DO/DI, 16AI, 16DO, Mixed I/O, 8AI/4AO, and 8DO-SBO.	V153	85	\$40.00
30 WIRE CABLE W/ TERMINAL BLOCK HOLDER 3 METERS	3 meter numbered cable with connector. Fits High Voltage I/O modules VA00331, VA00348, and VA00332.	V203	85	\$187.00
30 PIN TERMINAL BLOCK HOLDER KIT	Connector kit for cable. Fits High Voltage I/O modules VA00331, VA00348, and VA00332.	V202	85	\$37.00
ADD: 40 WIRE CABLE W/ TB HOLDER 3 M	3 meter numbered cable with connector. Fits 32DI, 32DO/DI, 16AI, 16DO, Mixed I/O, 8AI/4AO, and 8DO-SBO.	V358	85	\$171.00
ADD: 20 PIN TB HOLDER KIT	Connector kit for cable. Fits 16DI, 16DO/DI, 8AI, 8DO, and 4AO.	V158	85	\$33.00
ADD: 20 WIRE CABLE W/ TB HOLDER 3 M	3 meter color-coded cable with connector. Fits 16DI, 16DO/DI, 8AI, 8DO, and 4AO.	V253	85	\$111.00

Power Supply & Batteries

The default power supply module provided with each model is 12V DC (10.8-15.5 V input voltage range). To replace the default PS, add one of the following PS options. If backup battery is required, add PS with charger option.

Description	Full Description	Nomenclature	APC	Price
ADD: 10 AH BACKUP BATTERY	Fits only to large metal chassis and housing.	V328	85	\$301.00
DC PS 18-72V PS W/ BAT CHGR	-	V367	85	\$427.00
OPTN.CHGR.ADD: AC PWR PS 100-240 V W/ BAT CHGR	-	V261	85	\$435.00
ADD: 6.5 AH BACKUP BATTERY	Fits all metal chassis and housing.	V114	85	\$180.00
ADD: DC POWER SUPPLY 18-72V	-	V251	85	\$370.00
OPTN.POWER SUPPLY ASSEMBLY.ADD: AC PWR SPLY 100-240 V W/O CHGR	-	V346	85	\$375.00

Updated Pricing for contract 4400016317 as of January 2022

ADD: 12V DC PS LOW-TIER	This Option will allow an external 12V P/S to be connected through the CPU to the back plane. The standard Power Supply unit will not be included. Not compatible with XTS2500 and HT/GP/Pro models.	V149	85	(\$116.00)
-------------------------	--	------	----	------------

CPU
The default CPU module is CPU3640 with on board RS-232 port and RS-232/485 port, one 100MB IP Port, up to two optional plug-in ports, 3 MB User FLASH memory and 10 MB User DRAM. Select from the options below to upgrade the CPU module. V448

Description	Full Description	Nomenclature	APC	Price
ADD: PLUG-IN RS-232 PORT	-	V184	85	\$111.00
ADD: PLUG-IN 4 MB SRAM	Adds 4Meg user SRAM. One per RTU/CPU.	V447	85	\$155.00
ACE3600 IP GATEWAY CPU4600	The CPU4600 adds IP Gateway functionality. Two optional plug-in ports are still available.	V449	85	\$3,990.00
ADD: ACE3600 CPU3680	The CPU3680 adds two USB host ports and increased memory capacity to the CPU3640. Two optional plug-in ports are still available.	V448	85	\$289.00
ADD: PLUG-IN ETHERNET 10M PORT	-	V204	85	\$111.00
PLUG-IN RADIO PORT	Provided with conventional and analog trunking models or radio installation kit	VA00362	85	\$111.00
ADD: PLUG-IN RS 485 PORT	-	V440	85	\$111.00
ADD: PLUG-IN ETHERNET 10/100 M PORT	Fits only to port P11.	V212	85	\$111.00

CPU and Power Supply Redundancy

These options are compatible when the Redundancy frame, VA00433, is ordered. The CPU options will be installed on the redundant CPU. If these options are required on the primary CPU, please select from the CPU options above.

Description	Full Description	Nomenclature	APC	Price
ADD: SEC. CPU PLUG-IN 4 MB SRAM	Provides the same functionality as the V447, but installed on the redundant CPU.	V444	85	\$147.00
ADD: SEC. CPU PLUG-IN RADIO PORT	Provides the same functionality as the VA00362, but installed on the redundant CPU.	VA00364	85	\$111.00
ADD: SEC. CPU PLUG-IN ETHERNET 10/100 M PORT	Provides the same functionality as the V202, but installed on the redundant CPU.	V215	85	\$111.00
ADD: SEC. CPU PLUG-IN ETHERNET 10M PORT	Provides the same functionality as the V204, but installed on the redundant CPU.	V205	85	\$111.00
ADD: SECONDARY DC PS 10.5-15.5V	-	V275	85	\$365.00
ADD: SEC. CPU PLUG-IN RS-232 PORT	Provides the same functionality as the V184, but installed on the redundant CPU.	V185	85	\$111.00
ADD: SEC. CPU PLUG-IN RS 485 PORT	Provides the same functionality as the V440, but installed on the redundant CPU.	V441	85	\$111.00

I/O Expansion LAN Switch

This should be ordered as an option to the main RTU models. The LAN switch takes one of the I/O slots on the main RTU.

Description	Full Description	Nomenclature	APC	Price
ADD: ACE3600 EXPANSION LAN SWITCH MODULE	Required when more than 1 expansion frame is connected to an RTU. Occupies one I/O slot on the main RTU. Includes a 60 cm LAN cable (FKN8561) for connecting the LAN switch to the main CPU. Requires the 3640 CPU on the main RTU.	VA00226	85	\$462.00

I/O Expansion Frame

These options are compatible with the F7510 only.

Description	Full Description	Nomenclature	APC	Price
ADD: LAN CABLE 3 METER	LAN cable for connecting an expansion frame to the expansion LAN switch.	V666	85	\$28.00
ADD: LAN CABLE 60 CM	Can be used for connecting the LAN switch to the main CPU or for connecting the expansion frame to the LAN switch.	V529	85	\$21.00
ADD: DC 10.5-15.5V	This option removes the power supply that is standard with the Expansion Frame (F7510) and adds the power supply that is standard with the ACE3600 RTU. Use this option if A) the current draw from the Expansion racks + the current draw from the main RTU exceed the capacity of the main RTU power supply, or if B) a power source local to the expansion rack will be used. Please see System Planner for details.	V274	85	\$0.00
ADD: LAN CROSS CABLE 3 METER	Crossed LAN cable for connecting an expansion frame directly to the main CPU. Not compatible with the LAN switch.	V665	85	\$21.00
ADD: LAN CABLE 2 METER	LAN cable for connecting an expansion frame to the expansion LAN switch.	V648	85	\$21.00

Miscellaneous

Description	Full Description	Nomenclature	APC	Price
OPTION TEST REPORT	May be ordered with any of the main RTU models and also with the Expansion Frame. V99 provides printed report of the factory test.	V99	85	\$11.00
ADD: BLANK MODULE	Fits to I/O slots.	V20	85	\$24.00
ADD: ACT MODULE FOR ACE3600	-	V155	85	\$630.00

Software and Software Licenses

Description	Full Description	Nomenclature	APC	Price
ADD: DNP-3 LICENSE MASTER/SALVE - RTU	One required in every RTU or FIU that requires DNP capability. License is included with the RTU.	V283	214	\$105.00
ADD: IEC870-5-101 LICENSE	One required for each RTU or FIU that uses this protocol driver.	V242	85	\$105.00
ADD: 3 RD PARTY PROTOCOL LICENSE	One required for each RTU or FIU that uses the 3rd party protocol: ModBus, Allan Bradley.	V377	214	\$105.00
ADD: AGA LICENSE	One required in every RTU or FIU that requires AGA8 capability. License is included with the RTU.	V284	214	\$105.00

ASTRO® Digital APX 1500 Enhanced Mobile Subscriber

1. Main Model (Must Select One)
Special Note for United States - State & Local Markets: In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Description	Full Description	Nomenclature	APC	Price
APX1500 UHF2	-	M36SS59PW1 N	466	\$1,858.00

2. Mounting (Required)
APX 1500 models require Dash Mount

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT O2 WWM	Required for Control Station Operation.	G66	471	\$138.00

Control Station Operation (Optional)
Must select a control head.
Requires Dash Mount (G66)
Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.
Although the Power Supply is optional, it is needed for a full Control Station solution.

ADD: SOFTWARE P25 CONVENTIONAL	-	Q811	471	\$715.00
ADD: 3600 OR 9600 TRUNKING BAUD SINGLE SYSTEM	-	QA02756	471	\$1,727.00

System Enhancement Options (Optional)
The following options are optional and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation.	GA09000	656	\$165.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOENCING	Requires Digital, IV&D, and GPS.	GA09012	471	\$165.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$110.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$165.00
ADD: TDMA OPERATION	Requires P25 Digital Trunking	GA00580	471	\$495.00
ENH: TRUNKED RADIO TRACE/ REMOTE MO	Requires W20, W22, W872, G892, GA00221. Some older revisions are not compatible.	G170	471	\$83.00

6. Feature Antennas (Must select one)
Although GPS comes standard, an antenna is required for the full solution.

Description	Full Description	Nomenclature	APC	Price
ADD: GPS ANTENNA	Corresponding kit: HAG4000	GA00226	656	\$83.00
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$36.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

7. Encryption Algorithms (Required)

Updated Pricing for contract 4400016317 as of January 2022

All APX Mobile Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00
Multikey (Optional)				
All multikey options require an encryption algorithm selection.				
Description	Full Description	Nomenclature	APC	Price
ADD: MULTIKEY	Required when using more than one encryption algorithm or encryption key.	W969	466	\$95.00
Data/Programming Cable (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: USB DATA INTFC CABLE-DASH	Corresponding kit: HKN6163B.	G308	656	\$55.00

ADD: APX NO O2/O7 CH NEEDED MTCL	If you plan to use this model with an O2/O5/E5/O7 Control Head but already have a control head and don't require it, select G88. Requires remote mount option (G67).	G88	656	\$0.00

Dual Control Head (Optional)

The APX 6500 mobile can support up to two control heads on a single transceiver. This allows control of a single APX 6500 transceiver from two different control head locations.
Dual Control Head requires Remote Mount.
When ordering the dual control head option, only one type of control head can be selected.
Only available with O2, E5, and O7 Control Heads.
The Dual Control Head Option requires an equal number of microphones, speakers, and CAN cables.

Description	Full Description	Nomenclature	APC	Price
ADD: APX DUAL-CONTRL HD HARDWARE	Requires either O2, O5, E5, O7 Control Head. Requires a remote mount configuration. Requires a selection of 2 for microphones, speakers and CAN cables.	GA00092	656	\$627.00

4. RF Antenna (Required)

No Antenna Requested
7/800 Antennas

Dual Radio Operation Options

Description	Full Description	Nomenclature	APC	Price
ENH: DUAL RADIO OPERATION (PRIMARY RADIO)	The Primary radio must be ordered with an O7 CH, or E5 CH. APX Dual Radio is not compatible with any other control head. The primary radio includes a short dual radio CAN cable (HKN6245) to connect both radios together. If the stack mount trunnion is ordered, a right-angle version of this cable (HKN6249) will ship instead to facilitate stack-mounted installations. (If a different length is desired, the standard remote mount control head cables can also be used to connect both together.	GA01113	656	\$715.00
ENH: DUAL RADIO OPERATION (SECONDARY RADIO)	The secondary radio must be ordered with no control head (G88).	GA01117	656	\$715.00

System Enhancement Options (Optional)				
The following options are optional and will provide additional capabilities, if required.				
Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation (G806).	GA09000	656	\$165.00
ADD: DVRS MSU ACTIVATION	Allows mobile to host A DVR, Requires Remote mount G67. Additional hardware may be needed to operate properly with a DVR. Requires depot to change a mobile from a MSU to PSU	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Requires depot to change a mobile from a PSU to MSU or MSU to PSU Please choose correctly Enables DVRS Enhanced PSU functionality on APX Mobile Radios. If you are connecting your mobile radio directly to a DVR to repeat then order GA00631 MSU.	QA00631	655	\$110.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking (G361).	QA03399	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital Operation (G806) for Conventional only capabilities and G361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital Operation (G806), IV&D (W947), and GPS (GA00229).	GA09012	471	\$165.00
ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation (G806). This feature allows for voting of the Conventional Channels only.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking (G361).	GA01767	527	\$110.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation.	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 9600 Trunking (G361). There is no Analog Functionality for this feature. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking (G361).	GA0982	656	\$165.00
ENH: TACTICAL RADIO STW-STUNKILL	Requires digital (G806), IV&D, and an encryption (not including ADP-only).	H02	481	\$83.00
ADD: TDMA OPERATION APX	Requires P25 9600 Trunking (G361).	GA00580	656	\$495.00
ENH: ENHANCEMENT LEVEL 2	Please reference the Enhancement Level Reference Guide for more details.	GA01771	527	\$220.00
ADD: WI-FI CAPABILITY	Compatible with Enhanced (BN) models only. Requires a Wi-Fi antenna. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using Wi-Fi is desired.	GA09001	681	\$330.00
ADD: OUT OF THE BOX WI-FI PROVISIONING	Requires GA09001 (Wi-Fi)	GA09007	681	\$0.00
ADD: SMARTCONNECT	Requires either or Wi-Fi or Data Modem Tethering. Separate SV/C part number must be ordered separately to activate service.	GA01630	681	\$0.00
DEL: DELETE BLUETOOTH	-	QA05336	481	\$100.00
ADD: TRUNKED ONE TOUCH BUTTON APX	-	G683	656	\$138.00
6. Feature Antennas (Must select one)				
Note: The Enhanced APX 6500 model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable. Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).				
Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.				
Multi-function Antennas (Must Select One in Multi-function is Selected)				
Requires Wi-Fi (GA09001)				
Description	Full Description	Nomenclature	APC	Price

GPS Antenna Adaptor				
Description	Full Description	Nomenclature	APC	Price
ADD: SMA TO QMA ADAPTER	Requires GA01305, or GA00226. Corresponding kit: CB000091A04. Corresponding kit: CB000091A04	GA01576	986	\$0.00
Wi-Fi Antennas (Must select one if single function Wi-Fi is requested)				
Description	Full Description	Nomenclature	APC	Price
ADD: COVERT WIFI GLASSMOUNT 2.4/5 GHZ	Corresponding kit: PMAN5101 Requires Wi-Fi (GA09001).	GA01579AB	681	\$77.00
Advanced System Key (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key QA01648 can be ordered instead. Be sure to enter the correct system owner ID in the supplemental data. If an incorrect ID is entered, a FLASHport order is required to fix the error. Order hardware key (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00
7. Encryption Algorithms (Required Selection)				
All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)				
Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	G851	656	\$879.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$659.00
ADD: DVP-XL ENCRYPTION AND ADP	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$536.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below. QA05751 is CAP & COM compliant option.	QA05751	655	\$0.00
Multikey (Optional)				
All multikey options require an encryption algorithm selection.				
Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$363.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Not compatible with ADP-Only. Requires AES. Includes multikey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	G298	656	\$814.00
ADD:TACTICAL OTAR APX	Requires digital (G806) and IV&D (W947).	H04	656	\$385.00
ADD: MULTI SYSTEM OTAR	Requires ASTRO 25 OTAR W/ MULTIKEY (G298)	GA01620	656	\$165.00
8. Remote Mount Cables (17 FT STD)				
Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Only for O5, E5 & O7 Control Heads.

ASTRO® Digital APX 6500 Mobile Subscriber

1. Main Model (Must Select One)

Special Note for United States - State & Local Markets: In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Description	Full Description	Nomenclature	APC	Price
APX6500 UHF R2 MID POWER	-	M25SS9PW1 N	527	\$2,896.00

2. Mounting (Must Select One)

If a remote mount cable other than 5 meters (17ft) is desired for G67, please reference the "Remote Mount Cables" section.

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT	Required for Control Station Operation. 03 Dash mount is identical to remote mount minus the 17' extension cable PMLN4958A	G66	656	\$138.00
ADD: REMOTE MOUNT MID POWER	G67 is required for Motorcycle Configuration. G67 FOR Motorcycle Remote Mount is \$400 DUP.	G67	656	\$327.00

Control Station Operation (Optional)

02, E5 & 07 Control Heads Only. Must select one.

Requires Dash Mount (G66)

Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.

Although the Power Supply is optional, it is needed for a full Control Station solution.

Description	Full Description	Nomenclature	APC	Price
ADD: CONTROL STATION OPERATION	Requires a O2, O5, E5, or O7 Control Head. Requires Dash Mount (G66) Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.	W665	656	\$77.00
ADD: CONTROL STATION POWER SUPPLY	Although the Power Supply is optional, it is needed for a full Control Station solution. Corresponding kit: HPN4007	G91	656	\$296.00
3A Control Head Software (Required)				
ADD: APX CONTROL HEAD SOFTWARE	-	G444	656	\$0.00
3B Control Head Options (Must select one)				
O2 Control Head Options				
ADD: APX O2 CONTROL HEAD	-	GA00804	656	\$541.00
ADD:IMPACT GREEN COLOR HOUSING (O2)	When ordered in conjunction with GA00804 you will get a green colored O2 housing.	G201	656	\$28.00
ADD: SCHOOL SECURITY ENHANCEMENT PACKAGE	Education O2 Emergency Push Button	GA01056	514	\$55.00
O3 Control Head Options				
ADD: APX O3 HANDHELD CH	Requires No Microphone (G90). If Lights & Siren Keypad and Software is required, order GA00806.	G72	656	\$1,041.00
ADD:CH SIREN & LIGHTS KEYPAD	Available on O3 (G72) and O7 (GA00805) Control Heads.	GA00806	656	\$55.00
E5 Control Head Option				
ADD: APX E5 CONTROL HEAD	-	GA01670	681	\$717.00
O7 Control Head Options				
ADD: APX O7 CONTROL HEAD.	If Lights & Siren Keypad and Software is required, order GA00806.	GA00805	656	\$695.00
ADD:CH SIREN & LIGHTS KEYPAD	Available on O3 (G72) and O7 (GA00805) Control Heads.	GA00806	656	\$55.00
No Control Head Options				
ADD: NO O3 CONTROL HEAD	If you plan to use this model with an O3 Control Head but already have a control head and don't require it, select GA00001. Requires remote mount (G67).	GA00001	656	\$0.00
ADD: APX NO O2/O7 CH NEEDED MTCL	If you plan to use this model with an O2/O5/E5/O7 Control Head but already have a control head and don't require it, select G88. Requires remote mount option (G67).	G88	656	\$0.00
Dual Control Head (Optional)				
The APX 6500 mobile can support up to two control heads on a single transceiver. This allows control of a single APX 6500 transceiver from two different control head locations.				
Dual Control Head requires Remote Mount.				
When ordering the dual control head option, only one type of control head can be selected.				
Only available with O2, E5, O7 Control Heads.				
The Dual Control Head Option requires an equal number of microphones, speakers, and CAN cables.				
ADD: APX DUAL-CONTRL HD HARDWARE	Requires either O2/O5/E5/O7 Control Head. Requires a remote mount configuration. Requires a selection of 2 for microphones, speakers and CAN cables.	GA00092	656	\$627.00
4. RF Antenna (Required)				
No Antenna Requested				
7/800 Antennas				
ADD: ANT 3DB LOW-PROFILE 762-870	Corresponding kit: HAF4013	G174	656	\$47.00

Dual Radio Operation Options				
ENH: DUAL RADIO OPERATION (PRIMARY RADIO)	The Primary radio must be ordered with an O7 or E5 CH. APX Dual Radio is not compatible with any other control head. The primary radio includes a short dual radio CAN cable (HKN6245) to connect both radios together. If the stack mount trunion is ordered, a right-angle version of this cable (HKN6249) will ship instead to facilitate stack-mounted installations. If a different length is desired, the standard remote mount control head cables can also be used to connect both together.	GA01113	656	\$715.00
ENH: DUAL RADIO OPERATION (SECONDARY RADIO)	The secondary radio must be ordered with no control head (G88).	GA01117	656	\$715.00
Dual Radio Options				
ADD: DUAL RADIO STACKABLE MP TRUNNION	Comprised of HLN7045A and HKN6249A	GA01115	656	\$327.00
5: Operation Mode (Must Select One)				
5A: Digital Trunking (SN/SZ P25 Phase 1 Interop)				
ADD: ASTRO DIGITAL CAI OPERATION	Not compatible with G241.	G806	656	\$567.00
ENH: SMARTZONE OPERATION APX6500	Not compatible with G48.	G51	527	\$1,320.00
ENH: P25 TRUNKING SOFTWARE APX	Required when ordering Smartzone Operation (G51) & Digital Operation (G806). Smartzone Omnilink (G173) is included with this option.	G361	656	\$330.00
5B: Digital Trunking (SN/SZ)				
ADD: ASTRO DIGITAL CAI OPERATION	Not compatible with G241.	G806	656	\$567.00
ENH: SMARTZONE OPERATION APX6500	Not compatible with G48.	G51	527	\$1,320.00
ADD: SMARTZONE OMNILINK	Automatic Zoning Across Zones, Zone Registration, Trespass Protection, Over the Air Site Alias, 32 Preferred Sites, FastStart and AllStart Call Setup.	G173	656	\$220.00
5C: Digital Conventional (P25)				
ADD: ASTRO DIGITAL CAI OPERATION	Not compatible with G241.	G806	656	\$567.00
ENH: CONVENTIONAL OPERATION APX6500	Not compatible with G51.	G48	527	\$550.00
5D: Analog Trunking				
ENH: SMARTZONE OPERATION APX6500	Not compatible with G48.	G51	527	\$1,320.00
ENH: SW ASTRO READY (ANALOG)	Not compatible with G806 or with Encryption Algorithm W969, W793, W797, G625, G298, G851, or G843 when combined with a Trunking Software Option.	G241	656	\$0.00
5E: Analog Conventional				

Description	Full Description	Nomenclature	APC	Price
ENH: SW ASTRO READY (ANALOG)	Not compatible with G806 or with Encryption Algorithm W969, W793, W797, G625, G298, G851, or G843 when combined with a Trunking Software Option.	G241	656	\$50.00
ENH: CONVENTIONAL OPERATION APX6500	Not compatible with G51.	G48	527	\$50.00
System Enhancement Options (Optional)				
The following options are optional and will provide additional capabilities, if required.				
Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation (G806).	GA09000	656	\$165.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering. Requires Remote Mount (G67).	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$110.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking (G361).	QA03399	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital Operation (G806) for Conventional only capabilities and G361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital Operation (G806), IV&D (W947), and GPS (GA00229).	GA09012	471	\$165.00
ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT00024A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation (G806). This feature allows for voting of the Conventional Channels only.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking (G361).	GA01767	527	\$110.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation.	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 9600 Trunking (G361). There is no Analog Functionality for this feature. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking (G361).	GA00982	656	\$165.00
ENH: TACTICAL RADIO STW-STUNKILL	Requires digital (G806), IV&D, and an encryption (not including ADP-only).	H02	481	\$83.00
ADD: TDMA OPERATION APX	Requires P25 9600 Trunking (G361).	GA00580	656	\$495.00
ENH: ENHANCEMENT LEVEL 2	Please reference the Enhancement Level Reference Guide for more details.	GA01771	527	\$220.00

Enhancement Level Reference Guide
6. Feature Antennas (Must select one)

Although GPS comes standard, an antenna is required for the full solution.

Description	Full Description	Nomenclature	APC	Price
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$36.00
ADD: GPS ANTENNA	Corresponding kit: HAG4000	GA00226	656	\$83.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

7. Encryption Algorithms (Must Select One)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	G851	656	\$879.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$659.00
ADD: DVP-XL ENCRYPTION AND ADP	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$536.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Multkey (Optional)

All multkey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$363.00
ENH: ASTRO 25 OTAR W/ MULTKEY	Not compatible with ADP-Only. Requires AES. Includes multkey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	G298	656	\$814.00
ADD:TACTICAL OTAR APX	Requires digital (G806) and IV&D (W947).	H04	656	\$385.00
ADD: MULTI SYSTEM OTAR	Requires ASTRO 25 OTAR W/ MULTKEY (G298)	GA01620	656	\$165.00

8. Remote Mount Cables (17 FT STD)

Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Multi-control head options delete the 17 FT standard cable and customers are required to order a cable per control head. Only for O5, E5 & O7 Control Heads.

Description	Full Description	Nomenclature	APC	Price
ADD:CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$11.00
ADD: REMOTE MOUNT CBL 17 FEET	Included at no charge with Single Control Head Remote Mount installations and High Power.	G628	656	\$17.00
ADD: REMOTE MOUNT CBL 30 FEET	Corresponding kit: HKN6169	G610	656	\$28.00
ADD: REMOTE MOUNT CBL 50 FEET	Corresponding kit: HKN6168	G609	656	\$39.00
ADD:CBL REMOTE MOUNT 75 FEET	Corresponding kit: HKN6167	G607	656	\$50.00
ADD:REMOTE MOUNT CBL 115 FEET	Corresponding kit: HKN6165	G879	656	\$61.00
ADD: REMOTE MOUNT CABLE 128 FT	For dual control head configurations, the total cable length may not be greater than 131 ft (40 meters). Therefore, this cable should not be used with a dual control head configuration. Corresponding kit: HKN6164 (actual cable length is 128 ft)	G582	656	\$72.00

Data/Programming Cable (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: USB DATA INTFC CABLE-DASH	6 FT USB W/IGNITION SENSE Corresponding kit: HKN6163B. Can be used to program APX Mobile Radios.	G308	656	\$55.00
ADD:USB DATA INTFC CABLE-TRK	16.5 FT USB W/IGNITION SENSE Corresponding kit: HKN6172B. Can be used to program APX Mobile Radios.	G309	656	\$55.00
ADD: RS232 DATA INTFC CBL DASH	6 FT RS232 DATA CABLE Corresponding kit: HKN6160A.	G303	656	\$55.00
ADD: RS232 DATA INTFC CBL TRK	20 FT RS232 DATA CABLE Corresponding kit: HKN6161A.	G304	656	\$55.00

Cable Accessories (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: EXTERNAL ALARM RELAY AND CABLE	For either HORN or LIGHTS. NOT both	W116	656	\$83.00
ADD:BUZZER 110MA APX	Corresponding kit: HLN6953	B116	656	\$55.00
ADD: GC&I EXTENSION CABLE 2 FT	For use with 07, 09 Control Heads and GC&I style Mic. KIT #PMKN4093A.	GA00589	656	\$33.00
ADD:REMOTE MOUNT VIP CBL APX	Park/Kill, Gunlock, "Horn Ring/Horn Transfer" or Horn/Lights Park/Kill and Horn "Ring/Horn Transfer" only available with Motorola Siren. Gunlock supported on 09 Control Head Only. CORRESPONDING KIT: (HKN6196B)	G322	656	\$39.00
ADD: UNIVERSAL RELAY CONTROLLER	Required to Control Vehicle Lights with the 03, 07 and 09 Control Heads.Requires URC Cable GA00260.	GA00259	656	\$275.00
ADD: CABLE URC TO TRANSCIVER	Connects Universal Relay Controller to APX Transceiver via a RJ45 and CG&I connection.	GA00260	656	\$17.00
ADD: KEY LOCK MOUNT APX	Remote Mount Mid Power Only.	W81	471	\$36.00

9: Microphones (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ENH: HAND MIC GC&I WATER RESISTANT	Corresponding kit HMN1089A	G892	656	\$79.00
ADD: MODEL III GC&I KEYPAD HANDSET	Corresponding kit: HMN4097A	GA00221	656	\$325.00
ADD: NO MICROPHONE NEEDED	Select this option when ordering O3 Handheld Control Head (G72). If ordering with Motorcycle G138 the DB 25 connector on harness needs to be sealed to prevent corrosion.	G90	696	\$0.00
ADD: KEYPAD MIC GC&I	Corresponding kit: HMN4079	W20	471	\$198.00
ADD: GATEWAY RSM AND WIRELESS RSM WITH VEHICLE CHARGER	Includes 12V Vehicle Charger Corresponding kit: RLN6551	GA01354	656	\$550.00
ADD:GATEWAY RSM AND WIRELESS RSM	Corresponding kit: RLN6552	GA01439	656	\$431.00
ADD: CONTROL STATION DESK GC&I MIC	Dash Mount Required Corresponding Kit: RMN5070	W382	656	\$186.00
ADD: STD PALM MICROPHONE APX	Corresponding kit: HMN1090	W22	471	\$79.00
ADD: GATEWAY RSM	Corresponding kit: PMN4097	GA01438	656	\$138.00
ADD: HANDSETHANGUP MIC ARMORED CABLE	Armored Cable. No Toggle Switch Accessory Kit: HKN1018	W874	656	\$300.00
ADD:HANDSETHANGUP MIC	Coiled Cable with Toggle Switch Accessory Kit: HLN1457A	G874	656	\$285.00
ADD: VISOR MIC REMOTE MOUNT	Requires G90 No Microphone Needed & G235 Footswitch PTT. Kit Number: RMN5054	W872	656	\$33.00
ADD: GOOSENECK PTT	Requires W872 Visor Mic. Kit Number: HMN1087A	G233	656	\$62.00
ADD: PTT FOOTSWITCH	Requires W872 Visor Mic. Kit Number: GLN7278	G235	656	\$56.00

Emergency

Description	Full Description	Nomenclature	APC	Price
ADD: EMERGENCY ID EXT. FOOTSWITCH	Corresponding kit: HLN5113.	W470	656	\$62.00
ADD: EXTERNAL EMERGENCY PUSHBUTTON	Corresponding kit: HLN5131	W688	656	\$62.00

Direct Mode Entry & Status/Message (Optional)

DEKs are incompatible with the O3 Control Head (except for DEK for Whelen Siren - GA00814). They require Remote Mount Configuration.

Please note: 24 modes are the maximum number of modes available. Although a combination of Direct Mode Entry boxes and Status/Message boxes can be used, the maximum available entries is 24.

Description	Full Description	Nomenclature	APC	Price
ADD: 8 MODE DIRECT ENTRY	Corresponding Kit: H1835	W599	656	\$198.00
ADD: 16 MODE DIRECT ENTRY	Corresponding Kit: H1836A	W614	656	\$396.00

5: Operation Mode (Must Select One)				
Trunking mode requires either a Software Key (QA01749 comes standard unless QA01648 is selected), or a Hardware Key (QA01648).				
Description	Full Description	Nomenclature	APC	Price
ENH: 3600 OR 9600 TRUNKING BAUD SIN	Provides for Digital and P25 Trunking.	QA02756	426	\$1,727.00
ENH: LI ANALOG 3600 TRUNKING	Provides for Analog Trunking	Q443	755	\$1,210.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$440.00
ENH: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional.	Q811	426	\$715.00
System Enhancement Options (Optional)				
The following options are optional and will provide additional capabilities, if required.				
Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation.	GA09000	656	\$165.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering. Requires Remote Mount and P25 Digital Trunking.	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Requires P25 Digital Trunking. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$110.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS.	GA09012	471	\$165.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$110.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ENH: ENH: RADIO TRACE	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	656	\$83.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$165.00
ADD: TDMA OPERATION APX	Requires P25 Digital Trunking	GA00580	656	\$495.00
6. Feature Antennas (Must select one)				
Although GPS comes standard, an antenna is required for the full solution.				
Description	Full Description	Nomenclature	APC	Price
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$36.00
ADD: GPS ANTENNA	Corresponding kit: HA40000	GA00226	656	\$83.00
Advanced System Key (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advanced System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00
7. Encryption Algorithms (Must select one)				
All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/G667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)				
The APX 6500Li does not support multiple hardware encryption types.				
Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multitkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$659.00
ADD: DVP-XL ENCRYPTION AND ADP	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$536.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multitkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00
Multitkey (Optional. Can only select one)				
All multitkey options require an encryption algorithm selection.				
Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$363.00
ADD: TACTICAL OTAR APX	Requires digital (G806), IV&D, and an encryption (not including ADP-only).	H04	656	\$385.00

5: Operation Mode (Must Select One)
Trunking mode requires either a Software Key (QA01749 comes standard unless QA01648 is selected), or a Hardware Key (QA01648).

Description	Full Description	Nomenclature	APC	Price
ENH: 3600 OR 9600 TRUNKING BAUD SIN	Provides for Digital and P25 Trunking.	QA02756	426	\$1,727.00
ENH: LI ANALOG 3600 TRUNKING	Provides for Analog Trunking	Q443	755	\$1,210.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$440.00
ENH: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional.	Q811	426	\$715.00

System Enhancement Options (Optional)
The following options are optional and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation.	GA09000	656	\$165.00
ADD: DVRS MSU ACTIVATION	Allows mobile to host A DVR, Requires Remote mount G67. Additional hardware may be needed to operate properly with a DVR. Requires depot to change a mobile from a MSU to PSU	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Requires depot to change a mobile from a PSU to MSU or MSU to PSU Please choose correctly Enables DVRS Enhanced PSU functionality on APX Mobile Radios. If you are connecting your mobile radio directly to a DVR to repeat then order GA00631 MSU.	QA00631	655	\$110.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$165.00
ADD: FPP & CLONE APX	-	G53	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS.	GA09012	471	\$165.00
ADD: TRUNKED ONE TOUCH BUTTON APX	-	G683	656	\$138.00
ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000259A01 on a separate line.	GA09011	681	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$110.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital Operation	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ENH: ENH: RADIO TRACE	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	656	\$83.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$165.00
ADD: TDMA OPERATION APX	Requires P25 Digital Trunking	GA00580	656	\$495.00
ADD: WI-FI CAPABILITY	Compatible with Enhanced (BN) models only. Requires a Wi-Fi antenna. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using Wi-Fi is desired.	GA09001	681	\$330.00
ADD: OUT OF THE BOX WI-FI PROVISIONING	Requires GA09001 (Wi-Fi)	GA09007	681	\$0.00

6: Feature Antennas (Must select one)
Note: The Enhanced APX 6500LI model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable.
Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).

Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.

Multifunction Antennas (Must Select One In Multifunction Is Selected)

ADD: NO WI-FI ANTENNA NEEDED	-	GA01607AA	681	\$0.00

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key QA01648 can be ordered instead. Be sure to enter the correct system owner ID in the supplemental data. If an incorrect ID is entered, a FLASHport order is required to fix the error. Order hardware key (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

Encryption Algorithms (Optional)
All APX 6500LI Mobile Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

The APX 6500LI does not support multiple hardware encryption types.

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$659.00
ADD: DVP-XL ENCRYPTION AND ADP	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$536.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00

Description	Full Description	Nomenclature	APC	Price

ASTRO® Digital APX 4500 Mobile Subscriber
1. Main Model (Must Select One)

Special Note for United States - State & Local Markets: In accordance with FCC mandate, the U1/U2 Mid Power and U1/7-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Description	Full Description	Nomenclature	APC	Price
APX4500 900MHZ	-	M22WRS9PW1 N	471	\$1,858.00
APX4500 UHF R2	-	M22SS9PW1 N	471	\$1,858.00

2. Mounting (Must Select One)

If a remote mount cable other than 5 meters (17ft) is desired for G67, please reference the "Remote Mount Cables" section.

Description	Full Description	Nomenclature	APC	Price
ADD: REMOTE MOUNT O2 WWM	-	G67	656	\$327.00
ADD: DASH MOUNT O2 WWM	Required for Control Station Operation.	G66	471	\$138.00

Control Station Operation (Optional)

Must select a control head.
Requires Dash Mount (G66)
Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.
Although the Power Supply is optional, it is needed for a full Control Station solution.

5: Software Packages (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ADD: 3600 OR 9600 TRUNKING BAUD SINGLE SYSTEM	Provides for Digital and P25 Trunking.	QA02756	471	\$1,727.00
ADD: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional	Q811	471	\$715.00
ADD: SOFTWARE ANALOG 3600 BAUD	Provides for Analog Trunking	Q443	471	\$1,210.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$440.00

System Enhancement Options (Optional)

The following options are optional and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation	GA09000	656	\$165.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering and DVRS PSU. Requires remote mount. Requires depot to change to PSU	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Requires P25 Digital Trunking. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$110.00
ADD: ENHANCED DATA	Incompatible with GA00631. Requires P25 9600 Trunking	QA03399	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IVSD, and GPS	GA09012	471	\$185.00
ADD: DATA MODEM TETHERING	Requires Remote Mount. Incompatible with DVRS MSU. Provides for aftermarket cable: KT000247A01.	GA09011	681	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$110.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (OVN4046A).	G996	656	\$110.00
ENH: TRUNKED RADIO TRACE/ REMOTE MO	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	471	\$83.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$165.00
ADD: TDMA OPERATION	Requires P25 Digital Trunking	GA00580	471	\$495.00

6. Feature Antennas (Must select one)

Although GPS comes standard, an antenna is required for the full solution.

Description	Full Description	Nomenclature	APC	Price
ADD: GPS ANTENNA	Corresponding kit: HA40000	GA00226	656	\$83.00
ADD: GPS ANTENNA GLASS MT	Corresponding kit: PMAN4001	GA00270	656	\$36.00

Advanced System Key (Optional)

Must Select One if Trunking is Ordered

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

7. Encryption Algorithms (Must Select one)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$363.00

8. Remote Mount Cables (17 FT STD)

Description	Full Description	Nomenclature	APC	Price
ADD:CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$11.00

ASTRO® Digital APX 4500 Enhanced Mobile Subscriber

1. Main Model (Must Select One)

Description	Full Description	Nomenclature	APC	Price
APX4500 ENHANCED 7/800 MHZ	Enhanced Model	M22UR59PW1BN	471	\$2,036.00
APX4500 ENHANCED UHF R1	Enhanced Model	M22OS59PW1BN	471	\$2,036.00
APX4500 ENHANCED VHF1	Enhanced Model	M22KS59PW1BN	471	\$2,036.00

2. Mounting (Must Select One)

If a remote mount cable other than 5 meters (17ft) is desired for G67, please reference the "Remote Mount Cables" section.

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT O2 WWM	Required for Control Station Operation.	G66	471	\$138.00
ADD: REMOTE MOUNT O2 WWM	-	G67	656	\$327.00

Control Station Operation (Optional)

Must select a control head.

Requires Dash Mount (G66)

Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.

Although optional, the Power Supply is needed for full Control Station operation.

Power Supply HPN4007 (used in Control Station configuration for AN Models) is not approved for use on Enhanced Models. Please use KT000254A01 (G91).

5: Software Packages (Must Select One)

Description	Full Description	Nomenclature	APC	Price
ADD: 3600 OR 9600 TRUNKING BAUD SINGLE SYSTEM	Provides for Digital and P25 Trunking.	QA02756	471	\$1,727.00
ADD: SOFTWARE P25 CONVENTIONAL	Provides for Digital Conventional	Q811	471	\$715.00
ADD: SOFTWARE ANALOG 3600 BAUD	Provides for Analog Trunking	Q443	471	\$1,210.00
ADD: ANALOG CONVENTIONAL	Provides for Analog Conventional	QA02829	471	\$440.00

System Enhancement Options (Optional)

The following options are optional and will provide additional capabilities, if required.

Description	Full Description	Nomenclature	APC	Price
ADD: TDMA OPERATION	Requires P25 Digital Trunking	GA00580	471	\$495.00
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation	GA09000	656	\$165.00
ADD: DVRS MSU ACTIVATION	Incompatible with Data Modem Tethering and DVRS PSU. Requires Remote Mount. Requires Depot to change to PSU	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Mutually exclusive with GA00631 MSU that is required if you are connecting your radio directly to a DVR. Will require depot to change PSU to MSU.	QA00631	655	\$110.00
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399	656	\$165.00
ADD: GROUP SERVICES	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires Digital, IV&D, and GPS	GA09012	471	\$165.00

ADD: DATA MODEM TETHERING	Requires Remote Mount (G67). Includes GA01545. Incompatible with DVRS MSU (GA00631). Provides for aftermarket cable: KT000247A01. For MG90 operation, must order KT000258A01 on a separate line.	GA09011	681	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Digital Operation.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires P25 9600 Trunking	GA01767	527	\$110.00
ADD: MOBILE PERSONAL ACCOUNTABILITY SW	Requires Digital	G445	571	\$150.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ENH: TRUNKED RADIO TRACE/ REMOTE MO	Requires W20, W22, W872, G892, or GA00221. Some older revisions are not compatible.	G170	471	\$83.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	Requires P25 9600 Trunking	GA00982	656	\$165.00
ADD: One Touch/Status Msg	-	G683	471	\$138.00
ADD: WI-FI CAPABILITY	Compatible with Enhanced (BN) models only. Requires a Wi-Fi antenna. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using Wi-Fi is desired.	GA09001	681	\$330.00
ADD: OUT OF THE BOX WI-FI PROVISIONING	Requires GA09001 (Wi-Fi)	GA09007	681	\$0.00
DEL: DELETE BLUETOOTH	-	QA05336	481	\$138.00

6. Feature Antennas (Must select one)

Note: The Enhanced APX model has QMA connections for both the WiFi and GPS antenna ports. The RF antenna connection is the same mini-UHF connection as the previous models. Please order CB000091A04/GA01576 to receive an SMA to QMA adaptor cable.
Must select from either Multi-function section or Single function GPS section and Single Function Wi-Fi section (if GA09001 is ordered).

Even though GPS comes standard, a GPS antenna, Digital and IV&D are required to implement the full solution.

Multifunction Antennas (Must Select One in Multifunction is Selected)

Requires Wi-Fi (GA09001)

Description	Full Description	Nomenclature	APC	Price
ADD: WIFI/GNSS FLEXIBLE CABLE LMR195	Corresponding kit: AN000163A01	GA00250	681	\$110.00
GPS Antennas (Must select one if single function GPS is required)				
Description	Full Description	Nomenclature	APC	Price
ADD: COVERT GNSS GLASSMOUNT LMR100	Corresponding kit: PMAN4109	GA01580AA	681	\$77.00
ADD: GPS/GNSS MAG MOUNT ANTENNA	Corresponding kits: CB000091A04, & PMAN4010	GA01305	656	\$66.00
ADD: GPS ANTENNA	Requires GA01576. Corresponding kit: HAG4000	GA00226	656	\$83.00

GPS Antenna Adaptors

Description	Full Description	Nomenclature	APC	Price
ADD: SMA TO QMA ADAPTER	Requires GA01305, or GA00226. Corresponding kit: CB000091A04. Corresponding kit: CB000091A04	GA01576	986	\$0.00

Wi-Fi Antennas (Must select one if single function Wi-Fi is requested)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT WIFI GLASSMOUNT 2.4/5 GHZ	Corresponding kit: PMAN5101 Requires Wi-Fi (GA09001).	GA01579AB	681	\$77.00

Advanced System Key (Optional)

Must Select One if Trunking is Ordered

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

7. Encryption Algorithms (Must select one)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Multikey (Optional)

All multikey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$363.00

8. Remote Mount Cables (17 FT STD)

Description	Full Description	Nomenclature	APC	Price
ADD: CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$11.00
ADD: REMOTE MOUNT CBL 30 FEET	Corresponding kit: HKN6168	G610	656	\$28.00

ENH: P25 CONVENTIONAL	-	QA04097	837	\$385.00

System Enhancement Software

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QAO1749. The HARDWARE KEY QAO1648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QAO1648) if required to operate/program on a trunking system. Not compatible with conventional.	QAO1648	655	\$6.00
---	--	---------	-----	--------

System Enhancement Options (Optional)

All APX 900 Radios ship P25 "clear" with QAO5751 unless an encryption option is ordered.

Description	Full Description	Nomenclature	APC	Price
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D (Q947). Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	426	\$110.00
ADD: TDMA OPERATION	Requires P25 Trunking (QAO4096). A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	426	\$495.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00
ADD: MULTIKEY	-	H869	837	\$83.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required.	QA03399	656	\$165.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature (requires digital).	QA09008	655	\$165.00
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 trunking operation (QAO4096)	QA01767	426	\$110.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QAO0782)	QA09012	426	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ENH: CONVENTIONAL VOTE SCAN	-	Q387AT	430	\$253.00
ENH: AES 256 SW ENCRYPTION	P25 CAP Compliant option. Includes ADP. AES Encryption can NOT be field upgraded. Highly recommended to be purchased up front if needed.	QA06653	837	\$358.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	-	QA05751	655	\$0.00

Antenna Selection (Optional)

The APX 900 ships with a standard antenna dependent on frequency (7/800 MHz: NAF5080, 900 MHz: NAF5088, VHF: PMAD4088, UHF: PMAE4022)

The APX 900 contains an internal GPS antenna and therefore a separate external GPS antenna is not needed

Description	Full Description	Nomenclature	APC	Price
ALT: 1/4- WAVE 7/800 STUBBY (PMAF4022A)	This option will delete the standard antenna (NAF5080) and add 1/4 wave 7/800 stubby antenna (PMAF4022)	H122	837	\$10.00
ALT: VHF STUBBY ANTENNA (136-147MHZ) (PMAD4093A)	This option will delete the standard antenna (PMAD4088) and add 136-147 MHz stubby antenna (PMAD4093)	QA06786	837	\$10.00
ALT: VHF STUBBY ANTENNA (147-160MHZ) (PMAD4094A)	This option will delete the standard antenna (PMAD4088) and add 147-160 MHz stubby antenna (PMAD4094)	QA06787	837	\$10.00
ALT: VHF STUBBY ANTENNA (160-174MHZ) (PMAD4095A)	This option will delete the standard antenna (PMAD4088) and add 160-174 MHz stubby antenna (PMAD4095)	QA06788	837	\$10.00
ALT: UHF R1 STUBBY ANTENNA (380-480 MHz) (PMAE4100)	This option will delete the standard antenna (PMAE4022) and add 380-470 MHz stubby antenna (PMAE4100)	QA06796	837	\$10.00
ALT: UHF R2 STUBBY ANTENNA (450-520 MHz) (PMAE4102)	This option will delete the standard antenna (PMAE4094) and add 450-527 MHz stubby antenna (PMAE4102)	QA06797	837	\$10.00
ALT: UHF R2 WHIP ANTENNA (450-520 MHz) (PMAE4094)	This option will delete the standard antenna (PMAF4022) and adds 450-527 MHz antenna (PMAE4049)	QA06795	837	\$10.00
DEL: DELETE STANDARD ANTENNA (NAF5080)	Deletes standard antenna: NAF5080 (7/800 MHz), NAF5088 (900 MHz), PMAD4088 (VHF), PMAE4022 (UHF)	H112LW	837	(\$10.00)

Battery Selection (Optional)

The APX 900 ships standard with an IMPRES Li-Ion 2100 mAh battery (PMNN4491)

Description	Full Description	Nomenclature	APC	Price
ALT: IMPRES LI-ION 3000MAH	This option will delete the standard battery (PMNN4491) and add IMPRES Li-Ion 3000 MAH (PMNN4493)	QA06765	837	\$94.00
ALT: IMPRES LI-ION TIA 2900MAH	This option will delete the standard battery (PMNN4491) and add IMPRES Li-Ion TIA 2900 MAH (PMNN4489)	QA06766	837	\$110.00
DEL: DELETE BATTERY (PMNN4491)	Deletes standard battery (PMNN4491)	H207	837	(\$47.00)

Belt Clip Selection (Optional)

The APX 900 ships standard with a 2" belt clip (PMLN4651)

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT CLIP	This option deletes the standard belt clip (PMLN4651) and adds 2.5" belt clip (PMLN7008)	Q698	426	\$13.00
DEL: DELETE STANDARD BELT CLIP	Deletes standard belt clip (PMLN4651)	H301	426	(\$10.00)

Data Cable Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	Used to program and service the radio with Customer Programming Software and Tuner Software (PMKN4013C)	Q157	655	\$83.00

Service Package Selection (Must Select One)

The APX 900 ships standard with a 12 month warranty

Description	Full Description	Nomenclature	APC	Price
ADD: 3Y ESSENTIAL SERVICE	Provides 3 years of hardware coverage beginning at time of purchase. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	H885BK	185	\$95.00
ADD: 3Y ESSENTIAL ACCIDENTAL DAMAGE	Provides for extended hardware repair coverage and chemical, liquid, and other physical damage on your Motorola portable and mobile subscriber radios. Comprehensive coverage starts from the first day the radio is put into use and last for 3 YEARS. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	HA00022AB	185	\$246.00
ADD: 5Y ESSENTIAL SERVICE	Provides 5 years of hardware coverage beginning at time of shipment. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	Q887	185	\$170.00
ADD: 5Y ESSENTIAL ACCIDENTAL DAMAGE	-	HA00025AG	185	\$378.00
ADD: 3Y ESSENTIAL SVC CANADA	Upgrades the standard warranty period to a full five (5) years of hardware service coverage on the internal components of your radio equipment. Repairs will be made only at Motorola authorized service centers. No discounts are allowed on this option.	HA00044	185	\$141.00
ADD: 5Y ESSENTIAL SVC CANADA	Upgrades the standard warranty period to a full three (3) years of hardware service coverage on the internal components of your radio equipment. Repairs will be made only at Motorola authorized service centers. No discounts are allowed on this option.	HA00045	185	\$194.00

Description	Full Description	Nomenclature	APC	Price
ENH: P25 CONVENTIONAL	-	QA04097	837	\$385.00
ENH: P25 TRUNKING	-	QA04096	837	\$1,177.00

Knob Configuration (Optional)

7/800, VHF, UHF, UHF, UHF and 900 MHz models ship standard with a single multi function knob (no option required).

The 900 MHz model also offers the option for dual knob configuration. If dual knob configuration is desired on the 900 MHz model you must select QA04865.

Description	Full Description	Nomenclature	APC	Price
ADD: DUAL CONTROL ENHANCEMENT	Only available on 900 MHz model	QA04865	426	\$100.00

System Enhancement Software

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

System Enhancement Selection (Optional)

All APX 1000 radios ship P25 "clear" with QA05751 unless the ADP option (Q667) is ordered.

Description	Full Description	Nomenclature	APC	Price
ADD: PROGRAMMING OVER P25 (OTAP)	Compatible with P25 Trunking and Conventional Operation. POP25/OTAP requires AES encryption for ASTRO Conventional operation. Must have IV&D (Q947) enabled. To use in the field POP25 programming must use the Advanced System Key (DVN4046A).	G996	426	\$110.00
ADD: TDMA OPERATION	Requires P25 Trunking (QA04096). A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	426	\$495.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00
ADD: MULTIKEY	-	H869	837	\$83.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required	QA03399	656	\$165.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature (requires digital)	QA09008	655	\$165.00
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (QA04096)	QA01767	426	\$110.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782)	QA09012	426	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ADD: NO ADP FOR P25 CAP	Customers who require compliance with DHS P25 CAP Encryption Requirements and who require a clear radio with no encryption enabled will need to select option QA05751. The radios will need to be sent to the Motorola Depot if Encryption is needed in the future.	QA05751	655	\$0.00
ENH: TRUNKED RADIO TRACE/REMOTE MO	-	H43	426	\$83.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00

Antenna Selection (Optional)

The APX 1000 ships with a standard antenna dependent on frequency (7/800 MHz: NAF5085, 900 MHz: PMAF4008, VHF: NAR6593, UHF: PMAE4065)

Description	Full Description	Nomenclature	APC	Price
ALT: VHF STUBBY ANTENNA (147-160MHZ) (PMAD4094A)	This option will delete the standard antenna (NAR6593) and add 147-160 MHz stubby antenna (PMAD4094)	QA06787	837	\$10.00
ALT: VHF STUBBY ANTENNA (160-174MHZ) (PMAD4095A)	This option will delete the standard antenna (NAR6593) and add 160-174 MHz stubby antenna (PMAD4095)	QA06788	837	\$10.00
ALT: UHF R2 GPS STUBBY ANTENNA (FAF5260)	This option will delete the standard antenna (PMAE4065) and add 380-470 MHz GPS stubby antenna (FAF5259)	QA02017	426	\$61.00
ALT: UHF R2 WHIP ANTENNA (450-520 MHz) (PMAE4094)	This option will delete the standard antenna (PMAE4065) and add 420-445 MHz stubby antenna (PMAE4094)	QA06795	837	\$10.00
ALT: UHF R1 STUBBY ANTENNA (380-480 MHz) (PMAE4100)	This option will delete the standard antenna (PMAE4065) and add 380-470 MHz stubby antenna (PMAE4100)	QA06796	837	\$10.00
ALT: UHF R2 GPS STUBBY ANTENNA (FAF5260)	This option will delete the standard antenna (PMAE4065) and add 470-520 MHz GPS stubby antenna (FAF5260)	QA02017	426	\$61.00
ALT: UHF R2 STUBBY ANTENNA (450-520 MHz) (PMAE4102)	This option will delete the standard antenna (PMAE4065) and add 450-527 MHz stubby antenna (PMAE4102)	QA06797	837	\$10.00
ALT: 1/4- WAVE 7/800 STUBBY (NAR659)	This option will delete the standard antenna (NAR6593) and add 1/4 wave 7/800 MHz stubby antenna (NAR6595)	H122	426	\$26.00
DEL: DELETE STANDARD ANTENNA	Deletes standard antenna: NAF5085 (7800 MHz), PMAF4008 (900 MHz), NAR6593 (VHF), PMAE4065 (UHF/R1/R2)	H112	426	(\$10.00)

Battery Selection (Optional)

The APX 1000 ships standard with an IMPRES Li-Ion 1900 mAh battery (NNTN8128)

UL Approval available ONLY on the 900 MHz dual knob model 2 black model (H84WCF9PW5AN)

Description	Full Description	Nomenclature	APC	Price
ALT: IMPRES LI-ION 2350MAH (PMNN4424)	This option will delete the standard battery (NNTN8128) and add IMPRES Li-Ion 2350 mAh (PMNN4424)	QA02749	426	\$94.00
ALT: IMPRES LI-ION 2800MAH (PMNN4448)	This option will delete the standard battery (NNTN8128) and add IMPRES Li-Ion 2800 mAh (PMNN4448)	QA04146	837	\$110.00
ALT: IMPRES LI-ION 2500MAH UL/DELTA T BATTERY (NNTN8560A)	This option deletes the standard battery (NNTN8128) and adds IMPRES Li-Ion 2500 mAh UL/Delta T battery (NNTN8560). *Available on the two knob 900 MHz configuration only (QA04865 + H84WCF9PW5AN)	QA00582	411	\$143.00
DEL: DELETE BATTERY	Deletes standard battery (NNTN8128)	H207	426	(\$47.00)

Belt Clip Selection (Optional)

The APX 1000 ships standard with a 2" belt clip (PMLN4651)

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT CLIP	Deletes standard belt clip (PMLN4651) and adds 2.5" belt clip (PMLN7008)	Q698	426	\$13.00
DEL: DELETE STANDARD BELT CLIP	Deletes standard belt clip (PMLN4651)	H301	426	(\$10.00)

Data Cable Selection (Optional)

Updated Pricing for contract 4400016317 as of January 2022

Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	Used to program and service the radio with Customer Programming Software and Tuner Software. Compatible on ALL APX Portable Radios.	Q157	655	\$83.00
Service Package Selection (Must Select One)				
The APX 1000 ships standard with a 12 month manufacturer's warranty. NOTE: Additional services package is required with purchase.				
Description	Full Description	Nomenclature	APC	Price
ADD: 3Y ESSENTIAL SERVICE	Provides 3 years of hardware coverage beginning at time of purchase. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. ADD: MANDOWN OPERATION	-	QA01843	426	\$165.00
ADD: DVRs PSU ACTIVATION	-	QA00631	655	\$110.00
ENH: TACTICAL RADIO / STUNKILL	Tactical Stun Kill is not compatible with DVRs QA00631. Requires an encryption. Incompatible with ADP-only.	H02	536	\$83.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ADD: ENHANCED DATA	Requires Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361)	QA03399	696	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782)	QA09012	426	\$165.00
ADD: GROUP SERVICES	-	QA09008	655	\$165.00

Algorithm Selection (Required)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION AND ADP	-	H797	536	\$536.00
ADD: TACTICAL REKEY WITH MULTIKEY	Requires digital (Q806), IV&D, and an encryption (not including ADP-only).	H04	536	\$385.00
ENH: MULTIKEY	Required when using more than one encryption algorithm or encryption key	H869	536	\$363.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	Q15	536	\$879.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Not compatible with ADP-Only. Includes multkey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	536	\$814.00
ENH: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	Q625	536	\$659.00
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	536	\$523.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Updated Pricing for contract 4400016317 as of January 2022

Antenna Selection (Optional)

The APX 3000 ships with a standard antenna dependent on frequency (7/800: NAF5085, UHF: PMAE4065, VHF: NAR6593)

Description	Full Description	Nomenclature	APC	Price
ADD: 7/800 MHz FLEXIBLE ANTENNA	This option deletes the standard antenna (NAF5085) and replaces it with 7/800 MHz flexible dribble antenna (PMAF4006)	QA03192	536	\$44.00
ADD: VHF FLEXIBLE ANTENNA	This option deletes the standard antenna (NAR6593) and replaces it with 136-174 MHz flexible GPS dribble antenna (PMAD4125)	QA03194	536	\$44.00
ALT: UHF/2 GPS STUBBY ANTENNA (FAF5260)	This option (QA02017AM) deletes the standard antenna (PMAE4065) and replaces it with 380-470 MHz GPS stubby antenna (FAF5259)	QA02017	536	\$61.00
ADD: UHF GPS FLEXIBLE ANTENNA	This option (QA02017AM) deletes the standard antenna (PMAE4065) and replaces it with 380-520 MHz GPS antenna (PMAE4080)	QA03193	536	\$44.00
ALT: UHF/2 GPS STUBBY ANTENNA (FAF5260)	This option (QA02017AN) deletes the standard antenna (PMAE4065) and replaces it with 470-520 MHz GPS stubby antenna (FAF5260)	QA02017	536	\$61.00

Battery Selection (Optional)

The APX 3000 ships standard with two (2) 1250 mAh IMPRES Li-Ion Batteries (NNTN8305) and one (1) ultra slim carry holster (PMLN6327). You can exchange the two (2) batteries and holster for one (1) of the batteries below that come standard with the 2" belt clip.

Description	Full Description	Nomenclature	APC	Price
DEL: BATTERY	This option deletes the standard batteries (NNTN8305AR - qty 2)	H207	536	(\$47.00)
ALT: SLIM LI-ION IMPRES 2000MAH (NNTN8128)	This option deletes the standard batteries and holster (NNTN8305AR - qty2) and adds IMPRES Li-Ion 2000 mAh battery (NNTN8128BR)	QA03163	536	\$0.00
ALT: IMPRES LI-ION 2350MAH (PMNN4424)	This option deletes the standard batteries and holster (NNTN8305AR - qty2) and adds IMPRES Li-Ion 2350 mAh battery (PMNN4424AR)	QA02749	536	\$94.00
ALT: IMPRES LI-ION 2800MAH (PMNN4448)	-	QA02750	426	\$110.00

Belt Clip Selection (Optional)

The APX 3000 ships standard with two (2) 1250 mAh IMPRES Li-Ion batteries (NNTN8305) and one (1) ultra slim carry holster (PMLN6327). If you choose to exchange the two (2) batteries and one (1) carry holster for one (1) of the batteries above, you can also exchange the 2" belt clip (PMLN4651) for the 2.5" belt clip (PMLN7008) below.

Description	Full Description	Nomenclature	APC	Price
ADD: 2.5 INCH BELT CLIP	-	Q698	536	\$13.00
APX3000 COVERT CARRY HOLSTER	APX3000 COVERT CARRY HOLSTER This compact carry holster is designed so you can securely and discreetly carry the APX 3000 Radio. It features a fixed carry clip that allows you to clip the radio to a belt.	PMLN6327A	271	\$30.00

Cable Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: APX PROGRAMMING CABLE	Includes programming, test and alignment cable (PMKN4013C) This is a GCAl cable at radio interface and USB connection at other end for computer programming. Please note that the PMKN4012A is NOT compatible with the APX 3000	Q157	536	\$83.00

Wired/Wireless Accessory Bundle Selection (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: MCW ACCESSORY BUNDLE PACK 1	Includes one Mission Critical Wireless Covert Audio Accessory Kit (NNTN8296), one Mission Critical Wireless push-to-talk pod (NNTN2571) and one Mission Critical Wireless Key Fob (PMLN6233)	QA03276	742	\$500.00
ADD: MCW ACCESSORY BUNDLE PACK 2	Includes one Mission Critical Wireless Covert Audio Accessory Kit (NNTN8296) and two Mission Critical Wireless push-to-talk pods (NNTN2571) to power the earbud headphones	QA03277	742	\$400.00
ADD: MCW ACCESSORY BUNDLE PACK 3	Includes one Mission Critical Wireless Covert Audio Accessory Kit (NNTN8296) and one Mission Critical Wireless push-to-talk pod (NNTN2571) to power the earbud headphones	QA03278	742	\$289.00
ALT: IMPRES 3-WIRE SURVEILLANCE KIT - BLACK	This option deletes the standard beige IMPRES 3-wire surveillance kit (PMLN6124) and includes an IMPRES 3-wire surveillance kit in black (PMLN5111A)	QA03178	536	\$0.00
DEL: IMPRES 3_WIRE SURVEILLANCE KIT	This option deletes the standard beige IMPRES 3-wire surveillance kit (PMLN6124)	QA04448	591	(\$65.00)

Operation Modes (Mandatory)

2A: Digital Trunking (SN/SZ P25 Phase 1 Interop)

Description	Full Description	Nomenclature	APC	Price
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,320.00
ADD: P25 9600 BAUD TRUNKING	Requires H38 and Q806. INCLUDED at 'NO Charge' Q173-OminLink. APX 6000 digital radios require Advanced System Keys (ASK- DVN4046A) to be configured to operate on a trunking system.	Q361	481	\$330.00
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$567.00

2B: Digital Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$567.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,320.00

2C: Digital Conventional (P25)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$567.00
ADD: CONVENTIONAL OPERATION	-	H35	481	\$550.00

2D: Analog Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	Requires either a H35, H37, or H38	Q241	481	\$0.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,320.00

2E: Analog Conventional

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	Requires either a H35, H37, or H38	Q241	481	\$0.00
ADD: CONVENTIONAL OPERATION	-	H35	481	\$550.00

Housing (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: SUBMERSIBLE (DELTA T)	IF AN INTRINSICALLY SAFE SOLUTION IS REQUIRED THEN PLEASE SEE THE 'UL' REPLACEMENT QA05305 & QA06304	H499	481	\$165.00
ALT: PUBLIC SAFETY YELLOW HOUSING	APX6000 comes standard IP67 unless ordered with H499 Delta T option. APX6000XE comes Delta T standard.	H64	481	\$28.00
ALT: IMPACT GREEN HOUSING	APX6000 comes standard IP67 unless the H499 Delta-T option is ordered. APX6000XE comes standard Delta-T.	QA01427	481	\$28.00

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE). See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back end asset management solutions.	QA04526	655	\$28.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 9600 Trunking	QA01767	481	\$110.00
ADD: TDMA OPERATION	For APX6000 and APX6000XE, QA00580 requires Q806, H38, Q361. If ordering an APX6000L, QA00580 requires QA02756. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	481	\$495.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	481	\$110.00
ADD: MULTICAST VOTING SCAN	-	Q387	481	\$220.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$165.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order QA00631.	QA00631	655	\$110.00
ENH: RADIO TRACE/ REMOTE MONITOR	Requires Q806 and either H37, H38, or H35.	H43	481	\$83.00
ENH: ONE TOUCH/STATUS MSG	Compatible on models 2.5 and 3.5. ONLY Orderable for only H98UCF9PW6BN, H98QDF9PW6BN, H98SDF9PW6BN, H98KGF9PW6BN, H98UCH9PW7BN, H98QDH9PW7BN, H98SDH9PW7BN, H98KH9PW7BN	H46	481	\$83.00
ADD: FRONT PANEL PROGRAMMING & CLONING	Compatible with Model 3.5 Radios only. Requires FPP HW dongle (NNTN7526A) to be purchased.	Q53	481	\$165.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	Compatible with Model 3.5 Radios only.	Q52	481	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00
ENH: ENHANCEMENT LEVEL 2	Model 1.5 Radios require Enhanced Zone Bank to be ordered so additional channels can be accessed. Please reference the Enhancement Level Reference Guide for more details. This option allows for a few parameters (ZONES, CHANNELS, SYSTEMS PERSONALITIES, UCL ENTRIES, VOICE ANNOUNCEMENT, ENCRYPTION KEYS) on the mid tier to go to a high tier	QA01771	481	\$220.00
ADD: EXTREME 1-SIDED NOISE REDUCTION	Compatible with all APX6000 Radios. Comes standard on APX6000XE	QA01833	481	\$28.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature, (requires digital)	QA09008	655	\$165.00
ADD: MANDOWN OPERATION	APX6000 customers ONLY: with radios using tanapac with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QA01843AB. Please contact your sales representative for further details.	QA01843	481	\$165.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00
ENH: TACTICAL RADIO STW-STUN/KILL	Tactical Stun Kill is not compatible with DVRS QA00631.	H02	481	\$83.00

ADD: ADAPTIVE NOISE SUPPRESSION	Adaptive Noise Suppression (Adaptive Audio Engine) is available on APX6000XE and SRX2200 BN Models only. Adaptive Noise Suppression is not available on any APX6000LI models, or on APX6000XE and SRX2200 AN Models.	QA09006	579	\$165.00
ENH: ENHANCED ZONE BANK	This option will increase the channel/talkgroup capacity on a Model 1 and Model 1.5 from 96 to 1000. Zone Up/Zone Down, Zone Bank Up/Zone Bank Down will be unlocked with this option.	QA01768	481	\$83.00
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$330.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Refer to the "Out of the Box Wi-Fi Provisioning" section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001)	QA09011	681	\$110.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WiFi QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00
ADD: PSU CONV SCAN	-	HA00677AA	579	\$0.00

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

Algorithm Types (one must be selected)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION AND ADP	Multkey is required for use of more than one key. Includes ADP. Non-P25 CAP Compliant option	H797	481	\$536.00
ENH: DES-DES-XL-DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP	Q625	481	\$659.00
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP	Q629	481	\$523.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	Q15	481	\$879.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Multkey Types (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: MULTIKEY	Required when using more than one encryption algorithm or encryption key	H869	481	\$363.00
ADD: TACTICAL REKEY WITH MULTIKEY	This feature REQUIRES IV&D (Q947) AND Digital Encryption ? AES (Q629) or DES, DES-XL, DES-OFB (Q625), AES/DES (Q15) to operate. Incompatible with MDC/ASTRO P25 OTAR with Multkey. Tactical OTAR is not compatible with DVRs QA00631.	H04	481	\$385.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Not compatible with ADP-Only. Includes multkey, trunking OTAR, and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	481	\$814.00
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$165.00

Antenna (Optional)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD ANTENNA	For APX6000LI/XE, deletes standard antenna. PMAF4040 (7/800), NAR6593 (VHF) or PMAE4065 (UHF).	H112	481	(\$10.00)
ADD: GPS STUBBY ANTENNA (NAG4000)	GPS Antenna	QA00785	481	\$20.00
ALT: 1/4" WAVE 7/800 GPS STUBBY (NAR6595A)	7/800 Models Only	H122	481	\$26.00
ALT: UHF/R1 GPS STUBBY ANTENNA (FAF5259A)	UHF Range 1 Models Only	QA02017	481	\$26.00
ALT: UHF/R2 GPS STUBBY ANTENNA (FAF5260)	UHF Range 2 Models Only	QA02017	481	\$26.00

Battery (Optional- Can Only Select One)

HAZLOC Approved

Description	Full Description	Nomenclature	APC	Price
ALT: TIA4950 BATT IMPRES 2 LIION 4600MAH	This option will delete the standard battery and replace it with TIA4950 BATT IMPRES 2 LIION 4600MAH (PMNN4573A)	QA07576	673	\$182.00
ALT: TIA4950 BATT IMPRES 2 LIION 4600MAH	Requires H499 to be selected. This option will delete the standard battery and replace it with TIA4950 BATT IMPRES 2 LIION 4600MAH (PMNN4573A)	QA07739	673	\$83.00
ALT: BATT IMPRES 2 LIION TIA4950 IP68 3100T STD	This option will delete the standard battery and replace it with LIION IMPRES 3100MAH (PMNN4547).	QA07577	481	\$149.00
ALT: BATT IMPRES 2 LIION TIA4950 IP68 3100T	Requires H499 to be selected. This option will delete the standard battery and replace it with LIION IMPRES 3100MAH (PMNN4547).	QA07578	481	\$83.00

Not Compatible if HAZLOC Certification is Required.

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD BATTERY	Deletes the standard SLIM IMPRES 2 LIION 2550MAH battery for the APX6000LI AN/BN Models, or the standard LIION IMPRES 2 LIION 2650MAH battery for the APX6000XE AN/BN Models.	H207	481	(\$30.00)
ALT: LI-ION IMPRES 2 IP68 3400 MAH	This option will delete the standard battery and replace it with IMPRES 2 LIION 3400MAH(PMNN4486). Compatible with all APX6000XE/LI & SRX2200 AN & BN model numbers. Compatible with the APX7000XE.	QA05570	562	\$110.00

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE). See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back end asset management solutions.	QA04526	655	\$28.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	481	\$110.00
ADD: TDMA OPERATION	For APX6000 and APX6000XE, QA00580 requires Q806, H38, Q361. If ordering an APX6000LI, QA00580 requires QA02756. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	481	\$495.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	481	\$110.00
ADD: MULTICAST VOTING SCAN	-	Q387	481	\$220.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$165.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order QA00631.	QA00631	655	\$110.00
ENH: RADIO TRACE/ REMOTE MONITOR	Requires Q806 and either H37, H38, or H35.	H43	481	\$83.00
ENH: ONE TOUCH/STATUS MSG	Compatible on models 1.5, 2.5 and 3.5.	H46	481	\$83.00
ADD: FRONT PANEL PROGRAMMING & CLONING	Compatible with Model 3.5 Radios only. Requires FPP HW dongle (NNTN7526A) to be purchased.	Q53	481	\$165.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	Compatible with Model 3.5 Radios only.	Q52	481	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00
ADD: EXTREME 1-SIDED NOISE REDUCTION	Compatible with all APX6000 Radios. Comes standard on APX6000XE.	QA01833	481	\$28.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$165.00

ADD: MANDOWN OPERATION	APX6000 customers ONLY - with radios using tanapas with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QAO1843AB. Please contact your sales representative for further details.	QA01843	481	\$165.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00
ENH: TACTICAL RADIO STW-STUNKILL	Tactical Stun Kill is not compatible with DVRs QA00631.	H02	481	\$83.00
ENH: ENHANCED ZONE BANK	This option will increase the channel/group capacity on a Model 1 and Model 1.5 from 96 to 1000. Zone Up/Zone Down, Zone Bank Up/Zone Bank Down will be unlocked with this option.	QA01768	481	\$83.00
System Key Software				
Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00
Algorithm Types (Optional)				
All APX 6000LI Radios ship P25 "clear" (QA05751 will internally generate) unless an encryption option is ordered.				
AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM.				
Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION AND ADP	Multikey is required for use of more than one key. Includes ADP. Non-P25 CAP Compliant option	H797	481	\$536.00
ENH: DES-DES-XL-DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP	Q625	481	\$659.00
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	481	\$523.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. AES AND DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP	Q15	481	\$879.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00

APX6000 UHF R2 MODEL 1.5 PORTABLE	-	H98SD9PW5BN	481	\$3,213.00
APX6000 UHF R2 MODEL 2.5 PORTABLE	-	H98SDF9PW6BN	481	\$3,595.00
APX6000 UHF R2 MODEL 3.5 PORTABLE	-	H98SDH9PW7BN	481	\$4,104.00

2: XE Housing (Mandatory)

Description	Full Description	Nomenclature	APC	Price
ENH: APX6000XE RUGGED RADIO	This option will pull in the XE (extreme) control top with larger knobs and a display for fire users. The carry cases are different for this radio so be sure to choose the right APX6000XE case if you do not want to use the plastic carry holder that ships std with the Model 2 and 3 radios. This option will also pull in a UL battery (PMNN4547) and will include radio UL certification. The QA02006 option includes Delta-T standard.	QA02006	756	\$880.00

Operation Modes (Must Select One)

3A: Digital Trunking (SN/SZ P25 Phase I Interop)

Description	Full Description	Nomenclature	APC	Price
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,320.00
ADD: P25 9600 BAUD TRUNKING	Requires H38 and Q806. INCLUDED at 'NO Charge' Q173-OminLink. APX 6000 digital radios require Advanced System Keys (ASK- DVN4046A) to be configured to operate on a trunking system.	Q361	481	\$330.00
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$567.00

3B: Digital Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$567.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,320.00

3C: Digital Conventional (P25)

Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO DIGITAL CAI OPERATION	Requires either a H35, H37, or H38	Q806	481	\$567.00
ADD: CONVENTIONAL OPERATION	-	H35	481	\$550.00

3D: Analog Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	Requires either a H35, H37, or H38	Q241	481	\$0.00
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	481	\$1,320.00

3E: Analog Conventional

Description	Full Description	Nomenclature	APC	Price
ADD: ANALOG OPERATION	Requires either a H35, H37, or H38	Q241	481	\$0.00
ADD: CONVENTIONAL OPERATION	-	H35	481	\$550.00

Housing (Optional)

Description	Full Description	Nomenclature	APC	Price
ALT: PUBLIC SAFETY YELLOW HOUSING	APX6000 comes standard IP67 unless ordered with H499 Delta T option. APX6000XE comes Delta T standard.	H64	481	\$28.00
ALT: IMPACT GREEN HOUSING	APX6000 comes standard IP67 unless the H499 Delta-T option is ordered. APX6000XE comes standard Delta-T.	QA01427	481	\$28.00

RFID Enabled Volume Knob (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: RFID KNOB	Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE). See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back end asset management solutions.	QA04526	655	\$28.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	481	\$110.00
ADD: TDMA OPERATION	For APX6000 and APX6000XE, QA00580 requires Q806, H38, Q361. If ordering an APX6000LI, QA00580 requires QA02756. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	481	\$495.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	481	\$110.00
ADD: MULTICAST VOTING SCAN	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data).	Q387	481	\$220.00
ADD: ENHANCED DATA	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA03399	656	\$165.00
ADD: DVRS PSU ACTIVATION	Requires Q806 and either H37, H38, or H35.	QA00631	655	\$110.00
ENH: RADIO TRACE/ REMOTE MONITOR	Compatible on models 1.5, 2.5 and 3.5.	H43	481	\$83.00
ENH: ONE TOUCH STATUS MSG	Compatible with model 3.5 radios only	H46	481	\$83.00
ENH: FRONT PANEL PROGRAMMING & CLONING	-	Q53	430	\$190.00
ADD: FRONT PANEL PROGRAMMING & CLONING (FEDERAL)	-	Q52	470	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00
ENH: ENHANCEMENT LEVEL 2	Model 1.5 Radios require Enhanced Zone Bank to be ordered so additional channels can be accessed. Please reference the Enhancement Level Reference Guide for more details. This option allows for a few parameters (ZONES, CHANNELS, SYSTEMS PERSONALITIES, UCL ENTRIES, VOICE ANNOUNCEMENT, ENCRYPTION KEYS) on the mid tier to go to a high tier	QA01771	481	\$220.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$165.00
ADD: MANDOWN OPERATION	APX6000 customers ONLY- with radios using tanapas with revision A or B will also need to order the APX6000 MAN DOWN UPGRADE HW KIT in addition to the Man Down SW flashport option QA01843AB. Please contact your sales representative for further details.	QA01843	481	\$165.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00
ENH: ENHANCED ZONE BANK	This option will increase the channel/talkgroup capacity on a Model 1 and Model 1.5 from 96 to 1000. Zone Up/Zone Down, Zone Bank Up/Zone Bank Down will be unlocked with this option.	QA01768	481	\$83.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$330.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: ADAPTIVE NOISE SUPPRESSION	Adaptive Noise Suppression is available on APX6000XE and SRX2200 BN Models only. Adaptive Noise Suppression is not available on any APX6000LI models, or on APX6000XE and SRX2200 AN Models.	QA09006	579	\$165.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001).	QA09011	681	\$110.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WiFi QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00

System Key Software (Optional)

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QAO1749. The HARDWARE KEY QAO1648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QAO1648) if required to operate/program on a trunking system. Not compatible with conventional.	QAO1648	655	\$6.00
Algorithm Types (Optional)				
Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION AND ADP	Multikey is required for use of more than one key. Includes ADP. Non-P25 CAP Compliant option	H797	481	\$536.00
ENH: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. Non-P25 CAP Compliant option.	Q625	481	\$659.00
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	481	\$523.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	Q15	481	\$879.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
Multikey Types (Optional)				
Description	Full Description	Nomenclature	APC	Price
ENH: MULTIKEY	-	H869	481	\$363.00
ADD: TACTICAL REKEY WITH MULTIKEY	This feature REQUIRES IV&D (Q947) AND Digital Encryption ? AES (Q629) or DES, DES-XL, DES-OFB (Q625), AES/DES (Q15) to operate. Incompatible with MDC/ASTRO P25 OTAR with Multikey. Tactical OTAR is not compatible with DVRs QA00631.	H04	481	\$385.00
ENH: ASTRO 25 OTAR W/ MULTIKEY	Incompatible with the H04 option since Tactical OTAR is included with the Q498 option. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	481	\$814.00
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QAO7680	655	\$165.00
Antenna (Optional)				
Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD ANTENNA	Deletes standard antenna. PMAF4040 (7800), NAR6593 (VHF) or PMAE4065 (UHF).	H112	481	(\$10.00)
ADD: GPS STUBBY ANTENNA (NAG4000)	GPS Antenna	QAO0785	481	\$20.00
ALT: 1/4- WAVE 7800 GPS STUBBY (NAR6595A)	Length: 3.93 in.	H122	481	\$26.00
ALT: UHF R1 GPS STUBBY ANTENNA (FAF5259A)	UHF R1 Models Only	QAO2017	481	\$26.00
ALT: UHF R2 GPS STUBBY ANTENNA (FAF5260)	UHF R2 Models Only	QAO2017	481	\$26.00
Battery (Optional - Can Only Select One)				
HAZLOC Approved				
Description	Full Description	Nomenclature	APC	Price
ALT: TIA4950 BATT IMPRES 2 LIION 4600MAH	This option will delete the standard battery and replace it with TIA4950 BATT IMPRES 2 LIION 4600MAH (PMNN4573A)	QAO7576	673	\$182.00
Not Compatible if HAZLOC Certification is Required.				
Description	Full Description	Nomenclature	APC	Price
DEL: DELETE STANDARD BATTERY	Deletes the standard SLIM IMPRES 2 LIION 2550MAH battery for the APX6000/LI AN/BN Models, or the standard LIION IMPRES 2 LIION 3100MAH battery for the APX6000XE AN/BN Models.	H207	481	(\$30.00)
ALT: LI-ION IMPRES 2 IP68 3400 MAH	This option will delete the standard battery and replace it with IMPRES 2 LIION 3400MAH (PMNN4486). Compatible with all APX6000/XE/LI & SRX2200 AN & BN model numbers. Compatible with the APX7000XE.	QAO5570	562	\$110.00
ALT: LI-ION IMPRES 2 IP68 4850 MAH	This option will delete the standard battery and replace it with IMPRES 2 LIION 4850MAH (PMNN4487).	QAO5571	655	\$127.00
ALT: LI-ION IMPRES 2 IP68 5100MAH	This option will delete the standard battery and replace it with IMPRES 2 LIION 5100MAH (PMNN4494).	QAO5573	655	\$149.00
Cable (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: APX DATA CABLE	PMKN4012B- Used to program the radio with Customer Programming Software and Tuner Software. PMKN4013C- Used to program and service the radio with Customer Programming Software and Tuner Software. Compatible on ALL APX Portable Radios	Q157	655	\$83.00
Belt Clips (Optional- Can Only Select One)				
Description	Full Description	Nomenclature	APC	Price
DEL: DELETE BELT CLIP/ BASIC CARRY	-	H301CN	481	\$0.00
ADD: APX6000XE BASIC CARRY HOLDER	This NEW APX6000XE carry holder will ship std on Model 2 and Model 3 radios.	QAO0779	481	\$32.00
ADD: BELT CLIP 3.0" (HLN6875)	Replaces the standard 2.5 in. belt clip that ships with the Model 1.5 radio with a 3 in. Model 1.5 radios in 700/800 and VHF will ship standard with the 2.5 in. belt clip, and UHF radios will ship with the 3 in. belt clip.	QAO1222	481	\$13.00
Packaging (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: SINGLE UNIT PACKING	-	H842	481	\$0.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$110.00
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$495.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	655	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$220.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$110.00
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Now requires a pin # not a dongle.	Q53	655	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$165.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$165.00
ENH: TACTICAL RADIO STW-STUNKILL	Tactical Stun Kill Requires AES. Not compatible with DVR MSU QA00631.	H02	481	\$83.00
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$330.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the "Out of the Box Wi-Fi Provisioning" section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires QA09001 (Wi-Fi)	QA09011	681	\$110.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, Wi-Fi QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00
ADD: BASIC DEVICE COLLABORATION SOFTWARE	Enables collaboration with LEX.	QA03176	655	\$165.00
ADD: SITE SELECTABLE ALERT FOR P25 TRUNKING	-	QA00982	656	\$165.00
ADD: MANDOWN OPERATION	-	QA01843	655	\$165.00
ADD: DIGITAL TONE SIGNALING	-	QA09000	656	\$165.00

Updated Pricing for contract 4400016317 as of January 2022

ADD: APX GEOFENCE PORTABLE		-	QA04447	655	\$150.00
ADD: PSU CONV SCAN		-	HA00677AA	579	\$0.00
System Key Software (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00	
Algorithm Types(Required)					
All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)					
Description	Full Description	Nomenclature	APC	Price	
ENH: DVP-XL ENCRYPTION AND ADP	Multikey is required for use of more than one key. Includes ADP. To be P25 CAP Compliant, must be ordered with AES.	H797	655	\$536.00	
ENH: DES-DES-XL-DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP	Q625	655	\$659.00	
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	655	\$523.00	
ENH: AES/DES-DES-XL-DES-OFB AND ADP	NOT compatible with Q629 or Q625. Must order multikey if you want to use both algorithms. Includes ADP	Q15	655	\$879.00	
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00	
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below. QA05751 is CAP & COM compliant option.	QA05751	655	\$0.00	
Multikey Types (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ENH: MULTIKEY	Required when purchasing more than one encryption algorithm or encryption key? "Requires MultiKey".	H869	655	\$363.00	
ENH: ASTRO 25 OTAR W/ MULTIKEY	Includes Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	655	\$814.00	
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$165.00	
Antenna (Optional)					
Description	Full Description	Nomenclature	APC	Price	
DEL: DELETE STANDARD ANTENNA	Deletes the standard all-band (7/8V/U) antenna (KT00026A01)	H112LT	579	\$0.00	
Battery (Optional- Can Only Select One)					
Description	Full Description	Nomenclature	APC	Price	
DEL: DELETE BATTERY	The option will delete the Li-Ion IMPRES 2 3400mAh (PMNN4486) standard battery for APX 8000 and APX7000L. The option will delete the IMPRES Lilon 3400mAh standard battery (PMNN4504) for APX 8000XE.	H207EY	655	\$0.00	
ALT: LI-ION IMPRES 2 IP68 4850 MAH	This option will delete the standard battery and replace it with IMPRESS 2 LIION 4850MAH (PMNN4487).	QA05571	655	\$127.00	
ALT: LI-ION IMPRES 2 IP68 5100MAH	This option will delete the standard battery and replace it with IMPRESS 2 LIION 5100MAH (PMNN4494).	QA05573	655	\$149.00	
UL Div 2 Batteries (Optional- Can Only Select One)					
Description	Full Description	Nomenclature	APC	Price	
ALT: BATT IMPRES 2 LIION DIV2 3400	This option will delete the standard battery and replace it with UL2054 DIV2 IMPRESS 2 LIION 3400 MAH (PMNN4504).	QA05594	579	\$143.00	
ALT: BATT IMPRES 2 LIION DIV2 4850	This option will delete the standard battery and replace it with UL2054 DIV2 IMPRESS 2 LIION 4850 MAH (PMNN4505).	QA05595	579	\$160.00	
ALT: RUGGED DIV2 BATT IMPRES 2 LIION 3400	This option will delete the standard battery and replace it with UL2054 DIV2 IMPRESS 2 LIION 3400 MAH (PMNN4504). Requires H499.	QA07571	579	\$55.00	
ALT: RUGGED DIV2 BATT IMPRES 2 LIION 4850	This option will delete the standard battery and replace it with UL2054 DIV2 IMPRESS 2 LIION 4850 MAH (PMNN4505). Requires H499.	QA07573	579	\$83.00	
Cable (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ADD: APX DATA CABLE	PMKN4012B- Used to program the radio with Customer Programming Software and Tuner Software. PMKN4013C - Used to program and service the radio with Customer Programming Software and Tuner Software. Compatible on ALL APX Portable Radios	Q157	655	\$83.00	
Belt Clips (Optional-Can Only Select One)					
Description	Full Description	Nomenclature	APC	Price	
DEL: DELETE BELT CLIP/BASIC CARRY HOLDER	This option deletes the standard belt clip that ships with the Top Display model, deletes the standard universal carry holder that ships with the Dual Display model.	H301	655	(\$10.00)	
ALT: BASIC CARRY HOLDER (PMLN7901)	This carry holder equipped with a 2.5 in. belt clip ships standard with the Dual Display models. It is an alternative to the Belt Clip that ships standard with the Top Display model.	QA00779	481	\$32.00	
Packaging (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ADD: SINGLE UNIT PACKING	-	H842	481	\$0.00	
Service Options (Must Select One)					
Description	Full Description	Nomenclature	APC	Price	
ADD: 3Y ESSENTIAL SERVICE	-	Q58	185	\$121.00	
ENH: 3 YEAR SERVICE FROM THE START COMPREHENSIVE	Provides for extended hardware repair coverage and chemical, liquid, and other physical damage on your Motorola portable and mobile subscriber radios. Comprehensive coverage starts from the first day the radio is put into use and last for 3 YEARS. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	HA00022AE	185	\$326.00	
ENH: 5 YEAR SERVICE FROM THE START LITE	Provides 5 years of hardware coverage beginning at time of shipment. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	Q887AY	185	\$224.00	
ENH: SFS COMPREHENSIVE 5 YR	Provides for extended hardware repair coverage and chemical, liquid, and other physical damage on your Motorola portable and mobile subscriber radios. Comprehensive coverage starts from the first day the radio is put into use and last for 5 YEARS. Repairs will be made only at the designated Motorola repair depot. Local services are not included. Motorola will pay the inbound shipping charges only with use of the Motorola designated delivery service. Motorola will pay for outbound shipping via Motorola's normal shipping methods. No discounts are allowed on this option.	HA00025AK	185	\$504.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$110.00
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$495.00
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	655	\$110.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$220.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order GA00631.	QA00631	655	\$110.00
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Requires FPP HW dongle (NNTN7526A) to be purchased.	Q53	655	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00

ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$165.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$165.00
ENH: TACTICAL RADIO STW-STUN/KILL	Tactical Stun Kill is not compatible with DVRs QA00631.	H02	481	\$83.00
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$330.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires WiFi (QA09001).	QA09011	681	\$110.00

System Key Software (Optional)		Description	Full Description	Nomenclature	APC	Price
		ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

Algorithm Types(Required)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION AND ADP	Compatible with Digital and Analog (25kHz Only) operations. ADP Privacy ships standard with Single Key. Multkey is required for multiple algorithms, such as ADP/AES or ADP/DES. Non-P25 CAP Compliant option.	H797	655	\$536.00
ENH: DES,DES-XL,DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP (Analog 25 kHz) /DES-OFB (Digital 12.5 kHz Only)	Q625	655	\$659.00
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	655	\$523.00
ENH: AES/DES,DES-XL,DES-OFB AND ADP	Multkey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	Q15	655	\$879.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Multkey Types (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: ASTRO 25 OTAR W/ MULTIKEY	Includes Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	655	\$814.00
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$165.00

Antenna (Optional)

APX™ 8000H with SRX Enhancement P25 All-Band Portable Radio
1: Main Model (Must Select One)
1B: SRX Enhancement Package (Must Select for APX 8000H with SRX Enhancement)

Description	Full Description	Nomenclature	APC	Price
ENH: SRX ENHANCEMENT PACKAGE	Provides for Radio Stun/Kill, Night Vision Goggle Profile, OTAP and the Coyote Brown Housing.	QA02590	673	\$633.00

Operation Mode (Must Select One)
2A: Digital Trunking (SN/SZ P25 Phase I Interop)

Description	Full Description	Nomenclature	APC	Price
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	655	\$1,650.00
ADD: P25 9600 BAUD TRUNKING	MUST also order H38 & Q806. INCLUDED at 'NO Charge' Q173-OminLink. APX digital radios require Advanced System Keys (ASK: DVN4046A) to be configured to operate on a trunking system.	Q361	655	\$330.00

2B: Digital Trunking (SN/SZ)

Description	Full Description	Nomenclature	APC	Price
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	655	\$1,650.00

2C: Digital Conventional (P25)
2D: Analog Trunking

Description	Full Description	Nomenclature	APC	Price
ADD: SMARTZONE OPERATION	A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	H38	655	\$1,650.00

2E: Analog Conventional

Delete Frequency Bands (Optional. Can select a MAXIMUM of TWO)

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE UHF BAND	Deletes both UHF R1 and UHF R2 frequency bands	QA05509AA	579	(\$800.00)
System Enhancement Options (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$110.00
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$495.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$220.00
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order QA00631.	QA00631	655	\$110.00
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Requires FPP HW donkle (NNTN7526A) to be purchased.	Q53	655	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$165.00
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q347) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$165.00
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$330.00
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the "Out of the Box Wi-Fi Provisioning" section above for details.	QA09007	579	\$0.00
ADD: DATA MODEM TETHERING	Requires WIFI (QA09001)	QA09011	681	\$110.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, WIFI QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00
System Key Software (Optional)				
Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00
Algorithm Types(Required)				
All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)				
Description	Full Description	Nomenclature	APC	Price
ENH: DVP-XL ENCRYPTION AND ADP	Compatible with Digital and Analog (25kHz Only) operations. ADP Privacy ships standard with Single Key. Multkey is required for multiple algorithms, such as ADP/AES or ADP/DES . Non-P25 CAP Compliant option	H797	655	\$536.00
ENH: DES,DES-XL,DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP(Analog 25 khz) /DES-OFB (Digital 12.5 khz Only)	Q625	655	\$659.00
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	655	\$523.00
ENH: AES/DES,DES-XL,DES-OFB AND ADP	NOT compatible with Q629 or Q625. Must order multkey if you want to use both algorithms.	Q15	655	\$879.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00
Multkey Types (Optional)				
Description	Full Description	Nomenclature	APC	Price

2E: Analog Conventional					
Description	Full Description	Nomenclature	APC	Price	
ADD: CONVENTIONAL OPERATION	-	H35	655	\$880.00	
ADD: ANALOG OPERATION	-	Q241	579	\$0.00	
Options					
3: Housing (Optional-Can Only Select One)					
Description	Full Description	Nomenclature	APC	Price	
ALT:APX 8000 HOUSING GREEN	-	QA01427	579	\$28.00	
ALT:APX 8000 HOUSING YELLOW	-	H64	579	\$28.00	
4: Delete Frequency Bands (Optional. Can select a MAXIMUM of TWO)					
Description	Full Description	Nomenclature	APC	Price	
DEL: DELETE UHF BAND	Deletes both UHF R1 and UHF R2 frequency bands	QA05509AA	579	(\$800.00)	
DEL: DELETE 7/800 MHZ BAND	-	QA05507AA	579	(\$800.00)	
DEL: DELETE VHF BAND	-	QA05508AA	579	(\$800.00)	
5: RFID Enabled Volume Knob (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ADD: RFID KNOB	Compatible with APX6000, APX7000 & APX8000. Portable radio volume knob with embedded RFID tag making it easier to track assets. When option is ordered, RFID Volume knob will come in the box with the portable radio and other ordered accessories but RFID knob will not be assembled to the radio. AFTERMARKET purchase through Parts department for fielded radios NNTN8646 (APX6000/APX7000/APX8000) and NNTN8647 (APX6000XE/APX7000XE/APX8000XE). See RFID Solution Partner link for information on partners that can provide customers with scanner hardware and back end asset management solutions.	QA04526	655	\$28.00	
6: System Enhancement Options (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 Trunking (Q361)	QA01767	655	\$110.00	
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased.	QA00580	655	\$495.00	
ADD: PROGRAMMING OVER P25 (OTAP)	Requires Digital and IV&D. Compatible with P25 Trunking and Conventional Operation. POP25 requires AES encryption for ASTRO Conventional operation. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	655	\$110.00	
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387	655	\$220.00	
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), V&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399	656	\$165.00	
ADD: DVRS PSU ACTIVATION	Enables DVRS Enhanced PSU functionality on APX Mobile Radios. Requires Digital Operation. QA00631 is to be ordered for radios that are not connected directly to a DVR. If you are connecting your radio directly to a DVR then order QA00631.	QA00631	655	\$110.00	
ADD: FRONT PANEL PROGRAMMING & CLONING	The APX radio can do FPP on a Trunking equipped radio only on conventional channels. Requires FPP HW dongle (NNTN7526A) to be purchased.	Q53	655	\$165.00	
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (QA00782).	QA09012	426	\$165.00	
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature. (requires digital)	QA09008	655	\$165.00	
ADD: APX Personnel Accountability	This feature now also allows the user to use a side button of the radio as a method to transmit the acknowledgement of an Evacuation instead of using PTT button.	Q445	481	\$165.00	
ENH: TACTICAL RADIO STW-STUNKILL	Tactical Stun Kill is not compatible with DVRS QA00631.	H02	481	\$83.00	
ADD: WIFI CAPABILITY	Enables Wi-Fi capability in the radio. Supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (QA09007) if provisioning the radios out of the box using Wi-Fi is desired.	QA09001	579	\$330.00	
ADD: OUT OF THE BOX WIFI PROVISIONING	Requires Wi-Fi (QA09001). Must be added if provisioning the radios out of the box using Wi-Fi is desired. Refer to the 'Out of the Box Wi-Fi Provisioning' section above for details.	QA09007	579	\$0.00	
ADD: DATA MODEM TETHERING	Requires QA09001 (Wi-Fi)	QA09011	681	\$110.00	
ADD: SMARTCONNECT	Requires P25 9600 Trunking Q361, Wi-Fi QA09001 and Service offering SSV01S01663A	QA07682	579	\$0.00	
7: Advanced System Key (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error. Order HARDWARE KEY (QA01648) if required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00	
8: Algorithm Types (Required)					
All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)					
Description	Full Description	Nomenclature	APC	Price	
ENH: DVP-XL ENCRYPTION AND ADP	Multikey is required for use of more than one key. Includes ADP. Non-P25 CAP Compliant option.	H797	655	\$536.00	
ENH: DES-DES-XL-DES-OFB ENCRYPTION AND ADP	Multikey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP	Q625	655	\$659.00	
ENH: AES ENCRYPTION AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	Q629	655	\$523.00	
ENH: AES/DES-DES-XL-DES-OFB AND ADP	Multikey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	Q15	655	\$879.00	
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	Q667	430	\$0.00	
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multikey sections below. QA05751 is CAP & COM compliant option.	QA05751	655	\$0.00	
9: Multikey Types (Optional)					
Description	Full Description	Nomenclature	APC	Price	
ENH: ASTRO 25 OTAR W/ MULTIKEY	Includes Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased.	Q498	655	\$814.00	
ADD: MULTI SYSTEM OTAR	Requires Q498 ASTRO 25 OTAR W/ MULTIKEY	QA07680	655	\$165.00	
10: Antenna (Optional)					
Description	Full Description	Nomenclature	APC	Price	
DEL: DELETE STANDARD ANTENNA	Deletes the standard all-band (7/8/V/U) antenna (KT000026A01)	H112LT	579	\$0.00	
11: Battery (Optional)					
Division 2 Approved					
Description	Full Description	Nomenclature	APC	Price	

Updated Pricing for contract 4400016317 as of January 2022

ALT: BATT IMPRES 2 LIION DIV2 4850	This option will delete the standard battery and replace it with UL2054 DIV2 IMPRESS 2 LIION 4850 MAH (PMNN4505).	QA05595	579	\$160.00
Not Compatible if Division 2 Certification is Required

Radio Management Delivery					
Description	Full Description	Nomenclature	APC	Price	
ADD: SOFTWARE LICENSE ONLINE DELIVERY	-	UA00083AA	430	\$0.00	
Operation Mode Upgrades					
Description	Full Description	Nomenclature	APC	Price	
ADD: ASTRO DIGITAL CAL OPERATION	Upgrades a unit from Analog (G241) to Digital (G806). Compatible with T8422 or T8424 models.	G808AD	430	\$651.00	
ADD: SMARTZONE OMNILINK	To upgrade to P25 Trunking. G347. Compatible with T8422, T8423, T8424 models.	G173	430	\$253.00	
ENH: ASTRO P25 TRUNK SOFTWARE	Includes G173 (Omnalink). Requires either a Digital Trunking T-Model, or a digital trunking upgrade.	G361AJ	430	\$380.00	
ENH: UPGRADE TO TDMA	Requires G808 (Digital), G347 (Smartzone), G361 (P25) to be ordered.	GA00580AB	430	\$569.00	
ENH: UPGRADE TO SMARTZONE	Upgrades a model from Conventional Operation (G48) to Trunking Operation (G51).	G347AP	430	\$1,012.00	
Enable Bands					
Description	Full Description	Nomenclature	APC	Price	
ENH: ENABLE 7/800 FLP	-	GA00244AE	430	\$1,012.00	
ENH: ENABLE VHF FLP	-	GA00306AE	430	\$1,012.00	

ENH: UHF BANDS FLP		-	GA09002AA	430	\$1,012.00
Description	Full Description	Nomenclature	APC	Price	
Dual Radio Operation					
ENH: APX DUAL RADIO SOFTWARE FLP	Please Note: Dual Radio is only compatible with the O7 control head. Does not include the cables needed to complete the solution.	GA01058	430	\$715.00	
Systems Enhancement Options					
Description	Full Description	Nomenclature	APC	Price	
ADD: DIGITAL TONE SIGNALING	Requires Digital Operation	GA09000AB	430	\$190.00	
ADD: DVRS MSU ACTIVATION APX MOBILE	Incompatible with Data Modem Tethering. Requires Remote Mount	GA00631AB	430	\$318.00	
ADD: DVRS PSU ACTIVATION APX PORTABLE FLASHPORT	If you are connecting your radio directly to a DVR then order GA00631. To move from PSU to MSU requires Depot no flash is available.	QA00631AC	430	\$127.00	
ADD: ENHANCED DATA	Requires P25 9600 Trunking	QA03399AB	430	\$190.00	
ENH: FPP & CLONE APX	-	GS3AM	430	\$165.00	
ADD: GROUP SERVICES FLP	Offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires Digital for Conventional only capabilities and P25 Trunking for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008AB	430	\$190.00	
ADD: MISSION CRITICAL GEOFENCING FLP	Requires Digital, IV&D, and GPS.	GA09012AB	430	\$190.00	
ADD: THIRD PARTY DATA MODEM TETHERING	Requires Remote Mount. Incompatible with DVRS MSU. Provides for aftermarket cable: KT000247A01.	GA09011AB	430	\$127.00	
ENH: MLTCTST VOTNG SCAN-SPECTRA	Requires Digital Operation.	G387AE	430	\$253.00	
ADD: P25 LINK LAYER AUTHENTICATION	Requires P25 9600 Trunking	GA01767AH	430	\$127.00	
ADD: MOBILE PERSONAL ACCOUNTABILITY SW FLP	Requires Digital	G445AB	430	\$190.00	
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996AW	430	\$127.00	
ADD: SITE SELECTABLE ALERT FOR P25 PAGING FLP	Requires P25 9600 Trunking	GA00982AB	430	\$165.00	
ENH: TACTICAL RADIO SOFTWARE	Requires Digital & IV&D. Requires Hardware Encryption. Requires DVN4046B.	H02AH	430	\$95.00	
ADD: WIFI CAPABILITY	-	GA09001AB	430	\$380.00	
ADD: SMARTCONNECT	Requires P25 9600 Trunking G361, and Service offering SSV01S01663A. Requires either GA09001 (WiFi), or GA09011 (Data Modem Tethering). SmartConnect is incompatible with the DVRS MSU option in mobiles. SmartConnect can be ordered with DVRS PSUs but will not support seamless switching to broadband and will require users to do a manual mode change to a SmartConnect capable channel.	GA01630	430	\$0.00	
ADD: MOBILE IMPACT DETECTION FLP	Triggers Emergency when impact or rollover is detected	GA01843AB	430	\$165.00	
ADD: MISSION CRITICAL WIRELESS BLUETOOTH	Requires WiFi Antenna	QA00583AE	430	\$190.00	
Advanced System Key					
Description	Full Description	Nomenclature	APC	Price	
ADD: ADVANCED SYSTEM KEY-HARWARE KEY FLP	The SOFTWARE KEY is the default Advance System Key option that ships standard on all APX products. You can no longer order software key QA01749. The HARDWARE KEY QA01648 can be ordered instead. Be sure to enter the CORRECT SYSTEM OWNER ID in the supplemental data. If an INCORRECT ID is entered, a FLASHport order is required to fix the error.	QA01648AC	430	\$6.00	
Multikey					
Description	Full Description	Nomenclature	APC	Price	
ENH: MULTI KEY OPERATION	-	V999BJ	430	\$417.00	
ADD: ENCRYPTION P25 AND MDC OTAR	-	C298AU	430	\$936.00	
ADD: TACTICAL OTAR	includes MULTIKEY. Tactical OTAR is not compatible with DVRS QA00631.	H04AX	430	\$443.00	
ADD: MULTI SYSTEM OTAR FLASHPORT	Requires ASTRO 25 OTAR W/ MULTIKEY (G298)	GA01620	430	\$189.00	
Amplifier					
Description	Full Description	Nomenclature	APC	Price	
ADD: RF PRE-AMPLIFIER	Option applies only to VHF & UHF radios.	W12DN	430	\$83.00	

ASTRO® Digital APX 8500 Mobile Subscriber
1. Main Model (Must Select One)

Description	Full Description	Nomenclature	APC	Price
APX8500 ALL BAND HP MOBILE	APX 8500 HP only comes in remote mount. No mounting option is required.	M37TXS9PW1 N	681	\$6,877.00
APX8500 ALL BAND MP MOBILE	-	M37TSS9PW1 N	681	\$5,667.00

Delete Frequency Bands (Optional. Can select a Maximum of Two)
 Special Note for United States - State & Local Markets: In accordance with FCC mandate, the U1/U2 Mid Power and U17-800 band combinations for this product are restricted to not allow programming for 25 KHz operation. These frequencies are restricted to 12.5 KHz operation only.

Description	Full Description	Nomenclature	APC	Price
DEL: DELETE UHF BAND	Deletes both UHF R1 and UHF R2 frequency bands.	GA05509	681	(\$800.00)
DEL: DELETE VHF BAND	-	GA05508	681	(\$800.00)
DEL: DELETE 7/800MHZ BAND	-	GA05507	681	(\$800.00)

2. Mounting (Must Select Either Dash or Remote Mount for APX 8500 MP)

If a remote mount cable other than 5 meters (17ft) is desired for Remote Mount, please reference the "Remote Mount Cables" section.
 The O3 dash and remote mount configurations are the same except that the dash mount configurations do not come with the 17ft extension cable, PMLN4958.

Description	Full Description	Nomenclature	APC	Price
ADD: DASH MOUNT	Not available on APX 8500 HP. Required for Control Station Operation. An O3 Control Head ordered with a Dash Mount Configuration is the same as the O3 Remote Mount configuration, but it does not come with the 17ft extension cable, PMLN4958A.	G66	656	\$138.00
ADD: REMOTE MOUNT MID POWER	Not required for selection on APX 8500 HP. G138 is required for Motorcycle Configuration. Motorcycle Remote Mount Option is \$400 DUP.	G67	656	\$327.00

Motorcycle Mounting (Optional)

HMN1079 (Motorcycle Mic) and HSN4031 (Speaker) are mandatory selections with motorcycle configurations. Motorcycle mount requires the O2, E5, or O7 Control Head and Remote Mount (G67). CAN cables are not compatible with motorcycle. This option includes a weatherized harness. Incompatible with DVRS MSU operation (GA00631)

Description	Full Description	Nomenclature	APC	Price
ADD: APX MOTORCYCLE CH SFWR	Requires G67 (Remote Mount)	G138	656	\$0.00

Control Station Operation (Optional)

Mid Power Model Only
 O2, E5 & O7 Control Heads Only. Must select one.
 Requires Dash Mount (G66)
 Some microphones are not compatible with Control Station Operation. Please read descriptions carefully.
 Although the Power Supply is optional, it is needed for a full Control Station solution. The APX 8500 requires a higher capacity power supply KT000254A02.

Description	Full Description	Nomenclature	APC	Price
ADD: CONTROL STATION OPERATION	O3 not supported Requires Dash Mount (G66) HLN6042B	W665	656	\$77.00
ADD: CONTROL STATION POWER SUPPLY	Although the Power Supply is optional, it is needed for a full Control Station solution. The APX 8500 requires a higher capacity power supply KT000254A02.	G91	696	\$296.00

3A Control Head Software (Required)

Description	Full Description	Nomenclature	APC	Price
ADD: APX CONTROL HEAD SOFTWARE	-	G444	656	\$0.00

3B Control Head Options (Must select one)
O2 Control Head Options

Description	Full Description	Nomenclature	APC	Price
ADD: APX O2 CONTROL HEAD	-	GA00804	656	\$541.00
ADD: IMPACT GREEN COLOR HOUSING (O2)	When ordered in conjunction with GA00804 you will get a green colored O2 housing.	G201	656	\$28.00
ADD: SCHOOL SECURITY ENHANCEMENT PACKAGE	Education O2 Emergency Push Button	GA01056	514	\$55.00

O3 Control Head Options

Description	Full Description	Nomenclature	APC	Price
ADD: APX O3 HANDHELD CH	Requires No Microphone (G90). If Lights & Siren Keypad and Software is required, order GA00806.	G72	656	\$1,041.00
ADD: CH SIREN & LIGHTS KEYPAD	Available on O3 (G72) and O7 (GA00805) Control Heads.	GA00806	656	\$55.00

E5 Control Head Option

Description	Full Description	Nomenclature	APC	Price
ADD: APX E5 CONTROL HEAD	-	GA01670	681	\$717.00

O7 Control Head Options

Description	Full Description	Nomenclature	APC	Price
ADD: APX O7 CONTROL HEAD	If Lights & Siren Keypad and Software is required, order GA00806.	GA00805	656	\$695.00
ADD: CH SIREN & LIGHTS KEYPAD	Available on O3 (G72) and O7 (GA00805) Control Heads.	GA00806	656	\$55.00

No Control Head Options

Updated Pricing for contract 4400016317 as of January 2022

Description	Full Description	Nomenclature	APC	Price
ADD: NO O3 CONTROL HEAD	If you plan to use this model with an O3 Control Head but already have a control head and don't require it, select GA00001. Requires remote mount (G67).	GA00001	656	\$0.00
ADD: APX MOBILE NO CONTROL HEAD	If you plan to use this model with an O2, E5, O5, O7 Control Head but already have a control head and don't require it, select G88. Requires remote mounting option (G67 or W665).	G88	681	\$0.00
Multi-Control Head Options				
The APX 8500 mobile can support up to four control heads on a single transceiver. This allows control of a single APX 8500 transceiver from two different control head locations. Multi-Control Head options require Remote Mount. When ordering a multi-control head option, only one type of control head can be selected. Only available with O2, E5, O7 Control Heads. Multi-control head options require an equal number of microphones, speakers, and CAN cables. Multi-control head options are incompatible with the multi-radio options.				
ADD: APX DUAL-CONTROL HD HARDWARE	Requires either O2, E5, O7 Control Head. Requires a remote mount configuration. Requires a selection of 2 for microphones, speakers and CAN cables.	GA00092	656	\$627.00
ADD: APX TRI-CONTROL HARDWARE (07 ARABIC)	Requires either O2, E5, O7 Control Head. Requires a remote mount configuration. Requires a selection of 3 for microphones, speakers and CAN cables.	GA00093	656	\$1,100.00
ADD: APX QUAD-CONTROL HARDWARE (07 ARABIC)	Requires either O2, E5, O7 Control Head. Requires a remote mount configuration. Requires a selection of 4 for microphones, speakers and CAN cables.	GA00094	656	\$1,430.00
4. RF Antenna (Required)				
The APX 8500 has one QMA style LMR antenna port. Any additional connections will require vehicle multiplexer EQ000103A02 that allows up to 3 QMA antenna connections. We will offer this multiplexer and Adapters through our Parts Division. Examples are Mini U to QMA CB000091A03, QMA to QMA CB000091A02 and SMA to QMA CB000091A04. Aftermarket Antennas are certified for use on the APX 8500 but do require CB000091A02.				
MULTIPLEXER QMA	Order on a separate line. Provides for EQ000103A02 that allows up to 3 QMA antenna connections.	H1919	681	\$275.00
Must Select One of the Following:				
No Antenna Requested				
ADD: NO RF ANTENNA NEEDED	-	G89	656	\$0.00
All-Band Antenna				
ADD: ALL BAND MOBILE ANTENNA (7/8/V/U)	Corresponding kit: AN000131A02. Must be ordered separately if MSU GA00631 is ordered. Multiplexer sold separately as H1919	GA01513	681	\$95.00
ADD: NO RF ANTENNA NEEDED	-	G89	656	\$0.00
Motorcycle Antenna Choices				
Motorcycle radio orders require an antenna selection for each enabled band (UHF R1 and R2 are considered one band) and comes with multiplexer EQ000103A01.				
7/800				
ADD: ANT 3DB LOWPRO MCYC 762-870	Corresponding kit number: AN000197A11	G174	681	\$47.00
ADD: ANT 3DB MCYCLE 762-870MHZ	Corresponding kit number: AN000197A10	G335	681	\$15.00
ADD: NO RF ANTENNA NEEDED	-	G89	656	\$0.00
VHF				
ADD: ANT MTCL 1/4 WAVE WHIP 136-144	Corresponding kit number: AN000197A01 + AN000208A01	GA00510	681	\$55.00

ADD: ANT MTCL 1/4 WAVE WHIP 482-512	Corresponding kit number: AN000197A08 + AN000208A01	GA00508	681	\$55.00
ADD: ANT MTCL LO PRO UNITY 450-512	Corresponding kit number: AN000197A09 + AN000208A03	GA00509	681	\$55.00
Dual Radio Operation Options				
ENH: DUAL RADIO OPERATION (PRIMARY RADIO)	The Primary radio must be ordered with an O7 or E5 CH. APX Dual Radio is not compatible with any other control head. The primary radio includes a short dual radio CAN cable (HKN6245) to connect both radios together. If the stack mount trunion is ordered, a right-angle version of this cable (HKN6249) will ship instead to facilitate stack mounted installations. If a different length is desired, the standard remote mount control head cables can also be used to connect both radios together.	GA01113	656	\$715.00
ENH: DUAL RADIO OPERATION (SECONDARY RADIO)	The secondary radio must be ordered with no control head (G88)	GA01117	656	\$715.00
Dual Radio Options				
ADD: DUAL RADIO STACKABLE MP TRUNNION	If the stack mount trunion is ordered, a right-angle version of this cable (HKN6249) will ship instead to facilitate stack mounted installations.	GA01115	656	\$327.00
5. Operation Mode (Must Select One)				
5A: Digital Trunking (SN/SZ P25 Phase 1 Interop)				
ENH: ASTRO DIGITAL CAI OP APX	Incompatible with G241.	G806	681	\$567.00
ENH: SMARTZONE OPERATION APX	Requires G51 & G806. Internally generate G173. APX digital radios require Advanced System Keys (ASK-DVN4046A) to be configured to operate on a trunking system.	G51	656	\$1,650.00
ENH: P25 TRUNKING SOFTWARE APX		G361	656	\$330.00
5B: Digital Trunking (SN/SZ)				
ENH: ASTRO DIGITAL CAI OP APX	Incompatible with G241.	G806	681	\$567.00
ADD: SMARTZONE OMNILINK	Automatic Zoning Across Zones, Zone Registration, Trespass Protection, Over the Air Site Alias, 32 Preferred Sites, FastStart and AllStart Call Setup.	G173	656	\$220.00
5C: Digital Conventional (P25)				
ENH: ASTRO DIGITAL CAI OP APX	Incompatible with G241.	G806	681	\$567.00
ENH: CONVENTIONAL OPERATION	Limited Conventional features-see matrix	G48	656	\$880.00
5D: Analog Trunking				
ENH: SMARTZONE OPERATION APX	-	G51	656	\$1,650.00
ENH: SOFTWARE ASTRO READY (ANALOG) APX	-	G241	681	\$0.00
5E: Analog Conventional				
ENH: CONVENTIONAL OPERATION	Limited Conventional features-see matrix	G48	656	\$880.00
ENH: SOFTWARE ASTRO READY (ANALOG) APX	-	G241	681	\$0.00
System Enhancement Options (Optional)				
The APX 8500 comes standard with G170 Radio Trace and G683 Trunked One Touch. The following options are optional and will provide additional capabilities, if required.				
ADD: DVRS MSU ACTIVATION	Allows mobile to host a DVR. Requires Remote mount G67. Additional hardware may be needed to operate properly with a DVR. Requires depot to change a mobile from a MSU to PSU.	GA00631	656	\$275.00
ADD: DVRS PSU ACTIVATION	Requires depot to change a mobile from a PSU to MSU or MSU to PSU. Please choose correctly. Enables DVRS Enhanced PSU functionality on APX Mobile Radios. If you are connecting your mobile radio directly to a DVR to repeat then order GA00631 MSU.	QA00631	655	\$110.00
ADD: PSU CONV SCAN	Requires QA00631	HA00677AA	579	\$0.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), H/V/O (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data).	QA03399	656	\$165.00
ADD: GROUP SERVICES	Group Services offers Conventional Alias updates, Trunking Alias updates and Trunking Group Messaging. This option requires G/Q806 for Conventional only capabilities and G/Q361 for any Trunking only capabilities. You can now also do Over the Air Firmware Updates with this feature.	GA09008	656	\$165.00
ADD: MISSION CRITICAL GEOFENCING	Requires GPS (GA09012)	GA09012	471	\$165.00
ADD: MULTICAST VOTING SCAN	This feature allows for voting of the Conventional Channels ONLY.	G387	656	\$220.00
ADD: APX MOBILE RADIO AUTHENTICAT	Requires Trunking	GA01767	527	\$110.00
ENH: OVER THE AIR PROVISIONING	Requires P25 Digital Trunking. To do in field POP25 programming must use Advanced System Key (DVN4046A).	G996	656	\$110.00
ADD: TDMA OPERATION APX	When ordering an APX6500U model this option requires QA02756 software package	GA00580	656	\$495.00

ADD: WIFI CAPABILITY	Requires a WiFi antenna. GA09001 enables WiFi capability in the radio which supports codeplug updates, firmware refreshes, and FLASHport upgrades over pre-provisioned wireless networks. Requires Radio Management SW (ordered separately). Must order Out of the Box Wi-Fi Provisioning option (GA09007) if provisioning the radios out of the box using WiFi is desired.	GA09001	681	\$330.00
ADD: DATA MODEM TETHERING	Requires Remote Mount G67; includes GA01545 mutually exclusive with DVR MSU GA00631. Comes with the aftermarket cable: KT000247A01	GA09011	681	\$110.00
ADD: APX8500 ETHERNET MP FACEPLATE	Radio will come with Blank face plate on internal option GA01786 if GA01787 is not added. Data tethering GA09011 is required to enable GA01786 hardware.	GA01787	681	\$275.00
ADD: SMARTCONNECT	Requires P25 9600 Trunking G361, and Service offering SSV01S01663A. Requires either GA09001 (WiFi), or GA09011 (Data Modem Tethering). SmartConnect is incompatible with the DVRS MSU option in mobiles. SmartConnect can be ordered with DVRS PSUs but will not support seamless switching to broadband and will require users to do a manual mode change to a SmartConnect capable channel.	GA01630	681	\$0.00
ENH: TACTICAL RADIO STW-STUN/KILL	Requires digital (G806), IVSD, and encryption (not including ADP-only).	H02	481	\$83.00
ADD: MOBILE IMPACT DETECTION	Triggers emergency when an impact or rollover is detected	GA01843	681	\$165.00
DEL: DELETE BLUETOOTH		QA05336	481	\$100.00

6. Feature Antennas

When WiFi GA09001 is selected you must order either a Multi-function (GPS/WIFI/ BT) or individual single function GPS, Wi-Fi/BT antennas.
(Bluetooth requires a WiFi antenna to function).

Multifunction Antennas (Must Select One in Multifunction is Selected)

Description	Full Description	Nomenclature	APC	Price
ADD: WIFI/GNSS FLEXIBLE CABLE LMR195	Corresponding Kit: Vehicle: AN000163A01 Motorcycle: AN000163A02	GA00250	681	\$110.00
ADD: NO GPS/WI-FI ANTENNA NEEDED	No feature antenna needed.	GA01606AA	681	\$0.00

GPS Antennas (Must select one if single function GPS is required)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT GNSS GLASSMOUNT LMR100	Corresponding kit: PMAN4109	GA01580AA	681	\$77.00
ADD: GPS/GNSS MAG MOUNT ANTENNA	Corresponding kit: PMAN4010 (antenna) & CB000091A04 (QMA to SMA adaptor)	GA01305	656	\$66.00
ADD: NO GPS ANTENNA NEEDED	No GPS Antenna Needed	GA00235	656	\$0.00

WiFi/BT Antennas (Must select one if single function WiFi is requested)

Description	Full Description	Nomenclature	APC	Price
ADD: COVERT WIFI GLASSMOUNT LMR195	Corresponding kit: PMAN5101	GA01579AA	681	\$77.00

Advanced System Key (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	The software key is the default Advance System Key option that ships standard on all APX products. You cannot order software key QA01749. The hardware key (QA01648) can be ordered instead. Be sure to enter the correct system owner ID in the supplemental data. If an incorrect ID is entered, a FLASHport order is required to fix the error. Order QA01648 if it is required to operate/program on a trunking system. Not compatible with conventional.	QA01648	655	\$6.00

7. Encryption Algorithms (Must Select One)

All APX Radios require an encryption selection. QA05751 ADD: "Clear Radio No ADP" is now a \$0 choice. ADD: "ADP Only" G193/Q667 is still a \$0 option. (AES 256 is the only approved encryption algorithm by P25 CAP and SAFECOM)

Description	Full Description	Nomenclature	APC	Price
ADD: AES ENCRYPTION APX AND ADP	Requires digital operation. P25 CAP Compliant option. Includes ADP.	G843	656	\$523.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. AES and DES-OFB Operation require digital operation. P25 CAP Compliant option. Includes ADP.	G851	656	\$879.00
ADD: DES/DES-XL/DES-OFB ENCRYPTION AND ADP	Multkey is required for use of more than one key. Non-P25 CAP Compliant option. Includes ADP.	G625	656	\$659.00
ADD: DVP-XL ENCRYPTION AND ADP	Includes ADP. Non-P25 CAP Compliant option.	W797	656	\$536.00
ADD: ADP ONLY (NON-P25 CAP COMPLIANT)	Provides for ADP ONLY, a Non-P25 CAP Compliant, non-FIPS compliant option. If another encryption is required, please order that option which will internally generate ADP.	G193	430	\$0.00
ADD: NO ADP FOR P25 CAP	Units shipped with QA05751 are not field-upgradable for encryption and any changes will require units to be sent to a depot. Further ordering changes are captured in the Encryption Algorithm and Multkey sections below. QA05751 is CAP a COM compliant option.	QA05751	655	\$0.00

Multkey (Optional)

All multkey options require an encryption algorithm selection.

Description	Full Description	Nomenclature	APC	Price
ADD: MULTIPLE KEY ENCRYPTION OPERATION	Required when using more than one encryption algorithm or encryption key.	W969	656	\$363.00
ENH: ASTRO 25 OTAR W/ MULTKEY	Not compatible with ADP-Only. Includes multkey, trunking OTAR and Tactical OTAR. Tactical OTAR can only be utilized when IV&D is purchased. Requires AES.	G298	656	\$814.00
ADD: MULTI SYSTEM OTAR	Requires ASTRO 25 OTAR W/ MULTKEY (G298)	GA01620	656	\$165.00

8. Remote Mount Cables (17 FT STD)

Description	Full Description	Nomenclature	APC	Price
ADD: CBL REMOTE MOUNT 10 FEET	Corresponding kit: HKN6170	G618	656	\$11.00
ADD: REMOTE MOUNT CBL 17 FEET	Included at no charge with Single Control Head Remote Mount installations and High Power.	G628	656	\$17.00

3. Device Managed Services 1st Year PROMOTION (Required)
Pricing listed is per Month (Qty 12 = 12 months). Must select quantity 12.

Description	Full Description	Nomenclature	APC	Price
APX NEXT DMS ADVANCED SERVICE-PROMO	As a promotion, the customer will receive DMS Advanced service benefits for the first 12 months at the price of DMS Essential.	LSV01P01414A	724	\$5.74
APX NEXT DMS PREMIER	Premier services provide a managed service experience with a tailored 'concierge' approach that shifts responsibility for device management over to Motorola Solutions. Features include: • All Essential & Advanced features PLUS • On Demand Programming (Motorola performs initial device provisioning and firmware / configuration updates upon request) • Device Preventative Maintenance • Accidental Damage Repairs	MSV01S01416A	727	\$27.50

Device Managed Services (Optional)
Select coverage desired after the 12 month DMS promotion
Pricing listed is per Month (i.e. Qty 12 = 12 months). Can select 1 to 24 months. Billing can be Annual or Upfront.
WARNING: Minimum of DMS SW service contract is required to maintain access to RadioCentral programming tool after the initial 12-month promotional period.

Description	Full Description	Nomenclature	APC	Price
APX NEXT DMS ESSENTIAL	Essential services are designed for customers who want to limit their investment to basic hardware and software support. Features include: • Standard Hardware Repair • Access to RadioCentral cloud-based tool with "one-at-a-time" device programming capabilities • Access to MyView portal with device service information • Device Software Maintenance • Technical Support	LSV01S01410A	723	\$4.50
APX NEXT DMS ESSENTIAL W ACC DMG	Essential services + Comprehensive Hardware Repair of Accidentally Damaged radios	LSV01S01411A	723	\$15.33
APX NEXT DMS ESSENTIAL SW	Essential Software Only (NO Hardware Repair) services are designed for customers who want to limit their investment to basic software support. Features include: • Access to RadioCentral cloud-based tool with "one-at-a-time" device programming capabilities • Access to MyView portal with device service information • Device Software Maintenance • Technical Support	LSV01S01911A	723	\$1.00
APX NEXT DMS ADVANCED	Advanced services are ideal for customers who wish to remain self-maintained but want to receive the tools and training necessary to provision/program and maintain their devices. Features include: • Standard Hardware Repair • RadioCentral cloud-based tool with batch programming capabilities • MyView portal with device service dashboards • Device Software Maintenance • Technical Support	LSV01S01414A	724	\$6.75
APX NEXT DMS ADVANCED W ACC DMG	Advanced services + Comprehensive Hardware Repair of Accidentally Damaged radios	LSV01S01415A	724	\$17.58
APX NEXT DMS ADVANCED SW	Advanced Software Only (NO Hardware Repair) services are ideal for customers who wish to remain self-maintained on a tight budget. Features include: • RadioCentral cloud-based tool with batch programming capabilities • MyView portal with device service dashboards • Device Software Maintenance • Technical Support	LSV01S01912A	724	\$2.67
APX NEXT DMS PREMIER	Premier services provide a managed service experience with a tailored 'concierge' approach that shifts responsibility for device management over to Motorola Solutions. Features include: • All Essential & Advanced features PLUS • On Demand Programming (Motorola performs initial device provisioning and firmware / configuration updates upon request) • Device Preventative Maintenance • Accidental Damage Repairs	MSV01S01416A	727	\$27.50

SmartInsight will be included standard for 1 full year with all APX NEXT radios on a preview basis, at no additional charge.

Description	Nomenclature	Duration	APC	Price
APX NXT DMS SMART INSIGHT DIAGNOSTIC-PROMO	LSV01P01903A	12 months	724	\$0
APX NXT DMS SMART INSIGHT USAGE-PROMO	LSV01P01904A	12 months	724	\$0
APX NXT DMS SMART INSIGHT BATTERY-PROMO	LSV01P01905A	12 months	724	\$0

Device Managed Services Training (Optional)

Device Management Training provides detailed instruction for radio technicians on how to use the RadioCentral programming tool and how to manage a fleet of devices and administer access to RadioCentral through MyView portal. Upon completing the training, participants will be able to provision and program their APX NEXT radio fleet with confidence. Training includes access to an online overview course, as well as a two-day instructor led workshop.

Based on purchased option, the instructor led workshop can be delivered in three different ways:

ADD: ANALOG OPERATION	-	Q241CB	437	\$0.00
ADD: CONVENTIONAL OPERATION	-	H35DD	437	\$880.00

3. WiFi Connectivity (Required)

WiFi Capability and Out of Box Provisioning must be selected with APX NEXT family of radios.

Description	Full Description	Nomenclature	APC	Price
ADD: WIFI CAPABILITY	The APX NEXT family of radios can be programmed only wirelessly. The APX NEXT, APX NEXT XE, and APX NEXT XN radios are enabled with LTE service. However, if LTE coverage is not available, the radios can use a preset default Wi-Fi SSID, to wirelessly download radio configurations and updates. * Includes Out of Box Provisioning over WiFi (QA09007)	QA09001AM	437	\$330.00

Encryption Algorithm Types (Optional)

Description	Full Description	Nomenclature	APC	Price
ENH: DES-DES-XL-DES-OFB ENCRYPTION AND ADP	(Analog 25 khz) / DES-OFB (Digital 12.5 khz Only)	Q625BK	437	\$659.00
ENH: DVP-XL ENCRYPTION AND ADP	Compatible with Digital and Analog (25kHz Only) operations. ADP Privacy ships standard with Single Key. Multikey is required for multiple algorithms, such as ADP/AES or ADP/DES	H797DW	437	\$536.00
ADD: AES/DES-XL/DES-OFB ENCRYPTION AND ADP	NOT compatible with Q629 or Q625. Must order multikey. If you want to use both algorithms. Customers who require compliance with DHS Project 25 CAP Encryption Requirements and who requires a clear radio with no encryption enabled will need to select option QA05751. The radios will need to be sent to the Motorola Depot if Encryption is needed in the future.	Q15AU	437	\$879.00
ADD: NO ADP FOR P25 CAP	-	QA05751AF	437	\$0.00

Submersible Selection (Optional)

NOTE: Delta-T is an optional selection for standard APX NEXT models. Delta-T is mandatory when APX NEXT XE rugged option QA02006 is selected.

Description	Full Description	Nomenclature	APC	Price
ENH: SUBMERSIBLE (DELTA T)	MIL-STD Delta-T, IP68 (2m, 4hr)	H499KC	437	\$165.00

System Enhancement Options (Optional)

Description	Full Description	Nomenclature	APC	Price
ADD: TDMA OPERATION	Requires Q806, H38, Q361. A SOFTWARE or HARDWARE KEY or WACN KEY is REQUIRED to be purchased with any APX Radio operating in trunking. HARDWARE KEY or WACN KEY will still REQUIRE a DVN4046 to be purchased	QA00580BA	437	\$495.00
ADD: VIQI VC RADIO OPERATION	Use VIQI Voice Control to operate the radio with voice commands. Change Channels and Zones, adjust Volume level, activate Audio Profiles, start/stop Scan, get Battery Level information.	QA09028AA	437	\$110.00
ADD: ENHANCED DATA	Digital (Q806/G806), Smartzone (H38/G51), IV&D (Q947) and P25 Trunking (Q361/G361) are required when ordering QA03399 (Enhanced Data)	QA03399AK	437	\$165.00
ADD: MULTICAST VOTING SCAN	Requires Q806 (ASTRO DIGITAL CAI OPERATION)	Q387CB	437	\$220.00
ADD: MANDOWN OPERATION	If a user becomes incapacitated, and is lying down motionless, an automatic Man Down Emergency Alarm or Emergency Call will be sent out on the programmed talk group.	QA01843AR	437	\$165.00
ADD: DVRS PSU ACTIVATION	Extends Portable Subscriber Unit (PSU) coverage through a Digital Vehicular Repeater System (DVRS) connected to a High Power Mobile radio.	QA00631AL	437	\$110.00
ADD: APX PERSONNEL ACCOUNTABILITY	Using a Systems Definition, Inc. fireground accountability application, incident commanders can easily identify who has responded to the incident, conduct roll-calls, identify a responder's Mayday alarm, issue an evacuation notification even monitor the battery levels of responder's radios or remotely change the radio to a different talkgroup.	Q445BC	437	\$165.00
ADD: DIGITAL TONE SIGNALING	Alert first responders to an incident by broadcasting a series of distinct, recognizable tones followed by a voice transmission from dispatch. Works on P25 conventional or trunked systems, providing digital Quick-Call II operation (identical in operation to the legacy analog version).	QA09000AG	437	\$165.00

APX NEXT™ Single Band

1. Main Model (Required) applicable to Single or Dual Band Configurations

Description	Full Description	Nomenclature	APC	Price
APX NEXT SINGLE BAND MODEL 4.5 PORTABLE	3.6" Touch Display, 17800MHz, VHF, UHF), LTE, WiFi, GPS, BT, IP68	H45GT9PW8AN	142	\$5,121.00

1. a. Primary Band Selection (Required)

Primary band MUST be selected

2. Software Bundles (Required)

Core Trunking Bundle must be selected. Security, Operational, and Tactical bundles are optional.

Description	Full Description	Nomenclature	APC	Price
ADD: CORE BUNDLE	Includes: • DIGITAL TRUNKING - SN/SZ P25 Phase I Interop (Q361, Q806, Q173, H38) • TDMA OPERATION (QA09580) • AES ENCRYPTION (Q629) • WIFI CAPABILITY (QA09001) • OUT OF THE BOX WIFI PROVISIONING (QA09007) • ENHANCED DATA (QA03399) • MULTICAST VOTING SCAN (Q387) • VIQI VOICE CONTROL (QA09028) • SUBMERSIBLE DELTA-T (H499)	BD00001AA	437	\$3,106.00
ADD: SECURITY BUNDLE	Includes: • ASTRO 25 OTAR W/ MULTKEY (Q498 and H869) • DES-DES-XL-DES-OFB ENCRYPTION (Q625) • P25 LINK LAYER AUTHENTICATION (QA01767) • DVP-XL ENCRYPTION (H797)	BD00010AA	437	\$1,023.00
ADD: OPERATIONAL BUNDLE	Includes: • DVRS PSU ACTIVATION (QA00631) • MANDOWN OPERATION (QA01843)	BD00015AA	437	\$207.00
ADD: TACTICAL BUNDLE	Includes: • PERSONNEL ACCOUNTABILITY (Q445) • DIGITAL TONE SIGNALING (QA09000)	BD00020AA	437	\$248.00

3. Device Managed Services 1st Year PROMOTION (Required)

Pricing listed is per Month (Qty 12 = 12 months). Must select quantity 12.

Description	Full Description	Nomenclature	APC	Price
-------------	------------------	--------------	-----	-------

Updated Pricing for contract 4400016317 as of January 2022

APX NEXT DMS ADVANCED SERVICE-PROMO	As a promotion, the customer will receive DMS Advanced service benefits for the first 12 months at the price of DMS Essential.	LSV01P01414A	724	\$5.74
APX NEXT DMS PREMIER	Premier services provide a managed service experience with a tailored 'concierge' approach that shifts responsibility for device management over to Motorola Solutions. Features include: • All Essential & Advanced features PLUS • On Demand Programming (Motorola performs initial device provisioning and firmware / configuration updates upon request) • Device Preventative Maintenance • Accidental Damage Repairs	MSV01S01416A	727	\$27.50

Device Managed Services (Optional)

Select coverage desired after the 12 month DMS promotion

Pricing listed is per Month (i.e. Qty 12 = 12 months). Can select 1 to 24 months. Billing can be Annual or Upfront.

WARNING: Minimum of DMS Essential service contract is required to maintain access to RadioCentral programming tool after the initial 12 month promotional period.

Description	Full Description	Nomenclature	APC	Price
APX NEXT DMS ESSENTIAL	Essential services are designed for customers who want to limit their investment to basic hardware and software support. Features include: • Standard Hardware Repair • Access to RadioCentral cloud-based tool with 'one-at-a-time' device programming capabilities • Access to MyView portal with device service information • Device Software Maintenance • Technical Support	LSV01S01410A	723	\$4.50
APX NEXT DMS ESSENTIAL W ACC DMG	Essential services + Comprehensive Hardware Repair of Accidentally Damaged radios	LSV01S01411A	723	\$15.33
APX NEXT DMS ESSENTIAL SW	Essential Software Only (NO Hardware Repair) services are designed for customers who want to limit their investment to basic software support. Features include: • Access to RadioCentral cloud-based tool with 'one-at-a-time' device programming capabilities • Access to MyView portal with device service information • Device Software Maintenance • Technical Support	LSV01S01911A	723	\$1.00
APX NEXT DMS ADVANCED	Advanced services are ideal for customers who wish to remain self-maintained but want to receive the tools and training necessary to provision/program and maintain their devices. Features include: • Standard Hardware Repair • RadioCentral cloud-based tool with batch programming capabilities • MyView portal with device service dashboards • Device Software Maintenance • Technical Support	LSV01S01414A	724	\$6.75
APX NEXT DMS ADVANCED W ACC DMG	Advanced services + Comprehensive Hardware Repair of Accidentally Damaged radios	LSV01S01415A	724	\$17.58
APX NEXT DMS ADVANCED SW	Advanced Software Only (NO Hardware Repair) services are ideal for customers who wish to remain self-maintained on a tight budget. Features include: • RadioCentral cloud-based tool with batch programming capabilities • MyView portal with device service dashboards • Device Software Maintenance • Technical Support	LSV01S01912A	724	\$2.67
APX NEXT DMS PREMIER	Premier services provide a managed service experience with a tailored 'concierge' approach that shifts responsibility for device management over to Motorola Solutions. Features include: • All Essential & Advanced features PLUS • On Demand Programming (Motorola performs initial device provisioning and firmware / configuration updates upon request) • Device Preventative Maintenance • Accidental Damage Repairs	MSV01S01416A	727	\$27.50

SmartInsight will be included standard for 1 full year with all APX NEXT radios on a preview basis, at no additional charge.

Description	Nomenclature	Duration	APC	Price
APX NXT DMS SMART INSIGHT DIAGNOSTIC-PROMO	LSV01P01903A	12 months	724	\$0

Features include: • RadioCentral cloud-based tool with batch programming capabilities • MyView portal with device service dashboards • Device Software Maintenance • Technical Support	LSV01S01912A	724	\$2.67
APX NEXT DMS PREMIER	Premier services provide a managed service experience with a tailored 'concierge' approach that shifts responsibility for device management over to Motorola Solutions. Features include: • All Essential & Advanced features PLUS • On Demand Programming (Motorola performs initial device provisioning and firmware / configuration updates upon request) • Device Preventative Maintenance • Accidental Damage Repairs	MSV01S01416A	727	\$27.50

SmartSight will be included standard for 1 full year with all APX NEXT XN radios on a preview basis, at no additional charge.

Description	Nomenclature	Duration	APC	Price
APX NXT DMS SMART INSIGHT DIAGNOSTIC-PROMO	LSV01P01903A	12 months	724	\$0
APX NXT DMS SMART INSIGHT USAGE-PROMO	LSV01P01904A	12 months	724	\$0
APX NXT DMS SMART INSIGHT BATTERY-PROMO	LSV01P01905A	12 months	724	\$0

Device Managed Services Training (Optional)

Device Management Training provides detailed instruction for radio technicians on how to use the RadioCentral programming tool and how to manage a fleet of devices and administer access to RadioCentral through MyView portal. Upon completing the training, participants will be able to provision and program their APX NEXT XN radio fleet with confidence. Training includes access to an online overview course, as well as a two-day instructor-led workshop.

Based on the purchased option, the instructor-led workshop can be delivered in three different ways:

Description	Full Description	Nomenclature	APC	Price
APX NEXT DMS TRAINING VIRTUAL (1 SEAT)	APX NEXT PROGRAMMING VIRTUAL ONLINE TRAINING (1 SEAT)	PSV01S01742A	943	\$1,700.00
APX NEXT DMS TRAINING MSI SITE (1 SEAT)	APX NEXT PROGRAMMING TRAINING AT MOTOROLA SOLUTIONS FACILITY (1 SEAT)	PSV01S01743A	943	\$1,700.00
APX NEXT DMS TRAINING CUST SITE (12 SEATS)	APX NEXT PROGRAMMING TRAINING AT CUSTOMER SITE (12 SEATS)	PSV01S01744A	943	\$19,200.00

System Key Software (Optional)

Description	Full Description	Nomenclature	APC	Price

ADD: ADVANCED SYSTEM KEY - HARDWARE KEY	WARNING: Software System Key (QA01749) is the default selection for all APX radios. APX NEXT radios ordered with Software Keys (QA01749), can be programmed with either Software keys, Hardware keys or a combination of Software and Hardware keys. APX NEXT radios ordered with Hardware System Key (QA01648), can only be programmed when all Hardware keys are loaded into RadioCentral. Be certain that you are making the correct selection, based on the type of System Keys that your customer is using, as it CANNOT be changed in the field after the radios ship.	QA01648	655	\$6.00
---	--	---------	-----	--------

Packaging Selection (Optional)
 APX NEXT XN ships standard in Bulk (10 radios per box). Select H842 if you wish to have radios packaged in individual boxes.

Security / IA Package					
Description	Full Description	Nomenclature	APC	Price	
ADD: SECURITY BUNDLE	-	CA01741AE	425	\$20,000.00	
Radio Authentication and Licenses					
Description	Full Description	Nomenclature	APC	Price	
ADD: SITE SELECTABLE ALERTS TRUNKING LICENSE	This license gives the ability for the ASTRO 25 system to signal alerts at user-selected trunking sites.	CA02413AA	877	\$20,000.00	
ADD: RADIO AUTH 500 USER LIC	-	UA00165AA	877	\$5,000.00	
ADD: RADIO AUTHENTICATION	-	CA02472AC	877	\$11,300.00	
IPv6					
Description	Full Description	Nomenclature	APC	Price	
IPV6	Optional feature which enables IPv6 connectivity at the Zone Core. If you choose to order this optional feature, you are required to order one per zone (including Astro 25 Conventional Only systems). NOTE: There is a corresponding IPv6 site license that must be ordered. The site license is not needed for an ASTRO 25 Conventional Only system.	CA01417AA	877	\$50,000.00	
ADD: IPV6 SITE LICENSE	Optional feature which enables IPv6 connectivity at remote sites. Each option ordered provides an IPv6 license for one (1) Remote Site of any type (e.g. A25 IV&D Sites, Dynamic Dual Mode/X2-TDMA Sites, and HPD sites). Example: If a system has eighteen (18) A25 IV&D Sites that require IPv6 connectivity, the order should include a quantity of eighteen (18) IPv6 Site Licenses. If an additional two (2) sites of any type are being added to the system, a quantity of two (2) IPv6 Site Licenses should appear on the upgrade order. Note: If the system consists of one (1) simulcast system (one prime) and four (4) simulcast sub-sites, then four (4) IPv6 licenses must be ordered.	CA01418AA	877	\$15,000.00	
700/800 Mixed Site					
Description	Full Description	Nomenclature	APC	Price	
ADD: 700/800 MIXED SITE OPERATION	This feature enables ASTRO 25 systems with both 700 and 800 frequencies to better utilize 700 RF channels when radio talk groups contain 800-only radios and 700/800-capable radios. It distributes talk paths across 700 and 800 MHz channels thus lowering channel congestion and reducing system buses.	CA01395AA	877	\$15,000.00

ADD: CONVENTIONAL TALKGROUPS L-CORE	-	CA02818AA	425	\$2,000.00
ADD: CONVENTIONAL TALKGROUPS VIA ISSI/CSSI	Allows an ASTRO 25 conventional digital system to interoperate with third party digital consoles and base stations through the conventional talkgroup and CSSI interfaces. Need: UA00224AA Conventional Talkgroups via CSSI per Base Radio License	UA00223AA	226	\$20,000.00

Security / IA Package

Description	Full Description	Nomenclature	APC	Price
ADD: SECURITY BUNDLE	-	CA01741AF	425	\$20,000.00

Host-Based CSMS

Description	Full Description	Nomenclature	APC	Price
ADD: HOST BASED CSMS (A7.17.3)	Optional feature which enables product specific firewalls for Windows products. This option includes the ASTRO 25 Security Server Hardware and Software needed to support Host-Based CSMS. NOTE: Host-Based CSMS device licenses need to be ordered separately for each Windows device in the system.	CA03584AA	877	\$80,000.00
ADD: HOST BASED CSMS DEVICE LICENSES	This option is required when "Host-Based CSMS" (CA03584AB) is ordered. Must order (1) for each Windows device in the system.	UA00726AA	877	\$200.00

Radio Authentication and Licenses

Description	Full Description	Nomenclature	APC	Price
ADD: RADIO AUTHENTICATION	-	CA02472AD	877	\$11,300.00
ADD: RADIO AUTH 500 USER LIC	-	UA00165AA	877	\$5,000.00
ADD: SITE SELECTABLE ALERTS TRUNKING LICENSE	This license gives the ability for the ASTRO 25 system to signal alerts at user-selected trunking sites.	CA02413AA	877	\$20,000.00

IPv6

Description	Full Description	Nomenclature	APC	Price
IPv6	Optional feature which enables IPv6 connectivity at the Zone Core. If you choose to order this optional feature, you are required to order one per zone (including Astro 25 Conventional Only systems). NOTE: There is a corresponding IPv6 site license that must be ordered. The site license is not needed for an ASTRO 25 Conventional Only system.	CA01417AA	877	\$50,000.00
ADD: IPv6 SITE LICENSE	Optional feature which enables IPv6 connectivity at remote sites. Each option ordered provides an IPv6 license for one (1) Remote Site of any type (e.g. A25 IV&D Sites, Dynamic Dual Mode/X2-TDMA Sites, and HPD sites). Example: If a system has eighteen (18) A25 IV&D Sites that require IPv6 connectivity, the order should include a quantity of eighteen (18) IPv6 Site Licenses. If an additional two (2) sites of any type are being added to the system, a quantity of two (2) IPv6 Site Licenses should appear on the upgrade order. Note: If the system consists of one (1) simulcast system (one prime) and four (4) simulcast sub-sites, then four (4) IPv6 licenses must be ordered.	CA01418AA	877	\$15,000.00

700/800 Mixed Site

Description	Full Description	Nomenclature	APC	Price
ADD: 700/800 MIXED SITE OPERATION	This feature enables ASTRO 25 systems with both 700 and 800 frequencies to better utilize 700 RF channels when radio talk groups contain 800-only radios and 700/800-capable radios. It distributes talk paths across 700 and 800 MHz channels thus lowering channel congestion and reducing system busts.	CA01395AA	877	\$15,000.00

Configuration Features

System Management

Description	Full Description	Nomenclature	APC	Price

ADD: NEW PRIMARY ZONE CORE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Backhaul Switches. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, CEN Server, 16-port Terminal Server*, ISGW, RNI/DMZ Firewall, ISSI 8000 Firewall. Includes 1 license each: Zone Controller, UNC, Provisioning Manager, UEM (+ Email Notifications), Event Logging (Syslog), Windows Supplemental Transparent Configuration, Baseline Backup. For Zone Controller redundancy also order REDUNDANCY CA03512AB in step 3. For ATR or Data redundancy, order REDUNDANCY and HIGH AVAILABILITY option. * Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03515AB	877	\$280,000.00
ADD: ADD ON ZONE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Backhaul Switches, Zone Controller license. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, 16-port Terminal Server*, ISGW, RNI/DMZ Firewall, ISSI 8000 Firewall, UEM (+ Email Notifications), Event Logging (Syslog), Windows Supplemental Trans Config, Baseline Backup. Requires 1 CA01416AG System Statistics Server to be ordered per system. * Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03516AB	877	\$380,000.00
ADD: CORE EXPANSION	Choose this configuration option to add features or capacity licenses to existing ASTRO release 2020.1 systems	CA03517AC	877	\$0.00
STEP 3: CHOOSE SOFTWARE REDUNDANCY				
Description	Full Description	Nomenclature	APC	Price
ADD: REDUNDANCY	Enables redundant Zone Controller on single zone systems. Mandatory to be ordered on Zone 1 for MultiZone systems. Not applicable for Add-On Zones (zones 2-7) which always ship with redundant Zone Controller software	CA03512AB	877	\$180,000.00
STEP 4: SELECT RACK OR CABINET (MUST CHOOSE 1)				
Description	Full Description	Nomenclature	APC	Price
ADD: RACK	-	CA03507AA	877	\$0.00
ADD: CABINET	-	CA03508AA	877	\$3,000.00
STEP 5: ORDER OPERATIONAL AND CAPACITY OPTIONS PER ZONE				
Operational Licenses, Trunking				
Description	Full Description	Nomenclature	APC	Price
ADD: P25 FDMA TRUNKING OPERATION SITE	Device Licenses for UNC not included. Order the appropriate number of CA01316AA based on the number of managed objects at the site.	UA00153AB	877	\$30,000.00
ADD: P25 PHASE 2 TDMA TRKNG OP SITE LIC	Device Licenses for UNC not included. Order the appropriate number of CA01316AA based on the number of managed objects at the site.	UA00159AB	877	\$30,000.00
ADD: PHASE 2 DYNAMIC TG ASNMT SITE LIC	-	UA00160AA	877	\$18,000.00
ADD: ENHANCED DATA-P25 TRNK SITE	-	UA00408AA	595	\$4,160.00
ADD: P25 PHASE 2 TDMA SW BASE RADIO LIC	Order 1 for every TDMA Base Radio in the Zone	UA00161AA	877	\$3,000.00
ADD: PHASE 2 DYNAMIC CH BASE RADIO LIC	Order 1 for every Base Radio in the Zone that has the option for Dynamic Channel Assignment	UA00162AA	877	\$2,000.00
Operational Licenses, Conventional				
Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO 25 CONVENTIONAL	Order per Zone. Includes Conv PDG.	CA01207AA	877	\$15,000.00
ADD: 8 RF CHAN CONV DATA	Order 1 for every eight (8) digital conventional channels in the Zone for Conventional Only systems.	UA00712AA	877	\$20,000.00
Console Licenses				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC7500 CONSOLE LICENSES (QTY 5)	Order 1 for every 5 MCC 7500/MCC 7500E operator positions in the zone. Device Licenses for UNC not included. Order the appropriate number of CA01316AA.	UA00156AA	877	\$5,000.00
DSR Notification				
Description	Full Description	Nomenclature	APC	Price
ADD: DSR NOTIFICATION	Must be ordered when ordering DSR for the first time	CA01499AB	877	\$10,000.00
Added Capacity: LAN Switch, Edge Routers or Terminal Server				
Description	Full Description	Nomenclature	APC	Price
ADD: ADDL 48 PORTS CORE LAN	Order when more than 96 Core LAN Switch ports are needed. Adds an additional 48 Ports LAN Switch. Order up to two.	CA03510AA	877	\$5,000.00
ADD: EDGE ROUTER PAIR	Order when additional Edge Router Capacity is needed. Non DSR: Up to 3 can be ordered for a total of 4 Pairs (8 routers). DSR systems: Up to 6 additional Edge Router pairs can be ordered for expanded capacity - for a total of 8 pairs (16 routers).	CA03509AA	877	\$41,400.00
ADD: SLC8000 TS 16 PORT EXPANSION MODULE	Order quantity of 1 to expand 16-port SLC8000 Terminal Server to 32 port Terminal Server. Order quantity of 2 to expand 16-port SLC8000 Terminal Server to 48 port Terminal Server. Not compatible with CA03517AD Core Expansion	CA03721AA	877	\$3,861.00
Encryption and FIPS				
Description	Full Description	Nomenclature	APC	Price
ADD: ENCRYPTION	Includes encryption for all routers in the Core. Order 1 per Zone	CA03513AB	877	\$6,000.00
ADD: COMMON CRITERIA	Includes Common Criteria (FIPS) for all encrypted routers in the Core. Order 1 per Zone. Requires Encryption option.	CA03514AB	877	\$2,000.00
STEP 6: ORDER SYSTEM LEVEL CAPACITY OPTIONS				
User Licenses				
Description	Full Description	Nomenclature	APC	Price
ADD: 500 RADIO USER LICENSES	Provides license for 500 trunked radio users that are "home" to this radio system. Order up to 300 of a total of UA00152AA and UA00664AA PER ZONE and up to 500 of a total of UA00152AA and UA00664AA PER MULTIZONE SYSTEM	UA00152AA	877	\$7,500.00
ADD: 500 VISITING RADIO USER LICENSES	Provides a license for 500 trunked radio users that are "home" to another radio system. These are meant to be radios that are not daily users of the system. Order up to 300 of a total of UA00152AA and UA00664AA PER ZONE and up to 500 of a total of UA00152AA and UA00664AA PER MULTIZONE SYSTEM	UA00664AA	877	\$1,000.00
OPTIONAL STEP 7: CHOOSE SYSTEM LEVEL OPTIONAL FEATURES				
System Management: Provisioning and Configuration				
Description	Full Description	Nomenclature	APC	Price
ADD: PROVISIONING MANAGER	Quantity 1 license is included standard	UA00147AA	877	\$5,000.00
ADD: UNIFIED NETWORK CONFIGURATOR (UNC)	The UNC application can manage up to 5,000 devices in a system. If the system exceeds this limit, the High Capacity UNC (CA02637AF) must be implemented. Quantity 1 UNC UA00136AA license is included standard	UA00136AA	877	\$20,000.00
ADD: UNC ADDTL DEVICE LIC (QTY 10)	VMWare Smart Assurance Network Configuration Manager Device Licenses are required by the UNC for all objects in the ASTRO system. An object is any logical component of the system that is managed, such as a server, base radio, console operator position or router. Device Licenses are included where required quantities are known. For areas of the system that require variable quantities of Device Licenses such as RF or console sites, this option is required. Quantity needed can be calculated through the use of the UNC Device License Calculator (See Ordering Guide for link).	CA01316AA	877	\$1,500.00
ADD: HIGH CAPACITY UNC	This option includes the G10 Server, JBOD, and Software needed to support the UNC object handling capacity increase from 5000 managed devices to 15,000. A managed object includes base radios, comparators, switches, routers, core servers, VPMs, GGM gateways, site controllers.	CA02637AF	877	\$30,000.00
System Management: Performance and Accounting				
Description	Full Description	Nomenclature	APC	Price
ADD: SYS STATISTICS SVR AND HISTORICAL REP	Includes up to 10 licenses for System Historical reports Note: One per system Mandatory for MultiZone systems.	CA01416AH	877	\$60,000.00
Radio Authentication				
Description	Full Description	Nomenclature	APC	Price
ADD: RADIO AUTHENTICATION	Ordered per SYSTEM	CA02472AF	877	\$11,300.00
ADD: RADIO AUTH 500 USER LIC	Order based on the number of authentication radios in the system. One option per 500 radio users. Requires CA02472AF.	UA00165AA	877	\$5,000.00
Host-Based CSMS				
Description	Full Description	Nomenclature	APC	Price

Updated Pricing for contract 4400016317 as of January 2022

Description	Full Description	Nomenclature	APC	Price
ADD: HOST-BASED CSMS (A2020.1)	This option includes the ASTRO 25 Security Server Hardware and Software needed to support "Host-Based CSMS"	CA03584AD	877	\$85,000.0
ADD: HOST BASED CSMS DEVICE LICENSES	Required when "Host-Based CSMS" (CA03584AD) is ordered. Must order (1) for each Windows device in system.	UA00726AA	877	\$200.00
Location Services				
Description	Full Description	Nomenclature	APC	Price
ADD : LOCATION ON PTT 500 USER LICENSE	Includes Location on PTT and Location on RX. Location on RX requires TDMA.	UA00482AA	877	\$3,000.00
ENH: GEOSELECT	MISSION CRITICAL GEOSELECT. Order one per system. Provides the capability for a subscriber radio to take actions based on movement into or out of a Geo Fence. Moves the intelligence and control of Geo Fence inside/outside status based commands from the Mapping Application to the radio to enable actions in real time. The radio takes actions when a boundary is crossed, rather than awaiting commands from the mapping application. Increases the safety and productivity of field personnel by providing immediate and hands free automated talkgroup selection and other radio actions when crossing into or out of a defined incident area. Requires CommandCentral Locate or 3rd party mapping application and IMW with Presence, Location, and GeoFence. APX Radio requires Mission Critical GeoFence and GPS. Order one per system.	UA00486AA	877	\$40,000.0
Group Services				
Description	Full Description	Nomenclature	APC	Price
ADD: GROUP SERVICES	Includes: 500 RADIO ALIAS GROUP DOWNLOAD LICENSES (UA00236), 50 TALKGROUP TEXT LICENSES (UA00245), and 10 CONSOLE GROUP TEXT LICENSES (UA00235). Order additional bundles as needed.	UA00700AA	877	\$10,000.0
ADD: USER LOGIN ALIAS UPDATE	Order only once per Zone with UA00700AA Group Services to enable radio aliases to be updated upon user login	UA00533AA	591	\$5,000.00
Conventional Talkgroups				
Description	Full Description	Nomenclature	APC	Price
ADD: CONVENTIONAL TALKGROUPS CORE	This license allows a digital conventional channel to be logically partitioned into talkgroups.	CA02681AA	877	\$20,000.0
ADD: CONVENTIONAL TALKGROUPS VIA ISSI/CSSI	Allows an ASTRO 25 conventional digital system to interoperate with third party digital consoles and base stations through the conv TG and CSSI interfaces	UA00223AA	226	\$20,000.0
SmartConnect				
SmartConnect requires Application Subscription. Refer to SmartConnect End-to-End Ordering Guide for full solution ordering and deployment details				
Personnel Accountability				
Important Note: Additional items are required when ordering Personnel Accountability. Please visit APX Personnel Accountability price page: https://www.motorolasolutions.com/en_us/product-catalog/ref-page-display.html?refPath=/catalog/dup/products/apx_personnel_accountability/apx_personnel_i				
Description	Full Description	Nomenclature	APC	Price
ADD: PERSONNEL ACCOUNTABILITY	Important Note: Additional items are required when ordering Personnel Accountability. Please visit APX Personnel Accountability price page.	UA00421AA	877	\$49,000.0
Site Selectable Trunking Alerts				
Description	Full Description	Nomenclature	APC	Price
ADD: SITE SELECTABLE ALERTS TRUNKING LICENSE	-	CA02413AA	877	\$20,000.0
Two-Factor Authentication				
Description	Full Description	Nomenclature	APC	Price
PURCHASED SOFTWARE-FORTITOKEN PACK	-	DDN1933	708	\$560.00
FORTITOKENMOBILE - PACK OF 5 SOFT-T	-	DDN1881	708	\$272.00
OPTIONAL STEP 8: CHOOSE ZONE LEVEL OPTIONAL FEATURES AND LICENSES				
Dynamic Transcoding				
Both options are required.				
Description	Full Description	Nomenclature	APC	Price
ADD: DYNAMIC TRANSCODING	Ships with 2 DL380 Gen10 Servers	CA03586AB	877	\$50,000.0
ADD: TRANSCODED SIMULTANEOUS CALLS (QTY 5)	-	UA00222AA	877	\$10,000.0
Security				
Description	Full Description	Nomenclature	APC	Price
ADD: WINDOW SUPPLEMENTAL FULL CONFIG	Replaces standard Supplemental Trans Configuration	CA02836AE	877	\$0.00
ADD: BACKUP & RECOVERY (BAR)	Replaces standard Baseline Backup	CA01724AJ	877	\$15,000.0
ADD: ANTI-MALWARE DEF UPDATE LIC	Provides protection to Windows/Linux devices against viruses, spyware and other software born threats. Order one per Windows/Linux client/device managed by the server except for Consoles	CA02193AB	877	\$165.00
MCAFFEE FOR WINDOWS CLIENT, A2019.2	-	T8742	708	\$165.00
High Availability				
Description	Full Description	Nomenclature	APC	Price
ADD: HIGH AVAILABILITY DATA	Includes HA SW and redundant PDG, GDG, GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA03511AB	877	\$98,000.0
ADD: HA ATR SOFTWARE	Includes HA SW and redundant Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA02649AC	877	\$53,000.0
System Management: Provisioning and Configuration				
Description	Full Description	Nomenclature	APC	Price
ADD: CHANNEL PARTITIONING	-	UA00134AA	877	\$50,000.0
ADD: SECURITY PARTITIONING	-	UA00143AA	877	\$20,000.0
ADD: DYNAMIC FREQUENCY BLOCKING	-	UA00148AA	877	\$90,000.0
ADD: DYNAMIC SHARED SERVICES ALGORITHM CAPABILITY	-	UA00140AA	877	\$7,500.00
ADD: PROVISIONING MANAGER INTERFACE	Includes 20 hours technical assistance.	UA00135AA	877	\$28,000.0
System Management: Fault Management				
Description	Full Description	Nomenclature	APC	Price
ADD: UNIFIED EVENT MANAGER (UEM)	Quantity 1 license is included standard.	UA00146AA	877	\$20,000.0
ADD: UEM ENHANCED NAVIGATION	Includes MICROWAVE MAP VIEW (UA00226) NOTE: Requires SDM 3000 Remote Terminal Units at the Master and RF Sites in order to view Digital I/O, Analog Inputs and Metering information in the UEM.	UA00225AA	877	\$50,000.0
ADD: UEM SNMP ELEMENT MANAGEMENT TOOLKIT (QTY 10)	-	UA00227AA	877	\$20,000.0
ADD: NORTHBOUND INTERFACE	Requires ZA00104AA for Technical Assistance	UA00139AA	877	\$15,000.0
ENH: TECHNICAL ASSISTANCE, FORTY HRS	Required for UA00142AA and UA00139AA (quantity 1 each)	ZA00104AA	285	\$12,000.0
System Management: Performance and Accounting				
Description	Full Description	Nomenclature	APC	Price
ADD: RADIO CONTROL MANAGER	-	UA00149AA	877	\$15,000.0
ADD: DYNAMIC REPORTS	Includes Affiliation User Reports license (UA00151). Order up to 5 per Zone	UA00150AA	877	\$15,000.0
ADD: ZONEWATCH GRID & CTRL	Includes Zone Historical Reports license (UA00144). Order up to 10 per Zone	UA00141AA	877	\$25,000.0
SAP CRYSTAL REPORTS 2016	-	DDN3135	708	\$930.00
ADD: FLEXIBLE ATA	Includes 10 hours technical assistance	UA00138AA	877	\$20,000.0
ADD: CADI SOFTWARE OPTION	Requires ZA00104AA for Technical Assistance	UA00142AA	877	\$45,000.0
ENH: TECHNICAL ASSISTANCE, FORTY HRS	Required for UA00142AA and UA00139AA (quantity 1 each)	ZA00104AA	285	\$12,000.0
Order the Client Workstation				
Description	Full Description	Nomenclature	APC	Price
ASTRO 2020.1 NM SW CLIENT	Must order one (1) per workstation. This option is not needed for stand alone Radio Authentication clients	T8751	877	\$850.00
Z2 G5 MINI WORKSTATION NON RETURNABLE	Provides one HP Z2 computer with Windows 10 Enterprise LTSB 2019 64 bit. Also includes 1 keyboard, 1 optical mouse, 2 DisplayPort to DVI adapters, 2 DisplayPort to VGA adapters and recovery disk(s). Does NOT include a DVD drive. Can be used for Network Management and/or Radio Authentication.	TT3903A	708	\$2,500.00
USB EXTERNAL DVD DRIVE	External DVD drive that connects to the computer via USB. May be used with the HP Z2 G4 Mini workstation	DSF2B56AA	708	\$172.00
ASTRO 25 RADIO AUTHENTICATION	-	T8598	877	\$5,000.00
MCAFFEE FOR WINDOWS CLIENT, A2019.2	-	T8742	708	\$165.00
ORDERING DYNAMIC SYSTEM RESILIENCE (DSR)				
STEP 1: ORDER THE DSR MAIN MODEL (REQUIRED FOR DSR)				
Description	Full Description	Nomenclature	APC	Price
DYNAMIC SYSTEM RESILIENCE	Can be ordered on any zone (up to six zones max). NOTE: You must order DSR System Notification (CA01499AB) on the Primary Core when ordering DSR for the first time.	SQM01SUM0324	877	\$0.00
STEP 2: CHOOSE 1 CONFIGURATION OPTION (REQUIRED)				
Description	Full Description	Nomenclature	APC	Price
ADD: DSR ZONE CORE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Interzone Edge Routers, Backhaul Switches. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, 16-port Terminal Server*, ISGW, RNI/DMZ Firewall, ISSI 8000 Firewall. Includes 1 each of the following licenses: Zone Controller, UNC, Provisioning Manager, UEM (with Email Alarm Notifications), Event Logging (Syslog), Windows Supplemental Transparent Configuration, Baseline Backup. For software redundancy also order REDUNDANCY, CA03512AB. * Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports.	CA03520AB	877	\$280,000.0

Updated Pricing for contract 4400016317 as of January 2022

ADD: DSR ADD-ON ZONE	Includes 2 each: Core Servers, LAN Switches and cables, Edge Routers, Interzone Edge Routers, Backhaul Switches, Data Switches, Firewalls, Zone Controller license; 1 each: MultiZone Operational License, PDG, GDG (Trunking), GGSN, Border Router, 48-port Terminal Server, UEM with Email Alarm Notifications, Event Logging (Syslog), Windows Supplemental Trans Config, Baseline Backup. REDUNDANCY is standard. * Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03519AB	877	\$460,000.00
STEP 3: CHOOSE SOFTWARE REDUNDANCY (OPTIONAL FOR DSR CORE IN SINGLE ZONE SYSTEMS)				
ADD: REDUNDANCY	Enables redundant Zone Controller on single zone systems. Mandatory to be ordered on Zone 1 for MultiZone systems. Not applicable for Add-On Zones (zones 2-7) which always ship with redundant Zone Controller software	CA03512AB	877	\$180,000.00
STEP 4: SELECT RACK OR CABINET (MUST CHOOSE 1)				
ADD: RACK			877	\$0.00
ADD: CABINET			877	\$3,000.00
STEP 5: ORDER OPTIONAL LICENSES				
If option was ordered for Primary Core, must also be ordered for Backup (DSR) Core.				
ADD: DYNAMIC TRANSCODING	Ships with 2 DL380 Gen10 Servers	CA03586AB	877	\$50,000.00
ADD: ASTRO 25 CONVENTIONAL	Order per Zone. Includes Conv PDG.	CA01207AA	877	\$15,000.00
ADD: RADIO AUTHENTICATION	Ordered per SYSTEM.	CA02472AF	877	\$11,300.00
ADD: HIGH AVAILABILITY DATA	Includes HA SW and redundant PDG, GDG, GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA03511AB	877	\$98,000.00
ADD: HA ATR SOFTWARE	Includes HA SW and redundant Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA02649AC	877	\$53,000.00
ADD: WINDOW SUPPLEMENTAL FULL CONFIG	Replaces standard Supplemental Trans Configuration	CA02836AE	877	\$0.00
ADD: BACKUP & RECOVERY (BAR)	Replaces standard Baseline Backup	CA01724AJ	877	\$15,000.00
ADD: HIGH CAPACITY UNC	This option includes the G10 Server, JBOD, and Software needed to support the UNC object handling capacity increase from 5000 managed devices to 15,000. A managed object includes base radios, comparators, switches, routers, core servers, VPM's, GGM gateways, site controllers.	CA02637AF	877	\$30,000.00
ADD: SYS STATISTICS SVR AND HISTORICAL REP	Includes up to 10 licenses for System Historical reports Note: One per system Mandatory for MultiZone systems.	CA01416AH	877	\$60,000.00
ADD: HOST-BASED CSMS (A2020.1)	This option includes the ASTRO 25 Security Server Hardware and Software needed to support "Host-Based CSMS"	CA03584AD	877	\$85,000.00
Added Capacity: LAN Switch, Edge Routers or Terminal Server				
ADD: ADDL 48 PORTS CORE LAN	Order when more than 96 Core LAN Switch ports are needed. Adds an additional 48 Ports LAN Switch. Order up to two.	CA03510AA	877	\$5,000.00
ADD: EDGE ROUTER PAIR	Order when additional Edge Router Capacity is needed. Non DSR: Up to 3 can be ordered for a total of 4 Pairs (8 routers). DSR systems: Up to 6 additional Edge Router pairs can be ordered for expanded capacity - for a total of 8 pairs (16 routers).	CA03509AA	877	\$41,400.00
ADD: SLC8000 TS 16 PORT EXPANSION MODULE	Order quantity of 1 to expand 16-port SLC8000 Terminal Server to 32 port Terminal Server. Order quantity of 2 to expand 16-port SLC8000 Terminal Server to 48 port Terminal Server. Not compatible with CA03517AD Core Expansion	CA03721AA	877	\$3,861.00
Encryption and FIPS				
ADD: ENCRYPTION	Includes encryption for all routers in the Core. Order 1 per Zone	CA03513AB	877	\$6,000.00
ADD: COMMON CRITERIA	Includes Common Criteria (FIPS) for all encrypted routers in the Core. Order 1 per Zone. Requires Encryption option.	CA03514AB	877	\$2,000.00
FIELD REPLACEABLE UNITS AND EQUIPMENT (FREs and FRUs)				
DL380 G10 Server:				
FRE: DL380 G10 VHC 256GH DAS 2	Core Server (Primary and DSR)	DLN8008	877	\$36,000.00

ASTRO 25 Release 2020.1
ASTRO 25 MASTER SITE (Replacement for L-Core and M-Core / SRC 7500)
New Orders and Expansions

STEP 1: ORDER THE MASTER SITE MAIN MODEL (REQUIRED)				
ASTRO MASTER SITE			877	\$0.00
STEP 2: CHOOSE 1 CONFIGURATION OPTION (REQUIRED)				
ADD: NEW PRIMARY ZONE CORE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Backhaul Switches. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, CEN Server, 16-port Terminal Server, ISGW, RNI/DMZ Firewall, ISSI 8000 Firewall. Includes 1 licence each: Zone Controller, UNC, Provisioning Manager, UEM (+ Email Notifications), Event Logging (Syslog), Windows Supplemental Transparent Configuration, Baseline Backup. For Zone Controller redundancy also order REDUNDANCY CA03512AB in step 3. For ATR or Data redundancy, order REDUNDANCY and HIGH AVAILABILITY option * Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03515AB	877	\$280,000.00
ADD: ADD ON ZONE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Backhaul Switches, Zone Controller license. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, 16-Port Terminal Server, ISGW, RNI/DMZ Firewall, ISSI 8000 Firewall, UEM (+ Email Notifications), Event Logging (Syslog), Windows Supplemental Trans Config, Baseline Backup. Requires 1 CA01416AG System Statistics Server to be ordered per system * Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03516AB	877	\$380,000.00
ADD: CORE EXPANSION	Choose this configuration option to add features or capacity licenses to existing ASTRO release 2020.1 systems	CA03517AC	877	\$0.00
STEP 3: CHOOSE SOFTWARE REDUNDANCY				
ADD: REDUNDANCY	Enables redundant Zone Controller on single zone systems. Mandatory to be ordered on Zone 1 for MultiZone systems. Not applicable for Add-On Zones (zones 2-7) which always ship with redundant Zone Controller software	CA03512AB	877	\$180,000.00
STEP 4: SELECT RACK OR CABINET (MUST CHOOSE 1)				
Options include mounting hardware for all standard core components				
ADD: RACK			877	\$0.00

Updated Pricing for contract 4400016317 as of January 2022

ADD: CABINET		-	CA03508AA	877	\$3,000.00
STEP 5: ORDER OPERATIONAL AND CAPACITY OPTIONS PER ZONE					
Operational Licenses, Trunking					
Description	Full Description	Nomenclature	APC	Price	
ADD: P25 FDMA TRUNKING OPERATION SITE	Device Licenses for UNC not included. Order the appropriate number of CA01316AA based on the number of managed objects at the site.	UA00153AB	877	\$30,000.0	
ADD: P25 PHASE 2 TDMA TRKNG OP SITE LIC	Device Licenses for UNC not included. Order the appropriate number of CA01316AA based on the number of managed objects at the site.	UA00159AB	877	\$30,000.0	
ADD: PHASE 2 DYNAMIC TG ASNMT SITE LIC	-	UA00160AA	877	\$18,000.0	
ADD: ENHANCED DATA-P25 TRNK SITE	-	UA00408AA	595	\$4,160.00	
ADD: P25 PHASE 2 TDMA SW BASE RADIO LIC	Order 1 for every TDMA Base Radio in the Zone	UA00161AA	877	\$3,000.00	
ADD: PHASE 2 DYNAMIC CH BASE RADIO LIC	Order 1 for every Base Radio in the Zone that has the option for Dynamic Channel Assignment	UA00162AA	877	\$2,000.00	
Operational Licenses, Conventional					
Description	Full Description	Nomenclature	APC	Price	
ADD: ASTRO 25 CONVENTIONAL	Order per Zone. Includes Conv PDG.	CA01207AA	877	\$15,000.0	
ADD: 8 RF CHAN CONV DATA	Order 1 for every eight (8) digital conventional channels in the Zone for Conventional Only systems.	UA00712AA	877	\$20,000.0	
Console Licenses					
Description	Full Description	Nomenclature	APC	Price	
ADD: MCC7500 CONSOLE LICENSES (QTY 5)	Order 1 for every 5 MCC 7500/MCC 7500E operator positions in the zone. Device Licenses for UNC not included. Order the appropriate number of CA01316AA.	UA00156AA	877	\$5,000.00	
DSR Notification					
Description	Full Description	Nomenclature	APC	Price	
ADD: DSR NOTIFICATION	Must be ordered when ordering DSR for the first time	CA01499AB	877	\$10,000.0	
Added Capacity: LAN Switch, Edge Routers or Terminal Server					
Description	Full Description	Nomenclature	APC	Price	
ADD: ADDL 48 PORTS CORE LAN	Order when more than 96 Core LAN Switch ports are needed. Adds an additional 48 Ports LAN Switch. Order up to two.	CA03510AA	877	\$5,000.00	
ADD: EDGE ROUTER PAIR	Order when additional Edge Router Capacity is needed. Non DSR: Up to 3 can be ordered for a total of 4 Pairs (8 routers). DSR systems: Up to 6 additional Edge Router pairs can be ordered for expanded capacity - for a total of 8 pairs (16 routers).	CA03509AA	877	\$41,400.0	
ADD: SLC8000 TS 16 PORT EXPANSION MODULE	Order quantity of 1 to expand 16-port SLC8000 Terminal Server to 32 port Terminal Server. Order quantity of 2 to expand 16-port SLC8000 Terminal Server to 48 port Terminal Server. Not compatible with CA03517AD Core Expansion	CA03721AA	877	\$3,861.00	
Encryption and FIPS					
Description	Full Description	Nomenclature	APC	Price	
ADD: ENCRYPTION	Includes encryption for all routers in the Core. Order 1 per Zone	CA03513AB	877	\$6,000.00	
ADD: COMMON CRITERIA	Includes Common Criteria (FIPS) for all encrypted routers in the Core. Order 1 per Zone. Requires Encryption option.	CA03514AB	877	\$2,000.00	
STEP 6: ORDER SYSTEM LEVEL CAPACITY OPTIONS					
User Licenses					
Description	Full Description	Nomenclature	APC	Price	
ADD: 500 RADIO USER LICENSES	Provides license for 500 trunked radio users that are "home" to this radio system. Order up to 300 of a total of UA00152AA and UA00664AA PER ZONE and up to 500 of a total of UA00152AA and UA00664AA PER MULTIZONE SYSTEM	UA00152AA	877	\$7,500.00	
ADD: 500 VISITING RADIO USER LICENSES	Provides a license for 500 trunked radio users that are "home" to another radio system. These are meant to be radios that are not daily users of the system. Order up to 300 of a total of UA00152AA and UA00664AA PER ZONE and up to 500 of a total of UA00152AA and UA00664AA PER MULTIZONE SYSTEM	UA00664AA	877	\$1,000.00	
OPTIONAL STEP 7: CHOOSE SYSTEM LEVEL OPTIONAL FEATURES					
System Management: Provisioning and Configuration					
Description	Full Description	Nomenclature	APC	Price	
ADD: PROVISIONING MANAGER	Quantity 1 license is included standard	UA00147AA	877	\$5,000.00	
ADD: UNIFIED NETWORK CONFIGURATOR (UNC)	The UNC application can manage up to 5,000 devices in a system. If the system exceeds this limit, the High Capacity UNC (CA02637AF) must be implemented. Quantity 1 UNC UA00136AA license is included standard	UA00136AA	877	\$20,000.0	
ADD: UNC ADDTL DEVICE LIC (QTY 10)	VMWare Smart Assurance Network Configuration Manager Device Licenses are required by the UNC for all objects in the ASTRO system. An object is any logical component of the system that is managed, such as a server, base radio, console operator position or router. Device Licenses are included where required quantities are known. For areas of the system that require variable quantities of Device Licenses such as RF or console sites, this option is required. Quantity needed can be calculated through the use of the UNC Device License Calculator (See Ordering Guide for link).	CA01316AA	877	\$1,500.00	
ADD: HIGH CAPACITY UNC	This option includes the G10 Server, JBOD, and Software needed to support the UNC object handling capacity increase from 5000 managed devices to 15,000. A managed object includes base radios, comparators, switches, routers, core servers, VPMs, GGM gateways, site controllers.	CA02637AF	877	\$30,000.0	
System Management: Performance and Accounting					
Description	Full Description	Nomenclature	APC	Price	
ADD: SYS STATISTICS SVR AND HISTORICAL REP	Includes up to 10 licenses for System Historical reports Note: One per system Mandatory for MultiZone systems.	CA01416AH	877	\$60,000.0	
Radio Authentication					
Description	Full Description	Nomenclature	APC	Price	
ADD: RADIO AUTHENTICATION	Ordered per SYSTEM.	CA02472AF	877	\$11,300.0	
ADD: RADIO AUTH 500 USER LIC	Order based on the number of authentication radios in the system. One option per 500 radio users. Requires CA02472AF.	UA00165AA	877	\$5,000.00	
Location Services					
Description	Full Description	Nomenclature	APC	Price	
ADD: LOCATION ON PTT 500 USER LICENSE	Includes Location on PTT and Location on RX. Location on RX requires TDMA.	UA00482AA	877	\$3,000.00	
ENH: GEOSELECT	MISSION CRITICAL GEOSELECT. Order one per system. Provides the capability for a subscriber radio to take actions based on movement into or out of a Geo Fence. Moves the intelligence and control of Geo Fence inside/outside status based commands from the Mapping Application to the radio to enable actions in real time. The radio takes actions when a boundary is crossed, rather than awaiting commands from the mapping application. Increases the safety and productivity of field personnel by providing immediate and hands free automated talkgroup selection and other radio actions when crossing into or out of a defined incident area. Requires CommandCentral Locate or 3rd party mapping application and IMW with Presence, Location, and GeoFence. APX Radio requires Mission Critical GeoFence and GPS. Order one per system.	UA00486AA	877	\$40,000.0	
Group Services					
Description	Full Description	Nomenclature	APC	Price	
ADD: GROUP SERVICES	Includes: 500 RADIO ALIAS GROUP DOWNLOAD LICENSES (UA00236), 50 TALKGROUP TEXT LICENSES (UA00245), and 10 CONSOLE GROUP TEXT LICENSES (UA00235). Order additional bundles as needed	UA00700AA	877	\$10,000.0	
ADD: USER LOGIN ALIAS UPDATE	Order only once per Zone with UA00700AA Group Services to enable radio aliases to be updated upon user login	UA00533AA	591	\$5,000.00	
Conventional Talkgroups					
Description	Full Description	Nomenclature	APC	Price	
ADD: CONVENTIONAL TALKGROUPS CORE	This license allows a digital conventional channel to be logically partitioned into talkgroups.	CA02681AA	877	\$20,000.0	
ADD: CONVENTIONAL TALKGROUPS VIA ISSI/CSSI	Allows an ASTRO 25 conventional digital system to interoperate with third party digital consoles and base stations through the conv TG and CSSI interfaces	UA00223AA	226	\$20,000.0	
Personnel Accountability					
Description	Full Description	Nomenclature	APC	Price	
ADD: PERSONNEL ACCOUNTABILITY	Important Note: Additional items are required when ordering Personnel Accountability. Please visit APX Personnel Accountability price page.	UA00421AA	877	\$49,000.0	
Site Selectable Trunking Alerts					
Description	Full Description	Nomenclature	APC	Price	
ADD: SITE SELECTABLE ALERTS TRUNKING LICENSE	-	CA02413AA	877	\$20,000.0	
Two-Factor Authentication					
Description	Full Description	Nomenclature	APC	Price	
PURCHASED SOFTWARE FORTITOKEN PACK	-	DDN1933	708	\$560.00	
FORTITOKENMOBILE - PACK OF 5 SOFT-T	-	DDN1881	708	\$272.00	
OPTIONAL STEP 8: CHOOSE ZONE LEVEL OPTIONAL FEATURES AND LICENSES					
Dynamic Transcoding					
Both options are required.					
Description	Full Description	Nomenclature	APC	Price	
ADD: TRANSCODED SIMULTANEOUS CALLS (QTY 5)	-	UA00222AA	877	\$10,000.0	
ADD: DYNAMIC TRANSCODING	Ships with 2 DL380 Gen10 Servers	CA03586AB	877	\$50,000.0	
Security					
Description	Full Description	Nomenclature	APC	Price	

ADD: WINDOW SUPPLEMENTAL FULL CONFIG	Replaces standard Supplemental Trans Configuration	CA02836AE	877	\$0.00
ADD: BACKUP & RECOVERY (BAR)	Replaces standard Baseline Backup	CA01724AJ	877	\$15,000.00
QNAP QUAD CORE BAY DRIVE WITH 4 64MB HDD	Can be used in place of backing up files to DVD. Useful on systems that require regular backup and offsite storage of BAR data.	DSTS453DAGUSNAS	708	\$2,917.00
ADD: ANTI-MALWARE DEF UPDATE LIC	Provides protection to Windows/Linux devices against viruses, spyware and other software born threats. Order one per Windows/Linux client/device managed by the server except for Consoles	CA02193AB	877	\$165.00
MCAFFEE FOR WINDOWS CLIENT, A2019.2	-	T8742	708	\$165.00
High Availability				
Description	Full Description	Nomenclature	APC	Price
ADD: HIGH AVAILABILITY DATA	Includes HA SW and redundant PDG, GDG, GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA03511AB	877	\$98,000.00
ADD: HA ATR SOFTWARE	Includes HA SW and redundant Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA02649AC	877	\$53,000.00
System Management: Provisioning and Configuration				
Description	Full Description	Nomenclature	APC	Price
ADD: CHANNEL PARTITIONING	-	UA00134AA	877	\$50,000.00
ADD: SECURITY PARTITIONING	-	UA00143AA	877	\$20,000.00
ADD: DYNAMIC FREQUENCY BLOCKING	-	UA00148AA	877	\$90,000.00
ADD: DYNAMIC SHARED SERVICES ALGORITHM CAPABILITY	-	UA00140AA	877	\$7,500.00
ADD: PROVISIONING MANAGER INTERFACE	Includes 20 hours technical assistance.	UA00135AA	877	\$28,000.00
System Management: Fault Management				
Description	Full Description	Nomenclature	APC	Price
ADD: UNIFIED EVENT MANAGER (UEM)	Quantity 1 license is included standard.	UA00146AA	877	\$20,000.00
ADD: UEM ENHANCED NAVIGATION	Includes MICROWAVE MAP VIEW (UA00226) NOTE: Requires SDM 3000 Remote Terminal Units at the Master and RF Sites in order to view Digital I/O, Analog Inputs and Metering information in the UEM.	UA00225AA	877	\$50,000.00
ADD: UEM SNMP ELEMENT MANAGEMENT TOOLKIT (QTY 10)	-	UA00227AA	877	\$20,000.00
ADD: NORTHBOUND INTERFACE	Requires ZA00104AA for Technical Assistance	UA00139AA	877	\$15,000.00
ENH: TECHNICAL ASSISTANCE, FORTY HRS	Required for UA00142AA and UA00139AA (quantity 1 each)	ZA00104AA	285	\$12,000.00
System Management: Performance and Accounting				
Description	Full Description	Nomenclature	APC	Price
ADD: RADIO CONTROL MANAGER	-	UA00149AA	877	\$15,000.00
ADD: DYNAMIC REPORTS	Includes Affiliation User Reports license (UA00151). Order up to 5 per Zone	UA00150AA	877	\$15,000.00
ADD: ZONEWATCH GRID & CTRL	Includes Zone Historical Reports license (UA00144). Order up to 10 per Zone	UA00141AA	877	\$25,000.00
SAP CRYSTAL REPORTS 2016	-	DN3135	708	\$930.00
ADD: FLEXIBLE ATIA	Includes 10 hours technical assistance	UA00138AA	877	\$20,000.00
ADD: CAD SOFTWARE OPTION	Requires ZA00104AA for Technical Assistance	UA00142AA	877	\$45,000.00
ENH: TECHNICAL ASSISTANCE, FORTY HRS	Required for UA00142AA and UA00139AA (quantity 1 each)	ZA00104AA	285	\$12,000.00
Order the Client Workstation				
Description	Full Description	Nomenclature	APC	Price
Z2 G5 MINI WORKSTATION NON RETURNABLE	Provides one HP Z2 computer with Windows 10 Enterprise LTSB 2019 64 bit. Also includes 1 keyboard, 1 optical mouse, 2 DisplayPort to DVI adapters, 2 DisplayPort to VGA adapters and recovery disk(s). Does NOT include a DVD drive. Can be used for Network Management and/or Radio Authentication.	TT3903A	708	\$2,500.00
USB EXTERNAL DVD DRIVE	External DVD drive that connects to the computer via USB. May be used with the HP Z2 G4 Mini workstation	DSF2B56AA	708	\$172.00
ASTRO 2020.1 NM SW CLIENT	Must order one (1) per workstation. This option is not needed for stand alone Radio Authentication clients	T8751	877	\$850.00
ASTRO 25 RADIO AUTHENTICATION	-	T8598	877	\$5,000.00
MCAFFEE FOR WINDOWS CLIENT, A2019.2	-	T8742	708	\$165.00
ORDERING DYNAMIC SYSTEM RESILIENCE (DSR)				
STEP 1: ORDER THE DSR MAIN MODEL (REQUIRED FOR DSR)				
Description	Full Description	Nomenclature	APC	Price
DYNAMIC SYSTEM RESILIENCE	DSR System Notification (CA01499AB) must be ordered on the Primary Core when ordering DSR for the first time.	SQM01SUM0324	877	\$0.00
STEP 2: CHOOSE 1 CONFIGURATION OPTION (REQUIRED)				
Description	Full Description	Nomenclature	APC	Price
ADD: DSR ZONE CORE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Interzone Edge Routers, Backhaul Switches. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, 16-port Terminal Server, iSGW, RNI/DMZ Firewall, ISSI 8000 Firewall. Includes 1 each of the following licenses: Zone Controller, UNC, Provisioning Manager, UEM (with Email Alarm Notifications), Event Logging (Syslog), Windows Supplemental Transparent Configuration, Baseline Backup. For software redundancy also order REDUNDANCY, CA03512AB. *Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03520AB	877	\$280,000.00
ADD: DSR ADD-ON ZONE	Includes 2 each: Core Servers, LAN Switches and cables, Edge Routers, Interzone Edge Routers, Backhaul Switches, Data Switches, Firewalls, Zone Controller license; 1 each: MultiZone Operational License, PDG, GDG (Trunking), GGSN, Border Router, 16-port Terminal Server, UEM with Email Alarm Notifications, Event Logging (Syslog), Windows Supplemental Trans Config, Baseline Backup. REDUNDANCY is standard. *Order CA03721AA to expand 16-port SLC 8000 Terminal Server to 32 or 48 ports	CA03519AB	877	\$460,000.00
STEP 3: CHOOSE SOFTWARE REDUNDANCY (OPTIONAL FOR DSR CORE IN SINGLE ZONE SYSTEMS)				
Description	Full Description	Nomenclature	APC	Price
ADD: REDUNDANCY	Enables redundant Zone Controller on single zone systems. Mandatory to be ordered on Zone 1 for MultiZone systems. Not applicable for Add-On Zones (zones 2-7) which always ship with redundant Zone Controller software	CA03512AB	877	\$180,000.00
STEP 4: SELECT RACK OR CABINET (MUST CHOOSE 1)				
Description	Full Description	Nomenclature	APC	Price
ADD: RACK	-	CA03507AA	877	\$0.00
ADD: CABINET	-	CA03508AA	877	\$3,000.00
STEP 5: ORDER OPTIONAL LICENSES				
If option was ordered for Primary Core, must also be ordered for Backup (DSR) Core.				
Description	Full Description	Nomenclature	APC	Price
ADD: DYNAMIC TRANSCODING	Ships with 2 DL380 Gen10 Servers	CA03586AB	877	\$50,000.00
ADD: ASTRO 25 CONVENTIONAL	Order per Zone. Includes Conv PDG.	CA01207AA	877	\$15,000.00
ADD: RADIO AUTHENTICATION	Ordered per SYSTEM.	CA02472AF	877	\$11,300.00
ADD: HIGH AVAILABILITY DATA	Includes HA SW and redundant PDG, GDG, GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA03511AB	877	\$98,000.00
ADD: HA ATR SOFTWARE	Includes HA SW and redundant Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA02649AC	877	\$53,000.00
ADD: WINDOW SUPPLEMENTAL FULL CONFIG	Replaces standard Supplemental Trans Configuration	CA02836AE	877	\$0.00
ADD: BACKUP & RECOVERY (BAR)	Replaces standard Baseline Backup	CA01724AJ	877	\$15,000.00
ADD: HIGH CAPACITY UNC	This option includes the G10 Server, JBOD, and Software needed to support the UNC object handling capacity increase from 5000 managed devices to 15,000. A managed object includes base radios, comparators, switches, routers, core servers, VPMs, GGM gateways, site controllers.	CA02637AF	877	\$30,000.00
ADD: SYS STATISTICS SVR AND HISTORICAL REP	Includes up to 10 licenses for System Historical reports Note: One per system Mandatory for MultiZone systems.	CA01416AH	877	\$60,000.00
Added Capacity: LAN Switch, Edge Routers or Terminal Server				
Description	Full Description	Nomenclature	APC	Price
ADD: ADDL 48 PORTS CORE LAN	Order when more than 96 Core LAN Switch ports are needed. Adds an additional 48 Ports LAN Switch. Order up to two.	CA03510AA	877	\$5,000.00
ADD: EDGE ROUTER PAIR	Order when additional Edge Router Capacity is needed. Non DSR: Up to 3 can be ordered for a total of 4 Pairs (8 routers). DSR systems: Up to 6 additional Edge Router pairs can be ordered for expanded capacity for a total of 8 pairs (16 routers).	CA03509AA	877	\$41,400.00
ADD: SLC8000 TS 16 PORT EXPANSION MODULE	Order quantity of 1 to expand 16-port SLC8000 Terminal Server to 32 port Terminal Server. Order quantity of 2 to expand 16-port SLC8000 Terminal Server to 48 port Terminal Server. Not compatible with CA03517AD Core Expansion	CA03721AA	877	\$3,861.00
Encryption and FIPS				
Description	Full Description	Nomenclature	APC	Price
ADD: ENCRYPTION	Includes encryption for all routers in the Core. Order 1 per Zone	CA03513AB	877	\$6,000.00
ADD: COMMON CRITERIA	Includes Common Criteria (FIPS) for all encrypted routers in the Core. Order 1 per Zone. Requires Encryption option.	CA03514AB	877	\$2,000.00
FIELD REPLACEABLE UNITS AND EQUIPMENT (FREs and FRUs)				
DL380 G10 Server:				
Description	Full Description	Nomenclature	APC	Price

ASTRO 25 Release 2021.1
ASTRO 25 MASTER SITE (Simplified Core -Replacement for L-Core and M-Core/SRC 7500)
 New Orders and Expansions

STEP 1: ORDER THE MASTER SITE MAIN MODEL (REQUIRED)				
Description	Full Description	Nomenclature	APC	Price
ASTRO MASTER SITE	-	SQM01SUM0323	877	\$0.00
STEP 2: CHOOSE 1 CONFIGURATION OPTION (REQUIRED)				
Description	Full Description	Nomenclature	APC	Price
ADD: NEW PRIMARY ZONE CORE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Backhaul Switches. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, CEN Server, 16-port Terminal Server, ISGW, RNIIDMZ Firewall, ISSI 8000 Firewall. Includes 1 license each: Zone Controller, UNC, Provisioning Manager, UEM (+ Email Notifications), Event Logging (Syslog), Windows Supplemental Transparent Configuration, Baseline Backup. For Zone Controller redundancy also order REDUNDANCY CA03512AB in step 3. For ATR or Data redundancy, order REDUNDANCY and HIGH AVAILABILITY option * Order Qty 2 CA03721AA to expand 16-port SLC 8000 Terminal Server to 48 ports	CA03515AC	877	\$280,000.00
ADD: ADD ON ZONE	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Backhaul Switches, Zone Controller license. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, 16-Port Terminal Server, ISGW, RNIIDMZ Firewall, ISSI 8000 Firewall, UEM (+ Email Notifications), Event Logging (Syslog), Windows Supplemental Trans Config, Baseline Backup. Requires 1 CA01416AG System Statistics Server to be ordered per system * Order Qty 2 CA03721AA to expand 16-port SLC 8000 Terminal Server to 48 ports.	CA03516AC	877	\$380,000.00
ADD: CORE EXPANSION	Choose this configuration option to add features or capacity licenses to existing ASTRO release 2021.1 systems	CA03517AD	877	\$0.00
STEP 3: CHOOSE SOFTWARE REDUNDANCY				
Description	Full Description	Nomenclature	APC	Price
ADD: REDUNDANCY	Enables redundant Zone Controller on single zone systems. Mandatory to be ordered on Zone 1 for MultiZone systems. Not applicable for Add-On Zones (zones 2-7) which always ship with redundant Zone Controller software	CA03512AB	877	\$180,000.00
STEP 4: SELECT RACK OR CABINET (MUST CHOOSE 1)				
Options include mounting hardware for all standard core components				
Description	Full Description	Nomenclature	APC	Price
ADD: RACK	-	CA03507AA	877	\$0.00
ADD: CABINET	-	CA03508AA	877	\$3,000.00
STEP 5: ORDER OPERATIONAL AND CAPACITY OPTIONS PER ZONE				
Operational Licenses, Trunking				
Description	Full Description	Nomenclature	APC	Price
ADD: P25 FDMA TRUNKING OPERATION SITE	Device Licenses for UNC not included. Order the appropriate number of CA01316AA based on the number of managed objects at the site.	UA00153AB	877	\$30,000.00
ADD: P25 PHASE 2 TDMA TRNG OP SITE LIC	Device Licenses for UNC not included. Order the appropriate number of CA01316AA based on the number of managed objects at the site.	UA00159AB	877	\$30,000.00
ADD: PHASE 2 DYNAMIC TG ASGNMT SITE LIC	-	UA00160AA	877	\$18,000.00
ADD: ENHANCED DATA-P25 TRNK SITE	-	UA00408AA	595	\$4,160.00
ADD: P25 PHASE 2 TDMA SW BASE RADIO LIC	Order 1 for every TDMA Base Radio in the Zone	UA00161AA	877	\$3,000.00
ADD: PHASE 2 DYNAMIC CH BASE RADIO LIC	Order 1 for every Base Radio in the Zone that has the option for Dynamic Channel Assignment	UA00162AA	877	\$2,000.00
Operational Licenses, Conventional				
Order per Zone. CA01207AA requires at least one UA00712AA, 8 RF CHANNEL CONVENTIONAL DATA, option for Conventional Only systems.				
Device Licenses for UNC not included. Order the appropriate number of CA01316AA.				
NOTE: The following are not applicable in Conventional Only systems: UA00149AA (RCM), UA00151AA (Affiliation User Reports), UA00148AA (Dynamic Freq Blocking), UA00140AA (Dynamic Shared Services), UA00134AA (Channel Partitioning), UA00142AA (CADI), UA00145AA (System Historical Reports).				
Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO 25 CONVENTIONAL	Order per Zone. Includes Conv PDG.	CA01207AA	877	\$15,000.00
ADD: 8 RF CHAN CONV DATA	Order 1 for every eight (8) digital conventional channels in the Zone for Conventional Only systems.	UA00712AA	877	\$20,000.00
Console Licenses				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC7500 CONSOLE LICENSES (QTY 5)	Order 1 for every 5 MCC 7500/MCC 7500E operator positions in the zone. Device Licenses for UNC not included. Order the appropriate number of CA01316AA.	UA00158AA	877	\$5,000.00
DSR Notification				
Description	Full Description	Nomenclature	APC	Price
ADD: DSR NOTIFICATION	Must be ordered when ordering DSR for the first time	CA01499AB	877	\$10,000.00
Added Capacity: LAN Switch, Edge Routers or Terminal Server				
Description	Full Description	Nomenclature	APC	Price
ADD: ADDL 48 PORTS CORE LAN	Order when more than 96 Core LAN Switch ports are needed. Adds an additional 48 Ports LAN Switch. Order up to two.	CA03510AA	877	\$5,000.00
ADD: EDGE ROUTER PAIR	Order when additional Edge Router Capacity is needed. Non DSR: Up to 3 can be ordered for a total of 4 Pairs (8 routers). DSR systems: Up to 6 additional Edge Router pairs can be ordered for expanded capacity - for a total of 8 pairs (16 routers).	CA03509AA	877	\$41,400.00
ADD: SLC8000 TS 16 PORT EXPANSION MODULE	Order quantity of 2 to expand 16-port SLC8000 Terminal Server to 48 port Terminal Server. Not compatible with CA03517AD Core Expansion	CA03721AA	877	\$3,861.00
Encryption and FIPS				
Description	Full Description	Nomenclature	APC	Price
ADD: ENCRYPTION	Includes encryption for all routers in the Core. Order 1 per Zone	CA03513AB	877	\$6,000.00
ADD: COMMON CRITERIA	Includes Common Criteria (FIPS) for all encrypted routers in the Core. Order 1 per Zone. Requires Encryption option.	CA03514AB	877	\$2,000.00
TRAK 8835-3M or TRAK 9100 Models (MANDATORY, Choose 1)				
Description	Full Description	Nomenclature	APC	Price
GPS CLOCK, 10MHZ, RUBIDIUM, 48V INCL ANT AND 100' COAX W/DONGLE SNMPV3	Order one per Zone on Primary Core and 1 for Backup (DSR) Zone 1. See Network Products Time and Frequency PCAT page for further information or clarification and Accessories. Note: This model can NOT be shared between Master Site and Co-located Prime Site.	DSTRAK88353M	906	\$14,788.00

PRIME/MASTER SITE REDUNDANT MODULAR FREQUENCY TIMING SYSTEM AC	Note: Can be shared by Co-located Prime Site but must be located in Core subnet, not Prime subnet. Includes Main Frame, 3U chassis; GPS Reference with rubidium oscillator; GPS Reference with double oven xtal oscillator; 2 AC input 85-260Vac power supplies; 4 each: DDM, 1 PPS, 5 MPPS, or Composite dist., 4 outputs of one signal type, each module; FDM, IRIG-B time code dist, 4 outputs; Telecom, T1, 4 outputs framed and clock. Band-pass antenna, 100 ft LMR-400 coaxial cable, ground kit, and lightning arrestor included with each GPS Reference module. See "Network Products Time and Frequency" PCAT page for further information or clarification, DC version, modules, Expansion Chassis, FRUs, Accessories.	DSTRAK91008E	906	\$39,075.0
STEP 6: ORDER SYSTEM LEVEL CAPACITY OPTIONS				
User Licenses				
Description	Full Description	Nomenclature	APC	Price
ADD:500 RADIO USER LICENSES	Provides license for 500 trunked radio users that are "home" to this radio system. Order up to 300 of a total of UA00152AA and UA00664AA PER ZONE and up to 500 of a total of UA00152AA and UA00664AA PER MULTIZONE SYSTEM	UA00152AA	877	\$7,500.00
ADD: 500 VISITING RADIO USER LICENSES	Provides a license for 500 trunked radio users that are "home" to another radio system. These are meant to be radios that are not daily users of the system. Order up to 300 of a total of UA00152AA and UA00664AA PER ZONE and up to 500 of a total of UA00152AA and UA00664AA PER MULTIZONE SYSTEM	UA00664AA	877	\$1,000.00
OPTIONAL STEP 7: CHOOSE SYSTEM LEVEL OPTIONAL FEATURES				
System Management: Provisioning and Configuration (System Level)				
Description	Full Description	Nomenclature	APC	Price
ADD: PROVISIONING MANAGER	Quantity 1 license is included standard	UA00147AA	877	\$5,000.00
ADD: UNIFIED NETWORK CONFIGURATOR (UNC)	The UNC application can manage up to 5,000 devices in a system. If the system exceeds this limit, the High Capacity UNC (CA02637AG) must be implemented. Quantity 1 UNC UA00136AA license is included standard	UA00136AA	877	\$20,000.0
ADD: UNC ADDTL DEVICE LIC (QTY 10)	VMWare Smart Assurance Network Configuration Manager Device Licenses are required by the UNC for all objects in the ASTRO system. An object is any logical component of the system that is managed, such as a server, base radio, console operator position or router. Device Licenses are included where required quantities are known. For areas of the system that require variable quantities of Device Licenses such as RF or console sites, this option is required. Quantity needed can be calculated through the use of the UNC Device License Calculator (See Ordering Guide for link).	CA01316AA	877	\$1,500.00
ADD: HIGH CAPACITY UNC	This option includes the G10 Server, JBOD, and Software needed to support the UNC object handling capacity increase from 5000 managed devices to 15,000. A managed object includes base radios, comparators, switches, routers, core servers, VPM's, GGM gateways, site controllers.	CA02637AG	877	\$30,000.0
System Management: Performance and Accounting				
Description	Full Description	Nomenclature	APC	Price
ADD: SYS STATISTICS SVR AND HISTORICAL REP	Includes up to 10 licenses for System Historical reports Note: One per system Mandatory for MultiZone systems.	CA01416AH	877	\$60,000.0
Radio Authentication				
Description	Full Description	Nomenclature	APC	Price
ADD:RADIO AUTHENTICATION	Ordered per SYSTEM.	CA02472AF	877	\$11,300.0
ADD: RADIO AUTH 500 USER LIC	Order based on the number of authentication radios in the system. One option per 500 radio users. Requires CA02472AF.	UA00165AA	877	\$5,000.00
Host-Based CSMS				
Description	Full Description	Nomenclature	APC	Price
ADD: HOST BASED CSMS DEVICE LICENSES	Required when "Host-Based CSMS" (CA03584AE) is ordered. Must order (1) for each Windows device in system.	UA00726AA	877	\$200.00
ADD: HOST-BASED CSMS	This option includes the ASTRO 25 Security Server Hardware and Software needed to support "Host-Based CSMS"	CA03584AE	877	\$85,000.0
Location Services				
Description	Full Description	Nomenclature	APC	Price
ADD : LOCATION ON PTT 500 USER LICENSE	Includes Location on PTT and Location on RX. Location on RX requires TDMA.	UA00482AA	877	\$3,000.00
ENH: GEOSELECT	MISSION CRITICAL GEOSELECT. Order one per system. Provides the capability for a subscriber radio to take actions based on movement into or out of a Geo Fence. Moves the intelligence and control of Geo Fence inside/outside status based commands from the Mapping Application to the radio to enable actions in real time. The radio takes actions when a boundary is crossed, rather than awaiting commands from the mapping application. Increases the safety and productivity of field personnel by providing immediate and hands free automated talkgroup selection and other radio actions when crossing into or out of a defined incident area. Requires CommandCentral Locate or 3rd party mapping application and IMW with Presence, Location, and GeoFence. APX Radio requires Mission Critical GeoFence and GPS. Order one per system.	UA00486AA	877	\$40,000.0
Group Services				
Description	Full Description	Nomenclature	APC	Price
ADD: GROUP SERVICES	Includes: 500 RADIO ALIAS GROUP DOWNLOAD LICENSES (UA00236), 50 TALKGROUP TEXT LICENSES (UA00245), and 10 CONSOLE GROUP TEXT LICENSES (UA00235). Order additional bundles as needed.	UA00700AA	877	\$10,000.0
ADD: USER LOGIN ALIAS UPDATE	Order only once per Zone with UA00700AA Group Services to enable radio aliases to be updated upon user login	UA00533AA	591	\$5,000.00
Conventional Talkgroups				
Description	Full Description	Nomenclature	APC	Price
ADD: CONVENTIONAL TALKGROUPS CORE	This license allows a digital conventional channel to be logically partitioned into talkgroups.	CA02681AA	877	\$20,000.0
ADD: CONVENTIONAL TALKGROUPS VIA ISSI/CSSI	Allows an ASTRO 25 conventional digital system to interoperate with third party digital consoles and base stations through the conv TG and CSSI interfaces	UA00223AA	226	\$20,000.0
Personnel Accountability				
Important Note: Additional items are required when ordering Personnel Accountability. Please visit APX Personnel Accountability price page: https://www.motorolasolutions.com/en_us/product-catalog/ref-page-display.html?refPath=/catalog/dup/products/apx_personnel_accountability/apx_personnel_i				
Description	Full Description	Nomenclature	APC	Price
ADD: PERSONNEL ACCOUNTABILITY	Important Note: Additional items are required when ordering Personnel Accountability. Please visit APX Personnel Accountability price page.	UA00421AA	877	\$49,000.0
Site Selectable Trunking Alerts				
Description	Full Description	Nomenclature	APC	Price
ADD: SITE SELECTABLE ALERTS TRUNKING LICENSE	-	CA02413AA	877	\$20,000.0
Two-Factor Authentication				
Description	Full Description	Nomenclature	APC	Price
PURCHASED SOFTWARE: FORTITOKEN PACK	-	DDN1933	708	\$560.00
FORTITOKENMOBILE - PACK OF 5 SOFT-T	-	DDN1881	708	\$272.00
OPTIONAL STEP 8: CHOOSE ZONE LEVEL OPTIONAL FEATURES AND LICENSES				
Dynamic Transcoding				
Both options are required.				
Description	Full Description	Nomenclature	APC	Price
ADD: TRANSCODED SIMULTANEOUS CALLS (QTY 5)	-	UA00222AA	877	\$10,000.0
ADD: DYNAMIC TRANSCODING	Ships with 2 DL380 Gen10 Servers	CA03586AC	877	\$50,000.0
Security				
Description	Full Description	Nomenclature	APC	Price
ADD: WINDOW SUPPLEMENTAL FULL CONFIG	Replaces standard Supplemental Trans Configuration	CA02836AE	877	\$0.00
ADD: BACKUP & RECOVERY (BAR)	Replaces standard Baseline Backup	CA01724AJ	877	\$15,000.00
QNAP QUAD CORE BAY DRIVE WITH 4 64MB HDD	Can be used in place of backing up files to DVD. Useful on systems that require regular backup and offsite storage of BAR data.	DST5453D4GUSNAS	708	\$2,917.00
ADD: ANTI-MALWARE DEF UPDATE LIC	Provides protection to Windows/Linux devices against viruses, spyware and other software born threats. Order one per Windows/Linux client/device managed by the server except for Consoles	CA02193AB	877	\$165.00
MCAFFEE FOR WINDOWS CLIENT, A2019.2	Can be used for A2021.1	T8742	708	\$165.00
High Availability				
Description	Full Description	Nomenclature	APC	Price
ADD: HIGH AVAILABILITY DATA	Includes HA SW and redundant PDG, GDC, GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA03511AB	877	\$98,000.0
ADD: HA ATR SOFTWARE	Includes HA SW and redundant Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA02649AC	877	\$53,000.0
System Management: Provisioning and Configuration				
Description	Full Description	Nomenclature	APC	Price
ADD: CHANNEL PARTITIONING	-	UA00134AA	877	\$50,000.0
ADD: SECURITY PARTITIONING	-	UA00143AA	877	\$20,000.0
ADD: DYNAMIC FREQUENCY BLOCKING	-	UA00148AA	877	\$90,000.0
ADD: DYNAMIC SHARED SERVICES ALGORITHM CAPABILITY	-	UA00140AA	877	\$7,500.00
ADD: PROVISIONING MANAGER INTERFACE	Includes 20 hours technical assistance.	UA00135AA	877	\$28,000.0
System Management: Fault Management				
Description	Full Description	Nomenclature	APC	Price
ADD: UNIFIED EVENT MANAGER (UEM)	Quantity 1 license is included standard.	UA00146AA	877	\$20,000.0

Updated Pricing for contract 4400016317 as of January 2022

ADD: UEM ENHANCED NAVIGATION	Includes MICROWAVE MAP VIEW (UA00226) NOTE: Requires SDM 3000 Remote Terminal Units at the Master and RF Sites in order to view Digital I/O, Analog Inputs and Metering information in the UEM.	UA00225AA	877	\$50,000.0
ADD: UEM SNMP ELEMENT MANAGEMENT TOOLKIT (QTY 10)	-	UA00227AA	877	\$20,000.0
ADD: NORTHBOUND INTERFACE	Requires ZA00104AA for Technical Assistance	UA00139AA	877	\$15,000.0
ENH: TECHNICAL ASSISTANCE, FORTY HRS	Required for UA00142AA and UA00139AA (quantity 1 each)	ZA00104AA	285	\$12,000.0
System Management: Performance and Accounting				
Description	Full Description	Nomenclature	APC	Price
ADD: RADIO CONTROL MANAGER	-	UA00149AA	877	\$15,000.0
ADD: DYNAMIC REPORTS	Includes Affiliation User Reports license (UA00151). Order up to 5 per Zone	UA00150AA	877	\$15,000.0
ADD: ZONEWATCH GRID & CTRL	Includes Zone Historical Reports license (UA00144). Order up to 10 per Zone	UA00141AA	877	\$25,000.0
SAP CRYSTAL REPORTS 2016	-	DDN3135	708	\$930.00
ADD: FLEXIBLE ATIA	Includes 10 hours technical assistance	UA00138AA	877	\$20,000.0
ADD: CADI SOFTWARE OPTION	Requires ZA00104AA for Technical Assistance	UA00142AA	877	\$45,000.0
ENH: TECHNICAL ASSISTANCE, FORTY HRS	Required for UA00142AA and UA00139AA (quantity 1 each)	ZA00104AA	285	\$12,000.0
Order the Client Workstation				
Description	Full Description	Nomenclature	APC	Price
Z2 G5 MINI WORKSTATION NON RETURNABLE	Provides one HP Z2 computer with Windows 10 Enterprise LTSB 2019 64 bit. Also includes 1 keyboard, 1 optical mouse, 2 DisplayPort to DVI adapters, 2 DisplayPort to VGA adapters and recovery disk(s). Does NOT include a DVD drive. Can be used for Network Management and/or Radio Authentication.	TT3903A	708	\$2,500.00
USB EXTERNAL DVD DRIVE	External DVD drive that connects via USB. May be used with the HP Z2 G4 Mini workstation	DSF2B56AA	708	\$172.00
ASTRO 2020.1 NM SW CLIENT	Must order one (1) per workstation. A2021.1 and A2020.1. This option is not needed for stand alone Radio Authentication clients	T8751	877	\$850.00
ASTRO 25 RADIO AUTHENTICATION	-	T8598	877	\$5,000.00
MCAFFEE FOR WINDOWS CLIENT, A2019.2	Can be used for A2021.1	T8742	708	\$165.00
ORDERING DYNAMIC SYSTEM RESILIENCE (DSR)				
STEP 1: ORDER THE DSR MAIN MODEL (REQUIRED FOR DSR)				
Description	Full Description	Nomenclature	APC	Price
DYNAMIC SYSTEM RESILIENCE	DSR System Notification (CA01499AB) must be ordered on the Primary Core when ordering DSR for the first time.	SQM1SUM0324	877	\$0.00
STEP 2: CHOOSE 1 CONFIGURATION OPTION (REQUIRED)				
Description	Full Description	Nomenclature	APC	Price
ADD: DSR ZONE CORE A2021.1	Includes 2 each: Core Servers, Core LAN Ethernet Switches, Edge Routers, Interzone Edge Routers, Backhaul Switches. Includes 1 each: PDG, GDG (Trunking), GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, 16-port Terminal Server*. ISGW, RNI/DMZ Firewall, ISSI 8000 Firewall. Includes 1 each of the following licenses: Zone Controller, UNC, Provisioning Manager, UEM (with Email Alarm Notifications), Event Logging (Syslog), Windows Supplemental Transparent Configuration, Baseline Backup For software redundancy also order REDUNDANCY, CA03512AB. *Order Qty 2 CA03721AA to expand 16-port SLC 8000 Terminal Server to 48 ports	CA03520AC	877	\$280,000.00
ADD: DSR ADD-ON ZONE A2021.1	Includes 2 each: Core Servers, LAN Switches and cables, Edge Routers, Interzone Edge Routers, Backhaul Switches, Data Switches, Firewalls, Zone Controller license; 1 each: MultiZone Operational License, PDG, GDG (Trunking), GGSN, Border Router, 16-port Terminal Server*, UEM with Email Alarm Notifications, Event Logging (Syslog), Windows Supplemental Trans Config, Baseline Backup. REDUNDANCY is standard. *Order Qty 2 CA03721AA to expand 16-port SLC 8000 Terminal Server to 48 ports	CA03519AC	877	\$460,000.00
STEP 3: CHOOSE SOFTWARE REDUNDANCY (OPTIONAL FOR DSR CORE IN SINGLE ZONE SYSTEMS)				
Description	Full Description	Nomenclature	APC	Price
ADD: REDUNDANCY	Enables redundant Zone Controller on single zone systems. Mandatory to be ordered on Zone 1 for MultiZone systems. Not applicable for Add-On Zones (zones 2-7) which always ship with redundant Zone Controller software	CA03512AB	877	\$180,000.00
STEP 4: SELECT RACK OR CABINET (MUST CHOOSE 1)				
Description	Full Description	Nomenclature	APC	Price
ADD: RACK	-	CA03507AA	877	\$0.00
ADD: CABINET	-	CA03508AA	877	\$3,000.00
STEP 5: ORDER OPTIONAL LICENSES				
If option was ordered for Primary Core, must also be ordered for Backup (DSR) Core.				
Description	Full Description	Nomenclature	APC	Price
ADD: ASTRO 25 CONVENTIONAL	Order per Zone. Includes Conv PDG.	CA01207AA	877	\$15,000.00
ADD: RADIO AUTHENTICATION	Ordered per SYSTEM	CA02472AF	877	\$11,300.00
ADD: HIGH AVAILABILITY DATA	Includes HA SW and redundant PDG, GDG, GGSN, Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA03511AB	877	\$98,000.00
ADD: HA ATR SOFTWARE	Includes HA SW and redundant Border Router, DMZ/LAN Switch, CEN LAN Switch, RNI/DMZ Firewall. Requires Redundancy option CA03512AB.	CA02849AC	877	\$53,000.00
ADD: WINDOW SUPPLEMENTAL FULL CONFIG	Replaces standard Supplemental Trans Configuration	CA02836AE	877	\$0.00
ADD: BACKUP & RECOVERY (BAR)	Replaces standard Baseline Backup	CA01724AJ	877	\$15,000.00
ADD: SYS STATISTICS SVR AND HISTORICAL REP	Includes up to 10 licenses for System Historical reports Note: One per system Mandatory for MultiZone systems.	CA01416AH	877	\$60,000.00
ADD: DYNAMIC TRANSCODING	Ships with 2 DL380 Gen10 Servers	CA03586AC	877	\$50,000.00
ADD: HIGH CAPACITY UNC	This option includes the G10 Server, JBOD, and Software needed to support the UNC object handling capacity increase from 5000 managed devices to 15,000. A managed object includes base radios, comparators, switches, routers, core servers, VPMs, GGM gateways, site controllers.	CA02637AG	877	\$30,000.00
ADD: HOST-BASED CSMS	This option includes the ASTRO 25 Security Server Hardware and Software needed to support "Host-Based CSMS"	CA03584AE	877	\$85,000.00
Added Capacity: LAN Switch, Edge Routers or Terminal Server				
Description	Full Description	Nomenclature	APC	Price
ADD: ADDL 48 PORTS CORE LAN	Order when more than 96 Core LAN Switch ports are needed. Adds an additional 48 Ports LAN Switch. Order up to two.	CA03510AA	877	\$5,000.00
ADD: EDGE ROUTER PAIR	Order when additional Edge Router Capacity is needed. Non DSR: Up to 3 can be ordered for a total of 4 Pairs (8 routers). DSR systems: Up to 6 additional Edge Router pairs can be ordered for expanded capacity for a total of 8 pairs (16 routers).	CA03509AA	877	\$41,400.00
ADD: SLC8000 TS 16 PORT EXPANSION MODULE	Order quantity of 2 to expand 16-port SLC8000 Terminal Server to 48 port Terminal Server. Not compatible with CA03517AD Core Expansion	CA03721AA	877	\$3,861.00
Encryption and FIPS				
Description	Full Description	Nomenclature	APC	Price
ADD: ENCRYPTION	Includes encryption for all routers in the Core. Order 1 per Zone	CA03513AB	877	\$6,000.00
ADD: COMMON CRITERIA	Includes Common Criteria (FIPS) for all encrypted routers in the Core. Order 1 per Zone. Requires Encryption option.	CA03514AB	877	\$2,000.00
FIELD REPLACEABLE UNITS AND EQUIPMENT (FREs and FRUs)				
DL380 G10 Server:				
Description	Full Description	Nomenclature	APC	Price

Motorola MCC 7500 Dispatch Console
-- Dispatch Positions, Dispatch API and Product Software --

Dispatch Console PC VPM				
Description	Full Description	Nomenclature	APC	Price
MOTOROLA VOICE PROCESSOR MODULE	Provides one Voice Processor Module (VPM) unit for an MCC 7500 console. Requires appropriate software license option (CA01642AA or CA00288AB) and AC line cord option (CA00140AA, AB, AC or AF). When ordered for a secure-capable MCC 7500 console, also requires the CA0147AF Secure Operation License option and at least one encryption algorithm.	B1933	443	\$11,920.00
Software Items				
Description	Full Description	Nomenclature	APC	Price
MCC 7500 ASTRO 25 SOFTWARE	Provides a CD ROM containing the application software for the MCC 7500 dispatch console and MCC 7500 Archiving Interface Server. Does NOT include the licenses required to use the software. Licenses can be purchased by using - CA01642AAB or CA00288AB with the B1933	B1905	443	\$250.00
Options				
Software License				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC 7500 BASIC CONSOLE FUNCTIONALITY SOFTWARE LICENSE	Provides a license for using the MCC 7500 Dispatch Console Software. A software license is required for each dispatch position being ordered. Covers basic console features such as non-signaling analog conventional, patch, multi-select, paging, aux i/os, alert tones, channel marker, using the API, etc. Order as a sub-item to the B1933.	CA01642AA	443	\$14,400.00
Upgrade Software Licenses				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC 7500 DISPATCH CONSOLE SOFTWARE REFRESH LICENSE	Provides a license for upgrading to the latest version of the MCC 7500 Dispatch Console Software. One is required for each dispatch console being upgraded. Order as a sub-item to the B1905.	CA00899AA	443	\$3,000.00
ADD: MCC 7500 AIS SOFTWARE REFRESH LICENSE	Provides a license for upgrading to the latest version of the MCC 7500 AIS Software. One is required for each AIS being upgraded. Order as a sub-item to the B1905.	CA00900AA	443	\$2,700.00
Trunking & Advanced Conventional Operation				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC 7500 / MCC 7100 TRUNKING OPERATION	Required when the MCC 7500 or MCC 7100 dispatch position is used to control trunking resources (ASTRO 25, SmartZone via SmartX or SMARTNET via SmartX). Order as a sub-item to the B1933 for MCC 7500 and as a sub-item to B1939 for MCC 7100.	CA01643AA	443	\$6,000.00
ADD: MCC 7500 / MCC 7100 ADV CONVL OPERATION	Required when the MCC 7500 or MCC 7100 dispatch position is used to control ASTRO 25 conventional channels, MDC 1200 channels or ACIM Link channels. Order as a sub-item to the B1933 for MCC 7500 and as a sub-item to the B1939 for MCC 7100.	CA01644AA	443	\$3,600.00
Advanced SECURENET Operation				
Description	Full Description	Nomenclature	APC	Price
ADD: ADVANCED SECURENET OPERATION	Required when the MCC 7500 dispatch position is used to control Advanced SECURENET resources (Conventional channels using an Advanced SECURENET CIU device). Order as a sub-item to the B1933.	CA01972AA	443	\$50,000.00
Secure Operation				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC 7500 SECURE OPERATION	Order when secure capabilities are required in a VPM-based dispatch console or AIS. Order as a sub-item to the B1933.	CA00147AF	443	\$3,900.00
ADD: MCC 7500 / MCC 7100 OTEK OPERATION	Order when remote key management capabilities are required on a VPM-based dispatch console, AIS, or MCC 7100. Order as a sub-item to the B1933 for MCC 7500 or as a sub-item to the B1939 for MCC 7100. Note that OTEK does not support the ADP encryption algorithm.	CA01220AA	443	\$4,020.00
Secure Algorithms				
Description	Full Description	Nomenclature	APC	Price
ADD: DES-OFB ALGORITHM	Provides factory programming for the DES-OFB encryption algorithm. Order as a sub-item to the appropriate MGE, MCC 7500 Dispatch Console, MCC 7500 Archiving Interface Server, VPM FRU or Secure Card FRU model.	CA00143AC	443	\$900.00
ADD: DES-XL ALGORITHM	Provides factory programming for the DES-XL encryption algorithm. Order as a sub-item to the appropriate MGE, MCC 7500 Dispatch Console, MCC 7500 Archiving Interface Server or VPM FRU model.	CA00144AC	443	\$900.00
ADD: DVI-XL ALGORITHM	Provides factory programming for the DVI-XL encryption algorithm. Order as a sub-item to the appropriate MGE, MCC 7500 Dispatch Console, MCC 7500 Archiving Interface Server, VPM FRU or Secure Card FRU model.	CA00145AC	443	\$900.00
ADD: DVP-XL ALGORITHM	Provides factory programming for the DVP-XL encryption algorithm. Order as a sub-item to the appropriate MGE, MCC 7500 Dispatch Console, MCC 7500 Archiving Interface Server or VPM FRU model.	CA00146AC	443	\$900.00
ADD: AES ALGORITHM	Provides factory programming for the AES encryption algorithm. Order as a sub-item to the appropriate MGE, MCC 7500 Dispatch Console, MCC 7500 Archiving Interface Server, VPM FRU or Secure Card FRU model.	CA00182AB	443	\$900.00
ADD: ADP ALGORITHM	Provides factory programming for the ADP encryption algorithm. Order as a sub-item to the appropriate MGE, MCC 7500 Dispatch Console, MCC 7500 Archiving Interface Server, VPM FRU or Secure Card FRU model.	CA00245AA	443	\$900.00
Inbound Event Display GUI				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC 7500/MCC 7100 IED OPERATION	Required when the MCC 7500 or MCC 7100 dispatch position uses the Inbound Event Display GUI. Order as a sub-item to the B1933 for MCC 7500 and as a sub-item to the B1939 for MCC 7100	CA01645AA	443	\$6,300.00
Enhanced Console Telephony				
Description	Full Description	Nomenclature	APC	Price
ADD: MCC 7500 Enhanced Console Telephony Operation License	Required when the MCC 7500 dispatch position is used to control enhanced console telephony phone lines. Order as a sub-item to the B1933.	CA02073AA	443	\$1,200.00
Power Cords				
Description	Full Description	Nomenclature	APC	Price
ADD: AC LINE CORD, NORTH AMERICAN	Adds one AC line cord with a North American plug.	CA00140AA	443	\$3.00
ADD: AC LINE CORD, EUROPEAN	Adds one AC line cord with a continental European plug (Schuko plug).	CA00140AB	597	\$0.00
ADD: AC LINE CORD, UK	Adds one AC line cord with a United Kingdom plug.	CA00140AC	597	\$0.00
ADD: AC LINE CORD, AUSTRALIA	Adds one AC line cord with an Australian plug.	CA00140AF	277	\$0.00
ADD: AC LINE CORD, BRAZIL	Adds one AC line cord with a Brazilian plug.	CA00140AG	277	\$0.00
API Technical Support				
Description	Full Description	Nomenclature	APC	Price
FIELD ADD MCC 7500 SDK TECHNICAL SUPPORT	Provides one hour of technical support for the SDK from the factory. May be ordered multiple times if more than one hour of support is required. May be ordered to add additional technical support for software developers who are already using the SDK. Note that this is a billable item only (BB item) and must be ordered by itself on its own order.	QLN3437	443	\$1,000.00
Accessories				
Enhanced Console Telephony Media Gateways				
Description	Full Description	Nomenclature	APC	Price
MCC 7500 Console Telephony Media Gateway O/S for Upgrade or Recovery	Provides a CD-ROM containing a copy of the operating system for the enhanced console telephony media gateways. This should be ordered for use in upgrade or disaster recovery scenarios.	BVN1014A	877	\$500.00
Field-Add Software Licenses				
Description	Full Description	Nomenclature	APC	Price

Motorola CommandCentral AXS Dispatch Console

Description	Full Description	Nomenclature	APC	Price
COMPUTER, DL160 G10	COMPUTER, DL160 G10 WITH POWER CORD. Provides one DL160 server for use in an AXS cluster. Includes a North American linecord and friction rail mounting kit. Does not include monitor, keyboard or mouse. A cluster requires a minimum of three servers.	TT4083A	708	\$6,000.00
COMPUTER, DL160 G10	COMPUTER, DL160 G10 WITH NO POWER CORD. DL160 server for non-North American orders. This item does NOT include the North American, or any, linecord. The linecord must be procured locally in the region. Because this is a dropship item there are no options available to order with the item. Linecord FRUs may ordered separately if desired.	TT4084A	708	\$6,000.00
8-PORT CONSOLE CAT5 KVM SWITCH 1U RM 19IN LCD RACKMOUNT	Provides one rack mounted, 8-port KVM switch with keyboard, touchpad and folding display. Requires one DSB078101USB1 server interface unit for each server connected to the KVM switch.	DSB07000819	708	\$1,575.00
USB SINGLE SRVR INTERFACE UNIT VIRTUAL MEDIA KVM SWITCH HD15 USB RJ4	Provides one server interface unit to enable one server to connect to a DSB07000819 KVM switch. One required for each server connected to the KVM switch.	DSB078101USB1	708	\$101.00

Cluster Enablement Licenses

Description	Full Description	Nomenclature	APC	Price
LICENSE, AXS ASTRO 25 SYSTEM WI	One HKVN4728A is required for each ASTRO 25 system that is connected to an AXS console site. The production and non-production AXS clusters will share the same ASTRO System access license, i.e., only one HKVN4728A is required per pair of clusters at an AXS console site.	HKVN4728	504	\$2,500.00
LICENSE, AXS CLUSTER TEMPORARY STAGING LICENSE	One HKVN4828A is required for each cluster. This license enables the cluster to do the initial installation of software on the cluster. When the customer starts beneficial use of the console, this license will be replaced by the license that is generated by the SSV01S01669A.	HKVN4828	504	\$0.00

Dispatch Client Feature and Capacity Enablement Licenses

Description	Full Description	Nomenclature	APC	Price
AXS DISPATCH CLIENT LICENSE	One HKVN4729A is required per AXS dispatch client that will be accessing the cluster.	HKVN4729	504	\$7,900.00
LICENSE, AXS TRUNKING SERVICES	One HKVN4730A is required per AXS dispatch client that will be monitoring trunking resources on one or more ASTRO 25 systems.	HKVN4730	504	\$6,600.00
LICENSE, AXS ADVANCED CONVENTION	One HKVN4731A is required per AXS dispatch client that will be monitoring ASTRO 25 conventional channels, MDC 1200 channels or ACIM Link channels.	HKVN4731	504	\$3,960.00
LICENSE, AXS TELEPHONY	One HKVN4900 is required per AXS dispatch client that will be monitoring telephony resources.	HKVN4900	504	\$3,000.00
LICENSE, AXS SECURE VOICE SERVICES	One HKVN4732A is required per AXS dispatch client that will be using voice encryption functionality on trunking and/or conventional resources.	HKVN4732	504	\$6,340.00
LICENSE, AXS SECURE OTEK SERVICE	One HKVN4739A is required per AXS dispatch client that will be using OTEK functionality on trunking and/or conventional resources.	HKVN4739	504	\$4,420.00
LICENSE, AXS CHANNEL BASED IRR	One HKVN4733A is required per AXS dispatch client that will be using Channel Based IRR functionality.	HKVN4733	504	\$3,200.00
LICENSE, AXS AMBE+2 VOCODER ROY	One HKVN4736A is required per AXS dispatch client that will be monitoring P25 trunking resources or P25 conventional resources on one or more ASTRO 25 systems.	HKVN4736	504	\$50.00
COMMANDCENTRAL HUB W/CLIENT PC	Provides one CommandCentral Hub with integrated PC workstation.	B1956	754	\$5,250.00
ADD: AC LINE CORD, NORTH AMERICA	Provides one North American AC line cord.	CA03553AA	754	\$13.00
ADD: CABLE, POWER 24VDC	These cables are used to connect B1952 speakers to the 24 VDC power ports on the hub. This option provides two cables which allow two B1952 speakers to be powered from the hub.	CA03548AA	754	\$75.00
ADD: FOUR CABLES, POWER 24VDC	These cables are used to connect B1952 speakers to the 24 VDC power ports on the hub. This option provides four cables which allow four B1952 speakers to be powered from the hub.	CA03583AA	754	\$150.00
ADD: BRACKET, MOUNTING 2RU	Mounting brackets for the CommandCentral Hub. Can be used to mount the hub in a 19" rack or on a flat surface.	CA03547AA	754	\$30.00
ADD: CABLE RETENTION BRACKET	Cable retention bracket and mounting screws for the CommandCentral Hub. This bracket is used to secure and strain relieve the various cables that connect to the rear of the hub.	CA03572AA	754	\$65.00
CERTIFIED KEYBOARD FOR RSD SERVERS AND WORKSTATIONS	Keyboard	L3225A	708	\$42.00

VOICE AND DATA LOGGING,DUAL IRR SW USB HASP W LICENSE, SOUND CARD, & S	Kit includes software based Dual Instant Recall Recorder (IRR) CD (for Windows 7 or Windows 8.1), USB HASP protection key, Sound Blaster sound card (not USB), MIDI cable, telephone adapter and cable, audio patch cable for MCC 5500 and MCC 7500, hook switch cable, IRR sound cable to Centracom CIE, and Operation/Installation manual. Capable of recording 2 channels, both radio and telephone. In this configuration, the PC's on-board sound card is used in conjunction with the sound card included in this package. A pair of speakers is also included to hear the playback of audio.	DDN2090	229	\$2,935.00

Instant Recall Recorder For Use On MIP 5000 Release 3.0, MCC 5500 Release 2.06, Elite / MCC 7500 A7.11 to A7.13 systems.

Description	Full Description	Nomenclature	APC	Price
DUAL IRR SW USB HASP WITH LICENSE (VERSION 45)	Kit includes software based Dual Instant Recall Recorder (IRR) CD (for Windows 7 or Windows 8.1), USB HASP protection key, MIDI cable, telephone adapter and cable, audio patch cable for MCC 5500 and MCC 7500, hook switch cable, IRR sound cable to Centracom CIE, and Operation/Installation manual (in pdf). Capable of recording 2 channels, both radio and telephone. If Dual IRR functionality is required a sound card should be ordered.	DDN1245	229	\$2,648.00
COMPUTER PERIPHERAL,IRR SW USB HASP LIC, SOUND CRD V45	Kit includes software based Dual Instant Recall Recorder (IRR) CD (for Windows 7 or Windows 8.1), USB HASP protection key, Sound Blaster sound card (not USB), MIDI cable, telephone adapter and cable, audio patch cable for MCC 5500 and MCC 7500, hook switch cable, IRR sound cable to Centracom CIE, and Operation/Installation manual. Capable of recording 2 channels, both radio and telephone. In this configuration, the PC's on-board sound card is used in conjunction with the sound card included in this package. A pair of speakers is also included to hear the playback of audio.	DDN1244	229	\$2,935.00

Software Upgrade:

Description	Full Description	Nomenclature	APC	Price
IRR SOFTWARE UPGRADE TO V51	Model to be ordered if existing IRR software is out of the warranty (beyond 1 year) and needs to be upgraded. This model provides for IRR release -45. This can be used for Astro 25 7.17 or later. This is also the current supported version for MIP 5000 Release 4.3 and MCC5500 Release. Purchase one of these for each PC running IRR that needs to be upgraded.	DDN2724	229	\$667.00
IRR SOFTWARE UPGRADE TO V -45	Model to be ordered if existing IRR software is out of the warranty (beyond 1 year) and needs to be upgraded. This model provides for IRR release -45. This can be used for Astro 25 7.11 - 7.13. This is also the current supported version for MIP 5000 Release 3.0 and MCC5500 Release 2.06 or later. Purchase one of these for each PC running IRR that needs to be upgraded.	DDN1243	229	\$667.00

Individual Items:

Description	Full Description	Nomenclature	APC	Price
TELEPHONE ADAPTER	Used with most telephone styles, provides a simple means of connecting your Computer Sound Card so that it can monitor both sides of all conversations that take place on the handset or headset of your telephone. Automatically starts recorder when handset is lifted.	DDN6489	229	\$242.00
CABLE FOR TELEPHONE ADAPTER	Cable - RJ-11 to 1/8 in. mini plug. Allows connection from the Telephone Adapter to the PC.	DDN6490	229	\$85.00
HOOK SWITCH CABLE FOR MIDI PORT	Used to send a signal that triggers the Instant Recall Recorder software to start recording when off hook condition is detected. The MIDI cable is used to link your computer to your radio equipment, through the MIDI port (Joystick) of your Sound Blaster Sound Card.	DDN6491	229	\$92.00
HOOK SWITCH CABLE FOR COM PORT	Used to send a signal that triggers the IRR software to start recording when off hook condition is detected. The COM port cable is used to link your computer to your radio equipment, through one of the COM port located on every PC.	DDN6492	229	\$87.00
SOUND BLASTER AUDIGY FX PCIE SOUND CARD-NOT COMPAT WITH Z2 MINI	For use with Z440 and Z420 PC's.	DDN2134	229	\$67.00
PC DESKTOP SPEAKERS	Creative Lab speakers includes 110V AC power supply.	CDN6673	708	\$45.75
INSTANT RECALL RECORDER CABLE FOR MCC 7500	Cable for use with GPIOM/PM using a RJ45 with a 3.5mm connector, 6 feet long.	DDN9649	229	\$95.00

ASTRO 25 Edge Availability Ordering Information
Main Model

Description	Full Description	Nomenclature	APC	Price
EDGE CONTROLLER SERVER	Requires CA03120AA, CA03120AB or CA03120AC or CA03120AD	SQM01SUM0299	424	\$20,000.00

Options

Order the Base Software option for the specific ASTRO system release (Required)

Description	Full Description	Nomenclature	APC	Price
ADD: EDGE CONTROLLER BASE SOFTWARE	Required option for A7.17.x systems. Only supports subsystems with 1 RF Site max. and 1 Dispatch Site max. Includes Gen9 Edge Controller Server	CA03120AA	877	\$45,000.00
ADD: EDGE CONTROLLER BASE SW A7.18	Required option for A7.18 systems. Only supports subsystems with 1 RF Site max. and 1 Dispatch Site max. Includes Gen10 Edge Controller Server	CA03120AB	877	\$45,000.00
ADD: EDGE CONTROLLER BASE SW 2019.2	Required option for A2019.2 systems. Only supports subsystems with 1 RF Site max. and 1 Dispatch Site max. Includes Gen10 Edge Controller Server	CA03120AC	877	\$45,000.00
ADD: EDGE CONTROLLER BASE SW 2020.1	Required option for A2020.1 and A2020 HS systems. Only supports subsystems with 1 RF Site max. and 1 Dispatch Site max. Includes Gen10 Edge Controller Server	CA03120AD	877	\$45,000.00
ADD: EDGE CONTROLLER BASE SW 2021.1	Required option for A2021.1 systems. Only supports subsystems with 1 RF Site max. and 1 Dispatch Site max. Includes Gen10 Edge Controller Server	CA03120AE	877	\$45,000.00
Description	Full Description	Nomenclature	APC	Price
ADD: EDGE CONTROLLER MULTI-SITE SW	For subsystems with more than 1 RF Site or more than 1 Dispatch Site. Base SW (CA03120xx also required.)	CA03121AA	877	\$30,000.00
Description	Full Description	Nomenclature	APC	Price
ADD: DYNAMIC TRANSCODER	For ASTRO System Release 7.17.x (Requires MULTI-SITE SW CA03121AA)	CA03122AA	877	\$20,000.00

Description	Full Description	Nomenclature	APC	Price
ADD: DYNAMIC TRANSCODER A7.18	For ASTRO System Release 7.18. (Requires MULTI-SITE SW CA03121AA)	CA03122AB	877	\$20,000.0
ADD: DYNAMIC TRANSCODER A2019.2+	For ASTRO System Release 2019.2, A2020.1, A2020.HS or A2021.1 (Requires MULTI-SITE SW CA03121AA)	CA03122AC	877	\$20,000.0
Description	Full Description	Nomenclature	APC	Price
ADD: EDGE CONTROLLER MULTI-SITE SW	For subsystems with more than 1 RF Site or more than 1 Dispatch Site. Base SW (CA03120xx also required.)	CA03121AA	877	\$30,000.0
Description	Full Description	Nomenclature	APC	Price
ADD: DYNAMIC TRANSCODER	For ASTRO System Release 7.17.x (Requires MULTI-SITE SW CA03121AA)	CA03122AA	877	\$20,000.0
ADD: DYNAMIC TRANSCODER A7.18	For ASTRO System Release 7.18. (Requires MULTI-SITE SW CA03121AA)	CA03122AB	877	\$20,000.0
ADD: DYNAMIC TRANSCODER A2019.2+	For ASTRO System Release 2019.2, A2020.1, A2020.HS or A2021.1 (Requires MULTI-SITE SW CA03121AA)	CA03122AC	877	\$20,000.0

ASTRO 25 EXPRESS CONFIGURATION MANAGER	-	T7555	877	\$5,000.00

Description	Full Description	Nomenclature	APC	Price
GENWATCH3 ATIA BASE SOFTWARE BUNDLE	Includes: 1.MAIN GenSZAI Reader - Reader module resides on a PC at the zone controller to receive the ATIA stream UDP packet from the zone controller and passes them on to GW3. 2.MAIN GenSZAI DataProc - co-resides with the Database server at the Network Ops Center to process the ATIA stream from the Reader. 3.MAIN GenSZAI Database Server - Database Server module co-resides with the DataProc at the Network Ops Center to store the decoded ATIA stream from the DataProc. The ATIA data stream ordered independently.	TT2234	708	\$51,480.0
Fielded GW3-ATIA Model (TT2266)				
GENWATCH3 ATIA ADD-ON	ONLY valid with a licensed copy of GenWatch3 software. This is a zero dollar model used for adding on options after purchasing GenWatch3 license. This model ordered alone includes NOTHING.	TT2266	708	\$0.00
Step 2: Order Additional Zones (or DSR) GW3-ATIA Software if required				
SOFTWARE FOR ADDITIONAL GENWATCH3 ATIA ZONES OR DSR	Additional Zone (or DSR) GenWatch-ATIA Software * Requires (1) per DSR or additional zone	TT05394AA	708	\$25,750.0
Step 3: Order GW3-ATIA "Optional Enhancements" If desired				
Additional GW3-ATIA Client Connection Licenses - (Optional Enhancement)				
GW3-ATIA CLIENT LICENSES (SOLD IN GROUPS OF 5)	sold in packs of 5	TT05417AA	708	\$6,600.00
GenWatch3 Data Warehouse - (Optional Enhancement)				
ADD: DATA WAREHOUSE SOFTWARE	Data Warehouse for long term storage	TT06065AA	708	\$15,840.0
Centralized Manager of Agency Filters (CMAF) - (Optional Enhancement)				
ADD: CMAF - CENTRALIZED MANAGER FOR AGENCY FILTERS	Centralized Manager for Agency Filters Allows system owners to filter data to be sent to member agencies for monitoring, management, archiving and reporting. This includes the capability for creating ONE filter.	TT06063AA	708	\$7,200.00
ADD: CMAF - ADDITIONAL FILTERS	Allows ONE additional Filter to be created.	TT06064AA	708	\$2,160.00
Genesis ATIA Forwarder Enhancement - (Optional Enhancement)				
GW3-ATIA FORWARDER FOR FIRST ZONE	ATIA Forwarder allows the forwarding of unaltered, native ATIA data to additional devices - either inside or outside of the CEN.	TT05704AA	708	\$6,600.00
GW3-ATIA FORWARDER FOR ADDITIONAL ZONES	Additional ATIA Forwarder per zone.	TT05705AA	708	\$3,300.00
Genesis ATIA Replay Enhancement - (Optional Enhancement)				
ADD: ATIA REPLAY SOFTWARE	ATIA Replay - Replay Data Set from the GenWatch database through the Activity and Channel Screens in GW3 and SkyViewII. **Must run on a separate GW3 Computer**	TT06133AA	708	\$16,500.0
Genesis SAM (CloneWatch) Enhancement - (Optional Enhancement)				
SAM - SUBSCRIBER ACCESS MANAGER	Optional module for GW3. Dynamically find and show radios suspected of being cloned.	TT05415AA	708	\$12,540.0
GenSPOut (Genesis Specified Packet Output) Enhancement - (Optional Enhancement)				
GW3 GENSPOUT	Allows a customizable data feed from GenWatch3 to other devices such as voice recorders, consoles, etc. This is a one way data feed via TCP/IP, COM, etc. Includes (1) connection.	L3580	708	\$6,360.00
ADD: GENSPOUT - ADDITIONAL CONNECTIONS	Additional licensed connections for GenSPOut.	TT06067AA	708	\$1,320.00
GenWatch3 IVista Web-Based Agency Reporting - (Optional Enhancement)				
IVISTA WEB BASED AGENCY REPORTING	IVista Web-based Agency Reporting Tool allows Administrator to filter data by Agency so member agencies can run their own reports. Includes Administrator package + (1) Agency Filter.	TT05679AA	708	\$13,860.0
IVISTA ADDITIONAL AGENCY FILTER	IVista Web-based Agency Reporting Tool - Additional Agency Filters. Must have ordered TT05679AA previously.	TT05680AA	708	\$4,620.00
GenWatch3-DATA: IV&D and Enhanced Data Enhancement - (Optional Enhancement)				
GGSN INTEGRATION	Archiving and Reporting for Motorola IV&D.	TT05628AA	708	\$12,000.0
The following options are for use with ASTRO 25 Enhanced Data:				
GENESIS ENHANCED DATA ADD-ON	Genesis Archiving and Reporting Tool for Enhanced Data statistics (requires existing TT2233, TT05414AA or TT05628AA)	TT05757AA	708	\$12,000.0
Genesis UEM Enhancement - (Optional Enhancement)				
UEM-NBI ENHANCEMENT	UEM Data Archiving, Reports, and Live Display (alarm & event integration) *The NBI must be enabled. This is ordered independently. Qty 1 must be ordered per NBI connected to GenWatch3*	TT05630AA	708	\$33,000.0
UEM-NBI ENHANCEMENT FOR ADDITIONAL ZONE OR DSR	UEM Data Archiving, Reports, and Live Display (alarm & event integration) *The NBI must be enabled. After Qty 1 of TT05630AA is ordered, subsequent NBI are licensed using TT05678AA	TT05678AA	708	\$16,500.0
Genesis Location Services - (Optional Enhancement)				
IMW ENHANCEMENT	MUPS Archiving, Reports, and Live Display (outdoor location/GPS integration) *The MUPS must be enabled. This is ordered independently. Qty 1 must be ordered per MUPS connected to GenWatch3*	TT05629AA	708	\$45,600.0
ADD: IMW ENHANCEMENT FOR ADDITIONAL ZONE OR DSR	Requires one IMW Connection per additional zone and/or DSR.	TT06090AA	708	\$22,800.0
GenWatch3 CADI Enhancement - (Optional Enhancement)				
ADD: GENESIS INTERFACE TO ASTRO 25 CADI	Integrates with ASTRO 7 x CADI Port and serves as a full CAD client for sending radio commands (Selective Radio Inhibit, Radio Check, Regroup, Database Snapshot, Call Alert, Emergency ACK, Statuses and Messages). Replicates the 7 x CADI Port seamlessly to multiple agencies with filtering available via GW3. Comes with (1) CADI Connection. **Requires one CADI Connection per primary zone**.	TT05878AA	708	\$32,340.0
ADD: ADDITIONAL CONNECTIONS GENESIS INTERFACE TO ASTRO 25 CADI	Additional CADI Client Connections.	TT05879AA	708	\$4,620.00
Advanced Power Monitor (APM) Enhancement - (Optional Enhancement)				
ADV PWR MONITOR LIC	GenWatch3 displays and reports power levels at user-defined intervals from the APM. The levels are shown as they are reported, and can be filtered and color-coded for easy viewing. Includes 5 APM Connection Licenses.	TT05721AA	817	\$3,300.00
ADV PWR MONITOR ADD CONN	Include a connection to the APM to receive current power levels at user-defined intervals. **Requires one connection license per APM**.	TT05722AA	817	\$264.00
Genesis Provisioning Manager Interface (PMI) Enhancement - (Optional Enhancement)				
PROVISIONING PORTAL BUNDLE	The Genesis PMI Enhancement makes it possible for simple remote provisioning on the Motorola Provisioning Manager Interface and synchronization with third party asset management and accounting software (with the addition of GENIIB) **NOTE: THIS DOES NOT INCLUDE ANY POSSIBLE MOTOROLA FEES THAT MIGHT BE NECESSARY TO ACTIVATE THE UCS PROVISIONING FEATURE IN THE SWITCH.	TT05697AA	708	\$70,200.0
Genesis Interoperability Information Broker (GenIIB) Enhancement - (Optional Enhancement)				
ADD: GENESIS INTEROPERABILITY BROKER	GenIIB includes a programming API that can be used by third party external devices or software programs to pull live or stored information from the Genesis Databases and push customer driven information or instructions back to those systems and back into the database as well.	TT05880AA	708	\$39,600.0
Step 4: Choose GenWatch-ATIA Hardware				
GW3-ATIA Base Hardware (TT05413AA)				
GENWATCH3 ATIA BASE HARDWARE	1. Rack Mount Reader: Dell PowerEdge R210 II, Intel Pentium G850 2.9 Ghz, 4GB, SATA 500 GB 7200 RPM Hard drive, Ready Rails 2-post/4-post 1U Static Rails, DVD-ROM, NO Keyboard, Mouse or Monitor. Windows Server OS, 3 Year Next Business Day Service 2. Rack Mount Data Processor / Database Server: Dell PowerEdge R720 server, Intel Xeon ES-2620 2.0 Ghz, Ready Rails 2-post/4-post RAID 6, 6x14GB Hard Drives, DVD-ROM, NO Keyboard, Mouse or Monitor. Window Server OS, MS SQL Server, 3 Year Next Business Day Service 3. GenWatch3-ATIA Host Computer: Dell Precision T3600, Quad Core Processor, 512MB Graphics Card, 6GB RAM, CD/DVD ROM, 500GB SATA Hard Drive, 23" flat panel monitor, Mouse, Keyboard, Windows OS, MS Office Basic, 3 Year Next Business Day Service	TT05413AA	708	\$30,400.0
GW3-ATIA Hardware for Additional Zones (or DSR)				
GW3-ATIA HARDWARE FOR ADDITIONAL ZONES OR DSR	Rack Mount Reader: Dell PowerEdge R210 II, Intel Pentium G850 2.9 Ghz, 4GB, SATA 500 GB 7200 RPM Hard drive, Ready Rails 2-post/4-post 1U Static Rails, DVD-ROM, NO Keyboard, Mouse or Monitor. Windows Server OS, 3 Year Next Business Day	TT05416AA	708	\$5,800.00
GW3-ATIA (GG) SECONDARY Data Processor and Database Server				

Updated Pricing for contract 4400016317 as of January 2022

ADD: GW3-ATIA (GG) DATA WAREHOUSE HARDWARE	GW3-ATIA MAIN DATA PROCESSOR / DATABASE SERVER Computer Includes - Rack Mount server, Intel Xeon E5-2640, 32GB RAM, Hardware RAID controller with write caching ability, 2 TB of available storage space in redundant RAID with 10k RPM HDD or SSD External USB Hard Drive for Back up, Versa Rails for Rack Mount, Dual Hot Pluggable, Redundant Power Supply, 5 Year Next Business Day Service Warranty ** Monitor is not included with server** Includes Required Software: Windows Server 2016, MS SQL Server 2016 and MS Excel 2016.	TT06066AA	708	\$18,200.00
GW3-ATIA (GG) Data Warehouse
