GENERAL INFORMATION

Notice of inspection law: It is the duty of every person participating in the privileges of taking or possessing wildlife to permit agency officers to ascertain whether the requirements of this title are being faithfully complied with, including the possession of a proper license. It is a violation of law to refuse such inspection or to interfere with an officer attempting such inspection. TCA 70-6-101(b)(1)

Basic Laws and Definitions

- Stocking of any fish, crayfish or salamanders into public waters is strictly prohibited.
- Explosives, chemicals and electrical shocking devices are strictly forbidden, and their use carries heavy penalties.
- Shooting with any type of firearm or air gun to injure or take fish or turtles is prohibited.
- All boaters and passengers must wear a Coast Guard approved life jacket within the area designated and appropriately marked as a hazardous area below any dam and/or lock.

- It is illegal to take any fish, crayfish, salamander, or turtle that is listed as endangered, threatened or in-need-of-management.
- It is illegal to sell or offer to sell fish or turtles without a commercial fishing license.

Bait: Any living or dead organism, or prepared substance designed to attract fish by taste or odor. For the purpose of this proclamation bait includes, but is not limited to, fish, fish eggs, crayfish, worms, grubs, crickets, corn, cheese, bread, pork rinds, putty or paste-type products, and flavors or scents applied to or impregnated into artificial lures.

Culling: The removal of a fish from the creel limit and replacing it with another fish of the same species. The released fish must be a live, healthy specimen which should be expected to survive once it is returned to its natural environment.

Gigging: The taking of fish by means of a hand-held pole or spear with a tip consisting of a single, sharpened point or one or more sharpened barbed points. This includes, but is not limited to gear known as the Hawaiian sling.

Single hook: A hook with only one point.

Snagging: The taking of fish using one or more single, double, or treble hooks which are manipulated or jerked through the water in such a manner as to impale or hook fish.

Spear gun: Any device designed to propel a spear through water and is drawn or held by a mechanical device.

TENNESSEE LAKE STURGEON

Tennessee's Lake Sturgeon Project

Lake sturgeon are a primitive species that can grow to 8 ft. in length, weigh up to 300 pounds, and live for 150 years. Since 2000, over 300,000 lake sturgeon have been stocked into the French Broad and Holston rivers near Knoxville and the Cumberland River near Nashville. These stocking efforts are designed to restore reproducing populations of this primitive species. This species is known to travel long distances, so it is very likely that anglers could catch lake sturgeon in other waters of the state.

Angler reports are important to TWRA because they provide important information needed to monitor the success of Tennessee's lake sturgeon program.

If you catch a lake sturgeon, please be as careful as possible not to harm the fish—avoid holding the lake sturgeon by their tails and remember fish cannot breathe while they are out of the water. Lake sturgeon are endangered in Tennessee and should be released immediately. If possible, note an approximate length before the fish is released. Additionally, a photo of your catch would be appreciated if you can do so without harming the fish.

You can email details (including photos) of your catch to sturgeon.reports@tn.gov or refer to page 2 for your local regional office number. In appreciation of your efforts, you will receive a Certificate of Appreciation from the TWRA.

REELFOOT LAKE TENNESSEE

REELFOOT LAKE is located in the Northwest corner of Tennessee.

REELFOOT LAKE is the only large, natural lake in Tennessee and one of the world's greatest natural fish hatcheries making it a favorite fishing lake of America's Pro and recreational fishermen. Created by the New Madrid earthquakes of 1811-1812, the shallow, cypress-filled waters are ideal for crappie, bass, bluegill and catfish.

LICENSE FEES

& INFORMATION

Thank you for buying a hunting and fishing license. 100% of your license dollars go to support wildlife conservation in Tennessee. Your license is an investment that also returns your federal excise taxes paid on hunting and fishing equipment to TWRA to support wildlife. Without you, Tennessee would not have the abundance of fish and wildlife that we all enjoy.

All annual licenses are valid for 1 year from date of purchase. Purchase your license 24/7/365 at www.gooutdoortennessee.com. Lifetime and select other licenses that are not available for purchase online can visit a TWRA regional office or visit www.tnwildlife.org to find the correct form with instructions. No paper license will be mailed. You can also purchase your hunting and fishing licenses from any of our License Agent locations in Tennessee.

All license and permit fees are subject to change. All expire at midnight of last effective date.

Native Tennessean

Nonresidents who were born in Tennessee may apply for Native Tennessean annual licenses. These licenses provide nonresidents born in the state but no longer residing in the state, the opportunity to purchase annual Tennessee hunting/fishing/trapping licenses at the same cost as residents. Available by application only. Details and application available online at www.tnwildlife.org.

Great Smoky Mountains National Park

A valid fishing license obtained from the state of Tennessee or the state of North Carolina is required and honored throughout the park for all persons 13 years of age and older. A Tennessee trout license is not required. The National Park Service sets fishing regulations within the park. For detailed fishing information, contact:

Park Headquarters

Gatlinburg, TN 37738

Who must have a Tennessee license?

If you take, or attempt to take fish (including crayfish and salamanders) by any method or if you assist someone else to do so, you must have a valid fishing license. **There are some exceptions:**

- If you are under 13 years of age (resident or nonresident).
- Landowners, their spouses and children, who fish on their farm land which is owned by an individual or a family. Landowners, their spouses and children must be residents of Tennessee but need not reside on the land.
- Tenants, their spouses and dependent children who fish on farm land owned by an individual or a family. Tenants, their spouses

and dependent children must be residents of Tennessee and must actually reside on the land and have permission of the landowner to fish. A tenant is a person who, for money, free rent, or other consideration, cares for farmland. The tenancy must be agricultural in nature.

- Resident grandchildren (under 16) and resident great-grandchildren (under 16) who fish on farm land which is owned by their resident grandparents or great-grandparents.
- First cousins who own farmland jointly or in common may fish on the farmland. Their children may fish as well.
- You are on military leave, carrying a copy of your leave orders. A pass does not meet this requirement.
- You are a resident who was born before March 1, 1926. (To qualify for this exemption, you must carry proof of your age and residency to show to a wildlife officer, if requested.)
- **It's Free Fishing Day!** This year it falls on June 10, 2023 (see page 14).
- **It's Free Fishing Week!** All children, ages 15 and younger can fish free between June 10–16 (see page 14).

NOTE: Giving false information to obtain a license is a misdemeanor punishable by fine and loss of license. Licenses are not transferable.

Resident Licenses

Resident licenses can be purchased by:

- Persons who possess a valid Tennessee driver's license or Tennessee state ID issued by the Department of Safety. Tennessee state law requires drivers to obtain a Tennessee drivers license within 30 days of residency. Out-of-state driver's license only accepted for Military Personnel and Students meeting the criteria below.
- Persons who do not drive or do not possess a valid driver's license from another state, but who have lived in Tennessee for 90 consecutive days with the genuine intent of making Tennessee their permanent home, may prove residency by presenting to a TWRA license agent any two of the following documents:
 - » current Tennessee voter registration card;
 - » current Tennessee vehicle registration or title;
 - » Form I-94 issued by the U.S. Citizenship & Immigration Service
 - » current rental/mortgage contract or receipt including deed of sale for property or receipt for payment of Tennessee real estate taxes within last year
- Military personnel on active duty in this state and children under 16 years of age who reside with them, regardless of Tennessee resident status.
- Students who are enrolled in a Tennessee school, college or university for at least six months, with an appropriate student ID.
- Nonresidents that were born in the State of Tennessee, upon completion of an application for a Native Tennessean license. See page 6 for details.

NOTE: A Social Security Number is required to purchase a Tennessee hunting or fishing license. Ages 12 and under no license is required, some permits may still apply.

Alligator Gar: No harvest allowed. Must be returned to water immediately.		
Catfish: Only one catfish over 34 inches may be harvested per day. No harvest limit on catfish less than 34 inches.		
Paddlefish: Paddlefish may be harvested from April 24 through May 31. Daily creel limit is 2 fish per day with no size limit. Culling is prohibited. For exceptions on Center Hill, Cherokee, and Watts Bar reservoirs, see pages 20 and 21.		
Shovelnose Sturgeon: No harvest allowed. Must be returned to water immediately.		

Exceptions to the statewide limits and other regulations:

- Reservoirs pages 18–25
- TWRA Fishing Lakes pages 26–27
- Small Impoundments page 28
- State Park Lakes page 29
- Streams and Rivers pages 29–30
- Trout Fisheries pages 31–35

HOW TO

Measuring a Fish's Length

Lay the fish on a flat ruler, close the mouth, and squeeze the lobes of the tail fin to produce the maximum length. The mouth of the fish may not be manipulated or extended.

TWRA's goal is to manage each species of fish with statewide creel and length limits where possible. However, many waters, because of their unique characteristics, require individual creel and length limits. These regulations improve fishing for all anglers.

Minimum Length Limits restrict the harvest of fish below a specified minimum length. For example, a 15-inch minimum length limit allows the angler to keep fish 15 inches or greater. Fish less than 15 inches cannot be harvested.

Slot Limits or Protected Length Ranges (PLRs) allow anglers to harvest fish above and below a specified length range. For example, a 14–18" PLR protects fish in the 14- to 18-inch length group. Anglers may harvest fish that measure less than 14 inches and they may harvest fish that measure over 18 inches. For a protected length range to be effective, anglers must harvest fish below the protected range.

Possession Limits: The total possession limit is twice the daily creel limit. You may not have more than the daily creel limit with you while afield. It is unlawful to have, while afield, any fish which has been altered so that its species and/or total body length cannot be determined.

Pole or Rod Limit: Unless otherwise noted in this guide or by proclamation, there is no limit on the number of poles an angler may fish at one time.

Statewide Hook Restriction

Unless otherwise restricted in this proclamation, anglers are restricted to a maximum of 3 hooks per rod, pole or hand-held line. Single, double or treble hooks each count as one hook. The statewide hook restriction does not apply when using a sabiki rig (also known as a piscatore rig) to take shad or herring. A sabiki rig is a set of small lures attached to a single line, typically used to catch baitfish.

RECIPROCAL AGREEMENTS

Tennessee has several reciprocal agreements with adjacent states. These agreements have been arranged so that any fishing license from either Tennessee or the corresponding state is valid in the following waters.

Alabama/Mississippi

Pickwick Lake: Applies to anyone with a valid Sport Fishing License from Tennessee, Alabama or Mississippi. Resident anglers of the three states may fish without purchasing a nonresident license anywhere within the boundaries covered by the agreement. The reciprocal area includes all impounded water from Pickwick Dam upstream to Tennessee River Mile 224.8 at the mouth of Bear Creek but does not include Bear Creek and does not include that portion of Yellow Creek above the Hwy. 25 Bridge. Sport fishing license holders shall abide by the regulations of the state in whose waters they are fishing.

Arkansas

This state agrees to honor either license on the flowing waters of the Mississippi River, adjacent sloughs, bayous and old river runs, which are accessible by boat from the river proper, and the old river chutes forming a common boundary, excluding all wildlife management areas established by either state and the Wolf, Loosahatchie, Hatchie, Forked Deer and Obion rivers. The following common regulations apply:

- **Black bass:** creel limit 10, no length limit
- **Sunfish:** creel limit 50, no length limit
- **Crappie:** creel limit 50, no length limit

- **Striped bass and Hybrid striped bass:** creel limit 6, no length limit
- **Sauger:** creel limit 6, no length limit

All anglers must follow Arkansas regulations governing creel and size limits, trotlines, and other equipment requirements on Ikes Chute, Hopefield Chute, Mosquito Lake, Mound City Lake, Island 40 Chute and Lake Neark.

Kentucky

Dale Hollow Lake: Sportfishing licenses from either state are recognized in Wolf River including Illwill Creek, beginning at a line crossing the Wolf River at its mouth where it joins the Obey River. Creel limits and other regulations of the state where the license was issued apply.

Big South Fork of the Cumberland River: Sportfishing licenses from either state are recognized from Leatherwood Ford Bridge (Hwy. 279) in Tennessee, downstream to the Hwy. 92 bridge at Yamacraw, Kentucky. Creel limits and other regulations of the state where the license was issued apply.

Kentucky Lake: Each state will recognize the sport fishing licenses for the other state on the portion of Kentucky Lake south of the Eggners Ferry Bridge (US 68 & Hwy. 80) in Kentucky and north of the Governor Ned McWherter Bridge (US 79 & Hwy. 76) in Tennessee. This includes all embayments and tributaries within this portion of Kentucky Lake except the Blood River embayment. Blood River embayment shall be defined as a straight line between opposite points where

the embayment connects to the main body of Kentucky Lake. A sport fishing license holder from either state may fish from the bank or attach legal sport fishing trot or limb lines in this described portion of Kentucky Lake. Sport fishing license holders shall abide by the regulations of the state in whose waters they are fishing. Wildlife enforcement officials in either state shall have the right to inspect the licenses, permits, catches and equipment of any person on this portion of Kentucky Lake subject to the laws of either state.

Missouri

Persons possessing a valid sportfishing license in either state may fish in the Mississippi River and its backwaters within the boundaries of the other state and any oxbow lakes through which the Missouri-Tennessee boundary passes. They may fish from or attach any device or equipment to land under the jurisdiction of the other state. Persons licensed in only one state may not fish in the Mississippi River tributaries of the other state. Anglers must comply with the fishing regulations of the state where they are fishing and when fishing where they are not licensed will comply with the most restrictive state's regulation. Persons legally exempted from license requirements of either state are entitled to these privileges and provisions.

Except where it is shown to be elsewhere, the center of the U.S. Army Corps of Engineers navigation channel will be the boundary between Tennessee and Missouri.

North Carolina

Sportfishing licenses from either state are recognized in all of Calderwood Reservoir while fishing from a boat and in that portion of Slickrock Creek which constitutes the boundary between the two states. See pages 22 and 33 for regulations on Calderwood Reservoir and Slickrock Creek, respectively.

Virginia

South Holston Reservoir: Tennessee residents may purchase an annual South Holston Reservoir License (Type 063) to fish the VA portion of South Holston Reservoir. Virginia residents can purchase a similar license from VDGF to fish the TN portion of the reservoir. Anglers that are not TN or VA residents must abide by the state boundary line unless they purchase other appropriate fishing licenses from both states.

A South Holston Reservoir License is valid for all impounded portions of the reservoir below full pool elevation of 1,730 feet, including the confluence of the Middle Fork and South Fork Holston Rivers and the South Fork Holston upstream to the Route 710 Bridge at Alvarado, VA.

In addition to the South Holston Reservoir License, an angler must have whatever licenses that are required to fish in their home state. A valid resident TN trout fishing license or a valid resident VA trout fishing license is required to fish for trout. All anglers shall abide by the laws of the state in which they are fishing as to manner and means of taking fish. Length and creel limits are listed on page 24 of this guide.

ATTENTION

FREE Fishing Day/Week

Saturday, June 10, is Free Fishing Day in Tennessee and anyone (resident or non-resident) of any age may fish free without a license in Tennessee's public waters! Even better, if you are 15 years old or younger, you may fish free the entire week, beginning on Free Fishing Day, June 10, and running through the following Friday, June 16.

This day and week are annual events in Tennessee and are great opportunities to introduce children to the joys and excitement of a day on the water catching fish! Not only is fishing a great family activity, it helps make us more aware of our natural environment.

Finding a place to fish is easier than ever. Starting in late spring, all you need to do is go to www.tnwildlife.org to view the 2023 Kid's Fishing Events. There you will find a variety of activities planned across the state with details as to event locations and times. You can also contact your regional TWRA office to find out what's going on in your area or let them know you are interested in sponsoring or volunteering to help with an event. Anglers and would-be anglers should check the events list often since more fishing rodeos are frequently added. Whatever you do, don't miss the fun!

BEFORE YOUR NEXT DIGGING PROJECT,
CALL 811 OR VISIT TN811.COM

AND MAKE SURE AN AVOIDABLE ACCIDENT
DOESN'T KEEP YOU OFF THE WATER.

METHODS OTHER THAN

ROD AND REEL

Trotlines, Limblines and Jugs

Trotlines consist of a main line with drop lines to which single hooks are attached. Drop lines must not be closer than 24 inches. Nongame fish, except paddlefish and sturgeon, may be taken without limit. Game fish may be taken according to local limits. There is no limit on catfish, except only one fish may exceed 34 inches. The creel limit for skipjack is 100 fish.

Sportfishing trotlines, limblines and jugs must be tagged and/or marked with the owner's name and address, or TWRA identification number. Trotlines attached to the bank must be tagged on the line within five feet of the bank. Other trotlines must be tagged within five feet of either end, and floating trotlines must be marked on floats. The holder of a sport fishing license may use one or more trotlines not having a combination of more than 100 hooks. Limblines (including yo-yos) must be tagged above water level and are allowed only one hook per line. Sport anglers are limited to 25 limblines. Sport anglers are limited to 50 jugs or blocks and each with only one hook.

Trotlines, limblines and jugs must be run at least once per 24-hour period and are prohibited within 1,000 yards below any TVA or Corps of Engineers dam. Trotlines may not be set within 100 yards of the mouth of any river, creek or slough. Trotlines cannot extend more than three-quarters (0.75) the distance across any stream, river, chute, or embayment.

Exceptions:

- **Allen Branch Pond and Chilhowee (McKamy) Pond in Cherokee WMA:** Closed to jugs and trotlines.
- **Bards Lake on Land Between the Lakes:** Closed to trotlines and limblines. Jugs permitted from October 1–March 21.
- **Beech River Watershed Development Authority:** 20 jugs or blocks per boat. Trotlines prohibited.
- **Calderwood Reservoir:** Trotlines and limblines prohibited.
- **Danville Railroad Bridge Dikes:** Trotlines prohibited within 50 yards of dikes.
- **Indian Boundary Lake:** Closed to trotlines, jugs and limblines.
- **New Johnsonville Steam Plant Harbor:** 10 jugs or blocks per angler. Trotlines prohibited.
- **Norris Reservoir:** From January 1 through April 30, trotlines, limblines and jugs are prohibited between River Mile 32 (Point 15) and Hwy. 25E Bridge on the Powell River arm and Between River Mile 137 (Point 31) and the Hwy. 25E Bridge on the Clinch River arm.
- **TWRA Lakes:** Trotlines and limblines are prohibited. From April 1 through Sept. 30, jug

fishing is prohibited on Saturdays, Sundays, Memorial Day, Independence Day and Labor Day. On days open to jug fishing, each boat is limited to 10 jugs or blocks per day.

- **Lake Halford:** Jug fishing is prohibited.

Slat Baskets

Persons eligible to fish with a slat basket may fish with one slat basket, provided the slat basket is marked with a metal tag, obtainable from the TWRA for an annual fee of \$10.00. Possession or use of more than one slat basket is prohibited. A slat basket is defined as a device used for taking nongame fish and catfish only. Slat baskets may have only one outside funnel opening and must be made of wood, plastic or cane slats which are placed lengthwise and so constructed that there must be a minimum of four openings in the catching area, each being at least 1½ inches wide and 6 inches long. Fish taken may not be sold.

The slat basket may not be set within 100 yards of the mouth of any river, creek or slough. Slat basket must be checked at least every 72 hours.

Applications for metal tags can be obtained by writing to: TWRA Sales Office, P.O. Box 41729, Nashville, TN 37204. If you are applying in person and need directions to the TWRA central office, call 615-781-6500. You may also apply online at, GoOutdoorsTN.com

Grabbling, Giggling, Grab Hooks, Snagging, Archery, Crossbow, Speargun

Season open year-round in all waters except:

- where closed to fishing or expressly prohibited.
- within 100 yards below dams. At Pickwick Dam the closed area extends downstream to the first moorage cell across from ramp.
- at John Sevier Steam Plant the discharge channel is closed.

Nongame fish may be taken without limit. Game fish, sturgeon, and alligator gar may not be taken. Catfish, paddlefish, and skipjack may be harvested according to local limits.

Giggling is closed on the East Fork of the Obey River and its tributaries from Jan. 1–April 30.

Snagging is prohibited year-round on the South Holston tailwater (from South Holston Dam to Highway 390 bridge at Bluff City), Center Hill Reservoir, and the Cumberland Fossil Plant discharge

Show Your Support with a TWRA License Plate!

Money from the sale of specialty plates is available to the TWRA to fund wildlife habitat protection and enhancement programs, provide public hunting and fishing access, support law enforcement efforts, and improve youth education projects.

TWRA's smallmouth bass license plate is available at county clerk's offices throughout the state. This plate features a smallmouth bass created by renowned wildlife artist Al Agnew from a print titled "Sunlight on Bronze."

As with other specialty license plates, such as the ones mentioned above, the new smallmouth bass plate will cost \$35.00 above the regular cost of registering a vehicle.

channel into Barkley Reservoir, Cherokee Reservoir (Holston River) from Malinda Ferry Road (Hwy. 344) bridge upstream to John Sevier Dam from March 1 through March 31 and April 16 through May 31.

Watts Bar Reservoir: Watts Bar Reservoir from US-321 bridge upstream to Fort Loudon Dam is closed to snagging from March 15 through April 30 and May 16 through May 31.

Grabbling, giggling, grab hooks, snagging, archery, crossbow, speargun is prohibited on the following waters from Jan. 1–Apr. 30:

- **Dale Hollow Reservoir:** East Fork Obey River and its tributaries.
- **Norris Reservoir:** between River Mile 32 (Point 15) and the Hwy. 25E Bridge on the Powell River arm and between River Mile 137 (Point 31) and the Hwy. 25E Bridge on the Clinch River arm

Clay County...

...a great place to play, live, and retire!

It's not clear who coined the phrase "The Great Outdoors," but we have that in abundance in Celina and Clay County. Celina is the gateway to Dale Hollow Lake, and the abundance of outdoor activities that happen around that body of water. You need to come see the other things we have to do in The Great Outdoors!

TWRA FISHING LAKES

INFORMATION

Nineteen TWRA managed lakes, located in Middle and West Tennessee, are open year-round. Some of these lakes are operated by private concessionaires under contract and offer complete services for the fishing public.

Hours

The lakes are open to fishing all week. Lakes will open one-half hour before official sunrise and close one-half hour after official sunset, except Garrett Lake which is open 24 hours a day. Thanksgiving Day and Christmas Day the following lakes are closed: Gibson Co., Glenn Springs, Herb Parsons, and Lake Graham.

Permits

A daily lake permit of \$6.00 (available at most lakes), in addition to the regular fishing license, is required to use these lakes. At Lake Halford, a daily or annual permit specified for Lake Halford is required for anyone using the lake or facilities for any type of recreation (available online). A lake permit is not required at Garrett and Whiteville lakes. All residents 16 through 64 years of age, and nonresidents 16 years of age or older must have a permit. Sportsman license and lifetime license holders do not need a lake permit. Resident anglers 65 years of age and older do not need a permit, but do need a fishing license. A \$48.00 Annual Lake Permit may also be purchased at many of the lakes with concessionaires, and is good at all TWRA fishing lakes. For Coy Gaither-Bedford Lake, a daily lake permit should be purchased from a license agent in the surrounding area before going to the lake.

Alcoholic beverages are prohibited at all agency lakes.

Boats used for any activity other than fishing are prohibited, except for hunting on specific lakes during the regular hunting season as listed in the Tennessee Hunting Guide. Speed boating, personal water craft, water skiing, and swimming are prohibited. Houseboats, sailboats and inboard cruisers are prohibited. On Coy Gaither-Bedford, Marrowbone, VFW and Williamsport lakes, only trolling motors can be used. At Lake Halford recreational boating, personal watercraft, water skiing and swimming are allowed.

Boats may be rented for \$10.00 per day at some lakes on a seasonal basis. There is no charge for paddles.

Tackle

Only rods and reels, poles, hand-held lines, and jugs may be used (see page 16 for jug fishing rules at TWRA lakes). Snagging is prohibited.

Tailwater Trout

TWRA stocks fingerling and adult trout into coldwater tailwaters below dams to provide fishing opportunities. In many tailwaters trout fishing can be good year-round. Trout are stocked routinely during the following months. Use caution below dams. Call TVA at 1-800-238-2264 to check dam discharge and generation schedules (www.tva.com/Environment/Lake-Levels).

Gatlinburg Trout Fishing

TWRA and the City of Gatlinburg offer a variety of trout fishing opportunities in four streams. All streams are closed on Thursday each week and a Gatlinburg permit is required (page 12). Some areas are managed especially for children 12 and under. For more information contact the Gatlinburg Chamber of Commerce, (800) 568-4748 or the Gatlinburg trout facility at (865) 436-4558.

The taking of trout using a Gatlinburg Permit is allowed only within the designated streams, designated times, and under the restrictions listed in the following paragraphs.

General Streams

- West Prong Little Pigeon River from Park Boundary to Gnatty Branch except those sections set aside as Children's Streams.
- Dudley Creek from Park Boundary to West Prong Little Pigeon River, except those sections set aside as Children's Streams.
- Roaring Fork from the Park Boundary to West Prong Little Pigeon River.
- Leconte Creek from Painter Branch to West Prong Little Pigeon River.

Children's Streams (May only be fished by children 12 and under, unless otherwise posted.)

- Leconte Creek from Painters Branch upstream to Park Boundary.

- West Prong Little Pigeon River from North Park Lane Bridge (Herbert Holt Park) downstream to Gatlinburg By-pass Bridge.
- Dudley Creek from Highway 441 Bridge to West Prong Little Pigeon River.

Season and Creel Limits

Fishing permitted year-round, except on Thursday, from one half-hour before official sunrise to one half-hour after official sunset. Fishing is permitted with one hand-held rod and single hook only.

From December 1 through March 31 (all streams):

- Possession of any trout shall be prohibited.
- All trout caught must be immediately returned to the water.
- Use or possession of bait is prohibited. Use or possession of any artificial lures other than single hook artificial flies, spinners, and spoons is prohibited. The use of one dropper fly having a single hook which is separated from a legal lure by a length of line is permissible.

From April 1 through November 30:

- **General Streams:** The creel limit is five (5) trout per day. Bait and artificial lures permitted.
- **Children's Streams:** The creel limit is two (2) per day.
- Total possession limit shall not exceed twice the daily creel limit.
- While fishing or when afield, possession of more than the daily creel limit shall be prohibited, regardless of whether the trout are fresh, stored in an ice chest, in a vehicle, or otherwise preserved.

STATE RECORDS

INFORMATION

How To Be Considered For a State Record Fish

The following criteria must be followed when applying for a state record certificate:

1. State record fish application is available at www.tnwildlife.org under "Fishing".
2. To be considered for a state record certificate, the fish must be weighed on certified scales, or scales "legal for trade". These scales may be found at supermarket meat centers, Farm/Feed stores, UPS/FedEx locations.
3. Two witnesses, one of which must be the scale operator/owner, must fill out and sign Part B of the application certifying that they have observed the declared weight.
4. Only the current species listed in Class A and B, or those approved by TWRA, will be considered for a Tennessee state record fish certification.
5. Ties are accepted, but a new state record will be recognized only if the weight of the fish is one (1) ounce (oz) or more than the weight of the previous state record for that species or recognized hybrid (see #7).
6. It is the responsibility of the angler to contact a TWRA fisheries biologist for positive identification of the fish. The fish must be alive, fresh or frozen until positive species identity can be established. A photograph is not acceptable for identification.
7. Only two hybrid classifications, the striped bass/white bass (Cherokee bass) and the walleye/sauger (Saugeye), will be considered for a state record. Applicants must be willing to submit to the professional judgment of the certifying biologist as to the fish's hybrid status.
8. TWRA reserves the right to conduct genetic testing on any fish submitted as a state record to verify its species or hybrid status.
9. The completed application must be forwarded to the TWRA Fisheries Division within 30 days of the catch in order to be considered for a state record certification.

TENNESSEE ANGLER RECOGNITION

PROGRAM

The Tennessee Angler Recognition Program (TARP) gives anglers an opportunity to have their trophy-size fish recognized by the Tennessee Wildlife Resources Agency. Anglers of any age, who catch large fish that meet or exceed qualifying lengths, can apply. The TWRA Fisheries Management Division sends these accomplished anglers TARP certificates featuring color reproductions of fish artwork by renowned wildlife artist Joseph R. Tomelleri.

The program is designed to acknowledge anglers for outstanding sportfishing accomplishments, to encourage catch and release of trophy size fish and to provide the TWRA with information on large fish caught throughout the state.

Not to be confused with the State Record Fish program, TARP recognizes anglers who catch trophy-size fish that are not necessarily state records.

Trophy Fish/Master Angler Certificates

TARP features five levels of angler recognition. Anglers catching a fish that meets or exceeds the minimum “trophy” length requirements will receive a Trophy Fish certificate. These certificates feature artwork representing the species caught by the applicant. After anglers submit five trophy-size fish, in any combination, a Master Angler Level I certificate and patch will be awarded at no cost to the angler. Anglers submitting five different trophy-size fish will receive a Master Angler Level II certificate and patch. The Master Angler Level III will be awarded to anglers submitting ten different trophy-size fish. In addition to a certificate and patch, the angler will receive a “tackle package,” courtesy of Bass Pro Shops (Kodak, TN). Master Angler IV will be awarded to anglers submitting fifteen different trophy fish. The award will consist of a certificate, patch and an engraved trophy. The newest level, Master Angler V, will be awarded to anglers submitting twenty different trophy fish, and will receive a certificate, patch and engraved plaque.

How Do You Qualify?

- The fish must meet or exceed the minimum Trophy Fish Length listed on the right of this page.
- Persons 13 years of age and older must be licensed anglers and must provide their license number (TWRA #) on the application.
- The fish must be caught legally (in accordance with Tennessee Sportfishing Regulations) in Tennessee waters, by sportfishing methods only (rod and reel or cane pole).
- The length of the fish must be verified by either a witness or a photograph. The witness must complete the section on the application

and/or the photo must be of the fish lying flat on top of or beside a flat measuring rule or tape and included with the application. Submitted photos may be used on the TWRA web site and in TWRA publications.

If you believe your catch exceeds the current state record for that species, you should immediately contact a TWRA Fisheries Biologist for positive identification of the fish (see page 36).

How Do You Apply?

An application form is located on the previous page and online. Complete one application form for each fish you are registering. You may include more than one application form per envelope. If the fish length is being verified by photo, the picture must be enclosed with the application. For each Trophy Fish Certificate only, a \$5.00 processing fee, per application, must also be enclosed and **mailed within 90 days from the date of catch.** Make check or money order payable to TWRA and mail, with the application(s), to the address at the right of the application. **Note: a picture of the fish may be requested/required for any submitted application at the discretion of TWRA.** The processing fee is non-refundable for non-qualifying applications. For further information about TARP or the State Record Fish program, call (615) 781-6575, or visit www.tnwildlife.org.

STOP AQUATIC HITCHHIKERS

What can you do to prevent the spread of whirling disease?

- **CLEAN. DRAIN. DRY.** Clean all equipment, such as waders, fishing gear, boats, trailers, and float tubes of mud before leaving an area when fishing. Careful cleaning using disinfectants such as bleach will kill this parasite and many other aquatic nuisance species. Drain water from all motor units, live wells and buckets.
- **DO NOT** transport live fish from one waterbody to another.
- **DO** dispose of fish parts carefully when cleaning fish (dry disposal in garbage is best).
- **CONTACT US** if you observe signs of whirling disease in fish.

TWRA.WhirlingDisease@tn.gov

Please provide a location and picture of the fish if possible.

LIVE BAIT REGULATIONS

The following sections explain which species can be used for bait, and how they can be harvested, sold and transported. **Under no circumstance shall live fish, crayfish or salamanders be intentionally released into Tennessee waters away from the waters from which they were harvested.**

For the purposes of these rules, a sport angler shall be defined as anyone who attempts to take, kill, injure, capture, or catch any sport fish and every act of assistance thereof. A bait dealer shall be defined as one who engages in the business of capturing legal species of fish and other aquatic life for the purpose of sale, or one that sells any legal species of fish and other aquatic life for bait. All bait dealers must purchase a type 118 (resident) or 116 (nonresident) license annually, and make all necessary reports as required to the Tennessee Wildlife Resources Agency. The harvest and use of bait fish by commercial fishers shall be regulated in the commercial fishing proclamation.

A licensed sport angler (with all required licenses and permits) can harvest game fish (including rainbow trout and sunfish) for use as bait using legal sport fishing methods. When harvesting game fish, all restrictions in the sport fishing proclamation apply (including creel and length limits, seasons, and license requirements) for both the waters from which fish are harvested for bait and for waters where they will be used as bait.

Trout harvested in the following waters shall only be used as bait in the water from which the trout were harvested.

1. South Fork Holston River from South Holston Dam to Boone Dam;
2. Watauga River from Watauga Dam to Boone Dam;
3. Doe River (Carter Co.); and
4. North River (Monroe Co.).

Class A Bait Fish

The following species may be:

1. Harvested by licensed sport anglers for use as bait;
2. Imported into Tennessee or exported from Tennessee as live or dead bait by licensed bait dealers and licensed sport anglers;
3. Harvested and sold in Tennessee by licensed bait dealers. There is no possession limit for Gizzard Shad, Threadfin Shad, Fathead Minnow, Golden Shiner, and Goldfish.

Skipjack Herring* (*Alosa chrysochloris*) (creel limit of 100 per day; possession limit is 200)

SKIPJACK HERRING

Gizzard Shad* (*Dorosoma cepedianum*)

GIZZARD SHAD

Threadfin Shad* (*Dorosoma petenenes*)

THREADFIN SHAD

Fathead Minnow (*Pimephales promelas*)

FATHEAD MINNOW

Golden Shiner (*Notemigonus crysoleucas*)

GOLDEN SHINER

Goldfish (*Carassius auratus*)

GOLDFISH

Sunfishes** (*Lepomis spp.*)

SUNFISHES (BLUEGILL, e.g.)

Rainbow Trout*** (*Oncorhynchus mykiss*)

RAINBOW TROUT

* Skipjack Herring, Gizzard Shad, and Threadfin Shad may not be transported away from the water alive from the Mississippi River and Barkley, Kentucky, and Pickwick reservoirs and any tributaries or oxbows of these waters. This restriction does not apply to the Duck River above Normandy Dam.

** All species in the Genus *Lepomis* may be bought and/or sold subject to the following conditions:

- a. Such fish may be bought and/or sold for bait purposes only.
- b. Such fish bought and/or sold must not be more than four (4) inches in length.

- c. Such fish must have been lawfully taken from privately owned lakes and/or ponds.
- d. Nothing contained herein shall be construed as legalizing the sale of sunfish taken from any stream or public lake.

*** Bait dealers cannot harvest trout from public waters for sale as bait. A licensed sport angler may possess rainbow trout 8 inches or less in length without limit for use as bait if purchased from a licensed bait dealer and accompanied by an invoice that was issued by the licensed bait dealer. Such invoices shall be consecutively numbered and must contain the name, license number, and location of the licensed bait dealer, the date of sale or delivery, the number of rainbow trout bought or delivered, and the name and address of the person receiving the rainbow trout. Any person transporting or possessing rainbow trout obtained from a licensed bait dealer for bait must have a copy of this invoice on their person. Rainbow trout larger than 8 inches in length may be purchased by sport anglers and used for bait provided compliance with all sport fishing regulations on the waters being fished (including creel and length limits, seasons, and license requirements).

Class B Bait Fish

The following species may be:

1. Harvested by licensed sport anglers for use as bait;
2. Imported into Tennessee or exported from Tennessee by licensed sport anglers for use as bait. These species shall not be sold. A licensed sport angler shall possess no more than 100 each of the following species:

Stonerollers (*Camptostoma spp.*)

STONEROLLER

Creek Chub (*Semotilus atromaculatus*)

CREEK CHUB

Bluntnose Minnow (*Pimephales notatus*)

BLUNTNOSE MINNOW

Bullhead Minnow (*Pimephales vigilax*)

BULLHEAD MINNOW

Class C Bait Fish

Bait fish that are not listed in Class A or B above and are not listed as endangered, threatened, or in need of management may be harvested by licensed sport anglers for use as bait with the following restrictions:

1. Live specimens shall only be used in the water from which they were harvested;
2. Live specimens shall not be possessed away from the waters from which they were harvested;
3. Live specimens shall not be imported into Tennessee or exported from Tennessee by anyone;
4. Live specimens shall not be sold.

Dead specimens harvested by sport anglers may be moved and used for bait, unless otherwise restricted. Daily creel limit of Class C bait fish is 50 fish in aggregate; 100 fish in aggregate possession limit for live and dead specimens.

Class D Bait Fish

In addition to the provisions of Class A, a licensed bait dealer may also harvest these species to be sold as dead specimens:

- **Brook Silverside** (*Labidesthes sicculus*)
- **Inland Silverside** (*Menidia beryllina*)
- **Silver Carp** (*Hypophthalmichthys molitrix*)
- **Bighead Carp** (*Hypophthalmichthys nobilis*)
- **Black Carp** (*Mylopharyngodon piceus*)
- **Grass Carp** (*Ctenopharyngodon idella*)

These carp species may be harvested without limit but cannot be kept alive by any means upon harvest.

A licensed bait dealer may possess and sell any fish species that is not native to Tennessee and is imported in a preserved state (e.g. frozen, salted, pickled, or dried).

Legal Gear for Harvest of Bait Fish

- **Angling:** Use of line with a hook attached to a bait or lure. Angling is the only method approved for the harvest of game fish for use as bait. (e.g. sunfish and trout).
- **Minnow Seine:** A minnow seine consists of a float and lead line to which netting is attached. A minnow seine shall not be longer than 10 feet and the mesh size shall not exceed 3/8 inch on the square. Seines must be constantly attended, and may not be fished in a stationary manner.
- **Minnow/Crayfish Traps:** A trap is hereby defined as a device used for the purpose of catching minnows and crayfish. All traps shall be clearly and legibly labeled with owners name and address, or TWRA identification number.

- **Cast Net:** A cast net is defined as a net having a maximum radius of 10 feet and a mesh (square measure) of not less than 1/4 inch and not greater than 1 inch on the square.
 - **Shad Trawl:** A shad trawl is one having a mesh size no larger than 1 inch, a hoop diameter no larger than 48 inches, and a net length no larger than 72 inches. Only threadfin or gizzard shad shall be taken with a shad trawl and shad trawling is not allowed within 1,000 yards below any dam.
 - **Dip Net:** A dip net is a net constructed from natural synthetic fibers, or metal/plastic mesh which is attached to a frame that is attached to a pole.
 - **Hand Collection:** Use of hands or non-mechanized hand tools.
- Mountain Creek in Warren County;
 - Blood River system in Henry County; and North Fork Obion River in Henry County.

Crayfish harvested from the following streams and their tributaries shall not be possessed away from the watershed from which they were harvested:

- French Broad River and its tributaries outside Great Smoky Mountains National Park
- Holston River and its tributaries
- Clinch River and its tributaries
- Clear Fork and its tributaries in Claiborne and Campbell counties; and
- Big South Fork of the Cumberland River in Scott County.

Amphibians and Crayfish

Only Northern Dusky and Spotted Dusky salamanders (*Desmognathus fuscus* and *Desmognathus conanti*) and native crayfish species that are not listed as endangered, threatened, or in need of management may be harvested without limit by licensed sport anglers for use as bait. Crayfish and salamanders may be harvested with legal gear listed on page 39.

Amphibians and crayfish species shall not be sold or purchased for bait. Amphibians and crayfish shall not be imported into Tennessee or exported from Tennessee by anyone for bait. The harvest, use, and possession of crayfish is prohibited in the following streams, in all of their tributaries, and on all adjacent banks:

- Mill Creek in Davidson and Williamson counties
- East Fork Stones River in Cannon County
- Hurricane Creek in Cumberland, Fentress, Overton, and Putnam counties
- Roaring Paunch Creek in Scott County
- South Chickamauga Creek in Hamilton County
- Caney Fork River in Cumberland County
- Robinson Creek, Beason Creek (upstream of confluence of North Fork and South Fork), and Owl Creek (upstream of Highway 142) in Hardin and McNairy counties
- Flint River in Lincoln County;
- Long Fork, White Oak Creek, and Salt Lick Creek in Macon County. Garrett Creek, Little Trammel Creek, and Middle Fork Drakes Creek in Sumner County;
- Shoal Creek system in Lawrence and Wayne counties;
- Puncheon Branch in Giles County;
- Cypress Creek system in Wayne County;
- Gassaway Creek, Little Gassaway Creek, Laurel Creek, and Rogers Branch in Polk County;
- Hiwassee River and tributaries upstream of Apalachia powerhouse in Polk County;
- Conasauga River system in Bradley and Polk counties;
- Big Brush Creek system in Sequatchie County;
- Bullpen Branch in Cannon County;

DUSKY SALAMANDER

Crayfish as Food

Crayfish may be taken from the wild according to rules of live bait for food. Wild caught crayfish may not be sold.

FIRST FISH AWARD

Tennessee First Fish Award—FREE!

The First Fish Award is designed to commemorate that special moment in every boy or girl's life—the landing of their first fish.

The award is an 8.5 x 11 certificate, suitable for framing, identifying the child, the fish caught, and other details of that special moment. Size of the fish and age of the angler have no bearing, only that the fish is their first and that it was caught in Tennessee.

Visit www.tnwildlife.org or call (615) 781-6575 for further information.

TURTLES

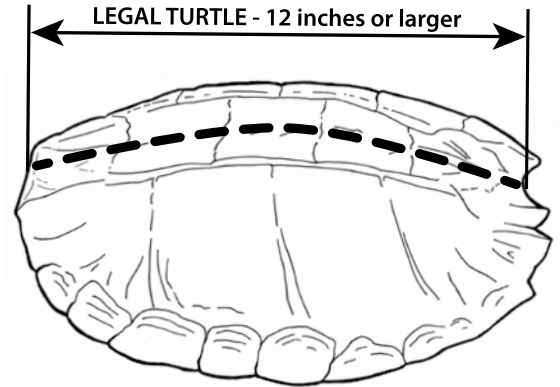

IN TENNESSEE

Turtles

A sport fishing license is required and only the common snapping turtle may be taken. Turtles taken by sport fishing methods may not be sold. Shooting with any type of firearm or air gun is prohibited.

Common snapping turtles may be taken by all legal sport fishing methods except archery, spearguns and dipping. Daily limit is 5 with a minimum legal length of 12 inches—length is determined by measuring the upper shell in a straight line from the scute directly behind the turtle's head (nuchal scute) to the base of the notch where the two most posterior scutes meet. Sport fishermen may also take snapping turtles by the use of up to three turtle trap nets, with minimum net size of three inches on the square in Benton, Carroll, Chester, Crockett, Decatur, Dyer, Fayette, Gibson, Hardeman, Hardin, Haywood, Henderson, Henry, Houston, Humphreys, Lake, Lauderdale, McNairy, Madison, Obion, Perry, Shelby, Stewart, Tipton, and Weakley counties. Each net must be marked with the owner's name and address or TWRA Identification Number. Each net must be set so that a portion of the catch area is above the water.

No turtle may be possessed while afield which has been altered to the extent that its species or length cannot be determined.

ATTENTION ANGLERS

The Tennessee Wildlife Resources Agency is conducting an alligator snapping turtle restoration project in West Tennessee which involves the release of live alligator snapping turtles. Both adult and juvenile turtles have been released to restore this rare, native species. Alligator snapping turtles are listed in Tennessee as state threatened and are illegal to take.

ALLIGATOR SNAPPING TURTLE ▲

- Alligator snapping turtles have three large prominent ridges along the back, a large head, and a prominently hooked beak.
- Often reaches weights in excess of 30 pounds.
- Alligator snapping turtles have an extra row of scutes (scales) between the outer scale row and the large center scales.

COMMON SNAPPING TURTLE ▲

- Common snapping turtles have a smoother, rounded shell (especially as adults) without the three ridges, and a smaller head and weakly hooked beak.
- Rarely exceeds 30 pounds.
- Common snapping turtles do not have the extra row of scutes (scales) between the outer scale row and large central scales.
