EZetil Electric Coolers

STYLISH PARTY COOLER – GREAT FOR HOME, GARDEN, OFFICE, CAMPING AND MORE

This 55-litre party refrigerator is as functional and beautiful as a piece of furniture. Fitted on rollers for perfect mobility, it features practical side trays for cocktail glasses and party accessories. Its inner container is made from stainless steel. Two glass lids on top allow convenient access and minimise the risk of cooling loss. Powerful compressor technology ensures that the party drinks are well chilled at all times.

Electric Coolers

PARTY COOLER

- / Portable cooling furniture, ideal for garden, balcony, office, camping, exhibitions and more
- / **Fitted on rollers for perfect mobility**
- / Compressor technology for excellent cooling results (temperature adjustable from 0 to 8°C)
- / Practical side trays and bottle racks
- / Two transparent glass lids
- / Energy class: A+

EZetil Electric Coolers

COOL COMPANIONS FOR HOLIDAY, BUSINESS TRAVEL, PICNIC AND GARDEN PARTY

EZetil electric coolers come in different sizes, colours and designs to provide the right mobile fridge for everyone. Excellent insulation combined with high energy efficiency ensures that your provisions stay cool and fresh for many hours. There are 12-volt models for the car, 230-volt models for at home, and universal models with a 12/230-volt connection. Most car coolers are fitted with "pattended" EZetil's Safe Seat Belt Fixation system for a firm hold throughout the journey.

Passive Cooler

3 DAYS ICE

These coolers guarantee permanent frost at summer temperatures for three days or longer. Don't believe it? Here's proof. In a product test, the coolers were half-way filled with ice cubes and exposed to an ambient temperature of 25°C day and night. The result: Only after three days the ice cubes were melted in our 24- and 30-litre coolers. In the larger coolers (44 to 150 litres) it took even four days or longer to melt the ice!

Passive Coolers

3 DAYS ICE

/ **For a BBQ, a picnic or a camping trip, a boat tour or for catering.**

/ Ideal for all who appreciate reliable professional refrigeration.

/ Food and beverages for days ready at hand.

/ Extra-strong PU full foam insulation of the underpart ensures over-average cooling performance. In addition, the models 25, 30 and 45 have a PU –insulated lid. The outer part of the cooling boxes are manufactured by blow-moulding process, therefore they are particularly shock-proof and break-proof.

/ 3 DAYS Ice 25

EZetil Ice Packs

FOR FRESH AND FROZEN FOOD

EZetil ice packs keep fresh and frozen food reliably “on ice” for several hours. Ideal for use with passive coolers, they are also nice to have when the power supply of your electric cooler fails. Four product series with different benefits give you the opportunity to select the perfect type and size of ice pack for your specific requirements. All products are suitable for contact with foodstuffs and can be reused as often as desired. Some of them even meet professional standards.

HIGH PERFORMANCE

/ **Keep food fresh between 0°C and +10°C for many hours**

/ Made from food-grade plastic material

/ Can be reused as often as desired

/ 220, 300 and 440 g ice packs: seamless design made of one piece, without a stopper and therefore entirely leak-proof

/ **High Performance 2 x 220 g**

/ Cooling capacity: 12 h

/ Ref. No. 880100

/ **High Performance 5 x 220 g**

/ Cooling capacity: 24 h

/ Ref. No. 885000

/ **High Performance 2 x 300 g**

/ Cooling capacity: 12 h

/ Ref. No. 882200

/ **High Performance 2 x 440 g**

/ Cooling capacity: 18 h

/ Ref. No. 750200

/ **High Performance 2 x 440 g Gel**

/ Cooling capacity: 20 h

/ Ref. No. 883300

/ **High Performance 1 x 1100 g**

/ Cooling capacity: 28 h

/ Ref. No. 885500

Ice Packs

EXTRA FLAT SPEED COOL

/ **Keep food fresh between 0°C and +10°C for many hours**

/ Compatible with all common food service containers which comply with the EN 631-2 standard

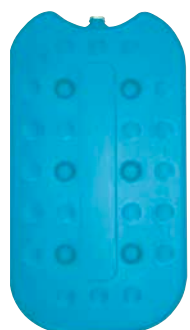

/ Extra flat and space-saving. Fast freezing, fast cooling output, efficient use.

/ Can be reused as often as desired

/ **Extra Flat G270, 2 x 245 g**

/ Cooling capacity: 10 h

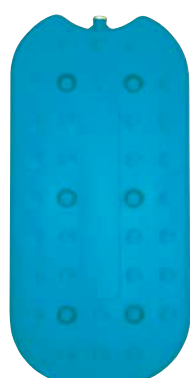

/ Ref. No. 886920

/ **Extra Flat G370, 2 x 330 g**

/ Cooling capacity: 12 h

/ Ref. No. 886820

/ **Extra Flat G430, 2 x 385 g**

/ Cooling capacity: 12 h

/ Ref. No. 886720

/ **Extra Flat G800, 2 x 770 g**

/ Cooling capacity: 22 h

/ Ref. No. 886620

DEEP FREEZE

/ **Specially designed for deep-frozen products**

- / Keep deep-frozen food between -18°C and 0°C up to 11 hours
- / Ideal for maintaining a continuous cold chain during transport
- / Seamless design without a stopper – 100% leak-proof
- / Can be reused as often as desired

/ **Deep Freeze 2 x 200 ml**

- / Cooling capacity: 5 h
- / Ref. No. 885810

/ **Deep Freeze 2 x 270ml**

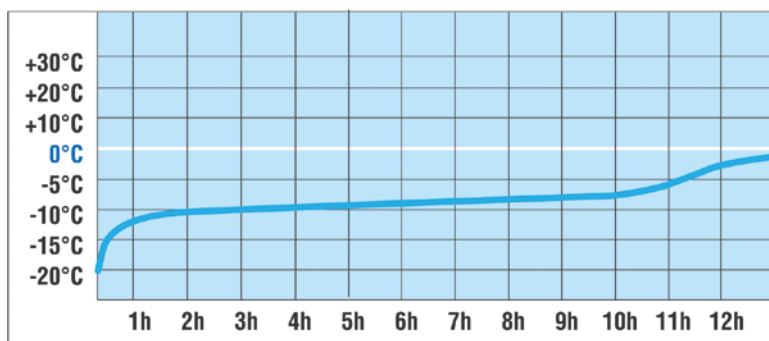

- / Cooling capacity: 6 h
- / Ref. No. 885910

/ **Deep Freeze 2 x 430ml**

- / Cooling capacity: 11 h
- / Ref. No. 886000

Deep Freeze Ice is specially dedicated for deep frozen products and keep deep frozen food in the freezing zone for 11 hours between -18°C and 0°C .

Important! The Deep Freeze Ice Packs -18°C contains a special cooling liquid, which freezes at temperatures between -12°C and -15°C . Used for the transport of deep frozen food in a coolbox, the Ice Packs sets free its energy at a temperature of -12°C . It keeps the deep frozen food for up to 11 hours in the freezing zone below 0°C . It can also be used for cooling fresh, un-frozen food. In this case, it must be taken care that the cooling pack does not have direct contact with the food in order to avoid unintended freezing.

Important note: Never use water filled ice packs for deep-frozen products! The water inside would start freezing already at 0°C and therefore rather cause faster thawing than reliable cooling.

Ice Packs

SOFT ICE FLEXIBLE

- / **Specially designed for deep-frozen products**
- / Keep deep-frozen food between -18°C and 0°C for 2 to 7 hours
- / Ideal for maintaining a continuous cold chain during transport
- / **Stay flexible even at -18°C and therefore have a closer contact with the frozen goods**
- / Can be reused as often as desired

/ **Soft Ice 100 Flexible**

- / Cooling capacity: 2 h
- / Ref. No. 890300

/ **Soft Ice 200 Flexible**

- / Cooling capacity: 3 h
- / Ref. No. 890100

/ **Soft Ice 600 Flexible**

- / Cooling capacity: 6 h
- / Ref. No. 890200

/ **Soft Ice 800 Flexible**

- / Cooling capacity: 7 h
- / Ref. No. 890700

Important note: Never use water filled ice packs for deep-frozen products! The water inside would start freezing already at 0°C and therefore rather cause faster thawing than reliable cooling.
