

# Epson EB-S02 projector

DATASHEET

Perfect for first-time users, this EB-S02 entry-level projector is affordable, easy to use and ideal for viewing films, images and presentations in any home or office environment, without the need to learn new technology.

There's no need to dim the light with this SVGA projector thanks to a high White and Colour Light Output of 2,600 lumens. 3LCD technology as well as 3000:1 contrast ratio produce natural images and sharp picture quality.

Epson's 3-in-1 USB Display feature means that one cable is all you need for picture, sound and page up/down control – it's the fastest way to display what's on your PC or Mac. Aligning the picture is quick and easy with automatic vertical keystone correction.

When installed, the direct power on/off feature enables the projector to be turned on directly via the wall switch. If it is being used as a portable projector, the instant-off function means no cool-down time is required, allowing you to pack up and go without delay.

The EB-S02 is straightforward to set up, allowing you to get started quickly and hassle-free. A long lamp life of up to 5,000 hours helps cut maintenance time and keep running costs low.

## KEY FEATURES

- Bright and sharp picture quality thanks to 2,600 lumens and 3000:1 contrast ratio
- 3-in-1 USB Display: one USB cable is all that's needed for picture, sound and page up/down control
- Automatic vertical keystone correction
- Long lamp life of up to 5,000 hours
