

The chic white Acer H5360 projector transforms the living room into a home theater via native 16:9 HD-ready projection, HDMI connectivity, and brilliant color reproduction. Furthermore, immersive Stereoscopic 3D entertainment is now brought to your home! Immersive 3D visuals for games, movies, photographs beamed from the Acer 3D-ready projector.

The compact Acer H5360 projector brings immersive, 3D movies and gaming to the big screen, even in rooms with bright ambient light, like your living room or the classroom.

Native 720p (HD-ready) resolution sharpens movie details; true 24p frame rate preserves real film quality for a cinema-like experience; and higher brightness and contrast ratios project crystal-clear images. Wall-color compensation lets you project accurate images even on colored walls, and HDMI connectivity portrays brilliant games and entertainment in the comfort of your living room.
