### Developing and Managing Your Stormwater Capital Improvement Plan

### FLORIDA STORMWATER ASSOCIATION

#### 2021 Winter Conference Friday, December 3, 2021

### **BURGESS & NIPLE**

**Anthony "Tony" Mannello** *Streets & Stormwater Supervisor City of Tarpon Springs Public Works* 

### City of Tarpon Springs Stormwater Program

- Located on Florida's Gulf Coast, within Pinellas County
- Encompasses 8.5 square miles
- 25,000+ residents
- Waterbodies on three sides: the Gulf of Mexico, Anclote River and Lake Tarpon
- Many waterfront communities
- Known for early settlers of Greek heritage; thriving sponge industry

**BURGESS & NIPLE** 

## Tarpon Springs Organizational Chart

BUKCESS & NIPLE

## City of Tarpon Springs Stormwater Challenges

- Unique topography
- Localized closed basins
- Coastal outfalls

## City of Tarpon Springs Stormwater Program

- All Streets & Stormwater staff is certified and trained annually for Illicit Discharge and Sediment & Erosion Control)
- Maintain 32 major outfalls, 132 miles of roadway , and 40 STF's

#### City of Tarpon Springs Stormwater Program Goals

- Goal 1: Mitigate the potential for flooding and improve water quality
  - Continue stormwater project capital improvement program
  - Continue an active maintenance program of stormwater facilities
  - Street sweeper program
  - Fertilizer Ordinance; includes retail sales and application restrictions
  - Monthly reviews and treatment of aquatic growth control
  - NPDES Permit Compliance with Pinellas County
- Goal 2: Inform the public of their part in protecting the stormwater system and surrounding waterbodies
  - Perform regular stormwater educational programs, events and/or activities

**Bryan Anderson, PE, ENV SP** Section Director Stormwater/Environmental Burgess & Niple, Inc.

### City of Tarpon Springs Stormwater Program

- Bryan Anderson, PE, ENV SP
- Section Director/Senior Project Manager
- Graduate from University of Central Florida
- 21 years of experience
- Since 2009 has served as the Stormwater Engineer for the City of Tarpon Springs

# Stormwater Action Plan (SAP) History

How The SAP Was Developed

## Historical Stormwater Master Plan

- 1993 Dames and Moore Stormwater Master Plan
  - Developing Inventory of City Drainage Facilities
  - Delineating Overall City Watershed and Drainage Basin Boundaries
  - Evaluating Existing Drainage Systems
  - Generating Overall Master Drainage Plan

## Stormwater Action Plan (SAP) Vision

- Documenting Existing Problems
- Eliminate Non-Jurisdictional Work
- Develop Scoring Criteria
- Data Collection and Conduct Field Investigations
- Develop Conceptual Solutions with Preliminary Cost Estimates
- Conduct Cost/Benefit Analysis and Rank Projects = CIP

### Documenting/Locating Problem Areas

Table 1: Summary of Stormwater Map ID Areas

Map ID No.	SAP Total Score	Stormwater Focus Area	Problem	Reference
1B	34	Disston Ave. (south of Tarpon Ave.)	Street and private property flooding; roadway impassable	No. 1 CIP - Utility Element Table 9
2	23	Disston Ave. & Center St.	Street and private property flooding	No. 9 CIP - Utility Element Table 8/No. 5 Dames & Moore Master Drainage Study - Phase 1
3	26	Walton Ave. between Tarpon Ave. & Lime St. Phase III	Street flooding; impassable road	No. 10 CIP - Utility Element Table 8/No. 23 Dames & Moore Master Drainage Study - Phase 1
4	6	Tarpon Ave. 100' east of Grosse Ave.	Street flooding	No. 4 CIP - Utility Element Table 8/No. 1 Dames & Moore Master Drainage Study - Phase 1
5	60	Pent St. 200' east of Grosse Ave.	Street and private property flooding	No. 7 CIP - Utility Element Table 8/No. 15 Dames & Moore Master Drainage Study - Phase 1
6	5	Cypress St. 200' east of Grosse Ave.	Street & yard flooding	No. 6 CIP - Utility Element Table 8/No. 16 Dames & Moore Master Drainage Study - Phase 1
7	5	Outfall @ Pinellas Trail & Spruce St.	Needs maintenance/obstructing flow	Stormwater Consultant
9	9	Disston Ave. between Spruce St. & Live Oak St.	Street and yard flooding	No. 12 Dames & Moore Master Drainage Study -Phase I
10	2	Spruce St. between Disston Ave. & Walton Ave.	Street and yard flooding	No. 12 CIP - Utility Element Table 8/No. 8 Dames & Moore Master Drainage Study - Phase 1
11	13	Boston St. between Disston Ave. & Walton Ave.	Street and private property flooding	No. 13 CIP - Utility Element Table 8/No. 10 Dames & Moore Master Drainage Study - Phase 1
14	9	Grosse Ave. between Pine St. & Orange St.	Street & yard flooding	No. 5 CIP - Utility Element Table 8/No. 6 Dames & Moore Master Drainage Study - Phase 1
15	60	Highland Ave. and Vista Place	Street and private property flooding; roadway impassable	No. 8 CIP - Utility Element Table 8/No. 20 Dames & Moore Master Drainage Study - Phase 1
17	8	Pent St. between Disston Ave. & Walton Ave.	Street & yard flooding	No. 14 CIP - Utility Element Table 8/No. 9 Dames & Moore Master Drainage Study - Phase 1
18	11	Hibiscus St. & Park St.	Street & yard flooding	No. 15 CIP - Utility Element Table 8/No. 2 Dames & Moore Master Drainage Study - Phase 1
20	4	Levis Ave. between Lime St. & Oakwood St.	Minor street flooding	No. 17 CIP - Utility Element Table 8/No. 24 Dames & Moore Master Drainage Study - Phase 1
21	10	Palm Ave. between Tarpon Dr. & Glades Ave.	Street & private property flooding	No. 18 CIP - Utility Element Table 8/No. 33 Dames & Moore Master Drainage Study - Phase 1
22	5	Palm Ave. between Tarpon Dr. & Gulf Rd.	Private property flooding	No. 19 CIP - Utility Element Table 8/No. 32 Dames & Moore Master Drainage Study - Phase 1
24B	8	Bath St./Shaddock Ave. Alley	Private property flooding	Staff recommendation
25	8	Levis Ave. Alleyway	Rear yard flooding	No. 3 CIP - Utility Element Table 9
28	7	Cypress St. between Disston Ave. and Walton Ave.	Street and private property flooding	No. 11 Dames & Moore Master Drainage Study - Phase 1
28A	10	Walton Ave. & Center St.	Street and private property flooding	Staff recommendation
29	5	Spruce St. between Levis Ave. & Grosse Ave.	Street and private property flooding	No. 14 Dames & Moore Master Drainage Study - Phase 1
31	3	Huey Ave. north of Tarpon Ave.	Roadside flooding; ditch along Huey Ave. floods	No. 18 Dames & Moore Master Drainage Study - Phase 1
33	60	Jasmine Ave. & Lime St.	Street and private property flooding	No. 21 Dames & Moore Master Drainage Study - Phase 1
35	6	Disston Ave. south of Harrison St.	Street flooding	No. 25 Dames & Moore Master Drainage Study - Phase 1
39	12	Coburn Dr. 100' west of Florida Ave.	Street and yard flooding	No. 31 Dames & Moore Master Drainage Study - Phase 1
42	9	Intersection of Athens St. & Dodecanese Blvd.	Street flooding; inadequate infrastructure/backwater	No. 37 Dames & Moore Master Drainage Study - Phase 1
43	7	Island Dr. near Hill St.	Street and private property flooding	No. 38 Dames & Moore Master Drainage Study - Phase 1
57	30	Kenneth Way @ Seaside Dr.	Street flooding	Staff recommendation
62	7	Roosevelt Blvd.	Street flooding/water quality/property flooding	Staff recommendation
69	10	Pent St. 100' east of Levis Ave.	Street and private property flooding	Staff recommendation
70	6	East end of Boston St.	Street and private property flooding	Staff recommendation
71	18	Riverside Dr. at Hillside Dr.	Low spot - street flooding	Staff recommendation
72	3	1314 Riverside Dr.	Low spot - street flooding	Staff recommendation
73	6	Riverside Dr. at Seabreeze Dr.	Low spot - street flooding	Staff recommendation
74	6	Avoca Dr. 500' west of Florida Dr.	Low spot - street and property flooding	Staff recommendation
100	N/A	Marina Dr. & Anclote Rd.	Non-Jurisdictional Street flooding	Stormwater Consultant

BURGESS & NIPLE

F:\Projects\STAN0002\_Tarpon\7\_SAP Update\3\_00\_SAP Update\1\_SAP Evaluations\2020\_City\_Limit\_Problem\_Locations\_20200526.mxd

## **Eliminate Non-Jurisdictional Areas**

- 33 FLOOD PRONE AREA
- 42 CITY STORMWATER PROJECT IN-PROGRESS
- CITY STORMWATER PROJECT IN-CONSTRUCTION
- STORMWATER PROJECT COMPLETED
- STORMWATER PROBLEM TO BE ADDRESSED BY OTHERS
- 303(d) IMPAIRED WATERBODY (FDEP/DEAR)
- 4 FUTURE TMDL
- OUTFALL PIPES GREATER THAN 36 INCHES
- WATERSHED BOUNDARY
- CITY LIMITS

## **Develop Scoring Criteria**

### Grading/scoring criteria

- Traffic Safety
- Emergency Access
- Property Impacts
- Environmental
- Problem Documentation
- Maintenance
- City Score

#### CITY OF TARPON SPRINGS STORMWATER ACTION PLAN (SAP) STORMWATER FOCUS AREA SCORING CRITERIA

#### **BURGESS & NIPLE** Engineers • Architects • Planners

CONSULTANT GRADING MAX POINTS CRITERIA TRAFFIC SAFETY 10 EMERGENCY ACCESS/ROUTE 10 PROPERTY IMPACTS 10 10 ENVIRONMENTAL PROBLEM DOCUMENTATION 5 5 MAINTENANCE 10 CITY SCORE 60 TOTAL POSSIBLE POINTS

#### Traffic Safety

0-5 points for a problem that impedes standard traffic flow rates. These locations are more of a nuisance due to partial roadside flooding. 6-10 points for a problem that poses a threat to life, impedance to major arterial road or hurricane evacuation route, or flooding near electrical equipment.

#### Emergency Access/Route

- 0-3 points for a problem that may cause an emergency vehicle some delay
- 4-7 point for a problem that may cause an emergency vehicle to change course while responding to an emergency.
- 8-10 points for a problem that impedes an evacuation route or route to emergency shelter.

#### Property Impacts

0-3 points for a problem that is primarily minor street and private property ponding.

4-7 points for a problem that impedes access to or from private property or causes flooding on more than one property; for a problem that occurs no more than 6 times a year and has a duration of less than 48 hours.

8-10 points for a problem that poses threat to flooding a structure or causing erosion threatening a structure; for a problem that occurs at least 6 times a year and has a duration of more than 48 hours.

## **Develop Scoring Criteria**

#### Traffic Safety

0-5 points for a problem that impedes standard traffic flow rates. These locations are more of a nuisance due to partial roadside flooding. 6-10 points for a problem that poses a threat to life, impedance to major arterial road or hurricane evacuation route, or flooding near electrical equipment.

#### Emergency Access/Route

0-3 points for a problem that may cause an emergency vehicle some delay

4-7 point for a problem that may cause an emergency vehicle to change course while responding to an emergency.

8-10 points for a problem that impedes an evacuation route or route to emergency shelter.

#### Property Impacts

0-3 points for a problem that is primarily minor street and private property ponding.

4-7 points for a problem that impedes access to or from private property or causes flooding on more than one property; for a problem that occurs no more than 6 times a year and has a duration of less than 48 hours.

8-10 points for a problem that poses threat to flooding a structure or causing erosion threatening a structure; for a problem that occurs at least 6 times a year and has a duration of more than 48 hours.

#### **Environmental**

0-3 points for a problem that impacts the local proximity.

4-7 points for a problem that has potential water quality impacts to impaired waterbody.

8-10 points for a problem that is mandated by the FDEP or EPA and/or discharges to an impaired waterbody.

#### Problem Area Documentation

0-2 points for a problem that has been identified by City Staff and/or the Dames and Moore Master Drainage Study.3-5 points for a problem that has public complaints and/or photographs filed with the City.

#### Maintenance

0-2 points for a problem that in the past has cost the City to maintain or retrofit.

3-5 points for a problem that annually costs the City to maintain or for a problem that if not properly maintained causes flooding.

## **Develop Scoring Criteria**

#### City Score

Springs

Level A (10 points)

- Represent a significant and immediate threat to life, health, and/or property.
- Completely blocks the flow of traffic through **main thoroughfares** (traffic cannot safely pass and must be re-routed). Blocks access to neighborhoods or areas of the City.
- Water enters a structure.
- Represents a significant and severe contribution to surface water pollution.

Level B (8 points)

- Represent a potential threat to life, health, and/or property.
- Blocks the flow of traffic on a single street, several structures, or business access.
- · Water surrounds but does not enter a structure.
- · Represents a potential contribution to surface water pollution.

Level C (6 points)

- Represent a possible threat to life, health, and/or property.
- · Blocks traffic access to a single home.
- · Water surrounds or pools on a portion of a homeowner's or business owner's property.
- Represents a possible contribution to surface water pollution.

Level D (4 points)

- Nuisance flooding that does not pose any threat to life, health, and/or property.
- · Does not block traffic access to homes, businesses, or streets.
- · Water does not threaten a structure.
- Does not contribute to surface water pollution.

Level E (2 points)

Project is complete or remedy is underway (currently undergoing design or construction).

Level F (0 points)

#### MAINTENANCE REQUEST

SITE NAME: SR 400 (I-4) -Weigh-In-Motion

SPN: 10190

COUNTY: Hillsborough

DATE: 1/17/19

**MAINTNENACE ISSUE:** The culvert located in the northwest corner of the mitigation site is eroding and posing a safety issue. Maintenance vehicles are having trouble accessing the full length of the berm due to the erosion. Erosion in this area will be a recurring problem, especially during heavy rain events. Attached are a location map, an aerial, and photos of the erosion.

Figure 1 Outfall facing southeast

## Field Investigations: Wet and Dry!

### 3 Categories For Flooding Problems in the City

- Insufficient or No Current
  Drainage Infrastructure
- Closed Basin/Volume Sensitive
- Low Lying Coastal Areas Subject to Tidal Flooding

### Insufficient or No Drainage Facilities

## **Closed Basin/Volume Sensitive**

### **Tidal Flooding**

### **Developing Conceptual Solutions & Cost Estimates**

### Case Study: Palm Avenue (SAP No. 22)

- No drainage infrastructure
- Roadway and private property flooding
