Contact Campbell to purchase crimp-on steam hose fittings. The fitting part numbers are Campbell part numbers.  
**Note:** These fittings are crimped over the cover and have NPT threads. The crimp diameter tolerance is +/- .005" and to be the full length of the ferrule.  
 The recommended crimp diameters are only related to Goodyear hoses noted above and the fittings noted above.  
 Assemblies must meet the electrical resistance test requirements as specified in section 5.5 of the 2005 NAHAD Hose Assembly Guidelines or as specified in RMA bulletin IP-11-1
