THE AUSTIN COMPANY
www.austinfoodgroup.com

At The Austin Company, we understand that every Food and Beverage Plant must rest upon a solid foundation of three uncompromising standards:

Safety – in the products produced and the plants which produce them

Quality – and consistency of product, throughout the manufacturing and distribution cycle

Reliability – availability and consistency in the systems engineered and constructed, to minimize downtime and ensure product availability.

Suitt Construction has joined forces as the BE&K Building Group to better serve their clients.

It's All About People.

Industry Specialization

- Baking
- Dairy
- Distribution and storage facilities
- Meat
- Poultry
- Prepared Foods

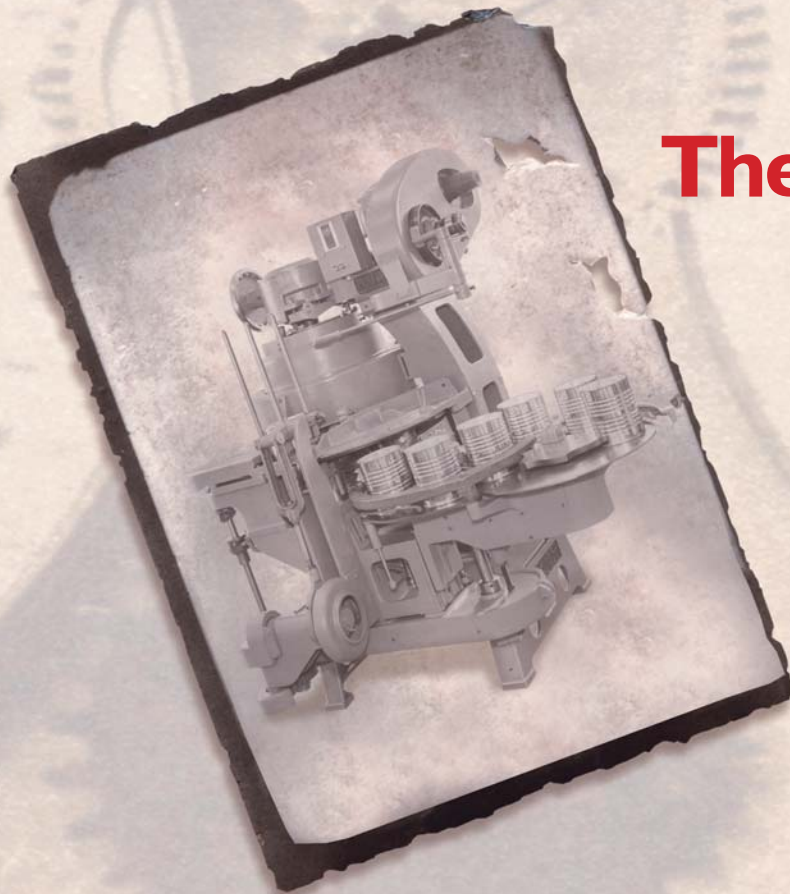

Regulatory Expertise

Proven experience, along with expertise in Sanitary Facility Design principles and in-depth knowledge of USDA, FDA, cGMP, and HACCP regulations, to deliver:

- Processing facilities
- Offices
- Research and development facilities
- Laboratories

Atlanta • Birmingham • Charlotte • Greenville • Nashville • Orlando • Raleigh • Washington

Now.

Always Count on Angelus for Quality and Innovation.

Founded in 1910, Angelus invented and patented machinery for producing double seams on cans that is still recognized worldwide as the industry standard. The new Angelus 5K Can Seamer represents a century of perfecting this process into the new standard of durability and reliability.

With five seaming stations, the 5K handles larger can diameters from 307-701 and heights from 306-1000 at up to 500 cans per minute. The 5K also features type 316 stainless steel castings and components that enhance corrosion resistance and reduce maintenance costs.

Angelus: 95 Years of Seaming Excellence.

Air Operated Pumps Exhaust Your Cash Flow

With every "whoosh" you hear from your AODD pump, you're sending money right out of your plant. It generally takes about one horsepower to generate 4 scfm of air.

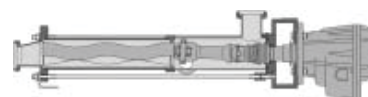

Look at your pump's curve and get a curve from seepex. You will be amazed.

If you put an AODD in a permanent application, you'll waste enough energy to have bought several electrically driven pumps.

seepex can help you put in a reliable, electrically driven PC pump that will be protected from run-dry and dead head.

Call us today. We can help you really reduce cost . . . and that claim is not just hot air.

E-mail us at sales@seepex.net and we will send you a computer program (Visual Basic or Palm OS) to calculate the savings.

seepex BCSO pump
