## 1. Purpose

The purpose of these End User Procedures is to describe how to access the Users page of Forest River Dealer Connect and provide step-by-step directions on how to Add, Edit, Disable, and Delete Users.

Only Dealer Administrators will be able to access this section of Forest River Dealer Connect. This process is a critical first step on your dealership's implementation!

# **Document Tips & Tricks**

- You can search this document for key words or phrases by holding down the Ctrl key on your keyboard and pressing the F key. This will bring up the Search box which will allow you to key in a word or phrase and search for it throughout the document.
- The Contents index above is linked to each section within this document. So, if you click on the heading or subheading within the index that corresponds with the section you would like to review you can simply click on the heading or subheading and you will be taken to that section.

# 3. Users

## A) Add New User

To add a new User, simply click on the blue + User button.

| Home / Admin              |                |                              |           |
|---------------------------|----------------|------------------------------|-----------|
| Profile                   | Users + User   |                              |           |
| Dealer Address            | Name           | Email                        | Activated |
| Users                     | Scott Aaenson  | saaenson@test.com            | •         |
| W-9 Info / Vendor Request | Doug Abbott    | dabbott@test.com             | *         |
| Email Preferences<br>Help | Terry Baughman | tbaughman@forestriverinc.com | ~         |
| nop                       | Roger Beiler   | rbeiler@forestriverinc.com   | <b>v</b>  |
|                           | Zack Boseak    | zboseak@forestriverinc.com   | <b>v</b>  |
|                           | Melissa Brace  | mbrace@forestriverinc.com    | *         |

A new window will appear that will ask for the new User's **First Name**, **Last Name**, and **Email**. You will also choose a **Primary Role**, such as Parts Clerk, Service Writer, etc. You can use several pre-filled templates to change the User's privileges all at once, or you can pick and choose which privileges the new User has access to, can Read, or can Update. Once you made all of your selections for the new User, you can click on the blue **Save** button; or if you decide not to add the new User, click on the grey **Close** button.

## i) Templates

There are several templates to choose from and each of them provide different privileges. The templates that are available are **Dealer Administrator**, **Parts and Warranty Administrator**, **Parts Clerk**, **Warranty Clerk**, **Salesperson**, **Service Technician**, and **SPIFF Manager**. These templates provide the following privileges:

- **Dealer Administrator** This template gives the User access to all privileges with an Update privilege level.
- **Parts and Warranty Administrator** This template gives the User access to all privileges regarding parts and warranty with an Update privilege aside from Links Contacts, Retail Registration Form, and Setup Dealer Address Grid which are at a Read privilege level. All other privileges are disabled.
- **Parts Clerk** This template gives the same privileges as Parts and Warranty Administrator but restricts the warranty privileges to Read privilege level.
- Warranty Clerk This template also gives the same privileges as Parts and Warranty Super User but restricts the parts privileges to Read privilege level.
- Salesperson This template gives privileges to access and search within several areas but no access to Part
  Orders or Claims and Read privilege level for some of the search functions. In addition this template will allow
  for Update privilege level to SPIFF Grid, SPIFF Register Form, and Unit Invoices.
- Service Technician This template gives Read privilege level for most warranty and parts functions but no Update privileges for submitting claims or part orders. All other privileges are disabled.

| TITLE:                                 | Training Doc No. | Page    |
|--|------------------|---------|
| FRDC – User Setup (Administrator Only) | DC-USERSETUP1    | 8 of 13 |

• **SPIFF Manager** – This template gives limited access to parts and warranty functions at a Read privilege level but gives Update privilege level for all SPIFF and Setup functions.

## ii) Manufacturer Admin

In addition to being able to add Users for your dealership you can also add a Manufacturer Admin which will allow a Forest River Employee to access your dealership's account and help with issues that might arise. To do this you would click on the blue **+ User** button.

| Home / Admin              |                |                              |           |
|---------------------------|----------------|------------------------------|-----------|
| Profile                   | Users + User   |                              |           |
| Dealer Address            | Name           | Email                        | Activated |
| Users                     | Scott Aaenson  | saaenson@test.com            | ~         |
| W-9 Info / Vendor Request | Doug Abbott    | dabbott@test.com             | *         |
| Email Preferences<br>Help | Terry Baughman | tbaughman@forestriverinc.com | ~         |
|                           | Roger Beiler   | rbeiler@forestriverinc.com   | *         |
|                           | Zack Boseak    | zboseak@forestriverinc.com   | ~         |
|                           | Melissa Brace  | mbrace@forestriverinc.com    | *         |

From there you would enter the Manufacturer Admin's information and set the Primary Role as Manufacturer Admin. You can then choose from one of the templates or designate which permissions the Manufacturer Admin will have manually.

## C) Disable User

To disable a User's access, click on the white **Disable User** Icon, which is denoted by the pause sign. Common reasons for disabling a User's access would be if they went on administrative, medical, or maternity/paternity leave.

| Users + User      |                              |           |         |            |  |
|-------------------|------------------------------|-----------|---------|------------|--|
| Name              | Email                        | Activated | Enabled | Last Login |  |
| Scott Aaenson     | saaenson@tesLcom             | *         | *       | 10/30/2018 |  |

If you would like to re-enable the User's access, simply click on the same icon, which should now be **Enable User**, and is denoted by a play sign.

## D) Delete User

To delete a User's profile, click on the red **Delete User** Icon denoted by an **X**. The most common reason for deleting a User would be if they were terminated or left the organization.

| Users + User      |                              |           |         |            |                      |

# E) Resend Activation Email to User

When you first set up a new User an activation email will be sent to them. If the User does not receive the activation email check to make sure the email is correct and then click on the green Replay button to re-send the activation email.
