Times are changing

We live in a fast changing world. Almost every day new inventions and innovations are being spread upon us. Even in our world of data storage we are confronted with changes - in technology but also in the way people use storage.

Hard drives used to be linked only to computers, and an external hard drive was merely seen as a simple and effective way to add additional storage space. Lately we have seen external hard drives emerging in a totally new environment - the TV and settop box market.

Take a close look - you will see that almost every new TV has one or more USB ports. Not only for playing back content from an external hard drive or USB stick, but it is now also possible to record TV programmes via USB to an external hard drive.

With hard drive capacities becoming larger and larger, people are now able to record hundreds of hours of TV programmes onto one single hard drive. Surely you don't want to place just any standard external hard drive next to your TV.... you want it to look good and complement the design of your TV and your interior. We have just the drive for that purpose - the uniquely designed Mobile Drive Sq!

All this and more exciting new innovations in this brochure. Enjoy reading!

56074	4TB
56075	6TB
56072	Drive In Kit (no HDD inside)

Tonido Private Cloud

The Freecom SilverStore is equipped with Tonido Private Cloud. Tonido is a software and service that once installed on any computer (Windows, Linux or Mac), can make files and media in that computer available on any computer anywhere through a web browser or from mobile phones (iPhone, Android, Blackberry or Windows Phone 7).

It is a brand new way to access and share your files, media and other information with anyone around the world without having to upload to third-party sites first. With apps available for iPhone/iPod/iPad, Android™, Blackberry® and Windows Phone 7, we have you covered whichever mobile device you use.

The Tonido software does not upload your data onto external servers, but instead provides direct access to data on your computer.

- You have access to 100% of your files from anywhere
- You don't need to upload any files. All your files are directly served from your SilverStore
- Importantly, data stays with you on your SilverStore, providing complete privacy and control

USB Flash

Your wallet usually is the safe harbour for things that are valuable to you, things that you don't want to lose. Data these days also represent value. Photos, music, confidential files from work...

Exactly with this in mind we developed the USBCard. Thin enough to put in your wallet, large enough to hold all of your data. But there's more - Freecom offers many more USB Flash products. All small, cleverly designed and safe, like our new DataBar with its practical sliding mechanism.

STORAGE CAPACITY	 SONGS MP3	 PICTURES JPEG	 MOVIES DIVX/XVID
2GB	400	1.330	2
4GB	800	2.660	4
8GB	1.600	5.330	8
16GB	3.200	10.660	16
32GB	6.400	21.330	32
64GB	12.800	42.660	64

Definitions: 1GB = 1000MB - 1 MP3 song = approx. 5MB / 1 JPEG photo = approx. 1.5MB / 1 DVD movie = approx. 4.5GB / 1Xvid/DivX movie = approx. 1GB. Some of the hard drive capacity is used for pre-loaded software, formatting and other functions, and thus is not available for data storage. As a result, your operating system may report fewer gigabytes/terabytes.

Optical Drives

Gone are the days where it took 30 minutes to burn a CD or DVD. The Freecom DVD RW Recorders bring you the fastest writing speed currently available.

For netbook and notebook users we have the USB powered Mobile DVD RW II. And let's not forget our Blu-ray drives - ideal for data archiving. Fast and reliable, no compromises on quality but still very affordable. True winners!

Freecom recommends Verbatim CD / DVD / Blu-ray recordable media.

8x SLIMLINE DVD RW DRIVE

Compact and lightweight drive, perfectly suited for netbook & notebook users.

SUPER MULTI DRIVE
SUPPORTS ALL COMMON DVD/CD FORMATS

CREATE DVDs & CDs
BURNING SOFTWARE INCLUDED

MOBILE DVD RW II SLIMLINE DVD RW DRIVE / USB 2.0

The perfect optical storage upgrade

More and more notebook vendors choose to leave the optical drive out of their notebooks. CD's and DVD's are however one of the most commonly used media types in the world.

Freecom has the solution. The Mobile DVD RW II is a super small external CD/DVD drive, barely larger than a CD and therefore easy to carry with you.

Art.-Nr. 33516 Mobile DVD RW II

BLU-RAY REWRITER

Store up to 50GB of data on a single Blu-ray disc, access large data archives on Blu-ray discs.

MULTI FORMAT DRIVE
BLU-RAY, DVD, DVD-RAM, CD

CREATE BDs, DVDs & CDs
BURNING SOFTWARE INCLUDED

BLU-RAY REWRITER (PRO) BD-R(E) DRIVE / DVD RW DRIVE / USB 2.0 / FIREWIRE

Blu-ray Rewriter

For recording large data archives or high definition content a DVD may not be enough. With HD becoming more and more mainstream, you require a larger capacity disc. Enter Blu-ray - Blu-ray media can hold up to 50GB data, more than enough to store HD movies or large data archives. Upgrade your computer to the latest optical drive technology with the external Freecom Blu-ray Rewriter.

Next to recording Blu-ray discs it is also a standard DVD rewriter.

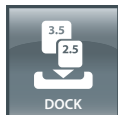

Art.-Nr.
35011 Blu-ray Rewriter (USB 2.0)
35012 Blu-ray Rewriter Pro (U&F)

Accessories

Our hard drive product line-up is not complete without clever and practical accessories. All designed and developed with one thing in mind: ease-of-use. From tailor-made external hard drive protection sleeves to multi-interface docking stations for your internal hard drive – we know how to make your digital life just that little bit easier.

Hard Drive Dock Duplicator, see p. 43

DOCKING STATION

High speed docking station for 2.5" and 3.5" internal SATA hard drives - easy and safe way to connect and access your internal hard drive.

FOR 3.5" SATA HARD DRIVES

FOR 2.5" SATA HARD DRIVES

HARD DRIVE DOCK 3.0

DOCKING STATION / 2.5" & 3.5" SATA / USB 3.0

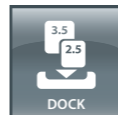

From internal to external in 1 click!

The Freecom Hard Drive Dock 3.0 is the easiest and fastest way to use your internal 2.5" or 3.5" SATA hard drive as an external one. Simply connect the Dock to your computer via USB, click your internal hard drive in the dock and have instant access to the data on the drive.

No hassle, no screws needed, no software installation required.

Art.-Nr. 56137 Hard Drive Dock 3.0

DOCKING STATION PRO

Docking station for 2.5" and 3.5" hard drives - easy and safe way to connect and access your internal hard drive.

FOR 3.5" & 2.5" HARD DRIVES

FOR SATA & PATA (IDE) HARD DRIVES

HARD DRIVE DOCK PRO

DOCKING STATION / 2.5" & 3.5" SATA & PATA (IDE) / USB 2.0

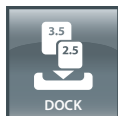

Docking station for SATA and PATA drives

Do you have an older hard drive laying around after a system upgrade? Are you a system administrator who needs to install multiple hard drives?

The Freecom Hard Drive Dock Pro provides the solution: a docking station that turns any internal 2.5" and 3.5" SATA and PATA hard drive into an external drive. Simply click your internal hard drive in the dock, and it instantly becomes available to you as an external USB 2.0 device on your computer.

Art.-Nr. 33708 Hard Drive Dock Pro

DOCKING STATION QUAD INTERFACE

Docking station for 2.5" and 3.5" hard drives - easy and safe way to connect and access your internal hard drive.

4 INTERFACES
USB 2.0 / FIREWIRE 800 & 400 / eSATA

NO FAN - NO NOISE
SILENT OPERATION

HARD DRIVE DOCK QUATTRO

DOCKING STATION / 2.5" & 3.5" SATA / USB 2.0 / FW 800 & 400 / eSATA

Ultra flexible docking station

The Freecom Hard Drive Dock Quattro is a docking station that turns any internal 2.5" and 3.5" SATA hard drive into an external drive. Simply click your internal hard drive in the dock, and it instantly becomes available to you. It will show up as a separate driveletter in your operating system, just like any other external device that you connect to your computer.

To provide you the ultimate flexibility, the Hard Drive Dock Quattro is equipped with USB 2.0, FireWire800, FireWire400 and eSATA interfaces.

HARD DRIVE DUPLICATOR

Hard drive duplicator for 2.5" and 3.5" hard drives. Copy files - data from one hard drive to another without the use of a computer.

ONE TOUCH DATA COPY
EASY TO USE

STAND ALONE COPYING
NO COMPUTER NEEDED

HARD DRIVE DOCK DUPLICATOR

DOCKING STATION / 2.5" & 3.5" SATA / USB 2.0

Copy data in one touch!

The Freecom Hard Drive Dock Duplicator is a 2 bay hard drive dock that enables you to copy data from one hard drive to another without the use of a computer. Simply click your hard drives into the duplicator, press the button and your hard drive will be copied. Ideal for professionals such as System administrators to copy drive images quicker, easier and safer than before.

Home users will also benefit from the copy function when upgrading to a bigger hard drive or simply using the Dock functionality.

FLOPPY DISK DRIVE

The 1.44MB floppy disk is still one of the most used media types in the world!

POWER VIA USB PORT
NO POWER ADAPTER NEEDED

PLUG & PLAY
FOR ANY PC - FAST AND EASY

FLOPPY DISK DRIVE

FLOPPY DISK DRIVE / 3.5" / USB

Still one of the most used media types

Nowadays, most computers and notebooks are shipped without a floppy drive. That's where the Freecom USB Floppy Disk Drive comes in. Small files like drivers, software updates, patches for operating systems, anti-virus updates and boot-diskettes are still being shipped on floppy disks.

Also, a lot of people still have old text files, spreadsheets, pictures etc saved on floppy disks. So there will always come a time when you need a floppy drive for a software update, to access some of your old data, or you need a diskette to quickly save a small file on.

Professional Storage

For business backups we offer the full range of internal and external tape drives - still one of the most used and most reliable professional backup methods - as well as the RDX hard drive based removable backup system.

No matter the size of your business or the size of your backups, there will always be a reliable Freecom backup solution to match your requirements.

LTO, see p. 49

REMOVABLE STORAGE

Removable backup system for small and medium sized businesses.

SIMPLE, SMART AND SAFE
EASY BACKUPS

FLEXIBLE SOLUTION
EXPANDABLE STORAGE SPACE

RDX

REMOVABLE HARD DRIVE STORAGE / 2.5" / USB 2.0 / SATA

Removable HDD backup System

The RDX removable system makes your data backup easier, faster, more reliable and more secure. It uses a rugged, removable disk cartridge and docking station that backs up just like a tape drive. Yet its speed makes it a smart replacement to tape storage.

Cartridge capacities range from 160GB to 1TB, making storage options extremely flexible. You will never run out of storage space, simply add more removable cartridges as your data needs expand.

LTO TAPE STORAGE

Ultra reliable storage, based on industry leading HP LTO technology.

INTERNAL & EXTERNAL
SCSI AND SAS CONNECTIONS

DATA ENCRYPTION
256 BIT AES

LTO

TAPE BACKUP SOLUTIONS / INTERNAL & EXTERNAL / SCSI / SAS

Removable HDD backup System

Tape is still the most used backup system in professional enterprise environments.

The Freecom LTO Tape Drives represent five-generations of LTO tape drive technology capable of storing up to 3TB per cartridge, with AES 256-bit hardware data encryption to protect the most sensitive data and prevent unauthorized access of tape cartridges, and at the same time at an unprecedented performance - our LTO-5 drives are capable of data transfer rates up to 280 MB/sec.

THE BEST SERVICE AND SUPPORT

In case you have questions or need technical assistance for your Freecom product, you can be sure that you receive the best possible support from us.

- Our service centers are available per telephone (local phone rates) or e-mail, during standard office hours
- No matter if your product is in or out of warranty – we will always assist you
- We use an unmatched RMA system ensuring hassle-free repair or replacement
- Free shipping* to and from our repair center
- We always try to retrieve your data in case the storage device itself is not damaged
- You receive regular status updates and tracking information per e-mail

* EU only

MORE THAN 20 YEARS OF STORAGE EXPERIENCE

Freecom has been an innovator of external storage solutions since 1989.

Some milestones:

- **1989** Introduction of parallel port tape streamers
- **1997** Introduction of “multi-connect” interface technology
- **2003** Introduction of world’s first external hard drive with synchronization button
- **2006** Introduction of the ToughDrive, the first shock resistant external mobile hard drive
- **2007** Introduction of the world’s smallest 2.5” mobile solution, the Mobile Drive XXS
- **2009** Introduction of the Hard Drive XS 3.0, world’s first external USB 3.0 hard drive
- **2010** Introduction of the Mobile Drive Mg, first mobile hard drive in magnesium enclosure
- **2011** Introduction of unique meta-organic designed Mobile Drive Sq
- **2012** To be continued.....

Find all milestones on www.freecom.com/Company/Milestones.

RESPONSIBLE FREECOM

Freecom strongly believes it is our moral duty to execute our business with creating the least possible strain on our environment.

A few examples:

- Use as many recycled raw materials as possible
- We have invested R&D resources in perfecting the USB powering technology, which resulted in low power consumption products and eliminating the need to ship our mobile hard drives with external power supplies
- Our hard drives are shipped with the ‘Green Button’ application which controls the power consumption of your Freecom hard drive
- Limit the amount of printed user-manuals; these are pre-installed in digital format on the hard drive itself
- Reduce our packaging sizes as much as possible, thereby minimizing the amount of waste

GLOBAL FOOTPRINT

With branch offices in EUMEA, APAC and AMERICAS, Freecom has a strong global presence.

The acquisition of Freecom by Mitsubishi Kagaku Media in 2009 has strengthened Freecom’s global footprint. We make use of a global distribution and logistics network as well as combining strengths in developing new and exciting products.

Being part of Mitsubishi Chemical Holdings Group also means we follow and adhere to our mother company’s long term strategy and vision, summarized in the ‘Kaiteki’ principle.

‘Kaiteki’, which traditionally means ‘comfort’ or ‘ease’ in Japanese, represents the global quality of life that will be made possible through sustainable technologies and through breakthrough scientific advances in human healthcare.

OUTSTANDING DESIGN

Since storage products are now a part of our everyday life, we believe that, next to obviously doing the job that they were created for, they should also look stunning, anywhere.

Freecom always teams up with up and coming industrial designers to create functional products that stand out from the crowd.

Some of the designers we work with include:

- **Blitzen**
Berlin, Germany
- **Sylvain Willenz**
Brussels, Belgium
- **Arman Emami**
Berlin, Germany
- **FLEX / the INNOVATIONLAB®**
Delft, The Netherlands
- **Niels in Vorm & EigenID**
Rijswijk, The Netherlands

MAKE YOUR DIGITAL LIFE EASIER

Every Freecom hard drive is shipped with software tools and apps to make your digital life just that little bit easier!

- Backup software which ensures that all your files are safely backed up
- Energy saving ‘Green Button’ app, which controls the power consumption of your drive
- FHD formatter app, for easy re-formatting of your hard drive, should you want to do so
- Network storage assistant to configure the basic settings of your device, smart and simple

Freecom always strives to be at the forefront of any new technology. We will keep on adding new software tools and apps - such as Online Backup and Private Cloud Software - to our products to make your digital life always that little bit easier!

Depending on type of HDD not all of the above listed software titles may be present on the drive.
