

Appendix B Comprehensive Species List

A comprehensive list of species (including plant, macro-lichen, bird, insect, and animal species) that have population or habitat concerns and that are found in Texas, New Mexico, and Oklahoma was developed. This list includes 1,655 species and was developed using:

1. Lists maintained under the Ecological Services Agency of the U.S. Fish and Wildlife Service (US FWS 2007a, US FWS 2007b, US FWS 2007c),
2. Species ranks maintained by NatureServe (US FWS 2007b),
3. New Mexico, Texas, and Oklahoma State lists (NMDGF 2006a, ODWC 2007, TPWD 2007a, CWCS priority lists),
4. Species for which there are local concerns resulting from declines in habitat, population, and/or distribution (ODWC 2005, NMDGF 2006b, TPWD 2007b),
5. Species that are of high public interest, and
6. Species that have emerging issues (such as invasive species).

Taxon: A = amphibian, B = bird, C = crustacean, F = fish, In = insect, L = lichen, Lv = liverwort, M = mammal, Mo = moss, Ms = mussel, P = plant, R = reptile, Sp = spider
