<p>Conservation Reserve Program Cost Share and Practice Incentive Payments 6-CRP</p>	<p>Amendment 1</p>
---	---------------------------

Approved by: Acting Deputy Administrator, Farm Programs

Amendment Transmittal

A Reason for Issuance

This handbook provides automation procedure for Cost Share and Practice Incentive Payments for the Conservation Reserve Program.

Table of Contents

Page No.

Part 1 General Information

1 Handbook Coverage.....	1-1
2 Responsibilities.....	1-2
3 Receipt for Service (RFS).....	1-3
4 Submitting CSS Issues.....	1-4
5-19 (Reserved)	

Part 2 CRP CSS

20 General Information.....	2-1
21 Accessing CRP CSS.....	2-2
22 Cost Share – Program Selection.....	2-3
23 CRP Home.....	2-5
24-29 (Reserved)	

Part 3 Cost Share

Section 1 New Application

30 Application Signup – Applicant Information.....	3-1
31 Application Signup – Add Contributors.....	3-6
32 Application Signup – Documentation.....	3-8
33 Application Signup – Add Practices.....	3-10
34 Application Signup – Add Practice Components.....	3-13
35 Application Signup – Add Contributors – Share Designation.....	3-16
36 Application Signup – Practice Summary – Confirmation.....	3-19
37 Application Signup – Practice Summary – Finalize.....	3-21
38 Application Signup – Additional Information – Eligibility.....	3-23
39 Application Signup – Additional Information – Confirmation.....	3-25
40-49 (Reserved)	

Section 2 Edit Application

50 Edit Applications.....	3-101
51-59 (Reserved)	

Table of Contents (Continued)

Part 3 Cost Share (Continued)

Section 3 Agreement Approval

60	Agreement Approval – Search Results	3-201
61	Agreement Approval – Assign ID	3-203
62	Agreement Approval – Approval Data	3-204
63	Application Signup – Component Rate Practice Approval	3-207
64	Application Signup – Component Rate Practice Approval Summary	3-210
65	Agreement Approval – Approval Date	3-212
66	Agreement Approval – Confirmation	3-216
67	Agreement Approval – Eligibility Information	3-218
68	Agreement Approval – Eligibility Success	3-220
69	Agreement Disapproval – Information	3-222
70	Agreement Approval – Partial Disapproval	3-224
74-79	(Reserved)	

Section 4 Un-submit Application

80	Un-Submit Application	3-301
81	Application Signup – Un-submit	3-303
82-89	(Reserved)	

Section 5 Inactivate Application

90	Inactivate Application	3-401
91	Application Signup – Inactivate	3-403
92	Application Signup – Inactivate Confirmation	3-405
93-99	(Reserved)	

Section 6 Application Search

100	Application Search Criteria	3-501
101	Application Search Results	3-507
102	Application Search Results Practice Summary	3-509
103	Application Search Results – Edit Application Column	3-515
104	Application Search by Practice Status	3-517
105-119	(Reserved)	

Table of Contents (Continued)

Part 3 Cost Share (Continued)

Section 7 View/Print Forms and Letters

120	View/Print Forms.....	3-601
121	View Print Form Results.....	3-603
122-129	(Reserved)	

Part 4 Performance and Payment

Section 1 Certification

130	Search Agreements for Certify and Pay.....	4-1
131	Certify and Pay Search Results.....	4-3
132	Agreement Summary Screen	4-5
133	Practice Summary Screen	4-7
134	Create New Producer Certification – Component Rate Practice	4-10
135	Producer Certification Confirm – Component Rate Practice	4-14
136	TSP Certification	4-17
137	TSP Certification Confirmation.....	4-24
138-140	(Reserved)	

Section 2 Certify & Pay

141	Search Agreements for Certify & Pay	4-101
142	Certify & Pay Search Results	4-103
143	Certify and Pay Main.....	4-107
144	Certify and Pay Main – Confirmation	4-110
145-150	(Reserved)	

Section 3 View & Print Existing Certifications

151	Existing Certifications	4-201
152	View Existing Certifications from Search Results	4-209
153	View Existing Certifications and Payments from Manage PIP Screen	4-213
154-159	(Reserved)	

Table of Contents (Continued)

Part 4 Performance and Payment (Continued)

Section 4 Retry Payment

160	Retry Payment Results	4-301
161	Retry Payment.....	4-303
162	Retry Payment Confirmation	4-307
163	Failed Retry Payment.....	4-309
164-169	(Reserved)	

Section 5 Manage PIP

170	Managing PIPs	4-401
171	Manage PIP.....	4-403
172	Issuing Final PIP Payment.....	4-407
173	Managing Final PIP Payments when Revising Agreements.....	4-409
174	Issuing Final PIP Payment when a participant is removed from CRP-1	4-410
175	Managing Final PIP for Revisions Where Producer is Not Removed.....	4-413
176	Issuing Final PIP Payment for Previously Revised Agreements.....	4-415
177-179	(Reserved)	

Part 5 Agreement Maintenance

Section 1 Revise Agreement

180	Search Agreements for Revision	5-1
181	Revise Agreement Search Results	5-3
182	Workflow for Revising a Contract.....	5-5
183	Revise Contract – Prior Payments	5-10
184-189	(Reserved)	

Table of Contents (Continued)

Part 5 Agreement Maintenance (Continued)

Section 2 Workflow for Revise Path

190	Revise Path.....	5-101
191	Revise Agreement – Applicant Information	5-103
192	Revise Agreement – Add Contributors	5-105
193	Revise Agreement – Agreement Approval Data	5-107
194	Revise Agreement – Add Practices.....	5-109
195	Revise Agreement – Add Practice Components.....	5-112
196	Revise Agreement – Component Rate Practice Approval.....	5-116
197	Revise Agreement– Component Rate Practice Approval Confirmation	5-119
198	Revise Agreement – Assign Project Area ID	5-122
199	Revise Agreement – Funds Requested and Approved.....	5-124
200	Revise Agreement – Contract Summary.....	5-126
201	Revise Agreement – Revision Complete	5-128
202-209	(Reserved)	

Section 3 Workflow for Finalize Path

210	Finalize Path.....	5-201
211	Revise Agreement (Finalize) – Applicant Information	5-203
212	Revise Agreement (Finalize) – Add Contributors	5-205
213	Revise Agreement (Finalize) – Documentation.....	5-207
214	Revise Agreement (Finalize) – Practice Summary – Finalize	5-209
215	Revise Agreement (Finalize) – Add Practices	5-211
216	Revise Agreement (Finalize) – Add Practice Components	5-214
217	Revise Agreement (Finalize) – Add Contributors – Share Designation.....	5-217
218	Revise Agreement (Finalize) – Practice Summary – Confirmation	5-220
219	Revise Agreement (Finalize) – Additional Information – Eligibility	5-223
220	Revise Agreement (Finalize) – Additional Information – Confirmation.....	5-225
221	Revise Agreement (Finalize) – Assign ID	5-226
222	Revise Agreement (Finalize) – Approval Data.....	5-228
223	Revise Agreement (Finalize) – Component Rate Practice Approval	5-231
224	Revise Agreement (Finalize) – Component Rate Practice Approval Summary..	5-234
225	Revise Agreement (Finalize) – Approval Date.....	5-236
226	Revise Agreement (Finalize) – Confirmation.....	5-238
227	Revise Agreement (Finalize) – Eligibility Information	5-240
228	Revise Agreement (Finalize) – Eligibility Success	5-241
229-239	(Reserved)

Part 1 General Information

1 Handbook Coverage

A Purpose

This handbook provides automation procedure for administering CSS applications and agreements for CRP.

B Authority and Responsibilities

PDD has the authority and responsibility for the instructions in this handbook.
 CD has the authority and responsibility for cost share (C/S) policy in the CRP.

C Related FSA Handbooks

The following FSA handbooks are related to the CRP cost share application.

IF the area of concern is about...	THEN see...
audits and investigations	9-AO.
program appeals	1-APP.
document retention period	32-AS.
approved abbreviations, signatures, and authorizations	1-CM.
CRP policy and procedure	2-CRP.
assignments and joint payees	63-FI.
payment limitations for crop years before 2009	1-PL.
web-based subsidiary files	3-PL.
payment eligibility, payment limitation, and average adjusted gross income for 2009 through 2013 crop years	4-PL.
payment eligibility, payment limitation, and average adjusted gross income for 2014 through 2020 crop years	5-PL.
payment eligibility, payment limitation, and average adjusted gross income for 2021 and subsequent crop years	6-PL.

2 Responsibilities

A Background

The responsibilities described in this paragraph are in addition to the responsibilities in applicable CRP handbooks.

B Office Responsibilities

The following table describes the responsibilities of each office for CSS activity.

Office	Responsibilities
PDD	Implement web-based processes to support CSS functions in State and County Offices. Provide procedural assistance to State Offices on data entry requirements and software operations.
CD	Provide program policy and procedure for CRP cost share to State and County Offices. Responds to State Office requests for CRP program guidance, requests for waivers, or requests for application of equitable relief or finality, as applicable.
State Offices	Provide application training to County Offices. Provide procedural assistance to County Offices on data entry requirements and software operations.
KC-ITSD	Develops software and provides technical assistance to PDD.

3 Receipt for Service (RFS)

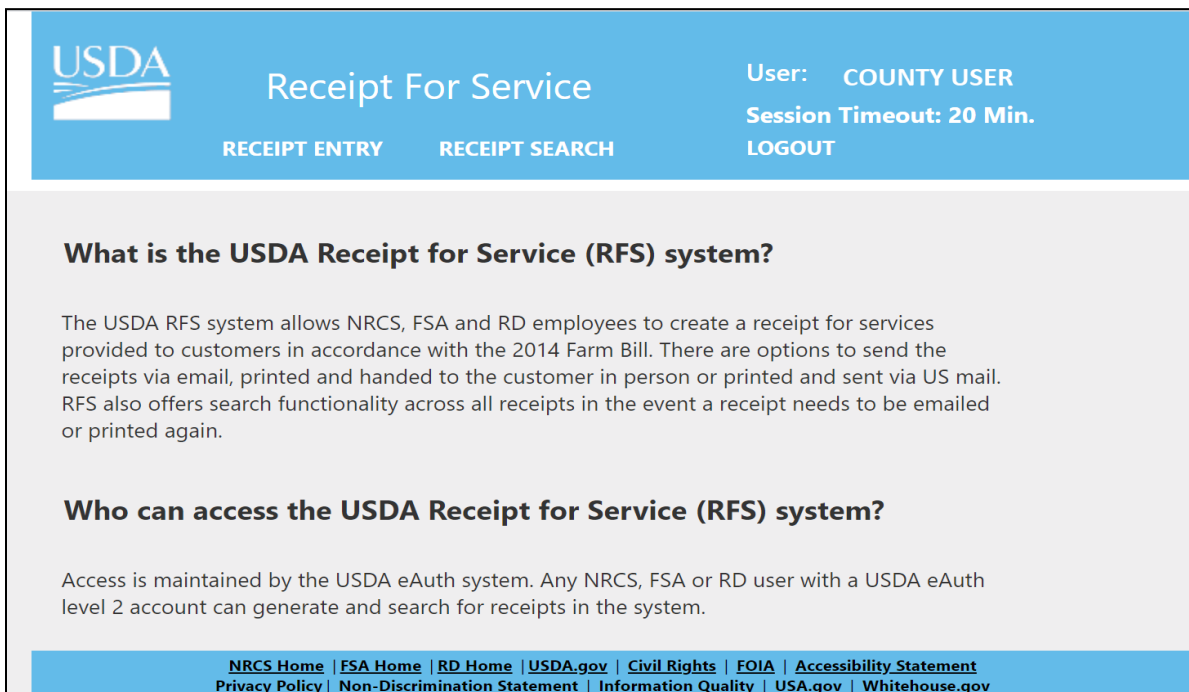

A Overview

1-RFS provides policy for RFS, and all CSS activity should be documented using RFS-Receipt for Service.

Note: RFS-Receipt for Service training materials can be found on the DAFP Internet site.

B Example of Receipt for Service Screen

The following is an example of the Receipt for Service Screen.

C Action

Access the RFS application according to the following table.

Step	Action
1	Access the FSA Applications Intranet Screen at https://intranet.fsa.usda.gov/fsa/applications.asp .
2	Under “FSA Applications”, “Applications Directory”, CLICK “P-Z”.
3	CLICK “RFS – Receipt for Service”.

4 Submitting CSS Issues

A Overview

County Offices are to report issues to their State Office Specialist. If the specialist is unable to resolve the issue, the State Office Specialist should submit the issue to the Farm Programs Software Issues SharePoint site at https://usdagcc.sharepoint.com/sites/fsa-dafp-disaster/Payment_Issues/SitePages/Home.aspx.

Note: The PDD Software SharePoint site is only for State Office Specialists and the National Office. County Offices must **not** request access.

B Providing State Office Access to the PDD Software Issues SharePoint Site

State Office Specialists can request access to the PDD Software Issues SharePoint site by access the site using the link, and if denied access, submit a request to be granted access.

5-19 (Reserved)

Part 2 CRP CSS

20 General Information**A Overview**

CSS is a web-based software that automates the process of obtaining an agreement for FSA customers (producers) to implement conservation practices and receive cost share payments.

CRP CSS allows automated processing of CRP cost share applications, certifications, and payments.

B Functionality

Follow the instructions in this handbook when using CRP CSS to accomplish automated functions for the following CRP CSS activities:

- applications
- certifications
- payments
- maintenance.

C Application, Agreement, and Obligations

In this Handbook:

- Application means an FSA-848 or FSA-848A that has not been approved by COC or CED
- Agreement means an FSA-848A that has been approved by COC or CED.

CRP CSS obligations are handled through two separate systems depending on the original CRP-1 approval date. The different systems are:

- eFMS, Electronic Funds Management System for CRP-1's approved before October 1, 2020
- COF, Common Obligation Framework for CRP-1's approved on or after October 1, 2020.

21 Accessing CRP CSS

A Overview

All CRP CSS functions:

- are automated within the web-based software
- can only be updated by FSA employees with eAuthentication Level II certification.

B Authorized Users

The system allows the following users access to the CSS system.

National Authorized users will be able to access and perform all cost share functions to all CRP cost share applications nationwide.

State Authorized users will have full access to all CRP cost share applications within their State. Although designated State Office users have the capability to edit applications, this access does not constitute authority to create, edit, or inactivate CSS applications. State Office users must use discretion within CSS software as STO users have full county office functionality.

County users with authorized access in CSS will be able to fully utilize CRP CSS within their assigned counties.

C Accessing CRP CSS

Access the CRP CSS according to the following table.

Step	Action
1	Access the FSA Applications Intranet Screen at https://fsaintranet.sc.egov.usda.gov/fsa/applications.asp .
2	Under “FSA Applications”, “Applications Directory”, CLICK “A-C”.
3	CLICK “Conservation CSS - Cost Share Software”.

22 Cost Share – Program Selection

A Overview

The Cost Share – Program Selection Screen is used to navigate between the different programs that use the CSS.

B Example of Cost Share – Program Selection Screen

The following is an example of the Cost Share – Program Selection Screen.

The screenshot displays the USDA Farm Service Agency website interface for the Cost Share Program Selection screen. At the top, the USDA logo and 'United States Department of Agriculture Farm Service Agency' are visible, along with the page title 'Cost - Share'. A navigation bar contains links for Home, About, Help, Contact Us, Exit, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Program' and 'Select Program for cost share'. It includes a dropdown menu for 'Select Program' and a 'Continue' button. The page also features a footer with various links and a 'Back to Top' link.

C Action

From the Cost Share – Program Selection Screen:

- using the drop-down menu, select “CRP”
- CLICK “Continue”.

22 Cost Share – Program Selection (Continued)

D Example of Cost Share – Program Selection Screen for Multi-County Users

Users associated with multiple counties will need to select the applicable State and county before proceeding.

The screenshot shows the USDA Farm Service Agency website interface. At the top left is the USDA logo and the text "United States Department of Agriculture Farm Service Agency". At the top right is the text "Cost - Share". Below the header is a navigation bar with links: Home, About, Help, Contact Us, Exit, and Logout of eAuth. A status message on the right says "You are logged in as a County user".

The main content area is titled "Program" and "Select Program for cost share". It includes a note: "All required fields are denoted by an asterisk {**}". There are three required fields, each with a drop-down menu:

- * Select Program :
- * State :
- * County :

Below these fields is a "Continue" button. At the bottom of the form area, the text "ProgramSelect01" is visible on the left and "Back to Top ^" on the right. The footer contains various links: Home | FSA Internet | FSA Intranet | USDA.gov | Site Map | Policies and Links | FOIA | Accessibility | Privacy | Non-Discrimination | Information Quality | FirstGov | White House.

E Action

From the Cost Share – Program Selection Screen:

- using the drop-down menu, select “CRP”
- using the drop-down menu, select State
- using the drop-down menu, select County
- CLICK “Continue”.

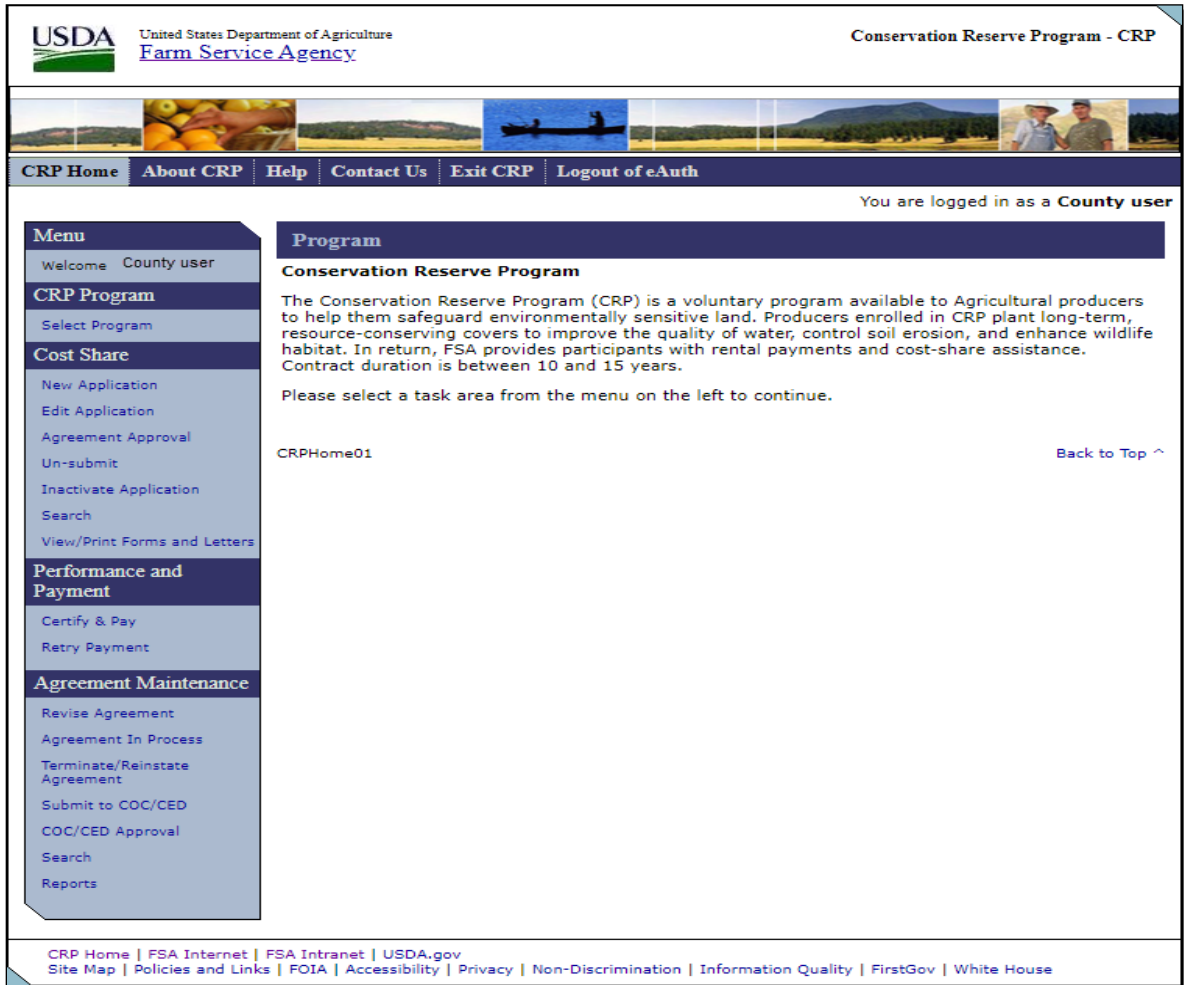

23 CRP Home

A Overview

After the user has selected CRP from the Cost Share Program Selection Screen, the CRP Home Screen is displayed.

B Example of CRP Home Screen

The following is an example of the Conservation Reserve Program Home Screen.

23 CRP Home (Continued)

C Field Description and Actions

The following table provides the fields, descriptions, and actions for the left navigation menu on the CRP Home Screen.

Left Navigation Option	Description/Action
CRP Program	
Select Program	Provides the ability to select or change the program.
Cost Share	
New Application	<p>Provides the ability to create a new application with producer, farm/tract/field practice, and technical practice.</p> <p>Note: FSA-848 is used to document applications and is considered the cost share request; however, either “application” or “FSA-848” will be used based on the reference in the software to avoid confusion.</p>
Edit Application	<p>Provides a list of applications in “Incomplete” status that may be edited.</p> <p>Note: Some agreements that are in the process of being revised will show in this list. These are easily identified by the alpha suffix at the end of the control number.</p>
Agreement Approval	<p>Provides a list of applications ready for COC approval.</p> <p>Note: User can also approve an agreement from within the New Application process if application does not require edits.</p>
Un-submit	Provides a list of “Complete” applications that may have the request for approval un-submitted, and the status reverted to “Incomplete.”
Inactivate Application	Provides a list of applications that may be inactivated before approval. Once inactivation has been completed, the record will be permanently disabled, will no longer be accessible by the user, and will be unable to be reinstated.
Search	<p>Used to search for an application.</p> <p>Note: Agreements (approved applications) will also display in the application search results, but application search results will not contain editing links for agreements.</p>
View/Print Forms and Letters	Used to access forms/letters. Existing certifications can also be viewed, and the Report of Certifications and Payments printed.

23 CRP Home (Continued)

C Field Description and Actions (Continued)

Left Navigation Option	Description/Action
Performance and Payment	
Certify & Pay	Used to: <ul style="list-style-type: none"> • enter producer and TSP certification (self or TSP certify) • select and submit payment to process • certify practices not receiving a payment.
Retry Payment	Provides a list of agreements that contain a practice with a failed payment.
Agreement Maintenance	
Revise Agreement	Provides the ability to modify the producer, change shares, add additional components, increase, or decrease extent approved, and extend practice expiration date.
Agreement In Process	Provides a list of agreements that are in the process of being revised that a user can select and finish or cancel the revision.
Terminate/ Reinstate Agreement	Provides the ability to terminate existing approved agreements by selecting “Terminate,” or agreements may be reinstated after termination by selecting “Reinstate.” Note: During the process of reinstating an agreement, those agreements will also be shown as an agreement in process.
Submit to COC/CED	Provides the ability to complete a revision and submit the revised agreement for COC/CED approval.
COC/CED Approval	Provides the ability to enter COC/CED approval for revised and reinstated agreements.
Search	Used to search for an agreement.
Reports	Provides the ability to select reports to view.

24-29 (Reserved)

Part 3 Cost Share

Section 1 New Application

30 Application Signup – Applicant Information

A Overview

After user clicks “New Application” from the Cost Share menu on the CRP Home Screen, the Application Signup – Applicant Information Screen is displayed. This Screen is used to create a new application and select the producers to be associated with the new application.

Users creating applications that do not require edits or inactivation, may create the application, and proceed to COC/CED approval through the New Application link. Scenario in the New Application section of this handbook assumes edits will be made before approval.

If edits are required within the application process before COC/CED approval, see [paragraph 50](#) for Edit Application instructions. After edits are complete, see [paragraph 60](#) for Agreement Approval instructions.

If application is submitted and COC/CED approves agreement, Edit Application will not be an option because the producer has an approved agreement and funds, if applicable, have been obligated to the agreement. User will be required to take steps to Revise the Agreement according to [Part 5 Agreement Maintenance](#).

B Example of Application Signup – Applicant Information Screen

The following is an example of the Application Signup –Applicant Information Screen.

The screenshot displays the 'Application Signup - Applicant Information' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right, it indicates 'You are logged in as a County user'. A left-hand menu includes options like 'Welcome County user', 'CRP Program', 'Cost Share', and 'New Application' (which is highlighted). The main content area features a title bar and a section for 'Following are the producer details.' Below this, a note states 'All required fields are denoted by an asterisk{*}'. The form includes:

- * State: Missouri (dropdown)
- * County: Johnson (dropdown)
- * Contract Number: [input field] Suffix: [input field]
- * Producers: [Retrieve Producers button] [Add Producer button]

 At the bottom, the page ID 'CRPCostShareAddProducer01' and a 'Back to Top ^' link are visible.

30 Application Signup – Applicant Information (Continued)

C Field Description and Actions

The following table provides the field descriptions and actions for the Application Signup – Applicant Information Screen.

Field/Button	Description/Action
State	County Office users associated with more than one State must select the administrative State for the CRP contract from a drop-down list. Drop-down menu is inactive for State and National users. State and National users are limited to the State selected on the program Screen during program selection.
County	County Office users associated with more than one County must select the administrative County for the CRP contract from a drop-down list. Drop-down menu is inactive for State and National users. State and National users are limited to the County selected on the program Screen during program selection.
Contract Number	Enter the CRP-1 contract number from CCMS.
Suffix	Enter the Contract Number Suffix for the active contract in CCMS, if applicable.
Retrieve Producers	<p>CLICK “Retrieve Producers” and the producers that are associated with the CRP-1 in CCMS are retrieved and displayed on the Application Signup – Applicant Information Screen.</p> <p>Notes:Producers who are not associated with the CRP-1 in CCMS will not be listed when selecting “Retrieve Producers.” Corrections to producers associated with the CRP-1 must be made in CCMS.</p> <p>All “Retrieved Producers” are not required to be an applicant on the cost share application. User shall remove any producer(s) who will not be certifying a practice complete or receiving cost share. See “Remove” in this table for further instructions.</p> <p>If the CRP contract is flagged as exempt from needing an FSA-848A the error message, "Source CRP contract is designated as cost share agreement exempt in CCMS and cannot receive cost share payments." is displayed and no further action will be available in CSS.</p>

30 Application Signup – Applicant Information (Continued)

C Field Description and Actions (Continued)

Field/Button	Description/Action
Add Producer	<p>The user has the option to CLICK “Add Producer.” The SCIMS Customer Search Screen is displayed. The SCIMS Customer Search Screen provides users with the ability to search SCIMS to find the applicable producer. See 1-CM for additional information on SCIMS.</p> <p>After user clicks an applicant’s link from the SCIMS search results, the Application Signup - Applicant Information Screen will be redisplayed with the selected applicant’s information.</p> <p>If the selected producer is not associated with the contract in CCMS, once “Continue” is selected and validations are run, system will display an Error message of “Producer(s) on this application does not match the producers on original application.” User must make corrections to producers associated with the contract in CCMS software.</p>
Select	<p>Designate a producer as primary applicant. Under the “Select” column, CLICK the “radio button” for the primary applicant.</p> <p>Primary applicant designates the name that will appear as the applicant name. The primary applicant will also receive correspondence pertaining to an approved agreement.</p> <p>If more than one applicant is listed and a primary applicant is not selected, user will receive the error message of “Please select primary applicant” when validations are run.</p>

30 Application Signup – Applicant Information (Continued)

C Field Description and Actions (Continued)

Field/Button	Description/Action
Remove	<p>Removes a producer.</p> <p>User shall remove any producer(s) who will not be certifying a practice complete or receiving cost share.</p> <p>Example: Joe Smith receives 100% and Jane Smith receives 0% of the shares on CRP-1. Joe Smith States that he will certify completion of practice, bear all expenses, and receive 100% cost share. User shall remove Jane Smith as an applicant for cost share. Agreement can be revised later to add Jane Smith to the agreement, if necessary.</p> <p>Note: If the application contains only a single producer, that producer cannot be removed. User must make corrections to producers in CCMS. Producers not associated with a contract in CCMS cannot be on a CRP cost share agreement.</p>
Continue	<p>Validations will run and if no errors are found the Application Signup – Add Contributors Screen is displayed. See paragraph 31.</p>

30 Application Signup – Applicant Information (Continued)

31 Application Signup – Add Contributors

A Overview

After selecting “Continue” on the Application Signup – Applicant Information Screen, the Application Signup – Add Contributors Screen is displayed. This Screen is used to enter field numbers for the land where practices will be applied.

B Example of Application Signup – Add Contributors Screen

The following is an example of the Application Signup – Add Contributors – Field Selection Screen.

Application Signup - Add Contributors

Following are the Producer/Contributor details.

All required fields are denoted by an asterisk{*}

Producer Farm Details						
* Producer(s)	Farm No.	Tract No.	* Field No.	State	County	
IMA PRODUCER	0009998	0001943	<input type="text" value="1"/>	29	101	
IMA PRODUCER ABC FARMS	0009999	0012085	<input type="text"/>	29	101	

Save & Continue Cancel

CRPCostShareAddContributors01 [Back to Top ^](#)

31 Application Signup – Add Contributors (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Contributors Screen.

Field	Description/Action
Producer(s)	Displays the producer(s) associated to the CRP-1.
Farm No.	Displays the farm(s) associate to the producer(s).
Tract No.	Displays the tract numbers of the farms.
Field No.	<p>Users should enter field numbers for all practices listed on the CRP-1 that require certification. CSS will interface with Farm Records to extract farm and tract number data associated with the Producer(s) on the CRP Contract.</p> <p>Note: There is no limit to the amount of field numbers that can be entered. If practices are being cost-shared on multiple fields, field number values should be separated by commas with no spaces.</p>
State	Displays the physical location State of the tract.
County	Displays the physical location County of the tract.
Save & Continue	After all applicable information has been entered, CLICK “Save & Continue” to display the Application Signup – Documentation Screen.
Cancel	CLICK “Cancel” to cancel and return to the “Application Signup - Applicant Information” Screen.

32 Application Signup – Documentation

A Overview

After the user selects Save & Continue from the Application Signup – Add Contributors Screen, the Application Signup – Documentation Screen is displayed. This Screen provides selection criteria for entering information pertaining to the specific Project Area ID for which the producer is applying.

B Example of Application Signup – Documentation Screen

The following is an example of the Application Signup – Documentation Screen.

The screenshot displays the 'Application Signup - Documentation' interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. Below this, a status bar indicates 'You are logged in as a County user'. The main content area is titled 'Application Signup - Documentation' and contains the following information:

- Control No :** 29_101_2022_0097 (An arrow points to this field with a callout box: 'Control No. Format: State Code County Code Fiscal Year(FY) FY Control Number')
- Creation Date :** 02/17/2022
- Applicant Name :** IMA PRODUCER
- Project Area ID :** 0
- Agreement Status :** INCOMPLETE
- Contract Number :** 11150

Below the information, there is a note: 'All required fields are denoted by an asterisk {*}'. A form field is labeled '* Select Project Area ID : Non-Project Area - 1667'. Below this is a text input field for 'Description of Site :'. At the bottom of the form is a 'Save & Add Practice(s)' button. A 'Back to Top ^' link is located at the bottom right of the page. The footer of the page contains the text 'CRPCostShareAddDamageDocumentation01'.

Note: System creates a control number for the application using the format of two-digit State code, three-digit county code, fiscal year, and sequential number created within the fiscal year.

32 Application Signup – Documentation (Continued)

C Header Information

The following table provides the fields, descriptions, and actions for the header information that is displayed on most application and agreement screens.

Field/Link	Description/Action
Control No	The control number is a combination of the State, county, program year, and system assigned application number.
Applicant Name	Displays the applicant's name.
Agreement Status	Displays the status of the agreement.
Creation Date	Displays the date the new application was created.
Project Area ID	Displays the Project Area ID.
Contract Number	CLICK the hyperlink to go to CCMS for contract maintenance, if necessary.
Add/View Notes	CLICK "Add/View Notes" to insert notes and/or comments on each Screen. Note: User may use the "Add/View Notes" feature to keep a record of important actions applicable to the application/agreement process. This is an internal records option that the user may utilize, and no information is displayed or printed for producers.

D Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Documentation Screen.

Field/Link	Description/Action
Select Project Area ID	Non-Project Area – 1667 is defaulted when entering an application for CRP cost share. Do not attempt to change the defaulted value.
Description of Site	Enter a narrative description with any information that helps user remember specifics about the application to differentiate between applications. Entry in this field is optional.
Save & Add Practice(s)	Saves documentation information that was loaded and Application Signup – Add Practices Screen is displayed.

33 Application Signup – Add Practices

A Overview

After the documentation has been added, the Application Signup – Add Practices Screen is displayed. This Screen is used to select the practices under which CRP cost share assistance is being requested.

B Example of Application Signup – Add Practices Screen

The following is an example of the Application Signup – Add Practices Screen.

Application Signup - Add Practices

Control No : 29_101_2022_0110 Creation Date : 03/17/2022
 Applicant Name : JMA PRODUCER Project Area ID : 1667
 Agreement Status : INCOMPLETE Contract Number : [11100](#)
 Administrative County [Add/View Notes](#)

Following fields lets you to add or edit a practice

All required fields are denoted by an asterisk{*}

* Select Practice : **CP1 - Establishment of Permanent Introduced Grasses and**

* Practice Rate Type : **Component Rate**

* Is the selected practice for a Management Activity? : Yes No

* Is this cost share for re-establishment or an authorized CREP riparian buffer "management" maintenance payment? : Yes No

Farm, Tract, Field & Acres :

Select	* Farm No.	Tract No.	Field No.	* Acres	State	County
<input type="checkbox"/>	0009998	0010572	1	<input type="text"/>	29	101

Save & Add Practice Component(s) Cancel

Physical County

CRPCostShareAddPractice01 [Back to Top ^](#)

Note: If Administrative County and Physical County are different, ensure that the Physical County has loaded components and rates in Program Provisioning. See [Exhibit 8](#) for information on Program Provisioning for CRP.

33 Application Signup – Add Practices (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Select Practice	<p>From the drop-down list, select the CRP practice for which the producer must certify a component. System prepopulates the drop-down list with practices associated with the CRP contract in CCMS.</p> <p>Not all practices on a CRP contract have components that need to be certified on FSA-848.</p> <p>Example: Practice CP12 (Wildlife Food Plot) is not eligible for cost share. See policy in 2-CRP, Part 15 for additional information on practices that do not require certification on FSA-848.</p>
Practice Rate Type	<p>CSS uses a component rate or practice rate to calculate the cost share, according to the Program and the County’s Program Provisioning information. See Exhibit 8 for information on Program Provisioning for CRP.</p> <ul style="list-style-type: none"> • starting with Signup 53, CRP only uses component rates. Component rate is now defaulted, and modification is not permitted for CRP. • for Signup 52 and prior CRP contracts, the user must select either practice rate or component rate when adding a practice to the FSA-848.
Is the selected practice for a management activity?	<p>If the user answers “Yes” to this question, calculated cost share will always compute to \$0.00 since management activities for Signups 52 and higher are not eligible to receive cost share.</p>

33 Application Signup – Add Practices (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Is this cost share for re-establishment or an authorized CREP riparian buffer “management” maintenance payment?	<p>If the user answers “Yes” to this question, CSS will not pay a PIP (practice incentive payment) for the practice. PIP is only payable for the initial establishment of a practice and is not authorized when cost share is paid for re-establishing a failed practice or when cost share is paid for “management” maintenance of a CREP riparian buffer as authorized by the applicable CREP agreement.</p> <p>Note: Once the application is approved the answer to this question is not editable. If answered incorrectly the cost share agreement will need to be terminated and reentered with the correct answer.</p>
Farm, Tract, Field, & Acres	<p>CHECK (☐) Select the check box for the applicable farm/tract/field row associated with the practice and enter the total number of acres enrolled for each field.</p> <p>Total practice acres cannot exceed the total farmland acres on the tract as recorded in MIDAS Farm Records.</p>
Save & Add Practice Component(s)	<p>Saves practice information that was loaded on the Screen. Takes the user to the Application Signup – Add Practice Components Screen. See paragraph 34.</p>
Cancel	<p>Takes the user to the Application Signup – Practice Summary – Finalize Screen. See paragraph 37.</p>

34 Application Signup – Add Practice Components

A Overview

After practice information has been entered, the Application Signup – Add Practice Components Screen is displayed. This Screen is used to select the components associated with the previously selected practice. The components that will be displayed depend on components available in the county level program provisioning software. Components may have been created at the county level or created at the State level and copied to the county level.

B Example of Application Signup – Add Practice Components Screen

The following is an example of the Application Signup - Add Practice Components Screen.

34 Application Signup – Add Practice Components (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup - Add Practice Components Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Practice extent (Acre)	<p>Enter sum of all acres up to two decimals for the Selected Practice Code (Example: 01-CP27) on which the practice is being applied. This field is required.</p> <p>Note: Acre will be unit of measure listed for practice reporting purposes, but components can be different units of measure such as “each” or “hour.”</p>
Select Components	<p>Select desired component from the drop-down list and CLICK “Add”. The currently selected component will be added into the selected component list in the following table. This field is required.</p> <p>Note: Multiple components may be selected. Components will be limited to those associated to the State/County and practice selected. If desired components are not available for selection, please verify in Program Provisioning that the component is active/loaded in the county where the land is physically located, and that the category/subcategory designation is associated to the practice. See Exhibit 9 to determine which components are associated to the practice. See Exhibit 8 for information on Program Provisioning for CRP.</p>

34 Application Signup – Add Practice Components (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Add	<p>Adds the currently selected component from the drop-down list into the list of selected components in the table below.</p> <p>Note: The currently selected component from the drop-down list will not be added to the application if the user clicks “Save & Add Component” at the bottom of the Screen before first using the “Add” button to add the component into the list of selected components in the table below the “Select Components” box.</p>
Component Code, Rate Type, Component Unit, Avg Actual Cost (\$), Regular Cost Share (%), & LIM-RES SOC-DIS BEG-FMR Cost Share (%)	Displays the data applicable to the selected component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Extent Requested	<p>Enter the extent requested for each component/technical practice selected.</p> <p>This field is required. When unit of measure for a component is expressed in acres, component extent may be equal or less than, but may not exceed practice extent. Extent for components not expressed in acres is not expected to match practice acres.</p>
Remove Link	Allows users to remove a selected component.
Save & Add Component	<p>Saves the selected components displayed in the table to the application and continues to the Application Signup – Add Contributors Screen.</p> <p>Note: Does not add a currently displayed component in the “Select Component” data field to the application.</p>
Back	Returns user to the previous Screen “Application Signup – Add Practices.”
Show/Hide selected practice’s farm, tract, and fields	Displays or Hides the Farm No., Tract No., Field No., Acres and State/County as loaded on Application Signup –Add Contributors Screen. See paragraph 31 .

35 Application Signup – Add Contributors – Share Designation

A Overview

The Application Signup – Add Contributors – Share Designation Screen will be displayed with a listing of all producers on the cost share application associated with the tracts used for field selection in [paragraph 31](#), after all applicable information has been entered on the Application Signup - Add Practice Components Screen. This Screen is used to designate the share of expenses that each producer is expected to bear.

B Example of Application Signup – Add Contributors – Share Designation Screen

The following is an example of the Application Signup – Add Contributors – Share Designation Screen.

The screenshot displays the 'Application Signup - Add Contributors' web interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Application Signup - Add Contributors' and shows the following details:

- Control No :** 29_101_2022_0101
- Applicant Name :** IMA PRODUCER
- Agreement Status :** INCOMPLETE
- Creation Date :** 03/01/2022
- Project Area ID :** 1667
- Contract Number :** [11150](#)
- [Add/View Notes](#)

Below the details, it states: 'Following are the contributor details.' and 'All required fields are denoted by an asterisk {*}'. The contributor information is as follows:

- Estimated Needed Contribution : 72.00
- Selected Practice : 02-CP31
- Management Activity : No
- Re-establishment : No

There is a 'Copy Percent Share Values' button. Below this is a table titled 'Components' with the following data:

Component Code	Extent Requested
22treespray-Spraying within 12 months of est. trees	180

Below the components table is a table for contributor details:

Producer	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)
IMA PRODUCER	No	<input type="text" value="50"/>
ABC FARMS	No	<input type="text" value="50"/>

At the bottom of the main content area, there are 'Confirm Contributions' and 'Back' buttons. The footer of the page includes the URL 'CRPCostShareComponentContributorPercentShare01' and a 'Back to Top' link.

35 Application Signup – Add Contributors – Share Designation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Contributors – Share Designation Screen.

Field/Link	Description/Action
Estimated Needed Contribution	Displays the estimated contribution needed for the practice.
Selected Practice	Displays the selected practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Copy Percent Share Values	<p>When a practice has multiple components and there are multiple producers associated with the application, this button can be used to assign the same shares to all components without having to enter shares multiple times. After entering the estimated percent share for each applicant on the first component listed, CLICK “Copy Percent Share Values” to automatically assign the same share to all other components.</p> <p>Note: This process always works off the first component in the list. If the user enters a share or changes an existing share for any other component in the list and CLICKS “Copy Percent Share Values,” the share for all components, including the component that was entered or changed, will always be set to match the value of the first component in the list.</p>
Component Code	Displays the applicable component(s).
Extent Requested	Displays the extent requested for the component.
Producer	Displays the producer(s) associated with the application.
LIM-RES SOC-DIS BEG-FMR	Displays the applicable Limited Resource, Socially Disadvantaged, and Beginning Farmer designation from Subsidiary.
Percent Share (%)	<p>Enter the estimated percent share for each applicant listed. If any of the applicants listed will not contribute to this practice, entering zero percent shares is acceptable. This field is required.</p> <p>Note: The sum of the “Estimated Percent Share (%)” fields for all contributors must total 100 percent.</p>
Confirm Contributions	After entering the estimated percent share for each producer, CLICK “Confirm Contributions”. The Application Signup – Add Contributors Screen will be redisplayed.
Back	Returns user to “Application Signup - Add Practice Components” Screen.

35 Application Signup – Add Contributors – Share Designation (Continued)

D Example of Redisplayed Application Signup – Add Contributors – Share Designation Screen

The following is an example of the redisplayed Application Signup - Add Contributors – Share Designation Screen.

Application Signup - Add Contributors

Control No : 29_101_2022_0101 Creation Date : 03/01/2022
 Applicant Name : IMA PRODUCER Project Area ID : 1667
 Agreement Status : INCOMPLETE Contract Number : [11150](#)
[Add/View Notes](#)

Following are the contributor details.

All required fields are denoted by an asterisk {*}

Component Code		Extent Requested		
22treespray-Spraying within 12 months of est. trees		180		
	Producer	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)	Requested Cost Share(\$)
	IMA PRODUCER	No	50 %	18
	ABC FARMS	No	50 %	18

Practice Summary Back

CRPCostShareConfirmComponentContributorPercentShare01 [Back to Top ^](#)

E Actions

After reviewing the information, CLICK “Practice Summary” if the information is correct. The Application Signup – Practice Summary Confirmation Screen will be displayed.

If the information is incorrect, selecting “Back” will return the user to the Application Signup –Add Contributor – Share Designation Screen to update producer’s shares.

36 Application Signup – Practice Summary – Confirmation

A Overview

After contributors are added, the Application Signup - Practice Summary - Confirmation Screen will be displayed. This Screen is used to view and confirm previously entered information. This Screen is a summary of selected:

- farm/tract/field combinations with applicable acreage
- components with selected technical practices and the applicable requested extent
- producers, shares, and the requested cost-share amounts.

CSS automatically calculates requested cost share based on the component and practice rate information entered in the Program Provisioning software.

Note: If the information is not correct, user can click “Back” or “Cancel.”

B Example of Application Signup – Practice Summary – Confirmation Screen

The following is an example of the Application Signup – Practice Summary – Confirmation Screen.

Application Signup - Practice Summary

Control No : 29_101_2022_0101 Creation Date : 03/01/2022
 Applicant Name : IMA PRODUCER Project Area ID : 1667
 Agreement Status : INCOMPLETE Contract Number : 11150
[Add/View Notes](#)

Following is the practice summary.

Practice : 02-CP31
 Management Activity : No
 Re-establishment : No

Farm	Tract	Field	Acres
0009998	0001943	1	3.00

Component Code	Extent Requested
22treespray-Spraying within 12 months of est. trees	180

Producer	Producer Type	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)	Requested Cost Share(\$)
IMA PRODUCER	Individual	No	50 %	18
ABC FARMS	Business	No	50 %	18

Do you want to add this Practice?

CRPCostShareAddComponentRatePracticeSummary01 [Back to Top ^](#)

36 Application Signup – Practice Summary – Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Practice Summary – Confirmation Screen.

Field/Link	Description/Action
Practice	Displays the practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Farms	Displays the Farm, Tract, Field, and Acres applicable to the practice.
Components	Displays the applicable Component Code(s) and Extent(s) Requested for the practice along with the Producer, Producer Type, LIM-RES SOC-DIS BEG-FMR, Percent Share(%), and Requested Cost Share(\$) for the component.
Confirm	CSS automatically calculates requested cost share based on the component rate information entered in the Program Provisioning software. After user has reviewed the information and confirmed the information is correct, CLICK “Confirm”. The Application Signup – Practice Summary – Finalize Screen will be displayed. See Exhibit 8 for information on Program Provisioning for CRP.
Back	If the information is not correct, user can CLICK “Back” and the previous Screen (Application Signup – Add Contributors) will be displayed.
Cancel	The Application Signup Screen is displayed. The Application Signup Screen is a blank Screen that instructs the user to use the left navigation menu to select a task. The practice will remain associated with the application, but all component information and producer share information that was entered for the practice is lost.

37 Application Signup – Practice Summary – Finalize

A Overview

The Application Signup – Practice Summary – Finalize Screen will be displayed after information on the Application Signup Practice Summary Confirmation Screen has been confirmed. This Screen contains links to take the user to additional process steps.

The Application Signup – Practice Summary – Finalize Screen can be used to:

- remove practices
- edit practices
- add another practice
- continue to next step.

B Example of Application Signup – Practice Summary – Finalize Screen

The following is an example of the Application Signup – Practice Summary – Finalize Screen.

The screenshot displays the 'Application Signup - Practice Summary' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area includes a 'Menu' on the left with options like 'Welcome County user', 'CRP Program', 'Cost Share', and 'New Application'. The central part of the screen shows application details: Control No: 29_101_2022_0101, Applicant Name: IMA PRODUCER, Agreement Status: INCOMPLETE, Creation Date: 03/01/2022, Project Area ID: 1667, and Contract Number: 11150. Below this, a table titled 'Practices Added' lists one practice: '02-CP31' with a requested cost share of '\$ 36'. There are 'Remove' and 'Edit' buttons for this practice. At the bottom, there are buttons for 'Add Another Practice' and 'Continue to Next Step'.

37 Application Signup – Practice Summary – Finalize (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup - Practice Summary - Finalize Screen.

Field/Link	Description/Action
Practices Added	Displays the current practices entered on the application and the requested cost share for the practice
Remove	Deletes the practice. Caution: Practice is immediately deleted. User is not given an opportunity to confirm selected practice is the correct one to be deleted.
Edit	Click “Edit” to modify practice or component information.
Add Another Practice	Allows user to add another practice. Application Signup- Add Practices Screen will be displayed.
Continue to Next Step	After confirming the practice summary information is correct and performing all actions needed on this Screen, CLICK “Continue to Next Step” to display the Application Signup – Additional Information –Screen.

38 Application Signup – Additional Information – Eligibility

A Overview

The Application Signup – Additional Information – Eligibility Screen will display program eligibility. The Program Eligibility section is used for other programs and not applicable to CRP.

B Example of Application Signup – Additional Information – Eligibility Screen

The following is an example of the Application Signup – Additional Information – Eligibility Screen.

The screenshot displays the 'Application Signup - Additional Information' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area includes a sidebar menu with options like 'New Application', 'Edit Application', and 'Agreement Approval'. The application details shown are: Control No: 29_101_2022_0101, Applicant Name: IMA PRODUCER, Agreement Status: INCOMPLETE, Creation Date: 03/01/2022, Project Area ID: 1667, and Contract Number: 11150. Below this, there is a section for 'Program Eligibility' which currently shows 'Nothing found to display.' and an 'Eligibility Check Results' table.

Eligibility Check Results:		
Name	Type	Eligible
IMA PRODUCER	Individual	N/A
ABC FARMS	Business	N/A

38 Application Signup – Additional Information – Eligibility (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Additional Information- Eligibility Screen.

Field/Link	Description/Action
Program Eligibility	Program Eligibility questions are not applicable to CRP. This functionality is for other Cost Share programs.
Eligibility Check Results	Displays the Producer(s) and Producer Type. Eligible flag is not applicable to CRP.
Application Information Complete	Submits the application to the approval process. The Application Signup–Additional Information–Confirmation Screen will be displayed with the message “The application submitted successfully.”
Back	Returns user to the Application Signup – Practice Summary – Finalize Screen.

39 Application Signup – Additional Information – Confirmation

A Overview

The Application Signup – Additional Information – Confirmation Screen displays the results of the application submission and eligibility check.

B Example of Application Signup – Additional Information – Confirmation Screen

The following is an example of the Application Signup – Additional Information – Confirmation Screen. This Screen confirms successful submission of eligibility information and signature dates.

39 Application Signup – Additional Information – Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Additional Information – Confirmation Screen.

Field/Link	Description/Action
Proceed to Agreement Approval	The Agreement Approval – Assign ID Screen will be displayed.

Note: If edits are not required, user may continue with the approval process within “New Application.” For instructions, see Section 3, [paragraph 61](#). If edits are required to the application before approval, see [paragraph 50](#), Edit Applications.

40-49 (Reserved)

Section 2 Edit Application

50 Edit Applications

A Overview

If a cost share application has been started but has not been submitted (application status of “Incomplete”), the “Edit Application” option will be available. If the application was previously submitted and has since been un-submitted according to Section 5, the “Edit Application” option will also be available for the un-submitted application.

To edit an existing application, from the CRP Home Screen, CLICK “Edit Application” on the left navigation menu. A listing of all incomplete status applications will be displayed.

B Example of Edit Application Screen

The following is an example of the Edit Application Screen.

Notes: Navigation links to additional pages of results may be displayed at the top and bottom of the Screen when all search results do not fit on a single Screen.

By default, applications are listed without the practice summary box displayed. In the example below the Practice Summary for application control number 29-101-2017-0016 is displayed because the user has clicked on the control number. Many of the examples in this handbook follow this format where the practice summary has been opened to display additional details and links.

If there is an application listed with a suffix this is an indication that this is a revision in process of a previously approved agreement, see [Part 5 Agreement Maintenance](#) for more information on revisions.

The screenshot shows the 'Edit Application' interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. Below this, it indicates the user is logged in as a 'County user'. On the left, there is a 'Menu' with options: Welcome County user, CRP Program, Select Program, Cost Share, New Application, Edit Application (highlighted), Agreement Approval, Un-submit, Inactivate Application, and Search. The main content area is titled 'Edit Application' and displays 'Application results' in a table. The table has columns for Control Number, Primary Applicant, Application Status, State County, Date Created, and Edit Application. Two rows are shown, both for 'ABC FARMS' with an 'INCOMPLETE' status and a date of '02/14/2017'. The first row's control number is '29 101 2017 0016'. Below this row, a 'Practice Summary' box is expanded, showing a 'Practice Control Number' of '29-101-2017-0016-01-CP25', a 'Practice Status' of 'INCOMPLETE', and a 'Process Status' of 'Edit'. The second row's control number is '29 101 2017 0019'. Navigation links '1 2 3 4 Next> >>' are visible above the table.

Control Number	Primary Applicant	Application Status	State County	Date Created	Edit Application												
29 101 2017 0016	ABC FARMS	INCOMPLETE	Missouri - Johnson	02/14/2017	Edit

50 Edit Applications (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Edit Application Screen.

Field/Link	Description/Action
Application Results	
Control Number	<p>CLICK the applicable control number to see a summary list of all practices for the application.</p> <p>Note: If practices have not yet been added to the application, the control number link is not activated, and the Practice Summary will not be displayed.</p>
Primary Applicant	Displays the producer selected as the primary applicant on the application.
Application Status	Displays the status of the application. See paragraph 102C for a list of possible application statuses.
State County	Displays the administrative State and County of the application.
Date Created	Displays the date the application was created.
Edit Application	CLICK “Edit” to edit the application. The application process will start from the beginning. See Section 1 for additional information.

51-59 (Reserved)

Section 3 Agreement Approval

60 Agreement Approval – Search Results

A Overview

If edits were not required, user may continue with the Agreement Approval process within the New Application section. See [paragraph 61](#) to continue with Agreement Approval steps.

If edits were required or agreement was not approved when user created the application, user may go directly to Agreement Approval using the left navigation menu. To enter information, CLICK “Agreement Approval.” All “Complete” applications available for possible approval will be displayed on the Agreement Approval – Search Results Screen.

B Example of Agreement Approval – Search Results Screen

The following is an example of the Agreement Approval – Search Results Screen.

Note: Navigation links to additional pages of results is displayed at the top and bottom of the Screen when all search results do not fit on a single Screen.

The screenshot displays the 'Agreement Approval' search results page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu is visible with categories: Menu, CRP Program, Cost Share, Performance and Payment, and Agreement Maintenance. The main content area is titled 'Agreement Approval' and shows a table of 'Application results'. The table has the following columns: Control Number, Primary Applicant, Application Status, State County, Date Created, Agreement Approval, and Print FSA848A Form. There are six rows of data, all with a status of 'COMPLETE'. Navigation links '<<' and '<Prev' are visible above and below the table, along with page numbers 1, 2, and 3. A 'Back To Main Menu' button is located below the table, and a 'Back to Top' link is in the bottom right corner.

Control Number	Primary Applicant	Application Status	State County	Date Created	Agreement Approval	Print FSA848A Form
29_101_2022_0122	IMA PRODUCER	COMPLETE	Missouri - Johnson	03/31/2022	Go To Approval	PDF
29_101_2022_0124	ABC FARMS	COMPLETE	Missouri - Johnson	04/01/2022	Go To Approval	PDF
29_101_2022_0125	IMA PRODUCER	COMPLETE	Missouri - Johnson	04/01/2022	Go To Approval	PDF
29_101_2022_0126	ABC FARMS	COMPLETE	Missouri - Johnson	04/04/2022	Go To Approval	PDF
29_101_2022_0127	ABC FARMS	COMPLETE	Missouri - Johnson	04/04/2022	Go To Approval	PDF
29_101_2022_0179	IMA PRODUCER	COMPLETE	Missouri - Johnson	05/11/2022	Go To Approval	PDF

60 Agreement Approval – Search Results (Continued)

C Fields, Descriptions, and Actions

The following table provides the field, descriptions, and actions for the Agreement Approval – Search Results Screen.

Field/Link	Description/Action
Control Number	CLICK the control number and the Practice Summary box will be displayed.
Primary Applicant	Displays the producer selected as the primary applicant on the application.
Application Status	Displays the status of the application. See paragraph 102 C for a list of possible application statuses.
State County	Displays the administrative State and County of the application.
Date Created	Displays the date the application was created.
Agreement Approval	<p>CLICK “Go to Approval” to approve some, or all the practices for the selected control number. The Agreement Approval – Assign ID Screen is displayed.</p> <p>Notes: Practices approved will be determined by the addition of approval information according to paragraph 63.</p> <p>An agreement could be listed as “Complete” if it has a practice but no components. In this situation the application will not be accessible through the edit application process until the application has been un-submitted. An error will be displayed stating “Component(s) required is required” when “Go to Approval” is selected for applications with this condition.</p>
Print FSA848A Form	<p>CLICK “PDF” to Print FSA-848A.</p> <p>Note: Practices Approved and Components Approved will be blank on the form if no approval information was saved previously. User may want to wait to print form until approval information is entered.</p>
Back to Main Menu	The Application Signup Screen will be displayed. The Application Signup Screen is a blank Screen that instructs the user to use the left navigation menu to select a task.

61 Agreement Approval – Assign ID

A Overview

After the user clicks “Go to Approval” from the Agreement Approval – Search Results Screen, the Agreement Approval – Assign ID Screen is displayed. This Screen is used to assign or change a project area ID.

B Example of Agreement Approval – Assign ID Screen

The following is an example of the Agreement Approval – Assign ID Screen. Example is when accessing the Screen from within the New Application section. The same information is displayed if accessing from the Agreement Approval link in the Left Navigation menu.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Assign ID Screen.

Field/Link	Description/Action
Select Project Area ID	Project Area ID is prepopulated based upon the ID selected during the “New Application” process. Project area ID is always “Non-Project Area – 1667” for CRP and user should not attempt to modify.
Continue	After the user has entered all applicable information, CLICK “Continue”. The Agreement Approval – Approval Data Screen is displayed.
Back	CLICK “Back” to return to the Agreement Approval – Search Results Screen.

62 Agreement Approval – Approval Data

A Overview

After clicking “Continue” on the Agreement Approval – Assign ID Screen, the Agreement Approval – Approval Data Screen will be displayed.

Notes: If retired rates exist for the components included in the application, a message is displayed alerting user to make changes in the Program Provisioning software before proceeding. If this message is displayed the user should contact their STO.

If a component’s effective end date has passed the user is instructed to remove the component or update the effective end date in program provisioning. See [Exhibit 8](#) for information on Program Provisioning for CRP.

According to 2-CRP, paragraph 499, when a CRP-1 is approved, the practices scheduled on the approved conservation plan are automatically approved. Because CSS is used for multiple programs, several functions are included in the software but **should not be used for CRP cost share agreements**. These functions are:

- the “Disapprove All” button
- automated disapproval of practices that do not have approval information loaded during the approval process
- disapproval letters.

B Examples of Agreement Approval – Approval Data Screen

The following is an example of the Agreement Approval – Approval Data Screen if approval information has not been previously entered for any practices.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. The main content area is divided into a left sidebar menu and a main content pane. The sidebar menu includes: Menu, Welcome County user, CRP Program, Select Program, Cost Share, New Application, Edit Application, Agreement Approval (highlighted), Un-submit, Inactivate Application, Search, View/Print Forms and Letters, Performance and Payment. The main content pane shows the following information:

Agreement Approval
Control No : 29_101_2022_0101 **Creation Date :** 03/01/2022
Applicant Name : IMA PRODUCER **Project Area ID :** 1667
Agreement Status : COMPLETE **Contract Number :** [11150](#)
[Add/View Notes](#)

Below is the list of practices associated with an application.

Practice Summary		
Practice Control Number	Process State	Approval Data
29-101-2022-0101-02-CP31	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Add

Buttons:

CRPCostShareContractApprove01 [Back to Top ^](#)

62 Agreement Approval – Approval Data (Continued)

B Examples of Agreement Approval – Approval Data Screen (Continued)

The following is an example of the Agreement Approval – Approval Data Screen if approval information exists for one or more practices.

The screenshot displays the 'Agreement Approval' screen for a County user. The page includes a navigation menu on the left with options like 'Welcome County user', 'CRP Program', 'Cost Share', and 'Performance and Payment'. The main content area shows the following details:

- Control No :** 29_101_2022_0120
- Applicant Name :** IMA PRODUCER
- Agreement Status :** COMPLETE
- Creation Date :** 03/30/2022
- Project Area ID :** 1667
- Contract Number :** [11145](#)

Below this information is a table titled 'Practice Summary' with the following data:

Practice Control Number	Process State	Approval Data
29-101-2022-0120-01-CP2	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Edit Remove
29-101-2022-0120-01-CP3A	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Add

At the bottom of the screen, there are buttons for 'Continue', 'Cancel', and 'Disapprove All'. The page ID 'CRPCostShareContractApprove01' and a 'Back to Top' link are also visible.

Note: The “Continue” option becomes available as soon as Approval Data exists for at least one practice.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Approval Data Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.

62 Agreement Approval – Approval Data (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Approval Data	<p>CLICK:</p> <ul style="list-style-type: none"> • “Add” to Select the practice for approval. The Application Signup – Component Rate Practice Approval Screen is displayed. <p>Note: The “Add” link will only be available for practices that have no existing approval information entered.</p> <ul style="list-style-type: none"> • “Edit” to edit the component rate practice approval data including: <ul style="list-style-type: none"> • practice begin and end dates • practice and component extents approved • shares. • “Remove” to remove the approval data for the practice. <p>Note: The “Remove” link will only be available if approval information exists for that practice.</p>
Continue	<p>CLICK “Continue” to complete the approval information. The Agreement Approval – Approval Date Screen will be displayed.</p> <p>Notes: The “Continue” option will only be available if approval information exists for one or more practices.</p> <p>If the user clicks “Continue” while some practices do not have approval data added, the Agreement Approval – Partial Disapproval Screen will be displayed. See Paragraph 70. Those practices without approval data will be disapproved during continuation of the approval process for other practices on the same application. The user should take care to avoid this situation since disapproval of practices should not happen on CRP cost share agreements.</p>
Cancel	Cancels the “Agreement Approval” and returns user to Agreement Approval – Assign ID Screen.
Disapprove All	Should not be used for CRP cost share agreements. Disapproves all practices associated with the application. The Agreement Disapproval – Information Screen is displayed. See Paragraph 69.

63 Application Signup – Component Rate Practice Approval

A Overview

After the user clicks “Add” on the Agreement Approval – Approval Data Screen, the Application Signup – Component Rate Practice Approval Screen will be displayed.

B Example of Application Signup – Component Rate Practice Approval Screen

The following is an example of the Application Signup – Component Rate Practice Approval Screen.

63 Application Signup – Component Rate Practice Approval (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Component Rate Practice Approval Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Practice Begin Date	Enter the date practice is to begin that is the approval date. Users can use the calendar icon to populate the entry. This field is required.
Practice End Date	A calculated date 12 months after the practice begin date. This field is editable and required. Practice end date is ≤ 12 months of practice begin date. Note: See paragraph 182 for instructions to extend a Practice End Date after the application has been approved.
Practice Extents	
Extent Requested	Displays the extent requested for the practice.
Extent Approved	Extent approved is prepopulated with the extent requested from the “New Application” or “Edit Application” option but can be edited. User should verify that the prepopulated data is correct before continuing. This field is required.
Components	
Component Code, Avg Actual Cost (\$), Regular Cost Share (%), & LIM-RES SOC-DIS BEG-FMR Cost Share (%)	Displays the data applicable to the component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.

63 Application Signup – Component Rate Practice Approval (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Extent Requested	Displays the extent requested for the component.
Extent Approved	Extent approved is prepopulated with the extent requested from the “New Application” or “Edit Application” option but can be edited. User should verify that the prepopulated data is correct before continuing. This field is required. Note: Users cannot remove practices or components within the practice approval process; however, users can enter zero in the Extent Approved field.
Component Unit	Displays the data applicable to the component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Producer	Displays the producer(s) associated with the application.
LIM-RES SOC-DIS BEG-FMR	Displays the applicable Limited Resource, Socially Disadvantaged, and Beginning Farmer designation.
Percent Share (%)	Percent Share is prepopulated with the Percent Share from the “New Application” or “Edit Application” option but can be edited. User should verify that the prepopulated data is correct before continuing. This field is required, Note: The sum of the percent shares for all producers must equal 100 percent.
Cancel	Users can also click “Cancel”, but all approval information added for the selected practice will be lost. After clicking “Cancel” the Application Signup Screen is displayed. The Application Signup Screen is a blank screen that instructs the user to use the left navigation menu to select a task.
Show/Hide selected practice’s farm, tract, and fields	Displays or Hides the Farm No., Tract No., Field No., Acres and State/County as loaded on Application Signup –Add Contributors Screen. See paragraph 31 .

64 Application Signup – Component Rate Practice Approval Summary (Continued)

B Example of Application Signup – Component Rate Practice Approval Summary Screen (Continued)

Note: The Calculation for:

- total estimated cost for installing the component is (Extent Approved) x (Average Actual Cost) = (Total Cost)
- approved cost share amount is (Extent Approved) x (Average Actual Cost) x 50% x (Producer Share) = (Amount Approved).

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Component Rate Practice Approval Summary Screen.

Field/Link	Description/Action
Practice Extents	
All Practice Extents fields	Display information from previous screen.
Components	
All Components fields	Display information directly from previous screen or calculated from entries on previous screen.
Continue to Next Step	CSS automatically calculates approved cost share. After user has verified the information, CLICK “Continue to Next Step”. The Agreement Approval- Approval Data Screen will be displayed. See paragraph 62 for additional information.
Back	User is returned to the Application Signup – Component Rate Practice Approval Screen.
Cancel	Users can also click “Cancel”, but all approval information added for the selected practice will be lost.

65 Agreement Approval – Approval Date

A Overview

After the user clicks “Continue” on the Application Signup – Approval Data Screen, the Agreement Approval – Approval Date Screen will be displayed.

B Example of Agreement Approval – Approval Date Screen

The following is an example of the Agreement Approval – Approval Date Screen.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu includes options like 'Welcome County user', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The main content area shows application details for Control No. 29_101_2022_0098, Applicant Name: IMA PRODUCER, and Agreement Status: COMPLETE. It also lists associated practices in a table.

Practice control Number	Process State	Requested Costshare(\$)	Approved Costshare (\$)
29-101-2022-0098-01-CP22	EnvironmentCompliance_UnNeeded	\$250.00	\$ 250.00

Buttons at the bottom include 'Continue', 'Back', and 'Print FSA848A PDF'. The footer shows 'CRPCostShareContractApprove02' and a 'Back to Top' link.

65 Agreement Approval – Approval Date (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Approval Date Screen.

Field/Link	Description/Action
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
COC/CED Original CRP1 Approval Date (MM/DD/YYYY)	Approval date is prepopulated from CCMS.
Continue	When all applicable information is entered, CLICK “Continue”. The Agreement Approval - Confirmation Screen will be displayed.
Back	User is returned to the Agreement Approval – Approval Data Screen.
Print FSA-848A PDF	User is able to print FSA-848A, Cost-Share Agreement. Notes: Printing FSA-848A does not approve the agreement. Dates do not have to be entered to print an FMI agreement.

65 Agreement Approval – Approval Date (Continued)

D Example of Agreement Approval – Approval Date Screen for FMI

The following is an example of the Agreement Approval – Approval Date Screen for FMI.

The screenshot displays the FMI Agreement Approval interface. At the top, navigation links include FMI Home, About FMI, Help, Contact Us, Exit FMI, and Logout of eAuth. The user is logged in as a County user. A left-hand menu lists various actions such as Welcome County user, FMI Program, Cost Share, Performance and Payment, and Agreement Maintenance. The main content area is titled 'Agreement Approval' and shows details for Control No 29_101_2022_0070, Applicant Name IMA PRODUCER, and Agreement Status COMPLETE. A table below lists associated practices, with one entry for EnvironmentCompliance_UnNeeded. A date input field for COC/CED Approval Date is present, along with buttons for Continue, Back, and Print FSA848A PDF.

Practice control Number	Process State	Requested Costshare(\$)	Approved Costshare (\$)
29-101-2022-0070-01-CP22	EnvironmentCompliance_UnNeeded	\$400.00	\$ 400.00

65 Agreement Approval – Approval Date (Continued)

E Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Approval Date Screen.

Field/Link	Description/Action
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
COC/CED Approval Date of FSA848A (MM/DD/YYYY)	For FMI agreements, Enter the COC/CED approval date. Users can use the calendar icon to populate the entry. This field is required.
Continue	When all applicable information is entered, CLICK “Continue”. The Agreement Approval - Confirmation Screen will be displayed.
Back	User is returned to the Agreement Approval – Approval Data Screen.
Print FSA-848A PDF	User is able to print FSA-848A, Cost-Share Agreement. Notes: Printing FSA-848A does not approve the agreement. Dates do not have to be entered to print an FMI agreement.

66 Agreement Approval – Confirmation

A Overview

After clicking “Continue” on the Agreement Approval – Approval Date Screen, the Agreement Approval - Confirmation Screen will be displayed. The Agreement Approval – Confirmation Screen provides a summary of:

- all approved practices
- all disapproved practices
- cost share information.

Note: Practices that do not have approval information will automatically be disapproved. The user should take care to avoid this situation since disapproval of practices should not happen on CRP cost share agreements.

B Example of Agreement Approval – Confirmation Screen

The following is an example of the Agreement Approval – Confirmation Screen.

The screenshot displays the 'Agreement Approval' confirmation screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Agreement Approval' and includes the following details:

- Control No :** 29_101_2022_0098
- Applicant Name :** IMA PRODUCER
- Agreement Status :** COMPLETE
- Creation Date :** 02/17/2022
- Project Area ID :** 1667
- Contract Number :** [11150](#)

Below the details is a link for [Add/View Notes](#). The text states: "Below is the list of practices and their cost share information of an application." This is followed by a table titled "Approved Practices":

Practice Control Number	Process State	Requested Costshare(\$)	Approved Costshare(\$)
29-101-2022-0098-01-CP22	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	\$250.00	\$250.00

Below the table, the text indicates: "COC/CED Original CRP1 Approval Date (MM/DD/YYYY): [10/01/2020](#)". At the bottom of the main content area, there are 'Continue' and 'Back' buttons. The footer of the page contains the text 'CRPCostShareContractApproveSummary01' and a 'Back to Top' link.

66 Agreement Approval – Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Confirmation Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
COC/CED Original CRP1 Approval Date (MM/DD/YYYY)	Approval date is prepopulated from CCMS.
Continue	CLICK “Continue” after reviewing all information and verifying that the information is correct. The Agreement Approval - Eligibility Information Screen will be displayed.
Back	User is returned to the Agreement Approval – Approval Date Screen.

67 Agreement Approval – Eligibility Information

A Overview

After “Continue” is selected from the Agreement Approval – Confirmation Screen, the Agreement Approval – Eligibility Information Screen will be displayed.

B Example of Agreement Approval – Eligibility Information Screen

The following is an example of the Agreement Approval – Eligibility Information Screen.

The screenshot displays the 'Agreement Approval - Eligibility Information' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area includes a left-hand menu with options like 'Welcome County user', 'CRP Program', 'Cost Share', and 'Performance and Payment'. The 'Agreement Approval' option is highlighted. The main content area shows application details: Control No: 29_101_2022_0098, Applicant Name: IMA PRODUCER, Agreement Status: COMPLETE, Creation Date: 02/17/2022, Project Area ID: 1667, and Contract Number: 11150. Below this, there is a section for 'Program Eligibility' with a table that currently displays 'Nothing found to display.' and another section for 'Eligibility Flags' with a table listing 'IMA PRODUCER' and 'ABC FARMS' as ineligible.

Agreement Approval - Eligibility Information

Control No : 29_101_2022_0098 Creation Date : 02/17/2022
 Applicant Name : IMA PRODUCER Project Area ID : 1667
 Agreement Status : COMPLETE Contract Number : [11150](#)
[Add/View Notes](#)

Below is the eligibility information of an application.

Program Eligibility

Approve Disapprove All Back

CRPCostShareContractApproveEligibilityCheck01 [Back to Top ^](#)

67 Agreement Approval – Eligibility Information (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Eligibility Information Screen.

Field/Link	Description/Action
Program Eligibility	Program Eligibility questions are not applicable to CRP. This functionality is for other Cost Share programs.
Eligibility Flags	Displays the Producer(s) and Producer Type. Eligible flag is not applicable to CRP.
Approve	CLICK “Approve” after reviewing all information. The Agreement Approval – Eligibility Success Screen will be displayed.
Disapprove All	Should not be used for CRP cost share agreements. If user clicks “Disapprove All”, the Agreement Disapproval Information Screen will be displayed.
Back	User is returned to the Agreement Approval – Confirmation Screen.

68 Agreement Approval – Eligibility Success

A Overview

After selecting “Approve” on the Agreement Approval – Eligibility Information Screen, the Agreement Approval – Eligibility Success Screen will be displayed.

Funds will either be obligated or the process of obligation will be initiated depending on the funding system. eFMS will obligate and COF will show as in process.

Users shall generate and mail the approval letter along with a copy of the COC/CED signed FSA-848A.

Notes: The approved application now becomes an agreement, and the control number is now referred to as an agreement number instead of an application control number.

Producers are now approved participants.

B Example of eFMS Agreement Approval – Eligibility Success Screen

The following is an example of the Agreement Approval – Eligibility Success Screen when obligation is through eFMS.

68 Agreement Approval – Eligibility Success (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Eligibility Success Screen.

Field/Link	Description/Action
Print FSA-848A PDF	Print FSA-848A, Cost-Share Agreement.
Approval Letter	Print approval letter.

D Example of COF Agreement Approval – Eligibility Success Screen

The following is an example of the Agreement Approval – Eligibility Success Screen when obligation is through COF.

E Action

To print the approval letter, CLICK “View/Print Forms and Letters” from the Cost Share left navigation menu. Follow Section 7 to search and print the letter.

69 Agreement Disapproval – Information

A Overview

If user selects “Disapprove All” on the Agreement Approval – Eligibility Information Screen, the Agreement Disapproval Information Screen will be displayed. For CRP cost share agreements this screen should not be encountered.

According to 2-CRP, paragraph 499, when CRP-1 is approved, the practices scheduled on the approved conservation plan are automatically approved. Because CSS is used for multiple programs, several functions are included in the software but should not be used for CRP cost share agreements. These functions are:

- the “Disapprove All” button
- automated disapproval of practices that do not have approval information loaded during the approval process
- disapproval letters.

69 Agreement Disapproval – Information (Continued)

B Example of Agreement Disapproval Information Screen

The following is an example of the Agreement Disapproval Information Screen.

The screenshot displays the 'Agreement Disapproval Information' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu lists various actions like 'New Application', 'Edit Application', 'Agreement Approval', etc. The main content area shows application details: Control No: 29_101_2022_0098, Applicant Name: IMA PRODUCER, Agreement Status: COMPLETE, Creation Date: 02/17/2022, Project Area ID: 1667, and Contract Number: 11150. Below this, a table lists practices associated with the application. The table has three columns: Practice control Number, Process State, and * Disapproval Reasons. One practice is listed with a process state of 'EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded' and a dropdown menu for 'Select Reason'. A text box for appeals language is also present, with a note: '* Please enter appeals language as per 1-APP par. 14:'. At the bottom, there are 'Continue' and 'Back' buttons, and a 'Back to Top' link.

Practice control Number	Process State	* Disapproval Reasons
29-101-2022-0098-01-CP22	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Select Reason

C Action

CLICK “Back” to return to the previous screen.

70 Agreement Approval – Partial Disapproval

A Overview

When an agreement contains multiple practices, if approval data is not loaded on all practices, the software simultaneously approves practices with approval information and disapproves the practice(s) that are missing approval information.

When the user CLICKS “Continue” on the Agreement Approval – Approval Data Screen (see [paragraph 62](#)), with approval information entered for some but not all practices on the agreement, an alternate version of the Agreement Approval – Approval Date Screen will be displayed. This alternate version of the screen is the Agreement Approval – Partial Disapproval Screen. **If this screen is encountered on a CRP cost share agreement an error has been made.**

B Example of Agreement Approval – Partial Disapproval Screen

The following is an example of the Agreement Approval – Partial Disapproval Screen.

Section 4 Un-submit Application

80 Un-Submit Application

A Overview

Applications with a status of “Complete” can be un-submitted. To un-submit a completed, submitted application CLICK “Un-submit” from the left navigation menu.

B Example of Un-Submit Application Screen

The following is an example of the Un-Submit Application Screen. Notice the “Application Status” for all applications is “Complete”.

Note: Additional Screen numbers may be displayed at the top and bottom of the Screen when all search results do not fit on a single Screen.

The screenshot shows a web application interface with a top navigation bar containing links for CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu is visible with options like Welcome, County user, CRP Program, Cost Share, and Un-submit (highlighted). The main content area is titled 'Un-Submit Application' and displays a table of application results. The table has columns for Control Number, Primary Applicant, Application Status, State County, Date Created, and Un-Submit. One application is highlighted with a detailed 'Practice Summary' table showing Practice Control Number, Practice Status (PENDING_APPROVAL), Process, and Status (EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded).

Control Number	Primary Applicant	Application Status	State County	Date Created	Un-Submit												
29_101_2020_0119	IMA PRODUCER	COMPLETE	Missouri - Johnson	09/09/2020	Un-Submit												
<table border="1"> <thead> <tr> <th colspan="4">Practice Summary</th> </tr> <tr> <th>Practice Control Number</th> <th>Practice Status</th> <th>Process</th> <th>Status</th> </tr> </thead> <tbody> <tr> <td>29-101-2020-0119-01-CP33</td> <td>PENDING_APPROVAL</td> <td></td> <td>EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded</td> </tr> </tbody> </table>						Practice Summary				Practice Control Number	Practice Status	Process	Status	29-101-2020-0119-01-CP33	PENDING_APPROVAL		EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded

29_101_2020_0127	XYZ CORP	COMPLETE	Missouri - Johnson	09/10/2020	Un-Submit												

80 Un-Submit Application (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Un-Submit Application Screen.

Field/Link	Description/Action
Application Results	
Control Number	CLICK the applicable control number to display a summary list of all practices for the application.
Primary Applicant	Displays the producer selected as the primary applicant on the application.
Application Status	Displays the status of the application. See paragraph 102 C for a list of possible application statuses.
State County	Displays the administrative State and County of the application.
Date Created	Displays the date the application was created.
Un-Submit	CLICK “Un-Submit”. The Application Signup – Un-submit Screen is displayed.

81 Application Signup – Un-submit

A Overview

The Application Signup – Un-submit Screen is displayed after “Un-Submit” is selected from the Un-Submit Application Screen. Use this option before agreement approval to return a “Complete” status application to a status of “Incomplete” to allow edits of practice and component data, including removal of unwanted or incorrect practices and/or components. This option would also be used for cases where no component was added to a practice and needs to be returned to incomplete status to add a component.

B Example of the Application Signup – Un-submit Screen

The following is an example of the Application Signup – Un-submit Screen.

CRP Home About CRP Help Contact Us Exit CRP Logout of eAuth

81 Application Signup – Un-submit (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Un-submit Screen.

Field/Link	Description/Action
Confirm	<p>CLICK “Confirm” to un-submit the application. The Un-submit Application Screen will be displayed.</p> <p>After the application is un-submitted, it will no longer be available using the “Un-submit” option but will be available under the “Edit Application” option. Using the “Edit Application” option, users should access the application, edit the application as needed, and then re-submit the application.</p>
Cancel	Returns user to the Un-Submit Application Screen. See paragraph 80 .

82-89 (Reserved)

Section 5 Inactivate Application

90 Inactivate Application

A Overview

The “inactivate” function is available for all applications that have not yet been approved. To inactivate an application, CLICK “Inactivate” from the left navigation menu. The Inactivate Application Screen will be displayed. Use this option when a producer requests to withdraw their application before agreement approval. If a producer requests to withdraw an agreement after approval use the “Terminate” option according to [paragraph 250](#).

B Example of Inactivate Application Screen

The following is an example of the Inactivate Application Screen.

Note: Additional Screen numbers may be displayed at the top and bottom of the Screen when all search results do not fit on a single Screen.

The screenshot shows a web application interface for 'Inactivate Application'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. Below this, a user status bar indicates 'You are logged in as a County user'. On the left, a 'Menu' sidebar lists various options, with 'Inactivate Application' highlighted. The main content area features a table titled 'Application results' with the following data:

Control Number	Primary Applicant	Application Status	State County	Date Created	Inactivate Application
29_101_2020_0031	IMA PRODUCER	COMPLETE	Missouri - Johnson	04/21/2020	Inactivate Application
29_101_2020_0033	ABC FARMS	COMPLETE	Missouri - Johnson	04/21/2020	Inactivate Application
29_101_2020_0036	ABC FARMS	INCOMPLETE	Missouri - Johnson	04/21/2020	Inactivate Application
29_101_2020_0038	XYZ CORP	INCOMPLETE	Missouri - Johnson	04/21/2020	Inactivate Application
29_101_2020_0041	IMA PRODUCER	INCOMPLETE	Missouri - Johnson	04/22/2020	Inactivate Application
29_101_2020_0042	XYZ CORP	COMPLETE	Missouri - Johnson	04/22/2020	Inactivate Application
29_101_2020_0048A	XYZ CORP	COMPLETE	Missouri - Johnson	07/16/2020	Inactivate Application

Navigation links at the bottom of the table include '<< <Prev 1 2 3 4 5 Next> >>'. A 'Back To Main Menu' button is located below the table. The footer of the page contains 'CRPCostShareApplications 3' and a 'Back to Top ^' link.

90 Inactivate Application (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Inactivate Application Screen.

Field/Link	Description/Action
Application Results	
Control Number	CLICK the applicable control number to see a summary list of all practices for the application.
Primary Applicant	Displays the producer selected as the primary applicant on the application.
Application Status	Displays the status of the application. See paragraph 102 C for a list of possible application statuses.
State County	Displays the administrative State and County of the application.
Date Created	Displays the date the application was created.
Inactivate Application	CLICK “Inactivate Application”. The Application Signup – Inactivate Screen is displayed.
Back to Main Menu	The Application Signup Screen is displayed. The Application Signup Screen is a blank Screen that instructs the user to use the left navigation menu to select a task.

91 Application Signup – Inactivate

A Overview

After clicking the “Inactivate Application” link on the Inactivate Application Screen, the Application Signup - Inactivate Screen will be displayed.

B Example of Application Signup – Inactivate Screen

The following is an example of the Application Signup – Inactivate Screen.

The screenshot displays the 'Application Signup - Inactivate' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu lists various actions: Welcome County user, CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), and Agreement Maintenance. The main content area shows application details: Control No : 29_101_2022_0095, Applicant Name : IMA PRODUCER, Agreement Status : INCOMPLETE, Creation Date : 02/10/2022, Project Area ID : 1667, and Contract Number : 11150. A link 'Add/View Notes' is provided. Below this, a message states: 'This Application has been selected for Inactivation. A reason for inactivation is required. Please select from the following:'. A dropdown menu is labeled '* Select inactivation reason'. A blue link 'Please confirm inactivate application.' is present. At the bottom, there are 'Confirm' and 'Cancel' buttons. The footer includes 'CRPCostShareInactivate01' and a 'Back to Top ^' link.

91 Application Signup – Inactivate (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup - Inactivate Screen.

Field/Link	Description/Action
Select Inactivation Reason	Select from the drop-down menu one of the following reasons the application is being inactivated: <ul style="list-style-type: none"> • R1 – Producer no longer interested • R2 – Producer not environmentally compliant • R3 – Practice not needed. <p>Note: User is required to choose a reason. Select R1 if none of the other reasons apply.</p>
Confirm	Click “Confirm” to confirm the inactivation request. The Application Signup – Inactivate Confirmation Screen is displayed.
Cancel	Cancel returns user to the list of agreements available for inactivation.

92 Application Signup – Inactivate Confirmation

A Overview

After “Confirm” is selected on the Application Signup – Inactivate Screen, the Application Signup – Inactivate Confirmation Screen will be displayed.

B Example of Application Signup – Inactivate Confirmation Screen

The following is an example of the Application Signup – Inactivate Confirmation Screen.

The screenshot displays a web application interface. At the top, there is a navigation bar with links: [CRP Home](#), [About CRP](#), [Help](#), [Contact Us](#), [Exit CRP](#), and [Logout of eAuth](#). On the right side of the header, it states "You are logged in as a County user".

A left-hand navigation menu is visible, with categories: **Menu** (Welcome County user), **CRP Program** (Select Program), **Cost Share** (New Application, Edit Application, Agreement Approval, Un-submit, **Inactivate Application**, Search, View/Print Forms and Letters), and **Performance and Payment** (Certify & Pay).

The main content area is titled "Application Signup - Inactivate Confirmation". It displays the following information:

- Control No :** 29_101_2022_0095
- Applicant Name :** IMA PRODUCER
- Agreement Status :** INCOMPLETE
- Creation Date :** 02/10/2022
- Project Area ID :** 1667
- Contract Number :** [11150](#)

Below this information is a link: [Add/View Notes](#).

The main text of the confirmation screen reads: "Inactivate Reason: R1-Producer no longer interested". Below this, it states: "Once Inactivate is complete, the record will be permanently disabled. Do you wish to Inactivate this Application?".

At the bottom of the main text area, there is a prompt: "Select Yes to Inactivate, or No to Cancel." followed by two buttons: and .

At the bottom of the page, there is a footer with the text "CRPCostShareInactivateConfirm01" on the left and a "Back to Top ^" link on the right.

92 Application Signup – Inactivate Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Inactivate Confirmation Screen.

Field/Link	Description/Action
Add/View Notes	Click “Add/View Notes” to insert notes and/or comments on each Screen. See table in paragraph 32 for more information. Note: Once the application is inactivated any notes and comments archived and are no longer available to be viewed.
Yes	Click “Yes” to confirm inactivation request. The Inactivate Application Screen is displayed with the message “Inactivate Application has been successfully saved.” After the application is inactivated, it will no longer be available for use and will no longer be displayed in any application search results.
No	Click “No” to cancel and return to the list of agreements available for inactivation.

92 Application Signup – Inactivate Confirmation (Continued)

D Example of Inactivate Application Screen with inactivate message

The following is an example of the Inactivate Application Screen with message that will be displayed following an inactivation.

The screenshot shows a web application interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right side of the top bar, it says "You are logged in as a County user".

On the left side, there is a vertical menu with the following items: Menu, Welcome County user, CRP Program, Select Program, Cost Share, New Application, Edit Application, Agreement Approval, Un-submit, **Inactivate Application** (highlighted), Search, and View/Print Forms and Letters.

The main content area is titled "Inactivate Application" and contains a blue message: "Inactivate Application has been successfully saved".

Below the message is a table titled "Application results". The table has columns: Control Number, Primary Applicant, Application Status, State County, Date Created, and Inactivate Application. There are three rows of data, each with a link to "Inactivate Application".

Control Number	Primary Applicant	Application Status	State County	Date Created	Inactivate Application
29_101_2016_0006A	IMA PRODUCER	COMPLETE	Missouri - Johnson	10/18/2017	Inactivate Application
29_101_2017_0016	ABC FARMS	INCOMPLETE	Missouri - Johnson	02/14/2017	Inactivate Application
29_101_2017_0019	XYZ CORP	INCOMPLETE	Missouri - Johnson	02/14/2017	Inactivate Application

93-99 (Reserved)

Section 6 Application Search

100 Application Search Criteria

A Overview

To search for an existing application or agreement, from the CRP Home Screen click “Search” located under the Cost Share header in the left navigation menu.

Note: The Application Search should not be confused with the Agreement Search that is also found on the left navigation menu but is located under the Agreement Maintenance header (See [paragraph 300](#)). Although the two searches are similar in their functionality, the Application Search results include both applications and agreements while the Agreement Search results only include approved agreements. Agreement records contained in the Application Search results often do not contain many of the process links that are present in the Agreement Search results for that same record.

B Example of Search Criteria Screen

The following is an example of the Search Criteria Screen.

100 Application Search Criteria (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Search Criteria Screen.

Field/Link	Description	Action
State	Drop-down list containing only the currently selected State.	Select the desired State. This is a required selection. State and National Office users are limited to the State selected during program selection (paragraph 22).
County	Drop-down list containing only the currently selected county	Select the desired county. This is a required selection. State and National Office users are limited to the county selected during program selection (paragraph 22).
Project Area ID	Drop-down list containing all Project Area ID's associated with the State and county and an additional option of "ID Not Assigned". Defaults to "Select Project Area ID".	Because CRP only has one option, "Non-Project Area", selecting it or leaving the default selection of "Select Project Area ID" will return the same search results.

100 Application Search Criteria (Continued)

C Fields, Descriptions, and Actions

Field/Link	Description	Action
<p>Application Control Number</p>	<p>Free form data field for entering a specific application control number when known.</p>	<p>Type the application control number of the desired application/agreement.</p> <p>It is not necessary to type the full 13-digit application control number – the last four numerical digits of the control number (and alphabetical suffix, if applicable) are usually sufficient.</p> <p>It is not necessary to type underscores or dashes in the Application Control Number. The search ignores special characters such as underscores.</p> <p>When searching by application control number, do not enter search criteria in other search fields except the required State and county fields and optional fiscal year field (if desired). Entry of additional search criteria may unintentionally exclude the desired application/agreement.</p> <p>Typing the last six numerical digits of the application control number will limit the search to the desired fiscal year without entering anything in the Fiscal Year search criteria.</p> <p>Example: Typing 170001 as the Application Control Number in the search screen will return the same results as typing 01 053 2017 0001.</p>

100 Application Search Criteria (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description	Action
Source Contract Number	Free form data field for entering a specific source contract number when known.	<p>Type the source contract number of the desired approved CRP-1.</p> <p>If contract has been suffixed in CCMS, user can narrow search by entering contract number and suffix.</p>
Producer Name	Used to search by name of a known producer who is associated with the desired application/agreement.	<p>CLICK “Find Producer” to open a new window to conduct a SCIMS Customer Search (see 11-CM). From within the SCIMS Customer Search Screen type the producer’s last name or business name.</p> <p>Use of the customer’s first name in combination with the last name for individuals further refines and limits the search results.</p> <p>Example: Typing the last name of “Smith” in the SCIMS Customer Search returns all producers in the county with the last name of Smith. Adding the first name of “John” in the SCIMS Customer Search limits search results to only producers with first and last name of “John Smith”.</p>

100 Application Search Criteria (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description	Action
Fiscal Year	Drop-down menu that allows the user to select the four-digit Fiscal Year in which an application was created as search criteria.	<p>Select the desired Fiscal Year in which the application was created.</p> <p>Use of this search criteria in combination with the four-digit application control number (and alphabetical suffix, if applicable) limits the search results to a specific application/agreement.</p>
Application Status	<p>Drop-down list of specific application statuses available for use as search criteria. Defaults to “Select Application Status”. Selectable application statuses include:</p> <ul style="list-style-type: none"> • Approval Inprocess • Approved • Cancelled • Complete • Disapproved • Finalized • Incomplete • Paid • Partially Earned. • Revise COC • Revise Approval Inprocess • Terminate_Contract. <p>Note: If a specific application status from the list is not designated as search criteria, all application statuses will be displayed in the search results, including application statuses associated with agreements, which are not listed in this drop-down menu.</p>	<p>Select the desired application status to limit search results to only applications/agreements having that specific status.</p> <p>Example: Selecting “Partially Earned” as search criteria returns search results containing agreements that have received a payment, but not all practices have been marked as “Practice complete”.</p> <p>Note: When using search criteria of “Cancelled” for Application Status the Application search results will always be blank. There is no benefit to using the Application Status of Cancelled as search criteria.</p>

100 Application Search Criteria (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description	Action
Practice Status	<p>Drop-down list of specific practice statuses available for use as search criteria. Defaults to “Select Practice Status”. Selectable practice statuses include:</p> <ul style="list-style-type: none"> • Approved • Disapproved • Incomplete • Paid • Partially Earned • Payment Failed • Pending Approval • Pending Certification. 	<p>Select the desired practice status to limit search results to only applications/agreements containing a practice having that specific status.</p> <p>Example: Selecting “Payment Failed” as practice status search criteria returns search results containing applications where a payment has been attempted through Certify and Pay, but the payment was not successfully issued.</p>
Search	<p>Retrieves information based on the search criteria selected/entered. The Search Results Screen is displayed.</p>	<p>Click “Search” to conduct the search according to the selected criteria.</p>
Clear	<p>Resets all data entry search criteria fields.</p>	<p>Click “Clear” to remove all previously selected search criteria.</p> <p>Note: State and county are not removed as search criteria when clicking “Clear”.</p>

101 Application Search Results

A Overview

The Search Results Screen will be displayed based on the search criteria selected/entered according to [paragraph 100](#).

B Example of Application Search Results Screen

The following is an example of the Application Search Results Screen.

The screenshot shows the 'Application Search Results' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains options like 'CRP Program', 'Cost Share', 'New Application', 'Edit Application', 'Agreement Approval', 'Un-submit', 'Inactivate Application', 'Search', 'View/Print Forms and Letters', 'Performance and Payment', and 'Agreement Maintenance'. The main content area displays 'Search Results' for 'Cost Share Application search results'. It lists three applications with columns for Control Number, Primary Applicant, Application Status, State/County, Date Created, Show/Hide Practice Summary, and Edit Application. A detailed 'Practice Summary' table is shown for application 29-101-2022-0003, listing Practice Control Number, Practice Status, Action(s) like AgreementMaintenance, ProducerCertification, and TSPCertification, and Process Status.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Search Results Screen.

Field/Link	Description/Action
New Search	Returns the user to the Search Criteria Screen. Previous search criteria are retained. User must revise the search criteria as necessary to change the results of the next search.
Cost Share Application Search Results	
Control Number	CLICK the applicable control number to see a summary list of all practices for the application.
Primary Applicant	Displays the producer selected as the primary applicant on the application.

101 Application Search Results (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Application Status	Displays the status of the application. See paragraph 102 C for a list of possible application statuses.
State County	Displays the administrative State and County of the application.
Date Created	Displays the date the application was created.
Show/Hide Practice Summary	<p>After clicking “Search”, all resulting records of the search are displayed as collapsed with the “Show” link available.</p> <p>When “Show” is selected, the record is expanded and the Practice Summary for the selected Control Number is displayed as depicted by Application Control Number 29_101_2022_0003 above. Depending upon the application status, links to specific processes may display within the Practice Summary. See paragraph 102 for a list of the process links that are available within the Practice Summary for each possible application status.</p> <p>When “Hide” is selected, the record is collapsed, and the Practice Summary is removed from the user’s view.</p>
Edit Application	Depending upon the application status, links to specific processes may display within the Edit Application column. See paragraph 103 for a list of the process links that are available within the Edit Application column for each possible application status.

102 Application Search Results Practice Summary

A Overview

The Application Search Results Practice Summary is displayed for a record when the user clicks “Show” in the “Show/Hide Practice Summary Column. Available process links (if any) vary according to Application Status. Clicking the process link under the “Action” column heading takes the user directly to the specific process.

B Example of Application Search Results Practice Summary

The following is an example of the Practice Summary for a specific application/agreement.

The screenshot shows a web application interface for CRP. At the top, there are navigation links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu contains various options like 'New Application', 'Edit Application', 'Agreement Approval', etc., with 'Search' highlighted. The main content area is titled 'Search Results' and displays a list of assistance requests. Below this, there is a table of 'Cost Share Application search results' with columns for Control Number, Primary Applicant, Application Status, State County, Date Created, Show/Hide Practice Summary, and Edit Application. One result is shown for control number 29_101_2021_0083. Below the table, a 'Practice Summary' is provided for this application, including its status (APPROVED) and a list of actions like AgreementMaintenance, ProducerCertification, and TSPCertification, along with their respective process statuses.

Control Number	Primary Applicant	Application Status	State County	Date Created	Show/Hide Practice Summary	Edit Application
29_101_2021_0083	IMA PRODUCER	CONTRACT_APPROVED	Missouri - Johnson	02/25/2021	Hide	

Practice Control Number	Practice Status	Action(s)	Process Status
29-101-2021-0083-01-CP27	APPROVED	AgreementMaintenance ProducerCertification TSPCertification	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded ProducerCertification_Incomplete TSPCertification_Incomplete

102 Application Search Results Practice Summary (Continued)

C Application Statuses, Status Descriptions, Process Links, and Actions

The following table provides the application statuses, descriptions of the application statuses, process links, and actions for the Application Search Results Practice Summary.

Application Status	Application Status Description	Process Link	Action
Active Revise	Agreement in the process of being replaced by a revised agreement.	None	No action is permitted on an Active Revise status agreement unless its successor agreement is cancelled.
Active Terminate	Predecessor agreement where the termination of its successor agreement has been started, but not completed.	None	No action is permitted on Active Terminate status agreements.
Approval Inprocess	Agreement has been submitted for approval to secure the funds. This status is applicable only to CRP contracts approved on or after 12-04-2020.	None	Approval Inprocess status most often indicates that a problem occurred that prevented a successful approval. If agreement remains in "Approval Inprocess" contact the STO for assistance.
Approved	Agreement has been approved but no payments have been issued under the agreement.	Agreement Maintenance	Takes the user to the Revise Contract Screen. See paragraph 182 .
		Producer Certification	Takes the user to the Practice Summary Screen. See paragraph 133 .
		Retry Payment	Takes the user to the Retry Payment Screen. See paragraph 161 .
		TSP Certification	Takes the user to the Practice Summary Screen. See paragraph 133 .

102 Application Search Results Practice Summary (Continued)

C Application Statuses, Status Descriptions, Process Links, and Actions

Application Status	Application Status Description	Process Link	Action
Cancelled	Status is not used.	N/A	N/A
Complete	Practices and components have been added to the application, but the application has not yet been approved. Agreements in the process of being revised may also have a “Complete” status. Revised agreements are identifiable by the control number having an alpha suffix.	N/A	N/A
Disapproved	All practices on the application have been disapproved.	None	No action is permitted on “Disapproved” status applications.
Finalized	Agreement has been replaced with a successor agreement as a result of a revision.	None	No action is permitted on “Finalized” status agreements from within the Application Search Results. The Terminate Link is available through Agreement Search Results. See paragraph 301 .

102 Application Search Results Practice Summary (Continued)

C Application Statuses, Status Descriptions, Process Links, and Actions (Continued)

Application Status	Application Status Description	Process Link	Action
Incomplete	<p>Application does not have producer signature date and submitted date entered. Agreements in the process of being revised may also have an “Incomplete” status. Revised agreements are identifiable by the control number having an alpha suffix.</p> <p>Note: If no practices have been added to the application the Practice Summary is not displayed when the user clicks “Show” for the record on the Search Results Screen.</p>	N/A	No actions are available in the practice summary until a practice is approved.
Paid	Payments have been issued under the agreement and all practices have been marked as “Practice Complete”.	Agreement Maintenance	Takes the user to the Revise Contract Screen. See paragraph 182 .
		Producer Certification	Takes the user to the Producer Practice Summary Screen. See paragraph 133 .
		TSP Certification	Takes the user to the Practice Summary Screen. See paragraph 133 .

102 Application Search Results Practice Summary (Continued)

C Application Statuses, Status Descriptions, Process Links, and Actions (Continued)

Application Status	Application Status Description	Process Link	Action
Partially Earned	Payments have been issued under the agreement but not all practices have been marked as “Practice Complete”.	Agreement Maintenance	Takes the user to the Revise Contract Screen. See paragraph 182 .
		Producer Certification	Takes the user to the Practice Summary Screen. See paragraph 133 .
		TSP Certification	Takes the user to the Practice Summary Screen. See paragraph 133 .
Revise COC	<p>Successor agreement of a revision that has been submitted to COC/CED for approval but has not yet been approved.</p> <p>Note: The Revise COC status also applies to a previously terminated agreement that is in the process of being reinstated and has been submitted to the COC/CED for approval of the reinstatement.</p>	None	No action is permitted from within the Application Search Results Screen for a “Revise COC” status agreement. See paragraph 280 for actions permitted through “COC/CED Approval” on the left navigation menu.
Revise Approval Inprocess	Revised agreement has been submitted for approval to secure the funds. This status is applicable only to CRP contracts approved on or after 12-04-2020.	None	Revise approval Inprocess status most often indicates that a problem occurred that prevented a successful approval. If agreement remains in “Revise Approval Inprocess” contact the STO for assistance. STO should submit the case to SharePoint. See paragraph 4.
Revise Ended	Agreement that has been replaced with a successor contract through “Revise Agreement” process.	None	No action is permitted on “Revise Ended” status agreements.

102 Application Search Results Practice Summary (Continued)

C Application Statuses, Status Descriptions, Process Links, and Actions (Continued)

Application Status	Application Status Description	Process Link	Action
Revise In Process	<p>Successor agreement of a revision that has not yet been designated “Revise Complete”.</p> <p>or</p> <p>Previously terminated agreement in the process of being reinstated but not yet designated as submitted to the COC/CED for approval.</p>	None	No action is permitted from within the Application Search Results Screen for a “Revise In Process” status agreement. See paragraph 240 for actions permitted through “Agreement In Process” on the left navigation menu.
Terminate COC	Agreement in the process of being terminated that has not yet received a “Terminate COC/CED Approval Date”.	None	No action is permitted from within the Application Search Results Screen for a “Terminate COC” status agreement. See paragraph 280 for actions permitted through “COC/CED Approval” on the left navigation menu.
Terminate Contract	Agreement that has been terminated.	None	No action is permitted on “Terminate Contract” status applications.
Terminate Ended	Predecessor of a terminated successor agreement. “Terminate Ended” status is given to the predecessor after the successor agreement is terminated.	None	No action is permitted on “Terminate Ended” status agreements.

103 Application Search Results – Edit Application Column

A Overview

The “Edit Application” column on the Application Search Results Screen contains process links for applications. Available process links (if any) vary according to Application Status selected in the search criteria on the Search Criteria Screen. Clicking the process link under the “Edit Application” column takes the user directly to the specific process.

Note: Many of the application statuses that are displayed in the application search results represent agreements (approved applications). The “Edit Application” column of the application search results will never contain a process link for an agreement.

B Example of Application Search Results – Edit Application Column

The following is an example of the “Edit Application” column on the Application Search Results Screen.

The screenshot shows the CRP Home interface. At the top, there are navigation links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu contains options like Menu, CRP Program, Cost Share, and Search. The main content area displays search results for assistance requests. A table titled 'Cost Share Application search results' contains the following data:

Control Number	Primary Applicant	Application Status	State County	Date Created	Show/Hide Practice Summary	Edit Application
29_101_2021_0122	IMA PRODUCER	PARTIALLY_EARNED	Missouri - Johnson	06/08/2021	Show	
29_101_2021_0124	ABC FARMS	INCOMPLETE	Missouri - Johnson	06/16/2021	Show	Edit
29_101_2021_0126	XYZ CORP	INCOMPLETE	Missouri - Johnson	06/22/2021	Show	Edit
29_101_2021_0128	XYZ CORP	COMPLETE	Missouri - Johnson	06/24/2021	Show	Go To Approval

103 Application Search Results – Edit Application Column (Continued)

C Application Statuses, Status Descriptions, Process Links, and Actions

The following table provides the application statuses, status descriptions, process links, and actions for the Edit Application column of the Application Search Results.

Application Status	Status Description	Process Link	Action
Complete	Practices and components have been added to the application, but the application has not yet been COC approved.	Go to Approval	The Agreement Approval – Assign ID Screen is displayed. See paragraph 61 for additional information.
Incomplete	Application does not have producer signature date and submitted date entered.	Edit	The Application Signup – Applicant Information Screen is displayed. See paragraph 30 for additional information.
Approval Inprocess	Application has been submitted for approval to secure the funds.	View Approval Status	Error message describing the reason approval was prevented will be displayed.
Revise Approval Inprocess	Agreement being revised has been submitted for approval to secure the funds.	View Approval Status	Error message describing the reason approval was prevented will be displayed.
All Other Statuses (Approved, Disapproved, Paid, etc.)	All other statuses are associated with agreements, not applications.	None	Not applicable.

104 Application Search by Practice Status

A Overview

The Application Search process provides the user with the ability to search by Practice Status. Searching by Practice Status allows the user to locate applications that need specific actions. Links to the processes to complete those actions exist within the search results.

B Example of Application Search Results – Approved Practice Status

The following is an example of the application search results using a practice status of “Approved” as search criteria. “Show” must be clicked in the “Show/Hide Practice Summary” column to display the practice summary containing the individual practices and their applicable process links.

104 Application Search by Practice Status (Continued)**C Explanation of Application Search Results – Approved Practice Status**

When using search criteria of “Approved” for Practice Status, the Application Search Results:

- may display multiple application statuses

Note: Practices with a status of Approved may be associated with any application status except application statuses of Complete, Disapproved, Incomplete, and Paid.

- will only contain process links when associated with application statuses of Contract Approved or Partially Earned

Note: Process links associated with the Approved status practice will always be:

- Agreement Maintenance – [paragraph 182](#)
 - Producer Certification – [paragraph 133](#)
 - TSP Certification – [paragraph 133](#).
- practice statuses other than approved may also be displayed in the Practice Summary of the search results when applications having more than one practice are included in the search results and all practices associated with the application display when the practice summary is opened.

The primary benefit of using Practice Status of Approved as search criteria is to exclude unapproved applications, disapproved applications, and paid agreements from the search results list. This may significantly reduce the number of results returned.

104 Application Search by Practice Status (Continued)

D Example of Application Search Results – Disapproved Practice Status

The following is an example of the Application Search Results using a “Practice Status” of “Disapproved” as search criteria.

The screenshot shows the CRP application search results page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A menu on the left contains options like Welcome County user, CRP Program, Cost Share, and Search. The main content area displays search results for a disapproved practice. A table lists application details, and a detailed view shows the practice status as 'DISAPPROVED'.

29-101-2021-0091-01-CP27	DISAPPROVED		EnvironmentCompliance_UnNeeded EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded NeedsDetermination_Complete_Unneeded

E Explanation of Application Search Results – Disapproved Practice Status

When using search criteria of “Disapproved” for “Practice Status” the “Application Search Results”:

- may have results if a practice has been disapproved in error
 - Note:** According to 2-CRP, paragraph 499, when CRP-1 is approved, the practices scheduled on the approved conservation plan are automatically approved. Because CSS is used for multiple programs, functionality to disapprove applications is included in the software but should not be used for CRP cost share agreements.
- may display multiple application statuses, and practices with a status of “Disapproved” may be associated with any application status except application statuses of “Finalized and Incomplete”
- practice statuses other than “Disapproved” may also be displayed in the search results when applications having more than one practice are included in the search results.

104 Application Search by Practice Status (Continued)

F Example of Application Search Results – Incomplete Practice Status

The following is an example of the Application Search Results using a “Practice Status” of “Incomplete” as search criteria.

The screenshot shows the CRP Home interface. At the top, there are navigation links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A search results banner indicates that the search criteria were State=Missouri, County=Johnson, Fiscal Year=2022, and Practice Status=INCOMPLETE. Below this, a table titled 'Cost Share Application search results' displays one application with the following details:

Control Number	Primary Applicant	Application Status	State County	Date Created	Show/Hide Practice Summary	Edit Application
29_101_2022_0072	ABC FARMS	INCOMPLETE	Missouri - Johnson	01/20/2022	Hide	Edit

Below the application table is a 'Practice Summary' table:

Practice Control Number	Practice Status	Action(s)	Process Status
29-101-2022-0072-01-CP21	INCOMPLETE		

G Explanation of Application Search Results – Incomplete Practice Status

When using search criteria of “Incomplete” for “Practice Status” the “Application Search Results” will:

- only contain applications with an Application Status of Incomplete
- never contain applications that contain practices with a “Practice Status” of anything other than “Incomplete” – practices inherit their incomplete practice status from the application
- always display an application process link of “Edit” in the “Edit Application” column.

Note: Clicking the “Edit” process link in the “Edit Application” column takes the user to the Application Signup – Applicant Information Screen (see [paragraph 30](#)) where the user can edit the application from the start of the application process.

104 Application Search by Practice Status (Continued)

G Explanation of Application Search Results – Incomplete Practice Status (Continued)

The primary benefit of using “Practice Status” of “Incomplete” as search criteria is to locate applications where practices have been added to the application, but the application has not been designated as complete by confirming the application information is complete on the Application Signup – Additional Information – Eligibility Screen (see [paragraph 38](#)).

Note: Searching by “Application Status” of “Incomplete” may return more results than searching by “Practice Status” of “Incomplete”. Searching by “Application Status” of “Incomplete” will return applications with no practices added, while searching by “Practice Status” of “Incomplete” will only return applications with at least one practice added.

H Example of Application Search Results – Paid Practice Status

The following is an example of the Application Search Results using a Practice Status of Paid as search criteria.

The screenshot shows the CRP application search results page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu contains options like Welcome, CRP Program, Cost Share, and Search. The main content area shows search results for 'Practice Status=PAID'. A table lists search results with columns for Control Number, Primary Applicant, Application Status, State County, Date Created, Show/Hide Practice Summary, and Edit Application. One result is shown for control number 29_101_2013_0103. Below this, a 'Practice Summary' table shows the Practice Control Number, Practice Status (PAID), Action(s), and Process Status.

Control Number	Primary Applicant	Application Status	State County	Date Created	Show/Hide Practice Summary	Edit Application
29_101_2013_0103	IMA PRODUCER	REVISE_IN_PROCESS	Missouri - Johnson	08/15/2013	Hide	

Practice Control Number	Practice Status	Action(s)	Process Status
29-101-2013-0103-01-CP33	PAID		EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded ProducerCertification_Incomplete TSPCertification_Incomplete

104 Application Search by Practice Status (Continued)**I Explanation of Application Search Results – Paid Practice Status**

When using search criteria of “Paid” for practice status the “Application Search Results”:

- may display multiple application statuses
- may contain practices with a practice status of something other than “Paid” when multiple practices are included on a single application
- will contain process links in the “Practice Summary” for the practices with a practice status of paid, if the application status is either “Paid” or “Partially Earned”.

Note: Process links associated with the “Paid” status practice will always be:

- Agreement Maintenance – [paragraph 182](#)
- Producer Certification – [paragraph 133](#)
- TSP Certification – [paragraph 133](#).

The primary benefit of using “Practice Status” of “Paid” as search criteria is to locate applications where a payment has been issued for one or more practices and at least one of the practices on which payment was issued has been designated as “Practice complete”.

104 Application Search by Practice Status (Continued)

J Example of Application Search Results – Partially Earned Practice Status

The following is an example of the application search results using a “Practice Status” of “Partially Earned” as search criteria.

The screenshot shows the CRP application search interface. At the top, there are navigation links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A menu on the left lists various actions like 'New Application', 'Edit Application', 'Agreement Approval', etc. The main content area shows search results for the criteria: State=Missouri, County=Johnson, Practice Status=PARTIALLY_EARNED. Below this is a table of 'Cost Share Application search results' with columns for Control Number, Primary Applicant, Application Status, State County, Date Created, Show/Hide Practice Summary, and Edit Application. The first result is for control number 29_101_2021_0143, primary applicant IMA PRODUCER, and application status PARTIALLY_EARNED. Below the table is a 'Practice Summary' table with columns for Practice Control Number, Practice Status, Action(s), and Process Status. The first practice listed is 29-101-2021-0143-01-CP22 with a status of PARTIALLY_EARNED and actions including AgreementMaintenance, ProducerCertification, and TSPCertification.

K Explanation of Application Search Results – Partially Earned Practice Status

When using search criteria of “Partially Earned” for “Practice Status”, the Application Search Results:

- may display multiple application statuses
- may contain practices with a “Practice Status” of something other than “Partially Earned” when multiple practices are included on a single application
- will contain process links in the “Practice Summary” for the practices with a “Practice Status” of “Partially Earned” if the Application Status is “Partially Earned”, “Contract Approved”, or “Paid”.

Note: Process links associated with the Partially Earned status practice will always be:

- Agreement Maintenance – [paragraph 182](#)
- Producer Certification – [paragraph 133](#)
- TSP Certification – [paragraph 133](#).

The primary benefit of using “Practice Status” of “Partially Earned” as search criteria is to locate applications where a payment has been issued for one or more practices, but the practice has not been designated as “Practice complete”.

104 Application Search by Practice Status (Continued)

L Example of Application Search Results – Payment Failed Practice Status

The following is an example of the application search results using a “Practice Status” of “Payment Failed” as search criteria.

The screenshot shows the CRP application search results page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A menu on the left lists various actions like 'New Application', 'Edit Application', 'Agreement Approval', 'Un-submit', 'Inactivate Application', 'Search', 'View/Print Forms and Letters', 'Performance and Payment', 'Certify & Pay', 'Retry Payment', 'Agreement Maintenance', 'Revise Agreement', 'Agreement In Process', and 'Terminate/Reinstate'. The 'Search' option is highlighted.

The main content area is titled 'Search Results' and displays the following information:

Below is a list of assistance requests for the criteria you selected.
[New Search](#)
Your request: State=Missouri, County=Johnson, Fiscal Year=2021, **Practice Status=PAYMENT_FAILED**

Cost Share Application search results

CRPCostShareSearchResults1 [Back to Top ^](#)

M Explanation of Application Search Results – Payment Failed Practice Status

When using search criteria of “Payment Failed” for “Practice Status”, the Application Search Results:

- may display multiple application statuses
- may contain practices with a practice status of something other than “Payment Failed” when multiple practices are included on a single application
- will contain a “Retry Payment” process link in the “Practice Summary” for the practices with a practice status of “Payment Failed”. See [paragraph 160](#).

The primary benefit of using “Practice Status” of “Payment Failed” as search criteria is to locate applications where a payment has been attempted but was not fully successful for one or more producers.

104 Application Search by Practice Status (Continued)

N Example of Application Search Results – Pending Approval Practice Status

The following is an example of the application search results using a “Practice Status” of “Pending Approval” as search criteria.

The screenshot shows the CRP application search results page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. Below this, a message states "You are logged in as a County user". A left-hand menu contains various options like "New Application", "Edit Application", and "Search". The main content area is titled "Search Results" and displays the search criteria: "Your request: State=Missouri, County=Johnson, Practice Status=PENDING_APPROVAL". Below the search criteria, there is a table titled "Cost Share Application search results". The table has columns for Control Number, Primary Applicant, Application Status, State County, Date Created, Show/Hide Practice Summary, and Edit Application. The first row shows a control number of 29_101_2022_0044, primary applicant IMA PRODUCER, application status COMPLETE, state county Missouri - Johnson, and date created 12/13/2021. Below this table, there is a "Practice Summary" table with columns for Practice Control Number, Practice Status, Action(s), and Process Status. The first row in this table shows a practice control number of 29-101-2022-0044-01-CP21, a practice status of PENDING_APPROVAL, and a process status of EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded. A "Go To Approval" link is visible in the "Edit Application" column of the first row in the main table.

O Explanation of Application Search Results – Pending Approval Practice Status

When using search criteria of “Pending Approval” for “Practice Status”, the application search results:

- may display multiple application statuses
- will usually display only practices with a “Practice Status” of “Pending Approval” but may also include other practice statuses
- will contain a “Go To Approval” link in the “Edit Application” column for the application. (See [Section 3 – Agreement Approval](#) for additional information).

104 Application Search by Practice Status (Continued)

P Example of Application Search Results – Pending Certification Practice Status

The following is an example of the application search results using a “Practice Status” of “Pending Certification” as search criteria.

The screenshot shows a web interface for the CRP system. At the top, there are navigation links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A search results section displays the criteria used: State=Missouri, County=Johnson, and Practice Status=PENDING_CERTIFICATION. Below this, a table titled 'Cost Share Application search results' shows one application with Control Number 29_101_2013_0112, Primary Applicant IMA PRODUCER, and Application Status PAID. A 'Practice Summary' table below the main results shows the practice status as PENDING_CERTIFICATION and lists associated actions: AgreementMaintenance, ProducerCertification, and TSPCertification. The process status for this practice is EnvironmentCompliance_UnNeeded, NeedsDetermination_Complete_Unneeded, ProducerCertification_Complete, and TSPCertification_Complete.

Q Explanation of Application Search Results – Pending Certification Practice Status

When using search criteria of “Pending Certification” for “Practice Status” the application search results:

- will display applications with multiple practice statuses
- may contain practices with a “Practice Status” of something other than “Pending Certification” when multiple practices are included on a single application.

Note: Process links associated with the pending certification status practice will always be:

- Agreement Maintenance – [paragraph 182](#)
- Producer Certification – [paragraph 133](#)
- TSP Certification – [paragraph 133](#).

The primary benefit of using “Practice Status” of “Pending Certification” as search criteria is to locate agreements that have both producer certification and TSP certification complete, but the agreement has not yet been processed for payment through “Certify” and “Pay”.

105-119 (Reserved)

Section 7 View/Print Forms and Letters

120 View/Print Forms

A Overview

To view and print an existing application or agreement, from the CRP Home Screen CLICK “View/Print Forms and Letters” from the left navigation menu.

B Example of View Print Forms Screen

The following is an example of the View Print Forms Screen with default search criteria settings.

120 View/Print Forms

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the View Print Forms Screen.

Field/Link	Description/Action
State	Drop-down list of the States associated to the user. Select desired State. State and National users are limited to the State selected during program selection.
County	Drop-down list of the counties associated to the user. Select desired county. State and National users are limited to the county selected during program selection.
Project Area ID	Select "Project Area ID" from the drop-down list to limit search results to a single "Project Area ID", if desired. Leave as "Select Project Area ID" to include all available "Project Areas" as potential search results.
Application/ Agreement Number	Enter application/agreement number to search for a specific application/agreement, if desired. Leave blank to include all agreement numbers as potential search results. See paragraph 100 for search tips when using agreement number (application control number) as search criteria.
Source Contract Number	Enter source contract number to search for a specific CRP-1, if desired. Leave blank to include all source contract numbers as potential search results.
Find Producer	CLICK "Find Producer" to open a new window to conduct a SCIMS Customer Search (see 11-CM).
Fiscal Year	Select the Fiscal Year from the drop-down list, to limit search results to a single Fiscal Year if desired. Leave as "Select Year" to include all available FY's as potential search results.
Cost Share Status	Select "Cost Share Status" from the drop-down list to limit search results to a single Cost Share (Application or Agreement) Status, if desired. Leave as "Select Cost Share Status" to include all available Cost Share Statuses as potential search results.
Search	Retrieves information based on the search criteria selected/entered. The View Print Form Results Screen will be displayed.
Clear	Resets search criteria to default values.

121 View Print Form Results

A Overview

The View Print Form Results Screen will be displayed based on the search criteria selected/entered according to [paragraph 120](#).

B Example of View Print Form Results Screen

The following is an example of the View Print Form Results Screen.

The screenshot shows a web application interface for viewing print form results. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right, it says "You are logged in as a County user".

On the left, there is a menu with categories: Menu (welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search), and Performance and Payment (View/Print Forms and Letters).

The main content area is titled "View Print Form Results" and contains the following text:

Below is a list of agreements for the criteria you selected.

C Action

The following table provides the letters and/or forms that are available to view and print.

Note: The letters and forms available for selection is dependent on the stage of the application or agreement and its status.

Letter/ Form	Description	Necessary to Print
Approval Letter	Letter to the Producer stating their request for Cost-Sharing for the indicated practice(s) has been approved.	Application approved.
Disapproval Letter	Letter to the Producer stating their request for Cost-Sharing for the indicated practice(s) has been disapproved. CRP cost share agreements are created based on practices needed for CRP contracts and Disapproval letters are not used.	N/A
Referral Letter	Applications could have a Referral Letter link but the letter is not applicable to CRP.	N/A
FSA-848	Form FSA-848, Cost-Share Application.	Application started with producer assigned and farm(s), tract(s), and field(s) selected.
FSA-848A	Form FSA-848A, Cost-Share Agreement.	Application approved.
FSA-848B	Form FSA-848B, Cost-Share Certifications and Payments.	Application approved.
View Certifications	Displays the View Existing Certifications Screen. See paragraph 152 for additional information.	N/A

122-129 (Reserved)

Part 4 Performance and Payment

Section 1 Certification

130 Search Agreements for Certify and Pay

A Overview

Producer and TSP certification data must be entered for each approved practice on a cost share agreement. After an application has been approved and the producer has completed work on practices or components on the agreement, user will enter producer and TSP certification data.

To enter producer and TSP certification data for existing approved agreements, from the CRP Home Screen, CLICK “Certify & Pay” from the left navigation menu. The Search Agreements for Certify & Pay Screen will be displayed.

B Example of Search Agreements for Certify & Pay Screen

The following is an example of the Search Agreements for Certify & Pay Screen.

The screenshot displays the 'Search Agreements for Certify & Pay' interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right side of the top bar, it says 'You are logged in as a County user'. On the left, there is a vertical menu with sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), and Performance and Payment (Certify & Pay, Retry Payment). The 'Certify & Pay' option is highlighted in blue. The main content area has a dark blue header with the title 'Search Agreements for Certify & Pay' and the instruction 'Choose from the options below to get the list of assistance requests.' Below this, there are several form fields: '* State : Missouri' (dropdown), '* County : Johnson' (dropdown), 'Agreement Number :' (text input), 'Source Contract Number :' (text input), 'Producer Name :' (text input with a 'Find Producer' button), and 'Fiscal Year : Select Year' (dropdown). At the bottom of the form area, there are 'Search' and 'Clear' buttons. The page ID 'CRPCostShareContractIntermediateSearch01' is visible at the bottom left, and a 'Back to Top ^' link is at the bottom right.

130 Search Agreements for Certify and Pay (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Certification Search Agreements for Certify & Pay Results Screen.

Field	Description/Action
State	Drop-down list of the States associated to the user. Select desired State. State and National users are limited to the State selected during program selection.
County	Drop-down list of the counties associated to the user. Select desired county. State and National users are limited to the county selected during program selection.
Agreement Number	Enter agreement number to search for a specific agreement, if desired. Leave blank to include all agreement numbers as potential search results. See paragraph 100 for search tips when using agreement number (application control number) as search criteria.
Source Contract Number	Enter source contract number from the CRP-1 to search for agreements associated with the CRP contract. Leave blank to include all source contract numbers as potential search results.
Producer Name	CLICK “Find Producer” to open a new window to conduct a SCIMS Customer Search (11-CM).
Fiscal Year	Select the fiscal year from the drop-down list, to limit search results to a single fiscal year if desired. Leave as “Select Year” to include all available fiscal years as potential search results.
Search	Retrieves information based on the search criteria selected/entered. The Certification Search Results Screen is displayed.
Clear	Resets search criteria to default values.

131 Certify and Pay Search Results

A Overview

After “Search” is selected on the Search Agreements for Certify & Pay Screen, the Certify & Pay Search Results Screen will be displayed. Depending on the search criteria entered, one or more search results may be listed. CLICK on the Agreement Number of the desired record to open the Agreement Summary containing links to the practices.

B Example of Certify & Pay Search Results Screen

The following is an example of the Certify & Pay Search Results Screen.

Notes: In the “Agreement Status” column, only approved, paid, finalized, and partially earned agreements will be displayed in the list of agreements available for producer certification and/or TSP certification data.

Additional Screen numbers may be displayed at the top and bottom of the Screen when all search results do not fit on a single screen.

The screenshot shows a web application interface for 'Certify & Pay Search Results'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user status indicator on the right says 'You are logged in as a County user'. On the left is a vertical menu with sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment). The main content area has a title 'Certify & Pay Search Results' and a table titled 'Agreement results'.

Agreement Number	Applicant Name	Agreement Status	State County	Date Revision Began	Approval Date	Forms
29_101_2022_0001	ABC FARMS	CONTRACT_APPROVED	Missouri - Johnson	08/16/2021	11/17/2021	FSA848B

Below the table, the text 'CRPCostShareContractIntermediateSearch1' is displayed on the left, and a 'Back to Top ^' link is on the right.

131 Certify and Pay Search Results (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Certify & Pay Search Results Screen.

Field	Description/Action
Agreement Number	Click the agreement control number link for the agreement on which performance is to be certified. The Agreement Summary Screen is displayed.
Applicant Name	Displays the applicant's name.
Agreement Status	Displays the current status of the agreement.
State-County	Displays the State and County of the agreement.
Date Revision Began	Displays the date the agreement was created or date revision began. If there is a revision, the predecessor agreement and successor agreement are assigned the same date.
Approval Date	Displays the approval date.
Forms	CLICK "FSA848B" to generate FSA-848B, Cost-Share Performance Certification and Payment, for printing.

132 Agreement Summary Screen

A Overview

The Agreement Summary Screen is displayed after “Agreement Number” is selected on the Certify and Pay Search Results Screen.

B Example of Agreement Summary Screen

The following is an example of the Agreement Summary Screen.

The screenshot shows the Agreement Summary screen for a County user. The page includes a navigation menu on the left, a header with navigation links, and a main content area with summary information and a table of practices.

Navigation Menu:

- Menu
 - Welcome County user
 - CRP Program
 - Select Program
 - Cost Share
 - New Application
 - Edit Application
 - Agreement Approval
 - Un-submit
 - Inactivate Application
 - Search
 - View/Print Forms and Letters

132 Agreement Summary Screen (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Summary Screen.

Field	Description/Action
Practice	Click the hyperlink for the practice to access the Practice Summary Screen to enter the producer and TSP certifications or submit a practice for payment.
Practice Status	Displays the current status of the practice.
Practice End Date	Displays the end date of the practice.
Practice Extent Approved	Displays the extent approved for the practice.
Cost-Share Approved (\$)	Displays the dollar amount of cost share approved for the practice.
Practice Complete	Displays if the practice is complete or not.
Total Installation Cost (\$)	Displays the total cost once the practice is marked complete during the entry of producer certification.
Acres Served	Displays the acres served by the practice once practice is marked complete during the entry of producer certification.
Back	Certify and Pay Search Results Screen is displayed.

133 Practice Summary Screen

A Overview

The Practice Summary Screen will be displayed after the practice is selected on the Agreement Summary Screen.

B Example of the Practice Summary Screen

The following is an example of the Practice Summary Screen.

Note: If only the “Add Certification” button is displayed, then no certifications have been entered on the specific practice that was selected.

The screenshot displays the 'Practice Summary' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Practice Summary' and contains the following information:

- Control No :** 29_101_2022_0267
- Applicant Name :** IMA PRODUCER
- Agreement Status :** CONTRACT_APPROVED
- Creation Date :** 08/22/2022
- Project Area ID :** 1667
- Contract Number :** 11207

Below this information, there is a section for 'Selected Practice: 01-CP22 Riparian Buffer'. It includes two questions:

- Is the selected practice for a Management Activity? : No
- Is this cost share for re-establishment or an authorized CREP riparian buffer "management" maintenance payment? : No

An 'Add Certification' button is visible. Below this is a table with the following columns: *Certification Number, *Program Year, Producer Signature Date, TSP Signature Date, Producer Actual Cost Certified (\$), Certification Links, and Payment Status.

*Certification Number	*Program Year	Producer Signature Date	TSP Signature Date	Producer Actual Cost Certified (\$)	Certification Links	Payment Status
Total Certifications for the Practice				0.00		
Total Cost Share from Other Sources for the Practice(\$)				0.00		

At the bottom of the table area, there are 'Back' and 'Request Payment' buttons. A note states: '* - These fields will be used when software is enhanced in the future.' The page footer includes 'CRPPracticeSummary01' and a 'Back to Top' link.

Note: If this practice was PIP eligible, the message “This is a PIP eligible practice” will be displayed under the Add Certification selection.

133 Practice Summary Screen (Continued)

B Example of the Practice Summary Screen (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Practice Summary Screen.

Field	Description/Action
Add Certification	CLICK “Add Certification” to enter a new certification for the practice that was selected. The Create New Producer Certification – Component Rate Practice Screen is displayed.
Certification Number	Not currently used.
Program Year	Not currently used.
Producer Signature Date	Displays the producer signature date.
TSP Signature Date	Displays the TSP signature date.
Producer Actual Cost Certified (\$)	Displays the actual cost that has been certified by the producer.

133 Practice Summary Screen (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Certification Links	CLICK: <ul style="list-style-type: none"> • “Producer” to view the applicable producer certification • “TSP” to view the applicable TSP certification.
Payment Status	Displays the status payment status of the specific certification.
Total Certifications for the Practice	Displays the total of all certifications for the practice.
Total Cost Share from Other Sources for the Practice(\$)	Displays the total cost share from other sources for the practice.
Back	The Agreement Summary Screen is displayed.
Request Payment	The Record and Pay Screen is displayed only if the producer and TSP certifications have both been entered. If certifications have not been entered, once “Request Payment” is selected, system will display an Error message of “Producer Certification and TSP Certification must be completed for a practice before payment. Please verify certification is complete for the practice(s) before submitting for payment(s).”

134 Create New Producer Certification – Component Rate Practice

A Overview

The Create New Producer Certification – Component Rate Practice Screen is displayed after “Add Certification” is selected on the Practice Summary Screen.

134 Create New Producer Certification – Component Rate Practice (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Create New Producer Certification – Component Rate Practice Screen.

Field/Link	Description/Action
Current Actual Cost (\$)	Enter actual cost for the producer’s share. Calculated by multiplying the amount of eligible costs from the producer’s receipts times the producer’s share.
Current Extent Performed	<p>Enter current extent performed for the producer’s share.</p> <p>Current Extent Performed is not prepopulated from Agreement Approval. Re-entering extent performed encourages the county user to fully evaluate the extent requested, extent needed, extent approved, and extent performed before approving.</p> <p>Notes: Cost and extent can be edited any time before payments are disbursed through the Certify & Pay option.</p> <p>After a payment has been disbursed, any adjustment to cost or extent must be done by completing a new certification. This will require generating a new FSA-848B and obtaining new signatures. Extent adjustments after payment disbursement could result in a receivable or an overpayment.</p> <p>When changes are made to producer certified extents, users must verify that TSP certifications are correct and modify TSP certifications, if necessary.</p> <p>If the practice is not complete, additional certifications can be processed at a later time.</p> <p>The sum of the Current Extent Performed by all producers cannot exceed the extent approved. If Prior Extent Performed data exists, the sum of the Current Extent Performed by all producers plus the Prior Extent Performed by all producers cannot exceed the extent approved.</p>

134 Create New Producer Certification – Component Rate Practice (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Practice Complete?	<p>CLICK:</p> <ul style="list-style-type: none"> • “Yes” if certification for all components on the selected practice is certified completely and if no other payment is to be issued. <p>Notes: If “Yes” is selected indicating that the practice is complete the system will automatically de-obligate any unused funds.</p> <p>“Total installation cost” and “Acre served” data fields are added to the Screen and will be displayed.</p> <ul style="list-style-type: none"> • “No” if partial certification.
Add/Edit Cost Share From Other Sources?	<p>CLICK:</p> <ul style="list-style-type: none"> • “Yes” if there is cost share from other sources that need to be recorded • “No” if no other sources need to be recorded. <p>Note: If the practice is not eligible for a PIP, answer no.</p>
Total Installation Cost	<p>Only applicable if the “Practice complete?” question has been answered “Yes”. Enter the total cost incurred to install the practice.</p> <p>Note: Total installation cost is not used in the reporting.</p>
Acres Served	<p>Only applicable if the “Practice complete?” question has been answered “Yes”. Enter the acres served by the conservation practice.</p>
Components Complete	<p>Select the components that are complete by clicking on the completed component in the list to highlight the completed component.</p> <p>If all components are complete click on the first component in the list, click and hold shift and click the last component in the list and all components will be highlighted.</p> <p>To select multiple components individually, click and hold the control (ctrl) key while clicking on the individual completed components.</p> <p>To de-select a component that was erroneously highlighted, click and hold the control key and click on the highlighted component.</p>

134 Create New Producer Certification – Component Rate Practice (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Date Receipts and documentation received	Enter date receipts and documentation are received from the producer. Note: When applicable, the prompt payment interest date will be calculated by the software by adding 30 calendar days to the later of the date documents are received or the producer signature date.
FSA_848B PDF	Before producer signature date is entered, CLICK “FSA_848B PDF” to print FSA-848B. If multiple signatures are required, then multiple copies will need to be printed to obtain the required signatures.
Producer Signature Date	After the producer’s signature is obtained on the printed form, re-access the certification and enter the producer signature date. If multiple signatures are required enter the latest signature date. Note: When applicable, the prompt payment interest date will be calculated by adding 30 calendar days to the later of the date documents are received or the producer signature date.
Save	The information entered can be saved if a producer signature has not been entered. Note: If the information for producer certification is not saved, all producer certification data for that practice control number will be lost. Practice Status and the Producer Certification process status will remain as they were before initiation of the certification.
Continue to Next Step	The Producer Certification Confirm – Component Rate Practice Screen is displayed. See paragraph 135 for additional information.
Cancel	The Agreement Summary Screen is displayed. See paragraph 132 for additional information.
Show/Hide selected practice’s farm, tract, and fields	Displays or Hides the Farm No., Tract No., Field No., Acres and State/County as loaded on Application Signup –Add Contributors Screen. See paragraph 31 .

135 Producer Certification Confirm – Component Rate Practice

A Overview

After “Continue to Next Step” is selected on the Producer Certification – Component Rate Practice Screen, the Producer Certification Confirm – Component Rate Practice Screen will be displayed if “No” was selected for the “Add/Edit Cost Share From Other Sources” question. See [135 D](#) for an example of the Cost Share From Other Sources Screen if “YES” is selected for the question “Add/Edit Cost Share From Other Sources”.

Field/Link	Description/Action
Practice Extents	
Current Extent Performed	Enter the current practice extent performed.
Component Extents	
Current Extent Performed	Enter the current component extent performed.
Self-certifying performance without FSA, NRCS or other Technical Service Provider certification?	<p>Click the “No” radio button if FSA, NRCS or other TSP is certifying performance. Click the “Yes” radio button if the producer is self-certifying performance. If “Yes” is selected, the only data fields that are required are:</p> <ul style="list-style-type: none"> • “Person(s) who certified performance” – a list of the producers on the agreement is provided and the user must check the box next to the name of the producer(s) who is/are reporting partial performance • “Performance Report” – enter “Producer reports partial performance with no technical review” • TSP/Self Certification Date.
Person(s) who certified performance	<p>Enter the name if TSP certified.</p> <p>Check the producer(s) signing if reporting partial performance.</p>
Affiliation	Select the affiliation of the person who certified performance.
Performance Report	Enter any information that is relevant to the installation of the practice.
Date Referred to TSP	Enter the date referred.
Certification Referral Expiration Date	Auto-populated to a date 1 month after the certification date referred. The date may be changed.

136 TSP Certification (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Date received from TSP	<p>Enter the date received.</p> <p>Note: Before TSP or self-certification signature date is entered, the user will CLICK “FSA_848B PDF” and obtain a signature on the printed form. User must CLICK “Save” before printing FSA-848B to populate the TSP certification data entered in the system on the printed form.</p>
FSA_848B PDF	<p>CLICK “FSA_848B PDF” to print FSA-848B to obtain a signature. If multiple signatures are required multiple copies may need to be printed to obtain the required signatures.</p>
TSP/Self Certification Date	<p>Enter the TSP or self-certification date. A calendar option is also provided.</p> <p>Notes: Self certification may only be used for partial payments.</p> <p>USDA TSP certification is required for completed practices.</p> <p>If more than one signature is required, the latest signature date should be entered.</p>
Save	<p>The information entered can be saved if TSP signature has not been entered.</p> <p>Note: If the information for a TSP certification is not submitted (with certification date) or saved (when not yet certified) all TSP certification data for that practice control number will be lost. The TSP Certification process status will remain “Incomplete”.</p>
Continue to Next Step	<p>The TSP Certification Confirmation Screen is displayed.</p>
Cancel	<p>Returns user to Agreement Summary Screen. If TSP/Self Certification date has been entered, it is removed.</p>

136 TSP Certification (Continued)

D Certification Sequence – TSP Certified vs. Self-certified

TSP Certified	Self-certified
Initial Step – Before entering extents	
<ul style="list-style-type: none"> • Answer self-certifying question as “No”. • In the “Affiliation” data field, enter the name of the agency that will perform the TSP certification or “Other” if an independent TSP will perform the certification. • Enter date referred to TSP. • “Save” and print FSA-848B. • Refer FSA-848B to TSP. 	<ul style="list-style-type: none"> • Answer self-certifying question as “Yes”. <p>Note: All subsequent data fields will disappear except:</p> <ul style="list-style-type: none"> • Person Who Certified Performance • Performance Certification • TSP/Self Certification Date.

136 TSP Certification (Continued)

D Certification Sequence – TSP Certified vs. Self-certified (Continued)

TSP Certified	Self-certified
Entering Performance	
<ul style="list-style-type: none"> • Enter the current practice extent performed as provided by TSP. • Enter the current component extent performed as provided by TSP. • Enter the name of the person who certified performance. • Enter text description of performance certification as provided by TSP. • Enter date FSA-848B was received back from TSP. • Enter TSP certification date. • Continue to Next Step. • Confirm accuracy of data and submit TSP certification (see paragraph 137). 	<ul style="list-style-type: none"> • Enter the current practice extent performed as provided by producer. • Enter the current component extent performed as provided by producer. • Select the producer or producers who certified performance. All producers who will receive a share of the payment must sign. • Enter “Producer reports partial performance with no technical review” to capture that no TSP review has been performed to certify that standards and specs have been met in the performance report field. • Enter self-certification date. Enter the latest signature date if more than one producer certification is required. • Continue to Next Step. • Confirm accuracy of data and submit TSP certification (see paragraph 137).

137 TSP Certification Confirmation

A Overview

After “Continue to Next Step” is selected on the TSP Certification Screen, the TSP Certification Confirmation Screen is displayed.

B Example of TSP Certification Confirmation Screen

The following is an example of the TSP Certification Confirmation Screen.

The screenshot displays the TSP Certification Confirmation screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user.

137 TSP Certification Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the TSP Certification Confirmation Screen.

Field/Link	Description/Action
Submit	The Certification Search Results Screen is displayed with the message “Certification saved.”
Cancel	The Certification Search Results Screen is displayed. TSP/Self Certification Date information is removed.

D Example of Agreement Summary Screen after TSP Certification

The following is an example of the Agreement Summary Screen after a TSP Certification was loaded successfully.

The screenshot displays the 'Agreement Summary' page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. The main content area includes a 'Menu' on the left with options like 'Welcome County user', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The 'Certify & Pay' option is highlighted. The main content area shows the following details:

- Control No :** 29_101_2022_0112
- Applicant Name :** IMA PRODUCER
- Agreement Status :** CONTRACT_APPROVED
- Creation Date :** 03/21/2022
- Project Area ID :** 1667
- Contract Number :** 11152

Below this information, there is a prompt: 'Select a Practice Code to access the Practice Summary.' A table follows with the following columns: Practice, Practice Status, Practice End Date, Practice Extent Approved, Cost-Share Approved (\$), Practice Complete, Total Installation Cost (\$), and Acres Served. The table contains one row for practice code '01-CP22' (Riparian Buffer) with a status of 'PENDING_CERTIFICATION' (highlighted in yellow), an end date of 09/30/2022, and other values: 10.00, 70.00, Y, 70.00, and 10.00. A 'Back' button is located below the table.

Note: The Practice Status will be “Pending Certification” when both the Producer and TSP Certifications have been submitted, and the payment will be eligible to submit to Certify and Pay.

138-140 (Reserved)

Section 2 Certify & Pay

141 Search Agreements for Certify & Pay

A Overview

Payment data can only be submitted if both producer and TSP certification data (including partial certifications) has been entered for at least one practice on the agreement. To certify and pay an approved agreement, CLICK “Certify & Pay” from the left navigation menu.

B Example of Search Agreements for Certify & Pay Screen

The following is an example of the Search Agreements for Certify & Pay Screen.

The screenshot shows a web application interface for searching agreements. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right side of the top bar, it says "You are logged in as a County user".

On the left side, there is a vertical menu with the following items: Menu, Welcome County user, CRP Program, Select Program, Cost Share, New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters, Performance and Payment, Certify & Pay (highlighted in blue), and Retry Payment.

The main content area is titled "Search Agreements for Certify & Pay" and contains the instruction: "Choose from the options below to get the list of assistance requests." Below this instruction are several search criteria:

- * State : Missouri (dropdown menu)
- * County : Johnson (dropdown menu)
- Agreement Number : [text input field]
- Source Contract Number : [text input field]
- Producer Name : [text input field] Find Producer (button)
- Fiscal Year : Select Year (dropdown menu)

At the bottom of the search criteria, there are "Search" and "Clear" buttons. Below the search area, the URL "CRPCostShareContractIntermediateSearch01" is visible on the left, and a "Back to Top ^" link is on the right.

141 Search Agreements for Certify & Pay (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Search Agreements for Certify & Pay Screen.

Field/Link	Description/Action
State	Drop-down list of the States associated to the user. Select desired State. State and National Office users are limited to the State selected during program selection.
County	Drop-down list of the counties associated to the user. Select desired county. State and National Office users are limited to the county selected during program selection.
Agreement Number	Enter agreement number to search for a specific agreement, if desired. Leave blank to include all agreement numbers as potential search results. See paragraph 100 for search tips when using agreement number (application control number) as search criteria.
Source Contract Number	CRP-1 contract number associated to the FSA-848.
Producer Name	CLICK “Find Producer” to open a new window to conduct a SCIMS customer search (see 11-CM).
Fiscal Year	Select the fiscal year from the drop-down list to limit search results to a single fiscal year, if desired. Leave as “Select Year” to include all available fiscal years as potential search results.
Search	Retrieves information based on the search criteria selected/entered. The Certify & Pay Search Results Screen is displayed.
Clear	Resets search criteria to default values.

142 Certify & Pay Search Results

A Overview

After “Search” is selected on the Search Agreements for Certify & Pay Screen, the Certify & Pay Search Results Screen will be displayed. Depending on the search criteria entered one or more search results may be listed.

B Example of Certify & Pay Search Results Screen

The following is an example of the Certify & Pay Search Results Screen.

The screenshot shows a web application interface for 'Certify & Pay Search Results'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user notification states 'You are logged in as a County user'. On the left is a vertical menu with sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment, and Certify & Pay (highlighted). The main content area is titled 'Certify & Pay Search Results' and contains a table of 'Agreement results'.

Agreement Number	Applicant Name	Agreement Status	State County	Date Revision Began	Approval Date	Forms
29 101 2022 0112	IMA PRODUCER	CONTRACT_APPROVED	Missouri - Johnson	03/21/2022	09/01/2020	FSA848B

Below the table, the text 'CRPCostShareContractIntermediateSearch1' is displayed, along with a 'Back to Top ^' link.

142 Certify & Pay Search Results (Continued)

B Example of Certify & Pay Search Results Screen (Continued)

Click the agreement number of the desired record to open the Agreement Summary Screen then select the practice number for which a payment will be requested.

The screenshot shows the 'Agreement Summary' page for a County user. The page includes a navigation menu on the left and a main content area with a table of practices.

Agreement Summary

Control No : 29_101_2022_0112 Creation Date : 03/21/2022

[Back to Top ^](#)

142 Certify & Pay Search Results (Continued)

D Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Practice Summary – Request Payment Screen.

Field/Link	Description/Action
Certification Number	Reserved for future use.
Program Year	Reserved for future use.
Producer Signature Date	Date the producer signed the producer certification.
TSP Signature Date	Date the TSP signed the TSP certification.
Producer Actual Cost Certified	The current actual costs associated to this specific certification.
Producer Under Certification Links Header	The Create New Producer Certification – Component Rate Practice Screen is displayed. Information previously entered for this certification will be populated in the record and can be edited, if necessary, before requesting payment. See paragraph 134 for additional information.
TSP Under Certification Links Header	The Create New TSP Certification – Component Rate Practice Screen will be displayed. Information previously entered for this certification will be populated in the record and can be edited, if necessary, before requesting payment. See paragraph 136 for additional information.
Payment Status	“Not Sent” payment status indicates that the payment amount that results from this certification has not been sent to NPS for processing. No additional certifications (producer or TSP) can be created for this practice until this payment request is processed through the Certify and Pay Main Menu.
Total Certifications for the Practice	Cumulative actual costs for all certification associated to the selected practice.
Back	Agreement Summary Screen is displayed.
Request Payment	Certify and Pay Main Screen is displayed. Notes: A pending certification status needs to have a requested payment before an additional certification can be recorded for the practice. If the status of the certification is “Not Sent,” then the user is able to modify either the producer or the TSP certification before it is submitted for payment.

143 Certify and Pay Main

A Overview

After clicking “Request Payment” on the Practice Summary Screen, the Certify and Pay Main Screen will be displayed.

Note: Both the producer certification and TSP certification must be complete before attempting to certify and pay. If either the producer certification status or TSP certification status is incomplete the error message, “Producer Certification and TSP Certification must be completed for a practice before payment. Verify certification is complete for the practice(s) before submitting for payments(s).”, is displayed. When this error message is displayed, the user’s only option is to “Cancel” out of the Certify and Pay process.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Certify and Pay Main Screen.

Field/Link	Description/Action
Select	<p>Check the box next to the practice to be paid. After “Submit” is pressed, the Certify and Pay Main – Confirmation Screen will be displayed. See paragraph 144 for additional information.</p> <p>Notes: Review the amount that is displayed under the “Current Cost Share Earned” column. This is the amount that will be paid to the producer(s).</p> <p>Any payments made to entities may round up or down based on the calculated amount due for each member.</p> <p>If the Current Cost Share Earned amount is negative, then a receivable will be created if the previous payment was certified and signed in NPS. If the previous payment was not certified and signed in NPS, then the payment amount in NPS will be adjusted according to the negative Current Cost Share Earned amount.</p> <p>If the Current Cost Share Earned amount is incorrect, then return to Producer Certification and correct any issues before proceeding.</p> <p>If multiple practices are listed on the Certify and Pay Main Screen, then the user may select one, several, or all practices listed on the Screen to submit one or multiple payment request(s) at a single time.</p>
Practice Control Number	Displays the application control number and applicable practice(s).

143 Certify and Pay Main (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Practice Status	Displays the current status of the practice.
Fund ID	Displays the Fund code for the practice.
Certification Complete	Displays if the practice has been certified as complete.
Current CostShare Earned	Displays the amount of cost share to be paid based on the current certifications.
Prior CostShare Earned	Displays the amount of cost share previously paid.
Payment Data	CLICK “View” and the Certify and Pay – Component Rate Practice Screen is displayed for viewing only.
FSA_848B PDF	CLICK “FSA_848B PDF” to print the FSA-848B to obtain a signature if signature has not previously been obtained.
COF Signature Date	Enter the COF signature date. The COF signature Date is required before clicking “Submit.”
CCC 770 Completion Date	Enter the date CCC-770 CRP2 was completed, if applicable. This is an optional field. CCC-770 CRP2 “CRP Cost Share Payment Checklist” was made obsolete on 02-14-2020.
Submit	The Certify and Pay Main – Confirmation Screen will be displayed. See paragraph 144 for additional information.
Cancel	The Agreement Summary Screen is displayed.

144 Certify and Pay Main – Confirmation

A Overview

The Certify and Pay Main – Confirmation Screen will be displayed after a practice is selected for payment and “Submit” is selected on the Certify and Pay Main Screen according to [paragraph 143](#). This Screen is the final opportunity to confirm that the payment data is correct.

B Example of Certify and Pay Main – Confirmation Screen

Section 3 View & Print Existing Certifications

151 Existing Certifications

A Overview

To view or print certification data, click the practice identifier of the desired practice on the Agreement Summary Screen (see [paragraph 132](#)). After selecting the desired practice, the Practice Summary Screen is displayed for that practice.

B Example of Agreement Summary Screen

The following is an example of the Agreement Summary Screen.

The screenshot shows a web application interface for 'CRP Home'. The user is logged in as a 'County user'. The main content area is titled 'Agreement Summary' and displays the following details:

- Control No : 29_101_2021_0009
- Applicant Name : IMA PRODUCER
- Agreement Status : PAID
- Creation Date : 10/06/2020
- Project Area ID : 1667
- Contract Number : [11132](#)
- [Add/View Notes](#)

Below the details, there is a prompt: 'Select a Practice Code to access the Practice Summary.' This is followed by a table of practices:

Practice	Practice Status	Practice End Date	Practice Extent Approved	Cost-Share Approved (\$)	Practice Complete	Total Installation Cost (\$)	Acres Served
01-CP21 Filter Strips	PAID	09/01/2021	50.00	206.00	Y	500.00	50.00

At the bottom of the table, there is a 'Back' button and the text 'CRPAgreementSummary01'. A 'Back to Top' link is also present in the bottom right corner.

151 Existing Certifications (Continued)

C Fields, Descriptions, and Actions

The following table provides fields, descriptions, and actions on the Agreement Summary Screen.

Field/Link	Description/Action
Practice	CLICK the practice identifier to display the Practice Summary Screen for the selected practice.
Practice Status	Displays the current status of the practice.
Practice End Date	Displays the end date of the practice.
Practice Extent Approved	Displays the extent approved for the practice.
Cost-Share Approved (\$)	Displays the dollar amount of cost share approved for the practice.
Practice Complete	Displays if the practice is complete or not.
Total Installation Cost (\$)	Displays the total cost once the practice is marked complete during the entry of producer certification.
Acres Served	Displays the acres served by the practice once practice is marked complete during the entry of producer certification.
Back	The Certify and Pay Search Results Screen is displayed.

D Example of Practice Summary Screen

The following is an example of the Practice Summary Screen.

The screenshot shows a web application interface for a 'Practice Summary'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Practice Summary' and displays the following information:

- Control No :** 29_101_2021_0009
- Applicant Name :** IMA PRODUCER
- Agreement Status :** PAID
- Creation Date :** 10/06/2020
- Project Area ID :** 1667
- Contract Number :** [11132](#)
- [Add/View Notes](#)

Below this information, it states: 'Selected Practice: 01-CP21' and 'Filter Strips: This is a PIP eligible practice.' There is an 'Add Certification' button.

*Certification Number	*Program Year	Producer Signature Date	TSP Signature Date	Producer Actual Cost Certified (\$)	Certification Links	Payment Status
		10/06/2020	10/06/2020	500.00	Producer TSP	Paid
Total Certifications for the Practice				500.00		
Total Cost Share from Other Sources for the Practice(\$)				0.00		

At the bottom of the table area, there are 'Back' and 'Request Payment' buttons. A note states: '* - These fields will be used when software is enhanced in the future.' The footer includes 'CRPPPracticeSummary01' and a 'Back to Top' link.

151 Existing Certifications (Continued)

E Fields, Descriptions, and Actions

Field/Link	Description/Action
Add Certification	Create New Producer Certification – Component Rate Practice Screen is displayed. Not used for viewing existing certifications.
Certification Number	Reserved for future use.
Program Year	Reserved for future use.
Producer Signature Date	Date the producer signed the producer certification.
TSP Signature Date	Date TSP signed the TSP certification.
Producer Actual Cost Certified	The current actual costs associated to the specific certification.
Certification Links	<p>CLICK.</p> <ul style="list-style-type: none"> • “Producer” to display either the Producer Certification – Component Rate Practice Screen or the View Producer Certification – Component Rate Practice Screen depending on the payment status of the certification. Information previously entered for the certification is shown. • “TSP” to display either the Create New TSP Certification – Component Rate Practice Screen or the View TSP Certification – Component Rate Practice Screen depending on the payment status of the certification. Information previously entered for the certification is shown.
Payment Status	Displays the payment status of the certification.
Total Certifications for the Practice	Cumulative actual costs for all certification associated to the selected practice.
Total Cost Share from Other Sources for the Practice(\$)	Displays the total cost share from other sources for the practice.
Back	Returns to the Agreement Summary Screen.

G Fields, Descriptions, and Actions

The following table provides fields, descriptions, and actions on the View Producer Certification – Component Rate Practice Screen.

Field/Link	Action
Components fields	Display information for the named component.
Practice Complete?	Displays if the practice is complete or not.
Total Installation Cost (\$)	Displays the total cost once the practice is marked complete during the entry of producer certification.
Acres Served	Displays the acres served by the practice once practice is marked complete during the entry of producer certification.
Date receipts and documentation received	Displays the entered date receipts and documentation were received from the producer.
Producer Signature Date	<p>After the producer’s signature is obtained on the printed form, re-access the certification and enter the producer signature date. If multiple signatures are required enter the latest signature date.</p> <p>Note: When applicable, the prompt payment interest date will be calculated by adding 30-calendar days to the later of the date documents are received or the producer signature date.</p>
FSA_848B PDF	<p>CLICK “FSA_848B PDF” to open or save FSA-848B, Cost Share Performance Certification and Payment.</p> <p>Note: After the user opens the certification, the “Print” option will be available.</p>
Back	Returns to the Practice Summary Screen.
Show/Hide selected practice’s farm, tract, and fields	Displays or Hides the Farm No., Tract No., Field No., Acres and State/County as loaded on Application Signup –Add Contributors Screen. See paragraph 31 .

152 View Existing Certifications from Search Results

A Overview

Producer certification data for agreements with agreement statuses of “Partially Earned” and “Paid” can be viewed directly from the Agreement Search Results Screen. After searching for an agreement according to [paragraph 300](#) a “View Certifications” link will be displayed in, the “Forms” column of the Agreement Search Results Screen.

Note: The “View Certifications” link is also available through the “View/Print Forms and Letters” search.

B Example of Agreement Search Results Screen

The following is an example of the Agreement Search Results Screen.

The screenshot shows the 'Agreement Search Results' page. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user is logged in as a County user. A left-hand menu contains various options like 'New Application', 'Edit Application', 'Agreement Approval', etc. The main content area displays search criteria: 'Your request: State=Missouri, County=Johnson, Control Number=20170013b, Fiscal Year=2017, Contract Status=Partially Earned'. Below this is a table titled 'Cost Share Agreement search results'.

Control Number	Applicant Name	Agreement Status	State County	Date Created	Approval Date	Links	Forms	Letters
29_101_2017_0013B	IMA PRODUCER	PARTIALLY_EARNED	Missouri - Johnson	10/18/2017	10/18/2017	Revise Terminate	FSA848 FSA848A FSA848B View Certifications	Approval Letter

C Fields, Descriptions, and Actions

For this paragraph, only the “View Certifications” link will be explained. See [paragraph 301](#) for explanation of other links on the Agreement Search Results Screen.

Field/Link	Action
View Certifications	CLICK “View Certifications” to see the View Existing Certifications Screen.

	07/05/2022	07/05/2022	10.00	22INTERSEED	10.00			
Payment *	COF Signature	Cost Share Amount	Producer Name		Payment Type			
	07/05/2022	\$ 70.00	IMA PRODUCER		Cost Share			
		\$ 0.00	XYZ CORP		Cost Share			
		\$ 0.00	ABC FARMS		Cost Share			
		\$ 56.00	IMA PRODUCER		Initial PIP			
Final PIP Payments								
NRCS Review Date			07/07/2022					
Predecessor/Successor Payment Indicator			No					
Payment Date	Payment Amount	Producer Name			Payment Type	Payment Trigger		
07/07/2022	\$ 14.00	IMA PRODUCER			Final PIP	Added NRCS Review Date		
*Payment amounts shown represent amounts calculated by CSS prior to applying any producer or payment reductions. The payment data reflected on this report may differ from the amounts that are actually paid in NPS.								

Note: When the final PIP is paid as the result of payment of PIP without an NRCS status review due to removal of a participant who received an initial PIP from the CRP contract the “Payment Trigger” will show as “Added Predecessor/Successor Payment”. When the final PIP is paid as the result of entering the NRCS Status Review Date, the “Payment Trigger” will show as “Added NRCS Review Date”.

154-159 (Reserved)

Section 4 Retry Payment

160 Retry Payment Results

A Overview

If a payment failed during [Certify & Pay \(Section 2\)](#), users can attempt to reprocess some of the failures through Cost Share and others through Common Payment Reports. See the following for further information.

- Any FSA-848’s associated with CRP-1s that have approval dates in CCMS before October 1, 2020, from the CRP Home Screen, CLICK “Retry Payment” from the left navigation menu. The Retry Payment Results Screen will be displayed. CLICK the Agreement Number to open the Practice Summary.
- Any FSA-848 associated with CRP-1 that has approval dates in CCMS after October 1, 2020, the payment failures can be found in the Common Payment Reports on the Nonpayment/Reduction Report.

Note: Except for FMI, the approval date of the FSA-848 is prepopulated with the approval date of the CRP-1. The system reads the approval date from CCMS.

B Example of Retry Payment Results Screen

The following is an example of the Retry Payment Results Screen.

The screenshot shows the 'Retry Payment Results' screen. The navigation menu on the left includes 'Menu', 'CRP Program', 'Cost Share', and 'Performance and Payment'. The 'Performance and Payment' section has 'Certify & Pay' and 'Retry Payment' (highlighted). The main content area displays the following data:

Agreement Number	Applicant Name	Agreement Status	State County	Date Revision Began	Approval Date
29_101_2020_0065	IMA PRODUCER	PARTIALLY_EARNED	Missouri - Johnson	05/12/2020	05/12/2020

Practice Summary			
Practice Control Number	Practice Status	Process	Process Status
29-101-2020-0065-01-CP22	PAYMENT_FAILED	RetryPayment	ProducerCertification_Final TSPCertification_Final

Buttons: Back To Main Menu, Back to Top ^

160 Retry Payment Results (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Retry Payment Results Screen.

Field	Description/Action
Agreement Results	
Agreement Number	CLICK the agreement control number link for the agreement. A Practice Summary box will be displayed. In the example in subparagraph B, the user clicked the Agreement Number for 29_101_2020_0065 to display the Practice Summary for that agreement.
Applicant Name	Displays the applicant’s name.
Agreement Status	Displays the current status of the agreement.
State-County	Displays the State and County of the agreement.
Date Revision Began	Displays either the date the agreement was created or the date a revision was initiated.
Approval Date	Displays the approval date.
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Practice Status	Displays the current status of the practice.
Process	CLICK “Retry Payment” to display the Retry Payment Screen. See paragraph 161 for additional information.
Process Status	Displays the status of the producer and TSP certifications.
Back To Main Menu	The Application Signup Screen is displayed. The Application Signup Screen is a blank Screen that instructs the user to use the left navigation menu to select a task.

161 Retry Payment

A Overview

After Retry Payment is selected on the Retry Payment Results Screen, the Retry Payment Screen will be displayed. User should review the failure reason and after appropriate steps are taken to resolve the issue then “Retry Payment” should be selected. When researching the issue, the subsidiary year used by CRP for cost share payment eligibility is the FY in which the initial payment attempt was made on the agreement for COF obligated agreements and by practice for eFMS obligated agreements with the exception of AGI issues. The notes page can be used to determine when an initial payment was made on an agreement or practice. The subsidiary year menu in CCMS displays the applicable subsidiary year used for AGI determinations.

Retry Payment Confirmation

Control No : 29_101_2020_0065 **Creation Date :** 05/12/2020
Applicant Name : IMA PRODUCER **Project Area ID :** 1667
Agreement Status : PARTIALLY_EARNED **Contract Number :** 11138
[Add/View Notes](#)

Following table lists all contributors on the practice that have failed payments
Selected Practice: 01-CP22

Only the following contributor payments will be retried.

Payments Failed						
Payment Control Number	Contributor Name	Prior Cost Share Earned (\$)	Prior Amount Paid(\$)	Current Cost Share Earned (\$)	Payment Amount (\$)	Failure Reason
PC_1021648	IMA PRODUCER	-584.00	-584.00	584.00		Payment failed during payment process
PC_1021648	IMA PRODUCER	-541.00	-541.00	541.00	0.00	PIP payment not attempted for IMA PRODUCER for practice CP22 due to the producer's failed certification payment.

CRPCostShareRetryPayment02 [Back to Top ^](#)

162 **Retry Payment Confirmation (Continued)**

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Retry Payment Confirmation Screen.

Field/Link	Description/Action
Payment Control Number	Displays the control number for the payment.
Contributor Name	Displays the producer’s name for those with failed payments.
Prior Cost Share Earned (\$)	Displays the amount of cost share previously paid.
Prior Amount Paid (\$)	Displays the prior amount paid.
Current Cost Share Earned (\$)	Displays the current amount of cost share earned.
Payment Amount	Displays the amount to attempt to pay during reprocessing.
Failure Reason	Displays the reason the payment was not issued.
Confirm	If retry fails, the Retry Payment Screen will be displayed with a failure message. If the retry is successful, the Retry Payment Results Screen will be displayed with a success message.
Back	The Retry Payment Screen is displayed.
Cancel	The Retry Payment Results Screen is displayed.

D Example of Retry Payment Results Screen with successful message

The following is an example of the Retry Payment Screen with successful message.

The screenshot shows the CRP Home page with a navigation menu on the left and a main content area. The user is logged in as a County user. The main content area displays 'Retry Payment Results' with a success message:

- Retry payment succeeded for the following contributor(s).
- Certification Payment successful for contributor PR_1021322 - IMA PRODUCER
- Certification Payment successful for contributor PR_1021322 - ABC FARMS

Below the message is a table titled 'Agreement results' with the following data:

Agreement Number	Applicant Name	Agreement Status	State County	Date Revision Began	Approval Date
29_101_2014_0021	XYZ CORP	PAID	Missouri - Johnson	12/10/2013	10/14/2010
29_101_2018_0006	XYZ CORP	CONTRACT_APPROVED	Missouri - Johnson	04/25/2022	10/01/2015
29_101_2018_0044	XYZ CORP	CONTRACT_APPROVED	Missouri - Johnson	12/14/2017	02/28/2018

163 Failed Retry Payment

A Overview

After “Confirm” is selected on the Retry Payment Confirmation Screen, an attempt to make the payment is processed. If the retry fails, the Retry Payment Screen will be displayed with a failure message.

B Example of Retry Payment Screen with failure message

The following is an example of the Retry Payment Screen with failure message.

[Add/View Notes](#)

Following table lists all contributors on the practice that have failed payments

Selected Practice: 01-CP22

Only the following contributor payments will be retried.

Payments Failed							
Payment Control Number	Contributor Name	Prior Cost Share Earned (\$)	Prior Amount Paid(\$)	Current Cost Share Earned(\$)	Payment Amount (\$)	Failure Reason	Remove Valid Contributor Payment Failures
PC_1021648	IMA PRODUCER	-584.00	-584.00	584.00		Payment failed during payment process	Do Not Retry
PC_1021648	IMA PRODUCER	-541.00	-541.00	541.00	0.00	Producer IMA PRODUCER is not paid due to reduction issues:- Reduction Message: AGI	Do Not Retry

163 Failed Retry Payment (Continued)

C Actions

If the retry fails, the Retry Payment Screen will be displayed with a failure message, the user should reference the following table to determine the next action.

IF...	THEN...
different failure reason is displayed	user should research the new failure reason and correct the issue before initiating the retry process again. See paragraph 161 .
the same failure message is displayed	the user should contact their State Office for help in issuing the payment.
the State Office has verified the recommended steps have been taken and is still unable to resolve the issue	the State Office should submit the issue to the National Office on the Farm Programs Software Issues SharePoint Site at https://usdagcc.sharepoint.com/sites/fsa-dafp-disaster/Payment_Issues/SitePages/Home.aspx Note: This site is for State Office use only, access requests made by non-State Office personnel will be denied.

164-169 (Reserved)

Section 5 Manage PIP**170 Managing PIPs****A Overview**

PIP is an incentive payment made to an eligible participant to whom CCC has made a cost share payment for completing the installation of a CRP practice that is an eligible continuous CRP signup practice. CRP PIPs are a percentage of the total installation cost. See 2-CRP for the PIP amount of each applicable practice.

CRP PIP is paid in 2 phases:

- 40 percent of the total eligible cost, at the time the participant certifies installation of a major component or practice
- the remaining 10 percent of the total eligible cost, after NRCS certifies completion of the practice through a status review.

Notes: Eligible cost is the lesser of producer's actual cost or average actual cost (from Program Provisioning) times the extent approved.

An NRCS status review should not be confused with TSP certification of practice completion. A status review is an additional step typically completed in year 3 to verify that the practice has been successfully established.

The 2-phase approach to issuing PIPs became effective with Signup 55 Continuous Non-CREP CRP contracts. The final PIP payment will be issued when the user completes an additional step in CSS to trigger the final PIP payment.

Example: A Sign Up 57 agreement had a total eligible cost to complete the practice of \$200. \$80 (40% of the total eligible cost) will be paid as the initial PIP payment and \$20 (10% of the total eligible cost) will be paid for the final PIP payment when the user completes the additional step in CSS.

Note: Even though the final PIP payment is delayed, the conditions to earn the PIP are met at the time the participant incurs the cost of installing the major component or practice. The delayed portion of the PIP must be paid to the same participant who received the initial PIP payment.

170 Managing PIPs (Continued)

B Managing PIP in CSS

From the “Agreement Search Results” page, select “Manage PIP” for the agreement that has received the initial 80 percent of the PIP after NRCS completes the status review for the CRP contract.

The screenshot shows the 'Agreement Search Results' page. At the top, there are navigation links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu contains various options like 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The main content area displays the search results for a Cost Share Agreement. The search criteria are: State=Missouri, County=Johnson, Control Number=237. The search results table has the following data:

Control Number	Applicant Name	Agreement Status	State County	Date Created	Approval Date	Links	Forms	Letters
29_101_2022_0237	IMA PRODUCER	PAID	Missouri - Johnson	07/05/2022	05/13/2022	Revise Terminate Manage PIP View Certifications	FSA848 FSA848A FSA848B View Certifications	Approval Letter

A red arrow points to the 'Manage PIP' link in the 'Links' column of the search results table.

C Action

Access the Manage PIP function within CSS according to the following table.

Step	Action
1	CLICK “Search” under Agreement Maintenance from the left navigation menu.
2	Enter search criteria according to find the applicable agreement. See paragraph 300 for more information on performing an agreement search.
3	CLICK “Manage PIP” from the links column for the applicable agreement.
4	The Manage PIP Screen is displayed if practice(s) on the agreement are in an eligible status to issue the final PIP. The Manage PIP – Ineligible Status Screen is displayed if the practice(s) are not in an eligible status.

171 Manage PIP

A Overview

After “Manage PIP” is selected on the Agreement Search Results Screen, the Manage PIP Screen is displayed if the practice(s) on the agreement are in an eligible status to issue the final PIP. If the practice(s) on the agreement are not in an eligible status to issue the final PIP the Manage PIP – Ineligible Status Screen will be displayed.

B Example of Manage PIP Screen

The following is an example of the Manage PIP Screen.

The screenshot shows the 'Manage PIP' interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval), Search, and Reports.

The main content area is titled 'Manage PIP' and displays the following information:

- Control No :** 29_101_2022_0237
- Applicant Name :** IMA PRODUCER
- Agreement Status :** PAID
- Creation Date :** 07/05/2022
- Project Area ID :** 1667
- Contract Number :** [11200](#)
- [Add/View Notes](#)

Below this is a section titled 'Manage Predecessor/Successor Final PIP Payment' with the text: 'Producer being removed by the revision of this agreement is eligible for Final PIP payment.' followed by an unchecked checkbox.

The next section is 'Manage NRCS Review Date', which contains a 'Practices Summary' table:

Practice Control Number	Total Actual Cost(\$)	Cost Share from other sources(\$)	Total Cost Share Paid(\$)	Total PIP Paid(\$)	Final PIP yet to be Paid(\$)	NRCS Review Date	PIP Payment Details
01-CP22	\$200.00	\$0.00	\$70.00	\$56.00	\$ 20.00	<input type="text"/>	Show Details

At the bottom of the screen, there are buttons for 'Save', 'Back', and 'Print Report of Certifications and Payments'. The footer shows 'CRPManagePIP01' and a 'Back to Top' link.

171 Manage PIP (Continued)

C Example of Manage PIP – Ineligible Status Screen

The following is an example of the Manage PIP – Ineligible Status Screen.

The screenshot displays a web application interface for managing PIPs. At the top, a navigation bar includes links for CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu is organized into sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval, Search, Reports), and Reports. The main content area is titled 'Manage PIP' and shows details for Control No: 29_101_2022_0094, Applicant Name: IMA PRODUCER, Agreement Status: DISAPPROVED, Creation Date: 02/01/2022, Project Area ID: 1667, and Contract Number: 11172. A message states: 'The practice(s) on this agreement is not in a eligible status to issue Final PIP payment.' Below this message is a 'Back' button. At the bottom of the main content area, the identifier 'CRPManagePIP01' and a 'Back to Top' link are visible.

171 Manage PIP (Continued)

D Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Retry Payment Confirmation Screen.

Field/Link	Description/Action
Producer being removed by the revision of this agreement is eligible for Final PIP payment.	CHECK (<input type="checkbox"/>) Select the box if final PIP payment is being issued because a participant is being removed from the CRP contract and the participant is eligible for the producers share of the remaining 20 percent of the PIP.
Practices Summary	
Practice Control Number	Displays the practice control number of the applicable(s) of the agreement.
Total Actual Cost(\$)	Displays the dollar amount of total actual cost entered for the practice.
Cost share from other sources(\$)	Displays the dollar amount of cost share from other sources for the practice.
Total Cost Share Paid(\$)	Displays the dollar amount of total cost share paid for the practice.
Total PIP Paid(\$)	Displays the dollar amount of PIP that has been paid for the practice.
Final PIP yet to be Paid	<p>Displays the estimated dollar amount of PIP remaining to be paid.</p> <p>Note: The “Final PIP yet to be Paid” amount displayed is an estimate based on 10 percent of the “Total Actual Cost”. This data field will indicate that an additional PIP remains to be paid and provide an estimate of that PIP amount. The actual final PIP amount is dependent upon multiple factors and will usually vary from the amount displayed.</p>

171 Manage PIP (Continued)

D Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
NRCS Review Date	Enter the date of the NRCS status review. Note: Do not enter a date if the remaining PIP is being issued because of a revision removing a producer and NRCS has not completed a status review.
PIP Payment Details	CLICK: <ul style="list-style-type: none"> • “Show Details” to display the PIP Rates and Producer Payment details • “Hide Details” to hide the PIP Rates and Producer Payment details.
Save	Saves the information entered and processes the remaining PIP payment if validations are cleared.
Back	Returns user to the Agreement Search Results Screen.
Print Report of Certifications and Payments	CLICK “Print Report of Certifications and Payments” to generate PDF report. CLICK “Open” or “Save as” when prompted. See paragraph 152 for additional information and an example of this report.

172 Issuing Final PIP Payment

A Overview

After an NRCS Review date is entered and “Save” is selected on the Manage PIP Screen, the Manage PIP Screen will be displayed.

B Example of Manage PIP Screen with success message

The following is an example of the Manage PIP Screen with the message that will be displayed when the NRCS status review date is entered, and final PIP payment is issued.

The screenshot shows the 'Manage PIP' screen in a web application. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains various options like 'Welcome County user', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The main content area is titled 'Manage PIP' and displays the following information:

- Control No :** 29_101_2022_0237
- Applicant Name :** IMA PRODUCER
- Agreement Status :** PAID
- Creation Date :** 07/05/2022
- Project Area ID :** 1667
- Contract Number :** [11200](#)
- [Add/View Notes](#)

Below this information, a success message is displayed:

- Information on this page has been saved successfully.
- \$14 Final PIP Payment scheduled for practice CP22 for contributor IMA PRODUCER

The screen then has two sections:

Manage Predecessor/Successor Final PIP Payment
 Producer being removed by the revision of this agreement is eligible for Final PIP payment.

Manage NRCS Review Date

Practices Summary							
Practice Control Number	Total Actual Cost(\$)	Cost Share from other sources(\$)	Total Cost Share Paid(\$)	Total PIP Paid(\$)	Final PIP yet to be Paid(\$)	NRCS Review Date	PIP Payment Details
01-CP22	\$200.00	\$0.00	\$70.00	\$70.00	\$ 0.00	07/07/2022	Show Details

At the bottom of the screen, there are buttons for 'Save', 'Back', and 'Print Report of Certifications and Payments'.

172 Issuing Final PIP Payment (Continued)

C Actions

After the Manage PIP Screen is redisplayed with a message indicating success the “Final PIP yet to be Paid” amount will be reduced to \$0.00. User can print the Report of Certifications and Payments by Clicking “Print Report of Certifications and Payments” or CLICK “Back” to return to the Agreements Search Results Screen.

D Example of Manage PIP Screen when Final PIP is reversed

After the Final PIP Payment has been issued the Final PIP Payment can be reversed by removing the NRCS Review Date and clicking “Save”. The Manage PIP Screen will be redisplayed showing a negative payment scheduled for the practice causing a receivable to be created. The Total PIP Paid and the Final PIP yet to be Paid amounts will be updated.

The screenshot shows the 'Manage PIP' web application interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. A left-hand menu contains sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), and Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval, Search, Reports). The main content area is titled 'Manage PIP' and displays the following information:

- Control No : 29_101_2022_0237
- Applicant Name : IMA PRODUCER
- Agreement Status : PAID
- Creation Date : 07/05/2022
- Project Area ID : 1667
- Contract Number : 11200
- [Add/View Notes](#)

A success message is displayed:

- Information on this page has been saved successfully.
- \$-14 Final PIP Payment scheduled for practice CP22 for contributor IMA PRODUCER

Below this is the 'Manage Predecessor/Successor Final PIP Payment' section with a checkbox: 'Producer being removed by the revision of this agreement is eligible for Final PIP payment.

The 'Manage NRCS Review Date' section contains a 'Practices Summary' table:

Practice Control Number	Total Actual Cost(\$)	Cost Share from other sources(\$)	Total Cost Share Paid(\$)	Total PIP Paid(\$)	Final PIP yet to be Paid(\$)	NRCS Review Date	PIP Payment Details
01-CP22	\$200.00	\$0.00	\$70.00	\$56.00	\$ 20.00	<input type="text"/>	Show Details

At the bottom of the main content area, there are buttons for 'Save', 'Back', and 'Print Report of Certifications and Payments'. The footer of the page includes 'CRPManagePIP01' and a 'Back to Top' link.

173 Managing Final PIP Payments When Revising Agreements

A Overview

When cost share agreements are revised it is possible that the final PIP will need to be managed on multiple versions of the agreement.

B Determining Correct Method and Timing to Manage Final PIP Payment

Manage Final PIP payments for Revised Agreements according to the following table.

IF:	AND:	THEN final PIP(s):
cost share and initial PIP paid on all practices.	revision will not remove any producers.	for issuing final PIP, the agreement does not need to be associated to the current CRP-1. If revision is performed the PIP would be managed under the predecessor agreement.
	revision will remove a producer.	issued immediately before approving the revision. See paragraph 174 .
cost share and initial PIP paid for one or more practices but not all.	revision will not remove any producers.	for practices paid cost share and initial PIP before revision will be managed through the predecessor agreement. See paragraph 175 .
		for practices not paid cost share or PIP until after revision will be managed through the successor agreement. See paragraph 175 .
	revision will remove a producer.	Note: To prevent problems when attempting to approve the revised agreement the practice(s) paid on the predecessor agreement should be removed during the revision process.
		issued immediately for practices paid cost share and initial PIP before approving the revision. See paragraph 174 .
no cost share or initial PIP paid for any practice.	revision will not remove any producers.	for practices not paid cost share or PIP until after revision will be managed through the successor agreement.
	revision will remove a producer.	will be managed through the successor agreement.

174 Issuing Final PIP Payment When a Participant is Removed From CRP-1

A Overview

If a participant who received an initial PIP payment is being removed from CRP-1 before the NRCS status review occurs, the final PIP must be issued before removing the participant from CRP-1. Regardless of the number of participants being removed from CRP-1 the final PIP is issued to all participants who received initial PIP payments at the time any participant who received an initial PIP is removed.

Note: Because revisions to CRP contracts where a participant is removed often occur concurrently with terminations of part or all the CRP acres, and because full or partial refunds of prior payments are required from the new participants, it is critical that the final PIP is paid to close out the accounting for any partially paid PIPs. Only when the full amount of PIP has been paid can the refund due for terminated acres be properly determined and overpayments established.

B Example of Manage PIP Screen with warning message for when a producer is removed

The following is an example of the Manage PIP Screen with the warning message that will be displayed when the box indicating that a producer is being removed by a revision is checked.

Save Back Print Report of Certifications and Payments

CRPManagePIP01 [Back to Top](#)

174 Issuing Final PIP Payment When A Participant is Removed From CRP-1 (Continued)

C Actions

The Manage PIP Screen page will be redisplayed with warning message. If the payment is unsigned in NPS at the time the user approves a revised cost share agreement, the payment is removed from NPS and is not issued to the participant. CLICK “Save” to trigger the final PIP payment. Do **not** enter a date in the “NRCS Review Date” field. The Manage PIP Screen is redisplayed with success/failure message.

D Example of redisplayed Manage PIP Screen when a producer is removed

The following is an example of the Manage PIP Screen that is redisplayed after “Save” is selected when the box indicating that a producer is being removed by a revision is checked.

The screenshot shows the 'Manage PIP' web application interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), and Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval, Search, Reports). The main content area is titled 'Manage PIP' and displays the following information:

- Control No :** 29_101_2022_0237
- Applicant Name :** IMA PRODUCER
- Agreement Status :** PAID
- Creation Date :** 07/05/2022
- Project Area ID :** 1667
- Contract Number :** [11200](#)
- [Add/View Notes](#)

A success message is displayed:

- Information on this page has been saved successfully.
- \$14 Final PIP Payment scheduled for practice CP22 for contributor IMA PRODUCER

Below this is the section 'Manage Predecessor/Successor Final PIP Payment' with a checkbox 'Producer being removed by the revision of this agreement is eligible for Final PIP payment.' which is checked.

The next section is 'Manage NRCS Review Date' which contains a 'Practices Summary' table:

Practice Control Number	Total Actual Cost(\$)	Cost Share from other sources(\$)	Total Cost Share Paid(\$)	Total PIP Paid(\$)	Final PIP yet to be Paid(\$)	NRCS Review Date	PIP Payment Details
01-CP22	\$200.00	\$0.00	\$70.00	\$70.00	\$ 0.00	<input type="text"/>	Show Details

At the bottom of the main content area, there are buttons for 'Save', 'Back', and 'Print Report of Certifications and Payments'. The footer of the page includes 'CRPManagePIP01' and a 'Back to Top' link.

174 Issuing Final PIP Payment When A Participant is Removed From CRP-1 (Continued)

E Actions

After The Manage PIP Screen is redisplayed with a message indicating success the “Final PIP yet to be Paid” amount will be reduced to \$0.00, user can print the Report of Certifications and Payments by Clicking “Print Report of Certifications and Payments” or CLICK “Back” to return to the Agreements Search Results Screen.

F Example of Manage PIP Screen when Final PIP is reversed

After the Final PIP Payment has been issued the Final PIP Payment can be reversed by removing the check mark from the box indicating that a producer is being removed by a revision and clicking “Save”. The Manage PIP Screen will redisplay showing a negative payment scheduled for the practice causing a receivable to be created. The Total PIP Paid and the Final PIP yet to be paid amounts will be updated.

The screenshot shows the 'Manage PIP' screen in a web application. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right, it says 'You are logged in as a County user'. A left-hand menu contains sections: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to CDC/CED, COC/CED Approval), Search, and Reports.

The main content area is titled 'Manage PIP' and displays the following information:

- Control No : 29_101_2022_0237
- Applicant Name : IMA PRODUCER
- Agreement Status : PAID
- Creation Date : 07/05/2022
- Project Area ID : 1667
- Contract Number : 11200
- [Add/View Notes](#)

A success message is shown:

- Information on this page has been saved successfully.
- \$-14 Final PIP Payment scheduled for practice CP22 for contributor IMA PRODUCER

Below this is the section 'Manage Predecessor/Successor Final PIP Payment' with a checkbox: 'Producer being removed by the revision of this agreement is eligible for Final PIP payment.

The next section is 'Manage NRCS Review Date' which contains a 'Practices Summary' table:

Practice Control Number	Total Actual Cost(\$)	Cost Share from other sources(\$)	Total Cost Share Paid(\$)	Total PIP Paid(\$)	Final PIP yet to be Paid(\$)	NRCS Review Date	PIP Payment Details
01-CP22	\$200.00	\$0.00	\$70.00	\$56.00	\$ 20.00	<input type="text"/>	Show Details

At the bottom of the screen, there are buttons for 'Save', 'Back', and 'Print Report of Certifications and Payments'. The footer includes 'CRPManagePIP01' and a 'Back to Top' link.

175 Managing Final PIP for Revisions Where Producer is Not Removed

A Overview

When cost share agreements are revised after cost share and the initial PIP has been paid for at least one practice it is possible that the final PIP for some practices will need to be managed on a different version of the agreement than other practices. An example would be when cost share and the initial PIP are paid for one practice, but the participant requests a revision to extend the expiration date for another practice. Cost share and both initial and final PIP for the extended practice is paid under the successor agreement while final PIP for the other practice is managed on the predecessor agreement.

B Example of Revise Contract Screen

The Revise Contract Screen is displayed with a highlighted warning message advising the user that the existing certification will remain with the original version of the cost share agreement. This is true for any PIP practice that is eligible for a split PIP, the certification that resulted in the cost share and initial PIP will remain with the original agreement after the revision is completed. The original revision will receive a “Finalized” status.

Revise Contract

Control No : 29_101_2022_0241 **Creation Date :** 07/13/2022
Applicant Name : IMA PRODUCER **Project Area ID :** 1667
Agreement Status : PARTIALLY_EARNED **Contract Number :** 11201
[Add/View Notes](#)

Below is the list of practices and their cost share information of an application.

Practice Control Number	Program Code	Practice Code	Program Accounting Code - Funds Available	Total CostShare Approved Amount (\$)	CostShare Earned (\$)
29-101-2022-0241-01-CP8A	CRP	CP8A	3307	875.00	750.00
29-101-2022-0241-01-CP22	CRP	CP22	3307	875.00	0

Please note: If the source contract associated to this contract needs to be revised, it should be in an approved status before continuing with this CSS revision.

! Payments have been previously made against this contract, and since it's managed by CPF the payments (and its certifications) will stay with existing contract.

* Revision Reason :

* Agreement Description :

Contract Number Suffix :

175 Managing Final PIP for Revisions Where Producer is Not Removed (Continued)

C Example of Application Signup – Practice Summary Screen

During the revision process user should remove the practice that has already been issued CVS and the initial PIP. In this example, practice CP8A received a cost share payment, and an initial PIP and practice was marked as complete. Since there are no additional acres that still need to be paid cost share, CSS brings practice CP8A forward in the revision process with no remaining “Requested Cost Share”. To prevent problems when attempting to approve the revised agreement the user removes practice CP8A before proceeding with the revision to extend the end date for practice CP22. Removal of practice CP8A will cause no issues with the revised agreement. The user does not attempt to reload information for practice CP8A on the revision as this would result in duplicate cost share information on the revision.

Application Signup - Practice Summary

Control No : 29_101_2022_0241A Creation Date : 07/13/2022
 Applicant Name : IMA PRODUCER Project Area ID : 1667
 Agreement Status : INCOMPLETE Contract Number : 11201
[Add/View Notes](#)

Following is the summary of all practices.

Name	Requested Cost Share(\$)	Remove	Edit
01-CP8A	\$ 0	<input type="button" value="Remove"/>	<input type="button" value="Edit"/>
01-CP22	\$ 875	<input type="button" value="Remove"/>	<input type="button" value="Edit"/>

*Remove will remove the practice completely and you will lose all practice data added so far.

CRPCostShareAllPracticeSummary01 [Back to Top ^](#)

D Actions

Once the revision is approved the user will need to access each version of the agreement to issue the final PIP when a trigger to make the final PIP payment occurs.

176 Issuing Final PIP Payment for Previously Revised Agreements

A Overview

When CSS user is ready to issue the final PIP for agreements that have previous revisions, “Manage PIP” may need to be utilized on each version of the agreement.

B Example of Agreement Search Results Screen

The “Manage PIP” link is available for each version of the agreement on the Agreement Search Results Screen.

Part 5 Agreement Maintenance

Section 1 Revise Agreement

180 Search Agreements for Revision

A Overview

Agreement maintenance:

- may affect the amount that was initially approved, but not current performance; therefore, no money will be issued or collected
- is only valid after approval, but before final payments
- will result in a new a system-generated suffix that corresponds to the original agreement number as well as any new agreements that are created.

To revise an existing agreement, from the CRP Home Screen, CLICK “Revise Agreement” from the left navigation menu. The Search Agreements for Revision Screen is displayed.

B Example of Search Agreements for Revision Screen

The following is an example of the Search Agreements for Revision Screen.

180 Search Agreements for Revision (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Search Agreements for Revision Screen.

Field/Link	Description/Action
State	Drop-down list of the States associated to the user. Select desired State. State and National users are limited to the State selected during program selection.
County	Drop-down list of the counties associated to the user. Select desired county. State and National users are limited to the county selected during program selection.
Project Area ID	Because CRP only has one option, "Non-Project Area", selecting it or leaving the default selection of "Select Project Area ID" will return the same search results.
Agreement Number	Enter Agreement Number to limit the search results to a specific agreement number, if desired. It is not necessary to type the full 13-digit control number. See paragraph 100 for search tips when using agreement number (application control number) as search criteria.
Source Contract Number	Enter the Source Contract Number to limit the search results to a specific contract number, if desired. Note: If the source contract is invalid, the user must address the invalid condition in CCMS before attempting to revise the agreement.
Producer Name	CLICK "Find Producer" to open a new window to conduct a SCIMS Customer Search (see 11-CM). See paragraph 100 for search tips when using producer name as search criteria.
Fiscal Year	Select the desired Fiscal Year in which the application was created if desired. Use of this search criteria in combination with the four-digit application control number (and alphabetical suffix, if applicable) limits the search results to a specific agreement.
Agreement Status	Select the desired application status to limit search results to only agreements having that specific status, if desired.
Search	Retrieves information based on the search criteria selected/entered. The Revise Agreement Search Results Screen will be displayed.
Clear	CLICK "Clear" to remove all previously selected search criteria. Note: State and county are not removed as search criteria when clicking "Clear" for National, State and single county users.

181 Revise Agreement Search Results

A Overview

After “Search” is selected on the Search Agreements for Revision Screen, the Revise Agreement Search Results Screen is displayed. Use this option to make common revisions such as changes in participant shares, increases and decreases in the approved practice and/or component extents, etc.

B Example of Revise Agreement Search Results Screen

The following is an example of the Revise Agreement Search Results Screen.

Note: Additional page numbers may be displayed at the top and bottom of the page when all search results do not fit on a single page.

C Fields, Descriptions, and Actions

The following table provides the field descriptions and actions for the Search Results Screen.

Field/Link	Description/Action
Control Number	The control number is a combination of the State, county, program year, and system assigned application number. Clicking the agreement control number will display the practice summary information.
Applicant Name	Displays the applicant's name.
Agreement Status	Displays the current status of the agreement
State-County	Displays the State and County of the agreement.
Date Created	Displays the date the agreement was created.
Approval Date	Displays the approval date.
Links	<p>CLICK:</p> <ul style="list-style-type: none"> • “Revise” to initiate a revision. See paragraph 182 for additional information. • “Terminate” to terminate an agreement. See paragraph 250 for additional information. <p>Note: Terminations will initiate receivables if payments have previously been issued on the agreement or its predecessor agreement(s). If payments have been issued previously and the user does not want receivables created for the full amount of payments, do not terminate the agreement.</p> <ul style="list-style-type: none"> • “Manage PIP” to disburse the final PIP Payment. Final PIP Payment must be issued and signed in NPS before approving the successor's cost share agreement. • “Edit” to continue a revision already in process.
Forms	CLICK applicable link to proceed.
Letters	CLICK link to print letter.

182 Workflow for Revising a Contract

A Overview

After clicking “Revise” from the Revise Agreement Search Results Screen, the Revise Contract Screen will be displayed for the selected agreement.

Revisions may be required because of changes in:

- shares
- changes in approved practice extents
- extension of practice expiration dates.

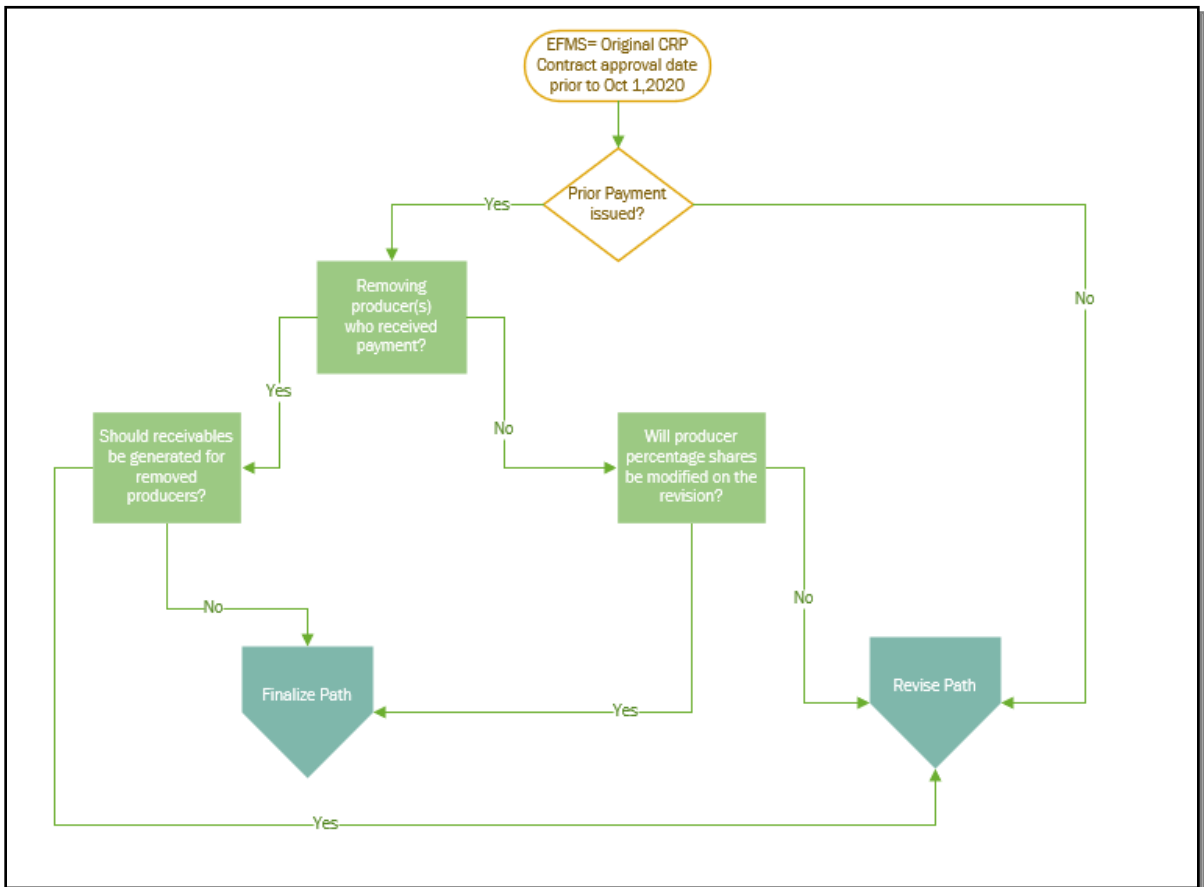

The two systems that obligate agreements are eFMS and COF. Depending on the system the cost share agreement is funded through and if prior payments have been made, the flow of a revision and resulting screens will be different. See [paragraph 320](#) for additional information on determining which fund and funding system is used for an agreement.

Note: When an existing CRP contract is revised and results in multiple successor CRP contracts, multiple successor cost share agreements may be necessary. One of the successor CRP-contracts can be handled with a revision to the original cost share agreement and any additional successor contracts must have new cost share agreements created for any unfinished work that qualifies for cost share.

182 Workflow for Revising a Contract (Continued)

B Determining Revision Path if Funded Through eFMS

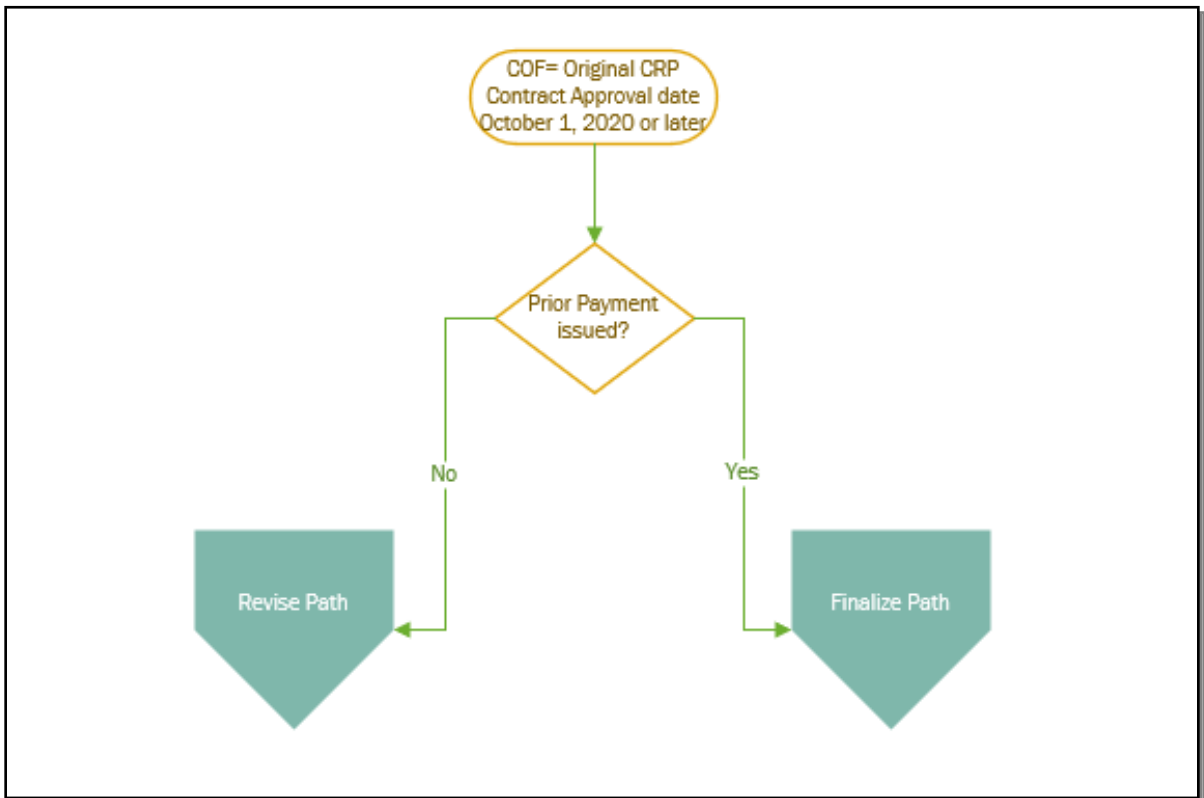

Following is a flow chart to help determine the path a revision will follow.

182 Workflow for Revising a Contract (Continued)

C Determining Revision Path if Funded Through COF

Following is a flow chart to help determine the path a revision will follow.

182 Workflow for Revising a Contract (Continued)

D Example of Revise Contract Screen

The following is an example of the Revise Contract Screen when the agreement is funded through eFMS or when the agreement is funded through COF but no payments have been made.

If the agreement is funded through COF and prior payments have been made the following message is displayed, "Payments have been previously made against this contract, and since it is managed by CPF the payments (and its certifications) will stay with existing contract."

182 Workflow for Revising a Contract (Continued)

E Fields, Descriptions, and Actions

Field/Link	Description/Action
Practices Summary fields	Displays the Practice Control Number , Program Code, Practice Code, Program Accounting Code - Funds Available, Total CostShare Approved Amount (\$), and CostShare Earned (\$).
Revision Reason	<p>Select from the drop-down menu one of the following reasons the agreement is being revised:</p> <ul style="list-style-type: none"> • Acreage due to CLU certification • Reconstitution • Participant and/or Shares • Acres transferred to EWRP, WRP, EWP • Contract Extension • Mid-Contract Management • Due to Conservation Plan • Due to Incorrect Data Entry • Due to Inheritance • Other.
Agreement Description	Enter a description of the agreement.
Contract Number Suffix	Enter the suffix number of the approved CRP-1 contract that is associated with the cost share agreement number, if applicable.
Continue	<p>The Revise Contract – Prior Payments Screen is displayed if the agreement is funded through eFMS and payments have previously been issued for the agreement. See paragraph 183 for additional information.</p> <p>If no prior payments have been issued for the agreement the Agreements Signup – Applicant Information Screen is displayed. The agreement is starting down the Revise Path. See paragraph 191 for additional information.</p> <p>If payments have been issued on a COF obligated agreement the Application Signup – Applicant Information Screen is displayed. The agreement is starting down the Finalize Path. See paragraph 211 for additional information.</p> <p>If payments have been issued on an eFMS obligated agreement the Revise Contract – Prior Payments Screen is displayed.</p>
Cancel	The Revise Agreements Search Results Screen will be displayed.

183 Revise Contract – Prior Payments

A Overview

After user clicks “Continue” from the Revise Contract Screen, the Revise Contract – Prior Payments Screen is displayed.

B Revise Contract – Prior Payments Screen

The following is an example of the Revise Contract – Prior Payments Screen.

The screenshot displays the 'Revise Contract' web application interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Revise Contract' and displays the following information:

- Control No :** 29_101_2019_0077A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** PARTIALLY_EARNED
- Creation Date :** 09/05/2019
- Project Area ID :** 1667
- Contract Number :** [11107](#)

Below the contract details, there is a yellow warning box with a triangle icon: "Prior payments have been paid on this agreement. This revision could trigger receivable(s) for the producer(s) who have already been paid." Below this, a question is posed: "*Are you removing any producer(s) from this CS agreement who have received a payment?". The user can respond with "Yes" or "No" using radio buttons. At the bottom of the form, there are "Continue" and "Cancel" buttons. The footer of the page includes the text "CRPCostShareReviseContractQuestion01" and a "Back to Top" link.

183 Revise Contract – Prior Payments (Continued)

C Fields, Descriptions, and Actions

Field/Link	Description/Action
<p>Are you removing any producer(s) from this CS agreement who have received a payment?</p>	<p>If “Yes” then the following question with possible responses is displayed, “Shall receivable(s) be generated for the removed producer(s)?”</p> <p>The subsequent response options are as follows.</p> <ul style="list-style-type: none"> • “Yes” - Yes, receivable(s) will be generated for the removed producer(s). <p>Note: A “Yes” answer will take the agreement down the Revise Path when “Continue” is selected.</p> <ul style="list-style-type: none"> • “No” - No, all prior payments are correct as paid. Do not generate receivable(s) for the removed producer(s). <p>Note: A “No” answer will take the agreement down the finalize path when “Continue” is selected.</p> <hr/> <p>If “No” then the following question with possible responses is displayed, “Will producer(s) percentage share(s) be modified on this revision?”</p> <p>The subsequent response options are as follows.</p> <ul style="list-style-type: none"> • “Yes” - Yes, modify producer(s) percentage share. <p>Note: A “Yes” answer will take the agreement down the finalize path when “Continue” is selected.</p> <ul style="list-style-type: none"> • “No: No, producer(s) percentage share will remain unchanged.” <p>Note: A “No” answer will take the agreement down the revise path when “Continue” is selected.</p>
<p>Continue</p>	<p>If the revision will be going down the “Revise Path”, the Agreements Signup – Applicant Information Screen will be displayed. See Section 2.</p> <p>The Application Signup – Applicant Information Screen will be displayed if the agreement will be going down the “Finalize Path”. See Section 3.</p>
<p>Cancel</p>	<p>The Revise Contract Screen is displayed.</p>

184-189 (Reserved)

Section 2 Workflow for Revise Path

190 Revise Path

A Overview

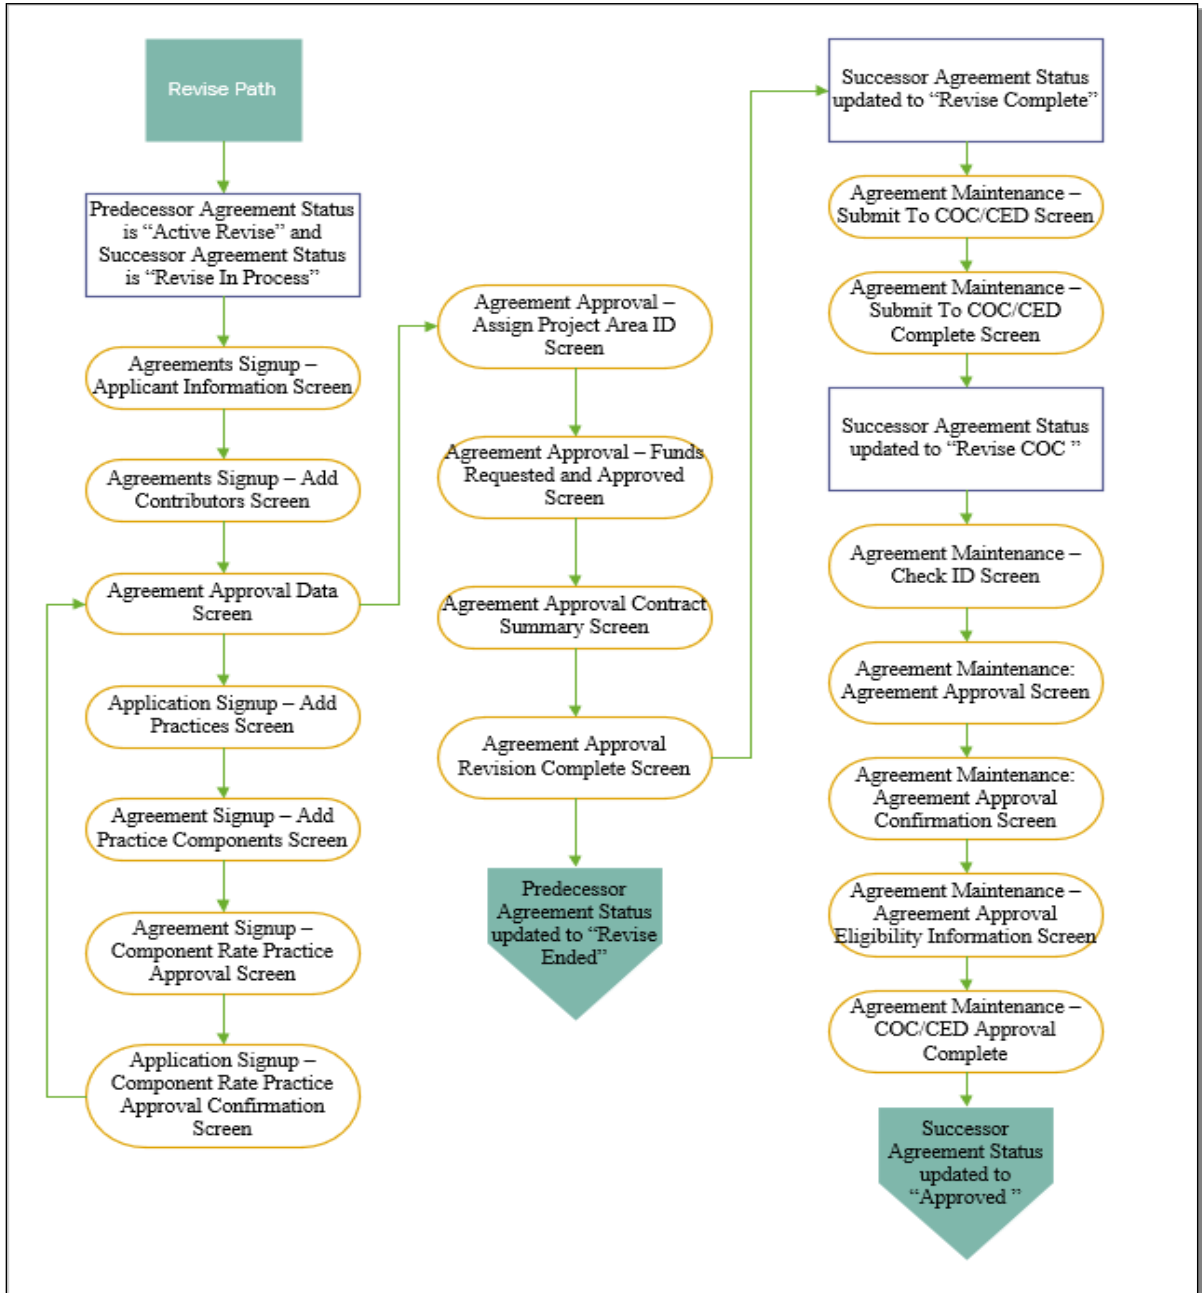

Once a revision has been initiated it could go down one of two paths, either the revise path or the finalize path. Agreements funded through either obligation systems can end up going down either path. This Section will cover the Revise Path. For more information on agreement revisions that go down the finalize path See [Section 3](#).

Revisions on the Revise Path are found through searches and links on the left navigation menu under Agreement Maintenance.

190 Revise Path (Continued)

B Flow Chart of Revise Path screens

Following is a flow chart showing the progression of screens for a revision on the Revise Path.

191 Revise Agreement – Applicant Information

A Overview

The Agreements Signup – Applicant Information Screen will be displayed after user clicks “Continue” from either:

- the Revise Contract Screen when agreement is either COF or eFMS obligated with no prior payments, or
- the Revise Contract – Prior Payments Screen when prior payments exist for the eFMS obligated agreement and questions were answered to send agreement down the revise path (see [paragraph 183](#)).

B Example of Agreements Signup – Applicant Information Screen

The following is an example of the Agreements Signup – Applicant Information Screen.

191 Revise Agreement – Applicant Information (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreements Signup – Applicant Information Screen.

Field/Link	Description/Action
State	The State is defaulted according to the selected predecessor agreement. Changing the State will cause error messages to be displayed when “Continue” is selected.
County	The County is defaulted according to the selected predecessor agreement. Changing the County will cause error messages to be displayed when “Continue” is selected.
Contract Number	Defaults to the contract number of the CRP-1 used to create the agreement.
Retrieve Producers	CLICK “Retrieve Producers” and all producers that are associated with the CRP-1 in CCMS are retrieved and will be displayed on the Agreements Signup – Applicant Information Screen.
Add Producer	CLICK “Add Producer”. The SCIMS Customer Search Screen is displayed. Select the producer from SCIMS. Note: A producer that is not on the CRP-1 will not be allowed to be added to the cost share agreement.
Select	A radio button used to designate the primary applicant.
Applicant(s)	Displays the producers to be included on the agreement.
Remove	Click “Remove” to remove a producer that is not a participant on the agreement.
Continue	CLICK “Continue” to proceed to The Agreements Signup – Add Contributors Screen.

192 Revise Agreement – Add Contributors

A Overview

The Agreements Signup – Add Contributors Screen is displayed after “Continue” is selected from the Agreements Signup – Applicant Information Screen allowing the user to add or modify the field numbers.

B Example of Agreements Signup – Add Contributors Screen

The following is an example of the Agreements Signup – Add Contributors Screen.

The screenshot displays the 'Agreements Signup - Add Contributors' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a County user. The main content area includes a sidebar menu with options like 'Menu', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The 'Agreement Maintenance' section is expanded to show 'Revise Agreement' and 'Agreement In Process'. The main content area displays the following information:

Agreements Signup - Add Contributors

Control No : 29_101_2022_0151A Creation Date : 04/21/2022

 Agreement Status : REVISE_IN_PROCESS Contract Number : [11172](#)

[Add/View Notes](#)

Following are the Producer/Contributor details.

All required fields are denoted by an asterisk{*}

Producer Farm Details					
* Producer(s)	Farm No.	Tract No.	* Field No.	State	County
IMA PRODUCER ABC FARMS XYZ CORP	0000291	0001847	<input type="text" value="1"/>	29	101

Buttons: Save & Go To Contract Summary, < Back

CRPContractMaintenanceAddContributors01 [Back to Top ^](#)

192 Revise Agreement – Add Contributors (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreements Signup – Add Contributors Screen.

Field/Link	Description/Action
Producer(s)	Displays the producer(s) associated to the CRP-1.
Farm No.	Displays the farm(s) associate to the producer(s).
Tract No.	Displays the tract numbers of the farms.
Field No.	Used to complete either of the following actions: <ul style="list-style-type: none"> • revise existing field numbers • add field numbers to new farm/tract combinations that are displayed after adding a new producer.
State	Displays the physical location State of the tract.
County	Displays the physical location County of the tract.
Save & Go To Contract Summary	The Agreement Approval Data Screen is displayed.
Back	User is returned to Agreements Signup – Applicant Information Screen. See paragraph 191 .

193 Revise Agreement – Agreement Approval Data

A Overview

The Agreement Approval Data Screen is displayed after “Save & Go To Contract Summary” is selected from the Agreements Signup – Add Contributors Screen.

B Example of Agreement Approval Data Screen

The following is an example of the Agreement Approval Data Screen.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Agreement Approval' and shows the following details:

- Control No :** 29_101_2022_0151A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** REVISE_IN_PROCESS
- Creation Date :** 04/21/2022
- Project Area ID :** 1667
- Contract Number :** 11172

There is a link for [Add/View Notes](#). Below this, a message states: "Below is the list of practices associated with an application." This is followed by a table titled 'Practice Summary':

Practice Control Number	Process State	Approval Data
29-101-2022-0151-01-CP15B	EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete	Edit

At the bottom of the table, there are 'Continue' and 'Cancel' buttons. The page footer includes the text 'CRPContractMaintenanceContractSummary01' and a 'Back to Top ^' link.

Note: If a new field number was added to the application using the “Field No.” column on the Agreement Signup – Add Contributors Screen in [paragraph 192](#), the user will receive an error message stating, “The farms below are not associated to any other practice” as follows.

193 Revise Agreement – Agreement Approval Data (Continued)

B Example of Agreement Approval Data Screen (Continued)

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Agreement Approval' and shows the following details:

- Control No :** 29_101_2022_0151A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** REVISE_IN_PROCESS
- Creation Date :** 04/21/2022
- Project Area ID :** 1667
- Contract Number :** 11172

Below the details, there is a section titled 'Below is the list of practices associated with an application.' This section contains a table with the following data:

Practice Control Number	Process State	Approval Data
29-101-2022-0151-01-CP15B	EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete	Edit

Below the table, there is a message: 'The farms below are not associated to any other practice'. This is followed by a table with the following data:

* Farm	Tract	Field
0099999	0001847	2

At the bottom of the screen, there are 'Continue' and 'Cancel' buttons, and a footer with the text 'CRPContractMaintenanceContractSummary01' and a 'Back to Top' link.

If the user receives this message the user must either:

- CLICK “**Edit**” to associate the added field to a practice
- CLICK “**Cancel**”, reselect the application being revised, and remove the added field if the field was added in error.

193 Revise Agreement – Agreement Approval Data (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval Data Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Approval Data	CLICK “Edit” to edit the component rate practice approval data including: <ul style="list-style-type: none"> • practice begin and end dates • practice and component extents approved • shares.
Continue	The Agreement Approval – Assign Project Area ID Screen will be displayed. See paragraph 198 for additional information.
Cancel	A blank “Cancel” Screen will be displayed with a message advising the user to select a function from the left menu to continue.

194 Revise Agreement – Add Practices

A Overview

The Agreement Signup – Add Practices Screen is displayed after “Edit” is selected from the Agreement Approval Data Screen.

Note: Even though the user navigates through the Application Signup – Add Practices Screen during the revision process, policy doesn't permit addition of a practice to an approved agreement and software enforces this limitation.

194 Revise Agreement – Add Practices (Continued)

The following table provides the fields, descriptions, and actions for the Agreement Signup – Add Practices Screen.

Field/Link	Description/Action
Select Practice	From the drop-down list, select the CRP practice for which the producer must certify a component. System prepopulates the drop-down list with practices associated with the CRP contract in CCMS.
Practice Rate Type	<p>CSS uses a component rate or practice rate to calculate the cost share, according to the Program and the County’s Program Provisioning information.</p> <ul style="list-style-type: none"> • Starting with Signup 53, CRP only uses component rates. Component rate is now defaulted, and modification is not permitted for CRP. • For Signup 52 and prior CRP contracts, the user must select either practice rate or component rate when adding a practice to the FSA-848.
Is the selected practice for a management activity?	Displays the answer entered when practice was originally entered. This is not editable.
Is this cost share for re-establishment or an authorized CREP riparian buffer "management" maintenance payment?	Displays the answer entered when practice was originally entered. This is not editable.
Farm, Tract, Field, & Acres	<p>CHECK (<input type="checkbox"/>) Select the check box for the applicable farm/tract/field row associated with the practice and enter the total number of acres enrolled for each field.</p> <p>Total practice acres cannot exceed the total farmland acres on the tract as recorded in MIDAS Farm Records.</p>
Save & Add Practice Component(s)	Click “Save & Add Practice Component(s)” and Agreement Signup – Add Practice Components Screen is displayed.
Cancel	The Agreement Approval Data Screen is displayed.

195 Revise Agreement – Add Practice Components

A Overview

The Agreement Signup – Add Practice Components Screen will be displayed after “Save & Add Practice Components” is selected from the Agreement Signup – Add Practices Screen.

B Example of Agreement Signup – Add Practice Components Screen

The following is an example of the Agreement Signup – Add Practice Components Screen.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practice Components Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Practice extent (Acre)	Displays the previously entered practice extent acres. Software does not allow it to be modified.
Select Components	<p>Provides the ability to:</p> <ul style="list-style-type: none"> • add components by selecting from a drop-down list of available components that may be associated with the practice • remove newly added components (before save & continue) • add extents for newly added components. <p>Notes: See subparagraph D for an example of a component added during the revision.</p> <p>Existing components cannot be removed; however, Extent Approved can be changed to zero on the Agreement Signup – Component Rate Practice Approval Screen.</p>
Add	After selecting a component to be added, CLICK “Add” to populate the newly selected component in the list of components that are included for the practice.

195 Revise Agreement – Add Practice Components (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Component Name, Component Unit, Rate Type, Avg Actual Cost (\$), Regular Cost Share (%), & LIM-RES SOC-DIS BEG-FMR Cost Share (%)	Displays the data applicable to the selected component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Extent Approved	Enter the extent requested for each component/technical practice that is being added. Existing components display the prior extent approved and is not editable.
Remove Link	Allows users to remove a newly added component before “Save & Continue” being selected.
Save & Continue	Saves the selected components displayed in the table to the application and continues to the Agreement Signup – Component Rate Practice Approval Screen.
Back	The Application Signup – Add Practices Screen is displayed.

195 Revise Agreement – Add Practice Components (Continued)

D Example of Redisplayed Agreement Signup – Add Practice Components Screen

The following is an example of the Redisplayed Agreement Signup – Add Practice Components Screen after the user has selected the additional component “22Seeding” and CLICKED “Add” on the original version of the screen in subparagraph B.

196 Revise Agreement – Component Rate Practice Approval (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Signup – Component Rate Practice Approval Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Practice Begin Date	Modify the practice begin date, if applicable.
Practice End Date	<p>Modify the practice end date, if applicable.</p> <p>Note: To extend the practice end date the user must:</p> <ul style="list-style-type: none"> • select “Contract Extension” as the Revision Reason, enter an agreement description and CLICK “Continue” on the Revise Contract Screen (paragraph 182) • follow the steps in paragraphs 182 through 195. If no changes other than the practice end date are being made, CLICK: <ul style="list-style-type: none"> • “Continue” on the Agreements Signup – Applicant Information Screen (paragraph 191) • “Save & Go To Contract Summary” on Agreements Signup – Add Contributors Screen (paragraph 192) • “Edit” on Agreement Approval Data Screen (paragraph 193) • “Save & Add Practice Component(s)” on Agreement Signup – Add Practices Screen (paragraph 194) • “Save & Continue” on Agreement Signup – Add Practice Components Screen (paragraph 195) • enter the desired extended completion date on this screen and CLICK “Continue to Next Step” • continue processing the revision all the way through COC approval of the revised agreement.
Practice Extents	
Extent Requested	Displays the extent requested for the component.

196 Revise Agreement – Component Rate Practice Approval (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Extent Approved	Modify the practice extent approved, if applicable. Note: If the extent is increased, the obligated amount is automatically increased for CRP, but no money will be collected or distributed during this step.
Components	
Name, Extent Requested Avg Actual Cost Per Unit(\$), Max Cost/Share Regular(%), Max Cost Share LIM-RES SOC-DIS BEG-FMR(%)	Displays the data applicable to the selected component from prior entries and Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Extent Approved	Modify the component extent approved, if applicable. Note: If the extent is increased, the obligated amount is automatically increased for CRP, but no money will be collected or distributed during this step.
Name	Displays the name of the producer(s) associated to the component
LIM-RES SOC-DIS BEG-FMR	Displays the Limited Resource, Socially Disadvantaged, and Beginning Farmer designation for the producer.
Percent Share (%)	Modify the producer share(s) if applicable. Note: The sum of the percent shares for all producers must equal 100 percent. When only one producer is associated with the agreement the share for that producer must be 100 percent.
Continue to Next Step	The Application Signup – Component Rate Practice Approval Confirmation Screen is displayed.
Cancel	The Application Signup Screen is displayed. The Application Signup Screen is a blank screen that instructs the user to use the left navigation menu to select a task. Added components are retained.
Show/Hide selected practice’s farm, tract, and fields	CLICK “Show/Hide selected practice’s farm, tract, and fields” to either show or hide a list of the farm, tract, and field numbers and acres associated with the practice. Default display is to hide this information. In the screen shot above the user has clicked this link so the information is displayed.

197 Revise Agreement– Component Rate Practice Approval Confirmation

197 Revise Agreement– Component Rate Practice Approval Confirmation (Continued)

B Example of Application Signup – Component Rate Practice Approval Confirmation Screen (Continued)

Note: Calculation for total estimated cost for installing the component is as follows:

$$(\text{Extent Approved}) \times (\text{Average Actual Cost}) = (\text{Total Cost})$$

Calculation for approved cost share amount is as follows:

$$(\text{Extent Approved}) \times (\text{Average Actual Cost}) \times 50\% \times (\text{Producer Share}) = (\text{Amount Approved}).$$

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Component Rate Practice Approval Confirmation Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Practice Begin Date	Displays the practice begin date.
Practice End Date	Displays the practice end date.
Practice Extents	
Extent Requested	Displays the extent requested for the practice.
Extent Approved	Displays the practice extent approved. Note: If the extent is increased, the obligated amount is automatically increased for CRP, but no money will be collected or distributed during this step.

197 Revise Agreement– Component Rate Practice Approval Confirmation (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Components	
Name, Extent Requested Avg Actual Cost Per Unit(\$), Max Cost/Share Regular(%), Max Cost Share LIM-RES SOC-DIS BEG-FMR(%)	Displays the data applicable to the selected component from prior entries and Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Extent Approved	Displays the component extent approved.
Total cost(\$)	Displays the total estimated cost.
Name	Displays the name of the producer(s) associated to the component.
LIM-RES SOC-DIS BEG-FMR	Displays the Limited Resource, Socially Disadvantaged, and Beginning Farmer designation for the producer.
Percent Share (%)	Displays the Percent Share of each producer for the component.
Amount Approved (\$)	Displays the amount of cost share approved by producer for the component.
Continue to Next Step	The Agreement Approval Data Screen will be displayed. See paragraph 193 for additional information.
Cancel	The Application Signup Screen is displayed. The Application Signup Screen is a blank screen that instructs the user to use the left navigation menu to select a task.

198 Revise Agreement – Assign Project Area ID

A Overview

The Agreement Approval – Assign Project Area ID Screen is displayed after “Continue” is selected from the Agreement Approval Data Screen in [paragraph 193](#).

B Example of Agreement Approval – Assign Project Area ID Screen

The following is an example of the Agreement Approval – Assign Project Area ID Screen.

The screenshot shows a web application interface for the CRP system. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right side of the top bar, it says "You are logged in as a County user".

On the left side, there is a vertical menu with the following items: Menu, Welcome County user, CRP Program, Select Program, Cost Share, New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters, Performance and Payment, Certify & Pay, Retry Payment, Agreement Maintenance, Revise Agreement, and Agreement In Process (which is highlighted in blue).

The main content area is titled "Agreement Approval - Assign Project Area ID". It displays the following information:

- Control No : 29_101_2022_0151A
- Applicant Name : IMA PRODUCER
- Agreement Status : REVISE_IN_PROCESS
- Creation Date : 04/21/2022
- Project Area ID : 1667
- Contract Number : [11172](#)

Below this information, it shows "Selected Project Area ID : Non-Project Area - 1667" and a text input field for "Description of Site" with the value "Description".

At the bottom of the main content area, there are two buttons: "Continue" and "Back".

At the very bottom of the page, there is a footer with the text "CRPContractAssignDisasterID01" on the left and "Back to Top ^" on the right.

198 Revise Agreement – Assign Project Area ID (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Assign Disaster ID Screen.

Field/Link	Description/Action
Selected Project Area ID	Displays the Project Area ID selected before.
Description of Site	Enter or edit the description of the site.
Continue	Edits will be saved and the Agreement Approval – Funds Requested and Approved Screen will be displayed. See paragraph 199 .
Back	Edits will be discarded, and the Agreement Approval Data Screen will be displayed. See paragraph 193 .

199 Revise Agreement – Funds Requested and Approved

A Overview

The Agreement Approval – Funds Requested and Approved Screen is displayed after “Continue” is selected from the Agreement Approval – Assign Project Area ID Screen.

B Example of Agreement Approval – Funds Requested and Approved Screen

The following is an example of the Agreement Approval – Funds Requested and Approved Screen.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user notification indicates 'You are logged in as a County user'. The left sidebar contains a 'Menu' with options like 'Welcome County user', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The main content area shows application details: Control No: 29_101_2022_0151A, Applicant Name: IMA PRODUCER, Agreement Status: REVISE_IN_PROCESS, Creation Date: 04/21/2022, Project Area ID: 1667, and Contract Number: 11172. Below this, a table titled 'Practice Summary' lists one practice with its control number, process state, requested costshare, and approved cost share. A warning message is displayed below the table, and 'Save & Continue' and 'Back' buttons are at the bottom.

Practice control Number	Process State	Requested Costshare(\$)	Approve Cost Share
29-101-2022-0151-01-CP15B	EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete	\$70.00	\$280.00

199 Revise Agreement – Funds Requested and Approved (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Fund Selection (Revision) Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approve Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
Save & Continue	The Agreement Approval Contract Summary Screen is displayed. See paragraph 200 .
Back	The Agreement Approval - Assign Disaster ID Screen is displayed.

200 Revise Agreement – Contract Summary

A Overview

The Agreement Approval Contract Summary Screen is displayed after “Save & Continue” is selected on the Agreement Approval – Fund Selection (Revision) Screen.

B Example of Agreement Approval Contract Summary Screen

The following is an example of the Agreement Approval – Contract Summary Screen that displays after the user CLICKS “Save & Continue” on the Agreement Approval Screen.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Agreement Approval' and contains the following information:

- Control No :** 29_101_2022_0151A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** REVISE_IN_PROCESS
- Creation Date :** 04/21/2022
- Project Area ID :** 1667
- Contract Number :** [11172](#)

Below this information is a link: [Add/View Notes](#).

The screen then states: "Below is the list of practices and their cost share information of an application."

The 'Approved Practices' table is as follows:

Practice Control Number	Process State	Requested Costshare(\$)	Approved Costshare(\$)
29-101-2022-0151-01-CP15B	EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete	\$70.00	\$280.00

At the bottom of the screen, there are two buttons: 'ReviseComplete' and 'Back'. The footer of the page includes the text 'CRPCostShareContractConfirmSummary01' and a 'Back to Top ^' link.

200 Revise Agreement – Contract Summary (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval Contract Summary Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
ReviseComplete	CLICK “Revise Complete” and the Agreement Approval Contract Summary Screen will be redisplayed with the message “Revision is Complete”. See paragraph 201 .
Back	The Agreement Approval – Funds Requested and Approved Screen is displayed. The agreement approval is not processed.

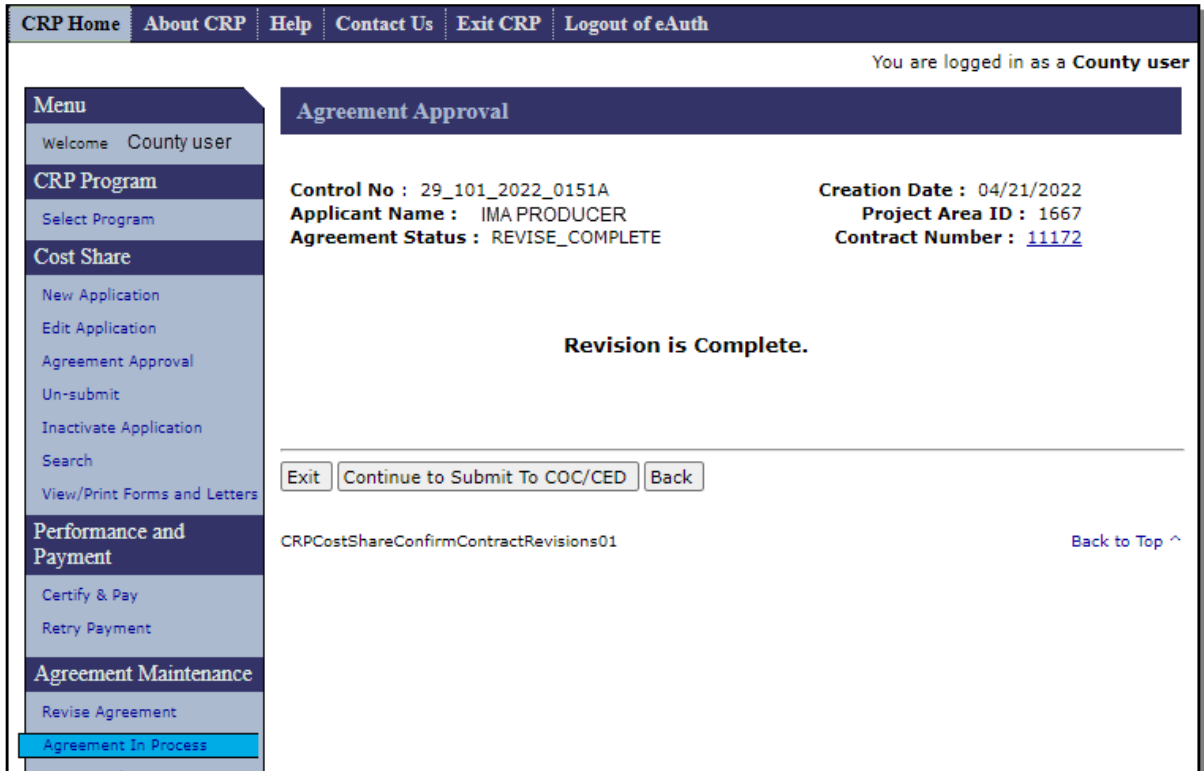

201 Revise Agreement – Revision Complete

A Overview

The Agreement Approval – Revision Complete Screen is displayed after “Revise Complete” is selected from Agreement Approval – Contract Summary Screen.

B Example of Agreement Approval Revision Complete Screen

Following is an example of the Agreement Approval – Revision Complete Screen.

201 Revise Agreement – Revision Complete (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Revision Complete Screen.

Field/Link	Description/Action
Exit	<p>The Search Agreements for Revision Screen is displayed. See paragraph 180 for additional information.</p> <p>Note: The agreement can now be found in the list of agreements that is displayed when either “Agreement in Process” or “Submit to COC/CED” is selected from the left navigation menu under the Agreement Maintenance header.</p>
Continue to Submit To COC/CED	<p>Agreement is submitted to COC/CED for approval. The Agreement Maintenance – Submit to COC/CED Screen is displayed. See paragraph 271.</p>
Back	<p>The Agreement Approval Contract Summary Screen is displayed.</p>

202-209 (Reserved)

Section 3 Workflow for Finalize Path**210 Finalize Path****A Overview**

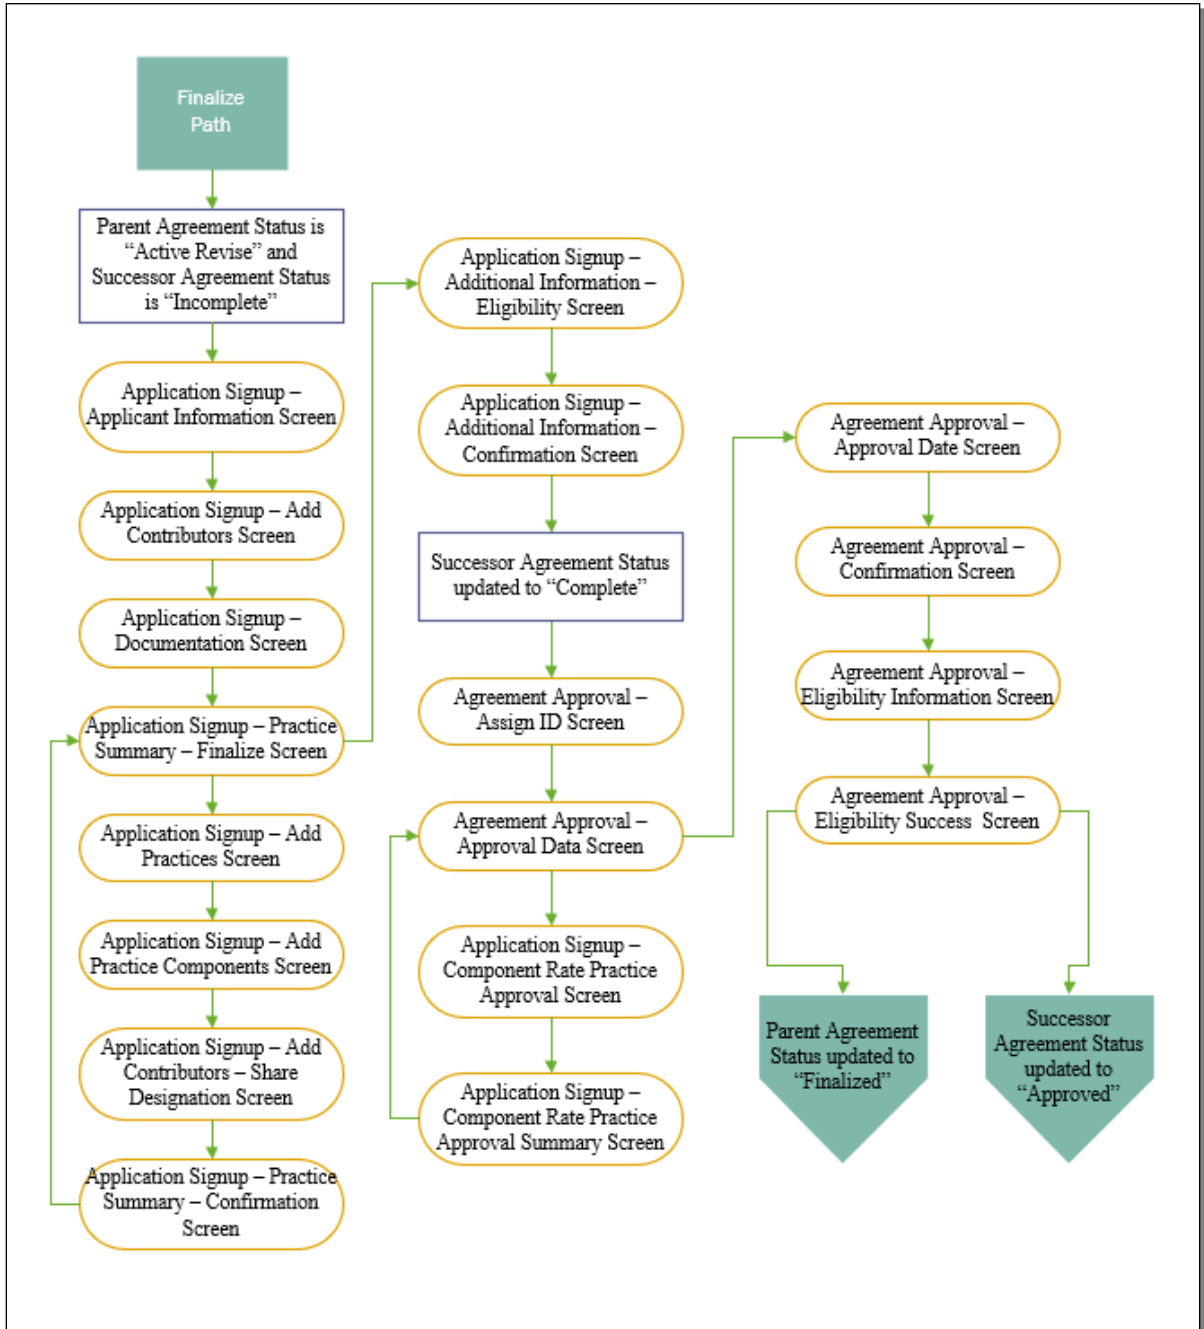

Once a revision has been initiated it could go down one of two paths, either the revise path or the finalize path. Agreements funded through either obligation system can end up going down either path. This Section will cover the Finalize Path. For more information on agreement revisions that go down the Revise Path. [See Section 2.](#)

Revisions on the Finalize Path that have been started but not completed are found through the Application Search on the left navigation menu.

210 Finalize Path (Continued)

B Flow Chart of Finalize Path screens

Following is a flow chart showing the progression of screens for a revision on the Finalize Path.

211 Revise Agreement (Finalize) – Applicant Information

A Overview

The Application Signup – Applicant Information Screen will be displayed after user clicks “Continue” from either:

- the Revise Contract Screen when agreement is COF obligated with prior payments, or
- the Revise Contract – Prior Payments Screen when prior payments exist for the eFMS obligated agreement and questions were answered to send agreement down the finalize path ([paragraph 183](#)).

B Example of Application Signup – Applicant Information Screen

The following is an example of the Application Signup –Applicant Information Screen.

<input checked="" type="radio"/>	IMA PRODUCER	<input type="button" value="Remove"/>

CRPCostShareAddProducer01 [Back to Top ^](#)

211 Revise Agreement (Finalize) – Applicant Information (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreements Signup – Applicant Information Screen

Field/Link	Description/Action
State	The State is defaulted according to the selected predecessor agreement. Changing the State will cause error messages to be displayed when “Continue” is selected.
County	The County is defaulted according to the selected predecessor agreement. Changing the County will cause error messages to be displayed when “Continue” is selected.
Contract Number	Defaults to the contract number of the CRP-1 used to create the agreement. This should not be modified.
Retrieve Producers	CLICK “Retrieve Producers” and all producers that are associated with the CRP-1 in CCMS are retrieved and displayed on the Application Signup – Applicant Information Screen.
Add Producer	CLICK “Add Producer”. The SCIMS Customer Search Screen is displayed. Select the producer from SCIMS Note: A producer that is not on the CRP-1 will not be allowed to be added to the cost share agreement.
Select	A radio button used to designate the primary applicant.
Applicant(s)	Displays the producers to be included on the agreement.
Remove	Click “Remove” to remove a producer that is not a participant on the agreement.
Continue	CLICK “Continue” to proceed to The Application Signup – Add Contributors Screen.

212 Revise Agreement (Finalize) – Add Contributors

A Overview

The Application Signup – Add Contributors Screen is displayed after “Continue” is selected from the Application Signup – Applicant Information Screen allowing the user to add or modify the field numbers. For revisions where an initial PIP was issued on the predecessor agreement and the system determines a producer has been removed from the successor agreement, a Manage PIP validation and link will be displayed. Check the box to confirm that the final PIP was issued. If the producer that was removed did not receive an initial PIP do not issue the final PIP to any other producer. However, the box will still need to be checked to continue with the revision. Doing so will not interfere with the ability to issue the final PIP to the producers that are not removed from the agreement.

212 Revise Agreement (Finalize) – Add Contributors (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Contributors Screen.

Field/Link	Description/Action
Check here to confirm that you have issued the Final PIP Payment through Manage PIP and signed that payment in NPS	CHECK (☐) Select the box if final PIP payment has been issued through the Manage PIP process and the payment has been signed in NPS. See overview for additional information.
Manage PIP	CLICK “Manage PIP” to see the Manage PIP Screen if needed.
Producer(s)	Displays the producer(s) associated to the CRP-1.
Farm No.	Displays the farm(s) associate to the producer(s).
Tract No.	Displays the tract numbers of the farms.
Field No.	Used to complete either of the following actions: <ul style="list-style-type: none"> • revise existing field numbers • add field numbers to new farm/tract combinations that are displayed after adding a new producer.
State	Displays the physical location State of the tract.
County	Displays the physical location county of the tract.
Save & Continue	After all applicable information has been entered, CLICK “Save and Continue” to display the Application Signup – Documentation Screen.
Back	User is returned to Application Signup – Applicant Information Screen.

213 Revise Agreement (Finalize) – Documentation

A Overview

After the user selects Save & Continue from the Application Signup – Add Contributors Screen, the Application Signup – Documentation Screen will be displayed. This Screen provides selection criteria for entering information pertaining to the specific Project Area ID for which the producer is applying.

B Example of Application Signup – Documentation Screen

The following is an example of the Application Signup – Documentation Screen.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Documentation Screen.

Field/Link	Description/Action
Select Project Area ID	Non-Project Area – 1667 is defaulted when entering an application for CRP cost share. Do not attempt to change the defaulted value.
Description of Site	Enter a narrative description with any information that helps user remember specifics about the application in order to differentiate between applications. Entry in this field is optional.
Save & Add Practice(s)	Saves documentation information that was loaded and Application Signup – Practice Summary – Finalize Screen is displayed.

214 Revise Agreement (Finalize) – Practice Summary – Finalize

A Overview

The Application Signup – Practice Summary – Finalize Screen is displayed after “Save & Add Practice(s)” is selected from the Application Signup – Documentation Screen. This Screen contains links to take the user to additional process steps.

The Application Signup - Practice Summary – Finalize Screen can be used to:

- remove practices
- edit practices
- add another practice

Note: Even though the option to add another practice is available, policy doesn't permit addition of a practice to an approved agreement.

- continue to next step.

215 Revise Agreement (Finalize) – Add Practices (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Select Practice	<p>From the drop-down list, select the CRP practice for which the producer must certify a component. System prepopulates the drop-down list with practices associated with the CRP contract in CCMS.</p> <p>Not all practices on a CRP contract have components that need certified on an FSA-848.</p> <p>Example: Practice CP12(Wildlife Food Plot) is not eligible for cost share. See policy in Part 15 of 2-CRP for additional information on practices that do not require a certification on an FSA-848.</p>
Practice Rate Type	<p>CSS uses a component rate or practice rate to calculate the cost share, according to the Program and the County’s Program Provisioning information.</p> <ul style="list-style-type: none"> • Starting with Signup 53, CRP only uses component rates. Component rate is now defaulted, and modification is not permitted for CRP. • For Signup 52 and prior CRP contracts, the user must select either practice rate or component rate when adding a practice to the FSA-848.

215 Revise Agreement (Finalize) – Add Practices (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Is the selected practice for a management activity?	Displays the answer entered when practice was originally entered. This is not editable.
Is this cost share for re-establishment or an authorized CREP riparian buffer "management" maintenance payment?	Displays the answer entered when practice was originally entered. This is not editable.
Farm, Tract, Field, & Acres	<p>CHECK (☐) Select the check box for the applicable farm/tract/field row associated with the practice and enter the total number of acres enrolled for each field.</p> <p>Total practice acres cannot exceed the total farmland acres on the tract as recorded in MIDAS Farm Records.</p>
Save & Add Practice Component(s)	Saves practice information that was loaded on the Screen. Takes the user to the Application Signup – Add Practice Components Screen.
Cancel	Takes the user to the Application Signup – Practice Summary – Finalize Screen.

216 Revise Agreement (Finalize) – Add Practice Components

A Overview

The Application Signup – Add Practice Components Screen is displayed after Save & Add Practice Components” is selected from the Application Signup – Add Practices Screen.

216 Revise Agreement (Finalize) – Add Practice Components (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practice Components Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Management Activity	Displays the previously entered answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the previously entered answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Practice extent (Acre)	<p>Displays the previously entered practice extent acres. Enter sum of all acres for the Selected Practice Code (Example: 01-CP27) on which the practice is being applied. This field cannot be blank.</p> <p>Note: Acre will be unit of measure listed for practice reporting purposes, but components can be different units of measure such as “each” or “hour.”</p>
Select Components	<p>Provides the ability to:</p> <ul style="list-style-type: none"> • add components by selecting from a drop-down list of available components that may be associated with the practice • remove components • add or modify extents for components.
Add	After selecting a component to be added, CLICK “Add” to populate the newly selected component in the list of components that are included for the practice.
Component Code, Rate Type, Component Unit, Avg Actual Cost (\$), Regular Cost Share (%), & LIM-RES SOC-DIS BEG-FMR Cost Share (%)	Displays the data applicable to the selected component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.

216 Revise Agreement (Finalize) – Add Practice Components (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Extent Requested	Enter the extent requested for each component/technical practice. Existing components prepopulate the prior extent requested.
Remove Link	Allows users to remove a selected component.
Save & Add Component	Saves the selected components displayed in the table and continues to the Application Signup – Add Contributors – Share Designation Screen. Note: Does not add a currently displayed component in the “Select Component” data field to the application.
Back	Returns user to the Application Signup – Add Practices Screen.
Show/Hide selected practice’s farm, tract, and fields	Displays or Hides the Farm No., Tract No., Field No., Acres and State/County as loaded on Application Signup –Add Contributors Screen. See paragraph 31 .

217 Revise Agreement (Finalize) – Add Contributors – Share Designation

A Overview

The Application Signup – Add Contributors – Share Designation Screen will be displayed with a listing of all producers on the cost share application. This Screen is used to designate the share of expenses that each producer is expected to bear.

B Example of Application Signup – Add Contributors – Share Designation Screen

The following is an example of the Application Signup – Add Contributors – Share Designation Screen.

The screenshot displays the 'Application Signup - Add Contributors' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Application Signup - Add Contributors' and includes the following details:

- Control No :** 29_101_2022_0150A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** INCOMPLETE
- Creation Date :** 05/16/2022
- Project Area ID :** 1667
- Contract Number :** [11191](#)

Below these details, it states: 'Following are the contributor details.' and 'All required fields are denoted by an asterisk {*}'. The contributor details are:

- Estimated Needed Contribution : 316.90
- Selected Practice : 01-CP9
- Management Activity : No
- Re-establishment : No

There is a 'Copy Percent Share Values' button. Below this is a table titled 'Components' with the following data:

Component Code	Extent Requested		
14AIR-Air Seeding	10.00		
	Producer	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)
	IMA PRODUCER	No	<input type="text" value="100"/>
14A4-Animal Guard 4 inch	10		
	Producer	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)
	IMA PRODUCER	No	<input type="text" value="100"/>

At the bottom of the main content area, there are two buttons: 'Confirm Contributions' and 'Back'.

217 Revise Agreement (Finalize) – Add Contributors – Share Designation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Contributors – Share Designation Screen.

Field/Link	Description/Action
Estimated Needed Contribution	Displays the estimated contribution needed for the practice.
Selected Practice	Displays the selected practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Copy Percent Share Values	<p>When a practice has multiple components and there are multiple producers associated with the application, this button can be used to assign the same shares to all components without having to enter shares multiple times. After entering the estimated percent share for each applicant on the first component listed, CLICK “Copy Percent Share Values” to automatically assign the same share to all other components.</p> <p>Note: This process always works off the first component in the list. If the user enters a share or changes an existing share for any other component in the list and CLICKS “Copy Percent Share Values,” the share for all components, including the component that was entered or changed, will always be set to match the value of the first component in the list.</p>
Component Code	Displays the applicable component(s).
Extent Requested	Displays the extent requested for the component.
Producer	Displays the producer(s).
LIM-RES SOC-DIS BEG-FMR	Displays the applicable Limited Resource, Socially Disadvantaged, and Beginning Farmer designation.
Percent Share (%)	<p>Enter the estimated percent share for each applicant listed. If any of the applicants listed will not contribute to this practice, entering zero percent shares is acceptable.</p> <p>Note: The sum of the “Estimated Percent Share (%)” fields for all contributors must total 100 percent.</p>
Confirm Contributions	After entering the estimated percent share for each producer, CLICK “Confirm Contributions”. The Application Signup – Add Contributors Screen will be redisplayed.
Back	Returns user to “Application Signup - Add Practice Components” Screen.

217 Revise Agreement (Finalize) – Add Contributors – Share Designation (Continued)

D Example of Redisplayed Application Signup – Add Contributors – Share Designation Screen

The following is an example of the redisplayed Application Signup - Add Contributors – Share Designation Screen.

Application Signup - Add Contributors

Control No : 29_101_2022_0150A **Creation Date :** 05/16/2022
Applicant Name : IMA PRODUCER **Project Area ID :** 1667
Agreement Status : INCOMPLETE **Contract Number :** [11191](#)
[Add/View Notes](#)

Following are the contributor details.

All required fields are denoted by an asterisk {*}

Components				
Component Code	Extent Requested			
14AIR-Air Seeding	10.00			
	Producer	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)	Requested Cost Share(\$)
	IMA PRODUCER	No	100 %	34
14A4-Animal Guard 4 inch	10			
	Producer	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)	Requested Cost Share(\$)
	IMA PRODUCER	No	100 %	125

Practice Summary Back

CRPCostShareConfirmComponentContributorPercentShare01 [Back to Top ^](#)

E Actions

After reviewing the information, CLICK “Practice Summary” if the information is correct. The Application Signup – Practice Summary Confirmation Screen will be displayed.

If the information is incorrect, selecting “Back” will return the user to the Application Signup –Add Contributor – Share Designation Screen to update producer’s shares.

218 Revise Agreement (Finalize) – Practice Summary – Confirmation**A Overview**

After contributor information and shares are entered and “Practice Summary” is selected on the Application Signup – Add Contributors – Share Designation Screen, the Application Signup - Practice Summary - Confirmation Screen will be displayed. This Screen is used to view and confirm previously entered information. This Screen is a summary of selected:

- farm/tract/field combinations with applicable acreage
- components with selected technical practices and the applicable requested extent
- producers, shares, and the requested cost-share amounts.

CSS automatically calculates requested cost share based on the component and practice rate information entered in the Program Provisioning software. See [Exhibit 8](#) for information on Program Provisioning for CRP.

Note: If the information is not correct, user can click “Back” or “Cancel.”

218 Revise Agreement (Finalize) – Practice Summary – Confirmation (Continued)

Application Signup - Practice Summary

Control No : 29_101_2022_0150A

Applicant Name : IMA PRODUCER

Agreement Status : INCOMPLETE

Creation Date : 05/16/2022

Project Area ID : 1667

Contract Number : [11191](#)

[Add/View Notes](#)

Following is the practice summary.

Practice : 01-CP9

Management Activity : No

Re-establishment : No

Farms			
Farm	Tract	Field	Acres
0000003	0001804	5	15.00

Components					
Component Code	Extent Requested				
14AIR-Air Seeding	10.00				
	Producer	Producer Type	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)	Requested Cost Share(\$)
	IMA PRODUCER	Business	No	100 %	34
14A4-Animal Guard 4 inch	10				
	Producer	Producer Type	LIM-RES SOC-DIS BEG-FMR	*Percent Share(%)	Requested Cost Share(\$)
	IMA PRODUCER	Business	No	100 %	125

Do you want to add this Practice?

218 Revise Agreement (Finalize) – Practice Summary – Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Practice Summary – Confirmation Screen.

Field/Link	Description/Action
Practice	Displays the practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Farms	Displays the Farm, Tract, Field and Acres applicable to the practice.
Components	Displays the applicable Component Code(s) and Extent(s) Requested for the practice along with the Producer, Producer Type, LIM-RES SOC-DIS BEG-FMR, Percent Share(%), and Requested Cost Share(\$) for the component.
Update Practice	CSS automatically calculates requested cost share based on the component rate information entered in the Program Provisioning software. After user has reviewed the information and confirmed the information is correct, CLICK “Update Practice”. The Application Signup – Practice Summary – Finalize Screen is displayed.
Back	If the information is not correct, user can CLICK “Back” and the previous Screen (Application Signup – Add Contributors) is displayed.
Cancel	The Application Signup Screen is displayed. The Application Signup Screen is a blank Screen that instructs the user to use the left navigation menu to select a task. The practice will remain associated with the application, but all component information and producer share information that was entered for the practice is lost.

219 Revise Agreement (Finalize) – Additional Information – Eligibility

A Overview

The Application Signup – Additional Information – Eligibility Screen displays program eligibility. The Program Eligibility section is used for other programs and not applicable to CRP.

B Example of Application Signup – Additional Information – Eligibility Screen

The following is an example of the Application Signup – Additional Information – Eligibility Screen.

The screenshot shows a web application interface for 'Application Signup - Additional Information'. The user is logged in as a 'County user'. The page displays details for a specific control: Control No: 29_101_2022_0166A, Applicant Name: IMA PRODUCER, Agreement Status: INCOMPLETE, Creation Date: 05/16/2022, Project Area ID: 1667, and Contract Number: 11166. A section titled 'Following is the Eligibility information.' contains two tables. The first table, 'Program Eligibility', has columns for Question, Yes/No, and Reason, and currently shows 'Nothing found to display.' The second table, 'Eligibility Check Results:', has columns for Name, Type, and Eligible, with one entry for 'IMA PRODUCER' (Individual, N/A). Navigation buttons for 'Application Information Complete' and 'Back' are visible, along with a 'Back to Top' link.

219 Revise Agreement (Finalize) – Additional Information – Eligibility (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Additional Information- Eligibility Screen.

Field/Link	Description/Action
Program Eligibility	Program Eligibility questions are not applicable to CRP. This functionality is for other Cost Share programs.
Eligibility Check Results	Displays the Producer(s) and Producer Type. Eligible flag is not applicable to CRP.
Application Information Complete	Submits the application to the approval process. The Application Signup–Additional Information–Confirmation Screen is displayed with the message “The application submitted successfully.”
Back	Returns user to the Application Signup – Practice Summary – Finalize Screen.

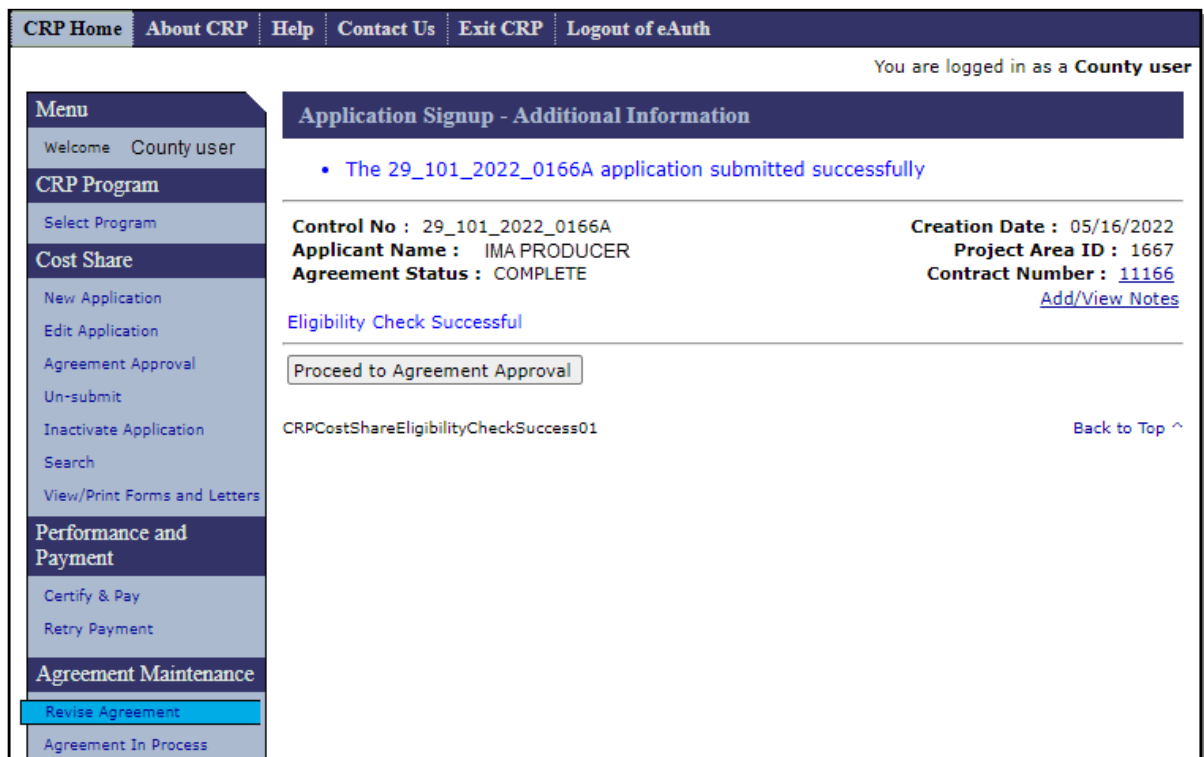

220 Revise Agreement (Finalize) – Additional Information – Confirmation

A Overview

The Application Signup – Additional Information – Confirmation Screen displays the results of the application submission and eligibility check.

B Example of Application Signup – Additional Information – Confirmation Screen

The following is an example of the Application Signup – Additional Information – Confirmation Screen. This Screen confirms successful submission of eligibility information and signature dates.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Additional Information – Confirmation Screen.

Field/Link	Description/Action
Proceed to Agreement Approval	The Agreement Approval – Assign ID Screen is displayed.

221 Revise Agreement (Finalize) – Assign ID

A Overview

After the user clicks “Proceed to Agreement Approval” from the Application Signup – Additional Information – Confirmation Screen, the Agreement Approval – Assign ID Screen is displayed. This Screen is used to assign or change a project area ID.

Users may also access this screen by clicking “Go to Approval” from the Agreement Approval – Search Results Screen.

B Example of Agreement Approval – Assign ID Screen

The following is an example of the Agreement Approval – Assign ID Screen. Example is when accessing the Screen from within the Revise Agreement (Finalize) process. The same information is displayed if accessing from the Agreement Approval link in the Left Navigation menu.

The screenshot shows a web application interface for the CRP system. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right side of the top bar, it says "You are logged in as a County user".

On the left side, there is a vertical navigation menu with the following sections and items:

- Menu**
 - Welcome County user
- CRP Program**
 - Select Program
- Cost Share**
 - New Application
 - Edit Application
 - Agreement Approval
 - Un-submit
 - Inactivate Application
 - Search
 - View/Print Forms and Letters
- Performance and Payment**
 - Certify & Pay
 - Retry Payment
- Agreement Maintenance**
 - Revise Agreement (highlighted in blue)
 - Agreement In Process

The main content area is titled "Agreement Approval - Assign ID". It displays the following information:

- Control No :** 29_101_2022_0166A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** COMPLETE
- Creation Date :** 05/16/2022
- Project Area ID :** 1667
- Contract Number :** [11166](#)

Below this information, there is a section titled "Please assign a Project Area ID to proceed with approval". It shows "Selected Project Area ID : Non-Project Area - 1667". There are two buttons: "Continue" and "Back".

At the bottom of the main content area, there is a text string "CRPAssignDisasterID01" and a "Back to Top ^" link.

221 Revise Agreement (Finalize) – Assign ID (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Assign ID Screen.

Field/Link	Description/Action
Select Project Area ID	Project Area ID is prepopulated based upon the ID selected during the “New Application” process. Project area ID is always 1667 for CRP and user should not attempt to modify.
Continue	After the user has entered all applicable information, CLICK “Continue”. The Agreement Approval – Approval Data Screen is displayed.
Back	CLICK “Back” to return to the prior screen.

222 Revise Agreement (Finalize) – Approval Data

A Overview

After clicking “Continue” on the Agreement Approval – Assign ID Screen, the Agreement Approval – Approval Data Screen is displayed.

Notes: If retired rates exist for the components included in the application, a message is displayed alerting user to make changes in the Program Provisioning software before proceeding. If this message is displayed the user should contact their State Office.

If a component’s effective end date has passed the user is instructed to remove the component or update the effective end date in program provisioning.

B Examples of Agreement Approval – Approval Data Screen

The following is an example of the Agreement Approval – Approval Data Screen if approval information has not been previously entered for any practices.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Agreement Approval' and includes the following details:

- Control No :** 29_101_2022_0166A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** COMPLETE
- Creation Date :** 05/16/2022
- Project Area ID :** 1667
- Contract Number :** [11166](#)

Below the details is a section titled 'Below is the list of practices associated with an application.' which contains a table:

Practice Summary		
Practice Control Number	Process State	Approval Data
29-101-2022-0166-01-CP21	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Add
29-101-2022-0166-02-CP21	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Add

At the bottom of the table, there are 'Cancel' and 'Disapprove All' buttons. The footer of the screen shows 'CRPCostShareContractApprove01' and a 'Back to Top' link.

222 Revise Agreement (Finalize) – Approval Data (Continued)

B Examples of Agreement Approval – Approval Data Screen (Continued)

The following is an example of the Agreement Approval – Approval Data Screen if approval information exists for one or more practices.

The screenshot shows a web application interface for 'Agreement Approval'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains options like 'Welcome County user', 'CRP Program', 'Cost Share', and 'Performance and Payment'. The main content area displays application details: Control No: 29_101_2022_0120, Applicant Name: IMA PRODUCER, Agreement Status: COMPLETE, Creation Date: 03/30/2022, Project Area ID: 1667, and Contract Number: 11145. Below this, a table titled 'Practice Summary' lists two practices with their respective control numbers and process states. At the bottom, there are buttons for 'Continue', 'Cancel', and 'Disapprove All'.

Practice Control Number	Process State	Approval Data
29-101-2022-0120-01-CP2	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Edit Remove
29-101-2022-0120-01-CP3A	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	Add

Note: The “Continue” option becomes available as soon as Approval Data exists for at least one practice.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Approval Data Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.

222 Revise Agreement (Finalize) – Approval Data (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Approval Data	<p>CLICK:</p> <ul style="list-style-type: none"> • “Add” to Select the practice for approval and the Application Signup – Component Rate Practice Approval Screen will be displayed <p>Note: The “Add” link will only be available for practices that have no existing approval information entered.</p> <ul style="list-style-type: none"> • “Edit” to edit the component rate practice approval data including: <ul style="list-style-type: none"> • practice begin and end dates • practice and component extents approved • shares • “Remove” to remove the approval data for the practice. <p>Note: The “Remove” link will only be available if approval information exists for that practice.</p>
Continue	<p>CLICK “Continue” to complete the approval information. The Agreement Approval- Approval Date Screen is displayed.</p> <p>Notes: The “Continue” option will only be available if approval information exists for one or more practices.</p> <p>If the user clicks “Continue” while some practices do not have approval data added, those practices without approval data will be disapproved during continuation of the approval process for other practices on the same application. The user should take care to avoid this situation since disapproval of practices should not happen on CRP cost share agreements. See paragraph 70.</p>
Cancel	<p>Cancels the “Agreement Approval” and returns user to Agreement Approval – Assign ID Screen.</p>
Disapprove All	<p>Should not be used for CRP cost share agreements. Disapproves all practices associated with the application. The Agreement Disapproval Information Screen will be displayed.</p>

223 Revise Agreement (Finalize) – Component Rate Practice Approval

A Overview

After the user clicks “Add” on the Agreement Approval – Approval Data Screen, the Application Signup – Component Rate Practice Approval Screen is displayed.

B Example of Application Signup – Component Rate Practice Approval Screen

223 Revise Agreement (Finalize) – Component Rate Practice Approval (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Component Rate Practice Approval Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Practice Begin Date	Enter the date practice is to begin that is the approval date. Users can use the calendar icon to pre-fill the entry.
Practice End Date	Is prepopulated with an editable date 12 months after the practice begin date. Practice end date is ≤ 12 months of practice begin date.
Practice Extents	
Extent Requested	Displays the extent requested for the practice.
Extent Approved	Extent approved is prepopulated with the extent requested previously entered for the component but can be edited. User should verify that the prepopulated data is correct before continuing.
Components	
Component Code, Avg Actual Cost (\$), Regular Cost Share (%), & LIM-RES SOC-DIS BEG-FMR Cost Share (%)	Displays the data applicable to the component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Extent Requested	Displays the extent requested for the component.

223 Revise Agreement (Finalize) – Component Rate Practice Approval (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Extent Approved	Extent approved is prepopulated with the extent requested previously entered for the component but can be edited. User should verify that the prepopulated data is correct before continuing. Note: Users cannot remove practices or components within the practice approval process; however, users can enter zero in the Extent Approved field.
Component Unit	Displays the data applicable to the component from Program Provisioning. See Exhibit 8 for information on Program Provisioning for CRP.
Producer	Displays the producer(s) associated with the application.
LIM-RES SOC-DIS BEG-FMR	Displays the applicable Limited Resource, Socially Disadvantaged, and Beginning Farmer designation.
Percent Share (%)	Percent Share is prepopulated with the Percent Share previously entered for the component but can be edited. User should verify that the prepopulated data is correct before continuing. Note: The sum of the percent shares for all producers must equal 100 percent.
Continue to Next Step	When all required information has been verified and entered, CLICK “Continue to Next Step”. The Approval Signup - Component Rate Practice Approval Summary Screen is displayed.
Cancel	Users can also click “Cancel”, but all approval information added for the selected practice will be lost. After clicking “Cancel” the Application Signup Screen is displayed. The Application Signup Screen is a blank Screen that instructs the user to use the left navigation menu to select a task.
Show/Hide selected practice’s farm, tract, and fields	Displays or Hides the Farm No., Tract No., Field No., Acres and State/County as loaded on Application Signup –Add Contributors Screen.

224 Revise Agreement (Finalize) – Component Rate Practice Approval Summary (Continued)

B Example of Application Signup – Component Rate Practice Approval Summary Screen (Continued)

Note: The calculation for total estimated cost for installing the component is
 (Extent Approved) x (Average Actual Cost) = (Total Cost).

The calculation for approved cost share amount is
 (Extent Approved) x (Average Actual Cost) x 50% x (Producer Share) = (Amount Approved).

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Component Rate Practice Approval Summary Screen.

Field/Link	Description/Action
Selected Practice	Displays the selected practice.
Management Activity	Displays the answer to the management question from the Application Signup – Add Practices Screen.
Re-establishment	Displays the answer to the Re-establishment question from the Application Signup – Add Practices Screen.
Practice Begin Date	Displays the practice begin date.
Practice End Date	Displays the practice end date.
Practice Extents	
Extent Requested	Displays the extent requested for the practice.
Extent Approved	Displays the extent approved for the practice.
Components	
All Components fields	Display information directly from previous screen or calculated from entries on previous screen.
Continue to Next Step	CSS automatically calculates approved cost share. After user has verified the information, CLICK “Continue to Next Step”. The Agreement Approval- Approval Data Screen is displayed.
Back	User is returned to the Application Signup – Component Rate Practice Approval Screen.
Cancel	Users can also click “Cancel”, but all approval information added for the selected practice will be lost.

225 Revise Agreement (Finalize) – Approval Date

A Overview

After the user clicks “Continue” on the Application Signup – Approval Data Screen, the Agreement Approval – Approval Date Screen is displayed.

B Example of Agreement Approval – Approval Date Screen

The following is an example of the Agreement Approval – Approval Date Screen.

The screenshot displays the 'Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area is titled 'Agreement Approval' and contains the following information:

- Control No :** 29_101_2022_0166A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** COMPLETE
- Creation Date :** 05/16/2022
- Project Area ID :** 1667
- Contract Number :** 11166

Below this information is a section titled 'Below is the list of practices associated with the application.' with a note: 'All required fields are denoted by an asterisk{*}'. A table titled 'Practice Summary' follows:

Practice control Number	Process State	Requested Costshare(\$)	Approved Costshare (\$)
29-101-2022-0166-01-CP21	EnvironmentCompliance_UnNeeded	\$70.00	\$70.00
29-101-2022-0166-02-CP21	EnvironmentCompliance_UnNeeded	\$50.00	\$ 50.00

At the bottom of the screen, there is a field for '* COC/CED Approval Date of FSA 848A (MM/DD/YYYY):' with a calendar icon and a note '[if continuing now]'. Below this are buttons for 'Continue', 'Back', and 'Print FSA848A PDF'. The footer includes the text 'CRPCostShareContractApprove02' and a 'Back to Top' link.

225 Revise Agreement (Finalize) – Approval Date (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Approval Date Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
COC/CED Approval Date of FSA848A (MM/DD/YYYY)	Enter the COC/CED approval date of the original CRP-1. Users can use the calendar icon to pre-fill the entry. For FMI use the approval date of FSA-848A.
Continue	When all applicable information is entered, CLICK “Continue”. The Agreement Approval - Confirmation Screen will be displayed.
Back	User is returned to the Agreement Approval – Approval Data Screen.
Print FSA-848A PDF	User is able to print FSA-848A, Cost-Share Agreement. Note: Printing FSA-848A does not approve the agreement.

226 Revise Agreement (Finalize) – Confirmation

A Overview

After clicking “Continue” on the Agreement Approval – Approval Date Screen, the Agreement Approval – Confirmation Screen is displayed. The Agreement Approval – Confirmation Screen provides a summary of:

- all approved practices
- all disapproved practices
- cost share information.

Note: Practices that do not have approval information will automatically be disapproved. The user should take care to avoid this situation since disapproval of practices should not happen on CRP cost share agreements. See [paragraph 70](#).

B Example of Agreement Approval – Confirmation Screen

The following is an example of the Agreement Approval – Confirmation Screen.

The screenshot shows a web application interface with a navigation menu on the left and a main content area. The navigation menu includes sections for Menu, CRP Program, Cost Share, Performance and Payment, and Agreement Maintenance. The main content area displays the following information:

Agreement Approval

Control No : 29_101_2022_0166A Creation Date : 05/16/2022
 Applicant Name : IMA PRODUCER Project Area ID : 1667
 Agreement Status : COMPLETE Contract Number : [11166](#)
[Add/View Notes](#)

Below is the list of practices and their cost share information of an application.

Practice Control Number	Process State	Requested Costshare(\$)	Approved Costshare(\$)
29-101-2022-0166-01-CP21	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	\$70.00	\$70.00
29-101-2022-0166-02-CP21	EnvironmentCompliance_UnNeeded NeedsDetermination_Complete_Unneeded	\$50.00	\$50.00

COC/CED Approval Date of FSA 848A (MM/DD/YYYY): [05/16/2022](#)

Buttons:

CRPCostShareContractApproveSummary01 [Back to Top ^](#)

226 Revise Agreement (Finalize) – Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Confirmation Screen.

Field/Link	Description/Action
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
COC/CED Original CRP1 Approval Date (MM/DD/YYYY)	Displays the approval date loaded on the Agreement Approval – Approval Date Screen.
Continue	CLICK “Continue” after reviewing all information and verifying that the information is correct. The Agreement Approval - Eligibility Information Screen will be displayed.
Back	User is returned to the Agreement Approval – Approval Date Screen.

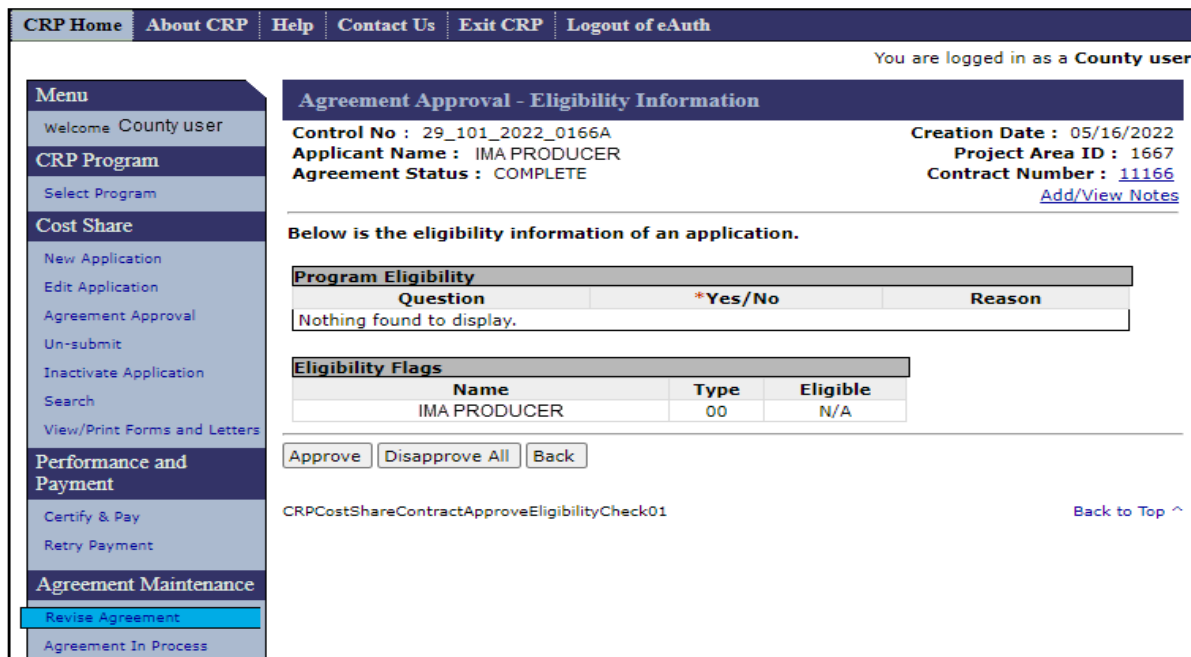

227 Revise Agreement (Finalize) – Eligibility Information

A Overview

After “Continue” is selected from the Agreement Approval – Confirmation Screen, the Agreement Approval – Eligibility Information Screen is displayed.

B Example of Agreement Approval – Eligibility Information Screen

The following is an example of the Agreement Approval – Eligibility Information Screen.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Eligibility Information Screen.

Field/Link	Description/Action
Program Eligibility	Program Eligibility questions are not applicable to CRP. This functionality is for other Cost Share programs.
Eligibility Flags	Displays the Producer(s) and Producer Type. Eligible flag is not applicable to CRP.
Approve	CLICK “Approve” after reviewing all information. The Agreement Approval – Eligibility Success Screen will display.
Disapprove All	Should not be used for CRP cost share agreements. If user clicks “Disapprove All”, the Agreement Disapproval Information Screen is displayed.
Back	User is returned to the Agreement Approval – Confirmation Screen.

228 Revise Agreement (Finalize) – Eligibility Success

A Overview

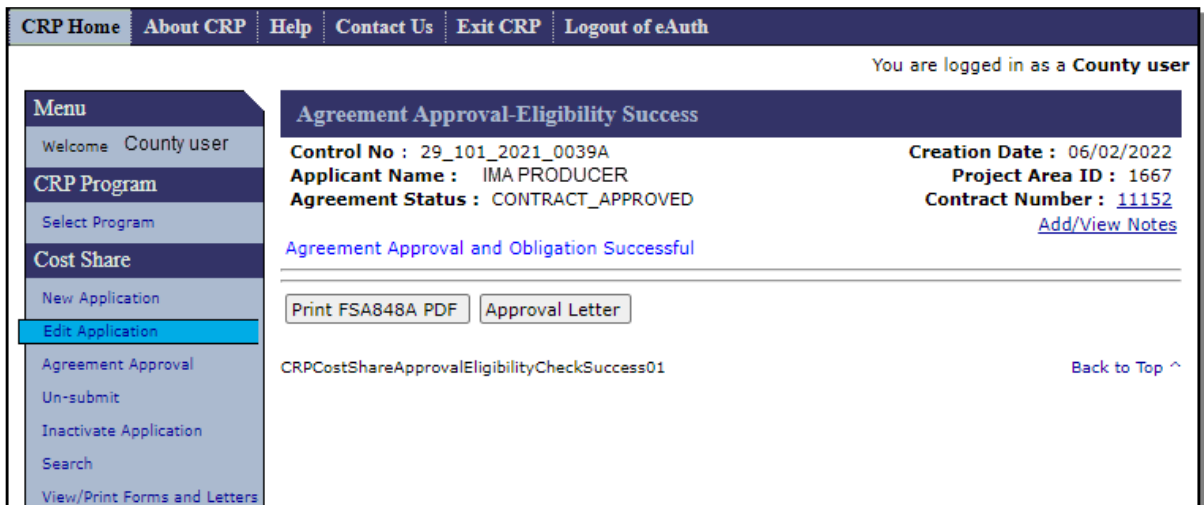

After selecting “Approve” on the Agreement Approval – Eligibility Information Screen, the Agreement Approval – Eligibility Success Screen will be displayed.

Obligation process will run to update obligation. Agreements originally obligated through eFMS will obligate and agreements originally obligated through COF will show as in process.

Users shall generate and mail the approval letter along with a copy of the COC/CED signed FSA-848A. If the agreement is obligated through COF, the approval letter can be printed from the “View/Print Forms and Letters” option under Cost Share or the “Search” option under Agreement Maintenance on the left navigation menu.

B Examples of Agreement Approval – Eligibility Success Screen

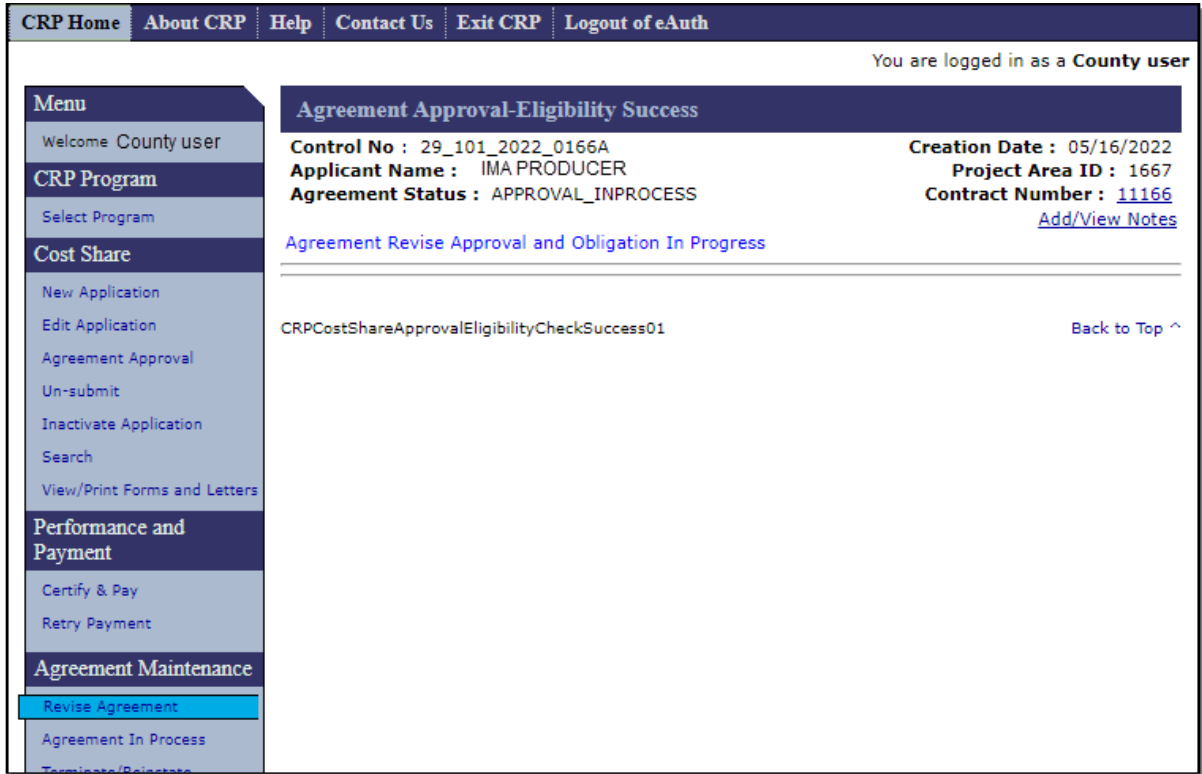

The following is an example of the Agreement Approval – Eligibility Success Screen when obligation is through eFMS.

228 Revise Agreement (Finalize) – Eligibility Success (Continued)

B Examples of Agreement Approval – Eligibility Success Screen (Continued)

The following is an example of the Agreement Approval – Eligibility Success Screen when obligation is through COF.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Approval – Eligibility Success Screen.

Field/Link	Description/Action
Print FSA-848A PDF	Print A-848A, Cost-Share Agreement.
Approval Letter	Print approval letter.

229-239 (Reserved)

Section 4 Agreement in Process

240 Edit Contract

A Overview

An agreement in process is an agreement where a revision has been started, but the revised agreement (referred to as the successor agreement) has not yet been submitted to COC/CED. To edit an agreement in process, from the CRP Home Screen, CLICK “Agreement in Process” from the left navigation menu. The Edit Contract Screen is displayed.

The Edit Contract Screen contains a list of all agreements where a revision has been started, but the revision has not been designated submitted for COC approval.

The agreement being revised (referred to as the predecessor agreement) is displayed with a status of “Active_Revise”. The successor agreement for the incomplete revision is displayed with the same agreement number and the next available suffix.

For revisions:

- on the revise path, the status of the successor agreement will be “Revise_In_Process” and is displayed on the “Edit Contract” Screen
- progressing down the finalize path, the status of the successor agreement will be “Incomplete” and will not be displayed on the Edit Contract Screen. Users will find the successor agreement through the Application Search. See [Part 3 Section 6](#) for additional information.

Note: Terminated agreements in the process of being reinstated are also processed through the Revise Agreement process after the user answers “Yes” to the question “Do you wish to reinstate this agreement?” on the Agreement Maintenance – Reinstatement Agreement Screen. See [paragraph 258](#). Agreements that are being reinstated do not have a partner contract on the Edit Contract Screen.

240 Edit Contract (Continued)

240 Edit Contract (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Edit Contract Screen.

Field/Link	Description/Action
Agreement Number	Displays the agreement number.
Applicant Name	Displays the applicant’s name.
Agreement Status	Displays the current status of the agreement.
State-County	Displays the State and County of the agreement.
Date Revision Began	Displays either the date the agreement was created or the date a revision was initiated.
Approval Date	Displays the approval date.
Links	<p>CLICK:</p> <ul style="list-style-type: none"> • “PDF” to generate a copy of the FSA-848B for the contract being revised <p>Note: If more than one payment has been issued on the agreement only payment information for the last payment is displayed in items 12, 13, and 17.</p> <ul style="list-style-type: none"> • “Edit” and the Agreement Signup – Applicant Information Screen will be displayed <p>Note: Follow instructions in Part 5, Section 2, to complete the revision.</p> <ul style="list-style-type: none"> • “Cancel-Revision” to discard the current revision and return the previous agreement to its prior status <p>Note: The Agreement Maintenance – Cancel Revision Screen is displayed. See paragraph 241.</p> <ul style="list-style-type: none"> • “Cancel-Reinstate” to discard the current reinstatement. <p>Note: The agreement returns to its status of “Terminate Contract”. The Agreement Maintenance – Cancel Reinstate Screen is displayed. See paragraph 243.</p>
Back to Main Menu	The Application Signup Screen is displayed. The Application Signup Screen is a blank screen that instructs the user to use the left navigation menu to select a task.

241 Agreement Maintenance – Cancel Revision

A Overview

The Cancel-Revision link is available when the user selects the agreement being revised from the applicable process under the Agreement Maintenance header in the left navigation menu. The Cancel Revision link moves with the agreement as the agreement progresses through the Agreement in Process, Submit to COC/CED, and COC/CED Approval processes. Although the agreement being revised can be located using the Application Search or Agreement Search processes, the Cancel-Revision link is not available from the search results. The following table describes where to find the Cancel Revision Link:

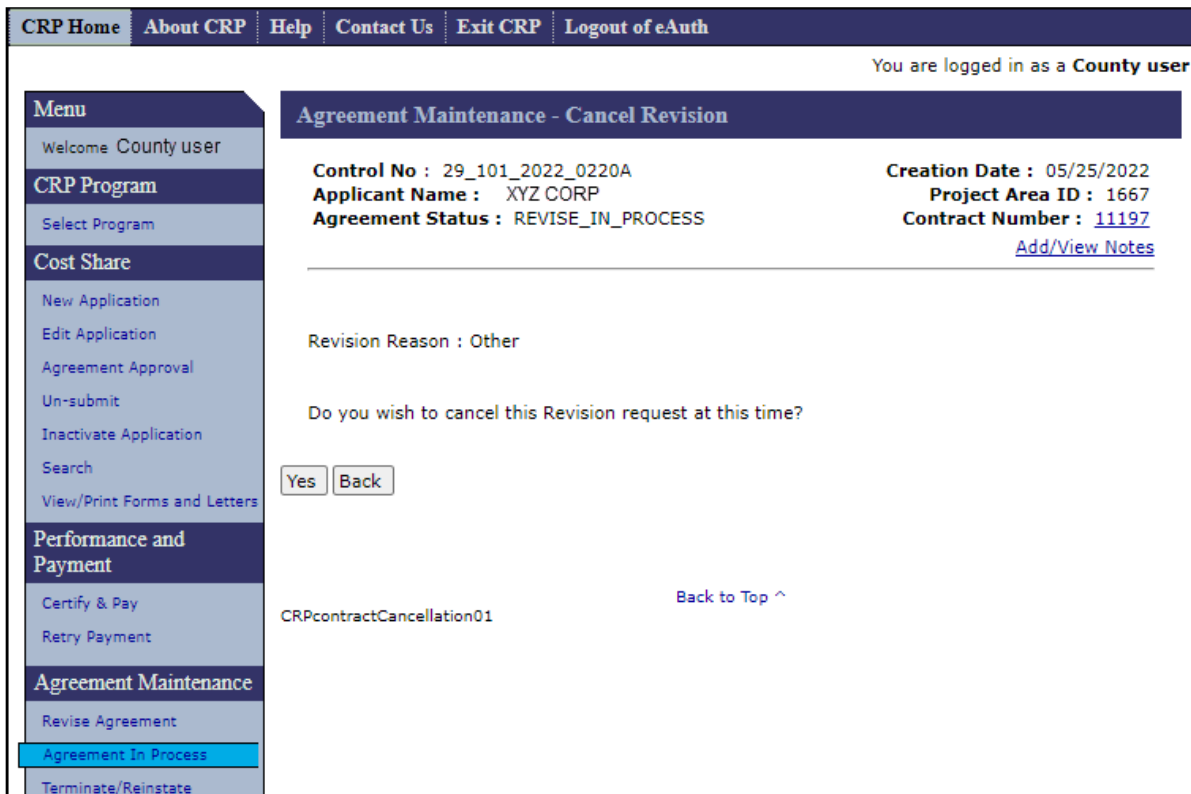

Agreement Status	Access Cancel Revision Process
Revise in Process	CLICK “ Agreement In Process ” from left navigation menu, then; CLICK “ Cancel Revision ” in the Link column.
Revise Complete	CLICK “ Submit to COC/CED ” from left navigation menu, then; CLICK “ Cancel Revision ” in the Link column.
Revise COC	CLICK “ COC/CED Approval ” from left navigation menu, then; CLICK “ Cancel Revision ” in the Link column.

After Cancel-Revision is selected from the applicable Screen, the Agreement Maintenance – Cancel Revision Screen is displayed.

241 Agreement Maintenance – Cancel Revision (Continued)

B Example of Agreement Maintenance – Cancel Revision Screen

The following is an example of the Agreement Maintenance – Cancel Revision Screen.

C Fields, Descriptions, and Actions

The following table provides the field descriptions and actions for the Agreement Maintenance – Cancel Revision Screen.

Field/Link	Description/Action
Yes	Cancellation of the revision will be completed. The Agreement Maintenance – Cancellation (Revision) Screen is displayed. See paragraph 242 for additional information.
Back	The Edit Contract Screen is displayed. Note: If the “Cancel Revision” link was accessed from the Submit to COC/CED or COC/CED Approval Screens, then “Back” will return the user to those Screens.

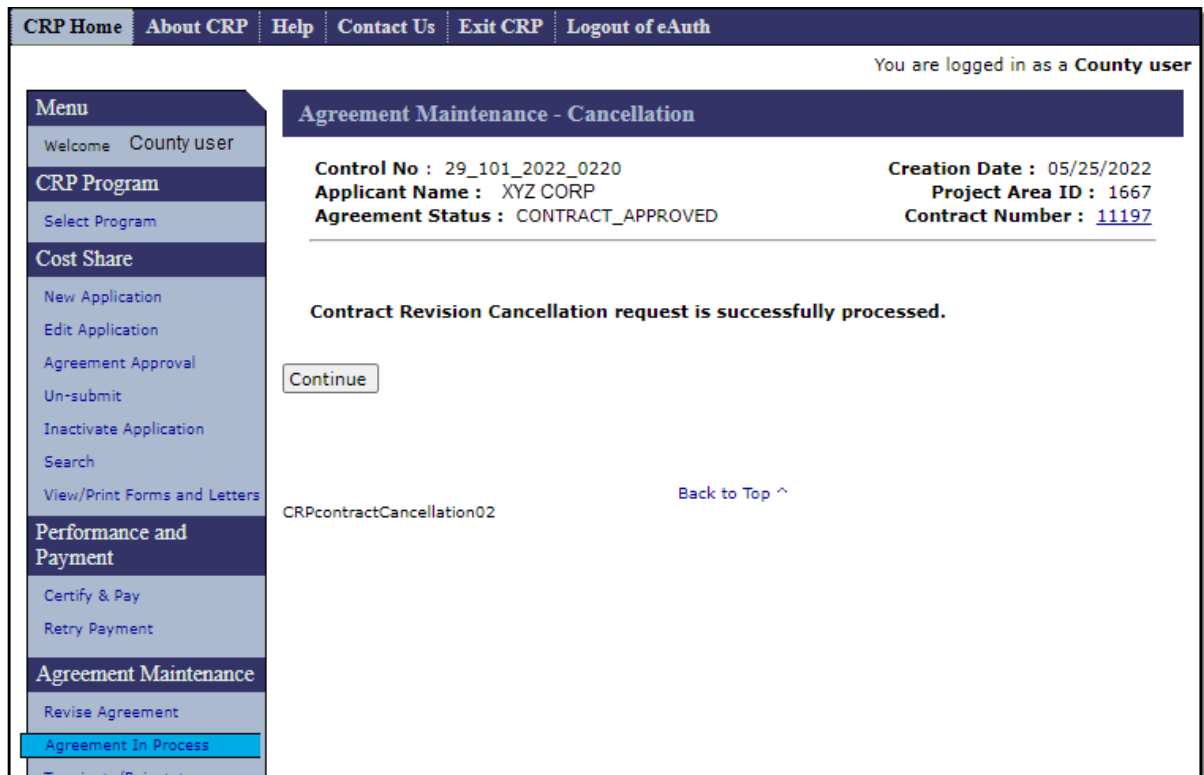

242 Agreement Maintenance – Cancellation (Revision)

A Overview

After “Yes” is selected on the Agreement Maintenance – Cancel Revision Screen, the Agreement Maintenance – Cancellation (Revision) Screen is displayed.

B Example of Agreement Maintenance – Cancellation (Revision) Screen

The following is an example of the Agreement Maintenance – Cancellation (Revision) Screen.

C Action

Click “Continue”. Depending on which Screen the user accessed the “Cancel Revision” link from, the Edit Contract, Submit to COC/CED, or COC/CED Approval Screen is displayed. User is returned to the screen from which they accessed the “Cancel Revision” link after clicking “Continue”.

The revision that was cancelled and its partner “Active Revise” status contract will no longer be displayed in the list of Agreements in Process. The status of the contract that was being revised has been reverted to its previous status.

243 Agreement Maintenance – Cancel Reinstatement

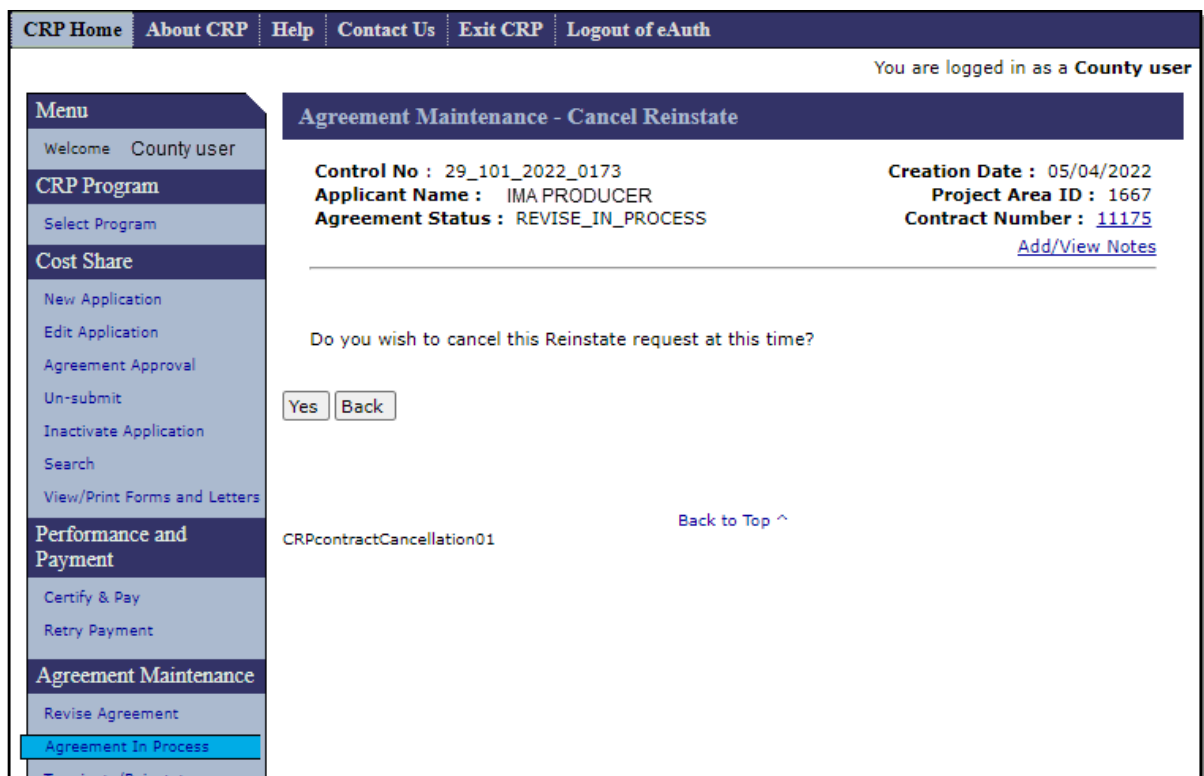

A Overview

The Cancel-Reinstatement link is only available when the user selects the “Agreement in Process” link under the Agreement Maintenance header in the left navigation menu to display the Edit Contract Screen. Although the agreement being reinstated can be located using the Application Search or Agreement Search processes, the Cancel-Reinstatement link is not available from the search results. After Cancel-Reinstatement is selected from the Edit Contract Screen, the Agreement Maintenance – Cancel Reinstatement Screen will be displayed.

Note: Agreements that are being reinstated may contain a “Cancel Revision” link instead of a “Cancel Reinstatement” link. Agreements without an alphabetical suffix in the agreement number will have a “Cancel Revision” link in the “Links” column, while agreements containing an alphabetical suffix in the agreement number will have a “Cancel Reinstatement” link in the “Links” column. Regardless of the specific link, the functionality for cancelling a reinstatement is the same.

B Example of Agreement Maintenance – Cancel Reinstatement Screen

The following is an example of the Agreement Maintenance – Cancel Reinstatement Screen.

243 Agreement Maintenance – Cancel Reinstate (Continued)**C Fields, Descriptions, and Actions**

The following table provides the field descriptions and actions for the Agreement Maintenance – Cancel Reinstate Screen.

Field/Link	Description/Action
Yes	Cancellation of the reinstatement will be completed. The Agreement Maintenance – Cancellation (Reinstate) Screen is displayed. See paragraph 244 for additional information.
Back	The Edit Contract Screen is displayed.

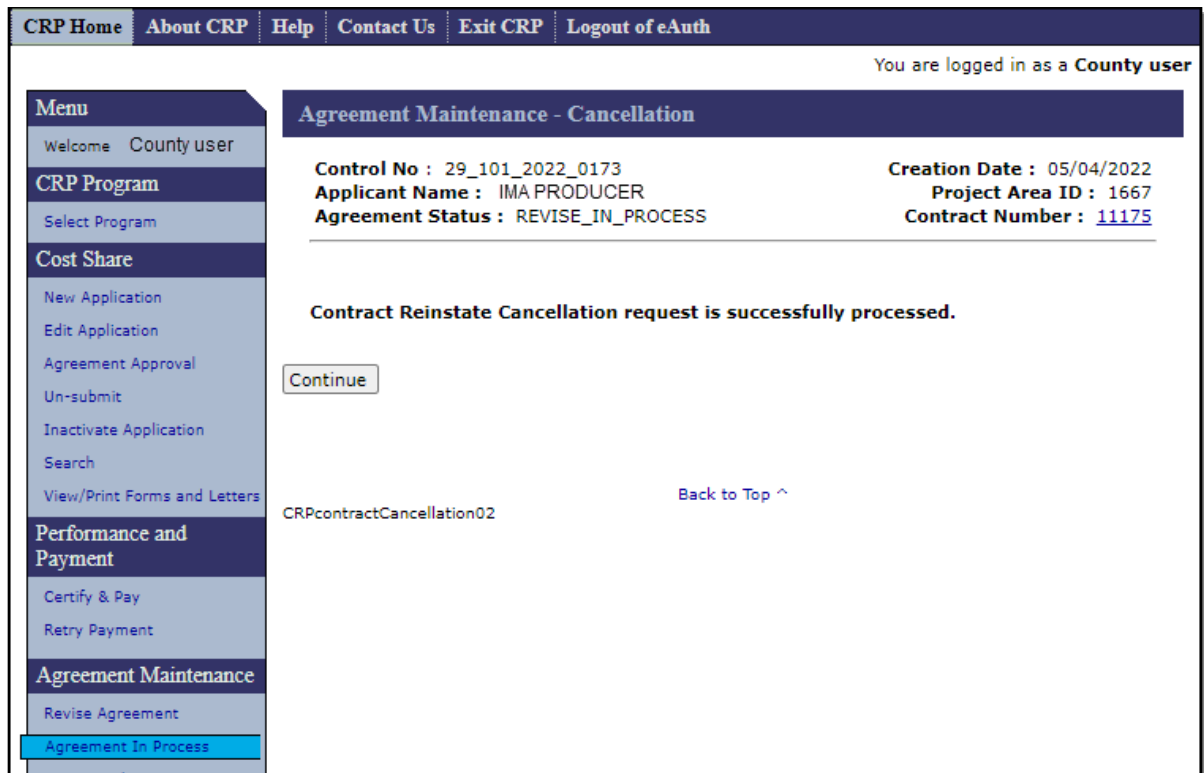

244 Agreement Maintenance – Cancellation (Reinstate)

A Overview

After “Yes” is selected on the Agreement Maintenance – Cancel Reinstate Screen, the Agreement Maintenance – Cancellation (Reinstate) Screen is displayed.

B Example of Agreement Maintenance – Cancellation (Reinstate) Screen

The following is an example of the Agreement Maintenance – Cancellation (Reinstate) Screen.

C Action

CLICK “Continue”. The Edit Contract Screen is displayed.

The contract that was being reinstated will no longer be displayed in the list of Agreements in Process. The status of the contract that was being reinstated is returned to “Terminate Contract”.

245-249 (Reserved)

Section 5 Terminate/Reinstate Agreement

250 Terminate Contract

A Overview

The user can, CLICK “Terminate/ Reinstate Contract” on the left navigation menu. The Terminate Contract Screen will be displayed. Unless there are very few contracts in the county this is not an efficient way to begin the terminate process.

The most efficient way to locate the desired agreement to be terminated or reinstated is to use the Agreement Search link, located at the bottom of the left navigation menu under the Agreement Maintenance header, and search by agreement number.

B Example of Terminate Contract Screen

The following is an example of the Terminate Contract Screen.

The screenshot shows the 'Terminate Contract' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. Below this, a message states 'You are logged in as a County user'. On the left, a 'Menu' sidebar is visible, with 'Terminate/Reinstate Agreement' highlighted. The main content area is titled 'Terminate Contract' and displays a table of 'Agreement results'. The table has the following data:

Agreement Number	Applicant Name	Agreement Status	State County	Date Revision Began	Approval Date	Links
29_101_2022_0225A	XYZ CORP	PARTIALLY_EARNED	Missouri - Johnson	06/06/2022	06/06/2022	Terminate PDF

Below the table, there is a 'Back To Main Menu' button and a 'Back to Top' link. The page also shows pagination controls at the top right of the table area, including '<< <Prev 20 21 22 23 24'.

250 Terminate Contract (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Edit Contract Screen.

Field/Link	Description/Action
Agreement Number	Displays the agreement number.
Applicant Name	Displays the applicant’s name.
Agreement Status	Displays the current status of the agreement.
State-County	Displays the State and County of the agreement.
Date Revision Began	Displays either the date the agreement was created or the date a revision was initiated.
Approval Date	Displays the approval date.
Links	<p>CLICK:</p> <ul style="list-style-type: none"> • “PDF” to generate a copy of FSA-848B for the agreement • “Terminate” and the Agreement Maintenance – Terminate Agreement Reason Screen is displayed (paragraph 251) <p>Note: If a termination of an agreement was started but COC/CED approval has not been entered, the user can access the agreement under COC/CED Approval on the left navigation menu.</p> <ul style="list-style-type: none"> • “Reinstate” to reinstate a terminated agreement. <p>Note: The Agreement Maintenance – Reinstate Agreement Screen is displayed (paragraph 258).</p>
Back to Main Menu	The Application Signup Screen is displayed. The Application Signup Screen is a blank screen that instructs the user to use the left navigation menu to select a task.

251 Agreement Maintenance – Terminate Agreement Reason

A Overview

After clicking “Terminate” on the Terminate Contract Screen, the Agreement Maintenance – Terminate Agreement Reason Screen is displayed.

B Example of Agreement Maintenance – Terminate Agreement Reason Screen

The following is an example of the Agreement Maintenance – Terminate Agreement Reason Screen.

The screenshot displays the 'Agreement Maintenance - Terminate Agreement' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user notification indicates 'You are logged in as a County user'. The left sidebar contains a 'Menu' with options like 'Welcome County user', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The 'Agreement Maintenance' section is expanded, showing 'Terminate/Reinstate Agreement' as the active option.

The main content area features a title bar 'Agreement Maintenance - Terminate Agreement'. Below it, application details are listed: Control No : 29_101_2022_0220, Applicant Name : IMA PRODUCER, Agreement Status : CONTRACT_APPROVED, Creation Date : 05/25/2022, Project Area ID : 1667, and Contract Number : 11197. A link 'Add/View Notes' is provided for the contract number.

A section titled 'Below is the list of practices and their cost share information of an application.' contains a 'Practices Summary' table:

Practice Control Number	Program Code	Practice Code	Total CostShare Approved Amount (\$)	CostShare Earned (\$)
29-101-2022-0220-01-CP9	CRP	CP9	\$875.00	\$

Below the table, there is a field for '* Termination Reason : Select Termination' with a dropdown arrow. At the bottom of the main content area, there are 'Continue' and 'Back' buttons, and a 'Back to Top ^' link.

251 Agreement Maintenance – Terminate Agreement Reason (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance – Terminate Agreement Reason Screen.

Field/Link	Description/Action
Practices Summary fields	Displays the Practice Control Number, Program Code, Practice Code, Total CostShare Approved Amount (\$), and CostShare Earned (\$).
Termination Reason	Select from the drop-down menu one of the following reasons the agreement is being terminated: <ul style="list-style-type: none"> • Acreage due to CLU certification • Reconstitution • Participant and/or Shares • Acres transferred to EWRP, WRP, EWP • Contract Extension • Mid-Contract Management • Due to Conservation Plan • Due to Incorrect Data Entry • Due to Inheritance • Other.
Continue	The Agreement Maintenance – Terminate Agreement Confirmation Screen will be displayed. See paragraph 252 for additional information.
Back	The Terminate Contract Screen is displayed.

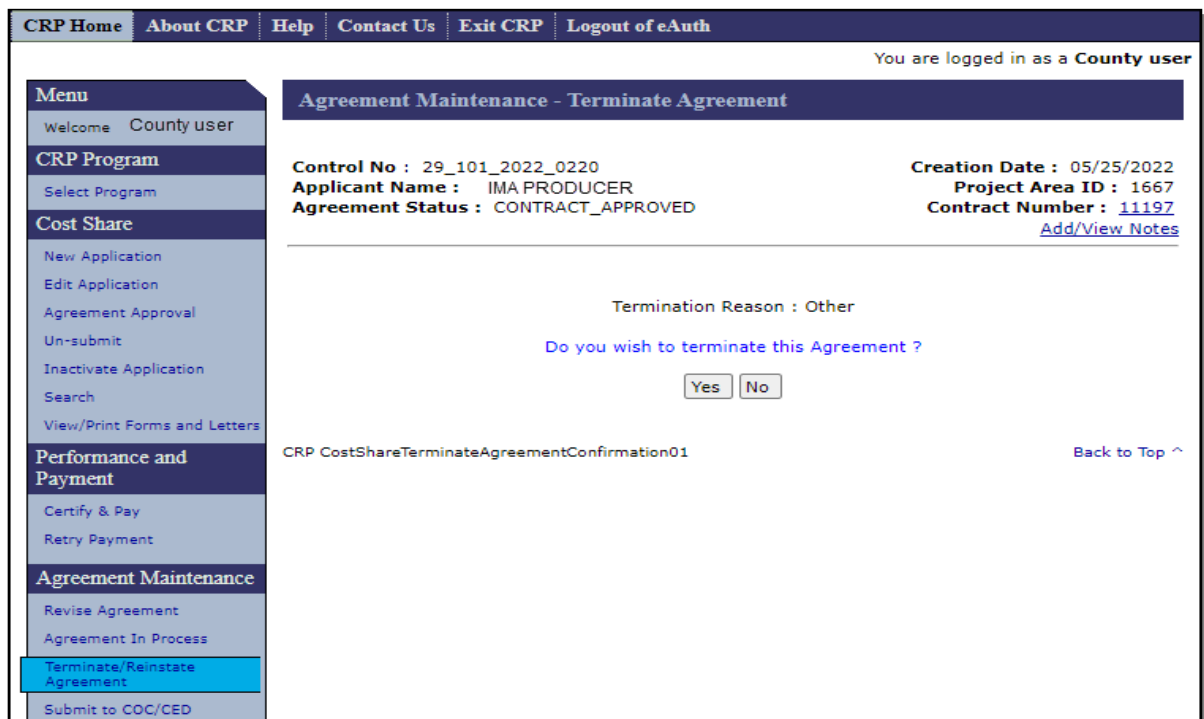

252 Agreement Maintenance – Terminate Agreement Confirmation

A Overview

After clicking “Continue” on the Agreement Maintenance – Terminate Agreement Reason Screen, the Agreement Maintenance - Terminate Agreement Confirmation Screen is displayed.

B Example of Agreement Maintenance – Terminate Agreement Confirmation Screen

The following is an example of the Agreement Maintenance – Terminate Agreement Confirmation Screen.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance – Terminate Agreement Confirmation Screen.

Field/Button	Description
Termination Reason	Displays the reason the termination is being processed.
Yes	The Agreement Maintenance – Terminate Complete Screen is displayed. See paragraph 253 for additional information.
No	The Terminate Contract Screen is displayed. See paragraph 250 .

253 Agreement Maintenance – Terminate Complete

A Overview

After selecting “Yes” on the Agreement Maintenance –Terminate Agreement Confirmation Screen, the Agreement Maintenance - Terminate Complete Screen is displayed.

B Example of Agreement Maintenance – Terminate Complete Screen

The following is an example of the Agreement Maintenance – Terminate Complete Screen.

Menu	Agreement Maintenance - Terminate Complete

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance – Terminate Complete Screen.

Field/Button	Description
Continue to COC/CED Approval	The Agreement Maintenance: Agreement Approval Screen is displayed. See paragraph 254 for additional information.
Cancel	<p>The Terminate Contract Screen is displayed. See paragraph 250 for additional information.</p> <p>Note: The agreement being terminated will no longer be displayed on the Terminate Contract Screen. The contract being terminated can now be located by selecting “COC/CED Approval” under the Agreement Maintenance header in the left navigation menu, or by using the Agreement Search option.</p>

254 Agreement Maintenance – Agreement Approval

A Overview

After clicking “Continue to COC/CED Approval” on the Agreement Maintenance – Terminate Complete Screen, the Agreement Maintenance: Agreement Approval Screen is displayed.

B Example of Agreement Maintenance: Agreement Approval Screen

The following is an example of the Agreement Maintenance: Agreement Approval Screen.

The screenshot displays the 'Agreement Maintenance: Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area includes the following details:

- Control No :** 29_101_2022_0283A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** TERMINATE_COC
- Creation Date :** 09/02/2022
- Project Area ID :** 1667
- Contract Number :** 11200

Below the details is a section titled 'Below is the list of practices associated with the application.' with a note: 'All required fields are denoted by an asterisk{*}'. A table titled 'Practice Summary' follows:

Practice Control Number	Process State	Requested Costshare(\$)	Approved Costshare(\$)
29-101-2022-0283-02-CP22	EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete	\$956.00	\$956.00

At the bottom of the screen, there is a field for '* Terminate COC/CED Approval Date. (MM/DD/YYYY) : ' with a calendar icon. Below this are 'Continue' and 'Back' buttons. The footer shows the URL 'CRPCostShareCOCContractApprove01' and a 'Back to Top ^' link.

254 Agreement Maintenance – Agreement Approval (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance: Agreement Approval Screen.

Field/Link	Description/Action
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
Terminate COC/CED Approval Date	Enter the date the COC/CED approves the termination.
Continue	Terminate COC /CED Approval Date must be entered before selecting “Continue”. After selecting “Continue” the Agreement Maintenance: Agreement Approval Confirmation Screen is displayed. See paragraph 255 .
Back	The “Back” option is not enabled on this screen.

255 Agreement Maintenance – Agreement Approval Confirmation

A Overview

After clicking “Continue” on the Agreement Maintenance: Agreement Approval Screen, the Agreement Maintenance: Agreement Approval Confirmation Screen will be displayed.

B Example of Agreement Maintenance: Agreement Approval Confirmation Screen

The following is an example of the Agreement Maintenance: Agreement Approval Confirmation Screen.

The screenshot displays the 'Agreement Maintenance: Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user notification indicates 'You are logged in as a County user'. The left sidebar contains a 'Menu' with categories: Welcome County user, CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval, Search), and a search bar.

The main content area is titled 'Agreement Maintenance: Agreement Approval' and displays the following details:

- Control No :** 29_101_2022_0220
- Applicant Name :** IMA PRODUCER
- Agreement Status :** TERMINATE_COC
- Creation Date :** 05/25/2022
- Project Area ID :** 1667
- Contract Number :** [11197](#)

There is a link for [Add/View Notes](#).

Below is the list of practices associated with the application.

Practice Summary			
Practice Control Number	Process State	Requested Costshare(\$)	Approved Costshare(\$)
29-101-2022-01-CP9	EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete	\$875.00	\$875.00

* Terminate COC/CED Approval Date.(MM/DD/YYYY) : [06/02/2022](#)

At the bottom of the main content area, there are 'Continue' and 'Back' buttons. The footer of the page includes the text 'CRPCostShareCOCContractApproveSummary01' and a 'Back to Top ^' link.

255 Agreement Maintenance – Agreement Approval Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance: Agreement Approval Confirmation Screen.

Field/Link	Description/Action
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
Terminate COC/CED Approval Date	Displays the COC/CED approval date entered on the Agreement Maintenance: Agreement Approval Screen.
Continue	The Agreement Maintenance: Terminate Final Screen is displayed. See paragraph 256 for more information.
Back	The Agreement Maintenance: Agreement Approval Screen is displayed. See paragraph 254 .

256 Agreement Maintenance – Terminate Final

A Overview

After clicking “Continue” on the Agreement Maintenance: Agreement Approval Confirmation Screen, the Agreement Maintenance: Terminate Final Screen is displayed.

B Example of Agreement Maintenance: Terminate Final Screen

The following is an example of the Agreement Maintenance: Terminate Final Screen.

The screenshot shows a web application interface for 'Agreement Maintenance: Terminate final'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains categories: Menu (Welcome County user), CRP Program (Select Program), Cost Share (New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters), Performance and Payment (Certify & Pay, Retry Payment), and Agreement Maintenance (Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval). The main content area displays a bullet point: 'CP9 Practice:Amount Obligated: 875.00 .Amount to be Deobligated since Practice/Component is removed: 875.00 Pip Amount Obligated: 875.00 . PipAmount to be Deobligated since Practice/Component is removed: 875.00'. Below this, key information is shown: Control No : 29_101_2022_0220, Applicant Name : IMA PRODUCER, Agreement Status : TERMINATE_COC, Creation Date : 05/25/2022, Project Area ID : 1667, and Contract Number : 11197. A link 'Add/View Notes' is provided. A prompt asks 'Do you wish to Approve the termination of this agreement.' with buttons for 'Reject', 'Approve', and 'Back'. A 'Back to Top' link is also present. The page ID 'CRPTerminateAgreementFinal01' is visible at the bottom.

256 Agreement Maintenance – Terminate Final (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance: Terminate Final Screen.

Field/Link	Description/Action
Reject	Edit Contract Screen is displayed. Agreement status remains “Terminate COC” and the agreement continues to be available under the COC/CED Approval link under the Agreement Maintenance Header in the left navigation menu.
Approve	The Agreement Maintenance – COC/CED Approval Complete Screen is displayed. See paragraph 257 for additional information.
Back	The Agreement Maintenance: Agreement Approval Confirmation Screen is displayed.

Note: The message in blue font advises the user of the amount of funds that will be de-obligated when the termination is completed.

If prior payments have been issued a message notifying the user of amount(s) to be cancelled is displayed, and upon completion of the termination receivables will be created for the cancelled amounts.

257 Agreement Maintenance – COC/CED Approval Complete

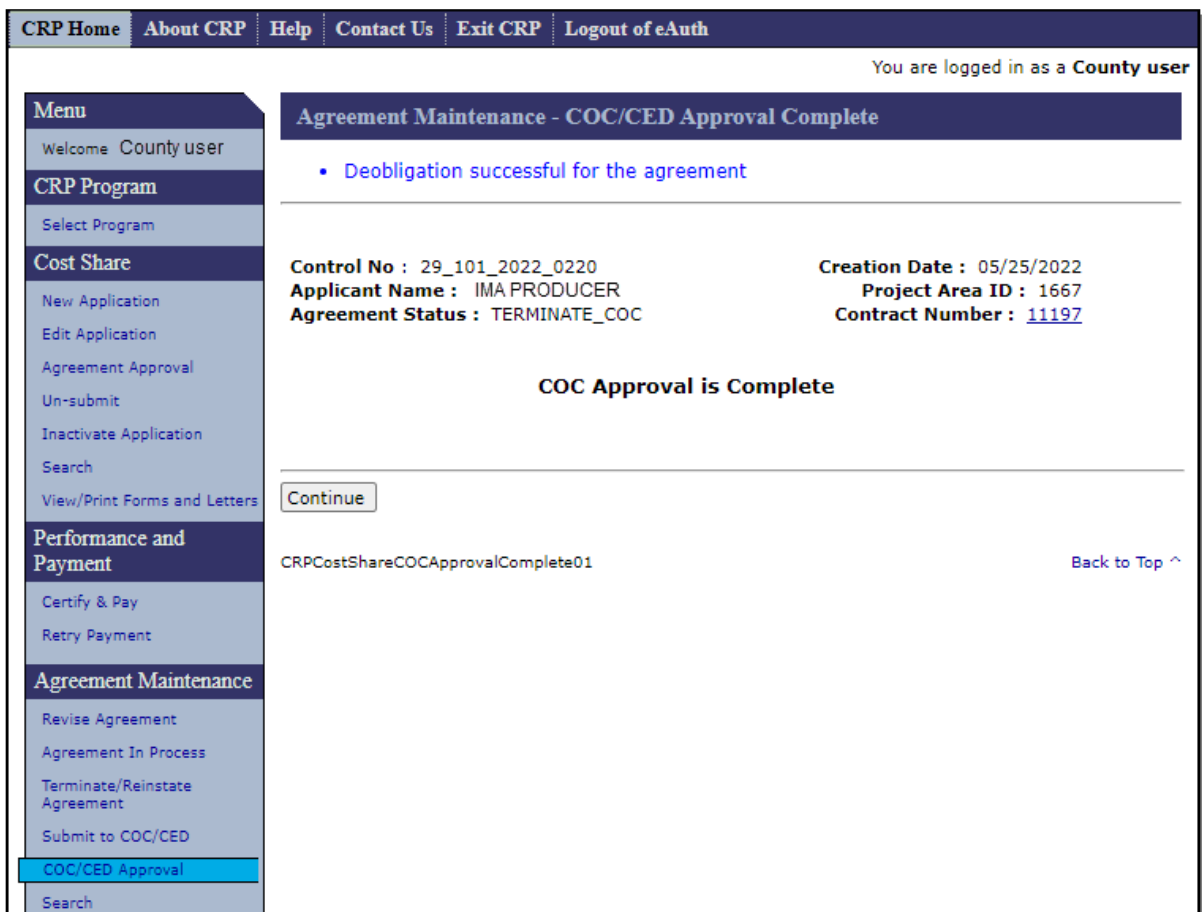

A Overview

After clicking “Approve” on the Agreement Maintenance: Terminate Final Screen, the Agreement Maintenance – COC/CED Approval Complete Screen is displayed.

After a termination has been approved by COC, all funds associated with the agreement will be de-obligated. Receivables will be established if prior payments have been issued (signed in NPS).

B Example of Agreement Maintenance – COC/CED Approval Complete Screen

The following is an example of the Agreement Maintenance – COC/CED Approval Complete Screen.

C Action

CLICK “Continue” to be returned to the COC/CED Approval Screen.

258 Reinstating Agreements

A Overview

After clicking “Reinstate” on the Terminate Contract Screen, the Agreement Maintenance - Reinstate Agreement Screen will be displayed.

B Example of Agreement Maintenance – Reinstate Agreement Screen

The following is an example of the Agreement Maintenance – Reinstate Agreement Screen.

The screenshot displays the 'Agreement Maintenance - Reinstate Agreement' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The left sidebar menu includes sections for 'Menu', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The 'Agreement Maintenance' section is expanded, showing options like 'Revise Agreement', 'Agreement In Process', 'Terminate/Reinstate Agreement' (highlighted), 'Submit to COC/CED', and 'COC/CED Approval'. The main content area shows the following details:

- Control No :** 29_101_2022_0220
- Creation Date :** 05/25/2022
- Applicant Name :** IMA PRODUCER
- Project Area ID :** 1667
- Agreement Status :** TERMINATE_CONTRACT
- Contract Number :** [11197](#)

Below these details is a link for [Add/View Notes](#). The main content area also displays 'Termination Reason : Other' and a confirmation question: 'Do you wish to reinstate this Agreement ?' with 'Yes' and 'No' buttons. At the bottom, there is a reference code 'CRPCostShareReinstateAgreementConfirmation01' and a 'Back to Top ^' link.

258 Reinstating Agreements (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance – Reinstatement Agreement Screen.

Field/Button	Description/Action
Termination Reason	Displays the reason the agreement was terminated.
Yes	The agreement status is changed to “Revise in Process”. The Agreement Maintenance – Reinstatement Agreement Complete Screen is displayed. See paragraph 259 for additional information.
No	The agreement will remain in a terminated status. The Terminate Contract Screen is displayed. See paragraph 250 for additional information.

259 Agreement Maintenance – Reinstatement Complete

A Overview

After “Yes” is selected on the Agreement Maintenance – Reinstatement Agreement Screen, the Agreement Maintenance – Reinstatement Agreement Complete Screen will be displayed.

Note: The “Re-instate of agreement complete” message does not mean that the agreement has been returned to “Contract Approved” status. The agreement must be taken through the agreement revision process to facilitate COC/CED approval of the reinstatement. See Subparagraph C for additional required actions.

B Example of Agreement Maintenance – Reinstatement Agreement Complete Screen

The following is an example of the Agreement Maintenance – Reinstatement Agreement Complete Screen.

The screenshot displays a web application interface for Agreement Maintenance. At the top, a dark blue navigation bar contains links for CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user status indicator on the right states "You are logged in as a County user".

The left sidebar features a "Menu" section with the following items: Welcome County user, CRP Program (with sub-link Select Program), Cost Share (with sub-links New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, and View/Print Forms and Letters), Performance and Payment (with sub-links Certify & Pay and Retry Payment), Agreement Maintenance (with sub-links Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, and Submit to COC/CED), and a highlighted "Terminate/Reinstate Agreement" option.

The main content area is titled "Agreement Maintenance - Reinstatement Agreement Complete". It displays the following information:

- Control No : 29_101_2022_0220
- Applicant Name : IMA PRODUCER
- Agreement Status : REVISE_IN_PROCESS
- Creation Date : 05/25/2022
- Project Area ID : 1667
- Contract Number : [11197](#)

The central message reads "Re-instate of agreement complete." Below this message is a "Continue" button. At the bottom of the page, the text "CRPCostShareReinstateComplete01" is visible on the left, and a "Back to Top" link with an upward arrow is on the right.

259 Agreement Maintenance – Reinstatement Agreement Complete (Continued)**C Action**

Selecting “Continue” returns the user to the Terminate Contract Screen.

Important: Additional steps are needed to return the agreement to “Contract Approved” status. To complete the process, SELECT “Agreement in Process” in the left navigation menu under the Agreement Maintenance Header. The agreement being reinstated will display in the list of available agreements with a status of “Revise in Process”. See [paragraph 240](#) for steps to access the agreement, [Section 2](#) to navigate through the revision process, [Section 6](#) to submit to COC/CED, and [Section 7](#) to enter COC/CED approval of the agreement reinstatement.

260-269 (Reserved)

Section 6 Submit to COC/CED

270 Submit to COC/CED

A Overview

To submit a revised agreement to COC/CED, from the CRP Home Screen, CLICK “Submit to COC/CED” on the left navigation menu.

B Example of Submit to COC/CED Screen

The following is an example of the Submit to COC/CED Screen.

Note: Additional page numbers may be displayed at the top and bottom of the page when all search results do not fit on a single page.

The screenshot shows the CRP Home interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. Below this, it states "You are logged in as a County user".

On the left is a vertical menu with the following categories and items:

- Menu**: Welcome County user
- CRP Program**: Select Program
- Cost Share**: New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, View/Print Forms and Letters
- Performance and Payment**: Certify & Pay, Retry Payment
- Agreement Maintenance**: Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, **Submit to COC/CED** (highlighted), COC/CED Approval, Search

The main content area is titled "Submit To COC/CED" and contains a table of "Agreement results":

<u>Agreement Number</u>	<u>Applicant Name</u>	<u>Agreement Status</u>	<u>State County</u>	<u>Date Revision Began</u>	<u>Approval Date</u>	<u>Links</u>
29_101_2017_0076	ABC FARMS	REVISE_COMPLETE	Missouri - Johnson	06/07/2017	09/18/2017	Submit to COC/CED , Cancel-Revision PDF
29_101_2020_0054A	XYZ CORP	REVISE_COMPLETE	Missouri - Johnson	09/10/2020		Submit to COC/CED , Cancel-Revision PDF
29_101_2022_0118A	IMA PRODUCER	REVISE_COMPLETE	Missouri - Johnson	05/24/2022		Submit to COC/CED , Cancel-Revision PDF

Below the table, there is a "Back To Main Menu" button and the text "CRPCostShareContracts1". At the bottom right, there is a "Back to Top" link with an upward arrow.

270 Submit to COC/CED (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions on the Submit to COC/CED Screen.

Field/Button	Description/Action
Agreement Number	Displays the agreement number.
Applicant Name	Displays the applicant’s name.
Agreement Status	Displays the current status of the agreement.
State-County	Displays the State and County of the agreement.
Date Revision Began	Displays the date the agreement was created, or date revision began. If there is a revision, the predecessor agreement and successor agreement are assigned the same date.
Approval Date	Displays the approval date.
Links	<p>CLICK:</p> <ul style="list-style-type: none"> • “Submit to COC/CED” to display the Agreement Maintenance – Submit to COC/CED Screen (paragraph 271) • “Cancel-Revision” to cancel the revision <p>Note: The Agreement Maintenance – Cancel Revision Screen is displayed. See paragraph 241.</p> <ul style="list-style-type: none"> • “PDF” to generate FSA-848B, Cost-Share Performance Certification and Payment, for printing.
Back to Main Menu	The Application Signup Screen will be displayed. The Application Signup Screen is a blank screen that instructs the user to use the left navigation menu to select a task.

271 Agreement Maintenance – Submit to COC/CED

A Overview

After Submit to COC/CED is selected from the Submit to COC/CED Screen, the Agreement Maintenance - Submit to COC/CED Screen is displayed.

B Example of Agreement Maintenance - Submit to COC/CED Screen

The following is an example of the Agreement Maintenance – Submit to COC/CED Screen.

281 Agreement Maintenance – Check ID

A Overview

The Agreement Maintenance – Check ID Screen is displayed when “Approve-Revise” or “Approve Terminate” is selected from the COC/CED Approval Screen.

Note: Screens for agreement revisions and agreement termination are the same in paragraphs 281 through 283. The only difference being the status of the agreement being revised is “Revise COC” while the status of the agreement being terminated is “Terminate COC”. Examples used in the screens are for an agreement revision.

B Example of Agreement Maintenance – Check ID

The following is an example of the Agreement Maintenance – Check ID Screen.

The screenshot shows the 'Agreement Maintenance - Check ID' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. On the left is a menu with categories: Menu, CRP Program, Cost Share, Performance and Payment, and Agreement Maintenance. The 'COC/CED Approval' option is highlighted. The main content area displays the following information:

- Control No :** 29_101_2022_0118A
- Applicant Name :** IMA PRODUCER
- Agreement Status :** REVISE_COC
- Creation Date :** 05/24/2022
- Project Area ID :** 1667
- Contract Number :** [11174](#)

Below this information, it states: "Following are the Agreement project area details". A note indicates: "* Project Area ID : Non-Project Area". There is a field for "Description of Site :". At the bottom of this section are "Continue" and "Back" buttons. The screen ID "CRPCheckDisaster01" is visible at the bottom left, and a "Back to Top ^" link is at the bottom right.

281 Agreement Maintenance – Check ID (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance – Check ID Screen.

Field/Link	Description/Action
Project Area ID	Displays the Project Area ID selected.
Description of Site	Displays the entered description of the site.
Continue	The Agreement Maintenance: Agreement Approval Screen is displayed. See paragraph 282 for additional information.
Back	The COC/CED Approval Screen is displayed.

282 Agreement Maintenance – Agreement Approval

A Overview

The Agreement Maintenance: Agreement Approval Screen is displayed when “Continue” is selected from the Agreement Maintenance – Check ID Screen.

B Example of Agreement Maintenance: Agreement Approval Screen

The following is an example of the Agreement Maintenance: Agreement Approval Screen.

The screenshot displays the 'Agreement Maintenance: Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area includes a 'Menu' on the left with options like 'Welcome County user', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The 'COC/CED Approval' option is highlighted. The main content area shows application details: Control No: 29_101_2020_0180A, Applicant Name: IMA PRODUCER, Agreement Status: REVISE_COC, Creation Date: 10/14/2020, Project Area ID: 1667, and Contract Number: 11127. Below this is a table titled 'Practice Summary' with columns for Practice Control Number, Process State, Requested Costshare(\$), and Approved Costshare(\$). The table contains one row with the following data: Practice Control Number: 29-101-2020-0180-01-CP23, Process State: EnvironmentCompliance_UnNeeded, ProducerCertification_Incomplete, TSPCertification_Incomplete, Requested Costshare(\$): \$292575.00, and Approved Costshare(\$): \$95525.00. There is also a field for '* Revised COC/CED Approval Date of CRP-1 (MM/DD/YYYY) :'. At the bottom, there are 'Continue' and 'Back' buttons, and a 'Back to Top' link.

282 Agreement Maintenance – Agreement Approval (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance: Agreement Approval Screen.

Field/Link	Description/Action
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
Revised COC/CED Approval Date of CRP-1 (MM/DD/YYYY)	Enter date COC/CED approved the revision. Note: Do not enter the approval date of the original CRP-1.
Continue	The Agreement Maintenance: Agreement Approval Confirmation Screen will be displayed.
Back	The Agreement Maintenance – Check ID Screen will be displayed.

283 Agreement Maintenance – Agreement Approval Confirmation

A Overview

The Agreement Maintenance: Agreement Approval Confirmation Screen will be displayed when “Continue” is selected from the Agreement Maintenance: Agreement Approval Screen.

B Example of Agreement Maintenance: Agreement Approval Confirmation Screen

The following is an example of the Agreement Maintenance: Agreement Approval Confirmation Screen.

The screenshot displays the 'Agreement Maintenance: Agreement Approval' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. A left-hand menu contains categories like 'Menu', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance', with 'COC/CED Approval' selected. The main content area shows application details: Control No (29_101_2022_0118A), Applicant Name (IMA PRODUCER), Agreement Status (REVISE_COC), Creation Date (05/24/2022), Project Area ID (1667), and Contract Number (11174). Below this is a table titled 'Practice Summary' with columns for Practice Control Number, Process State, Requested Costshare(\$), and Approved Costshare(\$). The table contains one entry for '29-101-2022-0118-01-CP21' with a process state of 'EnvironmentCompliance_UnNeeded ProducerCertification_Incomplete TSPCertification_Incomplete' and costshare values of \$1379.00. A note indicates a revised COC/CED Approval Date of 06/22/2022. At the bottom, there are 'Continue' and 'Back' buttons, and a 'Back to Top' link.

283 Agreement Maintenance – Agreement Approval Confirmation (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance: Agreement Approval Confirmation Screen.

Field/Link	Description/Action
Practice Summary	
Practice Control Number	Displays the application control number and applicable practice(s).
Process State	Not applicable to CRP.
Requested Costshare(\$)	Displays the dollar amount of cost share requested.
Approved Costshare(\$)	Displays the dollar amount of cost share approved to be obligated.
Revised COC/CED Approval Date of FSA 848A(MM/DD/YYYY)	Displays the COC/CED approval date entered on the Agreement Maintenance: Agreement Approval Screen.
Continue	<p>After all information has been reviewed, CLICK “Continue”.</p> <ul style="list-style-type: none"> • For agreement revisions the Agreement Maintenance – Agreement Approval Eligibility Information Screen will be displayed. See paragraph 284 for additional information. • For agreement terminations the Agreement Maintenance: Terminate Final Screen will be displayed. See paragraph 256 for additional information.
Back	The Agreement Maintenance: Agreement Approval Screen will be displayed.

284 Agreement Maintenance – Agreement Approval Eligibility Information

A Overview

After Continue is selected on the Agreement Maintenance: Agreement Approval Confirmation Screen, the Agreement Maintenance – Agreement Approval Eligibility Information Screen will be displayed.

B Example of Agreement Maintenance – Agreement Approval Eligibility Information Screen

The following is an example of the Agreement Maintenance – Agreement Approval Eligibility Information Screen.

The screenshot displays the 'Agreement Maintenance - Agreement Approval Eligibility Information' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The main content area includes a sidebar menu with categories like Menu, CRP Program, Cost Share, Performance and Payment, and Agreement Maintenance. The 'Agreement Maintenance' section is expanded, showing options like 'Revise Agreement', 'Agreement In Process', 'Terminate/Reinstate Agreement', 'Submit to COC/CED', 'COC/CED Approval', 'Search', and 'Reports'. The 'COC/CED Approval' option is highlighted. The main content area displays application details: Control No: 29_101_2022_0118A, Applicant Name: IMA PRODUCER, Agreement Status: REVISE_COC, Creation Date: 05/24/2022, Project Area ID: 1667, and Contract Number: 11174. Below this, there is a section for 'Program Eligibility' with a table showing 'Nothing found to display.' and an 'Eligibility Flags' table with one entry for 'IMA PRODUCER' with Type '00' and Eligible 'N/A'. At the bottom, there are buttons for 'Reject', 'Approve', and 'Back', and a 'Back to Top' link.

284 Agreement Maintenance – Agreement Approval Eligibility Information (Continued)

C Action

The following table provides the actions for the Agreement Maintenance – Agreement Approval Eligibility Information Screen.

Field/Link	Description/Action
Program Eligibility	Program Eligibility questions are not applicable to CRP. This functionality is for other Cost Share programs.
Eligibility Flags	Displays the Producer(s) and Producer Type. Eligible flag is not applicable to CRP.
Reject	CLICK “Reject” to reject the COC/CED approval and return to the COC/CED Approval Screen. The agreement can now be found under the Agreement in Process link and the user is able to edit or cancel the revision.
Approve	CLICK “Approve” after reviewing the information. The Agreement Maintenance – COC/CED Approval Complete Screen will be displayed.
Back	Back returns to the Agreement Maintenance: Agreement Approval Screen.

285 Agreement Maintenance – COC/CED Approval Complete

A Overview

After clicking “Approve” on the Agreement Maintenance – Agreement Approval Eligibility Information Screen, the Agreement Maintenance – COC/CED Approval Complete Screen will be displayed.

After a revision has been COC approved, the timing of the obligation process will depend on the funding system for the contract. If the Agreement Status is “Contract Approved” the obligation was processed through eFMS. If the Agreement Status shows “Approval In Process” the obligation will be funded through COF.

B Example of COF Agreement Maintenance – COC/CED Approval Complete Screen

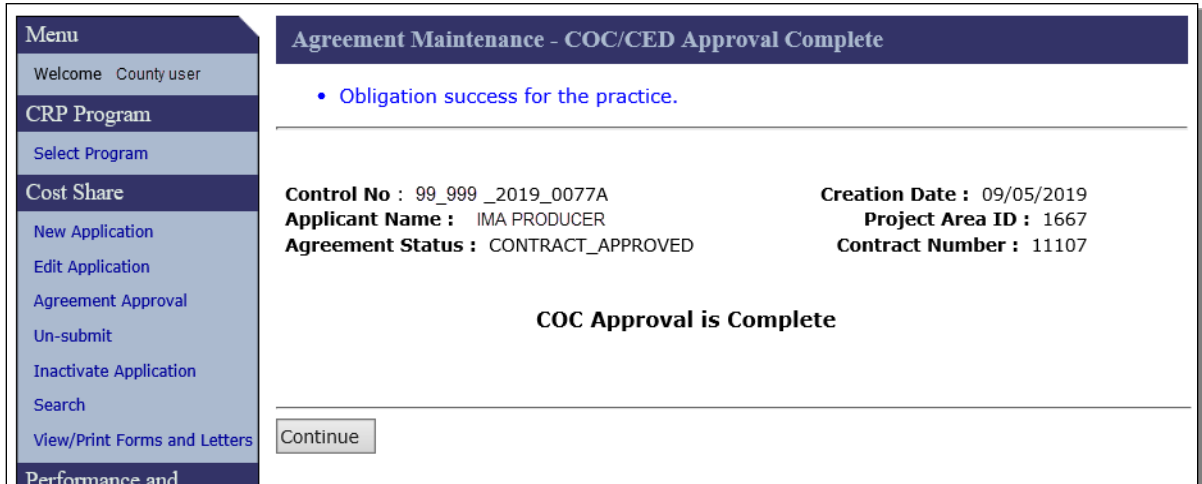

The following is an example of the COF Agreement Maintenance – COC/CED Approval Complete Screen.

The screenshot displays the 'Agreement Maintenance - COC/CED Approval Complete' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user status indicator shows 'You are logged in as a County user'. The main content area is divided into two columns. The left column is a 'Menu' with sections: 'Welcome County user', 'CRP Program' (with 'Select Program' link), 'Cost Share' (with links for New Application, Edit Application, Agreement Approval, Un-submit, Inactivate Application, Search, and View/Print Forms and Letters), 'Performance and Payment' (with links for Certify & Pay and Retry Payment), 'Agreement Maintenance' (with links for Revise Agreement, Agreement In Process, Terminate/Reinstate Agreement, Submit to COC/CED, COC/CED Approval, Search, and Reports), and 'Reports'. The right column features a title bar 'Agreement Maintenance - COC/CED Approval Complete' and application details: Control No : 29_101_2022_0118A, Applicant Name : IMA PRODUCER, Agreement Status : APPROVAL_INPROCESS, Creation Date : 05/24/2022, Project Area ID : 1667, and Contract Number : 11174. Below this, a large message states 'COC Approval is Complete'. A 'Continue' button is present. At the bottom, the page ID 'CRPCostShareCOCApprovalComplete01' and a 'Back to Top ^' link are visible.

285 Agreement Maintenance – COC/CED Approval Complete (Continued)

C Example of eFMS Agreement Maintenance – COC/CED Approval Complete Screen

The following is an example of the eFMS Agreement Maintenance – COC/CED Approval Complete Screen.

D Action

CLICK “Continue” and the COC/CED Approval Screen will be displayed.

286 Agreement Maintenance – Cancel Termination

A Overview

After clicking “Cancel Termination” on the COC/CED Approval Screen the Agreement Maintenance – Cancel Termination Screen will be displayed.

Note: The Cancel Termination process link is only available when the user navigates to the application being terminated by selecting COC/CED Approval under the Agreement Maintenance header in the left navigation menu. Neither Agreement Search results nor Application search results include the Cancel Termination process link.

B Example of Agreement Maintenance – Cancel Termination Screen

The following is an example of the Agreement Maintenance – Cancel Termination Screen.

The screenshot displays the 'Agreement Maintenance - Cancel Termination' screen. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. The user is logged in as a 'County user'. The left sidebar menu includes sections for 'Menu', 'CRP Program', 'Cost Share', 'Performance and Payment', and 'Agreement Maintenance'. The 'COC/CED Approval' option is highlighted. The main content area shows the following details:

- Control No :** 29_101_2022_0220
- Applicant Name :** IMA PRODUCER
- Agreement Status :** TERMINATE_COC
- Creation Date :** 05/25/2022
- Project Area ID :** 1667
- Contract Number :** [11197](#)
- [Add/View Notes](#)

The main content area asks: "Do you wish to cancel this Termination request at this time?" with "Yes" and "Back" buttons.

At the bottom of the main content area, there is a "Back to Top ^" link and the text "CRPcontractCancellation01".

286 Agreement Maintenance – Cancel Termination (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Maintenance – Cancel Termination Screen.

Field/Link	Description/Action
Yes	The Agreement Maintenance – Cancellation (Termination) Screen is displayed.
Back	The COC/CED Approval Screen is displayed.

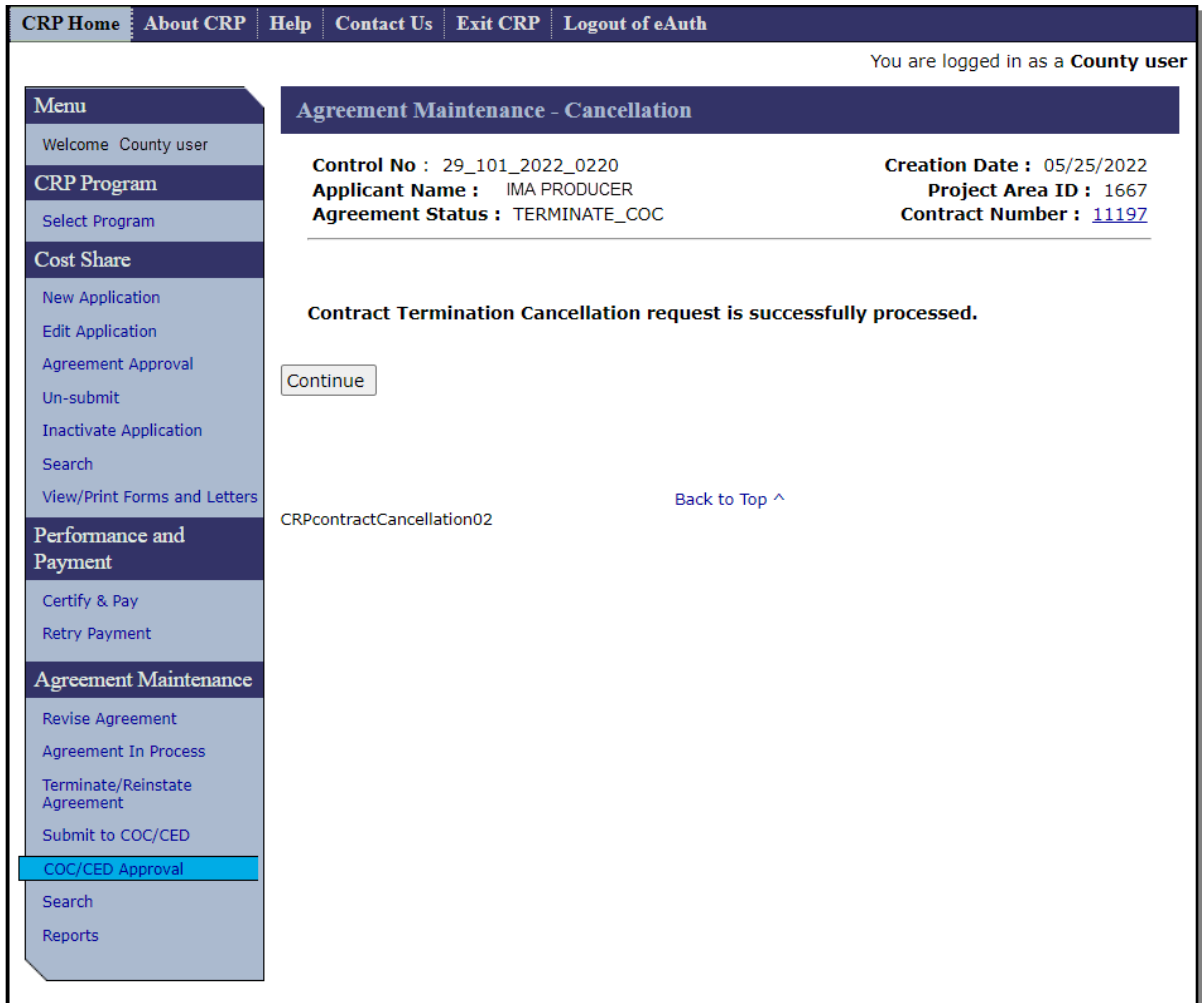

287 Agreement Maintenance – Cancellation (Termination)

A Overview

After clicking “Yes” on the Agreement Maintenance – Cancel Termination Screen, the Agreement Maintenance – Cancellation (Termination) Screen will be displayed.

B Example of Agreement Maintenance – Cancellation (Termination) Screen

The following is an example of the Agreement Maintenance – Cancellation (Termination) Screen.

C Action

CLICK “Continue” and the COC/CED Approval Screen will be displayed.

288-299 (Reserved)

Section 8 Agreement Search

300 Search Agreements

A Overview

To search agreements, from the CRP Home Screen, CLICK “Search” under the Agreement Maintenance header on the left navigation menu. The Search Agreements Screen will be displayed.

Note: The Agreement Search should not be confused with the Application Search that is also found on the left navigation menu but is located under the Cost Share header ([paragraph 100](#)). Although the two searches are similar in their functionality, the Agreement Search does not include applications in the search results. Additionally, records contained in the Agreement Search results often contain additional process links that are not present in the Application Search results.

B Example of Search Agreements Screen

The following is an example of the Search Agreements Screen.

300 Search Agreements (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Search Agreements Screen.

Field/Link	Description	Action
State	Drop-down list containing only the currently selected State.	Select the desired State. State and National users are limited to the State selected during program selection (paragraph 22).
County	Drop-down list containing only the currently selected county.	Select the desired county. State and National users are limited to the county selected during program selection (paragraph 22).
Project Area ID	Drop-down list containing all Project Area ID's associated with the State and county and additional options of "ID Not Assigned" and "Non-Project Area". Defaults to "Select Project Area ID".	Because CRP only has one option, "Non-Project Area", selecting it or leaving the default selection of "Select Project Area ID" will return the same search results.

300 Search Agreements (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description	Action
<p>Agreement Number</p>	<p>Free form data field for entry of a specific agreement number when known.</p>	<p>Type the agreement number of the desired agreement.</p> <p>Notes: It is not necessary to type the full 13-digit agreement number – the last four numerical digits of the agreement (and alphabetical suffix, if applicable) are usually sufficient.</p> <p>It is not necessary to type underscores or dashes in the agreement number. The search ignores special characters such as underscores.</p> <p>When searching by agreement number do not enter search criteria in other search fields except the required State and county fields and optional fiscal year field (if desired). Entry of additional search criteria may unintentionally exclude the desired agreement.</p> <p>Typing the last six numerical digits of the agreement number will limit the search to the desired fiscal year without entering anything in the Fiscal Year search criteria.</p> <p>Example: Typing 170001 as the agreement number in the search screen will return the same results as typing 01_053_2017_0001. The same search results could also be achieved by typing 0001 as the agreement number and selecting 2017 from the drop-down menu for Fiscal Year.</p>

300 Search Agreements (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description	Action
Source Contract Number	Free form data field for entry of a specific source contract number when known.	Type the source contract number of the CRP-1 associated with the desired agreement.
Producer Name	Used to search by name of a known producer who is associated with the desired agreement.	<p>CLICK “Find Producer” to open a new window to conduct a SCIMS Customer Search (11-CM).</p> <p>From within the SCIMS Customer Search Screen type the producer’s last name or business name.</p> <p>Note: Use of the customer’s first name in combination with the last name for individuals further refines and limits the search results.</p> <p>Example: Typing the last name of “Smith” in the SCIMS Customer Search returns all producers in the county with the last name Smith. Adding the first name “John” in the SCIMS Customer Search limits search results to only producers with first and last name “John Smith”.</p>
Fiscal Year	Drop-down menu that allows the user to select the four-digit Fiscal Year in which a cost share application was created as search criteria.	<p>Select the desired Fiscal Year in which the cost share application was created.</p> <p>Use of this search criteria in combination with the four-digit application control number (and alphabetical suffix, if applicable) limits the search results to a specific agreement.</p>

300 Search Agreements (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description	Action
<p>Agreement Status</p>	<p>Drop-down list of specific agreement statuses available for use as search criteria. Defaults to “Select Contract Status”. Selectable agreement statuses include:</p> <ul style="list-style-type: none"> • Active Revise • Active Terminate • Approved • Cancelled • Disapproved • Finalized • Paid • Partially Earned • Revise COC • Revise Complete • Revise Ended • Revise In Process • Terminate COC • Terminate Contract • Terminate Ended. <p>Note: If a specific agreement status from the above list is not designated as search criteria all agreement statuses will be displayed in the search results.</p>	<p>Select the desired agreement status to limit search results to only agreements having that specific status, if desired.</p> <p>Note: See paragraph 302 for a description of Agreement Statuses and process links available in the Links column according to agreement status.</p>
<p>Search</p>	<p>Retrieves information based on the search criteria selected/entered. The Search Results Screen is displayed.</p>	<p>CLICK “Search” to conduct the search according to the selected criteria. The Agreement Search Results Screen is displayed.</p>
<p>Clear</p>	<p>Resets all data entry search criteria fields.</p>	<p>CLICK “Clear” to remove all previously selected search criteria.</p> <p>Note: State and county are not removed as search criteria when clicking “Clear”.</p>

301 Agreement Search Results

A Overview

The Agreement Search Results Screen will be displayed based on the search criteria selected/entered according to [paragraph 300](#).

B Example of Agreement Search Results Screen

The following is an example of the Agreement Search Results Screen. In this example the user did not enter any additional search criteria other than the required criteria of State and county. The example shows only a portion of the search results.

301 Agreement Search Results (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Agreement Search Results Screen.

Field/Link	Description/Action
New Search	Returns the user to the Search Criteria Screen. Previous search criteria are retained. User must revise the search criteria as necessary to change the results of the next search.
Cost Share Agreement Search Results	
Control Number	Click the agreement control number link for the agreement. A “Practice Summary” box is displayed. In this example the user has clicked the agreement control number link for agreement number 29_101_2022_0219. Clicking the agreement control number link again on a record with the Practice Summary displayed closes the Practice Summary.
Applicant Name	Displays the producer selected as the primary applicant on the application.
Agreement Status	Displays the status of the agreement.
State County	Displays the administrative State and County of the application.
Date Created	Displays the date the application was created.
Approval Date	Displays the approval date.
Links	<p>Displays links depending on the status of the agreement. Possible links include:</p> <ul style="list-style-type: none"> • Edit • Revise • Approve-Revise • Terminate • Reinstate • Approve-Terminate • Submit to COC/CED • Manage PIP • Add/View Notes. <p>See paragraph 302 for additional information on the process links that may be available based upon the specific agreement status.</p>

301 Agreement Search Results (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Forms	<p>CLICK:</p> <ul style="list-style-type: none"> • “FSA848” to generate FSA-848, Cost-Share Request, for printing • “FSA848A” to generate FSA-848A, Cost-Share Agreement, for printing • “FSA848B” to generate FSA-848B, Cost-Share Performance Certification and Payment, for printing • “View Certifications” to see the View Existing Certifications Screen. <p>Note: See paragraph 152 for additional information.</p>
Letters	<p>CLICK:</p> <ul style="list-style-type: none"> • “Approval Letter” to generate an approval letter listing the practices approved • “Disapproval Letter” to generate a disapproval letter listing the practices disapproved. Not used for CRP cost share agreements. <p>Note: CRP cost share agreements are created based on practices scheduled on the approved conservation plan for CRP contracts and Disapproval letters are not used. See 2-CRP, paragraph 499.</p>

302 Agreement Search – Process Links by Agreement Status

A Overview

The available Process Links that be displayed in the Links column of the Agreement Search Results vary according to the Agreement Status for the selected record. The table in subparagraph C provides a summary of the potential agreement statuses and the links available for each agreement status. Clicking the process link takes the user directly to the specific process.

B Example of Agreement Search Results Links Column

The following is an example of the Agreement Search Results column headings with the Links Column pointed out by the red arrow. Process links available in the Links column (if any) vary according to the Agreement Status shown for the record.

The screenshot shows a web application interface for 'Agreement Search Results'. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. On the right, it says 'You are logged in as a County user'. A left-hand menu contains sections for 'Menu', 'CRP Program', and 'Cost Share', each with sub-links. The main content area is titled 'Agreement Search Results' and contains the text: 'Below is a list of agreements for the criteria you selected.' followed by a 'New Search' link and 'Your request: State=Missouri, County=Johnson'. Below this is a table titled 'Cost Share Agreement search results'. The table has columns: Control Number, Applicant Name, Agreement Status, State County, Date Created, Approval Date, Links, Forms, and Letters. A red arrow points to the 'Links' column header. Above the table, there are pagination controls: '1 2 3 4 5 Next> >>'.

Control Number	Applicant Name	Agreement Status	State County	Date Created	Approval Date	Links	Forms	Letters
----------------	----------------	------------------	--------------	--------------	---------------	-------	-------	---------

302 Agreement Search – Process Links by Agreement Status (Continued)

C Agreement Statuses, Status Descriptions, Process Links, and Actions

The following table provides the different agreement statuses, agreement status descriptions, available process links, and actions for the links that display in the Link column of the Agreement Search Results.

Agreement Status	Agreement Status Description	Process Link Other Than Add/View Notes	Action
Active Revise	Agreement in the process of being replaced by a revised agreement.	None	No action is permitted on an Active Revise status agreement unless its successor agreement is cancelled.
Active Terminate	Predecessor agreement where the termination of its successor agreement has been started, but not completed.	None	No action is permitted on Active Terminate status applications.
Approved	Agreement has been approved but no payments have been issued under the agreement.	Revise	Takes the user to the Revise Contract Screen. See paragraph 182 .
		Terminate	Takes the user to the Agreement Maintenance – Terminate Agreement Reason Screen. See paragraph 251 .
		Manage PIP	Takes the user to the Manage PIP Screen. See paragraph 171 .
Cancelled	Status is not used.	N/A	N/A.
Disapproved	<p>All practices on the application have been disapproved.</p> <p>Note: Disapproved applications are not technically agreements, but they display in Agreement Search results.</p>	None	<p>No action is permitted on Disapproved status applications.</p> <p>Note: “Manage PIP” link may display on some agreements, but user will get the Manage PIP – Ineligible Status Screen if selected.</p>

302 Agreement Search – Process Links by Agreement Status (Continued)

C Agreement Statuses, Status Descriptions, Process Links, and Actions (Continued)

Agreement Status	Agreement Status Description	Process Link Other Than Add/View Notes	Action
Finalized	Agreement has been replaced with a successor contract through “Finalize” process.	Terminate	Takes the user to the Agreement Maintenance – Terminate Agreement Reason Screen. See paragraph 251 .
		Manage PIP	Takes the user to the Manage PIP Screen. See paragraph 171 .
Paid	Payments have been issued under the agreement and all practices have been marked as “Practice Complete”.	Revise	Takes the user to the Revise Contract Screen. See paragraph 182 .
		Terminate	Takes the user to the Agreement Maintenance – Terminate Agreement Reason Screen. See paragraph 251 .
		Manage PIP	Takes the user to the Manage PIP Screen. See paragraph 171 .

302 Agreement Search – Process Links by Agreement Status (Continued)

C Agreement Statuses, Status Descriptions, Process Links, and Actions (Continued)

Agreement Status	Agreement Status Description	Process Link Other Than Add/View Notes	Action
Partially Earned	Payments have been issued under the agreement but not all practices have been marked as “Practice Complete”.	Revise	Takes the user to the Revise Contract Screen. See paragraph 182 .
		Terminate	Takes the user to the Agreement Maintenance – Terminate Agreement Reason Screen. See paragraph 251 .
		Manage PIP	Takes the user to the Manage PIP Screen. See paragraph 171 .
Revise COC	<p>Successor agreement of a revision that has been submitted to COC/CED for approval but has not yet been approved.</p> <p>Notes: The Revise COC status also applies to a previously terminated contract that is in the process of being reinstated and has been submitted to the COC/CED for approval of the reinstatement.</p> <p>To cancel a Revision, see paragraph 241.</p>	Approve - Revise	Takes the user to the Agreement Maintenance – Check ID Screen. See paragraph 281 .

302 Agreement Search – Process Links by Agreement Status (Continued)

C Agreement Statuses, Status Descriptions, Process Links, and Actions (Continued)

Agreement Status	Agreement Status Description	Process Link Other Than Add/View Notes	Action
Revise Complete	<p>Successor agreement that has not yet been submitted to COC/CED for approval.</p> <p>Note: The Revise Complete status also applies to a previously terminated contract that is in the process of being reinstated but has not yet been submitted to the COC/CED for approval of the reinstatement.</p>	Submit to COC/CED	<p>Takes the user to the Agreement Maintenance – Submit to COC/CED Screen. See paragraph 271.</p>
Revise Ended	Agreement that has been replaced with a successor contract through “Revise Agreement” process.	None	<p>No action is permitted on Revise Ended status applications.</p> <p>Note: “Manage PIP” link may display on some agreements, but user will get the Manage PIP – Ineligible Status Screen if selected.</p>

302 Agreement Search – Process Links by Agreement Status (Continued)

C Agreement Statuses, Status Descriptions, Process Links, and Actions (Continued)

Agreement Status	Agreement Status Description	Process Link Other Than Add/View Notes	Action
Revise In Process	Either a successor agreement that has not yet been designated “Revise Complete”, or a previously terminated agreement in the process of being reinstated but not yet designated as submitted to the COC/CED for approval.	Edit	Takes the user to the Agreements Signup – Applicant Information Screen (paragraph 191). Note: “Manage PIP” link may display on some agreements, but user will get the Manage PIP – Ineligible Status Screen if selected.
Terminate COC	Agreement in the process of being terminated that has not yet received a “Terminate COC/CED Approval Date”. Note: To cancel a termination see paragraph 286 .	Approve – Terminate	Takes the user to the Agreement Maintenance – Check ID Screen. See paragraph 281 .

302 Agreement Search – Process Links by Agreement Status (Continued)

C Agreement Statuses, Status Descriptions, Process Links, and Actions (Continued)

Agreement Status	Agreement Status Description	Process Link Other Than Add/View Notes	Action
Terminate Contract	Agreement that has been terminated.	Reinstate	Takes the user to the Agreement Maintenance – Reinstate Agreement Screen (paragraph 258). Note: “Manage PIP” link may display on some agreements, but user will get the Manage PIP – Ineligible Status Screen if selected.
Terminate Ended	Predecessor of a terminated successor agreement. Terminate ended status is given to the predecessor after the successor agreement is terminated.	None	No action is permitted on Terminate Ended status agreements.

303-309 (Reserved)

Section 9 Reports

310 Report Search Criteria

A Overview

Several standard reports are available for State and County Offices to use as tools for Cost Share. To access reports, from the CRP Home Screen, CLICK “Reports” on the left navigation menu. The Report Search Criteria Screen is displayed.

B Example of the Report Search Criteria for Defined Reports

The following is an example of the Report Search Criteria Screen for reports that are not customizable.

The screenshot displays the 'Report Search Criteria' interface. At the top, there is a navigation bar with links: CRP Home, About CRP, Help, Contact Us, Exit CRP, and Logout of eAuth. A user notification on the right states 'You are logged in as a County user'. On the left, a vertical menu lists various options, with 'Reports' highlighted in blue. The main area contains the following search criteria:

- Program : CRP
- Report Name : FSA-848A - Practices Nearing Expiration
- Report Format : PDF
- State : Missouri
- County : Johnson

Below the form are 'Search' and 'Clear' buttons. The page ID 'CRPCostShareReportSearch01' is visible at the bottom left, and a 'Back to Top' link is at the bottom right.

E County Office Report Descriptions

The following table provides the report and expected results for County Office reports.

Notes: Only one report can be created at a time.

Users can view and print most of the reports in either PDF or CSV format. Letters can only be printed or viewed in PDF. The FSA-848A – Customizable CRP Practice Expiration Report with Components and the Status Management Report – CSS Applications/Agreements can only be run in CSV. PDF format generates a static report that can only be printed or viewed. CSV format generates a report in an Excel spreadsheet permitting the user to sort and reformat the report in Excel.

E County Office Report Descriptions (Continued)

Report	Result
FSA-848A – Practices Nearing Expiration	<p>Use this report to identify producers who need to be sent Practices Nearing Expiration letters.</p> <p>Report displays all practices with a “Practice Completion Date” that falls within the next 59 calendar days. Agreements with multiple practices will have multiple rows displayed in the report if more than one practice associated with the agreement will expire in the next 59 days. Practice statuses in this report include Approved, and practices with performance reported (“Partially Earned” or “Pending Certification”).</p>
FSA-848 LETTERS – Practices Nearing Expiration	<p>Use this option to generate reminder letters to all producers listed on the Practices Nearing Expiration report.</p>
FSA-848A – Customizable CRP Practice Expiration Report	<p>This report is generated at the request of the user.</p> <p>Report displays all agreements with practices that expire within a user-defined date range. The beginning date must be either the current date or a future date.</p> <p>Policy requires users to run this report at the beginning of the fiscal year with a designated time frame of the entire FY and send reminder letters to producers instructing them to provide evidence of completion or request an extension of the practice expiration date.</p>
FSA-848A – Customizable CRP Practice Expiration Report with Components	<p>This report is generated at the request of the user.</p> <p>Report displays all agreements with practices and components that expire within a user-defined date range. The beginning date must be either the current date or a future date.</p>
FSA-848 LETTERS – CRP Practice Expiration Reminder	<p>Use this option to generate reminder letters to all producers with Practices Expiring within the user selected date range.</p>

<p>Status Management Report – CSS Applications/Agreements</p>	<p>Use this report to proactively manage all applications and agreements regardless of status. Data displayed in the report will vary based upon the search criteria entered by the user. Potential uses include, but are not limited to creating the following.</p> <ul style="list-style-type: none"> • A report of expiring practices with a longer lead time than the standard 59-day report. • An all-encompassing report displaying all applications and agreements created within a specific time frame. • A report displaying specific practice statuses – for example a report showing just practices with a status of “Partially Earned” could be used to assist the user in identifying practices that may be completed but the user failed to mark the “Practice complete?” question as “Yes”. • A report that shows all approved practices that have not received payment. Such a report would effectively fill the hole left by the existing “All FSA-848A Approved but Not Paid” and the “All FSA-848B – Partially Earned or Fully Paid”. Neither of these reports displays unpaid practices that exist on agreements where one or more other practices on the agreement has received a payment. <p>The report is generated in CSV format making it easy to save as an Excel file so the user can sort the data according to any of the data elements in the report. Potential data elements that provide useful sort order include “Agreement/Application Status”, “Practice Status”, “Producer Name”, “Practice Code”, “Approved Date”, “Practice Expiration Date”, and “Creation Date”.</p>

F Search Criteria for Expired and Expiring Practices Not Designated as “Practice Complete”

The following is the search criteria to enter in the Status Management Report – CSS Applications/Agreements for a customized report of expired and expiring practices not designated as “Practice Complete”.

Data Element	Selected Search Criteria
Agreement/Application Status	Select Agreement Statuses by: <ul style="list-style-type: none"> • clicking “ACTIVE_REVISE” • holding down the “Ctrl” key and clicking: <ul style="list-style-type: none"> • “ACTIVE_TERMINATE” • “CONTRACT_APPROVED” • “PARTIALLY_EARNED” • “REVISE_COMPLETE” • “REVISE_IN_PROCESS” • “TERMINATE_COC”.
Practice Status	Select application statuses by: <ul style="list-style-type: none"> • clicking “Approved” • holding down the “Ctrl” key and clicking: <ul style="list-style-type: none"> • “Partially Earned” • “Payment Failed” • “Pending Certification”.
Beginning Creation Date	Defaulted to 01/01/2012. Do not change.
Ending Creation Date	Enter the date the report is being created to ensure that all potential CSS Agreements are included.
Beginning Practice Expiration Date	Enter earliest expiration date desired for the report. Can be either left blank or enter 01/01/2012 to include all possible expired practices.
Ending Practice Expiration Date	Enter a date 1 month after the date the report is being created to include practices nearing expiration. For example, if the report is being generated on June 1, 2022, enter July 1, 2022, as the ending practice expiration date.

310 Report Search Criteria (Continued)

G Search Criteria for “Paid” Status Agreements with Practice Statuses other than “Paid”

The following is the search criteria to enter in the Status Management Report – CSS Applications/Agreements for a customized report of Agreements with a status of “Paid” that have Practices with statuses other than “Paid”.

Data Element	Selected Search Criteria
Agreement/Application Status	CLICK “Paid” to select agreements with paid status.
Practice Status	Select application statuses by: <ul style="list-style-type: none"> • clicking “Approved” • holding down the “Ctrl” key and clicking: <ul style="list-style-type: none"> • “Partially Earned” • “Payment Failed” • “Pending Certification”.
Beginning Creation Date	Defaulted to 01/01/2012. Do not change.
Ending Creation Date	Enter the date the report is being created to ensure that all potential CSS Agreements are included.
Beginning Practice Expiration Date	Enter earliest expiration date desired for the report. Can be either left blank or enter 01/01/2012 to include all possible practices.
Ending Practice Expiration Date	Enter a date sufficient to cover any potential practice expiration date included on currently active agreements. For example, 12/31/2050. Note: Do not use 12/31/9999 as the ending practice expiration date as it causes an error in the query.

310 Report Search Criteria (Continued)

H State Office Report Descriptions

Reports available for State Office users are the same reports available to County Office users (subparagraph C) except for the following differences:

- the location of the reports link on the left navigation menu is under the “State” heading toward the top
- only one report can be created at a time; however, State Offices have the ability to select more than one county that will be displayed on reports by using “CTRL + CLICK” to select multiple counties
- State users can view and print reports in CSV format only.

State users do not have the ability to run either of the “LETTERS” reports.

311-319 (Reserved)

Part 6 Payments**Section 1 Program Payment Provisions****320 General Payment Provisions****A Overview**

The CRP cost share payment process determines:

- whether the producer is eligible to receive payment
- the payment amount that can be sent to NPS for disbursement
- the overpayment amount that will be automatically sent to NRRS for cost share agreements associated to CRP-1s with approval dates before October 1, 2020
- the overpayment amount that sent to the Pending Overpayment Report in Common Payments for agreements approved after October 1, 2020.

Note: See 9-CM for general payment information.

B Frequency of Payment Processing

Cost share payments are processed as follows.

- For contracts approved in CCMS **before October 1, 2020**, any payment/overpayment associated with an FSA-848 agreement with CRP-1 that has an approval date in CCMS before October 1, 2020, will automatically be sent to NPS/NRRS upon submission on the certify and pay screen.
- For contracts approved in CCMS **after October 1, 2020**:
 - gross payment amounts sent through the automated payment process are processed nightly
 - payments on the Nonpayment Report are processed nightly if changes have been made in the system during the day for the producer or supporting system information
 - all payments on the Nonpayment Report are processed once a week to ensure that all notifications of changes have been applied to the reduced payment amount.

Note: The approval date of FSA-848 is prepopulated with the approval date of CRP-1. The system reads the approval date from CCMS.

320 General Payment Provisions (Continued)**C Payment Due Date**

61-FI provides general guidance for determining payment due dates for various programs.

- For contracts approved in CCMS before October 1, 2020, CSS calculates the payment due date as 30 days after the later of the “Date Documents are Received” or the “Producer Signature Date” as entered during the Producer Certification process (paragraph 134). If payment is not issued on or before the due date calculated by CSS, CSS will calculate prompt payment interest and include it in the payment that is generated.

Note: 61-FI defines the payment due date for cost share as “30 calendar days after the applicant provides required documentation. Required documentation includes payment eligibility documentation such as CCC-902. If payment eligibility documentation is filed after the later of the “Date Documents are Received” and “Producer Signature Date” as entered during the producer certification process, the payment due date calculated by CSS will be incorrect and the prompt payment interest calculated by CSS will be incorrect. Contact your State Office for guidance in correctly determining the payment due date and correctly issuing prompt payment interest in this scenario.

- For contracts approved in CCMS **after October 1, 2020**, agreements that have an approval date **after** October 1, 2020, will no longer have the interest automatically issued thru CSS. The approval date of FSA-848 shall be the initial approval date of the CRP-1 in CCMS. County Offices shall manually determine the payment due based on the factors identified in the above paragraph. Follow the provisions of 61-FI for issuing the interest payment.

320 General Payment Provisions (Continued)

D Funds Control Process

CRP Cost Share payments for any FSA-848s that are initially approved **before** October 1, 2020, use the Obligation Process through eFMS accounting which controls funding allotments by program year, monitors program spending, and halts program disbursements when the funding allocation has been exhausted. The funding is reserved through the Obligation Process at the time FSA-848A is approved.

Conservation Programs Funded through Electronic Funds Management System (eFMS)	Fund Code
CRP if original CRP-1 was approved before October 1, 2020	3306
PIP if original CRP-1 was approved before October 1, 2020	3359

CRP Cost Share payments for any FSA-848 that is initially approved after October 1, 2020 use the Common Obligation Framework (COF). If adequate funding is not available, those producers who cannot be paid will be listed on the Failed Obligations/Insufficient Funds Report in the Common Payment Reports System.

Conservation Programs Funded through Common Obligation Framework (COF)	Fund Code
CRP if original CRP-1 was approved after October 1, 2020	3307
Clear30	3360
FMI	3358
PIP if original CRP-1 was approved after October 1, 2020	3361

The funds for CRP Cost Share payments will be controlled at the National level and do not require State or County allotments.

E Sequestering CSS Payments

CSS payments are not subject to sequestration.

321 Payment Eligibility Provisions

A Overview

The payment process reads the web-based eligibility system for the current fiscal year in which the payment is being issued for CRP cost share to determine if a producer or member of a joint operation is eligible to be paid for that year.

Exception: AGI Eligibility is the fiscal year of the CRP-1 approval.

Reminder: Eligibility determinations/certifications should accurately reflect COC determinations and producer certifications, as applicable. Documentation to support the determinations must be on file.

B CRP Subsidiary Eligibility

Web-based eligibility systems applicable to CRP payments determine how the web-based subsidiary eligibility data for payment processing will be used.

If a producer has multiple invalid subsidiary eligibility conditions, only the highest priority ineligible condition is displayed on the:

- Certify and Pay Screen if the initial approval date of CRP-1 in CCMS is **before** October 1, 2020, or
- Nonpayment/Reduction Report if the initial approval date of CRP-1 in CCMS is **after** October 1, 2020.

322-329 (Reserved)

Section 2 CRP Cost Share Payments and Overpayments

330 CRP Cost Share Payments and Corrections

A Overview

The CRP Cost Share payment process is a web-based integrated process that uses a wide range of information and other program determinations and values to determine whether a payment should be issued and the amount of gross payment, applicable reductions, and the net payment amount. For payments to be calculated correctly, all supporting files must be updated correctly.

B Cost Share Payments

Issuing Cost Share payments through the CRP CSS is covered in Part 4 of this handbook. Once a payment has been processed through the CRP CSS it is sent to NPS to be issued. Procedure for NPS signing and certifying process is found in 1-FI.

330 CRP Cost Share Payments and Corrections (Continued)

C Correcting a Payment

If a payment is incorrect after the Certify and Pay process has been completed and submitted, do not place the payment in hold for Cancel in NPS. Adjust the payment through CSS by selecting the “Certification” option from the left navigation menu according to Part 4, Section 1.

IF the incorrect value is...	THEN...																																																
actual cost	Step	Action																																															
	1	create a new (additional) Producer Certification by selecting “Add Certification” from the Certification Search Results with Practice Summary Screen.																																															
	2	<p>enter the corrected actual costs in the “Current Actual Cost” field on the Create New Producer Certification – Component Rate Practice Screen.</p> <p>Example 1: The actual cost is \$650 split 60%/40% between producers. The user previously inaccurately entered \$500 total actual cost which resulted in an underpayment. Enter \$150 additional actual cost split 60%/40% to account for the difference: \$650 (correct cost) minus \$500 (amount previously entered) = \$150 (split \$90 and \$60).</p> <table border="1" data-bbox="797 1167 1442 1404"> <thead> <tr> <th colspan="8">Components</th> </tr> <tr> <th>Name</th> <th>Extent Requested</th> <th>Technical Practice</th> <th>Avg Actual Cost (\$)</th> <th>Max CostShare % Regular</th> <th>Max Costshare % Limited Resource</th> <th>Extent Needed</th> <th>Extent Approved</th> </tr> </thead> <tbody> <tr> <td>DBF1</td> <td>13.00</td> <td>500</td> <td>\$ 51.00</td> <td>75.00%</td> <td>75.00%</td> <td>13.00</td> <td>13.00</td> </tr> <tr> <th>Name</th> <th>Limited Resource</th> <th>Percent Share (%)</th> <th>Approved Amount (\$)</th> <th>*Current Actual Cost (\$)</th> <th>Prior Costs (\$)</th> <th>*Current Extent Performed</th> <th>Prior Extent Performed</th> </tr> <tr> <td>PROD A</td> <td>No</td> <td>60.00%</td> <td>298.00</td> <td>90.00</td> <td>300.00</td> <td>0</td> <td>7.80</td> </tr> <tr> <td>PROD B</td> <td>No</td> <td>40.00%</td> <td>199.00</td> <td>60.00</td> <td>200.00</td> <td>0</td> <td>5.20</td> </tr> </tbody> </table> <p>Example 2: The total actual cost is \$650 split 60%/40%. The user previously inaccurately entered \$750 for the total actual cost which resulted in an overpayment. Enter -\$100 split 60%/40% for the actual cost to account for the difference: \$650 (correct cost) minus \$750 (amount previously entered) = -\$100 (split -\$60 and -\$40).</p>	Components								Name	Extent Requested	Technical Practice	Avg Actual Cost (\$)	Max CostShare % Regular	Max Costshare % Limited Resource	Extent Needed	Extent Approved	DBF1	13.00	500	\$ 51.00	75.00%	75.00%	13.00	13.00	Name	Limited Resource	Percent Share (%)	Approved Amount (\$)	*Current Actual Cost (\$)	Prior Costs (\$)	*Current Extent Performed	Prior Extent Performed	PROD A	No	60.00%	298.00	90.00	300.00	0	7.80	PROD B	No	40.00%	199.00	60.00	200.00	0
Components																																																	
Name	Extent Requested	Technical Practice	Avg Actual Cost (\$)	Max CostShare % Regular	Max Costshare % Limited Resource	Extent Needed	Extent Approved																																										
DBF1	13.00	500	\$ 51.00	75.00%	75.00%	13.00	13.00																																										
Name	Limited Resource	Percent Share (%)	Approved Amount (\$)	*Current Actual Cost (\$)	Prior Costs (\$)	*Current Extent Performed	Prior Extent Performed																																										
PROD A	No	60.00%	298.00	90.00	300.00	0	7.80																																										
PROD B	No	40.00%	199.00	60.00	200.00	0	5.20																																										
3	complete Certify and Pay according to Part 4, Section 2. Either an additional payment of the difference will be sent to NPS or an overpayment will be sent to NRRS.																																																

330 CRP Cost Share Payments and Corrections (Continued)

C Correcting a Payment (Continued)

IF the incorrect value is...	THEN...	
current Extent Performed	Step	Action
	1	create a new (additional) Producer Certification by selecting “Add Certification” from the Certification Search Results with Practice Summary Screen.
	2	enter the amount of the corrected extent performed in the “Current Extent Performed” field on the Create New Producer Certification – Component Rate Practice Screen. Example 1: The extent performed is 11. The user previously inaccurately entered 10 for the producer which resulted in an underpayment . Enter 1 for the producer to account for the difference: 11 (correct extent) minus 10 (extent previously entered) = 1. Example 2: The extent performed is 9. The user previously inaccurately entered 12 for the producer which resulted in an overpayment . Enter -3 for the producer to account for the difference: 9 (correct extent) minus 12 (extent previously entered) = -3.
	3	complete Certify and Pay according to Part 4, Section 2. Either an additional payment of the difference will be sent to NPS or an overpayment will be sent to NRRS.
TSP Certification values	Step	Action
	1	create a new TSP Certification by selecting “TSP” for the practice from the Practice Summary Screen that is displayed by clicking on the selected Practice Number from the Agreement Summary Screen.
	2	enter the difference between what should be entered and what is actually entered into the Current Extent Performed field. Example 1: 12 is entered into Prior Extent Performed. The amount should be 13. Enter 1 into the Current Extent Performed field. Example 2: 15 is entered into Prior Extent Performed. The amount should be 10. Enter -5 into the Current Extent Performed field.
	3	complete Certify and Pay according to Part 4, Section 2. An additional payment of the difference will be sent to NPS.

330 CRP Cost Share Payments and Corrections (Continued)

C Correcting a Payment (Continued)

Note: In the case of an **Overpayment**, if ‘Yes’ is selected for the “Practice complete?” question the Total Installation costs entry is displayed. Correct the total installation costs if necessary by entering the actual total installation costs incurred. Do not attempt to adjust the existing value by entering a negative amount in this data field.

D Canceling Payments

After payment processing has been completed, County Offices shall review the NPS payment worklist to ensure that the correct payments have been generated. The user should complete the following if an error is determined:

- payment should **not** be signed in NPS
- condition causing the incorrect payment should be corrected.

Notes: User intervention is not allowed for the cancellation process.

If the:

- condition causing the incorrect payment is corrected, the system will automatically cancel the unsigned payment in NPS and recalculate the payment amount due
- payment amount is determined to be incorrect and the payment has been signed in the NPS System, the payment can no longer be cancelled.

Note: The incorrect payment will be issued. After the incorrect payment is made, the user must perform corrective actions in CSS. “Add Certification” is used to create a new certification using negative costs and extents to correct an incorrect certification before the payment is signed, or to create a receivable for an overpayment after the payment is signed. Once the condition causing the incorrect payment has been corrected in CSS, the system will determine if the producer has been overpaid or underpaid. During the next Certify and Pay action in CSS a receivable will be created if the producer has been overpaid, or an additional payment will be sent to NPS if the producer has been underpaid.

After cancelling the incorrect payment by entering negative amounts to zero out the effective net payment, the correct payment shall be reissued according to the following table.

Step	Action
1	Complete a new Producer Certification with the correct amounts and dates.
2	Complete a new TSP Certification with the correct values.
3	Complete Certify and Pay to send a positive payment amount to NPS with the correct date.

331 Terminations

A Introduction

A termination of a CRP contract may require a refund of previously paid cost share and PIP payments. If refunds are being waived do not terminate the cost share agreement. See 2-CRP, Part 16, Section 2 for policy on waiving refunds.

Users may need to terminate multiple versions of an agreement if revisions have been performed.

B Determining and Processing Refund Amounts

The termination of an agreement will automatically process the full refund amounts during the termination. See paragraph 250 for more information on the termination process.

C Proration of Terminations

Policy in 2-CRP, subparagraph 574 A allows for prorated refunds when certain conditions are met. The termination process should not be used if refunds are to be prorated. If a prorated refund of a contract is approved, negative extents should be entered on new producer and TSP certifications that reflect the prorated amounts. See [Exhibit 17](#) for an example of proration of a termination.

332 Partial Termination

A Introduction

A partial termination of a contract may require a refund of previously paid cost share and PIP payments. To ensure a receivable is created and that the receivable is created for the correct amount the user must enter the correct negative extents and producer actual costs on a new certification. See 2-CRP, paragraph 574 for policy on required refunds.

B Determining and Processing Refund Amounts

To process the required refund and calculate the negative extents to enter on the new producer certification perform the steps in the table below. See Exhibit 18 for an example.

Step	Action
1	Determine percentage of acres by practice being terminated by taking acres terminated by practice divided by total acres of the practice.
2	Determine cost reduction of each component by taking total actual cost for the component multiplied by the percentage determined in step 1.
3	Enter the negative amount for each component in the current actual cost.
4	For components measured in acres the amount of acres for the practice being terminated will be the negative extent for the component.
5	For components measured in units other than acres determine the negative extent by taking the prior extent performed multiplied by the percentage determined in step 1. Round to the appropriate whole unit or fraction of a unit depending on the component.
6	Enter the negative extent determined in step 4 or 5 depending on the unit of measure for the component.
7	Select “Yes” that the practice is complete.
8	Add or edit cost share from other sources if applicable.
9	Enter total installation cost of the portion of the practice not terminated. Determined by taking the total actual cost of all components for the practice minus the total actual costs reduced for terminated portion of all components.
10	Enter acres served. Determined by Acres served initially by the practice minus the acres terminated.
11	Select components that are complete.
12	Enter current date for date receipts and documentation received.
13	Enter Producer Signature Date.
14	CLICK “Continue to Next Step”.
15	Finish producer certification by reviewing the information entered and CLICK “Submit”. If there is cost share from other sources an additional screen will be displayed before being able to submit. See paragraph 135 for additional information.
16	Complete a new TSP Certification with the correct negative values for the practice and components. Enter a statement in the performance report block indicating a partial termination.
17	Complete the Certify and Pay process to send the overpayment amount to NRRS.

332 Partial Termination (Continued)**C Proration of Partial Terminations**

Policy in 2-CRP, subparagraph 574 A allows for prorated refunds when certain conditions are met. The instructions above do not cover prorated refunds. The first time a prorated refund of a contract is approved, the steps above can be used by applying the proration percentage to the negative extents. See [Exhibit 19](#) for an example of proration of a partial termination. A partial termination that has been prorated will leave the extents out of sync and any subsequent partial termination will need to take into account amounts refunded for prorated prior partial terminations. If a prorated cost share refund for a partial termination has been processed and additional cost share payments or additional partial terminations are needed, the case should be submitted to the State specialist to be posted on the national SharePoint site for assistance in determining the actual costs and extents performed to be entered in CSS.

333 Overpayments

A Introduction

The CRP cost share payment process, for agreements approved after October 1, 2020, is an integrated process that reads data from many systems to determine whether payments issued to a producer were earned in-full or in-part. These systems include:

- Subsidiary Eligibility System which includes data about eligibility, combined producer, and Business File
- SCIMS.

If something changes in any of these systems for the applicable payment year, the payment process is automatically triggered to recalculate the payable amount. The producer is overpaid if the information that has been changed results in the amount payable to be less than the amount originally paid to the producer. CSS does not initiate this process and does not change the calculated payment before to eligibility adjustments. Any overpayments created in error of this type would need to be resolved through the supporting system that triggered the overpayment.

B General Provisions for Overpayments

Policy and instructions on collecting overpayments, due dates, and charging interest can be found in the applicable FI handbook.

C Overpayments of eFMS Obligated Agreements

For eFMS obligated agreements when an overpayment is processed it will automatically be transferred to NRRS the same day. If an eligibility issue is encountered the overpayment amount transferred may not be the correct amount and could be for the entire payment.

To correct the issue the user should:

- first correct the eligibility issue that caused the incorrect additional overpayment amount
- then reprocess the payment to offset the incorrect amount of overpayment created
- not write off any of the overpayment amount since this will cause cost share and the payment/overpayment systems to be out of sync.

If unable to resolve the issue the user should contact the State Office for assistance.

333 Overpayments (Continued)**D Overpayments of COF obligated agreements**

For COF obligated agreements when an overpayment is processed it will appear in the Common Payments Reports (CPR) to be transferred to NRRS. If an eligibility issue is encountered the overpayment amount may not be the correct amount and could be for the entire payment.

Since the overpayment has not been transferred to NRRS yet, the user should correct the issue that caused the incorrect amount. Once corrected either recompute the overpayment from the report in CPR or wait for the payment process to trigger during a nightly run to correct the amount. Once the correct overpayment amount is showing on the pending overpayment report in CPR the user should transfer the overpayment to NRRS.

Reports, Forms, Abbreviations, and Delegations of Authority

Reports

None.

Forms

The following table lists all forms referenced in this handbook.

Number	Title	Display Reference	Reference
CCC-770 CRP2 <u>1</u> /	CRP Cost Share Payment Checklist		143,144
CCC-902	Farm Operating Plan for Payment Eligibility 2009and Subsequent Program Years		320

FSA-848A	Cost Share Agreement		Text
FSA-848B	Cost Share Performance Certification andPayment		Text, Ex. 18

1/ This form was made obsolete on 02-14-2020.

Abbreviations Not Listed in 1-CM

The following abbreviations are not listed in 1-CM.

Approved Abbreviation	Term	Reference
CD	Conservation Division	1, 2
COF	Common Obligation Framework	Text
C/S	Cost Share	Text
CSS	Cost Share Software	Text
CSV	Comma Separated Values	310
eFMS	Electronic Funds Management System	Text, Ex. 5
PDD	Program Delivery Division	1, 2, 4
TSP	Technical Service Provider	Text, Ex. 5

Delegations of Authority

None.

Definitions of Terms Used in This Handbook

Application

Application means an FSA-848 or FSA-848A that has not been approved by COC or CED.

Agreement

Agreement means an FSA-848A that has been approved by COC or CED.

Eligible Cost

Eligible cost is the lesser of producer's actual cost or average actual cost (from Program Provisioning) times the extent approved.

Obligation

Obligation is a binding promise by the Government to pay, but that promise can be conditioned on certain criteria being met, including eligibility criteria.

Section 1 Program Provisioning for CRP

1 Accessing Program Provisioning

A Overview

State Conservation Specialists have the ability to permit or deny creation of components for use within their State. County users in States where permission is granted to create components will create components in Program Provisioning. Program provisioning is accessed under the letter “C” on the FSA Intranet Applications Page as “Conservation – Program Provisioning”.

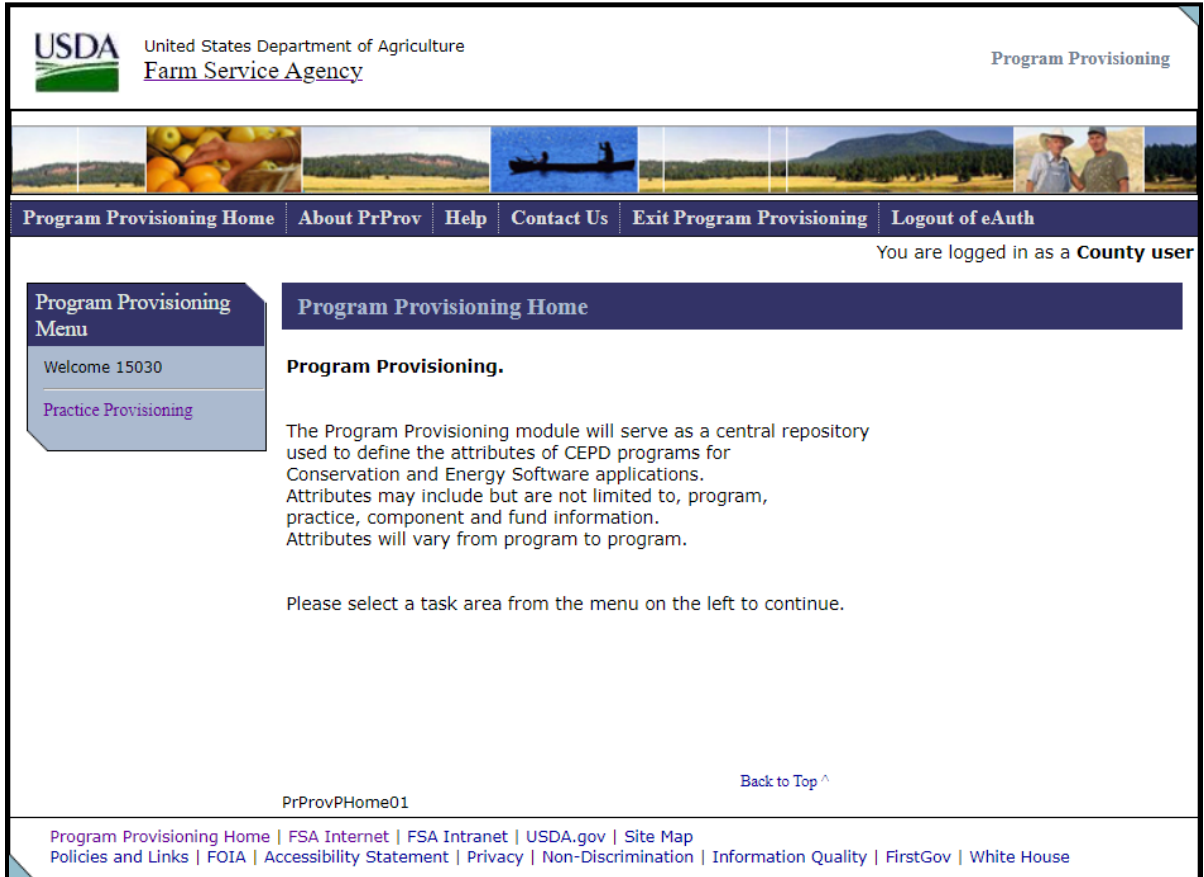

Every FSA administrative county has its own program provisioning county dataset. When creating CS agreements CSS uses the dataset from the physical location county. Components are added to the dataset when a county user in the physical location has either created or copied a component.

1 Accessing Program Provisioning (Continued)

B Example of Program Provisioning Home Screen

The following is an example of the Program Provisioning Home Screen.

1 Accessing Program Provisioning (Continued)

C Header Information

The following table provides the fields, descriptions, and actions for the header information that will be displayed on most program provisioning screens.

Field/Link	Description/Action
Program Provisioning Home	Returns the user to the Program Provisioning Home Screen.
About PRProv	Opens an “About FSA” Page but does not provide any specific information about program provisioning.
Help	Opens a new window with the message “No help available at this time.”
Contact Us	Provides contact information for help with software issues. County users should always start by contacting their State conservation program specialist. State program specialists should contact national conservation automation specialist using the FSA Farm Programs Software Issues SharePoint Site at (https://usdagcc.sharepoint.com/sites/fsa-dafp-disaster/Payment_Issues/SitePages/Home.aspx), for issues and questions the specialist is unable to resolve.
Exit Program Provisioning	Exits Program Provisioning and opens the “FSA Intranet Home” Page.
Logout of eAuth	Exits Program Provisioning and opens the “eAuthentication Home” Page.

D Field Description and Actions

The following table provides the field descriptions and actions for the Program Provisioning Home Screen.

Field/Button	Description/Action
Practice Provisioning	Opens the “Program Provisioning Menu” Screen. See paragraph 2.

Section 2 Program Provisioning for County Users

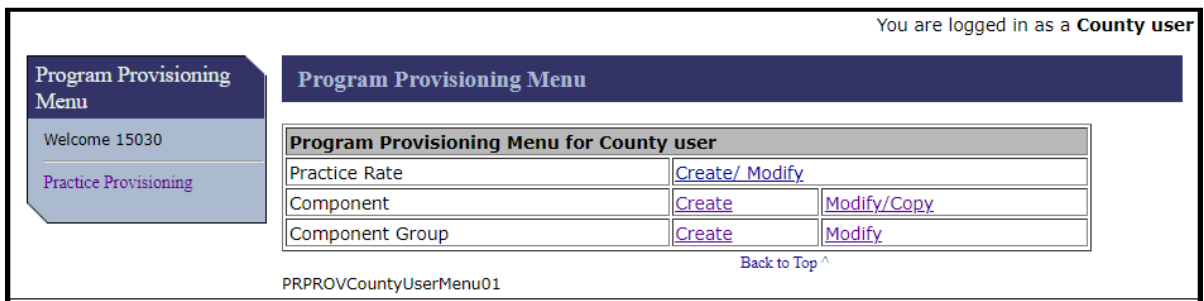

2 Program Provisioning Menu Screen – County User

A Overview

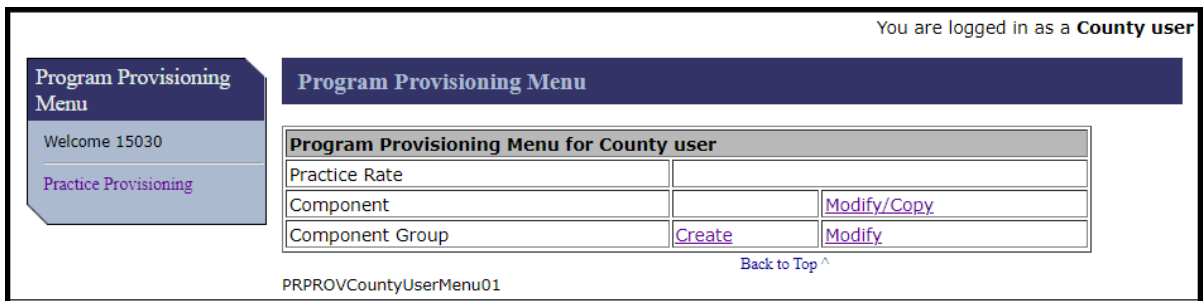

After the user selects Practice Provisioning from Program Provisioning Home Screen the County User version of the Program Provisioning Menu Screen will be displayed.

B Example of Program Provisioning Menu Screen (County User)

The following is an example of the Program Provisioning Menu Screen when the State specialist has granted the county permission to create components.

The following is an example of the Program Provisioning Menu Screen when the State specialist has not granted the county permission to create components.

2 Program Provisioning Menu Screen – County User (Continued)

C Field Description and Actions

Field/Button	Description/Action
Practice Provisioning	Opens the “Program Provisioning Menu” Screen.
Practice Rate Create/Modify	Used to create a practice rate for use in creating cost share agreements. Practice rates are not authorized for use in CRP cost share for CRP-1’s approved under Signups 53 and later and will not be addressed in this exhibit.
Component Create	Used to create components for use in creating cost share agreements.
Component Modify/Copy	Used to modify existing components in the county program provisioning dataset. Used to copy components created by the State specialist or other users. Copying a component adds the component to the user’s county dataset. Note: Modify/Copy is also used to view existing components. There is not a true “View” option in program provisioning. Users must use the search function under the Modify/Copy functionality to open and view an existing component.
Component Group Create	Used to group components from within the county dataset. Component groups allow users to group components that are commonly used together for a specific practice. Selecting the group is intended to allow the user to populate multiple components to the practice in a cost share application with a single selection. This functionality to use component groups when creating a cost share agreement has not been implemented in CSS. Creation of component groups will not be covered in this exhibit.
Component Group Modify	Used to modify existing component groups in the county dataset.

3 Create Component (County User)

A Overview

After selecting “Create” in the component row on the Program Provisioning Menu Screen the Create or Modify Component (Create Component) Screen will be displayed. This is the screen used to create a new component.

B Example of Create or Modify Component (Create Component) Screen

The following is an example of the Create or Modify Component (Create Component) Screen.

3 Create Component (County User)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Create or Modify Component (Create Component) Screen.

Field	Description/Action
Practice Provisioning	Opens the “Program Provisioning Menu” Screen. If this button is clicked without first saving edits for a new component that is being created all edits are lost.
Select Counties	User must select the county for which the component is being created. Only counties assigned to the user are displayed for selection.
Category	<p>User must select the category under which the component will be created. See Exhibit 9 for Category to CRP Practice relationships. Components created will only be available for selection in CSS for practices associated to the category under which the component was created.</p> <p>For example, Practice CP1 is associated to Category “(04) Planting” in Exhibit 9 but is not associated to Category “(07) Earthwork/Structural Work”. Components created using Category “(04) Planting” will be displayed in the component drop-down list when creating a cost share application for Practice CP1. Components created using Category “(07) Earthwork/Structural Work” will not display in the component drop-down list when creating a cost share application for Practice CP1.</p>
Subcategory	User must select the Subcategory under which the component will be created. The user should choose the Subcategory that most closely represents the component being created.
Component Code	<p>User must enter a component code for the new component being created.</p> <ul style="list-style-type: none"> • Component codes are the unique identifier for the specific component and cannot be duplicated. If a component already exists for the identifier entered, user will receive a hard stop error message stating “Component Code already Exists”. User must change the proposed identifier for the new component to something else and reattempt the save. • Component codes consist of any combination of alphabetical or numeric characters. Special characters such as “#”, “%”, “!”, etc. are not permitted. User must enter a minimum of one alpha/numeric character but no more than 12 alpha/numeric characters for the component identifier.

3 Create Component (County User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Descriptive Title	User must enter a descriptive title for the new component. Since component codes are limited to a maximum of 12 characters users will frequently need to use abbreviations or code numbers for new components. The descriptive title may be up to 500 characters in length providing the user with the ability to go into more detail and specifically identify the uniqueness of the component.
Unit of Measure	Unit must select a single Unit of Measure for the component from the drop-down list.
Rate Type	<p>User must select the rate type for the component. Beginning with CRP Signup 53 all CRP cost share is to be paid using “Percent of Cost Not to Exceed” rate types. Cost Share for FMI and CLEAR30 payments is to be paid using flat rates.</p> <p>Available rate types include the following.</p> <ul style="list-style-type: none"> • Percent of Cost Not to Exceed – CSS pays: Lesser of: Producer’s Extent Performed X Cost Share Rate or Producer’s Actual Cost X Cost Share Percentage • Percent of Cost <u>1</u>/ – CSS pays: Lesser of: Approved Amount or Producer’s Actual Cost X Cost Share Percentage • Flat Rate <u>1</u>/ – CSS Pays: Lesser of: Producer’s Extent Performed X cost share rate or Producer’s Actual Contribution • FMI Flat Rate <u>2</u>/ – CSS Pays: Lesser of: Producer’s Extent Performed X FMI rate or Producer’s Actual Contribution • CLEAR30 Flat Rate <u>3</u>/ – CSS Pays: Producer’s Extent Performed X CLEAR30 rate.

1/ Not applicable for CRP contracts for Signup 53 and later.

2/ FMI Flat Rates are created by the National Office and are copied from the national list to the applicable county dataset. County and State users are not authorized to create FMI flat rates locally.

3/ CLEAR30 Flat Rates are created by State Specialists and are copied from the State list to the applicable county dataset. County users are not authorized to create CLEAR30 flat rates.

3 Create Component (County User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Average Actual Unit Cost	User must enter 100% of the average actual cost for the local area. Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a "\$" or a separating comma when entering values. For example, \$100.00 is entered as "100.00".
Average Actual Unit Cost for SDA – Not Gender	This data element does not impact CRP cost share. It only applies to BCAP cost share agreements. User must enter the cost as the same amount used for the Average Actual Unit Cost data element unless that amount exceeds \$1,500.00. If the Average Actual Unit Cost exceeds \$1,500.00 enter "1500.00". Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a "\$" or a separating comma when entering values. For example, \$100.00 is entered as "100.00".
Effective Start Date	User must enter the Effective Start Date as the date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1 st , 2023. Cost share agreement approvals will fail if the approval date is before the component effective start date.
Effective End Date	User must enter the Effective End Date as the last date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1 st , 2023. Cost share agreement approvals will fail if the approval date is after the component effective end date.

3 Create Component (County User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Regular Cost Share Percentage	User must enter the Regular Cost Share Percentage for the component. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the regular cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the regular cost share percentage should be entered as 75%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.
Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage	User must enter the Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage for the component. This data element does not apply to CRP cost share and does not impact cost share calculations. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage should be entered as 90%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.
Save	<p>Clicking “Save” opens the Component Confirmation (Confirm Creation of Component) screen. Validations are performed at the time “Save” is clicked. If any required data elements are missing or any data elements contain invalid data, self-explanatory error messages are displayed and must be resolved before the save action is completed. Examples of error messages include the following.</p> <ul style="list-style-type: none"> • Component code <XXXX> already exists. • Component code is invalid. • Unit of Measure is required. • Regular Cost Share Percentage may not exceed 100. <p>Note: Except for error messages for missing required values, error messages only display one message at a time. After correcting the single displayed error message an additional error message may display upon the next attempted save. All errors must be resolved before the save will be completed.</p>

4 Component Confirmation (Confirm Creation of Component) Screen

A Overview

After the user selects Save from the Create or Modify Component (Create Component) Screen the Component Confirmation (Confirm Creation of Component) Screen will be displayed.

B Example of Component Confirmation (Confirm Creation of Component) Screen

The following is an example of the Component Confirmation (Confirm Creation of Component) Screen.

Program Provisioning Home | About PrProv | Help | Contact Us | Exit Program Provisioning | Logout of eAuth

You are logged in as a **County user**

PRPROVComponentConfirmation01

4 Component Confirmation (Confirm Creation of Component) Screen (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Documentation Screen.

Field/Link	Description/Action
Practice Provisioning	Opens the Program Provisioning Menu Screen. If this button is clicked without first confirming the information for the new component that is being created all edits for the new component are lost.
Confirm	Saves the new component in the county dataset and returns the user to the Program Provisioning Menu Screen.
Back	Returns the user to the Create or Modify Component (Create Component) Screen with the data for the new component displaying on that screen, but not saved in the county dataset. Note: Cost share percentages are lost during the Back process and should be re-entered before re-attempting to save the component.

5 Copy Component (County User)

A Overview

County users have the ability to copy components created by other users. In States where the State specialist has not granted permission for county users to create components, copying components is the only way for a user to add components to the county dataset. Even in States where the State specialist has granted permission for county users to create components county users will still have the ability to copy components created by others since it is common for State specialists in all States to create at least some components that will be copied by county users.

The process of copying a component begins from the Program Provisioning Menu Screen using the Modify Copy link. After clicking Modify/Copy on the Program Provisioning Menu Screen the List of Existing Components Screen is displayed.

5 Copy Component (County User) (Continued)

B Example of List of Existing Components Screen

The following is an example of the default view of the List of Existing Components Screen. The screen is defaulted to the administrative county of the user. To see components created by other users the selected county must be reset.

PRPROVComponentList01

5 Copy Component (County User) (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Practice Provisioning	Returns the user to the Program Provisioning Menu Screen.
Program	<p>Provides a list of Programs indirectly associated to components through practices, component categories and component subcategories.</p> <p>It is not necessary to select a program. Even though this exhibit is devoted to copying a component to be used in CRP cost share applications it is not recommended to select CRP. Doing so may unnecessarily prevent the desired component from displaying. It is recommended that this data field be left as “All Options”.</p> <p>If the user wants to limit the components displayed in the list to only those components that are already associated to CRP practices, the user must select “CRP” so CRP practices will display in the practice drop-down list.</p>
Practice	<p>Provides a list of Practices indirectly associated to components through component categories and component subcategories.</p> <p>No practices will display if the user hasn’t first selected a program.</p> <p>It is not necessary to select a practice. Doing so may unnecessarily prevent the desired component from being displayed. It is recommended that this data field be left as “All Options”.</p> <p>If the user wants to limit the components displayed in the list to only those components that are already associated to a specific CRP practice the user must select that specific practice from the list. Only one practice can be selected at a time.</p>
Technical Practice	Provides a list of Technical Practices. It is not necessary to select a technical practice. Doing so may unnecessarily prevent the desired component from being displayed. It is recommended that this data field be left as “All Options”.
State	<p>Data field defaults to the State of the user. It is recommended that the defaulted value be used if the user is attempting to copy a component created by their State specialist.</p> <p>Users may change this value if there is a specific component created either at the national level or by another State that the user wants to copy.</p>

5 Copy Component (County User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
County	Data field defaults to the County of the user. When copying a component this data element should always be changed. Leaving the data field populated as the default county will prevent the user from being able to see any components that do not already exist in the county dataset.
Component Code	<p>Allows the user to limit the search results to only those component codes containing the specific characters entered in the data field. If the component code is known the most efficient way to search is to use the component code search with all other data fields set to “All Options” or blank when applicable.</p> <p>The user does not need to type the full component code to find the specific component. For example, if the user is searching for component “ABC123” if the user types “ABC” the component “ABC123” will display in the results. Any other component containing the text “ABC” will also display in the search results. Component “XYZABC12” would also display in the search results.</p> <p>Searches are not case specific. If the user searches for “abc” component “ABC123” will display in the search results because it contains the character string “abc” even though the case does not match.</p>
Descriptive Title	<p>Allows the user to limit the search results to only those descriptive titles containing the specific characters entered in the data field. The user does not need to type the full descriptive title find the specific component.</p> <p>The descriptive title works in the same manner as the component code search shown above. However, it may be difficult to anticipate which components contain the specific characters. As a result, the search results may not be effectively limited.</p>
Search	Triggers the search process based upon the criteria entered by the user.
Modify/Copy	User must click Modify/Copy for the row of the component that they want to copy. The Select Counties Screen will be displayed.

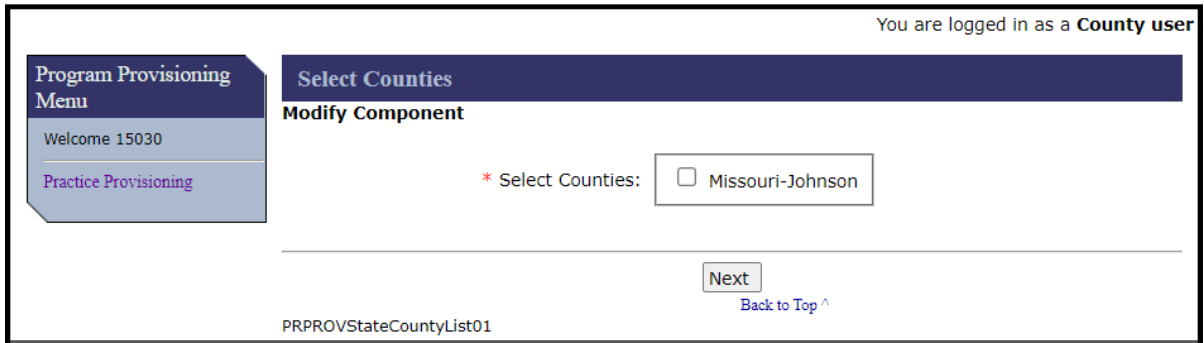

6 Select Counties

A Overview

The component being copied will be created in the county dataset of the counties selected on the following screen. Only counties associated to the user will be displayed.

B Example of Application Signup – Add Practice Components Screen

The following is an example of the Select Counties Screen.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup - Add Practice Components Screen.

Field/Link	Description/Action
Practice Provisioning	Returns the user to the Program Provisioning Menu Screen.
Select Counties	User must check the box next to the county name to establish the selected component in that county’s dataset. Only counties associated to the user are displayed for selection.
Next	Displays the Create or Modify Component with the selected counties included.

7 Create or Modify Component

A Overview

The Create or Modify Component Screen will be displayed after the user selects the county and clicks Next. The name of this screen is somewhat confusing as a part of the copy component process. The screen name illustrates that as a part of the copy process the user may be able to edit certain data elements. The screen is initially displayed with the data for the component as it exists in the State dataset from which it was copied. Any data element with a red asterisk on the right side of the field name may be edited before saving. Edits made on this screen apply only to the representation of the component in the county dataset where it will be created. Edits do not impact the attributes of the component as it exists in its originating dataset.

B Example of Create or Modify Component Screen

The following is an example of the Create or Modify Component Screen.

You are logged in as a **County user**

7 Create or Modify Component (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Practice Provisioning	Returns the user to the Program Provisioning Menu Screen without populating the component in the county dataset.
Note: The following first five data elements are only editable if the State specialist has granted permission for county users to edit the data element. A red asterisk will display to the right of the data field name if it is editable.	
Rate Type	User may accept the existing Rate Type or select a different rate type from the drop-down list. Rate type used for cost share applications for Signup 53 and later CRP contracts should always be “Percent of Cost – Not to Exceed”.
Average Actual Unit Cost	User may accept the existing Average Actual Unit Cost or enter a different cost based upon the average actual cost for the local area. Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a “\$” or a separating comma when entering values. For example, \$100.00 is entered as “100.00”.
Average Actual Unit Cost for SDA – Not Gender	User may accept the existing Average Actual Unit Cost for SDA – Not Gender or enter a different cost. This data element does not impact CRP cost share. It only applies to BCAP cost share agreements. User must enter the cost as the same amount used for the Average Actual Unit Cost data element, unless that amount exceeds \$1,500.00. If the Average Actual Unit Cost exceeds \$1,500.00 enter “1500.00”. Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a “\$” or a separating comma when entering values. For example, \$100.00 is entered as “100.00”.
Effective Start Date	User may accept the existing Effective Start Date or enter a different date that reflects the date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1, 2023. Cost share agreement approvals will fail if the approval date is before the component effective start date.
Effective End Date	User must accept the existing Effective End Date or enter a different date that reflects the last date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1 st , 2023. Cost share agreement approvals will fail if the approval date is after the component effective end date.

7 Create or Modify Component (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Regular Cost Share Percentage	User may accept the existing Regular Cost Share Percentage for the component or enter a different percentage. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the regular cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the regular cost share percentage should be entered as 75%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.
Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage	User may accept the existing Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage for the component or enter a different percentage. This data element does not apply to CRP cost share and does not impact cost share calculations. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage should be entered as 90%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.
Save	<p>Clicking “Save” opens the Component Confirmation (Confirm Modifications to Component) Screen. Validations are performed at the time “Save” is clicked. If any required data elements are missing or any data elements contain invalid data, self-explanatory error messages are displayed and must be resolved before the save action is completed. Examples of error messages include:</p> <ul style="list-style-type: none"> • Component code <XXXX> already exists. • Component code is invalid. • Unit of Measure is required. • Regular Cost Share Percentage may not exceed 100. <p>Note: Except for error messages for missing required values, error messages only display one message at a time. After correcting the single displayed error message an additional error message may display upon the next attempted save. All errors must be resolved before the save will be completed.</p>

8 Component Confirmation (Confirm Modifications to Component)

A Overview

The Component Confirmation (Confirm Modifications to Component) Screen will be displayed after the user clicks “Save” on the Create or Modify Component Screen. The name of this screen is somewhat confusing as a part of the copy component process. Even if the user doesn’t make changes to the component while copying the overall component is considered modified because an additional representation of the component has been created in a new county dataset.

B Example of Component Confirmation (Confirm Modifications to Component) Screen

The following is an example of the Component Confirmation (Confirm Modifications to Component) Screen.

You are logged in as a County user

C Fields, Descriptions, and Actions

Data fields are the same as paragraph 5. The user may begin the copy process again if desired.

5-3-23

6-CRP Amend. 1

Page 23

Section 3 Program Provisioning for State Users

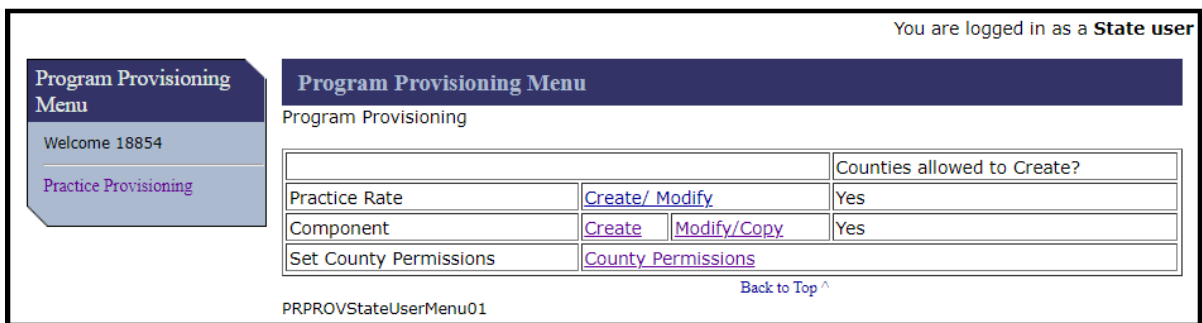

10 Program Provisioning Menu Screen – State User

A Overview

State specialists have the ability to create components for use in CRP cost share applications. Once created, county users can copy the State-created components to their county dataset. The basic process for creating a component at the State level is the same as the county user process except that there are additional attributes that must be addressed by the State user. When creating components at the State level the State specialist must determine which data elements of the component, if any, county users are able to edit.

B Example of Program Provisioning Menu Screen (State User)

After accessing program provisioning according to Paragraph 1, the State user will be presented with the State user version of the Program Provisioning Menu Screen. The following is an example of the Program Provisioning Menu Screen.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the State user version of the Program Provisioning Menu Screen.

Field/Button	Description/Action
Practice Provisioning	Opens the “Program Provisioning Menu” Screen.
Practice Rate Create/Modify	Used to create a practice rate for use in creating cost share agreements. Practice rates are not authorized for use in CRP cost share for CRP-1s approved under Signups 53 and later and will not be addressed in this exhibit.
Component Create	Used to create components for use in creating cost share agreements. After clicking Create the Create or Modify Component (State User) screen is displayed.

10 Program Provisioning Menu Screen – State User (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Button	Description/Action
Component Modify/Copy	Used to modify existing components in the State program provisioning dataset. Used to copy components created by the national office. Copying a component adds the component to the user’s State dataset. After clicking Modify/Copy the List of Existing Components (State Component List) is displayed.
County Permissions	Used to grant or deny permission for county users in the user’s State to create practice rates and/or components. After clicking County Permissions, the Set Permissions Screen is displayed.

11 Create Component (State User)

A Overview

After selecting “Create” in the component row on the Program Provisioning Menu Screen the Create or Modify Component (Create Component) screen will be displayed. This is the screen used to create a new component.

B Example of Create or Modify Component (Create Component) Screen

The following is an example of the Create or Modify Component (Create Component) Screen for a State user.

The screenshot displays the 'Create or Modify Component' interface. At the top right, it indicates 'You are logged in as a State user'. The left sidebar shows 'Program Provisioning Menu' with 'Welcome 18854' and 'Practice Provisioning'. The main content area is titled 'Create or Modify Component' and 'Create Component'. A note states: 'All required fields are denoted by an asterisk (*)'. The form includes the following fields and options:

- States: Missouri
- * Category: Select Category (dropdown)
- * Sub Category: (dropdown)
- * Component Code: (text input)
- * Descriptive Title: (text input)
- * Unit of Measure: Select unit of measure (dropdown)
- Rate Type: Select Rate Type (dropdown)
- * Average Actual Unit Cost (\$): (text input)
- * Average Unit Cost for SDA - Not Gender (\$): (text input)
- Effective Start Date (MM/dd/yyyy): (calendar icon)
- Effective End Date (MM/dd/yyyy): (calendar icon)
- Regular Cost Share Percentage: (text input)
- Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage: (text input)

On the right side, there are checkboxes for 'Changeable by' with options for 'County', 'State', and 'County by County'. At the bottom, there is a 'Save' button and a 'Back to Top' link. The footer shows the URL 'PRPROVCreateOrModifyComponent01'.

11 Create Component (State User) (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Create or Modify Component (Create Component) Screen.

Field	Description/Action
Practice Provisioning	Opens the “Program Provisioning Menu” Screen. If this button is clicked without first saving edits for a new component that is being created all edits are lost.
States	Defaulted to the State of the user. Cannot be modified.
Category	<p>User must select the category under which the component will be created. See Exhibit 9 for Category to CRP Practice relationships. Components created will only be available for selection in CSS for practices associated to the category under which the component was created.</p> <p>For example, Practice CP1 is associated to Category “(04) Planting” in Exhibit 9 but is not associated to Category “(07 Earthwork/Structural Work”. Components created using Category “(04) Planting” will be displayed in the component drop-down list when creating a cost share application for Practice CP1. Components created using Category “(07) Earthwork/Structural Work” will not display in the component drop-down list when creating a cost share application for Practice CP1.</p>
Subcategory	User must select the Subcategory under which the component will be created. The user should choose the Subcategory that most closely represents the component being created.
Component Code	<p>User must enter a component code for the new component being created.</p> <ul style="list-style-type: none"> • Component codes are the unique identifier for the specific component and cannot be duplicated. If a component already exists for the identifier entered, user will receive a hard stop error message stating “Component Code already Exists”. User must change the proposed identifier for the new component to something else and reattempt the save. • Component codes consist of any combination of alphabetical or numeric characters. Special characters such as “#”, “%”, “!”, etc. are not permitted. User must enter a minimum of one alpha/numeric character but no more than 12 alpha/numeric characters for the component identifier.
Descriptive Title	User must enter a descriptive title for the new component. Since component codes are limited to a maximum of 12 characters users will frequently need to use abbreviations or code numbers for new components. The descriptive title may be up to 500 characters in length providing the user with the ability to go into more detail and specifically identify the uniqueness of the component.

11 Create Component (State User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Unit of Measure	User must select a single Unit of Measure for the component from the drop-down list.
Rate Type	<p>User must select the rate type for the component. Beginning with CRP Signup 53 all CRP cost share is to be paid using “Percent of Cost Not to Exceed” rate types. Cost Share for FMI and CLEAR30 payments is to be paid using flat rates.</p> <p>Available rate types include:</p> <ul style="list-style-type: none"> • Percent of Cost Not to Exceed – CSS pays: Lesser of: Producer’s Extent Performed X Cost Share Rate or Producer’s Actual Cost X Cost Share Percentage • Percent of Cost <u>1/</u> – CSS pays: Lesser of: Approved Amount or Producer’s Actual Cost X Cost Share Percentage • Flat Rate <u>1/</u> – CSS Pays: Lesser of: Producer’s Extent Performed X cost share rate or Producer’s Actual Contribution • FMI Flat Rate <u>2/</u> – CSS Pays: Lesser of: Producer’s Extent Performed X FMI rate or Producer’s Actual Contribution • CLEAR30 Flat Rate <u>3/</u> – CSS Pays: Producer’s Extent Performed X CLEAR30 rate.

1/ Not applicable for CRP contracts for Signup 53 and later.

2/ FMI Flat Rates are created by the National Office and are copied from the national list to the applicable county dataset. County and State users are not authorized to create FMI flat rates locally.

3/ CLEAR30 Flat Rates are created by State Specialists and are copied from the State list to the applicable county dataset. County users are not authorized to create CLEAR30 flat rates.

11 Create Component (State User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Average Actual Unit Cost	User must enter 100% of the average actual cost for the area where the component will be used. Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a "\$" or a separating comma when entering values. For example, \$100.00 is entered as "100.00".
Average Actual Unit Cost for SDA – Not Gender	This data element does not impact CRP cost share. It only applies to BCAP cost share agreements. User must enter the cost as the same amount used for the Average Actual Unit Cost data element unless that amount exceeds \$1,500.00. If the Average Actual Unit Cost exceeds \$1,500.00 enter "1500.00". Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a "\$" or a separating comma when entering values. For example, \$100.00 is entered as "100.00".
Effective Start Date	User must enter the Effective Start Date as the date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1 st , 2023. Cost share agreement approvals will fail if the approval date is before the component effective start date.
Effective End Date	User must enter the Effective End Date as the last date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1 st , 2023. Cost share agreement approvals will fail if the approval date is after the component effective end date.
Regular Cost Share Percentage	User must enter the Regular Cost Share Percentage for the component. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as "50". If the component being created will only be used for CRP cost share agreements the regular cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the regular cost share percentage should be entered as 75%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.

11 Create Component (State User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage	<p>User must enter the Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage for the component. This data element does not apply to CRP cost share and does not impact cost share calculations. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage should be entered as 90%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.</p>
Changeable by County	<p>The State user must designate whether or not county users are permitted to change the following five data elements.</p> <ol style="list-style-type: none"> 1. Rate Type 2. Average Actual Unit Cost 3. Average Unit Cost for SDA – Not Gender 4. Effective Start Date 5. Effective End Date. <p>Adding a checkmark to the box means the data element to the left of the box can be changed by the county user. Leaving the box blank means the data element cannot be changed by the county user. Clicking in an empty box adds a checkmark. Clicking in a box containing a checkmark removes the checkmark.</p>

11 Create Component (State User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field	Description/Action
Save	<p>Clicking “Save” opens the Component Confirmation (Confirm Creation of Component) screen. Validations are performed at the time “Save” is clicked. If any required data elements are missing or any data elements contain invalid data, self-explanatory error messages are displayed and must be resolved before the save action is completed. Examples of error messages include the following.</p> <ul style="list-style-type: none"> • Component code <XXXX> already exists. • Component code is invalid. • Unit of Measure is required. • Regular Cost Share Percentage may not exceed 100. <p>Note: Except for error messages for missing required values, error messages only display one message at a time. After correcting the single displayed error message an additional error message may display upon the next attempted save. All errors must be resolved before the save will be completed.</p>

12 Component Confirmation (Confirm Creation of Component) Screen

A Overview

After the user selects “Save” from the Create or Modify Component (Create Component) Screen the Component Confirmation (Confirm Creation of Component) Screen will be displayed.

12 Component Confirmation (Confirm Creation of Component) Screen (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Documentation Screen.

Field/Link	Description/Action
Practice Provisioning	Opens the Program Provisioning Menu Screen. If this button is clicked without first confirming the information for the new component that is being created all edits for the new component are lost.
Confirm	Saves the new component in the State dataset and returns the user to the Program Provisioning Menu Screen.
Back	Returns the user to the Create or Modify Component (Create Component) Screen with the previously entered data for the new component displaying on that screen, but not saved in the State dataset. Note: Cost share percentages are lost during the Back process and should be re-entered before re-attempting to save the component.

13 Copy Component (State User)

A Overview

State users have the ability to copy components created by other users. State users may be asked to copy components created by the national office and provide those components to county offices. Just as State users have the ability to grant or deny county users permission to edit data elements of a component, the national office may also restrict State users from being able to edit data elements of components created at the national level.

The process of a State user copying a component is essentially the same as the county user copy process. It begins from the Program Provisioning Menu Screen using the Modify Copy link. After clicking Modify/Copy on the Program Provisioning Menu Screen the List of Existing Components Screen for the State is displayed.

13 Copy Component (State User) (Continued)

B Example of List of Existing Components Screen

The following is an example of the default view of the List of Existing Components Screen. The screen is defaulted to the administrative State of the user. To see components created by other users the selected State must be reset.

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Practice Provisioning	Returns the user to the Program Provisioning Menu Screen.
Program	<p>Provides a list of Programs indirectly associated to components through practices, component categories and component subcategories.</p> <p>It is not necessary to select a program. Even though this exhibit is devoted to copying a component to be used in CRP cost share applications it is not recommended to select CRP. Doing so may unnecessarily prevent the desired component from displaying. It is recommended that this data field be left as “All Options”.</p> <p>If the user wants to limit the components displayed in the list to only those components that are already associated to CRP practices, the user must select “CRP” so CRP practices will display in the practice drop-down list.</p>
Practice	<p>Provides a list of Practices indirectly associated to components through component categories and component subcategories.</p> <p>No practices will display if the user hasn’t first selected a program.</p> <p>It is not necessary to select a practice. Doing so may unnecessarily prevent the desired component from displaying. It is recommended that this data field be left as “All Options”.</p> <p>If the user wants to limit the components displayed in the list to only those components that are already associated to a specific CRP practice the user must select that specific practice from the list. Only one practice can be selected at a time.</p>
Technical Practice	Provides a list of Technical Practices. It is not necessary to select a technical practice. Doing so may unnecessarily prevent the desired component from displaying. It is recommended that this data field be left as “All Options”.
State	<p>Data field defaults to the State of the user. This must be changed to All options to view components created at the national level.</p> <p>Users may change this value to another State if there is a specific component created by that State that the user wants to copy.</p>

13 Copy Component (State User) (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
County	Data field defaults to All Options. It is recommended that this data field be left as the defaulted All Options. Populating a county in this data field will limit the search results to only those components that exist in the selected county's dataset.
Component Code	<p>Allows the user to limit the search results to only those component codes containing the specific characters entered in the data field. If the component code is known the most efficient way to search is to use the component code search with all other data fields set to "All Options" or blank when applicable.</p> <p>The user does not need to type the full component code to find the specific component. For example, if the user is searching for component "ABC123" if the user types "ABC" the component "ABC123" will display in the results. Any other component containing the text "ABC" will also display in the search results. Component "XYZABC12" would also display in the search results.</p> <p>Searches are not case specific. If the user searches for "abc" component "ABC123" will display in the search results because it contains the character string "abc" even though the case does not match.</p>
Descriptive Title	<p>Allows the user to limit the search results to only those descriptive titles containing the specific characters entered in the data field. The user does not need to type the full descriptive title find the specific component.</p> <p>The descriptive title works in the same manner as the component code search shown above. However, it may be difficult to anticipate which components contain the specific characters. As a result, the search results may not be effectively limited.</p>
Search	Triggers the search process based upon the criteria entered by the user.
Modify/Copy	User must click Modify/Copy for the row of the component that they want to copy. The Create or Modify Component Screen will be displayed.

14 Create or Modify Component

A Overview

The Create or Modify Component Screen will be displayed after the user clicks “Modify/Copy” on the List of Existing Components Screen. The name of this screen is somewhat confusing as a part of the copy component process. The screen name illustrates that as a part of the copy process the user may be able to edit certain data elements. The screen is initially displayed with the data for the component as it exists in the National dataset from which it was copied. Any data element with a red asterisk on the right side of the field name may be edited before saving. Edits made on this screen apply only to the representation of the component in the State dataset where it will be created. Edits do not impact the attributes of the component as it exists in its originating dataset.

14 Create or Modify Component (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Practice Provisioning	Returns the user to the Program Provisioning Menu Screen without populating the component in the State dataset.
Note: The following first five data elements are only editable if the National Office has granted permission for State users to edit the data element. A red asterisk will be displayed to the right of the data field name if it is editable.	
Rate Type	User may accept the existing Rate Type or select a different rate type from the drop-down list. Rate type used for cost share applications for Signup 53 and later CRP contracts should always be “Percent of Cost – Not to Exceed”.
Average Actual Unit Cost	User may accept the existing Average Actual Unit Cost or enter a different cost based upon the average actual cost for the area in which the component will be used. Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a “\$” or a separating comma when entering values. For example, \$100.00 is entered as “100.00”.
Average Actual Unit Cost for SDA – Not Gender	User may accept the existing Average Actual Unit Cost for SDA – Not Gender or enter a different cost. This data element does not impact CRP cost share. It only applies to BCAP cost share agreements. User must enter the cost as the same amount used for the Average Actual Unit Cost data element unless that amount exceeds \$1,500.00. If the Average Actual Unit Cost exceeds \$1,500.00 enter “1500.00”. Costs may be entered up to four decimal places. Any decimal places not entered are considered as zeroes by the system. Do not enter a “\$” or a separating comma when entering values. For example, \$100.00 is entered as “100.00”.
Effective Start Date	User may accept the existing Effective Start Date or enter a different date that reflects the date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1, 2023. Cost share agreement approvals will fail if the approval date is before the component effective start date.
Effective End Date	User may accept the existing Effective End Date or enter a different date that reflects the last date the component will be available for use in cost share applications. This can be a past or future date. Dates are entered in month-day-year format. For example: 10/01/2023 represents October 1, 2023. Cost share agreement approvals will fail if the approval date is after the component effective end date.

14 Create or Modify Component (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Regular Cost Share Percentage	User may accept the existing Regular Cost Share Percentage for the component or enter a different percentage. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the regular cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the regular cost share percentage should be entered as 75%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.
Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage	User may accept the existing Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage for the component or enter a different percentage. This data element does not apply to CRP cost share and does not impact cost share calculations. Percentages are entered in whole numbers with acceptable values being between 1 and 100. For example, 50% is entered as “50”. If the component being created will only be used for CRP cost share agreements the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage can be entered as 50%. However, if the component may potentially be used in cost share applications such as ECP or EFRP the Lim Res, Soc Dis (NG), Beg Fmr cost share percentage should be entered as 90%. CRP cost share applications using this component will still only pay at the 50% rate since the CRP program limits cost share to a 50% rate.
Changeable by County	<p>If the national user who created the component designated the component as changeable by the State user, the State user must designate whether or not county users are permitted to change the following five data elements. State users will only have the option to permit county users to change those specific data elements where the national user designated the data element as changeable by the State user.</p> <ol style="list-style-type: none"> 1. Rate Type 2. Average Actual Unit Cost 3. Average Unit Cost for SDA – Not Gender 4. Effective Start Date 5. Effective End Date. <p>Adding a checkmark to the box means the data element to the left of the box can be changed by the county user. Leaving the box blank means the data element cannot be changed by the county user. Clicking in an empty box adds a checkmark. Clicking in a box containing a checkmark removes the checkmark.</p>

14 Create or Modify Component (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Save	<p>Clicking “Save” opens the Component Confirmation (Confirm Modifications to Component) Screen. Validations are performed at the time “Save” is clicked. If any required data elements are missing or any data elements contain invalid data, self-explanatory error messages are displayed and must be resolved before the save action is completed. Examples of error messages include the following.</p> <ul style="list-style-type: none"> • Component code <XXXX> already exists. • Component code is invalid. • Unit of Measure is required. • Regular Cost Share Percentage may not exceed 100. <p>Note: Except for error messages for missing required values, error messages only display one message at a time. After correcting the single displayed error message an additional error message may display upon the next attempted save. All errors must be resolved before the save will be completed.</p>

15 Component Confirmation (Confirm Modifications to Component)

A Overview

The Component Confirmation (Confirm Modifications to Component) Screen is displayed after the user clicks Save on the Create or Modify Component Screen. The name of this screen is somewhat confusing as a part of the copy component process. Even if the user doesn’t make changes to the component while copying the overall component is considered modified because an additional representation of the component has been created in a new State dataset.

15 Component Confirmation (Confirm Modifications to Component) (Continued)

16 List of Existing Components (State Component List) (Continued)

C Fields, Descriptions, and Actions

Data fields are the same as paragraph 12. The user may begin the copy process again if desired.

17 Set County Permissions

A Overview

State specialists have the ability to grant permission to county users in their State to create components and/or set practice rates. State specialists may also prevent county users in their State from creating components and/or setting practice rates. After clicking County Permissions on the Program Provisioning Menu (State User) the Set Permission Screen is displayed. Granting or preventing county user creation of components and/or setting of practice rates occurs on the Set Permission Screen.

B Example of Set Permission Screen

The following is an example of the Set Permission Screen.

The screenshot displays a web application interface for setting permissions. On the left is a sidebar menu with 'Program Provisioning Menu' and 'Practice Provisioning'. The main content area has a dark blue header 'Set Permission' and a sub-header 'County Permissions'. Below this, there is a label 'Permissions for state:' followed by a dropdown menu showing 'Missouri'. Two checkboxes are present: 'Allow counties to create component?' and 'Allow counties to set a practice rate?', both of which are checked. At the bottom left of the form area is a 'Save' button, and at the bottom right is a 'Back to Top' link. The footer of the page contains the text 'PRPROVSetPermissions01'. In the top right corner of the application window, it says 'You are logged in as a State user'.

17 Set County Permissions (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen.

Field/Link	Description/Action
Practice Provisioning	Returns the user to the Program Provisioning Menu Screen without saving any edits that have occurred on the Set Permission Screen.
Allow counties to create component?	Entering a checkmark in the box permits county users to create components. Removing a checkmark from the box prevents county users from creating components. Clicking in an empty box adds a checkmark. Clicking in a box with a checkmark removes the checkmark.
Allow counties to set a practice rate.	Entering a checkmark in the box permits county users to set a practice rate. Removing a checkmark from the box prevents county users from setting a practice rate. Clicking in an empty box adds a checkmark. Clicking in a box with a checkmark removes the checkmark.
Save	Returns the user to the Program Provisioning Menu Screen and saves any edits that were made on the Set Permission Screen. A confirmation message “County Permissions have been successfully updated” is displayed on the Program Provisioning Menu Screen.

Section 4 Program Provisioning for National Users

18 National Office Program Provisioning Functions

A Overview

National Automation Specialists perform numerous functions in Program Provisioning to assist State and county users in program management of both program provisioning and cost share applications. An overview of national user functions is provided to enhance State and county users understanding of program provisioning. The Program Provisioning Menu Screen for national users contains additional functions not available to State and county users. These additional functions allow the national specialist to assist State and county users in multiple ways.

B Example of Program Provisioning Menu Screen (National User)

18 National Office Program Provisioning Functions (Continued)

C Fields, Descriptions, and Actions

The following table provides the fields, descriptions, and actions for the Application Signup – Add Practices Screen for a national user.

Field/Link	Description/Action
Program	<p>National users are able to create new programs in Program Provisioning. Use of this action is quite rare since new conservation programs are typically authorized by legislation.</p> <p>National users are able to modify the attributes of existing programs. Important attributes such as if the program is eligible for cost share, if ledgers are applicable, maximum cost share percentages at the program level, and many other attributes are managed by the national user.</p> <p>National users may also retire a program, or unretire a program that has previously been retired. If a program is retired the program will no longer be visible or accessible in CSS.</p>
Program Eligibility Questions	<p>National users are able to create, modify, and retire/unretire program eligibility questions that are displayed in CSS. There are no eligibility questions displayed in CSS for CRP. Eligibility for CRP cost share is based upon the producer’s eligibility to participate in CRP. When the CRP-1 is approved producers associated with the approved CRP contract are considered eligible to earn CRP cost share.</p>
Program Accounting Code	<p>Program Accounting Codes used in cost share applications are created by national users in program provisioning.</p>
Fund Code	<p>Fund Codes used in cost share applications are created by national users in program provisioning.</p>
Practice	<p>National users are able to create new practices, modify existing practices, and retire/unretire practices. When a practice is retired it no longer displays as a practice available for use in CSS.</p> <p>Component categories are associated to CRP practices in program provisioning by national users. Component categories play a critical role in CSS since only components created under a category associated to a specific CRP practice will be available for use in cost share applications for that practice.</p>
Practice Rate	<p>National users are unable to set practice rates. However, national users control the ability of State users to set practice rates.</p>
Category	<p>National users are able to create, modify, and retire/unretire component Categories. When a category is retired it no longer displays as a category in program provisioning. Any components associated to that category will no longer be available for use in CSS.</p> <p>Subcategories are associated to categories in program provisioning.</p>

18 National Office Program Provisioning Functions (Continued)

C Fields, Descriptions, and Actions (Continued)

Field/Link	Description/Action
Subcategory	<p>National users are able to create, modify, and retire/unretire component Subcategories. When a subcategory is retired it no longer displays as a category in program provisioning. Any components associated to that subcategory will no longer be available for use in CSS.</p> <p>The only modification possible for a subcategory is the descriptive title of the subcategory. Association of subcategory to category is done at the category level. Association of practices to subcategories is done at the practice level.</p>
Component	<p>National users are able to create, modify, and retire/unretire components in program provisioning.</p> <ul style="list-style-type: none"> • For component modifications, national users are able to modify every component attribute except for the component code. State specialists can submit via SharePoint requests to modify attributes not editable by State or county users such as Category, Subcategory, Descriptive Title, and Unit of Measure if an error occurs during creation of a component by a State or county user. • It is not possible to delete a component once it has been created and saved, but national users can retire a component so that component no longer appears as a selection option in CSS. <p>National users can also grant permission for State and county users to edit data elements of components or restrict the ability to edit those data elements.</p>
Set State Permissions	<p>National users are able to permit State users to create components and/or set practice rates. National users are also able to prevent State users from creating components and/or setting practice rates.</p>

Section 5 Additional Program Provisioning topics

19 Multi-Level Component Representations

A Overview

Each county has a unique dataset of components available for use by that specific county. Similarly, each State has a unique dataset of components for that State. Additionally, there is a national level dataset of components. When working in program provisioning it is important to understand that even if the same component code exists in all three levels, the component at the county level is maintained as a separate component than the component at the State level, and the component at the State level is maintained as a separate component from the component at the national level.

Multi-level component representations work according to a hierarchy of the three levels (county, State, national) with the county datasets being the lowest but most important level. Cost share agreements can only be created at the county level using components specific to that county. Even though State and national users have the ability to create and edit cost share agreements, the agreements are created and maintained at the administrative county level with components contained on the agreement selected from the county dataset of the physical location county of the tract. The State level is the next higher level in the hierarchy. The national level is the highest level of the hierarchy.

B Upward Replication of Components Created at the County Level

When a component is created at the county level, the component replicates up and is created in the State and national databases. The initial creation is the only time the county user's edits replicate up to the higher levels. Immediately following this representation all three levels are in synch, but as soon as edits are made to the component at any level there is a possibility that the representation of the component will become out of synch with the other levels.

The following screenshots illustrate upward replication of county-created components. This component was created by a county user. Neither the State user nor the national user created component XYZ123, but a representation of this component was replicated into both the State and national databases. Note that the component change history for all three levels indicates the exact same information, including the "Changed Date" which in this case reflects the "change" of the component being created.

B Upward Replication of Components Created at the County Level (Continued)

Key Points for Replicated Version of the Component at the State Level.

- Exactly the same representation of the component created at the county level, but this representation is housed in the State level dataset.
- Category, Sub Category, Component Code, Descriptive Title, and Unit of Measure are not editable by the State user.
- Other counties will be able to search and find the component in the State dataset if they want to copy the component.
- Replicates with all 5 “Changeable by County” data elements checked. If the State changes its representation of these permissions the changes will apply to other counties that attempt to copy the component, but they will not apply to the county that created the component.
- County creation of the component is reflected in the State change history because even though the county created the record, the State representation of the component was simultaneously created in the State level database. Future changes to the component at the State level will only reflect changes made by a State user.

Percent of Cost - Not to Exceed	\$ 150.00	\$ 150.00	02/15/2023	02/15/2033	02/15/2023 17:00:55

Key Points for Replicated Version of the Component at the National Level.

- Exactly the same representation of the component created at the county level, but this representation is housed in the national level dataset.
- Unlike the county and State level representations of the component Category, Sub Category, Descriptive Title, and Unit of measure are editable by the national user. Edits made to these data elements by the national user replicate down to State and county versions of the component, but no record of the change is populated in the county and State versions of the change history.

19 Multi-Level Component Representations (Continued)

B Upward Replication of Components Created at the County Level (Continued)

- Component Code is not editable by the State user. Once created a component code can never be deleted and that same component code can never be reused.
- State and county users will be able to search and find the component code in the national dataset.
- Replicates with all 5 “Changeable by County” and all 5 “Changeable by State” data elements checked. If the national user changes its representation of these permissions the changes will apply to other States or counties that attempt to copy the component from the national level, but they will not apply to the county that created the component.
- County creation of the component is reflected in the national level change history because even though the county created the record, the national representation of the component was simultaneously created in the national level database. Future changes to the component history at the national level will only reflect changes made by a national user.

C Downward Replication of Components Created at the State and National Level

When a component is created at a higher level of the hierarchy (either State or national level) the component does not automatically replicate downward to lower levels. Components created at the State level replicate up to the national level, but county users can only get access to the newly State-created component by using the copy process to establish the component in their database. Components created at the national level do not replicate down to either State or county levels. State and county users can access national-created components by using the copy process to establish the national-created component in their database at their respective level (State or county).

19 Multi-Level Component Representations (Continued)

D Downward Replication of Edits to Components

Certain edits made to a component at a higher-level replicate down to lower-level versions of the component while others do not. The determining factor of whether edits to a component replicate down to lower levels is if the lower level has been designated as being able to edit the data element. If the lower-level user (county or State) can edit a data element, changes made to the component at a higher level do not overwrite the data element at the lower level. This prevents unknown and unexpected changes from occurring to the lower-level representation of the component. If the lower-level user cannot edit a data element, edits to that data element made at a higher level are replicated to the lower-level representation of the component. This provides a means for edits and corrections to be made on behalf of the lower level and keeps the data element in synch between the various levels.

19 Multi-Level Component Representations (Continued)

D Downward Replication of Edits to Components (Continued)

i Example of Downward Replication of Edits

- National user changed the descriptive title of component “XYZ123” originally created by the county office from “Cow Trap” to “Cow Catcher” in the national version of the component. Since Descriptive Title is a data element that cannot be edited by county or State users, changes made at the national level will replicate down to the county and State versions of the component.
- National user changed the “Changeable by” data element to restrict changes to Rate Type by county users and Effective End Date by State users.
- Component Change History is updated in the national representation of the component since the changes were made by the national user. The component history only displays 5 data elements. Since the changes made for this example didn’t affect any of the 5 data elements that are displayed none of the changes made by the national user are reflected in the change history. The only noticeable change that can be derived from the component history at the national level is that one or more data elements were updated by a national user at 19:50:36 (7:50 PM) on the same day that the component was originally established in the database.

19 Multi-Level Component Representations (Continued)

D Downward Replication of Edits to Components (Continued)

ii State Representation of National User Changes Replicated Down

19 Multi-Level Component Representations (Continued)

D Downward Replication of Edits to Components (Continued)

Key Points for Downward Replicated National Edits in the State Version of the Component.

- Descriptive Title reflects edits by the national user and now shows as “Cow Catcher”.
- Changeable by County for the Rate Type data element is now unchecked based upon the edits by the national. If a county user copies this State version of the component, they will be unable to edit the rate type. Note that because the national version of the component still has the “Changeable by State” checked, the State user can change the rate type and can also re-check the changeable by county box if they choose to do so.
- State user can no longer edit the effective end date because the national user un-checked the “Changeable by State” box for this data element and that change replicated down to the State version of the component.
- Even though changes occurred to the State version of component XYZ123 as a result of the national user edits, no row is added to change history of the State version of the component since no changes were made by the State user.

iii County Representation of National User Changes Replicated Down

19 Multi-Level Component Representations (Continued)

D Downward Replication of Edits to Components (Continued)

Key Points for Downward Replicated National Edits in the County Version of the Component.

- Descriptive Title reflects edits by the national user and now shows as “Cow Catcher”.
- Even though the national user un-checked the “Changeable by County” box that change did not apply to this county’s version of the component since this is the county that originally created the component.
- Even though changes occurred to the county version of component XYZ123 as a result of the national user edits, no row is added to change history of the county version of the component since no changes were made by the county user.

20 Component Change History

A Overview

Every component has a change history at every level (county, State, or national). To properly interpret the change history users must understand the limitations of change history in program provisioning. These limitations include the following:

- Limited data elements are displayed in the change history.
- Entries in the change history only represent changes made by users at the specific level of the component. Users at higher levels are unable to view the true representation of a component at a lower level.
- Ghost edits may be logged in the change history.
- Lack of insight from one level to another.

20 Component Change History (Continued)

B Limited Data Elements Displayed in Change History

The 5 main data elements of a component are displayed in the change history of a component. These 5 data elements include:

- Rate Type
- Average Actual Unit Cost
- Average Unit Cost for SDA – Not Gender
- Effective Start Date
- Effective End Date.

In addition to these five data elements the date and time a change is made to the component is also captured. Other changes such as changes to Regular Cost Share Percentage and Lim Res, Soc Dis (NG), Beg Fmr Cost Share Percentage are not captured in change history, but will create a row in the change history if the user changes one of those data elements and clicks “Save” on the Modify Component Screen.

At the State level components contain “Changeable by County” flags and at the national level components contain both “Changeable by County” and “Changeable by State” settings. Edits to “Changeable by ...” settings are not reflected in change history but will cause an additional row to be entered in the change history when a change to these settings is saved.

Finally, Category, Sub Category, Descriptive Title, and Unit of Measure are not editable by State or county users but can be changed by a national user. Changes to these four data elements by a national user create a row in the change history at the national level, but this row does not provide any insight into what was changed. Edits to these four data elements by a national user result in updated information in State and county versions of the component, but do not insert a row into the change history of the State and county versions of the component.

C Change History and Component View are User-level Specific

Except for upward replication that occurs when a component is initially created at the county level or State level, edits made at one level of a component only result in an entry in the change history for that level of the component. National and State users are unable to see entries in the change history for levels below their specific user level.

20 Component Change History (Continued)

D Ghost Edits Cause an Entry in the Change History

Because there is no “View” option in program provisioning users must search for components using the Modify/Copy option. If after viewing a component using this option, the user exits the page by clicking save without changing any data elements a row is added to the change history. This ghost edit row will look identical to the row above since none of the five editable data elements was changed, except the “Changed Date” data element will have a different date and time than the row above. The same results occur if the user changes either of the cost share percentage data elements. For this reason, it is impossible to distinguish which actions were taken to create the ghost edit row.

E Lack of Insight Between Component Levels

State and national users must be aware that even if the State or national user includes the specific county and State in their search criteria when searching for a component, the component that is returned and that the State or national user is able to view is the representation of the component as it exists at the user’s respective level. Because the representation of the component is unique at the State, county, and national level and edits made at the various levels can result in the representations for each level being out of synch with other levels, State and national users need to understand that the only way a State or national user can be sure they are seeing the county-level representation of a component is to either have the county user send them a screen shot of the component as it exists in the county’s database, or to conduct a screenshare session with the county user to look directly into the county database.

Including the specific State and county in a search for a component can be useful in determining if the component exists in the county database. If the State or county user searches for a component and includes the specific State and county in their search criteria and the search returns no results, that is an indication that the county has not yet copied that component into their database.

20 Component Change History (Continued)

E Lack of Insight Between Component Levels (Continued)

The following screens demonstrate the lack of insight that a State user has into county edits of the county version of a component.

i County User Updates Component

This screen continues from previous examples using component XYZ123. The county user has updated the average actual cost values from \$150.00 to \$175.00.

20 Component Change History (Continued)

E Lack of Insight Between Component Levels (Continued)

The only insight the State specialist can gain from a county-specific search is to determine if the component exists in the county database. The fact that a component was returned in the search results indicates that the component exists in the specified county database. If the component did not exist in the specified county database, the State specialist would have received the following “No items found” search results.

Code	Descriptive Title	Status	Last Updated	Modify
Nothing found to display.				
No items found.				

21 Troubleshooting Missing Components During Application Creation

A Overview

When creating new CRP cost share agreements users sometimes report that the component, they intend to add to the cost share agreement isn't available in the CSS drop-down listing of components. When this scenario occurs, it is almost always the result of one or the other of the following conditions.

- The land included on the CRP contract is physically located in a county other than the administrative county and the physical location county has not copied the component into their dataset. CSS uses physical location when determining the representation of the component that will be added to the agreement.
- The component was created using a category that is not associated to the CRP practice that is on the agreement.

B Determining the Cause of the Missing Component

i Verify the Physical Location of the Land

When a component is unavailable for use during creation of a CRP cost share agreement the first step that should be taken to troubleshoot the issue is to identify the physical location of the land. Within CSS on the “Application Signup – Add Contributors” page compare the administrative county listed in the application control number to the physical State and county shown for the tract containing the land associated with the cost share application. In the screen shot below the administrative county is Johnson County Missouri (29-101) but the physical location county for the tract is Cass County Missouri (29-037).

21 Troubleshooting Missing Components During Application Creation (Continued)

B Determining the Cause of the Missing Component (Continued)

Application Signup - Add Contributors

Control No : 29_101_2023_0040	Creation Date : 12/28/2022
Applicant Name : SAM FARMER	Project Area ID : 0
Agreement Status : INCOMPLETE	Contract Number : 25000

Following are the Producer/Contributor details.

All required fields are denoted by an asterisk{*}

Producer Farm Details					
* Producer(s)	Farm No.	Tract No.	* Field No.	State	County
SAM FARMER	0000001	0000001	1	29	037

Search for the component in the physical location county in program provisioning. Note that since program provisioning is not set up to accommodate nationwide customer service, if the county user is not associated as an employee of the physical county location the county user will need to request assistance from an employee associated to the physical location county or from the State office to search for the component in that county dataset. In this example the search results indicate that Cass County Missouri has not copied component XYZ123 into the Cass County dataset.

For this component to be available in the cost share agreement being created for Sam Farmer’s Jackson County CRP contract 25000 the component must first be copied into the Cass County dataset. Once the component is copied into the Cass County dataset, refresh the page in CSS and component XYZ123 should be displayed as a component available for selection. If the desired component still is not shown in the drop-down list for the practice, go to step 2.

21 Troubleshooting Missing Components During Application Creation (Continued)

B Determining the Cause of the Missing Component (Continued)

ii Verify the Component Category Maps to the CRP Practice

Sometimes the reason for missing components is that the component was not created using a category that maps to the CRP practice.

Looking within CSS the user can determine that the practice where the component will be added is practice CP21.

You are logged in as a County user

This category is not associated to practice CP21 according to Exhibit 9 and is therefore not authorized for use with practice CP21. As such, CSS does not display the component in the list of available components for practice CP21. If the county user and/or State specialist believe a specific component that is not currently available for use with a specific practice should be available, contact Conservation Division to determine if Exhibit 9 should be updated, or if the component should be modified to associate it to a different category that is associated to the desired practice.

Employee	 CRP Component Categories-Subcategories.xlsx

Full Termination with a Prorated Refund

Following is an example of a Full Termination with a Prorated Refund.

In this example a full termination of CRP-1 takes place at the start of the 7th year of the CRP contract. COC determines that since the CRP cover has provided conservation benefits for the previous 6 years of the CRP contract (60% of the contract lifespan) a prorated refund of only 40% of the CRP cost share will be required. Even though the CRP contract will be completely terminated, the cost share agreement must not be terminated. Termination of the cost share agreement would result in a receivable being created for the full amount of previously paid cost share.

To create a receivable for 40% of the cost share the user must enter negative producer actual costs and negative extents performed equal to 40% of the total previously reported amounts.

Important: This must be done in CSS before to terminating CRP-1 in CCMS.

Following is an example of calculations for creating the 40% prorated refund in this scenario.

CRP-1 contains 20 acres of Practice CP2. Cost share was paid for two components; 20 acres of grassland drill with a CS rate of 50% of actual cost not to exceed \$60 per acre, and 75 pounds of grass/legume/forbs seed mixture with a CS rate of 50% of actual cost not to exceed \$20 per pound. The producer's costs for the grassland drill were less than the average actual cost so the producer received cost share equal to 50% of his cost. The producer's cost for the seed was greater than the average actual cost so payment was limited to the "not to exceed" rate.

Component	Actual Cost	Extent Performed	Cost Share Earned	% of Acres Terminated x Prorated Refund %	40% of Actual Cost	40% of Extent Performed
Grassland Drill	\$2,200	20 Acres	\$1,100	100% x	\$880	8 Acres
Grass/Legume/Forbs Seed Mixture	\$3,200	75 Pounds	\$1,500	40% = 40%	\$1,280 0	30 Pounds

To create the 40% receivable the user must enter a new certification with:

- actual costs of -\$880 for the drill and -\$1,280 for the seed mixture
- extent performed of -8 acres for the drill and -30 pounds for the seed mixture.

The resulting overpayments by component will be \$440 for the drill and \$600 for the seed mixture, totaling \$1,040 which is equal to 40% of the total \$2,600 cost share that was originally paid.

Following these actions, CSS and CCMS will be out of sync because the cost share agreement will still show the remaining 60% of the contract acres as having been performed and having received cost share while CCMS will have no remaining acres. This should not cause any issues because no additional payments or refunds would be expected to occur for the terminated CRP-1.

Example of Partial Termination

In this example the producer will be voluntarily terminating 6.9 of the 20 acres on which cost share was received.

Step 1: The percentage of acres being terminated for the practice is $6.9/20 = 0.345$ or 34.5%.

Example of Partial Termination (Continued)

Step 2: The cost reduction for each component is:

- Component 22NI1 is $600 \times .345 = \$207$
- Component 22IG is $3200 \times .345 = \$1104$.

Step 3: For current actual cost enter -207 for component 22NI1 and -1104 for component 22IG.

Step 4: The negative extent to be entered for component 22IG measured in acres is easily determined as the 6.9 acres that will be terminated.

Step 5: The negative extent to be entered for component 22NI1 measured in pounds is $400 \times .345 = 138$.

Step 6: For the current extent performed enter -138 for component 22NI1 and -6.9 for component 22IG.

Step 7: Select “Yes” that practice is complete.

Step 8: Select “No” since there was no cost share from other sources.

Step 9: Total Installation cost to enter is \$2489 determined as follows:

- Total actual cost of practice components is \$3800 (22NI1=\$600, 22IG=\$3200)
- Total reduction of terminated portion of components is \$1311 (22NI1=\$207, 22IG=\$1104)
- $\$3800 - \$1311 = \$2489$.

Step 10: Acres served to enter is 13.1 determined as follows:

- Acres served initially by the practice was 20
- Acres being terminated is 6.9
- $20 - 6.9 = 13.1$.

Step 11: Select both components as complete.

Step 12: Enter current date in for date documentation received.

Step 13: Enter producer signature date.

Step 15: CLICK “Submit”.

Step 16: Complete a new TSP certification. Enter negative extents and other required data then CLICK “Continue to Next Step”. Verify information entered and CLICK “Submit” to confirm TSP certification.

Example of Partial Termination (Continued)

Data/Selection	Entry
Practice Extents	
Current Extent Performed	Enter the acres terminated= -6.9.
Component Extents	
Current Extent Performed	Enter the negative component extent determined during producer certification: <ul style="list-style-type: none"> • component 22NI1= -138 • component 22IG= -6.9.
Self-certifying performance without FSA, NRCS or other Technical Service Provider certification?	CLICK the “No” radio button
Person(s) who certified performance	Enter the name of employee performing the partial termination.
Affiliation	Select “FSA” from drop down menu.
Performance Report	Enter that certification is being done due to “partial termination”.
Date Referred to TSP	Enter the current date.
Certification Referral Expiration Date	Auto-populated to a date 1 month after the date referred to TSP. Leave the default date.
Date received from TSP	Enter the current date.
FSA_848B PDF	CLICK “FSA_848B PDF” to print FSA-848B. A TSP signature is not required during a partial termination.
TSP/Self Certification Date	Enter the current date.

COF Signature Date: 08/25/2022
CCC 770 Completion Date:

CRPCostShareCertifyAndPayMainConfirmation01 [Back to Top ^](#)

Verify that the payment process completed, and the correct refund amount is either in Common Payment Reports to be transferred to NRRS on COF obligated agreements, or already in NRRS for eFMS obligated agreements. If eligibility fails during the payment process, the entire payment will show as the refund amount and not just the partial refund amount. See paragraph 333 for additional information on overpayments.

Example of Partial Termination with a Prorated Refund

This scenario uses the same contract information as the full termination example in Exhibit 17, except instead of a full termination of the 20 acres under the CRP contract a partial termination of 5 acres (25% of the contract acres) is being processed with a prorated refund of 40% of the cost share on those 5 acres.

Component	Actual Cost	Extent Performed	Cost Share Earned	% of Acres Terminated x Prorated Refund %	40% of Actual Cost	40% of Extent Performed
Grassland Drill	\$2,200	20 Acres	\$1,100	25% x 40% =	\$220	2 Acres
Grass/Legume/Forbs Seed Mixture	\$3,200	75 Pounds	\$1,500	10%	\$320	7.5 Pounds

To create the 40% receivable for the 5 acres (25% of the contract acres) being terminated the user must enter a new certification with:

- actual costs of -\$220 for the drill and -\$320 for the seed mixture
- extent performed of -2 acres for the drill and -7.5 pounds for the seed mixture.

The resulting overpayments by component will be \$110 for the drill and \$150 for the seed mixture, totaling \$260 which is equal to 10% of the total \$2,600 cost share that was originally paid.

Following these actions, CSS and CCMS will be out of sync because the cost share agreement will still show the remaining 90% of the contract acres as having been performed and having received cost share and only 75% of the acres remain in CCMS. This will cause problems if additional payments need to be issued for the remaining acres or if additional partial terminations are needed.

If a prorated cost share refund for a partial termination has been processed and additional cost share payments or additional partial terminations are needed, the case should be submitted to the State specialist to be posted on the national SharePoint site for assistance in determining the actual costs and extents performed to be entered in CSS.

CRP Cost Share Payment Calculation Examples

Beginning with the 2018 Farm Bill all CRP cost share calculations are to use “Percent of Cost Not to Exceed” component rate types. When multiple components exist on a practice cost share is calculated separately for each component with the “Percent of Cost Not to Exceed” determination being applied separately by component. The sum of the calculated cost share amounts for all components is the cost share payment for the practice.

The information shown in the following table is used for three different examples of CRP cost share calculations. All three examples assume a single producer receives 100% of the cost share payment(s). These examples assume the practice is not eligible for a practice incentive payment (PIP) and the producer receives no cost share from other sources.

Practice CP2 – 20 Acres					
Component	Average Cost	Unit of Measure	Cost Share Rate	Extent Approved	Approved Cost Share
Native Grass Seed Mixture (NGSM)	\$35.00	Pound	50% of Actual Cost Not to Exceed \$17.50	60.00	\$1,050.00
Seedbed Preparation (SdBedPrep)	\$40.00	Acre	50% of Actual Cost Not to Exceed \$20.00	20.00	\$400.00
Seeding	\$30.00	Acre	50% of Actual Cost Not to Exceed \$15.00	20.00	\$300.00

Example 1: In this example the producer certifies completion of the full extent approved for all components in a single certification. The producer’s costs for components “NGSM” and “Seeding” are higher than the average cost used to establish the cost share rates, so the cost share paid is limited to the cost share amount that was approved based on the “Not to Exceed (NTE)” rate. The producer’s cost for component “SdBedPrep” was lower than the average cost used to establish the cost share rate, so the cost share paid is equal to 50% of the producer’s actual cost for this component.

Producer’s Costs			
Component	Cost per Unit	Units Performed	Total Producer Costs
NGSM	\$36.67	60.00	\$2,200.00
SdBedPrep	\$37.50	20.00	\$750.00
Seeding	\$34.00	20.00	\$680.00

CRP Cost Share Payment Calculation Examples (Continued)

Example 1 – Single Certification							
Component	Current Actual Cost	Prior Costs	Current Extent Performed	Prior Extent Performed	50% of Actual Cost	NTE Rate Times Extent Performed	Cost Share Amount
NGSM	\$2,200.00	\$0.00	60.00	0.00	\$1,100.00	\$1,050.00	\$1,050.00
SdBedPrep	\$750.00	\$0.00	20.00	0.00	\$375.00	\$400.00	\$375.00
Seeding	\$680.00	\$0.00	20.00	0.00	\$340.00	\$300.00	\$300.00
						Practice Total	\$1,725.00

Example 2: In this example the producer plants one of two fields contained on the CRP contract (36 out of 60 total acres) in the spring of the year as planned. However, before the producer is able to plant the second field of 24 acres prolonged heavy spring rains prevent the producer from planting the remaining grass. The producer is forced to wait until fall to plant the second field of grass. The producer requests cost share for the acres planted in the spring shortly after the acres are planted. Cost share will be requested for the remaining acres in the fall after those acres are planted. Just as in Example 1, the producer’s costs for components “NGSM” and “Seeding” are higher than the average cost used to establish the cost share rates, so the cost share paid is limited to the cost share amount that was approved based on the “Not to Exceed (NTE)” rate. The producer’s cost for component “SdBedPrep” was lower than the average cost used to establish the cost share rate, so the cost share paid is equal to 50% of the producer’s actual cost for this component.

Producer’s Costs – Spring Planting			
Component	Cost per Unit	Units Performed	Total Producer Costs
NGSM	\$36.67	36.00	\$1,320.00
SdBedPrep	\$37.50	12.00	\$450.00
Seeding	\$34.00	12.00	\$408.00

CRP Cost Share Payment Calculation Examples (Continued)

Example 2 – Partial Certification – First Certification (1 of 2)							
Component	Current Actual Cost	Prior Costs	Current Extent Performed	Prior Extent Performed	50% of Actual Cost	NTE Rate Times Extent Performed	Cost Share Amount
NGSM	\$1,320.00	\$0.00	36.00	0.00	\$660.00	\$630.00	\$630.00
SdBedPrep	\$450.00	\$0.00	12.00	0.00	\$225.00	\$240.00	\$225.00
Seeding	\$408.00	\$0.00	12.00	0.00	\$204.00	\$180.00	\$180.00
					Practice Total		\$1,035

When the producer plants the remaining 24 acres in the fall, his costs for seed bed preparation increase on these acres and his costs for seeding are less for these final 24 acres than they were for the 36 acres planted in the spring. The native grass seed mixture costs remain the same as they were in the spring.

When multiple certifications exist for a component CSS calculates payments based on the cumulative totals of the costs incurred and extents performed for each component on all certifications. It's important to understand that subsequent payment amounts use the cumulative totals because the resulting payments may be different than they would be if the subsequent certification stood on its own. The tables below illustrate this concept.

Producer's Costs – Fall Planting			
Component	Cost per Unit	Units Performed	Total Producer Costs
NGSM	\$36.67	24.00	\$880.00
SdBedPrep	\$42.00	8.00	\$336.00
Seeding	\$28.00	8.00	\$224.00

CRP Cost Share Payment Calculation Examples (Continued)

Example 2 – Partial Certification – Second Certification (2 of 2)							
Component	Current Actual Cost	Prior Costs	Current Extent Performed	Prior Extent Performed	50% of Cumulative Actual Cost	NTE Rate Times Cumulative Extent Performed	Cost Share Amount
NGSM	\$880.00	\$1,320.00	24.00	36.00	\$1,100.00	\$1,050.00	\$1,050.00
SdBedPrep	\$336.00	\$450.00	8.00	12.00	\$393.00	\$400.00	\$393.00
Seeding	\$224.00	\$408.00	8.00	12.00	\$316.00	\$300.00	\$300.00
					Practice Total		\$1,743.00

After computing the total cost share amount according to the cumulative totals, CSS sends this cumulative total amount to the payment system where the newly calculated total payment amount is compared to the previous payment amounts to determine what the new (additional) payment amounts should be as outlined in the following table.

Example 2 – Partial Certification – Second Certification (2 of 2)			
Component	Cumulative Payment Amount	Prior Payment(s) Amount	Resulting Current Payment
NGSM	\$1,050.00	\$630.00	\$420.00
SdBedPrep	\$393.00	\$225.00	\$168.00
Seeding	\$300.00	\$180.00	\$120.00
		Practice Total	\$708.00

Note that these payment amounts are different for components “SdBedPrep” and “Seeding” than they would have been if the second certification stood on its own and did not consider cumulative costs and extents performed. If the second certification stood alone, we would expect the payment for “SdBedPrep” to be \$160.00 (lesser of 50% of actual cost **or** NTE Rate Times Current Extent Performed). However, based on the cumulative expenses and cumulative extents performed the second payment for this component is \$168.00. Likewise, if the second certification stood alone, we would expect the payment for “Seeding” to be \$112.00 (lesser of 50% of actual cost **or** NTE Rate Times Current Extent Performed). However, based on the cumulative expenses and cumulative extents performed the second payment for this component is \$120.00.

CRP Cost Share Payment Calculation Examples (Continued)

Anytime the producer’s actual costs are less than the average cost for one certification and more than the average cost for another certification, accumulating the costs allows the costs for the more expensive units to be offset by the less expensive costs, meaning that the total payment based on the cumulative costs will be somewhat higher than the sum of the payments would be if every certification was treated as a stand-alone computation. The following table compares the differences.

Example 2 – Partial Certification – Second Certification (2 of 2) when Incorrectly Computed as Stand-alone						
Component	Current Actual Cost	Current Extent Performed	50% of Current Actual Cost	NTE Rate Times Current Extent Performed	Correct (Additional) Payment Based on Cumulative Actual Cost	Difference
NGSM	\$880.00	24.00	\$440.00	\$420.00	\$420.00	\$0.00
SdBedPrep	\$336.00	8.00	\$168.00	\$160.00	\$168.00	+\$8.00
Seeding	\$224.00	8.00	\$112.00	\$120.00	\$120.00	+\$8.00

Example 3: This example builds off example 2. After cost share payments have been issued based on the cumulative totals the producer requests to voluntarily terminate 2 of the total 20 acres. An additional certification using negative current actual costs and negative current extents performed will create the overpayment needed to create a receivable for the cost share to be refunded. The entry of this additional negative certification changes the cumulative total actual costs and total extents performed. Just as in Example 2, CSS calculates the total cost share payment based upon the new cumulative costs and extents and compares that calculated amount to previous payment amounts. An overpayment is created since the cumulative total producer costs and extents are reduced with the entry of the negative certification.

In this example the 2 acres being terminated represent 10% of the total practice acres. Negative amounts to be entered are determined by multiplying the previous cumulative actual costs and extents performed times 10%.

CRP Cost Share Payment Calculation Examples (Continued)

Example 3 – Partial Certification – Negative Amounts for Partial Termination							
Component	Current Actual Cost	Prior Costs	Current Extent Performed	Prior Extent Performed	50% of Cumulative Actual Cost	NTE Rate Times Cumulative Extent Performed	Cost Share Amount
NGSM	-\$220.00	\$2,200.00	-6.00	60.00	\$990.00	\$945.00	\$945.00
SdBedPrep	-\$78.60	\$786.00	-2.00	20.00	\$353.70	\$360.00	\$353.70
Seeding	-\$63.20	\$632.00	-2.00	20.00	\$284.40	\$270.00	\$270.00
						Total	\$1,568.70

The total calculated cost share for the practice using the cumulative total costs and extents performed after entry of the negative certification is \$1,569.00 (CSS rounds \$1568.70 to whole dollars). When this amount is compared to the previous cost share amount for the practice of \$1743 a receivable is created for \$174.00 (\$1,743.00 - \$1,569.00 = \$174.00).
