FUJITSU

THE POSSIBILITIES ARE INFINITE

Fujitsu External Hard Disk Drive

The Fujitsu External 2.5" Hard Disk Drive is the ultimate portable Hard Disk Drive and backup system for PCs. Its sleek, slim, self-powered design makes it an ideal traveling companion so you can backup or reinstall data wherever you are. The device's high capacity also makes it an excellent storage solution for your home computer.

With storage capacities up to 300GB, the Fujitsu External Hard Disk Drive adds extra capacity to your system and is perfect for storing photos, music and video files. Engineered for people on the move, the Fujitsu External Hard Disk Drive is equipped with everything you need to take your data with you, including an integrated USB 2.0 cable for connection at the flick of a fingertip; and a Data Protection Suite for PC, providing backup, and synchronization for the ultimate in data protection.

Data Protection Software Suite For PC

These powerful backup tools enable you to back up your entire system in one simple step. Perfect for real-time disaster recovery in the event of a Hard Disk Drive failure, the backup software suite enables users to compress backups into a single file up to half its original size, restore individual files and password protect the backups.

The Synchronizing software provides a variety of options to synchronize systems for file sharing and backup between multiple computers. This ensures that data is up-to-date between systems, maintaining data integrity.
