LIFEBOOK | shaping tomorrow with you

Fujitsu recommends Windows 8.

Powered by 3rd generation Intel® Core™ i7 processor.

E SERIES

Bearing the marks of Fujitsu's new brand design philosophy - the Fujitsu Slim LIFEBOOK E Series raises the standards of business computing anew. Smart enough to handle the many demands of everyday tasks and stylish enough to make an impression, the E Series offers efficiency, security and durability beyond compare.

Ultrabook, Celeron, Celeron Inside, Core Inside, Intel, Intel Logo, Intel Atom, Intel Atom Inside, Intel Core, Intel Inside, Intel Inside Logo, Intel vPro, Itanium, Itanium Inside, Pentium, Pentium Inside, vPro Inside, Xeon, and Xeon Inside are trademarks of Intel Corporation in the U.S. and/or other countries.

Fujitsu recommends Windows 8.

The Fujitsu New Design Philosophy

Created to embody the Fujitsu brand, the Fujitsu New Design Philosophy provides a strong physical face for Fujitsu's commercial line-up. The LIFEBOOK E753, LIFEBOOK E743 and LIFEBOOK E733 all share a defining bold red streak along the external cover, representative of a central core slightly exposed to reveal the power within.

This is "Hidden Power". It is bold. It is strong. It is Fujitsu.

Fujitsu recommends Windows 8.

Powered by 3rd generation Intel® Core™ i7 processor.

Discover the Fujitsu LIFEBOOK E Series.

LIFEBOOK E753

High Value Features in a Lightweight Body

The Fujitsu LIFEBOOK E753 is the perfect lightweight notebook to support you in your daily work. With brilliant 39.6cm (15.6-inch) display, a variety of interfaces and high-end security features, this modular notebook offers full convenience and flexibility in the office. Apart from the high value features, its slim form factor makes it 1cm slimmer and 20% lighter than average business* notebooks.

*Business notebooks are defined as professional laptops that do not belong to the Ultrabook category and contain professional security features such as Intel® vPro™ Technology.

LIFEBOOK E743

Fully Equipped for Work On-the-Go

The Fujitsu LIFEBOOK E743 is highly attractive as much as it is highly functional. The 35.6cm (14-inch) display is lightweight at only 1.9kg, with a full set of interfaces; it offers maximum convenience in the office, in meetings or on business trips. Moreover, ultimate security features guarantee safety for your precious data.

LIFEBOOK E733

Great Usability in a Small Body

The Fujitsu LIFEBOOK E733 gives you the right balance of portability and functionality for mobile or office-based computing. With a bright 33.8cm (13.3-inch) display, it is lightweight at only 1.7kg. Packed with premium features and a small form factor, it provides you ultimate ease of use.

Fujitsu recommends Windows 8.

Powered by 3rd generation Intel® Core™ i7 processor.

Extreme Durability

The Fujitsu E Series is made with excellent materials that guarantee maximum durability*, such as the thin and solid magnesium lid and strong hinges. Having passed through rigorous testing for drop, shock, vibration, concentrated and repeated pressure, open-and-shut and connector tension tests based on the Qfinity standard, a system developed by Fujitsu to meet and even exceed contemporary industrial quality levels, it is perfect for businessmen who frequently travel or those in industries that demand work outdoors.

*The E Series is planned or ready with MIL-STD-810G. The MIL-STD-810 as part of the Environmental Engineering Considerations and Laboratory Tests is a United States Military Standard that emphasizes tailoring an equipment's environmental design and test limits to the conditions that it will experience throughout its service life, and establishing chamber test methods that replicate the effects of environments on the equipment rather than imitating the environments themselves. The MIL-STD-810 test series are approved for use by all departments and agencies of the United States Department of Defense (DoD). Although prepared specifically for military applications, the standard is often used for commercial products as well.

Greater Efficiency

Fully equipped for longer work stamina. From long battery life, to anytime USB charging even when turned off, to an optional 0-watt AC adaptor that does not consume power when switched off, you can be sure you will always have power when you need it. Also with ShockSensor to protect your hard drive and minimise loss of data, the Fujitsu E Series truly promises uninterrupted computing.

Family Concept

Share compatible features and accessories between laptops. Besides a uniform design, the Fujitsu E series offers the same accessory components, such as the common BIOS, components and accessories like the AC Adapter, modular bay elements and port replicator. This allows sharing of the same accessories between many users in the workplace and eliminates the need to buy multiple sets. For greater flexibility and cost efficiency.

Maximum Security

Exceptional protection for important data. The Fujitsu E Series secures your company data against unauthorised third-party access with various software applications: Advanced Theft Protection (Intel® Anti Theft), optional TPM module and optional fingerprint sensor including Omnipass Security Software. With the Fujitsu Shield program, every machine is also protected against any accidental damage.

Enhanced Productivity

The latest high performance software for greater productivity. The Fujitsu E Series is loaded with the latest Intel® technology to ensure high performance and mobile productivity – up to 3rd Generation Intel® Core™ i7 processors, Mobile Intel® QM77 chipset (vPro supported), so you can finish more tasks efficiently and with ease.

Ultrabook, Celeron, Celeron Inside, Core Inside, Intel, Intel Logo, Intel Atom, Intel Atom Inside, Intel Core, Intel Inside, Intel Inside Logo, Intel vPro, Itanium, Itanium Inside, Pentium, Pentium Inside, vPro Inside, Xeon, and Xeon Inside are trademarks of Intel Corporation in the U.S. and/or other countries.

Weight	1.7kg	1.9kg	2.1kg
Weight Notes	Including SATA HDD, weight saver and 6 cells battery, weight will vary by configuration		
Operating Ambient Temperature	5 - 35°C	5 - 35°C	5 - 35°C
Operating Relative Humidity	20 - 85%	20 - 85%	20 - 85%
Additional Software			
Additional Software (Preinstalled) - vary by configuration ⁷	Absolute Reminder, Anytime USB Charge Utility, AuthenTec Fingerprint Software, Battery Utility, CyberLink PowerDirector, CyberLink PowerDVD, Data Exchange Utility, Face Sense Utility, Fujitsu Mobility Center Extension Utility, Fujitsu System Extension Utility, Intel Rapid Start Technology (for SSD), Intel PROSet/Wireless Software for Bluetooth® Technology, Hotkey Utility, LIFEBOOK Application Panel, McAfee Internet Security, 1 month trial for new Office 365 customers, OmniPass, Power Saving Utility, Roxio Creator LJ, Shock Sensor Utility, Sierra Wireless Air Watcher, Update Navi, Windows Life Essential 2012		
Manageability			
Manageability Technology	Intel® Standard Manageability WoL (Wake on LAN)		
Supported Standards	PXE, WFM 2.0 Compliant DMI		
Security			
System Protection	Kensington Lock Support		
Audit Proof Protection	Advanced Theft Protection (Intel® Anti Theft & Computrace®) Optional: Trusted Platform Module (TPM1.2)		
Access Protection ⁸	Hard Disk Password, User and Supervisor BIOS Password, RF Fingerprint Sensor, Anti-theft Lock Slot		
Warranty			
Standard Warranty	1 year international LIFEBOOK Shield: For more details, please visit http://hk.fujitsu.com/pc/contact		
Service Level	Bring-in service, parts & labour		
Maintenance and Support Services			
Recommended Service	3 years on-site, next business day, parts and labour		

The above information shows the general technical specifications of the product and does not represent actual configuration. For specific configurations and their availability, please check with your local distributors.

- Clock speed and performance will vary depending on workload and other variables. See <http://www.intel.com/go/turbo>.
- 4G configuration availability varies from countries. Please check with actual bundling of local distributor. 4G module comes with a 1 year local carry-in warranty.
- Subjected to network and SIM capabilities. Data rates refer to download or upload speed which is also dependent on network capabilities and conditions.
- This term does not represent actual data rate of 1000/100/10Mbps and simply indicates compliance with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.
- Please check actual bundling with country local distributor.
- Results obtained from BAPCo MobileMark 2007 (Productivity Workload) performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. Built-in bay device or hard drive usage may also have a significant impact on battery life. Note: Battery life are based on Intel® Core™ i5-3340M, 4GB RAM and 500GB Hard Disk.
- Subjected to network and SIM capabilities. Data rates refer to download or upload speed which is also dependent on network capabilities and conditions.
- BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password at every first bootup or all bootup sequences. Full security unlock sequence - Bootup Lock (BIOS Lock), Fingerprint Windows Logo. It is the customer's responsibility to ensure the safekeeping of password for data retrieval.

With the right accessories, the Fujitsu LIFEBOOK E Series works harder and smarter.

Slim Port Replicator
Enjoy more flexibility even with a slim body. Suitable for 13"/14"/15".

6-Cell Bay Battery
For expanding operating hours.

Mobile Bay Projector
For projecting presentation slides/video on the go.

Adjustable Notebook Stand
For an ergonomic and space-saving position.

2nd HDD Kit*
For expanding storage anytime.

Display B24T-6 LED proGREEN
24" widescreen display for enhanced ergonomics and usability with a 4-in-1 stand.

3-pin Stick Type AC Adapter#
For lightweight and easy travel.

Privacy Filter
For 13.3", 14" and 15.6" screens.

Fujitsu MicroSaver Notebook Lock
Patented T-bar locking mechanism along with an advanced carbon-tempered steel cable design for excellent security.

* HDD purchased separately. # Available from July 2013.
