LIFEBOOK | shaping tomorrow with you

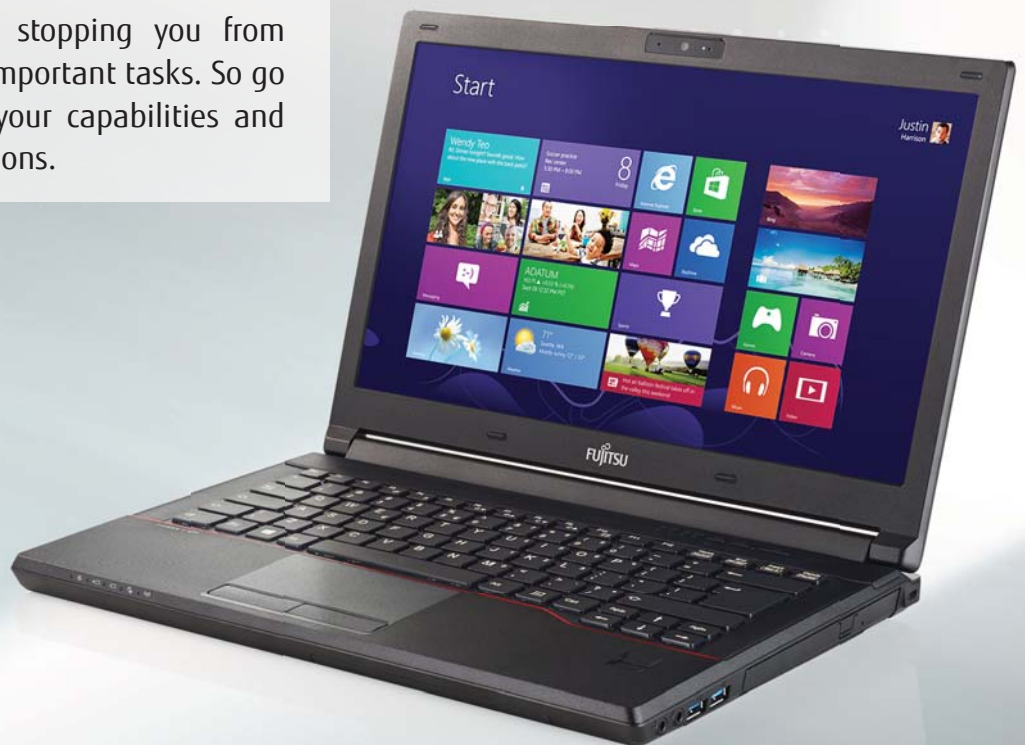

Built for business

Windows 8 Pro

The Reliable Business Performer Fujitsu LIFEBOOK E544/E554

Take your business to the next level with the new LIFEBOOK E544/E554 – a notebook that delivers reliable performance regardless of where you are. Now, you can enjoy the freedom of working even outside the office premises as your LIFEBOOK E544/E554 comes with excellent security and connectivity features designed for a modern professional like you. What's more, with long battery life and extensive business feature-sets, there is no stopping you from accomplishing your most important tasks. So go on, extend the reach of your capabilities and surpass your own expectations.

* LIFEBOOK E544

* LIFEBOOK E554

Family Concept

The family concept includes common BIOS and motherboard, components and accessories such as the port replicator and modular bay elements, resulting in decreased expenses and reduced complexity.

Ultra Durable

The LIFEBOOK E544/E554 is thoughtfully made with durable materials that can withstand your high performance needs. Less worry for your notebook means more focus on your business.

Easy Decommissioning

The innovative Fujitsu EraseDisk helps enterprises securely wipe all data on the hard disk drive when it's time to decommission the system – great convenience especially for businesses that can't afford major disruptions or down time.

Built to Perform

Be confident with a reliable performance that delivers results – every time. Equipped with the latest Intel® Core™ processor and designed with meticulous detailing with your business needs in mind, you are assured of high performance and mobile productivity all the time.

Freedom from Desk

Whether in the office or at home, be productive with a powerful business tool that offers maximum security and excellent connectivity. The LIFEBOOK E554 with 39.6 cm (15.6-inch) display and LIFEBOOK E544 with a 35.6 cm (14-inch) display will make sure that you're always on top of your game.

Accessories

With the right accessories, the Fujitsu LIFEBOOK E544/E554 works harder and smarter.

Slim Port Replicator

Enjoy more flexibility even with a slim body. Suitable for 13"/14"/15".

Display B24T-6 LED proGREEN

24" widescreen display for enhanced ergonomics and usability with a 4-in-1 stand.

2nd HDD Kit*

For expanding storage anytime.

Notebook Case

For lightweight and easy travel.

Privacy Filter

For 13.3", 14" and 15.6" screens.

Fujitsu MicroSaver Notebook Lock

Patented T-bar locking mechanism along with an advanced carbon-tempered steel cable design for excellent security.

Slim Powerbank

For extended battery hours while on the go.

Storage External HDD Slim Series 7mm/9.5mm

With 3 colours (black/red/titanium) to choose from, this HDD comes in 500GB and 1TB capacity.

* HDD purchased separately.

Warranty	1 year limited warranty (depending on country) Optional up to 5 years onsite warranty For more details, please visit http://hk.fujitsu.com/pc/contact	

Updated last 20th June

The information to the left shows the general technical specifications of the product and does not represent actual configuration. For specific configurations and their availability, please check with your local distributors.

1. Clock speed and performance will vary depending on workload and other variables. See <http://www.intel.com/go/turbo>.
2. This term does not represent actual data rate of 1000/100/10Mbps and simply indicates compliance with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.
3. 4G/LTE configuration availability varies from countries.
4. Subjected to network and SIM capabilities. Data rates refer to download or upload speed which is also dependent on network capabilities and conditions.
5. BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password for password or all bootup sequences. Full security unlock sequence - Bootup Lock (BIOS Lock), Fingerprint Windows Logo. It is the customer's responsibility to ensure the safekeeping of password for data retrieval.
6. Results obtained from BAPCo MobileMark 2007 (Productivity Workload) performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. Built-in bay device or hard drive usage may also have a significant impact on battery life. Note: Battery life are based on Intel® Core™ i5-4210M, 15.6" HD, 4GB, 500GB 5.4k.
7. Import and usage according to country-specific regulations.
