An Easy Transition
Simulating a full-featured desktop experience, the LifeBook AH530 and A530 are equipped with a full-size keyboard with a 10-key number pad. Users accustomed to using a desktop can easily adapt to the LifeBook AH530 and A530. In fact, the migration to a LifeBook is so seamless that it's enjoyable.

True-to-life Display
Featuring a 15.6-inch SuperFine back-light LED, a 16:9 HD Widescreen TFT, the LifeBook AH530 and A530 offer ultimate clarity. In addition, with a resolution of 1366 x 768 pixels and an HDMI output, each screen heightens the movie and photo viewing experience.

Technology Meets Style
With a minimalist, sophisticated design, the LifeBook AH530 and A530 show a marriage of function and style. The AH530 is available in glossy white, while the A530 is donned with a matt black exterior and a polished silver interior - making them both bold fashion accessories.

All-in-one Communication Tool
The LifeBook AH530 and A530 feature a 1.3 mega pixel camera, built-in digital microphone, built-in stereo speakers, Bluetooth® v2.1 and up to 802.11n wireless connection: All you need to be totally connected with the world from the comfort of your home.

Optional Accessories

AC Adapter
An additional adapter at home, office and in the briefcase makes travelling a lot simpler.

Memory Module
For users who wish to further enhance the performance of the system while performing multi-tasking applications, memory modules are available to increase the capacity.

Battery Pack
Double the operating hours of your LifeBook by swapping with a second battery pack.

LifeBook AH530/A530

- Featuring a full size keyboard with number pad
- Genuine Windows® 7 Home Premium
- 15.6-inch SuperFine 16:9 HD Widescreen LED back-light display perfect for movie and picture viewing
- Instant converged communications using built-in 1.3 Mega Pixel camera and internal digital microphone
- Mega storage with 5400rpm SATA hard disk drive and Dual Layer DVD Super Multi Writer[5] drive supporting DVD-RAM and DL DVD±R media

Specifications

Platform	Intel® Core™ i5-520M processor[9] 2.40GHz with Turbo Boost up to 2.93GHz/ Intel® Core™ i3-350M processor[9]/ Intel® Core™ i3-330M processor[9]/ Intel® Pentium processor P6000[9] - Intel® HM55 Express Chipset
Operating System	Genuine Windows® 7 Home Premium 64-bit (or Genuine Windows® 7 Home Basic 64-bit[2])
Display[11]	15.6-inch SuperFine back-light LED 16:9 HD Widescreen TFT, 1366 x 768 pixels (220nits Brightness, 350:1 Contrast Ratio, 60% Colour Gamut)
Built-in Bay Device	Dual Layer DVD Super Multi Writer[5]
Memory	2GB DDR3 1066MHz Max. Memory Supported[8] - 2x4GB DDR3 1066MHz, Dual Channel Support
Hard Disk	320GB/ 500GB SATA 5400rpm
Battery	Up to 4.43hrs[1] (6-cell battery)
Weight	Approx. 2.5kg (with 6-cell battery)

Detailed Specifications

Hard Disk Drive	SATA-150 Drive, S.M.A.R.T support, Two Partitions - 50/50[7]
Graphics	Intel® HD Graphics
High Definition (HD) Audio	Realtek ALC269 HD audio codec with dual built-in stereo speakers HD Audio-in: External Mic-in HD Audio-out: Headphone-out
Communication	1000/ 100/ 10Mbps[3] Gigabit Ethernet LAN and Wireless LAN 802.11BGN network connection. Bluetooth® v2.1 + EDR. Integrated 1.3 Mega Pixel camera
User Interface	Spill-resistant Keyboard[6]: 101-key, 18.4mm key pitch, 3mm key stroke Intelligent Touch Pad with configurable vertical and horizontal scroll functions

Dimensions	378mm (W) x 252mm (D) x 29.2-36.5mm (H)

Bundled Accessories

AC Adapter	Input AC 100~240V, Output DC 19V 80W
Bundled Software	CyberLink PowerDVD™, Roxio Easy Media Creator, Adobe Acrobat Reader, Fujitsu UpdateNavi[10], Fujitsu Power Saving Utility, Fujitsu Hardware Diagnostic Tool, Fujitsu Display Manager, Sun Microsystems Java Runtime, CyberLink YouCam, Windows Live Essentials (Windows Live Messenger, Windows Photo Gallery, Windows Live Mail, Windows Live Call, Windows Live Writer, Movie Maker and Silverlight), Symantec Internet Security 60 days trial, Purchase Office Product Key to activate Office 2010 preloaded on this PC[12]

The above information shows the general technical specifications of the product and does not represent actual configuration that would be sold in your region. For specific configurations and their availability, please check with your local distributors.

1. Results obtained from BAPCo® MobileMark® 2007 (Productivity Workload) performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. Built-in bay devices or hard drive usage may also have a significant impact on battery life. Note: Up to 4.43hrs battery life is based on Intel® Core™ i3-330M configuration with standard 6-cell battery.

2. Please check actual bundling with country local distributor. Windows® 7 Home Basic will be available for specific regions only.

3. This term does not represent actual data rate of 1000/ 100/ 10Mbps and simply indicates compliance with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.

4. BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password at every first bootup or all bootup sequences. Access to BIOS setup is needed to configure Hard Disk Lock. Hard Disk Lock requires an access key to retrieve data on the hard disk. This is a Data Confidentiality security feature. Anti-theft Lock Slot allows the use of a lock to physically secure the LifeBook. Full security unlock sequence - Bootup Lock (BIOS Lock), Hard Disk Lock.

 NOTE: Loss of password requires the LifeBook to be returned to Japan factory for system refresh. Cost of shipment and lost data will be borne by the customer. 2-password refers to Master Password and User Password of the HDD Lock. The Master Password can be used to clear the User Password at the BIOS settings under Hard Disk Security. If HDD Lock prompt is enabled, only the User Password can be used to boot up the unit. Loss of these 2 passwords means the HDD content cannot be retrieved. It is the customer's responsibility to ensure the safe keeping of these 2 passwords for retrieval of data from the locked HDD.

5. Supports DVD multi formats such as DVD-RAM, DL DVD±R, DVD±RW, DVD±R, CD-RW, DVD-ROM, CD-R and CD-ROM.

6. Spill-resistant keyboard does not imply the system is water-proof. If liquid is spilt onto the keyboard, power off the system immediately and turn the notebook upside down to drain off the liquid.

7. This refers to Windows® 7 hard disk drives C:\ and D:\. 50/50 refers to approximate 50% allocation of user accessible hard disk storage to C:\ and D:\ drives. For Windows® 7 hard disk drives, 16GB will be reserved for internal recovery usage which is not shown.

8. 8GB DDR3 1066MHz maximum memory is supported when Fujitsu recommended 2GB DDR3 1066MHz memory module is made available.

9. Please check actual bundling with country local distributor. Intel® Core™ i5-520M refers to 2.40GHz, 3MB cache. i3-350M refers to 2.26GHz, 3MB L3 cache. i3-330M refers to 2.13GHz, 3MB L3 cache. P6000 refers to 1.86GHz, 2MB L3 cache.

10. UpdateNavi is a Fujitsu Proprietary application that updates LifeBook drivers by connecting automatically to Fujitsu's server. This will help update your LifeBook with the latest software drivers and utilities to ensure compatibility between hardware and software, maintaining smooth operation anytime, anywhere.

11. It is natural for all thin-film transistor (TFT) liquid crystal display (LCD) to show a small number of missing or discolored dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.

12. This PC is preloaded with reduced-functionality versions of Word and Excel that include advertising. Purchase an Office 2010 Product Key to activate full-featured Office software on this PC.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Ambient temperature: 5° to 35°/ 41° to 95°F (operating), -15° to 60°/ 5° to 140°F (non-operating). Relative humidity: 20% to 85% RH (operating), 8% to 85% RH (non-operating). Please note that 1GB is equivalent to 1,073,741,824 bytes.
