experience the excitement

LIFEBOOK AH532/A532

http://www.facebook.com/fujitsu.hk

Fujitsu recommends Windows® 7.

USB 3.0 HDD (500GB & 1TB)

Keep your files stored, secured and protected with the external hard disk.

USB DOCKING STATION

The elegant docking station connects to your laptop easily, giving you extra ports for multiple device use.

MINI ROUTER

Connect anywhere in the world with the slim and ultra-lightweight mini router that runs with a speed of up to 150Mbps.

Optional Accessories

Genuine accessories for Fujitsu LIFEBOOK.

Live Up YOUR LIFEBOOK

Discover a host of lifestyle convenience from Fujitsu accessories. Each device is researched then designed to function.

From understanding the way you live, and the way you work, we offer a complete range of accessories to complement your everyday computing experience.

You have chosen a Fujitsu LIFEBOOK because you have a personality that's just as unique. Now choose your accessories... each engineered to your unique preference.

FUJITSU CASES

Stylish and practical, choose from backpack, carrier case or slip case to perfectly fit your laptop.

COLOUR MATCHING MOUSE

Personalise your laptop with a distinct style. Get a mouse that matches the colour of your laptop.

LED MONITOR

Enjoy an ultimate viewing experience with crisp images on a larger screen. Choose from sizes 18.5" to 23.6".

2.5" INTERNAL SATA SSD (120GB/240GB)

Upgrade your internal hard disk for enhanced operation performance and reliability.

Disclaimer: Fujitsu shall not be liable for any data lost or mechanical damage arising out of internal hard disk replacement.

- Powered by the advance Ivy Bridge CPU Intel® Core™ i7-3520M Processor.
- Genuine Windows® 7 Professional.
- Integrated with built-in DTS Boost™ adopted Stereo Speakers that plays out remarkable audio quality.
- Built with a 15.6-inch Super Fine High-Definition TFT LED wide screen for a real theater sensation.
- Enhanced with latest NVIDIA® GeForce® GT620M graphic card with a 2GB VRAM support.
- Designed to be slimmer in built, measuring only 36.5mm in diameter.
- Blu-Ray disc drive supports all Blu-Ray movies and also CD-R and CDR-W writes.

The above information shows the general technical specifications of the product and does not represent actual configuration. For specific configurations and their availability, please check with your local distributors.

1. Results obtained from BAPCo® MobileMark® 2007 (Productivity Workload) performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. Built-in bay device or hard drive usage may also have a significant impact on battery life. Note: Approx. 5hrs 10 mins (AH532) and 6hrs 30 mins (A532) battery life are based on Intel® Core™ i5-3210M with standard 48Wh battery.
2. Supports DVD multi formats such as DVD-RAM, DL DVD±R, DVD±RW, DVD-R, CD-RW, DVD-ROM, CD-R and CD-ROM.
3. This term does not represent actual data rate of 1000/100Mbps and simply indicates compliance with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.
4. BIOS Lock needs a supervisor / user password to access BIOS setup. BIOS Settings can be configured for password at every first bootup or all bootup sequences. Access to BIOS setup is needed to configure Hard Disk Lock. Hard Disk Lock requires an access key to retrieve data on the hard disk. This is a Data Confidentiality security feature. LIFEBOOK Lock requires a supervisor/user password to bootup the LIFEBOOK when it powers up or resumes last session from suspend/hibernate mode. Anti-theft Lock Slot allows the use of a lock to physically secure the LIFEBOOK. Full security unlock sequence - LIFEBOOK Lock, Bootup Lock (BIOS Lock), Hard Disk Lock, Fingerprint Windows Logo. It is the customer's responsibility to ensure the safekeeping of password for data retrieval.
5. RoHS (Restriction on Hazardous Substances) compliance means the system and its internal components comply with the EU RoHS directive (2002/95/EC) on the restricted use of six hazardous substances in the production of the system and its internal components.
6. Spill-resistant keyboard does not imply the system is water-proof. If liquid is spilled onto the keyboard, power off the system immediately and turn the notebook upside down to drain off the liquid.
7. This refers to Windows® 7 hard disk drives: C: and D:. 50/50 refers to approximate 50% allocation of user accessible hard disk storage to C: and D: drives. For Windows® 7 hard disk drives, 32GB will be reserved for internal recovery usage which is not shown.
8. 2x8GB DDR3 1600MHz maximum memory is supported when Fujitsu recommended 8GB DDR3 1600MHz memory module is made available. 2x8GB option is only valid in 64-bit platform.
9. Customer may select between 32-bit and 64-bit upon initial startup.
10. UpdateNavi is a Fujitsu Proprietary application that updates LIFEBOOK drivers by connecting automatically to Fujitsu's server. This will help update your LIFEBOOK with the latest software drivers and utilities to ensure compatibility between hardware and software, maintaining smooth operation anytime, anywhere.
11. 4G configuration availability varies from countries. Please check with actual bundling of local distributor. 4G module comes with a 1 year local carry-in warranty.
12. Subjected to network and SIM capabilities. Data rates refer to download or upload speed which is also dependent on network capabilities and conditions.
13. Clock speed and performance will vary depending on workload and other variables. See <http://www.intel.com/go/turbo>

It is natural for all thin-film transistor (TFT) liquid crystal displays (LCD) to show a small number of missing or discolored dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Please note that GB = billion bytes. 1GB is equivalent to 1,073,741,824 bytes.
