

National Workplan to Complete Five-year Reviews for Species Listed Under the Endangered Species Act

Fiscal Years 2022–2025 (March 2022 Version)

Species Common Name and Scientific Name: Species included on this workplan are those that will have a review completed for the time period FY2022 through FY2025. To find more information on individual species, visit <https://ecos.fws.gov/ecp/> and use the species search tool. Visit <https://ecos.fws.gov/ecp/report/species-five-year-review> to view the most recently completed review for a species and notices for species that are under active review.

Target Completion Date: This column indicates the fiscal year in which we plan to complete a 5-year review for the species.

- Species not included on this work plan do not yet have a review planned or the review is planned to be completed after this time period.
- Some species on this workplan may also be included on the [National Downlisting and Delisting Workplan](#). For these species, the status review conducted to inform a downlisting or delisting determination may also fulfill 5-year review requirements.
- Due to the potential complexity and number of reviews for which a particular office may be responsible, the timing for completing any particular species' review may shift.
- To keep the public informed of our progress, we plan to periodically update this workplan to reflect adjustments of dates and consideration of new information, and will add information as reviews are scheduled.

Lead Office Information: We will publish in the Federal Register notices of those species under active review. In our notices, we generally request that information be submitted by certain dates to ensure we receive it in time to consider it in our reviews. Contact information for the lead office and instructions for submitting information will be contained in the notice (see <https://ecos.fws.gov/ecp/report/species-five-year-review> to find notices of species under review). Please see our [5-year Review fact sheet](#) for more information on 5-year reviews and the kinds of information we consider. However, we will accept information on any species at any time. Please use our facilities search at <https://fws.gov/our-facilities> to find up to date contact information for the species' lead field office.

Species Common Name	Species Scientific Name	Listing Effective Date	Listing Status	Five-Year Review Completion Target Fiscal Year or Actual Date	Lead Field Office
Stork, wood [Southeast U.S. DPS]	<i>Mycteria americana</i>	2/28/1984	T	FY2022	Florida Ecological Services Field Office
Turtle, flattened musk [Black Warrior River DPS]	<i>Sternotherus depressus</i>	6/11/1987	T	FY2022	Alabama Ecological Services Field Office
Deer, Columbian white-tailed [Columbia River DPS]	<i>Odocoileus virginianus leucurus</i>	3/11/1967	T	FY2022	Oregon Fish and Wildlife Office

Species Common Name	Species Scientific Name	Listing Effective Date	Listing Status	Five-Year Review Completion Target Fiscal Year or Actual Date	Lead Field Office
Caracara, Audubon's crested [FL population]	<i>Polyborus plancus audubonii</i>	7/6/1987	T	FY2022	Florida Ecological Services Field Office
Sea turtle, green [South Atlantic DPS]	<i>Chelonia mydas</i>	5/6/2016	T	FY2022	Florida Ecological Services Field Office
Salamander, California tiger [Santa Barbara County DPS]	<i>Ambystoma californiense</i>	1/19/2000	E	FY2022	Ventura Fish and Wildlife Office
