WHY FINISH?

- ✓ A recent study showed that bound documents are twice as likely to get read.
- ✓ 88% of people in a recent survey stated that the way a finished document looks is just as important as what it says.
- ✓ 69% of business professionals are impressed when they receive a bound presentation.

Punch & Bind Combinations

System One VeloBind®

Get professional-looking VeloBind® results with this all-in-one punch and bind system. The **manual punch** handle is convenient for right-or left-handed use.

System Two VeloBind®

For moderate-volume VeloBind® jobs, this **electric punch** and bind system combines power with space efficiency.

System Three Pro VeloBind®

This heavy-duty system easily punches and binds large VeloBind® jobs. The pressure bar lifts up and returns to indicate when binding is complete and is adjustable for faster turnaround on smaller presentations. Punch more efficiently with your choice of push-button, punch-sensor or foot-pedal control.

Paper front cover has large window. 50 front & 50 back covers.

What is post-consumer waste?

Describes materials recovered after consumer use and later made into a new product

Recyclable vs. Recycled

Recyclable –

products that can be collected, separated or recovered from the solid waste stream and used again in creating a new product

Recycled –

products that were recovered or reprocessed into usable products that might otherwise become waste

How to choose the right film finishes for your products:

Clear/Gloss

Brilliant, high-polished look that enhances colour and sharpens definition for a dramatic visual impact

Lustre

Adds a sparkling sheen for richer colour, with a semi-reflective finish for higher contrast and lower glare

Matte

Offers a flat, non-reflective finish that deepens colours and hides imperfections, perfect for images displayed in direct light

Table Top Laminators

HeatSeal® Ultima™ 35 EZLoad

Laminates up to 12" wide. Compatible with 1.7 to 5 mil EZLoad film. One minute warm-up time. Fixed speed, 36" per minute. Reverse motor function. Integrated trimmer. Auto shut off. Includes starter supply of roll film.

Item #	Description
1701680	HeatSeal™ Ultima® 35 EZ Load

DID YOU KNOW?

Lamination was invented in the 19th Century when a dentist named Dr. Morris M. Blum used a dental laminate (AKA a dental veneer) to laminate a picture of his wife!

Lamination increases durability of print materials, allowing for frequent long term use

Ultima™ 65 EZLoad

Laminates up to 27" wide and 10' per minute. Compatible with both EZload® film and standard film. 20 minute warm-up and 1-touch keypad deliver ease-of-use. Includes auto shut-off, standby mode and reverse function. Motorized reverse function helps clear film wraps or jams. Ideal for large schools and offices.

Item #	Description

Table Top Laminators

Catena Series

Designed to laminate and mount prints from colour printers and copiers, the Catena Series provides a simple way to finish your full-colour digital output. These models feature heated rollers for cost effective finishing using thermal films and can also run pressure-sensitive films for additional applications.

Catena 35

The Catena 35 tackles demanding lamination jobs with ease and efficiency to keep your small print shop, office or institution running smoothly.

- Provides both thermal lamination and mounting applications for a wide range of projects up to 12" wide, including signage, maps, POP displays and more
- Mounting gap lets you mount jobs to foam board up to 1/4" thick quickly and without frustration

Catena 65

The Catena 65 tackles demanding lamination jobs with ease and efficiency to keep your small print shop, office or institution running smoothly.

- Provides both thermal lamination and mounting applications for a wide range of projects up to 27" wide, including signage, maps, POP displays and more
- Mounting gap lets you mount jobs to foam board up to 1/4" thick quickly and without frustration

Catena laminators are...

- Easy to use
- Versatile
- User friendly
- Provide superior quality

Catena laminators can run...

- Pressure sensitive films
- Thermal films
- Thermal and pressure sensitive mounting boards

Xyron Laminators

Xyron Laminators

Cold laminator with cutter on the back. Laminator uses aggressive adhesive coupled with high pressure rollers . Environmentally safe options.

DID YOU KNOW?

- ✓ Cold laminators save energy and are much less likely to wrinkle or cause bubbles when laminating.
- ✓ Lamination adds protection against fingerprints, smudges, stains, tears and abrasions!
- ✓ Laminating not only increases longevity of your print materials, it's also easier to keep them sanitized!

XM2500

Laminating is made easy with the Xyron XM2500 cold laminator. Simply place item on feed tray, turn handle, and remove when completed, its that easy. Cold lamination means you can trim your documents immediately after lamination. Does not come preloaded to allow users to configure units to best suit their needs!

Item #	Description
XM2500	25" Cold Laminator

XM4400

The XM4400 is your complete professional document finishing system. Instantly applies laminate, adhesive or both without heat. Perfect for posters, displays, mock-ups, banners, signs and other large format output. Offering three solutions in one easy-to-use package, instantly applies laminate, adhesive, or both without heat or electricity. The XM4400 makes professional document, signage and poster finishing up to 42" wide fast and easy. Aggressive adhesive, coupled with high pressure rollers, improves both transfer and bonding qualities. Patented supplies allow quick and easy application changes. Even, edge-to-edge adhesive application. Environmentally safe.

Narrow Format Laminators

5031TS

Professional two-sided thermal laminating system

A production heat shoe laminator designed in combination with thermally heated nip rollers, the GBC 5031TS provides proper heat at higher speeds. It includes many labor-saving features such as edge slitters and job memory recall. Use as a stand-alone unit or combine with the 5031 Feeder and 5031 Cutter for maximum productivity.

- Film speed: 4 to 35 feet per minute
- Maximum film width: 31"
- Film gauge: 1.5 mil to 10 mil
- Accommodates 10" diameter rolls
- Three slitters allow edge and center slitting of 2-up jobs
- Adjustable excess film rewinds prevent scrap from winding onto pull rollers
- UL listed

Shown with optional feeder and cutter

Optional Feeder System

Automated feeder connects to the 5031TS Laminator to increase efficiency and accuracy. A quick change delivery system accommodates a wide range of paper stock for accurate feeding.

- Handles paper stock ranging from 20 lb. bond to 24 pt. cover stock
- Adjustable vacuum eliminates double feeding of stock
- Adjustable side guides enable straight sheet feeding
- Sheet feed counter tracks input

Optional Cutter

Automatic 31" cutter for use with the 5031TS laminator and other two-sided, production laminators.

- Speed: 4 to 50 feet per minute
- Handles web widths from 4" to 31" wide. Can also be set to handle sheeting
- Adjustable in-line web guides keep the web straight for precision cutting
- Incremental 1/32" adjustments accommodate a wide range of sheet sizes

Item #	Description

Why invest in wide-format lamination?

- Provides a high return on a small investment
- Offers a quick turn around for an on-demand industry
- Creates a competitive advantage and enhances profitability

Benefits

- Enhance colours
- Create great mounted graphics
- Add rigidity
- Add texture and preserve wide format prints, signs, banners, posters, maps and more for long term use
- Easily create new and profitable applications just by changing the film

Wide Format Laminators

Mounting Adhesives

GBC standard mounting adhesives are constructed with an acrylic adhesive coating on both sides of a polyester carrier. One side provides a permanent bond to the graphic while the other side is used to adhere to boards or other rigid substrates.

A range of adhesives from low tack (Arctic Lo-Tack) to permanent (Arctiv Vue- Thru) allows for mounting to a diverse range of surfaces such as windows and walls

Arctic Dura Mount is our most popular mounting adhesive. Bonds well to porous, non-plastic surfaces—perfect for posters, digital prints and price-sensitive projects

Arctic White Mount is a white polyester carrier coated with Duramount adhesive. An excellent choice for mounting onto black Gatorfoam and other coloured boards

Arctic Removable is a White opaque carrier/film that prevents any bleed-through; removable adhesive on 1 side and permanent adhesive on the other. Ideal for wall, counter & floor graphics

Our full selection of mounting adhesives are available at www.gbc.com/en-ca

Film - Large Format

Film type

Polypropylene (OPP)

Polypropylene films provide a reliable and vivid finish at a cost effective price

Polyester (PET)

Polyester films provide a tough, durable finish for the most demanding applications

Lay-Flat (Nylon)

Nylon films resist curling to "lay flat" and minimize scratches from stacking and rubbing

Finishes

Clear

Clear gloss finish enhances colours and overall appearance

Matte

Clear film with a matte finish reduces glare

Scuff Free Matte

Clear film with a durable & scuff resistant matte surface

Adhesives

Standard adhesive

For most standard non-digital output applications

Digital adhesive

Specially designed adhesive for bonding to most toner based digital colour output

Pressure Sensitive mounting

Adhesives – a pH neutral, double-sided adhesive film that provides a permanent bond. All mounting films are 3" core.

Pressure Sensitive Mounting Adhesives

Choose the type of shredder system that's best for your needs.

Micro-cut

Cross-cut

Strip-cut

CX40-59 Cross-Cut Shredder

Item no. 1753210BF

Cross-cut shredder with 40 sheet capacity, super-large 59 gal bin and extra-wide paper entry. Chain drive gears to power through larger jobs. Automatic oiling ensures smooth performance. Shreds CDs, credit cards, paper clips and staples.

CX30-55 Cross-cut Shredder

Item no. 175858BF

Cross-cut shredder with 30 sheet capacity, extra-large 55 gal bin and extra-wide paper entry. Shreds CDs, credit cards, paper clips and staples. Automatic oiling ensures smooth performance.

CX39-55 Strip-Cut Shredder

Item no. 1753230BF

Strip-cut shredder with 39 sheet capacity, extra-large 55 gal bin and extra-wide paper entry. Shreds CDs, credit cards, paper clips and staples.

CX22-44 Cross-Cut Shredder

Item no. 1758582B

Cross-cut shredder works efficiently to shred 22 sheets a time. Large 44 gal bin for frequent use environments. Shreds CDs, credit cards, paper clips and staples.

CS25-44 Strip-Cut Shredder

Item no. 1753260BF

Strip-cut shredder for basic security. Durable and designed for heavy use; large 44 gal waste. Shreds CDs, credit cards, paper clips and staples.

CS30-36 Strip-Cut Shredder

Item no. 1753280BF

Strip-cut shredder for basic security. Shreds up to 30 sheets at a time. Ample 36 gal waste bin. Shreds CDs, credit cards, paper clips and staples.

CHS10-30 Level 6 High Security Shredder

Item no. 1753290BF

Highest Level 6 security for extra protection of your sensitive information.

Meets NSA/CSS Specification 02-01. 10 sheet capacity, ample 30 gal waste bin. Automatic oiling and continuous duty run time ensure this shredder keeps up with your most secure shredding needs.

CM15-30 Micro-Cut Shredder

Item no. 1753300BF

Micro cut shredder provides security for shared environments. 15 sheet capacity and ample 30 gal bin for shared space shredding. Shreds CDs, credit cards, paper clips and staples.

AutoFeed+ Shredders

AutoFeed+ Shredders

Promising reliability, security, and time savings at a price point that's perfect for your home or office. Spend less time shredding and more time on other tasks. The line of GBC AutoFeed+ Shredders takes the manual work out of shredding to make your day easier.

Nothing stacks up against AutoFeed+

- Extra high sheet capacity, long run times, and large waste bin sizes so you can safely dispose of everything in one trip.
- Powerful induction motor shreds through documents, paper clips and staples, so you don't waste time doing prep work.

Smaller pieces of shredding. Bigger peace of mind.

- Micro-cut or super cross-cut technology produce smaller shreds for added security.
- For smaller loads, the manual feed feature can take in as many as 20 sheets at a time.
- Easy touch forward and reverse anti-jam technology minimize downtime and costly service calls.

Banner Stands

Roll-Up Banner

The Roll-Up Banner stand is a cost-effective system for short term signage or promotions. It is designed with a reinforced fitting for the pole to ensure the display stands straight - no tilting or leaning. The top panel profile clamps the media securely in place without the need of adhesive strips and pole attaches to the top panel from behind. The included carrying bag unzips lengthwise for greater ease and has extra padding over its entire length to ensure the display stays looking great.

Item #	Quantity	Colour	Panel Size	Visible Height

Customize your air purification with regular and specialty filters.

- **Allergy and flu**- anti-vial True HEPA filters that captures 99% of airborne allergens and viruses.
- **Pet**- special washable cotton prefilter and True HEPA for capturing up to 99.97% of pet dander and help eliminate common pet odors.
- **Odor**- engineered with True HEPA and high performance carbon pellets to help eliminate cooking and cleaning odors and reduce VOCs.

SensorPod

Placed across the room, SensorPod™ measures pollutants away from the purifier, then communicates with the purifier to ensure the full room benefits from purified air.

PureDirect Technology

PureDirect™ proprietary technology splits clean air into two streams, delivering purified air comfortably and efficiently throughout the room.

DuPont Filtration

360 degree DuPont™ filtration captures pollutants such as allergens, VOC gases and microscopic particles. UltraViolet sterilization destroys germs and viruses that can build up on the filter, preventing re-circulation of live germs.

Safely communicate and collaborate with Quartet

Make visiting safe and sanitizing easy with signage, desk dividers and sanitization stations.

Customized Products

Vinyl Binders

The heavy gauge vinyl construction of our binders ensures excellent quality and durability. Available in a variety of attractive textures and finishes, GBC vinyl resists tearing and scratching. GBC can custom design binders to your exact specifications and business needs. Choose from a wide selection of decorating techniques that will enhance your company's image.

Customize • screen print • deboss • foil stamp • appliqué

Vinyl Folders and pouches

Custom design your company's message on our wide selection of vinyl folders and pouches.

Customize • screen print • deboss • foil stamp • appliqué

Sealed Inserts Vinyl Binders

GBC can design, insert and seal your art into a binder. Double polished, crystal clear overlay on the front, back and spine enhances the clarity of the binder artwork. Quality materials and heavy-duty construction make GBC binders the clear choice.

Customize • sealed inserts - digital or offset

GBC offers

Unlimited customization of your company's documents. GBC's Information Packaging specialists will help you enhance your company's image with eye catching details.

All of your company's presentation materials will be designed to your specifications. With GBC's design services, everything works together to strengthen the professional image of your company. Your documents will make a persuasive statement - inside and out.

- Offset Printing • Screen printing
- Foil Stamping • Embossing/Debossing
- Window punching • Appliqué
- Die-cut options over a wide range of products

Customized Products

Printing and production options

Offset or digital print

Create high-impact presentation products with offset or digital printing. This printing option is perfect for paper materials.

Screen print

With the capability to print vibrant colours on almost any material, screen printing is a great way to get your brand noticed. This popular technique works well with most of the materials we offer.

Foil stamp

Use this when you need a more expressive solution. With foil stamping, foil is transferred onto the material using a die made from your artwork. Metallic or matte foil and a range of colours let you tailor your image.

Emboss/Deboss

Create a raised or lowered impression directly on the printed piece. Embossing and debossing give an upscale appearance to almost any logo or type. Use it with screen printing or foil stamping for an even more elegant look.

Die cuts

Create information windows or other custom shapes. Die-cut solutions break through the clutter and make your materials more distinctive.

Ask your GBC representative for more information on other printing and production options.

Certificate and Diploma Holders

Manufactured with the same heavy gauge vinyl as our binders or cover stock of your choice, design a customized document holder exclusively for your school by incorporating your logo in the design. Choose from a wide variety of vinyl or cover stock colours and finishes to achieve your school's look of distinction.

Customize • screen print • offset • deboss • foil stamp • appliqué

Poly Binders

For superior strength and economical construction, consider GBC's 100% linear polyethylene binders. The poly material resists wear, won't warp or scratch over time and is environmentally friendly. The one-piece construction of a poly binder makes it durable, easy-to-clean and temperature resistant. Available in a variety of colours, thickness and ring metals to suit your requirements.

Customize • screen print • die-cut

Index Tabs

Custom index tabs are the solution for organizing large quantities of printed materials. Crisp offset or screen printing on paper or poly index tabs ensures that all the sections of your document are identified and understood. Available in a wide assortment of colours, stocks and sizes to meet your specifications. Add mylar reinforcement for outstanding durability.

New

Customized leatherette tabs with matching binders

Customize • screen print • offset • foil stamp • emboss • die-cut

Pocket Folders

Secure proposals, presentations or other important documents in an attractive and durable package. Quality construction and decoration techniques create a classic, professional look. Choose from a wide variety of colours, stocks and styles.

Customize • screen print • offset • foil stamp • emboss • die-cut

Customized Products

Cover sets and Therm-A-Bind

Maximize the impact of your presentations with custom designed cover sets from GBC. Customize your covers using your corporate colours and logo. Add foil stamping, embossing or special die cuts for a sophisticated, professional look. Choose from a wide selection of cover stocks and colours that are durable, attractive and can be beautifully decorated.

Customize • screen print • offset • foil stamp • emboss • die-cut

Combs (cerlox)

Imprint your company name, logo or corporate message on the spine of plastic bindings. Combine with custom cover sets to create a corporate standard for first-class, professional presentations, reports and proposals.

Customize • screen print • foil stamp

Presentation Cases

Market your materials cost-effectively with stylish graphics on durable polyethylene cases. Choose from a number of different handles and latches for convenient carrying and security. Complete your presentations with the comprehensive, professional look of custom packaging.

Customize • screen print • die-cut

EMA

Equipment Maintenance Agreements

SAVE MONEY AND PROTECT YOUR EQUIPMENT WITH GBC

What's included with Equipment Maintenance Agreements:

- Unlimited parts
- Unlimited travel to your location for repairs
- Unlimited labor costs from a factory trained service representative
- Priority phone response over non EMA service calls
- Scheduling priority over non EMA service
- Basic operator training
- No service lapse, you are contacted prior to expiration of EMA

Equipment Maintenance Agreements (EMAs) from GBC's Full Circle Service Team.

GBC provides service nationwide with over **50 Service Technicians** with a **95% satisfaction level**. Keep your equipment running at peak performance, whether you're buying it now or it's been running strong for years.

One price provides the **benefit of extended service coverage** – even if the product isn't manufactured by GBC.

Without protection, the cost to replace one key part could be more than the entire year of coverage.

Machines We Service

Unlimited Coverage

Investing in an Equipment Maintenance Agreement reduces your expenses and ensures the best possible protection for your equipment. One reasonable payment provides the benefit of unlimited service coverage. The labor and travel expenses of our Full Circle Service team members, as well as the cost of replacement parts, are all included in the original price of the service plan.

Product	*Estimated Typical Service Cost	1-Year Service Plan Cost	YOU SAVE
GBC ULTIMA 65	\$697.40	\$457.00	\$240.40
GBC MP2500IX	\$981.96	\$374.00	\$607.96
GBC SYSTEM 3 PRO-1	\$1,211.78	\$876.00	\$335.07
DUPLO DF-777	\$790.58	\$374.00	\$416.58

Multi-Year Maintenance Agreements

Save more by extending your Equipment Maintenance Agreement for up to five years. As the length of your agreement increases, so does your discount. A multi-year agreement not only protects your equipment in future years, but also allows you to lock in the current price.

Contract Length	1 Year	2 Years	3 Years	4 Years	5 Years
DISCOUNT	—	5%	8%	11%	13%
EMA rate if purchased with multi-year discount	\$100	\$95	\$92	\$89	\$87
Projected EMA rate if purchased annually*	\$100	\$102.50	\$105	\$107.50	\$110
Projected yearly savings	—	\$7.50	\$13	\$18.50	\$23
PROJECTED SAVINGS		7.3%	12.4%	17.2%	20.9%

Multi-Machine Maintenance Agreements

Further increase your savings by covering multiple products. With four or more machines placed under Equipment Maintenance Agreement, receive an **additional 10% discount for each machine.**
